**THE EMPLOYEES' RETIREMENT
SYSTEM OF THE CITY OF MILWAUKEE**

**- SECTION I -
STATEMENT OF INVESTMENT POLICY**

INTRODUCTION

The Employees' Retirement System of the City of Milwaukee (the "ERS") was established to provide for the present and future retirement, disability, and death and survivor benefit payments for all city and city agency employees. All of the funds of the retirement system taken in the aggregate constitute a special trust subject to applicable local, state, and federal laws, including but not limited to sections 36-15, 36-09-1, and 36-09-6 of the Milwaukee City Charter.

The Annuity and Pension Board (the "Board") is responsible for the operation of the retirement system and making effective the provisions of the Employees' Retirement Act. The Board consists of three members appointed by the President of the Common Council, the City Comptroller ex-officio, three members elected by the present members of the Employees' Retirement System and one member elected by the retired members of the Employees' Retirement System.

**RESPONSIBILITY OF THE ANNUITY AND PENSION BOARD OF THE
EMPLOYEES' RETIREMENT SYSTEM OF THE CITY OF MILWAUKEE**

The Board is the trustee of the funds in the retirement system. The Board must use reasonable care, skill and caution in selecting investment professionals. The Board is required to contract for management services. The Board must exercise prudence in selecting Investment Managers, but the exercise of prudence does not relieve the Board of all responsibilities. The responsibilities of the Board relating to the investment management of Fund assets include:

1. Establishing written investment objectives and guidelines governing the investment of Fund assets.
2. Using reasonable care, skill and caution in selecting investment professionals.
3. Determining the Fund's liquidity requirements, investment horizon and risk tolerance and communicating these to the appropriate parties.
4. Evaluating the performance of Investment Manager(s) and other qualified investment professionals on a systematic and regularly scheduled basis.
5. The Board and a person under contract to the ERS who invests and manages trust assets has a duty to comply with the prudent investor rule, s. 36-09-1-d and sub-unites thereof.

SCOPE OF THIS STATEMENT OF INVESTMENT POLICY

This Statement of Investment Policy reflects the investment policy, objectives, and constraints of the Employees' Retirement System of the City of Milwaukee ("ERS").

PURPOSE OF THIS STATEMENT OF INVESTMENT POLICY

This Statement of Investment Policy is set forth by the Board of the City of Milwaukee ERS in order to:

1. Define and assign the responsibilities of all involved parties.
2. Establish specific asset allocation and rebalancing procedures.
3. Establish a clear understanding for all parties of the investment goals and objectives of Fund assets.
4. Provide specific guidelines and define limitations for all Investment Managers regarding the investment of Fund assets.
5. Establish a basis for evaluating investment results.
6. Establish a framework for further review and revision of this policy.

This policy statement is designed to allow for sufficient flexibility in the management oversight process to capture investment opportunities as they may occur, while setting forth reasonable parameters to ensure prudence and care in the execution of the investment program.

DUTIES OF FIDUCIARIES

Each member of the Board of the City of Milwaukee ERS is a fiduciary. The Investment Managers are also fiduciaries.

The Board and a person under contract to the ERS to invest and manage trust assets shall invest and manage assets as a prudent investor would by considering the purposes, terms, distribution requirements and other circumstances of the trust. In satisfying this standard, the Board and such person shall exercise reasonable care, skill and caution. Investment and management decisions respecting individual investment assets must be evaluated not in isolation, but in the context of the trust portfolio as a whole and as part of an overall investment strategy having risk and return objectives reasonably suited to the trust. A reasonable effort shall be made to verify facts relevant to the investment and management of trust assets. Assets may be invested in any kind of property or type of investment consistent with the standards set forth in the Employees' Retirement Act and the Board guidelines. A Board member or a person under contract to the ERS who invests and manages trust assets who has special skills or expertise or is named in reliance upon his or her representation that he or she has special skills or expertise has a duty to use those special skills or expertise.

To fulfill such responsibilities, the Trustees are authorized and in the case of Investment Managers, required to retain professional experts including but not limited to:

1. **Staff:** The Retirement Staff ("Staff"), as designated by the Board is the agent of the Board. The Board does not delegate investment management responsibility through the use of its Staff. Staff duties include:
 - A. Monitoring Investment Managers for adherence to policies and guidelines.
 - B. Evaluating and managing the relationships with the Investment Consultant to ensure they are providing all necessary assistance to Staff and the Board as agreed to in service contracts.
 - C. Monitoring the Investment Consultant's manager search process, and conducting due diligence on any Investment Manager selected for hire by the Investment Committee that was considered and recommended to ERS by its Investment Consultant.
 - D. Identifying Investment Managers to withdraw funds from, and taking actions necessary to raise cash from the identified Investment Managers to pay Fund benefits, Fund expenses, and Fund capital call commitments, as necessary. Given there are many factors that are considered when deciding how much money to withdraw from Investment Managers at a given time, Staff retains discretion in its implementation of raising funds from Investment Managers. That said, Staff will strive to minimize the subjectivity involved in raising funds by implementing a process that works within the framework of the target allocations stated within the Investment Policy, the Asset Allocation memo dated September 2, 2021, and each asset allocation's respective structure. Staff will include a report on cash activity at the regularly scheduled Board meetings.
 - E. In the rare instance when the Fund has a cash-flow positive month (i.e. contributions are greater than cash outflows), Staff may deposit funds into Investment Managers if their strategy is below the target allocation approved within each asset allocation's respective structure or the Asset Allocation memo dated September 2, 2021. Staff will include a report on cash activity at the regularly scheduled Board meetings.
 - F. Restructuring the portfolio following manager terminations with the assistance of its Investment Consultant and Investment Manager(s).
 - G. Organizing and/or participating in any special research required to manage the Fund more effectively and in response to any questions raised by the Board.
 - H. Supporting the Board in the development and approval of the Investment Policy Statement, implementing the Policy Statement and reporting at least monthly on investment activity and matters of significance.
 - I. Ensuring the Investment Managers conform to the terms of their contracts and that performance monitoring systems are sufficient to provide the Board with timely, accurate and useful information.

- J. Performing on-site (or video conference, when conditions do not allow for travel) due diligence meetings with ERS Investment Managers every two years or as required by the Board in accordance with Board Rules and Regulations section – Duties of the Chief Investment Officer.
- K. With the advice of the City Attorney's Office, and outside legal counsel when the City Attorney's Office deems necessary, approve and execute ministerial Private Real Estate and Private Equity contract amendments, pursuant to MCO 36-09-1(d5), under the following conditions:
- Use of delegated authority must be consistent with any Real Estate and Private Equity investment plan or strategy approved or adopted by the Board. For the avoidance of doubt, the prudent manner may not always be the quickest manner. Specific to Private Real Estate only, the use of delegated authority must be consistent with the philosophy that CMERS' ultimate goal is to transition its Real Estate portfolio to 4-5 commingled, open-end fund managers in a prudent manner;
 - Delegated authority may not be used to execute any contract amendments that may be reviewed and executed within the confines of the regular Board schedule;
 - Delegated authority cannot be used to execute legal documents for a new Real Estate or new Private Equity vehicle;
 - Delegated authority cannot be used to agree to terms that are more disadvantageous than what's already included in the existing agreement (with the exception of term extensions mentioned in the next bullet point);
 - Staff may not use delegated authority against the advice of CMERS' Investment Consultant or the City Attorney's Office;
 - Staff or the City Attorney's Office will report to the Board, at the next Board meeting when possible, on actions taken under this plan (including fees);
 - CMERS Executive Director may sign amendments executed under this delegation of authority on behalf of the Board;
 - Board may revoke the delegated authority at any time.

2. **Investment Consultant:** The Investment Consultant is an advisor to the Board retained to provide investment management advice and a fiduciary for the purposes of the duties assumed under the Consulting Services Agreement. The Investment Consultant will provide investment management advice concerning the investment management of fund assets. Specific responsibilities of the Investment Consultant include:
- A. Assisting in the development and periodic review of investment policy.
 - B. Conducting Investment Manager searches as authorized by the Board.
 - C. Providing "due diligence" reports or research on each of the Fund's Investment Managers.
 - D. Monitoring the performance of the Investment Managers to provide the Board with the ability to determine progress toward the investment objectives.
 - E. Communicating advice on matters of policy, manager research, and manager performance to the Board.
 - F. Reviewing Fund investment history, historical capital markets' performance and the contents of this Statement of Investment Policy with all Trustees when necessary.
 - G. Providing topical research and education on investment subjects that are relevant to the Fund.
 - H. Providing asset/liability allocation review and specific recommendations as appropriate.
 - I. Communicating with all investment related professionals retained by the Fund as required or prudent.
 - J. Reviewing all contracts between the Fund and all Investment Managers and providing summary of suggested changes.

3. **Investment Managers:** The Board must contract for investment management but exercise discretion in selection of Investment Managers. When selecting Investment Managers, the Board shall only consider Investment Managers recommended to ERS by its Investment Consultant. The Board may contract with Investment Managers based on an evaluation of their investment philosophy, performance and ability to complement existing portfolio styles. The Board requires any Investment Manager recommended by its Investment Consultant to disclose to ERS whether or not they utilize a placement agent. The Board delegates fiduciary responsibility to Investment Managers through Investment Manager agreements and Board guidelines. The Investment Manager acknowledges that it is a fiduciary of ERS with respect to the investment and management of the Assets. In performing its delegated functions, the Investment Manager owes a duty to the trust to exercise reasonable care to comply with the terms of the delegations as set forth in Chapter 36 of the City Charter, 36-09-1-d, 1-d-1, 1-d-3, 1-d-4 and the Board guidelines. City Charter 36-09-1d through d-8, as of July 27, 2010, are attached as an addendum.

Each specific manager must manage Fund assets according to their role as stated in the guidelines of this Investment Policy and contracted with the Board. No deviation from this discipline is authorized unless first discussed with the Board and its Investment Consultant and written approval issued. If ERS assets are invested in collective investment funds maintained by an Investment Manager, the plan and/or trust document with respect to such collective investment funds shall be part of the guidelines and controlling in the event of a conflict with any other provision of the guidelines.

This Statement of Investment Policy communicates policies regarding the current asset allocation strategies for the assets and the duties and obligations of Investment Managers. Each Investment Manager has full discretion to make all investment decisions for the assets placed under its jurisdiction, while observing and operating within all policies, guidelines, constraints and philosophies as outlined in this Statement.

Each Investment Manager is required to manage assets as a prudent investor in accordance with s. 36-09-1-d of the Charter and sub-units thereof.

Specific responsibilities of the Investment Managers are specified in the Investment Management Agreement and Board guidelines and generally include:

- A. Exercise discretionary investment authority including decisions to buy, sell, or hold individual securities within the guidelines established in this Statement. An Investment Manager has a fiduciary duty under federal securities laws to allocate securities fairly among its various accounts. The ERS will be provided a copy of the Investment Manager's trade allocation policy and procedures and will be advised, in writing, of changes to the policy and the potential impacts on ERS' account.
- B. Communicate in a timely manner any significant changes regarding economic outlook, investment strategy, or any other factors which may have an impact upon the achievement of the Fund's investment objectives.

- C. Inform the Board regarding changes within the investment management organization within a timely manner (3 days): Examples include but are not limited to: changes in lead personnel assigned to manage the account and or other significant changes including ownership, ownership structure, investment philosophy.
 - D. Inform ERS of any significant asset value lost within 30 days due to termination or withdrawal. Significant asset value is indicated by 15% of the institutional assets under management in the strategy or 10% of the institutional assets under management of the firm.
 - E. Subject to such guidelines as the ERS' Board may from time to time establish, vote all proxies for securities held for the Fund so long as in the Manager's belief the result of the ballot would serve to increase the value of the investment or otherwise benefit the Fund. For additional details, refer to Section VIII, Proxy Voting Guidelines.
 - F. Provide timely reporting of investment activities. Each Investment Manager shall provide reports to the Board as outlined in Section VII.
 - G. Maintain records of security buy and sell transactions in accordance with the records retention schedules and practices of the Fund's custodian.
 - H. Meet with the Board on an as needed basis.
4. **Custodian:** The Custodian acts in a ministerial capacity, which means that the Custodian does not assume fiduciary responsibility except as specified in the Custodial Agreement.

In addition, the Custodian will conduct the following responsibilities:

- A. Perform regular accounting of all assets owned, purchased, or sold, as well as monitor the movement of assets into and out of the Fund accounts.
 - B. Provide assistance to the Fund to complete activities including, but not limited to, annual audits and transaction verifications.
 - C. If directed by the Board, manage a short-term income fund for investment of any cash not invested by managers.
 - D. The Custodian, if directed by the Board, will manage the securities lending program.
5. **Additional Professionals:** Additional Professionals, including but not limited to attorneys, actuaries and auditors may be retained by the Board as necessary to assist toward the prudent administration of the Fund.

**- SECTION II -
INVESTMENT GOALS AND OBJECTIVES**

The overall investment goal is to provide participants with retirement, disability and death and survivor benefits. The purpose of the Fund establishing an investment policy is to obtain the highest return possible on Fund investments within corresponding acceptable levels of minimum investment risk and liquidity requirements in recognition of prudent person standards and compliance with applicable local, state, and federal laws governing the operation and activities of the Fund. In particular, the Fund is bound by the City of Milwaukee Charter Chapter 36.

FUNDING LEVELS AND LIQUIDITY REQUIREMENTS

The Board seeks to keep Plan benefits as well funded as possible at all times. Additionally, the Board wishes to remain as fully invested as possible at all times, while maintaining appropriate liquidity. Generally, the Fund will maintain enough liquidity to meet one month of payments and expenses.

ASSET ALLOCATION CONSIDERATIONS

The Board implements an asset allocation policy that is predicated on a number of factors, including:

1. A projection of actuarial assets, liabilities, and benefit payments and the cost of contributions;
2. Historical and expected long-term capital market risk and return behavior;
3. An assessment of future economic conditions, including inflation and interest rate levels; and
4. The current and projected funding status

The asset allocation policy provides for diversification of assets in an effort to maximize the Fund's investment return consistent with market conditions. Asset allocation modeling identifies asset classes that the Board will utilize and the percentage that each asset class represents of the total Fund. Due to fluctuations in market values, positioning within a specific range is acceptable and constitutes compliance with the policy. It is anticipated that periodic revisions to the policy may occur and implementing such changes may require an extended period of time.

The Board's asset allocation policy is summarized on the following page. The Board, Staff and Investment Consultant will monitor and assess the actual asset allocation versus the policy and will evaluate any deviation deemed significant.

The Board will implement the asset allocation policy through the use of external Investment Managers. Assets will be invested subject to guidelines incorporated into individual investment management agreements (see SECTION VI - SPECIFIC OBJECTIVES AND GUIDELINES FOR MANAGED PORTFOLIOS).

TARGET ALLOCATIONS

The Board has determined that the following asset allocation policy is appropriate for the Fund. This allocation policy will be reviewed periodically and may be modified, if appropriate, in light of changes in the structure or goals of the Fund. The following asset allocation policy reflects interim Maximum and Minimum ranges for the Fixed Income and Absolute Return allocations, respectively, that were approved by the Board at its September 2021 meeting. For Real Assets, the target weights below reflect what Callan used in its 2020 ALM Study.

REBALANCING PROCEDURES

The Fund routinely needs cash for payroll or other expenses, has cash flows to and from real estate investments, has cash flows to private equity investments or has other cash needs as approved by the Board, required by a court order or required by a governmental body. Cash needs and investment experience may take the Fund outside of the established asset allocation range, requiring rebalancing activity.

In order to maintain the established target asset allocation, the Fund will implement a systematic rebalancing procedure. As determined necessary given significant cash flows or market movements, the Fund will develop and execute a rebalancing plan. To limit the amount of required liquidations and associated transaction costs, the Fund will look to rebalance concurrently with liquidity requirements of the Fund. The Staff, in consultation with the Investment Consultant, will retain discretion regarding rebalancing issues.

Based on the established ranges set forth above, Staff will determine what, if any, rebalancing activity is required. If Staff deems rebalancing to be necessary, they will provide the Investment Consultant with written recommendations from which Staff and Investment Consultant will develop a mutually agreed upon rebalancing plan. Staff will be responsible for executing all rebalancing activity.

TRANSITION MANAGER PROCEDURES

The Fund at times may need to utilize the assistance of a transition manager. The Staff working with its Investment Consultant will develop a transition manager panel, with final approval from the Board. Transition managers may be used, but not limited to, the following:

- Rebalancing between asset classes to achieve the asset allocation target policy objectives
- Terminating and funding new asset managers

If Staff and the Investment Consultant deems hiring a transition manager to be necessary, they will work to develop a mutually agreed upon transition plan. Staff will retain discretion regarding transition issues and will be responsible for executing all transition manager activity. Staff will be responsible for providing an update to the Board on all transition issues.

**- SECTION III -
GUIDELINES FOR ACTIVELY MANAGED FUND ASSETS**

Each Investment Manager within the Fund will be chosen for a specific discipline and will be required to adhere to these general investment guidelines.

1. **Risk Aversion:** Investment Managers are to make reasonable efforts to control risk and will be evaluated regularly to ensure that the return of the portfolio under management is commensurate with the level of risk that is assumed within any given discipline.
2. **Fully Invested:** The Board has adopted a long term Asset Allocation Policy and grants Investment Managers discretion over assets within the portfolios they manage. The Board has set specific guidelines concerning the allowable levels of cash that may be maintained in each actively managed portfolio (Section VI). The Board will closely monitor the use of cash by any manager. If a manager believes that a change in its specific guideline is in the interest of the Fund, the manager should bring this recommendation immediately to the attention of the Board.
3. **Investment Discipline Objectives:** Each separately managed portfolio will have specific guidelines and objectives established by the Board. Investment Managers are expected to adhere to the investment discipline for which they were hired. Managers will be evaluated for adherence to their stated investment discipline.

Specific investment goals and constraints for each Investment Manager shall be incorporated as part of this Statement in Section VI: SPECIFIC OBJECTIVES FOR INDIVIDUALLY MANAGED PORTFOLIOS. Each manager shall receive a written statement outlining specific goals and constraints as approved by the City of Milwaukee Retirement System.

The goal of each Investment Manager, over the investment horizon, shall be to:

- A. Exceed the market index, or blended market index, selected and agreed upon by the Board that most closely corresponds to its style of investment management.
- B. Display an overall level of risk in the portfolio that is consistent with the risk associated with the benchmark specified.

The Investment Managers are charged with the responsibility of maintaining their portfolios in compliance with the investment guidelines. The Investment Manager is expected to identify policy items that may have an adverse impact on performance and to initiate discussion with the Staff regarding possible modification of such policies. Under no circumstances shall an Investment Manager take an action that causes the portfolio to be in conflict with the guidelines without prior written consent of the Board. If there is a deviation from the guidelines because of an Investment Manager's action, the manager will be reviewed by the Board at the next meeting following notification of the deviation. If there is a deviation from the guidelines because of a change in the market value of an Investment Manager's portfolio or a particular holding, or a change in quality rating of a particular holding, the Investment

Manager shall take action that is prudent and appropriate to the intended purpose of the portfolio. If for any reason a portfolio deviates from the guidelines, the Investment Manager is responsible for reporting the deviation from the guidelines to the Board and its Investment Consultant in writing within 3 business days of when the deviation occurred. The Investment Manager is required to give this notice even if they have taken immediate action to correct the deviation. The Investment Manager will explain the deviation from the guidelines and suggest appropriate action. Within 30 days after receiving notification of a deviation from the investment policy guidelines, the Board will respond to the manager's recommendation and will direct appropriate action. Depending upon the circumstances, the consequences of deviating from the investment policy guidelines could range from an Investment Manager merely explaining what caused the deviation to occur, to the manager's termination.

4. **Commingled Funds:** In circumstances where the Fund is invested in a commingled vehicle, the Investment Manager will be held to the investment performance standards and guidelines set forth in the goals and guidelines of the commingled vehicle. For voting of proxies, commingled fund managers will use their master trust agreement proxy voting policy standards, however, reporting of proxy voting activity will be in accordance with ERS' policy. Brokerage decisions, including commission recapture, will be made according to the master trust document of the commingled investment vehicle.
5. **Brokerage and Execution of Transactions:** Investment Managers with authority over fund assets must use sound professional judgment in conducting each transaction to obtain the best possible unit price and terms of execution and to work in the best interest of the Fund.

Additionally, the Fund may utilize commissions generated on securities to obtain performance evaluation and other investment related services and benefits for the Fund.

(Please see Section IX: POLICY AND GUIDELINES FOR BROKERAGE SERVICES)

- SECTION IV -
SELECTION AND REVIEW OF INVESTMENT MANAGERS

The Board of Trustees must use reasonable care, skill and caution in selecting the Investment Managers, establishing the scope and terms of the obligations of fiduciary responsibility and periodically reviewing the Investment Manager's actions in order to monitor performance in conjunction with the terms of the delegation. When selecting Investment Managers, the Board shall only consider Investment Managers recommended to ERS by its Investment Consultant that have disclosed whether or not they utilize a placement agent. The Board may contract with Investment Managers based on an evaluation of their investment philosophy, performance and ability to complement existing portfolio styles. The Investment Manager has a duty to the Board to exercise reasonable care to comply with the terms of the delegations. All Investment Managers must:

1. Provide the Board with a written agreement to invest within the guidelines established in the Investment Policy Statement.
2. Provide the Board with proof of liability and fiduciary insurance coverage.
3. Be a registered investment advisor or a "bank" exempt from registration under the Investment Advisers Act of 1940, and be recognized as demonstrating experience over a number of years in the management of institutional, tax-exempt assets within a defined investment capacity.
4. Adhere to investment style, concepts and principles for which they were retained, including, but not limited to, developing portfolio strategy, conducting research, constructing buy, sell, and hold lists and purchasing and selling securities.
5. Offer services in exchange for fees that are competitive with industry standards for the product category.
6. Execute all transactions for the benefit of the Fund with brokers and dealers qualified to execute institutional orders on an ongoing basis at the best net cost to the Fund. For additional details, refer to Section IX: POLICY AND GUIDELINES FOR BROKERAGE SERVICES.
7. Reconcile monthly accounting, transaction, and asset summary with custodian valuations, report separately on gains and losses on sales, and communicate and resolve any significant discrepancies. The month-end custodian valuations will be used to calculate rates of return for performance-reporting purposes and manager fee calculations.
8. Maintain frequent and open communication with the Board and its Staff on all significant matters, including but not limited to changes in the Investment Manager's outlook, strategy, and portfolio structure, changes in ownership, structure, any changes involving key decision makers and significant client losses.

INVESTMENT MANAGER PERFORMANCE REVIEW AND EVALUATION

Performance reports generated by its Investment Consultant and Custodian shall be compiled quarterly and communicated to the Board for review. The investment return of total portfolios, as well as asset class components, will be measured against performance benchmarks, appropriate for each portfolio, as adopted by the Board. Consideration shall be given to the extent to which the investment results are consistent with the investment objectives, goals and guidelines as set forth in this Statement. The Board reserves the right to terminate a manager at its discretion for any reason including, but not limited to, the following:

1. Investment performance that is significantly less than anticipated given the discipline employed and the risk parameters established, or unacceptable justification of poor results.
2. Failure to adhere to any aspect of this Statement of Investment Policy, including communication and reporting requirements.
3. Significant changes to the investment management organization, including but not limited to loss of key personnel.
4. Evidence of illegal or unethical behavior by the investment management firm.
5. Lack of willingness to cooperate with reasonable requests by the Board and/or Staff for information, meetings, or other material related to its portfolios.
6. Loss of confidence by the Board in the Investment Manager.
7. A change in the Fund's asset allocation program that necessitates a shift of assets to another sector or asset class.

Investment Managers shall be reviewed regularly regarding performance, personnel, strategy, research capabilities, organizational and business matters and other factors that may impact their ability to achieve the desired investment results.

**- SECTION V -
DEFINITIONS**

1. **"The Fund"** shall mean the Employees' Retirement System of the City of Milwaukee Fund.
2. **"Annuity and Pension Board"** shall refer to the governing Board of Trustees established to administer the Fund as specified by applicable ordinance.
3. **"Fiduciary"** shall mean any entity or person who exercises any discretionary authority or discretionary control respecting management of the Fund or exercises any authority or control respecting management or disposition of the Fund's assets, or renders investment advice for a fee or other compensation, direct or indirect, with respect to monies or property of the Fund, or has any discretionary authority or responsibility in the administration of the Fund.
4. **"Investment Consultant"** shall mean any entity or person employed to provide advisory services, including advice on investment objective and/or asset allocation, manager search, and performance monitoring.
5. **"Investment Manager"** shall mean any individual, or group of individuals, employed to manage the investment of Fund assets.
6. **"Broker-Dealer"** shall mean any entity or person in the business of effecting securities transactions for its own account and/or of others and registered as such with the Securities and Exchange Commission and a member of the National Association of Securities Dealers, Inc.
7. **"Market Cycle"** shall be a time period that includes a significant market decline from peak to trough and a sustained market increase significantly above the previous peak. Within the stock and bond markets, a complete cycle usually has a span of 4 to 6 years but can be shorter or longer. Observing performance over a market cycle allows the Board to analyze the results without biasing the results in favor of managers that might outperform during certain sub-periods. If a market cycle should take place within a shorter time period, additional time may still be needed to assess the value added of the manager.

CONCLUSION

This Statement is a working document structured to accomplish long term and short term planning. Investment Managers and other fiduciaries are invited to contact the Fund or its Investment Consultant with any questions about the interpretation or application of any provisions. This Statement of Investment Policy will be reviewed annually. All changes will be communicated to all appropriate parties in writing.

ACCOUNT SPECIFIC INVESTMENT GUIDELINES

Investment Approach

The investment objective of the Account is to achieve long-term capital appreciation. The Manager's investment approach for the Account is to capture the return and diversification benefits of securities of large U.S. companies, as determined from time to time by the Manager, that the Manager determines to be value stocks and anticipates a weighted average total market capitalization generally lower than the benchmark. The Manager does not provide any guarantee with regard to the performance of the Account or that any investment objective will be successfully achieved.

Benchmark

Russell 1000 Value Index

Authorized Investments

- The Account may invest in any of the following:
 - Common Stocks, preferred stocks, convertible securities, warrants, rights and other securities with equity characteristics, as determined by the Manager
 - Depository receipts including "ADRs", "EDRs", "NVDRs" and "GDRs" (whether the underlying company is listed or unlisted) and foreign listings
 - Futures contracts and options on futures contracts for U.S equity securities and indices. These contracts may be used to adjust market exposure based on actual or expected cash inflows to or outflows from the Account. The Account does not intend to sell futures contracts to establish short positions in individual securities or to use derivatives for purposes of speculation or leveraging investment returns.
 - Participation notes
 - Real estate investment trusts ("REITs")
 - Exchange Traded Funds ("ETFs")
 - Securities received in connection with corporate actions from time to time
 - Cash and cash equivalents

Investment Guidelines

- Appropriate investments consist of authorized investments as noted above.
- At time of purchase, investment in any one company should not exceed 5% of the Account.

- At time of purchase, investments in any one industry as defined by 6-digit GIC should not exceed 25% of the value of the Account's total assets.
- The Manager is expected to maintain an invested position with no more than 10% of the Account invested in fixed income, cash or cash equivalents, except after cash inflows or prior to expected outflows.
- Under normal circumstances, at least 80% of the Account will be invested in securities of large cap U.S. companies.
- Under normal circumstances, the weighted average total market capitalization of the Account should not exceed 150% of the weighted average total market capitalization of the Russell 1000 Value Index.

Additional Considerations

The Manager may consider a company's size, value, and/or profitability relative to other eligible companies when making investment decisions for the Account. The Manager may adjust the representation in the Account of an eligible company, or exclude a company, after considering such factors as free float, momentum, trading strategies, liquidity, profitability, and other factors that the Manager determines to be appropriate, given market conditions. Securities are considered value stocks primarily because a company's shares have a high book value in relation to their market value. In assessing profitability, the Manager may consider different ratios, such as that of earnings or profits from operations relative to book value or assets. The criteria the Manager uses for assessing value or profitability are subject to change from time to time.

AQR Emerging Equities Fund, L.P. (the "Fund") is not subject to the investment objectives and guidelines contained in this Investment Policy. The operative investment objective and guidelines of the Fund are set forth in the governing documents and the Confidential Private Placement Memorandum of the Fund ("PPM"). Notwithstanding, the Manager has informed ERS that as of the date of ERS' initial investment, the investment objectives and guidelines set forth below are consistent with the operative investment objectives and guidelines of the Fund. The Manager has further informed ERS that the investment guidelines and objectives of the Fund are subject to change.

Investment Objectives

Time Horizon	Performance Standard <u>Index</u>
Less than one market cycle (rolling 3-year periods).	
One market cycle (rolling 5- year periods).	Exceed (after fees) the MSCI Emerging Markets Index by 200 basis points annually.

Investment Guidelines

- ERS will invest in the AQR Emerging Equities Fund, L.P., a commingled fund. Therefore, ERS' investment is subject to the terms and provisions of the governing documents for the Fund, such as the objectives and guidelines as outlined in the governing documents and PPM.

Current Investment Policy

- This Fund seeks to add value by employing a disciplined approach emphasizing both bottom-up security selection decisions and top-down country/currency allocation.
- This Fund intends to utilize a set of valuation, momentum and economic factors to generate an investment portfolio based on asset allocation models and security selection procedures aimed at assisting the Fund in meeting its investment objective.
- This Fund generally will be managed by both underweighting and overweighting securities, countries and currencies relative to the Benchmark; however, the Fund has the ability to trade in securities of issuers in countries and currencies not included in the benchmark.
- This Fund will invest primarily in equity and equity-related securities and currency forwards.

- The Investment Manager is not restricted as to the percentage of the Fund's assets that may be invested in any particular issuer, industry, instrument, market or strategy. The Fund does not and will not maintain any fixed limits, guidelines or requirements for diversifying its portfolio among strategies, issuers, industries, instruments, markets or sectors. However, as of the date of this document, typical maximum deviations are as follows: stock selection, +/- 2.5%; sector selection, +/- 5.5%; country selection, +/- 10%; and currency selection, +/- 15%.

- Permissible Investments include the following:

These include, but are not limited to, the instruments identified in the general description of each investment strategy employed by the Fund in the PPM. AQR may, at any time, discontinue using any of these financial instruments or may add additional financial instruments.

- The Fund will use leverage as part of the investment program. Leverage may take the form of, among other things, financial instruments including, without limitation, derivative instruments which are inherently leveraged and products with embedded leverage such as options, short sales, swaps and forwards. The Fund generally will not be economically leveraged. Economic leverage occurs when the total value of equity securities held long, plus the notional market value of equity derivatives held long, minus the notional market value of equity derivatives held short, is greater than 100% of the total market value of the Fund.

The representations of the Manager are made solely as of the date of ERS' initial investment in the Fund and solely with respect to the current version of this Investment Policy. For avoidance of doubt, the Manager expressly disclaims any amendment or revision of this Investment Policy.

Fund: Principal Diversified Real Asset CIT (“Principal DRA CIT”)
Manager: Principal Global Investors Trust
Role: Real Assets Strategy

Objectives and Guidelines

Investment Objectives

Time Horizon	Market Cycle approximately 3-5 years
Performance Standard	3-5% over CPI over a market cycle
Index	Custom Index: 35% Barclays U.S. TIPS Index 20% S&P Global Infrastructure Index 20% S&P Global Natural Resources Index 15% Bloomberg Commodity Total Return Index 10% FTSE EPRA/NAREIT Developed Market Index

Investment Guidelines

The Principal DRA CIT is a collective investment trust for which Principal Global Investors Trust Company (f/k/a Union Bond & Trust Company) (“Trust Company”), an Oregon banking corporation acts as Trustee (the “Trustee”) pursuant to the Declaration of Trust as may be amended from time to time. The Principal DRA CIT is only available to certain retirement, pension, profit sharing, stock bonus and similar plans and their individual participants. The Trust Company has retained Principal Global Investors, LLC (“PGI”) to serve as the investment advisor for the Principal DRA CIT. PGI is an affiliate of the Trust Company.

Objective: The investment objective of the Principal DRA CIT is to seek a long-term total return in excess of CPI by 3-5%.

Main Strategies and Risks

The Principal DRA CIT seeks to achieve its investment objective by allocating its assets among numerous investment categories including, but not limited to the following: inflation-indexed bonds, securities of real estate companies, commodity futures, fixed-income securities, foreign currency, securities of natural resource companies, master limited partnership (“MLPs”), publicly-listed infrastructure companies, floating rate debt, securities of global agriculture companies, and securities of global timber companies. The Principal DRA CIT is allowed to utilize derivative instruments.

The Trustee, as authorized in the Declaration of Trust, has hired PGI to serve as investment advisor for the Principal DRA CIT. PGI develops recommendations for the Principal DRA CIT's strategic asset allocation, which are executed by multiple sub-advisors. The allocations will vary from time to time and the Principal DRA CIT may add additional investment

categories.

In recommending strategic allocations and sub-advisors to implement the allocations, PGI considers, among other things, quantitative measures, such as past performance, expected levels of risk and returns, expense levels, diversification of existing funds, and style consistency. In addition, qualitative factors such as organizational stability, investment experience, consistency of investment process, risk management processes, and information, trading, and compliance systems of the underlying investment option's sub-advisor are also evaluated. The Trustee considers the recommendations provided by PGI and determines whether to use cash flows or asset transfers or both to achieve the target weights established from time to time for underlying investment options.

Trustee makes this representation solely as of the date of The Employees' Retirement System of the City of Milwaukee ("ERS") initial investment in the collective investment trust and solely with respect to the current version of this Investment Policy. For avoidance of doubt, Trustee expressly disclaims any amendment or revision of this Investment Policy.

Strategies and Anticipated Allocation Ranges

Equity Hedged: (0-50%)

- The Fund will retain flexibility to invest in managers who may exhibit either long or short bias to risky assets depending on market environment provided downside risk is seen to be adequately restrained. Sub-strategies currently include: Fundamental and Equity Event.

13F Strategy: (0-5%)

- The Fund is permitted to invest in a Portfolio Fund managed by the Investment Manager which pursues the Investment Manager's "13F Strategy," an equity trading strategy that seeks to replicate the aggregate performance characteristics of a portfolio of equity securities held by a select number of Submanagers which have listed them on their respective filings under SEC Form 13F. The 13F Strategy shall be considered a subset of Equity Hedged such that the allocation range for the 13F Strategy and Equity Hedge together shall be (0-50%).

Credit / Income (0-50%)

- Credit: These strategies in aggregate are subject to a guideline of no more than 50% of the total portfolio. The Fund will retain flexibility to invest in managers who may exhibit either long or short bias to risky assets depending on market environment provided downside risk is seen to be adequately restrained.

- Sub-strategies currently include: Distressed, Corporate Long/Short, Structured Products and will not exceed 40% of the total portfolio.
- Income: The Fund will retain flexibility to invest in managers that participate in reinsurance strategies. Reinsurance strategies will not exceed 10% of the portfolio.

Relative Value: (0-60%)

- The Fund is permitted to invest in all Relative Value strategies, including: Quantitative Equity, Merger Arbitrage, Capital Structure/Volatility Arbitrage, Fixed Income Relative Value (FIRV), and Agency MBS.

Trading: (0-40%)

- The Fund is permitted to invest in all Trading strategies, including Global Macro, Commodities and Systematic CTAs. Sub-strategies currently include: Systematic, Global Macro, Commodities.

Other: (0-10%)

- This category contains investment approaches that are outside of the mainstream hedge fund strategies (Equity Hedged, Credit, Relative Value, and Trading). The category includes other alternative strategies, such as tactical asset allocation/risk parity, private equity, and real estate dealings, as well as new niche investment approaches that do not fit into any of the other mainstream strategies.

Multi-Strategy:

- The Fund is permitted to invest in Multi-Strategy managers, which include allocations to a combination of strategies. These offerings are often the result of commonalties in the research and trading talent required for successful execution of the strategies. These funds allocate capital opportunistically among strategies believed to offer a suitable risk-adjusted return profile going forward.
- Applicable guidelines for multi-strategy managers will be monitored on a look-through basis to the underlying Strategies and will count toward the specified limits above.

Investments in Portfolio Funds Managed by Affiliates of the Investment Manager

Investments in Portfolio Funds managed by affiliates of the Investment Manager will be capped at 20% and would be limited to Customized Baskets ("CBs"), Managed Accounts ("MAs") or other Special Purpose Vehicles ("SPVs") where the Investment Manager may seek to attain certain exposures pursuant to the investment objectives of the Fund and where such exposure may otherwise not be accessible to the Fund. In the event such investments are implemented, the Investment Manager will not charge the Fund additional management fees or performance fees within the CBs, MAs or SPVs. Aside from such investments in CBs, MAs or SPVs, no investments will be made to UBS affiliates (e.g. O'Connor).

Diversification

The Investment Manager will determine the appropriate number of Portfolio Funds in its sole discretion. However, the number will typically range between 15-39 Portfolio Funds, excluding co-investments, unless otherwise agreed by the Fund.

Liquidity Considerations

The Investment Manager will seek to invest in Portfolio Funds with a mix of different liquidity profiles. However, the Investment Manager will seek to maintain:

- At least 70% of the net asset value of the Fund to be allocated to Portfolio Funds with stated liquidity terms (with penalties) that allow for redemption within 1 year.
- Up to 30% of the net asset value of the Fund may be allocated to Portfolio Funds with stated liquidity terms that allow for redemption greater than a 1 year hard lock up. Up to 1/3 of these Portfolio Funds (approximately 10% of the Fund) may have a hard lock up of greater than 2 years, but no more than 3 years unless they fall into the category of Portfolio Funds with no predefined redemption period. The latter shall also fall inside the 10% limitation.
- An investor gate can cause a position to fall into multiple liquidity buckets. For example, a 1/8th quarterly liquidity fund would have 50% of its position in the "within 1 year " bucket and the remainder in the "greater than 1 year bucket", none of which would fall into the greater than 2 year bucket.

The above terms do not include audit withholds imposed by Portfolio Funds. The Fund acknowledges and understands that disbursements of any withheld amounts could take between 12 and 18 months to receive and will not be counted toward the above liquidity considerations.

From time to time, a manager may segregate certain securities from its Portfolio Fund and establish a "side pocket" structure and/or share class, which may have less liquid characteristics. The Investment Manager will attempt to limit the Fund's exposure to side pocket holdings. However, the ultimate side pocket exposure will be at the discretion of the each underlying manager.

Leverage

The Investment Manager does not expect to employ leverage above and beyond what may be undertaken by the underlying Portfolio Funds. The Fund indicated it is able to provide additional cash with sufficient notice for operating purposes such as funding short term subscriptions or coverage for FX currency hedging.

Investment Manager Bespoke Structures/Co-Investments

The Fund is eligible to participate in A&Q bespoke structures and co-investments with full discretion of the Investment Manager.

Investment Eligibility

The Fund may invest in both US tax transparent funds and/or offshore vehicles.

Tail/Overlay Hedging

The Fund is eligible to participate in A&Q Tail/Overlay Program (TAU).

New Issues

The Fund is eligible to participate in new issues, and as such the Fund may invest in the new issues eligible share classes, if deemed appropriate.

**- SECTION IX -
POLICY AND GUIDELINES FOR BROKERAGE SERVICES**

This policy statement is intended to serve as a guide for Investment Managers engaged on behalf of the Employees' Retirement System of the City of Milwaukee (the "System") in the course of investing the retirement funds of the System. Each Investment Manager engaged by the System is responsible to exercise its responsibility prudently and solely in the interests of the participants and beneficiaries of the System. This document outlines the policies and procedures to be considered by Investment Managers in fulfilling this obligation.

1. General Policies and Principles: The Board requires that these principles guide all transactions:
 - a) Each manager is charged with the responsibility for all aspects of the investment process with respect to assets entrusted to it and consistent with the specific terms of this engagement by the System.
 - b) Each manager is expected to act prudently with respect to decisions to buy or sell securities as well as with respect to the decision who will execute the transaction.
 - c) Each manager shall secure best execution for each transaction it enters on behalf of the System. This requires that each manager execute securities transactions for the System in such a manner that the System's total cost or proceeds in each transaction is the most favorable under the circumstances. Each manager shall consider the full range and quality of a broker's services in placing brokerage, including, but not limited to, the value of research provided as well as execution capability, commission rate, financial responsibility and responsiveness to the manager. Lowest commissions paid in connection with a trade is not determinative of whether the transaction represents the best qualitative execution of the trade.
2. Trading Policies and Guidelines: Consistent with its fiduciary and best execution responsibilities described above, each manager, excluding the collective or commingled fund managers, should use its best efforts to minimize total commission dollars generated by buy

and sell transactions of exchange traded or electronically traded securities in accordance with the following action and policy of the Board:

- a) The System desires to minimize total transaction costs (commission plus net price) through the use of electronic trading services.
3. The Board may utilize the services of a transaction cost provider to monitor the individual manager transactions.

- SECTION X -

A reasonable effort shall be made to verify facts relevant to the investment and management of trust assets. Assets may be invested in any kind of property or type of investment consistent with the standards of this sub. d. A board member or a person under contract to the Employees' Retirement System who invests and manages trust assets who has special skills or expertise or is named in reliance upon his or her representation that he or she has special skills or expertise has a duty to use those special skills or expertise.

- d-6. Reviewing Compliance. Compliance with the prudent investor rule is determined in light of the facts and circumstances existing at the time of the decision or action and not by hindsight.
