State Employees' Retirement System of Illinois

Mission Statement:

To provide an orderly means whereby aged or disabled employees may be retired from active service, without prejudice or hardship, and to enable the employees to accumulate reserves for themselves and their dependents for old age, disability, death and termination of employment, thus effecting economy and efficiency in the administration of the State Government.

Fiscal Year 1991 Highlights

102,269	Total Membership
81,023	Active Contributing Members
\$2,981,414,553	Net Assets Available for Benefits
	Contributions:
\$120,263,354	Employee
\$115,979,568	Employer
\$180,520,373	Investment Income
7%	Investment Return
	Benefit Recipients:
24,283	Retirement Annuities
8,819	Survivors' Annuities
1,583	Disability Benefits
\$215,290,386	Benefits Paid
\$4,949,880,212	Accrued Actuarial Liability
\$1,968,465,659	Unfunded Actuarial Liability
60.2%	Funded Ratio

November 22, 1991

The Board Of Trustees and Members
State Employees' Retirement System
Of Illinois
Springfield, IL 62794

Dear Board and Members:

The component unit annual financial report of the State Employees' Retirement System of Illinois (System) for the fiscal year ended June 30, 1991 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the System. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the System. All disclosures necessary to enable the reader to gain an understanding of the System's financial activities have been included.

The report consists of six sections:

1. An Introductory Section which contains this letter of transmittal and the identification of the administrative organization;
2. The Financial Section which contains the report of the independent public accountants, the financial statements of the System, and the required supplementary and additional financial information;
3. The Actuarial Section which contains the report of the Actuary as well as the summary of major actuarial assumptions and certain tables;
4. The Investment Section which contains a summary of the System's investment management approach and selected summary tables, including investment performance;
5. The Statistical Section which contains significant statistical data; and
6. A summary of the System's plan provisions and current legislative changes.

The combined financial statements include the State Employees' Retirement System Trust Fund (System Trust Fund) and the Social Security Contribution Fund (Contribution Fund), an Agency Fund. Based primarily upon the criteria of financial interdependency and ability to significantly influence operations and accountability for fiscal matters, the System has included the Social Security Contribution Fund in its combined financial statements. Although the State Employees' Retirement System, Judges' Retirement System and General Assembly Retirement System share a common administration, they are separate entities for legal and financial reporting purposes. Therefore, the financial statements of the State Employees' Retirement System do not include balance sheet information nor the results of operations of the General Assembly Retirement System or Judges' Retirement System.

PLAN HISTORY AND SERVICES PROVIDED

The System is the administrator of a single-employer public employee retirement system established to

Letter of Transmittal

provide pension benefits for State of Illinois employees. The System also administers widows and survivors benefits as well as the state's occupational and non-occupational disability programs.

The System Trust Fund was established January 1, 1944 and 17,237 state employees became members on that date. As of June 30, 1944, net assets of the System amounted to \$1,255,778. Plan assets at the end of the fiscal year June 30, 1991 are approximately \$3.0 billion, and there are 81,023 active members.

Significant events and dates during the forty-seven year history of the System Trust Fund are as follows:

January 1, 1969: All members of the System Trust Fund (excluding State Police) had the option of voting to coordinate their benefits with the federal social security program or remain exclusively under the System Trust Fund. Any employee becoming a member of the System Trust Fund after December 31, 1968 was mandatorily covered by social security, unless the nature of their position excluded them from participation (i.e., "police" and "firemen" positions).

October 1, 1975: Several additional position classifications were determined to meet the definition of "police" for purposes of rendering the members ineligible for social security coverage.

January 1, 1982: A new benefit formula was established for members working at the Department of Corrections who have daily or direct contact with inmates.

August 23, 1989: Governor James R. Thompson signed Senate Bill No. 95 into law (P.A. 86-0273). The bill provides for a seven year "phase - in" approach to funding by the State of Illinois. The long term intention is to provide contributions sufficient to cover "normal cost" of the System Trust Fund and also amortize any prior year underfunding by the state.

REVENUES

Collections of employer and employee retirement contributions, as well as income from investments, provide the reserves necessary to finance retirement benefits. These income sources totaled \$416.8 million during the fiscal year ending June 30, 1991, which is a slight decrease from revenue reported for fiscal year 1990, shown as follows:

	1991 (Millions)	1990 (Millions)	Increase/(Decrease) (Millions) (Percentage)	
Retirement System Trust Fund				
Contributions:				
Employees	\$ 120.2	\$ 110.1	\$ 10.1	9.2%
Employer	116.0	107.9	8.1	7.5
Investments	<u>180.5</u>	<u>213.2</u>	<u>(32.7)</u>	<u>(15.3)</u>
	<u>\$ 416.7</u>	<u>\$ 431.2</u>	<u>\$ (14.5)</u>	<u>(3.4)%</u>
Social Security Contribution Fund				
General Revenue, less balances lapsed	<u>.1</u>	<u>.1</u>	<u>-</u>	<u>-</u>
	<u>\$ 416.8</u>	<u>\$ 431.3</u>	<u>\$ (14.5)</u>	<u>(3.4)%</u>

Employee contributions have exceeded employer contributions for the past three fiscal years; and, as indicated in the total above, a substantial portion of the total revenue is derived from investment income. Investment income includes the realization of net gains on the sales of investments, during both fiscal years 1991 and 1990.

Letter of Transmittal

EXPENSES

The primary expense of a retirement system relates to the purpose for which it is created; namely the payment of benefits. These payments, together with the expense to administer the plan, constitute the total expenses of the System Trust Fund. Expenses of the System Trust Fund and Social Security Contribution Fund for 1991 and 1990 are shown for comparison purposes.

	1991 (Millions)	1990 (Millions)	Increase/(Decrease) (Millions)	(Percentage)
Retirement System Trust Fund				
Benefits:				
Retirement annuities	\$ 166.4	\$ 154.4	\$ 12.0	7.8%
Survivors' annuities	23.6	22.0	1.6	7.3
Disability benefits	16.6	15.3	1.3	8.5
Lump-sum death benefits	8.7	7.9	.8	10.1
	<u>\$ 215.3</u>	<u>\$ 199.6</u>	<u>\$ 15.7</u>	<u>7.9%</u>
Refunds (including Transfers)	11.8	12.3	(.5)	(4.1)
Administrative expenses	3.8	3.9	(.1)	(2.6)
	<u>\$ 230.9</u>	<u>\$ 215.8</u>	<u>\$ 15.1</u>	<u>7.0%</u>
Social Security Contribution Fund				
Administrative expenses	.1	.1	-	-
	<u>\$ 231.0</u>	<u>\$ 215.9</u>	<u>\$ 15.1</u>	<u>7.0%</u>

The increase in benefit payments results primarily from a growth in the number of benefits paid and an increase in the average benefit payment amount.

INVESTMENTS

Income from investments has, over the years, increasingly become a greater share of the total revenue of the System. Net investment income, combined with a net realized gain on the sale of investments, amounted to \$180,520,373 during fiscal year 1991, a decrease of \$32,619,351 from fiscal year 1990. This reflects the general stability of the stock market and lower interest rates in the bond markets during the last fiscal year. Income from investments represents 43.3% of total fund revenue. The ISBI had a 7% rate of return on market values for the year ended June 30, 1991.

A detailed discussion of investment performance and strategies is provided in the Investment Section of this report.

FUNDING AND RESERVES

Funding is the process of specifically allocating monies for current and future use. Proper funding includes an actuarial review of the fund balances to ensure that funds will be available for current and future benefit payments.

The actuarial determined liability of the System using the projected unit credit actuarial method at June 30, 1991, amounted to \$4,949.9 billion. The fund balances for participant contributions, interest accumulations and other future benefits amounted to \$2,981.4 billion as of the same date. The amount by which the liability exceeds the reserves is called the "unfunded present value of credited projected benefits". The unfunded present value of credited projected benefits amounted to \$1,968.5 billion and reflects the continuing state policy of appropriating funds at amounts less than the actuarially determined contribution requirement. A detailed discussion of funding is provided in the Actuarial Section of this report.

ECONOMIC CONDITION AND OUTLOOK

The state's policy on pension funding has been based on variations of the pay-as-you-go approach. Since fiscal year 1982, state appropriations have been less than 100% of benefit payout, and, during the past ten years have been as little as 44% of benefit payout.

Financing the retirement benefits that are being earned is one of the most important issues facing the System Trust Fund. Over the years, a number of organizations have stressed the need for sound funding of the System. In August 1989, then Governor Thompson signed Senate Bill 95 into law. This Bill provided for the increased funding of the unfunded actuarial liability which has been steadily increasing over the past several years. The amortization period of the unfunded liability was established at 40 years and is scheduled to begin in 1996. In order to defer the cost of a substantial increase in the required employer contributions, a seven year phase-in period was included in the legislation. The seven year phase-in period was to be used to increase the amount of contributions from the current contribution level to that level required for the amortization of the unfunded liability over the 40-year period.

Assessing the financial status of any retirement system is a difficult task. The valuation of pension liabilities is a complex procedure requiring the application of actuarial techniques. It is not possible to provide a simple measure of the financial status of a retirement system because no universally accepted measure of the financial status presently exists. By any reasonable actuarial standard, however, the System's present financial condition must be described as precarious due to the continually increasing dollar level of the unfunded liability. The events in the financial markets during the past several years serve as a constant reminder of the fact that no source of revenue can be guaranteed and that the responsibility for a sound funding policy and the related liability for contributions rests ultimately with the State of Illinois.

MAJOR INITIATIVES

During the past fiscal year, the System completed work on several major projects. A Publication Section has been integrated into the System and it is responsible for the production of all newsletters, agency forms and this annual report. The Entitlement Video was updated and the election of an active member and retiree to the Board of Trustees was held. Ms. Doris Clark, retiree, was re-elected to her second term as trustee and Mr. Jerry Rittenhouse is the newly elected active member.

Several projects were initiated in fiscal year 1991 and will be continued into fiscal year 1992; among the most significant are: a) establishment of a data base of seminar attendees for the Field Services Division, b) service credit messages on employee annual statements, c) the development of a new workshop for annuitants, and d) a review of internal accounting reports and the processing of data flow.

New projects for fiscal year 1992 include two major programs: 1) On July 24, 1991, Governor Jim Edgar signed Senate Bill 0045 into law as Public Act 86-0014. This bill allows for an early retirement incentive for employees meeting certain criteria specified in the bill. Basically, an employee will be allowed to establish up to 60 months of additional creditable service upon payment of the required contributions at one-half of the normal contribution rate; and 2) Effective January 1, 1992, the state will "pickup" or make payment on behalf of employees for their share of retirement contributions to the System. This pickup will be done on an agency-by-agency basis and will require agency director certification.

ACCOUNTING SYSTEM AND INTERNAL CONTROL

This report has been prepared to conform with the principles of governmental accounting and reporting pronounced by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants. The accrual basis of accounting is used to record the assets, liabilities, revenues and expenses of the System Trust Fund. Revenues are recognized in the accounting period in which they are earned, without regard to the date of collection, and expenses are recorded when the corresponding liabilities are incurred, regardless of when payment is made.

The administrative expenses of the Social Security Contribution Fund are appropriated annually by the Illinois State Legislature and included in the financial statements of the System Trust Fund. The Contribution Fund uses the modified accrual basis of accounting. The System also uses the State of Illinois, Comptroller's Uniform

Letter of Transmittal

Statewide Accounting System (CUSAS) as a basis for the preparation of the financial statements. In developing the System's accounting system, consideration is given to the adequacy of internal accounting controls. These controls are designed to provide reasonable assurance regarding the safekeeping of assets and the reliability of financial records. Constant effort is directed by the System at improving this level to assure the participants of a financially sound retirement system.

PROFESSIONAL SERVICES

Independent consultants are retained by the Board of Trustees to perform professional services that are essential to the effective and efficient operation of the System. Actuarial services are provided by The Wyatt Company, Chicago, Illinois. The annual financial audit of the System was conducted by the accounting firm of McGladrey & Pullen under the direction of the Auditor General of the State of Illinois. The System's investment function is managed by the Illinois State Board of Investment.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State Employees' Retirement System of Illinois for its component unit financial report for the fiscal year ended June 30, 1990. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized component unit financial report, whose contents conform to program standards. Such component unit financial reporting must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The State Employees' Retirement System of Illinois has received a Certificate of Achievement for the last five consecutive years (fiscal years ended June 30, 1986 through June 30, 1990). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS AND COMMENTS

The preparation of this report reflects the combined efforts of the System's staff under the direction of the Board of Trustees. It is intended to provide complete and reliable information as a basis for making management decisions, as a means of determining compliance with legal provisions, and as a means for determining responsible stewardship for the assets contributed by the members in the State of Illinois. On behalf of the Board of Trustees, we would like to express our appreciation to the staff and professional consultants who worked so effectively to ensure the successful operation of the System.

Respectfully submitted,

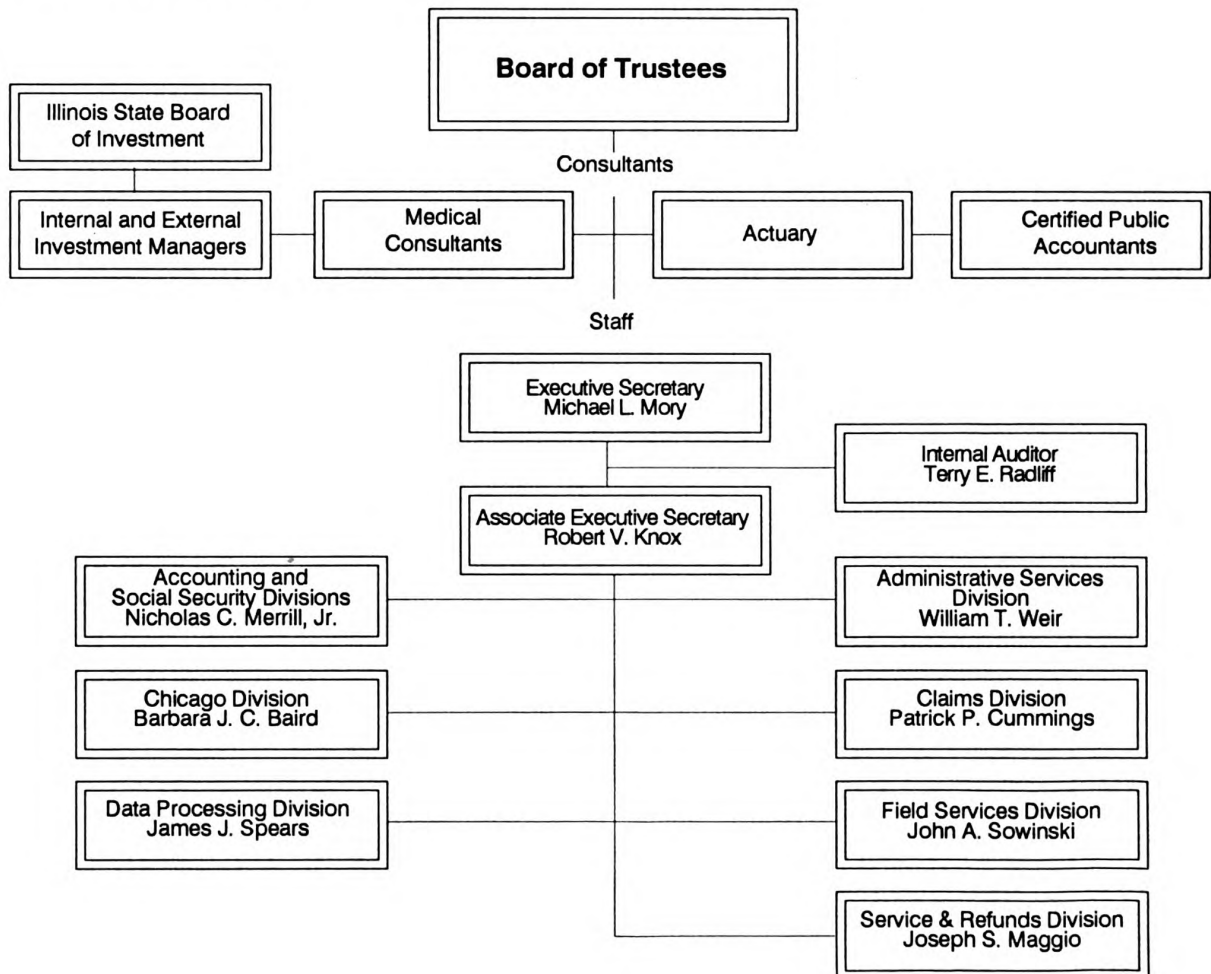

Michael L. Mory
Executive Secretary

Nicholas C. Merrill, Jr., CPA
Chief Fiscal Officer

INDEPENDENT AUDITOR'S REPORT

To the Honorable Robert G. Cronson
Auditor General, State of Illinois
Springfield, Illinois

Board of Trustees
State Employees' Retirement System of Illinois
Springfield, Illinois

We have audited, as special assistant auditors for the Illinois Auditor General, the accompanying balance sheet of the State Employees' Retirement System of Illinois as of June 30, 1991, and the related statement of revenue, expenses and changes in fund balance for the year then ended. These component unit financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these component unit financial statements based on our audit. The component unit financial statements of the State Employees' Retirement System of Illinois as of and for the year ended June 30, 1990, were audited by other auditors whose report, dated October 19, 1990, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the component unit financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the component unit financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 1991 component unit financial statements referred to above present fairly, in all material respects, the financial position of the State Employees' Retirement System of Illinois as of June 30, 1991, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the basic component unit financial statements as of and for the year ended June 30, 1991, taken as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic component unit financial statements. The supplementary information as of and for the year ended June 30, 1991, has been subjected to the auditing procedures applied in the audit of the basic component unit financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic component unit financial statements taken as a whole. The related supplemental schedules for the years ended June 30, 1982 through 1990 have been derived from financial statements audited by other auditors whose reports thereon expressed an unqualified opinion.

Springfield, Illinois

STATE EMPLOYEES' RETIREMENT SYSTEM OF ILLINOIS

Notes to Financial Statements June 30, 1991 and 1990

(1) Reporting Entity

The State Employees' Retirement System of Illinois (System) is a component unit of the State of Illinois and is composed of the State Employees' Retirement System, a trust fund (System Trust Fund) and the Social Security Contribution Fund, an agency fund (Contribution Fund). The System Trust Fund and the Contribution Fund are considered part of the State of Illinois financial reporting entity and are included in the state's comprehensive annual financial report as a pension trust fund and an agency fund, respectively.

The System has developed criteria to determine whether other state agencies, boards or commissions which benefit the members of the System should be included within its financial reporting entity. The criteria include, but are not limited to, whether the System exercises oversight responsibility on financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters, scope of public service and special financing relationships.

Based primarily upon the criteria of financial interdependency and ability to significantly influence operations and accountability for fiscal matters, the System has included the Social Security Contribution Fund in its combined financial statements.

(2) Plan Description

The System is the administrator of a single-employer public employee retirement system (PERS) established and administered by the State of Illinois to provide pension benefits for its employees. At June 30, 1991 and 1990, the number of participating state agencies, boards and commissions totaled:

	<u>1991</u>	<u>1990</u>
State agencies	42	42
State boards and commissions	<u>51</u>	<u>48</u>
Total	<u>93</u>	<u>90</u>

At June 30, 1991 and 1990 the System Trust Fund membership consisted of:

	<u>1991</u>	<u>1990</u>
Retirees and beneficiaries		
currently receiving benefits:		
Retirement annuities	24,283	23,864
Survivors' annuities	8,819	8,629
Disability benefits	<u>1,583</u>	<u>1,501</u>
	34,685	33,994
Inactive employees entitled		
to benefits but not yet		
receiving them	<u>2,291</u>	<u>2,233</u>
Total	<u>36,976</u>	<u>36,227</u>
Current Employees:		
Vested:		
Coordinated with Social Security	37,648	36,391
Noncoordinated	7,248	7,638
Nonvested:		
Coordinated with Social Security	34,797	33,903
Noncoordinated	<u>1,330</u>	<u>1,279</u>
Total	<u>81,023</u>	<u>79,211</u>

Operation of the System Trust Fund and the direction of its policies are the responsibility of the Board of Trustees of the System.

Financial Statements

(a) Eligibility and Membership

Membership is automatic for most state employees who are not eligible for another state-sponsored retirement plan. All persons entering state service, except those in positions subject to membership in other state sponsored retirement systems, persons employed after June 30, 1979 as public service employment program participants under the Federal CETA program, and enrollees in the Illinois Young Adult Conservation Corps, become members of the System upon completion of six months service. Employees appointed by the Governor and requiring confirmation by the State of Illinois Senate may elect to become members of the System.

(b) Contributions

Participating members contribute specified percentages of their salaries for retirement annuities and survivors' annuities. Contributions are excluded from gross income for Federal and State income tax purposes. The total contribution rate is 4% if the member is coordinated with Social Security and 8% if the member is not coordinated. Certain employment categories which are eligible for benefits under alternative formulas contribute at the rate of 5 1/2% or 9 1/2 % depending upon whether or not the employee is coordinated with Social Security. Participants' contributions are fully refundable, without interest, upon withdrawal from state employment. The State of Illinois is obligated to make payment for the required departmental contributions, all allowances, annuities, any benefits granted under Article 14 of the Illinois Pension Code (Code) and all administrative expenses of the System Trust Fund to the extent specified in the Code.

(c) Benefits

The System is governed by Article 14 of the Code. Vesting and benefit provisions under the System Trust Fund are defined in the Code. Employees who retire at or after age 60 with 8 years of credited service (or at age 55 with at least 30 years of credited service with reduced benefits) are entitled to an annual retirement benefit, payable monthly for life, in an amount based upon final average compensation and credited service. Employees with 35 years of credited service may retire at any age with full benefits. Final average compensation for retirement and survivors' annuities, is the employee's average salary, during a 48 consecutive month period within the last 120 months of service in which the total compensation was the highest. State policemen use their final rate of pay for the final average compensation.

Occupational and nonoccupational (including temporary) disability benefits are available through the System Trust Fund. To be eligible for nonoccupational (including temporary) disability benefits, an employee must have at least eighteen months of credited service with the System Trust Fund. The nonoccupational (including temporary) disability benefit is equal to 50% of the monthly rate of compensation of the employee on the date of removal from the payroll. Occupational disability benefits are provided when the member becomes disabled as a direct result of injuries or diseases arising out of and in the course of state employment. The monthly benefit is equal to 75% of the monthly rate of compensation on the date of removal from the payroll. This benefit amount is reduced by Workers' Compensation or payments under the Occupational Diseases Act.

Occupational and nonoccupational death benefits are also available through the System Trust Fund. Certain nonoccupational death benefits vest after eighteen months of credited service. Occupational death benefits are provided from the date of employment.

(3) Description of the Contribution Fund

The Contribution Fund was established pursuant to the 1951 Social Security Enabling Act, Article 21 of the Illinois Pension Code. It is a special fund in the State Treasury which serves as a clearinghouse account for the collection and transmittal of federal social security contributions of participating state employees and employing agencies and political subdivisions.

Effective January 1, 1987, the responsibility for the collection and transmittal of Social Security contributions for state agencies and participating state employees was transferred from the System to the Office of the Comptroller of the State of Illinois. As of that same date, political subdivisions of the state became responsible for their own remittance of social security contributions to the federal government. The balances in this fund are being maintained for final settlement of open years.

(4) Summary of Significant Accounting Policies and Plan Asset Matters

(a) Basis of Accounting - System Trust Fund

The financial transactions of the System Trust Fund are recorded on the accrual basis of accounting and in conformity with generally accepted accounting principles. Employee and employer contributions are recognized as revenues in the period in which employee services are performed.

(b) Method Used to Value Investments

The System Trust Fund retains all of its available cash in a commingled investment pool managed by the Treasurer of the State of Illinois (Treasurer). All deposits are fully collateralized by the Treasurer. "Available cash" is determined to be that amount which is required for the current operating expenditures of the System Trust Fund. The excess of available cash is transferred to the Illinois State Board of Investment (ISBI) for purposes of long-term investment for the System Trust Fund.

Investments are managed by the ISBI pursuant to Article 22A of the Illinois Pension Code and are maintained in the ISBI Commingled Fund. Such investments are valued at the cost of the System Trust Fund's units of participation in the ISBI Commingled Fund. Units of the ISBI Commingled Fund are issued to the member systems on the last day of the month based on the unit net asset value calculated as of that date. Net investment income of the ISBI Commingled Fund is allocated to each of the member systems on the last day of the month on the basis of percentage of accumulated units owned by the respective systems. Management expenses are deducted monthly from income before distribution. Investment income is recognized when earned.

The investment authority of the ISBI is provided in Illinois Revised Statutes Chapter 108 1/2, Article 22A-112. The ISBI investment authority includes investments in obligations of the U.S. Treasury and other agencies, notes secured by mortgages which are insured by the Federal Housing Commission, real estate, common and preferred stocks, convertible debt securities, deposits or certificates of deposit of federally insured institutions and options. Such investment authority requires that all opportunities be undertaken with care, skill, prudence and diligence given prevailing circumstances that a prudent person acting in like capacity and experience would undertake.

Governmental Accounting Standards Board (GASB) Statement No. 3 entitled "Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements" requires certain financial statement disclosure of deposits and investments, such as the disclosure of carrying amounts by type of investment and classification into one of three categories based upon credit risk. Investments in pools managed by other governmental agencies, in general, are to be disclosed but not categorized because they are not evidenced by securities that exist in physical or book entry form.

The System Trust Fund transfers money to the ISBI for investment in the ISBI Commingled Fund. This money is then allocated among various investment managers to pursue a specific investment strategy. All investment transactions are initiated by the investment managers (either internal or external). The transaction settlement information is then forwarded to the agent bank's trust department under a master custodial agreement. Custody of a majority of the actual physical securities is maintained at an agent of the agent bank's trust department using a book-entry system. The agent of the master custodian is Depository Trust Company.

The ISBI Board participates in a securities lending program whereby securities are loaned to brokers and, in return, the ISBI Board receives collateral of amounts slightly in excess of the market value of securities loaned. Collateral consists solely of cash, letters of credit, commercial paper and government securities. As of June 30, 1991 and 1990 the ISBI Board had outstanding loaned investment securities having a market value of approximately \$313,109,467 and \$332,849,772 respectively, against which it had received collateral of approximately \$329,552,739 and \$337,371,274 respectively.

The System Trust Fund owns approximately 93.5% of the ISBI Commingled Fund as of June 30, 1991.

Following are the ISBI investments, as categorized in the ISBI annual financial report. They are categorized to indicate the level of risk assumed by the ISBI Board at year end. Category I includes investments that are insured or registered or for which the securities are held by the master custodian in the ISBI Board's name. Category II includes uninsured and unregistered investments for which the securities are held by the master custodian in the ISBI Board's name. Category III includes uninsured and unregistered investments for which the securities are held by an agent of the master custodian but not in the ISBI Board's name.

TOTAL				<u>\$ 3,153,895,617</u>	<u>\$ 3,503,014,086</u>

(c) Fixed Assets

Expenditures for fixed assets are capitalized and depreciated over their estimated useful lives.

(d) Actuarial Experience Review

In accordance with Illinois Revised Statutes, an actuarial experience review is to be performed at least once every five years to determine the adequacy of actuarial assumptions regarding the mortality, retirement, disability, employment, turnover, interest and earnable compensation of the members and beneficiaries of the System. An experience review was performed as of June 30, 1990.

(e) Administrative Expenses

Expenses related to the administration of the System Trust Fund are budgeted and approved by the System's Board of Trustees. Administrative expenses for the Contribution Fund are appropriated annually by the State Legislature and are included in the financial statements of the System Trust Fund.

(f) Basis of Accounting - Contribution Fund

The collection and transmittal of federal Social Security contributions of participating state employees, employing agencies and political subdivisions through December 31, 1986, have been accounted for within the Contribution Fund on a modified accrual basis.

(5) Funding Status and Progress

The amount shown below as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of employee service to date. The measure is the actuarial present value of credited projected benefits and is intended to help users assess the State Employees' Retirement System funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among PERS.

Financial Statements

At June 30, 1991 and 1990, the unfunded pension benefit obligation was \$1,968,465,659 and \$1,742,507,084 as follows:

	1991	1990
Pension benefit obligation:		
Retirees & beneficiaries currently receiving benefits	\$ 2,078,058,684	\$1,932,126,127
Terminated employees not yet receiving benefits	14,799,575	16,549,419
Current Employees:		
Accumulated employee contributions and interest	1,271,681,573	1,153,104,503
Employer-financed vested	1,433,978,680	1,308,230,363
Employer-financed nonvested	95,160,995	77,192,537
Inactive members - Accumulated contributions and interest	56,200,705	50,871,245
Total Pension benefit obligation	\$ 4,949,880,212	\$ 4,538,074,194
Net assets available for benefits, at cost	2,981,414,553	2,795,567,110
(market value at June 30, 1991 - \$3,305,041,904; 1990 - \$3,086,666,667)		
Unfunded pension benefit obligation	\$ 1,968,465,659	\$1,742,507,084

Public Act 86-1488, approved in January 1991, modified the date of application of the first automatic annual increase for widow and survivor annuities, added 3% automatic annual increases for disability benefits and occupational death annuities, and provided a six month window during which refunds could be repaid at the rate of 2.5% per annum. These changes had the effect of increasing the actuarial present value of credited projected benefits and the related unfunded actuarial liability by \$17,743,150 during fiscal year 1991.

Public Act 86-0273, which was signed into law on August 23, 1989, enacted several changes in the benefit provisions of the System effective January 1, 1990. These changes provide for (1) 3% automatic annual increases in retirement annuities based on the current amount of annuity instead of the originally granted amount of annuity and (2) a 3% automatic annual increase in the amount of survivors' annuities based on the current amount of annuity.

Public Act 86-0272, also signed on August 23, 1989, contained certain benefit changes regarding State Police service credit and removal of the age 70 limit on disability payments.

Benefit changes, enacted under Public Acts 86-0272 and 86-0273, had the effect of increasing the actuarial present value of credited projected benefits and the related unfunded actuarial liability by \$251,523,053 during fiscal year 1990.

The measure is the same as the actuarial funding method used to determine contributions to the System Trust Fund, discussed in Note 6 below.

The pension benefit obligation was determined as part of an actuarial valuation at June 30, 1991. Significant actuarial assumptions used include (a) rate of return on the investment of present and future assets of 8 percent per year compounded annually, (b) salary increase rates vary by age, ranging from .5% to 4.7% attributable to merit, and 4.5% attributable to inflation for all employees, (c) 85% of employees are presumed to be married, (d) the female spouse is assumed to be three years younger than the male spouse, (e) mortality rates are based upon the 1971 Group Annuity Mortality Table projected in 1986, (f) it is assumed that terminated employees will not be rehired, and (g) the rate of turnover without vested benefits assumes a high scale at younger age levels, becoming progressively lower as age advances.

The System's actuarial consultant performed an experience review for the five - year period ending June 30, 1990. Based upon the results of the review, several changes were made to the actuarial assumptions. These changes had the effect of increasing the Pension Benefit Obligation and the related unfunded pension benefit obligation by \$185,673,427, and were primarily the result of adjustments to expected salary increases, termination rates, and retirement rates.

Financial Statements

(6) Contributions Required and Contributions Made

On an annual basis, a valuation of the liabilities and reserves of the System Trust Fund is performed by the System's actuarial consultants in order to determine the amount of contributions required from the State of Illinois. For fiscal year 1991, the actuary has used the projected unit credit actuarial method for determining the proper employer contribution rate and amount. For fiscal year 1990, the actuarial consultants submitted several alternative cost methods with various amortization periods for the unfunded prior costs to the Board. Each alternative is considered an acceptable cost or funding method. The alternatives were presented to the Board as a result of the state's long standing funding policy described below. Employer contributions are expressed as a percentage of annual covered payroll. The Board evaluated the alternatives and certified a contribution rate within the range of alternatives. This rate was then used as the "actuarial required contribution" rate. The Board certified actuarial required contribution rates for fiscal years 1991 and 1990, were 4.72% and 6.2%, respectively.

In the past, the Illinois State Legislature has generally followed a funding policy of appropriating funds based upon a percentage of benefit payout for those agencies which receive appropriated monies. The appropriated employer contribution rate for the legislatively funded agencies was 4.15% for fiscal year 1991 and 4.4% for fiscal year 1990.

State agencies which do not receive state appropriated funds for their share of employer retirement contributions contribute at the Board certified rate.

It has been interpreted that the laws of the State of Illinois regarding state finance provide for the Governor and the state legislature to have specific authority to reduce or increase monies appropriated for the employer share of retirement contributions regardless of the rate certified by the Board of Trustees.

Based upon the Board certified rate of 4.72%, the total amount of employer contributions required for the fiscal year ended June 30, 1991 amounted to \$116,175,814. The total amount of employer contributions made was \$115,979,568 (normal cost - \$61,312,278, amortization of unfunded accrued actuarial liability - \$54,667,290) thereby resulting in an underfunding of \$196,246.

Schedule of Contributions Required and Contributions Made
(in thousands)

	1991	1990	1989	1988	1987
Covered Payroll	\$ 2,461,352	\$ 2,270,303	\$ 2,106,121	\$ 1,953,960	\$ 1,825,196
Employer Contributions	\$ 115,980	\$ 107,938	\$ 98,472	\$ 99,991	\$ 109,560
Actual Employer Contribution Rate	4.71%	4.75%	4.68%	5.12%	6.00%
Board of Trustees Recommended Contribution Rate	4.72%	6.2%	6.3%	7.24%	8.4%
Employee Contributions	\$ 120,263	\$ 110,110	\$ 101,805	\$ 95,928	\$ 90,096
Employee Contribution Rate (Average)	4.89%	4.85%	4.83%	4.91%	4.94%

Beginning with the fiscal year which ended in 1990, the state's contribution was scheduled to be increased incrementally over a seven year period so that by the fiscal year ending June 30, 1996, the minimum contribution to be made by the state would be an amount that, when added to other sources of employer contribution, will be sufficient to meet the normal cost and amortize the unfunded liability over 40 years as a level percentage of payroll, determined under the projected unit credit actuarial cost method. The state contribution, as a percentage of the applicable employee payroll, was scheduled to be increased in equal, annual increments over the seven year period, until the funding requirements, specified above, are met.

Significant actuarial assumptions used to compute contribution requirements are the same as those used to compute the standardized measure of the pension obligation discussed in Note 5.

Public Act 86-1488, approved in January 1991, modified the date of application of the first automatic annual increase for widow and survivor annuities, added 3% automatic annual increases for disability benefits and occupational death annuities, and provided a six month window during which refunds could be repaid at the

rate of 2.5% per annum. These changes had the effect of increasing the actuarial present value of credited projected benefits and the related unfunded actuarial liability by \$17,743,150 during fiscal year 1991.

Benefit changes, enacted under Public Acts 86-0272 and 86-0273, had the effect of increasing the actuarial present value of credited projected benefits and the related unfunded actuarial liability by \$251,523,053 during fiscal year 1990.

The System's actuarial consultant performed an experience review for the five - year period ending June 30, 1990. Based upon the results of the review, several changes were made to the actuarial assumptions. These changes had the effect of increasing the Pension Benefit Obligation and the related unfunded pension benefit obligation by \$185,673,427.

(7) Historical Trend Information

Historical trend information designed to provide information about the System Trust Fund's progress made in accumulating sufficient assets to pay benefits when due is presented on pages 24-25.

(8) Administrative Expenses

A summary of the administrative expenses of the System for fiscal years 1991 and 1990 are as follows:

	1991		1990	
	System Trust Fund	Contribution Fund	System Trust Fund	Contribution Fund
Personal services	\$1,869,680	\$ 26,364	\$ 1,687,553	\$ 27,359
Retirement contributions	89,200	1,100	104,927	1,698
Social Security contributions	128,806	1,951	114,037	1,991
Group insurance	124,240	-	110,362	-
Contractual services	651,981	27,075	850,705	30,454
Travel	39,350	1,470	40,490	2,360
Commodities	31,527	92	66,344	383
Printing	45,445	-	58,799	-
Equipment	-	-	-	3,027
Electronic Data Processing	532,190	784	583,924	984
Telecommunications	50,759	900	53,543	886
Automotive	6,521	-	7,926	-
Depreciation	126,218	-	155,631	-
Other	77,619	-	52,907	-
Total	\$ 3,773,536	\$ 59,736	\$ 3,887,148	\$ 69,142

The System's fiscal years 1991 and 1990 employer retirement contribution requirement represented .09% and .08% respectively of total contributions required of all state agency/department employers participating in the SERS. Pertinent financial information relating to the System's participation in SERS is summarized as follows:

- The System's total and covered payrolls for fiscal year 1991 and 1990 were \$2,219 thousand and \$2,047 thousand respectively.
- The System's (i.e., the employers') actuarially determined contribution requirements for fiscal years 1991 and 1990 were \$105 thousand and \$127 thousand, respectively, or 4.72% and 6.2% of the System's covered payrolls. For fiscal year 1991, the System's and employee contributions actually made were \$105 thousand and \$92 thousand, respectively, which represents 4.72% and 4.2%, respectively, of the current year covered payroll. For fiscal year 1990, the System's and employee contributions actually made were \$127 thousand and \$85 thousand, respectively, which represent 6.2% and 4.2%, respectively, of the covered payroll.

Financial Statements

(9) Property and Equipment

Fixed assets are capitalized at their cost at the time of acquisition. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The estimated useful lives are as follows: (1) office furniture - 10 years, (2) equipment - 6 years, (3) automobiles and certain electronic data processing equipment - 3 years, and (4) building - 30 years.

Land is carried at its original cost, including applicable legal fees, surveying costs, etc.

A summary of the changes in fixed assets for 1991 and 1990 is as follows:

	Beginning Balance	1991		Ending Balance
		Additions	Deletions	
Land	\$ 655,241	\$ -	\$ -	\$ 655,241
Land Improvements	195,298	-	-	195,298
Building	3,141,538	25,382	-	3,166,920
Fixed Assets	974,222	218,222	(52,848)	1,139,596
Accumulated Depreciation	(625,948)	(126,218)	31,562	(720,604)
Property and equipment, net	<u>\$ 4,340,351</u>	<u>\$ 117,386</u>	<u>\$ (21,286)</u>	<u>\$4,436,451</u>

	Beginning Balance	1990		Ending Balance

Land	\$ 655,241	\$ -	\$ -	\$ 655,241
Land Improvements	17,585	177,713	-	195,298
Building	268,688	2,872,850	-	3,141,538
Fixed Assets	672,172	350,620	(48,570)	974,222
Accumulated Depreciation	(509,713)	(155,631)	39,396	(625,948)
Property and equipment, net	<u>\$ 1,103,973</u>	<u>\$ 3,245,552</u>	<u>\$ (9,174)</u>	<u>\$4,340,351</u>

(10) Lease Agreement

The System previously leased its facilities under a sixty (60) month agreement in effect through June 30, 1990. Under the terms of this lease, the System was required to make monthly payments which included a provision for utilities and building maintenance. Office rental expense amounted to \$269,799 for fiscal year 1990.

(11) Accrued Compensated Absences

Employees of the System are entitled to receive compensation for all accrued but unused vacation time and one-half of all unused sick leave earned after January 1, 1984 upon termination of employment. The value of accrued compensated absences as of June 30, 1991 and 1990 was \$416,143 and \$359,810, respectively.

(12) New Office Facility

During the fiscal year ended June 30, 1990, the System completed construction of a new office facility. The cost of the building, including land, and land improvements was \$4,017,459 through June 30, 1991.

(13) Analysis of Changes in Fund Balances - Reserved

The System Trust Fund maintains three reserve accounts which, when combined, comprise the total reserved fund balance. The reserves are defined as follows:

- (a) Participants' contributions - accounts for assets contributed by each participant,
- (b) Interest accumulations - accounts for interest credited to each participant's account, and
- (c) Other future benefits - accounts for all assets not otherwise specifically provided for in items (a) and (b) above.

(14) Legislation Passed Subsequent to Year End

In July 1991, Governor Jim Edgar signed Senate Bill 0045 into law (P.A. 87-0014). This comprehensive bill provided for an Early Retirement Incentive (ERI) program for members of the System. Under certain circumstances a member would be allowed to establish up to 5 years of creditable service by making payment of the amounts prescribed in the statute.

Approximately 14,000 state employees will be eligible for the ERI program. While it is anticipated that 30% of those eligible to participate will take advantage of the ERI program, the actual cost to the System cannot be determined until the option period has closed.

*At cost

**Pension Benefit Obligation information is not available for years prior to 1985.

Analysis of the dollar amounts of net assets available for benefits, pension benefit obligation, and unfunded pension benefit obligation in isolation can be misleading. Expressing the net assets available for benefits as a percentage of the pension benefit obligation provides one indication of the System Trust Fund's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the System is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the public employees' retirement system (PERS). Trends in unfunded pension benefit obligation and annual covered payroll are both affected by inflation. Expressing the unfunded pension benefit obligation as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the System Trust Fund's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the PERS.

(A) = For fiscal years 1982 and 1985, the contribution rate shown is the minimum rate recommended by the actuarial consultants. The actual Board approved rate was 4.5% and 5.8% for FY 1982 and 1985, respectively. For all other years presented, the Board approved rate was at least equal to or greater than the minimum contribution rate recommended by the actuaries.

(B) = The System Trust Fund recognizes revenue based upon either the Board approved rate or the state appropriated rate, as appropriate.

(C) = The System Trust Fund receives an annual appropriation from the State Pension Fund. The State Pension Fund receives proceeds from the sale of abandoned and unclaimed property.

(D) = In fiscal year 1983, House Amendment No. 1 to Senate Bill 177 was adopted by the state legislature. This bill reduced the dollar amount appropriated for the employer's share of retirement contributions. Senate Joint Resolution No. 33 provided that the System Trust Fund would be repaid the amount of the Senate Bill 177 reductions at the rate of 20% per year over the succeeding five fiscal years, including interest at 6% per annum. Final payment was received in FY 1988.

(E) = In fiscal year 1990, the System Trust Fund received an additional appropriation from the State of Illinois for the employer contribution.

Investment Income	<u>180.5</u>	<u>213.2</u>	<u>(32.7)</u>	<u>(15.3)</u>
Total	\$ 416.7	\$ 431.2	\$ (14.5)	(3.4)%

There were 1,812 more active members as of June 30, 1991 than on June 30, 1990. This increase of 2.3% in membership and average wage increases of 6.0% resulted in an increase of 8.4% in wages subject to retirement contributions. State contributions increased by 7.5% (\$8.1 million). Member contributions were \$120.2 million which is a \$10.1 million increase from FY 1990. As shown in the table below, the average rate of contributions by members in FY 1991 was 4.89% compared to 4.85% in FY 1990.

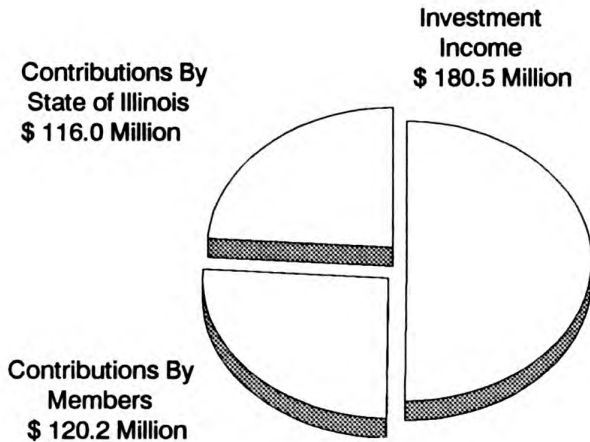

Active Membership	FY 91	FY 90	Increase/(Decrease)	
			(Number/Amount)	(Percentage)

All Members (Millions)	\$2,461.4	\$2,270.3	\$ 191.1	8.4%
Average Rate of Contributions				
All Members	4.89%	4.85%		

The System has approximately \$890,000 of arrearages and overpayments as of June 30, 1991. There were 118 accounts with arrearages, 498 claim overpayments and 4 refund overpayments. The System employs several different methods for the collection of its outstanding receivables. These methods include collections by the System, use of the office of the Comptroller's involuntary offset system, contracting with private collection firms and legal action through the office of the Attorney General.

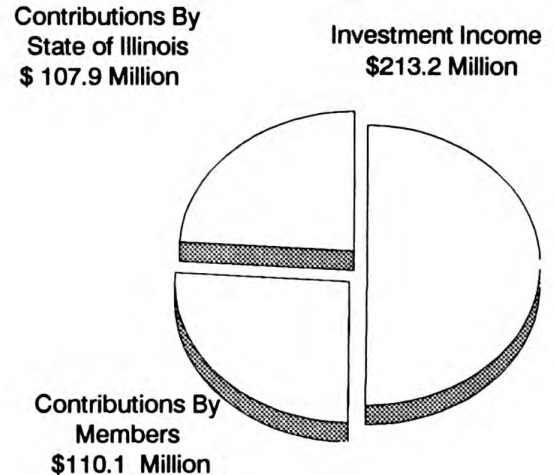

Additional Financial Information

REVENUES BY SOURCE 1991 TOTAL REVENUES \$ 416.7 MILLION

REVENUES BY SOURCE 1990 TOTAL REVENUES \$ 431.2 MILLION

Gross investment income for 1991 of \$170,533,511, less the Investment Board's administrative expenses of \$10,729,245, resulted in net investment income of \$159,804,266. This amount, when combined with the net realized gain on sale of investments of \$19,884,262, provided net revenue from investments of \$179,688,527. Transfers of funds to the Illinois State Board of Investment amounted to \$12,000,000 and transfers from the Board of \$18,000,000 resulted in a net reduction in investments of \$6,000,000. The balance of investments at cost increased by \$173,688,527 from June 30, 1990 through June 30, 1991. The following table shows a comparison of investment operations for FY 1991 and FY 1990.

	1991	1990	Increase/(Decrease) (Amount)	(Percentage)
Balance at beginning of year, at cost	\$ 2,775,885,256	\$ 2,565,152,803	\$ 210,732,453	8.2%

Less Expenses	(10,729,245)	(9,242,604)	(1,486,641)	16.1
Net investment income	<u>159,804,266</u>	<u>153,781,413</u>	<u>6,022,853</u>	<u>3.9</u>
Distributed Net Realized Gain/ (Loss) on Sale of Investments	<u>19,884,261</u>	<u>57,951,040</u>	<u>(38,066,779)</u>	<u>(65.7)</u>
Balance at end of year, at cost	<u>\$ 2,949,573,783</u>	<u>\$ 2,775,885,256</u>	<u>\$ 173,688,527</u>	<u>6.3%</u>
Market value	<u>\$ 3,275,201,134</u>	<u>\$ 3,066,984,813</u>	<u>\$ 208,216,321</u>	<u>6.8%</u>

In addition, interest on the average balance in the System Trust Fund's account for FY 1991 was \$831,847 compared to \$1,407,272 during FY 1990.

Additional Financial Information

EXPENSES

The number of members receiving retirement annuities on June 30, 1991 was 1.8% above the June 30, 1990 level reflecting the normal pattern of increase during the past 10 years; however, the cost of these annuities increased by 7.8% over the FY 1990 level. Higher salaries for current retirees, post retirement increases granted each January 1, and an increase in the minimum retirement annuity resulted in costs rising at a more rapid pace than the number of annuitants. Survivors' annuities increased at a near normal rate of 2.2% in number with 7.3% increase in dollar costs. Disability recipients increased by 5.5% while disability benefits increased in dollar amount by 8.5%.

	FY 91 (Millions)	FY 90 (Millions)	Increase/(Decrease)	
			(Amount)	(Percentage)
Retirement annuities	\$166.4	\$154.4	\$12.0	7.8%
Survivors' annuities.....	23.6	22.0	1.6	7.3
Disability benefits	16.6	15.3	1.3	8.5
Lump sum death benefits.....	8.7	7.9	.8	10.1
Refunds (Including Transfers)	11.8	12.3	(.5)	(4.1)
Administrative expense	3.8	3.9	(.1)	(2.6)
TOTAL EXPENSES	\$230.9	\$215.8	\$ 15.1	7.0%

NUMBER OF RECURRING BENEFIT PAYMENTS

	FY Ended June 30, 1990	New claims Processed During FY 91	Benefits Ceased During FY 91	FY Ended June 30, 1991	Increase/(Decrease)	
					(Amount)	(Percentage)
Retirement	23,864	1,428	1,009	24,283	419	1.8%
Survivors'.....	8,629	576	386	8,819	190	2.2
Disability	1,501	2,027	1,945	1,583	82	5.5
TOTALS	33,994	4,031	3,340	34,685	691	2.0%

Lump sum death benefits are primarily refunds of member contributions and will vary from year to year. Refunds to members have been decreasing in the past few years. The general decreasing trend in refunds is primarily due to the 6 month qualifying period required of new employees hired since January, 1984.

Additional Financial Information

RESERVES

As of June 30, 1991, the funds available for payment of current and future benefits were \$2,981.4 million as shown in the following schedule:

	FY91 (Millions)	FY90 (Millions)	Increase/ (Decrease)
Assets			
Cash	\$18.7	\$ 11.2	\$ 7.5
Receivables (less payables)	8.7	4.2	4.5
Investments	2,949.6	2,775.9	173.7
Fixed Assets (net of accumulated depreciation) ..	<u>4.4</u>	<u>4.3</u>	<u>.1</u>
NET ASSETS	<u>\$2,981.4</u>	<u>\$2,795.6</u>	<u>\$ 185.8</u>

Total System Trust Fund revenues for FY 1991 of \$416.7 less expenditures of \$230.9 million resulted in a net increase to reserves of \$185.8 million.

	FY 91 (Millions)	FY90 (Millions)	Net Increase
Reserves			
Member Contributions	\$ 897.7	\$ 823.0	\$ 74.7
Interest Accumulations	432.2	381.0	51.2
Future Operations	<u>1,651.5</u>	<u>1,591.6</u>	<u>59.9</u>
NET ASSETS	<u>\$ 2,981.4</u>	<u>\$ 2,795.6</u>	<u>\$ 185.8</u>

Member contributions transferred to the Reserve for Future Operations due to retirement or death of active members during the year amounted to \$28.2 million.

SOCIAL SECURITY

On September 15, 1953, the State of Illinois and the Federal Government signed an agreement making social security coverage available to public employees in Illinois. In addition to extending new coverage, the System, as State Administrator, was responsible for collecting and transmitting social security contributions to the U.S. Department of Health and Human Services for approximately 1,600 towns, villages and other political entities. Members of two retirement systems in the State of Illinois, the Illinois Municipal Retirement Fund (IMRF) and the State Employees' Retirement System (SERS), are also covered by social security. During fiscal year 1991, the Social Security Unit receipted slightly more than \$385,000 of contributions from various political subdivisions and refunds from the federal government. In addition, the Unit vouchered approximately \$30,000 to political subdivisions as refunds of contribution overpayments and paid nearly \$10,000 to the U.S. Treasury. Due to the passage of federal legislation which mandated that state and local government employers conform to the same remittance schedule as private employers, the responsibility for the collection and remittance of Social Security and Medicare taxes was transferred from this agency to the Office of the Comptroller of the State of Illinois effective, January 1, 1987. Adjustments to Social Security or Medicare taxes for wages paid thru December 31, 1986, continue to be processed through the Contribution Fund. Subsequent to January 1, 1987, any adjustments to Social Security or Medicare taxes are reported through the Office of the Comptroller.

The Social Security Division has a staff of one full-time employee. Data processing and accounting services are performed by other divisions of the System on a contractual basis. Expenses are appropriated by the General Assembly and subsequently recovered from the reporting entities on a pro-rated basis. The total amount of expenses appropriated from the General Revenue Fund for the administration of the Contribution Fund was \$59,736 and \$69,142 for fiscal years 1991 and 1990, respectively.

ACTUARIAL CERTIFICATION

We have completed the annual actuarial valuation of the assets and liabilities of the State Employees' Retirement System of Illinois as of June 30, 1991.

Since the last valuation Senate Bill 1951, approved in January 1991, modified the date of application of the first automatic annual increase for widow and survivor annuities, added 3% automatic annual increases for disability benefits and occupational death annuities, and provided a six month window during which refunds could be repaid at an interest charge of 2.5% per annum. These legislative changes result in an increase of approximately 0.4% in the accrued actuarial liability (AAL).

Pursuant to the law establishing the System, the actuary shall investigate the experience under the System at least once every five years. The Wyatt Company, as the actuary, completed such a review for the five year period ending June 30, 1990 and recommended assumptions which were adopted by the Board effective June 30, 1990, and which were used for the current valuation. We believe that, in the aggregate, the current assumptions relate reasonably to the past and anticipated experience of the plan.

The financing objective of the System is to accumulate assets equal to the value of the portion of all future benefits that is based on members' service as of the valuation date. A contribution rate has been determined using the Projected Unit Credit Cost Method, providing for the normal cost plus an amortization of the unfunded accrued actuarial liability as required by Chapter 108-1/2, Par. 14-131(f) of the Illinois Pension Code. Future normal cost rates are expected to remain constant, as a percentage of payroll, while the amortization contribution rate will increase in equal annual increments from

Wyatt

the 1992 fiscal year rate until the 1996 fiscal year rate is reached. The total contribution rate can thus be expected to rise gradually until June 30, 1996, remain level until June 30, 2035, and then drop to a constant normal cost rate. Employer contributions in recent years have been less than that required to meet this financing objective.

For purposes of determining contribution rates, assets have been valued at cost as reported by the Illinois State Board of Investment. The liabilities have been valued based on employee data which is supplied by the administrative staff of the System and verified by the System's auditor. We have made additional tests to ensure its accuracy.

In our opinion, the following schedule of valuation results fairly presents the financial condition of the State Employees' Retirement System of Illinois as of June 30, 1991. The contribution rate determined complies with the applicable law in force as of June 30, 1991.

INTRODUCTION

The System Trust Fund receives contributions from several sources which can be considered as employer contributions, with the largest source being the regular state appropriation. The System Trust Fund receives an annual appropriation from the State Pension Fund, and in fiscal year 1990, also received a supplemental state appropriation.

Annually, the System's actuarial consultant prepares a valuation of the liabilities and reserves of the System Trust Fund in order to make a determination of the amount of contributions required from the state. In fiscal year 1991, the actuary has determined the required employer contribution rate and amount using the projected unit credit cost method. In fiscal year 1990 the Board reviewed and evaluated several alternative contribution rates supplied by the actuary. Upon completion of their review, the Board certified an employer contribution rate for all state agencies. Based upon the state's actual funding method described above, the System, in recent years, has not received the minimum actuarially determined employer contribution amount.

The employers' contribution amount, together with members' contributions, income from investments and any other income received by the System, shall be sufficient to meet the cost of maintaining and administering the System on a funded basis in accordance with actuarial reserve requirements, pursuant to Article 14-131 of the Illinois Revised Statutes. The statutes define "actuarial reserves" as "An accumulation of funds in advance of benefit payments which will be sufficient with respect to each member and his beneficiaries, if any, to pay the prescribed benefits, computed according to the actuarial tables, without further contributions by or on behalf of the member."

The underfunding of employer contributions continues to place undue pressure on one of the other major sources of revenue to the System, namely income from investments, to consistently provide an increasing percentage of total fund revenue. In recent years, the higher than assumed rate of return on investments distorts the fact that employer contributions have not kept pace with prior, current, and future estimated benefit costs. For the third consecutive year, employee contributions have exceeded employer contributions to the System Trust Fund. This fact underscores the need for the development and implementation of a systematic and rational funding plan for the System.

In an attempt to address the pension funding dilemma, the state legislature passed S.B.95 in August, 1989, which provided for a standardized funding method (projected unit credit) and a specified term for the amortization of prior unfunded pension costs (40 years, level percentage of payroll). There is a seven-year phase in period of the required employer contributions to attain the 40-year amortization level.

ACTUARIAL COST METHOD AND SUMMARY OF MAJOR ACTUARIAL ASSUMPTIONS

For fiscal years 1991 and 1990, a projected unit credit normal cost method is used. Under this method, the projected pension at retirement age is first calculated and the value thereof at the individual member's current or attained age is determined. The normal cost for the member for the current year is equal to the value so determined divided by the member's projected service at retirement. The normal cost for the plan for the year is the sum of the individual normal costs.

Actuarial gains and losses are recognized immediately in the unfunded actuarial liability of the System. For purposes of determining future employer contributions, however, the actuarial gains and losses are amortized over a 40-year period as a level percentage of payroll. The actuarial liability at any point in time is the value of the projected pensions at that time less the value of future normal costs.

For ancillary benefits for active members, in particular disability benefits, death and survivor benefits, termination benefits, and the post-retirement increments, the same procedure as outlined above is followed.

Actuarial Section

A description of the actuarial assumptions utilized for FY-91 and FY-90 follows:

Dates of Adoption: The Projected Unit Credit Normal Cost Method was adopted June 30, 1989; all other assumptions were adopted June 30, 1990.

Mortality: 1986 Projected Experience Table, a table based on experience underlying the 1971 Group Annuity Mortality Table, without margins, with a projection for mortality improvements to 1986. Five percent of deaths amongst active employees are assumed to be in the performance of their duty.

Interest: 8% per annum, compounded annually.

Termination: Illustrative rates follow. It is assumed that terminated employees will not be rehired.

Rate			Rate		
Age	Males	Females	Age	Males	Females
20	.188	.377	45	.038	.041
25	.126	.144	50	.032	.030
30	.085	.096	55	.030	.030
35	.062	.072	60	.030	.030
40	.047	.056	65	.030	.030

Salary Increases: Illustrative rates of increase per annum, compounded annually:

Age	Males & Females	Components		Age	Males & Females	Components	
		Merit	Inflation			Merit	Inflation
20	9.2%	4.7%	4.5%	45	6.7	2.2	4.5
25	8.7	4.2	4.5	50	6.2	1.7	4.5
30	8.2	3.7	4.5	55	5.7	1.2	4.5
35	7.7	3.2	4.5	60	5.2	.7	4.5
40	7.2	2.7	4.5	65	5.0	.5	4.5

Retirement Rates: Listed below are rates of retirement that vary by age:

Age	General Employees	Alternative Formula Employees*	Age	General Employees	Alternative Formula Employees*
	50-54	-		20%	63-64
55-59	10	20	65	40	40
60	25	20	66-69	25	30
61	15	20	70	100	100
62	20	20			

*An additional 10% are assumed to retire in the year in which the employee completes 30 years of service. The rates apply only to employees who have fulfilled the service requirement necessary for retirement at any given age.

Assets: Assets available for benefits are valued at book value (cost).

Expenses: As estimated and advised by SERS staff, based on current expenses with an allowance for expected increases.

Marital Status: 85% of employees are assumed to be married.

Spouse's Age: The female spouse is assumed to be three years younger than the male spouse.

In addition to the above, other assumptions used include disability incidence, recovery from disability, mortality of disabled lives, remarriage rates, ages, and numbers of children and Social Security benefit levels.

VALUATION RESULTS

Actuarial Liability (Reserves)	FY-91	FY-90
For Annuitants:		
For Benefit Recipients:		
Retirement Annuities	\$ 1,765,612,090	\$ 1,641,954,167
Survivor Annuities	230,250,907	214,764,228
Disability Annuities	72,392,278	65,636,773
Deferred:		
Retirement Annuities	1,178,359	1,135,115
Survivor Annuities	8,625,050	8,635,844
Total	\$ 2,078,058,684	\$ 1,932,126,127
For Inactive Members:		
Eligible for Deferred Vested Pension Benefits	64,654,680	61,844,342
Eligible for Return of Contributions Only	6,345,600	5,576,322
Total	\$ 71,000,280	\$ 67,420,664
For Active Members	<u>2,800,821,248</u>	<u>2,538,527,403</u>
Actuarial Present Value of Credited Projected Benefits	\$ 4,949,880,212	\$ 4,538,074,194
Assets, Book Value (Cost)	<u>2,981,414,553</u>	<u>2,795,567,110</u>
Unfunded Actuarial Present Value of Credited Projected Benefits	<u>\$ 1,968,465,659</u>	<u>\$ 1,742,507,084</u>

*** GLOSSARY OF PENSION TERMS:**

1. **ACTUARIAL PRESENT VALUE OF CREDITED PROJECTED BENEFITS -**
This value is defined in GASB Statement No. 5 as the pension benefit obligation (PBO), which is "a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and any step-rate benefits, estimated to be payable in the future as a result of employee service to date".
2. **UNFUNDED ACTUARIAL PRESENT VALUE OF CREDITED PROJECTED BENEFITS -**
This is the difference between the actuarial present value of credited projected benefits and the actuarial value of assets of the pension plan. It includes the unfunded prior and past service costs as well as normal costs not funded by the employer and actuarial gains and losses.
3. **NORMAL COST -**
This is the pension cost for service during the period as determined by an actuarial cost method.
4. **PAST SERVICE COST -**
At the inception of a plan, credit is often given to employees for services rendered before creation of the plan. Naturally, no contributions would have been made by the employer. Therefore, a cost has been incurred but not funded. This is called past service cost.

Generally accepted accounting principles provide that these costs should be deferred and recognized over future periods. The logic to this follows from the presumption that the employer granted these pension benefits for past service because some future value from better employee morale and higher productivity will be obtained. Thus, past service costs are deferred and recognized over the expected period of benefit. The convention has been to amortize past service costs over a period of 40 years, which is the approximate working lifetime of employees.

Past service costs can be amortized using a level dollar amount or a level percent of pay. Amortization payments are determined in the same way a mortgage payment is determined.
5. **PRIOR SERVICE COSTS -**
Pension plan benefits are often changed by amendments. When such a change gives credit for employee services rendered prior to the amendment, it gives rise to what are called prior service costs.

These are treated like past service costs, that is, the amount is deferred and amortized over future periods. As a practical matter, actuaries do not treat past and prior service costs separately but are instead handled as one value.
6. **ACTUARIAL GAINS AND LOSSES -**
Actual events usually differ from assumptions made by an actuary. The dollar effect of these variances from assumed values is an actuarial gain or loss. Actuarial gains and losses can also include the effects on the actuarial present value of benefits resulting from changes in actuarial assumptions.

Portfolio investment returns are another major source of actuarial gains and losses affecting pension expense (contribution) for the period. The discount rate was the expected return on pension plan investments. Therefore, if the portfolio's actual returns exceed the expected return (discount rate), an actuarial gain results and employer contributions are reduced. If returns are less than expected, there is an actuarial loss, and employer contributions are increased.

SHORT-TERM SOLVENCY TEST

A short-term solvency test is one means of checking a system's progress under its funding program. In a short-term solvency test, the plan's present assets (primarily cash and investments) are compared with: 1) active member contributions on deposit; 2) the liabilities for future benefits to present retired lives; and 3) the liabilities for service already rendered by active members. In a system that has been following level percent of payroll financing, the liabilities for service already rendered by active members (liability 3) should be partially covered by the remainder of present assets. If the system continues using level cost financing, the funded portion of liability 3 will increase over time, although it is very rare for a system to have its liability 3 fully funded.

The State of Illinois, however, has generally funded the System based on benefit payout, a level which increases over time reflecting a larger work force and higher salary levels. Consequently, it can be expected that a percentage of liability 3 has been funded to date. (It should also be noted that the improvement reflected in recent years results primarily from the significant realized gains on the sale of investments previously described.)

Computed Actuarial Values (in thousands of dollars)

Fiscal Year	Member Contributions (1)	Current Retirees and Beneficiaries (2)	Active and Inactive Members, Employer Financed Portion (3)	Net Assets Available For Benefits	Percentage of Actuarial Values Covered by Net Assets Available		
					(1)	(2)	(3)
1982	\$448,908	\$ 914,281	\$1,144,618	\$1,200,142	100.0%	82.2%	0.0%
1983	482,983	1,049,972	1,270,744	1,408,780	100.0	88.2	0.0
1984	517,008	1,150,634	1,414,552	1,581,326	100.0	92.5	0.0
1985	554,823	1,172,344	1,100,162	1,707,259	100.0	98.3	0.0
1986	597,438	1,287,644	1,228,253	1,974,095	100.0	100.0	7.2

1990	823,025	1,932,126	1,782,923	2,795,567	100.0	100.0	2.3
1991	897,690	2,078,059	1,974,131	2,981,415	100.0	100.0	0.3

ANALYSIS OF FUNDING

In an inflationary economy, the value of the dollar decreases. This environment results in employees' pay and retirement benefits increasing in dollar amounts resulting in unfunded accrued liabilities which increase in dollar amounts, all at a time when the actual substance of these items may be decreasing. Looking at just the dollar amounts of unfunded accrued liabilities can be misleading. The ratio of the unfunded accrued liabilities to active employee payroll provides an index which clarifies understanding. The smaller the ratio of unfunded liabilities to active member payroll, the stronger the system. Observation of this relative index over a period of years will give an indication of whether the system is becoming financially stronger or weaker. (It should be noted that the improvement reflected in the following schedule for recent years results primarily from significant realized gains on the sale of investments previously described.)

Fiscal Year	Total Actuarial Liability	Net Assets	(in thousands of dollars)			
			Net Assets as a % of Actuarial Liability	Total Unfunded Actuarial Liability	Member Payroll	Unfunded Actuarial Liability as a % of Member Payroll
1982	\$2,507,807	\$1,200,142	47.9%	\$1,307,665	\$1,334,262	98.0%
1983	2,803,699	1,408,780	50.2	1,394,919	1,378,735	101.0
1984	3,082,194	1,581,326	51.3	1,500,907	1,437,546	104.0
1985	2,827,329	1,707,259	60.4	1,120,070	1,569,532	71.0
1986	3,113,335	1,974,095	63.4	1,139,240	1,713,755	66.0
1987	3,361,723	2,225,883	66.2	1,135,840	1,825,196	62.0
1988	3,641,579	2,381,806	65.4	1,259,773	1,953,960	65.0
1989	3,752,134	2,580,199	68.8	1,171,935	2,106,121	56.0
1990	4,538,074	2,795,567	61.6	1,742,507	2,270,303	77.0
1991	4,949,880	2,981,415	60.2	1,968,465	2,461,352	80.0

ANALYSIS OF FINANCIAL EXPERIENCE

Gain (Loss) in Actuarial Liability for Fiscal Years ending June 30, 1991 and 1990 are as follows:

	<u>1991</u>	<u>1990</u>
1. Actuarial Gains (Loss)		
(a) Age & Service Retirements	\$ (19,232,881)	\$ (32,243,743)
(b) Incidence of Disability	(889,305)	(1,634,929)
(c) In-Service Mortality	(5,776,927)	(3,983,963)
(d) Retiree Mortality	(1,867,193)	1,361,738
(e) Disabled Mortality	619,073	55,701
(f) Termination of Employment	(12,967,263)	(24,540,651)
(g) Salary Increases	(15,879,462)	(5,058,229)

Investment Report

Investment Portfolio Summary

Analysis of Investment Performance

INVESTMENT REPORT

By state law the System's investment function is managed by the Illinois State Board of Investment (ISBI Board). The ISBI Board was created in 1969 to provide a means of centralizing the investment management function for public employee pension funds and retirement systems operating in the state. At the end of the fiscal year, in addition to the assets of the State Employees' Retirement System, the ISBI Board also managed the investment function for the Judges' and General Assembly Retirement Systems. As of June 30, 1991, total net assets under management valued at market, amounted to \$3.503 billion. Of the total assets under management, \$3.275 billion or 93.5% represented assets of the State Employees' Retirement System.

Management Approach

The ISBI Board manages the Fund in accordance with the "prudent person rule" as adopted by the Illinois General Assembly in 1982. The ISBI Board has established a long-range investment policy which, in line with the prudent person rule, affirms that the Fund's objective is to provide the greatest possible long-term benefits through maximization of the total return of the Fund, within prudent risk parameters. Further, it is the ISBI Board's philosophy that the assets owned by the participating systems and managed by the ISBI Board are held for the exclusive purpose of providing benefits to the participants and annuitants of the respective retirement systems and their beneficiaries. In line with this philosophy, the ISBI Board from time to time evaluates its asset allocation which is considered by many to be the single most important factor in pension investment management. The three major asset classes are: bonds, equities and cash; with smaller positions being allocated to real estate, venture capital and other alternative investments.

Total Fund Results

The Illinois State Board of Investment Commingled Fund (ISBI Fund) had a market value of \$3.503 billion as of the end of its fiscal year, June 30, 1991. The ISBI Fund had an increase in market value of \$219.2 million for the fiscal year, all of which resulted from net appreciation of assets and net realized yield on investments, as the member systems withdrew \$10 million on a net basis during the fiscal year.

Due to strong domestic equity and bond markets during the last six months of the fiscal year, the ISBI Fund produced a total rate of return of 7% for fiscal year 1991. As set forth in more detail below, domestic equities, fixed income and non-marketable securities achieved results well above the ISBI Fund's total rate of return, while international securities and real estate produced lower results.

The objective of the ISBI Fund is to allocate assets among the various investment categories in a manner that maximizes return and minimizes risk in the security markets. Focusing on that objective, the ISBI Board has engaged a consulting firm to make a comprehensive and quantitative review of the ISBI Fund's portfolio mix, including conformance to pre-determined asset allocation policies and investment guidelines, as well as performance benchmarks for its external managers. It is anticipated that this project will be completed before the end of calendar year 1991 and the ISBI Board intends to then review and possibly adopt a new three to five year investment strategy.

Over the nine year period since the adoption of the prudent person legislation, the ISBI Fund has produced a compounded annual rate of return, net of expenses and charges, of 13.2% and its net assets have increased by \$2.4 billion. The last three and five year average annual returns were 9.9% and 8.1%, respectively.

Fixed Income

Substantially all of the investments in the fixed income component are managed internally except for approximately \$264.6 million managed by external high yield and convertible debt managers. Internally managed fixed income investments produced a 10.4% rate of return which is slightly better than the benchmark. External managers produced net rates of return approximating their benchmark indices.

Investment Section

Comparative average annual rates of return for the composite of the funds allocated to the fixed income managers and the benchmark market indices are set forth below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	9.0%	8.9%	8.4%
Shearson Lehman G/C	10.2%	9.9%	8.3%
Shearson Lehman Aggregate	10.1%	10.2%	8.8%

Equity

The ISBI Board's stated policy of having all equity investments managed externally has been implemented. As of June 30, 1991, funds under management by domestic, global, and international equity managers totaled \$1,273 million, \$207 million, and \$87 million, respectively.

All three equity categories performed better than their market benchmarks with domestic equities substantially outperforming global and international equities during the fiscal year. Domestic equity managers produced a 9.9% rate of return for the fiscal year, as compared to 7.4% for the S & P 500; global managers had a loss of .3%, as compared to a 4% loss for the Morgan Stanley Capital International World Index (MSCI); and international managers had a loss of 10.9%, as compared to an 11.2% loss for the Morgan Stanley Capital International Perspective Index for Europe, Australia, and the Far East (EAFE) for the fiscal year.

The composite average annual rates of return for investments managed by all of the equity managers, as compared to the S & P 500, are set forth below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	7.3%	11.5%	8.6%
S&P 500	7.4%	14.7%	11.9%

Real Estate

The combined real estate portfolio is well diversified by property type and substantially non-leveraged. Nonetheless, write-downs on appraised values exceeded cash returns to the ISBI Fund, thereby resulting in a loss of 1.4% for fiscal year 1991. All of the ISBI Fund's investments in real estate are passive and are represented by interests in limited partnerships, trusts, and other forms of pooled investments. The allocation according to property type is 32% retail, 23% office, 12% apartment, 6% warehouse and research and development, with the remaining 27% in mixed use, land and miscellaneous. The ISBI Board made no new commitments to the real estate sector during fiscal years 1990 and 1991.

Average annual returns for the combined real estate portfolio compared to the benchmark market index for unleveraged institutional grade property returns are as follows:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	(1.4)%	3.6%	4.9%
NCREIF	(1.1)%	2.0%	3.7%

Non-Marketable Securities

The total rate of return for this category of investment was an excellent 22.7% for the fiscal year. A substantial portion of the return was attributable to one leveraged buyout external manager's performance and the fact that initial public offerings were effected by a number of portfolio companies. This category of investments consists primarily of passive interests in limited partnerships and other entities that have pooled financial resources and engage in leveraged buyouts, venture capital and other private placement activities. As of June 30, 1991, the market value of the non-marketable securities portfolio amounts to 5.2% of the total ISBI Fund.

Investment Section

Average annual returns for additional time periods for this category are set forth below:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>
ISBI	22.7%	14.8%	11.1%

Management Expenses

Total operating expenses, including fees to external managers, for the fiscal year were \$11,486,438, as compared to \$9,915,278 for the previous fiscal year. The expense ratio (expenses divided by assets under management) was .33% as compared to .31% last fiscal year. The State Employees' Retirement System's share of total operating expenses amounted to \$10,729,245.

Additional Information

For additional information regarding the System's investment function, please refer to the Annual Report of the Illinois State Board of Investment, June 30, 1991. A copy of the report can be obtained from the Board at 180 North LaSalle Street, Suite 2015, Chicago, Illinois 60601.

INVESTMENT PORTFOLIO SUMMARY

	June 30, 1991		June 30, 1990

Active Retirees by State

Plan Summary and Legislative Section

Plan Summary

Legislative Section

SUMMARY OF RETIREMENT SYSTEM PLAN (As of June 30, 1991)

1. PURPOSE

The State Employees' Retirement System of Illinois, a state agency, provides an orderly means whereby aged or disabled employees may be retired from active service without prejudice or hardship and enables the employees to accumulate reserves for old age, disability, death and termination of employment.

2. ADMINISTRATION

Responsibility for the operation of the System and the direction of its policies is vested in a Board of Trustees consisting of seven members. The administration of the detailed affairs of the System is the responsibility of the Executive Secretary who is appointed by the Board of Trustees. Administrative policies and procedures are designed to ensure an accurate accounting of funds of the System and prompt payment of claims for benefits within the applicable statute.

3. EMPLOYEE MEMBERSHIP

All persons entering state service become members of the System after serving a six-month qualifying period unless their position is subject to membership in another state supported system. Any enrollee of the Young Adult Conservation Corps is excluded from membership. Employees appointed by the Governor and requiring confirmation by the State of Illinois Senate may elect to become members of the System.

4. MEMBERS CONTRIBUTIONS

Members are required to contribute a percentage of salary as their share of meeting the cost of the various benefits. Contribution rates are as shown below:

- A. Members Coordinated with Social Security - 4% of salary
- B. Members Without Social Security - 8% of salary
- C. State Police, Special Agents, Firefighters, Secretary of State Investigators, Conservation Police Officers, Department of Revenue Investigators, Central Management Services Security Police and Mental Health Police Officers - 9 1/2% of salary
- D. Full Time Security Employees of the Department of Corrections; Air Pilots -
 - (1) Coordinated with Social Security - 5 1/2% of salary
 - (2) Without Social Security - 9 1/2% of salary

Members coordinated with social security also pay the current social security tax rate.

5. RETIREMENT PENSION

A. Qualification of Member

Upon termination of state service, a member is eligible for a pension at age 60 with at least eight years of pension credit; at any age with 35 or more years of credit; between ages 55 and 60 with 30 to 35 years of credit with the pension reduced by one-half of 1% for each month the member is under age 60. Employees of the Department of Corrections security employees and the Department of Mental Health and Developmental Disabilities - Chester, Illinois facility employees who are not eligible for the Alternative Formula must have at least 20 years of membership service to qualify for special pension formulas which will apply only to the service earned while in a security position.

Members in Alternative Formula positions are eligible at age 50 with at least 25 years of eligible creditable service or at age 55 with at least 20 years of eligible creditable service in such a position.

B. Amount of Pension

The pension is based on the member's final average compensation and the number of years of pension credit that have been established.

Plan Summary

The pension formula reflects a graded or progressive method according to length of service as follows:

Years of Credit	Employees Under Social Security	Employees Not Under Social Security	Full Time Security Employees- Dept. of Corrections*		Alternative Formula, i.e. Police and other positions		Court Reporter	
	Under S.S.	Not Under S.S.	Under S.S.	Not Under S.S.	Under S.S.	Not Under S.S.	Under S.S.	Not Under S.S.
Each of the first 10 years of credit	1.0%	1.67%	1.67%	1.9%	1.67%	2.25%	1.5%	2.2%
Each of the second 10 years of credit	1.1%	1.9%	1.9%	2.1%	1.9%	2.5%	1.5%	2.2%
Each of the third 10 years of credit	1.3%	2.1%	2.1%	2.25%	2.1%	2.75%	1.5%	2.2%
Each year above 30 years	1.5%	2.3%	2.3%	2.5%	2.3%	2.75%	1.5%	2.2%

*Who are not eligible for the Alternative Formula. The Alternative Formula for the Department of Corrections employees will be fully phased in by 1991. Also included in this group are Department of Mental Health - Chester, Illinois security employees.

The maximum pension payable is 75% of final average compensation. The minimum pension payable is \$7.50 for each year of covered employment and \$15.00 for each year of noncovered employment.

C. Optional Forms of Payment

Reversionary Annuity - A member may elect to receive a smaller pension during his lifetime in order to provide a spouse or a designated dependent with a lifetime income. That payment would be in addition to any other benefit payable by the System.

Level Income - A member who contributes to social security as a state employee may elect to have his pension payments increased before age 62/65 and reduced after that age to provide a uniform pension income throughout his retired life. To be eligible for this election the member must have established eligibility for a social security pension.

D. Annual Increases in Pension

Post retirement increases of 3% are granted to members effective each January 1 after receipt of benefits for one full year.

6. SURVIVORS' ANNUITY

A. Qualification of Survivor

If death occurs while in state employment, the member must have established at least 18 months of pension credit. If death occurs after termination of state service and the member was not receiving a retirement pension, the member must have established at least eight years of pension credit.

An eligible spouse qualifies at age 50 or at any age if there is in the care of the spouse any unmarried children of the member under age 18 or over 18 if mentally or physically disabled; unmarried children under age 18 if no spouse survives; dependent parents at age 50 if neither an eligible spouse nor eligible children survive the member.

A spouse that is the sole nominated beneficiary and sole survivor may elect other death benefits in number 9 on page 61.

B. Amount of Payment

If the member's death occurs before retirement, the named beneficiary receives a lump sum refund of all the member's pension contributions plus interest credited to the member's account, excluding contributions for widow and survivors' benefits. A single lump sum payment of \$1,000 is also made to the survivor beneficiary of the member.

Plan Summary

An eligible spouse receives a monthly annuity equal to 30% of the member's final average compensation subject to a maximum of \$400. If children of the member are under the care of the spouse, the annuity is increased for each child, subject to a maximum of \$600 or 80% of final average compensation. If only eligible children survive, the monthly annuity may not exceed the lesser of \$600 or 80% of final average compensation. The maximum combined monthly payment to parents may not exceed \$400. If the member's death occurs after retirement or after termination of state employment but before the member receives a pension, the monthly benefit is the same as during active employment or 80% of the earned pension at date of death.

Monthly benefits payable to survivors of a member who was covered by social security as a state employee are reduced by one-half of the amount of benefits they are eligible to receive from social security as a widow(er). The minimum total survivor benefit payable to the survivors' annuity beneficiaries of a deceased member or annuitant shall be 50% of the amount of retirement annuity that was or would have been payable to the deceased member on the date of death.

C. Duration of Payment

The monthly annuity payable to a spouse terminates upon death or remarriage prior to attainment of age 55; to children upon death, marriage, or attainment of age 18, except for a child who at age 18 is physically or mentally disabled and unable to accept gainful employment, which terminate at death or gainful employment. Dependent parents' benefits terminate at death or remarriage.

D. Annual Increase in Benefit

The survivor benefit is increased by 3% each January 1, after receipt of benefits for one full year.

7. WIDOW'S ANNUITY OPTION

The widow of a male member who was a participant in the System prior to July 19, 1961, may have the option of taking a Widow's Annuity rather than the Survivors' Annuity.

A. Qualification of Widow

An eligible widow receives a Widow's Annuity if she is age 50 or over or has in her care any of the member's unmarried children under age 18. If she is not age 50 and has no such children in her care, she becomes eligible at age 50.

B. Amount of Payment

The Widow's Annuity consists of a lump sum payment of \$500, plus a monthly annuity equal to 50% of the pension earned or received by the member at the date of death. If the widow has in her care eligible children of the member, the monthly annuity is increased 5% because of each child, subject to a maximum payment equal to 66 2/3% of the earned pension. Monthly benefits payable to a widow of a member who was covered by social security as a state employee are reduced by one-half of the amount of benefits she is eligible to receive from social security as a widow.

C. Duration of Payment

The monthly payment to the widow continues for her lifetime whether or not she remarries. If the amount of benefit was increased because of eligible children, it is adjusted downward as these children's benefits are terminated (death, marriage or attainment of age 18).

D. Annual Increase in Benefit

The widows benefit is increased by 3% each January 1, after receipt of benefits for one full year.

8. OCCUPATIONAL DEATH BENEFIT

A. Qualification of Survivors

If a member's death results from a job related cause, the spouse may be eligible for an Occupational Death benefit. If only unmarried children under age 18 survive, they may be eligible for the benefit. If neither spouse nor eligible children survive, a dependent father or mother may be eligible.

B. Amount of Payment

The nominated beneficiary receives a lump sum payment consisting of all contributions made by the member plus interest credited to the member account. A surviving spouse is entitled to a monthly benefit equal to 50% of the member's final average compensation. If children under age 18 also survive, the annuity is increased by 15% of such average because of each child subject to a maximum of 75%, if there is no eligible spouse and children under 18 survive, each child receives a monthly allowance of 15% of final average compensation. The combined payment to children may not exceed 50% of the member's final average compensation. If there is no eligible spouse or eligible children, a benefit of 25% of final average compensation is payable to each surviving dependent parent for life. The monthly benefit is reduced by any payments awarded under the Workers' Compensation or Occupational Diseases Acts.

C. Duration of Payment

The monthly annuity payable to a spouse terminates at death, or remarriage before age 55; to children at death, or attainment of age 18, or marriage.

D. Annual Increase in Benefits

The Occupational Death Benefit is increased by 3% each January 1 after receipt of benefits for one full year.

9. OTHER DEATH BENEFITS

If the beneficiary(ies) of the member do not qualify for any of the previously described death benefits, one of the following benefits is payable.

A. Before Retirement

If a member's death occurred while in state service the benefit consists of: (1) a refund of all contributions plus interest credited to the member's account; (2) a payment equal to one month's salary for each full year of pension credit not to exceed six month's salary.

If the member had terminated state service but not yet qualified for a pension, the benefit consists of a refund of all of the member's contributions to the System plus the interest credited to the member's account.

B. After Retirement

The benefit consists of a lump sum payment equal to the excess of contributions plus interest credited to the member's account over the total amount of pension payments made to the member. The minimum payment is \$500.

10. NONOCCUPATIONAL DISABILITY BENEFITS

A. Qualification and Amount of Payment

Available to any member who has established at least one and one-half years of creditable service and who has been granted a disability leave of absence by the employing agency. The benefit is 50% of final average compensation and credit to the member's account of service and contributions. It begins on the 31st day of absence from service on account of disability.

If the member has social security coverage as a state employee, the benefit payable by the System is reduced by the amount of any disability or retirement payment to which he is entitled under social security.

B. Duration of Payment

The member is eligible for the monthly benefit until the occurrence of any of the following events: (1) disability ceases; (2) resumption of gainful employment; (3) payments are made for a period of time equal to one-half of the pension credit established as of the date disability began; (4) attainment of age 65, if benefit commenced prior to the attainment of age 60; (5) the fifth anniversary of the effective date of the benefit if the benefit commenced on or after the attainment of age 60; or (6) death of the member.

Plan Summary

C. Increase in Benefit

The Nonoccupational Disability benefit shall be increased by 7% following the fourth anniversary of the benefit and 3% each year thereafter.

11. OCCUPATIONAL DISABILITY BENEFIT

A. Qualification and Amount of Payment

Provided for any member who becomes disabled as the direct result of injury or disease arising out of and in the course of state employment.

The benefit is 75% of final average compensation plus a credit to the member's account of service and contributions. The cash benefit is reduced by any payment received under the Workers' Compensation or Occupational Diseases Acts.

B. Duration of Payment

Monthly benefits are payable until the occurrence of any of the following events: (1) disability ceases; (2) resumption of gainful employment; or (3) attainment of age 65, if benefit commenced prior to the attainment of age 60; (4) the fifth anniversary of the effective date of the benefit if the benefit commenced on or after the attainment of age 60; or (5) death of the member.

C. Increase in Benefit

The Occupational Disability benefit shall be increased by 7% following the fourth anniversary of the benefit and 3% each year thereafter.

12. TEMPORARY DISABILITY BENEFIT

A. Qualification and Amount of Benefit

Available to any member who becomes disabled, has established at least one and one - half years of creditable service, has been denied benefits under the Workers' Compensation Act or the Workers' Occupational Diseases Act, and has filed an appeal with the Industrial Commission of Illinois. The benefit is 50% of final average compensation plus credit to the member's account of service and contributions. The benefit shall begin to accrue on the 31st day of absence from service and shall be payable upon the expiration of 180 days from the day the member last received compensation.

If the member has social security coverage as a state employee, the benefit payable by the System is reduced by the amount of any disability or retirement payment to which he is eligible to under social security.

B. Duration of Payment

The member is eligible for the monthly benefit until the occurrence of any of the following events: (1) disability ceases; (2) resumption of gainful employment; (3) payments are made for a period of time equal to one-half of the pension credit established as of the date disability began; or (4) attainment of age 65, if the benefit commenced prior to the attainment of age 60; or (5) the fifth anniversary of the effective date of the benefit if the benefit commenced on or after the attainment of age 60; or (6) death of the member.

13. SEPARATION BENEFITS

Upon termination of state employment by resignation, discharge, dismissal or layoff, a member may obtain a refund of the contributions made to the System. By accepting a refund, a member forfeits all accrued rights and benefits in the System for himself and his beneficiaries.

LEGISLATION

LEGISLATIVE AMENDMENTS - Amendments with an effective date during fiscal year 1991 having an impact on the System were:

HOUSE BILL 3374 (P.A. 86-1338)

Amends the State Finance Act to prohibit transfers from any appropriation for state contributions to the System Trust Fund. Also, amends the State Finance Act to require that agencies (departments) remit the employer share of appropriated retirement contributions at the rate certified by the Board of Trustees of the System up to the amount appropriated for such purposes.

SENATE BILL 1951 (P.A. 86-1488)

Major changes effected by the passage of this bill are as follows:

1. Added employees of the Illinois Rural Bond Bank as participants in the System.
2. Modified the date of application of the first automatic annual increase for widow and survivor annuities.
3. Added a 3% automatic annual increase for disability benefits and occupational death annuities.
4. Provides for the computation of an average final compensation amount for possible use in the payment of death and disability benefits.
5. Provided a six-month window during which refunds could be repaid at the rate of 2.5% per annum.
6. Allows for teachers employed by the Department of Corrections to transfer service credits to the System from Teachers' Retirement System upon payment of the amounts prescribed in the statute.
7. Allows a State Policeman or investigator for Secretary of State to establish creditable service for up to 10 years of service as a policeman under Article 5 of the Pension Code upon payment of the amounts prescribed in the statute.

NEW LEGISLATION - Amendments with an effective date subsequent to June 30, 1991, affecting the operation of the System.

SENATE BILL 0045 (P.A. 87-0014)

Established the Early Retirement Incentive (ERI) program for active employees. Under certain circumstances, a member will be allowed to establish up to 5 years of creditable service by making payment of the amounts prescribed in the statute.

SENATE BILL 0136 (P.A. 87-0011)

Provisions affecting the operation of the System are as follows:

1. System Trust Fund - Eliminates the six-month qualifying period for police positions covered by the System.
2. Social Security Fund - Amends the Social Security Enabling Act to allow the governing body of any political subdivision to levy taxes for social security contributions due pursuant to the mandatory social security federal law change.

Legislative Section

SENATE BILL 0341 (P.A. 87-0105)

Although this bill did not directly affect the law governing the System Trust Fund, it will have a significant impact on the source of future employee contributions.

The bill provides for an appropriation of the employer pickup of employee retirement contributions to virtually all state agencies which participate in the System.

In many instances, the members will have either a reduced retirement contribution amount or no contributions deducted for the System. The State of Illinois, however, will provide all or a portion of the required employee contribution to the System.
