The **Purpose** of the Public Safety Personnel Retirement System is to provide *uniform, consistent, and equitable* statewide retirement programs for those who have been entrusted to our care.

This is accomplished through our **Guiding Principles** where

A spirit of **Gratitude** inspires all of our actions, thereby *fostering* a culture of unparalleled *service* to others through which *growth* is nurtured, *progress* is developed, and *results* are achieved.

Trust is engendered by *transparency* of our decisions and *accountability* for our actions as measured against sound *expectations*.

We recognize that **Respect** for the *individual* strengthens the *whole* and is only earned by genuinely *understanding* and *fulfilling* the needs of others through *appropriate, timely* and *clear communication* and *education*.

December 31, 2018

Dear Members, Benefit Recipients, Employers, and Members of the Board of Trustees:

We are pleased to present the fiftieth Comprehensive Annual Financial Report (CAFR) for the Public Safety Personnel Retirement System (PSPRS), the thirty-seventh for the Elected Officials' Retirement Plan (EORP), and the thirty-second for the Corrections Officer Retirement Plan (CORP), (collectively the System) for the fiscal year ended June 30, 2018 (FY18), in accordance with the provisions of A.R.S. § 38-848. The information contained in this report is accurate in all material respects and is intended to present fairly the financial status and results of operations of the System.

Responsibility for the contents of this report, including the financial statements, rests solely with the management of the System. The Board of Trustees provides an oversight role. This transmittal letter is designed to complement Management's Discussion and Analysis and should be read in conjunction with it.

Plan Overview

PSPRS was created on July 1, 1968 by A.R.S. § 38-841, for public safety personnel who are regularly assigned hazardous duty in the employ of the state of Arizona or a political subdivision thereof. It was joined by EORP on August 7, 1985, by A.R.S. § 38-802, when the Judge's Retirement Plan merged with the previous Elected Officials' Retirement Plan. EORP is for eligible judges and state, county and local elected officials of participating governmental employer units. Finally, on July 1, 1986, CORP was added by A.R.S. § 38-882 for corrections officers, county, city or town detention officers, dispatchers and probation officers. Each plan was created to provide a uniform, consistent and equitable statewide program for their respective eligible members.

PSPRS and CORP are agent multiple-employer defined benefit plans and are administered at the local level by 229 (PSPRS) and 28 (CORP) individual local boards in accordance with A.R.S. §§ 38-847 and 38-893. As agent multiple-employer plans, the assets and liabilities of each individual local board are accounted for separately, thereby allowing for individual funding levels and employer contribution rates. EORP is a cost-sharing, multiple-employer defined benefit plan where the Board administers and manages the plan. As such, the assets and liabilities of EORP are pooled for all the employers who share the same funding level and employer contribution rate. EORP was closed to newly elected officials as of January 1, 2014. All the assets of PSPRS, EORP and CORP are pooled for investment purposes only and reside in the PSPRS Trust, a formal entity created for that express purpose.

Individual local boards for PSPRS and CORP determine eligibility for membership, normal retirement benefits (based on years of service, the annual benefit accrual rate and final average compensation), disability benefits, and survivor benefits for spouses and children. The Board of Trustees fulfills these functions for EORP.

The contributions received from and benefits distributed for each local board and EORP are accounted for by the Board through the administrative offices. However, in accordance with A.R.S. § 38-848, the Board is not responsible for nor has the duty to review the actions or omissions of the individual local boards, but does have the discretion to seek review or rehearing (and does so) to protect the System as a whole. Additionally, although not part of a defined benefit plan or the Trust, the Board also administers the separate Public Safety Cancer Insurance Policy Program for members of PSPRS and CORP. The Board also administers defined contribution plans and has contracted with a third-party administrator to manage those plans.

Financial Information Reporting

Financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and reporting guidelines set forth by the Governmental Accounting Standards Board. We have received a “clean” opinion from Heinfeld, Meech & Co., P.C., Certified Public Accountants and auditors for the System. This unmodified opinion can be found at the beginning of the Financial Section. Management believes that all other financial information included in this annual report is consistent with those financial statements.

It is the System’s policy to have and maintain an effective system of accounting controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss or unauthorized disposition and the reliability of the financial records from which the financial reports are prepared. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgment by management. Management believes that as of June 30, 2018, an adequate system of internal controls is in place and that the accompanying statements, schedules and tables are fairly presented.

Investments

Investment portfolio income is a significant source of revenue for the PSPRS plans. In FY18 our investment portfolio provided net investment income of \$651.59 million. The rate of return over the fiscal year was 7.07 percent net of fees. Over the past five years, the portfolio has an annualized, net of fees rate of return of 7.18 percent, slightly below our assumed rate of return of 7.4 percent.

Our portfolio is a well-diversified portfolio. The portfolio is strategically allocated to provide appropriate diversification that limits the impact when markets experience losses. Both traditional and nontraditional assets are incorporated into the asset allocation mix. Because the portfolio is less risky and less volatile than the vast majority of our peers, we won’t likely be hitting homeruns when the stock market advances (like it has over the past few years), but we will likely outperform our peers when the markets correct or grow stagnant. You can read more about the portfolio and our returns in the CIO’s letter at the front of the Investment Section of this CAFR.

The System’s Funding Status

Fiduciary Net Position grew from \$9.3 billion to \$9.8 billion in FY18, despite paying out benefits of \$1 billion during the year. We were also required to provide contribution credits of more than \$220 million to employers as a result of the Arizona Supreme Court overturning provisions of state law passed by the legislature in 2011 that increased member contribution rates in PSPRS and EORP. The Court determined that an increase in employee contribution rates from 7.65 percent of pay to 11.65 percent of pay for PSPRS active members and from 7 percent to 13 percent of pay for EORP active members was unconstitutional and needed to be refunded with interest.

Legislation was passed in 2017 that replaced the Permanent Benefit Increase (PBI) with a CPI-based Cost of Living Adjustment (COLA) for EORP and CORP retirees. That provision, however, needed to be approved via voter referendum before it became law. In 2018, Arizona voters approved the provision, which lowered pension liabilities in both plans.

In an attempt to help employers saddled with high pension costs, legislation was passed in 2017 allowing individual employers to increase their amortization period from 20 years to up to 30 years. While this measure increases total pension costs for those employers over the long run, the costs are spread over a longer period of time, providing some short-term relief. 10 employers took advantage of this one-time opportunity to extend their amortization period in FY18.

While it is important to have contribution rates that employers can afford, it is even more important that the plans we administer remain sustainable long-term. Legislation was passed in 2018 that shored up EORP by requiring contribution rates to adjust annually, based on the annual actuarial valuation. Prior to that, employers paid a fixed 23.5 percent, substantially below the amount needed to sustain the plan on a long-term basis. EORP employer contribution rates rose to 61.5 percent in FY19 as a result.

Due to the events listed above, the financial health of each plan improved slightly during fiscal year 2018. There are many factors that contribute to changes in the funding levels, some having a greater effect than others. Below is a reconciliation from June 30, 2017 to June 30, 2018 showing those contributing factors and their relative effect on the funded status of each plan, including both the pension and Other Post-Employment Benefit (OPEB) assets and liabilities, at the aggregate level:

Funded % as of	PSPRS	EORP	CORP
June 30, 2017	46.6%	32.6%	51.5%
Asset Losses	(0.3)%	(0.6)%	(0.4)%
Payroll Growth	0.2%	(0.1)%	1.1%
COLA or PBI Gain/(Loss)	(0.1)%	0.8%	0.6%
Hall/Parker Settlement	(0.7)%	(2.0)%	0.0%
Benefit Changes	0.0%	3.7%	2.9%
Other	1.3%	(0.9)%	0.4%
June 30, 2018	47.0%	33.5%	56.1%

Asset Losses

One of the potentially largest contributing factors to contribution rates and funded status are investment returns. In order to calculate appropriate contribution rates today to pay for future pension liabilities, assumptions must be made about future behavior and one of those assumptions is the long-term rate of return that will be made on the investments of the Trust. For June 30, 2018, the assumed rate of return was 7.4%. While the actual rate of return was 7.1% (net of fees), investment returns are actuarially spread over a seven-year smoothing period to soften the effects of volatility on the contribution rates and funding levels. Over that seven-year period the portfolio earned approximately 6 percent (net of fees), resulting in actuarial losses for all three plans.

Payroll Growth

Actuaries also make assumptions about how quickly payroll will grow, allowing them to determine future salaries upon which benefits will be determined as members retire. Payroll growth includes salary and merit increases, inflation, overtime (for PSPRS only) and growth in the number of employees. The payroll growth assumption was lowered from 4.0% to 3.5% in FY17. Gains in this category tells us that salaries did not grow this past year as quickly as expected, thereby decreasing future liabilities and increasing the funding level.

COLA or PBI Gain/(Loss)

When calculating actuarial liabilities, actuaries make assumptions about the probability of retirees receiving permanent benefit increases in future years. PSPRS retirees received a 2 percent cost of living allowance on July 1, 2018, slightly higher than the assumed 1.75 percent. EORP and CORP retirees did not receive a permanent benefit increase on July 1, 2018 because investment returns were not large enough to trigger increases.

Hall/Parker Settlement

As a result of the *Hall* and *Parker* lawsuits, certain Tier 1 PSPRS and EORP members were given approximately \$220 million in refunds of contributions the Arizona Supreme Court declared to be unconstitutional.

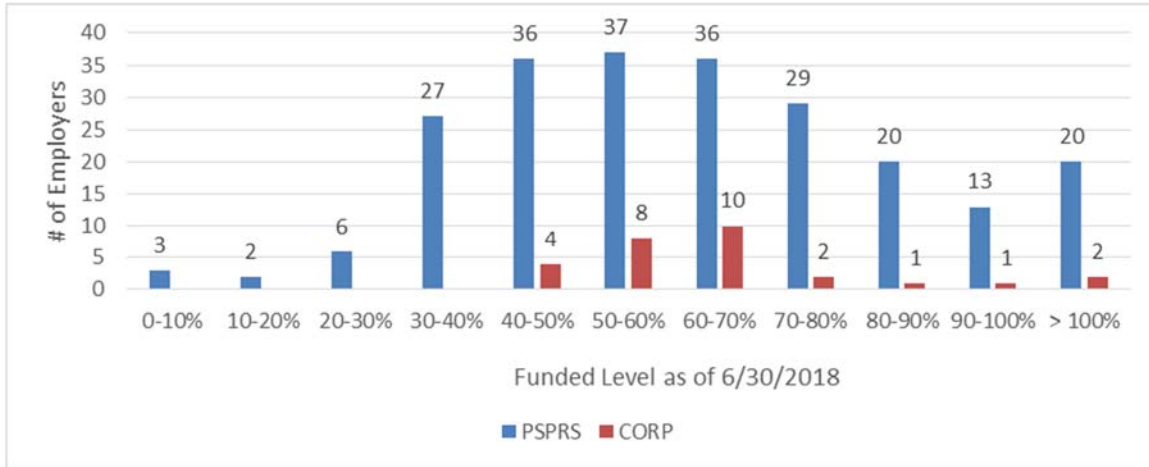

Benefit Changes

As noted earlier, Arizona voters passed a referendum in 2018 that replaced the PBI with a COLA for EORP and CORP retirees that is CPI-based, capped at 2%.

Other

This is the combination of all factors other than those listed above and primarily reflects demographic gains and losses due to experience that differs from actuarial assumptions.

While the numbers above are presented in the aggregate, it is important to remember that any aggregate number calculated for PSPRS and CORP is for comparison and overall general monitoring purposes only and does not necessarily reflect the most accurate picture of the System as a whole. Because PSPRS and CORP are agent multiple-employer plans, each individual employer has its own funding level. Therefore, another useful and appropriate representation for PSPRS and CORP is a distribution of those employers by their individual funding status as of June 30, 2018, as shown in the following chart:

Employer Contribution Rates

Results of the June 30, 2018 actuarial valuation determine contribution rates that will become effective in Fiscal Year 2020, which begins on July 1, 2019. For most employers, contribution rates will either decrease or will increase less than 1 percent in FY20. A distribution graph representing those individual plan rates is provided below.

New Developments and Management Initiatives

Pension reform measures passed by the Legislature in 2016 and 2017 brought about an incredible amount of change to the pension plans administered by PSPRS, which continued into FY18. As a result, PSPRS staff spent much of the fiscal year rewriting the pension system software used by staff, employers, local boards and members. New secure web portals were rolled out to members, local boards and employers. Countless staff hours were spent working directly with employers as they began sending contribution files electronically.

Those files are being validated by our new software at the time they are submitted to make sure contribution data is accurate and thorough. Once contribution data is submitted, employers can make payments electronically using a secure online portal. Employers are now also sending demographic information electronically and have the ability to look up certain information about their employees online. New Tier 3 members have several new sources of information to learn more about their benefit provisions, and PSPRS Tier 3 members make their plan elections in the updated Members Only Portal.

A new initiative to provide training to local boards and employers at various locations across the State of Arizona was begun in FY18. We hired an Employer Relationship Manager to team up with our Local Board Relationship Manager, and they conducted training events across Arizona, making it easier for employers and local board members to receive individual attention. We also hosted an all-day educational Local Board/Employer Seminar in Phoenix that was attended by almost 300 people. In FY19 we will expand those educational opportunities.

A new Defined Contribution (DC) Plan was rolled out July 1, 2017 for PSPRS Tier 3 members (and Tier 2 members who are in the hybrid plan). In 2018, legislation was passed that allows active and former members and benefit recipients the ability to rollover funds into the DC Plan. PSPRS members who enter the DROP program now have their DROP account rolled into the DC Plan when they fully retire. Most new CORP members will be automatically enrolled in the DC Plan effective July 1, 2018. The Board's DC Committee has done an excellent job administering this new plan.

National Recognition

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to PSPRS for its comprehensive annual financial report for the fiscal year ended June 30, 2017. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

The Public Pension Coordinating Council (PPCC) presented PSPRS with its 2018 Recognition Award for Funding and Administration in recognition of meeting professional standards for plan funding and administration as set forth in the Public Pension Standards. The PPCC is a coalition of three national associations that represent public retirement systems and administrators—the National Association of State Retirement Administrators, the National Conference on Public Employee Retirement Systems, and the National Council on Teacher Retirement. These three associations represent more than 500 of the largest public pension plans in the U.S.

Acknowledgements

The success of PSPRS requires the cooperation and support of our employers and local boards. We thank the staff and management of our employers along with those who serve on local boards for their encouragement and support. We also thank the staff and Board of Trustees for the commitment and efforts to ensure that PSPRS meets the needs of public servants who serve throughout the State of Arizona. We are honored and privileged to serve those who serve others.

Respectfully submitted,

Jared A. Smout, Administrator

Dave DeJonge, Deputy Administrator

FINANCIAL SECTION

Independent Auditor's Report

Board of Trustees
Public Safety Personnel Retirement System

Report on the Financial Statements

We have audited the financial statements of Public Safety Personnel Retirement System (System), a component unit of the State of Arizona, which comprise the Combined Statement of Fiduciary Net Position as of June 30, 2018, and the related Combined Statement of Changes in Fiduciary Net Position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the Public Safety Personnel Retirement System as of June 30, 2018, and the respective changes in its net position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Combined Comparative Information

We have previously audited the Public Safety Personnel Retirement System's 2017 combined financial statements, and we expressed an unmodified opinion on those financial statements in our report dated January 25, 2018. In our opinion, the combined comparative information presented herein as of and for the year ended June 30, 2017, is consistent, in all material respects, with the audited combined financial statements from which it was derived.

Other Matters**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents under the Financial Section, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the System's financial statements. The Introductory Section, Supporting Schedules Information, Investment Section, Actuarial Section, and Statistical Section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements.

The Supporting Schedules Information, as listed in the table of contents under the Financial Section, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supporting Schedules Information is fairly stated in all material respects in relation to the financial statements as a whole.

The Introductory Section, Investment Section, Actuarial Section, and Statistical Section have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2018, on our consideration of the Public Safety Personnel Retirement System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Public Safety Personnel Retirement System's internal control over financial reporting and compliance.

December 31, 2018

MANAGEMENT DISCUSSION & ANALYSIS

As management of Arizona's Public Safety Personnel Retirement System ("System"), we present this discussion and analysis of the financial activities for the year ended June 30, 2018 (FY18). This narrative is intended to supplement the financial statements which follow this discussion, and should be read in conjunction with the Transmittal Letter.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Basic Financial Statements consist of the Statement of Fiduciary Net Position, the Statement of Changes in Fiduciary Net Position, and the Notes to the Basic Financial Statements. These financial statements report information about the System's financial condition in an attempt to answer the question: "Is PSPRS better off or worse off as a result of this year's activities?" These statements are prepared in accordance with generally accepted accounting principles laid out in statements issued by the Governmental Accounting Standards Board (GASB).

The Required Supplementary Information that appears after the Notes to the Basic Financial Statements is not a required part of the Basic Financial Statements, but is supplementary information required by the GASB. The other supplementary information following the required supplementary information is not required, but management has chosen to include such information to increase transparency.

BASIC FINANCIAL STATEMENTS

The *Statement of Fiduciary Net Position* provides a snapshot of account balances at year-end. It reports the assets available for future payments to benefit recipients, along with any liabilities that are owed as of the statement date. The difference between assets and liabilities, called "Fiduciary Net Position Restricted for Pensions and OPEB," represents the value of assets held in trust for future benefit payments. Over time, increases and decreases in Fiduciary Net Position can be one measurement of whether the System's financial position is increasing or decreasing.

The *Statement of Changes in Fiduciary Net Position*, on the other hand, shows additions to and deductions from Fiduciary Net Position that took place throughout the year.

The *Notes to the Basic Financial Statements* are an integral part of the Basic Financial Statements and provide additional information about the plans, policies and performance of the System. The Notes include a plan description of the various plans that make up the System, a summary of significant accounting policies, and information about the System's OPEB plans, contribution requirements, cash and investments, capital assets, net pension liability of participating employers, subsequent events, and other information required by GASB. Dollar amounts are presented in thousands, unless otherwise indicated.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2018 (FY18) are as follows:

- The System's total rate of return (net of fees) was 7.07 percent in FY18, below the target fund benchmark by 67 basis points and slightly below the assumed earnings rate of 7.4 percent.
- The System's Fiduciary Net Position increased 5.93 percent during the year from \$9.34 billion to \$9.90 billion.
- Total additions for FY18 were \$1.62 billion, comprised of contributions of \$969.65 million and investment gains of \$651.59 million.
- Total deductions for the year increased from \$1.01 billion in FY17 to \$1.07 billion in FY18.

FINANCIAL ANALYSIS OF THE PLAN

The schedules that follow present comparative summary financial statements of the individual plans that make up the System for FY18 in comparison with results for FY17. Following each schedule is a brief summary of the significant changes noted in the schedules and reasons for the changes.

REQUEST FOR INFORMATION

This report is designed to provide a general overview of the finances of the System and the individual plans within the System. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Public Safety Personnel Retirement System, 3010 E. Camelback Road, Suite 200, Phoenix, AZ 85016.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION

ORGANIZATION

The Public Safety Personnel Retirement System ("System") is the administrator of three defined benefit plans, the Public Safety Personnel Retirement System (PSPRS), the Elected Officials' Retirement Plan (EORP), and the Corrections Officer Retirement Plan (CORP). The plans, including benefit provisions and the obligation to make contributions, are established and administered in accordance with Title 38, Chapter 5 of the Arizona Revised Statutes. The plans are governmental plans tax qualified under Section 401(a) of the Internal Revenue Code.

Responsibility for the organization is vested in a Board of Trustees, which is comprised of a nine-member Board. Two members are appointed by the President of the Senate; two are appointed by the Speaker of the House of Representatives; and five are appointed by the Governor. The Board of Trustees is responsible for the investments of the System's assets, setting employer contribution rates in accordance with an annual actuarial valuation, adopting a budget, and the general protection and administration of the System.

The System is also the administrator of two defined contribution plans. The Elected Officials' Defined Contribution Retirement System (EODCRS) and the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The plans are not reported in the financial statements as their current size is immaterial.

PUBLIC SAFETY PERSONNEL RETIREMENT SYSTEM

The PSPRS is an agent multiple-employer public employee retirement plan established by Title 38, Chapter 5, Article 4 of the Arizona Revised Statutes, to provide benefits for public safety employees of certain state and local governments. The Board of Trustees and 229 local boards jointly administer the Plan.

Each eligible group participating in the System has a five-member local board. The chief elected official of the governing body appoints three members to the local board, and two members are elected by the active members of the eligible group. In general, each member serves a fixed four-year term. Each local board is responsible for determining eligibility for membership, service credits, eligibility for benefits, the timing of benefit payments, and the amount of benefits for its eligible group of employees. The various governing bodies pay all costs associated with the administration of the local board.

At June 30, 2018 and 2017, the number of participating local government employer groups was comprised of:

GROUP	2018	2017
Municipalities	141	143
County Agencies	22	22
State Agencies	13	13
Special Districts	53	54
Total Employers	229	232

Any state agency, county, city or other political subdivision in the State of Arizona may elect to have its paid, full-time eligible employees (generally firefighters and police officers in hazardous duty positions) covered by the Plan. Certain retirees are eligible to receive an insurance subsidy (see Note 3). At June 30, 2018 and 2017, statewide PSPRS membership consisted of:

MEMBERSHIP TYPE	RETIREMENT PLAN	
	2018	2017
Retirees	12,822	12,399
Terminated Vested	2,524	2,114
DROP	1,678	1,409
Current Vested	10,695	10,944
Current Non-Vested	7,954	8,066
Total Members	35,673	34,932

BENEFIT PROVISIONS

Employees who became a member on or before December 31, 2011: Pursuant to A.R.S. §§ 38-842 and 38-844 and 38-845, retirement benefits will commence the first day of the month following termination of employment and based upon the following age and service requirements:

- Age 62 with 15 years of service: 50% of the average monthly benefit compensation for the first 20 years of credited service. The pension is reduced by 4% per year for each year of credited service under 20 years.
- 20 years of service with less than 20 years of credited service: 50% of the average monthly benefit compensation for the first 20 years of credited service. The pension is reduced by 4% per year for each year of credited service under 20 years.
- 20 to 24.99 years of credited service: 50% of the average monthly benefit compensation for the first 20 years of credited service plus 2% of the average monthly benefit compensation for each year of credited service between 20 and 24.99.
- 25 or more years of credited service: 50% of the average monthly benefit compensation for the first 20 years of credited service plus 2.5% of the average monthly benefit compensation for each year of credited service above 20 years, up to a maximum of 80% of the average monthly benefit compensation.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The average monthly benefit compensation is equal to an average of the highest 36 consecutive months of covered payroll within the last 20 years of credited service.

Inactive members (not making contributions to the System) that have at least 10 years of credited service may elect to receive a Deferred Annuity at the age of sixty-two (62). This annuity is a lifetime monthly payment that is actuarially equivalent to the member's accumulated contributions in the System plus an equal amount paid by the employer. This annuity is not a retirement annuity and annuitants are not entitled to survivor benefits, benefit increases, or the group health insurance subsidy. A.R.S. § 38-846.01(A).

Employees who became a member on or after January 1, 2012 and on or before June 30, 2017: Pursuant to A.R.S. §§ 38-842, 38-844 and 38-845, retirement benefits will commence the first day of the month following termination of employment and based upon the following age and service requirements:

- Age 52.5 with 15 years of credited service but less than 25 years: average monthly benefit compensation multiplied by a multiplier that varies by years of service, from 1.5% to 2.5% per year of service, multiplied by the number of years of service.
- Age 52.5 with 25 years of service: 62.5% of the average monthly benefit compensation. Benefits will be reduced by 4% for each year of credited service under 25 years; or
- 25 or more years of service: 62.5% of the average monthly benefit compensation for the first 25 years of credited service plus 2.5% of the average monthly benefit compensation for each year over 25 years of credited service - up to a maximum of 80% of the average monthly benefit compensation. The pension is reduced by 4% per year for each year of credited service under 25 years with a pro-rata reduction for any fractional years.

The average monthly benefit compensation is equal to an average of the highest 60 consecutive months of covered payroll within the last 20 years of credited service.

Legislation was passed in 2016 that created a new tier of benefits for those members who become members on or after July 1, 2017. This group of members has an irrevocable choice within the first 90 days of employment of enrolling in either the defined benefit plan or in the PSPDCRP. The default is enrollment in the defined benefit plan.

Employees who became a member on or after July 1, 2017: Pursuant to A.R.S. §§ 38-842, 38-844 and 38-845, retirement benefits will commence the first day of the month following termination of employment and based upon the following age and service requirements:

- Age 52.5 with 15 years of credited service: actuarial reduced benefit based on the average monthly benefit compensation times a multiplier that varies by years of service, from 1.5% to 2.5% per year of service, times the number of years of service.
- Age 55 with 15 or more years of service: average monthly benefit compensation, times a multiplier that varies by years of service, from 1.5% to 2.5% per year of service, times the number of years of service, up to a maximum of 80% of the average monthly benefit compensation.

The average monthly benefit compensation is equal to an average of the highest 60 consecutive months of compensation (salary) within the last 15 years of credited service.

Compensation includes base wages, shift and military differential wage pay, compensatory time used by an employee in lieu of overtime not otherwise paid by an employer, holiday and overtime pay that is paid to an employee by the employer for the employee's performance of services in an eligible group on a regular monthly, semi-monthly, or biweekly payroll basis as well as any longevity pay paid to an employee at least every six months for which contributions are made to the system. For the purposes of computing retirement benefits, compensation does not include unused sick leave, unused compensatory time, payment in lieu of vacation, "fringe" benefit pay (such as uniform allowance, cell phone or mileage reimbursement) and any payments made directly or indirectly by the employer to the employee for work performed for a third party on a contracted basis except for third party contracts in certain situations. A.R.S. § 38-842(12).

Employees who became a member on or before December 31, 2011 may voluntarily and irrevocably enter into a Deferred Retirement Option Plan (DROP) program with the employer for a period of up to 60 months. The member's monthly benefit is calculated based upon the years of credited service and average monthly compensation at the beginning of the DROP period and is paid into the DROP account, where it earns interest. During the DROP period, the employee will not earn any additional credited service. At the end of the sixty (60) months (or prior to that time), the member terminates employment and the monies accrued in DROP will be paid as a lump-sum either directly to the member (less mandated taxes), or as a rollover. The member will then begin receiving the monthly retirement benefit, which is the same amount that was calculated at the beginning of DROP.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Active members who have at least five (5) years of service with the System that have previous service with an agency of the U.S. Government, a state of the U.S., or a political subdivision of a state of the U.S. as a full-time paid fire fighter or full-time paid certified peace officer may elect to redeem up to sixty (60) months of any part of the prior service, if the prior service is not on account with any other retirement system.

ELECTED OFFICIALS' RETIREMENT PLAN

EORP is a cost sharing multiple-employer defined benefit pension plan established by Title 38, Chapter 5, Article 3 of the Arizona Revised Statutes, to provide benefits for elected officials and judges of certain state, county and local governments. The Board of Trustees of the PSPRS also administer the EORP Plan.

All state and county elected officials and judges are members of the Plan. Any city or town in the State of Arizona may elect to have its' elected officials covered by EORP.

Legislation passed in 2013 (HB 2608) effectively closed the EORP to new members and created EODCRS. Elected officials and judges who were members of the EORP on December 31, 2013 remain in the Plan. Elected officials, justices of the Supreme Court, judges of the Court of Appeals and Superior Court, and commissioners who are elected, appointed, or hired on or after January 1, 2014 have one of three different paths that are available to them.

Path 1: Elected Officials' Retirement Plan.

ARS § 38-801 restricts membership in EORP to elected officials defined therein who were members of the plan on December 31, 2013.

Path 2: Arizona State Retirement System.

As prescribed in ARS § 38-727, if a person is appointed, elected, or hired on or after January 1, 2014 and does not have prior EORP time, but has ASRS time, that person has the option to return to ASRS. If that person chooses ASRS, that choice must be made in writing and filed with ASRS within 30 days after that person's term begins. That decision is irrevocable during the term in which that election was made. Additionally, the member has the option to participate in either the EODCRS or ASRS Plan with each term. The elected official will contribute to and participate in the Long-Term Disability Program administered by ASRS.

Path 3: Elected Officials' Defined Contribution Retirement System. If a person is elected, appointed, or hired on or after January 1, 2014, does not have time on account with EORP, and does not timely opt out of EODCRS to return to ASRS, s/he is automatically enrolled in EODCRS, which is a defined contribution plan administered by Nationwide Retirement Solutions, a third party vendor. The elected official

will contribute to and participate in the Elected Officials' Defined Contribution Retirement System Disability Program administered by EODCRS.

At June 30, 2018 and 2017, the number of participating local government employer groups in EORP consisted of:

GROUP	2018	2017
Municipalities	22	22
County Agencies	15	15
State Agencies	2	2
Special Districts	1	1
Total Employers	40	40

At June 30, 2018 and 2017, statewide EORP membership consisted of:

MEMBERSHIP TYPE	RETIREMENT PLAN	
	2018	2017
Retirees	1,203	1,196
Terminated Vested	150	162
Current Vested	547	494
Current Non-Vested	32	106
Total Members	1,932	1,958

The EORP provides retirement benefits as well as death and disability benefits. Generally, all benefits vest after five years of credited service.

BENEFIT PROVISIONS

Employees who became a member on or before December 31, 2011: Pursuant to A.R.S. §§ 38-801(5, 7 and 15), 38-805(A) and 38-808, normal retirement will commence the first day of the month following termination of employment to an elected official who ceases to hold office based the following age and service requirements:

- Age 65 years, with 5 or more years of credited service, or
- Age 62 years, with 10 or more years of credited service, or
- 20 or more years of credited service (regardless of age).

The amount of a normal retirement pension is 4% of the member's average yearly salary multiplied by the years of the member's credited service, not to exceed 80% of the member's average yearly salary.

Members who have at least five (5) years of credited service and who cease to serve as an elected official may retire before meeting the age or service requirement for normal retirement.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The amount of an early retirement pension is 4% of the member's average yearly salary multiplied by the years of the member's credited service, not to exceed 80% of the member's average yearly salary then reducing that amount by three-twelfths of one percent for each month early retirement precedes the member's normal retirement age. The maximum reduction is 30%.

The average monthly benefit compensation is equal to an average of the highest 36 consecutive months of compensation (salary) within the last 10 years of credited service. If an employee does not have three consecutive years of credited service as an elected official, the considered period is the employee's last consecutive period of employment with a Plan employer immediately before retirement.

Employees who became a member on or after January 1, 2012: Pursuant to A.R.S. §§ 38-801(5, 7 and 15), 38-805 (B) and 38-808, normal retirement benefits will commence the first day of the month following termination of employment and based upon the following:

- Age 65 years, with 5 or more years of credited service, or
- Age 62 years, with 10 or more years of credited service.

The amount of a normal retirement pension is 3% of the member's average yearly salary multiplied by the member's credited service, not to exceed 75% of the member's average yearly salary. Early retirement benefits are not available.

The average monthly benefit compensation is equal to an average of the highest 60 consecutive months of compensation (salary) within the last 10 years of credited service. If an employee does not have five consecutive years of credited service as an elected official, the considered period is the employee's last consecutive period of employment with a Plan employer immediately before retirement.

Active members who have at least five years of service with the System that have previous service with an agency of the U.S. Government, a state of the U.S., or a political subdivision of a state of the U.S. may elect to redeem up to 60 months of any part of the prior service if the prior service is not on account with any other retirement system.

CORRECTIONS OFFICER RETIREMENT PLAN

The Corrections Officer Retirement Plan (CORP) is an agent, multiple-employer defined benefit pension plan established by Title 38, Chapter 5, Article 6 of the Arizona Revised Statutes, to provide benefits for prison and jail employees of certain state, county and local governments. CORP includes a cost-sharing, multiple-employer defined benefit pension plan for Administrative Office of the Courts (CORP-AOC) probation officers and an agent, multiple-employer defined benefit pension plan for all other mem-

bers. The Board of Trustees of the Public Safety Personnel Retirement System and 28 local boards administer the plan.

CORP-AOC provides the same benefits as CORP. The significant accounting and investment policies used for CORP are also used for CORP-AOC. Each eligible group participating in the Plan has a five-member local board. Each local board is responsible for determining eligibility for membership, service credits, eligibility for benefits, the timing of benefit payments, and the amount of benefits for its eligible group of employees. The various governing bodies pay all costs associated with the administration of the local boards.

Any county or city in the state of Arizona may elect to have its eligible employees (generally prison or jail personnel who have direct inmate contact) covered by CORP. At June 30, 2018 and 2017, the number of participating local government employer groups consisted of:

GROUP	2018	2017
CORP AOC	15	15
Towns Dispatchers	3	3
Cities Dispatchers	1	1
Cities Detention	1	1
Counties Dispatchers	4	4
Counties Detention	14	14
State Agency Dispatchers	1	1
State Agency Detention	3	3
Total Employers	42	42

Designated positions for state and local government employers that elect to join the Plan are eligible to participate in CORP, if the employee's customary employment is for at least forty (40) hours per week, or as defined by statute. Those positions are specified in A.R.S. §38-881 and include (but not limited to) state, county, city or town detention officers, certain dispatchers, and specifically designated positions for Arizona Department of Corrections and the Department of Juvenile Corrections employees.

At June 30, 2018 and 2017, statewide CORP membership consisted of:

MEMBERSHIP TYPE	RETIREMENT PLAN					
	CORP	CORP-AOC	2018	CORP	CORP-AOC	2017
Retirees	4,673	722	5,395	4,445	646	5,091
Terminated Vested	2,468	533	3,001	2,530	387	2,917
Current Vested	4,235	1,000	5,235	4,184	1,026	5,210
Current Non-Vested	7,887	1,213	9,100	7,599	1,149	8,748
Total Members	19,263	3,468	22,731	18,758	3,208	21,966

NOTES TO THE FINANCIAL STATEMENTS (Continued)

CORP provides retirement benefits as well as death and disability benefits. Generally, all benefits vest after five years of credited service.

BENEFIT PROVISIONS

Employees who became a member on or before December 31, 2011: Pursuant to A.R.S. §§ 38-881 and 38-885, retirement benefits will commence the first day of the month following termination of employment and based upon the following age and service requirements:

- For retirement with 20 years of credited service, but less than 25 years of credited service, or 80 points (age plus credited service) if membership date is on/after 8/9/01: 50% of the member's average monthly salary plus 2% of member's average monthly salary multiplied by each year of credited service over 20 (including fractional years).
- For retirement with 25 or more years of credited service, or 80 points if membership date is on/after 8/9/01: 50% of the member's average monthly salary plus 2.5% of member's average monthly salary multiplied by each year of credited service over 20 (including fractional years) with a maximum of 80%.
- For retirement with 20 years of service, but less than 20 years of credited service, or 80 points if membership date is on/after 8/9/01: Member's average monthly salary multiplied by 2.5% for each year of credited service (include fractional years).
- For retirement with 80 points, if membership date is PRIOR to 8/9/01: Member's average monthly salary multiplied by 2.5% for each year of credited service (include fractional years) with a maximum of 75% of average monthly salary.
- For retirement at age 62, with 10 years of service: Member's average monthly salary multiplied by 2.5% for each year of credited service (include fractional years).

Inactive members that have at least 10 years of credited service may elect to receive a "deferred annuity" at age 62. This annuity is a lifetime monthly payment that is actuarially equivalent to the member's accumulated contributions in the Plan plus an equal amount paid by the employer. This annuity is not a retirement benefit and annuitants are not entitled to survivor benefits, benefit increases, or the group health insurance subsidy.

The average monthly salary is equal to an average of the highest 36 consecutive months of compensation (salary) within the last 10 years of credited service.

Employees who became a member after December 31, 2011: Pursuant to A.R.S. §§ 38-881 and 38-885, retirement bene-

fits will commence the first day of the month following termination of employment and based upon the following:

- For retirement at age 62, with 10 years of service: Member's average monthly salary multiplied by 2.5% for each year of credited service (include fractional years).
- For retirement at age 52.5, with 25 or more years of credited service: 62.5% of the member's average monthly salary plus 2.5% of the average monthly salary for each year of credited service over 25 (include fractional years) with a maximum of 80%.
- For retirement at age 52.5, with 25 years of service but less than 25 years of credited service: average monthly salary multiplied by 2.5% for each year of credited service (include fractional years).

The average monthly salary is equal to an average of the highest 60 consecutive months of compensation (salary) within the last 10 years of credited service.

Employees who become a member on or after July 1, 2018: Pension reform legislation (Senate Bill 1442) passed in 2017 that created a new tier of benefits for those members who will become members on or after July 1, 2018. Senate Bill 1442 closed CORP to new members for corrections and detention positions. Newly hired corrections and detention officers who work in state prisons, county jails, and municipalities will receive retirement benefits through PSPDCRP.

CORP remains open for new hires of Arizona's Administrative Office of the Court's probation and surveillance positions. Those hired into these positions will have the choice of enrolling in the defined benefit plan or in the PSPDCRP.

Employees who became a member on or after January 1, 2012 are not eligible for a "deferred annuity." However, a member who attains the service requirement for a normal retirement, but does not meet the age requirement, may elect to leave contributions on account until reaching the age requirement and then elect to receive a retirement benefit (which entitles them to survivor benefits, benefit increases, or the group health insurance subsidy).

Salary includes the base salary, shift differential pay, military differential wage pay and holiday pay paid a member for personal services rendered in a designated position to a participating employer on a regular monthly, semi-monthly or biweekly payroll basis. Salary includes amounts that are subject to deferred compensation or tax shelter agreements. "Base salary" means the amount of compensation each member is regularly paid for personal services rendered to an employer before the addition of any extra monies, including overtime pay, shift differential pay, holiday pay, fringe benefit pay and similar extra payments.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Active members who have at least five (5) years of credited service with the System that have previous service with an agency of the U.S. Government, a state of the U.S., or a political subdivision of a state of the U.S. may elect to redeem up to 60 months of any part of the prior service if the prior service is not on account with any other retirement system. Those members may also purchase up to 60 months of credited service for periods of active military service performed before employment with their current employer.

CORP members who are eligible for a normal pension (based on service and age) may be eligible to participate in the Reverse DROP. Under the Reverse DROP, the member must voluntarily and irrevocably elect to terminate employment and receive a normal retirement upon participation in the Reverse DROP.

If a member elects to participate in the Reverse DROP, the years of service credit cannot go below 24 (non-dispatcher), or 25 (dispatcher) years of service credit after the Reverse DROP months are applied. The maximum number of months that a member could elect to reverse is 60 months (5 years).

The member's pension will be calculated using the factors of credited service and average monthly benefit compensation in effect on the Reverse DROP date. The lump sum distribution is credited as though it accrued monthly from the Reverse DROP date to the date the member elected to participate in the Reverse DROP (plus interest equal to the yield on a five (5) year Treasury note as of the first day of the month as published by the Federal Reserve Board).

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS**REPORTING ENTITY**

The System functions as a separate statutory entity and maintains rights to sue or be sued in its own name and to hold property in its own name. For financial reporting purposes, the System is considered a pension trust fund of the State of Arizona and is included as a component unit in the State's Comprehensive Annual Financial Report. The System does not have any component units.

BASIS OF ACCOUNTING

The System's financial statements are prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments, as well as statutory or contractual requirements. Pension and Health Insurance subsidy benefits are recognized when due and payable in accordance with the terms of the Plan. Refunds are due and payable by state law within 20 days of receipt of a written application for a

refund. Refunds are recorded when paid. Expenses are recorded when the corresponding liabilities are incurred, regardless of when payment is made.

Furniture, fixtures and equipment purchases costing \$50,000 or more, when acquired, are capitalized at cost. Improvements, which increase the useful life of the property, are also capitalized.

Investment income net of administrative and investment expenses are allocated to each employer group based on the average relative fund size for each employer group for that year. Administrative fees are paid from investment returns and in cases where there is a loss, the fees are paid from contributions.

Investment-related costs are reported as investment expense, if they are separable from investment income and administrative expense of the plan. Investment expense includes fees that were paid directly to external investment managers, but does not include fees that are not readily separable from investment income.

By state statute, the System is required to provide information in the financial statements used to calculate Net Effective Yield. Net Effective Yield includes only realized gains and losses. The Net Realized Gains (Losses) used in this calculation totaled \$415,998 for the fiscal year ended 2018. This calculation is independent of the calculation of the change in the fair value of investments and may include unrealized amounts from prior periods.

In January 2017, GASB issued Statement No. 84, "Fiduciary Activities". This Statement provides guidance on fiduciary funds that should be reported, if applicable: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. GASB 84 will be effective for periods beginning after December 15, 2018. The System has chosen not to early adopt and has not yet determined the impact on of this standard on its financial statements and disclosures.

In March 2017, GASB issued Statement No. 85, "Omnibus 2017." This statement addresses issues identified during the implementation and application of certain GASB pronouncements. Issues addressed in this new standard include, but are not limited to, the presentation of payroll-related measures in Required Supplementary Information by OPEB plans and employers that provide OPEB; classifying employer-paid member contributions for OPEB; and accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans. GASB 85 is effective for periods beginning after June 15, 2017. The System implemented the provisions of GASB Statement No. 85, for the year-ended June 30, 2018.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of fiduciary net position held in trust for pension benefits at June 30, 2018. Actual results could differ from those estimates.

NOTE 3: HEALTH INSURANCE PREMIUM SUBSIDY

The System provides health insurance premium subsidies in accordance with A.R.S. §38-857, §38-817 and §38-906 on behalf of eligible retired members who are receiving health benefits through the Arizona State Retirement System, Arizona Department of Administration, or the participating employer of the retired member. In 2014, the System set up separate 401(h) healthcare plans (one for each pension plan) to receive contributions, invest assets, and pay subsidies. These plans qualify as Other Post Employment Benefits plans (OPEB) and are administered by the PSPRS Board of Trustees.

Contribution rates are determined annually by the Plan's actuary.

The EORP and CORP-AOC healthcare plans are cost-sharing plans. The following disclosures are applicable to those cost-sharing plans. The summary of significant accounting policies and investment policies for the healthcare plans are the same as the corresponding retirement plans, as are the mortality tables. The healthcare plan assets are accounted for by employer, and are only available to pay health insurance benefits.

At June 30, 2018 and 2017, statewide membership consisted of:

MEMBERSHIP TYPE	HEALTH INSURANCE SUBSIDY	
	2018	2017
RETIREES		
PSPRS	7,776	7,613
EORP	720	720
CORP	2,630	2,613
CORP-AOC	299	262
Total Members	11,425	11,208

BENEFIT PROVISIONS

The subsidy consists of a fixed dollar amount set by statute, capped at the following amounts:

SINGLE		FAMILY		
Not Medicare Eligible	Medicare Eligible	All Not Medicare Eligible	All Medicare Eligible	One With Medicare
\$150.00	\$100.00	\$260.00	\$170.00	\$215.00

Since the only benefits paid are the subsidies paid to retirees defined in statute which seldom, if ever, change, the plan does not have assumptions about inflation, healthcare cost trend rates, salary changes, future COLAs, or the sharing of costs with inactive plan members. The discount rate is 7.4%, equal to the long-term expected rate of return on OPEB plan investments. Investments are pooled with retirement plan investments for investment purposes. The actuarial methods and assumptions used for the health insurance premium subsidy benefit are as follows:

HEALTH INSURANCE PREMIUM SUBSIDY ACTUARIAL ASSUMPTIONS	
Measurement Date:	June 30, 2018
Valuation Date:	June 30, 2018
Actuarial Cost Method:	Entry Age Normal
Asset Valuation:	Fair Value
Discount Rate:	7.40%

The EORP health insurance subsidy plan has assets of \$23,727 as of June 30, 2018, and a total OPEB liability of \$13,393 for a funding ratio of 177.2%. The Net OPEB Asset is \$10,334, equal to 20.29% of covered payroll, which is \$50,939. If the discount rate had been 6.4%, the Net OPEB Asset would have been \$9,186 and if the discount rate had been 8.4%, the Net OPEB Asset would have been \$11,327.

The CORP-AOC health insurance subsidy plan has assets of \$10,803 to cover the total OPEB liability of \$15,945 for a funding ratio of 67.8%. The Net OPEB Liability is \$5,142, equal to 4.39% of covered payroll, which is \$117,081. If the discount rate had been 6.4%, the Net OPEB Liability would have been \$7,049 and if the discount rate had been 8.4%, the Net OPEB Liability would have been \$3,548.

In accordance with GASB Statement No. 74, the value of assets used in this disclosure is the plan net position rather than a smoothed actuarial value of assets.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and the actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Consistent with this perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

NOTE 4: CONTRIBUTION REQUIREMENTS

Contribution rates for members and employers are defined in statute. The System's funding policy also provides for employer contributions set at actuarially determined rates that are designed to accumulate sufficient assets to pay benefits when due. Rates for PSPRS and CORP are recalculated annually based on annual actuarial valuation results. During the year ended June 30, 2018, contributions to PSPRS and CORP were made in accordance with contribution requirements determined by an actuarial valuation of the Plans as of June 30, 2016. Contributions to EORP were made in accordance with rates set in statute.

In November 2016, the Arizona Supreme Court overturned two provisions of state law passed by the legislature in 2011. The Court determined that an increase in employee contribution rates from 7.65% to 11.65% of pay for PSPRS active members, and an increase in employee contribution rates from 7% to 13% of pay for EORP active members were unconstitutional. As a result of the Hall and Parker lawsuits, certain Tier 1 PSPRS and EORP members were refunded contributions totaling approximately \$220 million, plus interest, in fiscal 2018.

PSPRS

PSPRS member contributions rates vary depending on when the member was hired by a PSPRS affiliated employer. PSPRS member contribution rates for fiscal 2018 were as follows:

- Membership prior to July 19, 2011 – 7.65% of covered payroll;
- Membership on or after July 20, 2011 – 11.65% of covered payroll;
- Membership on or after January 1, 2012 and before July 1, 2017 – 11.65% of covered payroll, plus 3% to PSPDCRP, if in a non-social security covered position;
- Membership date on or after July 1, 2017 – 9.94% (for most employers) of covered payroll, plus 3% to PSPDCRP, if in a non-social security position. If the PSPRS member elected to participate in only PSPDCRP, the contribution rate was 10.17% (9%, plus 1.17% for disability plan contributions) of covered payroll.

Each employer in PSPRS pays a separate contribution rate, which is actuarially determined. The fiscal 2018 PSPRS employer contribution rate for PSPRS in the aggregate (for members hired prior to July 1, 2017) represented 52.09% of covered payroll (51.84% to the pension plan and 0.25% to the OPEB plan).

PSPRS employer contribution rates for fiscal year 2018 (for tier 3 members hired on or after July 1, 2017) was 9.94% (for most employers). Tier 3 costs are split 50/50 between employees and employers. Employers that do not pay into Social Security on behalf of their members also pay 3% into the PSPDCRP. If the employer was making contributions related to a member that elected to participate in only the PSPDCRP, the employer contribution rate was 10.17% (9% for PSPDCRP, plus 1.17% for disability). In addition, employers continued to pay for the legacy costs related to the unfunded liability portion of the actuarial accrued liability.

Employer contribution rates in PSPRS shall not be less than 8% of covered payroll. For any employer whose actual contribution rate was less than 8% in fiscal year 2007, that employer's contribution rate is not subject to the 8% minimum but shall be at least 5%.

EORP

The member contribution rate for EORP members was 13% of covered payroll for those that became members on or after July 20, 2011, and 7% for those who became members prior to July 20, 2011.

As of January 1, 2014, the Arizona State Legislature closed the Elected Official's Retirement Plan and set the employer contribution rate to 23.50% of covered payroll with an additional five million dollars contributed by the State of Arizona. The five million dollars from the State of Arizona is considered a contribution from a non-employer contributing entity and is listed separately on the Statement of Changes in Fiduciary Position. In addition, the EORP receives additional contributions from certain employers as specified in A.R.S. § 38-810.

Senate Bill 1478, signed into law by Governor Ducey on May 15, 2018 amends A.R.S. § 38-810 and effectively returns the calculation of the employer contribution rate to an annual, actuarially determined basis. Effective July 1, 2018, the EORP employer contribution rate will be 61.5% of covered payroll.

EODCRS

Members of the Elected Officials Defined Contribution Retirement System contribute 8% of covered payroll to Nationwide Retirement Solutions, Inc., which is deposited into their own individual accounts. Employers contribute an additional 6% to Nationwide, plus 17.5% to the EORP to help pay off EORP's unfunded liability.

NOTES TO THE FINANCIAL STATEMENTS (Continued)**CORP**

The member contribution rate for CORP is 7.96% for dispatchers and 8.41% for non-dispatchers. While each employer in CORP pays a separate contribution rate, actuarially determined contributions for CORP (including CORP-AOC) in the aggregate for fiscal year 2018 represented 20.98% of covered payroll (20.76% to the pension plan and 0.22% to the OPEB plan).

CORP-AOC

The actuarially determined contributions for CORP-AOC separately were 23.34% of covered payroll (22.51% to the pension plan and 0.83% to the OPEB plan). The minimum employer contribution rate is 6% (in accordance with A.R.S. § 38-891).

NOTE 5: CASH AND INVESTMENTS**CASH**

Custodial credit risk for deposits is the risk that in the event of a bank failure, the System's deposits may not be returned. The deposits are held in two financial institutions with a balance of up to \$250,000 (permanently guaranteed as of July 21, 2010) insured by the Federal Deposit Insurance Corporation (FDIC). The System mitigates custodial credit risk for deposits by requiring the financial institutions to pledge securities from an acceptable list in an amount at least equal to 102% of the aggregate amount of the deposits on a daily basis.

All monies shall be secured by the depository in which they are deposited and held to the same extent and in the same manner as required by the general depository law of the state. Cash balances represent both operating and cash accounts held by the bank and investment cash on deposit with the investment custodian. All deposits are carried at cost plus accrued interest.

The following table is a schedule of the aggregate book and bank balances of all cash accounts as of June 30, 2018:

	BOOK BALANCE	BANK BALANCE
Deposits with banks (collateralized by securities)	55,723	48,515
Short-term investment funds held at custodial bank	332,487	332,487
Total Deposits	388,210	381,002

MONEY-WEIGHTED RATE OF RETURN

The money-weighted rate of return on investments for FY 2018 was 7.01%, and 12.25% for FY 2017. The money-weighted rate of return expresses investment performance, net of investments expense, adjusted for the changing amounts actually invested.

FAIR VALUE REPORTING

Short-term investments are reported at cost plus accrued interest. The System categorizes its fair value measurements for investments within the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

- Level 1 – Unadjusted quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable.
- Level 3 – Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

Level 1 debt and equity securities are valued based on prices quoted in active markets for those securities. Level 2 securities are valued using a matrix pricing technique that values securities based on their relationship to benchmark quoted prices. Level 3 securities, whose stated market prices are unobservable by the market place, are priced by the investment manager or General Partner using discounted cash flow techniques. The System has the following investments within the hierarchy framework as of June 30, 2018.

INVESTMENTS MEASURED AT FAIR VALUE (IN THOUSANDS)				
	Fair Value	Level 1	Level 2	Level 3
Fixed Income				
US Fixed Income	573,575	51,460	11,786	510,329
Non US Fixed Income	4	4	-	-
Total Fixed Income	573,579	51,464	11,786	510,329
Equity				
US Equity	1,559,840	1,292,849	-	266,991
Non US Equity	1,390,167	1,252,612	-	137,555
Total Equity	2,950,007	2,545,461	-	404,546
Total Fair Value	3,523,586	2,596,925	11,786	914,875

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The fair value of alternative investments is based on the investments' net asset value (NAV) per share.

These are investments for which exchange quotations are not readily available and are valued at estimated fair value, as determined in good faith by the General Partner of each fund or by the investment manager responsible for that sector.

Alternative investments are most often established as pooled private investment limited partnerships that are open to a limited group of accredited investors, require large minimum investments and are illiquid. Investors in such structures are Limited Partners.

GTS (Global Trading Strategies) investments are held in 12 funds that are designed to offer risk reduction, uncorrelated returns and liquidity.

Private Credit investments are held in 37 funds that focus on debt instruments.

Private Equity investments are held in 78 funds. The types of partnership strategies included in this asset class include venture capital, growth equity, buyouts, and other special situations.

Real Asset investments are held in 35 funds that invest in assets like gas, oil, minerals and timber.

Real Estate investments are held in 43 funds that invest directly in real estate holdings.

Risk Parity investments are held in 2 funds which focus on allocation of risk or volatility to be more resistant to market downturns.

Redemptions (the ability to withdraw money from an investment) are allowed in most of the individual investments within the GTS, Private Credit, Real Asset, Real Estate and Risk Parity asset classes. Redemptions are allowed monthly, quarterly or annually. Some individual investments allow for daily redemptions within the Private Credit, Real Asset and Real Estate asset classes. The redemption notice period is 5 days for Risk Parity investments.

Private Credit, Real Asset and Real Estate investments have redemption notice periods as short as 1 day and as long as annually. GTS investments have redemption notice periods as short as 5 days and as long as annually.

The table below provides more information about the unfunded commitments for the System's investments measured at the Net Asset Value:

INVESTMENTS MEASURED AT NET ASSET VALUE (NAV) (IN THOUSANDS)		
Investment	Fair Value	Unfunded Commitments
Global Trading Strategies	1,093,905	66,652
Private Credit	1,494,163	340,920
Private Equity	1,308,697	439,933
Real Assets	773,127	289,829
Real Estate	828,997	235,926
Risk Parity	414,747	-
TOTAL	5,913,636	1,373,260

By statute, the Board of Trustees is to make investments in accordance with the "Prudent Man" rule. In making every investment, the board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation, but in regard to the permanent disposition of their funds, considering the probable income from their funds as well as the probable safety of their capital, provided:

- 1) That not more than 80% of the combined assets of the System or other Plans that the Board manages shall be invested at any given time in corporate stocks, based on cost value of such stocks irrespective of capital appreciation.
- 2) That not more than 5% of the combined assets of the system or other plans that the Board manages shall be invested in corporate stock issued by any one corporation, other than corporate stock issued by corporations chartered by the United States government or corporate stock issued by a bank or insurance company.
- 3) That not more than 5% of the voting stock of any one corporation shall be owned by the System and other Plans that the Board administers, except that this limitation does not apply to membership interests in limited liability companies.
- 4) That corporate stocks and exchange traded funds eligible for purchase shall be restricted to stocks and exchange traded funds that, except for bank stocks, insurance stocks and membership interests in limited liability companies, are either:
 - a) Listed or approved on issuance for listing on an exchange registered under the Securities Exchange Act of 1934, as amended (15 United States Code §78a through §78pp);
 - b) Designated or approved on notice of issuance for designation on the national market system of a national securities association registered under the Securities Exchange Act of 1934, as amended (15 United States Code §78a through §78pp).

NOTES TO THE FINANCIAL STATEMENTS (Continued)

- c) Listed or approved on issuance for listing on an exchange registered under the laws of this [Arizona] state or any other state.
- d) Listed or approved on issuance for listing on an exchange of a foreign country with which the United States is maintaining diplomatic relations at the time of purchase, except that no more than 20% of the combined assets of the System and other Plans that the Board manages shall be invested in foreign securities, based on the cost value of the stocks irrespective of capital appreciation.
- e) An exchange traded fund that is recommended by the Chief Investment Officer of the System, that is registered under the Investment Company Act of 1940 (15 United States Code Section 80a-1 through 80a-64) and that is both traded on a public exchange and based on a publicly recognized index.

CUSTODIAL CREDIT RISK

Custodial Credit Risk is the risk that the System will not be able (a) to recover deposits if the depository financial institution fails or (b) to recover the value of the investment or collateral securities that are in the possession of an outside party if the counterparty to the investment or deposit transaction fails. As of June 30, 2018, the System has no fund or deposits that were not covered by depository insurance or collateralized with securities held by the System's banks' trust department or agent. Nor does the System have any investments that are not registered in the name of the System, and are either held by the counterparty or the counterparty's trust department or agent. The System's operating cash balances are included with cash balances held by the State Treasurer for purposes of determining the amount of collateral to be posted to securitize the System's cash deposits.

CREDIT RISK

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the System. Each portfolio is managed in accordance with investment guidelines that are specific as to permissible credit quality ranges, exposure levels within individual quality tiers, and the average credit quality of the overall portfolios.

According to those guidelines, the fixed income portfolio must have a minimum weighted average quality rating of A3/A-. Fixed income securities must have a minimum quality rating of Baa3/BBB, at the time of purchase.

The portion of the bond portfolio in securities rated Baa3/BBB- through Baa1/BBB+ must be 20% or less of the fair value of the fixed income portfolio.

Included in the fixed income portfolio are cash equivalents or commercial paper. Commercial Paper must have a minimum quality rating of P-1/A-1, at the time of purchase.

Investments in derivatives are limited to collateralized mortgage obligations (CMO), collateralized bond obligations (CBO), collateralized debt obligations (CDO), and asset-backed securities (ABS).

In preparing this report, collateral for securities lending has been excluded because it is invested in a securities lending collateral investment pool.

The following table summarizes the System's fixed income portfolio exposure levels and credit quality as of June 30, 2018:

CREDIT QUALITY RATING (IN THOUSANDS)	
MOODY'S RATING	FAIR VALUE
Aaa	6,941
B3	42
Baa3	62
Not Rated	566,534
Total	573,579

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. Other than bonds used as direct obligations of and fully guaranteed by the U.S. Government, not more than 5% of the Fund or its fixed income portfolio at fair value shall be invested in bonds issued by any one institution, agency or corporation.

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The System does invest in fixed income securities with floating rates that contain coupon adjustment mechanisms in a rising interest rate environment.

The following table quantifies, to the fullest extent possible, the interest rate risk of the System's fixed income holdings as of June 30, 2018:

INTEREST RATE RISK - EFFECTIVE DURATION (IN THOUSANDS)		
FIXED INCOME SECURITY	FAIR VALUE	EFFECTIVE DURATION IN YEARS
U.S. Government Agencies	6,941	6.26
Duration Not Available	566,638	-
Total	573,579	6.26

NOTES TO THE FINANCIAL STATEMENTS (Continued)

DERIVATIVES

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indexes. They include futures contracts, options contracts, and forward foreign currency exchange. The Board of Trustees has adopted a derivative policy that specifically authorizes external investment managers to enter into certain derivative contracts based on an analysis that the use of such derivatives will have a positive impact on the System's ability to manage its underlying assets and liabilities. The System's investment program, indirectly through its external managers, holds investments in futures contracts. External money managers enter into certain derivative instruments primarily to enhance the performance and reduce the volatility of the System's portfolio, to gain or hedge exposure to certain markets, and to manage interest rate risk. The external managers are required to follow certain controls, documentation and risk management procedures when employing these financial instruments.

At June 30, 2018, the System had four outstanding U.S. equity index futures contracts with a fair value of \$(5,645) classified as U.S. Equity. Changes in fair value for the year and outstanding futures contracts as of June 30, 2018 are as follows:

DERIVATIVE INSTRUMENTS (IN THOUSANDS)		
CHANGE IN FAIR VALUE		
INVESTMENT DERIVATIVES	CLASSIFICATION	AMOUNT
Foreign Currency Forwards	Investment Income	(298)
U.S. Equity Index Futures	Investment Income	28,771
Total		28,473

FUTURES CONTRACTS OUTSTANDING (IN THOUSANDS)		
CONTRACT TYPE	YEAR OF MATURITY	NOTIONAL AMOUNT
U.S. Equity Index Futures	2018	265,490
Total		265,490

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in the foreign exchange rate will adversely impact the fair value of an investment. The System is allowed to invest part of its assets in foreign investments.

The following table shows the System's exposure to foreign currency risk (U. S. dollars) as of June 30, 2018:

CURRENCY	FOREIGN CURRENCY RISK (IN THOUSANDS)			TOTAL
	SHORT TERM	EQUITY	OTHER	
AUSTRALIAN DOLLAR	76	58,479	-	58,555

TOTAL	3,090	1,165,768	182,775	1,351,633

NOTES TO THE FINANCIAL STATEMENTS (Continued)

SECURITY LENDING PROGRAM

The System is party to a securities lending agreement with a bank. The bank, on behalf of the System, enters into agreements with brokers to loan securities and have the same securities returned at a later date.

The loans are fully collateralized by cash and securities. Collateral is marked-to-market on a daily basis. Non-cash collateral can be sold only upon borrower default. The program requires collateral of at least 102% of the fair value of the loaned U.S. securities and 105% of the fair value of the loaned Non U.S. securities, plus any applicable accrued interest in the case of debt securities. Securities on loan are carried at fair value.

As of June 30, 2018 the fair value of securities on loan was \$571,238 and the collateral received was \$584,989, comprised of \$576,131 in cash and \$8,858 in securities. The System receives a negotiated fee for its loan activities and is indemnified for broker default by the securities lending agent. The System participates in a collateral investment pool. All security loans may be terminated on demand by either the lender or the borrower.

Cash collateral received shall be held and maintained by the lending agent in a separately managed cash collateral account. The weighted average life of investments in the collateral account shall not exceed 120 days. At June 30, 2018, the weighted average maturity (to the next reset date) was 17 days. To maintain liquidity, a minimum of 10% of the loan portfolio must be invested in overnight (one day) instruments. Since the majority of securities loans are made on an overnight basis, there is usually a difference between the weighted average maturity of the investments made with the cash collateral provided by the borrower and the maturities of the securities loans. At June 30, 2018, the System had no credit risk exposure because the associated value of the collateral held exceeded the value of the securities loaned.

SECURITIES LENDING (IN THOUSANDS)		
	FAIR VALUE OF UNDERLYING SECURITIES	SECURITIES COLLATERAL VALUE
SECURITIES LENT FOR CASH COLLATERAL		
US Equities	552,220	564,782
Non-US Equities	10,620	11,349
Subtotal	562,840	576,131
SECURITIES LENT FOR SECURITIES COLLATERAL		
US Equities	2,270	2,304
Non-US Equities	6,128	6,554
Subtotal	8,398	8,858
Totals	571,238	584,989

NOTE 6: CAPITAL ASSETS

Capital assets are stated at cost, and depreciable assets are depreciated using the straight-line method over the estimated life of the asset. Repairs and maintenance are charged to expense as incurred. Depreciation expense for the year ended June 30, 2018 was \$170.

The following table is a schedule of the capital asset account balances as of June 30, 2018, and June 30, 2017, and changes to those account balances during the year ended June 30, 2018.

SCHEDULE OF CAPITAL ASSETS (IN THOUSANDS)				
	LAND	BUILDING IMPROVE- MENTS	FURNITURE FIXTURES EQUIPMENT	TOTAL CAPITAL ASSETS
CAPITAL ASSETS				
June 30, 2017	615	4,624	1,704	6,943
Additions	-	-	-	-
Deletions	-	-	-	-
June 30, 2018	615	4,624	1,704	6,943
ACCUMULATED DEPRECIATION				
June 30, 2017	-	(1,478)	(1,654)	(3,132)
Additions	-	(120)	(50)	(170)
Deletions	-	-	-	-
June 30, 2018	-	(1,598)	(1,704)	(3,302)
Net Capital Assets	615	3,026	-	3,641

NOTE 7: NET PENSION LIABILITY

The following disclosures are only applicable to EORP and CORP-AOC, as only cost-sharing plans are required to report the net pension liability (NPL). PSPRS and CORP are agent plans, therefore, the following note disclosures are not applicable to PSPRS and CORP.

DETERMINATION OF THE NET PENSION LIABILITY

The components of the NPL for EORP and CORP-AOC as of June 30, 2018, are as follows:

	EORP	CORP-AOC
Total Pension Liability	904,884	777,815
Plan Fiduciary Net Position	274,747	417,842
Net Pension Liability	630,138	359,973
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	30.4%	53.7%

NOTES TO THE FINANCIAL STATEMENTS (Continued)

ACTUARIAL ASSUMPTIONS AND METHODS

The actuarial assumptions shown in the following table are used for calculating the total pension liability and may be different than those used for the calculation of funding and contribution rates.

Actuarial assumptions utilized in the June 30, 2018 valuations for EORP and CORP-AOC were based on the results of actuarial experience studies for the 5-year period ended June 30, 2016.

Measurement Date:	June 30, 2018
Valuation Date:	June 30, 2018
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Discount Rate:	7.4%
Wage Inflation:	3.5%
Price Inflation:	2.5%
Mortality Tables:	RP-2014 using MP-2016 improvement scale, with adj. to match experience
Cost of Living Adjustment:	1.75%

A significant change to the actuarial assumptions included in the June 30, 2018 actuarial valuations is the replacement of the future PBI payments with a Cost of Living Adjustment (COLA), due to the passage of Proposition 125 by Arizona voters in the November 2018 election. The passage of Proposition 125 replaced the PBI with a COLA, based on a consumer price index (CPI) for metropolitan Phoenix and Mesa capped at 2%.

The long-term expected rate of return on pension plan investments for both EORP and CORP-AOC was determined using a building-block method in which best estimate ranges of expected real rates of return (expected returns, net of pension plan investment expense) are developed for each major class. Based on the asset allocation, a real rate of return for the portfolio as a whole is determined. The expected nominal rate of return is determined by adding the expected inflation to the real rate of return. The System’s independent investment advisor, NEPC, developed a 30-year return forecast which includes an inflation assumption of 2.75%. The following table shows the expected geometric nominal rate of return for pension plan investments as of June 30, 2018:

EXPECTED RETURN - GEOMETRIC BASIS TARGET ASSET ALLOCATION			
ASSET CLASS	TARGET ASSET ALLOCATION	REAL RETURN GEOMETRIC BASIS	LONG-TERM EXPECTED PORTFOLIO REAL RATE OF RETURN
Short Term Investments	2%	0.25%	0.01%
Risk Parity	4%	5.00%	0.20%
Fixed Income	5%	1.25%	0.06%
Real Assets	9%	4.52%	0.41%
GTS	12%	3.96%	0.48%
Private Credit	16%	6.75%	1.08%
Real Estate	10%	3.75%	0.38%
Private Equity	12%	5.83%	0.70%
Non-U.S. Equity	14%	8.70%	1.22%
U.S. Equity	16%	7.60%	1.22%
Total	100%		5.76%
Inflation			2.75%
Expected Geometric Nominal Return			8.51%

DISCOUNT RATE

The single discount rate of 7.4% was used to measure the total pension liability. This discount rate was based on the expected long-term rate of return on pension plan investments of 7.4%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rates and that employer contributions will be made at rates set by statute. The projection also assumes non-employer contributions will be made at historical rates. Based on these assumptions, the respective plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following table presents the NPL for EORP and CORP-AOC using the current discount rate, as well as what the respective plan’s NPL would be if it were calculated using a discount rate that is one percent lower and one percent higher than the current discount rate.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

SENSITIVITY TO CHANGES IN THE DISCOUNT RATE (IN THOUSANDS)			
	1% DECREASE 6.40%	CURRENT DISCOUNT RATE 7.40%	1% INCREASE 8.40%
EORP Net Pension Liability	723,545	630,138	550,739
CORP-AOC Net Pension Liability	470,931	359,973	269,938

NOTE 8: OTHER BENEFITS

The System adopted a supplemental defined contribution plan available for all contributing members of an eligible group. An eligible group is defined as the employees of the Board of Trustees, PSPRS, the EORP and the CORP.

The employees of any of these eligible groups must make an election to participate within two years after the employee first meets the eligibility requirements to participate in the plan. The election to participate is irrevocable and continues for the remainder of the employee's employment with the employer. If an employee elects to participate, the employee must contribute at least 1% of the employee's gross compensation. The IRS maintains that the employers designate the amounts contributed by each employee. All amounts contributed are subject to the discretion and control of the employer. Employee contributions and earnings to the plan are immediately vested. Employer contributions, if any, are vested based on the following schedule:

- Less than one year of service: 0%
- One year but less than two: 20%
- Two years but less than three: 40%
- Three years but less than four: 60%
- Four years but less than five: 80%
- Five years or more: 100%

The supplemental defined contribution plan is administered by Nationwide Retirement Solutions, Inc. All contributions are sent directly to Nationwide Retirement Solutions, Inc. from the participating employer groups.

NOTE 9: PSPRS EMPLOYEE RETIREMENT PLAN

The employees of the System are covered under the Arizona State Retirement System (ASRS) for pension benefits after retirement.

PLAN DESCRIPTION**ORGANIZATION**

The Arizona State Retirement System (ASRS) is a component unit of the State of Arizona. The ASRS is a cost-

sharing, multiple-employer, pension plan established by the State of Arizona to provide pension benefits for employees of the State and employees of participating political subdivisions and school districts. The ASRS is administered in accordance with Title 38, Chapter 5, Article 2 of the Arizona Revised Statutes (A.R.S.). The Long Term Disability Program is administered in accordance with Title 38, Chapter 5, Article 2.1.

The operations and administration of the ASRS is vested with the ASRS Board of Trustees, which is comprised of nine members, whom are appointed by the Governor and confirmed by the Arizona Senate pursuant to A.R.S. §38-211. The ASRS Board of Trustees is responsible for establishing and maintaining the funding policy.

BENEFITS

The ASRS provides benefits under formulas and provisions described in Arizona State law. Benefits and administrative expenses are paid from funds contributed by members and employers and from earnings on investments. The ASRS provides for retirement, disability, health insurance premium supplemental benefits and survivor benefits.

Retirement benefits are calculated on the basis of age, total credited service and average monthly compensation, which is established on a fiscal year basis (July 1 to June 30).

Members with an initial membership date before July 1, 2011, are eligible for full retirement benefits upon the earliest of attaining:

- Age 65;
- Age 62 with 10 years of credited service;
- Age plus credited service equaling 80 or more

Members with initial membership dates on or after July 1, 2011, are eligible for full retirement benefits upon the earliest of attaining:

- Age 65;
- Age 62 with 10 years of credited service;
- Age 60 with 25 years of credited service;
- Age 55 with 30 years of credited service

Average monthly compensation calculation is determined by a 60-month or 36-month calculation depending on when a member began contributing to the ASRS.

The 60-month calculation is an option for members who began contributing to the ASRS prior to January, 1, 1984. To determine a member's benefit using this formula, the ASRS averages the highest 60 consecutive months of contributions within the last 120 months of contributions.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

This calculation includes base salary, additional contracts, overtime and any other form of compensation. Termination payments may include vacation/sick pay (except for state and county employees), compensation time pay, retirement incentive pay (excludes payments made after retirement begins, such as VIP or ESP), or any other payments paid at the time of termination.

The average monthly compensation calculation for members who began contributing prior to January 1, 1984 is automatically based on whichever calculation provides the greater benefit.

The 36-month calculation is required for members who contributed to the ASRS between January 1, 1984 and June 30, 2011. To determine a member’s benefit using this formula, the ASRS averages the highest 36 consecutive months of contributions within the last 120 months of contributions reported. This calculation excludes any termination payments the member received upon retirement.

For members who began contributing to the ASRS on or after July 1, 2011, the average monthly compensation used in a retiring member’s retirement benefit calculation is the highest consecutive 60 months of contributions in the last 120 months of contributions reported. Unlike the pre-1984 60 month calculation, the 60 month calculation enacted in 2011 does not include termination pay such as sick leave, annual leave, etc.

The graded multiplier is a percentage set by Arizona State statute. It is the percentage of the average monthly compensation members will receive for each year of credited service they have accrued at retirement. This percentage is based on their total years of service at retirement based on the following graded multiplier schedule:

ASRS GRADED MULTIPLIER SCHEDULE	
YEARS OF SERVICE	MULTIPLIER
00.00 - 19.99 years	2.10%
20.00 - 24.99 years	2.15%
25.00 - 29.99 years	2.20%
30.00 or more years	2.30%

PERMANENT BENEFIT INCREASE (PBI)

Retired members who have been retired for at least one year and members receiving LTD benefits are eligible for a benefit increase adjustment up to a maximum of 4%, if funds are available.

The PBI is paid when the average investment return is in excess of 8% over a rolling 10 year period from a reserve of excess investment earnings. Funds are reserved when total actuarial investment returns for each fiscal year are

greater than 8%. If there are no excess investment earnings in the reserve, then no additional benefit increase is paid. As of June 30, 2017, there is a zero balance in the reserve for future PBIs.

Retired members with at least 10 years of service who have been retired five or more years are eligible for an enhanced permanent benefit increase (EPBI). For each complete five-year period the member has been retired, an incremental benefit is paid if monies to pay the benefit are available. This benefit is funded by an interest credit of 8% of the reserve for future PBIs.

Due to legislation enacted in the 2013 legislative session, PBIs and EPBIs will not be awarded to members hired after September 13, 2013.

CONTRIBUTIONS

Per Arizona Revised Statutes, contribution requirements for active plan members and their participating employers are established and may be amended by the ASRS Board.

Contribution rates are actuarially determined and are expected to finance the costs of benefits accrued by plan members during the year and any unfunded accrued liability. The cost of administering the pension and other post-employment benefits is financed through employer contributions, member contributions and investment earnings.

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work. ACR contributions totaling \$28.0 million were received in FY17 and are included in Employer Contributions on the Statement of Changes in Fiduciary Net Position in the June 30, 2017 CAFR.

Employers’ contractually required contribution rates as a percentage of covered payroll and the employees’ matching contributions were as follows for fiscal year 2018:

CONTRIBUTION RATES	EMPLOYEE	EMPLOYER
Retirement	11.34%	10.90%
Health Benefit Supplement	-	0.44%
Long-Term Disability	0.16%	0.16%
TOTAL REQUIRED	11.50%	11.50%
Alternate Contribution Rate	-	9.49%

The Arizona Revised Statutes allow the purchase of eligible service credit for which no benefit can be paid by another qualified plan. Purchasable services include leave of absence, military service, other public service employment and previously forfeited service under the ASRS. The Arizona Revised Statutes also allow purchase of military service regardless of whether a benefit may be paid.

NOTES TO THE FINANCIAL STATEMENTS (Continued)**TERMINATION OF EMPLOYMENT**

Upon termination of employment, members may elect to receive their contributions made to the Plan, plus accrued interest. Members with an initial membership date before July 1, 2011, may receive a percentage of employer contributions to the Plan based on years of service as follows:

YEARS OF SERVICE	VESTING
5.00 - 5.99 years	25%
6.00 - 6.99 years	40%
7.00 - 7.99 years	55%
8.00 - 8.99 years	70%
9.00 - 9.99 years	85%
10.00 or more years	100%

Members with an initial membership date on or after July 1, 2011 will not receive any portion of the employer contributions if they withdraw their account balance prior to retirement. This does not apply to terminations due to an employer reduction in force or position elimination, in which case the above ASRS vesting schedule will apply.

Withdrawal of accumulated contributions results in forfeiture of the member's accrued benefits in the Plan; however, state law provides for reinstatement of a member's forfeited service upon repayment of the accumulated contributions, plus interest if a former member returns to covered service.

CONDENSED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Employers participating in the ASRS cost-sharing multiple-employer defined benefit plans are required to report pension information in their financial statements, for fiscal periods beginning on or after June 15, 2014, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions. The Schedule of Employer Allocations and Schedule of Pension Amounts by Employer (pension allocation schedules) provide employers with the required information for financial reporting.

BASIS OF ACCOUNTING

The underlying financial information used to prepare the pension allocation schedules is based on the ASRS financial statements. The ASRS financial statements are prepared using the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) that apply to governmental accounting for fiduciary funds.

EMPLOYER CONTRIBUTIONS

Contributions are recognized as revenues when due, pursuant to statutory and contractual requirements.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actuarial results could differ from those estimates. For a complete description of significant accounting policies, please refer to the ASRS' June 30, 2017 CAFR.

ACTUARIAL ASSUMPTIONS

The total pension liability was determined by an actuarial valuation as of June 30, 2016, and rolled forward using generally accepted actuarial procedures to June 30, 2017. The following actuarial assumptions pertain to assumptions utilized for financial reporting requirements and differ from the assumptions utilized for funding purposes. The principal differences between the actuarial assumptions for financial reporting purposes and those utilized for funding purposes are the actuarial cost methodology, amortization methodology, valuation of the Retirement Fund assets and the inclusion of the Permanent Benefit Increase.

Actuarial Valuation Date	June 30, 2016
Actuarial Roll Forward Date	June 30, 2017
Actuarial Cost Method	Entry Age Normal
Asset Valuation	Fair Value
Discount Rate	8.00%
Projected Salary Increase	3.00 - 6.75%
Inflation	3.00%
Permanent Benefit Increase	Included
Mortality Rates	1994 GAM Scale BB

The actuarial assumptions related to funding appear in the Notes to Required Supplementary Information and the Actuarial Section of the June 30, 2017 CAFR. The actuarial assumptions related to funding were selected on the basis of an experience study which was performed for the five-year period ending June 30, 2012.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The ASRS Board adopted the experience study which recommended changes, and those changes were effective as of the June 30, 2013 actuarial valuation.

The net pension liability for ASRS at the aggregate level as of June 30, 2017 was reduced by \$984,132, due to a change in actuarial assumptions related to decreased loads for future potential Permanent Benefit Increases.

The long term expected rate of return on investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the asset allocation policy as of June 30, 2017 are summarized in the following table:

ASSET CLASS	EXPECTED RETURN ARITHMETIC BASIS		LONG-TERM EXPECTED REAL RATE OF RETURN
	TARGET ASSET ALLOCATION	REAL RETURN ARITHMETIC BASIS	
Equity	58%	6.73%	3.87%
Fixed Income	25%	3.70%	.91%
Commodities	2%	3.84%	.08%
Real Estate	10%	4.25%	.42%
Multi-Asset Class	5%	3.41%	.17%
Total	100%		5.45%
Inflation			3.25%
Expected arithmetic nominal return			8.70%

Actual returns may be different due to volatility of returns. The long term expected rate of return of 8.70% is higher than the 8% assumed rate of return used in the actuarial valuation. Details regarding the discount rate for actuarial purposes follows.

DISCOUNT RATE

The discount rate used to measure the total pension liability was 8%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the funding policy of the ASRS

Board, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the Retirement Fund’s fiduciary net position was projected to be available to make all the projected future benefit payments of current members.

Therefore, the long term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

The table below presents PSPRS’s share of the net pension liability of the participating employers calculated using the discount rate of 8%, as well as what PSPRS’s share of the net pension liability would be if it were calculated using the discount rate that is 1.00% lower (7.00%) or 1.00% higher (9.00%) than the current rate at June 30, 2017:

SENSITIVITY ANALYSIS—NET PENSION LIABILITY PSPRS Proportionate Share (IN THOUSANDS)		
1% DECREASE (7.00%)	CURRENT DISCOUNT RATE (8.00%)	1% INCREASE (9.00%)
9,036	7,040	5,372

BASIS FOR ALLOCATION

PSPRS’ proportionate share of the ASRS net pension liability is calculated using accrued retirement contributions for employers that were members of the ASRS on June 30, 2017. Accrued contributions for employers who entered the ASRS mid-year have been annualized. Adjustments have been made for employer contributions received that do not reflect an employer’s projected long-term contribution effort. PSPRS’ proportionate share of the ASRS’ net pension liability was based on the ratio of the System’s actual contributions of \$475 paid to ASRS for the year ended June 30, 2017 relative to the actual contributions of \$1,051,469 from all participating employers. At June 30, 2017 the System’s proportionate share was 0.04519%, which is an increase of 0.00131% from the previous year.

Based on its proportionate share, for the year ended June 30, 2017, the System recognized a pension expense of \$515. At June 30, 2017, the System recognized a net pension liability of \$7,040. It also reported deferred outflows of resources and deferred inflows of resources from the following sources related to ASRS pension benefits:

NOTES TO THE FINANCIAL STATEMENTS (Continued)

(IN THOUSANDS)		
BALANCE OF DEFERRED OUTFLOWS AND INFLOWS DUE TO:	DEFERRED OUTFLOWS OF RESOURCES	DEFERRED INFLOWS OF RESOURCES
Difference Between Expected and Actual Experience	-	211
Difference Between Projected and Actual Investment Earnings	51	-
Changes of Assumptions	306	210
Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions	298	-
Employer contributions subsequent to the measurement date	569	-
TOTAL	1,224	421

Proposition 125 was put on the November 2018 ballot and was passed by Arizona's voters. The change from a PBI to a COLA reduces the actuarial accrued liability by \$116 million in EORP and \$202 million in CORP. Although the proposition was not passed until November, the change is reflected in the June 30, 2018 actuarial valuations.

\$569 reported as a deferred outflow from contributions paid subsequent to the measurement date will be recognized as a reduction to the net pension liability in the fiscal year ended June 30, 2019.

Other amounts reported as collective deferred (inflows)/outflows of resources to be recognized in future pension expense include the following:

AMORTIZATION OF DEFERRED (INFLOWS)/OUTFLOWS (IN THOUSANDS)	
FYE JUNE 30,	DEFERRED (INFLOW) OUTFLOW
2019	(86)
2020	380
2021	100
2022	(162)
Thereafter	-

Additional financial and actuarial information is available at www.azasrs.gov.

NOTE 10: SUBSEQUENT EVENT

In fiscal year 2018 legislation was passed that replaced the permanent benefit increase (PBI) for retirees in EORP and CORP, which was based on investment returns and capped at 4%, with a cost of living adjustment (COLA), which is based on inflation and capped at 2%. Because that change affects existing retirees, it could not become effective until there was a change to Arizona's constitution.

2018	975,153	955,786	19,367	117,081,292	0.82%

REQUIRED SUPPLEMENTARY INFORMATION**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION****NOTE 1: GENERAL ACTUARIAL METHODS AND ASSUMPTIONS**

The pension-related Required Supplementary Information schedules were prepared using the Entry Age Normal actuarial cost method.

The Net Pension/OPEB Liability schedules were prepared using the actuarial assumptions disclosed in the Basic Financial Statements, footnotes 3 and 7. The “actuarially determined contribution” amounts found in the contribution schedules were prepared using actuarial assumptions as of the valuation date, which was June 30, 2016. Those assumptions are as follows:

Measurement Date:	June 30, 2018
Valuation Date:	June 30, 2018
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Discount Rate:	7.4%
Wage Inflation:	3.5%
Price Inflation:	2.5%
Mortality Tables:	RP-2014 using MP-2016 improvement scale, with adj. to match experience
Cost of Living Adjustment:	1.75%

EORP CONTRIBUTIONS

The member contribution rate for EORP members was 13% of covered payroll for those that became members on or after July 20, 2011, and 7% for those who became members prior to July 20, 2011.

As of January, 1 2014, the Arizona State Legislature closed the Elected Official’s Retirement Plan and set the employer contribution rate to 23.50% of covered payroll with an additional five million dollars contributed by the State of Arizona. The five million dollars from the State of Arizona is considered a contribution from a non-employer contributing entity and is listed separately on the Statement of Changes in Fiduciary Position. In addition, the EORP receives additional contributions from certain employers as specified in A.R.S. § 38-810.

Senate Bill 1478, signed into law by Governor Ducey on May 15, 2018 amends A.R.S. § 38-810 and effectively returns the calculation of the employer contribution rate to an annual, actuarially determined basis. Effective July 1, 2018, the EORP employer contribution rate will be 61.5% of covered payroll.

CORP-AOC

The actuarially determined contributions for CORP-AOC separately were 23.34% of covered payroll (22.51% to the pension plan and 0.83% to the OPEB plan). The minimum employer contribution rate is 6% (in accordance with A.R.S. § 38-891).

NOTE 2: FACTORS THAT AFFECT TRENDS

As a result of an actuarial experience study conducted in FY17 covering the period July 1, 2011 through June 30, 2016, several actuarial assumptions were adjusted in both plans. Wage inflation was lowered from 4.00% to 3.50%. Mortality tables were updated to the RP-2014 tables. Withdrawal, disability and retirement assumptions were updated, and the assumption regarding future cost of living increases for Tier 1 members was increased.

Notes to Required Supplementary Information

The schedules shown above are required by GASB Statement No. 68 since PSPRS employees belong to the Arizona State Retirement System, a cost-sharing multiple-employer plan. As such, PSPRS is an “employer” in that plan and is required to contribute to ASRS, and include a share of ASRS’ net pension liability on the face of the PSPRS financial statements.

During the measurement period, actuarial assumptions related to changes in the loads for future potential Permanent Benefit Increases increased the net pension liability for ASRS at the aggregate level by \$984,131,668. The employer contribution rate was increased from 11.48% to 11.50%. There were no changes in actuarial assumptions during the period.

The Board of Trustees and
The Administrator of the
Arizona Public Safety Personnel Retirement System

Members:

As we approach the close of 2018, I'm grateful to take a moment to introduce myself as the new Chief Investment Officer of AZ PSPRS. You may know that I've worked on the investment team for over a decade and am proud of the program we've built. However, my approach is markedly different from many of my peers; pragmatism is more important than what others in our industry are doing or what we've always done. As CIO, my priorities are as follows; investment returns, team and individual accountability. Successful organizations require clear objectives, a team with complimentary skills and attributes, and a results-driven organizational culture. I'm thrilled for the next chapter at our investment office and at the Trust. In the pages following my brief comments below, you'll find a detailed analysis of the investment program. I encourage everyone to review the commentary along with the accompanying tables as they often reveal relationships and concepts that standard financial statements alone may not impart on all readers.

The Trust earned a time-weighted return of 7.07%, net of fees, for the fiscal year ending June 30, 2018, and ended the fiscal year with a market value of approximately \$9.8 billion. Public and private equity asset investments were the strongest contributors to performance, returning approximately 14% and 12%, respectively, net of fees, for the fiscal year. The Global Trading Strategies portfolio delivered a net return of 7.54% and the core lending program produced a return of 9.9%. Roughly 30% of the Trust's portfolio is invested in assets that will do well if commodity prices and/or interest rates increase. Given the low-inflation/low-interest rate environment that portion of the Trust's portfolio produced lower returns than other asset classes and the Trust's assumed earnings rate albeit above benchmark inflation rates such as the Consumer Price Index.

Over the next five to 10 years we expect returns in core bonds and U.S. stocks to be lower than they have been during the preceding five to 10-year span but we don't believe this creates a crisis for pension funds with diversified portfolios. Prices of financial securities are driven not by what happens in the economy but by what happens relative to what markets were expecting to happen. By identifying what assumptions the "market" is making today about the future of interest rates and corporate profits we can assess how likely a positive or negative surprise will be. At the end of the fiscal year, market prices reflected an expectation that the economy would continue as it had over the recent years, namely, that inflation would be low and that corporate profits would continue to grow at a double-digit pace. While such an outcome is not unrealistic, global conditions are not as accommodating now as they were a year ago. Our economy is operating above capacity, the U.S. is experiencing historically low unemployment and the Federal Reserve has started raising interest rates. This is the opposite of the economic landscape 10 years ago or even five years ago. To be clear, we're not hoping for a recession (nor do we think one is likely) but I believe it's important, for context, to keep this environment in mind when assessing what to expect from the PSPRS portfolio.

Fortunately the Trust's exposure to changing economic winds, while not negligible, is manageable. Yet, instead of tilting the portfolio towards, or away from, economic expansions, a more winsome strategy is to favor idiosyncratic opportunities that offer good prospects for high returns regardless of market conditions. The PSPRS Trust has an excellent reputation of being a first-mover in such markets, and was well compensated for doing so, and it's an area we'll continue to pursue and develop. Having an "all-weather" approach means the portfolio will produce more consistent returns which mitigates contribution rate volatility and supports a healthy pension system.

OVERVIEW

The Public Safety Personnel Retirement System (the **System**) is a multi-employer governmental plan acting as an independent trust fund of the State of Arizona. The System and two other governmental plans, the Elected Officials' Retirement Plan (**EORP**) and the Corrections Officer Retirement Plan (**CORP**), which collectively, are called the **Plans**, are administered by a single, nine-member board of trustees (the **Board**). By law, the Board administers the Plans through the System's offices. The Plans have created a group trust called the Arizona PSPRS Trust (the **Trust**) to commingle their assets for purposes of investment.

The Amended and Restated Statement of Investment Policies outlines the goals, objectives and overall governance structure of the investment program. Current policy outlines the following primary objectives:

- Achieve a total return that meets or exceeds the assumed earnings rate
- Achieve a total return that meets or exceeds the Policy Index
- Manage a risk/return ratio in the top-half of peer group

Eligible securities include, but are not limited to, stocks, bonds, public commingled funds, private commingled funds, private single securities and separately managed accounts. The Board delegated day-to-day investment management to the System's Administrator who in turn delegated it to the Chief Investment Officer. The Board also retains an independent investment consultant, as a fiduciary, to assist the Board in developing and modifying the Trust's investment policy.

BASIS FOR PRESENTATION

Investments are reported at fair value. Unrealized gains and losses are included as investment income. The net assets of the Trust are valued on a monthly basis. Investment returns reported in this investment section were prepared using a time-weighted rate of return methodology based upon fair market values, net of investment expenses.

Publicly traded securities (stocks, bonds, mutual funds, ETFs, etc.) are valued using published market prices. Investments in private limited partnerships (private equity, real estate, etc.) are valued on the individual investment's capital account balance, reported by the general partner, at the closest available reporting period, adjusted for subsequent contributions, distributions, management fees and published market prices for certain securities.

Respectfully submitted,

Mark Steed, Chief Investment Officer

FUND INVESTMENT OBJECTIVES AND POLICIES

The objective of the Fund is to ensure the integrity of the Elected Officials' Retirement Plan, Public Safety Personnel Retirement Plan and the Corrections Officer Retirement Plan in order to adequately fund benefit levels for members as stated in Title 38, Chapter 5, Articles 3,4 and 6 of the Arizona Revised Statutes and as amended from time to time by the Legislature. To achieve the objective, the Fund will do the following:

- Maintain a goal for the Fund's assets to be equal to the Fund's liabilities within a twenty year period.
- Annually adjust the employer contribution rates based on the recommendations made by the annual actuarial evaluations.
- Determine a reasonable contribution rate necessary to fund benefits approved by the legislature and then reduce the variation in the employer contribution rate over time to the Fund.
- Preserve and enhance the capital of the Fund through effective management of the portfolio in order to take advantage of attractive opportunities various markets and market sectors have to offer.
- Provide the opportunity for increased benefits for retirees as the legislature may from time to time enact through systematic growth of the investment fund.

Consistent with the Fund objectives, the primary investment objective of the Fund is to maximize long-term real (after inflation) investment returns recognizing established risk (volatility) parameters and the need to preserve capital by:

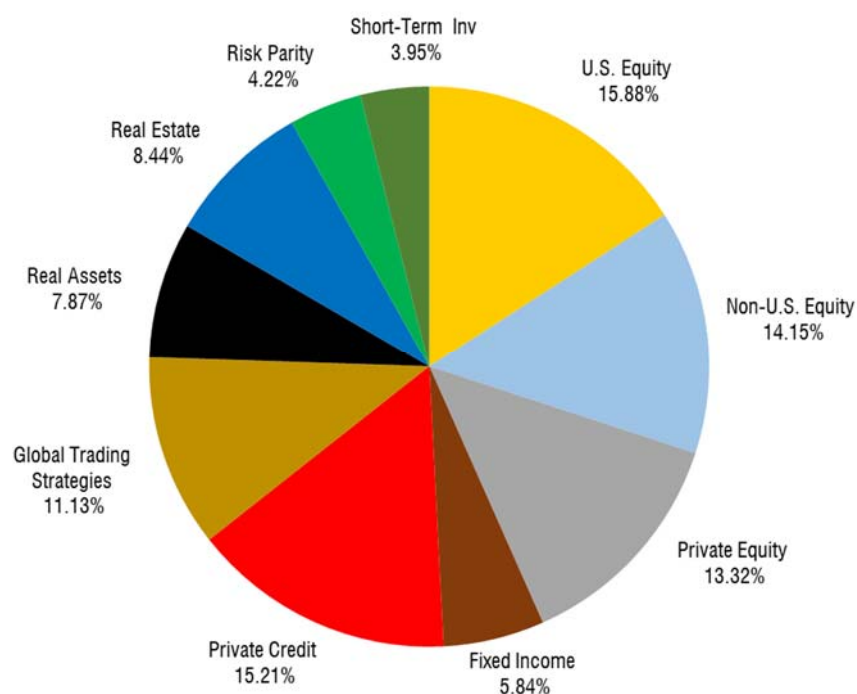

- Deriving a reasonable asset allocation model that attempts to fully achieve the primary investment objective, over the long term.
- Consistent with these objectives and the direction of the Board of Trustees, strategically allocating within asset classes and investment styles in order to enhance investment returns.
- Regularly reviewing the status of investments.
- Regularly assessing the need to adjust the mix, type and composition of the investment classes within the allocation ranges.

The possibility of short-term declines in the fair value of the Fund or the Fund's assets is a recognized consequence of achieving potentially higher long-term investment returns.

The time horizon for evaluating total Fund investment performance shall be long-term.

ACTUARIAL SECTION

December 19, 2018

Board of Trustees
Arizona Public Safety Personnel Retirement System
3010 East Camelback Road, Suite 200
Phoenix, Arizona 85016-4416

Re: Arizona Public Safety Personnel Retirement System

Attention: Jared A. Smout, Administrator

The purpose of the annual actuarial valuation of the Arizona Public Safety Personnel Retirement System as of June 30, 2018 is to:

- Compute the liabilities associated with benefits likely to be paid on behalf of current retired and non-retired members.
- Compare assets with accrued liabilities to assess the funded condition.
- Compute the recommended employers' contribution for the Fiscal Year beginning July 1, 2019.

The funding objective is stated in Article 4, Chapter 5, Title 38, Section 843B of the Arizona Revised Statutes. The valuation should not be relied upon for any other purpose.

The valuation process develops contribution rates that are sufficient to fund the plan's normal cost (i.e., the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund unfunded actuarial accrued liabilities as a level percent of active member payroll over a finite period. The valuations were completed based upon population data, asset data, and plan provisions as of June 30, 2018.

The valuation was based upon information furnished by the plan's administrative staff concerning Retirement System benefits, financial transactions, and active members, terminated members, retirees and beneficiaries. We checked the data for internal and year-to-year consistency, but did not audit the data. As a result, we do not assume responsibility for the accuracy or completeness of the data provided. The actuary summarizes and tabulates population data in order to analyze longer-term trends. The following schedules were prepared by the actuary and provided to the administrative staff to be included in the "Actuarial Section" of the June 30, 2018 CAFR:

- Aggregate Actuarial Balance Sheet as of June 30, 2018
- Summary of Valuation Assumptions
- Solvency Test
- Summary of Active Member Data
- Summary of Retirees and Inactive Members
- Schedule of Experience Gain/(Loss) for year ended June 30, 2018

Board of Trustees
December 19, 2018
Page 2

GRS did not prepare any of the schedules included in the “Financial Section” of the June 30, 2018 CAFR. However, we did provide certain pieces of information that were used in that section, such as the Actuarial Accrued Liability and the Actuarial Value of Assets.

Assets are valued on a market related basis. This method recognizes the assumed return fully each year and spreads each year’s gain or loss above or below assumed return over a closed 7-year period. The continuing effect of prior asset losses was dampened by the 7-year smoothing period, and further offset by the effect of lower than assumed pay increases. There remains \$170.6 million (\$161.9 million for pension and \$8.7 million for health) of unrecognized investment losses that will in the absence of other gains, drive the contribution rate up over the next several years.

Actuarial valuations are based upon assumptions regarding future activity in specific risk areas including the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. The Board of Trustees adopts these assumptions after considering the advice of the actuary and other professionals. The assumptions and the methods comply with the requirements of Statement No. 67 of the Governmental Accounting Standards Board. In addition, the assumptions and methods used for funding purposes are in accordance with the Actuarial Standards of Practice promulgated by the Actuarial Standards Board. Each actuarial valuation takes into account all prior differences between actual and assumed experience in each risk area and adjusts the contribution rates as needed. The June 30, 2018 valuations were based upon assumptions that were recommended in connection with a study of experience covering the 2011-2016 period. Future actuarial measurements may differ significantly from those presented in the valuations due to such factors as experience differing from that anticipated by the actuarial assumptions, changes in plan provisions, changes in actuarial assumptions or methods, or changes in applicable law.

Based upon the results of the June 30, 2018 valuations, the retired lives are less than fully funded on a funding value of assets basis and market value of asset basis. It is most important that this plan receive contributions at least equal to the actuarial rates.

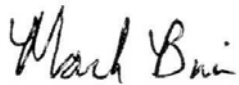

Board of Trustees
December 19, 2018
Page 3

In order to gain a full understanding of the actuarial condition of the plan, it is important to read the full actuarial report that we have provided to the System.

Mark Buis, James D. Anderson and Francois Pieterse are Members of the American Academy of Actuaries (MAAA), and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Respectfully submitted,

Mark Buis, FSA, EA, FCA, MAAA

James D. Anderson, FSA, EA, FCA, MAAA

Francois Pieterse, ASA, FCA, MAAA

PSPRS SUMMARY OF VALUATION ASSUMPTIONS

ECONOMIC ASSUMPTIONS

Investment Rate of Return: 7.40% (net of expenses)

Wage Inflation: 3.50%

MORTALITY TABLES

The mortality tables being utilized are based upon the RP-2014 tables, as extended, and include a margin for future mortality improvement using a fully generational improvement scale. The tables used were as follows:

Healthy Pre-Retirement: The RP-2014 Employee Mortality Tables, extended via cubic spline, projected backwards 1 year to 2013 with mortality improvement scale MP-2014. Future mortality improvements are assumed each year using 75% of scale MP-2016.

Healthy Post-Retirement: The RP-2014 Healthy Annuitant Mortality Tables (110% for females), extended via cubic spline, projected backwards 1 year to 2013 with mortality improvement scale MP-2014. Future mortality improvements are assumed each year using 75% of scale MP-2016.

Disability Retirement: The RP-2014 Disabled Mortality Tables, extended via cubic spline, projected backwards 1 year to 2013 with mortality improvement scale MP-2014. Future mortality improvements are assumed each year using 75% of scale MP-2016.

Retirement benefits will commence the first day of the month following termination of employment and based upon completion of 20 years of service, or following 62nd birthday and completion of 15 years of service.

These rates adopted by the Board of Trustees, as recommended by the Plan's actuary, were first used for the June 30, 2017 valuation.

PSPRS MISCELLANEOUS AND TECHNICAL ASSUMPTIONS**MARRIAGE ASSUMPTION**

85% of males and 60% of females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses for active member valuation purposes.

PAY INCREASE TIMING

Six months after the valuation date.

DECREMENT TIMING

Decrements of all types are assumed to occur mid-year.

ELIGIBILITY TESTING

Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.

DECREMENT RELATIVITY

Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.

DECREMENT OPERATION

Disability and turnover decrements do not operate during retirement eligibility.

SERVICE CREDIT ACCRUALS

It is assumed that members accrue one year of service credit per year.

INCIDENCE OF CONTRIBUTIONS

Contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made.

NORMAL FORM OF BENEFIT

A straight life payment is the assumed normal form of benefit for members who are not married, and the 80% Joint and Survivor form of payment with no reduction, for married members. 85% of males and 60% of females are assumed to be married at time of retirement.

BENEFIT SERVICE

Exact fractional service is used to determine the amount of benefit payable.

HEALTH CARE UTILIZATION

70% of future retirees are expected to utilize health care. 85% of males and 60% of females are assumed to be married at the time of retirement.

FUTURE COST OF LIVING INCREASES

The cost-of-living adjustment will be based on the average annual percentage change in the Metropolitan Phoenix-Mesa Consumer Price Index published by the United States Department of Labor, Bureau of Statistics. We have assumed that to be 1.75% for this valuation.

PSPRS SUMMARY OF ACTIVE MEMBER DATA

AGE AND SERVICE DISTRIBUTION

Listed below is a summary of Active Members by age group, years of service and annual compensation. The summary points out that there were 18,648 active members in the System as of June 30, 2018, compared to 19,010 for the prior year.

Phoenix, Arizona 85016-4416

Re: Arizona Elected Officials' Retirement Plan

Attention: Jared A. Smout, Administrator

The purpose of the annual actuarial valuation of the Arizona Elected Officials' Retirement Plan as of June 30, 2018 is to:

- Compute the liabilities associated with benefits likely to be paid on behalf of current retired and non-retired members.
- Compare assets with accrued liabilities to assess the funded condition.
- Compute the recommended employers' contribution for the Fiscal Year beginning July 1, 2019.

The funding objective is stated in Article 4, Chapter 5, Title 38, Sections 810C-D of the Arizona Revised Statutes. The valuation should not be relied upon for any other purpose.

The valuation process develops contribution rates that are sufficient to fund the Plan's normal cost (i.e., the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund unfunded actuarial accrued liabilities as a dollar amount over a finite period. The valuations were completed based upon population data, asset data, and plan provisions as of June 30, 2018.

The valuation was based upon information furnished by the plan's administrative staff concerning Retirement Plan benefits, financial transactions, and active members, terminated members, retirees and beneficiaries. We checked the data for internal and year-to-year consistency, but did not audit the data. As a result, we do not assume responsibility for the accuracy or completeness of the data provided. The actuary summarizes and tabulates population data in order to analyze longer-term trends. The following schedules were prepared by the actuary and provided to the administrative staff to be included in the "Actuarial Section" of the June 30, 2018 CAFR:

- Aggregate Actuarial Balance Sheet as of June 30, 2018
- Summary of Valuation Assumptions
- Solvency Test
- Summary of Active Member Data
- Summary of Retirees and Inactive Members
- Schedule of Experience Gain/(Loss) for year ended June 30, 2018

Board of Trustees
December 19, 2018
Page 2

GRS did not prepare any of the schedules included in the “Financial Section” of the June 30, 2018 CAFR. However, we did provide certain pieces of information that were used in that section, such as the Actuarial Accrued Liability and the Actuarial Value of Assets.

Assets are valued on a market related basis. This method recognizes the assumed return fully each year and spreads each year’s gain or loss above or below assumed return over a closed 7-year period. The continuing effect of prior asset losses was dampened by the 7-year smoothing period, and further offset by the effect of lower than assumed pay increases. There remains \$9.3 million (\$8.7 million for pension and \$0.6 million for health) of unrecognized investment losses that will, in the absence of other gains, drive the contribution rate up over the next several years.

Actuarial valuations are based upon assumptions regarding future activity in specific risk areas including the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. The Board of Trustees adopts these assumptions after considering the advice of the actuary and other professionals. The assumptions and the methods comply with the requirements of Statement No. 67 of the Governmental Accounting Standards Board. In addition, the assumptions and methods used for funding purposes are in accordance with the Actuarial Standards of Practice promulgated by the Actuarial Standards Board. Each actuarial valuation takes into account all prior differences between actual and assumed experience in each risk area and adjusts the contribution rates as needed. The June 30, 2018 valuation was based upon assumptions that were recommended in connection with a study of experience covering the 2011-2016 period. Future actuarial measurements may differ significantly from those presented in the valuation due to such factors as experience differing from that anticipated by the actuarial assumptions, changes in plan provisions, changes in actuarial assumptions or methods, or changes in applicable law.

Based upon the results of the June 30, 2018 valuations, the retired lives are less than fully funded on a funding value of assets basis and market value of assets basis. It is most important that this plan receive contributions at least equal to the actuarial rates.

The June 30, 2018 actuarial valuation reflected the following changes:

Benefit Changes:

- Replace the prior Permanent Benefit Increase with a CPI-based Cost-of-Living Adjustment (COLA) for all retirees.

EORP SUMMARY OF VALUATION ASSUMPTIONS

ECONOMIC ASSUMPTIONS

Investment Rate of Return: 7.40% (net of expenses)

Wage Inflation: 3.50%

MORTALITY TABLES

The mortality rates utilized are based upon the RP-2014 tables, as extended, and include a margin for future mortality improvements projected using a fully generational improvement scale. The tables used were as follows:

Healthy Pre-Retirement: The RP-2014 Employee Mortality Tables, extended via cubic spline, with future mortality improvements assumed each year using scale MP-2016.

Healthy Post-Retirement: The RP-2014 Healthy Annuitant Mortality Tables, extended via cubic spline, with future mortality improvements assumed each year using scale MP-2016.

Disability Retirement: The RP-2014 Disabled Mortality Table, extended via cubic spline, with future mortality improvements assumed each year using scale MP-2016.

Active members are eligible to retire early at any age within 5 years of service, or normally at any age with 20 years of service, at age 62 with 10 years of service, or at age 65 with 5 years of service. Pensions were assumed to be decreased 3/12 of 1% for each month the age at early retirement precedes normal retirement age, with a maximum reduction of 30%.

These rates adopted by the Board of Trustees, as recommended by the Plan's actuary, were first used for the June 30, 2017 valuation.

EORP MISCELLANEOUS AND TECHNICAL ASSUMPTIONS**MARRIAGE ASSUMPTION**

80% of males and 70% of females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses for active member valuation purposes.

PAY INCREASE TIMING

Six months after the valuation date.

DECREMENT TIMING

Decrements of all types are assumed to occur mid-year.

ELIGIBILITY TESTING

Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.

DECREMENT RELATIVITY

Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.

DECREMENT OPERATION

Disability and turnover decrements do not operate during retirement eligibility.

SERVICE CREDIT ACCRUALS

It is assumed that members accrue one year of service credit per year.

INCIDENCE OF CONTRIBUTIONS

Contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made.

NORMAL FORM OF BENEFIT

A straight life payment is the assumed normal form of benefit for members who are not married, and the 75% Joint and Survivor form of payment with no reduction, for married members. 80% of males and 70% of females are assumed to be married at time of retirement.

BENEFIT SERVICE

Exact fractional service is used to determine the amount of benefit payable.

HEALTH CARE UTILIZATION

70% of future retirees are expected to utilize health care. 80% of males and 70% of females are assumed to be married at the time of retirement.

FUTURE COST OF LIVING INCREASES

The cost of living adjustment will be CPI based, capped at 2.0%. The assumed CPI based average is 1.75%.

EORP SUMMARY OF ACTIVE MEMBER DATA

AGE AND SERVICE DISTRIBUTION

Listed below is a summary of Active Members by age group, years of service and annual compensation. The summary points out that there were 579 active members in the Plan as of June 30, 2018, compared to 600 for the prior year.

AGE	EORP YEARS OF SERVICE TO VALUATION DATE							TOTALS

2018	579	50,939	58.0	11.4	87,978	3.8%

Group averages are not used in the actuarial computations but are computed and shown because of their general interest. Reflects the 1985 amendment consolidating the Judges' Retirement System and the Elected Officials' Retirement Plan. Includes participating municipalities pursuant to a 1987 amendment beginning with the June 30, 1988, valuation.

EORP SUMMARY OF INACTIVE MEMBER DATA

As of June 30, 2018, there were 150 inactive members in the Plan who had not withdrawn their accumulated member contributions. It is assumed that these inactive members are waiting to meet the age requirements for service retirement. They are broken down by attained age and years of service as follows:

EORP SUMMARY OF INACTIVE MEMBERS FOR THE YEAR ENDED JUNE 30, 2018						
ATTAINED AGE	YEARS OF SERVICE TO VALUATION DATE					TOTAL
	0-4	5-9	10-14	15-19	20+

December 19, 2018

Board of Trustees
Arizona Corrections Officer Retirement Plan
3010 East Camelback Road, Suite 200
Phoenix, Arizona 85016-4416

Re: Arizona Corrections Officer Retirement Plan

Attention: Jared A. Smout, Administrator

The purpose of the annual actuarial valuation of the Arizona Corrections Officer Retirement Plan as of June 30, 2018 is to:

- Compute the liabilities associated with benefits likely to be paid on behalf of current retired and non-retired members.
- Compare assets with accrued liabilities to assess the funded condition.
- Compute the recommended employers' contribution for the Fiscal Year beginning July 1, 2018.

The funding objective is stated in Article 4, Chapter 5, Title 38, Section 891A of the Arizona Revised Statutes. The valuation should not be relied upon for any other purpose.

The valuation process develops contribution rates that are sufficient to fund the plan's normal cost (i.e., the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund unfunded actuarial accrued liabilities as a level percent of active member payroll over a finite period. The valuations were completed based upon population data, asset data, and plan provisions as of June 30, 2018.

The valuation was based upon information furnished by the plan's administrative staff concerning Retirement Plan benefits, financial transactions, and active members, terminated members, retirees and beneficiaries. We checked the data for internal and year-to-year consistency, but did not audit the data. As a result, we do not assume responsibility for the accuracy or completeness of the data provided. The actuary summarizes and tabulates population data in order to analyze longer-term trends. The following schedules were prepared by the actuary and provided to the administrative staff to be included in the "Actuarial Section" of the June 30, 2018 CAFR:

- Aggregate Actuarial Balance Sheet as of June 30, 2018
- Summary of Valuation Assumptions
- Solvency Test
- Summary of Active Member Data
- Summary of Retirees and Inactive Members
- Schedule of Experience Gain/(Loss) for year ended June 30, 2018

Board of Trustees
December 19, 2018
Page 2

GRS did not prepare any of the schedules included in the “Financial Section” of the June 30, 2018 CAFR. However, we did provide certain pieces of information that were used in that section, such as the Actuarial Accrued Liability and the Actuarial Value of Assets.

Assets are valued on a market related basis. This method recognizes the assumed return fully each year and spreads each year’s gain or loss above or below assumed return over a closed 7-year period. The continuing effect of prior asset losses was dampened by the 7-year smoothing period, and further offset by the effect of lower than assumed pay increases. There remains \$42.2 million (\$39.5 million for pension and \$2.7 million for health) of unrecognized investment losses that will, in the absence of other gains, drive the contribution rate up over the next several years.

Actuarial valuations are based upon assumptions regarding future activity in specific risk areas including the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. The Board of Trustees adopts these assumptions after considering the advice of the actuary and other professionals. The assumptions and the methods comply with the requirements of Statement No. 67 of the Governmental Accounting Standards Board. In addition, the assumptions and methods used for funding purposes are in accordance with the Actuarial Standards of Practice promulgated by the Actuarial Standards Board. Each actuarial valuation takes into account all prior differences between actual and assumed experience in each risk area and adjusts the contribution rates as needed. The June 30, 2018 valuations were based upon assumptions that were recommended in connection with a study of experience covering the 2011-2016 period. Future actuarial measurements may differ significantly from those presented in the valuations due to such factors as experience differing from that anticipated by the actuarial assumptions, changes in plan provisions, changes in actuarial assumptions or methods, or changes in applicable law.

It is most important that this plan receive contributions at least equal to the actuarial rates.

The June 30, 2018 actuarial valuation reflected the following changes:

Benefit Changes:

- Replace the prior Permanent Benefit Increase with a CPI-based Cost-of-Living Adjustment (COLA) for all retirees.
- Pension reform changed the benefit formula for Tier 3 DB members (Probation & Surveillance Officers hired after June 30, 2018).
- Effective June 30, 2018, the plan is essentially closed to new hires. Other than Probation & Surveillance Officers, those hired on or after June 30, 2018 do not enter this plan, but instead enter a Defined Contribution Plan. A Statutory Contribution is developed as a level percent of payroll for all employees of the employer (meaning members of this Retirement Plan and the Defined Contribution Plan). In addition to the Statutory Contribution, this valuation develops a contribution in accordance with funding standards for a Closed pension plan, under which unfunded accrued liabilities are amortized on a level dollar basis, which increases the contribution rate in the short term.
- For newly hired Probation & Surveillance Officers during the year ending June 30, 2019, a 1/3-2/3 split of Tier 3 plan normal cost between employees and employers applies.

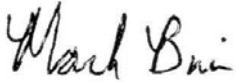

Board of Trustees
December 19, 2018

CORP SUMMARY OF VALUATION ASSUMPTIONS

ECONOMIC ASSUMPTIONS

Investment Rate of Return: 7.40% (net of expenses)
 Wage Inflation: 3.50%

MORTALITY TABLES

The mortality rates utilized are based upon the RP-2014 tables, as extended, and include a margin for future mortality improvements projected using a fully generational improvement scale. The tables used were as follows:

Healthy Pre-Retirement: The RP-2014 Employee Mortality Tables, extended via cubic spline, adjusted backward to 2006 using scale MP-2014, setting it as the 2017 base year, with future mortality improvements assumed each year using 75% of scale MP-2016.

Healthy Post-Retirement: The RP-2014 Healthy Annuitant Mortality Tables, extended via cubic spline, adjusted backward to 2006 using scale MP-2014, setting it as the 2017 base year,, with future mortality improvements assumed each year using 75% of scale MP-2016.

Disability Retirement: The RP-2014 Disabled Mortality Table, extended via cubic spline, extended via cubic spline, adjusted backward to 2006 using scale MP-2014, setting it as the 2017 base year, with future mortality improvements assumed each year using 75% of scale MP-2016.

Active members hired before January 1, 2012 are eligible to retire normally at any age with 20 years of service (25 years for dispatchers), at age 62 with 10 years of service, or when a combination of age and credited service is equal to or greater than 80 years.

Active members hired on or after January 1, 2012 are eligible to retire at age 62 with 10 years of service or at age 52.5 with 25 years of service.

These rates adopted by the Board of Trustees, as recommended by the Plan’s actuary, were first used for the June 30, 2017 valuation.

Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.

DECREMENT RELATIVITY

Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.

DECREMENT OPERATION

Disability and turnover decrements do not operate during retirement eligibility.

SERVICE CREDIT ACCRUALS

It is assumed that members accrue one year of service credit per year.

INCIDENCE OF CONTRIBUTIONS

Contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made.

NORMAL FORM OF BENEFIT

A straight life payment is the assumed normal form of benefit for members who are not married, and the 80% Joint and Survivor form of payment with no reduction, for married members. 75% of males and 50% of females are assumed to be married at time of retirement.

BENEFIT SERVICE

Exact fractional service is used to determine the amount of benefit payable.

HEALTH CARE UTILIZATION

60% of future retirees are expected to utilize health care. 75% of males and 50% of females are assumed to be married at the time of retirement.

FUTURE COST OF LIVING INCREASES

The cost of living adjustment will be CPI based, capped at 2.0%. The assumed CPI based average is 1.75%.

CORP SUMMARY OF ACTIVE MEMBER DATA

AGE AND SERVICE DISTRIBUTION

Listed below is a summary of Active Members by age group, years of service and annual compensation. The summary points out that there were 14,335 active members in the Plan as of June 30, 2018, compared to 13,958 for the prior year.

SOLVENCY TEST

Testing the financial solvency of a retirement plan can be done in several ways. The funding objective is to meet long-term benefit promises through contributions that remain approximately level from year to year as a percent of member payroll. If the contributions to the plan are level in concept and soundly executed, and if the plan continues its present operations pattern for the indefinite future, the plan will pay all promised benefits when due - the ultimate test of financial soundness.

In a plan that has been following the discipline of level percent of payroll financing, the liabilities for active member contributions on deposit (liability 1) and the liabilities for future benefits to present retired lives (liability 2) will be fully covered by present assets (except in rare circumstances). In addition, the liabilities for service already rendered by active members (liability 3) will be partially covered by the remainder of present assets. Generally, if the plan has been using level cost financing, the funded portion of liability 3 will increase over time. Liability 3 being fully funded is very rare. All amounts presented are in thousands.

A short term solvency test is one means of checking a plan's progress under its funding program. In a short term solvency test, the plan's present assets (cash and investments) are compared with:

1. Active member contributions on deposit.
2. The liabilities for future benefits to present re tired lives.
3. The liabilities for service already rendered by active members.

SUMMARY

The Statistical Section provides additional historical perspective, context, and detail to assist the reader in using the information in the financial statements, notes to the financial statements and required supplemental information to understand and assess the economic condition of PSPRS.

Financial trend information is intended to assist users in understanding and assessing the changes in the financial position over time. Schedules and charts presenting financial trend information are Schedule of Changes in Net Position, Schedule of Revenue by Source, Schedule of Expenses by Type, Deductions from Net Position for Benefits and Refunds by Type, Valuation Assets vs. Pension Liabilities, and Contribution Rates.

Operating information is intended to provide contextual information about the operations and resources of PSPRS to assist readers in using financial statement information to understand and assess the economic condition. Schedules and charts presenting operating information are Membership in the Retirement System*, Principal Participating Employers, Benefit Recipients by Location, Summary of the Growth of the System, Benefits Payable*, Average Monthly Benefit Amounts*, Summary of Benefit Increases*, Schedule of Changes in Employers' Reserve Balances, Schedule of Changes in Refundable Member Reserve Balances, Schedule of Employers' Earnings Distribution, and Participating Employers.

CORP-AOC was first split out from CORP in 2014. In some financial schedules in this statistical section, especially when multiple years worth of data are shown, CORP-AOC has been reported separately from CORP. In the other financial schedules, CORP-AOC has been combined with CORP.

Schedules and information are derived from PSPRS internal sources unless otherwise indicated.

* Schedules and data are provided by actuarial consultant Gabriel, Roeder & Smith.
