June 4, 2012

Board of Trustees Jacksonville Police and Fire Pension Fund One West Adams Street, Suite 100 Jacksonville, Florida 32202-3616

Actuarial Valuation as of October 1, 2011

Ladies and Gentlemen:

We are pleased to forward our report on the 2011 Actuarial Valuation of the Jacksonville Police and Fire Pension Fund. The recommended contribution level covers the three Plan Years beginning October 1, 2012.

This report should be considered as a single document, and figures extracted from it should not be used out of context.

it should be understood that the costs and actuarial present values presented in this report depend upon forecasts of future events, and that they, therefore, depend upon elements of subjective judgment. Due regard should thus be given to the reasonableness of alternative values and conclusions.

Statement by Actuary:

This actuarial valuation and/or cost determination was prepared and completed by me or under my direct supervision, and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate, and in my opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Part VII, Chapter 112, Florida Statutes. There is no benefit or expense to be provided by the Plan and/or paid from the Plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. All known events or trends that may require material increases in Plan costs or required contribution rates have been taken into account in the valuation.

I am a member of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

Jarmon Welch, A.S.A. Date

Section I: Summary and Cost Analysis

Background

The Governmental Accounting Standards Board requires that actuarial valuations be performed every several years (with annual updating of disclosure information). The prior actuarial valuation of the Jacksonville Police and Fire Pension Fund (hereafter called the "Plan") was performed as of October 1, 2008. The current review has been performed as of October 1, 2011. The valuation results were based on participant data as of July 1, 2011, provided by the City. Fund assets and the Plan as of September 30, 2011, were reported by the Plan Administrator. Valuation Pay is the annualized sum of reported rate of pay, upgrade pay and shift pay as of July 1st. All of this data has been reviewed for consistency with prior data and for general reasonableness.

Minimum Required Contribution

This valuation calls for a 93.94% (90.49% plus half-year interest adjustment) of payroll contribution from <u>all</u> sources to this Plan. The following table illustrates the expected contributions of non-City sources:

Expected Source	As a Percentage of Covered Payroll
Active Members	7.00%
DROP Members	0.45%
Expected Court Fines and Penalties	0.58%
State Chapter Funds Allocation	4.00%
TOTAL (non City)	12.03%

It should be noted that State laws make the City responsible for funding any contribution shortfall. The current contribution rate of 49.6% (reduced from 51.02% because of deposits earlier than mid-year) of covered payroll by the City meets the State's requirements for the current year. However, the City should increase its contribution percentage by 32.31% (93.94%-12.03%-49.6%) for the fiscal year beginning October 1, 2012.

Accumulation of Funds in the Reserve Accounts

Pursuant to the Agreement between the City and the Police and Firefighters Pension Board, reserve accounts were set up to accumulate excess contributions as of January 1, 1992 and thereafter. Two account balances have been derived in Table II-H of this report. The amount accumulated in the Enhanced Benefit Account as of September 30, 2011, was \$16,236,904, and the balance in the City Budget Stabilization Account was \$8,134,910.

Senior Staff Voluntary Retirement Plan

As of September 30, 2011, the assets in the Plan were \$2,345,679, which are being recognized for the first time in this report.

Section I: Summary and Cost Analysis

Reconciliation with 2008 Minimum Required Contribution

The following table compares the key employment and payroll statistics and the minimum required City contributions from the October 1, 2008, and October 1, 2011, actuarial valuations.

^{*} Market Value less two reserve accounts and less Senior Staff Plan assets as of 9/30/2011. Reserve accounts balances are derived in TABLE II-H.

Section I: Summary and Cost Analysis

Our 2008 actuarial report required a minimum contribution of 63.09% of payroll. This minimum required contribution has increased 30.85% (i.e., 93.94% - 63.09%) from October 1, 2008, to October 1, 2011, primarily due to the interaction of the following factors:

- Based on actuarial value, the fund yielded -1.63% for the plan year ending September 30, 2009, 0.44% for the plan year ending September 30, 2010, and -2.41% for the plan year ending September 30, 2011. This is much less than the assumed investment return of 8.5% per year. Over the three-year period, this increased costs approximately 11.62% of covered payroll.
- An increase in costs of approximately 4.61% of covered payroll was attributable to deviations of other experience factors from expected. In particular, losses were generated by the one year contribution lag, manager expenses and DROP. Also the Staff Retirement Plan assets were first recognized.
- 3. Assumption changes effective October 1, 2011, increased costs approximately 14.62% of covered payroll.

Section II: Statement of Actuarial Position as of October 1, 2011

Section II: Statement of Actuarial Position as of October 1, 2011 Calculation of Investment Performance

The average dollar weighted investment performance of the Fund was calculated for the period 10/01/10 to 09/30/11 based on Market Value and Actuarial Value.

	Market Value	Actuarial Value
(1) Asset Value, BOY	\$783,356,038	\$876,888,749
(2) Asset Value, EOY	\$751,447,830	\$840,118,674
(3) Contributions from all Sources	\$99,871,004	\$99,871,004
(4) Benefit Payments and Expenses ¹	\$115,707,234	\$115,707,234
(5) Income, Including Realized and Unrealized Gains (2) - (1) - (3) + (4)	(\$16,071,978)	(\$20,933,845)
(6) Yield for Period ² 2 x (5) / ((1) + (2) - (5))	-2.07%	-2.41%

Net of money manager fees of \$4,781,035, parking and rental expenses of \$227,996. Interest earned on RLA and DROP Liability Accounts (\$16,487,455 for PYE 09/30/11) is also deducted prior to computing the yield.

The total market value of assets, including DROP account balances and RLA balances, was \$967,056,520 on 10/1/2010 and \$954,035,541 on 9/30/11. This yielded an investment return of 0.29% for FYE11.

Section II: Statement of Actuarial Position as of October 1, 2011

Determination of Actuarial Value of Assets as of September 30, 2011

Plan Year <u>Ending</u>	Index as of 9/30	Yield During Next Year	Growth <u>Factor</u>	Relative <u>Weights</u>	Weighted Value
2007	100.00	-16.12%	1.3479	1	8.99
2008	83.88	-4.22%	1.2510	2	13,99
2009	80.34	7.70%	1.1610	3	18.65
2010	86.53	-2.07%	1.0775	4	24.86
2011	84.74		1.0000	<u>5</u>	28.25
				15	94.74

Adjustment Factor = 94.74 = 1.1180 84.74

Market Value x Adjustment Factor = Actuarial Value

\$954,035,541 x 1.1180 = \$1,066,611,735

Actuarial Methods

Individual Entry Age Actuarial Cost Method

Under this method, the normal cost is the sum of the individual normal costs for all active participants. For an active participant, the normal cost is the participant's normal cost accrual rate multiplied by the participant's current compensation. The normal cost accrual rate equals (i) the present value of the future benefits for the participant, determined as of the participant's entry age, divided by (ii) the present value of the compensation expected to be paid to the participant for each year of the participant's anticipated future service, determined as of the participant's entry age. In calculating the present value of future compensation, the salary scale is applied both retrospectively and prospectively to estimate compensation in years prior to and subsequent to the valuation year based on the compensation used for the valuation. The accrued liability is the sum of the individual accrued liabilities for all participants and beneficiaries. A participant's accrued liability equals the present value, at the participant's attained age, of future benefits less the present value, at the participant's attained age, of the individual normal costs payable in the future. A beneficiary's accrued liability equals the present value, at the beneficiary's attained age. of future benefits. The unfunded accrued liability equals the total accrued liability less the actuarial value of assets. Under this method, the entry age used for each active participant is the participant's age at the time he or she would have commenced participation if the plan had always been in existence under current terms, or the age as of which he or she first earns service credits for purposes of benefit accrual under the current terms of the plan.

Asset Valuation Method

An actuarial value has been placed on all Fund assets. The purpose of setting an actuarial value on assets is to recognize market values, which are the only true measure of the value of these securities, without giving total credence to the current market value and without causing costs to fluctuate substantially in response to short-term market swings.

The actuarial adjustment factor applied to the market value of assets has been determined as the amount by which current market prices were deflated in relation to a longer range trend. The actuarial factor was developed as follows:

- develop performance indices as of September 30, 2007, 2008, 2009, 2010 and 2011 using actual Fund performance during those periods;
- (2) multiply these indices by a growth factor of 7,75% (the assumed rate of return on investments) for each period up to September 30, 2011;
- (3) weight the indices by 1/15, 2/15, 3/15, 4/15 and 5/15 respectively; and
- (4) divide the total of the weighted indices by the non-weighted index for September 30, 2011.

The details of the calculations are shown in Table III-D.

Changes Since the October 1, 2008 Valuation: None.

Section II: Statement of Actuarial Position as of October 1, 2011

Actuarial Assumptions

The actuarial assumptions have been updated after an experience study for five plus years ending September 30, 2011.

Mortality: Pre and Post-Retirement for healthy lives, the RP-2000 Combined Healthy Mortality Table, separate by sex, Projection Scale AA to valuation date. Post-Disablement uses the RP-2000 Disabled Retiree Table, separate by sex, Projection Scale AA to valuation date.

Net Investment Yield: 7.75% compounded annually, net of investment expenses.

<u>Withdrawal</u>: No refunds are assumed. Annual rates consistent with the following representative figures.

<u>Age</u>	Rate	<u>Age</u>	Rate	<u>Age</u>	Rate
20	.024	28	.024	36	.006
24	.024	32	.012	40	.000

<u>Disability</u>: No recoveries are assumed. Rates consistent with the following representative figures:

<u>Age</u>	Rate	<u>Age</u>	Rate	<u>Age</u>	Rate
25	.00036	35	.00048	45	.00120
30	.00036	40	.00060	50	.00264

<u>Salary Scale</u>: 5.0% compounded annually applied to pay to allow for future salary increases reflecting inflation, productivity, and seniority.

COLA: 3.0% compounded annually.

<u>Percent Married</u>: Assume 75% of active employees married. Use tax reported status for inactives.

Retirement: Rates per year as follows:

Years of Service	Rate
20	0.40
21-29	0.30
30	1.00

Assumed 100% retirement at age 61.

Section II: Statement of Actuarial Position as of October 1, 2011

Actuarial Assumptions

Expense Load: Expenses, net of manager fees, are currently estimated to be \$2,200,000 annually.

Amortization of Unfunded Actuarial Accrued Liability: Assumes payroll increases at 4.5% per annum throughout the entire amortization period.

Age Differences for Spouses: Females are assumed to be 3 years younger than males.

Withdrawai of Employee Contributions: Assumes no refunds elected by vested terminations.

Sources of Data: Asset data is from unaudited financial statements.

Changes Since the October 1, 2008 Valuation:

- Mortality for healthy lives was changed from 1994 GAM, separate by sex, to RP-2000 Combined Healthy Mortality Table, separate by sex, Projection Scale AA to valuation date. Mortality for disabled lives was changed from 1994 GAM, separate by sex, with 10 year set forward to RP-2000 Disabled Retiree Table, separate by sex, Projection Scale AA to valuation date.
- 2. The salary scale was decreased from 5.5% to 5.0%.
- The retirement decrements were increased and revised to use service based rates rather than age based.
- The net investment yield assumption was decreased from 8.5% to 7.75% compounded annually, net of investment expenses.
- 5. The amortization of the unfunded actuarial accrued liability assumes a payroll increase of 4.5% per annum, decreased from the prior 5.25% per annum.

Section II: Statement of Actuarial Position as of October 1, 2011

Plan Outline

All members of the Fire and Police Departments of the City not covered under Covered Group:

another retirement system, and in the following categories: Plan 05, Plan 06, Plan

19 and Plan 41.

Inactive members of the 1915 Fire Pension Fund and the 1917 Police Pension

Fund.

Credited Service: All employment in the Fire/Police Department. Military Service may be

included. Service as a General Employee may be included.

Earnings Base: Average salary of last fifty-two pay periods, as defined by Ordinance 91-1017-

0605.

Completion of a minimum of 20 years of Credited Service. Retirement Date:

Retirement Benefits: 3% of Earnings Base for each of the first 20 years of Credited Service, plus 2% for

each of the next 10 years.

All categories have a minimum monthly benefit of \$400 (Children's minimum is

\$200).

\$5 per month for each year of Credited Service with a minimum of \$25 per month Health Subsidy:

and a maximum of \$150 per month.

Form of Benefit: Payment is 75% continuation to spouse, plus \$200 per month to child until earlier

> of attainment of age 18 (22 if in college) or marriage. Overall maximum of 100%. Orphaned children receive 75% continuation until earlier of attainment of age 18

(22 if in college) or marriage.

Disability Benefits: 60% of Earnings Base or Retirement Benefit, if greater; minimum of \$400 per

month. Form of benefit same as for active or retired employees.

Pre-Retirement

Spouse's benefit of 75% of projected retirement benefit, assuming participant completed at least 20 years of Credited Service, plus \$200 monthly to each child Death Benefits:

until earlier attainment of age 18 (22 if in college) or marriage. Overall maximum

of 100% of projected normal retirement benefit.

Minimum monthly benefit of \$400 per month.

Section II: Statement of Actuarial Position as of October 1, 2011

Plan Outline

Orphans receive benefit applicable to spouse without children until earlier of marriage or attainment of age 18 (22 if in college). Dependent father or mother may be eligible if no spouse or children.

Otherwise, refund of 100% employee's contributions.

For future deaths among active members and retirees, including DROPS, if there is no surviving spouse, a disabled child 18 years or older receives half of the spouse's benefit for life. The Board will establish earnings and means criteria to qualify.

Termination of Service:

If terminated before 5 years of Credited Service, refund of employee contributions

If terminated after 5 years of Credited Service, refund of employee contributions and no further benefit; or a benefit payable at normal retirement date, equal to Credited Service multiplied by 3.0% of earnings base. (2.5% until April 1, 2001)

No death or disability benefits during deferred period. Form of benefit same as for active employees. No minimum benefits.

Employee Contribution:

7% of Earnings Base.

Non-Employee Contributions:

The City is currently contributing 49.6% of budgeted earnings. The Fund also receives proceeds from court fines and a major portion of Chapter monies. The City covers any shortfall.

Cost of Living Increases:

Annual increases in the Retirement Benefit of 3% per year.

Note:

Members of the 1915 Fire Pension Fund and the 1917 Police Pension Fund receive benefit payments from the Fund. These benefits are partially subsidized by the City. The Fund provides 36.603% of the total benefit for 1915 Fire members and 100% for 1917 Police members.

Section II: Statement of Actuarial Position as of October 1, 2011

Plan Outline

Option Plan (DROP):

Deferred Retirement Effective 1/9/99 with the current following main provisions:

Minimum service at entry: 20 years. 5 year maximum DROP

Maximum service at entry: 31 years. 2 year maximum DROP

DROP investment yield: 8.4% annually.

Withdrawal from DROP and immediate retirement at member's sole option.

Members will contribute 2% of Earnings Base during the DROP period to cover the cost of administering the DROP provision.

Percentage cost of living increases granted during DROP period. Biannual lump sum COLA not provided to DROP participants. DROP participants are not paid Health Insurance Subsidy until termination of employment.

Retirement Leave Account frozen upon DROP. It is deposited into the Fund by the City in equal annual installments during the DROP period, and credited with 8.4% annual interest.

Changes Since the October 1, 2008 Valuation: None.

Section IV: Accounting for Pension Costs and Liabilities

Commencing after June 15, 1996, the reporting of pension plan information in the Plan's financial statements is governed by Governmental Accounting Standards Board Statement No. 25. Historical information required by this standard through September 30, 2011, is provided in this report.

The primary disclosures of actuarial information under GASB No. 25 are the Schedule of Funding Progress and the Schedule of Contributions. Asset information is displayed in the Statement of Plan Net Assets and the Statement of Changes in Plan Net Assets.

Commencing after June 15, 1997, the City's pension reporting in its financial statements is governed by GASB Statement No. 27.

Annual required contributions are determined in accordance with the parameters specified in GASB Statements No. 25 and No. 27.

GASB Statement No. 27 also requires measurement recognition, and displays standards for pension expenditures/expenses and related liabilities, assets, note disclosures, and if applicable, required supplementary information.

Disclosures also comply with GASB Statement No. 50.

Information collected for this review and update consists of participant data as of July 1, 2011, (used for this September 30, 2011, reporting) and asset information as of September 30, 2011. The Plan Administrator provided the information.

Section IV: Accounting for Pension Costs and Liabilities

Notes to Financial Statements, Plan Year Ended September 30, 2011

1. <u>Plan Description</u>: The Jacksonville Police and Fire Pension Fund is a single-employer defined benefit pension plan that covers all employees of the Fire and Police Department of the City in the following categories: Plan 05, Plan 06, Plan 19 and Plan 41.

At September 30, 2011, membership consisted of:

, it coptombo	r oo, 2011, momborarip dendicted of.	Number
	Retirees currently receiving benefits	1,586
	DROP participants	439
	Beneficiaries currently receiving benefits	418
	Terminated members entitled to but not yet receiving benefits	38
	Active plan members Vested Nonvested	1,923 <u>528</u>
Total		4,932

The Plan provides retirement, disability and death benefits to employees and their beneficiaries. A 3.0% annual cost of living increase is granted to pensioners and their beneficiaries.

- 2. <u>Summary of Significant Accounting Policies</u>: The Plan's financial statements are prepared using the accrual basis of accounting. Benefits payable under all circumstances retirement, death, disability, and termination of employment are included to the extent that they are deemed to have accrued as of September 30, 2011. Investments are reported at market value.
- 3. <u>Contributions</u>: As of October 1, 2009, the City's contribution rate was increased to 49.6% of active members' salaries. The active members are contributing 7.0% of salaries and DROP members 2.0%. The remaining contribution is comprised of most State contributions and court fines. These amounts are sufficient to fund the benefits and meet the State's requirements. Investment costs of the Plan are financed through investment earnings. Other administrative costs are included in the annual required contribution amount.

For Plan Years ending 09/30/06 and 09/30/07, the Actuarial Value of Assets was changed to equal Market Value.

These accounts were redefined by the Restated Agreement effective 4/1/00. As of 9/30/11, the value of the City Budget Stabilization Account was \$8,134,910 and the Enhanced Benefit Account was \$16,235,904. These amounts are not included in the Actuarial Value of Assets. As of 9/30/11, the Senior Staff Voluntary Retirement Plan had assets of \$2,345,679, which are not included in the Actuarial Value of Assets.

Beginning with Plan Year ending 2010, the actuarial value of assets and AAL reflect accumulated DROP payments along with DROP and RLA interest, since these are assets of the Trust. Beginning with Plan Year ending 2011, the Senior Staff Voluntary Retirement Plan is recognized as part of the assets of the Trust.
