FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

A MILLIMAN SLUDAL FIRM

1921 Gallows Road, Suite 900 Vienna, VA 22182-3995 **Tel +** 1 703 917.0143 **Fax +** 1 703 827.9266 www.milliman.com

November 30, 2007

Ms. Sarabeth Snuggs State Retirement Director Division of Retirement PO Box 9000 Tallahassee, FL 32315-9000

Dear Ms. Snuggs:

At your request, we have conducted our annual actuarial valuation of the Florida Retirement System (FRS) as of July 1, 2007, for determining contribution payments for Fiscal Year 2009. The major findings of the valuation are contained in the following report.

Section I contains an Executive Summary of the results of our valuation followed by four sections containing detailed information on FRS Assets (Section II), Liabilities (Section III), Contributions (Section IV), and Accounting Statements (Section V). In the Appendices, we provide information regarding actuarial methods and assumptions, a summary of plan provisions, membership statistics, cost projections, and a glossary of terms.

All costs and liabilities shown in this report have been determined on the basis of actuarial assumptions and methods set forth in Appendix A. The actuarial assumptions used in performing this valuation have been recommended by the actuary and adopted by the Actuarial Assumption Conference based on Milliman's most recent review of the System's experience for the period July 1, 1998 through June 30, 2003 completed during Plan Year 2004-2005. We believe these assumptions are reasonable and have used them for purposes of GASB Statements No. 25 and No. 27. For funding purposes, we believe that the assumptions are reasonable except for the retirement assumptions which have been modified to reflect the Assumption Conference decision on funding DROP. The current funding method treats the impact of DROP on a system basis meaning all classes' retirement rates do not explicitly recognize the probability of a member electing DROP participation, and the related individual class impact on their liabilities and funding. The results of this report are dependent upon future experience conforming

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Ms. Sarabeth Snuggs November 30, 2007 Page 2

to these assumptions. Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions used in this valuation. It is certain that actual experience will not conform exactly to the assumptions used in this valuation. Actual amounts will differ from projected amounts to the extent that actual experience deviates from expected experience.

Actuarial computations presented in this report are for purposes of determining the recommended funding amounts for the System. Actuarial computations under GASB Statements No. 25 and No. 27 are for purposes of fulfilling financial accounting requirements. The calculations in the enclosed report have been made on a basis consistent with our understanding of the System's funding requirements and goals, and of GASB Statements No. 25 and No. 25 and No. 27. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

In preparing our report we relied, without audit, on information (some oral and some written) supplied by the Division of Retirement. This information includes, but is not limited to, statutory provisions, employee census, and financial information. In our examination of these data, we have found them to be reasonably consistent and comparable with data used for other purposes. Since the valuation results are dependent on the integrity of the data supplied, the results can be expected to differ if the underlying data is incomplete or missing. It should be noted that if any data or other information is inaccurate or incomplete, our calculations may need to be revised.

This actuarial valuation was prepared and completed by me or under my direct supervision, and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate, and in my opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Part VII, Chapter 112, Florida Statutes. There is no benefit provision or related expense to be provided by the plan and/or paid from the plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. There were no known events that were not taken into account in the valuation. We have not assumed any changes in the trend of actuarial experience.

Milliman's work product was prepared exclusively for the Florida Department of Management Services, Division of Retirement for a specific and limited purpose. It is a complex technical analysis that assumes a high level of knowledge concerning the Florida Retirement System's operations, and uses Division data, which Milliman

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Ms. Sarabeth Snuggs November 30, 2007 Page 3

has not audited. It is not for the use or benefit of any third party for any purpose. Any third party recipient of Milliman's work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs. Any distribution of this report must be provided in its entirety including this cover letter, unless prior written consent is obtained from Milliman.

On the basis of the foregoing, I hereby certify that, to the best of my knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with Actuarial Standards of Practice, the Code of Professional Conduct and Qualification Standards for Public Statements of Actuarial Opinion of the American Academy of Actuaries. I am a member of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Respectfully submitted,

Milliman, Inc.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

SECTION I EXECUTIVE SUMMARY

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

This report presents the results of our July 1, 2007 actuarial valuation of the Florida Retirement System. In this section, we compare the 2006 and 2007 principal valuation results for the total System. This comparison includes an analysis of the primary factors contributing to the change in the FRS's assets, liabilities, and contributions since July 1, 2006. We conclude this section with summary comments regarding the System's overall financial condition.

We would like to point out several key changes reflected in this valuation:

- The composite normal cost rate, excluding DROP, remained unchanged at 11.52% of payroll.
- The unfunded actuarial liability (including DROP Class liability) changed due to an additional year of experience; in fact the surplus increased from \$7.6 billion to \$8.2 billion. Florida Law establishes a methodology to develop the resulting usable surplus. This amount is statutorily amortized over 10 years and translates to \$0.174 billion available surplus for the Plan Year 2008-2009.
- Prior to July 1, 2002, all members of the FRS Defined Benefit Program were provided a 90-day election period to elect between the Defined Benefit Program and the Public Employee Optional Retirement Program (PEORP). Members newly hired after the election period for their employee group are provided five months after their month of hire to file an election between the two primary Members who do not make an election default into the Defined programs. Benefit Program. After the period during which a member had the choice to elect the Defined Benefit Program or the PEORP, an employee will have one opportunity, at the employee's discretion, to choose to move from the Defined Benefit Program to the PEORP or from the PEORP to the Defined Benefit Program. During the initial election period, approximately 21,000 members (less than 4% of the active population) elected to transfer from the FRS Defined Benefit Program to the PEORP during the enrollment periods for existing defined benefit plan members. Due to the relatively small percentage making the election, the initial impact on the Defined Benefit Program was deminimus. Approximately \$363 million was transferred from the Defined Benefit Program to the PEORP in 2003 as a result of these elections creating an estimated actuarial gain of \$293 million. Whether the long-term impact will be more significant will be determined by the actions (i.e., elections) of future hires. While to date these elections have also been primarily to the FRS Defined Benefit Program, it is unknown whether this trend will continue.

Members of the FRS Defined Benefit Program who elected to join PEORP and elected to transfer the present value of their service credits during the initial election period in 2002 and then choose to make a second election back to the Defined Benefit Program will not have to pay to the Defined Benefit Program the full cost of their actuarial liability. The cost of this potential subsidy is considered a contingent liability. This contingent liability is considered pre-funded because legislation enacted in 2001 "walls off" for 25 years the actuarial gain arising from these transfers to PEORP. The remaining contingent liability as of July 1, 2007 is \$230 million. Thus the available surplus of \$8.2 billion was reduced to \$8.0 billion prior to determining the available surplus for budget consideration.

In general, throughout this report, any reference to FRS refers to the FRS Defined Benefit Program, unless noted to the contrary.

The tables immediately following compare July 1, 2006 actuarial valuation results with July 1, 2007 actuarial results. The difference column shows the change between the final July 1, 2007 valuation results and the July 1, 2006 results.

A. Assets and Liabilities

A comparison of the actuarial liabilities and actuarial value of assets follows. These figures are based upon the actuarial assumptions used to determine the actuarial costs of the FRS (see Appendix A).

	Valuation Results (numbers in \$ billions)						
	July 1, 2006 July 1, 2007 Difference						
Actuarial Liability	\$ 109.5	\$ 117.4	\$ 7.9				
Actuarial Value of Assets	\$ 117.1	\$ 125.6	\$ 8.5				
Unfunded Actuarial Liability	\$ (7.6)	\$ (8.2)	\$ (0.6)				

In Section V of this report we present an additional measure of funded status, the "accumulated benefit obligation" (ABO), based on both the actuarial value of assets and the market value of assets.

B. Contributions

Contribution rates for each class are set by statute and consist of a normal cost contribution and an unfunded liability contribution. The unfunded liability amortization payment will consist primarily of costs or savings associated with plan changes, assumption changes, differences in actual and expected experience, or changes in

actuarial methodology (if applicable). As of July 1, 2007 the FRS has a UAL (surplus) of (\$8.2) billion, prior to adjustments for the contingent liability.

The current surplus is 7.0% of the actuarial liability prior to recognition of the contingent liability and 6.8% after recognition of the contingent liability. Thus, ½ of the excess from 5% to 10% is available to be used. After the rate stabilization mechanism is applied approximately \$1.058 billion of the surplus is available for contribution rate reduction, or other Florida Retirement System uses. This surplus pursuant to Florida Law is amortized over 10 years, which translates to \$0.174 billion available for the Plan Year (PY) 2008-2009.

The comparative FRS Regular and Special Risk contribution rates resulting from the 2006 valuation and this valuation (prior to any use of the surplus) are as follows:

	· · · · · · · · · · · · · · · · · · ·	July 1, 2006 Valuation Results		2007 Results	Difference	
	FRS Reg	Special Risk	FRS Reg	Special Risk	FRS Reg	Special Risk
Normal Cost	9.59%	22.01%	9.60%	22.03%	0.01%	0.02%
Certain Post-1998 Benefit Increases and Experience Studies	-0.94%	-0.58%	-0.94%	-0.57%	0.00%	0.01%
Initial Surplus Reduction	<u>0.94%</u>	<u>0.58%</u>	<u>0.94%</u>	<u>0.57%</u>	<u>0.00%</u>	<u>-0.01%</u>
Preliminary FRS Contribution Rate	9.59%	22.01%	9.60%	22.03%	0.01%	0.02%
Additional Surplus Reduction	-0.97%	-2.48%				
Administrative Charge	<u>0.00%</u>	<u>0.00%</u>		Not detern	nined	
Enacted DB FRS Contribution Rate (Prior to blending for the uniform rate structure)	8.62%	19.53%		Not detern	nined	

The July 1, 2006 valuation provided proposed contribution rates for plan year 2007-2008. Hence, there is a two-year lag between when the rates are set and when the contribution dollars are coming into the System. The July 1, 2006 preliminary FRS contribution rates for all classes were reduced through use of the available surplus.

The current valuation proposes rates for plan year 2008-2009. Included in Section IV of this report we provided the preliminary contribution rate and prepared five possible scenarios assuming the Legislature uses all \$0.174 billion available surplus to reduce contribution rates. One scenario shows 1.49% is available for rate reduction for all classes except DROP, as compared to the 1.45% reduction last year (Table IV-3). Another scenario assumes the DROP contribution rate is reduced using surplus to 9.80%, the enacted DROP rate for the Plan Year 2007-2008, and the remaining 1.40%,

is available for the rate reduction of all classes except DROP (Table IV-4). Tables IV-5, IV-6 and IV-7 show the utilization of all available surplus proportionate to each class's liability, payroll and normal cost, respectively. All tables show the utilization of available surplus for rate reduction after first offsetting the UAL cost by various percentages of payroll for the aforementioned certain post-1998 benefit increases and the 1998 and 2003 experience studies. **Please note these scenarios are meant for illustrative purposes only as possible uses of the surplus.**

The existence of a surplus and/or the rate stabilization mechanism may lead to an accounting disclosure under GASB Statement Number 27 (see Section V).

C. Membership

The total membership (active, terminated vested, retired, and DROP) of the FRS Defined Benefit Program increased by 16,552 members from 960,166 as of July 1, 2006, to 976,718 as of July 1, 2007, an increase of 1.7%. Please note, the IFAS population (223 members) is included in the July 1, 2007 member count, but was not included in the FRS as of July 1, 2006. The total annualized payroll of active members (exclusive of DROP members) increased by 4.23%, from \$23.51 billion as of July 1, 2007, a \$1.00 billion increase in payroll. A summary of membership growth by status follows:

	Valuation Results: Counts					
	July 1, 2006	July 1, 2007	% Change			
Active Members	599,816	598,438	-0.2%			
Terminated Vested Members	79,928	84,766	6.1%			
Retired Members	248,740	261,952	5.3%			
DROP Members	31,682	<u>31,562</u>	-0.4%			
Total Members	960,166	976,718	1.7%			

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

D. Experience

Several factors contributed to the changes in the FRS's assets, liabilities and contribution rates between July 1, 2006 and July 1, 2007. These factors included:

1. Assets:

The assets of the FRS, measured on an actuarial basis (i.e., smoothed), increased by \$8.409 billion. This change was attributable to the following:

Change Due to:

•	Contributions Received Payment of Benefits, and Expenses Investment Experience	\$2.778 (6.102) 11.733	
То	tal	\$8.409	billion

Of this total change, \$5.629 billion was expected, based on our assumption that the assets of the FRS would earn 7.75% during plan year 2006-2007. However, the actual annualized investment return on the actuarial value of assets was 10.16% resulting in an investment gain of \$2.780 billion. On a market value basis, the assets of the FRS earned 18.38%. On a year-by-year basis, the assets earned the following:

	Rates of Return*					
Asset Bases	2004/2005	2005/2006	2006/2007			
Market Value	10.71%	10.65%	18.38%			
Actuarial Value	7.43%	8.06%	10.16%			

* Assumes net cash-flow occurs mid-year

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

2. Liabilities:

The actuarial liabilities of the FRS increased by \$7.840 billion. This increase is attributable to the following:

Change due to:

 Expected increase based on current assumptions 	\$5.086
 Expected increase based on current assumptions (Gains) / Losses Healthy Retiree, Beneficiary & Terminated Vested Death Disabled Retiree Death Inactive Data Clean-Up Active Withdrawal Active Retirement Active Death Active Death Active Disability Salary Increases greater than expected New Actives (includes rehires) New Renewed Members Actives Entering DROP 	(0.680) ¹ (0.002) 1.172 (0.137) ^{2 & 3} (0.114) 0.008 (0.009) 0.360 0.930 ³ 0.112 0.564
Demographics/Other	0.550

Total Increase

\$7.840 Billion

The current financing method (see page I-12) for the DROP class makes it inconsistent with traditional gain/loss analysis. First, it makes any new DROP participant a source of actuarial loss since the retirement decrement reflects only expected retirements. Second, individual DROP liabilities are moved back to their original classes when the DROP membership ends. For purposes of this analysis, we have reallocated the DROP class gain/loss (see Table IV-2) to the seven traditional classes and subclasses of membership.

- ¹ The retiree mortality experience was a \$60 million gain.
- ² Includes PEORP and transfers between membership classes.
- ³ Transfers between membership classes are valued as withdrawals from the prior membership class and new entrants into the new membership class.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

3. Unfunded Liability:

The net change in the FRS's unfunded actuarial liability was a decrease of \$0.585 billion (i.e., an increase in the surplus of \$0.585 billion). The increase is attributable to the following:

Change due to:

• Expected Increase based on Current Assumptions		
and Funding Policy	(\$0.559)	
 Favorable Investment Experience 	(2.780)	
 Unfavorable Liability Experience 	2.754	
 Assumption or Benefit Changes 	0.000	
Total	(\$0.585)	Billion

See table on the following page for total gains/losses by class.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

I-9

E. Graphs

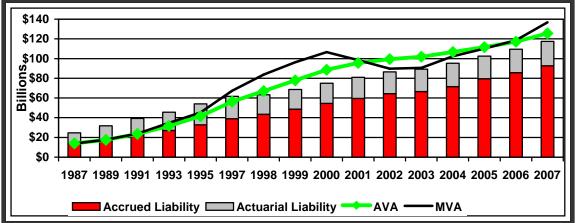

Chart B: CASH FLOWS

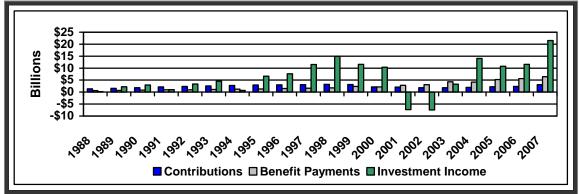

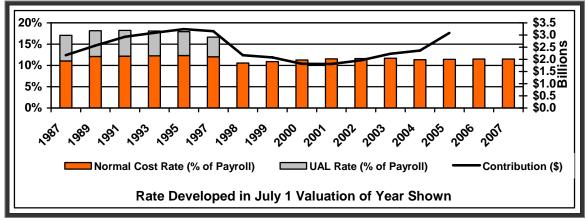

Chart C: CONTRIBUTION RATE (as % of Payroll) and CONTRIBUTIONS

* As discussed earlier, the contribution rate developed in this report is for plan year 2008 – 2009. Therefore, our graph above accounts for the two-year lag between the development of the contribution rate and the actual contribution to the System. In addition, the Legislature has used surplus pursuant to the Rate Stabilization Mechanism which produces "negative" UAL contribution rates.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

I-10

F. Summary Comments

We caution that the results herein are applicable only for the next year. With the following caveats, we expect that if the available surplus diminishes, contribution rates will trend toward the normal cost rates (subject to the net impact of charge and credit amortization bases.)

- Benefit and payroll increases always have a direct impact on costs and liabilities.
- The state of the economy affects membership turnover (i.e., if job mobility or security is uncertain, people tend to stay, hence increasing benefits earned).
- The extremely favorable investment returns prior to 2000 helped to mitigate the unfavorable investment returns in 2001-2003 and maintain the actuarial surplus. The FRS experienced favorable investment returns in subsequent years. Investment return on an actuarial basis (10.16% for PY 2006-2007) exceeded the 7.75% investment assumption. Unfavorable investment returns in the future would erode the actuarial surplus. For example, returns as shown in the following table would produce the corresponding estimated surplus amounts assuming no liability gains or losses.

Market	Return	turn UAL / (Surplus) ¹⁾ measu			
PY 2007–2008	PY 2008–2009	July 1, 2007	July 1, 2008	July 1, 2009	
7.75%	7.75%	\$ (7,996)	\$ (10,802)	\$ (13,434)	
0.00%	7.75%	(7,996)	(8,705)	(9,367)	
0.00%	0.00%	(7,996)	(8,705)	(7,316)	
4.07% ²⁾	4.07%	(7,996)	(9,807)	(10,488)	

- ¹⁾ Numbers in Millions
- ²⁾ The estimated market value as of November 2, 2007 was \$139.4 billion as supplied by the State Board of Administration. The 4.07% is the necessary market return required to reflect a \$139.4 billion market value as of July 1, 2008.
- The reader should note that while the effect of the implementation of PEORP is included in this report, the initial election percentage was less than 5%. Current PEORP membership is around 12% of total active membership. Elections by future hires may have a more material impact if a much larger percentage elect PEORP.
- The most recent experience study covered the period from July 1, 1998 to June 30, 2003. Typically experience studies are performed every five years and

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

compare actual plan experience to the assumptions set forth in this report. This valuation reflects the assumption changes proposed by the June 30, 2003 experience study and adopted in plan year 2004 - 2005.

We mention these caveats because the actuarial process merely measures the impact of these factors on FRS costs and liabilities after they have occurred. Unanticipated benefit or salary changes, changes in member behavior (e.g. withdrawal rates, rates of retirement, etc.), or changes in investment return could necessitate a change in the contribution rates.

Finally, we caution the readers of this report not to overemphasize the results of any single valuation; the trends are more important.

G. DROP Contribution Rate

Since the FRS funds the DROP through a separate contribution rate, we have developed a contribution rate associated with the actual cost of the DROP. We isolated the cost of the DROP by comparing the results of two scenario valuations:

- One in which the DROP did not exist. In this scenario we estimated that half of those electing to go into DROP would have retired in the absence of the DROP.
- One in which the DROP exists as it does today.

The difference in the dollar amount of the normal cost and amortization cost of the two scenarios is the amount needed to fund the DROP. We divided this dollar amount by current DROP payroll to determine the new DROP contribution rate of 10.96%, compared with 10.89% determined by the July 1, 2006 valuation.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

SECTION II ASSETS

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

In many respects, an actuarial valuation can be considered as an inventory process. The inventory is taken as of the actuarial valuation date, which for this valuation is July 1, 2007. On that date the assets available for the payment of benefits are appraised. The 2006 asset values do not reflect any changes made to the financial statements after preparation of the 2006 actuarial valuation report. These assets are compared with the actuarial liabilities. The actuarial process thus leads to a method of determining what contributions by members and/or their employers are needed to systematically eliminate the shortfall, if any.

This section of the report deals with the asset determination. In the next section, the actuarial liabilities will be discussed. Section IV will deal with the process for determining required contributions, based upon the relationship between the assets and actuarial liabilities.

Two measures of FRS assets are presented in the valuation:

The market value of assets tends to be the more erratic of the two asset measures and therefore is not used for determining the required payroll contribution rates.

The actuarial value of assets is a second measure of FRS asset holdings. It is the market value of all assets with a smoothing technique applied to mitigate market fluctuations. It is developed and used to stabilize the required FRS contributions.

The actuarial valuation measure, implemented in 1989, reflects a five-year averaging methodology, as required by Florida Law (S.121.031(3)(a), Florida Statutes). Under this method, the expected actuarial value of assets is determined by crediting the rate of investment return assumed in our valuation (8% through June 30, 2004, 7.75% beginning July 1, 2004) to the prior year's actuarial value of assets. Then, 20% of the difference between the actual market value and the expected actuarial value of assets is recognized. Table II-3 presents the details of this calculation.

Five tables are presented in this section, summarizing the financial resources of the System on July 1, 2007. The assets are analyzed by category in Table II-1. Table II-2 shows the reconciliation of assets from July 1, 2006 to July 1, 2007. Table II-3 provides a detailed development of the July 1, 2007 actuarial value of assets. In Table II-4, the actuarial value of assets is allocated to each employee group, based on estimated cash flows. Finally in Table II-5, rates of return are presented along with a comparison of asset allocation figures between 2006 and 2007. All Tables reflect the addition of the assets (approximately \$16.3 million) attributable to IFAS as of July 1, 2006.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

The data for Table II-1 (Market Value as of July 1, 2007) was furnished to us by the Division of Retirement. The values have been accepted for use in this report without audit, but have been reviewed for consistency and reasonableness, when compared to prior reports.

5. Net Transfers	(166,229)	0	0	0	0	7,597	158,632	0	0
6. Allocated Actuarial Value of Assets by Class, July 1, 2007	\$104,152,235	\$21,722,733	\$92,702	\$1,049,61 ⁻	1 \$104,317	' \$499,369	\$2,658,929	(\$4,695,192)	\$125,584,704

As previously discussed in Section I, Executive Summary, in aggregate the Unfunded Actuarial Liability is eliminated. On the basis of prior discussions with the Division of Retirement (dating back to 1998 when all existing UAL was considered fully amortized), assets, on an actuarial basis, were transferred from the Regular Class of membership to the Senior Management Class (\$158.632 million) and the Elected County Officers' Class (\$7.597 million) to eliminate the Unfunded Actuarial Liability for those classes of membership. Thus, the actuarial value of assets will equal or exceed the actuarial liabilities for every class of FRS membership other than DROP.

FLORIDA RETIREMENT SYSTEM

Actuarial Valuation as of July 1, 2007

SECTION III

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

In the previous section, an actuarial valuation was compared to an inventory process, and an analysis was given of the inventory of assets of the FRS as of the valuation date, July 1, 2007. In this section, the discussion will focus upon the commitments of the FRS, which will be referred to as its actuarial liabilities. In later sections, other liabilities are presented (Section V) based on accounting principles of FASB and GASB. It is important to note that the accountant's liabilities are presented for disclosure and comparison purposes and that the actuarial liabilities in this section are used for determining the FRS contribution requirements.

The liabilities presented in this report differ by whether future anticipated salary increases or service credits are included in the calculation. Actuarial liabilities include future salary increases and service credits. The GASB No. 25 accounting liabilities include future salary increases and service credits (actuarial liabilities). FASB accounting liabilities do not include either future salary increases or future service credits. See Section V of this report for further information on GASB No. 25 and other accounting liabilities.

A fundamental principle in financing a retirement program is that the cost of its benefits should be related to the period in which benefits are earned, rather than to the period of benefit distribution. There are several methods that could be used in making such a determination.

The method used for this valuation is referred to as the "entry age actuarial cost method." Under this method, a level percent of pay (employer cost) is determined which will pay for projected benefits at retirement for a new entrant into the plan if future experience actually matches the actuarial assumptions. The level percent required is called the normal cost rate and the product of that rate and payroll is the normal cost.

The actuarial liability is that portion of the actuarial present value of projected benefits that will not be paid by future employer normal costs or member contributions. The difference between this liability and funds accumulated as of the same date is referred to as the unfunded actuarial liability (UAL). (If the difference is negative, the excess of the funds accumulated over the liabilities may be referred to as the surplus.) If the employer's contributions exceed the employer's normal cost for the year, after allowing for interest earned on the previous balance of the UAL, this UAL will be reduced. Benefit improvements, actuarial gains and losses, and changes in actuarial procedures will also have an effect on the total actuarial liability and on the UAL.

After the amount of the UAL has been determined, a schedule of contributions is established to amortize it. Section IV of the report discusses the contribution schedules in detail.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Table III-1 contains a breakdown of the actuarial liabilities and unfunded actuarial liabilities/(surplus) in the FRS for both the 2006 and 2007 valuations. In Table III-2, the 2007 liabilities are shown for each employee group. The 2007 liability amounts include the liabilities attributable to IFAS members.

Legislation enacted in 2001 "walls off," for 25 years, the actuarial gains arising from former Pension Plan participants electing the Investment Plan option. The "walled off" amount is called the contingent liability. The actuarial liabilities generally do not include the contingent liability. However, surplus used for contribution rate reductions is net of the contingent liability. Table III-3 shows contingent liability and the number of participants, by class, who elected to transfer from the Retirement Plan to the Investment Plan.

III-5

SECTION IV CONTRIBUTIONS

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

If there were a difference between the actuarial liabilities and the assets it would have to be made up of (1) the excess of future contributions over normal costs and (2) the excess of actual investment returns over assumed returns. An actuarial valuation sets out a schedule of future contributions that will deal with this deficiency in an orderly fashion. Since FRS has an actuarial surplus, contributions are allowed to fall below the Normal Cost. In this section we develop and present the possible FRS contribution rates based on the July 1, 2007 membership data to be effective for the Plan Year beginning July 1, 2008.

First, we present a description of the actuarial method used to determine the FRS contribution. This is followed by a series of tables presenting the details of our calculations.

A. Funding Methods

The actuarial cost method used to determine the pattern of future contributions is called the "entry age actuarial cost method". Under this method (as is the case for most actuarial cost methods), the contributions required are based on two elements:

- The normal cost
- The amortization payment to liquidate the unfunded actuarial liability (UAL) or surplus.

These elements are described in more detail below.

1. Normal Cost

Under the entry age actuarial cost method, the normal cost rate is that level percentage of pay, which would fully fund a member's benefit at retirement, if paid from the year of entry (i.e., "entry age") to the year of retirement if future experience exactly matches the actuarial assumptions.

We have determined the normal cost rates for the FRS separately by type of employee and benefit. These are summarized in Table IV-1.

2. Unfunded Actuarial Liability (UAL)

The term "fully funded" is often applied to a system where contributions at the normal cost rate are completely adequate to pay for the benefits of all existing employees. More often than not, systems are not fully funded, either because benefit improvements in the past have not been completely paid for, or because actuarial

This work product was prepared solely for the Department of Management Services for the purposes described herein and may not be appropriate to use for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

deficiencies have occurred due to experience that has not been as favorable as anticipated. Under these circumstances, an unfunded actuarial liability (UAL) exists. For the FRS, this is the tenth year that it has an actuarial surplus.

Table IV-2 shows how the UAL/surplus was derived for the FRS. A key consideration in appraising the adequacy of the funding of the FRS is how the UAL, if any, is being funded.

Since the 1998 actuarial valuation, all UAL bases in existence at that time are considered fully amortized. Plan changes, assumption changes, and funding method changes that arise after that date are amortized over 30 years, with future gains and losses being combined into a single base each valuation period and then amortized at 10% per year (i.e. approximately a 17-year period). However, future gains and losses would not be subject to amortization unless a UAL reemerges.

B. EMPLOYER CONTRIBUTION RATES

Table IV-3, Table IV-4, Table IV-5, Table IV-6 and Table IV-7 present a range of possible employer contribution rates. Each table shows the use of all available surplus; first to pay the UAL attributable to certain post-1998 benefit increases and the 1998 and 2003 experience studies, and then for rate reduction for all actives.

Table IV-3 assumes all the remaining available surplus is used for rate reduction evenly for all classes except DROP.

Table IV-4 assumes all the remaining available surplus is first used to reduce the DROP class contribution rate to 9.80% (the legislated rate for plan year 2007-2008) and then any remaining surplus is applied to reduce the contribution rates evenly over all the other classes.

Table IV-5 assumes the available surplus is allocated to each class based on its proportion of the total Actuarial Accrued Liability.

Table IV-6 assumes the available surplus is allocated to each class based on its proportion of the Total Active Payroll.

Table IV-7 assumes the available surplus is allocated to each class based on its proportion of the Normal Cost, and to DROP based on the expected contribution.

Table IV-8 shows the derivation of the "UAL cost" in Tables IV-3 through IV-7 and then the total UAL contribution percentage.

This work product was prepared solely for the Department of Management Services for the purposes described herein and may not be appropriate to use for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

As previously mentioned, since July 1, 1998, the actuarial value of assets exceeded the actuarial liabilities. Because of this, all pre-1998 amortization bases were considered to be fully amortized and therefore extinguished. The contribution rate is therefore equal to:

The normal cost *less* the sum of:

- The amortization of the changes in liabilities attributable to certain post-1998 benefit increases and the 1998 and 2003 experience studies.
- Any additional rate reductions possible due to surplus available under the rate stabilization mechanism.

The FRS has been enjoying the surplus position for several years and legislation was enacted pertaining to how that surplus is used. Chapter 2000-169, Laws of Florida implemented a rate stabilization methodology to monitor use of the surplus. The final contribution rates enacted by the Legislature since Plan Year 2000-2001 reflected the use of the surplus available under the rate stabilization mechanism to lower contribution rates.

Since the funding surplus developed in this actuarial valuation exceeds 5% of the actuarial liability (the actual percentage is 7.0% of the actuarial liability prior to recognition of the contingent liability and 6.8% after recognition of the contingent liability), ½ of the excess from 5% to 10% is available for use under the rate stabilization mechanism. After the rate stabilization mechanism is applied, approximately \$1.058 billion of the surplus is available for contribution rate reduction or other Florida Retirement System uses. This surplus, pursuant to Florida Law, is amortized over 10 years, which translates to \$0.174 billion available for the 2008-2009 Plan Year.

Below is an excerpt from Table D-3, which provides a projection of the available surplus. This table assumes several prior rate reductions, credits, or offsets would continue for plan year 2008-2009. These items (in aggregate a credit) increase the total available surplus of \$0.174 billion to \$0.381 billion. Item (7) reflects the Legislature then enacting rates to make use of the total surplus, in addition to the prior rate reductions, credits, and offsets. Since these other items are a credit in the aggregate, the total available surplus of \$0.381 billion is used to further **reduce** the contribution rate. If these items are adopted by the Legislature, none of the available surplus will remain. Table IV-4 presents this possible scenario.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 IV-3

FLORIDA RETIREMENT SYSTEM

Actuarial Valuation as of July 1, 2007

SECTION V

ACCOUNTING STATEMENTS

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Statement No. 35 of the Financial Accounting Standards Board (FASB) previously required the Florida Retirement System to disclose certain information regarding the Plan's funded status. Statement No. 25 of the Governmental Standards Board (GASB) establishes standards for disclosure of pension information by public employee retirement systems (PERS) and governmental employers in notes to financial statements and supplementary information.

The FASB-35 disclosures are intended to provide a "snap shot" view of how the Plan's assets compare to its liabilities if contributions stopped and accrued benefit claims had to be satisfied. The accrued benefits obligation (ABO) are determined assuming that the plan is ongoing and participants continue to terminate employment, retire, and otherwise act in accordance with the actuarial assumptions. Liabilities are discounted at the assumed valuation interest rate of 7.75% per annum.

Table V-1 presents the ABO for the Florida Retirement System determined as of July 1, 2007. All of the calculations presented in that table are based on the actuarial assumptions used in the valuation, as described in Appendix A, except no salary projection. Values of the ABO are shown by type of member and by class. The active members' values are also divided between the employee-financed (accumulated member contributions) and employer-financed portions, with the employer-financed portions shown separately for vested benefits and non-vested benefits.

Table V-2 presents the total ABO for the FRS for current and prior valuations. The prior year results displayed are always after any plan and/or assumptions changes.

Table V-3 reconciles the ABO determined as of the prior valuation, July 1, 2006, to the ABO as of July 1, 2007. This reconciliation indicates the impact of the assumption changes and plan changes, if any.

GASB Statement No. 25 requires the actuarial accrued liability (AAL) to be compared with the actuarial value of assets used for funding purposes. The report includes two tables for GASB No. 25 disclosures and a third table used in the Comprehensive Annual Financial Report. Table V-4 shows the GASB No. 25 Accounting Statement Information by membership class. Table V-5 shows similar information for the total FRS comparing several years' results in addition to the July 1, 2007 results. Table V-6 shows the Solvency Test for the FRS for the 2005, 2006, and 2007 valuations. The Solvency Test compares the actuarial accrued liabilities to the market value of assets. Starting with the July 1, 2005 valuation, the Statement No. 25 liabilities are based on DROP retirees being included in the class of membership from which they retired, and active liabilities are based on the full retirement rates (per page I-12.)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

The trend of the FRS's funding status, as measured by the unfunded AAL or ABO over a period of time, is one indication of the progress being made in accumulating sufficient assets to pay benefits when due. Some of the basic trend data for this valuation and the prior two valuations (i.e., as of July 1, 2005 and July 1, 2006) for the FRS are shown in Table V-2 (ABO) and Table V-5 (AAL). Past and future results are affected by changes in actuarial assumptions, benefit provisions, accounting policies, etc.

For fiscal 1999-00 because the System was in a surplus position and the FRS employers contributed the normal cost (which was more than the actuarially determined contribution level), an accounting disclosure under GASB Statement Number 27 first became necessary. For fiscal 2000-01, the System continued in a surplus position and FRS employers again contributed more than the GASB actuarially determined contribution. For fiscal 2001-02 through fiscal 2003-04, because of the rate stabilization mechanism, the FRS employers have contributed less than the actuarially determined contribution, whereas in fiscal 2004-2005 the employers contributed more than the actuarially determined contribution. In fiscal 2005-2006 employers again contributed less than the actuarial determined contribution. For fiscal 2006-2007, actual contributions were more than expected meaning the FRS employers contributed more than the actuarially determined contributions, assuming 30 year amortization of the surplus. To date, the accumulation impact remains a negative number (i.e., cumulative contributions exceed actuarially determined contributions, both adjusted with interest). The Annual Required Contribution (ARC) developed in the 2005 annual valuation which applies to FY 2006-2007, \$2,455,255,000, included the sum of the composite contribution rate (including DROP) of 11.70% offset by the minimum UAL amortization payment required by GASB. As shown on Table V-7, the Annual Pension Cost (APC) is \$2,452,943,000 and the total employer contribution was actually \$2,736,861,000. Therefore, if GASB 27 applies, the State's CAFR must reflect a Net Pension Obligation (NPO) of (\$382,832,000), as compared to an NPO of (\$98,914,000) as of the prior year.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

APPENDIX A

ACTUARIAL METHODS, PROCEDURES AND ASSUMPTIONS

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

The actuarial procedures and assumptions used in this valuation are described herein.

Table A-I summarizes the assumptions. The pre and post-retirement mortality rates are taken from the sources listed. The other rates were developed from the experience of the FRS and are illustrated in Tables A-2 through A-9, as noted.

The actuarial assumptions are intended to estimate the future experience of the members of the FRS and of the FRS in other areas that affect the projected benefit flow and anticipated investment earnings. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the FRS' benefits. These assumptions are based on the most recent experience study of the period from July 1, 1998 through June 30, 2003.

All tables in this section give independent rates of decrement expressed as percentages. The independent rates of decrement are referred to by the general symbol "q'" in actuarial notation. The underlying theory is described more fully in Life Contingencies, by C. Wallace Jordan, Society of Actuaries (Second Edition, 1967), page 278.

ACTUARIAL COST METHOD

The actuarial valuation is prepared using the entry age actuarial cost method. Under the principles of this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percentage of the individual's projected compensation between entry age and assumed exit. The portion of this actuarial present value allocated to a valuation year is called the normal cost. The portion of this actuarial present value not provided for at a valuation date by the sum of (a) the actuarial value of the assets, and (b) the actuarial present value of future normal costs, is called the unfunded actuarial liability (UAL). In the past, the UAL was amortized as level percentages of the projected payroll (salaries of present and future members of the FRS) during various amortization periods.

Effective July 1, 1998, changes in the UAL were to be amortized as level dollar. Had the FRS not maintained a surplus position, each plan, method or assumption change would have set up a new base (layer) to be amortized over a period of 30 years. All other changes, (i.e., experience gains and losses), would have been maintained in a single base. Since the UAL remained negative (i.e., surplus position), it was not amortized. In the future, if the base is positive (i.e., UAL exists), it will be amortized

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

on a rolling 10% basis. In other words, 10% of the outstanding balance will be recognized each year.

The normal cost for the valuation year was calculated separately for each individual, based on his or her age at entry into the FRS. The individual normal costs were then aggregated and divided by the total current compensation of the individuals included in the valuation to determine the normal cost rate as a percentage of compensation.

RECORDS AND DATA

The data used in this valuation consist of financial information and records of age, service and income of active members, annuitants and other inactive members. All of the data was supplied by the FRS, and was accepted for valuation purposes without audit.

REPLACEMENT OF TERMINATED MEMBERS

The ages and relative salaries at entry of future members are assumed to follow a new entrant distribution based on the current active population. Under this assumption, the normal cost rates for active members will remain valid in future years, unless the governing law or actuarial assumptions are changed.

GROWTH IN MEMBERSHIP

The membership of the FRS is assumed to grow at the rate of 0.0% per year. This assumption was changed in the July 1, 1997 valuation from 1.50% in the July 1, 1995 valuation, as required by GASB No. 25.

ADMINISTRATIVE EXPENSE

Administrative expenses are paid from investment earnings. It is assumed that investments will yield 7.75% as the valuation assumption and 0.25% to cover the administrative expenses.

VALUATION OF ASSETS

The asset valuation method determines the actuarial value as follows:

Step 1. Determine the total yield on the investments of the FRS using the full investment return (including capital gains) measured by the difference in the actuarial value of the assets at the beginning of the plan year just

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

ended and the market value of assets at the end of the year. For the first year this method is employed, the market value of assets is used for the beginning of the plan year.

- **Step 2.** Calculate the excess of the yield determined in Step 1 over the expected yield for the same year according to the actuarial assumptions.
- **Step 3.** Calculate an adjusted yield equal to the expected yield plus one-fifth of the yield determined in Step 2.
- **Step 4.** The actuarial value of assets used in this valuation equals the amount that would have existed if the actual yield on the assets had been at the yield determined in Step 3.

The resulting actuarial value of the assets shall be not less than 80% nor more than 120% of the market value.

This method conforms to Section 121.031(3)(a), Florida Statutes, calling for an averaging method acceptable under U.S. Treasury Regulations.

INVESTMENT EARNINGS

The future investment earnings of the assets of the FRS are assumed to accrue at an annual rate of 7.75%, compounded annually, net of investment expenses.

POST-RETIREMENT BENEFIT INCREASES

A post-retirement increase of 3% per year is assumed.

INTEREST ON EMPLOYEE CONTRIBUTIONS

Interest is only credited on accounts held by members of TRS. A 6.5% annual rate of interest is assumed to be credited on these accounts.

FUTURE SALARIES

Salaries are assumed to increase between 4.00% and 10.00% per year depending on the member's age and service. In addition to increases in salary due to promotions and longevity, this scale includes an assumed 4.00% per annum rate of increase in the average wage level of the membership. Table A-2 shows merit (i.e., promotion and longevity) scale rates at representative ages, by class.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

SERVICE RETIREMENT

Members are assumed to take unreduced retirement at the rates shown in Table A-3. Rates of reduced early retirement are included in rates of other terminations of employment.

All members who have attained age 80 (age 70 for TRS, SCOERS and IFAS) in active service are assumed to retire immediately.

DISABLEMENT

Note that the frequency of disablement reflects not only the impairments but also the policies underlying the approval of claims and the administration of disability benefits. The more liberal the administration or conditions under which an employee may qualify for disability, the greater the expected incidence of disability.

Line-of-Duty Disability Incidence Rates

The rates used to estimate the likelihood of line-of-duty disability were initially based on Social Security disability experience reported in the Social Security Administration's disability study published as Actuarial Study Number 74, adjusted to recognize the FRS line-of-duty disability incidence experience. These tables were adjusted slightly based on the line-of-duty disability incidence experience for the five plan years ending June 30, 2003.

Not-in-Line-of-Duty Disability Incidence Rates

The rates used to estimate the likelihood of not-in-line-of-duty disability were initially based on Social Security disability experience reported in the Social Security Administration's disability study published as Actuarial Study Number 74, adjusted to recognize the FRS not-in-line-of-duty disability incidence experience. These rates were modified to be more in line with FRS experience during the five plan years ending June 30, 2003.

The rates of disablement used in the valuation are illustrated in Tables A-4 and A-5.

PRE-RETIREMENT MORTALITY

Mortality rates for members who die in service are based on the RPA – 2000 Employee Mortality tables for males and females. Table A-6 shows these rates at representative ages.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

To allocate active member deaths between duty and non-duty death, the following percentages of total active member deaths were assumed to be duty deaths.

	FRS-Sp	ecial Risk	FRS-All (Other Groups
Age	Men	Women	Men	Women
37	60%	60%	25%	15%
42	40	40	25	15
47	30	30	15	10
52	25	25	15	10

POST-RETIREMENT MORTALITY

Mortality rates for all members once in retirement status are based on the RPA-2000 Healthy White Collar tables for males and females, as projected from the year 2001 using Projection Scale AA, adjusted by the following percentages:

	Males	Females
Regular and Special Risk Classes, TRS, SCOERS, IFAS	133.6%	115.0%
Elected Officers', Senior Management Service, and Special Risk Administrative Support Classes	91.5%	56.7%

Table A-7 shows these rates for representative ages.

DISABILITY MORTALITY RATES

Disability mortality rates are based on 92.4% of the RPS –2000 Disabled Retiree Table for males, and 103.6% of the PBGC Disabled with Social Security Table for females. Representative rates of disability mortality are illustrated in Table A-8.

OTHER TERMINATIONS OF EMPLOYMENT

Table A-9 shows, for representative ages, the rates assumed in this valuation for future withdrawal from active service for reasons other than death, disability or

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

retirement with an unreduced benefit. These rates contain the probability of retiring with a reduced immediate pension.

ELIGIBLE SURVIVORS

It is assumed that 80% of deceased active members will have survivors eligible for lifetime benefits upon their death. Males are assumed to be three years older than their female spouses.

MILITARY SERVICE AND OUT-OF-STATE SERVICE CREDITS

Each member is assumed to have the following additional years of service credit purchased:

	FRS-Sp	ecial Risk	FRS-All Oth	ner Groups
Type of Service Credit	Men	Women	Men	Women
Military Service Credit 1)	0.2818	0	0.1853	0
Out-of-State Service Credit	0	0	0.0910	0.0910

No extra service credit was assumed for TRS, SCOERS and IFAS participants.

ANNUAL LEAVE CREDIT

Unused annual leave in the amount of 139 hours is assumed to be credited to each retiring member to increase the salary used for calculating the retirement benefits. An increase in the retirement benefit of 1.66% is assumed to result from this factor.

¹⁾ Pre-1987 hires only.

APPENDIX B

SUMMARY OF PLAN PROVISIONS

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

All actuarial calculations are based upon our understanding of Florida Statutes regarding the retirement provisions of the retirement systems. These provisions are briefly summarized below for reference purposes, along with corresponding references to the Statutes. This summary encompasses the major provisions; it does not attempt to cover all of the detailed provisions.

PART I: FLORIDA RETIREMENT SYSTEM (FRS)

The benefit and contribution provisions of the FRS are set forth in Chapter 121 of the Florida Statutes. Provisions relating to other State-administered retirement systems are set forth in other sections of the Florida Statutes, under Chapters 112, 122, and 238.

EFFECTIVE DATE

The effective date of the Florida Retirement System (FRS) was December 1, 1970. The FRS was created with closure and consolidation of the Teachers' Retirement System, the State and County Officers and Employees' Retirement System, and the Highway Patrol Pension Fund. In 1972, the Judicial Retirement System was also consolidated with the Florida Retirement System. The FRS was created to provide a defined benefit retirement, disability, and survivor program for participating public employees. Social Security coverage is also required for all members.

Beginning in 2002, the FRS became one system with two primary programs, the existing Defined Benefit Program and a defined contribution plan alternative to the defined benefit plan known as the Public Employee Optional Retirement Program (PEORP). The earliest that any member could participate in PEORP was July 1, 2002.

(Section 121.011(2))

MEMBERSHIP

Membership is a condition of employment for all new state, county, or other participating agency employees filling regularly established positions and employed on or after December 1, 1970, or who elected to transfer from an existing System. Employees may be full-time or part-time and can be elected, appointed, or employed in state government, county government, a state university, or a community college. A city or special district may join the FRS at its option.

Effective July 1, 1978, a member in an existing retirement system who is reemployed after termination of employment may remain in that system, provided his or her member contributions have not been withdrawn.

Members of the FRS Defined Benefit Program were provided an educational period about their plan choice options prior to a 90-day election period to elect between the Defined Benefit Program and the Public Employee Optional Retirement Program (PEORP). Members newly hired after the election period for their employee group are provided five months after their month of hire to file an election between the two primary programs. Members who do not make an election default into the Defined Benefit Program.

After the period during which a member had the choice to elect the Defined Benefit Program or the PEORP, the employee has one opportunity, at the employee's discretion, to choose to move from the Defined Benefit Program to the PEORP or from the PEORP to the Defined Benefit Program.

(Sections 121.051, 121.4501)

CLASSIFICATION

There are five separate classes of members: Regular Class, Special Risk Class, Special Risk Administrative Support Class, Elected Officers' Class, and Senior Management Service Class. In addition, the Deferred Retirement Option Program is available to members who meet the requirements for normal retirement under the defined benefit program of the FRS.

Regular Class members are members not classified as members of the Special Risk Class, Special Risk Administrative Support Class, Elected Officers' Class, or Senior Management Service Class.

Special Risk Class members are members employed as law enforcement officers, emergency medical technicians, paramedics, firefighters, firefighter trainers, fire prevention inspectors, correctional officers, correctional probation officers, certain professional health care positions within the Department of Children and Family Services and the Department of Corrections, youth custody officers, or correctional officers who meet the criteria set forth in the Florida Retirement System law and rules.

Special Risk Administrative Support Class members are former Special Risk members who have been moved or been re-assigned to non-Special Risk administrative support positions within a Florida Retirement System Special Risk employing agency.

Elected Officers' Class members include the governor, lieutenant governor, cabinet officers, supreme court justices, district court of appeals judges, circuit judges, county court judges, state attorneys, public defenders, and elected county officers. Also included are city and special district officers if the employer chose to place their elected officials in this class. All such elected

officers may withdraw from the Florida Retirement System, or elect membership in the Senior Management Service Class or in the Senior Management Service Optional Annuity Program for state officers.

Senior Management Service Class members are members currently participating in the Florida Retirement System who hold positions in the Senior Management Service of the State of Florida; community college presidents; appointed school board superintendents; county and city managers; selected managerial staff of the Legislature; the Auditor General and managerial staff; the Executive Director of the Ethics Commission; the State University System Executive Service and university presidents; selected managerial staff of the State Board of Administration; judges of compensation claims; selected managerial staff with the Judicial Branch; Chief Deputy Court Administrator; capital collateral regional counsels and assistant capital collateral regional counsels; assistant state attorneys; assistant public defenders; assistant statewide prosecutors or assistant attorneys general; and nonelective managerial positions designated for SMSC membership by local government agencies. Members in this class have chosen not to participate in the elective Senior Management Service Optional Annuity Program for state senior managers or to withdraw from the FRS if employed by non-state employers. This class became effective February 1, 1987, and members of an existing retirement system and members of the Special Risk or Special Risk Administrative Support Classes who were employed prior to February 1, 1987 could elect to remain in such system or class.

Deferred Retirement Option Program allows members of the Defined Benefit Program of the Florida Retirement System (FRS) in any of the above five classes to elect to retire and have their FRS benefits accumulate in the FRS Trust Fund, earning interest, while the member continues to work for an FRS employer. DROP membership is for a specific and limited period.

(Sections 121.021(12), 121.0515, 121.052, 121.055, 121.091 (13))

CONTRIBUTIONS

Since January 1, 1975, for the state and for school boards, and since October 1, 1975, for other agencies, the total cost of the System has been paid by the participating employers.

(Section 121.071 (2))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Classification	Defined Benefit	PEORP	Blended
Regular	8.62%	9.25%	8.69%
Special Risk	19.53	21.33	19.76
Special Risk Administrative Support	11.23	11.80	11.39
Elected Officers'			
- Judicial	18.33	19.63	18.40
- State	13.12	13.81	13.32
- County	15.01	16.61	15.37
Senior Management Service	12.13	11.21	11.96
DROP	9.80	N/A	9.80

The employer contribution rates for the July 1, 2007 – June 30, 2008 plan year are as follows:

The above rates exclude the 0.05% administrative charge for PEORP administration and education (except DROP), and the 1.11% for the financing of the health insurance subsidy described later in this part.

The separate Defined Benefit and PEORP rates above were modified by the 2007 Legislature to reflect potential transfers to PEORP and to continue the uniform rate structure for both the primary plans of the FRS. The net result of the legislation was that employers contributed the same rate (i.e. blended) whether the member elected PEORP membership or FRS Defined Benefit Program membership with the anticipated elections to not impact the expected amount of actual FRS defined benefit contributions.

(Section 121.71)

FRS DEFINED BENEFIT PROGRAM

NORMAL RETIREMENT BENEFIT

Eligibility

- Regular Class
 - 1. 30 years of creditable service at any age.
 - 2. Age 62 and 6 or more years of creditable service.

(Section 121.021(29)(a))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-4

- Special Risk Class
 - 1. 25 years of special risk service at any age; or
 - 2. Age 55 and 6 or more years of special risk service; or
 - 3. Age 52 and 25 years of creditable service, including special risk service and up to a maximum of four years of active duty wartime military service credit.
 - 4. 30 years of any creditable service, at any age, or age 62 and 6 or more years of creditable service (same requirement as the Regular Class).

(Section 121.021(29)(b))

 Special Risk Administrative Support Class (with six or more years of Special Risk Class service, the same requirements as apply to the Special Risk Class, otherwise same as apply to the Regular Class)

(Section 121.021(29)(b))

• Elected Officers' Class (same requirements as apply to Regular Class)

(Section 121.021(29)(d))

 Senior Management Service Class (same requirements as apply to Regular Class)

(Section 121.021(29)(c))

Normal Form

Straight life benefit (Option 1), payable on the last day of each month, with a guarantee that benefits paid will at least equal member contributions.

(Section 121.091(1))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Optional Forms

10-year certain and life benefit (Option 2), 100% joint and survivor benefit (Option 3), or 66-2/3% joint and survivor benefit (Option 4). If the joint annuitant is the member's non-disabled child, payment ceases upon attainment of the joint annuitant's 25th birthday under the 100% and 66- 2/3% joint and survivor benefit.

(Section 121.091(6))

Dual Retirement

In the event a member accumulates retirement benefits to commence at different normal retirement ages by virtue of having performed duties for an employer which would entitle him or her to benefits as both a Special Risk Class member and a member of another class, the amount of the benefits payable shall be computed separately with respect to each such age, and the sum of such computed amounts shall be paid. Note that this does not apply to a Special Risk Administrative Support Class member with at least 6 years of Special Risk Class Membership when the Special Risk and Special Risk Administrative Support Classes are the only memberships held because such a member is treated as a Special Risk Class member.

(Section 121.091(2))

Regular Benefit Amount

The monthly FRS allowance is the product of:

- 1. Average monthly compensation in the highest five plan years of creditable service;
- 2. Creditable service during the applicable period; and
- 3. The appropriate benefit percentage for periods of service.

(Sections 121.021(17), (24) and (25), 121.091(1))

The appropriate benefit percentages are as follows:

 For Creditable Service as a Regular Member Subsequent to November 30, 1970:

Retirement at:	Percentage
Age 62 with 6 years of creditable service, or 30 years of creditable service	1.60%
Age 63 with 6 years of creditable service, or 31 years of creditable service	1.63
Age 64 with 6 years of creditable service, or 32 years of creditable service	1.65
Age 65 with 6 years of creditable service, or 33 years of creditable service	1.68

(Section 121.091(1))

• For Service as a Special Risk Class member:

Retirement on or After July 1, 2001 with Service Performed During:	Percentage
December 1, 1970 to September 30, 1974	2.00%
October 1, 1974 and thereafter	3.00

(Section 121.091(1))

• For Creditable Service as a Special Risk Administrative Support Class member Subsequent to November 30, 1970:

Retirement at:	Percentage
Age 55 with 6 years of creditable service, or age 52 with 25 years of creditable service, which may include up to four years of active duty wartime military service, or 25 years of creditable service	1.60%
Age 56 with 6 years of creditable service, or age 53 with 26 years of creditable service, which may include up to four years of active duty wartime military service, or 26 years of creditable service	1.63
Age 57 with 6 years of creditable service, or age 54 with 27 years of creditable service, which may include up to four years of active duty wartime military service, or 27 years of creditable service	1.65
Age 58 with 6 years of creditable service, or age 55 with 28 years of creditable service, which may include up to four years of active duty wartime military service, or 28 years of creditable service	1.68

(Section 121.091(1))

 For Service as an Elected Officers' Class member: 3% for each year of creditable service in such class, except 3-1/3% for service in the judicial class. Military service credit is at the rate for Regular Class members.

(Sections 121.052(5)(a) and (d), 121.091(1))

For Service as a Senior Management Service Class member:
 2% for each year of creditable service in such class, after January 31, 1987.

(Section 121.055(4)(d))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-8

ADDITIONAL BENEFIT AMOUNT

In addition, members may receive an additional retirement allowance under the pre-1971 existing systems. The benefit is a percentage of average compensation times the creditable service in that system up to November 30, 1970. The system percentages are:

State and County Officers and Employees' Retirement System:

2.00% for creditable service rendered under Division A prior to Social Security coverage; and 1.50% for creditable service rendered under Division B subsequent to Social Security coverage.

Teachers Retirement System:

Plan E: 2.00%

(Sections 121.091(1)(c), 122.28, 238.07(7)(a))

MINIMUM BENEFIT

Eligibility

The month following attainment of age 65 by a pensioner, or, in the case of a beneficiary receiving the survivor's portion of a member's benefit, the 65th anniversary of the deceased member's birth. The member must have earned at least 10 years of creditable service and retired under normal retirement.

Benefit Amount

An eligible benefit recipient will receive a benefit adjustment to bring the benefit to the calculated minimum benefit. Effective July 1, 2007, the minimum monthly benefit is \$23.32 multiplied by years of creditable service prior to application of the reduction factor for electing an optional form of payment. For retirements on or after July 1, 1987, creditable service for the minimum benefit calculation does not include any service earned on or after that date.

(Section 112.362)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

HEALTH INSURANCE SUBSIDY

A subsidy of \$5 per month per year of creditable service, with a minimum of \$30, and a maximum of \$150 per month, shall be paid to retirees and surviving beneficiaries to subsidize health insurance premiums. This benefit is not indexed with the cost of living.

Further, the benefit is funded separately, on a pay-as-you-go basis, and is not part of this actuarial valuation.

(Section 112.363)

EARLY RETIREMENT

Eligibility

Six years of creditable service for all classes of membership.

(Section 121.021(30))

Benefit Amount

The normal retirement benefit accrued to the date of early retirement, reduced by 5/12% for each month that the early retirement date precedes the normal retirement date based upon age. The normal retirement date is age 62, except for Special Risk Class members, for whom it is age 55.

(Sections 121.021(30), 121.091(3))

NON-DUTY DISABILITY RETIREMENT

Eligibility

Members are eligible if totally and permanently disabled:

After completing at least 8 years of creditable service (or after 6 years if disability retirement is ordered for a judge by the Supreme Court).

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-10

Benefit Amount

Same as for normal retirement, but based on average monthly compensation and creditable service to the date of disability retirement.

Minimum Benefit Amount

25% of average monthly compensation.

If the Supreme Court orders disability retirement for a judge, the minimum is twothirds of compensation at disability. This benefit is not paid from the FRS Trust Fund.

(Section 121.091(4))

LINE-OF-DUTY DISABILITY

Eligibility

Members are eligible if totally and permanently disabled during the actual performance of duty. There is no service credit requirement.

Benefit Amount

Same as for normal retirement, but based on average monthly compensation and creditable service to the date of disability retirement.

Minimum Benefit Amount

42% of average monthly compensation, except for the Special Risk and the Special Risk Administrative Support classes whose members are entitled to 65% of average monthly compensation.

If the Supreme Court orders disability retirement for a judge, the minimum is twothirds of compensation at disability. This benefit is not paid from the FRS Trust Fund.

(Section 121.091(4))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-11

POST-RETIREMENT DEATH BENEFITS

Based on the optional form elected.

NON-DUTY PRE-RETIREMENT DEATH BENEFITS

Eligibility

Employment is terminated by death after 6 years of creditable service for all classes of membership.

Benefit Amount

The normal or early retirement benefit amount for which the member would have been eligible had the member retired on his or her date of death and elected the 100% joint and survivor form of payment in favor of his or her beneficiary who is the surviving spouse or other eligible dependent. The monthly benefit is normally payable to the member's beneficiary for the beneficiary's lifetime. If the beneficiary is the member's non-disabled child, payment ceases upon attainment of the beneficiary's 25th birthday.

If the member had completed at least 20 years of creditable service, the reduction for early retirement is applied from the earlier of age 62 (age 55 for Special Risk Class and Special Risk Administrative Support Class members) or the date on which the member would have completed 30 years of creditable service, had he or she continued employment. The value of this benefit may not be less than the member's accumulated contributions, if any.

(Sections 121.091(3) and (7))

LINE-OF-DUTY PRE-RETIREMENT DEATH BENEFITS

Eligibility

Member died during the actual performance of duty. There is no service credit requirement.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Benefit Amount

The surviving spouse will receive one-half of the member's monthly compensation at death. If the spouse dies, or if there is no surviving spouse, the monthly benefits continue until the youngest child is 18.

A surviving spouse may elect to receive a non-duty death benefit in lieu of the duty death benefit.

(Section 121.091(7))

VESTING

Eligibility

Six years of creditable service for all classes of membership.

Benefit Amount

The normal or early retirement benefit amount based on average monthly compensation and creditable service to the date of termination.

(Sections 121.021(45), 121.091(5))

DROP – DEFERRED RETIREMENT OPTION PROGRAM

Eligibility

Vested FRS members are eligible for DROP participation upon attaining eligibility for normal retirement. Deferral of DROP participation for all but K-12 Instructional Personnel is allowed if the eligible participant has completed 30 years of service (or 25 years for Special Risk Class members) and has not reached age 57 (or age 52 for Special Risk Class members). In this case the participant can defer participation in DROP until he reaches age 57 (or age 52 for Special Risk Class members). In this case the participant can defer participation in DROP until he reaches age 57 (or age 52 for Special Risk Class members). Instructional Personnel in grades K-12 may defer DROP participation to any age. Participants who reached normal retirement before July 1, 1998 were eligible to participate in DROP for up to 60 months (36 months for Special Risk Class members) beginning July 1, 1998.

Effective July 1, 1998, eligible members can retire without terminating their employment during DROP participation. Monthly retirement benefits will be invested in the FRS Trust Fund, earning tax-deferred interest while the member

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

continues to work for a maximum of 60 months. Upon completion of the maximum five-year period, DROP participation ends and participants must terminate employment with all FRS employers. At that time, the participant will receive payment of the accumulated DROP benefits, and begin receiving his FRS monthly retirement benefit (in the same amount as determined at retirement, plus annual cost-of-living increases).

Effective July 1, 2003, participants employed in eligible instructional positions with a district school board, the Florida School for the Deaf and Blind, or a developmental research school can extend their participation beyond their initial 60-month period, for up to an additional 36 months. The employer must approve the request for DROP extension as well as the period of extension granted to an eligible DROP participant, if any, within the 36-month limit.

Disabled While in DROP

Participants that became disabled while participating in DROP will continue to accumulate the same monthly benefit in the FRS Trust Fund until termination. Since the normal retirement benefit commenced upon DROP participation, a disability benefit will not be issued.

Death While in DROP

The designated beneficiary of a participant who dies while participating in DROP will receive all accumulated DROP benefits, and a continuing monthly benefit, if the participant had elected Option 2, 3, or 4. Survivors of DROP participants are not eligible for FRS line-of-duty death benefits.

(Section 121.091 (13))

RETURN OF EMPLOYEE CONTRIBUTIONS

A member who terminates employment but is not eligible to retire, to receive a vested retirement allowance, or to receive a disability pension, or the beneficiary of a member who passed away before satisfying the requirement for a pre-retirement death benefit, will be entitled to a refund of any employee contributions made by the member. No interest is credited on employee contribution accounts.

A vested terminated participant may elect to receive a return of employee contributions in lieu of a retirement benefit.

(Sections 121.071(2)(b), 121.091(7)(a), Sections 121.091(5)(a) and (c))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-14

COST-OF-LIVING ADJUSTMENT

Except for the health insurance subsidy, all retirement allowances, including the dollar factor used in the minimum benefit, are increased by 3.0% each July 1. A prorated rate may apply in the initial year of applicability.

(Section 121.101)

PUBLIC EMPLOYEE OPTIONAL RETIREMENT PROGRAM

The Public Employee Optional Retirement Program is a defined contribution plan offered to eligible employees as an alternative to the FRS Pension Plan. The plan is authorized under sec. 401(a) of the Internal Revenue Code.

Benefits

Under the Public Employee Optional Retirement Program, benefits accrue in individual member accounts funded entirely by employer contributions and earnings thereon. Benefits are provided through employee-directed investments offered by approved investment providers. Vested benefits are payable upon termination or death as a lump-sum distribution, direct rollover distribution, or periodic distribution. In addition to normal benefits and death benefits, the plan also provides disability coverage as described below.

(Sections 121.4501, 121.591)

CONTRIBUTIONS

The employer contributions deposited in each participant's PEORP account are based upon allocation rates established by law for each membership class. This statutorily prescribed percentage of the participant's gross compensation for the calendar month is deducted from the total amount paid by the employer on behalf of all members in the same class of membership based on the uniform contribution rate established by law. Current PEORP allocation rates are set forth in the following charts. The allocation rates shown in the first chart below do not include the 0.05% charge for PEORP administration and education, the separate employer contribution assessed to fund the PEORP disability program, or the contribution of 1.11% for the financing of the health insurance subsidy described later in this part.

(Sections 121.71, 121.72)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

The employer allocations to PEORP accounts are based on contribution rates as follows:

Classification	2007-2008 Plan Year Rates
Regular	9.00%
Special Risk	20.00
Special Risk Administrative Support	11.35
Elected Officers - Judicial - State - County	18.90 13.40 16.20
Senior Management Service	10.95

The employer contribution rates to fund the disability benefit under PEORP are as follows:

Classification	2007-2008 Plan Year Rates
Regular	0.25%
Special Risk	1.33
Special Risk Administrative Support	0.45
Elected Officers - Judicial - State - County	0.73 0.41 0.41
Senior Management Service	0.26

HEALTH INSURANCE SUBSIDY

In addition to retirement or death benefits, eligible PEORP retirees or surviving spouses may receive a subsidy of \$5 per month per year of creditable service, with a minimum of \$30, and a maximum of \$150 per month, to subsidize the cost of health insurance premiums. This benefit is established by law and is not indexed (adjusted for changes in the cost of living). To qualify for this benefit, PEORP members must terminate employment and meet the normal retirement requirements applicable to Defined Benefit Program members as defined under s. 121.021(29).

This benefit is separately funded, on a pay-as-you-go basis, and is not part of this actuarial valuation.

(Section 112.363)

NON-DUTY DISABILITY RETIREMENT

Eligibility

PEORP participants who have completed at least eight years of creditable service (or six years of creditable service if disability retirement is ordered for a judge by the Supreme Court) are eligible for regular disability benefits if they become totally and permanently disabled due to injury or illness suffered while actively employed in an FRS-covered position. Upon approval for disability retirement, the PEORP participant may choose either to retain his/her PEORP account balance or to surrender his/her account balance to the Defined Benefit Program and receive guaranteed lifetime monthly disability benefits, assuming the member remains disabled.

Benefit Amount

If the disabled PEORP participant chooses to retain his/her account balance, he/she may elect to receive the normal benefit payable under PEORP. If he/she elects to surrender the account balance and receive lifetime monthly disability benefits, the amount of each monthly payment is calculated in the same manner as provided for regular disability retirement under the Defined Benefit Program and is subject to the same threshold benefit amounts.

(Sections 121.091(4), 121.591(1) and (2))

LINE-OF-DUTY-DISABILITY

Eligibility

PEORP participants are eligible for in-line-of-duty disability benefits if they become totally and permanently disabled due to injury or illness suffered during the actual performance of duty while actively employed in an FRS-covered position. There is no service credit requirement for in-line-of-duty disability benefits. Upon approval for disability retirement, the PEORP member may choose either to retain his/her PEORP account balance or to surrender his/her account balance to the Defined Benefit Program and receive guaranteed lifetime monthly disability benefits, assuming the member remains disabled.

Benefit Amount

If the disabled PEORP participant elects to retain his/her account balance, he/she may elect to receive the normal benefit payable under PEORP. If he/she elects to surrender the account balance and receive lifetime monthly disability benefits, the amount of each monthly payment is calculated in the same manner as provided for line-of-duty disability retirement under the Defined Benefit Program, and is subject to the same threshold benefit amounts.

(Sections 121.091(4), 121.591(1) and (2))

PART II: TEACHERS' RETIREMENT SYSTEM (TRS)

The benefit and contribution provisions of the Statutes for this closed system are set forth in Chapter 238 of the Florida Statutes. Certain provisions are from other sections of the Florida Statutes.

EFFECTIVE DATE

The effective date of the Retirement System was July 1, 1939.

(Section 238.02)

MEMBERSHIP

All employees who were teachers in public schools, employees of professional nonprofit teachers associations, county superintendents, Department of Education employees and the staff of the Teachers' Retirement System, and who were employed prior to December 1, 1970, are members of the Teachers' Retirement System.

Any member who was hired prior to July 1, 1955, and who did not later elect to join Plan E, retains membership in one of Plans A through D.

Any member who was hired on or after July 1, 1955 and prior to December 1, 1970, or who was hired prior to July 1, 1955 and so elected, is a member of Plan E.

(Sections 238.01(4), 238.05, 238.07(3))

MEMBER CONTRIBUTIONS

All members of Plan E make contributions of 6% of earnable compensation. All members of Plans A through D will make contributions, to be determined by the actuary, to provide the annuities called for by the Statutes. All members contribute 0.25% of earnable compensation for survivor benefits.

(Section 238.09)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

EMPLOYER CONTRIBUTIONS

The employer will contribute the amount that, when combined with member contributions, will pay the total cost of the benefits payable. This amount, for Plan E, 10.24%; an additional 1.11% is contributed for the financing of the health insurance subsidy described later in this part.

(Section 238.09)

NORMAL RETIREMENT BENEFIT

Eligibility

Plan A: Age 60 and 10 years of creditable service, or 30 years of creditable service at any age.

Plan B: Age 55 and 10 years of creditable service, or 30 years of creditable service at any age.

Plan C: Age 55 and 10 years of creditable service, or 30 years of creditable service at any age.

Plan D: Age 50 and 25 years of creditable service, or 30 years of creditable service at any age.

Plan E:

Members prior to July 1, 1963: Age 60 and 10 years of creditable service, or 30 years of creditable service at any age.

Members on or after July 1, 1963: Age 62 and 10 years of creditable service, or 30 years of creditable service at any age.

(Sections 238.07(2) and (9))

Normal Form

Straight life benefit (Option 1), which will be the total of the pension paid by employer contributions plus an annuity based on the member's accumulated contributions.

(Sections 238.07(4), (5), (6) and (7))

Optional Forms

Modified cash refund annuity (Option 2). 100% joint & survivor (Option 3). 50% joint and survivor (Option 4).

(Section 238.08)

Regular Benefit Amount

The monthly allowance is:

Plans A & B:

The product of 1/140 of the member's average final compensation and years of membership service; plus

1/70 of average final compensation multiplied by the years of certified prior service; plus

an annuity based on the actuarial equivalent of the member's accumulated contributions.

(Section 238.07(4))

Plan C:

The product of 1/120 of the member's average final compensation and years of membership service; plus

1/60 of average final compensation multiplied by the years of certified prior service; plus

an annuity based on the actuarial equivalent of the member's accumulated contributions.

(Section 238.07(5))

Plan D:

The product of 1/100 of the member's average final compensation and years of membership service; plus

1/50 of average final compensation multiplied by the years of certified prior service; plus

an annuity based on the actuarial equivalent of the member's accumulated contributions.

(Section 238.07(6))

Plan E:

2% of the member's average final compensation multiplied by years of creditable service.

(Section 238.07(7)(a))

Average Final Compensation

The larger of the highest ten-year average compensation in the 15 years preceding retirement, or the career average salary.

(Section 238.01(14))

MINIMUM BENEFIT

If a member retires after 30 years of creditable service, he or she shall receive at least \$100 per month. If a member retires under Plans A, B, or C with 10 or more years of service, but less than 30, he or she shall receive an annual retirement allowance equal to 1/60 of \$2,400 multiplied by years of creditable service (but not more than \$100 per month).

(Section 238.07(8))

ADDITIONAL MINIMUM BENEFIT

Eligibility

Attainment of age 65 by a pensioner, or, in the case of a beneficiary receiving the pension, the 65th anniversary of the deceased member's birth. The member must have earned at least 10 years of creditable service.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-22

Benefit Amount

Effective July 1, 2007, the minimum monthly benefit is \$23.32 times years of creditable service prior to application of the reduction factor for electing an optional form of payment. For retirements on or after July 1, 1987, creditable service for the minimum benefit calculation does not include any service earned on or after that date.

(Section 112.362)

EARLY RETIREMENT BENEFIT

Eligibility

Only members of Plan E are eligible for early retirement. The requirement is age 55 and 10 years of creditable service.

(Section 238.07(2)(e)2)

Benefit Amount

The actuarial equivalent of the retirement benefit accrued at the early retirement date.

(Section 238.07(7)(b))

DISABILITY RETIREMENT

If a member has 10 or more years of creditable service and is certified mentally or physically incapacitated for the performance of duty, and that the disability is permanent, he or she may retire on a disability retirement.

The member shall receive an allowance, as follows:

Plans A, B, C and D: A total retirement allowance equal to the larger of:

- 1. A factor times average final compensation times years of creditable service;
- 2. 25% times average final compensation;
- 3. \$75 per month; and
- 4. \$40 per year times years of creditable service.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-23

However, the disability benefit shall not exceed a factor times average compensation times the possible years of creditable service to the normal retirement date.

The factor is 1/70 for Plans A and B, 1/60 for Plan C, and 1/50 for Plan D.

(Section 238.07(11))

Plan E: The larger of:

- 1. The accrued benefit based on average final compensation and creditable service at disability; and
- 2. 25% times average final compensation.

The disability benefit shall not exceed the retirement allowance payable if service had continued to the first date the member would have been eligible for service retirement at the same rate of compensation.

(Section 238.07(11))

HEALTH INSURANCE SUBSIDY

A monthly subsidy of \$5 per month per year of creditable service, with a minimum of \$30, and a maximum of \$150 per month, shall be paid to retirees and surviving beneficiaries to subsidize health insurance premiums. This benefit is not indexed with the cost of living.

Further, this benefit is funded separately, on a pay-as-you-go basis, and is not part of this actuarial valuation.

(Section 112.363)

POST-RETIREMENT DEATH BENEFITS

Based on the optional form elected, plus a \$500 lump sum.

(Sections 238.07(16)(b)(7), 238.08(8))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 **B-24**

PRE-RETIREMENT DEATH BENEFITS

Payable to Beneficiaries

Minimum Period of Paid Service of Member in Florida as Regular Full-Time Teacher	Beneficiaries of Deceased Member	Benefits
1. One calendar day	Widow or widower who has care of dependent child or children of the deceased member.	\$190 per month for one child; \$250 per month if more than one child; maximum benefit \$250 per month.
2. One calendar day	One or more dependent children if there is no surviving widow or widower.	\$190 per month per child; maximum benefit \$250 per month if more than one child.
3. One calendar day	Dependent parents 65 years of age or older.	For each parent, \$100 per month for life.
4. One calendar day	Designated beneficiary and, if no designated beneficiary, then the executor or administrator of deceased member.	\$500 lump-sum death benefit payable only once.
5. One calendar day	Dependent widow or widower 50 years of age and less than 65 years of age.	\$150 per month for life.
6. Ten Years	Widow or widower 65 years of age or older.	\$175 per month for life.

If the member dies before completing three years of service, the above benefits are reduced for any Social Security benefits payable.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

The benefits above are payable only if death occurs while in service, or during the following periods after service is terminated:

Years of Service	Period After Florida Service in Which Death Occurs
3 – 5	2 years
6 – 9	5 years
10 or more	10 years

The above restrictions do not apply if the member is receiving disability payments at time of death.

(Section 238.07(16))

Payable to the Surviving Spouse

Before 10 years of service: Return of member contributions with interest.

After 10 years of service: Instead of the death benefit described above, the surviving spouse may elect to receive the return of member contributions with interest or a 100% joint & survivor annuity, calculated assuming the member retired on the date of death.

(Section 238.08(5)(a))

VESTING

Eligibility

After 10 years of creditable service if the member leaves employee contributions in the System.

Benefit Amount

The normal retirement benefit based on average final compensation and creditable service to the retirement date.

(Sections 238.07(9), 238.07(14))

DROP – DEFERRED RETIREMENT OPTION PROGRAM

Eligibility

Vested TRS members are eligible for DROP participation upon attaining eligibility for normal retirement. Deferral of DROP participation for all but K-12 Instructional Personnel is allowed if the eligible participant has completed 30 years of service and has not reached age 57. In this case the participant can defer participation in DROP until he reaches age 57. Instructional Personnel in grades K-12 may defer DROP participation to any age. Participants who reached normal retirement before July 1, 1998, were eligible to participate in DROP for up to 60 months beginning July 1, 1998.

Effective July 1, 1998, eligible members can retire without terminating their employment during DROP participation. Monthly retirement benefits will be invested in the FRS Trust Fund, earning tax-deferred interest while the member continues to work for a maximum of 60 months. Upon completion of the maximum five-year period, DROP participation ends and participants must terminate employment with all FRS employers. At that time, the participant will receive payment of the accumulated DROP benefits, and begin receiving his TRS monthly retirement benefit (in the same amount as determined at retirement, plus annual cost-of-living increases).

Effective July 1, 2003, participants employed in eligible instructional positions with a district school board, the Florida School for the Deaf and Blind, or a developmental research school can extend their participation beyond their initial 60-month period, for up to an additional 36 months. The employer must approve the request for DROP extension as well as the period of extension granted to an eligible DROP participant, if any, within the 36-month limit.

Disabled While in DROP

Participants that became disabled while participating in DROP will continue to accumulate the same monthly benefit in the FRS Trust Fund until termination. Since the normal retirement benefit commenced upon DROP participation, a disability benefit will not be issued.

Death While in DROP

The designated beneficiary of a participant who dies while participating in DROP will receive all accumulated DROP benefits, and a continuing monthly benefit, if the participant had elected Option 2, 3, or 4. Survivors of DROP participants are not eligible for TRS line-of-duty death benefits.

(Section 121.091 (13))

RETURN OF EMPLOYEE CONTRIBUTIONS

A member who terminates employment but is not eligible to retire will be entitled to a refund of any employee contributions made, with interest.

(Sections 238.07(13), 238.10)

COST-OF-LIVING ADJUSTMENTS

Retirees and beneficiaries of deceased retirees are eligible to receive cost-of-living adjustments identical to those for Florida Retirement System members.

(Section 121.101)

PART III: STATE AND COUNTY OFFICERS AND EMPLOYEES' RETIREMENT SYSTEM (SCOERS)

The benefit and contribution provisions of the Statutes are set forth in Chapter 122 of the Florida Statutes. Certain provisions are drawn from other sections of the Florida Statutes. This is a closed system that no longer includes any members in the high hazard or legislative categories.

EFFECTIVE DATE

The effective date of the Retirement System was July 1, 1955.

(Section 122.01(2))

MEMBERSHIP

All full-time employees of the state and its counties not covered by another system who were employed prior to December 1, 1970.

Those members who were hired prior to January 1, 1958 and did not elect to join Division B are in Division A. These members do not contribute to the Social Security system.

Those members who elected to join Division B and those members hired after December 31, 1957 and prior to December 1, 1970 are in Division B. These members contribute to the Social Security system.

(Sections 122.01, 122.24)

MEMBER CONTRIBUTIONS

All members of Division A contribute 6% of salary. All members of Division B contribute 4% of salary.

(Sections 122.03, 122.27)

EMPLOYER CONTRIBUTIONS

Employer contributions are:

Division A	9.99%
Division B	7.99%

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-29

To these rates 1.11% is added for the financing of the health insurance subsidy described later in this part.

(Section 122.35)

NORMAL RETIREMENT BENEFIT

Eligibility

Members prior to July 1, 1963:

Members after July 1, 1963:

Members under former Chapters 121 and 134: Age 60 and 10 years of service, or 30 years of creditable service.

Age 62 and 10 years of service, or 30 years of creditable service.

30 years of service.

(Sections 122.08(1), 122.08(8), 122.28)

Normal Form

Straight life benefit (Option 1).

(Section 122.08)

Optional Forms

Modified cash refund annuity (Option 2). 50% joint & survivor (Option 3). 100% joint & survivor (Option 4).

(Section 122.08)

Regular Benefit Amount

Division A: The monthly allowance is 2% of average final compensation for each year of service rendered.

B-30

Division B: 2% of average final compensation for each year of service rendered prior to the effective date of Social Security coverage, plus 1.5% of average final compensation for each year of service rendered after the effective date of Social Security coverage.

(Sections 122.08(1), 122.28(1))

Average Final Compensation

The larger of the highest ten-year average compensation in the fifteen years preceding retirement, or the career average salary.

(Section 122.02(2))

MAXIMUM BENEFIT

- Division A: No maximum.
- Division B: For those who became members after June 30, 1963, monthly allowance plus Social Security primary insurance amount cannot be greater than 80% of average final compensation. For those who became members before July 1, 1963, there is no maximum.

(Sections 122.28(3), 122.08)

MINIMUM BENEFIT

Eligibility

Attainment of age 65 by a pensioner, or, in the case of a beneficiary receiving the pension, the 65th anniversary of the deceased member's birth. The member must have earned at least ten years of creditable service and retired under normal retirement.

Benefit Amount

Effective July 1, 2007, the minimum monthly benefit is \$23.325 times years of creditable service prior to application of the reduction factor for electing an optional form of payment. For retirements on or after July 1, 1987, creditable service for the minimum benefit calculation does not include any service earned on or after that date.

(Section 112.362)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

EARLY RETIREMENT BENEFIT

Eligibility

Age 55 and 10 years of service.

(Section 122.08(2)(a))

Benefit Amount

The actuarial equivalent of the retirement benefit accrued at the early retirement date.

(Section 122.08(2)(a))

DISABILITY RETIREMENT

Eligibility

A member who has 10 or more years of service and becomes permanently and totally disabled may retire with a disability pension.

Benefit Amount

The benefit will be the same as the regular benefit amount, except that the benefit will not be less than the lesser of 50% of average final compensation or \$75. This minimum benefit does not apply to an officer or employee who has attained age 60 or is receiving Social Security disability.

(Section 122.09)

Minimum Benefit

A member of Division B shall receive his or her regular benefit amount, but no less than 20% of his or her average final compensation.

(Section 122.28(2))

Form of Benefit

Straight life annuity. No optional form may be elected.

(Section 122.08(6))

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-32

HEALTH INSURANCE SUBSIDY

A monthly subsidy of \$5 per month per year of creditable service, with a minimum of \$30, and a maximum of \$150 per month, shall be paid to retirees and surviving beneficiaries to subsidize health insurance premiums. This benefit is not indexed with the cost of living.

Further, the benefit is funded separately, on a pay-as-you-go basis, and is not part of this actuarial valuation.

(Section 112.363)

POST-RETIREMENT DEATH BENEFITS

Based on the optional form elected.

(Section 122.08(3))

PRE-RETIREMENT DEATH BENEFITS

Eligibility

When employment is terminated by death after 10 years of service if member was eligible for normal or early retirement.

Benefit Amount

- 1. If surviving spouse has received a refund of the member's contributions, no benefit is payable.
- 2. If surviving spouse has not received a refund of the member's contributions, or has repaid the member's contributions, with interest, the spouse is entitled to receive a benefit, calculated assuming the member had retired on his or her date of death and had chosen a 100% joint & survivor option.

(Section 122.08(9))

VESTING

Eligibility

After 10 years of service if member leaves employee contributions in the System.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-33

Benefit Amount

The normal or early retirement benefit based on average final compensation and years of service to the date of retirement.

(Section 122.10(1))

DROP – DEFERRED RETIREMENT OPTION PROGRAM

Eligibility

Vested SCOERS members are eligible for DROP participation upon attaining eligibility for normal retirement. Deferral of DROP participation for all but K-12 Instructional Personnel is allowed if the eligible participant has completed 30 years of service, and has not reached age 57. In this case the participant can defer participation in DROP until he reaches age 57. Instructional Personnel in grades K-12 may defer DROP participation to any age. Members who reached normal retirement before July 1, 1998 were eligible to participate in DROP for up to 60 months beginning July 1, 1998.

Effective July 1, 1998, eligible members can retire without terminating their employment during DROP participation. Monthly retirement benefits will be invested in the FRS Trust Fund, earning tax-deferred interest while the member continues to work for a maximum of 60 months. Upon completion of the maximum five-year period, DROP participation ends and participants must terminate employment with all FRS employers. At that time, the participant will receive payment of the accumulated DROP benefits, and begin receiving his SCOERS monthly retirement benefit (in the same amount as determined at retirement, plus annual cost-of-living increases).

Effective July 1, 2007, participants employed in eligible instructional positions with a district school board, the Florida School for the Deaf and Blind, or a developmental research school can extend their participation beyond their initial 60-month period, for up to an additional 36 months. The employer must approve the request for DROP extension as well as the period of extension granted to an eligible DROP participant, if any, within the 36-month limit.

Disabled While in DROP

Participants that became disabled while participating in DROP will continue to accumulate the same monthly benefit in the FRS Trust Fund until termination. Since the normal retirement benefit commenced upon DROP participation, a disability benefit will not be issued.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

Death While in DROP

The designated beneficiary of a participant who dies while participating in DROP will receive all accumulated DROP benefits, and a continuing monthly benefit, if the participant had elected Option 2, 3, or 4. Survivors of DROP participants are not eligible for SCOERS line-of-duty death benefits.

(Section 121.091 (13))

RETURN OF EMPLOYEE CONTRIBUTIONS

A member who terminates employment but is not eligible to retire, to receive a vested retirement allowance, or to receive a disability pension, or the beneficiary of a member who passed away before satisfying the requirements for a pre-retirement death benefit, will be entitled to a refund of any employee contributions made.

No interest is credited on employee contribution accounts.

(Section 122.10(1))

COST-OF-LIVING BENEFITS

Retirees and beneficiaries of deceased retirees are eligible each July 1 to receive cost-of-living adjustments to their benefits. The adjustments are identical to those for Florida Retirement System members.

(Section 121.101)

PART IV: INSTITUTE OF FOOD AND AGRICULTURAL SCIENCES SUPPLEMENTAL RETIREMENT PROGRAM (IFAS)

The benefit and contribution provisions of the Statutes are set forth in Chapter 121 of the Florida Statutes. Certain provisions are drawn from other sections of the Florida Statutes. This is a closed system.

EFFECTIVE DATE

The effective date of the Supplemental Retirement Program was July 1, 1985.

(Section 121.40)

MEMBERSHIP

Employees hired on or before July 1, 1983 who:

- a. hold both state and federal appointments while employed at the Institute,
- b. are not entitled to any benefit from a state-supported retirement system or Social Security based on service as an employee of the Institute, and
- c. are participants in the Federal Civil Service Retirement System.

(Section 122.40)

MEMBER CONTRIBUTIONS

The total cost of the Program is paid by the participating employers.

EMPLOYER CONTRIBUTIONS

Effective July 1, 2007, employer contributions are fixed at 18.75%.

(Section 122.40)

NORMAL RETIREMENT BENEFIT

Eligibility

Age 62 and 10 or more years of creditable service, plus immediate eligibility for retirement benefits under the Federal Civil Service Retirement System (i.e.,

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-36

attainment of age 55 and completion of at least 30 years of service or attainment of age 60 and completion of at least 20 years of service or attainment of age 62 and completion of at least 5 years of service).

(Section 121.40)

Normal Form

Straight life benefit (Option 1).

(Section 121.40)

Optional Forms

Modified cash refund annuity (Option 2). 50% joint & survivor (Option 3). 100% joint & survivor (Option 4).

(Section 121.40)

Regular Benefit Amount

The sum of (a) and (b) less (c) where:

a. The amount of a monthly retirement benefit that a participant would be entitled to receive under the Florida Retirement System calculated as follows:

The appropriate benefit percentage multiplied by average monthly compensation in the highest five years of credited service, the product then multiplied by the credited years of service, where the appropriate benefit percentage is as follows;

Retirement at:	Percentage
Age 62 with 10 years creditable service, or 30 years creditable service	1.60%
Age 63 with 10 years creditable service, or 31 years creditable service	1.63
Age 64 with 10 years creditable service, or 32 years creditable service	1.65

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 B-37

Age 65 with 10 years creditable service, or 33 years creditable service

1.68

- b. An amount equal to the monthly primary insurance amount that a participant would be entitled to receive under Social Security had he been covered for Social Security based only on service after December 1, 1970.
- c. The amount of a monthly retirement benefit that a participant would be entitled to receive under the Federal Civil Service Retirement System calculated as follows:

The sum of (i) and (ii) and (iii) below multiplied by average monthly compensation in the highest three years of credited service:

- i.) 1.50% multiplied by the credited years of service, up to 5, earned after December 1, 1970.
- ii.) 1.75% multiplied by the credited years of service earned after December 1, 1970 in excess of 5 years but not more than 5.
- iii.) 2.00% multiplied by the credited years of service earned after December 1, 1970 in excess of 10 years.

Credited Service

Credited service is earned only for employment subsequent to December 1, 1970. It is awarded as follows:

- a. For service from December 1, 1970 through June 30, 1974 one month of credited service will be earned for each calendar month during which the employee is paid a salary payment.
- b. For service from July 1, 1974 through June 30, 1979 one month of credited service will be earned for each calendar month during which the employee is paid at least \$100 in salary payments. In any month that the employee is paid less than \$100 in salary payments, credited service shall be determined by dividing the actual salary payment by \$100.
- c. For service from July 1, 1979 through June 30, 1985 one month of credited service will be earned for each calendar month during which the employee is paid at least \$250 in salary payments. In any month that the employee is paid less than \$250 in salary payments, credited service shall be determined by dividing the actual salary payment by \$250.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 d. For service on or after July 1, 1985 one month of credited service will be earned for each calendar month during which the employee is paid a salary payment.

(Section 121.40))

MAXIMUM BENEFIT

No maximum.

MINIMUM BENEFIT

No minimum.

EARLY RETIREMENT BENEFIT

None.

DISABILITY RETIREMENT

None.

HEALTH INSURANCE SUBSIDY

A monthly subsidy of \$5 per month per year of creditable service, with a minimum of \$30, and a maximum of \$150 per month, shall be paid to retirees and surviving beneficiaries to subsidize health insurance premiums. This benefit is not indexed with the cost of living.

Further, the benefit is funded separately, on a pay-as-you-go basis, and is not part of this actuarial valuation.

(Section 112.363)

POST-RETIREMENT DEATH BENEFITS

Based on the optional form elected.

(Section 122.40)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

PRE-RETIREMENT DEATH BENEFITS

Eligibility

When employment is terminated by death after 10 years of creditable service, or death occurs after termination of employment but while eligible for a terminated vested benefit.

Benefit Amount

The regular benefit amount for which the member would have been eligible had the member retired on his or her date of death and elected the 100% joint and survivor form of payment in favor of his or her surviving spouse or other dependent. The monthly benefit commences upon the beneficiary attaining age 62 and is payable to the member's beneficiary for the beneficiary's lifetime.

(Section 121.40)

VESTING

Eligibility

Attainment of age 60 and 20 or more years of service or attainment of age 55 and 30 or more years of service.

Benefit Amount

The normal retirement benefit accrued to the date of termination. Benefits may not commence prior to age 62.

(Section 121.40)

DROP – DEFERRED RETIREMENT OPTION PROGRAM

Eligibility

IFAS members are not eligible for DROP.

COST-OF-LIVING BENEFITS

Retirees and beneficiaries of deceased retirees are eligible each July 1 to receive cost-of-living adjustments to their benefits. The adjustments are identical to those for Florida Retirement System members.

(Section 121.40)

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007 **B-40**

APPENDIX C

MEMBERSHIP DATA

.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

This valuation is based upon the membership of the System as of July 1, 2007.

The membership of the System includes employees of the State of Florida and participating political subdivisions. The membership is divided into several categories by System.

Tables C-I through C-5 present distributions of members receiving service or disability retirement benefits, and of beneficiaries of deceased members. Shown in the tables are the numbers of persons receiving benefits and the total annual benefits received.

Table C-6 summarizes the DROP membership and provides total annual benefits received.

Tables C-7 through C-27 contain summaries of the active members in each category of membership. Values shown in the tables are the numbers of members and their total annual salaries. Table C-27 is the grand total of Tables C-7 through C-26.

Table C-28 presents a summary by System of active membership, payroll, and accumulated employee contributions.

APPENDIX D

PROJECTIONS

FLORIDA RETIREMENT SYSTEM

Actuarial Valuation as of July 1, 2007

Table D-I presents a projection of total costs of the employers covered by the Florida Retirement System (exclusive of PEORP) during the five-year period following the actuarial valuation date, July 1, 2007. The contributions shown beginning with plan year 2008-2009 are based on the assumption that the contribution levels calculated in this report and in conjunction with Florida law (see next paragraph) are extended throughout the projection period. The contributions shown for plan year 2007-2008 are based on the rates on page B-4, (after blending) of this report.

Table D-2 projects each existing amortization base as of July 1, 2007. Since the July 1, 1998 actuarial valuation, all UAL in existence as that time are considered to be fully amortized. The UAL amortization payment or credit is made from the surplus for certain post-1998 benefit increases and the 1998 and 2003 experience studies prior to any use of the surplus for contribution rate reductions or any other Florida Retirement System uses.

Table D-3 estimates the available surplus for the next three plan years based on Florida law. The estimates are projections of our July 1, 2007 valuation results, and assume experience occurs as stated in our July 1, 2007 valuation, except that the market value of assets is assumed to earn 7.75% per annum, and some of the stored asset losses will be recognized over this time period.

All three tables also assume that all of the available surplus is used for rate reduction (i.e. applying the 1.49% rate reduction for all classes except DROP.) The amortization methodology recognizes the time value of money.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

	Total [Subtotal + (7)]	(\$173.0)	(\$179.8)	(\$186.7)
8	Surplus Available After Previously Legislated Rate Reduction and using			
	remaining available surplus for Rate Reduction for all classes but DROP			
	[(1) + Total] =	\$1.0	\$198.6	\$396.4
1	Numbers evolute contributions to DC Plan			

- ¹ Numbers exclude contributions to DC Plan
- ² Projected surplus based on 07/01/2007 valuation results. Using amortization method that reflects interest.
- ³ Assumed to be paid from surplus. However, if the surplus were to be eliminated there would be an additional cost to the Special Risk Regular Class of 0.60% attributable to the 12% increase in pre-2000 retired benefits.
- ⁴ Assumed to be paid from surplus. However, if the surplus were to be eliminated there would be an additional cost to the Special Risk Regular Class of -0.01% and an additional cost to the Special Risk Administrative Class of 0.12% attributable to the Increase in the Minimum ILOD Disability Benefit
- ⁵ Assumed to be paid from surplus. However, if the surplus were to be eliminated there would be an additional charge or credit to each class. See Table IV-8 for details.
- 6 For all classes except DROP; DROP remains at 10.96%. This scenario corresponds with Table IV-3.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

APPENDIX E

COMPARISONS/RECONCILIATION

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

This Appendix contains certain comparative information required by the state. The table below compares actual investment return, aggregate payroll growth, and individual salary increases with the actuarial assumptions.

The next table reconciles the flow of participants from the 2006 actuarial valuation to the 2007 actuarial valuation, while the last table cross-references the required sections of 112.64 with this report.

TABLE E-1 One-Year Comparisons								
1. Annual Rate of Investment Return on Actuarial Value of Assets								
Period Ending	Actual	Δ	ssumed					
June 30, 2005	7.43%		7.75%					
June 30, 2006	8.06%		7.75%					
June 30, 2007	10.16%		7.75%					
2. Annual Rate of Payroll Growth								
Period Ending	Actual ^{1) & 2)}	As	ssumed ²⁾					
June 30, 2005	4.09%		0.00%					
June 30, 2006	4.72%		0.00%					
June 30, 2007	4.23%		0.00%					
3. Individual Rates of Salary Increases for F	Regular Members and <u>Rate of Incre</u>							
Year Ended	Regular	Special						
June 30	Members	Risk	Assumed ³⁾					
2005	7.0%	10.2%	6.25%					
2006	7.7%	9.5%	6.25%					
2007	7.6%	7.8%	6.25%					

¹⁾ Payroll excludes DROP members for all years

²⁾ Since a UAL does not exist, the payroll base compared is used for normal cost calculations

³⁾ Individual rates vary by age

E-3

Actuarial Valuation as of July 1, 2007

	Does amortization schedule of UAL exist (as of the valuation date)	
1.003 (3c)	- on an annual basis for the next 3-years?	NA
1.003 (3c)	- for the final year?	NA
1.003 (3c)	Is a statement as to how method was derived included?	NA
1.003 (3d)	Is a description of actions taken to reduce the UAL included?	NA
	Reconciliation of UAL (must include items below):	
1.003 (4h)	- UAL for prior valuation (w/ start date)	IV-6
1.003 (4h)	- Normal Cost, contributions, & accrued interest	No
I.003 (4h)	- Impact of changes (assumption, funding method, amendments, gain/loss)	IV-6
.003 (4h)	- UAL for current valuation	IV-6
	6 Results:	
1.003 (4a)	Valuation Date clearly indicated?	I-3 III-3 And Sections IV 8
.003 (4e)	Are results separated by employee group?	V
1.003 (4f)	Is there disclosure of any benefit and expense provided by and/or paid from plan assets	_
	for which no liabilities or current costs have been established?	Page 2
1.003 (4i)	Projection of emerging liabilities/cash flow needs for next 10-15 years (optional)	No
1.003 (4I)	Summary of principal results (for current and prior valuation) including:	
	 participant data (counts, total pay, total annual benefits by group) 	C-2
	- assets (market and actuarial)	11-4
	- PVB (split: active by decrement, tv, ret & ben, dis, and total)	III-3
	- PV of future benefit payments	III-3
	- AL and UAL, i.e., including amount, date, amortization period	III-3
	- PVVB (by group), non-vested PVAB, Total PVAB	V-3
1.003 (4I)	Reconciliation of PVAB, including:	
	- PVAB at beginning of year	V-5
	 changes due to amendment and/or assumptions 	V-5
	- change due to decrease in discount period and benefits accrued	V-5
	- Benefits paid	V-5
	- Other changes	V-5
	- Net increase (decrease)	V-5
	- PVAB at end of year	V-5
1.003 (4I)	Pension Cost	
	- Normal cost (shown for each benefit and amount for admin expense)	IV-5
	- Payment to amortize UAL	IV-7
	- Expected plan sponsor contribution (i.e. total of above pieces with interest, also as % of pay)	IV-7
	- Amount to be contributed by members (total and % of pay)	N/A
1.003 (4I)	Past Contributions	
	- Required plan sponsor & member contribution	V-9
	- Actual contributions made by: plan sponsor, members, other	V-9

COMPARISONS/RECONCILIATION

1.003 (4k)		Active member accumulated contributions with interest	V-4
1.003 (4l)		Net actuarial gain / loss	IV-6
1.003 (4l)		Other (PVFS & PVFC at attained age and at entry age, PVFC from other sources, PVF Expected BP)	111-4
	7	Data:	
1.003 (4i)		Are membership demographics and financial statistics included?	C-1
1.003 (4i)		Age/service table for actives included?	C-8
1.003 (4i)		Data reconciliation?	E-2
	8	Contribution Rate:	
1.003 (4a)		Applicable beginning and ending dates for recommended contribution indicated?	I-3
1.003 (4b)		Are ER and EE contribution rates adequate to meet benefits?	I-3
1.003 (4b)		Are contribution rate changes necessary to achieve or preserve funding?	No
1.003 (7)		Is the impact of assumption or cost method changes indicated?	NA
1.003 (9)		Were costs to be paid at a later date adjusted for interest and/or salary?	Yes I-3
1.003 (10)		Is the effective date of recommended changes no later than the next fiscal year?	Yes I-3

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

APPENDIX F

GLOSSARY

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

The following definitions are largely excerpts from a list adopted in 1981 by the major actuarial organizations in the United States. In some cases the definitions have been modified for specific applicability to the Florida Retirement System.

1. Actuarial Assumptions

Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement, and retirement; changes in compensation; rates of investment earnings, and asset appreciation or depreciation; procedures used to determine the Actuarial Value of Assets; and other relevant items.

2. Actuarial Cost Method

A procedure for determining the Actuarial Present Value of pension plan benefits and expenses and for developing an actuarially equivalent allocation of such value to time periods, usually in the form of a Normal Cost and an Actuarial Liability.

3. Actuarial Gain (Loss)

A measure of the difference between actual experience and that expected based upon a set of Actuarial Assumptions during the period between two Actuarial Valuation dates, as determined in accordance with a particular Actuarial Cost Method.

4. Actuarial Present Value

The value of an amount or series of amounts payable or receivable at various times, determined as of a given date by the application of a particular set of Actuarial Assumptions.

5. Actuarial Valuation

The determination, as of a valuation date, of the Normal Cost, Actuarial Liability, Actuarial Value of Assets, and related Actuarial Present Values for a pension plan.

6. Actuarial Value of Assets

The value of cash, investments and other property belonging to a pension plan, as used by the actuary for the purpose of an Actuarial Valuation.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

7. Actuarially Equivalent

Of equal Actuarial Present Value, determined as of a given date with each value based on the same set of Actuarial Assumptions.

8. Amortization Payment

That portion of the pension plan contribution which is designed to pay interest on and to amortize the Unfunded Actuarial Liability.

- Level Percent of Pay Produces a level series of payments when expressed as a percent of payroll. Cash payment increases in line with payroll growth assumption.
- Level Dollar

Produces a decreasing pattern of payments when expressed as a level percent of payroll. Cash payment remains level.

9. Entry Age Actuarial Cost Method

A method under which the Actuarial Present Value of the Projected Benefits of each individual included in an Actuarial Valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit ages. The portion of this Actuarial Present Value allocated to a valuation year is called the Normal Cost. The portion of this Actuarial Present Value not provided for at a valuation date by the Actuarial Present Value of future Normal Costs is called the Actuarial Liability.

10. Normal Cost

That portion of the Actuarial Present Value of pension plan benefits and expenses which is allocated to a valuation year by the Actuarial Cost Method.

11. Actuarial Liability

That portion, as determined by a particular Actuarial Cost Method, of the Actuarial Present Value of pension plan benefits and expenses which is not provided for by future Normal Costs.

FLORIDA RETIREMENT SYSTEM Actuarial Valuation as of July 1, 2007

12. Unfunded Actuarial Liability

The excess of the Actuarial Liability over the Actuarial Value of Assets. When the Actuarial Value of Assets exceed Actuarial Liabilities a surplus exists.

13. Accrued Benefit

The amount of an individual's benefit (whether or not vested) as of a specific date, determined in accordance with the terms of a pension plan and based on compensation and service to that date.

14. Projected Benefits

Those pension plan benefit amounts which are expected to be paid at various future times under a particular set of Actuarial Assumptions, taking into account such items as the effect of advancement in age and past and anticipated future compensation and service credits.

15. Unaccrued Benefit

The excess of an individual's Projected Benefits over the Accrued Benefits as of a specified date.
