OF THE STATE OF ILLINOIS**

**ACTUARIAL VALUATION
JUNE 30, 2007**

October 25, 2007

Board of Trustees
Teachers' Retirement System
of The State of Illinois
2815 West Washington Street
Springfield, Illinois 62702

Ladies and Gentlemen:

We have completed the valuation of the System as of June 30, 2007 and the principal results are set forth on Pages 1 and 2 of this report.

The contributions to the System, which are shown in the Summary of Principal Results, are based on the provisions of Public Act 94-0004, as amended by Public Act 94-1057. On August 10, 2007, the Board approved recommendations resulting from a comprehensive review of the system's experience during the five-year period July 1, 2001 through June 30, 2006; as a result, the actuarial assumptions used to determine the contribution were changed from last year.

The member contribution rate is 9.4% of covered payroll, which includes a 0.4% of pay "Career ERO contribution" that became effective July 1, 2005. The member rate for Modified ERO lump sum payments at retirement is 11.5%. An additional member contribution has been required since July 1, 1995 to finance retiree health insurance through a state agency other than TRS. School Districts are required to contribute 0.58% of payroll toward the cost of the 2.2% formula. School Districts also pay the cost of pension benefits resulting from salary increases over 6% used in the final average salary calculation, although PA 94-1057 provides permanent and temporary exemptions from some of these payments for retirements occurring on or after July 31, 2006. The School District rate for Modified ERO lump sum payments at retirement is 23.5%; and School Districts make lump sum payments at retirement for excessive annual sick leave accruals.

In total, employer contributions to the System must be sufficient to "meet the cost of maintaining and administering the system on a 90% funded basis in accordance with actuarial recommendations." The statute specifies that this objective is to be met by June 30, 2045 through annual appropriations that are a level percentage of payroll – before reduction for the maximum State contribution limitations of the statute – for fiscal years 2011 through 2045.

Under Section 7.2(d) of the General Obligation Bond Act (GOBA), TRS received \$4,330,374,000 on July 2, 2003. Commencing with fiscal year 2005, the maximum State contribution under the Act equals the State contribution that would have been required if this \$4.33 billion contribution had not been made, reduced – but not below zero – by the State's debt service on the TRS portion of the full \$10 billion of Pension Obligation Bonds issued under Section 7.2 of the GOBA.

Under PA 94-0004 the FY 2006 and FY 2007 State contributions to the Benefit Trust Reserve were not actuarially determined, but were set by statute to be, respectively, \$531,827,700, and \$735,514,500. Gross appropriations, as a percentage of payroll, for fiscal years 2008 through 2010 are to increase in level annual increments over the prior year's gross appropriation until the required level percentage of payroll is achieved in fiscal year 2010. In fiscal years 1999 through 2004, minimum state contributions were specified.

At the direction of the board, and commencing with the contribution due for fiscal year 2006, the Federal Funds contribution rate is the same as the certified State rate.

Based on these specifications, we calculate that the employer's contribution rate to the Benefit Trust Reserve of the System for fiscal year 2009 is 17.66% of membership payroll. The rate is expected to level off at 21.39% in fiscal year 2010.

The recommended total employer contribution for fiscal year 2009 to the Benefit Trust Reserve under PA 94-0004 is \$1,556,737,000. Subtracting estimated Federal Funds and School District contributions and adding a contribution to the Guaranteed Minimum Annuity Reserve results in a total State Contribution for fiscal year 2009 of \$1,451,789,000. This figure represents an increase of \$410,494,000 or 39.4% from the total State Contribution in fiscal year 2008 of \$1,041,295,000.

The unfunded pension benefit obligation of the System as of June 30, 2007 is \$23,739,077,000, which may be compared with the unfunded obligation of \$22,412,024,000 as of June 30, 2006.

The funded status of the System as of June 30, 2007 is 63.8% based on the market value of assets, which may be compared with the System's funded status of 62.0% based on the market value of assets, as of June 30, 2006.

Sincerely,

Janet Cranna, FSA
Principal, Consulting Actuary

JUNE 30, 2007**

SECTION I — PRINCIPAL RESULTS

1. We have summarized below the principal results of this year's valuation along with a comparison with last year's valuation results. The schedule also includes the significant membership data and asset data used in the valuations.

SUMMARY OF PRINCIPAL RESULTS

Item	Year Ended June 30	
	2007	2006
Benefit Trust Reserve		
• Active members reported to the actuary:		
– Number	159,222	155,946
– Annual salaries (adjusted for data lag)	\$ 7,980,873,000	\$ 7,580,080,000
– Average age (2007 adjusted)	41.7 years	42.0 years
– Average service (2007 adjusted)	10.0 years	10.4 years
• Number of inactives	99,309	94,594
• Retirees and beneficiaries in receipt of benefits:		
– Number	89,269	85,153
– Annual annuities (at June 30)	\$ 3,342,349,000	\$ 3,016,863,000
• Assets		
– Market value	\$ 41,909,318,000	\$ 36,584,889,000
• Pension benefit obligation*	\$ 65,648,395,000	\$ 58,996,913,000
• Unfunded pension benefit obligation	\$ 23,739,077,000	\$ 22,412,024,000
• Funded ratio:		
– Market value	63.8%	62.0%

- * The above PBOs include liability for expected retirements under the Modified ERO, and the 6/30/2006 PBO includes liability for fiscal year 2006 Pipeline ERO retirees reported to the actuary last year. The 6/30/2007 PBO also includes liability for fiscal year 2007 Pipeline ERO retirees reported to the actuary.

**SUMMARY OF PRINCIPAL RESULTS
(Continued)**

Item	Year Ended June 30	
	2007	2006
Benefit Trust Reserve (continued)	Fiscal Year <u>2009</u>	Fiscal Year <u>2008</u>
	PA 94-0004	PA 94-0004
• Employer cost under:		
– Percentage Rate (includes Federal and School Districts)	17.66%	13.69%
– Employer Contribution	\$ 1,556,737,000	\$ 1,135,127,000
– Less School Districts for 2.2% formula	(51,141,000)	(48,103,000)
– Less Federal Funds Contribution	<u>(55,707,000)</u>	<u>(47,829,000)</u>

• Retirees and disabilitants in receipt of benefits:		
– Number	1,891	2,084
– Annual annuities	\$ 2,001,000	\$ 2,284,000
– Pension benefit obligation	\$ 9,874,000	\$ 11,238,000
• State Contribution	\$ 1,900,000	\$ 2,100,000
Total State Contribution:		
• Benefit Trust Reserve	\$ 1,449,889,000	\$ 1,039,195,000
• Guaranteed Minimum Annuity Reserve	<u>1,900,000</u>	<u>2,100,000</u>
• Total State Contribution	\$ 1,451,789,000	\$ 1,041,295,000

Notes:

* As the benefits from the Guaranteed Minimum Annuity Reserve are paid to members who are much older, on average, than the general pensioner population, and as separate mortality studies have not been performed for this special group, the fiscal year 2008 and 2009 State Contributions were adjusted to ensure payment of all required benefits as required by Statute.

Employer's contribution to Benefit Trust Reserve in fiscal year 2008, as shown in Schedules XIIA and XIII:

	<u>Certified Contribution**</u>
Common School Fund	\$ 1,039,195,000
School Districts for 2.2%	48,103,000
Federal Funds	<u>47,829,000</u>
Total	\$ 1,135,127,000

** State contribution amounts shown are those contained in the final fiscal year 2008 State budget. Future Federal Funds and School Districts contributions are estimated.

2. The June 30, 2007 actuarial valuation was based on the latest membership data available, which were submitted by the System for (i) active and inactive members as of June 30, 2006, and (ii) retirees and beneficiaries in receipt of benefits as of June 30, 2007. Membership data for active and inactive members as of June 30, 2005, and for retirees and beneficiaries as of June 30, 2006 were used as the basis for the June 30, 2006 actuarial valuation. As part of the valuation procedure, actual salaries and member account balances reported for active members were increased by 4% to adjust for the one-year lag in the census information for active members.
3. The State contribution amount of \$1,451,789,000 shown as of June 30, 2007 is based on the provisions of PA 94-0004, as amended by PA 94-1057. This amount represents a Benefit Trust Reserve Contribution of \$1,449,889,000 and a Guaranteed Minimum Annuity Reserve Contribution of \$1,900,000 for a total contribution of \$1,451,789,000.
4. As stated above, at June 30, 2007 and June 30, 2006, we adjusted for the one year lag in reporting of the active membership by assuming that the population was stationary with regard to age and service and we increased by 4% reported payroll and member account balances. No further adjustments were made to the active membership data at June 30, 2006. However, even with the above adjustments, the reported June 30, 2006 active membership data was not a good proxy for the data at June 30, 2007 because the number of members retiring from active service in fiscal year 2007 exceeded those retiring from active service in fiscal year 2006 by a count of 1,625. This large difference in retirement experience between the two fiscal years meant that without further adjustments the active data that would normally be used for the June 30, 2007 valuation would hold too many older, high service teachers who are already included in the retiree liability, and including them in the active liability would overstate the total June 30, 2007 actuarial liability. As a result, we reviewed the actual fiscal year 2007 retirements, removed 1,625 retirement-eligible records from the active data and replaced these records with an equivalent number of new hire records.

5. The statistics for full-time, substitute, part-time, and hourly paid teachers for purposes of the June 30, 2007 valuation, based on the census information for active members as of June 30, 2006, (after salaries were increased to adjust for the one year lag in the census information and after the adjustment for a better proxy for the June 30, 2007 data, as mentioned in paragraph 4 above) are as follows:

Active Member Statistics

Item	Full-time and Regular Part-Time	Substitutes, Part-Time, Hourly Paid on a Flexible or Limited Work Schedule	Total
Number	130,867	28,355	159,222
Annual salaries	\$ 7,845,223,000	\$ 135,650,000	\$ 7,980,873,000
Average age	41.7 years	41.6 years	41.7 years
Average service	11.8 years	1.7 years	10.0 years

SECTION II — FINANCING OBJECTIVE
AND EMPLOYER'S CONTRIBUTION RATE

The financing objective of the System under Section 16-158 of the Pension Code is to:

- (a) meet the cost of maintaining and administering the Benefit Trust Reserve on a 90% funded basis in accordance with actuarial recommendations; and
- (b) meet this objective by June 30, 2045 through annual appropriations that are a level percentage of payroll – before reduction for the maximum state contribution limitations of the statute – for fiscal years 2011 through 2045. Gross appropriations, as a percentage of payroll, for fiscal years 1996 through 2010 are to increase in level annual increments over the prior year's gross appropriation until the required level percentage of payroll is achieved in fiscal year 2010. In fiscal years 1999 through 2004, the statute specifies minimum state contributions as a percentage of applicable member payroll. In fiscal years 2006 and 2007 the statute specifies the dollar amount of the state contribution. Contributions for fiscal years 2008 through 2010 are to ramp up from the fiscal year 2007 contribution.

In addition to the contributions to the Benefit Trust Reserve required by section 16-158, the State must make contributions to the Guaranteed Minimum Annuity Reserve in an amount sufficient to ensure that TRS can make the required benefit payments.

On the basis of the current valuation and the funded policy of Section 16-158, the total fiscal year 2009 contribution rate payable to the Benefit Trust Reserve by all employers is equal to 17.66% of membership payroll. This is the required employer rate, including state contributions, federal funds contributions, and school district contributions for the 2.2% formula change.

On the basis of the funding policy described above, a projection of the contribution rates which are payable by the employer to the Benefit Trust Reserve indicates that the required rate is expected to level off at 21.39% in fiscal year 2010.

Schedule IA of the report shows the required contributions to the Benefit Trust Reserve and the Guaranteed Minimum Annuity Reserve for fiscal year 2009. Schedule IB shows the development of the 17.66% required employer contribution rate for the Benefit Trust Reserve for fiscal year 2009.

Schedule XIV shows a projection of the Gross Employer Rate for the Benefit Trust Reserve before application of the State Maximum, while Schedules XIIA and XIII provide detailed projections of required employer rates and amounts. The chart below summarizes the projected gross and required employer contribution rates to the Benefit Trust Reserve.

Fiscal Year	Gross Employer Rate (Before State Maximum)	Required Employer Rate (After State Maximum)	State Rate
2009	21.40%	17.66%	17.08%
2010 - 2045	25.22%	21.39%	20.81%

The above employer rates include the 0.58% of payroll School District contributions for the 2.2% formula change as required by section 16-158(e). In addition, the statute requires School Districts to make the following contributions:

- (a) Sec. 16-128(d-10) payments for excessive sick leave service credit
- (b) Sec. 16-133.2 ERO lump sum payments when members retire with ERO benefits
- (c) Sec. 16-158(f) lump sum payments at retirement for the cost of pension benefits arising from salary increases over 6% used in the final average salary calculation. PA 94-1057 provides permanent and temporary exemptions from some of these payments for retirements occurring on or after July 31, 2006.

Although these additional types of contributions are not shown in Schedules IA, IB, XIIA, XIII, or XIV, they are all – with the exception of Sec. 16-128(d-10) payments – taken into account in the actuarial projection of the assets and funded status of the system, and the calculation of the Gross and Required employer rates is performed only *after* the above contributions have been taken into account. (There is currently no assumption for excessive sick leave service credit.) A projection of School District contributions under sections 16-133.2 and 16-158(f) can be found in Schedule XIIB.

SECTION III — CURRENT FINANCIAL POSITION

The current financial position of the System may be measured by comparing the assets of the System to the pension benefit obligation of the System where the latter represents the value of pensions currently in payment and pensions earned through the valuation date by the active membership. In the ideal, fully-funded state, the assets would be equal to the pension benefit obligation. A comparison of the current financial position, or funded status, as of the current valuation date, with that as of the previous valuation date is summarized in the table below.

COMPARISON OF FUNDED STATUS

(dollars in millions)

Valuation Date	Assets at Net Market Value	Pension Benefit Obligation	Funded Status
June 30, 2007	\$ 41,909	\$ 65,648	63.8%
June 30, 2006	36,585	58,997	62.0%

As can be seen from the table, the current funded status of the System is 63.8% as measured by the net market value of assets. The funded status on a market value basis has increased 1.8 percentage points from the previous valuation.

In assessing the financial position of the System, it is important to review annually the trend line of the funded status. As can be seen from the chart on page 8, the funded status based on either book value or market value of assets declined significantly from 1987 to 1996. The major portion of the decline was due to the failure of the State to adhere to the prior funding provisions of Senate Bill 95 (Public Act 86-0273). In fact, the decline in the funded ratio of the System would have been greater had it not been for the average investment return of the System, which was greater than the 8% return expected during this period of underfunding by the State. The decline in the funded ratio that occurred during fiscal years 2001 through 2003 is due to the rate of return of the market value of investments being less than the 8.5% expected.

The funding provisions of Section 16-158 are designed to attain a 90% funded ratio in fiscal year 2045. A projection of the future funded status of the System is shown in Schedule XV on pages 36 and 37.

SECTION IV — GAINS AND LOSSES DURING YEAR

The gain and loss analysis provides a measure of the impact of the demographic and economic factors on the results of the actuarial valuation, when compared to the actuarial assumptions used to anticipate these factors. The analysis is significant in providing a test of the adequacy of these assumptions over a period of time. A detailed reconciliation of the changes in the unfunded pension benefit obligation, including actuarial gains and losses, can be found in Schedule III on page 19.

The demographic factors affecting the gain and loss analysis include the following:

- (a) withdrawal from active membership;
- (b) mortality during active membership;
- (c) disability retirement;
- (d) service retirement; and
- (e) mortality after retirement.

The economic factors affecting the gain and loss analysis include the following:

- (a) investment rate of return; and
- (b) active members' salary increases.

During the fiscal year ended June 30, 2007, there was a net actuarial gain of \$2,823 million incurred by the System due to demographic and economic experience when compared to the actuarial assumptions used to anticipate these factors.

The significant factors contributing to this net gain included the following:

(1) Losses due to salary increases greater than expected	\$ 150 million
(2) Gains due to investment income over that expected	(3,786)
(3) Losses due to new entrants, for which no allowance is made in the assumptions	34
(4) Losses due to lower than expected mortality	35
(5) Losses due to fewer terminations than expected	27
(6) Losses due to repayments of refunded member contributions	36
(7) Losses due to ERO costs waived for those with 34 years of service	289
(8) Losses due to delayed reporting of retirements (effect on assets)	7
(9) Losses due to all other causes	<u>385</u>
Total net gains	\$(2,823) million

The gain from item 2 is the difference between the actuarial expected earnings of \$3.045 billion and the actual investment return of \$6.831 billion. The actuarial gain is equal to the expected earnings minus the actual investment return.

The loss from item 6 is due to restoration of the employer-paid portion of the benefit when members repaid previously refunded contributions.

The cost shown in item 7 is for 1,973 new retirements under the pipeline Early Retirement Option (ERO). Under the ERO the early retirement reduction is eliminated in exchange for one-time member and employer payments. The cost equals the excess of the increase in liability over the ERO payments received. The majority of the cost is for members who retired with 34 years of service, for which all pipeline ERO payments were waived. The pipeline ERO program ends on July 1, 2007, and has been replaced by the modified ERO program, under which there is no waiver of ERO payments. Required member and employer ERO contributions will cover the full cost of the modified ERO program.

The loss from item 8 is due to 379 retirements that occurred prior to July 1, 2006 and were not reported to the actuary until June 30, 2007 due to backdated retirement claims and TRS processing constraints. The actuarial loss is equal to the value of benefits paid prior to July 1, 2007 to these late reported retirees.

The "other cause" category (item 9) is the balancing item needed to complete the reconciliation and is mainly due to higher than expected retirement rates, delayed reporting of retirements (effect on PBO), and actual cost of benefits earned during the year higher than projected.

SECTION V — MEMBERSHIP DATA

The June 30, 2007 actuarial valuation was based on the latest membership data available, which were submitted by the System for (i) active and inactive members as of June 30, 2006, and (ii) annuitants and survivor annuitants in receipt of benefits as of June 30, 2007. As part of the valuation procedure, annualized salaries and member account balances reported for active members were increased by 4% to adjust for the one year lag in the census information reported for active members. In addition, as explained in item 4 of Section I (on page 3), due to the active data lag and the large number of retirements in fiscal year 2007 (as compared to fiscal year 2006), 1,625 records representing older, long-service members were removed from the active data and replaced by an equivalent number of new hire records.

While the actuary did not verify the data at their source, the actuary did perform tests for internal consistency and reasonableness in relation to the data submitted for the previous valuation.

A comparison of the data for the current and previous valuations is as follows:

Comparison of Membership Data

Data Item	Valuation June 30, 2007	Valuation June 30, 2006	Percentage Change
Active membership:			
• Full-time and regular part-time:			
➤ Number	130,867	126,798	3.2
➤ Annual Compensation	\$ 7,845,222,555	\$ 7,444,943,148	5.4
➤ Average Compensation	\$ 59,948	\$ 58,715	2.1
• Substitute, part-time, hourly paid (limited schedule)			
➤ Number	28,355	29,148	(2.7)
➤ Annual Compensation	\$ 135,649,967	\$ 135,137,045	0.4
➤ Average Compensation	\$ 4,784	\$ 4,636	3.2
• Total Number	159,222	155,946	2.1
Inactive Membership:			
• Eligible for deferred annuities	15,156	14,729	2.9
• Eligible for refunds or single sum benefits only	84,153	79,865	5.4
Annuitants (retirees, disabilitants and survivors):			
• Number	89,269	85,153	4.8
• Annual annuities	\$ 3,342,349,438	\$ 3,016,863,293	10.8
• Average annual annuities	\$ 37,441	\$ 35,429	5.7

Notes:

1. Rates of pay for individual teachers who were on full-time or regular part-time status at both June 30, 2006 and June 30, 2007 increased on average 6.88%, compared to the expected average increase of 6.58%.
2. The 5.4% increase in the number of inactive members eligible for refunds or single sum benefits only is due primarily to experience among substitutes and other members on a limited or flexible schedule.

SECTION VI — ASSETS

For valuation purposes, the actuarial value of assets is set equal to the market value of assets reported by the System. The actuarial value of assets as of June 30, 2007 amounted to \$41,909,318,000. This amount includes \$44,453,000 receivable from members for future payroll deduction contributions.

Assets are expected to earn 8.5% of market value. The actuarial gain on account of investment income for the fiscal year ended June 30, 2007 is the difference between the actuarially expected earnings and the actual investment return. In fiscal year 2007, actuarially expected earnings of \$3.045 billion combined with the actual asset gain of \$6.831 billion equals the reported actuarial gain of \$3.786 billion.

During the fiscal year ended June 30, 2007, the actuarial investment rate of return was equal to 19.07%, based on market value. This may be compared to the actuarial investment rate of return of 11.98% during the fiscal year ended June 30, 2006, also based on market value.

SECTION VII — ACTUARIAL ASSUMPTIONS AND METHODS

Effective with the June 30, 2007 actuarial valuation, new assumptions regarding rates of separation, retirement, utilization of ERO, salary increase, mortality, optional service purchases, sick leave service credit and severance pay at retirement were adopted. The new member profiles necessary for the 50-year projection required by State funding law were also updated.

The actuarial cost method utilized is the projected unit credit cost method, which became effective with the June 30, 1989 valuation. Administrative expenses have been a component of the normal cost rate since the June 30, 1994 valuation. The financing objectives of the System specified by Public Act 94-0004, enacted in June 2005, were first effective for the recertified fiscal year 2006 contribution. The objective of the Act is to meet the cost of maintaining and administering the System on a 90% funded basis by June 30, 2045, while specifying the dollar amount of the State contribution for fiscal years 2006 and 2007, and placing upper limits on State contributions commencing with the contribution due for fiscal year 2008.

The rate of contribution determined under the funding method for fiscal years subsequent to 2007, according to the financing objective first established under Public Act 88-0593, as amended by Public Acts 90-00582, 93-0002, 94-0004 and 94-1057, is based on a projection of the liabilities, assets, expenses and payroll of the System for current and future members of the System for the period July 1, 2005 through June 30, 2045, and on the State's debt service on the System's portion of the full \$10 billion of Pension Obligation Bonds that were issued under Public Act 93-0002. The Governor's Office of Management and Budget provided the debt service schedule.

SECTION VIII — FINANCIAL RESULTS AND MEMBERSHIP DATA -
DETAILED SUMMARIES

Detailed summaries of the financial results of the valuation and membership data used in preparing the valuation are shown in the schedules that follow.

SCHEDULE IA
EMPLOYER'S CONTRIBUTION RATES AND AMOUNTS
FISCAL YEAR 2009
(Based on June 30, 2007 Actuarial Valuation)

Reserve Fund	Year Ended June 30, 2009
• Benefit Trust Reserve:	
> Employer's Cost	\$ 1,556,737,000
> Less School Districts for 2.2% formula	(51,141,000)
> Less Federal Funds	<u>(55,707,000)</u>
> State Contribution	\$ 1,449,889,000
• Guaranteed Minimum Annuity Reserve	
> State Contribution	\$ 1,900,000
Total State Contribution	\$ 1,451,789,000

Notes:**(1) Benefit Trust Reserve**

- (a) Employer's cost of \$1,556,737,000 is equivalent to a contribution rate of 17.66% of payroll based on an estimated membership payroll for fiscal year 2009 of \$8.817 billion.
- (b) Employer's cost is based on projection required by Section 16-158 summarized as follows:
- (i) Meet the cost of maintaining and administering the System on a 90% funded basis by June 30, 2045, with level percentage of payroll contributions after a 15 year phase-in beginning in fiscal year 1996.
 - (ii) Phase-in period requires employer's contribution rate to increase in equal annual increments to attain level percentage schedule in fiscal year 2010, except in the following State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll: 10.02% in FY1999; 10.77% in FY2000; 11.47% in FY2001; 12.16% in FY2002; 12.86% in FY2003; 13.56% in FY2004.
 - (iii) Commencing in FY2005, there are upper limits on the State contribution.
 - (iv) PA 94-0004 specifies the FY 2006 and FY 2007 State contribution amounts to TRS.
- (c) The FY 2009 state contribution rate is 17.08% of the estimated \$8.491 billion state payroll.

(2) Guaranteed Minimum Annuity Reserve

Above State contribution for fiscal year 2009 of \$1,900,000 for the Guaranteed Minimum Annuity Reserve is based on projection of benefit outgo from reserve funds in fiscal year 2009. As separate mortality studies have not been performed for the pensioners covered by this special reserve, the contribution has been adjusted to ensure payment of all benefits as required by Statute.

(3) Base Data

Base data used for 50-year projection under the Act is as follows:

- (a) June 30, 2007 valuation data. New entrant profile per actuarial assumptions.
- (b) Employer's contribution to Benefit Trust Reserve in fiscal year 2008 as shown in Schedules XIA and XIII:

	<u>Certified Contribution**</u>
Common School Fund	\$ 1,039,195,000
School Districts for 2.2%	48,103,000
Federal Funds	<u>47,829,000</u>
Total	\$ 1,135,127,000

- (c) Funds deposited July 2, 2003 under section 7.2(d) of the General Obligation Bond Act: \$4,330,374,000, and debt service schedule provided by the Office of Management and Budget.
- (4) State contribution amounts shown in (3) are those contained in the final FY 2008 State budget. Federal Funds and School Districts contributions are estimated.

SCHEDULE IB

**DETERMINATION OF EMPLOYER CONTRIBUTION UNDER PUBLIC ACT 94-0004
FISCAL YEAR 2009
(Based on June 30, 2007 Actuarial Valuation)**

Benefit Trust Reserve	Year Ended June 30, 2009	Percentage of Payroll (State, Federal, Total)	
(1) Assumed Payrolls			
➤ Total Payroll	\$ 8,817,487,000		
➤ Less Federal Funds Payroll	<u>(326,247,000)</u>		
➤ State Payroll	\$ 8,491,240,000		
(2) Employer contribution that would have been required without funds provided by Sec. 7.2(d) of General Obligation Bond Act			
➤ Employer's Cost	\$ 1,887,185,000	21.40%	Total
➤ Less School Districts under Sec. 16-158(e)	<u>(51,141,000)</u>	<u>(0.58)</u>	Total
➤ State and Federal Funds Contribution	\$ 1,836,044,000	20.82%	Total
➤ Less State Debt Service for TRS portion of all funds provided under Sec. 7.2 of General Obligation Bond Act	<u>(322,501,000)</u>	<u>(3.66)</u>	Total
➤ Maximum State and Federal Funds Contribution under PA 94-0004	\$ 1,513,543,000	17.17%	Total
(3) Employer contribution recognizing all system assets, before limiting State and Federal Funds contribution			
➤ Employer's Cost	\$ 1,556,737,000	17.66%	Total
➤ Less School Districts under Sec. 16-158(e)	<u>(51,141,000)</u>	<u>(0.58)</u>	Total
➤ State and Federal Funds Contribution	\$ 1,505,596,000	17.08%	Total
(4) State and Federal Funds Contribution under PA 94-0004			
➤ Lesser of amounts under (2) and (3)	\$ 1,505,596,000	17.08%	Total
(5) Employer contribution under PA 94-0004			
➤ State Portion of (4), based on State Payroll	\$ 1,449,889,000	17.08%	State
➤ Plus Federal Portion of (4), based on Federal Payroll	<u>55,707,000</u>	<u>17.08</u>	Federal
➤ State and Federal Funds Contribution	\$ 1,505,596,000	17.08%	Total
➤ Plus School Districts under Sec. 16-158(e)	<u>51,141,000</u>	<u>0.58</u>	Total
➤ Employer's Cost	\$ 1,556,737,000	17.66%	Total

Notes:**(1) Assumed Payrolls**

The administrative staff of the System estimated Federal Funds payroll for the fiscal year ending June 30, 2009 would be 3.7% of total payroll. Federal Funds payroll was then projected to increase at the same rate as Total payroll for all subsequent fiscal years.

(2) Determination of Maximum State and Federal Funds Contribution under Public Act 94-0004

Under Section 7.2(d) of the General Obligation Bond Act (GOBA), TRS deposited \$4.33 billion on July 2, 2003. Commencing with fiscal year 2005, the maximum State contribution under the Act equals the State contribution that would have been required if this \$4.33 billion contribution had not been made, reduced, but not below zero, by the State's debt service on the TRS portion of the full \$10 billion of Pension Obligation Bonds issued under Section 7.2 of the GOBA. Commencing with fiscal year 2006 the Federal Funds contribute at the same rate as the State, and so a Combined State and Federal Funds contribution must be determined.

(3) Employer Contribution Recognizing \$4.33 Billion Deposited July 2, 2003

A gross employer contribution is determined that recognizes all system assets, and that meets the cost of maintaining and administering the System on a 90% funded basis by June 30, 2045, with level percentage of payroll contributions after a 15 year phase-in beginning in fiscal year 1996 (as described in Schedule IA).

(4) State and Federal Funds Contribution under Public Act 94-0004

The State and Federal Funds contribution is the lesser of the maximum contribution determined under (2) or the contribution determined under (3).

(5) Employer Contribution under Public Act 94-0004

The contribution determined under (4) is allocated to the State and to Federal Funds in proportion to their respective payrolls (shown in (1)). The employer contribution under PA 94-0004 equals the sum of these contributions, plus the expected 0.58% of payroll School District contributions for the 2.2% formula made under the provisions of Sec. 16-158(e).

(6) State Contribution Amount for FY 2006 and FY 2007 under PA 94-0004

PA 94-0004 specified actual contribution amounts for fiscal years 2006 and 2007 made by the State to the Benefit Trust Reserve.

Additional Information:

The following contributions made to the Benefit Trust Reserve are not shown in Schedule IB:

(a) From Members:

1. Sec. 16-128 payments for the purchase of optional service credit.
2. Sec. 16-133.2 ERO lump sum payments upon retirement with ERO benefits
3. Sec. 16-152 career contributions of 9.0% of salary, plus – commencing July 1, 2005 – an additional 0.4% toward the ERO program.

(b) From School Districts:

1. Sec. 16-128(d-10) payments for excessive sick leave service credit
2. Sec. 16-133.2 ERO lump sum payments when members retire with ERO benefits
3. Sec. 16-158(f) lump sum payments at retirement for the cost of pension benefits arising from salary increases over 6% used in the final average salary calculation.

Although these types of contributions are not shown in Schedule IB (or in Schedules XIIA, XIII, or XIV), they are all – with the exception of Sec. 16-128(d-10) payments – taken into account in the actuarial projection of the assets and funded status of the system, and the Schedule IB calculation is performed only *after* the above contributions have been taken into account.

An assumption for optional service purchases has been included in the projections since the June 30, 1994 valuation, and payments under Sec. 16-158(f) have been included since the recertified June 30, 2004 valuation. The career ERO contributions and lump sum payments toward ERO benefits were first recognized in the June 30, 2005 actuarial valuation. Finally, there is no assumption for excessive sick leave service credit, and so the projections do not currently include payments under Sec. 16-128(d-10).

Unfunded pension benefit obligation at end of year	<u>\$ 23,739,077</u>	<u>\$ 22,412,024</u>

¹ Assets are expected to earn 8.5% of market value. This item is the difference between the expected investment return and the actual investment return. For example, in fiscal year 2007, the expected earnings of \$3.045 billion was less than the \$6.831 billion actual return on assets, resulting in an actuarial gain which reduced the unfunded pension benefit obligation by \$3.786 billion. In fiscal year 2006, the expected earnings of \$2.833 billion was less than the \$3.993 billion actual return on assets, resulting in an actuarial gain which reduced the unfunded pension benefit obligation by \$1.160 billion.

² This includes the employer-paid portion of the benefit that was restored when members repaid previously refunded contributions.

³ This includes accelerated retirements during FY 2007 by teachers who decided to retire by June 30, 2007 because all pipeline ERO retirements must occur by July 1, 2007.

⁴ 390 retirements that occurred prior to 7/1/2005 were not reported to the actuary until 6/30/2006. 379 retirements that occurred prior to 7/1/2006 were not reported to the actuary until 6/30/2007.

⁵ Other includes items such as:

- (a) Retroactive benefit payments for individuals who delayed applying for retirement.
- (b) Differences between actual cost of benefits earned during the year and projected cost.
- (c) Retirements with reciprocal service credits.
- (d) Disablements and service retirements other than expected.
- (e) Delayed reporting of retirements (effect on PBO).

Notes: Market Value Income represents the net appreciation/(depreciation) in the market value of assets after adjusting for contributions received and benefits and expenses paid.

When calculating the actuarial gain or loss due to investment experience, for fiscal years 1995-2001, a portion of the employer contribution was treated as interest on the discounted employer ERI receivable reported by the System.

* The amount shown as the employer contribution for FY 2004 also includes \$4,330,374,000, which TRS deposited on July 2, 2003 as required under Section 7.2(d) of the General Obligation Bond Act.

Notes:

- (1) The administrative staff of the System estimated the Federal Funds contribution for fiscal years prior to 2006. Commencing with the contribution for fiscal 2006, total payroll for the valuation is split into State and Federal Funds payrolls. Federal Funds payrolls for 2006 - 2008 were estimated to be 4.33%, 5.32%, and 4.40%, respectively, of total payrolls for those years. For 2009 the estimate is 3.70% of total payroll. All payrolls are assumed to increase at the same rate for years subsequent to 2009.
- (2) School District contributions included in this schedule commenced in fiscal 1999. They were estimated to be 0.30% of total payroll for fiscal 1999, 0.18% of total payroll for fiscal 2003, and 0.58% of total payrolls for all other years. Schedule excludes School District payments required by s. 16-128(d-10); 16-133.2; and 16-158(f).
- (3) Federal Funds and State contributions for years subsequent to 2005 are equal to each group's respective payroll multiplied by the Combined State and Federal Funds Required Rate.
- (4) Schedule excludes State ERI contributions of \$1,000,000 for 2004, and \$1,684,000 for 2005 (under Public Act 92-0056, as amended)..
- (5) The sum of the amounts in columns (A), (B), and (C) equals the Total Amount of Employer Contribution shown on Schedule XIII.

Notes:

- (1) The administrative staff of the System estimated the Federal Funds contribution for fiscal years prior to 2006. Commencing with the contribution for fiscal 2006, total payroll for the valuation is split into State and Federal Funds payrolls. Federal Funds payrolls for 2006 - 2008 were estimated to be 4.33%, 5.32%, and 4.40%, respectively, of total payrolls for those years. For 2009 the estimate is 3.70% of total payroll. All payrolls are assumed to increase at the same rate for years subsequent to 2009.
- (2) School District contributions included in this schedule commenced in fiscal 1999. They were estimated to be 0.30% of total payroll for fiscal 1999, 0.18% of total payroll for fiscal 2003, and 0.58% of total payrolls for all other years. Schedule excludes School District payments required by s. 16-128(d-10); 16-133.2; and 16-158(f).
- (3) Federal Funds and State contributions for years subsequent to 2005 are equal to each group's respective payroll multiplied by the Combined State and Federal Funds Required Rate.
- (4) Schedule excludes State ERI contributions of \$1,000,000 for 2004, and \$1,684,000 for 2005 (under Public Act 92-0056, as amended).
- (5) The sum of the amounts in columns (A), (B), and (C) equals the Total Amount of Employer Contribution shown on Schedule XIII.

Notes:

- (1) The administrative staff of the System estimated the Federal Funds contribution for fiscal years prior to 2006.
- (2) Commencing with the contribution for fiscal 2006, total payroll for the valuation is split into State and Federal Fund payrolls, and the required contribution rate for Federal Funds is calculated to be the same as the State contribution rate.
- (3) School District contributions: Sec. 16-158(e) contributions in this schedule were estimated to be 0.30% of total payroll for fiscal 1999, 0.18% of total payroll for fiscal 2003, and 0.58% of total payrolls for all other years subsequent to 1999. Sec. 16-158(f) contributions for 2008 – 2013 were estimated by the administrative staff of the System. Commencing with the contribution for fiscal 2007, Sec. 16-133.2 contributions are estimated in this schedule. Contributions under Sec. 16-128(d-10) for excess sick leave accruals are projected to be zero in the valuation (and in this schedule). Note (5) and the Additional Information following Schedule IB discuss the School District contributions.
- (4) State ERI contributions of \$1,000,000 for 2004, and \$1,684,000 for 2005 (under PA 92-0056, as amended) are included above.
- (5) The sum of the School District Sec. 16-158(e) contributions and the required State and Federal Funds contributions, minus the State ERI contributions in note (4), is equal to the Total Amount of Employer Contribution shown on Schedule XIII.

Notes:

- Above contributions to the Benefit Trust Reserve represent the sum of State and Federal Funds Contributions, as well as School District Contributions for the 2.2% formula (commencing in 1999). A breakdown of the total amounts by source is shown on Schedule XIII.A. Sec. 16-158 requires calculations of State contribution amounts as shown in Schedule IB beginning in FY 2005.
- The following employer contributions to the Benefit Trust Reserve were taken into account when determining the above schedule, but are not included in this schedule: (a) State ERI contributions of \$1,000,000 for fiscal year 2004 and \$1,684,000 for fiscal year 2005, which were made under a separate funding plan. (Beginning in fiscal year 2007, the cost of ERI is part of the 50-year funding plan, and included in this schedule); (b) School District Contributions to the Benefit Trust Reserve under Sec. 16-133.2 and 16-158(f), which are shown in Schedule XII.B; and (c) for FY 1999, additional State funding due to PA 90-0582, and \$9,695,600 in additional State Pensions Fund appropriations. No School District contributions are anticipated under Sec. 16-128(d-10).
- Amortization rate in fiscal years 1995-1997 and 2006 is negative on account of the fact that contributions do not cover normal cost.
- Employer Rates, Contribution Amounts, and Assumed Payroll shown for fiscal years 1995 - 2008 are based on the June 30, 1993 - June 30, 2006 actuarial valuations (2004 as recertified per PA 94-0004) and are certified amounts. Items shown for fiscal years subsequent to 2008 are based on the June 30, 2007 actuarial valuation and are projected rates and amounts.
- Modified ERO retirements are recognized commencing with the June 30, 2005 actuarial liability, while FY 2006 and FY 2007 Pipeline ERO retirements are first recognized in the June 30, 2006, and June 30, 2007 accrued liabilities.
- For calculation purposes, Employer Rates include 15 decimal places. For ease of presentation, only 2 decimal places are shown.
- Assumptions and methodology:
 - Prior to 1997: Return on Investment = 8.00%. Payroll Growth based on valuation assumptions. Valuation Interest Rate = 8.00%. Assets at cost value.
 - For 1997 and after: Return on Investment = 8.50%. Payroll Growth based on valuation assumptions. Valuation Interest Rate = 8.50%. Assets at market value.

Note: This schedule shows how the maximum state and federal funds contributions under PA 94-0004 are determined. It shows projections of the amounts shown in Schedule IB, item 2: contributions that would have been required if there were no POB program, minus the debt service. Schedule excludes School District payments required by Sec. 16-128(d-10), 16-133.2, and 16-158(f) (because they are not a set percentage of payroll).

SECTION IX**STATEMENT OF ACTUARIAL ASSUMPTIONS AND METHODS**

(Adopted effective June 30, 2007 except as otherwise noted.)

INTEREST RATE: 8.5% per annum, compounded annually. (Adopted effective June 30, 1997.)
The interest rate assumption includes the following components, which were revised effective June 30, 2002: inflation 3.5%, and real rate of return 5.0%.

SEPARATIONS FROM ACTIVE SERVICE (OTHER THAN SERVICE RETIREMENT) AND SALARY INCREASES: Representative values of the assumed rates of separation, and annual rates of salary increase, are shown in the following table:

Age	Annual Rates * of				
	Termination		Death**	Disability	Salary Increase
	Non-vested	Vested			
<u>Males</u>					
25	7.0	6.0	.059	.034	10.2%

* Rates of separation are rates per 100 participants. For example, 7% of all 25 year-old actively employed non-vested male members (i.e., 7.0 per 100) are assumed to terminate employment each year for reasons other than death, disability, or service retirement.

** Projected mortality improvements are phased in over the next four years with the Society of Actuaries Mortality Projection Scale AA.

The basic salary increase assumption averages 6.75% per annum plus an additional 0.25% per annum to cover employment type and status changes, for a composite recommended increase that averages approximately 7.0% per annum.

The salary increase assumption includes the following components:

- Inflation: 3.5%
- Real wage growth (productivity): 1.2%
- Merit or seniority (includes employment type and status changes): ranges from 6.4 % at age 20 to 1.3% at age 50 and above.

- **SERVICE RETIREMENT FROM ACTIVE SERVICE AND UTILIZATION OF ERO:** The assumed rates of retirement and utilization of ERO are shown in the following tables:

Annual Service Retirement Rates per 100 Eligible Participants

Notes:

* Active member service rounded to nearest year on June 30 prior to retirement

** Age rounded to nearest year on June 30 prior to retirement

***ERO Utilization Rates are applied only to members who have less than 35 years of total service at the assumed retirement date (including assumed sick leave and optional service purchased at retirement). Based on the sick leave and optional service assumptions, the majority of members with 33 years of service at the beginning of the year of retirement will not be assumed to retire on ERO because they will be assumed to have at least 35 years of service at retirement.

In addition, ERO Utilization Rates are not applied to members whose pension under the ERO program would be less than their money purchase benefit.

DEATH AFTER RETIREMENT: For annuitants, the 1995 George B. Buck Mortality Tables projected 16 years for males and one year for females. For beneficiaries, the 1995 George B Buck Mortality Tables projected one year for both males and females, then rated forward two years for males and forward one year for females. Additional mortality improvements are phased in over the next four years. All improvements are projected with scale AA. For the period after disability retirement, the Pension Benefit Guaranty Corporation rates for male disabled lives not necessarily receiving Social Security benefits, rated forward five years for males and rated back two years for females, but not less than the rate at age 65 (after the setforward or setback). (Disabled mortality assumption adopted effective June 30, 1997.)

MARITAL DATA: It is assumed that 85% of members are married and that the female spouse is three years younger than the male spouse. (Adopted effective June 30, 1993.)

VALUATION METHOD: Projected unit credit cost method. Gains and losses are reflected in the unfunded pension benefit obligation. (Adopted effective June 30, 1989.)

ASSET VALUATION METHOD: Market value. (Adopted effective June 30, 1997.)

GROWTH IN ACTIVE MEMBERSHIP: For purposes of the projection required by State funding law, it is assumed that the active membership of the System will remain constant in number, with no change in the size of either the full-time/part-time group or the hourly/substitute group. (Adopted effective June 30, 1994.)

SEVERANCE PAY: The percent of retirees from active service assumed to receive severance payments, and the amount of such severance payments, are assumed to be as follows:

Before Adjustment for Section 16-158(f)

Years of Service at Retirement	Percent of Retirees Who Receive Severance Pay	Severance Pay as a Percent of Other Pensionable Earnings in the Last Year of Employment
10 – 20	41%	13.81%
20-24	52%	13.24%
25-29	58%	14.29%
30 or more	75%	15.35%

ADJUSTMENT FOR SECTION 16-158(f): the percentages in the “Percent Retiring with Severance” column above, are multiplied by 66.7% in FY 2008, 50.0% in FY 2009, 33.3% in FY 2010, and by 10% for retirements assumed to occur in FY 2011 and thereafter, because the percent of members retiring with severance is expected to trend down.

OPTIONAL SERVICE PURCHASES: The pension benefit obligation for retirement benefits for active members who have not previously purchased optional service is increased to cover the employer cost of out-of-system service purchased in the last two years prior to retirement. The amount purchased varies by the amount of regular service at retirement. Representative amounts purchased at retirement, and other assumptions used, are as follows:

Regular Service at Retirement	Maximum Service Purchased
10 years	0.388 years
20 years	1.131 years
25 years	1.245 years
30 years	0.886 years
34 or more	None

- (a) Actual optional service credit for each current member is provided by TRS; and
- (b) No additional service purchases will be assumed for members who currently have optional service credit; and
- (c) Members will not purchase service if it does not improve their pension benefit; and
- (d) When optional service is purchased within the last two years prior to retirement, 25% of the cost is covered by member payments and the remaining cost is the responsibility of the employer.

The PBO covered by future member payments is not included in the liability on the valuation date, but is brought into projected liabilities as those payments are brought into the assets.

UNUSED AND UNCOMPENSATED SICK LEAVE SERVICE AT RETIREMENT: Such credit varies by the amount of regular service at retirement. Representative assumed amounts of unused and uncompensated sick leave service are as follows:

Regular Service at Retirement	Sick Leave Service Credit
20 years	1.080 years
25 years	1.224 years
30 years	1.277 years
34 years	1.000 years
35 or more	None

ADMINISTRATIVE EXPENSES: The administrative staff of the System estimates the expected administrative expenses for the fiscal year following the valuation. Total payroll for the same year is projected based on valuation assumptions and the expected administrative expenses are then expressed as a percent of total payroll. Administrative expenses in future years are then assumed to remain constant as a percent of total payroll. (Adopted effective June 30, 1994.)

2.2 UPGRADE ASSUMPTION: For those active members who have already made a payment to upgrade past service prior to June 30, 1998 or have enrolled in the Payroll Deduction Program (PDP), their benefits are based on their upgrading at the valuation date. For all other active members, they are assumed to upgrade at retirement. (Adopted effective June 30, 1999.)

* The rate of pay profile will increase 4.7% per annum. 3.5% of the increase is attributable to inflation and 1.2% to real wage growth.

PENSION BENEFIT OBLIGATION: The actuarial accrued liability (AAL) of the System was determined using the projected unit-credit actuarial cost method, and the AAL is equivalent to the Government Accounting Standards Board (GASB) Statement No. 5 pension benefit obligation (PBO). PBO is a measure of the actuarial present value (APV) as of the valuation date of credited projected benefits prorated on service, including an adjustment for the effects of projected salary increases estimated to be payable in the future. Significant actuarial assumptions used to determine the PBO as of June 30, 2007 include the following:

- (1) An assumed rate of return on the investment of present and future assets of 8.5% per annum, compounded annually.
- (2) Assumed projected annual salary increases ranging from 11.2% at age 19 to 6.0% at age 69, which reflect an allowance for inflation and merit or seniority increases.
- (3) Automatic annual post-retirement benefit increases equal to 3% of the member's current benefit.

SECTION X — SUMMARY OF
BENEFIT AND CONTRIBUTION PROVISIONS

MEMBERSHIP

Employers of the System include:

- (a) the Illinois public common school districts outside of Chicago,
- (b) certain state agencies employing certificated teachers, and
- (c) the State Board of Education, Illinois School Board Association, statewide and national teacher organizations, educational cooperatives and the retirement system.

Employees covered under the System include:

- Any educational, administrative, professional or other staff employed in the public common schools outside the City of Chicago in a position requiring certification under the teacher certification law, including substitute teachers, part-time teachers, and hourly paid teachers who are on a flexible work schedule;
- Any position requiring teacher certification in certain state agencies;
- Any regional superintendent of schools, assistant regional superintendent of schools, State Superintendent of Education; any person employed by the State Board of Education as an executive; any executive of the boards engaged in the service of public common school education in school districts covered under this system of which the State Superintendent of Education is an ex-officio member;
- Any employee of a school board association who is certificated under the teacher certification law;
- Any person employed by the retirement system who was an employee of and a participant in the system on August 17, 2001 or becomes an employee of the system on or after August 17, 2001;
- Any educational, administrative, professional or other staff employed by and under the supervision and control of a regional superintendent of schools, provided such employment position requires the person to be certificated under the teacher certification law;

- Any educational, administrative, professional or other staff in a certificated position employed by a program serving two or more school districts in accordance with a joint agreement authorized by the School Code or by federal legislation;
- Any officer or employee of a statewide teacher organization or officer of a national teacher organization who is certified under the teacher certification law, provided the member had previously established creditable service under TRS and elects TRS membership, and does not receive credit under any other article of the pension code; and
- Any educational, administrative, professional, or other staff employed in a charter school who is certificated under the teacher certification law.

Employment on a full-time basis covers only teachers whose normal employment schedule consists of working at least four clock hours daily, five days per week. Employment on a part-time basis covers teachers who are employed less than four clock hours daily or less than five days per week. A substitute teacher is employed on a temporary basis to replace another teacher.

Creditable service rendered as an employee for a regular school year in any district, in accordance with the provisions of the Pension Code, is equal to one year of service, and time less than a legal year is counted as such portion of a year as the number of days taught bears to 170 days. Additionally, members may purchase various types of optional service credit.

"Final average salary" means the average salary for the highest 4 consecutive years within the last 10 years of creditable service as determined under the rules of the Board.

BENEFITS

Normal Retirement

Eligibility	Age 60 with 10 years of service, or age 62 with 5 years of service.
-------------	---

Amount	For a person who first became a teacher before July 1, 2005, the annual benefit amount is the greatest of (i), (ii) and (iii) below. For a person who first became a teacher on or after July 1, 2005, the annual benefit amount is the greater of (i) and (ii) below.
--------	--

- (i) For service earned before July 1, 1998, 1.67% of final average salary for each of the first 10 years of creditable service, plus 1.90% of final average

salary for each year in excess of 10 but not exceeding 20, plus 2.10% of final average salary for each year in excess of 20 but not exceeding 30, and 2.30% of final average salary for each year in excess of 30. For all other service, 2.2% of final average salary.*

* Service earned before July 1, 1998 can be upgraded to 2.2% through additional member contributions or 1% of the member's highest salary within the last four years for each year of prior service. Maximum payment is 20% of salary, but all years are upgraded. The number of years to be upgraded is reduced by one for each three full years worked under the 2.2% formula. The 2.2% formula upgrade cost is reduced on a sliding scale for members who have more than 34 years of service credit.

(ii) 1½% of final average salary for each year of creditable service, plus \$7.50 per year for each of the first 20 years of creditable service.

(iii) An actuarially equivalent life annuity, resulting from the member's contributions and State-matching contributions (1.4 times member contributions) plus compound interest on both.

Maximum amount under (i) and (ii) above - 75% of final average salary.

Automatic Postretirement
Cost-of-Living Adjustment

Eligibility

Member contributed for at least an equivalent period of one full year of creditable service after July 1, 1969.

Amount

Initial increase of 1½% of base annuity for periods prior to January 1, 1972, 2% for periods from and after January 1, 1972 and prior to January 1, 1978, and 3% for periods thereafter (such periods to exclude any period of retirement that precedes attainment of age 55). Initial increase payable effective with the later of: January 1 following first anniversary of retirement; or January 1 following attainment of age 61.

Following the initial increase, automatic annual increases payable on each January 1 thereafter. Prior to January 1, 1990, annual increases were determined as a percentage of the original retirement annuity. Effective on and after January 1, 1990, automatic annual increases granted to eligible annuitants equal 3% of the total annuity being received, including previous increases granted.

Early Retirement

Eligibility

Age 55 with 20 years of service.

Amount

Equal to the amount computed under normal retirement, reduced by 6% for each year the member is under age 60. There is no reduction for a member who retires prior to age 60 with 35 years of credited service.

Early Retirement Incentive for State Employees

Some TRS-covered members employed by state agencies were eligible for an early retirement incentive (ERI) during fiscal year 2003. PA 92-566, enacted in June 2002, allowed certain state employees to purchase up to five years of service credit and an equal amount of age enhancement. Retirement must have occurred between August 1, 2002 and December 31, 2002, with deferrals until April 30, 2003, for key employees. Some employees who were not yet eligible to retire could also purchase the age and service enhancements if they terminated state employment.

Early Retirement Option

A member retiring after June 1, 1980 and within six months of the last day of teaching for which retirement contributions were required, may elect to make a one time employee contribution to avoid the early retirement reduction described in the foregoing paragraph. Such employee and employer contributions will be a multiple of the member's last full time annual salary rate as a teacher, the full time equivalent if less than full time, or the highest year's salary used for determining final average salary.

The member lump sum ERO contribution rate for persons who retire under ERO prior to July 1, 2005, or who retire during the "Pipeline ERO" period July 1, 2005 through July 1, 2007 after having properly notified their employer by June 1, 2005 of their intent to retire under ERO during the Pipeline ERO period is 7%, and the employer lump sum ERO contribution rate for such persons is 20%.

The member lump sum ERO contribution rate for other persons is 11.5%, and the employer lump sum ERO contribution rate for such persons is 23.5%. Such other persons are referred to as "Modified ERO" retirees.

The multiple of salary to be contributed by the member equals the member rate times the lesser of the following two periods: (a) the number of years (including fractional years) that the member is less than age 60; or (b) the

number of years (including fractional years) that the member's creditable service is less than 35 years.

The multiple of salary to be contributed by the member's employer equals the employer rate times the number of years (including fractional years) that the member is less than age 60.

Both the member and employer contributions are waived for Pipeline ERO retirees who are at least age 55 with at least 34 years of service. There is no waiver for Modified ERO retirees.

The ERO provisions will not be applicable until the member contributions have been received; however, the date such contributions are received will not be considered in determining the effective date of retirement. The number of employees of a single employer who may retire under this paragraph in any year may be limited at the option of the employer to a specified percentage of those eligible, not lower than 30% for Pipeline ERO retirees, and not lower than 10% for Modified ERO retirees, with the right to participate to be allocated among those applying on the basis of seniority in the service of the employer.

Rule of 85 for State Employees

An employee of a state agency retiring on or after January 1, 2001 is entitled to a nondiscounted annuity if his or her attained age at retirement and total creditable service equal at least 85, provided he or she has (i) earned during the period immediately preceding the last day of service at least one year of contributing creditable service as a state employee and (ii) has earned at least 5 years of contributing creditable service as a state employee.

Single Sum Benefit

Eligibility

Age 65 with fewer than 5 years of creditable service after July 1, 1947.

Amount

Lump sum payment actuarially equivalent to a life annuity consisting of 1.67% of final average salary for each year of service.

Temporary Disability Benefit

Eligibility

3 years of credited service.

Amount

Equal to 40% of the member's most recent annual contract salary at time of disablement. The benefit is payable beginning with the 31st day after disablement and ending at the earlier of (1) cessation of disability, (2) when the member requests termination of the benefit, (3) when the

period for which payments have been made equals one-fourth the period of creditable service, or (4) the member is gainfully employed or able to be gainfully employed.

Disability Retirement Annuity

Eligibility Termination of temporary disability benefit, provided member remains disabled.

Amount The larger of 35% of the member's most recent annual contract salary or (a) if disability commences prior to age 55, the benefit payable as for normal retirement, but reduced by ½% for each month by which the member is less than age 55, or (b) if disability commences after age 55 and the member has 20 years of service, the benefit payable as for normal retirement with no discount.

Other formulas may be applicable if disability retirement occurred prior to July 1, 1971.

Occupational Disability

Eligibility Totally and immediately incapacitated for the performance of duty.

Amount Equal to 60% of salary, if disability is duty-connected or occupational adjudicated by the Illinois Industrial Commission as compensable under either the Workers' Compensation or Occupational Diseases Act. Any amounts payable under these Acts shall be applied as an offset to any occupational disability benefits payable by the Teachers' Retirement System. In general, benefits are payable throughout the period of disability.

Deferred Vested Benefits

Eligibility 5 years of service.

Amount Equal to the amount computed under normal retirement deferred to age 62 if member has less than 10 years of service. With 10 or more years of service the annuity is payable at age 60.

Reversionary Retirement Annuity

Any member entitled to a retirement annuity for age may elect to receive a reduced annuity with the remainder determined on an actuarial basis to become, upon the member's death, an annuity for life to any designated person dependent upon the member at the time of the member's retirement, provided such payment shall not be less than \$10 nor more than the amount of reduced age

retirement monthly annuity to which the member is entitled.

Refund of Contributions

A member who ceases to be a member for any reason other than death or retirement, shall be entitled to a refund of all retirement contributions and payments made into the fund by him which have not previously been refunded, without interest thereon.

A member who retires on ERO shall not receive a refund of the 0.4% career ERO contributions; otherwise, the 0.4% career ERO contributions are refunded, without interest, to the member, or the member's beneficiary or Estate (if applicable) if any of the following occur: (1) the ERO program is discontinued under Section 16-176; or (2) the member either retires without ERO, terminates employment and withdraws the member account balance, or dies before retirement.

Death Benefit

Refunds of the deceased member's accumulated contributions are paid to survivors or to the member's estate. Additional lump sum death benefits are also payable.

Survivor Benefit

Types of Beneficiaries

<u>Time of Death</u>	<u>Dependents</u>	<u>Non-dependents</u>
While employed	Lump sum up to last salary or \$1,000 and a monthly benefit generally not less than \$400* or \$600 with minor children**	Lump sum up to last salary
Inactive within 12 months of last day of credit	Lump sum up to last salary or \$1,000 and a monthly benefit generally not less than \$400* or \$600 with minor children**	Lump sum up to last salary
Inactive with 20 or more years of service	Lump sum of \$3,000 or 1/6 of last salary*** or \$1,000 and a monthly benefit generally 1/2 of member's earned benefit at time of death	Lump sum of \$3,000 or 1/6 of last salary***

Annuitant	Lump sum of \$3,000 or 1/6 of last salary*** or \$1,000 and a monthly benefit generally 1/2 of annuitant's earned benefit at time of death	Lump sum of \$3,000 or 1/6 of last salary***
-----------	--	--

- * Certain circumstances might provide a monthly annuity less than \$400 per month for an active member.
- ** TRS will pay 50 percent of the member's earned retirement annuity at death if it is greater than the above amounts.
- *** Certain lump sums may be greater if the annuitant or inactive member has been in retirement or out of service for less than five years.

Member Contributions Beginning July 1, 2005, each member contributes an additional 0.4% of pay "career ERO contribution." This contribution requirement shall cease if the Early Retirement Option program ends.

Beginning July 1, 1998, contributions for creditable service are made at the rate of 8% (exclusive of amounts paid toward Survivor Benefits) of salary which is comprised of a rate of 7½% of salary towards the cost of the retirement annuity plus ½% of salary toward the cost of the automatic annual increase in retirement annuity.

Beginning July 24, 1959, each member contributes an additional 1% of salary toward Survivor's Benefits. These contributions are subject to refund if there is no dependent beneficiary at retirement, provided the member elects such refund.

Beginning July 1, 1995, each member not employed by a State agency contributes to the Teachers' Health Insurance Security Fund, administered by the Department of Central Management Services. These contributions are not refundable and do not become part of the System's assets.

Additional contributions as are necessary to receive credit for service during which contributions were not made, such as military service or service outside the System.

New Benefit Increases: The term "new benefit increase" means an increase in the amount of any benefit provided by the statute, or an expansion of the eligibility requirements for any benefit provided by the statute, resulting from an amendment that takes effect on or after June 1, 2005.

Every new benefit increase must have an identified funding source whose adequacy is verified and

periodically confirmed by the Commission on Government Forecasting and Accountability (CGFA).

Every new benefit increase will automatically expire at the earlier of (i) five years after its effective date ; (ii) at an earlier time specified in the amendment creating the benefit; or (iii) at the end of the fiscal year in which CGFA certifies that the identified funding source is inadequate; except that any new benefit increase will continue to apply to persons who applied for and qualified for the increase while it was in effect, and except that any new benefit increase may be extended or recreated by the General Assembly (subject to the adequacy of the funding source).

Sick Leave Service Accruals:

Any unused and uncompensated accumulated sick leave is counted as creditable service provided that each former employer certifies to the System the number of unused and uncompensated accumulated sick leave days upon termination of the member. The service granted is the ratio of the number of unused and uncompensated accumulated sick leave days to 170 days, subject to a maximum of 2 years of service credit. The period of sick leave shall not be considered in determining the effective date of retirement.
