Jacksonville, Florida 32202-3616

#### Actuarial Valuation as of October 1, 2016

#### Gentlemen:

We are pleased to forward our report on the 2016 Actuarial Valuation of the Jacksonville Police and Fire Pension Fund. The minimum required City contribution for the Plan Year beginning October 1, 2017 is 149.74% of covered payroll.

The valuation results were based on participant data as of July 1, 2016, provided by the City. Fund assets and the Plan as of September 30, 2016, were reported by the Plan Administrator. Valuation Pay is the annualized sum of reported rate of pay, upgrade pay and shift pay as of July 1<sup>st</sup>. All of this data has been reviewed for consistency with prior data and for general reasonableness.

Per Part VII, Chapter 112.64(5)(a) of Florida Statutes, the payroll growth assumption used for amortization of the unfunded liability is not allowed to exceed the average annual payroll growth for the preceding ten years. As a result this was lowered to 0.067% in this valuation (see page 5).

#### Statement by Actuary:

This actuarial valuation and/or cost determination was prepared and completed by me or under my direct supervision, and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate, and in my opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Part VII, Chapter 112, Florida Statutes. There is no benefit or expense to be provided by the Plan and/or paid from the Plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. All known events or trends that may require material increases in Plan costs or required contribution rates have been taken into account in the valuation.

I am a member of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

amon Welch, A.S.A.

#### Reconciliation

The October 1 City minimum contribution increased \$44,294,849 due to:

- 1. Increase of \$3,976,708 for 3.25% increase in prior year amortization payment.
- 2. Expense increase of \$1,073,792.
- 3. Actual earnings (10.0%) were \$45 million higher than expected, decreasing costs \$2,400,156.
- 4. Lowering 3.25% payroll growth assumption to 2.50% based on experience study increased costs \$8,000,000. The current unfunded amortization costs increased \$25,676,758 as a result of State required lowering of 2.50% to 0.067% (actual 10 year average).
- 5. State required use of FRS special risk mortality tables increased costs \$8,517,200.
- 6. The initial base established in 1987 is fully amortized decreasing costs \$494,479.
- 7. Experience deviations (primarily salary) from expected decreased costs \$54,974.

#### Actuarial Assumptions and Methods

The actuarial assumptions were updated after an experience study for the four years ending September 30, 2015.

#### **Economic Assumptions**

Investment Yield:

7% annually

Salary Increases:

3.5% annually

Annual COLA:

Group I: 3% annually reduced to 2.5% for future service for actives with less than 20 years of service on June 19, 2015

Group II: 1.5% annually

DROP Load:

2% on active and DROP liabilities for interest greater

than 7%

Payroll Increase:

0.067% annually, actual 10 year average (2.5% cola increase

when allowed, adopted after the above experience study)

#### **Demographic Assumptions**

Mortality:

Pre- and Post-Retirement: All using RP-2000 Generational.

Scale BB, with

Female: 100% Annuitant White Collar

Male: 10% Annuitant White Collar/90% Annuitant Blue collar

Post-Disablement:

Female: 60% RP2000 Disabled Female set forward two years/40% Annuitant White Collar with no setback, no

projection scale

Male: 60% RP2000 Disabled Male setback four years/

40% Annuitant White Collar with no setback, no

projection scale

Turnover:

No vested refunds or disability recoveries

Age	Withdrawal Rate	Disability Rate per 1,000
Age 25	.036	0.36
35	.009	0.48
45	.000	1.20

Married:

75% actives, 50% retirees (tax status), wives 3 years younger

Retirement:

Group I: 40% at 20 years, 30% thereafter to 30 years (or age 61).

Group II: 15% at 25 years, then 5% per year to 30 years (or age 61).

Actuarial Methods

Cost:

Individual Entry Age

Assets:

Market Value

Changes Since the October 1, 2015 Valuation:

Changed payroll growth assumption, added Group II assumptions, adopted FRS mortality

#### Plan Outline

#### GROUP I active on June 19, 2015

Credited Service

full time from date of employment including buybacks

Benefit Percentage

3% for first 20 YOS plus 2% for additional 10 YOS (max 80%)

Final Average Earnings

final 2 years (<5 YOS on June 19, 2015, final 4 years)

Normal Retirement Date

**20 YOS** 

Vesting

5 years

**Employee Contributions** 

8% (10% when certain pay raises occur)

Early Retirement

N/A

Normal Form Of Payment

Joint and 75%

Retiree COLA

3% annually January after retirement if >=20 YOS on

June 19, 2015

If not, 3% annually for service accrued as of June 19, 2015 and SS COLA (min 0%, max 6%) on service accrued after June 19, 2015

Disability

Permanent & Total: 60% of FAE, Temporary: available

DROP

up to 5 YOS

Interest: >= 20 YOS on June 19, 2015, 8.4% interest for 5 years

and thereafter:

< 20 YOS on June 19, 2015, actual return (min 2%, max 14.4%)

2% employee contributions

Pre Retirement

Death

< 20 YOS

75% of (60% of FAE)

>20 YOS

75% of normal benefit

In addition: \$200/month per child, (total 75% of normal benefit

if orphan)

Health Supplement

\$5.00 / month for each YOS (maximum 30 YOS)

Chapter Funds

50% credited as a City contribution for 15 years, balance to a share

plan and holiday bonus

#### Plan Outline

#### **GROUP II**

#### Impact on New Hires after June 19, 2015

- Credited Service for retirement increased from 20 to 30 years (steep reductions for early retirement after 25 years).
- Earnings Base computed as average of last 5 years.
- 3. Three year delay in annual Cost of Living increases (reduced from 3% to 1.5% maximum Social Security).
- 4. Disability benefit reduced to 50% of Earnings Base from 60%.
- 5. Vesting changed from NRA&5 to age 62&10 (2% accrual rate).
- 6. Benefit percentage reduced from 3.0% to 2.5%.
- 7. Back-Drop implemented, no DROP.
- 8. Employee contributions are 10% of pay.
- 9. Group II costs 22% of pay.

Changes Since the October 1, 2015 Valuation: None

#### Accounting for Pension Costs and Liabilities

#### GASB Statements 67 and 68

In June 2012, the Governmental Accounting Standards Board (GASB) approved two new statements, Statement No. 67, Financial Reporting for Pension Plans, and Statement No. 68, Accounting and Financial Reporting for Pensions. These statements replaced Statement No. 25, Financial Reporting for Defined Benefit Pension Plans, and Statement No. 27, Accounting for Pensions by State and Local Governmental Employers. These new statements require the addition of plan unfunded liabilities to the employer's balance sheet and also change how the System has to calculate its expense for financial disclosures, but does not change how the System has to calculate its liabilities for its contribution requirements.

GASB No. 67 is effective for Jacksonville Police and Fire Pension Fund ("JPFPF") fiscal years beginning October 1, 2013, and GASB No. 68 is effective for Jacksonville fiscal years beginning October 1, 2014.

## Notes to the Financial Statements for the Year Ended September 30, 2016

#### Plan Description

Plan administration. The Board of Trustees administers the JPFPF – a single-employer defined benefit pension plan that provides pensions for all permanent full-time public safety employees of the City. Applicable State laws and statues as well as local ordinances and Charter provisions grant the authority to establish and amend the benefit terms to the City Council and the State Legislature.

Management of the JPFPF is vested in the Board of Trustees, which consists of five members – two appointed by the City Council, and one an active Police Officer elected by active Police members, and one an active Firefighter elected by active Fire members, and, lastly, a fifth selected by the aforementioned four Board members.

Plan membership. At September 30, 2016, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	2,411
Inactive plan members entitled to but not yet receiving benefits	77
DROP members	475
Active plan members	2,294
Total	5,257

Benefits provided. JPFPF provides retirement, disability, and death benefits. Retirement benefits are calculated as 3 percent of the employee's final 2-year average salary times the employee's years of service up to 20 years and 2 percent thereafter (80 percent maximum). Employees with 5 or more years of continuous service are eligible to retire at 20 years from date of employment.

#### Accounting for Pension Costs and Liabilities

Employees are eligible for non-duty related death and disability benefits after 10 years of service and for duty-related death and disability benefits upon hire. Terminated vested employees may withdraw their contributions. Terminated non-vested employees must withdraw their contributions.

Benefits are generally increased 3 percent annually after retirement (see page 6).

Contributions. The JPFPF Board establishes contributions based on an actuarially determined rate recommended by an independent actuary. This rate is the estimated costs of benefits earned by employees during the year, with an additional amount to finance the unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate, the contribution rate of employees, Chapter 175/185 funds applied, court fines and miscellaneous revenue. For the year ended September 30, 2016, the contributions paid were City \$149,499,492, supplemental \$5,000,000, employees \$11,633,724, Chapter \$5,340,312 and court fines \$832,536.

#### Investments

Investment policy. The pension plan's policy for the allocation of invested assets is established by a majority vote of the Board. The Board pursues an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The selection of asset classes is limited by statute and each asset class is further diversified by style, and the use of both active and passive management. The policy discourages the use of cash equivalents, except for liquidity purposes, and refrains from dramatically shifting asset class allocations over short time spans. The following is the Board's asset allocation policy:

Asset Class	Target Allocation	Guidelines as of 8/2016
Domestic equity	39.0%	34.0-44.0%
International equity	20.0	15.0-25.0
Fixed income	19.5	14.5-24.5
Real estate	15.0	10.0-20.0
Cash	1.0	0.0- 5.0
MLPs/Energy	<u>5.5</u>	0.0-10.0
Total	100.0%	100.0%

Method used to value investments. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The real estate portfolio is valued at fair value independent appraisal of every property in the portfolio at least annually. In addition, each month, the money managers calculate an internal appraisal using a combination of discounted cash flow and comparison to similar properties. Investments in local real estate are valued each year on September 30 by an independent appraiser to determine the investment fair value.

Rate of return. For the year ended September 30, 2016, the annual money-weighted rate of return on pension plan investments was 10.00%. This reflects the changing amounts actually invested.

#### Accounting for Pension Costs and Liabilities

#### Reserve Accounts

Ordinance 2015-304E maintains certain reserve accounts. These are, as of September 30, 2016, City Budget Stabilization Account of \$5,085,300, Enhanced Benefit Account of \$5,278,118, Unfunded Actuarial Liability Payment Account of \$71,733,907, Supplemental Payments Accumulation of \$10,000,000, Sr. Staff Retirement Plan of \$4,102,201 and the Share Plan of \$3,445,831. The City Budget Stabilization Account and the Unfunded Actuarial Liability Payment Account provide additional City contributions. The Enhanced Benefit Account is used by the Board to pay a retiree holiday bonus and for other enhancements, including a share plan.

#### Deferred Retirement Option Program (DROP)

DROP after 20 Years of Service. Maximum period 5 years. 8.4% annual interest credited. The DROP balance as of September 30, 2016 is \$310,283,837.

**Actuarial assumptions.** The actuarial assumptions used in the October 1, 2016 valuation were based on the results of an actuarial experience study for the period October 1, 2011 – September 30, 2015.

Generational,
200 - 100 - 100 100 100 100 100 100 100 1

Male: 10% Annuitant White Collar/90% Annuitant Blue Collar

Post-Disablement:

Female: 60% RP-2000 Disabled Female set forward two years/40% Annuitant White Collar with no setback, no projection scale

Male: 60% RP-2000 Disabled Male setback four years/ 40% Annuitant White Collar with no setback, no

projection scale

The expected arithmetic real rate of return was determined for each major asset class. These are combined to produce the 7.0 percent expected rate of return, or discount rate, by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (diversification and volatility also impact this).

	Long-Term Expected Real Rate of Return
Asset Class	(gross less 2.5% inflation)
Domestic equity	5.4%
International equity	5.5
Fixed income	1.3
Real estate	4.5
Cash	1.4
MLPs/Energy	5.5

#### Accounting for Pension Costs and Liabilities

#### Net Pension Liability of the City of Jacksonville as of September 30, 2016

Total pension liability \$3,345,515,259
Plan fiduciary net position \$1,513,398,466
City's net pension liability \$1,832,116,793

Plan fiduciary net position as a percentage of the

total pension liability 45.24%

#### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City of Jacksonville, calculated using the discount rate of 7.0%, as well as what the City of Jacksonville's net pension liability would be if it were calculated using a discount rate that is 1% lower (6%) or 1% higher (8%) than the current rate:

 1%
 Current
 1%

 Decrease
 Discount
 Increase

 \_(6%)
 \_(7%)
 \_(8%)

City of Jacksonville's net pension liability \$2,270,273,985 \$1,832,116,793 \$1,479,775,059

#### Changes

 Ordinance 2015-304E made several small cutbacks in the current Plan provisions (Group I), increased employee contributions, added supplemental employer contributions above the ARC and added a more moderate Pension Plan for new hires after June 19, 2015 (Group II). The provisions of Groups I and II are shown on pages 6 and 7 of this report.

2005	\$ 35,929,120	\$	27,175,819	\$	8,753,301	\$ 130,392,284	20.84%

<sup>&</sup>lt;sup>1</sup> Contribution deficiency (excess) is assigned to the City Budget Stabilization Account

#### **Notes to Schedule**

Valuation date: Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

#### Methods used to determine contributions rates:

Actuarial cost method: Individual entry age

Amortization method: Constant percentage of payroll increasing 2.50% annually; Closed

Remaining amortization period: averaging 19 years
Asset valuation method: Market Value

Inflation: 2.5%

Salary increases: 3.5%, including inflation Investment rate of return: 7.0%, including inflation Cost of living adjustments: 3.0%, compounded annually

Mortality Table in use see page 13

Age differences for spouses: Females are assumed to be 3 years younger than males

Percent married Assume 75% of active employees are married, use tax reported status for inactives

<sup>&</sup>lt;sup>2</sup> Plus \$5,000,000 Supplemental Payment
