September 30, 2005

The Honorable Ruth Ann Minner and Members of the 143rd General Assembly

Dear Governor and Members of the General Assembly:

The Board of Pension Trustees for the Delaware Public Employees' Retirement System (System) is proud to present its 34th Comprehensive Annual Financial Report for the Fiscal Year ended June 30, 2005.

This report provides information on nine retirement plans [State Employees', Special, New State Police, Judiciary, County & Municipal Police and Firefighters', County & Municipal Other Employees', Volunteer Firemen's, Diamond State Port Corporation, and Closed State Police] plus four commingled pension funds [County & Municipal Police and Firefighters' COLA (COLA Fund), Post-Retirement Increase (PRI), Delaware Local Government Retirement Investment Pool (DELRIP), and State Employees' Post-Retirement Health Insurance Premium]. Responsibility for both the accuracy of the data and the completeness and fairness of presentation rests with the State Board of Pension Trustees (Board). To the best of our knowledge and belief, the enclosed data are accurate in all material respects and present fairly the System's financial position and operational results for the Fiscal Year ended June 30, 2005.

The 2005 Financial Report is presented in five sections:

- Introductory Section -- contains this transmittal letter, organization charts, Board and Legislative highlights.
- Financial Section -- provides the independent auditor's opinion, management's discussion and analysis, the System's financial statements, required supplementary information, and supporting schedules with additional information about the System's financial position at the Plan level.

The Honorable Ruth Ann Minner and Members of the 143<sup>rd</sup> General Assembly Page 2 September 30, 2005

- Investment Section -- details total System performance, investment policy, and investment activities.
- Actuarial Section -- outlines the actuarial assumptions and describes the funding basis, contributions, and funded ratios of each Plan.
- Statistical Section -- includes tables and graphs about each Plan's membership.

(A detailed Table of Contents may be found on page 2.)

The System was established on June 11, 1970, with the incorporation of the State Employees', Judiciary, Closed State Police, and Retired & Disabled Teachers Pension Plans. The State Employees' and the Judiciary Plans were changed to actuarial reserve funding shortly thereafter. The Closed State Police Pension Plan remains a pay-as-you-go plan. Fiscal Year 1994 was the last year the Retired & Disabled Teachers' Pension Plan had members entitled to benefits.

When calendar year 1971 ended, the four pension plans totaled \$14.7 million in assets with 2,766 pensioners. The State's contribution was 13.1% of payroll. At the end of Fiscal Year 2005, pensioners numbered 20,363; monies from nine plans, three post-retirement trusts and one investment pool were commingled in a total System of \$5.9 billion. The State's contribution rate for the State Employees' Pension Plan for Fiscal Year 2005 was 4.9% of payroll. Employer rates in the other plans that we administer range from 4.0% to 17.3% of covered payroll. Benefit coverage varies by plan as shown on pages 29-32. In the major plans, benefit coverage has been regularly improved to maintain a very competitive position versus similar plans in other states, especially considering post-retirement health and spousal benefits. The majority of beneficiaries' pension benefits are fully funded. The funding status of each plan is detailed on pages 40-41.

#### **Major Accomplishments**

Disability Pension Review - The disability pension review, which began in Fiscal Year 2003, has been refined into a plan to implement a new disability insurance program for the State Employees' Pension Plan. The required legislative action was taken during Fiscal Year 2005 -- Senate Substitute #1 for Senate Bill #178 -- and the target date for implementation has been established as January 1, 2006.

Local Government Participation - Membership in the County & Municipal plans continues to grow. New members include the Towns of Milton, Cheswold, the Cities of Milford and Rehoboth Beach, and the Fire Companies of Millville and Port Penn. In addition, the City of Dover and the Town of Newport have joined the Delaware Local Government Retirement Investment Pool.

Improved Pension Benefits - Legislation granting a post-retirement increase to retired members of the State Employees', Special, New State Police, Judiciary, and the County & Municipal Police & Firefighter's Pension Plans was granted during Fiscal Year 2005. Effective July 1, 2005, this increase applies to all members with an effective date prior to July 1, 2004. The Delaware State Legislature has granted 11 similar post-retirement increases over the last 12 years.

The Honorable Ruth Ann Minner and Members of the 143<sup>rd</sup> General Assembly Page 3 September 30, 2005

House Bill 209 was also passed during the Fiscal Year 2005 legislative session. This bill allows survivors of New State Police Pension Plan members who are killed in the line of duty to receive benefits equal to 75% of the deceased member's salary. In addition, House Bill 182 provides that these survivors are also eligible for 100% of the State's General Fund share for health insurance purposes regardless of years of service credit or date of hire.

Senate Bills 189 and 191 remove the integration of Social Security benefits from the calculation of pension benefits for all members currently receiving benefits under the County & Municipal Police & Firefighters' Pension Plan and the County & Municipal Other Employees' Pension Plan.

In an effort to improve the funding status for State Employees' post-retirement health care benefits, Senate Bill 231, which was passed during Fiscal Year 2005, appropriates \$10 million to the State Employees' Post-Retirement Health Care Premium Fund from the Fiscal Year 2006 General Fund budget.

- Best Practices The Board, with the help of its legal counsel and various Committee members, has undertaken a "Best Practices Review". External consultants, Board and Committee members, and Pension Office staff met on several occasions during Fiscal Year 2005 to define the scope of the review. It will focus on three key areas of pension system operations -- administration, investments, and governance. DPERS plans to hire additional consultants during Fiscal Year 2006 to undertake an in-depth review of key issues which were identified.
- Technology Improvements Following the upgrade to PeopleSoft version 8.8, the Office of Pensions has been concentrating on infrastructure improvements. These improvements include upgrading the disaster recovery plan for the office, adding additional layers of security protection to resident data, and reengineering processes to optimize the application in place. The DPERS website (www.delawarepensions.com) has also been streamlined to provide information to our customers in a more efficient manner.
- GFOA Certificate of Achievement The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Delaware Public Employees' Retirement System for its comprehensive annual financial report (CAFR) for the Fiscal Year ended June 30, 2004. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. This is the ninth consecutive year that DPERS has received a Certificate of Achievement. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Honorable Ruth Ann Minner and Members of the 143<sup>rd</sup> General Assembly Page 4 September 30, 2005

Public Pension Coordinating Council Award - The Public Pension Coordinating Council (PPCC) granted the System the Public Pension Standards Award for 2004. The PPCC is a coalition of National Association of State Retirement Administrators (NASRA), National Council on Teacher Retirement (NCTR), and National Conference on Public Employee Retirement Systems (NCPERS). The major PPCC goal is to promote excellence in plan design and administration among state and local public retirement systems. The Public Pension Standards are intended to reflect minimum expectations for public retirement system management and administration and serve as a benchmark by which all defined benefit public plans should be measured. Public Pension Standards include: comprehensive benefit programs, funding adequacy, receipt of GFOA award in current year, independent actuarial valuation, independent audit review resulting in an unqualified opinion from the auditor, independent investment performance evaluation, adoption of written fiduciary standards by Board and Investment Committee, and communications with membership.

#### **Investments and Economic Climate**

The System's investments had a 9.6% return in Fiscal Year 2005. The System's annualized total returns for the last five, ten and fifteen years are 3.1%, 9.7% and 10.2%, respectively. Relative to other public pension funds, the ranking of the System's performance is close to median for the latest fiscal year and the last five years, while the ten-year return ranks in the top 25%.

System investments are managed to control the downside risk to which assets are exposed while maximizing long-term gain potential. This strategy positions the System to limit the impact of adverse market conditions. During the year, investment market returns were moderately positive, with the S&P 500 stock index gaining 6.3% and the Lehman Aggregate bond index up 6.8%. The System's 9.6% return for the year is a function of the ongoing focus on risk control and diversification into non-traditional asset classes. For a further discussion of portfolio diversification and investment strategy, see the Investment Section beginning on page 53 of this report.

The System's investment activity is governed by the "prudent person rule," a fiduciary standard, which applies to anyone with System authority. Fiduciaries must discharge their duties solely in the interest of System participants and beneficiaries and with the degree of diligence, care, and skill which prudent men and women would ordinarily exercise under similar circumstances.

The Board has established the investment policy shown on page 57. Investment constraints are outlined, including the appropriate degree of risk. Investment managers are hired to execute the investment policy. They have full discretion for investment decisions within statutory authority, Board policy, and their respective guidelines. A list of the investment managers under contract with the System as of June 30, 2005, may be found on page 61 of this report. A summary of the total System's asset allocation can be found on page 60.

The Honorable Ruth Ann Minner and Members of the 143<sup>rd</sup> General Assembly Page 5 September 30, 2005

#### **Funding Status**

A pension plan is well funded when it has sufficient assets invested to meet all expected future obligations to participants. The greater the level of funding, the larger the ratio of assets to actuarial accrued liability. It should be noted that four of the plans included in the System continue to be fully funded. Three of the remaining plans are making annual contributions at the actuarially determined rates to reach full funding. The Closed State Police Pension Plan remains a pay-as-you-go plan. The Notes to Trend Data Schedule presented on page 44 provides detailed information on each plan's remaining amortization period. The actuarial method for calculating accrued liability for all plans is Entry Age Normal with the objective of maintaining employer contributions approximately level as a percent of member payroll. A detailed discussion of funding method is provided in the Actuarial Section of this report which begins on page 70.

#### **Internal Controls**

System internal accounting controls are designed to reasonably assure the safekeeping of assets and the reliability of financial reporting. Control procedures and responsibilities are well documented both in writing and with graphic flowcharts. These are reviewed and updated annually.

The Audit Committee, a committee appointed by the Board, monitors operations and controls throughout the year. An independent auditing firm audits the System's basic financial statements annually and reports any findings to the Board.

#### **Professional Services**

Professional consultants are appointed by the Board to perform services essential to the effective and efficient operation of the System. An opinion on the System's basic financial statements from the independent auditors, KPMG LLP, as well as an opinion from the actuary, Milliman, Inc., are included in this report.

Ashford Consulting Group, Inc., serves as the System's investment advisor. Ashford provides the Board with annual investment performance updates and provides the Investment Committee with ongoing market insights, asset allocation recommendations, investment manager research and recommendations, performance and attribution analysis, and additional investment-related services.

#### Acknowledgments

The preparation of this report reflects the combined efforts of the System staff under the direction of the Board. Specific sections and overall editing include contributions from various Board committees and professional consultants.

The Board welcomed two new ex-officio members during Fiscal Year 2005: Richard S. Cordrey, Secretary of Finance, and Dana Jefferson, Acting State Personnel Director. The Board commends the service of the previous ex-officio members: Lisa Blunt-Bradley, former State Personnel Director, and David W. Singleton, former Secretary of Finance.

The Honorable Ruth Ann Minner and Members of the 143<sup>rd</sup> General Assembly Page 6 September 30, 2005

We also appreciate the service and investment contributions of Investment Committee member Barbara S. Graham, who resigned due to other business commitments.

The Board thanks the many people who work so diligently to assure the successful operation and financial soundness of the Delaware Public Employees' Retirement System. These include the Pension Office staff; the State Personnel Director who provides administrative supervision to the Pension Office; other State support personnel; professional consultants; members of the Investment, Medical, and Audit Committees; and the Pension Advisory Council.

Respectfully submitted,

Philip S. Reese, Chair Board of Pension Trustees

#### HIGHLIGHTS OF BOARD ACTIVITIES

The Board of Pension Trustees (Board) -- comprised of five members appointed by the Governor and confirmed by the Senate, and two ex-officio members -- is responsible for the general administration of these pension plans:

- State Employees' Pension Plan.
- Special Pension Plan.
- New State Police Pension Plan.
- Judiciary Pension Plans (Closed and Revised).
- County & Municipal Police and Firefighters' Pension Plans.
- County & Municipal Other Employees' Pension Plan.
- Volunteer Firemen's Pension Plan.
- Diamond State Port Corporation Pension Plan.
- Closed State Police Pension Plan.

The following retirement funds have been established under the custody of the Board for investment purposes only:

- County & Municipal Police and Firefighters' COLA Fund.
- Post-Retirement Increase Fund.
- Delaware Local Government Retirement Investment Pool.
- State Employees' Post-Retirement Health Insurance Premium Fund.

In addition to its general administrative responsibilities, the Board is responsible for these specific functions:

- Maintain and oversee the investment of the Delaware Public Employees' Retirement System (System).
- Appoint an independent actuary to perform annual actuarial valuations used as the basis for contributions to the System.
- Control and manage State pension payments.
- Hear appeals from State Pension Office decisions regarding eligibility for pension benefits.
- Adopt rules and regulations for the general administration of State pension plans.
- Prepare and publish an annual report to the Governor and General Assembly.
- Execute contracts with State agencies and others for assistance in pension plan administration and pension investment.
- Determine interest rates to be credited to members' contributions and rates to be charged on repayment of contributions previously withdrawn.

The day-to-day administration of these pension plans is performed by the State Pension Office, which also determines the eligibility of individual employees for pension benefits. The Pension Administrator reports to the State Personnel Director and also serves as Executive Secretary to the Board. Effective July 1, 2005 with the passage of House Bill 299, the Pension Administrator will report to the newly appointed director of the Office of Management and Budget (OMB).

#### HIGHLIGHTS OF BOARD ACTIVITIES (continued)

The Medical Committee of the Board is now comprised of nine medical doctors, all in private practice. It evaluates and makes recommendations concerning the medical condition of applicants for and recipients of disability pensions. The Medical Committee meets each month prior to the regular monthly meeting of the Board.

The four-person Audit Committee of the Board monitors operations and internal controls throughout the year to identify issues requiring Board and Pension Office action. They are responsible for interfacing with the Delaware Auditor of Accounts and the independent auditing firm to assure System compliance with generally accepted accounting practices and procedures.

The Investment Committee of the Board is currently comprised of five members. This Committee operates within the investment objectives established by the Board. The Committee establishes policies to meet these objectives and monitors these policies with the assistance of the Investment Advisor. The Committee also reviews prospective risk levels and rates of return of all classes of assets. Hence, the Committee assures investment diversification by selecting managers whose demonstrated performance reflects different management styles and asset class expertise. Most importantly, the Committee closely monitors the performance of all investment managers, not only in relation to specific absolute objectives, but also in relation to other fund managers following the same investment objectives. Further discussion of the Investment Committee's activities may be found in the Investment Section of this report beginning on page 53.

The Board retains Ashford Consulting Group, Inc., as investment advisor for the System. Ashford Consulting Group, Inc. provides a variety of services to the System including investment manager and custody contract negotiations, investment manager searches, performance analysis/attribution, investment policy, and asset allocation recommendations. The firm is prohibited by contract terms from managing any of the System's assets. A list of investment managers under contract with the System as of June 30, 2005, may be found on page 61 of this report.

The Board retains the firm of Milliman, Inc., to provide professional actuarial and consulting services. Such services include the preparation of comprehensive actuarial valuations and reports, analysis of the costs and other aspects of proposed changes in pension provisions, general consulting advice, and background information on other public pension plans.

The Department of Justice assigns a Deputy Attorney General to serve as legal advisor to the Board. The Deputy deals with legal questions involving interpretations and administration of pension laws, advises the Board in connection with appeals hearings, works with the Board on drafting legislation and regulations, and negotiates contracts.

The major activities of the Board and its committees during the 12-month period July 2004 through June 2005 were:

- Held regular monthly meetings and met with representatives of investment management firms and custodian bank on a regular basis.
- Held hearings for individual plan members who appealed decisions of the Pension Office or questioned the Board's interpretation of State pension laws.
- Held hearings on the eligibility of individual employees for disability pension benefits.
- Participated in meetings with the Governor's staff, members of the General Assembly, officials of State agencies and school districts, the Pension Advisory Council, representatives of employee organizations, and other interested parties.

#### 2005 LEGISLATION AFFECTING PENSIONS

H. B. 182 (75 Del. Laws, C114) This bill ensures that a primary survivor of a Delaware State Trooper whose life has been taken in the line of duty will have the full cost of a basic individual contract of health care coverage paid for by the State of Delaware as long as that person is a primary survivor.

H. B. 209 (75 Del. Laws, C100) This bill ensures that an eligible survivor of a Delaware State Trooper who has died in the line of duty receives a survivor's pension equal to three-quarters of the officer's salary.

H. B. 299 (75 Del. Laws, C88) This legislation amends the Delaware Code to establish the Office of Management and Budget by transferring various divisions and other organizational units from the Office of the Budget, Department of Administrative Services and the State Personnel Office to the newly established Office of Management and Budget and the Department of State. Effective July 1, 2005, the Director of the Office of Management and Budget shall have the powers, duties and functions to be responsible for the clerical administration of all state pension funds. The Director of the Office of Management and Budget shall have the authority to recommend to the Governor such changes as may be desirable in the pension system for employees in the classified service.

Senate Substitute Bill 1 for S. B. 178 (75 Del. Laws, C191) This bill establishes a Disability Insurance Program for employees that are covered under the State Employees' Pension Plan. The program consists of sick leave, short-term disability, and long-term disability benefits to provide a comprehensive program for those employees. It allows for an election into the disability program for employees that are vested in the State Employees' Pension Plan as of January 1, 2006. It allows employees that are receiving disability insurance benefits to continue to accrue service credit in the State Employees' Pension Plan until they reach normal retirement age and allows continued eligibility for health care benefits.

In addition, this bill permits an employee to purchase credited service at the time of retirement for accumulated sick leave in excess of 90 days beginning July 1, 2005. The employee is allowed to purchase up to one year of credited service, but that service cannot be used to determine eligibility for a pension benefit. School employees will receive credit based on the length of time of their contract; for example a 10-month employee will receive 12 months of credit by purchasing 10 months of sick leave. This provides an incentive for employees to accumulate sick leave, which in turn will reduce absences for employers.

S. B. 189 (75 Del. Laws, C132) Effective July 1, 2005, removes the integration of Social Security benefits from the calculation of pension benefits under the County & Municipal General Employees' pension plan. Effective January 1, 2006, employee contributions to this plan shall be 3% of total annual compensation in excess of \$6,000.

#### 2005 LEGISLATION AFFECTING PENSIONS (continued)

S. B. 191 (75 Del. Laws, C133) Effective July 1, 2005, removes the integration of Social Security benefits from the calculation of pension benefits under the County & Municipal Police and Firefighters' pension plans. Effective January 1, 2006, member contributions to the fund shall be 7% of monthly compensation.

Senate Substitute Bill 1 for S. B. 201 (75 Del. Laws, C134) Allows a Judge to use previous service in the State Employees' Pension Plan for eligibility under the Judges Pension Plan. This service can only be used to establish eligibility at 24 years of service and not for vesting or calculation purposes. Unified pension provisions already exists between the State Employees', New State Police, County & Municipal General Employees' and County & Municipal Police and Firefighters' pension plans.

S. B. 223 (75 Del. Laws, C135) Removes the requirement that limits retroactive benefit payments to two months following application for disability pension benefits.

S. B. 231 (75 Del. Laws, C99) Makes an appropriation of \$10 million to the Post Retirement Health Insurance Premium Fund from the Fiscal Year 2006 General Fund budget.

S. B. 232 (75 Del. Laws, C136) Grants pension increases to retired State Employees', retired Judges, retired New State police and retired County & Municipal Police & Firefighters' on July 1, 2005 for persons retired on or before June 30, 2004. Any monthly service, disability, and survivor pension based on a former service or disability pension that was effective on or before June 30, 2004, but after December 31, 1980, and is payable on July 1, 2005 shall be increased effective July 1, 2005 by 2%. Any monthly service, disability, and survivor pension based on a former service or disability pension that was effective before January 1, 1981 and is payable on July 1, 2005 shall be increased effective July 1, 2005 by 2% plus \$50 per month.

# FINANCIAL SECTION

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

# Delaware Public Employees' Retirement System

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2004

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

#### Independent Auditors' Report

Members of the Board of Pension Trustees Delaware Public Employees' Retirement System:

We have audited the accompanying statement of plan net assets of the Delaware Public Employees' Retirement System (the System) as of June 30, 2005 and the related statements of changes in plan net assets for the year then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based upon our audit. The accompanying comparative financial information has been derived from the Delaware Public Employees' Retirement System's June 30, 2004 financial statements, which were audited by other auditors and the State of Delaware Auditor of Accounts, whose report thereon dated August 27, 2004 expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and those standards applicable to financial audits contained in *Government Auditing Standards* issued by Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit included consideration of the internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the System's internal control over financial reporting. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of the Delaware Public Employees' Retirement System as of June 30, 2005 and its changes in plan net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards we have also issued our report dated August 29, 2005 on our consideration of the System's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The financial statements include summarized prior year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the System's financial statements for the year ended June 30, 2004, which was audited by other auditors and by the State of Delaware Auditor of Accounts, from which such summarized information was derived.

The information included in Management's Discussion and Analysis, Schedule of Funding Progress, Schedule of Employer Contributions, and Notes to Trend Data on pages 23-25 and 40-44 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in Schedule of Administrative Expenses, Schedule of Investment Expenses and the Schedules of Plan Net Assets and Changes in Plan Net Assets for the Delaware Local Government Investment Pool are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory, investment, actuarial and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory, investment, actuarial and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

#### Management's Discussion and Analysis

This section presents management's discussion and analysis of the Delaware Public Employees' Retirement System's (System) financial performance and provides an overview of the System's financial activities for the Fiscal Year ended June 30, 2005. It is intended to be a narrative supplement to the System's financial statements, which begin on page 24 of this report.

#### **Financial Highlights**

The following financial highlights occurred during the Fiscal Year ended June 30, 2005:

- Plan net assets of all the pension funds administered by the System increased by \$406.8 million.
- Increased covered payrolls, resulting in higher member and employer pension contributions, totaled \$1,575.0 million, an increase of 5.7%. Member contributions increased as the State ended an 18-month hiring freeze and merit raises were granted in July 2004. Additionally, employer contributions increased due to higher employer contribution rates and more entities participating in the County & Municipal plans.
- Net investment earnings (net increase in fair value, plus investment earnings, less investment administrative expenses) declined by \$242.6 million from the elevated levels experienced in the previous fiscal year.
- Pension benefits paid to retirees and beneficiaries increased \$28.9 million bringing the total benefit payments to \$296.0 million. A net increase of 4.2% in the number of retirees and a post-retirement increase averaging 2% are responsible for the 10.8% increase in pension benefits. Refunds of contributions paid to former members upon termination of employment increased from \$2.6 million to \$2.8 million.
- Administrative expenses (including special project expenses) decreased by 1.5% compared to Fiscal Year 2004. This decrease is largely due to the completion of several special projects in early Fiscal Year 2005. (See Schedule 4 on page 46 for more details.)

#### Using this Financial Report

Because of the long-term nature of a defined benefit pension plan, financial statements alone cannot provide sufficient information to properly reflect the System's ongoing plan perspective. This financial report consists of two financial statements and two required schedules of historical trend information. The Statement of Plan Net Assets and Statement of Changes in Plan Net Assets (pages 24-27) provide information about the activities of the nine individual pension plans administered and the four funds managed, as well as comparative summary information about these activities for the System as a whole.

The Schedule of Funding Progress (pages 40-41) includes historical trend information about the actuarially funded status of each plan from a long-term, ongoing plan perspective and the progress made in accumulating sufficient assets to pay benefits when due. The Schedule of Employer Contributions (pages 42-43) presents historical trend information about the annual required contributions of employers and the contributions made by employers in relation to this requirement. These schedules provide information that contributes to understanding the changes over time in the funded status of the plans.

#### **Analysis of Net Assets**

The System was created to provide retirement, survivor, and disability benefits to qualified members and their beneficiaries. The cost of such programs includes recurring benefit payments as designated by the various plans, refunds of member contributions to terminated employees, and the cost of administering the System. Combined plan net assets increased by \$406.8 million during the last fiscal year. Fiscal Year 2005's positive return of 9.6% is the primary reason for this year's increase in total plan net assets. While current year returns exceeded benchmarks and actuarial assumptions for the System, net investment earnings were lower than Fiscal Year 2004.

Employer contributions increased approximately \$31.2 million primarily due to higher required actuarial contribution rates across all plans and an increased number of participating employers in the County & Municipal plans. Member contributions increased by approximately \$2.4 million due to an increase in the number of active employees primarily in the County & Municipal plans. Transfers from outside the System increased by approximately 13.4% as a result of two new participating entities in the Delaware Local Government Retirement Investment Pool (DELRIP) participants. Transfers from the Post-Retirement Increase Fund (PRI) increased by 21.8% reflecting the post-retirement increase granted by legislation effective July 1, 2004.

Transfers of Assets Outside the System include transfers from the County & Municipal Police and Firefighters' COLA Fund (COLA Fund) to individual participating entities and a reversion from the COLA Fund as required by statute. The reversion from the COLA Fund was transferred to the State's General Fund. Benefit payments increased by approximately 10.8% as a result of a 4.2% increase in the number of retirees over Fiscal Year 2004 and a post-retirement increase granted to over 90% of our retirees effective July 1, 2004 which averaged 2%.

Total administrative expenses (including special projects) decreased 1.5% primarily due to the completion of several special projects in early Fiscal Year 2005. Several individual projects were completed early in the fiscal year resulting in a 60% decrease in special project expenses. General administrative expenses, however, increased by 10.5% -- an increase which is directly attributable to infrastructure improvements in the data processing area, which included the purchase of several new servers, imaging scanners, various office-wide software upgrades, and approximately 3% of which represents increased expenses from the State's data processing contractual services area that are expected to be recurring.

#### **Historical Trends**

Accounting standards require that the Statement of Plan Net Assets reports asset values at fair value and includes only benefits and refunds due plan members and beneficiaries and accrued investment and administrative expenses as of the reporting date. Information regarding the actuarial funding status of the pension funds is provided in the Schedule of Funding Progress (pages 40-41). The asset value stated in the Schedule of Funding Progress is the actuarial value of assets as determined by calculating the ratio of market value to book value of assets over a five-year period. The actuarial assumptions used in the most recent valuation are identified by plan on Schedule 3 - Notes to Trend Data (page 44).

Annual required contributions of employers and contributions made by employers in relation to the required contributions are provided in the Schedule of Employer Contributions (pages 42-43). This schedule indicates that employers are meeting their responsibilities to provide financial resources to the plans.

#### 1. Plan Descriptions and Contribution Information

The State of Delaware General Assembly enacted legislation to provide for the following State-sponsored pension plans:

- State Employees' Pension Plan.
- Special Pension Plan.
- New State Police Pension Plan.
- Judiciary Pension Plans (Closed and Revised).
- County & Municipal Police and Firefighters' Pension Plans.
- County & Municipal Other Employees' Pension Plan.
- Volunteer Firemen's Pension Plan.
- Diamond State Port Corporation Pension Plan.
- Closed State Police Pension Plan.

With the exception of the Diamond State Port Corporation Pension Plan, the General Assembly is responsible for setting benefits and contributions and amending plan provisions. The Board of Directors for the Diamond State Port Corporation is responsible for setting benefits and contributions and amending their plan provisions.

As of June 30, 2005, employee membership data related to each of the Plans was as follows:

|   |               | Terminated          |                     |            |                      |

The following are brief descriptions of the individual plans in effect as of June 30, 2005. For a more complete description, please refer to the plan documents.

#### State Employees' Pension Plan

<u>Plan Description and Eligibility:</u> The State Employees' Pension Plan is a cost-sharing multiple employer defined benefit plan that covers virtually all full-time or regular part-time employees of the State, including employees of other affiliated entities.

Service Benefits: Final average monthly compensation multiplied by 2.0% and multiplied by years of credited service prior to January 1 1997, plus final average compensation multiplied by 1.85% and multiplied by years of credited service after December 31, 1996, subject to minimum limitations. For this plan, final average monthly compensation is the monthly average of the highest three years of compensation.

<u>Vesting:</u> 5 years of credited service.

Retirement: Age 62 with 5 years of credited service; age 60 with 15 years of credited service; or after 30 years of credited service at any age.

<u>Disability Benefits:</u> Same as Service Benefits. Employee must have 5 years of credited service.

Survivor Benefits: If employee is receiving a pension or is active with at least 5 years of credited service, eligible survivor receives 50% (or 75% with 3% reduction of benefit) of the benefit the employee would have received at age 62.

#### Contributions:

Employer - determined by Board of Pension Trustees. Member - 3% of earnings in excess of \$6,000.

Death Benefit: \$7,000 per member.

#### **Special Pension Plan**

Plan Description and Eligibility: The Special Pension Plan is a cost-sharing multiple employer defined benefit plan that covers benefits granted to certain retirees or groups of retirees through legislation passed by the General Assembly.

Service Benefits: Defined by special legislation.

Vesting: Defined by special legislation.

Retirement: Defined by special legislation.

Disability Benefits: Defined by special legislation.

Survivor Benefits: Same as State Employees' Plan.

<u>Contributions:</u> Employer contributions are actuarially determined and fully funded in advance by the General Assembly.

Death Benefit: \$7,000 per member.

#### New State Police Pension Plan

Plan Description and Eligibility: The New State Police Pension Plan is a single-employer defined benefit plan that covers all State police officers appointed on or after July 1, 1980.

Service Benefits: 2.5% of final average monthly compensation multiplied by years of credited service up to 20 years, plus 3.5% of final average monthly compensation multiplied by years of service in excess of 20 years. For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation.

<u>Vesting</u>: 10 years of credited service at age 62.

<u>Retirement:</u> Age 55 with 10 years of credited service; age plus credited service (but not less than 10 years) equals 75; or 20 years of credited service.

#### **Disability Benefits:**

Duty - *Total Disability* - 75% of final average compensation plus 10% for each dependent not to exceed 25% for all dependents.

Partial Disability - calculated the same as Service Benefits, subject to minimum 50% of final average compensation.

Non-Duty - Same as Service Benefits.

<u>Survivor Benefits:</u> If employee is receiving a pension, the eligible survivor receives 50% of pension; if employee is active, eligible survivor receives 50% of compensation.

#### **Contributions:**

Employer - determined by Board of Pension Trustees. Member - 7% of compensation.

Death Benefit: \$7,000 per member.

#### Judiciary Pension Plans (Closed and Revised)

#### Plan Description and Eligibility:

The Closed Judiciary Pension Plan is a single-employer defined benefit plan that covers members of State Judiciary appointed before July 1, 1980.

The Revised Judiciary Pension Plan is a single-employer defined benefit plan that covers members of State Judiciary appointed on or after July 1, 1980 or members appointed before July 1, 1980 who accept the provisions of this Plan.

Assets of one plan can be used to satisfy the liabilities of the other plan.

#### Service Benefits:

Closed - 3% of final average compensation multiplied by years of credited service, subject to maximum and minimum limitations.

Revised - 1/24th of final average monthly compensation multiplied by years of service up to 12 years, plus 1/48th of final average monthly compensation, multiplied by years of service from 13 to 24 years, subject to maximum limitations.

For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation.

Vesting: 12 years of credited service.

#### Retirement:

Closed - Age 65 with 12 years of credited service, or any age with 24 years of credited service.

Revised - Age 62 with 12 years of credited service, or any age with 24 years of credited service.

Disability Benefits: Same as Service Benefits.

#### Survivor Benefits:

Closed - If employee is receiving a pension, then eligible survivor receives 2/3 of pension; if employee is active with 12 years of credited service, then eligible survivor receives 2/3 of pension the employee would have been eligible to receive.

Revised - If employee is receiving a pension, then eligible survivor receives 1/2 of pension (2/3 with 3% reduction); if employee is active, eligible survivor receives 2/3 of pension the employee would have received at age 62.

#### Contributions:

Employer - determined by Board of Pension Trustees. Member -

Closed - \$500 per year for the first 25 years of service. Revised - 3% of earnings that exceed \$6,000 per year, plus 2% of earnings that exceed the Social Security Wage Base for the first 24 years of service.

Death Benefit: Not applicable.

# County & Municipal Police and Firefighters' Pension Plans

Plan Description and Eligibility: County & Municipal Police and Firefighters' Pension Plan, both FICA and Non-FICA, are cost-sharing multiple employer defined benefit plans that cover police officers and firefighters employed by a county or municipality of the State which has become part of the Plan.

Service Benefits: 1/40th of final average monthly compensation multiplied by years of credited service, subject to limitations. For this plan, final average monthly compensation is the monthly average of the highest three consecutive years of compensation.

<u>Vesting</u>: 10 years of credited service.

<u>Retirement:</u> Age 62 with 10 years of service; age plus credited service (but not less than 10 years) equals 75; or 20 years of credited service.

#### Disability Benefits:

Duty - *Total Disability* - 75% of final average compensation plus 10% for each dependent not to exceed 25% for all dependents.

Partial Disability - calculated the same as Service Benefits, subject to minimum 50% of final average compensation.

Non-Duty - Same as Service Benefits.

<u>Survivor Benefits:</u> If employee is receiving a pension, then eligible survivor receives 50% of pension; if employee is active, eligible survivor receives 50% of pension the employee would have received at age 62.

#### Contributions:

Employer -determined by Board of Pension Trustees. Member - FICA covered - 5% of compensation. Non-FICA covered - 7% of compensation.

<u>Death Benefit:</u> Not applicable.

#### County & Municipal Other Employees' Pension Plan

Plan Description and Eligibility: County & Municipal Other Employees' Pension Plan is a cost-sharing multiple employer defined benefit plan that covers employees of counties or municipalities which have become part of the Plan.

Service Benefits: 1/60th of final average monthly compensation multiplied by years of credited service, subject to maximum limitations. For this plan, final average monthly compensation is the monthly average of the highest five years of compensation.

Vesting: 5 years of credited service.

Retirement: Age 62 with 5 years of credited service; age 60 with 15 years of credited service; or after 30 years of credited service.

<u>Disability Benefits:</u> Same as Service Benefits. Employee must have 5 years of credited service.

<u>Survivor Benefits:</u> If employee is receiving a pension or is active with at least 5 years of credited service, then eligible survivor receives 50% of pension the employee would have received at age 62.

#### Contributions:

Employer - determined by Board of Pension Trustees. Member - 3% of earnings in excess of \$6,000, plus 2% of earnings that exceed the Social Security Wage Base.

Death Benefit: Not applicable.

#### Volunteer Firemen's Pension Plan

<u>Plan Description and Eligibility:</u> The Volunteer Firemen's Pension Plan is a cost-sharing multiple employer defined benefit plan which covers all actively participating volunteers of fire departments, ladies auxiliaries, or ambulance organizations within the State of Delaware.

<u>Service Benefits:</u> \$5 multiplied by years of credited service (not to exceed 25 years) per month.

Vesting: 10 years of credited service.

Retirement: Age 60 with 10 years credited service.

Disability Benefits: Not applicable.

Survivor Benefits: Not applicable.

#### Contributions:

Employer - determined by Board of Pension Trustees. Volunteer Member - \$60 per member per calendar year.

Death Benefit: Not applicable.

#### Diamond State Port Corporation Pension Plan

<u>Plan Description and Eligibility:</u> The Diamond State Port Corporation Pension Plan is a single-employer defined benefit plan which covers all employees of the Diamond State Port Corporation.

Service Benefits: 1.75% of final average monthly compensation multiplied by the years of credited service (not to exceed 30 years). For this plan, final average monthly compensation is the monthly average of the highest consecutive five years of compensation within the last ten years of employment.

Vesting: 5 years of credited service.

Retirement: Age 65 with 5 years of credited service; or age (not less than 55 years) plus credited service equals 90.

<u>Disability Benefits:</u> Same as Service Benefits. Employee must have 15 years of credited service.

Survivor Benefits: If employee is receiving a pension or is active with at least 15 years of credited service, then eligible survivor receives 50% of pension the employee would have received at age 65.

#### Contributions:

Employer - determined by Board of Pension Trustees. Member - 2% of compensation.

Death Benefit: Not applicable.

#### **Closed State Police Pension Plan**

<u>Plan Description and Eligibility:</u> The Closed State Police Pension Plan is a single-employer defined benefit plan that covers all State police officers appointed before July 1, 1980.

Service Benefits: 50% of monthly salary.

<u>Vesting/Retirement:</u>

20 years of credited service or age 55.

Disability Benefits: Duty - 75% of monthly salary.

Non-Duty - Same as Service Benefits.

Survivor Benefits: If employee is active or is receiving a service or service-related disability pension, the eligible survivor receives 75% of pension; if employee is receiving a non-service related disability pension, eligible survivor receives 50% of pension.

#### Contributions:

Employer - The Closed State Police Plan is funded on a pay-as-you-go basis.

Member - 5% of salary with 20 years or less of credited service; 2% of salary with over 20 years credited service.

Death Benefit: \$7,000 per member.

#### 2. Fund Descriptions and Contributions

#### County & Municipal Police and Firefighters' COLA Fund

During 1990, the State of Delaware passed legislation which established a mechanism for funding post-retirement increases granted by employers who participate in the County & Municipal Police and Firefighters' Pension Plans. This mechanism allows the State to appropriate funds to a separate COLA Fund managed by the Board of Pension Trustees (Board). The funds are generated by a 0.25% tax on the value of insurance premiums written within the State. The proceeds of the tax are transferred to the State and local governments on a per member basis. In 1994, the New State Police Plan began receiving funding for post-retirement increases from the Post-Retirement Increase Fund. Since that time, funds calculated for the State Police membership were re-directed into the COLA Fund. In accordance with 18 Del. C. §708(c), when a participating employer grants a post-retirement increase for a plan outside of the State's County & Municipal Plans, funds are transferred from the COLA Fund to the employer. The participating employer must provide funds to match the State's contribution.

#### Post-Retirement Increase Fund

The State of Delaware passed legislation which established a mechanism for funding ad hoc post-retirement increases granted by the General Assembly to members retired under the State Employees' Plan, the New State Police Plan, and the Judiciary Plans (Closed and Revised) beginning in Fiscal Year 1994. The mechanism allows the State to appropriate actuarially determined employer contributions to a separate Post-Retirement Increase Fund (PRI) managed by the Board. When the Legislature grants an ad hoc post-retirement adjustment, funds are transferred from this PRI Fund on a monthly basis based on a five-year actuarial funding schedule to the appropriate pension plan from which the additional benefits are disbursed.

As of June 30, 2005, recently granted post-retirement increases have outstanding liabilities totalling \$147.1 million, which will be transferred to the appropriate plans over the next five fiscal years as follows:

| Fiscal Year 2006 | \$<br>38,748,000 |
|------------------|------------------|
| Fiscal Year 2007 | \$<br>33,717,000 |
| Fiscal Year 2008 | \$<br>35,037,000 |
| Fiscal Year 2009 | \$<br>26,490,000 |
| Fiscal Year 2010 | \$<br>13,132,000 |

The Board adopts actuarially determined funding for the Post-Retirement Increase Fund. Funding for Fiscal Year 2005 was 2.4% of covered payroll. Funding for Fiscal Year 2006 has been increased to 2.6% of covered payroll.

#### **Investment Trust Fund**

In June 1996, the State of Delaware passed legislation which established the Delaware Local Government Retirement Investment Pool (DELRIP) in the custody of the Board to allow local governments within the State of Delaware the option to pool their pension assets with the System for investment purposes. The DELRIP is an external investment pool that allows local governments to maximize their rate of return and reduce administrative expenses related to the investment of funds. Participation in the pool is totally voluntary. There were four participating entities in DELRIP as of June 30, 2005, which comprise the pool in its entirety. Schedules of net assets and changes in net assets may be found in the Supporting Schedules section of this report in accordance with Government Accounting Standards Board (GASB) Statement 31 (pages 48-49). No separate comprehensive annual report is issued for this pool.

DELRIP is subject to the oversight of the System's Investment Committee and not subject to the regulatory oversight of the Securities and Exchange Commission (SEC). The System has not provided or obtained any legally binding guarantees during the year to support the value of shares. The fair value of the shares in the pool is determined in the same manner as the value of the Master Trust shares (see page 35). Since this pool is a portion of the total System, the same accounting and investment policies described in the following financial footnotes apply.

#### State Employees' Post-Retirement Health Insurance Premium Fund

The State Employees' Post-Retirement Health Insurance Premium Fund, which was established in June of 2000, is an investment fund for the benefit of retired members of the State Employees' Pension Plan. The State of Delaware provides health insurance to eligible retirees and their dependents. Under 29 Del. C. c. 52, the State Legislature has the authority to establish and amend benefit provisions, including contribution requirements. Retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts monthly toward the cost of health insurance premiums. For the Fiscal Year ended June 30, 2005, plan members contributed \$2.4 million, or 2.9% of total premiums through their required contributions. The State of Delaware General Fund was required to contribute the balance of the premium cost (\$82.2 million, or 97.1% for Fiscal Year 2005). Pre-funding levels are set annually by Legislature as a part of the budget process. Funding began in Fiscal Year 2002 in the amount of 0.7% of covered payroll and continued in Fiscal Year 2003 at the rate of 0.4%. Funding was suspended for Fiscal Year 2004 and 2005. A \$10 million lump sum contribution to this Fund was appropriated during the State's Fiscal Year 2006 General Fund budget process.

#### 3. Summary of Significant Accounting Policies

#### **Reporting Entity**

The management of all the Plans and Funds in the System is the responsibility of the Board. The Board is comprised of five members appointed by the Governor and confirmed by the State Senate, plus two ex-officio members. The daily operation of the System is the responsibility of the Office of Pensions. Although the assets of the Plans and Funds are commingled for investment purposes, each Plan's or Fund's assets may be used only for the payment of benefits to the members of that Plan or Fund in accordance with the terms of that Plan or Fund.

Although separate financial statements are presented for the System as a whole, the System is also considered a component unit of the State of Delaware financial reporting entity.

#### **Basis of Accounting**

The financial statements are presented on the accrual basis. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each Plan or Fund.

The accompanying financial statements include certain prior year summarized comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States. Certain Fiscal Year 2004 amounts have been reclassified to conform with the 2005 presentation.

#### Use of Estimates

Management of the System has made certain estimates and assumptions relative to the reporting of assets and liabilities, and the disclosure of contingent assets and liabilities, to prepare these financial statements in conformity with accounting principles generally accepted in the United State of America. Actual results could differ from those estimates.

Investments in venture capital and other alternative assets tend to be illiquid and the underlying assets are generally not publicly-traded companies. Because of the inherent uncertainty in valuing privately held securities, the fair value may differ from the values that would have been used had a ready market for such securities existed, and the difference can be material. Accordingly, the realized value received upon the sale of the asset may differ from the fair value.

The System has elected to implement GASB Statement 44 in this annual report. This Statement establishes the objectives of the statistical section and the five categories of information it contains: financial trends, revenue capacity, debt capacity, demographic and economic data, and operations. Implementation is not required until the Fiscal Year 2006 annual report. The adoption of this Statement has no material impact on the System's financial position or results of operations.

The following GASB pronouncements were issued as of June 30, 2005, but are not required to be implemented at this time:

GASB Statement 43: Post-employment Benefit Plans other than Pensions. This Statement establishes accounting and financial reporting standards for plans that provide other post-employment benefits (OPEB) other than pension benefits (for example, health insurance, life insurance). Implementation will be required in the Fiscal Year 2007 annual report. The adoption of this Statement is not anticipated to have a material impact on the System's financial position or results of operations although significant additional disclosures for actual cost of these benefits will be required.

GASB STATEMENT 45: Employer Accounting for Other Post-employment Benefits. This Statement addresses how state and local governments should account for and report their costs and obligations related to OPEB, including post-employment healthcare and other non-pension benefits. Implementation will be required in the Fiscal Year 2007 annual report. The adoption of this Statement is not anticipated to have a material impact on the System's financial position or results of operations.

#### Investments

All of the investment assets of the plans and funds, with the exception of the Closed State Police Pension Plan (which is a pay-as-you-go plan), are pooled and invested in a common Master Trust. Each of the Plans or Funds described herein participate in the Master Trust based on funds contributed and earnings allocated.

Investments are presented at fair value. Fair values are determined by quoted market prices based on national exchanges when available. Venture capital and other limited partnership values are determined based on appraised values which approximate fair value.

#### **Administrative Expenses**

General expenses for the administration of the System are budgeted and approved as part of the annual State budget process and are paid from the assets of the System. The Board does, however, review and approve proposals for one-time, special projects as they arise.

#### 4. Deposits and Investments

#### **Investment Policy**

There are no State statutes limiting allowable investments for the System. The investment decisions are dictated by the prudent person rule and the internal investment policy established by the Board as outlined below:

- maintain a minimum of 20% 25% of total assets of the System in fixed income investments such as bonds and short-term investments (assets with maturity of less than one year);
- conduct an ongoing review of prospective risk levels and rates of return available from all classes of assets eligible for investment;
- employ a variety of investment managers with demonstrated skills in managing funds through different styles of management with expertise in particular kinds of assets such as stocks, bonds, real estate, mortgages, venture capital, money market instruments, currency, or combinations thereof; and
- closely monitor the performance of all investment managers not only in relation to specific absolute objectives, but also in relation to other fund managers following similar investment objectives.

For the Fiscal Year ended June 30, 2005, the System has operated in all material respects in accordance with these policies.

#### **Investments**

The following is a listing of domestic fixed income and short-term investments and related maturity schedule. The totals presented are derived from the individual assets held by the System as of June 30, 2005. As investment managers may be contractually granted the flexibility to augment their portfolios with investments outside their primary investment classification, these totals may differ from disclosures made on the Statement of Plan Net Assets (pages 24-25), which reflects the primary asset class in which the fund manager invests.

#### Investment Maturities (in Years)

(expressed in thousands)

|                               |              | Less       |         |         |           |         | More    |
|-------------------------------|--------------|------------|---------|---------|-----------|---------|---------|
| Investment Type               | Fair Value   | than 1     | 1 - 4.9 | 5 - 9.9 | 10 - 19.9 | 20 - 30 | than 30 |
| Financials                    | \$ 99,135    | \$ 25,307  | 28,541  | 17,684  | 8,037     | 8,305   | 11,261  |

| Discount Commercial Paper     | 156,395      | 156,395    | -       | -       | -         | -       | -       |
| Discount Commercial Notes     | 20,905       | 20,905     | -       | -       | -         | -       | -       |
| Other Investments*            | 265,098      |            |         |         |           |         |         |
| Total:                        | \$ 1,224,823 | \$ 300,572 | 235,534 | 95,415  | 112,615   | 179,930 | 35,659  |

<sup>\*</sup> Assets held in pooled investments -- specific investment maturities not available.

#### **Interest Rate Risk**

The State has delegated investment policy for the System to the Board and its Committees. The Investment Committee sets its own rigorous policy in conjunction with the Board to manage and review the System's exposure to fluctuating interest rates.

#### Credit Risk

The System's general investment policy is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital and, in general, avoid speculative investments. The System has no investment policy that would further limit its investment choices. As of June 30, 2005, the System's fixed income and short-term investments (as noted above) had the following risk characteristics:

| Moody's Ratings    | Percent of        | Market Value  |            | Callable Amount  |           |                          |
|--------------------|-------------------|---------------|------------|------------------|-----------|--------------------------|
| or Comparable      | <b>Total Fund</b> | (expressed in | thousands) | (expressed in th | nousands) | Callable Dates           |
| AAA to A           | 12.0%             | \$            | 710,022    | \$               | -         | -                        |
| BBB to B           | 2.6%              |               | 151,596    |                  | 5,762     | through October 20, 2010 |
| CCC to C           | 0.3%              |               | 19,803     |                  | 1,027     | through April 15, 2009   |
| Less than C        | 0.0%              |               | -          |                  | -         | -                        |
| Not Rated          | 1.3%              |               | 78,304     |                  | 300       | through April 15, 2011   |
| Other Investments* | 4.5%              |               | 265,098    |                  | _         |                          |
| Total:             | 20.7%             | \$            | 1,224,823  | \$               | 7,089     |                          |

<sup>\*</sup> Assets held in pooled investments -- specific investment ratings, callable details not available.

#### **Custodial Credit Risk**

Of the System's \$6,204,000 cash balance, \$433,000 represents pooled deposits held by the State Treasurer's Office. The balance of \$5,771,000 represents pooled deposits in short-term investments held by the custodian bank. Both of these accounts are uninsured and uncollateralized.

#### Investments in Excess of 5% of Net Assets Held in Trust for Pension Benefits

The following managers have investments at fair value in excess of 5% of the System's net assets held in trust for pension benefits as of June 30, 2005:

|   | Fair Value               |
|---|--------------------------|
|   | (expressed in thousands) |
| Mellon Capital Asset Allocation Fund        | \$ 1,324,978             |
| Oaktree International Convertibles          | 405,627                  |
| T. Rowe Price Natural Resource              | 398,192                  |
| Mellon Capital Global Asset Allocation Fund | 369,384                  |
| Lehman Capital - Fixed                      | 357,171                  |
| Loomis-Sayles & Company LP                  | 309,612                  |

#### **Management Fees**

The System has paid \$13.0 million and \$14.2 million in management fees to the venture capital limited partnerships and transition managers for the Fiscal Years ended June 30, 2005 and 2004, respectively. The decrease in management fees is directly related to the use of fewer transition managers during Fiscal Year 2005 versus Fiscal Year 2004. These fees are netted against investment income.

#### **Investment Commitments**

The System has commitments to invest up to an additional \$393 million in venture capital limited partnerships in varying amounts as of June 30, 2005, to be drawn down, as called upon, over a period of years. Generally, these commitments are self-funding, in that the capital calls are met using cash flows generated by the existing partnerships as managers in this asset class realize the proceeds of their investments.

#### Risk Management

Risks of loss to the System are limited to investment-related losses. Fixed assets used by the System are considered to be the property of the State of Delaware at an approximate book value of \$443,000. Risk of loss related to worker's compensation, self-insurance, theft, torts, and other similar risks, is assumed by the State of Delaware.

#### Foreign Investments/Forward Exchange Contracts

Foreign investments include equity securities, bonds, and short-term investments. In conjunction with certain of these foreign investments, the System has entered into forward exchange contracts to sell or purchase certain foreign currencies at specified rates at stated dates. At June 30, 2005, the System did not hold any directly-held open forward exchange contracts.

The following is a listing of the System's foreign assets as of June 30, 2005, excluding foreign-issuer assets valued at \$155.7 million which were U.S. dollar denominated. As a result, totals presented may differ from disclosures made in the Statement of Plan Net Assets (pages 24-25), which reflects the primary asset class in which the fund manager invests.

### Investment Types (expressed in thousands)

|                    | Fair Value in |    |             |       |   |                 |
|--------------------|---------------|----|-------------|-------|---|-----------------|
| Currency           | U.S. Dollars  | Fi | ixed Income | Cash  | 1 | <b>Equities</b> |

#### **Derivatives**

Derivatives are instruments (securities or contracts) whose value is dependent on such things as stock or bond prices, interest rate levels, or currency exchange rates. In June 1994, the Board adopted a formal written policy on the use of derivatives which is reviewed periodically. Only a few selected managers are permitted to use derivatives. In every case, the types of derivatives used and limits on their use are stated in the manager's contract and are monitored on an ongoing basis. Derivatives serve a variety of useful purposes for the System, including the reduction of foreign exchange risk, the minimization of transaction costs and as a means of implementing value added strategies to enhance returns. So-called "exotic" derivatives are not used. If the use of derivatives in a portfolio strategy results in some leverage, that leverage is never permitted to expose the Fund to a loss greater than the amount committed to that strategy.

The following lists principal categories of derivatives and their uses during the year:

| Category                           | Purpose  |
|------------------------------------|--|
| Foreign exchange forward contracts | Hedge currency risk of investments denominated in foreign  |
|                                    | currencies; enhance return   |
| Exchange traded futures contracts  | Reduce transaction costs; hedge equity market risk; control fixed income; portfolio duration; enhance return |
| Exchange traded options contracts  | Enhance return; reduce transaction costs   |
| Asset backed securities            | Enhance return   |

Generally, derivatives are subject both to market risk and counterparty risk. The derivatives utilized by the System typically have no greater risk than their physical counterparts, and in many cases are offset by exposures elsewhere in the portfolio (for example, a short S&P 500 futures contract partially hedging a long position in S&P 500 securities). Counterparty risk, the risk that the "other party" to a contract will default, is managed by utilization of exchange traded futures and options where practical (in which case the futures exchange is the counterparty and guarantees performance) and by careful screening of counterparties where use of exchange traded products is impractical or uneconomical.

Derivative securities are priced and accounted for at their fair value. For exchange traded securities such as futures and options, closing prices from the securities exchanges are used. For fixed income derivatives such as collateralized mortgage obligations (CMOs), commercial pricing services (where available) or bid-side prices from a broker/dealer are used. Foreign exchange contracts are valued at the price at which the transaction could be settled by offset in the forward markets.

The Investment Committee monitors the System's derivative holdings on a regular basis to insure that the derivatives used by managers of the System will not have a material adverse impact on its financial condition.

# Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Members of the Board of Pension Trustees Delaware Public Employees' Retirement System:

We have audited the financial statements of the Delaware Public Employees' Retirement System (the System) as of and for the year ended June 30, 2005, and have issued our report thereon dated August 29, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the System's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters including the internal control over financial reporting that have been reported to the management of the System in a separate letter dated August 30, 2005.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is solely intended for the information and use of the Board of Pension Trustees, Secretary of Finance, Office of Pension Management, Office of the Controller General, Office of the Attorney General, Office of the Governor, and the Office of Management and Budget and is not intended to be and should not be used by anyone other than these specified parties. However, under 29 Del C., Section 10002(d), this report is public record and its distribution is not limited.

August 16, 2005

Dear Board Members, Participants, and Beneficiaries:

The Board of Pension Trustees' Investment Committee (Committee) oversees the investment of the retirement funds of the Delaware Public Employees' Retirement System (System). The Committee's investment oversight includes the nine retirement plans [State Employees', Special, New State Police, Judiciary, County & Municipal Police/Firefighters', County & Municipal Other Employees', Volunteer Firemen's, Diamond State Port Corporation, and Closed State Police] that the Board of Pension Trustees (Board) administers and the four commingled pension funds [County & Municipal Police/Firefighters' COLA, Post-Retirement Increase (PRI), Delaware Local Government Retirement Investment Pool (DELRIP), and State Employees' Post-Retirement Health Insurance Premium] that the Board manages.

The Committee consists of five members appointed by the Board. The Committee operates within the following investment objectives established by the Board:

- w To realize a real return of 3% per year over long periods.
- w To control portfolio risk so as to limit downside price fluctuation of the total System.
- w To realize as high a rate of total return as possible consistent with all of the above.

While not restricted by mandated targeted asset allocations, investment decisions are further dictated by the Board's internal investment policy which requires a minimum of 20% - 25% of the total assets of the System to be invested in fixed income investments, such as bonds and cash equivalents. The Committee monitors this policy with the assistance of the Investment Advisor. Also, the Committee reviews prospective risk levels and rates of return of all classes of assets. Hence, the Committee assures investment diversification by selecting managers whose demonstrated performance reflects different management styles and asset class expertise. Most importantly, the Committee closely monitors the performance of all investment managers, not only in relation to specific absolute objectives, but also in relation to other fund managers following the same investment objectives.

The System returned 9.6% for Fiscal Year 2005. The total System's annualized rate of return over the last five, ten, and fifteen years was 3.1%, 9.7%, and 10.2%, respectively. As reported by a major performance ranking comparison service, the System's investment performance ranks close to the median for the one-year and five-

Board Members, Participants, and Beneficiaries Page 2 August 16, 2005

year periods, and in the top quartile of public funds for the most recent ten-year period. For the period ending June 30, 2005, the System's market value totaled \$5.9 billion representing an increase in assets from June 30, 2004 of \$406.8 million.

The fiscal year witnessed fairly steady economic growth conditions, as consumer spending and employment gains, along with new order growth for business equipment, all showed measurable advances during the year. Against this backdrop, corporate earnings experienced double-digit growth, albeit at a slower rate than in the prior year. For the fiscal year, the S&P 500 stock index gained 6.3%. Despite strong profit growth, the onset of significantly higher energy prices and worries about rising short-term interest rates led to below average stock market gains for the period. Meanwhile, the bond market, as measured by the Lehman Aggregate index, had a similar 6.8% return, as bonds benefited from declines in long-term interest rates, despite a series of increases in short-term rates by the Federal Reserve.

The System's fiscal year return of 9.6% is a function of the Committee's ongoing focus on risk control and diversification. In looking at the long-term risks and returns of investing in stocks and bonds, the Committee has come to focus more on non-traditional asset classes, which have again proven beneficial to the profile of the System's portfolio. During the year, the Investment Committee reallocated some foreign equity assets from active to passive management and realized gains from equity and fixed income investments, the proceeds of which were directed primarily to new alternative investment opportunities.

In connection with the increased focus on non-traditional assets, the Investment Section of this report now separates the performance of alternative investments. This group includes investments previously disclosed as private investments. As the managed futures exposure is considered a fixed income alternative, it is included in that asset class. Combining these diverse investments allows the Committee to monitor the performance and weighting of the group relative to the entire investment portfolio.

On behalf of our Trustees, we welcome Clark Phippen as a new Investment Committee member effective October 2004. We also appreciate the service and contributions of former member Barbara S. Graham, whose service during the year was much appreciated. Barbara, who joined the Committee during the year, resigned in April due to other business commitments.

We would like to acknowledge the recent passing of A. Herbert Nehrling, Jr., who ably served the Committee from 1990 to the end of 2003. Over his tenure, the Committee valued Herb's insightful questions and contrarian viewpoints.

As always, we thank our dedicated professional staff at the Office of Pensions, our Investment Advisor, our custodian banks, and our money managers, who all work diligently to assure the successful operation of the Board of Pension Trustees' Investment Committee.

Respectfully submitted,

Ela B. Ferrari

Elva B. Ferrari, Chair

Board of Pension Trustees' Investment Committee

#### **Investment Activity**

For the fiscal year, the Delaware Public Employees' Retirement System (System) had an overall 9.6% rate of return. This performance ranks the System near the median for one-year and five-year periods, and in the top quartile of public funds for the most recent ten-year period.

The equity markets showed steady performance during Fiscal Year 2005, especially in the first half of the year. Bonds benefited from declines in long-term interest rates, despite a series of short-term rate increases. For the fiscal year, the System's domestic equity investments produced a return of 13.5% versus the S&P 500 stock index return of 6.3%. While the Lehman Aggregate bond index returned 6.8%, the System's fixed income investments provided a return of 8.1%.

Return data for the total System was calculated on a time-weighted basis in accordance with the standards of the Association for Investment Management & Research (AIMR). Valuations, where available, are based on published national securities exchanges prices.

#### **Investment Philosophy and Objectives**

In the investment of public funds, adequate funding of employee pensions is a paramount concern. Excessive risk taking could jeopardize that funding. An appropriate balance must be struck between risks taken and returns sought to ensure the long-term health and affordability of the plans involved. For 30 years, the System has been managed to control the extent of downside risk to which assets are exposed while maximizing the potential for long-term gain.

Specific investment objectives are:

- To realize a real return (System return less CPI) of 3% per year over long periods (about 15 years).
- To control portfolio risk so as to limit downside price fluctuation of the total System in any 12-month period.
- To realize as high a rate of total return as possible, consistent with all of the above.

To achieve these objectives, these investment policies are employed:

- Allocate a minimum of 20% 25% of assets to fixed income investments such as bonds, cash equivalents, and certain real estate investments.
- While not restricted by specific targeted asset allocations, maintain a widely diversified portfolio, so as to minimize the risk of overexposure to any one market sector or investment style.
- Closely monitor the performance of all investment managers against specific absolute objectives and in relation to other managers following the same investment objectives.

#### **Investment Process**

While the objectives and policies have been repeatedly reaffirmed, the implementation process undergoes continuous evolution. The increasing volume of investment information and the complexities of the global marketplace necessitate the continuous development and use of advanced information systems. Ongoing enhancements are employed in every aspect of investment management, from asset allocation decisions to manager selection and performance measurement.

#### **General Management**

During each year the Committee, with Board of Pension Trustees' (Board) oversight, carries out a number of general management practices to assure that the appropriate policies, controls, and resources are in place. Areas that are reviewed at least annually include:

- Investment objectives and policies based on an analysis of cash flow and liabilities.
- Management tools for decision making.
- Long-term risk and return levels for various investment options.
- Manager organization, performance, transaction costs, fees and expenses, proxy voting procedures, and adherence to investment philosophy.
- System performance versus externally measured universes of similar funds.
- Internal and external audits.
- Contacts with other leading state investment funds to compare management practices.
- Policy objectives and performance of alternative investments (including limited partnerships, and private LLCs).

#### **Investment Results**

In Fiscal Year 2005, the investment process experienced:

- A time-weighted total return of 9.6% based on market values.
- Benefit and expense payments exceeded net employer and member contributions by \$119.4 million.
- Net investment earnings (investment earnings less investment expenses) of \$526.2 million.
- Increase in total Fund net assets from \$5.521 billion to \$5.928 billion.
- Overall volatility well below that of an all common stock portfolio.

Funds are invested for long-term results and each single year's returns must be viewed in relation to longer periods.

| Fiscal Years Ending June 30, |      |       |      |        |        |           | Ending    | Ending    |
|                              | 2005 | 2004  | 2003 | 2002   | 2001   | 6/30/05 * | 6/30/05 * | 6/30/05 * |
| Total System Return          | 9.6% | 15.9% | 3.1% | (6.3%) | (5.1%) | 3.1%      | 9.7%      | 10.2%     |
| Consumer Price Index (CPI)   | 2.5% | 3.2%  | 2.2% | 1.0%   | 3.3%   | 2.4%      | 2.5%      | 2.5%      |
| Fund Real Return             | 7.1% | 12.7% | 0.9% | (7.3%) | (8.4%) | 0.7%      | 7.2%      | 7.7%      |

\*All returns greater than one year are annualized.

One investment objective is to achieve an annualized rate of total return over any 15-year period that is at least 3 percentage points greater than inflation. The most recent 15-year result is a real rate of return of 7.7% (10.2% System return less 2.5% CPI) measured on a time-weighted basis. During this period, risk, as measured by relative volatility, was approximately 57.3% of the level that would have been experienced by a fund invested 100% in the S&P 500. The real rate of return from such a 100% stock portfolio would have been 8.1% (10.6% S&P 500 less 2.5% CPI). These are not typical real rates of return and should not be expected going forward. The last 15 years encompassed periods of exceptional returns in both the bond and stock markets which are unlikely to be repeated.

#### Periods Ending June 30, 2005

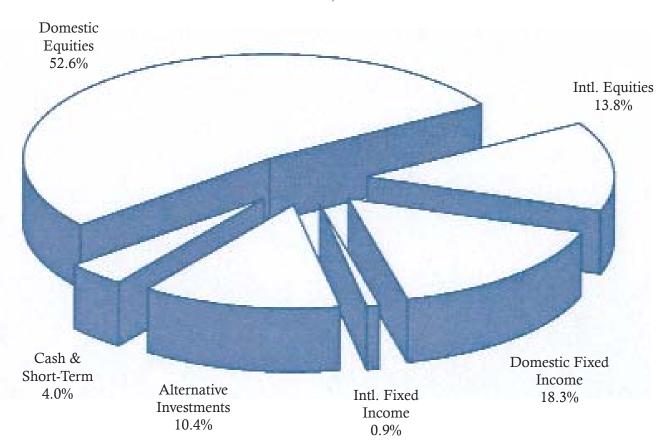

(All Returns Greater Than One Year Are Annualized)

|                                 | Five Years | Ten Years | Fifteen Years |
|---------------------------------|------------|-----------|---------------|
| Total System Return             | 3.1%       | 9.7%      | 10.2%         |
| S&P 500 Index % Return          | (2.4%)     | 9.9%      | 10.6%         |
| Excess Return vs. S&P 500 Index | 5.5%       | (0.2%)    | (0.5%)        |
| Relative Risk vs. S&P 500 Index | 57.6%      | 56.2%     | 57.3%         |

Chart II on page 62 summarizes the total System and asset class segment returns for each of the last five fiscal years and the annualized returns for the 3-year and 5-year periods ending June 30, 2005.

Charts III and IV on page 63 show the quarterly cumulative total System performance for the 5-year and 10-year periods ending June 30, 2005 compared to indices representative of some of the asset classes in which the System invests.

# **Asset Allocation** as of June 30, 2005

#### **Asset Allocation**

Funds are deployed in diverse asset classes offering the desired risk and return characteristics in an effort to achieve stated investment objectives. The accompanying table shows the most recent five-year history and trends in asset allocation. For these asset classifications, the Pooled Equity and Fixed Income accounts are included in their respective equity and fixed income asset classes and, therefore, are different from the asset classes used in the financial section on pages 24-25.

<sup>\*</sup>Real estate holdings in the form of Real Estate Investment Trusts (REITs) held through Fiscal Year 2002 are included in equities.

Individual investment managers are selected for each asset class based on a rigorous set of performance and organizational criteria. In addition to a proven track record of managing a given class of assets, they must have a clearly stated and consistently applied investment policy and decision-making process, continuity of personnel, and a well-defined plan for retaining key personnel and controlling growth.

All investment managers are expected to meet and maintain a number of organizational criteria in order to continue as managers. During the fiscal year, transition manager services were utilized to transfer foreign assets from active management to an existing active global management strategy. In the area of domestic equities, assets were transferred from a passive style fund to a new active manager, and funds allocated to three existing managers were reduced.

One fixed income manager was terminated, and two existing managers were given additional funds. The allocation to short-term investments was also increased.

In the area of alternative investments, the System established relationships with two new managers, and participated in five new funds with existing alternatives managers. At the end of the fiscal year, the money managers of the System and their responsibilities were:

| Investment Manager                                    | Responsibility                       | Fiscal Year Retained |

<sup>(1)</sup> The total System benchmark is a return of 3% greater than CPI over any 15-year period.

<sup>(2)</sup> Includes convertible securities and real estate investment trusts; excludes equity portions of Pooled Equity & Fixed Income portfolios.

<sup>(3)</sup> Excludes fixed income and cash portions of Pooled Equity & Fixed Income portfolios, includes managed futures.

<sup>(4)</sup> Comprises investment accounts which tactically rebalance among stocks, bonds and cash (including foreign stocks, bonds, and cash) to optimize risk/return characteristics of the mix. The underlying assets in these accounts are generally passively invested in index vehicles.

<sup>(5)</sup> Includes Private Equity and Private LLCs. For purposes of benchmark comparison, all returns are shown on a non-lagged basis (through 3/31/05 for Fiscal Year 2005 and cumulative periods). Predominant investments have been venture capital. In the future, additional benchmarks may be added as they become available.

 $<sup>^{(6)}</sup>$  The Cambridge US Venture Index return for the quarter ended 6/30/05 was not available at press time. This also impacts the 3 and 5-year returns.

<sup>\*</sup> Other fees include Alternative Investment and Transition Management fees detailed on page 37. These fees have been excluded from the basis points calculation since they have already been netted from income. Basis point calculation is the weighted average based on the quarterly fund valuations.

#### Glossary of Terms Used

#### Fair Value (Market Value):

The value at which an investment could be sold in a transaction between a willing buyer and a willing seller. All assets with regularly traded markets are shown at the fair value as determined by the custodian bank based on quoted market values. All other assets are adjusted to market value monthly except venture capital which is adjusted at least quarterly based on individual partnership procedures, and any private placement or partnership participation where values are supplied periodically by the respective management organizations in accordance with established procedures.

#### Time-Weighted Total Return:

The measure used for judging investment management of the System. It is based on market value and minimizes or eliminates any distortion in the rate of return caused by the timing of cash flows into or out of the System.

#### Alternative Investments:

Alternative Investments include non-traditional investments, some of which may be illiquid, such as limited partnerships and private LLCs.

#### SCHEDULE OF BROKER COMMISSIONS\*

The System has no commission recapture, directed payment, or "soft dollar" arrangements; however, such arrangements may exist between brokers and investment managers. Broker selection is the responsibility of individual investment managers. Broker commissions during this fiscal year decreased primarily due to the reallocation of assets from active to passive management.

The following is a list of brokers who received \$20,000 or more in commissions during Fiscal Year 2005.

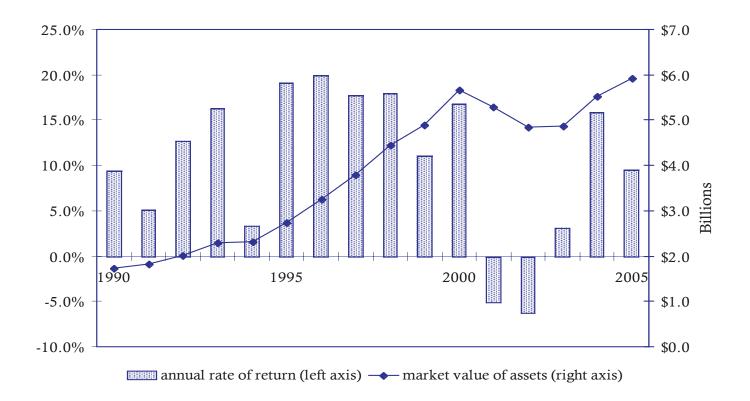

|                                     | # of        | Commission |    | Total Dollar     |    | Total        |
|-------------------------------------|-------------|------------|----|------------------|----|--------------|
| Broker                              | Shares      | Per Share  | A  | mount of Trades  |    | Commission   |
| GOLDMAN SACHS & CO                  | 7,017,883   | \$0.05     | \$ | 123,908,227.79   | \$ | 315,936.86   |

Board of Pension Trustees Delaware Public Employees' Retirement System McArdle Building 860 Silver Lake Blvd., Suite 1 Dover, DE 19904-2402

Dear Board Members:

At your request, we have prepared our annual actuarial valuations of each of the funded pension plans administered by the Board as of June 30, 2005. The results of these valuations are contained in the enclosed exhibits. Any distribution of the exhibits must be in their entirety, including this cover letter, unless prior written consent is obtained.

#### **Funding Objective**

The funding objective of the System is to establish contribution rates that, over time, will remain level as a percent of payroll. In order to achieve this, we developed a contribution rate that will provide for current cost (i.e., normal cost expressed as a level percent of payroll) plus level percent of payroll amortizations of each layer of the unfunded liability over a specified period. In addition, unfunded liabilities due to cost-of-living adjustments to retirees are funded through a schedule of future transfers from the Post-Retirement Increase Fund.

To our knowledge, the State has consistently funded the full amounts required based on the actuarial valuations and specific statutory provisions.

#### **Assumptions and Methods**

Milliman recommended, and the Board of Trustees adopted, the actuarial assumptions and methods used in these valuations based on our experience study completed during the fiscal year ended June 30, 2004. The Board set the investment return assumption based on advice from its investment consultant.

We believe that all costs, liabilities, rates of interest, and other factors for the System have been determined on the basis of actuarial assumptions and methods which are individually reasonable (taking into account the experience of the System and reasonable expectations) and which, in combination, offer our best estimate of anticipated experience affecting the System. Nevertheless, the emerging costs will vary from those presented in this report to the extent that actual experience differs from that projected by the actuarial assumptions.

Actuarial computations presented in this report are for purposes of determining the recommended funding amounts for the System. Actuarial computations under GASB Statements No. 25 and 27 are for purposes of fulfilling financial accounting requirements. The computations prepared for these two purposes may differ. The calculations in the enclosed exhibits have been made on a basis consistent with our understanding of the System's funding requirements and goals, and of GASB Statements No. 25 and 27. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Board of Pension Trustees August 19, 2005 Page 2

#### **Reliance on Others**

In performing this analysis, we relied on data and other information provided by the Delaware State Pension Office. We have not audited or verified this data and other information. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

We performed a limited review of the data used directly in our analysis for reasonableness and consistency and have not found material defects in the data. If there are material defects in the data, it is possible that they would be uncovered by a detailed, systematic review and comparison of the data to search for data values that are questionable or for relationships that are materially inconsistent. Such a review was beyond the scope of our assignment.

#### Supporting Schedules

Milliman provided the figures disclosed in Schedule 1 of the Supporting Schedules to the Financial Section and the Notes to Trend Data. In addition, we were responsible for the following schedules found in the Actuarial Section: Actuarial Assumptions and Methods, Schedule of Active Member Valuation Data, and Solvency Test.

#### Certification

I believe the State's pension plans are adequately and appropriately financed, in that the contributions are determined and funded on a level cost as a percentage of payroll basis using reasonable actuarial methods and assumptions.

I hereby certify that, to the best of my knowledge, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the applicable Guides to Professional Conduct, Amplifying Opinions, and Supporting Recommendations and Interpretations of the American Academy of Actuaries. I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Sincerely,

Milliman, Inc.

John Muehl, FSA, MAAÀ, EA ¢onsul**i**ng Actuary

#### **Actuarial Assumptions and Methods**

#### **Asset Valuation Method**

The market value of assets, representing the realizable value of the assets on a particular day, is not necessarily an appropriate value for the purpose of setting contribution rates. This is because funding will take place over a long period of time during which market values can be expected to fluctuate significantly from year to year. If market values were used to develop contribution rates, the resulting contribution rates would also fluctuate from year to year.

In order to produce a stable pattern of contribution rates, market values are adjusted to remove some of the volatility. The actuarial value of assets is equal to 1/5th of the market value plus 4/5th of the expected value, where the expected value is equal to last year's actuarial value and subsequent cash flows into and out of the fund accumulated with interest at the valuation rate (the July 2004 assumption of 8.0%).

#### **Funding Method**

We used the Aggregate Entry Age Normal Method to determine costs for all plans. Under an Entry Age method, a total contribution rate is determined which consists of two elements, the normal cost rate and the unfunded liability rate (UAL). In addition, the overall contribution rate includes a provision for the plan's expenses.

For each State plan, an Entry Age Normal cost rate is determined for a typical member of each respective plan. This rate represents the member's expected future employer-paid normal costs divided by his expected future salary.

In addition to contributions required to meet the normal cost, contributions are required to meet each plan's unfunded actuarial liability. Actuarial liability equals the present value of future benefits less the present value of future normal costs and future employee contributions. The unfunded liability is the total actuarial liability for all members less the actuarial value of the System's assets.

A portion of the unfunded liability will be paid through future, scheduled transfers from the Post-Retirement Increase Fund. These transfers will cover the liability increases due to the cost-of-living increases granted on July 1, 2001, September 1, 2003, July 1, 2004, and July 1, 2005. The remaining unfunded actuarial liability will be amortized over the next 21.17 years for the State Employees' Plan, 15.75 years for the Judiciary Plan, 14.78 years for the State Police Plan, 22 years for the Volunteer Firemen's Plan, and 17 years for the Diamond State Port Corporation plan through the unfunded liability amortization component of the total contribution.

#### **Actuarial Assumptions**

Milliman recommended, and the Board of Trustees adopted, the actuarial assumptions for the actuarial valuation based on the experience study completed in 2004. Differences between assumed and actual experience (actuarial gains and losses) are part of the unfunded actuarial liabilities. The following significant assumptions were used in the actuarial valuations as of July 1, 2005:

- 1. Rate of return on investments: 8.0% compounded annually (adopted 2004).
- 2. Salary increases attributable to inflation: 3.75% compounded annually (adopted 2004).
- 3. Salary increases attributable to merit and productivity: Increases for State Employees ranging from ½% to 6.14% per year (adopted 2004).

### 4. Mortality:

Rates of mortality vary by plan and gender. For retirees, assumption anticipates future improvements in mortality through the use of a projection scale (adopted 2004). Sample retiree mortality rates from the State Employees plan are as follows:

|     | New As | ssumptions |       |        |  |  |
|-----|--------|------------|-------|--------|--|--|
| Age | Male   | Female     | Male  | Female |  |  |
| 35  | 0.18%  | 0.06%      | 0.50% | 1.10%  |  |  |
| 40  | 0.25%  | 0.09%      | 0.80% | 1.50%  |  |  |
| 45  | 0.35%  | 0.14%      | 1.30% | 1.60%  |  |  |
| 50  | 0.48%  | 0.21%      | 1.80% | 1.70%  |  |  |
| 55  | 0.61%  | 0.30%      | 1.90% | 0.80%  |  |  |
| 60  | 0.90%  | 0.49%      | 1.60% | 0.50%  |  |  |

Active employee mortality rates from the State Employees plan are for males, 95% of the RP-2000 RE Mortality Table, and for females, 80% of the RP2000 RE Mortality Table.

- 5. Rates of termination of service, disablement, and retirement:
  Based on the results of the Experience Study completed in 2004 (adopted 2004).
- 6. Aggregate active member payroll: 3.75% annually (adopted 2004).

### Summary of Plan Provisions and Changes in Plan Provisions

The plans valued are those described on pages 29-32 of the Financial Section. In several of the plans, there were plan amendments. The following plans were amended effective July 1, 2005 to grant a cost-of-living adjustment (COLA) of 2% to all retirees who retired prior to July 1, 2004, plus an additional monthly benefit of \$50 for those who retired prior to January 1, 1981:

The State Employees' Pension Plan
Special Pension Fund
The New State Police Pension Plan
The Judiciary Pension Plan
The County & Municipal Police and Firefighters' Pension Plan

In addition, there were several plan changes adopted this year:

- The New State Police Plan was amended to increase the survivor benefit for line of duty deaths from 50% to 75%.
- The County & Municipal General Employees' Plan was amended to remove the Social Security offset limit at age 62, eliminate the employee contribution in excess of the Social Security wage base, and increase pensions in payment to remove the Social Security offset limit.
- The County & Municipal Police and Firefighters' Pension Plan was amended to increase the benefit multiplier over 20 years to 3.5%, remove the Social Security offset limit at age 62, increase employee contributions from 5% to 7% effective January 1, 2006, and require them for all service, and increase pensions in payment to reflect these changes.
- The Judiciary Pension Plan was amended to include prior service from the State Employees' Pension Plan for the purposes of vesting and eligibility, excluding service as an elected official.

The above plan changes are reflected in the liabilities shown as of June 30, 2005.

The State Employees' Pension Plan is now implementing a new long-term disability insurance program, effective January 1, 2006. For the July 1, 2005 valuation, we have not reflected the new disability insurance program.
