Actuarial Value of Assets	1-907.03(a)(3)(D)	\$1,447.6	\$2,112.9	\$819.2	\$2,932.1	\$4,379.7

Actuarial Assumptions

The non-economic assumptions used for this valuation represent the actuary’s best estimates of the future experience for the plans. Upon review of recommended economic assumptions, the Board elected to choose an inflation assumption slightly more conservative than the actuary’s recommended rate.

 Gregory M. Stump, F.S.A., E.A.

1/16/2009

(Date)

Introduction

Executive Summary

This actuarial valuation of the District of Columbia Police Officers and Fire Fighters’ Retirement Fund and the District of Columbia Teachers’ Retirement Fund (the Funds) has produced an increase in required contributions between fiscal Year 2009 and fiscal Year 2010.

Table 1: Summary of Contributions

Contribution Date	Teachers’ Retirement Fund	Police Officers and Fire Fighters’ Retirement Fund	Total District Contribution
Fiscal Year 2009	\$0	\$106,000,000	\$106,000,000
Fiscal Year 2010	\$0	\$132,300,000	\$132,300,000

Table 2: Summary of Funding Ratios (Actuarial Value of Assets/Entry Age Actuarial Accrued Liability)

Contribution Date	Teachers’ Retirement Fund	Police Officers and Fire Fighters’ Retirement Fund	Total Fund
October 1, 2007	111.6%	101.0%	104.4%
October 1, 2008	108.2%	99.8%	102.4%

The contributions shown above reflect all required adjustments. The normal contribution rates (before adjustments under D.C. Code §1-907.02(c)) for FY 2010 are 0.0% for Teachers and 28.5% of payroll for Police Officers and Fire Fighters.

Purposes of the Report

This Report presents the results of the October 1, 2008 actuarial valuation of the D.C. Police Officers and Fire Fighters’ Retirement Fund and the D.C. Teachers’ Retirement Fund for the District of Columbia Retirement Board. The purposes of the actuarial valuation are:

- To determine the appropriate contribution to the Funds to be paid by the District in fiscal year 2010 in accordance with the Replacement Plan Act;
- To review the experience of the Funds over the past year and to discuss reasons for changes in the Funds costs;
- To identify and discuss any emerging trends in Fund costs;
- To present those items required for disclosure under Statements No. 25 and 27 of the Governmental Accounting Standards Board (GASB); and
- To determine the funded status of the Fund using the Entry Age Normal actuarial funding method.

District Contribution Rates

The total increase in contributions was the net result of several factors. Table 3 and Figures 1 through 3 below show incremental changes from fiscal year 2009 contribution rates to fiscal year 2010 rates.

Table 3: Change in District Contribution Rate from FY2009 to FY2010

	District Contribution Rate (% Payroll)		
	Teachers	Police	Fire
FY2009 Rate (before limitation)	(3.1%)	25.3%	26.6%
Change Due to:			
Demographic Experience	1.3%	(0.5%)	(0.1%)
Salary Experience	(2.3%)	(0.6%)	(2.1%)
New Entrants	0.5%	0.8%	0.7%
Investment Experience	3.0%	3.8%	2.6%
Assumption/Method Changes	(0.9%)	(0.3%)	0.9%
Total Change	1.6%	3.2%	2.0%
FY2010 Rate (before limit)	(1.5%)	28.5%	28.6%
FY2010 Rate (limited to no less than 0%)	0.0%	28.5%	28.6%

Figure 1: Teachers Contribution Rates (limited to no less than 0%)

Figure 2: Police Contribution Rates

Figure 3: Fire Contribution Rates

- Overall demographic experience produced a slight increase in the overall contribution rate.

Actual demographic experience (mortality, disabilities, terminations, and retirements occurring at rates other than expected) resulted in a small increase in the overall contribution rate.

- Salary experience produced a decrease in contribution rates.

The total salary for continuing active participants in all plans was lower than expected, on average, based on the prior year's demographic information and salary increase assumptions, causing a decrease in contribution rates.

- New entrants to the Plans produced an increase in the contribution rate.

New members continued to enter the Plans during the year. There were more than 500 new entrants and rehired members between the three groups. Since the District's contribution rate for new entrants is greater than the contribution rate for continuing plan members, the contribution rate increased.

- Investment returns caused an increase in contribution rates.

The actuarially-determined rate of return on the value of Funds' assets was 4.6% during fiscal Year 2008, the net result of lower than expected market returns and recognition of past gains. The lower than expected asset value of the Fund caused an increase in the fiscal year 2010 contribution rates. This was the most significant factor impacting the contribution rates.

- Changes in actuarial assumptions and methods resulted in an increase in the contribution rate.

The Board elected to reduce the assumed rate of return on investments from 7.5% to 7.0% per year, and the rate of expected inflation from 5.0% to 4.25% per year. The combination of these two changes resulted in an increase in contribution rates of about 1.2% of total pay (all groups).

The number of years of asset smoothing was increased from three to seven years, allowing for a more stable contribution pattern in the future. This change resulted in a 1.2% of total pay decrease in the contribution rate.

The combined impact of the assumption changes and method change was a slight decrease in contributions.

History of Contributions

Figure 4 below shows a history of District contributions to the Funds since 2003.

Figure 4: Historical Contribution Amounts

We can see from the graph that contributions increased steadily from 2003 through 2007 (based on valuations from 2001 through 2005). This is due partly to the normal increase expected due to the annual growth in payroll; however, this would not normally cause such a substantial increase in contributions. Payroll increased by about 15% over this time period, while contributions doubled. One of the primary drivers of this rapid increase was the poor investment returns experienced by the DC Plans as well as most other U.S. pension plans from 2000 to 2002. Asset smoothing caused the effects of these poor returns to be realized over an extended period of time. Favorable experience, including investment returns, decreased the total contributions to the Funds from 2007 to 2009; however, losses during 2008 caused an increase.

As of October 1, 2008, there were about \$645 million in unrecognized investment losses, which will be recognized over the next six years. The period of asset smoothing was increased from 3 years to 7 years as of October 1, 2008, to allow for a more stable pattern of contributions.

Conclusion and Additional Information

The contribution rates developed in this valuation are not necessarily representative of future contribution rates. Rates may increase or decrease due to experience of the Plans, changes in assumptions or Plan provisions, or changes in actuarial cost methods.

Data for this study was collected as of June 30, 2008, three months before the valuation date. Demographic experience from July 1 through September 30, 2008 is therefore not reflected herein, but will be recognized during the next valuation. We have determined that this does not have a material impact on fiscal year 2010 contribution rates.

Statement Number 50 of the Governmental Accounting Standards Board (GASB) requires disclosure by governments that use the Aggregate actuarial cost method of the funded status and the presentation of a multiyear schedule of funding progress using the Entry Age Normal actuarial cost method as a surrogate. This is because the Aggregate method does not explicitly define an accrued liability. Accordingly, a determination of the funding ratios using the Entry Age Normal actuarial cost method for each plan has been included within this report. The actuarial assumptions (demographic and economic) used for these calculations are the same as were used to determine the required contributions.

The Board has also adopted the Entry Age Normal method as a funding basis, pending legislative approval. This would cause a change in the way the contribution rates are developed, resulting in a rate that is higher or lower than the rate under the Aggregate method in any given year. This is because under Entry Age Normal, the normal cost (annual benefit cost) is explicitly defined, and amortization period(s) and method would be determined based on the goals and policies of the Board. Either cost method will result in fully funding future benefit payments, so the year to year differences are expected to balance out in the long term.

This report has been prepared using generally accepted actuarial methods. If there are any questions about this report, please feel free to contact us.

Respectfully submitted,

Gregory M. Stump, FSA

Graham A. Schmidt, ASA

Section 1:

Summary of Fund Provisions, Member Statistics, and Actuarial Assumptions

1.1: Brief Outline of Fund Provisions

District of Columbia Retirement Program for Teachers

Membership

Eligibility

Permanent, temporary, and probationary teachers for the District of Columbia public day schools become members automatically on their date of employment. Other employees covered by the Retirement of Public School Teachers Act – including librarians, principals, and counselors – also become members on their date of employment. Substitute teachers and employees of the Department of School Attendance and Work Permits are not covered. Some former D.C. teachers working at charter schools are eligible to remain in the Program.

Member Contributions

Members hired before November 1, 1996 are required to contribute 7% of annual pay. Members hired on or after November 1, 1996 contribute 8% of annual pay.

Members can also make voluntary post-tax contributions of up to 10% of annual pay towards an annuity in addition to any vested pension.

Interest is not credited to each Member's accumulated contributions.

Service

School Service

One year of school service is granted for each year of employment with the D.C. public day schools.

Credited Service

Service granted or purchased in addition to school service.

Average Pay

Average Pay is equal to the highest 36 consecutive months of pay, divided by three.

Voluntary Retirement

Eligibility

For participants hired before November 1, 1996:

- Age 62 with 5 years of school service;
- Age 60 with 20 years of total service, including 5 years of school service; or
- Age 55 with 30 years of total service, including 5 years of school service.

For participants hired on or after November 1, 1996:

- Age 62 with 5 years of school service;

- Age 60 with 20 years of total service, including 5 years of school service; or
- Any age with 30 years of total service, including 5 years of school service.

Benefit Amount

For participants hired before November 1, 1996:

- 1.5% of Average Pay times service up to 5 years, plus
- 1.75% of Average Pay times service between 5 and 10 years, plus
- 2.0% of Average Pay times service over 10 years.

For participants hired on or after November 1, 1996:

- 2.0% of Average Pay times service.

For all participants, there is a minimum benefit of 1.0% of Average Pay plus \$25 for each year of service

Involuntary Retirement

Eligibility

Retired involuntarily for reasons other than misconduct or delinquency with:

- 25 years of total service, including 5 years of school service; or
- Age 50 with 20 years of total service, including 5 years of school service.

Benefit Amount

Voluntary Retirement benefit reduced 1/6% per month (2% per year) that date of retirement precedes age 55.

Disability Retirement Benefit

Eligibility

5 years of school service and a physical or mental disability that prevents the member from performing his/her job.

Benefit Amount

Voluntary Retirement benefit subject to a minimum of the lesser of 40% of Average Pay and the benefit that the member would receive projecting service to age 60.

Lump Sum Death Benefit

Eligibility

Death before completion of 18 months of school service or death without an eligible spouse, child, or parent.

Benefit Amount

Refund of Member contributions, without interest.

Installment Benefit Payable upon Death – Spouse Only

Eligibility

Death before retirement and married for at least two years or have a child by the marriage.

Benefit Amount

55% of the Voluntary Retirement benefit subject to the minimums specified in the Disability Retirement Benefit.

Installment Benefit Payable upon Death – Spouse and Dependent Children

Eligibility

For the spouse, as described above; for the children, unmarried and under 18, 22 if full-time student, or any child dependent because of a disability incurred before age 18. Death does not have to occur before retirement for the children's benefits.

Benefit Amount

Spouse benefit as described above, plus a benefit per child (payable until the children are no longer eligible) equal to the smallest of:

- 60% of Average Pay divided by the number of eligible children;
- \$5,772* (if hired before January 1, 1980), \$5,580* (if hired between January 1, 1980 and October 31, 1996), or \$5,532* (if hired on or after November 1, 1996) per child; or
- \$17,316* (if hired before January 1, 1980), \$16,740* (if hired between January 1, 1980 and October 31, 1996), or \$16,596* (if hired on or after November 1, 1996) divided by the number of children.

Installment Benefit Payable upon Death – Dependent Children Only

Eligibility

Same as the children's benefit above.

Benefit Amount

Per child (payable until the children are no longer eligible), the smallest of:

- 75% of Average Pay divided by the number of eligible children;
- \$7,044* (if hired before January 1, 1980), \$6,792* (if hired between January 1, 1980 and October 31, 1996), or \$6,708* (if hired on or after November 1, 1996) per child; or
- \$21,132* (if hired before January 1, 1980), \$20,376* (if hired between January 1, 1980 and October 31, 1996), or \$20,124* (if hired on or after November 1, 1996) divided by the number of children

Installment Benefit Payable upon Death – Surviving Parents Only

Eligibility

Death before retirement and no eligible spouse or children, and parents receive at least one-half of their total income from member.

Benefit Amount

Spouse benefit as described above.

Deferred Vested Benefit

Eligibility

5 years of school service.

Benefit Amount

Voluntary Retirement Benefit beginning at age 62.

Form of Payment Options

Normal Form of Payment

Unreduced Annuity.

Reduced Annuity with a Maximum Survivor Annuity (to Spouse)

The original benefit is reduced by 2.5% of annual pension up to \$3,600, plus 10% of any amount over \$3,600. Spouse will receive 55% of Unreduced Annuity.

Reduced Annuity with a Partial Survivor Annuity (to Spouse)

An annuity with a benefit payable to the spouse of between \$1 up to any amount less than 55% of the Unreduced Annuity. The original benefit is reduced by dividing the amount of the survivor's annuity by 55%, then reducing the original benefit by 2.5% of this amount up to \$3,600, plus 10% of any amount over \$3,600.

Reduced Annuity with a Survivor Annuity to a Person with an Insurable Interest

A joint and 55% survivor annuity with the original benefit reduced 10% plus an additional 5% for each full 5 years, up to 25 years, the survivor is younger, with a total reduction of 40% for any survivor who is 25 or more years younger.

Reduced Annuity with a Life Benefit

Benefits may be reduced and the reduction is used to purchase life insurance.

Cost-of-Living Adjustments

All participants receive an increase each March based on the annual change in the Consumer Price Index (all items – U.S. City average) from December to December. The annual increase is limited to 3.0% for members hired on or after November 1, 1996.

* Survivor benefit amounts are as of March, 2007, and are subject to annual inflation adjustments.

Retirement Program for District of Columbia Police Officers and Fire Fighters

Membership

Eligibility

All police officers and firefighters of the District of Columbia automatically become members on their date of employment. Police Cadets are not eligible.

Member Contributions

Members hired before November 10, 1996 are required to contribute 7% of annual salary, including any differential for special assignment, but excluding overtime, longevity, holiday, or military pay. Members hired on or after November 10, 1996 contribute 8% of annual salary, including any differential for special assignment, but excluding overtime, holiday, or military pay.

Interest is not credited to each member's accumulated contributions.

Service

Departmental Service

Each full year and additional months of employment with either the Metropolitan Police Force or the D.C. Fire Department.

Credited Service

Service granted or purchased in addition to departmental service.

Average Pay

For those hired before February 15, 1980, basic pay for the highest 12 consecutive months. For those hired on or after February 15, 1980, basic pay for the highest 36 consecutive months divided by three.

Longevity Pay (Police Only)

Members who complete 25 years of active service prior to retirement are entitled to an additional 15% of their basic compensation. Members who complete 30 years of active service are entitled to an additional 20% of their basic pay.

Normal Retirement Benefit

Eligibility

For participants hired before November 10, 1996:

- Age 60; or
- Age 50 with 25 years of departmental service; or
- No age requirement with 20 years of service (only if hired before February 15, 1980.)

For participants hired on or after November 10, 1996:

- Age 60; or
- No age requirement with 25 years of service.

Benefit Amount

For participants hired before November 10, 1996:

- 2.5% of Average Pay times departmental service up to 25 years (20 years if hired before February 15, 1980), plus
- 3.0% of Average Pay times departmental service over 25 (or 20) years, plus
- 2.5% of Average Pay times credited service.

For participants hired on or after November 10, 1996:

- 2.5% of Average Pay times total service.

For all participants, there is a maximum benefit of 80% of Average Pay.

Service-Related Disability Retirement Benefit

Eligibility

Disabled as a result of an illness or injury in the line of duty.

Benefit Amount

For participants hired before February 15, 1980, 2.5% of Average Pay times total years of service, subject to a minimum benefit of 66-2/3% of Average Pay and subject to a maximum benefit of 70% of Average Pay.

For participants hired on or after February 15, 1980, 70% of final pay times percentage of disability, subject to a minimum benefit of 40% of final pay.

Non-Service-Related Disability Retirement Benefit

Eligibility

5 years of departmental service and a physical or mental disability that prevents the member from performing his/her job.

Benefit Amount

For participants hired before February 15, 1980, 2.0% of Average Pay times total years of service, subject to a minimum benefit of 40% of average pay and subject to a maximum benefit of 70% of average pay.

For participants hired on or after February 15, 1980, 70% of final pay times percentage of disability, subject to a minimum benefit of 30% of final pay.

Lump Sum Death Benefit

Eligibility

Death occurring in the line of duty, not resulting from willful misconduct, an intention to bring about his/her own death, or drunkenness.

Benefit Amount

\$50,000.

Installment Benefit Payable upon Death – Spouse Only, Member Killed Not in Line of Duty after December 29, 1993

Eligibility

Death and, if retired, married for at least one year or have a child by the marriage.

Benefit Amount

40% of the greater of Average Pay and the salary for step 6 salary class 1 of the D.C. Police and Fireman's Salary Act in effect, adjusted for cost-of-living increases if death occurs after retirement. The benefit cannot exceed the rate of pay at death (or retirement if death occurs after retirement.)

Installment Benefit Payable upon Death – Spouse Only, Member Killed in Line of Duty after December 29, 1993

Eligibility

Death (killed in line of duty).

Benefit Amount

100% of final pay.

Installment Benefit Payable upon Death – Spouse and Dependent Children

Eligibility

For the spouse, as described above; for the children, unmarried and under 18, 22 if full-time student, or any child dependent because of a disability incurred before age 18. Death does not have to occur before retirement for the children's benefits.

Benefit Amount

Spouse benefit as described above, plus, provided death does not occur in the line of duty, a benefit per child (payable until the children are no longer eligible) equal to the smallest of:

- 60% of Average Pay divided by the number of eligible children;
- \$3,396*; or
- \$10,188* divided by the number of children

Installment Benefit Payable upon Death – Dependent Children Only

Eligibility

Same as the children's benefit above.

Benefit Amount

Per child, 75% of Average Pay divided by the number of eligible children, adjusted for cost-of-living increases.

Refund of Contributions

Eligibility

Death before retirement and no eligible spouse or children.

Benefit Amount

All Member contributions will be refunded to a named, or statutorily-designated if none named, beneficiary.

Deferred Vested Benefit

Eligibility

5 years of departmental service.

Benefit Amount

Normal Retirement Benefit beginning at age 55.

Form of Payment Options

Normal Form of Payment

Single Life Annuity.

Additional Survivor Benefit

The original benefit is reduced 10%. This 10% amount is reduced by 5% for each full 5 years the survivor is younger (but not more than 40%) and is added to the survivor's benefit.

Cost-of-Living Adjustments

Employees (not beneficiaries) who retired prior to February 15, 1980, receive equalization pay, which is defined as the percentage increase as active employees' salary increases.

All other retired participants and their survivors receive an increase each March based on the annual change in the Consumer Price Index (All Urban Consumers) from December to December. The annual increase is limited to a maximum of 3% for members hired on or after November 10, 1996.

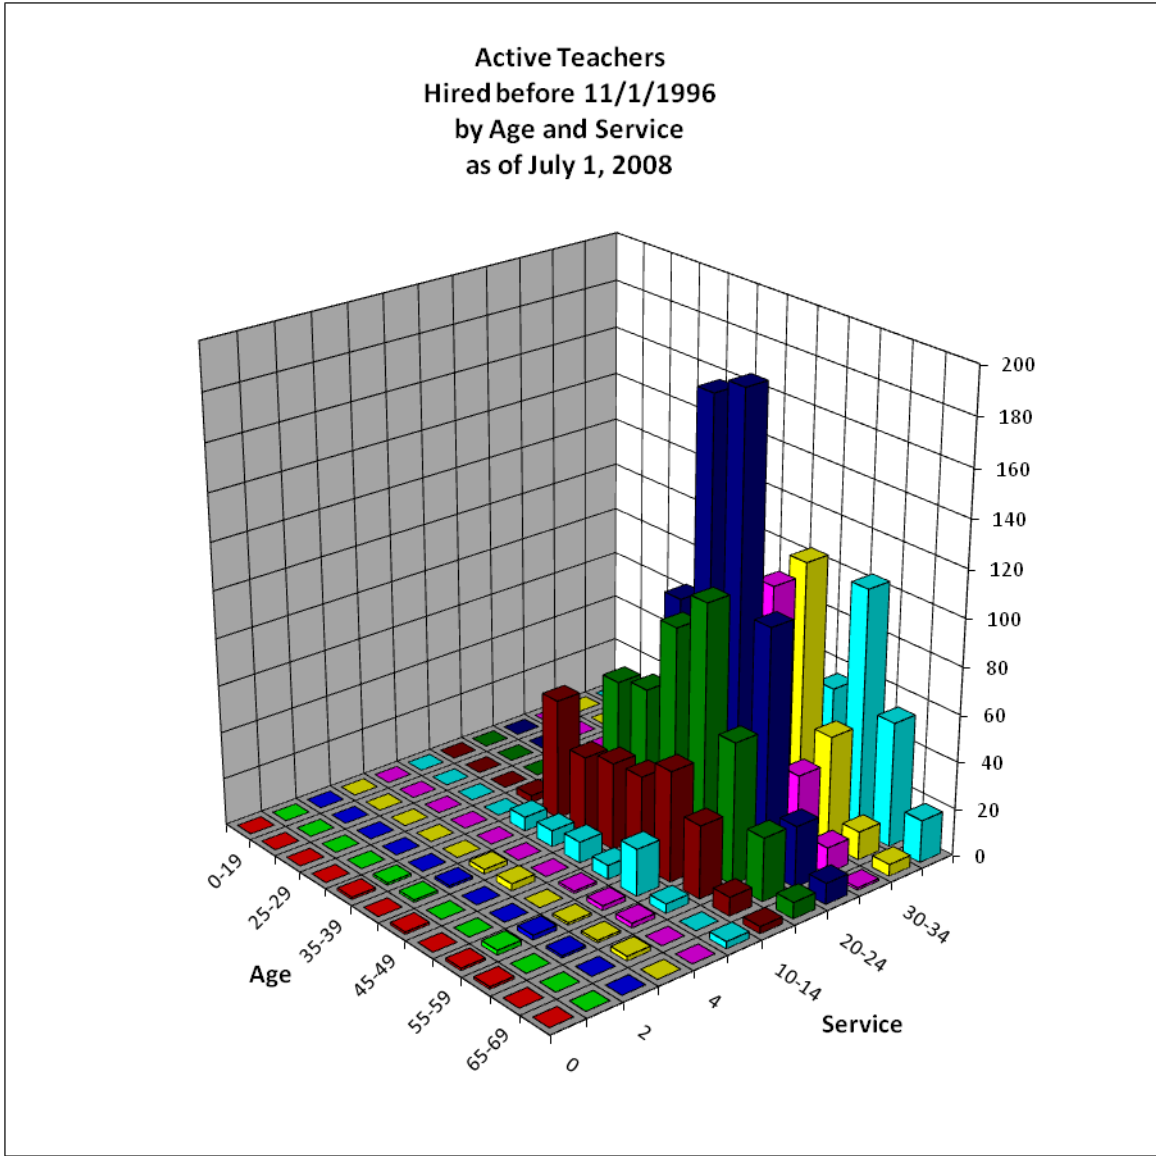

* Survivor benefit amounts are as of March, 2007, and are subject to annual inflation adjustments.

1.3: Actuarial Methods and Assumptions

Actuarial Funding Method

The funding method required by the Replacement Plan Act is commonly known as the Aggregate funding method. Under this method, the District must contribute the level percent of pay that – combined with the actuarial value of assets, expected investment earnings, and future employee contributions – will pay for the benefits of the current participants by the time the current workforce leaves employment.

Actuarial Assumptions

The demographic assumptions used for this valuation were developed during the experience study which covered the period from October 1, 2002 through September 30, 2006.

Valuation Date	All assets and liabilities are computed as of October 1, 2008. Demographic information was collected as of June 30, 2008.
Rate of Return	The annual rate of return on all Fund assets is assumed to be 7.00%, net of all expenses. For the prior valuation, the assumed return was 7.50%, net of expenses.
Cost of Living	The cost of living as measured by the Consumer Price Index (CPI) will increase at the rate of 4.25% per year ¹ . For the prior valuation, the rate was assumed to be 5.0%.
Increases in Pay	Assumed pay increases for active Members consist of increases due to cost of living adjustments and promotion and increases due to longevity and retention incentives. Cost of living increases are assumed to result in a general wage increase of 4.75% for all employees. Sample rates for the increases due to promotions are given in the table below.

Service	Teachers	Police	Fire
0	4.0%	5.0%	2.5%
5	4.0%	3.6%	2.5%
10	3.0%	2.6%	2.5%
15	0.5%	2.3%	2.5%
20	0.2%	2.5%	2.5%
30	0.2%	0.5%	2.5%

¹ The Board elected to use an inflation assumption that is slightly more conservative than the actuary's recommendation.

Increases in Pay

Allowances have also been made for special increases in Compensation prior to termination or retirement. For Police Officers, an additional increase of 5% is given for the Base Retention Differential after 20 years of service. Police Officers are assumed to receive a longevity increase of 5% of step 1 pay after 15 years of service, and additional increases of 5% after 20, 25, and 30 years of service. Longevity pay increases are not included in Officers pensionable compensation unless the Member has at least 25 years of service. Fire Fighters are assumed to receive retention incentives of 5%, 10%, 15%, and 20% applied to individual base pay after 15, 20, 25, and 30 years of service, respectively.

Active and Retiree Mortality

Rates of mortality for retired Teachers are given by the 1994 Uninsured Pension (UP94) Tables (sex distinct) with generational improvement using Projection Scale AA, projected to the valuation date.

Rates of mortality for retired Police Officers and Fire Fighters are given by the 1994 Uninsured Pension (UP94) Tables (sex distinct) with generational improvement using Projection Scale AA, with a two-year age set forward for retirees and a three-year age set forward for active members.

Disabled Member Mortality

Rates of mortality among disabled Members are specified for male and female members; separate tables are used for Teachers and for Public Safety disabled members. Sample rates are as follows:

Age	Teachers		Police/Fire	
	Male	Female	Male	Female
30	2.4000%	2.4000%	0.9033%	0.5616%
40	2.4000%	2.4000%	0.9033%	0.5616%
50	2.4545%	2.4000%	0.9033%	0.5616%
60	2.5910%	2.4000%	1.3029%	0.8310%
70	3.8006%	2.4000%	2.6405%	1.7147%
80	7.2111%	4.1413%	6.4974%	4.2282%
90	13.1554%	10.0013%	15.6801%	12.2128%

Service Retirement

Retirement is assumed to occur in accordance with the tables below.

Age	Teachers	
	Normal Retirement	Involuntary Retirement
50 -54	10%	0.5%
55	35%	8%
56-59	25%	8%
60-62	25%	N/A
63-70	20%	N/A
71-74	25%	N/A
75+	100%	N/A

Age	Police	Service	Fire
40-49	15%	25-29	12%
50-59	22%	30-34	25%
60+	100%	35+	35% until age 60, then 100%

It is assumed that 50% of Police members will retire after 31 years of service.

Disability

Separate rates of disability are assumed among Teachers, Police Officers and Fire Fighters. For Police Officers and Fire Fighters, it is assumed that 75% of the disabilities are due to accidents in the line of duty. Below are sample rates:

Age	Police		Fire	Teachers
	Male	Female		
25	0.2192%	0.4383%	0.1447%	0.0300%
30	0.2875%	0.5750%	0.1898%	0.0572%
35	0.4250%	0.8500%	0.2805%	0.0932%
40	0.6250%	1.2500%	0.4125%	0.1292%
45	0.9817%	1.9633%	0.6479%	0.2040%
50	1.6250%	3.2500%	1.0725%	0.3212%
55	2.8875%	5.7750%	1.9058%	0.5520%
60	4.1250%	8.2500%	2.7225%	0.5700%

For all Police Officer and Fire Fighter disabilities, the “% of disability” is assumed to be 100%.

Withdrawal

Separate rates of withdrawal are assumed among Teachers, Police Officers, and Fire Fighters. Withdrawal rates are not applied to Members eligible for service retirement.

Age	Police			
	<3 Years Service Male	<3 Years Service Female	3+ Years Service Male	3+ Years Service Female
20-29	10.0%	8.0%	6.00%	2.50%
30-34	10.0%	8.0%	3.50%	2.00%
35-39	10.0%	8.0%	2.00%	2.00%
40-44	10.0%	8.0%	1.75%	1.75%
45-49	10.0%	8.0%	1.50%	1.50%
50-54	10.0%	8.0%	1.25%	1.25%
55-59	10.0%	8.0%	1.00%	1.00%
60+	10.0%	8.0%	0.00%	0.00%

Age	Fire	
	<2 Years Service	2+ Years Service
20-24	9.0%	2.80%
25-29	9.0%	1.87%
30-34	9.0%	1.24%
35-39	9.0%	0.83%
40-44	9.0%	0.55%
45-49	9.0%	0.37%
50-54	9.0%	0.25%
55+	9.0%	0.00%

Age	Teachers		
	0-3 Years Service	4-9 Years Service	10+ Years Service
20-24	25.00%	18.00%	N/A
25-29	23.50%	16.00%	N/A
30-34	22.00%	14.00%	3.50%
35-39	20.50%	12.00%	3.50%
40-44	19.00%	10.00%	3.50%
45-49	17.50%	8.00%	3.50%
50-54	16.00%	8.00%	3.50%
55-59	14.50%	8.00%	3.50%
60-64	13.00%	8.00%	3.50%
65+	0.00%	0.00%	0.00%

For all members with less than 5 years of service, terminations are assumed to result in the withdrawal of contributions, with no further benefits payable. For those terminated with at least 5 years of service, 20% of Police/Fire members and 65% of Teachers are assumed to receive a deferred vested benefit, with the remaining members assumed to receive a refund of accumulated contributions.

Family Composition

64% of Teachers and 80% of Police Officers and Fire Fighters are assumed to be married. Male spouses are assumed to be three years older than their wives. Active employees are assumed to have one dependent child aged 10.

To value the pre-retirement death benefit for Police Officers and Fire Fighters, the benefit form for all retirements (normal or disabled) is assumed to be a 67.8% Joint and Survivor annuity for all participants (based on 40% of average pay survivor benefits). One-fourth of all Police Officer and Fire Fighter active deaths are assumed to occur in the line of duty.

Actuarial Value of Plan Assets

The actuarial value of District assets is a modified market-related value. The actuarial value of assets method approved by the Board is defined as the expected actuarial value of assets (assuming the Plan's actuarial rate of return) plus 1/7 of the difference between the expected actuarial value and actual market value of assets. Previously, this fraction was 1/3. There is then a final adjustment made for the effect of the adjustment pursuant to D.C. Code §1-907.02(c). This adjustment is explained and developed in Section 3.5.

The detailed calculation of the actuarial value of District assets is shown in Section 2.2.

Participant Data

Data on active and inactive Members and their beneficiaries as of the valuation date was supplied by the D.C. Office of Pay and Retirement Services and the U.S. Department of the Treasury, on electronic media. As is usual in studies of this type, Member data was neither verified nor audited, but was reviewed for reasonableness.

Certain assumptions were made with respect to information provided by the District of Columbia:

- Data for charter school teachers with Plan benefits is not available. To account for this group, active liabilities and payroll were increased by 1.5%
- The data is incomplete with respect to former members who have a deferred vested benefit. Thus, benefits for these individuals are estimated based on their service and pay history as available.
- Benefit Service has been determined based on employee contribution history.
- Benefit Splits between Federal and District have been estimated for terminated vested participants with missing benefit amounts based on employee contribution history.
- It is assumed that all Fire and Police members with prior military service will purchase this service. To account for this, an average amount of prior service of 0.4 years based on a prior study is assumed for all Police and Fire members which determined this to be the average amount of military service for Plan members.

Section 2:
Asset Information

2.1: Current Value of District Assets as of October 1, 2008

The allocation of benefit payments and investment income between police and fire are approximations based on the most recent information available from the District of Columbia and the D.C. Retirement Board.

	\$ millions	Teachers	Police	Fire	Police & Fire	Total Fund
(1)	Current Value of Assets as of October 1, 2007 ¹	\$1,519.4	\$2,060.6	\$796.6	\$2,857.2	\$4,376.6
(2)	FY 2008 District Contributions	\$6.0	\$103.2	\$33.8	\$ 137.0	\$ 143.0
(3)	FY 2008 Employee Contributions	\$26.0	\$23.5	\$8.3	\$ 31.8	\$ 57.8
(4)	FY 2008 Actual Benefit Payments	\$(45.1)	\$(30.0)	\$(6.0)	\$(36.0)	\$(81.1)
(5)	FY 2008 Investment Earnings	\$(252.8)	\$(366.6)	\$(142.2)	\$(508.8)	\$(761.6)
(6)	Actual Current Value of Assets as of October 1, 2008	\$1,253.5	\$1,790.7	\$690.5	\$2,481.2	\$3,734.7
(7)	Benefits Payable for FY 2008	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0
(8)	Present Value of D.C. Code §1-908 Adjustment	\$(0.3)	\$1.5	\$3.4	\$4.9	\$4.6
(9)	Final Current Value of Assets as of October 1, 2008	\$1,253.2	\$1,792.2	\$693.9	\$2,486.1	\$3,739.3
(10)	Approximate Rate of Return					(17.5%)

¹ The current value of assets as of October 1, 2007 was equal to the market value less estimated benefits payable of \$15.6 million for the Teachers, \$9.9 million for the Police Officers, and \$3.1 million for the Fire Fighters.

2.2: Actuarial Value of District Assets as of October 1, 2008

The current actuarial value of assets method approved by the Board is the expected actuarial value of assets plus one-seventh of the difference between the expected actuarial value and actual current value of assets. The actuarial value of assets can be no greater than 120% and no less than 80% of the market value. In prior years, this adjustment was one-third of the difference. There is then a final adjustment made for the effect of the adjustment pursuant to D.C. Code §1-908.

	\$ millions	Teachers	Police	Fire	Police & Fire	Total Fund
(1)	Actuarial Value of Assets as of October 1, 2007	\$1,396.0	\$1,926.8	\$746.1	\$2,672.9	\$4,068.9

3.4: Accrued Liabilities under the Entry Age Normal Method

The Governmental Accounting Standards Board (GASB) has recently announced issuance of Statement No. 50, which amends Statements 25 and 27. The revisions require that plan sponsors that use the aggregate actuarial cost method disclose the funded status and present a multiyear schedule of funding progress using the entry age actuarial cost method as a surrogate. This is because the Aggregate method does not explicitly define an accrued liability.

The table below shows the present value of the future District benefits, as well as the value of the District benefits accrued based on past service computed under the Entry Age Normal method, which assigns total liabilities to past service (accrued liabilities), current service (normal cost), and future service (future normal costs). The actuarial assumptions (demographic and economic) used for the calculations in the table below are the same as were used to determine the required contributions. These assumptions are described in detail in Section 1.3, and summarized in Section 4.1 of this report.

Present Value of Future District Benefits as of October 1, 2008					
	(\$ millions)	Teachers	Police	Fire	Total
Active Present Value of Future District Benefits		\$1,177.1	\$2,983.6	\$1,345.1	\$5,505.8
Inactive Present Value of Future District Benefits					
Retirees		362.9	167.2	91.9	622.0
Disabled Employees		22.8	122.2	19.0	164.0
Beneficiaries		4.8	14.6	5.8	25.2
<u>Terminated</u>		<u>32.3</u>	<u>6.6</u>	<u>1.4</u>	<u>40.3</u>
Total Inactive		422.8	310.6	118.1	851.5
Total Present Value of Future District Benefits		\$1,599.9	\$3,294.2	\$1,463.2	\$6,357.3
Accrued Liabilities for District Benefits as of October 1, 2008					
Active Accrued Liability		\$915.2	\$1,858.8	\$651.3	\$3,425.3
<u>Inactive Accrued Liability</u>		<u>422.8</u>	<u>310.6</u>	<u>118.1</u>	<u>851.5</u>
Total Accrued Liability (AL)		\$ 1,338.0	\$2,169.4	\$ 769.4	\$4,276.8
Actuarial Value of Assets (AVA)		\$1,447.6	\$2,112.9	\$819.2	\$4,379.7
Market Value of Assets (MVA)		\$1,253.5	\$1,790.7	\$690.5	\$3,734.7
AVA Funding Ratio (AVA/AL)		108.2%	97.4%	106.5%	102.4%
MVA Funding Ratio (MVA/AL)		93.7%	82.5%	89.7%	87.3%

3.5: §1-907.02(c) Adjustment to the Fiscal Year 2010 District Payment

Beginning in fiscal year 2001, the District payment was adjusted pursuant to D.C. Code §1-907.02(c). This section stipulates that "... the enrolled actuary shall determine whether the amount appropriated for the applicable fiscal year resulted in an overpayment or a shortfall based upon the actual covered payroll."

The D.C. Code §1-907.02(c) adjustment to the fiscal year 2010 District payment is calculated by taking the actual fiscal year 2008 covered payroll for each employee class (which is provided by the District) and multiplying by the corresponding fiscal year 2008 normal contribution rates, which were determined as of October 1, 2006. This result is the fiscal year 2008 contribution that was required to be made by the District, based on actual payroll. The required contribution is then compared to the actual contribution that was paid by the District based on projected payroll. The difference between the required and actual contributions is the D.C. Code §1-907.02(c) adjustment. Any adjustment amount that cannot be used in a given year is carried forward to the next fiscal year.

	\$ millions	Teachers	Police	Fire
(1)	Actual FY 2008 Covered Payroll	\$327.3	\$274.6	\$111.3
(2)	FY 2008 Normal Contribution Rate	2.4%	37.7%	31.5%
(3)	Actual FY 2008 Contribution Required	\$7.9	\$103.5	\$35.1
(4)	Actual FY 2008 Contribution Paid	\$8.1	\$99.2	\$33.2
(5)	Preliminary D.C. Code §1-907.02(c) Adjustment to FY 2009 Payment [(3) – (4)]	\$(0.2)	\$4.3	\$1.9
(6)	FY 2007 Unrecognized Amount	\$(0.1)	\$0.0	\$0.0
(7)	Final D.C. Code §1-907.02(c) Adjustment to FY 2010 Payment [(5) + (6) if applicable]	\$(0.3)	\$4.3	\$1.9
(8)	Applicable Adjustment	\$ 0.0	\$4.3	\$1.9
(9)	Carryover Adjustment [(7)-(8)]	\$(0.3)	\$0.0	\$0.0

Section 4:
Disclosure Information

4.1: Schedules of Funding Status and Employer Contributions Required Under GASB Statement No. 25

The Governmental Accounting Standards Board (GASB) Statements No. 25, 27, and 50 relate to the disclosure of pension liabilities shown in public employers’ financial statements. For accounting periods beginning after June 15, 1996, information required under these statements must be prepared for public employers who seek compliance with generally accepted accounting principles (GAAP) on behalf of their public employee retirement systems.

GASB Statement No. 25 requires preparation of schedules of funding status and employer contributions, as well as the disclosure of plan provisions, actuarial assumptions, and other information.

The required schedules are shown below. In each case, we have relied upon information from our files and contained in the reports of other actuaries employed by the District in completing the schedules. While we have no reason to believe that this information is inaccurate, we strongly recommend that employer personnel verify the schedules below before they are included in the District’s financial statements.

The District of Columbia Retirement Board uses the Aggregate actuarial cost method, which does not result in the calculation of an unfunded accrued liability. GASB Statement No. 50 requires funds using the Aggregate method to disclose funding status information based on Entry Age Normal (EAN) calculations. The numbers shown below have been determined based on the EAN method.

Schedule of Funding Status (\$ Millions)						
Actuarial Valuation Date	Actuarial Value of Assets	EAN Actuarial Accrued Liability	Unfunded Actuarial Accrued Liability	Funded Ratio	Covered Payroll	Unfunded Liability as a Percent of Payroll
10/1/2006	\$3,482.6	\$3,565.0	\$82.4	97.7%	\$673.4	12.2%
10/1/2007	4,068.9	3,898.6	(170.3)	104.4%	771.2	(22.1%)
10/1/2008	4,379.7	4,276.8	(102.9)	102.4%	781.0	(13.2%)

Schedule of Employer Contributions (\$ millions)						
	Teachers' Retirement Fund		Police Officers and Fire Fighters' Retirement Fund		Total Fund

9/30/2008	6.0	100%	137.0	100%	143.0	100%

The table below summarizes certain information about this actuarial report.

Valuation date	October 1, 2008
Actuarial cost method for Contributions	Aggregate
Actuarial cost method for Accrued Liabilities	Entry Age Normal
Amortization method	N/A
Remaining amortization period	N/A
Asset valuation method	Actuarial value: 1/7 Excess earnings subtracted from expected actuarial value.
Actuarial assumptions:	
Investment rate of return*	7.00%
Projected salary increases*	5.0% - 8.9% for Teachers, 5.3% - 10.0% for Police Officers and Fire Fighters
*Includes inflation at	4.25%
Cost of living adjustments	4.25% (COLA limited to 3.0% for those hired after November 1, 1996)

Appendix:

Entry Age Normal Calculations and Solvency Test

Contributions under the Entry Age Normal Cost Method

The Retirement Board has adopted the Entry Age Normal (EAN) method for the purpose of determining annual contributions to both the Teachers' Retirement Fund and the Police Officers' and Firefighters' Retirement Fund, pending legislative approval. The table below represents the contributions for fiscal year 2010 using this method.

These numbers are provided for information purposes only. While these contribution amounts are higher than those shown in the body of the report, this does not imply that calculations under the EAN method would always be higher than the current method. The method simply produces a different pattern of contributions.

(\$ millions)	Teachers	Police	Fire	Total
Employer Normal Cost Rate (% of Pay)	4.4%	31.7%	40.0%	20.4%
Total Accrued Liability	\$ 1,338.1	\$ 2,169.3	\$ 769.4	\$ 4,276.8
Actuarial Value of Assets	1,447.6	2,112.9	819.2	4,379.7
Unfunded Accrued Liability (UAL)	(\$ 109.5)	\$ 56.4	(\$ 49.8)	\$ (102.9)
Amortization of UAL (level \$, 20 years)	(9.7)	5.0	(4.4)	(9.1)
Amortization Rate (% of Pay)	(2.7%)	1.7%	(3.7%)	(1.2%)
Total Employer Contribution Rate	1.7%	33.4%	36.4%	19.3%
Projected Payroll	\$ 376.2	\$ 316.1	\$ 125.8	\$ 818.1
Contribution Amount	\$ 6.4	\$ 105.6	\$ 45.8	\$ 157.8
§1-907.02(c) Adjustment	(0.3)	4.3	1.9	5.9
District FY2010 Contribution	\$ 6.1	\$ 109.9	\$ 47.7	\$ 163.7

Solvency Test

As part of the information required for financial reporting, a solvency test and history of such is shown in the table below. Information for prior to 10/1/2006 does not exist as no accrued liability was required to be determined for funding or disclosure purposes before this date.

Valuation Date	Actuarial Accrued Liability				Valuation Assets	Portion of Accrued Liabilities Covered by Assets		
	Active Member Contributions	Inactive Members	Active Members	Total		Active Member Contributions	Retirees and Beneficiaries	Active Members
