

# CORRECTIONS OFFICER RETIREMENT PLAN

## 24th COMPREHENSIVE ANNUAL FINANCIAL REPORT A PENSION TRUST FUND OF THE STATE OF ARIZONA

FOR THE FISCAL YEAR ENDED JUNE 30, 2010

# Our Vision, Mission & Values

## VISION

- Invest, secure and manage responsibly the retirement funds of its members in accordance with all legal, investment and financial requirements and in a manner consistent with the quality to which its members have become accustomed.

## MISSION

- To be a low cost, highly personalized quality service provider of funds management and benefit services.
- To manage long-term investments with the goal of consistently outperforming over time the composite weighted market return benchmark net of all investment related costs so as to assure the financial integrity of the funds and the security of the benefits these funds provide.

## VALUES

- Do what is best for our members and financial health and integrity of the System.
- Be proactive.
- Committed to high quality, uniform, sustainable service.
- Innovative and cost effective in Plan administration and services.
- Use best practices in HR management.

Presented to

## Arizona Corrections Officer Retirement Plan

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended  
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

December 3, 2010

The Honorable Janice K Brewer  
Governor of the State of Arizona  
Executive Tower  
1700 W. Washington  
Phoenix, Arizona 85007

Dear Governor Brewer:

The Board of Trustees of the Public Safety Personnel Retirement System (PSPRS) respectfully submits the Twenty-fourth Comprehensive Annual Financial Report (CAFR) for the Corrections Officer Retirement Plan (CORP) for the fiscal year ended June 30, 2010 (FY'10), in accordance with the provisions of A.R.S. Section 38-883.

### **The CORP's Funding Ratio**

As of fiscal year-end, the financial status of the CORP, as reflected in its funding ratio, decreased from 82.6% at June 30, 2009 to 80.3% at June 30, 2010. This decrease continues the funding ratio erosion that resumed last year following a modest improvement in FY'08 that interrupted six consecutive years of funding status decline. This negative trend in the financial condition of the Plan is due in large part to the asset value losses and negative rates of return that the Plan experienced in FY'01 and FY'02 and again in FY'08 and FY'09. Those losses were largely the result of a lack of diversification in the deployment of the Plan's assets for investment purposes.

The funding ratio decrease this fiscal year occurred despite the fact that the Plan had an FY'10 rate of return (13.47%) that was well in excess of its actuarial assumed rate of return (8.5%). (For further information on the Plan's net assets and changes in net assets, please refer to the subsequent Management's Discussion and Analysis section of this Comprehensive Annual Financial Report (CAFR) which begins on page 20.)

Because the Plan uses a seven-year averaging process ("smoothing") to determine its fiscal year-end actuarial value of assets, only one-seventh of any fiscal year's investment gain or loss is reflected in that year's results. The remaining six-sevenths are rolled forward and reflected in the results over the next six fiscal years. That means that only one-seventh of the positive return that the Plan experienced in FY'10 is reflected in this fiscal year's results. That was more than offset by factoring into the FY'10 results, one-seventh portions of the -7.19% and -17.45% returns that the Plan experienced during FY'08 and FY'09 respectively. Those negative returns were due to the collapse of the U.S. housing market and the intense recession that followed. Because the remainder of the FY'08 and FY'09 investment losses will be factored into the Plan's financial status results over the next several fiscal years, the expectation is that the Plan's funding ratio will continue to deteriorate unless this trend is offset by several consecutive years of much better-than-expected rates of return or changes in the Plan's employee contribution rate and benefit structure or both.

If the CORP's funding ratio were calculated using fiscal year-end market value (rather than actuarial value) of assets, the Plan's funded status would be only 65.0%, rather than 80.3%. How to move the Plan, within a ten to twenty year time period, back to a state of financial soundness with an 80% funding ratio or better, calculated using market value, is clearly the principal challenge facing the PSPRS Board of Trustees.

Although the investment losses that the Plan sustained in FY'08 and FY'09 have taken, and will continue to take, their toll on the financial status of the Plan, the principal structural impediment to restoring the Plan to a state of financial soundness in a reasonable period of time is the post retirement adjustment structure. Current CORP statutes require that in any year in which the Plan generates an investment return in excess of 9%, one-half of the excess return over 9% must be diverted into the CORP's Reserve for Future Benefit Increases ("The Reserve"). These Reserve assets are used to finance the cost of the post-retirement adjustments payable to eligible beneficiaries of the Plan. However, these Reserve assets are not taken into account for funding ratio and employer contribution rate calculations. The Board of Trustees at their meeting on September 15, 2010 were told by the System's actuaries from Gabriel, Roeder, Smith & Co. (GRS) that this diversion of excess return in good investment return years makes the PSPRS-administered Plans "unsustainable."

### Employer Contribution Rates

Any change in the CORP's fiscal year-end funding ratio impacts the employer contribution rate two fiscal years later. For example, a funding ratio change in Plan FY'10 will affect the employer contribution requirement during employer FY'12.

When times were good and the CORP was over-funded, the CORP employers' contribution rates were abnormally low. (Each employer has its own rate that reflects the benefit liability for its own covered group.) For example, early in the current decade the computed aggregate employer contribution was only 1.71% of payroll.

But as the CORP's funding ratio eroded, the employer contribution requirement rose steadily until employer FY'09 when the aggregate rate crested at 8.68% of payroll. Although the aggregate employer rate declined modestly in employer FY'10, it is currently at 8.59%. Based on the CORP's FY'10 results, the employer rate is projected to increase again, with a 9.50% aggregate rate payable in employer FY'12. That represents a 0.91% of payroll increase over the current rate. This increase in the employer aggregate rate reflects a combination of factors including the negative returns from FY'08 and FY'09 as well as the fact that covered payroll and salaries did not increase as expected. With further erosion in the CORP's funding status expected to occur over the next several years, the forecast is that the employer rate will continue to increase unless significant Plan changes are made.

As the new fiscal year progresses, the Board of Trustees and the System's Administrator will consult with representatives of the Plans' constituency groups and the contributing employers in an attempt to create a consensus for a combination of legislative changes that will reverse the present funding ratio/employer contribution rate trends and restore the CORP to a state of financial soundness within a reasonable period of time. But if these efforts to achieve a consensus fail or fall short, the PSPRS Board members, in their capacity as fiduciaries, will propose to the Legislature changes designed to assure the sustainability of the Plan.

### FY'10 Investment Results

The FY'10 net of fee rate of investment return for the CORP was 13.47%. The return was 1.37% higher than the Plan's weighted composite rate of return benchmark, which was 12.10%. In addition, on a "peer group" basis, the return was good enough to place the CORP in the second quartile (rank 32) of the public funds included in the ICC Public Fund Universe of 100 public retirement systems.

Clearly, the FY'10 investment result was much higher than the Plan's 8.5% actuarial assumed rate of return. However, because the return was in excess of 9%, one-half of the return in excess of 9% -- a total of \$22.8 million -- was diverted to the Plan's Reserve and, therefore, will not be available to help improve the Plan's funding ratio/employer contribution rate situation described above.

Clearly, the FY'10 in-flow of new assets to the Plan's Reserve was significant. However, it was only slightly greater than the \$21.3 million that was withdrawn from the Reserve to fully fund the post-retirement increase that was paid at the statutory maximum of 4% to all of the Plan's eligible benefit recipients on July 1, 2010. That excess of income over out-go left a Reserve balance of \$18.7 million. However, absent an infusion of new assets at June 30, 2011, the Reserve balance would only be sufficient to finance a partial post-retirement adjustment as of July 1, 2011. Moreover, as the number of eligible beneficiaries increases and the average benefit payable rises, the out-go from the CORP's Reserve will continue to increase. Therefore, it is expected that, at some point, the Reserve's balance will no longer be able to finance annual adjustments at the statutory 4% maximum.

### The Strategy to Improve the Plan's Funding Ratio and Decrease Employer Contribution Requirements

To help improve the CORP's funded status and reduce employer contribution rates, the System must generate, on a consistent basis, annual rates of return that meet or exceed the CORP's return expectations. In pursuit of that goal, PSPRS has been, for the last four fiscal years, going through a complete restructuring of the way in which the System manages and invests its Plans' assets with a view to dramatically increasing asset allocation diversification and diversification within asset classes. In the process, the CORP's over-weight reliance on equities has declined considerably and so has the total Fund's volatility.

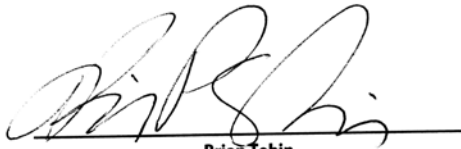

Unfortunately, according to our GRS actuaries, we have a five percent or less probability of our being able to invest our way back to an 80% or higher funding status within ten to twenty years. Therefore, in advance of the 2011 legislative session, the PSPRS Board of Trustees intends to put forward a variety of legislative changes that will, in the aggregate, give us a seventy-five percent or higher probability of achieving our stated funding goal within our stated time-frame and we shall seek the support of our constituency groups and the System's employers and their organizations in this effort.

**Conclusion**

As members of the PSPRS Board of Trustees, we intend to continue our efforts to assure the financial integrity of the System and its Plans and to faithfully serve the interests of the Plan's participants and beneficiaries.

We appreciate having the opportunity to serve the State of Arizona, its political subdivisions and its CORP stakeholders and we look forward to continuing to serve as members of the Board of Trustees for this System.

The Members of the Board of Trustees  
Public Safety Personnel Retirement System (PSPRS)  
3010 E. Camelback Road, Suite 200  
Phoenix, Arizona 85016

Members:

Here is the Twenty-fourth Comprehensive Annual Financial Report (CAFR) of the operations and financial condition of the Arizona Corrections Officer Retirement Plan (CORP). This report is for the fiscal year ended June 30, 2010. The Plan is a uniform statewide retirement system that provides retirement, disability and survivor benefits, post-retirement adjustments and health insurance subsidies for state, county and local corrections officers, dispatchers and probation, surveillance and juvenile detention officers.

Arizona Revised Statutes Title 38 requires the Board of Trustees to transmit to the Governor and the Legislature this annual report within six months of the close of each fiscal year. Incorporated in this report are the audited financial statements, management's discussion and analysis, and other financial data from the June 30, 2010 report of Heinfeld, Meech & Co. P.C., Certified Public Accountants and auditors for the System. Also included are the actuarial certification statement and the actuarial balance sheet from the June 30, 2010 actuarial valuation prepared by the System's actuary, Gabriel, Roeder, Smith & Co. (GRS).

**Financial Information Reporting**

The primary responsibility for the integrity and objectivity of the financial statements and related financial data rests with the management of the System. The financial statements were prepared in conformity with generally accepted accounting principles appropriate for government-sponsored defined benefit pension plans. Management believes that all other financial information included in this annual report is consistent with those financial statements.

It is the System's policy to have and maintain an effective system of accounting controls. We believe our controls are adequate to provide reasonable assurance that assets are safeguarded against loss or unauthorized use and to produce the records necessary for the preparation of financial information. There are limits inherent in all systems of internal controls based on the recognition that the costs of such systems should be related to the benefits to be derived. Management believes the System's controls provide this appropriate balance.

The System uses the accrual basis of accounting for both revenues and expenses. Contributions to the System are based on principles of level-cost financing with current service financed as a level percent of payroll on a current basis and prior service amortized as a level percent of payroll over a period of at least twenty but not more than thirty years.

**Revenues**

Revenues for the Plan are derived from three sources: member contributions, employer contributions, and realized and unrealized returns on the invested assets of the Plan. As shown by the Schedule of Revenues by Source included in the Statistical Section later in this report, the Plan had an investment gain of \$129.3 million this fiscal year. That was supplemented by revenue from member contributions of \$54.5 million, direct employer contributions of \$52.1 million, and insurance premium taxes of \$2.4 million. Please refer to the Statistical Section for a ten-year history of revenues and expenses.

### Administrative and Investment Expenses

The CORP's FY'10 administrative and investment-related expenses totaled \$5.1 million, the same as last year. Administrative and investment expenses were approximately 47 basis points of the total assets managed. This is reasonable when compared with other public retirement systems. A dedicated staff and constantly improving internal expertise has enabled management to keep costs relatively low even though assets are being outsourced to external portfolio managers and even though service needs have escalated due to increasing numbers of participants and beneficiaries and the desire to provide consistent support to the CORP network of local boards that have important administrative functions to perform.

### Investments

The total rate of return on the PSPRS Plan assets for the fiscal year was 13.47% on a net of fees basis. This return was well in excess of the System's 8.5% actuarial assumed rate of return and also well in excess of the 9% statutory "threshold" that causes a new in-flow of assets (\$22.8 million) to the Plan's Reserve for Future Benefit Increases. The Investment Section of this Report contains, among other things, graphs depicting the Plan's performance, a detailed summary of the investment portfolio, and commissions paid to investment professionals who provide services to PSPRS. All Plan investments were held in trust by BNY Mellon, the System's custodian bank.

### Enacted Legislation

During FY'10 the State Legislature approved, and the Governor signed, two bills that were of significance. The first was SB1124 that extended the Reverse Deferred Retirement Option Plan ("Reverse DROP") from June 30, 2011 through June 30, 2016.

The second bill, SB1006, changed the name of the Fund Manager to Board of Trustees, added two new Governor-appointed members to the Board (bringing the total to seven) and extended the terms of office for newly appointed Board members from three to five years.

### Actuarial and Funding Information

Funding a retirement system on a sound actuarial reserve basis involves the accumulation of substantial reserves to guarantee the payment of promised benefits. These reserves are invested and the rate of investment earnings, over time, is a major factor in determining the employer contribution requirement to meet the calculated level cost of the Plan.

The CORP is funded by a statutory participant contribution rate of 8.41% of gross payroll for those participants to whom was extended ordinary disability benefit protection in FY'08 and a contribution rate of 7.96 % for all other participants in the Plan. The Plan's additional funding comes primarily from employer contributions, expressed as a level percent of gross payroll and is reset annually, depending on the results of the Plan's actuarial valuation and from the realized and unrealized returns on the invested assets of the Plan.

The most commonly used measure of a retirement system's funding progress is the ratio of the actuarial value of assets to actuarial accrued liability, often referred to as the "percent funded." The percent funded for the CORP had been declining for six out of the last seven years through FY'07. At that point in time, the Plan's funding ratio was 84.6%. Following modest improvement in FY'08, the funding ratio started to deteriorate again in FY'09; this trend continued during FY'10 with the ratio falling to 80.3%. Given the System's seven year averaging of investment results (actuarial "smoothing"), much of the effect of the FY'08 and FY'09 negative rates of return are yet to be reflected in the funding ratio of the CORP; therefore, the expectation is that the funding ratio will deteriorate further in the future.

While each employer has a different contribution rate, depending on the liability for its group of participating employees, the current aggregate rate for the contributing employers is 8.57%. The aggregate rate that will take effect on July 1, 2011 will be 9.50%. Further decline in the Plan's funding ratio will cause employer rates to rise even further.

### Post Retirement Benefit Increases

State law provides for an annual benefit increase for CORP retirees (or their survivors) two years after retirement, regardless of age, or when the retiree (or survivor) attains age 55 and has been retired for a year. These increases are limited to a maximum of four percent. A benefit increase schedule can be found in the Statistical Section of this CAFR.

These benefit adjustments are fully funded on a present value basis from the assets that are accumulated in the CORP's Reserve for Future Benefit Increases. In any year in which the Plan generates a return in excess of 9%, one-half of the return in excess of 9% is diverted to the Reserve. (The Plan's FY'10 13.47% return resulted in a \$22.8 million flow of new assets into the Reserve.) These reserve assets are invested along with all other assets of the Plan.

The current Reserve balance, after subtracting the \$21.3 million needed to fund the present value of the July 1, 2010 post retirement increase, is \$18.7 million. Absent an infusion of new assets into the CORP Reserve during FY'11, the Reserve's balance would only be sufficient to finance a partial post-retirement adjustment as of July 1, 2011.

**Certificate of Achievement**

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the System for the CORP’s Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2009. This was the sixteenth consecutive year that the Plan has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental entity must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our FY’10 Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for a certificate.

**New Developments and Management Initiatives**

During this past fiscal year, the PSPRS Board of Trustees continued its strategic initiative that has changed the way in which the CORP’s assets are managed and invested. (See the Board of Trustees’ transmittal letter to the Governor that begins on page 7) In addition, there were other developments and initiatives that are worthy of note. These included the following:

- The FY’10 actual level of administrative spending was kept significantly below the budgeted amount and the FY’11 budget that was approved by the Board came in at less than 95% of the FY’10 actual level of spending.
- The System continued its comprehensive and multi-year effort to assure that the CORP and PRPRS local board networks are properly structured and functioning so as to assure uniform administration of the statutory responsibilities delegated to them. Staff and other resources continue to be dedicated to this initiative. Within the last twelve months, the System’s outreach efforts to provide training and education to local boards were intensified through more on-site visits, group meetings/consultations via conference call, video conference and webinars, the development of training modules which were made accessible through the PSPRS web site, the continued publication of a monthly local board newsletter, and the creation of a Local Board Reference Guide.
- The Internal Auditor/Compliance Officer developed and received approval for her annual audit plan and continued her monthly investments compliance review. In addition, the Auditor took over responsibility for approving capital calls made with respect to investment commitments approved by the Board.
- The System’s multi-year document imaging (i.e., scanning) project continued to progress. Once the project is completed, a new “Work Flow” project will be initiated in accordance with the System’s Strategic Plan.
- The System’s IT Program Development staff created and implemented a new Members Only web site that enables members to view their account information, including their monthly bank deposit information.
- The Program Development staff also implemented a one thousand concurrent user “GoToMeeting.com” capability for Board of Trustee meetings and local board and other training meetings.
- A new once-a-day online database backup capability through Ibackup.com was implemented; this is in addition to our hourly backup to our secondary Denver site.
- The System’s Disaster Recovery/Business Continuity capability was augmented by creating Disaster Recovery plans for the database application, the timing of the pension payroll process and key employee availability following a disaster.
- The T1 line connection between the Phoenix headquarters and the PSPRS Denver backup facility was replaced with a microwave connection and the bandwidth to the Denver facility was substantially increased to better accommodate our file transfer needs.

**New Initiatives for System FY’11**

As we have moved through the first four months of the new fiscal year (FY’11), some new initiatives are underway and still others are planned. These include:

- Completing the RFP process for legal services that the Board requested and conducting an RFP process for external audit services after completion of the current audit cycle;
- Keeping administrative expenses significantly under the FY’11 budgeted levels and holding the recommended FY’12 administrative budget to a level not to exceed 95% of FY’11 actual expenditures;
- Discontinuing the practice of mailing monthly bank deposit notices to beneficiaries following our educating them as to how to access their monthly payment information on-line via the Members Only website;
- Continuing to reduce the number of payment checks PSPRS issues monthly by converting more of them to ACH transfers and initiating the use of “pay cards;”
- Adding to the local board outreach, organization, education and training effort by creating a local board web site or “module” within the PSPRS database to make it possible for local board personnel to input or update data directly without having the PSPRS staff do it for them; and
- Securing the enactment of legislative proposals to restructure and redesign provisions of the PSPRS Plans, including CORP, to restore them to a state of financial soundness within a reasonable period of time and reduce employer contribution requirements in the process.

**Summary**

This CORP CAFR is a product of the collective efforts of the staff, under the direction of the System's Board of Trustees. It is intended to provide complete and reliable information that will facilitate the management decision process and it serves as a means for determining compliance with the System's governance and investment policies and legal requirements. Copies of this report are provided to the Governor, State Auditor, Legislature and all our member constituency groups. We hope all recipients of this report find it informative and useful.

I would like to take this opportunity to express my gratitude to the members of the Board of Trustees, the staff, the System's advisors, and all others who have worked so diligently to assure the continued successful operation of the System. I look forward to the challenge of moving the System forward with a program of constructive and comprehensive change that will maintain high quality customer service and restore the PSPRS Plan to a state of financial soundness.

## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Public Safety Personnel Retirement System

We have audited the accompanying Statement of Plan Net Assets of the Corrections Officer Retirement Plan (CORP) as of and for the year ended June 30, 2010, and the related Statement of Changes in Plan Net Assets for the year then ended. These basic financial statements are the responsibility of CORP's management. Our responsibility is to express an opinion on these financial statements based on our audit. The comparative totals as of and for the year ended June 30, 2009, presented in the basic financial statements are included for additional analysis only. Our audit report dated December 1, 2009, expressed an unqualified opinion on those statements; however, we have not performed any auditing procedures on this information since the date of our report.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Corrections Officer Retirement Plan, as of June 30, 2010, and the changes in net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 2, the Corrections Officer Retirement Plan implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, for the year ended June 30, 2010, which represents a change in accounting principle.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2010, on our consideration of the Corrections Officer Retirement Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

TUCSON • PHOENIX • FLAGSTAFF  
www.heinfeldmeech.com

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 20 through 23 and the Schedule of Funding Progress and Schedule of Employer Contributions on pages 38 through 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise CORP's financial statements. The Introductory Section, Supporting Schedules Information, Other Supplementary Information, Investment Section, Actuarial Section and Statistical Section are presented for purposes of additional analysis and are not a required part of the financial statements. The Supporting Schedules Information and Other Supplementary Information, as listed in the table of contents under the Financial Section, have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The Introductory Section, Investment Section, Actuarial Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**CORP MANAGEMENT DISCUSSION & ANALYSIS**

The Corrections Officer Retirement Plan's discussion and analysis is designed to assist the reader in focusing on significant financial issues, provide an overview of the Plan's financial activity, identify changes in the Plan's financial position and identify any issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, it is intended to be read in conjunction with the Transmittal Letter, Financial Statements and Notes to the Financial Statements.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for 2010 are as follows:

- The Corrections Officer Retirement Plan (CORP) had a total rate of return (net of fees) of 13.47% this year. Our total portfolio outperformed the target fund benchmark by 137 basis points. This is a significant improvement over the prior year's return of -17.75%.
- As of the close of the fiscal year 2010, the Future Benefit Increase Reserve was \$18.7 million. The infusion of new assets into the Reserve was sufficient to finance a full 4% post-retirement adjustment as of July 1, 2010. However, payment of a post-retirement adjustment for July 1, 2011 will again depend on an additional infusion of new assets into the Reserve.
- Retirement benefits paid totaled \$64.0 million for the current year, compared to \$55.5 million for the previous year. This represents a 15.4% increase from the prior year. The majority of this increase is the result of the cost of post-retirement adjustments paid to the retirees or their survivors of the Plan and an increase in retirements.

**OVERVIEW OF THE FINANCIAL STATEMENTS***Using this Comprehensive Annual Financial Report (CAFR)*

This annual report consists of a series of financial statements and notes to those financial statements. These statements are organized so the reader can understand the Plan as an operating entity. The statements and notes then proceed to provide an increasingly detailed look at specific financial activities.

*The Statement of Net Assets and The Statement of Changes in Net Assets*

These statements include all assets and liabilities of the Plan using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. These two statements report the Plan's net assets and changes in them. Net assets are the difference between assets and liabilities, one way to measure the financial health, or financial position. Over time, increases or decreases in the net assets are one indicator of the financial health of the Plan.

*Notes to the Financial Statements*

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes can be found immediately following The Statement of Net Assets and The Statement of Changes in Net Assets.

*Required Supplementary Information*

The basic financial statements are followed by a section of required supplemental information. This section includes the Schedule of Funding Progress and the Schedule of Employer Contributions.

*The Schedule of Funding Progress*

Shows the ratio of assets as a percentage of the actuarial accrued liability (funding ratio) and the ratio of unfunded actuarial accrued liabilities to member payroll. The trend in these two ratios provides information about the financial strength of the Plan. Improvement is indicated when the funding ratio is increasing and the ratio of the unfunded actuarial accrued liability to payroll is decreasing.

*The Schedule of Employer Contributions*

Shows the Annual Required Contributions by fiscal year. The purpose of this schedule is to provide information about the required contributions of the employers and the extent to which those contributions are being made. The information should assist users in understanding the changes and possible reasons for the changes in the Plan's funding status over time.

*Supporting Schedules and Supplementary Information*

The Supporting Schedules and Other Supplemental Information Section include the Supporting Schedule of Changes in Fund Balance Reserves, Supporting Schedule of Administrative Expenses and Payments to Consultants, the Supplemental Schedule of Cash Receipts and Cash Disbursements and the Agency Fund Statement of Changes in Assets and Liabilities (see Note 7). The total columns and information provided on these schedules carry forward to the applicable financial statement.

**FINANCIAL ANALYSIS OF THE PLAN**

The following schedules present comparative summary financial statements of the System for FY10 and FY09. Following each schedule is a brief summary of the significant changes noted in these schedules.

**SUMMARY COMPARATIVE STATEMENTS OF PLAN NET ASSETS**

	As of 06/30/2010	As of 06/30/2009	Change	% Change
Cash and Short-Term Investments	\$ 12,494,835	\$ 16,515,717	\$ (4,020,881)	(24.35)%

<b>Net Assets</b>	<b>\$1,112,789,303</b>	<b>\$961,016,116</b>	<b>\$151,773,187</b>	<b>15.79 %</b>

**Summary Comparative Statements of Plan Net Assets Analysis**

The total plan net assets held in trust for benefits at June 30, 2010 were \$1.1 billion, a 15.79% increase from \$961.0 million at June 30, 2009. The increase in net assets is primarily due to favorable financial markets during the fiscal year. The decrease in cash or increase in receivables is attributable to normal fluctuations in investment income receivables during the year. CORP is fully deploying cash in other investments vehicles like exchange traded funds, equities, fixed income and private equity. Detailed information regarding the Plan's investment portfolio is included in the investment section of this report. The decrease in security lending collateral is due to normal fluctuations in the lending program as well as an increase in exposure to other alternative investments. The investment of the collateral fluctuated in a similar manner.

<b>Balance End of Year - June 30</b>	<b>\$1,112,789,303</b>	<b>\$961,016,116</b>	<b>\$151,773,187</b>	<b>15.79 %</b>

**Summary Comparative Statements of Changes in Plan Net Assets Analysis**

There was a slight decrease in employer and employee contributions of \$55.6 thousand in relation to 2009 due to a decrease in the employer contribution rates from 8.65% to 7.49%. Additionally, due to economic conditions, layoffs and furloughs have resulted in a decline in salaries paid active members.

For FY 2010, CORP recognized a net investment gain of \$129.3 million which compares to a loss of \$216.3 million in the previous year. This 159.8% increase in income was due to the more positive returns in the financial markets during the fiscal year.

Deductions from the CORP net assets held in trust for benefits consist primarily of pension, disability, survivor benefits, member refunds and administrative expenses. For FY 2010, these deductions totaled \$85.3 million, an increase of 18.6% from the \$72.0 million paid during FY 2009. The total benefit payments increase is due to a net increase in the number of benefit recipients plus post-retirement adjustments provided to existing benefit recipients. Details of these changes can be found on pages 69 and 70 of the *Actuarial Section* of this report. Refunds increased \$5.0 million over the prior year (32.13%). Refunds represent a return of contributions held on account when a member leaves employment. This increase is due to current economic conditions that have led to layoffs and reduction of many governmental services. Administrative expenses were less due to a decrease in legal and professional services from the prior year.

INVESTMENT ACTIVITIES

During FY 2007, the Board of Trustees adopted a more diversified asset allocation policy and began an asset management restructuring that has been deployed over the past three years. As illustration, at the end of FY07, 72.8% of the entire investment portfolio was invested in equities versus 41.2% at the end of FY10. Fixed income has remained about 19% of the entire portfolio. However, alternative investments have increased from 3.5% in FY07 to 39.8% in FY10.

At June 30, 2010, CORP held \$454.5 million in equities. The FY 2010 rate of return for Total CORP equities was 13.73% versus a benchmark rate of return of 13.66%. At June 30, 2010, CORP held \$210.4 million in fixed income securities. The FY 2010 rate of return for CORP fixed income securities was 13.84% versus a benchmark rate of return of 9.50%. The benchmarks for both equities and fixed income securities are representative of the returns that could be expected in a similar investing environment. More detailed information regarding the Plan's investment portfolio can be found in the investment section of this report.

CORP earns additional income by lending investment securities to brokers. This was done on a pooled basis by our custodial banks, BNY Mellon. The brokers provide collateral and generally use the borrowed securities to cover short trades and failed trades.

HISTORICAL TRENDS

Accounting standards require that the "Statement of Plan Assets" reflect investment asset values at fair market value and include only benefits and refunds due to plan members and beneficiaries and accrued investment and administrative expenses as of the reporting date. Information regarding the actuarial funding status of the plan is provided in the "Schedule of Funding Progress." The asset value stated in the "Schedule of Funding Progress" is the actuarial value of assets as determined by calculating the ratio of the market value to book value of assets and the actuarial gains/losses smoothed over a seven year period. Actuarial valuations of the CORP assets and benefit obligations for the retirement plan are performed annually. The most recent actuarial valuation available is as of June 30, 2010.

At June 30, 2010, the total funded status of the CORP decreased to 80.3% from 82.6% at FYE 2009. This decrease in funded status is related primarily to seven year smoothing period with only ½ of the investment gain from the FY10 investment return being reflected in the calculation. The market value smoothing techniques used in this valuation of the Plan recognize both past and present investment gains and losses. A more detailed discussion of the funding status can be found in the Administrator's Letter of Transmittal in the Introductory Section of this report.

#### **REQUEST FOR INFORMATION**

This report is designed to provide a general overview of the Corrections Officer Retirement Plan's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Corrections Officer Retirement Plan, 3010 E. Camelback Road, Suite 200, Phoenix, AZ 85016.

**CORP NOTES TO THE FINANCIAL STATEMENTS**

**NOTE 1: PLAN DESCRIPTION**

**ORGANIZATION**

The Corrections Officer Retirement Plan (CORP), a pension trust fund of the State of Arizona, is a cost sharing multiple-employer public employee retirement plan established by Title 38, Chapter 5, Article 6 of the Arizona Revised Statutes, to provide benefits for prison and jail employees of certain state, county and local governments. The Board of Trustees (formerly Fund Manager) of the Public Safety Personnel Retirement System (PSPRS) and 26 local boards administer the CORP Plan.

Effective August 6, 1999, it became the Governor’s responsibility to appoint all members of the Board of Trustees. Effective April 28, 2010, SB 1006 was passed that changed the name of the Fund Manager to Board of Trustees and expanded the size of the Board from five to seven members. SB 1006 also increased the term from three to five years. There will be a transitional period during which the terms of office may vary. The Board of Trustees is responsible for the investment of the Plan’s assets, setting employer contribution rates in accordance with an actuarial study, adopting a budget, hiring personnel to administer the Plan, setting up records, setting up accounts for each member, paying benefits and the general protection and administration of the System. Substantial investment experience is required for the member of the Board that represents the state as an employer and the two public members of the Board.

Each eligible group participating in the Plan has a five-member local board. In general, each member serves a fixed four-year term. Each local board is responsible for determining eligibility for membership, service credits, eligibility for benefits, the timing of benefit payments, and the amount of benefits for its eligible group of employees. The various governing bodies pay all costs associated with the administration of the local boards.

The addition or deletion of eligible groups does not require the approval of the other participating employers. The Board of Trustees approves new eligible groups for participation. The CORP is reported as a component unit of the State of Arizona.

The Board of Trustees of the CORP is also responsible for the investment and general administration of two other statewide retirement plans-the Elected Officials’ Retirement Plan and the Public Safety Personnel Retirement System. The investments and expenses of these plans were held and accounted for separately from those of the CORP until September 1, 2008. Arizona Revised Statutes Section 38-848 was amended by Laws 2008, Ch. 286, § 22 to authorize the Board of Trustees to commingle the assets of the fund and the assets of all other plans entrusted to its management. Accordingly, the assets of these plans have been unitized but all receipts and earnings are credited and charges of payments are made to the appropriate employer, system or plan.

Since none of the plans have the authority to impose their will on any of the other plans, each plan is reported as its own stand-alone government.

At June 30, 2010 and 2009, the number of participating local government employer groups was:

<b>GROUP</b>	<b>2010</b>	<b>2009</b>
Counties	14	14
Cities	1	1
Dispatchers	8	8
State Agencies	3	2
<b>Total Employers</b>	<b>26</b>	<b>25</b>

Any county or city in the State of Arizona may elect to have its eligible employees (generally, prison or jail personnel who have direct inmate contact) covered by CORP. At June 30, 2009 and 2008, statewide CORP membership consisted of:

<b>MEMBERSHIP TYPE</b>	<b>RETIREMENT PLAN</b>		<b>INSURANCE SUBSIDY</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Retirees	2,908	2,591	1,588	1,372
Terminated Vested	1,601	1,476	0	0
Current Vested	8,167	6,775	0	0
Current Non-Vested	6,152	7,805	0	0
<b>Total Members</b>	<b>18,828</b>	<b>18,647</b>	<b>1,588</b>	<b>1,372</b>

CORP provides retirement benefits as well as death and disability benefits. Generally, all benefits vest after five years of credited service. A summary of benefit and plan provisions follows:

**SUMMARY OF BENEFITS**

PURPOSE (A.R.S. § 38-900.01b)

To provide a uniform, consistent and equitable statewide program for those eligible corrections officers as defined by the Plan.

**AVERAGE MONTHLY BENEFIT**

An average of your highest 36 consecutive months of salary within the last 10 years (i.e., 120 months) of service. Salary includes base wages, shift and military differential pay, holiday and overtime pay that is paid a member for personal services rendered in a designated position to a participating employer on a regular monthly, semi-monthly or biweekly payroll basis.

For the purposes of computing retirement benefits, "base salary" does not include any extra monies, including overtime pay, shift differential pay, holiday pay, fringe benefit pay (such as uniform allowance, cell phone or mileage reimbursement) and similar extra payments. A.R.S. § 38-881 (7)(41).

**BENEFIT INCREASE / COST OF LIVING ADJUSTMENT (COLA)**

Contingent upon the excess investment earnings, effective July 1 of each year, eligible retired members or survivors may be entitled to a permanent benefit increase in their base benefit. To be eligible for the increase, the retired member or survivor must be either age 55 or older on July 1 of the current year and receiving benefits on or before July 31 of the previous year, or the retired member or survivor has been receiving benefits on or before July 31 of the previous two years. The maximum amount of the increase is 4% of the average normal benefit being received on the preceding June 30. A.R.S. § 38-905.

**CONTRIBUTIONS**

All non-dispatchers (members) shall contribute 8.41% of salary to the Plan on a pre-tax basis by payroll deduction unless or until CORP is 100% funded (if 100% funded, all non-dispatchers shall contribute 7.96%). A.R.S. § 38-891(I). All dispatchers (members) shall contribute 7.96% of salary. A.R.S. § 38-891(I).

Employers shall contribute a percent of salary determined by actuarial valuations to ensure proper funding for the Plan (but not less than 6% of the employee's salary). For any employer whose actual contribution rate is less than 6% for fiscal year 2007 and each year thereafter, that employer's contribution rate shall be at least 5% and not more than the employer's actual contribution rate. A.R.S. § 38-891(H and A).

**CREDITED SERVICE**

Service in a designated position for which member contributions have been made to the Plan, or transferred to the Plan from another retirement system for public employees of this state. A.R.S. § 38-881(10). Members are eligible to receive credited service limited to 60 months if called to active duty while working for the current employer. A.R.S. § 38-907.

**DEATH BENEFITS - ACTIVE MEMBER**

*Spouse's Pension.* The surviving spouse of an active member will receive a monthly benefit for lifetime which is 40% of the member's average monthly salary. If the member was killed in the line of duty, the spouse will receive 100% of the member's average monthly benefit compensation. A.R.S. § 38-888, OR

*Guardian Benefit.* If there is no surviving spouse and there is at least one eligible child, a guardian benefit of 40% of the member's average monthly salary will be paid to the guardian of the eligible child(ren) until the child turns 18, or until the age of 23 if the attending full-time school between the ages of 18 and 23. If a guardian benefit is paid to a disabled child (the child's disability occurred prior to the age of 23) and remains a dependent of the guardian, the benefit is payable for the lifetime of the child. A.R.S. § 38-904(B), OR

*Balance of Contributions.* If there is no surviving spouse or eligible child(ren), the member's named beneficiary on file will receive two times the member's contributions. A.R.S. § 38-904.

**DEATH BENEFITS - INACTIVE MEMBER**

*Balance of Contributions.* If the member was inactive, the member's named beneficiary on file will receive two times the member's contributions. A.R.S. §§ 38-881(27) and 38-904.

**DEATH BENEFITS - RETIRED MEMBER**

*Spouse's Pension.* The surviving spouse of a retired member will receive 80% of member's pension benefit for lifetime. Requires two consecutive years of marriage at time of death. A.R.S. § 38-887, OR

*Guardian Benefit.* If there is no surviving spouse, or the pension of the surviving spouse is terminated, a guardian benefit (80% of member's pension) may be paid to the guardian of the surviving unmarried child(ren) until the child(ren) turns 18, or until the age of 23 if attending full-time school between the ages of 18 and 23. If a guardian benefit is paid to a disabled child (the child's disability occurred prior to the age of 23) and remains a dependent of the guardian, the benefit is payable for the lifetime of the child. A.R.S. §§ 38-881(18) and 38-904, OR

*Balance of Contributions.* If there is no surviving spouse or eligible child(ren), the member's named beneficiary on file will receive the balance of the member's accumulated contributions less the pension payments made to the member. If there is no beneficiary, the balance of the member's accumulated contributions will be paid to the legal representative of the last surviving individual who was being paid the benefit. A.R.S. § 38-889.

**DEFERRED ANNUITY**

Members that have at least 10 years of credited service and terminate employment on or after 9/30/2009 may elect to receive a Deferred Annuity at the age of 62. This annuity is a lifetime monthly payment that is actuarially equivalent to the member's accumulated contributions in the plan plus an equal amount paid by the employer. This annuity is not a retirement benefit and annuitants are not entitled to survivor benefits, benefit increases, or the group health insurance subsidy. A.R.S. § 38-911.

Members that terminate prior to 9/30/2009 may only refund, or transfer his/her contributions to another retirement system. A.R.S. § 38-884.

## FINANCIAL SECTION

### ACCIDENTAL DISABILITY

A physical or mental condition which totally and permanently prevents an employee from performing a reasonable range of duties within the employee's department, that was incurred in the performance of the employee's duties, or was the result of either physical contact with inmates, or responding to a confrontational situation with inmates, or a job-related motor vehicle accident, and was not the result of a physical or mental condition that existed or occurred before the employee's date of membership in the Plan. A.R.S. § 38-881(1).

Eligibility for an accidental disability will be determined by the Local Board upon an independent medical examination. The monthly benefit is 50% of the member's average monthly salary. (There is no credited service requirement.) The Local Board may require periodic medical re-evaluations until the member reaches age 62. Accidental disability terminates if the Local Board finds the retired member no longer meets the requirements for the disability benefit. A.R.S. § 38-886.

### CATASTROPHIC DISABILITY

A physical or mental condition which totally and permanently prevents a member from engaging in any gainful employment, that is in the direct and proximate result of the member's performance of the employee's duties and is not the result of a physical or mental condition or injury that existed or occurred before the member's date of membership in the Plan. A.R.S. § 38-881(44).

Eligibility for a total and permanent disability will be determined by the Local Board upon an independent medical examination. The monthly benefit is 50% of the member's average monthly salary. (There is no credited service requirement.) The Local Board may require periodic medical re-evaluations until the member reaches age 62. The total and permanent disability terminates if the Local Board finds the retired member no longer meets the requirements for the disability benefit. A.R.S. § 38-886.

### ORDINARY DISABILITY

A physical condition which totally and permanently prevents an employee from performing a reasonable range of duties within the employee's department, or a mental condition that totally and permanently prevents the employee from engaging in any substantial gainful activity, and was not the result of a condition that existed or occurred before the employee's date of membership in the Plan. Dispatchers disabled on/after September 21, 2006 and non dispatchers disabled on/after September 26, 2008 may qualify for an ordinary disability. A.R.S. §§ 38-881(30) and 38-886.01.

Eligibility for an ordinary disability will be determined by the Local Board upon an independent medical examination. The benefit is a percentage of normal retirement and is based on the employee's years of credited service divided by 20 (dispatchers are divided by 25). The Local Board may require periodic medical re-evaluations until the member reaches age 62. Ordinary disability terminates if the Local Board finds the retired member no longer meets the requirements for the disability benefit. A.R.S. § 38-886.01.

### REVERSE DEFERRED RETIREMENT OPTION PLAN (REVERSE DROP)

Beginning July 1, 2006, through June 30, 2016, the CORP shall offer the Reverse Deferred Retirement Option Plan (Reverse DROP) to members that are eligible for a normal pension (who is not awarded an accidental, ordinary or total and permanent disability pension) and have at least 24 or more years of credited service (dispatchers must have at least 25 years) may elect to participate in the Reverse DROP. Under the Reverse DROP, the member must voluntarily and irrevocably elect to terminate employment and receive a normal retirement upon participation in the Reverse DROP. The Reverse DROP date that is the first day of the month immediately following completion of 24 years of credited service (for dispatchers, 25 years of credited service) or a date not more than 60 consecutive months before the date the member elects to participate in the Reverse DROP, whichever is later.

The member's pension will be calculated using the factors of credited service and average monthly benefit compensation in effect on the Reverse DROP Date. The lump sum distribution is credited as though it accrued monthly from the Reverse DROP date to the date the member elected to participate in the Reverse DROP (plus interest equal to the yield on a 5-year Treasury note as of the first day of the month as published by the Federal Reserve Board).

Neither the member nor the employer is entitled to a refund of contributions made between the Reverse DROP date and the date the member elects to participate in the Reverse DROP. A.R.S. § 38-885.01.

### ELIGIBILITY

Designated positions for the following employers that elect to join the Plan are eligible to participate in the CORP if the employee's customary employment is for at least 40 hours per week, or as defined by statute. A.R.S. § 38-881(12):

- For a County: A county detention officer and non-uniformed employee's of a sheriff's department whose primary duties require direct inmate contact.
- For the State Department of Corrections and the Department of Juvenile Correction: Specific positions are eligible to participate. Refer to the statute for specific positions.
- For a City or Town, a City or Town Detention Officer.
- For an employer of an eligible group as defined in A.R.S. § 38-842, full-time dispatchers.
- For the judiciary, probation, surveillance, and juvenile detention officers and those positions designated by the Local Board.
- For the Department of Public Safety, state detention officers.

Dispatchers hired after November 24, 2009 must participate in the Arizona State Retirement System. A.R.S. § 38-902(C).

## HEALTH INSURANCE

For CORP retirees, survivors and their eligible dependents that elect group health insurance and/or accident insurance coverage administered by CORP or another state recognized employer plan, the CORP will pay up to the following amount. A.R.S. §§ 38-906, 38-651.01 and 38-782.

SINGLE		FAMILY		
Not Medicare Eligible	Medicare Eligible	All Not Medicare Eligible	All Medicare Eligible	One With Medicare
\$150.00	\$100.00	\$260.00	\$170.00	\$215.00

## JOINERS

Specific positions and employers may participate in the CORP if the governing body of the employer enters into a joinder agreement to bring such employees into the CORP. The joinder agreement shall be in accordance with the provisions of this Plan. The transfer of the Arizona defined benefit state retirement system or plan shall be transferred within ninety days after the employer's effective date. A.R.S. § 38-902.

## REFUNDS

Pursuant to A.R.S. § 38-884, upon termination of employment (for any reason other than death or retirement) within 20 days after filing an application with the CORP, a member shall receive a lump-sum payment of accumulated contributions (less any benefits paid or any amounts owed to the Plan). The member forfeits all membership rights and credited service in the Plan upon receipt of refund of contributions. If the member has five or more years of credited service, an additional percentage of contributions will be refunded to the member according to the member's years of service as stated below:

5 to 5.9 years of service = 25% of additional member contributions.

6 to 6.9 years of service = 40% of additional member contributions.

7 to 7.9 years of service = 55% of additional member contributions.

8 to 8.9 years of service = 70% of additional member contributions.

9 to 9.9 years of service = 85% of additional member contributions.

10 or more years of service = 100% of member contributions plus 3% interest if left on deposit after 30 days.

## REQUEST TO REMAIN IN CORP

The local board of the state department of corrections, or the department of juvenile corrections may specify a position within that department as a designated position if the position is filled by an employee who has at least five years of credited service under the Plan, is transferred to temporarily fill the position, provides a written request to the local board (within ninety days of being transferred) to specify the position as a designated position. When the employee leaves the position, the position is no longer a designated position. A.R.S. § 38-891(E). Form C20.

The local board of the judiciary may specify positions within the Administrative Office of the Courts (AOC) that require direct contact with and primarily provide training or technical expertise to county probation, surveillance or juvenile detention officers as a designated position if the position is filled by an employee who is a member of the plan currently employed in a designated position as a probation, surveillance or juvenile detention officer that has at least five years of credited service under the Plan. An employee who fills such a position shall make a written request to the local board to specify the position as a designated position within ninety days of accepting the position. When the employee leaves the position, the position reverts to a non-designated position. A.R.S. § 38-891(G).

## RETIREMENT ELIGIBILITY AND CALCULATION

Pursuant to A.R.S. § 38-885, retirement benefits are calculated as follows:

- 20 years of credited service but less than 25 years of credited service (not available to dispatchers), or 80 points (age plus service) if membership date is on/after 8/9/01: 2% for each year of credited service over 20 years
- 25 or more years of credited service, or 80 points if membership date is on/after 8/9/01: 2.5% for each year of credited service over 20 years (with a maximum of 12 years)
- Less than 20 years of credited service and 80 points if membership date is on/after 8/9/01: credited service multiplied by 2.5%
- 80 points and membership date is PRIOR to 8/9/01: credited service multiplied by 2.5% (maximum of 75% of the average monthly compensation/salary)
- Age 62 with 10 years of service: credited service multiplied by 2.5%.

## RETURN TO WORK AFTER RETIREMENT

A retired member may become re-employed and continue to receive a pension if the employment occurs 12 months or more after retirement effective date December 31, 2008. The retired member shall not contribute to the fund and shall not accrue credited service. A.R.S. § 38-884 (J) and HB 2326, Sec. 15(A).

If a retired member becomes employed by an employer in a designated position before twelve months after retirement, the retired member's pension shall be suspended during reemployment in a designated position and the retired member shall not make contributions to the Plan nor accrue credited service during such reemployment. A.R.S. § 38-884(J).

## FINANCIAL SECTION

Retired CORP members that returned to work, entitled to continue to receive a pension from the plan pursuant to Laws 2006, Chapter 241, section 1 and who is employed by an employer of the CORP as of 9/30/2009 is entitled to again begin receiving the retired member's pension from the plan effective 9/30/2009. (HB 2326, Section 12, Previous return to work retirees).

### SALARY

Salary is defined as the base salary/wages, shift differential pay, military differential and holiday pay paid to an employee for personal services rendered in a designated position to a participating employer on a regular monthly, semimonthly or biweekly payroll basis.

For the purposes of the paragraph above, "base salary/wages" means the amount of compensation each member is regularly paid for personal services rendered before the addition of any extra monies, including overtime pay, shift differential, holiday pay, sale of compensatory time, fringe benefit pay and similar extra payments. A.R.S. § 38-881(41).

### SERVICE PURCHASE

*Purchase of Prior Active Military Service.* Members may purchase up to 48 months of credited service for periods of active military service performed before employment with their current employer (even if the member receives a military pension). A.R.S. § 38-907.

*Purchase of Prior Service from an Out-of-State Agency.* Active members that have previous service with an agency of the U.S. Government, a state of the U.S., or a political subdivision of a state of the U.S. as a full-time paid corrections officer, or full-time paid certified peace officer may elect to redeem any part of the prior service if the prior service is not on account with any other retirement system. A.R.S. § 38-909.

*Purchase of Prior Forfeited Service within the SAME Retirement Plan.* If a former member becomes RE-EMPLOYED with the SAME EMPLOYER and, within two years after the former member's termination date and applies with the Plan (within ninety days of reemployment), may elect to purchase all of the previously forfeited credited service. The amount required to reinstate the credited service is the amount previously withdrawn plus interest at the rate of 9% compounded annually from the date of withdrawal to the date of repayment and the reimbursement is required to be paid within 1-year from the date of reemployment. A.R.S. § 38-884(H).

If the statutory requirements above are not met, the member may still purchase some or all of the previously forfeited credited service calculated based on an amount computed by the Plan's actuary to equal the actuarial present value of the account. A.R.S. § 38-884(I).

*Purchase of Service Between the Arizona Retirement Plans/Systems.* Members of any of the four Arizona state retirement System/Plans that have credited service under another Arizona state retirement System/Plan may redeem the credited service to their current Arizona state retirement System/Plan by paying the full actuarial present value of the credited service into the current Arizona retirement System/Plan with the approval of the CORP or governing board. A.R.S. § 38-922.

### TAXATION OF RETIREMENT BENEFITS

All CORP retirement benefits in excess of \$2,500 annually will be subject to Arizona state tax. A.R.S. §§ 38-896, and 43-1022.

### TRANSFERS

*Transfer of Contributions Between CORP Employers.* A member who terminates employment with an employer and accepts a position with the same or another employer participating in the Plan shall have their credited service transferred to their record with the new employer if they leave their accumulated contributions on deposit with the Plan. The period not employed shall not be considered as credited service. A.R.S. § 38-908.

*Transfer of Service Between the Arizona Retirement Plans/Systems.* Members of any of the four Arizona state retirement System/Plans that have credited service under another Arizona state retirement System/Plan may transfer the credited service to their current Arizona state retirement System/Plan by transferring the full actuarial present value of the credited service into the current Arizona retirement System/Plan with the approval of the CORP or governing board. A reduced credited service amount may be transferred based on the transfer of the actuarial present value of the credited service under the prior Arizona state System/Plan. A.R.S. §§ 38-921 and 38-922.

*Transfer of Service Between Municipal Retirement Systems & Special Retirement Plans.* An active or inactive member of a retirement System or Plan of a municipality of this state (i.e., City of Phoenix and City of Tucson) or of the CORP may transfer the service to their current retirement System or Plan based on the member's accumulated contributions plus interest, or the member may elect a reduced service amount to be transferred based on the actuarial present value. A.R.S. §§ 38-923 and 38-924.

This is not an official version of the Arizona Revised Statutes. If there are any differences or discrepancies, the official version will prevail.

## NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

### BASIS OF ACCOUNTING

CORP financial statements are prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments, as well as statutory or contractual requirements. Benefits are recognized when due and payable in accordance with the terms of the Plan. Refunds are due and payable by state law within 20 days of receipt of a written application for a refund. Refunds are recorded when paid.

Furniture, fixtures and equipment purchases costing \$10,000 or more, when acquired, are capitalized at cost. Improvements, which increase the useful life of the property, are also capitalized. Investment income net of administrative and investment expenses are allocated to each employer group based on the average relative fund size for each employer group for that year.

By state statute, the Plan is required to provide information in the financial statements used to calculate Net Effective Yield. Net Effective Yield includes only realized gains and losses. The Net Realized Gains (Losses) used in this calculation totaled \$(322,346) for FYE 2010 and \$(175,258,029) for FYE 2009. This calculation is independent of the calculation of the change in the fair value of investments and may include unrealized amounts from prior periods.

The Plan implemented Governmental Accounting Standards Board (GASB) Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, for the year ended June 30, 2010. Statement No. 53 addresses the recognition, measurement, and disclosures regarding derivative instruments entered into by the Plan.

## ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets held in trust for pension benefits at June 30, 2010. Actual results could differ from those estimates.

## NOTE 3: CASH AND INVESTMENTS

### CASH

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Plan's deposits may not be returned. The deposits are held in two financial institutions with a balance of up to \$250,000 (permanently guaranteed as of July 21, 2010) insured by the Federal Deposit Insurance Corporation (FDIC). The Plan mitigates custodial credit risk for deposits by requiring the financial institution to pledge securities from an acceptable list in an amount at least equal to 102% of the aggregate amount of the deposits on a daily basis.

In addition to the FDIC insurance coverage on the operating and money market accounts of CORP, Wells Fargo pledged the following securities to Public Safety Personnel Retirement System, CORP, and the Elected Officials' Retirement Plan on June 30, 2010, as collateral:

Description	CPN	Maturity	Market Value
FED NATL MTG ASSN POOL #257449	6.00	11/1/2038	\$ 6,302,267
FED NATL MTG ASSN POOL #885515	6.00	7/1/2036	2,798,720
FED NATL MTG ASSN POOL #911370	6.00	2/1/2037	2,150,459
FED NATL MTG ASSN POOL #930769	6.00	3/1/2039	4,802,040
FED NATL MTG ASSN POOL #950981	6.00	10/1/2037	6,864,700
<b>TOTAL</b>			<b>\$22,918,186</b>

All monies shall be secured by the depository in which they are deposited and held to the same extent and in the same manner as required by the general depository law of the state. Cash balances represent both operating and cash accounts held by the bank and investment cash on deposit with the investment custodian. All deposits are carried at cost plus accrued interest. The following table is a schedule of the aggregate book and bank balances of all cash accounts as of June 30, 2010:

	REPORTED AMOUNT	BANK BALANCE
Pension Trust Fund	\$ 11,821,199	\$ 11,821,199
Operating Fund	673,636	673,636
<b>Total Deposits</b>	<b>\$12,494,835</b>	<b>\$12,494,835</b>

## INVESTMENTS

CORP investments are reported at Fair Value. Fair Values are determined as follows: Short-term investments are reported at cost which approximates fair value. Equity securities are valued at the last reported sales price. Fixed-income securities are valued using the last reported sales price or the estimated fair market value as determined by fixed-income broker/dealers. Directed real estate and venture capital investments are reported at fair value using appraisals to estimate the fair value. Appraisals will be performed every three years on a rolling schedule unless circumstances warrant otherwise. Investment income is recognized as earned.

Statutes enacted by the Arizona Legislature authorize the Board of Trustees to make investments in accordance with the "Prudent Man" rule. The Board of Trustees is not limited to so-called "Legal Investments for Trustees." In making every investment, the board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income from their funds as well as the probable safety of their capital, provided:

- 1) That not more than eighty percent of the combined assets of the system or other plans that the board manages shall be invested at any given time in corporate stocks, based on cost value of such stocks irrespective of capital appreciation.
- 2) That not more than five percent of the combined assets of the system or other plans that the board manages shall be invested in corporate stock issued by any one corporation, other than corporate stock issued by corporations chartered by the United States Government or corporate stock issued by a bank or insurance company.
- 3) That not more than five percent of the voting stock of any one corporation shall be owned by the system and other plans that the board administers, except that this limitation does not apply to membership interests in limited liability companies.

- 4) That corporate stocks and exchange traded funds eligible for purchase shall be restricted to stocks and exchange traded funds that, except for bank stocks, insurance stocks and membership interests in limited liability companies, are either:
- a) Listed or approved on issuance for listing on an exchange registered under the Securities Exchange Act of 1934, as amended (15 United States Code §78a through §78ll).
  - b) Designated or approved on notice of issuance for designation on the national market system of a national securities association registered under the Securities Exchange Act of 1934, as amended (15 United States Code §78a through §78ll).
  - c) Listed or approved on issuance for listing on an exchange registered under the laws of this [Arizona] state or any other state.
  - d) Listed or approved on issuance for listing on an exchange registered of a foreign country with which the United States is maintaining diplomatic relations at the time of purchase, except that no more than twenty percent of the combined assets of the system and other plans that the board manages shall be invested in foreign securities, based on the cost value of the stocks irrespective of capital appreciation.
  - e) An exchange traded fund that is recommended by the chief investment officer of the system, that is registered under the investment company act of 1940 (15 United States Code Section 80a-1 through 80a-64) and that is both traded on a public exchange and based on a publicly recognized index.

A.R.S. § 38-848.B as amended in 2008 authorized the Board of Trustees to commingle the assets of all the plans entrusted to its management, subject to the crediting of receipts and earnings and charging of payments to the appropriate employer, system or plan. As a result, the various assets of the Public Safety Retirement System, Elected Officials' Retirement Plan, and the Corrections Officer Retirement Plan were unitized beginning September 1, 2008 into the PSPRS Trust. Investments for each fund are allocated daily via a constant dollar unitization methodology. Realized and unrealized gains are allocated monthly using the same methodology.

At June 30, 2010, the fair market value of the PSPRS Trust and the allocation for each system and plan was as follows:

PLAN	UNITIZED	PERCENT
PSPRS	\$4,553,738,626	76.66%
CORP	1,108,804,113	18.67%
EORP	277,865,254	4.68%
<b>TOTAL</b>	<b>\$5,940,407,993</b>	<b>100.00%</b>

A small portion of the assets (cash and real estate) remain outside the comingled funds, representing less than 2 basis points of the total.

**CUSTODIAL CREDIT RISK**

Custodial Credit Risk is the risk that CORP will not be able (a) to recover deposits if the depository financial institution fails or (b) to recover the value of the investment or collateral securities that are in the possession of an outside party if the counterparty to the investment or deposit transaction fails. As of June 30, 2010, CORP has no fund or deposits that were not covered by depository insurance or collateralized with securities held by our banks' trust department or agent; nor does CORP have any investments that are not registered in the name of CORP or the PSPRS Trust and are either held by the counterparty or the counterparty's trust department or agent.

**CREDIT RISK**

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the Plan. As of June 30, 2010, the Plan's fixed income assets that were not government guaranteed represented 94.0% of the fixed income portfolio.

Each portfolio is managed in accordance with investment guidelines that are specific as to permissible credit quality ranges, exposure levels within individual quality tiers, and the average credit quality of the overall portfolios. According to those guidelines, the fixed income portfolio must have a minimum weighted average quality rating of A3/A-. Fixed income securities must have a minimum quality rating of Baa3/BBB- at the time purchase. The portion of the bond portfolio in securities rated Baa3/BBB- through Baa1/BBB+ must be 20% or less of the fair value of the fixed income portfolio.

Included in the fixed income portfolio are cash equivalents or commercial paper. Commercial Paper must have a minimum quality rating of A-1/P-1 at the time of purchase. Investments in derivatives are limited to collateralized mortgage obligations (CMO), collateralized bond obligations (CBO), collateralized debt obligations (CDO), and asset-backed securities (ABS).

In preparing this report, collateral for securities lending has been excluded because it is invested in a securities lending collateral investment pool.

The following tables summarize the Plan's fixed income portfolio exposure levels and credit qualities.

**AVERAGE CREDIT QUALITY AND EXPOSURE LEVELS OF NON-GOVERNMENT  
GUARANTEED SECURITIES**

<b>FIXED SECURITY TYPE</b>	<b>FAIR VALUE JUNE 30, 2010</b>	<b>% OF ALL FIXED INCOME ASSETS</b>	<b>WEIGHTED AVG. CREDIT</b>
Corporate Bonds	\$ 187,671,532	94.80%	AA
Mortgages	2,085,899	1.10%	Below BB
CBO	5,225,277	2.60%	A
CDO	2,874,117	1.50%	A
<b>Total</b>	<b>\$197,856,825</b>	<b>100.00%</b>	<b>AA</b>

**RATINGS DISPERSION DETAIL**

<b>CREDIT RATING LEVEL</b>	<b>CORPORATE BONDS</b>	<b>MORTGAGES</b>	<b>CBO</b>	<b>CDO</b>
AAA	\$ -	\$ 128,812	\$ -	\$ -
AA	173,943,320	-	-	-
A	6,962,698	-	4,341,943	2,874,117
BBB	6,484,872	-	-	-
Below BBB	280,642	1,957,087	883,334	-
<b>Total</b>	<b>\$187,671,532</b>	<b>\$2,085,899</b>	<b>\$5,225,277</b>	<b>\$2,874,117</b>

**CONCENTRATION OF CREDIT RISK**

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. Other than bonds used as direct obligations of and fully guaranteed by the U.S. Government, not more than 5% of the Fund or its fixed income portfolio at fair value shall be invested in bonds issued by any one institution, agency or corporation.

**INTEREST RATE RISK**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. This risk is managed within the portfolio using segmented time distributions. It is widely used in the management of fixed income portfolios in that it quantifies the risk of interest rate changes. The Plan does invest in fixed income securities with floating rates that contain coupon adjustment mechanisms in a rising interest rate environment.

The following tables quantify, to the fullest extent possible, the interest rate risk of the Plan's fixed income assets.

**SEGMENTED TIME DISTRIBUTION BY SECURITY TYPE**

(INCLUDING GOVERNMENT GUARANTEED SECURITIES)

<b>FIXED INCOME SECURITY</b>	<b>&lt;1</b>	<b>1-5</b>	<b>6-10</b>	<b>11-15</b>	<b>16-20</b>	<b>&gt;20</b>
Corporate	\$-	\$ 939,306	\$ 5,392,801	\$ 2,162,590	\$ 1,154,106	\$ 180,108,628
Agencies	-	-	4,765,010	3,091,592	2,303,529	2,394,206

**CALLABLE BONDS BY SECURITY TYPE**

(INCLUDING GOVERNMENT GUARANTEED SECURITIES)

<b>FIXED INCOME SECURITY TYPE</b>	<b>FAIR VALUE JUNE 30, 2010</b>	<b>% OF ALL FIXED INCOME ASSETS</b>
Corporate	\$ 1,957,476	0.99%
Agencies	-	0.00%
<b>Total</b>	<b>\$1,957,476</b>	<b>0.99%</b>

**FOREIGN CURRENCY RISK**

Foreign currency risk is the risk that changes in the foreign exchange rate will adversely impact the fair value of an investment. The PSPRS is allowed to invest part of its assets in foreign investments. According to Arizona state statutes, no more than twenty per cent of the combined assets of the system and other plans that the Board of Trustees manages shall be invested in foreign securities.

The following table shows the System's exposure to foreign currency risk (U. S. dollars):

<b>FOREIGN CURRENCY RISK</b>		
<b>CURRENCY TYPE</b>	<b>HOLDINGS</b>	<b>FAIR VALUE</b>
Australian Dollar	10,795	\$ 9,118
British Pound Sterling	26,827	40,136
Canadian Dollar	26,441	24,882
Danish Krone	22,250	3,659
Euro Currency Unit	15,401	18,864
Hong Kong Dollar	55,988	7,190
Israeli Shekel	55,337	14,257
Japanese Yen	15,225,592	172,060

Singapore Dollar	6,496	4,653
Swedish Krona	39,472	5,072
Swiss Franc	7,442	6,902
<b>Total Market Value</b>		<b>\$315,503</b>

**DERIVATIVES**

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indexes. They include futures contracts, options contracts, and forward foreign currency exchange. The Board of Trustees has adopted a derivative policy that specifically authorizes external investment managers to enter into certain derivative contracts based on an analysis that the use of such derivatives will have a positive impact on the Trust's ability to manage its underlying assets and liabilities. The PSPRS Trust investment program, indirectly through its external managers, holds investments in futures contracts. The external money managers enter into these certain derivative instruments primarily to enhance the performance and reduce the volatility of the PSPRS portfolio, to gain or hedge exposure to certain markets, and to manage interest rate risk. The external managers are required to follow certain controls, documentation and risk management procedures when employing these financial instruments.

The fair value exposure associated with these derivative instruments was recorded on the financial statements as a portion of the unrealized gains and losses related to U.S. Equity and Fixed Income. The total of unrealized losses for CORP was \$3,214,803 at June 30, 2010 consisting of U.S. Equity (loss of \$3,222,200) and Fixed Income (gain of \$7,397). Interest risk associated with these investments are included in the tables on page 33.

**SECURITY LENDING PROGRAM**

The Plan is party to a securities lending agreement with a bank. The bank, on behalf of the Plan, enters into agreements with brokers to loan securities and have the same securities returned at a later date. The loans are fully collateralized primarily by cash. Collateral is marked-to-market on a daily basis. Non-cash collateral can be sold only upon borrower default. The Plan requires collateral of at least 102% of the fair value of the loaned U.S. Government or corporate security. Securities on loan are carried at fair value.

As of June 30, 2010 the fair value of securities on loan was \$117,191,296 and the collateral was \$120,324,821 for Corrections Officer Retirement Plan. The Plan receives a negotiated fee for its loan activities and is indemnified for broker default by the securities lending agent.

The Plan participates in a collateral investment pool. All security loans may be terminated on demand by either the lender or the borrower. All matched loans shall have matched collateral investments. The total cash collateral investments received for unmatched loans (any loan for which the cash collateral has not been invested for a specific maturity) will have a maximum effective duration of 233 days. And, at least 20% of total collateral investments shall be invested on an overnight basis. At June 30, 2010, the weighted average maturity was 36 days for all investments purchased with cash collateral from unmatched loans. The Plan has no credit risk because the amounts owed to the borrowers exceed the amounts the borrowers owe to the Plan.

Prior to the current fiscal year, under this program, the Plan has not experienced any defaults or losses on these loans. However, in November 2008 CORP was informed that due to recent market events one or more securities lending collateral vehicles that held assets had been impaired. This potential liability will be realized upon settlement of the recovery process or if there becomes a liquidity issue with the collateral pool. A liability of \$2,037,367 has been recorded as CORP's share.

ASSET CLASS	OUT ON LOAN	TOTAL AVAILABLE TO LOAN	% OF AVAILABLE TO LOAN
Equities	\$ 110,197,609	\$ 454,541,556	24.24%

<b>Totals</b>	<b>\$117,191,296</b>	<b>\$1,100,199,431</b>	<b>10.65%</b>

#### NOTE 4: CAPITAL ASSETS

These assets are stated at cost, and depreciable assets are depreciated using the straight-line method over the estimated life of the asset. Repairs and maintenance are charged to expense as incurred. Depreciation expense for June 30, 2010 was \$41,291.

The table below is a schedule of the capital asset account balances as of June 30, 2009, and June 30, 2010, and changes to those account balances during the year ended June 30, 2010.

#### SCHEDULE OF CAPITAL ASSET ACCOUNT BALANCES

#### NOTE 5: CONTRIBUTIONS REQUIRED AND CONTRIBUTIONS MADE

The Retirement System's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The normal cost and actuarial accrued liability are determined using a projected unit credit actuarial funding method. Unfunded actuarial accrued liabilities and assets in excess of actuarial accrued liabilities are being amortized as a level percent of payroll over a twenty-six (26) year period. Beginning July 1, 2007, the minimum employer contribution rate was established at 6%.

During the year ended June 30, 2010, contributions totaling \$108,918,039 (\$54,437,078 employer [\$49,258,634 pension and \$5,178,444 health insurance subsidy contributions in excess of the benefits paid] and \$54,480,961 member) were made in accordance with contribution requirements determined by an actuarial valuation of the Plan as of June 30, 2008. The employer contributions consisted of approximately \$44,334,603 for normal cost [\$41,683,733 pension and \$2,650,870 health insurance subsidy] plus \$10,102,475 for amortization of the actuarial accrued liability in aggregate [\$7,574,901 pension and \$2,527,574 health insurance subsidy]. Employer contributions represented 7.49% of covered payroll [6.10% for normal costs (5.67% pension and .43% health insurance) and 1.39% for amortization of assets in excess of the actuarial accrued liability in aggregate (0.98% pension and 0.41% health insurance)]. Member contributions represented 7.96% (Dispatchers) and 8.41% (Non-Dispatchers) of covered payroll and are attributable to normal costs.

**NOTE 6: OTHER BENEFITS**

The PSPRS adopted a supplemental defined contribution plan for all contributing members of an eligible group. An eligible group is defined as the employees of the Board of Trustees, PSPRS, the CORP and the EORP. The employees of any of these eligible groups must make an election to participate within two years after the employee first meets the eligibility requirements to participate in the plan. The election to participate is irrevocable and continues for the remainder of the employee’s employment with the employer. If an employee elects to participate, the employee must contribute at least 1% of the employee’s gross compensation. The IRS maintains that the Employers designate the amounts contributed by each employee. All amounts contributed are subject to the discretion and control of the Employer. Employee contributions and earnings to the plan are immediately vested. Employer contributions, if any, are vested based on the following schedule:

Less than one year of service	0%
One year but less than two	20%
Two years but less than three	40%
Three years but less than four	60%
Four years but less than five	80%
Five years or more	100%

PSPRS administers the supplemental defined contribution plan through Nationwide Retirement Solutions, Inc. All contributions are sent directly to the third party administrator from the participating employer groups.

**NOTE 7: HEALTH INSURANCE SUBSIDY- AGENCY FUND**

The plan description, summary of significant accounting policies, investment policies and contributions required for the health insurance subsidy are the same as the retirement plan and can be found under Notes 1, 2 and 5. The health insurance premium subsidy provided by A.R.S. §38-857 consists of a fixed dollar amount set by statute and paid by the System on behalf of eligible retired members. The subsidized health benefits are provided and administered by the Arizona State Retirement System, Arizona Department of Administration or the participating employer of the retired member. According to Governmental Accounting Standards Board (GASB) Statement No. 43, the health insurance subsidy paid by the System represents other post employment benefits. The Plan does not administer a separate healthcare plan as defined under IRC §401(h) or an equivalent arrangement. In addition, the Plan is not statutorily authorized to maintain a separate account for the health insurance subsidy assets and benefit payments. Therefore, in accordance with GASB No. 43, the healthcare subsidy is reported as an agency fund. All assets of the Plan are available to pay both pension benefits and health insurance subsidy. The pension benefits and health insurance subsidy are funded through employer contributions based on an annual actuarial valuation. Contributions are separately accounted for by employer but are not segregated by contribution type.

Contributions in excess of the health benefit subsidy payments are reported in the retirement plan. Therefore, no accumulated assets or liabilities to participating employers are reported in the agency fund. For FY '10 contributions collected for the health insurance subsidy amounted to \$5,178,444 and the health benefit subsidy payments were \$2,372,104. The excess contributions of \$2,806,340 were added to the retirement plan for reporting purposes. Effective FY '08, each participating employer is required by GASB Statement No. 45 to disclose additional information with regard to funding policy, the employer’s annual OPEB cost and contributions made, the funded status and funding progress of the employer’s individual plan and actuarial methods and assumptions used.

**NOTE 8: PLAN TERMINATION**

CORP and its related plans are administered in accordance with Arizona statutes. These statutes do provide for termination of the plans under A.R.S. 41-3016.18. The plans are scheduled to terminate on July 1, 2016.

**NOTE 9: CONTINGENCIES**

Some of our real estate partners in the investments categorized as “other investments” have obtained third party financing, which is secured by real property. The Plan has entered into Capital Call Agreements with regards to these third party financing arrangements. The Capital Call Agreements, in the unlikely event of default, limit the Plan to the amount of the defaulted payment or the original terms of the investment approved by the Board of Trustees, whichever is less. In management’s opinion, any loss realized due to current economic conditions will not have a material effect on the financial statements.

As stated in Note 3 – Cash and Investments (under the Security Lending Program heading), the Plan was notified of a situation involving one or more security lending collateral vehicles that held assets which have been impaired as a result of recent market events. An estimate of the unrealized loss is approximately 11.3 million dollars for all three plans and has been recorded as a liability. It is anticipated that a final resolution will be reached this next fiscal year.

**NOTE 10: FUNDING STATUS AND PROGRESS**

The Plan's funded status (excluding health insurance subsidy) as of the most recent valuation data is as follows:

(IN THOUSANDS)

ACTUARIAL VALUATION DATE	ACTUARIAL VALUE OF ASSETS  (A)	ACTUARIAL ACCRUED LIABILITY  (B)	UNFUNDED AAL(UAAL)  (B-A)	FUNDED RATIO  (A/B)	ANNUAL COVERED PAYROLL  (C)	UAAL AS A % OF COVERED PAYROLL  ((B-A)/C)
06/30/10	\$1,382,144	\$1,648,733	\$266,589	83.8%	\$616,481	43.24%

The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The actuarial methods and assumptions used for the pension benefits are as follows:

Valuation Date:	June 30, 2010
Actuarial Cost Method:	Projected Unit Credit
Amortization Method:	Level Percent of Payroll, Closed
Remaining Amortization Period:	26 years closed for unfunded accrued actuarial liability, 20 years open for excess
Asset Valuation Method:	7-Year Smoothed Market Value
Investment Rate of Return:	8.5%
Projected Salary Increases:	5.50-8.50% which includes inflation at 5.50%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and the actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Consistent with this perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The actuarial calculations are based on the benefits provided under the terms of the Plan in effect at the time of each valuation. These benefits are described in Note 1 under "Summary of Benefits".

**NOTE 11: REQUIRED SCHEDULES**

The Schedule of Funding Progress and the Schedule of Employer Contributions are presented immediately following the notes to the financial statements.

## REQUIRED SUPPLEMENTARY INFORMATION

## SCHEDULE OF FUNDING PROGRESS

(IN THOUSANDS)

ACTUARIAL VALUATION DATE	ACTUARIAL VALUE OF ASSETS \$ (A)*	ACTUARIAL ACCRUED LIABILITY (AAL) AT ENTRY AGE \$ (B)*	UNFUNDED AAL (EXCESS) (UAAL) \$ (B-A)*	FUNDED RATIO (A/B)	COVERED PAYROLL \$ (C)	UAAL AS A PERCENTAGE OF COVERED PAYROLL ((B-A)/C)
06-30-01	776,177	554,387	(221,790)	140.0%	339,783	(65.3)%

06-30-09	1,309,124	1,515,563	206,439	86.4%	630,825	32.7 %
06-30-10	1,382,144	1,648,733	266,589	83.8%	616,481	43.24%

\* Entry Age Normal Cost method through 6-30-05. Projected Unit Credit method from 6-30-06 to the present.

\* Beginning 6-30-07, funded ratio calculation does not include AAL for the health insurance premium subsidy. If the AAL for the health insurance premium subsidy were included, the funded ratio would be 84.6% for 2007, 86.8% for 2008, 82.6% for 2009, and 80.3% for 2010.

\* See Notes to the Schedules of Required Supplementary Information.

## SCHEDULE OF EMPLOYER CONTRIBUTIONS

## EMPLOYER CONTRIBUTIONS

FISCAL YEAR ENDED JUNE 30,	ANNUAL REQUIRED CONTRIBUTIONS	PERCENTAGE CONTRIBUTED
2001	\$14,927,396	100.00%
2002	7,101,112	100.00%
2003	7,397,595	100.00%
2004	14,555,335	100.00%
2005	16,291,914	100.00%
2006	24,028,050	100.00%
2007	22,709,507	120.00% *
2008	43,858,925	108.00% *
2009	53,807,249	108.10% *
2010	52,064,974	105.39% *

\* Total Employer Contributions received during FY'07 were \$24,622,693. GASB reporting requires discretely reporting the health insurance subsidy separately from the retirement plan. As a result, the annual required contributions for the health insurance subsidy were calculated to be \$5,742,051. The benefits paid for the health insurance subsidy were \$1,913,186. The difference between the calculated annual required contributions and the benefits paid of \$3,828,865 were then added back to the annual required contributions for the retirement plan. This required calculation resulted in a percent contributed of 120.0% for the retirement plan.

\* Total Employer Contributions received during FY'08 were \$150,729,218. This included \$104,797,048 for a group transfer from Arizona State Retirement System to CORP. This amount was not used in the ARC calculation. GASB reporting requires discretely reporting the health insurance subsidy separately from the retirement plan. As a result, the annual required contributions for the health insurance subsidy were calculated to be \$5,398,020. The benefits paid for the health insurance subsidy were \$2,073,245. The difference between the calculated annual required contributions and the benefits paid of \$3,324,775 were then added back to the annual required contributions for the retirement plan. This required calculation resulted in a percent contributed of 108.0% for the retirement plan.

\*Total Employer Contributions received during FY'09 were \$56,015,138. GASB reporting requires discretely reporting the health insurance subsidy separately from the retirement plan. As a result, the annual required contributions for the health insurance subsidy were calculated to be \$6,245,994. The benefits paid for the health insurance subsidy were \$2,207,889. The difference between the calculated annual required contributions and the benefits paid of \$4,038,105 were then added back to the annual required contributions for the retirement plan. This required calculation resulted in a percent contributed of 108.1% for the retirement plan.

\* Total Employer Contributions received during FY'10 were \$54,437,078. GASB reporting requires discretely reporting the health insurance subsidy separately from the retirement plan. As a result, the annual required contributions for the health insurance subsidy were calculated to be \$5,178,444. The benefits paid for the health insurance subsidy were \$2,372,104. The difference between the calculated annual required contributions and the benefits paid of \$2,806,340 were then added back to the annual required contributions for the retirement plan. This required calculation resulted in a percent contributed of 105.4% for the retirement plan.

\* See Notes to the Schedules of Required Supplementary Information.

REQUIRED SUPPLEMENTARY INFORMATION

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

**ACTUARIAL METHODS AND ASSUMPTIONS FOR VALUATIONS PERFORMED JUNE 30, 2010**

The projected unit credit actuarial cost method of valuation is used in determining liabilities and normal cost. Differences in the past between assumed experience and actual experience (actuarial gains and losses) become part of actuarial accrued liabilities. Unfunded actuarial accrued liabilities are amortized to produce payments (principal and interest), which are expressed as a percent of payroll. An open 20-year amortization period for excess and a closed 26-year amortization period were used for the June 30, 2010 valuations. The actuarial value of assets is based on a method that fully recognizes expected investment returns and averages unanticipated market return over a 7-year period. The investment return rate assumption used is 8.5% per year, compounded annually (net of investment expenses). Projected salary increase assumptions are based on 5.5%, which include a price inflation assumption of 5.5% per year.

Each of the 26 participating employer groups has its own actuarial study. Data presented here is an aggregation of the data from each individual plan study. The data should not be interpreted as being indicative of the status of any individual plan.

Actuarial valuations are prepared annually as of June 30 for each participating employer. To facilitate budgetary planning needs, employer contribution requirements are provided for each participating employer's fiscal year that commences after the following fiscal year end. For example, the contribution requirements for fiscal year 2010 were determined by actuarial valuations as of June 30, 2008.

(IN THOUSANDS)**

ACTUARIAL VALUATION DATE	ACTUARIAL VALUE OF ASSETS (A)	ACTUARIAL ACCRUED LIABILITY (B)	UNFUNDED AAL(UAAL) (B-A)	FUNDED RATIO (A/B)	ANNUAL COVERED PAYROLL (C)	UAAL AS A % OF COVERED PAYROLL ((B-A)/C)
06/30/07	0	\$48,990	\$48,990	0.0%	\$515,428	9.5%
06/30/08	0	53,701	53,701	0.0%	642,621	8.4%
06/30/09	0	68,731	68,731	0.0%	630,825	10.9%
06/30/10	0	73,272	73,272	0.0%	616,481	11.9%

\* GASB reporting requires discreetly reporting the health insurance premium subsidy separately from the retirement plan. As a result, the funded ratio for the retirement plan does not include this portion for the health insurance premium subsidy. If you include the actuarial accrued liabilities for the health insurance premium subsidy with the retirement plan, the funded ratio for 2007, 2008, 2009 and 2010 would be 84.6%, 86.8%, 82.6% and 80.3% respectively.

December 3, 2010

Members:

As the Chief Investment Officer of the Public Safety Personnel Retirement System (PSPRS) during the fiscal year beginning July 1, 2009 and ending June 30, 2010, I submit the following comments and observations for your consideration and for the consideration of the respective parties in interest of the System:

**HISTORY**

Until recently the investment activities of PSPRS focused on internally managed domestic public securities (Stocks and Bonds), with some allocations to Arizona Real Estate. As with “baskets and eggs” this created concentrations of risks, particularly a concentration of risk in U.S. large Cap growth stocks. When U.S. domiciled equities did well, so did PSPRS. When U.S. equities performed poorly, so did PSPRS with a corresponding erosion in our funding ratios. While each of the System’s Plans have slightly different liabilities and slightly different funding ratios, the trend in funding ratios has been down during the last several years. While it might be argued that going up high in good years offsets going down low in bad years, a simple illustration demonstrates the continuing problems with this volatility.

*Assume that a fund begins a year with \$100.00 and in that year suffers a 20% loss, ending with a balance of \$80.00. In the next year assume that the markets recover and the fund increases in value 20%. This new return brings the fund only back to \$96.00. Over this two year example the fund’s net return is negative. In the case of retirement funds with demographics similar to ours, during this two year period the liabilities of the fund would continue to grow unabated and the funding ratio of the fund would decline.*

Our historic performance with large concentrations in U.S. equities has been extremely volatile, reflecting major losses in asset value resulting from the “Dot Com” market decline early in the decade and the most recent economic and financial market calamities. This volatility over our last ten years demonstrates precisely the example cited above as follows:

<b>FY</b>	<b>Return %</b>	<b>FY</b>	<b>Return%</b>
2010	13.47	2005	9.23
2009	-17.99	2004	14.77
2008	-7.05	2003	6.15
2007	16.77	2002	-14.73
2006	8.19	2001	-17.07

This return distribution has six up years and four down years. The average return per year is about +1.17% with an arithmetic return of +11.74%. But that return is deceiving. Because of the “Time Value of Money” and compounding effects, the PSPRS 10 year return is really +0.28%. Our liabilities compounded to an amount more than that, thus reducing our funding ratios. During this period PSRPS investment managers have consistently outperformed but that relative outperformance was outpaced by the portfolio volatility driven by extreme reliance on Domestic Equities. In the universe of public pension plans, manager outperformance cannot overcome asset allocation performance as asset allocation usually accounts for more than 85% of total fund performance.

**2008 TO THE PRESENT**

Recognizing these problems the PSPRS Administrator and the PSPRS Board began a program to broadly diversify the Fund's asset allocation and manager concentration. There was significant progress to this end in 2008-2009 which has continued through fiscal year 2009-2010. U.S. Equity exposure has been reduced from about 65% in 2007 to about 24% in 2010. Total equities have been reduced from about 73% of the portfolio in 2007 to about 41% in 2010. Within equities, the Fund currently enjoys exposures to domestic equities, developed international equities and to emerging and to frontier markets. Current asset allocation targets will reduce our total equity exposures to about 35% of the total portfolio with true global diversity.

The large historic equity exposures have been replaced with allocations to Credit Opportunities, Real Assets (Timber, Commodities, Infrastructure etc.) Global Tactical Asset Allocation (GTAA) Strategies, Private Equity, Real Estate and Absolute Return Strategies. The specific purpose of this diversification is to generate returns from multiple asset classes, multiple geographies and multiple strategies. This means that we will not "live or die" by one asset class, one geography and one strategy. Our financial eggs are distributed widely in different baskets, many of which go up when others go down or are largely uninfluenced by events which "spoil a basket" in another area.

In the Fiscal year 2008-2009 the effect of this diversification proved immediately valuable. While the fund was down more than 17% in that time frame, we would have been down much more if we had kept our traditional equity allocation. Many of our peers were down significantly more than 20%.

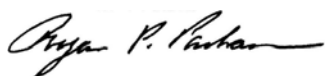

In this fiscal year 2009-2010, equities had a strong recovery. We participated in that recovery and returned 13.47% for the total fund net of fees. However, consistent with our strategy, our participation was not solely dependent upon equities. For example, our credit opportunities portfolio of approximately one half of a billion dollars returned 33.85% in this time period. That return was generated in positions higher in the capital structure (including in many cases credit tranches that were AAA and AA rated) than equities, with significantly more downside protection than equities could have provided. In this situation, the System's Plans benefited from more return than equities would have given us and with less risk.

The Fund's fiduciary consultant NEPC, has recently confirmed the System's Investment Department's staff's assessment that our current asset allocation delivers a higher probability of reaching our assumed earnings rate of return of 8.25% with significantly less risk. In all likelihood we will continue to participate in most of the market's upside but also have significantly less participation in the market's downside.

**CONCLUSION**

The continued diversification of the fund will enable the System's Plans to generate better risk adjusted returns than was the case with PSPRS' historic allocations and will help to protect funding ratios from the effects of exaggerated volatility. When combined with expected continued manager outperformance, this diversification should in the mid and long term, improve PSPRS funding ratios and enhance the stability of our System.

Respectfully Submitted,

Ryan Parham

FUND INVESTMENT OBJECTIVES

The objective of the Fund is to ensure the integrity of the Elected Officials’ Retirement Plan, Public Safety Personnel Retirement Plan and the Corrections Officer Retirement Plan in order to adequately fund benefit levels for members as stated in Title 38, Chapter 5, Articles 3,4 and 6 of the Arizona Revised Statutes and as amended from time to time by the Legislature. To achieve the objective, the Fund will do the following:

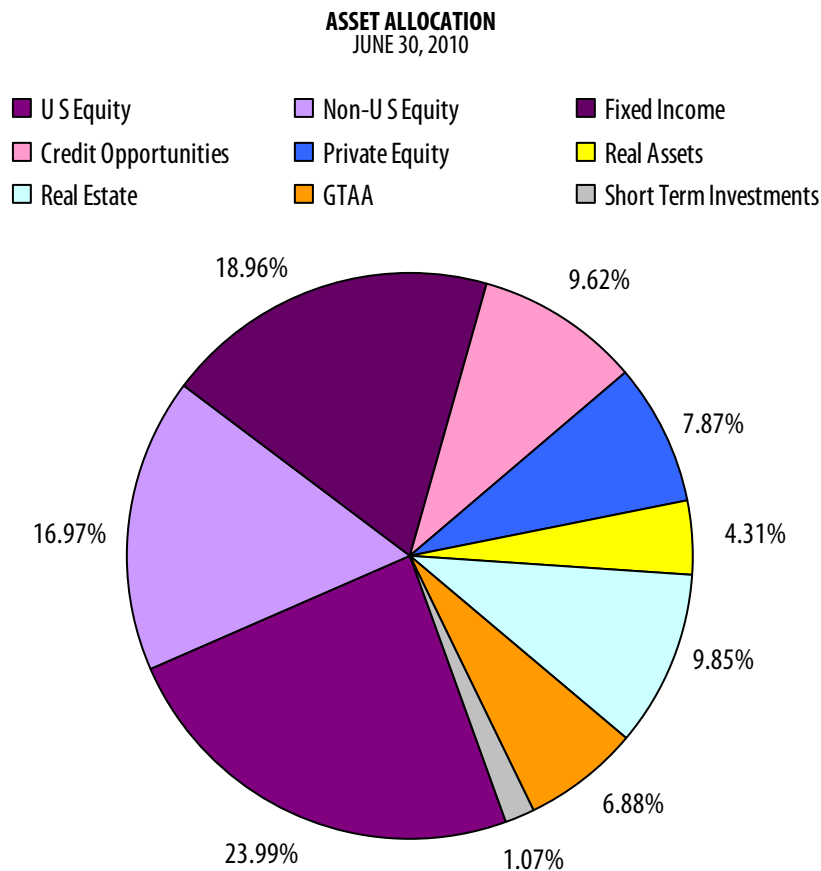

- Maintain a goal for the Fund’s assets to be equal to the Fund’s liabilities within a twenty year period.
- Annually adjust the employer contribution rates based on the recommendations made by the annual actuarial evaluations.
- Determine a reasonable contribution rate necessary to fund benefits approved by the legislature and then reduce the variation in the employer contribution rate over time to the Fund.
- Preserve and enhance the capital of the Fund through effective management of the portfolio in order to take advantage of attractive opportunities various markets and market sectors have to offer.
- Provide the opportunity for increased benefits for retirees as the legislature may from time to time enact through systematic growth of the investment fund.

Consistent with the Fund objectives, the primary investment objective of the Fund is to maximize long-term real (after inflation) investment returns recognizing established risk (volatility) parameters and the need to preserve capital by:

- Deriving a reasonable asset allocation model that attempts to fully achieve the primary investment objective, over the long term,
- Consistent with these objectives and the direction of the Board of Trustees, strategically allocating within asset classes and investment styles in order to enhance investment returns.
- Regularly reviewing the status of investments,
- Regularly assessing the need to adjust the mix, type and composition of the investment classes within the allocation ranges.

The possibility of short-term declines in the market value of the Fund or the Fund’s assets is a recognized consequence of achieving potentially higher long-term investment returns.

The time horizon for evaluating total Fund investment performance shall be long-term.

Re: Arizona Corrections Officer Retirement Plan Actuarial Valuation as of June 30, 2010

Ladies and Gentlemen:

The results of the June 30, 2010 annual actuarial valuations of members covered by the Arizona Corrections Officer Retirement Plan (CORP) are presented in this report. The purpose of the valuations is to measure CORP's funding progress and to establish contribution rates for the 2011-2012 fiscal year.

The valuations are based upon current plan provisions of the Arizona Corrections Officer Retirement Plan. All promised benefits are included in the actuarially calculated contribution rates. These provisions are summarized in Section F.

In preparing this report we relied, without audit, on information (some oral and some written) supplied by the State Retirement System. This information includes, but is not limited to, statutory provisions, employee and retiree census, and financial information. In our examination of this data, we have found it to be reasonably consistent and comparable with data used for other purposes. Since the valuation results are dependent on the integrity of the data supplied, the results can be expected to differ if the underlying data is incomplete or missing. It should be noted that if any data or other information is inaccurate or incomplete, our calculations may need to be revised.

GRS's work product was prepared exclusively for the Arizona Corrections Officer Retirement Plan for a specific and limited purpose. It is a complex, technical analysis that assumes a high level of knowledge concerning the System's operations, and uses System data, which GRS has not audited. It is not for the use or benefit of any third party for any purpose. Any third party recipient of GRS's work product who desires professional guidance should not rely upon GRS's work product, but should engage qualified professionals for advice appropriate to its own specific needs. Any distribution of this report must be provided in its entirety including this cover letter, unless prior written consent is obtained from GRS.

The valuations were completed by qualified actuaries in accordance with accepted actuarial procedures prescribed by the Actuarial Standards Board. All of the actuaries submitting this report are Members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, this report is complete and accurate and the actuarial methods and assumptions produced results that are reasonable.

Respectfully submitted,

Brian B. Murphy, F.S.A., M.A.A.A.

Mark Buis, F.S.A., M.A.A.A.

Cathy Nagy, F.S.A., M.A.A.A.

**ACTUARIAL SECTION**

**SUMMARY OF VALUATION ASSUMPTIONS**

**ECONOMIC ASSUMPTIONS**

Interest Rate: 8.50% (net of expenses)

Salary Increases: 5.50% for inflation

**DEMOGRAPHIC ASSUMPTIONS**

Retired Member Non-Disability Mortality Rates: RP2000 Health Annuitant Mortality Table, male ages set forward 2 years and female ages set forward 2 years.

Active Member Non-Disability Mortality Rates: RP2000 Health Annuitant Mortality Table, male ages set forward 3 years and female ages set forward 3 years.

**HEALTHY MORTALITY TABLES**

This assumption is used to measure the probabilities of each benefit payment being made after retirement.

For disabled members, non-disability rates with a five year set forward were used.

**MORTALITY RATES AND LIFE EXPECTANCY**

**RETIRED MEMBERS**

SAMPLE AGES	PROBABILITY OF DYING NEXT YEAR		FUTURE LIFE EXPECTANCY (YEARS)	
	MEN	WOMEN	MEN	WOMEN
50	.56%	.26%	28.39	31.42
55	.64%	.44%	24.16	26.89
60	.99%	.77%	20.00	22.58
65	1.65%	1.25%	16.09	18.55
70	2.73%	2.07%	12.54	14.82
75	4.69%	3.41%	9.42	11.50
80	8.05%	5.63%	6.81	8.62

**MORTALITY RATES AND LIFE EXPECTANCY**

**ACTIVE MEMBERS**

SAMPLE AGES	PROBABILITY OF DYING NEXT YEAR		FUTURE LIFE EXPECTANCY (YEARS)	
	MEN	WOMEN	MEN	WOMEN
50	.26%	.21%	30.38	34.23
55	.40%	.33%	25.80	29.63
60	.65%	.50%	21.37	25.17
65	.91%	.69%	17.09	20.84
70	3.04%	2.30%	13.27	16.96
75	5.21%	3.76%	10.55	14.17
80	8.97%	6.25%	8.74	12.26

Retirement Rates: Service related rates based on the following schedule

**PERCENT OF ACTIVE MEMBERS RETIRING WITHIN YEAR  
FOLLOWING ATTAINMENT OF INDICATED YEARS OF SERVICE**

SERVICE IN YEARS	% RETIRING NEXT YEAR	SERVICE IN YEARS	% RETIRING NEXT YEAR	SERVICE IN YEARS	% RETIRING NEXT YEAR
20	30%	25	40%	30	30%
21	30%	26	40%	31	30%
22	25%	27	30%	32	65%
23	25%	28	15%	33	65%
24	25%	29	15%	34	100%

Active members are eligible to retire normally at any age with 20 years of service (25 years for dispatchers), at age 62 with 10 years of service, or when a combination of age and credited service is equal to or greater than 80 years.

These rates adopted by the Board of Trustees, as recommended by the Plan's actuary, were first used for the June 30, 2007 valuation.

## SUMMARY OF VALUATION ASSUMPTIONS

**MISCELLANEOUS AND TECHNICAL ASSUMPTIONS****MARRIAGE ASSUMPTION**

90% of males and females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses for active member valuation purposes.

**PAY INCREASE TIMING**

Six months after the valuation date.

**DECREMENT TIMING**

Decrements of all types are assumed to occur mid-year.

**ELIGIBILITY TESTING**

Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.

**DECREMENT RELATIVITY**

Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.

**DECREMENT OPERATION**

Disability and turnover decrements do not operate during retirement eligibility.

**SERVICE CREDIT ACCRUALS**

It is assumed that members accrue one year of service credit per year.

**INCIDENCE OF CONTRIBUTIONS**

Contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made.

**NORMAL FORM OF BENEFIT**

A straight life payment is the assumed normal form of benefit for members who are not married, and the 75% Joint and Survivor form of payment with no reduction, for married members. 90% of members are assumed to be married at time of retirement.

**BENEFIT SERVICE**

Exact fractional service is used to determine the amount of benefit payable.

**NORMAL COST PERCENTAGE**

For the purposes of calculating the Normal Cost as a percent of payroll under the Projected Unit Credit Cost Method, the Normal Cost was projected with interest to the applicable Fiscal Year and divided by the Payroll projected with wage base to the applicable Fiscal Year.

**HEALTH CARE UTILIZATION**

80% of future retirees are expected to utilize health care. 90% of those are assumed to be married.

**SOLVENCY TEST**

Testing the financial solvency of a retirement plan can be done in several ways. The funding objective is to meet long-term benefit promises through contributions that remain approximately level from year to year as a percent of member payroll. If the contributions to the plan are level in concept and soundly executed, and if the plan continues its present operations pattern for the indefinite future, the plan will pay all promised benefits when due - the ultimate test of financial soundness.

A short term solvency test is one means of checking a plan's progress under its funding program. In a short term solvency test, the plan's present assets (cash and investments) are compared with:

- Active member contributions on deposit.
- The liabilities for future benefits to present retired lives.
- The liabilities for service already rendered by active members.

In a plan that has been following the discipline of level percent of payroll financing, the liabilities for active member contributions on deposit (liability 1) and the liabilities for future benefits to present retired lives (liability 2) will be fully covered by present assets (except in rare circumstances). In addition, the liabilities for service already rendered by active members (liability 3) will be partially covered by the remainder of present assets. Generally, if the plan has been using level cost financing, the funded portion of liability 3 will increase over time. Liability 3 being fully funded is very rare. All amounts presented are in thousands.

**FINANCIAL TRENDS**

SUMMARY

The Statistical Section provides additional historical perspective, context, and detail to assist the reader in using the information in the financial statements, notes to the financial statements and required supplemental information to understand and assess the economic condition of CORP.

Financial trend information is intended to assist users in understanding and assessing the changes in the financial position over time. Schedules and charts presenting financial trend information are Schedule of Changes in Net Assets, Schedule of Revenue by Source, Schedule of Expenses by Type, Deductions from Net Assets for Benefits and Refunds by Type, Valuation Assets vs. Pension Liabilities, and Contribution Rates.

Operating information is intended to provide contextual information about the operations and resources of CORP to assist readers in using financial statement information to understand and assess the economic condition. Schedules and charts presenting operating information are Membership in the Retirement Plan\*, Principal Participating Employers, Benefit Participants by Location, Summary of the Growth of the Plan, Benefits Payable\*, Average Monthly Benefit Amounts\*, Summary of Benefit Increases\*, Schedule of Changes in Employers' Reserve Balances, Schedule of Changes in Refundable Member Reserve Balances, Schedule of Employers' Earnings Distribution, and Participating Employers.

Schedules and information are derived from CORP internal sources unless otherwise indicated.

\* Schedules and data are provided by actuarial consultant Gabriel Roeder Smith & Company.
