

**Cincinnati
Retirement System**

Statement of Investment Policy

February, 2017

Definition of Terms

"System" Defined

In this Policy, the "System" refers to the pool of assets held in trust under the terms of a Trust Agreement established by the Cincinnati Retirement System, which will be used to pay qualified employee, disability, and health benefits (see Addendum C).

"Board of Trustees" Defined

In this Policy, the "Board of Trustees" refers to the named fiduciary appointed to administer the System pursuant to the Trust Agreement (see Addendum E).

"Investment Professionals" Defined

In this Policy, the "Investment Professionals" refers to investment managers, the cash equitization manager, the investment consultant(s), the custodian, the securities lending provider, commission re-capturing agent(s), and third party proxy voting service provider.

"Investment Manager" Defined

In this Policy, the "Investment Manager" refers to any firm, fund, or individual that analyzes, selects, and executes the purchase or sale of individual securities. The investment manager may manage the assets of the System in separate accounts held by a third party custodian, a commingled fund, a limited partnership, or a mutual fund.

"Investment Consultant" Defined

In this Policy, the "Investment Consultant" refers to any firm that provides investment advice and information and assists the Board of Trustees in fulfilling their fiduciary responsibilities as Trustees.

"Cash Equitization Manager" Defined

In this policy, the "Cash Equitization Manager" refers to any firm, fund, or individual that executes the purchase or sale of futures contracts in order to replicate the returns of the equity markets on the cash holdings in the equity manager portfolios.

"Custodian" Defined

In this Policy, the "Custodian" refers to any third party firm that safe-keeps the assets of the System.

"Securities Lending Provider" Defined

In this Policy, the "Securities Lending Provider" refers to any third party firm that lends the assets of the System to other parties in exchange for collateral and interest.

"Commission Re-capturing Agent" Defined

In this Policy, the "Commission Re-Capturing Agent" refers to any broker/dealer that credits or rebates in cash the System for transactions directed to its firm by the System's investment managers. The rebate represents a portion of the commissions (for equity transactions) or spreads (for fixed-income transactions) charged on the investment transaction.

"Third Party Proxy Voting Service Provider" Defined

In this Policy, the "Third Party Proxy Voting Service Provider" refers to any third party firm that votes the proxies of the stocks held by the System.

The Statement of Purpose

The System's Purpose

The System was established in 1931 as a defined benefit System and provides for both monthly pension benefits and medical benefits to qualified retirees, survivors of retirees, and disabled retirees of the City as well as retired members from closed groups (University Hospital, University of Cincinnati, and Hamilton County). The System is governed by Section 203 of the Cincinnati Municipal Code as adopted by the City of Cincinnati Council. A Board of Trustees has been established to oversee the operation of the System.

The Purpose of the Investment Policy

This investment policy is set forth by the Board of Trustees in order to:

- Define and assign the responsibilities of all involved parties.
- Establish a clear understanding of all involved parties of the investment goals and objectives of System.
- Establish the relevant investment horizon for which the System assets will be managed.
- Establish a target asset allocation and re-balancing procedures.
- Establish a methodology and criteria for hiring and firing investment professionals.
- Offer guidance and limitations to all investment managers regarding the investment of System.
- Establish a basis of evaluating investment results.

In general, the purpose of this Policy is to outline a philosophy which will guide the investment management of the assets toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical. This document is intended to serve as a reference tool, an operating code, and a communications link between the Board of Trustees, its staff, and its investment professionals.

Distinction of Responsibilities

The Board of Trustees' Authority and Responsibilities

Chapter 203-65 of the Cincinnati Municipal Code assigns a Board of Trustees with the responsibility for managing the assets of the System. The Board of Trustees must discharge its duties solely in the interest of the System and the System participants. The standards of care for the System are specified in Section 203-65 of the Cincinnati Municipal Code and conform to the standards described in Section 1339.53 of the Ohio Revised Code.

The Board of Trustees will generally be responsible for the following:

- 1) Complying with applicable laws, regulations, and rulings, including the Collaborative Settlement Agreement between the City of Cincinnati and various plaintiff groups representing certain active and retired members of the System that was approved by the Court on October 5, 2015 and generally effective January 1, 2016.
- 2) Selecting all qualified investment professionals.
- 3) Monitoring and evaluating investment performance and compliance with this Policy.
- 4) Reviewing and suggesting changes, as needed, to this Policy.
- 5) Establishing and reviewing the appropriateness of the System's asset allocation policy.
- 6) Taking action according to this Policy.

The Investment Manager's Authority and Responsibilities

The Board of Trustees will hire competent, registered professional investment managers to manage the assets of the System. Investment managers have the following responsibilities:

- 1) Vote proxy issues on securities held, unless a third party proxy voting service provider has been retained by the System. All proxies will be voted exclusively for the best interests of the System and their participants. Managers will maintain written policies for proxy voting and keep a proper record of all proxies to which the Program is entitled. Managers will provide an annual report that including their current proxy voting policy, a summary and detailed records of all proxies voted, and a statement indicating whether proxies were voted in conformance with the manager's internal proxy voting guidelines.
- 2) Provide written reports to the plan sponsor and consultant on at least a quarterly basis detailing performance for the most recent period as well as the current outlook of the markets.

- 3) Notify the client and the investment consultant on a timely basis of any significant changes in the ownership, organizational structure, investment strategy, portfolio design, or configuration of the investment team.
- 4) The investment firm shall notify the client annually when, in aggregate as a firm, the organization owns more than 10% of the outstanding shares in a single stock.
- 5) All qualified investment managers retained by the Board of Trustees will exercise discretion within the parameters set forth in these guidelines for the portfolio(s) they manage on behalf of the System (see Addendum A).

The Investment Consultant's Authority and Responsibilities

The Board of Trustees will hire an investment consultant to assist the Board of Trustees in fulfilling their fiduciary responsibilities and in fulfilling their responsibilities in accord with this Policy. The investment consultant will generally be responsible for the following:

- 1) Complying with applicable laws, regulations, and rulings.
- 2) Maintaining databases of qualified investment managers, custodians, securities lending providers, commission recapture agents, third party proxy voting service providers, and any other pertinent professionals that may assist in oversight of assets.
- 3) If needed, the investment consultant will assist the Board of Trustees with the search and selection of investment managers, custodians, securities lending providers, and third party proxy voting service providers.
- 4) Calculate investment performance and reconcile that performance with the investment managers.
- 5) Providing written reports that summarize the performance and analysis of the System's investments to the Board of Trustees no later than 45 days after of the end of each calendar quarter.
- 6) Monitoring and evaluating investment performance and compliance with this Policy. This includes meeting with the System's investment managers on a regular basis.
- 7) Make long-term assumptions on the capital markets for the purpose of evaluating the System's asset allocation policy.
- 8) Establishing and reviewing the appropriateness of the System's asset allocation policy.
- 9) Reviewing and suggesting changes, as needed, to this Policy.

The investment consultant retained by the Board of Trustees will exercise discretion within the parameters set forth in these guidelines on behalf of the System (see Addendum A).

The Custodian's Authority and Responsibilities

The Board of Trustees may utilize a third party custodian for the following:

- 1) hold and safeguard the assets of the System,
- 2) collect the interest, dividends, distributions, redemptions or other amounts due,
- 3) provide monthly reporting to all necessary parties,
- 4) forward any proxies to the investment manager, the client, or their designee,

- 5) sweep all interest and dividend payments and any other un-invested cash into a short-term money market fund for re-deployment, and
- 6) other duties as detailed in the respective custodial agreement

The custodian retained by the Board of Trustees will exercise discretion within the parameters set forth in these guidelines on behalf of the System (see Addendum A).

The Cash Equitization Manager's Authority and Responsibilities

The Board of Trustees may utilize a cash equitization manager to replicate the investment returns of the equity markets on the cash held in the equity managers portfolios. The cash equitization manager will purchase and sell futures contracts whose market value is based on the returns of specific equity markets. The notional value of the futures contracts will be closely equivalent to the aggregate cash holdings of all equity managers employed by the Board of Trustees. In addition, the Board may utilize a cash equitization manager to replicate the investment returns of the overall portfolio on the cash held in the margin account and/or checking accounts. These cash holdings will be monitored on a daily basis and futures contracts will be bought or sold accordingly (see Addendum A and B).

The Securities Lending Provider's Authority and Responsibilities

The Board of Trustees may utilize a securities lending provider to create income through the lending of the assets of the System. Securities lending providers will provide reports on a monthly basis to all necessary parties. The securities lending provider will be responsible for ensuring that adequate collateral will be provided to the System for the securities that are lent and that the interest rate generated by the securities lending program is fair and reasonable. Furthermore, the securities lending provider will attempt to return all lent securities to the System's appropriate account before any transactions on the lent securities are executed. The securities lending provider retained by the Board of Trustees will exercise discretion within the parameters set forth in these guidelines on behalf of the System (see Addendum A).

The Commission Re-capturing Agent's Authority and Responsibilities

The Board of Trustees may utilize a commission re-capturing agent to create income through the direction of brokerage. The commission re-capturing agent will execute all trades on a best

execution basis. Periodic reports detailing the commissions recaptured will be provided to the client and the investment consultant monthly. The commission re-capturing agent(s) retained by the Board of Trustees will exercise discretion within the parameters set forth in these guidelines on behalf of the System (see Addendum A).

The Third Party Proxy Voting Service Provider's Authority and Responsibilities

The Board of Trustees may utilize a third party proxy voting service provider to vote the proxies of the stocks held by the System in the best interest of the System. The third party proxy voting service provider retained by the Board of Trustees will exercise discretion within the parameters set forth in these guidelines on behalf of the System (see Addendum A). The service provider is required to provide annual written reports detailing the voting record specific for the System's assets.

Investment Objectives

Return Objectives

The primary return objectives of the System are to:

- (a) preserve the safety of principal,
- (b) earn the highest possible total return consistent with prudent levels of risk, and
- (c) create a stream of investment returns to insure the systematic and adequate funding of actuarially determined benefits through contributions and professional management of the System assets.

To achieve these goals, the System has been optimized to meet its actuarial assumed rate of return (see Addendum C). The performance objective for the System is to exceed, after investment management fees, a customized blended benchmark. To evaluate success, the Board of Trustees will compare the performance of the System to the actuarial assumed rate of return and the performance of a custom benchmark. This benchmark represents a passive implementation of the historical investment policy targets and it is re-balanced regularly.

Risk Tolerance

While achieving the return objectives, the System is able to tolerate certain levels of risk, which are:

- (a) to accept prudent levels of short and long-term volatility consistent with the near-term cash flow needs, funding level, and long-term liability structure of the System,
- (b) to tolerate appropriate levels of downside risk relative to the System's actuarial assumed rate of return (see Addendum C). In doing so, the Board of the Trustees will attempt to minimize the probability of underperforming the System's actuarial assumed rate of return over the long-term and to minimize the shortfall in the event such underperformance occurs,

- (c) to accept prudent variances in the asset allocation structure of the System relative to the broad financial markets and peer groups, and
- (d) to tolerate prudent levels of short-term underperformance by the System's investment managers.

Constraints on the Investment Objectives

The investment objectives of the System are constrained by Federal law, State law, Section 203 of the Cincinnati Municipal Code, time, taxes, and liquidity. The System has a long-term time horizon as the assets are used to pay qualified participant and disability benefits. The System is a tax-exempt entity, but can be subject to taxes involving unrelated business taxable income ("UBTI"). UBTI is income earned by a tax-exempt entity that does not result from tax-exempt activities. The liquidity needs of the System are to meet the regular cash flow requirements of the System.

Investment Philosophy

Fixed Income

The fixed income portion of the portfolio is intended to offset the volatility of equities, particularly during market downturns, as well as generate yield and provide deflation protection. The System's current fixed income investment philosophy is to allocate 41% to core plus fixed income (core investment grade bonds with the ability of the manager to add high yield and global bonds to the portfolio), 41% to flexible fixed income (an unconstrained mandate allowing the fixed income manager to allocate wherever they believe is optimal), and 18% to opportunistic fixed income (comprised mostly of non-investment grade bonds and loans). This approach allows the fixed income portfolio to provide higher yield (and therefore a higher expected return) than a core fixed income portfolio while also providing diversification to the rest of the portfolio.

U.S. Equity

U.S. equities are a source of long-term growth for the portfolio. The System's current U.S. equity investment philosophy is to allocate 43.5% to large cap stocks, 29% to mid cap stocks, and 27% to small cap stocks. Considering the overall U.S. public equity market is roughly 70% large cap, 20% mid cap, and 10% small cap, the System's allocation overweights small and mid cap and underweights large cap. Over the long run, small and mid cap stocks are expected to outperform large cap and therefore a strategic overweight is targeted. Further, because value stocks are expected to outperform growth stocks over the long-term (and this is more pronounced in small and mid caps), a value bias is also targeted, with 100% of small cap equities managed in a value style, 75% of mid cap managed in a value style, and 60% of large cap managed in a value style. Because of the efficiency of the U.S. equity market, the vast majority of the assets are passively managed. This also helps to lower management fees.

International Equities

International equities also provide long-term growth for the portfolio. Today nearly half of the world's public equity market capitalization is outside the U.S., and therefore, allocating to non-U.S. stocks reduces overall portfolio volatility, expands the universe of stocks and countries to invest, and potentially increases expected returns with higher risk emerging markets. The System's current investment philosophy is to allocate approximately 43% to developed large cap stocks, 22% to developed small cap stocks, and 35% to emerging markets (with 37.5% of the emerging markets exposure allocated to small caps). Emerging markets comprise approximately 20% of the non-U.S. public equity market capitalization, and therefore the System employs a considerable overweight in order to capture the higher expected returns. Just as in the U.S., small cap stocks are also overweighted.

Private Equity

The allocation to private equity is meant to capture outperformance of over 2 percentage points, net of fees, above the traditional equity portfolio. The System will utilize a Fund of Funds approach of multiple managers and allocate as evenly as possible among calendar years to properly diversify. Although private equity funds are illiquid and incur higher fees, the expected benefits of higher returns should outweigh these costs.

Real Estate

The allocation to real estate is meant to capture consistent yield in excess of fixed income, as well as provide some inflation protection and diversification from other asset classes. The System currently uses open-end core real estate funds to maintain maximum liquidity and minimum risk in the asset class.

Infrastructure

The allocation to infrastructure is meant to capture consistent yield in excess of fixed income as well as provide diversification from other asset classes. The System is moving to an open-end, core investment philosophy in infrastructure for maximum liquidity and minimum risk in the asset class.

Risk Parity

The allocation to risk parity is meant to add diversification to the overall portfolio and help stabilize overall volatility by targeting a 10% standard deviation. This mandate serves as a liquid and low cost approach to diversification and eliminates many of the issues with traditional hedge funds.

Asset Allocation and Re-Balancing Procedures

General Methods and Frequency of Evaluating the Asset Allocation

The Board of Trustees, with the assistance of the investment consultant, will review the target asset allocation of the System at least every three years. They will take into consideration

applicable statutes, the actuarial rate of return of the System, the long-term nature of the asset pool, the cash flow needs of the System, and the general asset allocation structure of their peers. They will make assumptions on the capital markets over the long-term and optimize the asset allocation to best meet the actuarial and cash flow needs of the System at a prudent level of risk.

Asset Allocation/Rebalancing

The minimum and maximum allocation range for each specific asset class is also shown in the table set forth below:

Asset Class	Target	Minimum*	Maximum*
Core Bonds	14.0%	12.0%	16.0%
High Yield Bonds	<u>3.0%</u>	1.0%	5.0%
Total Fixed Income	<u>17.0%</u>	13.0%	21.0%
Large-Cap Value Equity	7.0%	5.0%	9.0%
Large-Cap Growth Equity	5.0%	3.0%	7.0%
Mid-Cap Value Equity	4.0%	3.0%	5.0%
Mid-Cap Core Equity	4.0%	3.0%	5.0%
Small-Cap Value Equity	<u>7.5%</u>	5.5%	9.5%
Total Domestic Equity	<u>27.5%</u>	22.5%	32.5%
Non-U.S. Developed Large Cap	10.0%	8.0%	14.0%
Non-U.S. Small Cap	5.0%	3.0%	7.0%
Emerging Markets All-Cap	5.0%	3.0%	7.0%
EM Small-Cap	<u>3.0%</u>	1.0%	5.0%
Total Non-U.S. Equity	<u>23.0%</u>	18.0%	28.0%
Real Estate Core Equity	10.0%	7.0%	13.0%
Total Real Estate Equity	<u>10.0%</u>	7.0%	13.0%
Infrastructure	<u>7.5%</u>	4.5%	10.5%
Total Infrastructure	<u>7.5%</u>	4.5%	10.5%
Risk Parity	<u>5.0%</u>	2.5%	7.5%
Total Risk Parity	<u>5.0%</u>	2.5%	7.5%
Private Equity	<u>10.0%</u>	0.0%	14.0%
Total Private Equity	<u>10.0%</u>	0.0%	14.0%
TOTAL	<u>100.0%</u>		

*May not equal 100%

The Board of Trustees, with the assistance of the investment consultant, will review the asset allocation of the System on a regular basis and adjust the portfolio to comply with the guidelines above. The Board of Trustees anticipates that the on-going natural cash flow needs of the

System (contributions and withdrawals) will be sufficient to maintain the asset allocation of the System within policy guidelines under most market conditions.

Rebalancing shall occur, when necessary, to stay within the asset allocation ranges.

Investment Professional Selection, Communication, and Evaluation

Investment Manager Selection

No investment managers shall be hired who are a party in interest or who have not, by their record and experience, demonstrated their fiduciary responsibility, their investment expertise, their investment experience, and their capacity to undertake the mandate for which they are being considered. Investment manager candidates must be GIPS® compliant and have a track record of at least three years. (The GIPS® compliance and three-year track record requirements do not apply to managers of real estate, private equity, infrastructure, hedge funds, risk parity, and overlay managers.) The firm's GIPS® compliance must be audited at least every 4 years.

Investment managers are required to comply with the following:

- 1) Acknowledge in writing a fiduciary and investment manager relationship with respect to the System.
- 2) Be granted by the System the power to manage, acquire or dispose of any assets of the System pursuant to the System documents.

The System will establish this Policy for the investment managers and, with the assistance of the investment consultant, will conduct due diligence before the appointment of all investment managers.

Frequency of Measurement and Meetings

The Board of Trustees, with the assistance of the investment consultant, expects to measure investment performance quarterly.

Investment Manager Communication and Evaluation Terminology

The following terminology has been developed to facilitate efficient communication between the investment managers, investment consultant, and the System's staff. Each term signifies a particular status with the System and any conditions that may require improvement. In each case, communication is made only after consultation with the Board of Trustees.

<u>STATUS</u>	<u>DESCRIPTION</u>
A. <i>“In Compliance”</i>	The investment manager is acting in accordance with the Investment Policy Guidelines.
B. <i>“Alert”</i>	The investment manager is notified of a problem in performance (usually related to a benchmark or volatility measure), a change in investment characteristics, an alteration in management style or key investment professionals, and/or any other irregularities. The investment manager will be completing a monthly compliance checklist from the investment consultant to ensure thorough oversight.
C. <i>“On Notice”</i>	The investment manager is notified of continued concern with one or more Alert issues. Failure to improve upon stated issues within a specific time frame justifies termination. The investment manager will be completing a monthly compliance checklist from the investment consultant to ensure thorough oversight.
D. <i>“Termination”</i>	The program’s management has decided to terminate the investment manager. The investment manager is notified and transition plans are in place.

Operational Guidelines

Investment Policy Guidelines for the Core Plus Bond Manager(s)

This document contains the guidelines and restrictions that apply to the core plus bond investment manager(s) of the Pension Fund (see Addendum A).

Permissible Investments

1. No single issuer should comprise more than 5% of the market value of the portfolio, as determined at the time of purchase. The only exception is for securities issued by the U.S. Treasury, its agencies, instrumentalities or government sponsored entities (such as FNMA and FHLMC), and G-7 sovereigns.
2. Up to 20% of the market value of the portfolio may be invested in securities rated below investment grade. If the ratings assigned to a security by Standard & Poor's, Moody's, and/or Fitch are not the same, the highest rating of these rating agencies will be used. If an issue is not rated by any of these agencies, then the investment manager will determine a rating. If an investment grade security already held in the portfolio is downgraded to below investment and a breach of the 20% limit occurs, prompt client notification is required concerning intent to hold the issue going forward. The minimum average portfolio quality shall be A-.
3. At least 75% of the market value of the portfolio must be invested in U.S. dollar denominated securities, counting cash and cash equivalents toward this percentage, as determined at the time of purchase. Included in this limit are U.S. dollar denominated securities issued in the U.S. by foreign domiciled issuers and traded in U.S. markets. Non-U.S. dollar denominated bonds may be held up to 25% of the portfolio.
4. Effective aggregate currency exposure is limited to a maximum of 10% of portfolio market value. This includes direct currency exposure (long and short foreign currency positions held without owning securities denominated in such currencies).
5. Local currency emerging market debt (defined using the World Bank definition, which is based on GNP per capita) is limited to 10% of portfolio market value. Emerging market yankee bonds limited to 20% of portfolio market value.
6. In aggregate, investment in convertible, convertible preferred and preferred securities (including trust preferreds) may not exceed 25% of the market value of the portfolio, as determined at the time of purchase.
7. Common stock may only be held if it is acquired as a result of a financial restructuring, bankruptcy or from an exchange or conversion of a permissible security held in the portfolio. The investment manager will provide notification concerning the intent to hold the issue going forward.

8. The portfolio may invest up to 75% of the market value of the portfolio, as determined at the time of purchase, in securities issued pursuant to Rule 144(a), including those issued with and without registration rights.
9. Eligible derivatives include contracts to buy or sell futures on securities, indices, interest rates and currencies (“Futures”); structured notes; forward contracts for securities, indices, interest rates and currencies; credit default swaps (long and short) and swap contracts on indices, interest rates and currencies (“Swaps”); put and call options on securities, indices, interest rates, Futures, Swaps, and currencies (“Options”), foreign currency exchange contracts, and senior loans. Futures cannot be used to create economic leverage. Additionally, there is a 50% gross notional limit on futures.
10. Put and call options on exchange-traded options on Treasury Futures may be written if they are fully covered. Call options are considered covered if the manager owns an amount equal to the exercise cost in high-quality fixed income securities (A- rated or higher) with maturities that are comparable to the maturities in the deliverable basket for the Treasury futures contract. Put options are considered covered if cash equivalent assets in an amount equal to the exercise cost are maintained in the account. Investment managers may purchase back options on exchange-traded Treasury future contracts in order to close out positions. The aggregate value of each manager’s option positions shall not exceed 25% on an absolute basis of the account’s market value.
11. The average effective duration of the portfolio is not to vary more than +/-30% of the duration of the portfolio’s benchmark index.
12. The investment manager may hold up to 15% of its portfolio in cash and cash equivalents. The only exception to this rule is during trading activity associated with the initial start-up phase of the portfolio. The portfolio should be fully-invested and construction completed within 60 days of the start date. The investment manager is not responsible for investments made pursuant to any cash sweep arrangement with the custodian.
13. If any of the parameters described above are breached as a result of market movements, capital additions, or withdrawals, the investment manager shall have a reasonable period, not to exceed sixty (60) days, to bring the portfolio into compliance with the applicable investment guidelines. The investment manager must receive written permission to permit such a breach to continue past this 60-day window.
14. Eligible investments include public or private debt obligations issues or guaranteed by U.S. or foreign issuers, including but not limited to corporations, governments (including their agencies, instrumentalities and sponsored entities, partnerships and trusts (such obligations may be issued at fixed, variable, adjustable or zero coupon rates or convertible into equity securities); private debt obligations are limited to those issued pursuant to regulations S and Rule 144A; preferred, hybrid, mortgage-backed, commercial mortgage-backed or asset-backed securities issues by any of the above-names entities; senior loans; interests specified

under “Eligible Commingled Investments”; derivatives specified under “Eligible Derivatives” and cash equivalents specified under “Eligible Cash Equivalents.”

Investment Objective

Over reasonable measurement periods (3 to 5 years), the portfolio’s return net of fees should exceed the return of the appropriate benchmark index (see Addendum A).

Investment Policy Guidelines for the Separately-Managed, U.S. Equity Manager(s)

This document contains the guidelines and restrictions that apply to the separately-managed equity investment manager(s) of the System (see Addendum A).

Permissible Investments

1. The investment manager may hold up to 5% of its portfolio in a money market and/or cash. The only exception to this rule is during trading activity, which can only be maintained for very short time periods, i.e. less than 30 days.
2. Options, financial futures, private placements, restricted stock, issues related to the investment manager, or venture capital may not be purchased. The purchase of securities on margin and short selling is prohibited.
3. No investments should be made in securities not traded on an U.S. exchange or traded in U.S. dollars.
4. The combined holdings of preferred stocks and convertible bonds shall not exceed 5% of the portfolio.
5. No single security in the manager's portfolio, including Exchange Traded Funds, will comprise more than 10% of the portfolio at market.
6. Investments in Rule 144a securities are permitted if the securities have registration rights requiring the issuer to swap the securities for fully registered publicly traded bonds and if the investment is otherwise consistent with the above guidelines. The combined holdings of these investments may not exceed 10% of the portfolio's overall asset allocation.
7. At no point in time should the aggregate position (within each equity investment manager's portfolio in the System) in any company exceed 5% of the fair market value of the outstanding stock in the company.

Investment Objective

Over reasonable measurement periods (3 to 5 years), the portfolio's return net of fees should exceed the return of the appropriate benchmark index (see Addendum A).

Investment Policy Guidelines for the Separately-Managed, Non-U.S. Equity Manager(s)

This document contains the guidelines and restrictions that apply to the separately-managed non-U.S. equity investment manager(s) of the System (see Addendum A).

Permissible Investments

1. The investment manager may hold up to 5% of its portfolio in a money market and/or cash. The only exception to this rule is during trading activity, which can only be maintained for very short time periods, i.e. less than 30 days.
2. Options, financial futures, private placements, restricted stock, issues related to the investment manager, or venture capital may not be purchased. The purchase of securities on margin and short selling is prohibited.
3. The maximum investment in stocks trading on any U.S. exchange or traded in U.S. dollars, excluding ADRs, is 10% of the portfolio at market.
4. The combined holdings of preferred stocks and convertible bonds shall not exceed 5% of the portfolio.
5. No single security in the investment manager's portfolio, including Exchange Traded Funds, will comprise more than 10% of the portfolio at market.
6. Investments in Rule 144a securities are permitted if the securities trade on a recognized exchange; are fully fungible with securities traded on a recognized exchange; or will be, when seasoned, fully fungible with securities traded on a recognized exchange, provided that the investment is otherwise consistent with the other guidelines. The combined holdings of these investments may not exceed 10% of the portfolio's overall asset allocation.
7. At no point in time should the aggregate position (within each equity manager's portfolio in the System) in any company exceed 1.5% of the fair market value of the outstanding stock in the company.
8. Currency hedging for defensive purposes will be permitted. Forward currency contracts may be used to hedge currencies. This includes hedging back into the base currency. Cross currency hedging is permitted.
9. The combined holdings of non-EAFE countries, excluding Canada, stocks and convertible bonds shall not exceed 30% of the portfolio at market.
10. The combined holdings of Canada stocks and convertible bonds shall not exceed 15% of the portfolio at market.

Investment Objective

Over reasonable measurement periods (3 to 5 years), the portfolio's return net of fees should exceed the return of the appropriate benchmark index (see Addendum A).

Investment Policy Guidelines for Limited Partnership, Commingled Fund, Collective Trusts, Limited Liability Companies, Mutual Fund, and any other type of Commingled Fund Manager(s) (“Commingled Funds”)

This document contains the guidelines and restrictions that apply to all commingled fund investment manager(s) of the System (see Addendum A).

Permissible Investments

1. These funds are governed by the guidelines and restrictions contained in any of the following applicable documents: prospectus', subscription agreements, limited partnership agreements, and confidential information memorandums.

Investment Objective

Over reasonable measurement periods (3 to 5 years), the portfolio's return net of fees should exceed the return of the appropriate benchmark index (see Addendum A).

Investment Policy Guidelines for the Cash Equitization Manager

This document contains the guidelines and restrictions that apply to the cash equitization investment manager of the System (see Addendum A).

Permissible Investments

1. The cash equitization program is governed by Addendum B.

Investment Objective

The cash equitization program should maintain a futures program for unallocated cash and cash reserves in accordance with the guidelines set forth in Addendum B.

Investment Policy Modification and Revision

Policy Modification

The Board of Trustees, with the assistance of the investment consultant, will review this Policy annually. Key environmental or operational occurrences, which could result in a Policy modification, include:

- (1) significant changes in expected patterns of the System's liability stream,
- (2) impractical time horizons or changes,
- (3) change in the System's priorities,
- (4) convincing arguments for change presented by investment professionals,
- (5) legislation, and
- (6) areas found to be important, but not covered by the Policy.

Modification of Addendums

Changes to investment professionals, Board of Trustees, or plan information contained within Addendums A-D can and should be modified, as necessary, without a complete review by the Board of Trustees.

**Addendum A –
Defining the Investment Professionals and Benchmark Indexes**

<u>Asset Class</u>	<u>Investment Manager</u>	<u>Benchmark Index</u>

Addendum B – Cash Equitization Guidelines

The System will select the assets to be overlaid by Parametric’s PIOS program. Specifically, that portion shall consist of those funds designated by the System as cash reserves at its custodian as well as cash held from time to time by other investment managers for the System (the investment manager portfolio(s)).

The asset class allocation targets and associated benchmark indexes are as follows:

<u>Asset Class</u>	<u>Target %</u>	<u>Benchmark Index</u>
Domestic Equity	27.5%	S&P 500
International Equity – Dev.	15.0%	MSCI EAFE
International Equity – EM	8.0%	MSCI Emerging Markets
Fixed Income	17.0%	Barclays U.S. Aggregate
Real Estate	10.0%	NCREIF ODCE
Infrastructure	7.5%	LIBOR 4%
Risk Parity	5.0%	60% W5000/40% Bar. U.S.
Private Equity	<u>10.0%</u>	Cambridge All PE
Total	100.0%	

It is the System’s responsibility to establish and revise as necessary the asset class categories.

INVEST UNALLOCATED CASH COMPONENT OF CASH/MARGIN ACCOUNTS:

Unallocated cash will be synthetically invested as follows:

<u>Asset Class</u>	<u>Target %</u>	<u>Benchmark Index</u>
Domestic Equity	42.5%	S&P 500
International Equity – Dev.	15.0%	MSCI EAFE
International Equity – EM	8.0%	MSCI Emerging Markets
Fixed Income	34.5%	Barclays U.S. Aggregate

INVEST UNALLOCATED CASH COMPONENT OF EQUITY ACCOUNTS:

Unallocated cash will be synthetically invested as follows:

<u>Asset Class</u>	<u>Target %</u>	<u>Benchmark Index</u>
Domestic Equity	100.0%	S&P 500
International Equity	100.0%	MSCI EAFE
