INTRODUCTION

The Board of Trustees of the Public School Teachers' Pension and Retirement Fund of Chicago (the "Fund"), working with Mercer Investment Consulting, Inc. ("the Investment Consultant") and the Townsend Group ("the Real Estate Investment Consultant"), have developed the following policies, objectives and guidelines for the ongoing management and evaluation of the Fund's investment program.

This Statement of Investment Policy serves the following purposes:

- Provides a written document of the Board's expectations regarding the Fund's investment program.
- Establishes objectives and guidelines for the investment of the assets which are consistent with the Fund's financial- and benefits-related goals.
- Outlines criteria and procedures for the ongoing evaluation of the investment program.
- Provides a communication vehicle for the investment managers.

This Statement is intended to be dynamic in nature and will be updated and revised as appropriate to reflect the Board's current investment program goals.

ASSET ALLOCATION

The asset allocation policy developed herein is based on an evaluation of the Fund's ability to assume investment risk in its pension assets in light of its financial-and benefits-related goals and objectives and the Fund's liability structure.

In arriving at the current asset allocation policy, the Board, working with the Investment Consultant, evaluated the following factors:

- The Fund's current benefits structure and long-term goals regarding benefit security.
- Current and prospective funding sources and levels.
- The liability structure underlying the Fund.
- Actuarial methods and assumptions.
- Key elements of investment theory.
- Historical and prospective risk and return characteristics associated with various asset classes and investment management styles.
- The impact of changes in asset value on funding status and benefit security.
- The investment practices of other public pension funds.

Based on an analysis of the above factors, the Board has determined that the following asset allocation policy is currently appropriate for the Fund. The current asset allocation policy is intended to support a rate of asset growth for the Fund greater than the actuarial rate of return over longer periods of time. This asset allocation policy will be reviewed annually and may be modified, if appropriate, in light of changes in the structure or goals of the Fund, the capital market environment or changes in the Illinois State Statutes under which this Fund is governed.

Total	100.0	

Comments on Asset Allocation Policy

- In order to allow the Fund an opportunity to maximize its funded status over time and, thus, increase long-run benefit security, a meaningful commitment (target of 66%) is made to the public equity sector.
- In order to increase diversification benefits while maintaining a core position in equities, approximately <u>45%</u> of the domestic equity commitment is allocated to equity index funds, while the remaining commitment is allocated to active equity managers chosen as complements to the structure.
- To further improve diversification benefits, a target commitment of 9% of total Fund assets are made to small capitalization equity and 22% to international equity.
- To fully capture diversification benefits along the capitalization spectrum, a target commitment of 3.5% is made to mid capitalization equity.
- In order to diversify the international equity commitment, up to 20% is invested in the emerging markets or lesser developed countries.
- A commitment of 3% of the Total Fund is allocated to the private equity sector.
- A commitment of 2.5% of the Total Fund is allocated to the public REIT sector to improve the risk posture of the overall Fund and provide access to this developing market.
- A commitment of 6.5% of Total Fund assets is allocated to the private real estate sector to improve the risk posture of the overall Fund and provide a further inflation buffer.
- A target of 21% of Total Fund assets is allocated to fixed income securities in order to optimize the overall structure of the Fund and provide a more consistent income stream. These assets will have a market-oriented (i.e., Lehman Brothers Aggregate Bond Index) benchmark structure.
- In order to increase diversification benefits while maintaining a core position in fixed income securities, <u>55% - 60%</u> of the domestic fixed income commitment is allocated to bond index funds, while the remaining portion is allocated to active enhanced index, core investment grade and opportunistic managers chosen as complements to the structure.
- A commitment of 2% of Total Fund assets is allocated to cash equivalents, or shortterm fixed income type securities in order to meet the benefits and expense demands of the Fund.

INVESTMENT MANAGEMENT STRUCTURE

In selecting investment managers to implement the Fund's asset allocation policy, a specific process of selection and evaluation of candidate firms is followed. Candidate organizations are identified according to criteria established by the role defined in the Statement of Investment Policy. Evaluation of organizations includes an analysis of organizational structure, professional personnel, investment philosophy and process and portfolio characteristics as well as the ability to adequately serve the specific needs of the Fund. Evaluation of the performance histories of organizations is based upon the performance standards established for the given role by this Statement of Investment Policy. Presentations to the Board of Trustees are required.

The selection of an investment manager also considers the correlation with other existing investment managers in the same role, and with the defining market index for the role. Consideration is given to the benefits of diversification within a role by investment style or focus.

Comments on Investment Management Structure

- In order to allow the Fund to diversify effectively by asset class and management organization, a multiple manager structure is utilized. This structure will also serve to limit the impact of any single manager on the Total Fund.
- An index fund manager(s) is utilized to maintain a core position in equities (as measured by the Standard & Poor's 500 Stock Index). An index fund manager(s) is also utilized for a portion of the small and mid capitalization equity commitments. To complement this core position, active large capitalization equity managers are retained.
- Active managers are also retained for the small and mid capitalization and international equity allocations in order to add value in these less efficient sectors of the market.
- An index fund manager(s) is utilized to maintain a core position in fixed income. Active fixed income managers are retained to complement this core position.
- A minimum of 25% of actively managed assets shall be invested with minority and/or female organizations that meet the definition of emerging manager under the Illinois statute. Within actively managed assets, a minimum of 15% of Private Equity and 15% of Real Estate assets will be invested with minority and/or female organizations.
- The precise dollar allocation among managers in a particular category is determined by the Board with assistance from the Investment Consultant or Real Estate Investment Consultant and may be modified at their discretion.

Responsibilities of the Investment Managers

Each investment manager has the following responsibilities, including those specified in the Investment Advisory Agreement.

- Managing the portion of the Fund assets under its control in accordance with the policy objectives and guidelines included herein (including any Board resolutions <u>included in</u> <u>the Appendix</u>) and in accordance with generally accepted prudency standards.
- Complying with any applicable legislative or regulatory stipulations, including Illinois law.
- Exercising full investment discretion within the policies and standards included herein as to buy, hold and sell decisions for all assets under management.
- Promptly informing the Board and/or their designated agents (the Executive Director and the Investment Consultant or Real Estate Investment Consultant) regarding significant matters pertaining to the investment of Fund assets. This includes, at a minimum, the following:
 - Quarterly portfolio asset and transactions statements.
 - Substantive changes in investment strategy and portfolio structure.
 - Changes in ownership, organizational structure, financial condition or professional staffing.
 - Quarterly reports detailing all trading activity and specific broker utilization.
 - Annual reports detailing all proxy voting activity.
- Providing input as appropriate regarding progress toward the specific objectives developed herein, as well as suggestions as to possible modifications to the investment policies.

Manager Probation and Termination Guidelines

Criteria for the Review and Termination of Investment Managers

The Investment Committee will recommend placing an investment manager on "watch" status when confidence is lost in the management of a strategy; when the characteristics of the portfolio no longer satisfy the desired or expected elements of the mandate, or the current style is no longer deemed appropriate. The following are a list of scenarios that would lead to a loss of confidence in a manager:

 Performance: Continued performance shortfalls versus a peer group of managers with a similar style and/or market index. A manager that does not remain in the upper half of the universe and or market index over a rolling three years for two consecutive quarters will be considered for placement on watch status.

- Changes in strategy: If the manager departs from the strategy and/or style it was originally hired to implement, such as a switch from a quantitative process to a fundamental one and or the strategy deviates from the universe and benchmark dramatically and in a manner that would not have been expected given the tracking error expectations of the particular strategy.
- Change in organizational structure or personnel: A significant change in culture through a merger or acquisition that is likely to distort incentives and promote turnover, or if significant members of the investment team leaves the firm.
- Compliance: Any gross negligence, willful misconduct, investment policy violation or breach of federal and state securities laws.
- Changes in Asset Allocation: The manager or strategy may no longer fit the desired portfolio structure. This may reflect a revision of the desired portfolio structure due to other factors, such as asset allocation and/or risk profile changes.
- Brokerage Guidelines: Investment managers that do not follow CPT's brokerage policy for two consecutive quarters will be considered for placement on watch status.
- **Other**: Any other reason the Investment Committee may deem necessary for a heightened review of the manager is warranted.

The Investment Committee and Mercer IC's investment manager recommendations may fall into one of the following three categories:

- Retain: We have confidence in the investment manager's ability to add future value. The manager's investment performance is satisfactory, and has no significant organizational or strategic issues.
- **Place on Watch:** The manager's investment performance is unsatisfactory and/or issues relating to the organization or strategy are of concern.
- **Terminate:** We do not have confidence in the manager's ability to add future value over a benchmark. We may recommend terminating a manager if significant concerns exist as to the organization or strategy.

The Investment Committee and with assistance from the investment consultant will review managers <u>during performance review meetings</u> and when necessary provide recommendations to either place managers on watch or terminate relationships. These recommendations will be brought to the entire Board of Trustees for a final decision to be made. Managers can be placed on watch status for a period of four quarters prior to a recommendation for termination. There may be, however, circumstances under which the Investment Committee may elect to terminate a manager without first placing them on watch with Board of Trustee approval.

Procedures Following the Initiation of Watch Status

- The watch period will be established for the next three quarters, for a one-year total watch duration.
- Within one quarter from the time a manager is placed on watch, the Committee will interview the manager to determine if performance is explainable, and will continue to watch performance over the remainder of the three-quarter watch period.
- If at the end of the watch period, performance has improved to above-benchmark and or above the manager median over a market cycle, we will remove the manager from the watch list.
- If, at the end of the watch period, the manager is underperforming either or one of the objectives, (in effect, four consecutive rolling time periods of non-compliance) there will be four options for the Committee:
 - 1 Immediately terminate the manager;
 - 2 Commence a search for a replacement manager;
 - 3 Reduction of allocation to the manager with the amount determined by the Board or
 - 4 Interview the investment manager again to determine whether performance is suitably explainable or if an upward trend in relative performance has developed, and continue the "watch" period for an additional number of quarters.

INVESTMENT OBJECTIVES AND GUIDELINES

The Board expects to receive results from the investment managers that are consistent with the policies included herein. The following sections outline the specific objectives and guidelines established for each asset management category. These objectives and guidelines provide a basis for evaluating the effectiveness of each investment manager and the overall investment program over time.

The objectives and guidelines established for each investment manager take into account the primary market in which the investment manager is expected to invest. Investment results are also to be compared to like groups of investment managers to provide a competitive analysis. Varying time periods, especially longer time periods, are employed to judge the success of the investment manager during different market conditions, and to evaluate any emerging trends in investment results. Investment results are evaluated both before and after the effect of management fees. This section contains the objectives and guidelines for the following asset categories, and capitalization and style subcategories:

Total Fund	Equity	Large Cap	Passive	Index

TOTAL FUND

Investment Objective

The overall financial objective of the Fund is to provide an investment return ahead of the actuarial rate of return on a net of fee basis per year over longer time periods.

Performance Standard

Horizon	Index ¹	Universe
Less than one market cycle. (Rolling 3-year periods)	Exceed the benchmark. ²	Rank in the upper half of a universe.3
One market cycle. (Rolling 5-year periods)	Exceed the benchmark ² by 20 basis points.	Rank in the upper 40% of a universe. ³

¹ All index comparisons are net of fees.

² Benchmark defined as 30.3% S&P 500 / 3.5% S&P MidCap / 9% Russell 2000 / 3.2% Russell 3000 Index / 22.0% ACWI ex-US / 2.5% NAREIT / 6.5% NCREIF / 21.0% LB Aggregate / 2.0% SSB 91-Day Treasury Bills.

³ As measured by a public fund universe

Investment Guidelines

- The investment guidelines governing each asset class/manager together constitute the Total Fund guidelines.
- The Fund will conform to the Statutory requirements outlined in Illinois law.
- The Board is responsible for the overall asset allocation of the Fund. Each manager is responsible for adhering to the statutory guidelines for its portion of Fund assets only.

Liquidity Requirements and Cash Flows

- Income and capital appreciation from each manager's portfolio generally is expected to be reinvested by that manager unless otherwise notified by the Board or their agents (i.e., the Executive Director or the Investment Consultant).
- Liquidity requirements (i.e., for covering Fund expenses and benefits payments) are taken from the cash account at the custodian bank. The Executive Director and Investment Consultant will determine expected liquidity requirements on a periodic basis and notify each manager of the portion, if any, of this requirement that will be taken from its portfolio.

<u>Brokerage</u>

• Each manager will be given the discretion to utilize brokerage firms which it believes offer the best execution for a given trade. However, each manager should adhere to the guidelines for brokerage as stated in the Investment Advisory Agreement and the Board resolution regarding brokerage included as an Appendix to this Statement.

Proxy Voting

• Each domestic equity manager is given the authority and mandate to vote all proxies for shares held on behalf of the Fund. Each manager is also required to provide a complete record of all proxy voting activity, including the specific actions taken, on an annual basis.

Investment Objective

The overall financial objective of the equity portfolio of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

Investment Guidelines - Apply to each manager except as otherwise noted.

- Return regression analysis and portfolio characteristics will be evaluated to determine the orientation of the investment strategy of the individual investment manager and to determine style specific objectives. Once determined, shifts in style will not be acceptable. Style will be evaluated on an ongoing basis, but not less frequently than once every two years.
- Appropriate investments consist primarily of common stocks and/or convertible securities, however cash equivalents may be used at the manager's discretion.
- Holdings in any one company should not exceed 7.5% of the total portfolio, measured at market value.
- Holdings in one industrial sector should not exceed the greater of 35% of the total portfolio or 1.5 times the sector's weight within the benchmark, measured at market value.
- Each manager will conform to all applicable Statutory limitations, Board resolutions, guidelines relating to brokerage, proxy voting, and reporting requirements.
- ADR's are allowed up to 10%
- Prohibited securities include:
 - private placements
 - foreign securities listed on foreign exchanges
 - options and futures
- Should the circumstance arise in which a domestic company, currently held in an investment manager's portfolio, be purchased by a foreign entity and registered as an ADR, the investment manager will be allowed to hold the security at their discretion.
- Note: The index manager will be responsible for holding a portfolio designed to replicate the returns of the S&P 500 Stock Index. As such, the above guidelines do not specifically apply.

Investment Guidelines - Apply to each manager unless otherwise noted.

- Appropriate investments consist primarily of common stocks, however cash equivalent and/or fixed income securities may be used at the manager's discretion.
- Equity holdings in any one company should not exceed 7.5% of the total portfolio, measured at market value.
- Equity holdings in one industrial sector should not exceed greater of 35% of the total
 portfolio or <u>1.5 times the sector's weight within the benchmark</u>, measured at market
 value.
- Cash equivalents held in the portfolio may be in dollar denominated or non-dollar denominated investments.
- Each manager may utilize forward contracts at its discretion to hedge currency exposure.
- Each manager will conform to all applicable Statutory limitations, Board resolutions, guidelines relating to brokerage, proxy voting and reporting requirements.

The manager may invest in emerging markets up to 20% of the market value of the portfolio.

INTERNATIONAL ALL CAPITALIZATION

Investment Objective

The overall financial objective of the international equity portfolios of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

ACWI ex US – Apply to each manager unless otherwise noted in the contract

Performance Standard *

Horizon	Index ¹	Universe
Less than one market cycle. (Rolling 3-year periods)	Exceed the MSCI ACWI ex-US Index.	Rank in the upper half of a universe. ²
One market cycle. (Rolling 5-year periods)	Exceed the MSCI ACWI ex-US Index by 75 basis points.	Rank in the upper 40% of a universe. ²

¹ All index comparisons are net of fees.

² As measured by a broad international equity manager universe.

* All performance is measured upon conversion to U.S. dollars.

INTERNATIONAL ALL CAP

Investment Guidelines - Apply to each manager unless otherwise noted.

- Appropriate investments consist primarily of common stocks; however cash equivalent and/or fixed income securities may be used at the manager's discretion.
- Equity holdings in any one company should not exceed 7.5% of the total portfolio, measured at market value.
- Equity holdings in one industrial sector should not exceed greater of 35% of the total
 portfolio or <u>1.5 times the sector's weight within the benchmark</u>, measured at market
 value.
- Cash equivalents held in the portfolio may be in dollar denominated or non-dollar denominated investments.
- Each manager may utilize forward contracts at its discretion to hedge currency exposure.
- Each manager will conform to all applicable Statutory limitations, Board resolutions, guidelines relating to brokerage, proxy voting and reporting requirements.

The manager may invest in emerging markets up to 20% of the market value of the portfolio.

INTERNATIONAL SMALL CAPITALIZATION

Investment Objective

The overall financial objective of the international equity portfolios of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

MSWSC –Apply to each manager unless otherwise noted in the contract

Performance Standard *

Horizon	Index ¹	Universe
Less than one market cycle. (Rolling 3-year periods)	Exceed the MSCI ex-US Small Cap Index.	Rank in the upper half of a universe. ²
One market cycle. (Rolling 5-year periods)	Exceed the MSCI ex-US Small Cap Index by 100 basis points.	Rank in the upper 40% of a universe. ²

¹ All index comparisons are net of fees.

² As measured by a broad international equity manager universe.

* All performance is measured upon conversion to U.S. dollars.

INTERNATIONAL SMALL CAP

Investment Guidelines - Apply to each manager unless otherwise noted.

- Appropriate investments consist primarily of common stocks; however cash equivalents and/or fixed income securities may be used at the manager's discretion.
- Equity holdings in any one company should not exceed 7.5% of the total portfolio, measured at market value.
- Equity holdings in one industrial sector should not exceed 35% of the total portfolio or 1.5 times the sector's weight within the benchmark, measured at market value.
- The average (median) market capitalization of the portfolio should not exceed three times the median market capitalization of a comparable Index.
- Cash equivalents held in the portfolio may be in dollar denominated or non-dollar denominated investments.
- Each manager may utilize forward contracts at its discretion to hedge currency exposure.
- Each manager will conform to all applicable Statutory limitations, Board resolutions, guidelines relating to brokerage, proxy voting, and reporting requirements.
- The manager may invest in emerging markets up to 25% of the market value of the portfolio.

PRIVATE EQUITY

Investment Guidelines - Apply to each manager unless otherwise noted.

All private equity investments are currently within a <u>fund of fund or direct fund arrangement</u> and adhere to the partnership agreement.

The overall financial objective of the private equity portfolios of the Fund is to meet the performance standard on a net of fee basis over the life of the investment.

Benchmark--

Venture Analytics

Performance Standard:

Horizon	Index	Universe
One market cycle. (Rolling 12-15 years)	16% annualized rate of Return ¹	Rank in the 2nd quartile or better of Venture Analytics for appropriate vintage year ²

Investment Guidelines:

- Private equity investments should be made primarily through closed-end private equity funds.
- Adequate diversification by private equity subclass (venture capital, buyout, mezzanine, distressed debt, special situation, and non-U.S.) should be maintained.
- New investments in private equity funds should not exceed 5% of the normal policy allocation to private equity.
- Managers will execute for the Fund any and all documents pertaining to private equity limited partnership investments, including, but not limited to, private equity limited partnership agreements; private equity limited partnership subscriptions agreements and amendments to said agreements.

¹ All performance comparisons will be made after the conversion back into U.S. dollars.

² As measured by a broad private equity manager universe.

PUBLIC REIT

Investment Objective

The overall financial objective of the Public REIT portfolios of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

Performance Standard

Horizon	Index ¹	Universe
Less than one market cycle. (Rolling 3-year periods)	Meet the NAREIT Index.	Rank in the upper half of a universe. ²
One market cycle. (Rolling 5-year periods)	Exceed the NAREIT Index.	Rank in the upper 45% of a universe. ²

¹ All index comparisons are net of fees.

² As measured by the Townsend REIT Manager Universe.

Investment Guidelines - Apply to each manager unless otherwise noted.

- The portfolio should maintain adequate diversification across individual holdings and property sectors. Any one issue should be limited to no more than 10% of the portfolio based upon market value at time of purchase.
- The securities in the portfolios should have a real estate-related activity, with at least 50% of income coming from real estate properties.
- The primary focus will be on companies that invest in U.S. real estate, although there may be some incidental exposure to foreign properties. The manager shall invest in U.S. or non-U.S. companies who invest primarily in U.S. real estate. No more than five percent of the portfolio may be exposed to non-U.S. properties.

FIXED INCOME

Investment Objective

The overall financial objective of the fixed income portfolios of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

INDEX ---

Lehman Brothers Government/Credit Index Portfolio

Performance should not fall below the Lehman Brothers Government/Credit Bond • Index by more than 25 basis points over any one-year period.

ENHANCED INDEX --

Performance Standard

Less than one market cycle. (Rolling 3-year periods)	Exceed the LB Aggregate Index.	Rank in the upper half of a universe. ²
One market cycle. (Rolling 5-year periods)	Exceed the LB Aggregate Index by 35 basis points.	Rank in the upper 40% of a universe. ²

All index comparisons are net of fees.
 As measured by a broad fixed income manager universe.

FIXED INCOME

Investment Guidelines -

- Appropriate investments consist of marketable debt securities and cash equivalents.
- Bonds purchased or owned must have a minimum quality rating of Baa (Moody's) or BAA (Standard & Poor's) and the average quality of the portfolio must be AA or better. Unrated U.S. Treasury and Government agency securities are permissible and will be treated as AAA rated for purposes of weighting.
- Individual security holdings (excluding cash equivalents and U.S Treasury and Government agency issues) should not exceed 6% of the total portfolio, measured at market value.
- Each manager will conform to all applicable Statutory limitations, Board resolutions, guidelines relating to brokerage, (if any) voting and reporting requirements.
- Prohibited investments include:
 - Private placements (144A securities are acceptable)
 - Foreign securities (Yankees are acceptable)

OPPORTUNISTIC FIXED INCOME

Investment Objective

The overall financial objective of the opportunistic fixed income portfolios of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

OPPORTUNISTIC --

Performance Standard

Horizon	Index ¹	Universe

¹ All index comparisons are net of fees.

² As measured by a broad fixed income manager universe.

OPPORTUNISTIC FIXED INCOME

Investment Guidelines -

Appropriate investments consist of any of the following fixed income securities and their futures or options derivatives, individually or in commingled vehicles, subject to credit, diversification and marketability guidelines below, may be held outright and under resale agreement:

- A. Cash Equivalent Securities include but are not limited to interest bearing or discount instruments such as money market funds; U.S. Treasury Bills; corporate-issued commercial paper; bank-issued Certificates of Deposits; bankers' acceptances; and repurchase agreements fully collateralized by U.S. Treasury or Agency securities.
- B. U.S. Treasury Notes, Bonds, TIPS, and STRIPs
- C. Government Agencies & Instruments (Discount Notes, Debentures, Mortgage-Backed Securities)
- D. Corporate Bonds, Notes, Debentures, Asset-Backed Securities–such as mortgage bonds, convertible and non-convertible notes and debentures, preferred stocks, commercial paper, certificates of deposit and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organizations;
- E. Yankee and Eurodollar Bonds, Notes
- F. Non-Agency Mortgage-Backed Securities
- G. Sovereign or Supra-national Bonds
- H. Obligations, including the securities of emerging market issuers, denominated in U.S. dollars or foreign currencies of international agencies, supranational entities and foreign governments (or their subdivisions or agencies), as well as foreign currency exchange-related securities, warrants, and forward contracts.
- I. Swaps, forwards, options on swaps, options on forwards.
- J. Securities defined under Rule 144(A) and Commercial Paper defined under Section 4(2) of the Securites Act of 1933.

All of the above can be either fixed, variable, or floating rate.

Prohibited Investments

Securities specifically prohibited from purchase include, but are not limited to:

- A. Short sales of any type.
- B. CMO residuals and support tranches.
- C. Stripped mortgage-related securities (Interest Only Strips "IOs", Principal Only Strips "POs") both generic and prepayment protected.
- D. Leveraged Floaters and Inverse Floaters, including Money Market obligations.
- E. Tiered-Index Bonds, Range Notes and all other forms of structured notes whose return characteristics are tied to changes in prepayments on mortgages or changes in a specified interest rate index or market rate.
- F. Natural resource real properties such as oil, gas or timber.
- G. Partnerships or limited partnerships.
- H. Precious metals.
- I. All other forms of derivatives not specifically defined as permissible.

Other Investment Guidelines

- A. Concentration per fixed income issuer cannot exceed 6% of the portfolio market value at the time of purchase, with the exception of investments in commingled vehicles, cash, cash-equivalent, U.S. Treasury or Agency securities. Furthermore, managers may not hold more than 5% of the outstanding shares of any single issuer with the exception of U.S. Treasuries or Agencies.
- B. "144A" debt and Section 4(2) Commercial Paper are limited to a maximum of 20% of the fixed income portfolio market value.
- C. A minimum of 80% of all fixed income securities (including 144A's) must be rated investment grade at the time of purchase by a majority of the Nationally Recognized Statistical Rating Organizations ("NRSROs)" assigning a rating to that issue, or in the case of a single rating, that rating must be investment grade. If two ratings, both must be investment grade. Should less than 80% of the portfolio be rated investment grade subsequent to purchase, The manager will immediately contact the Board regarding its recommendation for bringing the portfolio into compliance

- D. Up to 20% of all fixed income securities may be invested in non-Dollar denominated securities; up to 10% of the portfolio may be invested in un-hedged non-dollar denominated securities;
- E. Up to 10% of the portfolio may be invested in emerging markets debt (dollar and nondollar denominated), although under no circumstances may the combined assets held in high yield and emerging markets debt exceed 20% of the portfolio.
- F. Rated cash and cash-equivalent securities must be rated in the highest short-term rating category by a majority of the NRSROs assigning a rating to that issue, such as "A1" by Standard & Poors or "P1" by Moody's. In the case of two ratings, the lowest rating applies and must be in the highest short-term category. In the case of only a single rating, that rating must be in the highest short-term rating category.
- G. The weighted average duration of the fixed income portfolio is expected to remain within a range of 80% to 120% of the representative benchmark.
- H. Permissible CMOs will be limited to no greater than 25% of the market value of the fixed income portfolio.
- I. In addition to the above rating guidelines, all bank-issued securities must carry a minimum rating of "B/C" or better by Thomson BankWatch rating service.
- J. Securities owned by the Plan but held in custody by another party may not be lent unless previously approved.
- K. The manager will conform to all applicable Statutory limitations, Board resolutions, guidelines relating to brokerage, (if any) voting and reporting requirements.

Derivatives Policy

Investment managers may use derivatives traded on a recognized derivatives exchange for hedging and efficient portfolio management purposes subject to compliance with the following specific guidelines at all times:

No more than 5% of the portfolio will be invested in original futures margin and option premiums, exclusive of any in-the-money portion of the premiums. Short (sold) options positions will generally be hedged with cash, cash equivalents, current portfolio security holdings, or other options or futures positions.

a) Futures

- The portfolio shall never be leveraged.
- The effective economic exposure to any asset class after allowing for the impact of short futures positions shall never be negative.

b) Options

- Call options may be purchased only so long as there is sufficient cash available to meet the exercise price or as part of a call spread.
- Put options may be purchased only to the extent that the corresponding physical asset is held in the portfolio or as part of a put spread.
- Call options may be written only if they are covered by holdings of the corresponding physical asset or as part of a call spread. Writing of uncovered call options is prohibited.
- Put options may be written only if there is sufficient cash available to pay to meet the exercise of the option or as part of a put spread.
- Options positions will be limited to those which, in a reasonable range of market scenarios, will not change the portfolio's average weighted duration by more than +20%.
- c) Reporting
 - All derivative positions and transactions shall be separately and explicitly identified in the Investment manager's reporting. Each time the Investment Manager undertakes a derivative transaction, they shall highlight this in the first written report afterwards and explain the rationale for the transaction.

Over-the-counter derivatives not traded on a recognized exchange can only be used with specific prior written consent.

CASH

Investment Objective

The overall financial objective of the cash portfolio of the Fund is to meet the performance standard on a net of fee basis per year over longer time periods.

Performance Standard

Horizon	Index ¹	Universe
Less than one market cycle. (Rolling 3-year periods)	Exceed Salomon Brothers 3 month Treasury Bills by 30 basis points.	Exceed the Donoghue Money Market Index.
One market cycle. (Rolling 5-year periods).	Exceed Salomon Brothers 3 month Treasury Bills by 70 basis points.	Exceed the Donoghue Money Market Index by 30 basis points.

¹ All index comparisons are net of fees.

Investment Guidelines

 <u>Eligible investments shall be limited to units of the Collective Short-term Investment</u> <u>Fund, the Collective Short-term Extendible Portfolio, and the Collective Short to</u> <u>Intermediate Bond Fund, each</u> of which is a collective trust fund maintained by The Northern Trust Company, the Fund's Custodian. The investment guidelines governing these funds have been reviewed and accepted by the Trustees and Investment Consultant.

EVALUATION AND REVIEW

The Board of Trustees, with the assistance of their Investment Consultant and Real Estate Investment Consultant, will review the performance of the investment managers and their adherence to the restrictions and policies applicable to the assets under management on a quarterly basis to determine whether the managers have performed in accordance with their stated investment approaches. In addition, the managers will be evaluated to determine their progress toward achieving the investment objectives specified herein. Failure by a manager to achieve its policy objectives will be cause for the Board to reexamine that manager's continuing appropriateness in the investment program.

At least every 18 months each manager will be expected to meet with the Board. More frequent meetings with the Investment Consultant, Real Estate Investment Consultant and the Executive Director may be required. In addition, each manager will be required to submit quarterly reports which include:

- A review of investment performance and portfolio structure.
- A synopsis of key investment decisions, their underlying rationale and expected future implications.
- An organizational update.
- A response to any questions posed or issues raised by the Board or the Investment Consultant prior to the meeting.
- A review of the portfolio holdings and all transactions.
- A report on commissions and proxy voting.
- A Statement that they have complied with the Investment guidelines including all aspects of Illinois Law.

The Board, with the assistance of their Investment Consultant, will also review the overall investment program on at least an annual basis, or as appropriate. Key issues reviewed will include:

- Changes in the liability structure of the Fund or financial or benefits goals of the Trustees.
- Current trends and developments in the capital markets and manager community.
- The ongoing appropriateness of the policies included herein.

APPENDIX

Illinois Compiled Statutes -

40 ILCS 5/1-5/101 and 40 ILCS 5/17-101

Investment Search Policy

Trustees will agree with the Investment Consultant before search begins on criteria for review of managers.

Investment Consultant shall secure an information update from all appropriate Chicago and minority firms prior to evaluating candidates. Please make sure you do this and it is documented.

Trustees will advise the Investment Consultant before search begins how many candidates will be on final list.

• Investment Consultant will maintain a list of semi-finalists, as determined by the Investment Consultant, and will have a list available at the meeting to review the finalists, with reasons a semi-finalist manager was not a finalist.

A Trustee may request during a Trustees' meeting or in writing for the Investment Consultant to review a particular manager candidate.

• If the requested manager is not a finalist, the Investment Consultant shall provide a written explanation.

All inquires to Trustees or staff from managers about how to become a candidate shall be referred to the Investment Consultant.

The finalist candidates and the Investment Consultant's analysis shall be provided to the Trustees no later than two (2) business days before the meeting.

- Prior to providing the list of finalists, the Investment Consultant shall not disclose the finalists to any Trustee, staff member, or manager.
- All lists of finalists shall be considered confidential and the Fund's proprietary information until discussed at the Trustees' meeting.

Board Resolution Regarding Brokerage

Domestic Large and Mid Cap Equity (Active)

Subject to best execution, each large capitalization active domestic equity manager for the Public School Teachers' Pension and Retirement Fund of Chicago is asked to direct 50% of the total commission dollars to brokers approved in the Board's Minority and Women Business Enterprise program that have an office in Chicago with a dedicated staff.

Domestic Small Cap Equity (Active) and Large Cap Equity Management (Passive)

Subject to best execution, each small capitalization active domestic equity manager and large capitalization passive manager for the Public School Teachers' Pension and Retirement Fund of Chicago is asked to direct 35% of the total commission dollars to minority firms with a preference for brokers approved in the Board's Minority and Women Business Enterprise program that have an office in Chicago with a dedicated staff.

International Equity

Subject to best execution, each active international equity manager for the Public School Teachers' Pension and Retirement Fund of Chicago is asked to direct 25% of the total commission dollars to brokers approved in the Board's Minority and Women Business Enterprise program that have an office in Chicago with a dedicated staff.

Fixed Income

Subject to best execution, each active fixed income manager for the Public School Teachers' Pension and Retirement Fund of Chicago is asked to direct 25% of fixed income volume to brokers approved in the Board's Minority and Women Business Enterprise program that have an office in Chicago with a dedicated staff.

Reporting Guideline

Each manager will submit a compliance report within 30 days of December 31 of each year. If a manager fails to comply with the above guidelines, they will be asked to appear before the Board of Trustees and explain why they were unable to achieve the stated targets.
