**Austin Police Retirement System  
Investment Policy Statement**

**I. PURPOSE OF INVESTMENT POLICY STATEMENT**

The Board of Trustees (the "Board") maintains that an important determinant of future investment returns is the expression and periodic review of the Austin Police Retirement System (the "Plan") investment objectives. To that end, the Board has adopted this statement of investment policy and directs that it apply to all assets under its control. Based on the size of the Plan and frequency of meetings, the Investment Committee of the Board of Trustees (the "Investment Committee") will review the investments of the Plan and offer recommendations to the full Board regarding design and general administrative issues pertaining to the investments of the Plan.

In fulfilling their fiduciary responsibility, the Board recognizes that the Plan is an essential vehicle for providing income benefits to retired participants or their beneficiaries. The Board also recognizes that the obligations of the Plan are long-term and that the investment policy should be constructed with a view toward performance and return over a number of years. The general investment objective is to obtain a reasonable total rate of return - defined as interest and dividend income plus realized and unrealized capital gains or losses - commensurate with its fiduciary duties under Texas law and any other applicable statutes.

Reasonable consistency of return and protection of assets against the inroads of inflation is paramount. However, interest rate fluctuations and volatility of securities markets make it necessary to judge results within the context of several years rather than over short periods of five years or less.

The Board will employ investment professionals to oversee and invest the assets of the Plan. Within the parameters allowed in this document and their agreements with the Board, the investment management professionals shall have investment discretion over their mandates, including security selection, sector weightings and investment style.

The Board, in performing their investment duties, shall comply with Article 6243n-1 Vernon's Annotated Texas Civil Statutes, Article IX, Section 9.01 and other applicable Texas law.

## II. TARGET ALLOCATIONS

In order to provide for a diversified portfolio, the Board has engaged investment professional(s) to manage and administer the Plan. The Investment Manager(s) are responsible for the assets and allocation of their mandate only and may be provided an addendum to this policy with their specific performance objectives and investment criteria. The Board has established long term asset allocation targets and ranges for the total Plan which can be found in Attachment B of this document:

The Board, with assistance from the Investment Consultant, will monitor the aggregate asset allocation of the portfolio, and will rebalance to the target asset allocation based on market conditions. If at the end of any calendar quarter, the allocation of an asset class falls outside of its allowable range, barring extenuating circumstances such as pending cash flows or allocation levels viewed as temporary, the asset allocation will be rebalanced into the allowable range. To the extent possible, contributions and withdrawals from the portfolio will be executed proportionally based on the most current market values available and with reasonable notice provided to the Investment Managers. The Board does not intend to exercise short-term changes to the target allocation.
