Re: Actuarial Valuation of the State Teachers'
Retirement System as of June 30, 1987

Dear Members of the Board:

Under the supervision and direction of the undersigned, The Wyatt Company has prepared an actuarial valuation of the State Teachers' Retirement System as of June 30, 1987 in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the results set forth in this report are complete and accurate and the contribution requirement for the State of Connecticut developed for the fiscal year ending June 30, 1989 as well as the actuarial present value of accrued benefits shown herein fairly reflect the status of the System at the times indicated.

In preparing this report, we have relied upon the following:

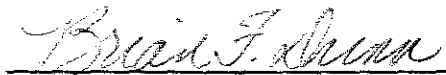

- Member census data as of June 30, 1987 submitted by the Board. This data was not audited by us, but was checked for reasonableness and appears to be sufficient for the purposes of this report.
- Financial data as of June 30, 1987 provided by the State Treasurer's Office and the Board. This data was not audited by us, but appears to be sufficient for the purposes of this report.
- Actuarial assumptions which, in the aggregate, are reasonably related to the past experience of the System and to expected future results.
- Actuarial methods and the provisions of the System which are summarized in this report.

State Teachers' Retirement Board
January 13, 1988

If, in connection with this actuarial valuation of the System, you have any other investigations which you would like us to conduct, or if any questions arise in connection with this report, we will be pleased to proceed according to your instructions.

Respectfully submitted,

THE WYATT COMPANY

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM

PURPOSE AND SCOPE

This report has been prepared by The Wyatt Company to:

- Present the principal results of the actuarial valuation of the State Teachers' Retirement System as of June 30, 1987;
- Compare these results with those of the prior year;
- Provide to the State Teachers' Retirement Board the contribution requirement for the State under Public Act 79-436 (as amended) for the fiscal year ending June 30, 1989; and
- Provide information about the financial status of the System, including a measure of the extent to which benefits have been funded.

This report includes analysis and commentary on the valuation results.

The introduction of this document presents a summary of the principal results of the June 30, 1987 actuarial valuation, including the State contribution requirement for the fiscal year ending June 30, 1989 and the funded status of the System as of June 30, 1987. A comparison of these results with the prior year's results is also included.

Exhibit 1 shows the determination of the unfunded actuarial accrued liability, the normal cost for the year and the development of the actuarial gain (loss). In Exhibit 2, we develop the State contribution requirement for the fiscal year ending June 30, 1989 in accordance with Public Act 79-436 (as amended).

It should be noted that the member census data as of June 30, 1987 reflects the first of three years of salary increases attributable to the Education Enhancement Act. Exhibit 3 incorporates the initial impact of the Education Enhancement Act in three sets of projections of the State's future contribution requirements.

Exhibit 4 is a review of the funded status of the System.

Exhibit 5 consists of a reconciliation of the market value of assets from July 1, 1986 to June 30, 1987. In Exhibit 6 we develop the actuarial value of assets to be used in determining the State's contribution requirement.

In Exhibit 7 and the accompanying charts and graphs, we present information regarding the census data for the Members of the System, including a comparison of the current population with that of prior years.

This report concludes with an outline of the principal provisions of the System, in Exhibit 8, and a summary of the actuarial assumptions and cost method used in this valuation, in Exhibit 9.

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM
SUMMARY OF PRINCIPAL VALUATION RESULTS

A. Contribution Requirement

The State contribution requirement for the fiscal year ending June 30, 1989 was determined in accordance with Public Act 79-436 (as amended) and was based on the expected unfunded actuarial accrued liability as of June 30, 1988, and an estimate of the July 1, 1988 normal cost.

Contribution Requirement for the
Fiscal Year Ending June 30, 1989 \$ 302,917,000

A detailed development of this contribution requirement is included as Exhibit 2.

B. Funded Status of the System

The funded status of the System as of June 30, 1987 was measured by comparing the market value of assets with the actuarial present value of accrued benefits as of that date. This actuarial present value of accrued benefits was based on Members' service as of the valuation date with salary projected to retirement using the actuarial assumptions.

1. Actuarial Present Values for:

a. Retired Teachers, Beneficiaries
Survivors, Dependents, and Other
Inactive Teachers \$ 1,821,695,000

b. Active Teachers 3,450,354,000

c. Member Contributions 1,021,663,000

d. Total \$ 6,293,712,000

2. Market Value of Assets \$ 3,188,223,000

3. Funded Ratio: Item 2 ÷ Item 1.d. 50.7%

A review of the recent history of the funded ratio of the System is presented in Exhibit 4.

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM

DETERMINATION OF THE UNFUNDED ACTUARIAL ACCRUED LIABILITY,
THE NORMAL COST AND THE ACTUARIAL GAIN (LOSS)

How much is state going to have to contribute?

The actuarial cost method used to determine the State contribution to the System is the entry age actuarial cost method. Under this method, the normal cost for retirement benefits for each Member is defined as the level percent of the Member's salary needed as an annual contribution from entry age to retirement age to fund the Member's projected benefit. The actuarial accrued liability is the accumulated value of such normal costs for each Member from entry age to the date of the current valuation. (Note: Under this actuarial cost method, the actuarial accrued liability does not represent the liability for benefits accrued as of the valuation date.) The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over the actuarial value of the System's assets.

A. Unfunded Actuarial Accrued Liability

1. Actuarial Accrued Liability for Retirement Benefits

Number of active teachers 4,334,599, 1987 salary \$12,834,000, 12.7% = \$1,630,000

a. Member Contributions	\$ 1,021,663,000
b. Active Teachers	4,334,599,000
c. Inactive Teachers	2,508,000
d. Terminated Vested Teachers	8,191,000
e. Retired Teachers and Beneficiaries	1,798,162,000
f. Survivors and Dependents	<u>12,834,000</u>
g. Total	\$ 7,177,957,000

2. Actuarial Value of Assets	<u>2,566,301,000</u>

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM
DEVELOPMENT OF THE STATE CONTRIBUTION REQUIREMENT
FOR THE FISCAL YEAR ENDING JUNE 30, 1989

The State contribution requirement for the fiscal year ending June 30, 1989 was determined in accordance with Public Act 79-436 (as amended) and was based on the expected unfunded actuarial accrued liability as of June 30, 1988 and an estimate of the July 1, 1988 normal cost. This estimate was based on the July 1, 1987 normal cost and an estimate of future salary increases.

To develop the expected unfunded actuarial accrued liability as of June 30, 1988, the actual unfunded actuarial accrued liability as of June 30, 1987 was added to the normal cost as of July 1, 1987 and this sum was adjusted for one year's interest at the valuation rate of 8% per annum. This result was then reduced by the State's contributions adjusted with interest. The expected unfunded actuarial accrued liability was then amortized in accordance with Public Act 79-436 (as amended) which requires that changes after 1980 be funded separately by contributions of normal cost plus 30-year amortization of the applicable unfunded actuarial accrued liability.

As shown on the following page, the expected unfunded actuarial accrued liability and the contribution for the amendment to the System resulting from Public Act 82-91 are developed separately. There was no normal cost associated with Public Act 82-91 because it affected only retired Members.

In addition, we have developed a separate expected unfunded actuarial accrued liability and contribution attributable to the amendment to the System resulting from Public Act 87-381. Since Public Act 87-381 affects only retired Members, there is no associated normal cost.

THE *Wigzell* COMPANY

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM
PROJECTED CONTRIBUTIONS BASED ON THE JUNE 30, 1987 VALUATION

The following tables contain projections of the State's contribution requirements under three alternative assumptions regarding the future growth of teachers' salaries.

For the purpose of these illustrations, we have developed 40-year projections based on a 6%, 8%, and 10% annual rate of salary increase, assuming the number of active teachers will remain at 39,014. Results shown for 1980 - 1987 (which correspond to contributions for fiscal years 1982 - 1989) are based on actual valuations of the System. Results shown for the projection period from 1988 to 2027 (which correspond to contributions for fiscal years from 1990 to 2029) are based on estimates of future results.

Each line of the tables contains the normal cost and unfunded accrued actuarial liability as of a particular valuation date followed by contribution information related to the appropriate fiscal year. The full contribution amount and the required contribution amount under PA 79-436 (as amended) are included both as a dollar figure and as a percentage of the historical or estimated future teachers' payroll, as applicable. For example, the June 30, 1986 valuation generated a normal cost of \$132,310,000 and an unfunded actuarial accrued liability of \$3,818,585,000. Together, those results were used in calculating both the full contribution of \$321,551,000 and the required contribution of \$241,563,000 for the fiscal year ending June 30, 1988. The above contribution requirements represent 26.9% and 20.2% of the teachers' payroll of \$1,193,463,000 for the fiscal year ending June 30, 1988 respectively.

THE *Myatt* COMPANY

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM
THE FUNDED STATUS OF THE SYSTEM

As noted in the Summary of Valuation Results, we have compared the market value of assets with the actuarial present value of accrued benefits to obtain one measure of how the System is meeting its obligation to fund benefits payable to its Members. These results are especially meaningful when compared with those of prior years:

<u>Fiscal Year Ending June 30</u>	<u>Market Value of Assets</u>	<u>Actuarial Present Value of Benefits</u>	<u>Funded Ratio</u>	<u>Unfunded Actuarial Present Value of Benefits</u>	<u>Annual Compensation</u>	<u>Unfunded Ratio</u>
1980	\$ 1,049,306,000	\$ 2,603,702,000	40.3%	\$ 1,554,396,000	\$ 692,547,000	224.4%
1982	1,154,963,000	3,244,804,000	35.6%	2,089,841,000	769,500,000	271.6%
1984	1,696,074,000	4,398,687,000	38.6%	2,702,613,000	886,409,000	304.9%
1985	2,157,914,000	4,882,540,000	44.2%	2,724,626,000	975,248,000	279.4%
1986	2,728,837,000	5,305,841,000	51.4%	2,577,004,000	1,065,077,000	242.0%
1987	3,188,223,000	6,293,712,000	50.7%	3,105,489,000	1,193,463,000	260.2%

Analysis of the funded ratio over time indicates how the System is meeting its obligation to fund benefits. Generally, the greater this ratio, the stronger and more well-funded the System.

We have also compared the unfunded actuarial present value of accrued benefits with annual compensation to remove the effects of inflation and to aid in the analysis of the System's progress in accumulating sufficient assets to pay benefits when due. Generally, the smaller the unfunded percentage, the stronger the System.

The actuarial present value of benefits (the liabilities under the System) was based on Members' service as of the valuation date and upon salary projected to retirement using the actuarial assumptions which are summarized in Exhibit 9. This historical progression is further illustrated in the graph on the following page.

COMPARISON OF LIABILITIES AND ASSETS

Ratio is increasing in general - must see what assets do over long implications by factors

C.	<u>Change in CPI for Social Security</u> (First Quarter to First Quarter)	1.9%

3 years from 1986 to 1987

STATE TEACHERS' RETIREMENT SYSTEM

DEVELOPMENT OF VALUATION ASSETS

In order to reduce potential volatility in the market value of the System's assets, a smoothing technique is used to develop an actuarial value of assets. This value is then used to determine the unfunded actuarial accrued liability.

To develop the actuarial value of assets as of June 30, 1987, the actuarial value of assets as of July 1, 1986 was increased by contributions to the System and reduced by benefit payments made to former Members and their Beneficiaries. These amounts were then adjusted with interest to the end of the year, using the expected rate of return on assets. The resulting figure represents the expected actuarial value of assets, provided the assumed rate of return will be realized.

The expected actuarial value of assets at year end was then compared with the market value of assets as of June 30, 1987 and 20% of the difference was recognized. The resulting value would have been further adjusted if it had been less than 80% or greater than 120% of the market value of assets.

1.	Actuarial Value of Assets as of July 1, 1986	\$ 2,183,070,000
2.	Contributions	279,246,000
3.	Benefit Payments	161,355,000
4.	Net Transactions: Item 2 - Item 3	117,891,000
5.	Expected Rate of Return (Change in CPI + 3.0%)	4.9%
6.	Expected Investment Return: Item 5 x (Item 1 + $\frac{1}{2}$ Item 4)	109,859,000
7.	Expected Actuarial Value of Assets as of June 30, 1987: Item 1 + Item 4 + Item 6	2,410,820,000
8.	Market Value of Assets as of June 30, 1987	3,188,223,000
9.	Adjustments: 20% of the Difference between Item 8 and Item 7	155,481,000
10.	Preliminary Actuarial Value of Assets as of June 30, 1987: Item 7 + Item 9	2,566,301,000
11.	Limiting Values:	
a.	80% of Item 8	2,550,578,000
b.	120% of Item 8	3,825,868,000
12.	Actuarial Value of Assets as of June 30, 1987: Item 10, but not less than Item 11.a. or greater than Item 11.b.	\$ 2,566,301,000

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM
CENSUS DATA FOR MEMBERS IN THE SYSTEM

For the purposes of the June 30, 1987 actuarial valuation of the Connecticut State Teachers' Retirement System, we were provided with census data on each active teacher who was in the System as of the valuation date. The data included name, sex, date of birth, service, salary, and the Member's contributions. Pertinent data was also provided for each retiree, beneficiary, survivor, and dependent as of June 30, 1987, including name, sex, date of birth, date of retirement, amount and form of monthly benefit, and beneficiary information, where applicable. In addition, we received data on former teachers who were no longer active in the System.

The table below gives a comparison of certain characteristics of Members in the System between this year and last year.

	<u>June 30, 1986</u>	<u>June 30, 1987</u>
1. Active Teachers		
a. Number	39,002	39,014
b. Average Age	43.3	43.4
c. Average Service	14.3	14.3
d. Average Annual Compensation	\$ 27,308	\$ 30,590
2. Terminated Vested Teachers		
a. Number	779	766
b. Average Monthly Deferred Benefit	\$ 427	\$ 469
3. Survivors and Dependents		
a. Number	504	485
b. Average Monthly Benefit	\$ 257	\$ 259
4. Retired Teachers and Beneficiaries		
a. Number	11,302	12,207
b. Average Monthly Benefit	\$ 996	\$ 1,097
c. Average Monthly Benefit Inclusive of the \$800 Minimum Retirement Benefit under PA 87-381	--	\$ 1,099

Exhibit 7
(Continued)

The table below gives certain characteristics of the Retired Teachers and Beneficiaries as of June 30, 1987.

<u>Age</u>	<u>Number</u>	<u>Avg. Mo. Benefit</u>	<u>Avg. Mo. Benefit Inclusive of \$800 Minimum</u>
Under 50	45	\$ 780	\$ 780

70 - 74	2,138	1,082	1,082
75 - 79	2,025	1,044	1,045
80 - 84	1,441	1,029	1,031
85 - 89	639	935	942
90 -	343	815	844
	12,207	\$ 1,097	\$ 1,099

The charts and graphs on the following pages present various characteristics of the Active Members of the System.

The first 3 charts give a distribution of the Active Members by age and completed years of service as of the valuation date. Separate charts are included for males, females, and all Members combined. Charts 4 through 6 show the average salaries for each age and service category.

The graphs on pages 25 through 28 compare the age and service distributions of the active population in the current valuations with those contained in the 1986 and 1980 valuations. These graphs are helpful in identifying trends in the age and service characteristics of the Members of the System.

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM
OUTLINE OF THE PRINCIPAL PROVISIONS OF THE SYSTEM

Assumptions -

Outlined below are the principal provisions of the System which were reflected in this valuation.

1. Covered Employees

Any teacher, principal, superintendent or supervisor engaged in service of public schools, plus professional employees at State schools of higher education if they choose to be covered.

2. Salary

Amount paid to a teacher as specified in a contract of employment excluding amounts paid for extra duty assignments, coaching, unused sick time, unused vacation or terminal pay.

3. Average Annual Salary

Average of annual salary received during three years of highest salary.

4. Credited Service

One month for each month of service as a teacher in Connecticut public schools, maximum 10 months for each school year. Ten months of credited service constitutes one year of Credited Service. Certain other types of teaching service, State employment, or war-time military service may be purchased at retirement, if the member pays one-half of the cost.

5. Normal Retirement

Eligibility: Age 60 and 20 years of Credited Service in Connecticut or 35 years of Credited Service including at least 25 years of service in Connecticut.

5. Normal Retirement - continued

Benefit: 2% times years of Credited Service times Average Annual Salary
(maximum percent is 75%)

plus

any additional amounts derived from 6th percent and voluntary contribu-
tions by the teacher.

Minimum Benefit: Effective January 1, 1988, Public Act 87-381 provides a
minimum monthly retirement benefit of \$800 to teachers who retire under
the Normal Retirement provisions and who complete at least 25 years of
full time Connecticut service at retirement.

6. Early Retirement

Eligibility: At any age after the completion of 25 years of Credited
Service including 20 years of Connecticut service or at or after age 55
and the completion of 20 years of Credited Service including 15 years of
Connecticut service, with the last 5 years in Connecticut.

Benefit: Reduced normal retirement benefit. The early retirement factors
currently in effect are 6% per year for the first five years by which
early retirement precedes the minimum normal retirement age and 4% per
year for the next five years by which early retirement precedes the mini-
mum normal retirement age.

7. Proratable Retirement

Eligibility: Age 60 and 10 years of Credited Service with the last 5
years in Connecticut.

Benefit: 2% less .1% for each year less than 20 years times years of
Credited Service in Connecticut plus 1% times years of additional Credited
Service times Average Annual Salary.

8. Disability Retirement

Eligibility: Disability prior to age 60 and after 5 years of Credited Service in Connecticut if not incurred in the performance of duty and without regard to service if incurred in the performance of duty.

Benefit: Lesser of:

- 3% times Credited Service to date of disability times Average Annual Salary;
- 1-2/3% times Credited Service projected to age 60 times Average Annual Salary;
- 50% times Average Annual Salary.

Not less than 15% times Average Annual Salary.

9. Termination of Employment

With less than 5 years of Credited Service: Return of 5% contributions with interest.

With 5 or more years of Credited Service: Return of 5% contributions with interest and 1% contributions without interest.

With 10 or more years of Credited Service: 100% vested. Member may elect return of all contributions plus interest on 5% contributions in lieu of vested benefit.

10. Pre-Retirement Death Benefits

A lump sum plus one of the following: survivor's benefit, return of all contributions with interest, surviving spouse's benefit, or automatic surviving spouse's benefit.

10. Pre-Retirement Death Benefits
(continued)

- Lump Sum: \$1,000 for the first 15 years of Connecticut service plus \$200 per year thereafter. Maximum benefit: \$2,000.
- Survivor's Benefit: \$300 per month to a surviving spouse or dependent former spouse (receiving child support), or to a dependent parent over age 65 if there is no surviving spouse, or dependent child, or to a legal guardian if there is no surviving spouse, dependent former spouse, or dependent parent. \$200 per month to a single dependent child under age 18 or over 18 if disabled. \$300 per month divided equally among two or more such children in a family.
- Accumulated contributions with interest plus dependent children's benefits as described in the "Survivor's Benefit" paragraph.
- Surviving Spouse's Benefit: the 50% co-participant option plus dependent children's benefits as described in the "Survivor's Benefit" paragraph.
- Automatic Surviving Spouse's Benefit: Prefiled co-participant option with the percent continued chosen from 33-1/3%, 50%, 66-2/3%, 75%, or 100%.

11. Form of Annuity

Normal: Partial Refund Option - 75% of total benefit is paid as a life annuity. If 25% of the benefits paid prior to death do not exceed the Member's 5% contributions plus interest frozen at the date of benefit commencement, the difference is paid to his beneficiary.

Optional Forms: 5-, 10-, 20-, or 25-year certain and life. 33-1/3%, 50%, 66-2/3%, 75%, or 100% co-participant annuity (if co-participant dies first, benefit reverts to unreduced amount).

12. Cost-of-Living Allowance

Pension benefit adjustments are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum.

13. Teachers' Required Contribution

Each teacher is required to contribute 6% of annual salary.

14. State Contribution

The State funds the balance of the liability for benefits with annual contributions (currently paid in installments at the beginning of each quarter) determined in accordance with Section 10-183(z) (which reflects Public Act 79-436 as amended).

STATE OF CONNECTICUT
STATE TEACHERS' RETIREMENT SYSTEM

Exhibit 9

02 of 6-30-88
Rpt date 1-13-89

SUMMARY OF ACTUARIAL ASSUMPTIONS AND ACTUARIAL COST METHOD

The following is a summary of the actuarial assumptions and the actuarial cost method used in this valuation of the State Teacher's Retirement System. These are the same assumptions and methods that were used in the prior year's valuation.

A. Actuarial Assumptions

1. Investment Return: 8% per annum, compounded annually.
2. Mortality: The Unisex Pension Table for 1984, set back five years in age for females.
3. Termination of Employment: Rates are based on prior System experience as follows:

<u>Years of Service</u>	<u>Rate</u>
1 - 5	10%
6 - 10	6%
11 and over	1%

4. Salary Increases: Annual increases of 8% for first 15 years of service; annual increases of 5½% thereafter, plus an additional 2% for all years of service July 1, 1984 through June 30, 1988.
5. Cost-of-Living Increases: Annual increases of 5% in pensions after retirement.
6. Retirement Age: It is assumed that teachers will retire when first eligible for normal retirement benefits as follows:
 - a after 35 years of service if before age 60
 - a at age 60 if after 20 years of service and before 35 years of service
 - a at 20 years of service if after age 60 and before age 70
 - a at age 70 if after 10 years of service and before 20 years of service
 - a if active and currently eligible to retire on the valuation date under one of the age and service combinations cited above, the teacher is assumed to retire on the following June 30th.

7. Disability Incidence: Based on prior experience of System as follows:

<u>Age</u>	<u>Rate</u>
Age 30	.00059
Age 40	.00105
Age 50	.00262

8. Active Member Marriage Assumptions: 85% of all Members are married. Females are 3 years younger than their spouse, and have one child at age 25 and another at age 27.

9. Expenses: Paid directly by the State.

B. Actuarial Cost Method; Asset Valuation Method

1. Actuarial Cost Method: The entry age actuarial cost method was used to determine liabilities related to the State's contribution requirement.

The unit credit actuarial cost method was used to determine the actuarial present value of accrued benefits, which is used to measure the funded status of the System.

2. Valuation of Assets: The valuation assets are updated with actual contributions and benefit payments, and with interest at a rate equal to the cost-of-living adjustment to Social Security benefits (as determined under prior law for June adjustments), plus three percentage points. This preliminary value is compared with the market value of assets and 20% of the difference is recognized. The actuarial value of assets is further adjusted if necessary to lie between 80% and 120% of the market value of assets. The starting value used with this technique is the market value of assets as of June 30, 1980.
