Retirement Board
Arizona State Retirement System
3300 North Central Avenue
$14^{\text {th }}$ Floor
Phoenix, Arizona 85012
Dear Retirement Board Members:
We certify that the information contained in the attached 2009 actuarial valuation report is accurate and fairly presents the actuarial position of the Arizona State Retirement Plan (the Plan) as of June 30, 2009.

We look forward to discussing this report with you at your convenience.
Sincerely,

Charles E. Chittenden, FSA, EA, MAAA Principal and Consulting Actuary

Michelle Reading DeLange, FSA, EA, MAAA Director, Consulting Actuary

Section 9 Summary of Actuarial Methods and Assumptions ..... 51-56
Section 10 Member Data. ..... 57-76
Section 11 Plan Provisions ..... 77-93

## Executive Summary

Attached are tables summarizing the key results of the June 30, 2009, actuarial valuation of the Arizona State Retirement Plan (the Plan).

## Demographic Changes

The number of active members has decreased from 226,415 to 222,515 , a $1.7 \%$ decrease. Valuation payroll has increased $1.3 \%$ from $\$ 9.708$ billion to $\$ 9.835$ billion. The payroll for fiscal year 2010 was calculated by projecting a smoothed payroll forward one year with the salary scale. Smoothed payroll averages the payroll reported for the prior two fiscal years.

## Gains and Losses

The valuation of the Plan reflects a loss on the investment return on the actuarial value of assets of $\$ 1,383$ million. This loss is due to the investment experience of fiscal 2009 and delayed recognition of losses that have occurred in earlier years. Investment losses are recognized in actuarial assets over a ten-year period. The yield rate on actuarial assets for the 2009 fiscal year is $3.04 \%$ on the pension assets (401(a)) and $1.96 \%$ on the health supplement assets (401(h)) compared to last year's returns of $6.44 \%$ and $5.02 \%$, respectively. The actuarially assumed rate of return is $8 \%$. There was also a gain of $\$ 224$ million on the liability experience, mostly due to smaller pay increases than assumed.

## Changes in Plan Provisions

This valuation reflects the following changes in Plan provisions:

- Effective July 1, 2010, members will be required to have five years of service credit in ASRS before initiating a service purchase.
- Effective July 1, 2010, the maximum limit on ASRS pensions of $80 \%$ of 36 -month final average earnings is eliminated.
- Retired members who return to work with a suspension of benefits and work for at least 60 consecutive months will be permitted to choose a new optional form of benefit when they again retire.
- Retired members are allowed to return to work without suspension if the member returns to a different position that does not require participation and the member participates in another program.
- ASRS is exempt from State Personnel Management and Personnel Board provisions and the State classification and compensation statute.
- The scope of the early termination incentive statute is broadened and exceptions are limited.
- Contributions from a second employer will count, beginning January 1, 2010, only if member meets $20 / 20$ membership criteria with respect to the second employer, with certain exceptions.

## Effect on Contribution Rates and Funded Status

The contribution rate calculated in this valuation will become effective on July 1, 2010, and will remain in effect through June 30, 2011. The Plan had a gain on liability experience and a loss on investments. The net result is that the calculated contribution rate will increase from a rate of $9.00 \%$ in the 2008 valuation report to a rate of $9.60 \%$ in this report. Later sections of this report give a detailed explanation of the change in contribution rates.
The recognition of losses has caused the funded status of the total plan (the ratio of actuarial assets to actuarial accrued liabilities) to decrease from $82.2 \%$ as of June 30,2008 , to $79.3 \%$ as of June 30 , 2009. The unfunded actuarial accrued liability has grown during this period from $\$ 6,019.0$ million to \$7,382.4 million.
The calculated contribution rate has increased to a level higher than the Plan's normal cost. If the Plan had no unfunded actuarial accrued liability, the contribution rate would be the normal cost rate, i.e., $6.49 \%$, instead of $9.60 \%$.

## Projected Funded Status as of November 30, 2009

|  | Actuarial Value of Assets |  | Market Value of Assets |  |
| :--- | ---: | ---: | ---: | ---: |
| Projected Accrued Liability | $\$ 36,529,523,609$ | $\$ 36,529,523,609$ |  |  |
| Assets |  | $28,311,422,956$ |  | $22,239,883,878$ |
| Funded Status | $77.50 \%$ |  |  | $60.88 \%$ |

## Reserve and Outlook for Permanent Benefit Increases

Since the total actuarial investment return (on the actuarial value of assets) of $2.99 \%$ is below $8 \%$ for fiscal year 2009, there are no additional "Excess Investment Earnings" to be allocated for Permanent Benefit Increases (PBIs).

We project no future PBIs until after 2020.

## Outlook for Contribution Rates

Our forecast shows contribution rates continuing to increase for four years, assuming future experience matches our assumptions and the workforce experiences no growth, $2.5 \%$ annual growth or $2.5 \%$ annual reduction, as follows:

| Contribution Rate for Each Member and Employer |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Effective Date | No Growth | $2.5 \%$ Annual Growth | $2.5 \%$ Annual Reduction | One-Time 6\% Reduction |
| $2010 / 2011$ | $9.60 \%$ | $9.60 \%$ | $9.60 \%$ | $9.60 \%$ |
| $2011 / 2012$ | $9.68 \%$ | $9.61 \%$ | $9.77 \%$ | $9.90 \%$ |
| $2012 / 2013$ | $10.43 \%$ | $10.24 \%$ | $10.65 \%$ | $10.70 \%$ |
| $2013 / 2014$ | $10.88 \%$ | $10.55 \%$ | $11.23 \%$ | $11.18 \%$ |
| $2014 / 2015$ | $11.25 \%$ | $10.78 \%$ | $11.78 \%$ | $11.58 \%$ |
| $2015 / 2016$ | $11.55 \%$ | $10.92 \%$ | $12.24 \%$ | $11.87 \%$ |
| $2016 / 2017$ | $11.86 \%$ | $11.08 \%$ | $12.75 \%$ | $12.20 \%$ |
| $2017 / 2018$ | $12.11 \%$ | $11.16 \%$ | $13.21 \%$ | $12.46 \%$ |
| $2018 / 2019$ | $12.29 \%$ | $11.19 \%$ | $13.61 \%$ | $12.65 \%$ |
| $2019 / 2020$ | $12.38 \%$ | $11.13 \%$ | $13.91 \%$ | $12.74 \%$ |

These open-group forecasts age the population, anticipate both inward and outward migration and status changes, and perform closed-group valuations for each fiscal year.

The key results of this valuation, compared to those of last year's valuation, are as follows (dollar amounts, other than averages for individual members, are in millions):

|  | 2008 |  |  | 2009 |

## Introduction

The primary purpose of the actuarial valuation is to determine the required member and employer contribution rates in accordance with the actuarial funding policy specified in Section 38-737 of the Arizona Revised Statues, to describe the current financial condition of the Plan, and to analyze changes in the Plan's condition. In addition, the report provides information that ASRS requires in connection with Governmental Accounting Standards Board Statement Numbers 25 and 43 (GASB Nos. 25 and 43) and it summarizes census data. The valuation covers both the 401 (a) pension plan and the 401 (h) health supplement plan.

The actuarial valuation of the Plan as of June 30, 2009, determines the contribution rate for fiscal year 2011. Based on the results of the 2009 Plan valuation, the contribution rate for the fiscal year beginning July 1, 2010, would increase from the $9.00 \%$ rate determined in the 2008 valuation to $9.60 \%$ of compensation.

#### Abstract

Assets This section shows the change in the assets during the year, calculates the yield on assets for the Plan, and determines the actuarial value of assets under the asset valuation method that was adopted on November 15, 2002, by Board action.

## Market Value of Assets

The market value of assets represents the fair market value of assets as of June 30, 2008, and June 30, 2009, as reported by ASRS.

## Actuarial Value of Assets

The actuarial value of assets method starts with the market value of assets and is modified by the difference between expected investment return and actual investment return on the market value of assets. Effective June 30, 2002, 10\% of this difference is recognized in the valuation immediately following the year in which it occurs. The remaining $90 \%$ is deferred until future valuations with an additional $10 \%$ recognized in each subsequent valuation until $100 \%$ of the difference is recognized in the tenth year. There is no corridor requiring the actuarial value to be within a given percentage of the market value. The Board adopted this actuarial valuation method on November 15, 2002. Prior to June 30, 2002, the phase-in period was five years and there was a $20 \%$ corridor around market values.

The market value of assets as of June 30, 2009, was $\$ 20,403,436,175$ and the actuarial value of asset under this method was $\$ 28,360,159,450$, or about $139 \%$ of market value as of June 30, 2009. The combined 401(a) and 401(h) deferral amount for the year is $\$(7.957)$ billion. That is, $\$ 7.957$ billion of investment losses will be recognized in future valuations.

## Asset Returns

To determine the estimated yield for the year, we assume that the cash flow from benefit payments and refunds occurs at the beginning of the month while all other cash flow occurs middle of the year.

During the twelve months ended June 30, 2009, the Plan had an estimated yield of $3.04 \%$ on the 401(a) actuarial assets and $1.96 \%$ on the 401(h) actuarial assets for the year compared to the actuarial assumed rate of $8 \%$. The Plan assets had an investment return of $(18.28 \%)$ on the 401(a) market assets and (17.83\%) on the 401(h) market assets.

The Plan's assets are split between the retirement program (401(a)) and the health premium supplement program (401(h)) as follows:

| Item | 401(a) Account | 401(h) Account | Total |
| :--- | ---: | :--- | :---: |
| 1. Market Value of Assets | $\$ 19,506,243,433$ | $\$ 897,192,742$ | $\$ 20,403,436,175$ |
| 2. Actuarial Value of Assets | $\$ 27,093,788,614$ | $\$ 1,266,370,836$ | $\$ 28,360,159,450$ |

## Actuarial Balance Sheet

The results of the actuarial valuation of the Plan as of June 30, 2008, and June 30, 2009, are summarized in the actuarial balance sheet in Exhibit 4.1. The results for 2009 are based on the benefit provisions of the Plan as of June 30, 2009, as summarized in Section 11 and on the actuarial assumptions and methods shown in Section 9.

## Contribution Rates

## Normal Cost

Exhibit 5.1 indicates that the normal cost as of June 30, 2009, is $12.98 \%$ of pay compared to $12.90 \%$ in the 2008 valuation. This normal cost is developed based on the prescribed Projected Unit Credit (PUC) actuarial valuation method. It includes both employer and member components.

## Summary of Cost Items

Exhibit 5.2 compares a number of the key actuarial items for the 2009 valuation with the corresponding items for the 2008 valuation.

## Contribution Rates

The employer and member contribution rates are each determined as one-half of the percent of pay needed to pay the normal cost of the Plan and to amortize the Unfunded Actuarial Accrued Liability (UAAL). For the valuation as of June 30, 2009, the normal cost of the Plan is $12.98 \%$ and the amortization of the UAAL is $6.17 \%$. The calculated employer and member rates are equal to:

$$
1 / 2 \times(12.98 \%+6.17 \%)=9.58 \%
$$

The contribution rates are then rounded to the nearest $0.05 \%$, i.e., to $9.60 \%$ for each member and employer.

If the UAAL of the Plan were eliminated, the employer and member rates would be:

$$
1 / 2 \times(12.98 \%+0.00 \%)=6.49 \%
$$

This difference of $3.09 \%$ (i.e., $9.58 \%-6.49 \%$ ) is due entirely to the UAAL of the Plan. Thus, the current UAAL of the Plan is equivalent to a $3.09 \%$ increase in the employer and member contribution rates determined by the 2009 valuation.

The member and employer contribution rates determined by the 2009 valuation are each $9.60 \%$ of compensation. Because of the separation of the health premium supplement into the 401(h) account, we must split the contribution rates into 401 (a) and 401(h) portions. We have assumed that all member contributions will be contributed to the 401 (a) account. This assumption is made to avoid any possible qualification problems due to refunds of member contributions. The contribution rates may be allocated as shown below:

| Item | 401(a) Account | 401(h) Account | Total |
| :--- | :---: | :---: | :---: |
| 1. Member Contribution Rates | $9.60 \%$ | $0.00 \%$ | $9.60 \%$ |
| 2. Employer Contribution Rates | $\underline{9.01 \%}$ | $\underline{0.59 \%}$ | $\underline{9.60 \%}$ |
| 3. Total Contribution Rates | $18.61 \%$ | $0.59 \%$ | $19.20 \%$ |

Exhibit 5.3 shows the history of the contribution rates.

## Exhibit 5.1 - Analysis of Normal Cost by Component

| Benefit Component | Normal Cost as \% of Pay |  |
| :--- | :---: | :---: |
|  | 2008 | 2009 |
| 1. Retirement benefits | $9.76 \%$ | $9.63 \%$ |
| 2. Health insurance premium supplement | $0.48 \%$ | $0.43 \%$ |
| 3. Disability benefits (Deferred Retirement) | $0.55 \%$ | $0.37 \%$ |
| 4. Death benefits | $0.33 \%$ | $0.33 \%$ |
| 5. Termination benefits |  |  |
| a. Refunds ${ }^{1}$ <br> b. Vested deferred benefits <br> c. Total <br> 6. Total$\quad 1.24 \%$ | $\mathrm{~N} / \mathrm{A}$ |  |

${ }^{1}$ Due to a change in cashout assumption for active members who terminate with less than five years of service. In 2009, the assumption was changed such that the member is assumed to elect the greater of the annuity or the lump sum. Due to this change, we no longer have the normal cost split for refunds.

Exhibit 5.2 - Summary of Cost Items

[^1]
## Actuarial Gains and Losses

The purpose of this section is to determine the source of the actuarial gains and losses during the year that have caused the UAAL to increase.

The valuation of the Plan reflects a loss on the investment return on the actuarial value of assets of $\$ 1,383$ million. This loss is due to the investment experience of fiscal 2009 and delayed recognition of losses that have occurred in earlier years. Investment losses are recognized in actuarial assets over a ten-year period. The yield rate on actuarial assets for the 2009 fiscal year is $3.04 \%$ on the pension assets (401(a)) and $1.96 \%$ on the health supplement assets (401(h)) compared to last year's returns of $6.44 \%$ and $5.02 \%$, respectively. The actuarially assumed rate of return is $8 \%$. There was also a gain of $\$ 224$ million on the liability experience and a loss of $\$ 128$ million due to contributions less than expected. The total loss for the year was $\$ 1,287$ million.

## Permanent Benefit Increase

Exhibit 7.1 shows the determination of the PBI for 2009. The determination of the "Excess Investment Earnings" held in reserve for future PBIs is shown in Items 11 thorough 13. As shown in Item 13c, no assets are available for future PBIs. Since the actuarial investment return (on the actuarial value of assets) of $3.04 \%$ is below $8 \%$ for fiscal year 2009, there are no additional "Excess Investment Earnings" to be allocated for Permanent Benefit Increases (PBIs). Future PBI and enhanced PBI awards are not included in this valuation.

Exhibit 7.1 - Determination of Permanent Benefit Increase (PBI) COLA

| Determination of PBI COLA, EPBI effective July 1, 2010 |  |
| :---: | :---: |
| 1. Actuarial Present Value (APV) for all Retirees and Beneficiaries as of June 30, 2008 | \$ 15,847,041,269 |
| 2. Rate of Return on Actuarial Value of Assets for Fiscal Year Ending June 30, 2008 | 6.44\% |
| 3. Excess Earnings Available for COLA |  |

| 13. Rate of Return on Actuarial Value of Assets for Fiscal Year Ending June 30, 2009 | 3.04\% |
| 14. Excess Earnings Reserves for Future COLAs |  |
| a. Carry Over From Prior Year (Item 10) | \$ 0 |
| b. Current Year (Item $11 \times[$ Item $12-8 \%$, minimum 0]) | 0 |
| c. Total Excess Earnings Reserves for Future COLAs | \$ 0 |

## GASB Disclosure and CAFR Information

This section focuses on the required GASB disclosures and the required CAFR information.

## GASB 25 Schedule of Funding Progress

The Governmental Accounting Standards Board (GASB) issued Statement No. 25 that establishes reporting and disclosures requirements for public sector defined benefit pension plans. The Schedule of Funding Progress shows a historical comparison of the 401(a) Plan's assets and liabilities using the same actuarial method used for funding the 401(a) Plan.

## GASB 25 Schedule of Employer Contributions

The required Schedule of Employer Contributions compares the actual employer contributions to the "Annual Required Contributions" (ARC). The ARC is the employer contribution determined under GASB 25 standards (normal cost and amortization of unfunded actuarial accrued liabilities) using the actuarial funding method used for funding the 401(a) Plan.

Under GASB 25, only the 401(a) portion of the Plan is to be disclosed. Therefore, the values in the tables reflect only the pension portion of the Plan. They exclude the assets and actuarial accrued liabilities associated with the health supplement.

## GASB 43 Schedule of Funding Progress

The Governmental Accounting Standards Board (GASB) issued Statement No. 43 that establishes reporting and disclosures requirements for public sector postemployment benefit plans other than pension plans. The Schedule of Funding Progress shows a historical comparison of the 401(h) Plan's assets and liabilities, using the same actuarial method as the one used for funding the 401(h) Plan.

## GASB 43 Schedule of Employer Contributions

The required Schedule of Employer Contributions compares the actual employer contributions to the "Annual Required Contributions" (ARC). The ARC is the employer contribution determined under GASB 43 standards (normal cost and amortization of unfunded actuarial accrued liabilities) using the actuarial funding method of the 401(h) Plan.

## Retiree and Beneficiary Experience

The annual CAFR requires the disclosure of historical summary data for retired members.

## Solvency Test

The annual CAFR requires the disclosure of a "Solvency Test." This test compares actuarial assets to actuarial accrued liabilities applying assets to active member contributions first, then to inactive and retired members and then to the remaining active member liabilities.

# Actuarial Certification ARIZONA STATE RETIREMENT PLAN <br> <br> Actuarial Certification Statement 

 <br> <br> Actuarial Certification Statement}

This is to certify that Buck Consultants has prepared an actuarial valuation of the Arizona State Retirement Plan as of June 30, 2009. The Plan provisions are described in Title 38, Chapter 4, Article 2 of the Arizona Revised Statutes. All benefits described in the statutes are reflected in this valuation, except that future PBI and enhanced PBI awards are not valued.

Actuarial calculations have been made with respect to a total of 532,160 members - 222,515 active members, 210,509 inactive members, 94,424 retired members and beneficiaries, and 4,712 members on long term disability. In addition, there are 323 System retirees receiving only ad hoc benefits, 555 System retirees receiving only health insurance benefits, and 164 System retirees receiving both ad hoc benefits and health insurance benefits from the Plan.

The actuarial calculations establish a total benefit cost of $19.20 \%$ of the annual compensation of members. The total normal cost rate is $12.98 \%$ of compensation and the required amortization payment determined in accordance with Section $38-737$ is $6.17 \%$ of compensation. An additional $0.05 \%$ of pay is for rounding the employer and member rate to the nearest $0.05 \%$.

## Actuarial Valuation of the Plan as of June 30, 2009

We have made all calculations for this report in conformity with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. In our opinion, the report's results comply with the requirements of the Arizona Constitution and statutes and, where applicable, the Internal Revenue Code, the Employee Retirement Income Security Act of 1974 (ERISA), and the Statements of the Governmental Accounting Standards Board. The undersigned actuary is independent. He is an Enrolled Actuary, Fellow of the Society of Actuaries and Member of the American Academy of Actuaries and meets the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained in this report. He is experienced in performing valuations for large public retirement systems and fully qualified to provide actuarial services to the State of Arizona. This report has been prepared in accordance with all applicable Actuarial Standards of Practice.

## Actuarial Valuations

The primary purpose of the valuation report is to determine the required member and employer contribution rates, to describe the current financial condition of the Plan, and to analyze changes in the Plan's condition. In addition, the report provides information that ASRS requires in connection with Governmental Accounting Standards Board Statement Numbers 25 and 43 (GASB Nos. 25 and 43) and it summarizes census data.

Valuations are performed annually as of June 30, the last day of both the Plan year and ASRS' fiscal year.

## Funding Objectives

The actuarial valuation calculates the contribution rates payable by members and participating employers. These rates, when applied to payroll, yield contribution amounts sufficient to provide for the normal cost and to amortize the Unfunded Actuarial Accrued Liability (UAAL) over the period specified in the statutes. The rate calculated becomes effective for the next fiscal year.

For example, the rate calculated in the June 30, 2009, valuation report $(9.60 \%$ for each member and each employer) is applicable for the fiscal year beginning July 1, 2010.

## Funding Progress

The 2008 valuation determined the rate for fiscal 2010 as $9.00 \%$. The 2009 valuation calculates a rate of $9.60 \%$ to become effective July 1, 2010. These rates do not include contributions to the LTD program. Actual contributions have matched the calculated contributions in recent years except for temporary differences, and we assume that members and employers will continue to contribute the actuarially determined amounts. Contributing these amounts ensures the realization of funding objectives.

Section 38-737 of the Arizona Revised Statutes specifies that the UAAL is to be amortized over a rolling 30-year period.

## Benefit Provisions

This valuation reflects the following changes in Plan provisions:

1. Effective July 1, 2010, members will be required to have five years of service credit in ASRS before initiating a service purchase.
2. Effective July 1, 2010, the maximum limit on ASRS pensions of $80 \%$ of 36 -month final average earnings is eliminated.
3. Retired members who return to work with a suspension of benefits and work for at least 60 consecutive months will be permitted to choose a new optional form of benefit when they again retire.

Retired members are allowed to return to work without suspension if the member returns to a different position that does not require participation and the member participates in another program.
4. ASRS is exempt from State Personnel Management and Personnel Board provisions and the State classification and compensation statute.
5. The scope of the early termination incentive statute is broadened and exceptions are limited.
6. Contributions from a second employer will count, beginning January 1, 2010, only if member meets $20 / 20$ membership criteria with respect to the second employer, with certain exceptions.
Section 11 gives details of benefit provisions.

## Assumptions and Methods

We performed an experience study for the five-year period ended June 30, 2007, and recommended assumption changes based on the findings. On April 18, 2008, the Board adopted revised actuarial assumptions to be effective June 30, 2008. On November 23, 2009, the Board adopted further revised actuarial assumptions to be effective June 30, 2009.

On November 15, 2002, the Board adopted a change in the method of valuing actuarial assets. The Board removed the requirement that actuarial assets be within $20 \%$ of market value and prospectively changed the period for recognizing investment gains or losses from five to ten years. Section 9 of this report provides details of the assumptions and methods. The assumptions are internally consistent and are reasonably based on the actual experience of the Plan. These assumptions are in full compliance with GASB Statement Nos. 25 and 43.

Data
ASRS staff supplied census data for retired, active, and inactive members as of June 30, 2009. We have not audited these data, but have examined them for reasonableness and consistency with the prior year's data. ASRS staff also supplied asset information.

## Trend Data and Supporting Schedules

ASRS prepared all trend data schedules in the financial section of ASRS' Comprehensive Annual Financial Report (CAFR). ASRS also prepared all supporting schedules in the actuarial section of the CAFR.

The actuarial cost factors as of June 30, 2009, for the total Plan are as follows:

| I. Actuarial accrued liabilities | 401(a) Account |  | 401(h) Account |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| A. Liabilities due to member's benefits |  |  |  |  |  |  |
| 1. Active members |  |  |  |  |  |  |
| a. Retirement benefits | \$ | 13,662,818,533 | \$ | 0 | \$ | 13,662,818,533 |
| b. Health insurance premium supplement |  | 0 |  | 776,581,851 |  | 776,581,851 |
| c. Disability deferred retirement benefits |  | 430,910,531 |  | 0 |  | 430,910,531 |
| d. Pre-retirement death benefits |  | 359,548,111 |  | 0 |  | 359,548,111 |
| e. Withdrawal benefits |  | 948,857,109 |  | 0 |  | 948,857,109 |
| f. Total active members | \$ | 15,402,134,284 | \$ | 776,581,851 | \$ | 16,178,716,135 |
| 2. Inactive members |  | 1,432,033,875 |  | 48,304,095 |  | 1,480,337,970 |
| 3. Retired members and beneficiaries |  | 16,896,871,278 |  | 587,762,201 |  | 17,484,633,479 |
| 4. Disabled members (deferred retirement) |  | 556,356,851 |  | 33,013,291 |  | 589,370,142 |
| 5. Benefit increases for other-than-plan members |  | 2,719,584 |  | 6,761,262 |  | 9,480,846 |
| 6. Total present value of benefits | \$ | 34,290,115,872 | \$ | 1,452,422,700 | \$ | 35,742,538,572 |
| B. Other miscellaneous liabilities and reserves |  | 0 |  | 0 |  | 0 |
| C. Reserve for future PBIs |  | 0 |  | 0 |  | 0 |
| D. Total actuarial accrued liability | \$ | 34,290,115,872 | \$ | 1,452,422,700 | \$ | 35,742,538,572 |
| II. Actuarial value of assets |  | 27,093,788,614 |  | 1,266,370,836 |  | 28,360,159,450 |
| III. Unfunded actuarial accrued liability (Item I - Item II) |  | 7,196,327,258 |  | 186,051,864 |  | 7,382,379,122 |
| IV. Amortization of unfunded actuarial accrued liability (per Section 38-737) |  | 591,883,524 |  | 15,302,394 |  | 607,185,918 |
| V. Normal cost for the year |  | 1,234,664,757 |  | 41,883,708 |  | 1,276,548,465 |
| VI. Total contribution for the year (Item IV + Item V) | \$ | 1,826,548,281 | \$ | 57,186,102 | \$ | 1,883,734,383 |
| VII. Total covered payroll (projected to 2009/2010 plan year) | \$ | 9,834,810,345 | \$ | 9,834,810,345 | \$ | 9,834,810,345 |
| VIII. Total contribution for fiscal year 2011 as a percentage of covered payrol |  |  |  |  |  |  |
| A. Member portion |  | 9.60\% |  | 0.00\% |  | 9.60\% |
| B. Employer portion |  | 9.01\% |  | 0.59\% |  | 9.60\% |
| C. Total |  | 18.61\% |  | 0.59\% |  | 19.20\% |

The Board adopted a new asset valuation method (described in Section 9B) on November 15, 2002, to be effective for valuations on and after June 30, 2002.

On November 23, 2009, the Board adopted assumptions to be effective for valuations on and after June 30, 2009. These assumptions are as follows:

1. Investment yield - $8 \%$ per annum net of all expenses.
2. Salary increases

| Years of <br> Service | Merit <br> Component |  | Total Salary <br> Increase |
| :---: | :---: | :---: | :---: |
|  |  | $5.00 \%$ |  |
| 2 |  |  | $9.50 \%$ |
| 3 |  | 2.00 |  | | 8.50 |
| :---: |
| 4 |

$$
\begin{aligned}
* & \text { Total salary increase rate }= \\
& \text { inflation (or growth) rate }(3.75 \%)^{1} \\
& + \text { productivity increase rate }(0.75 \%)^{1} \\
& + \text { merit component }
\end{aligned}
$$

3. Rates of disability ${ }^{1}$

| Age | Males |  | Females |
| :---: | :---: | :---: | :---: |
| 20 |  | $0.04 \%$ |  |
| 30 | $0.05 \%$ |  | $0.06 \%$ |
| 40 | $0.16 \%$ |  | $0.08 \%$ |
| 50 | $0.38 \%$ |  | $0.16 \%$ |
| 60 | $0.90 \%$ |  | $0.36 \%$ |
|  |  | $0.82 \%$ |  |

4. Rates of withdrawal - Sample ages and years of service ${ }^{1}$

| Years of Service |
| :---: |
| Male Members |

| Age | 1 | 2 | 5 | 8 | 10+ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 20 | 20.50\% | 15.00\% | 9.25\% | 5.75\% | 17.24\% |
| 30 | 20.50 | 15.00 | 9.25 | 5.75 | 7.63 |
| 40 | 20.50 | 15.00 | 9.25 | 5.75 | 3.06 |
| 50 | 20.50 | 15.00 | 9.25 | 5.75 | 2.09 |
| 60 | 20.50 | 15.00 | 9.25 | 5.75 | 1.46 |

[^3]Years of Service
Female Members

| Age | 1 | 2 | 5 | 8 | 10+ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 20 | 20.50\% | 15.00\% | 9.25\% | 5.75\% | 29.00\% |
| 30 | 20.50 | 15.00 | 9.25 | 5.75 | 11.08 |
| 40 | 20.50 | 15.00 | 9.25 | 5.75 | 3.23 |
| 50 | 20.50 | 15.00 | 9.25 | 5.75 | 2.25 |
| 60 | 20.50 | 15.00 | 9.25 | 5.75 | 1.19 |

5. Rates of retirement - Sample ages and years of service ${ }^{1}$

Years of Service

| Age | 0-4 | 5 | 6-9 | 10-19 |
| :---: | :---: | :---: | :---: | :---: |
| 50 | 0.00\% | 10.00\% | 5.00\% | 5.00\% |

| 60 | 35.00 | 25.00 | 35.00 | 24.00 |
| 62 | 35.00 | 25.00 | 35.00 | 33.00 |
| 65 | 35.00 | 25.00 | 35.00 | 30.00 |
| 70 | 35.00 | 25.00 | 35.00 | 22.00 |

1 New assumption as of June 30, 2009
Deferred vested members are assumed to retire at their normal retirement age.
6. Mortality rates - 1994 GAM Static, Projected to 2010 with Projection Scale AA with no setback.
7. Mortality rates after disability - Post disablement mortality rates are based on experience of other large public sector system and ASRS' own experience.
8. Future Retirees Eligible for the Health Insurance Premium Supplement - It is assumed that $70 \%$ of future retirees will be eligible to receive the post-retirement health insurance premium supplement and that $35 \%$ of those retirees will be eligible for the dependent premium supplement.
9. Portion of members who will not withdraw their contributions ${ }^{1}$ - It is assumed that active members who terminate (prior to eligibility for retirement) and deferred vested members who have already terminated will choose to receive the enhanced refund option if the value of the enhanced refund option is greater than the present value of the deferred benefit. Otherwise, the members are assumed to elect to receive the deferred benefit. If the member is assumed to elect the enhanced refund option, then it is also assumed that the member forfeits the health insurance premium supplement.

Members who terminate eligible for early retirement are assumed to commence payments immediately.
10. Spouse Assumptions - We assume that $100 \%$ of the members are married. We also assume that the husband is three years older than the wife.
11. Modified Cash Refund Assumption - We assume that members who elect a single life annuity will receive accumulated benefit payments equal to their contributions after three years of being in receipt.
${ }^{1}$ New assumption as of June 30, 2009.
The asset valuation method is the market value less ten year phase-in of excess (shortfall) investment income. See Section 9B.

The funding method is the projected unit-credit method as prescribed in Arizona Revised Statutes Section 38.757A.

The actuarial calculations have been performed by qualified actuaries in accordance with accepted actuarial procedures based on the current provisions of the Plan and on the actuarial assumptions adopted by the Board.

ASRS prepared all trend data schedules in the financial section and the supporting schedules in the actuarial section of its Comprehensive Annual Financial Report.

Sincerely,

Charles E. Chittenden, FSA, EA, MAAA

| $06 / 30 / 1994$ |

Note: Dollar amounts in millions.
Values shown for valuation dates on or after June 30, 1996 are for the 401(a) plan only.

## Exhibit 8.1b - Schedule of Employer Contributions

 (401(a) Plan as required by GASB \#25)| Fiscal <br> Year | Annual Required <br> Contribution | Percentage <br> Contributed |
| :---: | :---: | :---: |
| 1993 | $\$ 135,644,868$ | $100.0 \%$ |
| 1994 | $162,452,872$ | $76.8 \%$ |
| 1995 | $158,559,931$ | $100.0 \%$ |
| 1996 | $78,608,439$ | $100.0 \%$ |
| 1997 | $89,756,995$ | $100.0 \%$ |
| 1998 | $78,004,461$ | $100.0 \%$ |
| 1999 | $85,964,481$ | $100.0 \%$ |
| 2000 | $195,810,628$ | $100.0 \%$ |
| 2001 | $209,320,281$ | $100.0 \%$ |
| 2002 | $130,647,669$ | $100.0 \%$ |
| 2003 | $137,622,205$ | $100.0 \%$ |
| 2004 | $297,268,473$ | $100.0 \%$ |
| 2005 | $317,919,116$ | $100.0 \%$ |
| 2006 | $477,119,869$ | $100.0 \% *$ |
| 2007 | $663,207,139$ | $100.0 \%$ |
| 2008 | $759,171,555$ | $100.0 \%$ |
| 2009 | $753,909,718$ | $100.0 \%$ |

* Ignores short-term differences. The legislature set the contribution rate for fiscal 2006 to be lower than the actuarially calculated rate and the rate for 2007 to be higher than the actuarially calculated rate. Thus, the contribution deficiency for 2006 and excess for 2007 are both short-term differences.

Note: Contribution amounts shown for fiscal year 1996 and after are the contribution amounts for the 401(a) plan only.

## 5. Salary Scale

A select and ultimate salary scale made up of a merit component and general salary increase component as follows:

| Years of <br> Service | Merit <br> Component |  | Total Salary <br> Increase* |
| :---: | :---: | :---: | :---: |
|  | $(2)$ | $3)$ |  |
| 1 | $5.00 \%$ |  | $3.50 \%$ <br> 2 |
| 3 | $4.00 \%$ | $8.50 \%$ |  |
| 4 | $2.50 \%$ | $7.00 \%$ |  |
| 5 | $1.80 \%$ | $6.30 \%$ |  |
| 6 | $1.40 \%$ | $5.90 \%$ |  |
| 7 | $1.25 \%$ | $5.75 \%$ |  |
| 8 | $1.00 \%$ | $5.50 \%$ |  |
| 9 | $0.80 \%$ | $5.30 \%$ |  |
| 10 | $0.75 \%$ | $5.25 \%$ |  |
| 11 to 19 | $0.50 \%$ | $5.00 \%$ |  |
| 20 or more | $0.25 \%$ | $4.75 \%$ |  |

* Total salary increase rate = inflation (or growth) rate (3.75\%)
+ productivity increase rate ( $0.75 \%$ )
+ merit component
Prior assumption was $4.25 \%$ for inflation and $0.25 \%$ for productivity.

6. Retirement Age

Select and ultimate retirement rates are used. Rates at representative ages and years of service are shown below:

Prior Assumption:

|  | Rates of Decrement Due to Retirement |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Age | $0-4$ | $5-9$ | $10-14$ | $15-19$ | $20-24$ | 25 | $26-29$ | 30 |
| 50 | 0.000 | 0.070 | 0.046 | 0.051 | 0.056 | 0.086 | 0.078 | 0.191 |
| 55 | 0.000 | 0.056 | 0.041 | 0.046 | 0.071 | 0.174 | 0.141 | 0.186 |
| 60 | 0.000 | 0.077 | 0.081 | 0.101 | 0.248 | 0.278 | 0.211 | 0.361 |
| 62 | 0.000 | 0.087 | 0.311 | 0.351 | 0.411 | 0.441 | 0.411 | 0.561 |

| 70 | 0.290 | 0.155 | 0.318 | 0.318 | 0.318 | 0.348 | 0.318 | 0.311 |
| 0 |  |  | 0.368 | 0.318 |  |  |  |  |

|  | Rates of Decrement Due to Retirement |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Years of Service - Female Members |  |  |  |  |  |  |  |  |
| Age | $0-4$ | $5-9$ | $10-14$ | $15-19$ | $20-24$ | 25 | $26-29$ | 30 | $0.1+$ |
| 50 | 0.000 | 0.072 | 0.047 | 0.052 | 0.057 | 0.087 | 0.079 | 0.192 | 0.142 |
| 55 | 0.000 | 0.068 | 0.043 | 0.048 | 0.073 | 0.175 | 0.143 | 0.188 | 0.138 |
| 60 | 0.000 | 0.087 | 0.079 | 0.099 | 0.246 | 0.276 | 0.209 | 0.359 | 0.309 |
| 62 | 0.000 | 0.097 | 0.308 | 0.348 | 0.408 | 0.438 | 0.408 | 0.558 | 0.508 |
| 65 | 0.217 | 0.147 | 0.309 | 0.309 | 0.309 | 0.339 | 0.309 | 0.359 | 0.309 |
| 70 | 0.222 | 0.151 | 0.314 | 0.314 | 0.314 | 0.344 | 0.314 | 0.364 | 0.314 |

Adopted Assumption:

|  | Rates of Decrement Due to Retirement |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Age | $0-4$ | 5 | $6-9$ | $10-18$ | 20 | 25 | 30 | $31+$ |
| 50 | 0.000 | 0.100 | 0.050 | 0.050 | 0.070 | 0.087 | 0.350 | 0.200 |
| 55 | 0.000 | 0.100 | 0.050 | 0.050 | 0.070 | 0.250 | 0.350 | 0.136 |
| 60 | 0.000 | 0.090 | 0.090 | 0.090 | 0.350 | 0.250 | 0.350 | 0.240 |
| 62 | 0.000 | 0.150 | 0.150 | 0.330 | 0.350 | 0.250 | 0.350 | 0.330 |
| 65 | 0.300 | 0.300 | 0.300 | 0.300 | 0.350 | 0.250 | 0.350 | 0.300 |
| 70 | 0.220 | 0.220 | 0.220 | 0.220 | 0.350 | 0.250 | 0.350 | 0.220 |

Deferred vested members are assumed to retire at their normal retirement age.

## 7. Future Retirees Eligible for the Health Insurance Premium Supplement

It is assumed that $70 \%$ of future retirees will be eligible to receive the post-retirement health insurance premium supplement and that $35 \%$ of those retirees will be eligible for the dependent premium supplement.
8. Proportion of Members Who Will Not Withdraw Their Contributions

Prior Assumption: It is assumed that active members who terminate with 5 or more years of service (prior to eligibility for retirement) and deferred vested members who have already terminated will choose to receive the enhanced refund option if the value of the enhanced refund option is greater than the present value of the deferred benefit. Otherwise, the members are assumed to elect to receive the deferred benefit. Active members who terminate with less than 5 years of service will receive the enhanced refund option. If the member is assumed to elect the enhanced refund option, then it is also assumed that the member forfeits the health insurance premium supplement.

Members who terminate eligible for early retirement are assumed to commence payments immediately.

Adopted Assumption: It is assumed that active members who terminate (prior to eligibility for retirement) and deferred vested members who have already terminated will choose to receive the enhanced refund option if the value of the enhanced refund option is greater than the present value of the deferred benefit. Otherwise, the members are assumed to elect to receive the deferred benefit. If the member is assumed to elect the enhanced refund option, then it is also assumed that the member forfeits the health insurance premium supplement.

Members who terminate eligible for early retirement are assumed to commence payments immediately.
9. Spouse Assumptions

We assume that $100 \%$ of the members are married. We also assume that the husband is three years older than the wife.

## 10. Modified Cash Refund Assumption

We assume that members who elect a single life annuity will receive accumulated benefit payments equal to their contributions after three years of being in receipt.
B. Actuarial Value of Assets

The actuarial value of assets is equal to the market value of assets less a ten-year phase-in (five-year phase-in prior to June 30, 2002) of the Excess (Shortfall) between expected investment return and actual income on the market value of assets. There is no corridor around market value within which the actuarial value is required to fall.
C. Actuarial Funding Method

Costs are determined under the projected unit-credit method. The unfunded actuarial accrued liability is funded on a level dollar basis over the period of time described in Section 38-737. For the actuarial valuation as of June 30, 2009, the period is 30 years.
D. Data for Valuation

In preparing the actuarial valuation as of June 30, 2009, the actuary has relied on data and assets provided by the staff of the Arizona State Retirement System. While not verifying the data at their source, the actuary has performed tests for consistency and reasonableness.

## Member Data

The June 30, 2009, actuarial valuation of the Plan was based on the following data. For comparison, we also show a summary of the June 30, 2008, statistical information.

Exhibit 10.1 - Distribution of Active Members by Member Group and By Average Age, Average Years of Service, and Average Annual Salary

ACTIVE PLAN MEMBERS

| Member Group | Number of Active Plan Members |  | Average Age |  | Average Years of Service |  | Average Annual Salary |  |

The inactive population includes former members who are eligible for refunds. Their printed records were discovered and first included in the June 30, 2006, valuation. They are referred to as the Green Bar people.

This exhibit excludes the 4,712 members receiving LTD benefits, 487 other-than-Plan (System) members who are receiving benefits from the 401(a) plan only, 555 other-than-Plan (System) members who are receiving benefits from the 401(h) plan only, and 164 other-than-Plan (System) members who are receiving benefits from both the 401(a) and 401(h) plan.

## Summary of the Benefit Provisions of the Retirement Plan as of June 30, 2009

The Arizona State Retirement Plan makes provision for the retirement, disability, and death and survivor benefits to all members of the State, instrumentalities of the State and certain political subdivisions. The major provisions of the Plan may be summarized as follows:

## A. RETIREMENT BENEFITS

1. Normal Retirement Date (the earliest of the following):
(a) a member's sixty-fifth birthday,
(b) a member's sixty-second birthday and completion of at least ten years of credited service, or
(c) the first day immediately following the day that the sum of the member's age and his years of total credited service equals eighty.
2. Monthly Life Annuity

The product of a benefit multiplier (as determined below) and the member's best 36 -month average compensation (in last 120 months) multiplied by his or her years of total credited service. Members who commenced membership prior to 1984 can use a $60-$ month average and include additional types of compensation, if doing so produces a larger result.

| Years of Credited Service |  | Benefit Multiplier |
| :---: | :---: | :---: |
| Less than 20 |  | $2.10 \%$ |
| 20.0 to 24.99 | $2.15 \%$ |  |
| 25.0 to 29.99 | $2.20 \%$ |  |
| 30 or more | $2.30 \%$ |  |

## 3. Normal Retirement Benefit

The sum of the monthly life annuity and any prior service benefits to which the member was entitled under the System.
4. Early Retirement

Age 50 with five or more years of credited service.

## 5. Early Retirement Benefit

If not eligible for normal retirement and at least age 50 with five years of total credited service, normal retirement benefit earned to the date of retirement reduced according to the following table:

AGE AT DATE OF RETIREMENT

| Years <br> of <br> Service | 50 | 51 | 52 | 53 | 54 | 55 | 56 | 57 | 58 | 59 | 60 | 61 | 62 | 63 | 64 | 65 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $5-10$ | $35 \%$ | $40 \%$ | $45 \%$ | $50 \%$ | $55 \%$ | $60 \%$ | $65 \%$ | $70 \%$ | $75 \%$ | $80 \%$ | $85 \%$ | $88 \%$ | $91 \%$ | $94 \%$ | $97 \%$ | $100 \%$ |
| $10-19$ | $44 \%$ | $49 \%$ | $54 \%$ | $59 \%$ | $64 \%$ | $69 \%$ | $74 \%$ | $79 \%$ | $84 \%$ | $89 \%$ | $94 \%$ | $97 \%$ | $100 \%$ | $100 \%$ | $100 \%$ | $100 \%$ |
| $20+$ | $50 \%$ | $55 \%$ | $60 \%$ | $65 \%$ | $70 \%$ | $75 \%$ | $80 \%$ | $85 \%$ | $90 \%$ | $95 \%$ | $100 \%$ | $100 \%$ | $100 \%$ | $100 \%$ | $100 \%$ | $100 \%$ |

Provided, however, that if the member meets the Rule of 77 (but not the Rule of 80), the reduction will be $3 \%$ for each unit below 80 .
6. Normal Form of Benefit

Straight life annuity with cash refund feature payable monthly with benefits commencing on the day following the date of termination of employment.
7. Optional Forms:
(a) joint and contingent annuity (with pop-up) with either $100 \%, 66-2 / 3 \%$ or $50 \%$ of the reduced retirement income payable for the life of the contingent annuitant upon the death of the retiring member,
(b) period certain and life annuity (with pop-up) with five, ten, or fifteen years of payments guaranteed, or
(c) a social security leveling option combined with any of the other forms of payment.
8. Minimum Benefit

The minimum monthly benefit payable to a retired member who is at least age 75 and who has 20 or more years of service is $\$ 600$.
B. DISABILITY BENEFITS (for disability after June 30, 1988)

## 1. Long Term Disability

Monthly benefit equal to two-thirds of monthly compensation reduced by percentages of other income received payable commencing six months after date of disability until the earlier of:
(a) date of cessation of total disability, or
(b) normal retirement date.

This benefit is paid by a separate LTD plan.
2. Disability Payments if Member Remains Disabled Through Normal Retirement Date

Monthly benefit member would have received if service had continued to normal retirement date assuming the member's salary remained at the level it was at his or her date of disability, also provided that the amount of total credited service is limited to 30 years unless he or she had more than 30 years at date of disability.
3. The minimum monthly benefit payable to a disabled member is $\$ 50.00$.
C. DISABILITY BENEFITS (for disability before July 1, 1988)

1. Eligibility

Age 50 with five years of service.

## 2. Benefit Amount

A life annuity that can be provided by the member's contribution account. Disability payments after normal or early retirement eligibility are reduced by the actuarial value of the disability payments made up to the date of normal or early retirement eligibility.

## D. PRE-RETIREMENT DEATH BENEFITS

1. Eligibility

Applicable if death occurs prior to retirement.
2. Benefit

Any one of the following, at the option of the beneficiary:
(a) a lump sum equal to the sum of (i) and (ii):
(i) two times member's contributions to the plan with interest, and
(ii) the amount of the member's member and employer accounts, along with any supplemental credits transferred from the System to the Plan with interest.
(b) if (a) is greater than $\$ 5,000$, the beneficiary may elect to receive a monthly income for five or ten years certain and life thereafter which is actuarially equivalent to the amount in (a).
3. Death of an Active Member After 15 Years of Credited Service or After Eligibility for Early Retirement

Beneficiary receives a benefit in the form of a survivor annuity equal to the benefit that would have been payable to the beneficiary if the member had retired on the date of his or her death and elected to receive an annuity payable in the form of joint and $100 \%$ survivor with the beneficiary named as the joint pensioner.

## E. VESTING OF BENEFITS

1. Vesting

A member is fully vested in his or her accrued benefit.
2. Benefits Upon Vesting

A fully vested member is entitled to either:
(a) the enhanced refund option, or
(b) the retirement benefit payable at normal retirement earned to the date of member's termination.

The enhanced refund option allows members who terminate prior to eligibility for retirement to receive a refund of their member contributions with interest. In addition, if a member has at least five years of service, he or she is also entitled to a share of the employer contributions with interest. The share is $25 \%$ for members with five years of service and increases $15 \%$ for each additional year of service up to a maximum of $100 \%$ for ten or more years of service. The Board reduced the interest rate to be credited on refund of contributions from $8 \%$ to $4 \%$ effective June 30, 2005.

## F. RETIREE HEALTH INSURANCE PREMIUM SUPPLEMENT

## 1. Eligibility

Retirement or disability after five years of credited service and covered by an employersponsored group insurance program for which the retired or disabled member must pay part of the cost. Members who elect the enhanced refund option are not eligible for this benefit.
2. Benefit

The benefit is payable only with respect to allowable health insurance premiums for which the member is responsible. There is no benefit payable after the retirees die. The maximum benefits for members with ten or more years of service are:
(a) with respect to premiums paid for retirees with member only coverage:

- $\$ 150$ per month if the retiree is under age 65
- $\$ 100$ per month if the retiree is 65 or over
(b) with respect to premiums paid for retirees with family coverage:
- $\$ 260$ per month if the member and dependent are under age 65
- $\$ 170$ per month if the member and dependent are 65 or over
- $\$ 215$ per month if the member is over age 65 and the dependent is under age 65
- $\$ 215$ per month if the member is under age 65 and the dependent is over age 65

For members with five to nine years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction equal to $10 \%$ for each completed year of service (i.e., $50 \%$ to $90 \%$ ).

See Sections O, Q and S in the Changes to Benefit Provisions section for a discussion of the temporary benefit payable to retirees in "Rural" coverage areas.

## G. AUTOMATIC COST OF LIVING ADJUSTMENT BASED ON EXCESS INVESTMENT EARNINGS

## Permanent Benefit Increase (PBI)

Retirees who have been retired one year and LTD members are eligible for a COLA up to a maximum of a $4 \%$ increase. The COLA is paid from a reserve of "Excess Investment Earnings." If there are no "Excess Investment Earnings" in the reserve, then no COLA is paid.

## Permanent Benefit Increase Enhancement

Provides retired members with at least ten years of service who have been retired five or more years an additional benefit. For each complete five-year period the member has been retired, an incremental benefit is paid if monies to pay the benefit are available. This benefit is funded by an interest credit of $8.0 \%$ of the reserve for future PBIs.

PBI and enhanced PBI benefits are reflected in the valuation as soon as they are awarded. Future PBI and enhanced PBI are not included in the valuation.

## H. MEMBER AND EMPLOYER CONTRIBUTIONS

The contribution rate for the fiscal year beginning on July 1st is based on the results of the most recent actuarial valuation as of the last day of the preceding plan year. Member's contribution rate is equal to the required employer contribution rate. The contribution rate for fiscal year 2010 is $9.00 \%$ for each member and each employer, based on the 2008 actuarial valuation. The contribution rate for fiscal year 2011 will be $9.60 \%$ based on this valuation. Interest is credited at $8.00 \%$; however, interest is credited at $4 \%$ from July 1, 2005 for return of contributions upon termination for reasons other than retirement or death.

## Changes to the Benefit Provisions

## A. LEGISLATED PLAN CHANGES ENACTED BY THE 1989 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Projected United Credit (PUC) Funding Method

Beginning with the June 30, 1989 actuarial valuation, the total member and employer contributions payable beginning July 1, 1990 shall be determined using the Projected Unit-Credit (PUC) funding method.
2. $\$ 12,000$ Minimum Average Compensation for Current Retirees

Recalculation of the retirement benefit for all plan members retired before June 30, 1989 who had ten years of credited service using a minimum average compensation of one thousand dollars per month.
3. $2.0 \%$ Ad Hoc COLAs

- Effective July 1, 1989, all members retired on or before June 30, 1988 shall receive a $2.0 \%$ permanent benefit increase to their December 31, 1988 base benefit.
- Effective July 1, 1990, all members retired on ore before June 30, 1989 shall receive a $2.0 \%$ permanent benefit increase to their June 30, 1990 base benefit.

4. Early Retirement Window

During the period of May 15, 1989, through November 14, 1989, a member who is eligible for either Normal Retirement or Early Retirement with age plus credited service at least equal to 80 may retire and receive a benefit calculated using a $2.2 \%$ multiplier instead of the $2.0 \%$ multiplier in effect at that time.
5. 3.0\% Tax Equity Allowance

Retroactive to the later of January 1, 1989 or the date payments commence, each member retiring on or before September 14, 1989 shall receive a tax equity benefit allowance consisting of a permanent increase of $3.0 \%$ in his or her January 1, 1989 base benefit.

## B. LEGISLATED PLAN CHANGES ENACTED BY THE 1990 LEGISLATURE OF THE STATE OF ARIZONA

1. Rule of 82

Effective May 1, 1990, the number of points (sum of member's age and years of service) required to be eligible for normal retirement shall be reduced from 85 to 82 . Also, the early retirement reduction factor for members with 77 or more points but less than 82 points shall be $3 \%$ for each point or fraction thereof less than 82.
2. $3.0 \%$ Tax Equity Allowance

Each member who retires between September 15, 1989 and September 14, 1990 shall receive a tax equity benefit allowance consisting of a permanent increase of $3.0 \%$ in his or her base benefit retroactive to the date of retirement.
3. Graded Vesting for Health Insurance Premium Supplement

The Health Insurance Premium Supplement is extended to those qualifying members with between five and nine years of service. The member will be eligible to receive $10 \%$ of the benefit for each completed year of service (i.e., $50 \%$ to $90 \%$ ).

## C. LEGISLATED PLAN CHANGES ENACTED BY THE 1991 LEGISLATURE OF THE STATE OF ARIZONA

## 1. $3.0 \%$ Tax Equity Allowance

Each member who retires between September 15, 1990 and September 14, 1991 shall receive a tax equity benefit allowance consisting of a permanent increase of $3.0 \%$ in his or her base benefit retroactive to the date of retirement.
2. Recalculation of Retiree Benefits Using $2.0 \%$ Benefit Multiplier

Each retired member with at least ten years of service who retired prior to June 30, 1985 shall have his or her benefit recomputed. The recomputed benefit shall be equal to $2 \%$ times final average earnings times credited service plus an additional $\$ 2$ for each year of service. The retired member will receive the larger of the recalculated benefit or his/her current benefit. This increase is effective October 1, 1991.
3. $2.3 \%$ Ad Hoc Increase

Effective July 1, 1991, all members retired on or before June 30, 1990 shall receive a 2.3\% permanent benefit increase in their June 30, 1991 base benefit.
4. Rule of 80

Effective July 1, 1992, the number of points (sum of member's age and years of service) required to be eligible for normal retirement shall be reduced from 82 to 80 . (For continuation purposes, this legislation is not reflected until the 1993/94 fiscal year).

## 5. Pop-up Option

A pop-up option is added for retiring members who first participate in the Plan on or after December 31, 1991.

## D. LEGISLATED PLAN CHANGES ENACTED BY THE 1992 LEGISLATURE OF THE STATE OF ARIZONA

1. 3.0\% Tax Equity Allowance

Each member who retires between September 15, 1991 and September 14, 1992 shall receive a tax equity benefit allowance consisting of a permanent increase of $3.0 \%$ in his or her base benefit, retroactive to the date of retirement.

## 2. Minimum Retiree Benefit

Each retiree of the Arizona State Retirement Plan who is at least age 75 on December 31, 1992 and who had at least ten years of service upon retirement from the plan shall be eligible for a minimum benefit. If the eligible retiree had at least ten years of service but less than fifteen years, his minimum benefit is $\$ 350$ a month. If the eligible retiree had at least fifteen years of service but less than twenty, his minimum benefit is $\$ 500$. If the eligible retiree had at least twenty years of service, his minimum benefit is $\$ 600$. The minimum benefit shall be compared to the retiree's current benefit (including all ad hoc increases).
3. $5 \% \mathrm{Ad}$ Hoc Increase

Effective November 1, 1992, all members retired on or before October 31, 1992 shall receive a $5 \%$ permanent benefit increase in their October 31, 1992 benefit.
4. Forfeited Service Repurchase

Any present active member who has previously forfeited service has until December 31, 1994 to repurchase the forfeited service by paying the Plan the member and employer contributions (accumulated with interest) that would have been contributed during the member's period of forfeited service.

## 5. Repurchase of Service Due to Reduction in Force

Any present active member who was terminated prior to December 31, 1992 as a result of a required reduction in force may purchase the credited service for the following period of unemployment if the member had five or more years of service at the time of termination and resumed employment with a participating employer within two years of termination. The cost of the repurchase is the total of the member and employer contribution (accumulated with interest) that would have been contributed during the member's period of unemployment.
6. Change in Section 38-781.05 Funding Method

Section 38-781.05 of the Plan was amended so that the funding period for the Plan would continue to be the period between valuation and June 30, 2003, as long as the Plan has a negative Unfunded Actuarial Accrued Liability. If the Plan were to have a positive UAAL, then the old funding mechanism would apply.

## E. LEGISLATED PLAN CHANGES ENACTED BY THE 1993 LEGISLATURE OF THE STATE OF ARIZONA

1. No benefit changes were passed by the 1993 Legislature. However, the Legislature passed legislation to reduce the required contribution rate of $4.09 \%$ down to $3.14 \%$.
F. LEGISLATED PLAN CHANGES ENACTED BY THE 1994 LEGISLATURE OF THE STATE OF ARIZONA
2. Minimum LTD Benefit

Each member on long-term disability will receive a minimum monthly benefit of $\$ 50$.
2. Minimum Retiree Benefit

Each retiree of the Arizona State Retirement Plan who is at least age 75 and who had 20 or more years of service at retirement will receive a minimum monthly benefit of $\$ 600$.
3. Pop-up Benefit

Members who retired prior to January 1, 1992 and who elected a Joint and Survivor option shall receive a "Pop-up" in their retirement income if their beneficiary predeceases them.

## 4. Excess Investment Earnings COLA

Retirees at least age 55 who have been retired at least one year and members on longterm disability are eligible to receive a cost-of-living adjustment equal to one-half the increase in CPI for the prior calendar year. The COLA will be paid from a reserve of Excess Investment Earnings. If there are no Excess Investment Earnings in the reserve, no COLA will be granted.
5. Change in Section $38-737$ Funding Period

Section 38-737 was amended to change the funding period of the Plan to a rolling 30year period. The change is to be phased-in over the next nineteen years. If the Plan ceases to have a surplus, the funding period would immediately go to 30 years.
G. LEGISLATED PLAN CHANGES ENACTED BY THE 1995 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Change in Maximum Increase Provided by Excess Investment Earnings COLA

The maximum COLA payable from Excess Investment Earnings was increased from $50 \%$ to $100 \%$ of the increase in the CPI.
2. Removal of LTD Benefit from the Plan

The Legislature established a new LTD program and removed the LTD benefit from the Plan. Liabilities for current LTD recipients will be transferred to the new LTD program effective October 1, 1995.
3. Creation of Separate Account for the Health Premium Supplement

The Health Premium Supplement benefit is to be separated into a 401(h) account. The assets and liabilities associated with the Health Premium Supplement will be accounted for separately.
H. LEGISLATED PLAN CHANGES ENACTED BY THE 1996 LEGISLATURE OF THE STATE OF ARIZONA

1. No material changes.
I. LEGISLATED PLAN CHANGES ENACTED BY THE 1997 LEGISLATURE OF THE STATE OF ARIZONA
2. Creation of family Health Supplement. Allows unused portion of the Health Supplement of a member or dependent to be used to pay the other recipient's health insurance premium.
3. The calculation methodology for the Excess Investment Earnings COLA was modified.
4. The contribution rate will be determined on a biennial cycle beginning with the 2000 fiscal year.
J. LEGISLATED PLAN CHANGES ENACTED BY THE 1998 LEGISLATURE OF THE STATE OF ARIZONA
5. No material changes.
K. LEGISLATED PLAN CHANGES ENACTED BY THE 1999 LEGISLATURE OF THE STATE OF ARIZONA
6. Enhanced Refund Option

Members who terminate prior to eligibility for retirement may elect to receive a refund of their member contributions with interest. If the member has at least five years of service, the member is also entitled to a share of the employer contributions with interest. The share is $50 \%$ with five years of service and increases $10 \%$ for each additional year of service to a maximum of $100 \%$ for ten or more years of service.
2. Benefit Multiplier Increased to 2.1\%

The benefit multiplier increased from $2.0 \%$ to $2.1 \%$ effective July 1, 2000 .
3. $5 \%$ Ad Hoc Increase

A 5\% retiree ad hoc increase for retirees and beneficiaries effective July 1, 2000.
4. Increase in Maximum Service While on LTD

Increase in the maximum amount of service that may be accrued while on LTD from 25 to 30 years.
5. Changes in Permanent Benefit Increase COLA
a. The maximum aggregate COLA was increased from $3 \%$ to $4 \%$.
b. The threshold for determining "Excess Earnings" was lowered from 9\% to 8\%.
c. The limitation of the COLA to the increase in the CPI was removed.
L. LEGISLATED PLAN CHANGES ENACTED BY THE 2000 LEGISLATURE OF THE STATE OF ARIZONA

1. The age restriction on the Permanent Benefit Increase was eliminated.

## M. LEGISLATED PLAN CHANGES ENACTED BY THE 2001 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Health Insurance Premium Benefit Increase

Increases the health insurance premium benefit for eligible members as follows:

- Benefit for Medicare eligible member with member only coverage increased from $\$ 65$ to $\$ 100$
- Benefit for non-Medicare eligible member with member only coverage increased from \$95 to \$150
- Benefit for family coverage where member and dependent are non-Medicare eligible increased from \$175 to \$260
- Benefit for family coverage where member and dependent are Medicare eligible increased from \$115 to \$170
- Benefit for family coverage where member is Medicare eligible and dependent is non-Medicare eligible increased from $\$ 145$ to $\$ 215$
- Benefit for family coverage where member is non-Medicare eligible and dependent is Medicare eligible increased from \$145 to \$215

## 2. Graded Multiplier

Provides a graded multiplier in the retirement benefit formula increasing with years of service according to the following:

- 0.00 to 19.99 Years of Service: $2.10 \%$
- 20.00 to 24.99 Years of Service: $2.15 \%$
- 25.00 to 29.99 Years of Service: $2.20 \%$
- $\quad 30.00$ or More Years of Service: $2.30 \%$

3. Employer Option Service Purchase Incentive

Permits an employer to offer a member who is eligible to retire under the Rule of 80 a contract to work and additional three years of employment. No contributions are made to ASRS during the contract. If the member completes the contract, then they receive an additional three years of service with the option to purchase three more years of service.

## 4. Permanent Benefit Increase Enhancement

Provides that interest at a rate of $8 \%$ be credited on the funds held in reserve for the permanent benefit increase (PBI). This interest will then be used to fund an additional increase for retirees who have at least ten years of service and who have been retired at least five years. The increase is incremental for each five years of retirement.

## 5. Temporary Rural Health Insurance Premium Benefit

In addition to the premium benefit paid to ASRS retired and disabled members, the Legislature granted a temporary benefit for retired and disabled members who live in areas of the state not served by a managed care program (HMO) and who have ten years of credited service in the following amounts:

- Benefit for Medicare eligible member with member only coverage of $\$ 170$ per month
- Benefit for non-Medicare eligible member with member only coverage of $\$ 300$ per month
- Benefit for Medicare eligible members with Medicare eligible dependent with family coverage of $\$ 350$ per month
- Benefit for non-Medicare eligible members with non-Medicare eligible dependent with family coverage of $\$ 600$ per month
- Benefit for Medicare eligible members with non-Medicare eligible dependent with family coverage of $\$ 470$ per month
- Benefit for non-Medicare eligible members with Medicare eligible dependent with family coverage of $\$ 470$ per month

6. Partial Lump Sum Option

Allows a retiring member to receive a portion of his benefit in a lump sum payment. The lump sum is limited to a maximum of 36 monthly payments. The member's monthly annuity is actuarially reduced to reflect the lump sum payment.
7. Maximum Benefit

Members who are hired after the date the graded multiplier became law have a maximum benefit equal to $80 \%$ of the member's 36 -month final average earnings.

## N. LEGISLATED PLAN CHANGES ENACTED BY THE 2002 LEGISLATURE OF THE STATE OF ARIZONA

1. No material changes.

## O. LEGISLATED PLAN CHANGES ENACTED BY THE 2003 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Temporary Rural Health Insurance Premium Benefit

The Legislature extended the temporary Rural Health Insurance Subsidy for the next two years from July 1, 2003, to June 30, 2005. The benefit is provided to retired and disabled members who live in areas of the state not served by a Health Maintenance Organization (HMO) and who have ten years of credited service. The Rural Health Insurance Subsidy now requires "minimum out-of-pocket" payments ranging from $\$ 100$ to $\$ 425$ per month depending on the plan and coverage selected.

|  | Insurance Coverage <br> Without Medicare <br> Parts A B |  | Insurance Coverage With <br> Medicare <br> Parts A \& B |  |
| :--- | :---: | :---: | :---: | :---: |
|  | Single | Family | Single | Family |
| Required Minimum <br> Out-of-Pocket Payment | $\$ 125$ | $\$ 425$ | $\$ 100$ | $\$ 200$ |
| Rural Health Insurance <br> Subsidy (Maximums) | Up to $\$ 300$ | Up to $\$ 600$ | Up to $\$ 170$ | Up to $\$ 350$ |

Combination plans that include Medicare eligible and non-Medicare eligible retiree and dependent coverage require a $\$ 400$ monthly out-of-pocket payment.

## P. LEGISLATED PLAN CHANGES ENACTED BY THE 2004 LEGISLATURE OF THE

 STATE OF ARIZONA1. Service Purchase Program

The Arizona Legislature revised the method of calculating the cost of service purchases so that future purchases would be made at true actuarial present value.

## 2. Early Retirement Incentive Programs

The Arizona Legislature provided that employers that participate in ASRS and offer early retirement incentives to their members must notify ASRS of the incentives. ASRS will determine the cost of the incentives and the employers will pay the cost.
Q. LEGISLATED PLAN CHANGES ENACTED BY THE 2005 LEGISLATURE OF THE STATE OF ARIZONA

1. Temporary Rural Health Insurance Premium Benefit

The Legislature extended the temporary Rural Health Insurance Subsidy for the next two years from July 1, 2005, to June 30, 2007. The benefit is provided to Medicare-eligible retirees and disabled members who live in Arizona counties with no Health Maintenance Organization (HMO) service area and who have ten years of credited service.

## 2. Contribution Rates

The contribution rates for fiscal 2006 and 2007 are $6.90 \%$ and $8.60 \%$, respectively.

## R. LEGISLATED PLAN CHANGES ENACTED BY THE 2006 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Elections After Retirement

Legislature limited the ability of ASRS retirees to rescind their elections after retirement. Specifically, members who have chosen a form with a death benefit can "pop up" once to the single life form but are then not allowed to "pop down" to a death benefit form.
2. Conformance with Certain Federal Regulations

State statutes were modified to conform to federal regulations regarding military service purchases, optional forms of retirement benefits, and minimum required distributions.
3. Repeal of Deferred Retirement Option Plan

The legislature repealed the modified Deferred Retirement Option Plan (DROP).
4. Early Termination Incentive Programs

The change made in the 2004 legislature to early retirement incentive programs was extended to early termination programs.

## S. LEGISLATED PLAN CHANGES ENACTED BY THE 2007 LEGISLATURE OF THE STATE OF ARIZONA

1. Social Security Offsets and Pre-Existing Condition Period

Offset percentages for Social Security disability benefits were increased from $64 \%$ to $85 \%$ and for Social Security retirement benefits from $83 \%$ to $85 \%$ for members who become disabled on or after July 1, 2008. The pre-existing condition period is increased from three months to six months for members hired on or after July 1, 2008. ASRS is required to recover overpayments by reducing future benefits to a member, beneficiary, or alternate payee.

## 2. Temporary Rural Health Insurance Premium Benefit

The Legislature extended the temporary Rural Health Insurance Subsidy for two years from July 1, 2007, to June 30, 2009. The benefit is provided to Medicare-eligible retirees and disabled members who live in Apache, Gula, Mohave, or Navajo counties if they have ten years of credited service.
3. Exemption of Post-Doctoral Scholars

Effective September 19, 2007, post-doctoral scholars are exempted from ASRS membership.

## 4. Expanded Eligibility for Active Military Service Credit

Effective July 1, 2007, the term "presidential" call-up is changed to "military" call-up. Applies death and disability benefits to those that occur during active military service rather than just to those that are a result of active service. Allows member who becomes disabled during or as a result of active service to receive service credit (paid by the employer) from the date active service began through one year after the member's date of disability if the member cannot return to work. The disability provision expires June 30, 2009.

## T. LEGISLATED PLAN CHANGES ENACTED BY THE 2008 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Unclaimed Property Exemption and Procedures

Legislation exempted ASRS from unclaimed property statutes. ASRS members will forfeit their benefits if they do not claim them by the time they reach age $73^{1} / 2$. If such a member later claims his benefit, his benefit will be restored with interest if applicable. ASRS will send notices to members beginning at age $651 / 2$, and will make efforts to find lost members.
2. Divestment from Companies Investing in Iran or Doing Business in Sudan

ASRS must engage with and potentially divest from companies that have invested, since August 5, 1996, \$20 million or more in any year in Iran's petroleum energy sector or that meet specific Sudan-related business operations criteria. Additionally, ASRS must divest from companies that violate paragraph 6(j) of the Export Administration Act.

## 3. Transfer Procedures

For voluntary transfers, the legislation allowed retired or disabled members to elect whether to remain with ASRS or to transfer to another system and specified how a transfer will affect payroll deduction agreements. For a transfer that is mandated by either statute or an employer, the legislation required retired or disabled members to remain with ASRS and specified how a transfer will affect payroll deduction agreements.

## 4. Transfer Out Bills

These bills expanded the ASRS credited service that a dispatcher may transfer to CORP and extended the timeframe for ASRS to transfer assets from 60 to 90 days. They expanded the definition of designated position to include State detention officers and provided that all prior ASRS service will transfer to CORP unless the employee irrevocably elects to remain with ASRS. They allowed the local board of the judiciary to designate certain positions within the Administrative Office of the Courts for membership in CORP.
5. Plan Administration

This bill modified one of the salary calculations used for service purchases to be the average of the three pay periods (out of the last five) that remain after the pay periods with the highest and lowest pay are removed. It clarified that the salary calculations used for other public service purchases are also used for leave of absence purchases. It granted the ASRS Board rulemaking authority over the Plan, LTD program, and transfers. It clarified that a member who purchases forfeited service credit is subject to the benefit structure in place when the person again becomes a member. Finally, it required ASRS to recover overpayments by reducing benefits owed to a member, beneficiary, or alternate payee.

## 6. Federal Conforming Changes

The legislature made changes to comply with federal laws and IRS regulations, most notably the Economic Growth and Tax Relief Reconciliation Act of 2001

## U. LEGISLATED PLAN CHANGES ENACTED BY THE 2009 LEGISLATURE OF THE STATE OF ARIZONA

## 1. Service Purchase

Effective July 1, 2010, members will be required to have five years of service credit in ASRS before initiating a service purchase.
2. $80 \%$ Cap on Benefits

Effective July 1, 2010, the maximum limit on ASRS pensions of $80 \%$ of 36 -month final average earnings is eliminated.
3. Return to Work

Retired members who return to work with a suspension of benefits and work for at least 60 consecutive months will be permitted to choose a new optional form of benefit when they again retire.

Retired members are allowed to return to work without suspension if the member returns to a different position that does not require participation and the member participates in another program.
4. Administration

ASRS is exempt from State Personnel Management and Personnel Board provisions and the State classification and compensation statute.
5. Early Termination Incentives

The scope of the early termination incentive statute is broadened and exceptions are limited.
6. Dual Employment

Contributions from a second employer will count, beginning January 1, 2010, only if member meets $20 / 20$ membership criteria with respect to the second employer, with certain exceptions.

[^0]:    ${ }_{2}^{1}$ Including LTD management fees prior to 1996
    ${ }^{2}$ 401(a) assets and 401(h) assets combined

[^1]:    Hypothetical rate. The actual contribution rate was set by the prior year valuation.
    ${ }^{2}$ Legislative action has fixed the rates for fiscal 2006 and 2007 at $6.90 \%$ and $8.60 \%$, respectively.

[^2]:    Does not include member reimbursements of employee contributions.
    ${ }^{2}$ Contribution gain/(loss) for the plan year ending June 30, 2008 is included in the experience liability gain/(loss).

[^3]:    ${ }^{1}$ New assumption as of June 30, 2009

[^4]:    * Cost of Living Increases included here.

[^5]:    ${ }^{1}$ Excludes other-than-plan retirees from the System receiving benefit increases from the Plan.
