PUBLIC EMPLOYEES' RETIREMENT FUND
INDIANA

HARRISON BUILDING
143 WEST MARKET STREET
INDIANAPOLIS, INDIANA 46204

E. WILLIAM BUTLER,
EXECUTIVE DIRECTOR

November 1, 2001

Dear Members of the Public Employees' Retirement Fund of Indiana:

On behalf of the Board of Trustees and staff of the Public Employees' Retirement Fund of Indiana, I would like to express our deepest condolences to the families and friends impacted by the September 11, 2001 attacks on New York and Washington D.C. Our nation has suffered a terrible tragedy, and our thoughts and prayers are with the families of the victims and the rescue workers who so bravely searched for survivors.

These despicable acts were not only intended to take innocent lives, but to shake the confidence of investors worldwide in our nation's financial markets. Although the attacks produced an initial drop in economic activity, we are confident in the long-term health of the economy.

As a member of the National Association of State Retirement Administrators (NASRA), I want to share with you the contents of a statement published by NASRA (in conjunction with the National Council on Teacher Retirement) shortly after the September 11, 2001 attacks. The statement reads:

"We, as representatives of the National Association of State Retirement Administrators and the National Council on Teacher Retirement, wish to publicly express our support of and confidence in the U.S. financial markets and systems. Specifically:

- 1. We support the efforts of federal officials and stock exchange officials and members to re-open the markets in an orderly manner. In our view, time is not of the essence but orderliness is.*
- 2. We have unqualified confidence in the U.S. financial systems and in the resilience of the U.S. financial markets.*
- 3. We, as institutional investors, will continue to provide stability in the U.S. financial markets. We will remain patient long-term providers of capital.*
- 4. We remain confident in the underlying strength of the U.S. economy.*
- 5. We urge all other investors to remain calm when the markets re-open.*
- 6. We join all of America in offering our condolences to the families, friends, and business colleagues who were personally affected by this horrible tragedy."*

The Board of Trustees and the staff of the Public Employees' Retirement Fund of Indiana wholeheartedly support this statement. I want to reassure all of our members that our commitment to providing you with a secure retirement benefit – and our confidence in the U.S. financial markets and systems – has grown even stronger in the wake of these horrible events.

Sincerely,

E. William Butler
Executive Director

BOARD OF TRUSTEES

PUBLIC EMPLOYEES' RETIREMENT FUND
INDIANA

HARRISON BUILDING
143 WEST MARKET STREET
INDIANAPOLIS, INDIANA 46204

E. WILLIAM BUTLER,
EXECUTIVE DIRECTOR

November 1, 2001

Dear Board Members:

I am pleased to present the Comprehensive Annual Financial Report of the Public Employees' Retirement Fund of Indiana (PERF or the Fund) for the fiscal year 2001. Since its creation in 1945, the Fund has provided a wide variety of retirement services to Indiana's public employees.

As of June 30, 2001, PERF is responsible for the investment of more than \$11 billion in combined assets. For details on the Fund's performance, review this report, which provides information on all of the retirement plans administered by PERF, including:

- Public Employees' Retirement Fund,
- 1977 and 1985 Judges' Retirement System,
- Excise Police and Conservation Enforcement Officers' Retirement Fund,
- 1977 Police Officers' and Firefighters' Pension and Disability Fund,
- Legislators' Retirement System (Defined Benefit Fund and Defined Contribution Fund), and
- Prosecuting Attorneys' Retirement Fund.

In addition, PERF administers two special death benefit funds for public safety officers and state employees who die in the line of duty, and it administers the Pension Relief Fund. The Pension Relief Fund was created by the General Assembly to address the unfunded pension obligations of the police officers' and firefighters' pension systems of Indiana's cities and towns. PERF does not administer those local pension funds, which have been closed to new membership since the creation of the 1977 Police Officers' and Firefighters' Pension and Disability Fund. However, we manage the assets of the Pension Relief Fund and make semi-annual disbursements to the local police and firefighting units throughout the state that are still obliged to pay benefits under those former plans.

Management's Responsibility to Members

As mentioned in last year's annual report, the Board is working diligently to enhance service levels for our members and their employers. During fiscal year 2001, PERF made significant strides in improving these services. The following is a partial list of the initiatives currently underway.

The CEM Project

We began the process of improving service levels by diagnosing, evaluating, and benchmarking the services currently offered by the Fund. Working with Cost Effectiveness Measurement, Inc. (CEM), we benchmarked the Fund's customer service against 35 leading U.S. and international pension systems. The project proved valuable in identifying the Fund's strengths and weaknesses, and serves as a baseline for continued improvements.

Strategic Planning

The next step was developing a business plan specifically targeted at service improvement. The Board's participation in a strategic planning exercise helped identify and prioritize the Fund's most pressing needs and in developing a business plan outlining how best to address those needs. Each year, the plan will be re-evaluated and, if necessary, revised to meet the Fund's changing needs in the coming years.

Communications

Over the past year, we spent time with our employers identifying their areas of greatest concern. Communication is a two-way street and we have taken steps to create better give-and-take between PERF and its various constituencies. The increased frequency of newsletters, improvements to the web site, and outreach to our largest employers, as well as enhancements to this report, are the first steps in developing a better dialogue with members and employers.

Information Technology

The Fund is continually looking for ways of utilizing advanced technology to provide more accurate maintenance of member benefit information and faster benefit estimates and retirement calculations. The timely and accurate transfer of information to and from PERF is critical to our ability to provide efficient customer service. Therefore, it is essential to have a data management system that is flexible and compatible with new technologies.

The Fund's new IT system, SIRIS, houses millions of pieces of member and employer demographic information necessary to make an accurate benefit calculation. Phase II of our technology initiative, which is scheduled to come on-line in the upcoming year, will integrate the demographic data with the financial accounting information to generate benefits in the new system.

Letter of Transmittal

(continued)

Staff Development

The industry continues to grow in complexity. As baby-boomers begin leaving the workforce, our systems will face increased demand. The work of the Fund is changing and needs to meet the new challenges with flexibility and knowledge. We continue to "professionalize" our staff by adding depth in existing departments and developing new functional areas focused specifically on customer service improvement.

The General Assembly also enacted a number of changes during fiscal year 2001 that benefit members of the Fund, including:

- revising the factors used in determining retirement benefits under the Prosecuting Attorneys' Fund,
- providing a Cost of Living Adjustment (COLA) and "13th check" to PERF eligible retirees and beneficiaries,
- clarifying the amount employees can voluntarily contribute to their Annuity Savings Accounts,
- increasing the frequency with which PERF members can make changes to their Annuity Savings Account investment elections, and
- conforming Indiana law to the federal Senior Citizens Freedom to Work Act of 2000 that eliminates the earnings limit for PERF retirees who have attained their Social Security normal retirement age (age 65 for those born before 1938). The provision provides a fixed earnings limit of \$25,000 for PERF retirees who become re-employed in a covered position and have not attained their Social Security normal retirement age.

PERF is committed to better serving our members and their employers in a variety of ways. In the coming year, our efforts will focus on the continued development of staff, the installation of an updated telecommunications system, and completion of Phase II of our IT system upgrade, which focuses on the capability of the Fund to generate benefits. Also, as a service to members and employers, a variety of educational workshops and seminars are planned for the coming year through the development of an outreach services team.

Management's Responsibility for Financial Reporting

The Fund's management prepared the financial statements included in this Comprehensive Annual Financial Report for the 2001 fiscal year. The Fund's management is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of the Fund's operations.

The Comprehensive Annual Financial Report (CAFR)

The 2001 Comprehensive Annual Financial Report is presented in five sections.

- The **Introductory Section** contains the transmittal letter, the Board Chairman's letter, and identification of the Fund's

administrative organization and professional consultants, as well as highlights for each of the retirement plans administered by the Fund.

- The **Financial Section** contains the financial statements audited by the Indiana State Board of Accounts, required supplementary information of the plans, and the auditors' opinion letter.
- The **Investment Section** contains information on the Fund's investment performance and a list of the Fund's largest holdings.
- The **Actuarial Section** contains the independent consulting actuary's certification, an outline of actuarial assumptions and methods, and other actuarial statistics.
- The **Statistical Section** contains tables of significant data pertaining to the plans.

Economic Condition and Outlook

The Fund's economic condition is based primarily upon investment earnings and net contributions from members and employers. For fiscal year 2001, the Fund experienced a -2.51 percent fair value rate of return. For the last five years, the Fund averaged an annualized rate of return of 7.29 percent. The Fund's investments were evaluated at year-end by William M. Mercer Investment Consulting. A comparative analysis of rates of return is presented beginning on page 60 of this report.

The U.S. economy grew 1.3 percent during the last fiscal year, down considerably from the torrid 5.2 percent growth rate experienced during the preceding fiscal year. The sharp drop in economic growth resulted from drastic slow downs in the manufacturing and construction industries, coupled with a decline in technology investment. Consumer spending remained strong, despite increasing unemployment, moderate inflation, and rising energy prices, preventing the economy from slipping into a recession. Responding to signs of slowing growth, the Federal Open Market Committee lowered interest rates six times during the first half of 2001 to 3.75 percent, the lowest level in seven years.

Over the next year, economic growth is expected to be well below the recent average with moderate inflation. Returns within the equity market may remain below historical norms, as investors wait for signs that companies' earnings will rebound. As has been the case over the past few years, volatility will continue to impact the equity markets as economic data is released to investors.

Reporting Financial Information

The Fund's management is responsible for maintaining a system of adequate internal accounting controls designed to provide reasonable assurance that transactions are executed in accordance with management's general or specific authorization. The management is also charged with recording these transactions as necessary to maintain accountability for assets and to permit preparation of financial statements in accordance with generally accepted accounting principles. This system includes the written policies and procedures of the Board.

Letter of Transmittal

(continued)

For financial reporting purposes, the Fund follows Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefits Pension Plans and Note Disclosures for Defined Contribution Plans*. Assets of the Fund are presented at fair value. The actuarial value of assets and the actuarial accrued liability are presented in the required supplementary information following the notes to the financial statements.

Our independent external auditor, the Indiana State Board of Accounts, has conducted an audit of the general purpose financial statements in accordance with generally accepted auditing standards, performing such tests and other procedures as it deems necessary to express an opinion in its report to the Board. The external auditor also has full and unrestricted access to the Board to discuss its audit and related findings as to the integrity of the financial reporting and adequacy of internal control systems.

Additions (Revenues)

The assets needed to finance retirement benefits are accumulated through the collection of employer and member retirement contributions and through earnings on investments. Total additions comprised of contributions, net investment income, transfers from other plans, and other miscellaneous revenue for fiscal year 2001 totaled \$129.3 million for the entire Fund (see Table 1).

Table 1. Additions (All Trust Funds)
(dollars in millions)

	Fiscal Year Ended June 30, 2001	Fiscal Year Ended June 30, 2000
Member contributions	\$ 153.8	\$ 136.1
Employer contributions	285.0	303.3
Net investment income (loss)	(311.9)	636.5
Other	2.4	1.2
Total additions	\$ 129.3	\$ 1,077.1

The overall additions decreased \$947.8 million compared to those of fiscal year 2000, largely due to challenging equity markets compared to our strong equity performance in the prior year. The Investment Section of this report reviews activity and results of the investments for fiscal year 2001.

Deductions (Expenditures)

The primary deductions of the Fund include the payment of benefits to members and beneficiaries, the refund of contributions to former members, transfers to other plans, and the cost of administering the plans. Deductions for fiscal year 2001 totaled approximately \$364.5 million, an increase of 3.7 percent over the previous fiscal year (see Table 2).

Table 2. Deductions (All Trust Funds)
(dollars in millions)

	Fiscal Year Ended June 30, 2001	Fiscal Year Ended June 30, 2000
Benefit payments	\$ 321.6	\$ 306.3
Refunds	30.9	36.3
Transfers to plans	2.4	1.8
Administrative expenses	9.6	7.0
Total deductions	\$ 364.5	\$ 351.4

The increase in benefit payments resulted primarily from an increase both in the number and average amount of benefits paid. Additions of \$129.3 million lagged deductions of approximately \$364.5 million by \$235.2 million during fiscal year 2001.

Investments

For fiscal year 2001, pension fund net investment loss was \$311.9 million. The Consolidated Investment Retirement Fund (CRIF) had a rate of return of -2.51 percent on a market value basis. The CRIF is defined further in the investment section. The Fund's annualized rate of return over the last five years was 7.29 percent. Proper funding and healthy investment returns are essential to the financial soundness of PERE, particularly in a fluctuating market environment.

Asset Allocation

An integral part of the overall investment policy is the strategic asset allocation policy. This policy is designed to provide an optimal mix of asset classes, in order to meet the Fund's return objectives, while maintaining appropriate diversification and risk control. Both traditional assets (cash, domestic and international stocks, and domestic fixed income) and nontraditional assets are incorporated into the target asset mix.

The investment portfolio mix at fair value for fiscal year 2001 was approximately 40 percent fixed income and 60 percent equities. The equity portfolio is comprised of 91.7 percent domestic equity and 8.3 percent international equity at June 30. The Fund's long-term investment outlook allows the portfolio to take advantage of the favorable risk and return characteristics of equities by placing more emphasis on this category.

Funding

The cornerstone of any retirement system is its level of funding. If the funding level is adequate, the ratio of total accumulated assets to total liabilities will be larger and the need for contributions will be reduced. Also, an adequate funding level gives participants assurance that their pension benefits are secure.

Letter of Transmittal

(continued)

Funds are derived from the excess of additions over deductions and are accumulated to meet future benefit obligations to retirees and beneficiaries. This accumulated balance is referred to as the "net assets held in trust for pension benefits" in the Statement of Plan Net Assets in the Financial Section of this report. The actuarial accrued liability is not disclosed in the financial statements but is disclosed in the Required Supplementary Information Schedules immediately following the notes to the financial statements.

The actuarial accrued liability of the Fund is determined by the Fund's actuary. It is a measure of the present value of actuarial accrued liabilities estimated to be payable in the future to current retirees, beneficiaries, and employees for service earned to date. The percentage computed by dividing the actuarial value of net assets available for benefits by the actuarial accrued liability is generally referred to as the "funding ratio." This ratio provides an indication of the funding status of the plan and generally, the greater this percentage, the stronger the plan.

The advantage of a well-funded plan is that participants can see assets that are irrevocably committed to the payment of promised benefits. Although PERF's historical level of funding has been good, constant effort will be directed at funding progress to reassure participants of a financially sound retirement system. Funding status and progress for the plans are presented in the Required Supplementary Information Schedules of Funding Progress on page 51.

Actuarial Survey and Valuation

An actuarial review of the Fund is performed annually. An assumption experience study is performed every three to five years. The actuarial firm, McCready & Keene, completed the actuarial reviews and valuations and served as technical advisor to the Fund. Actuarial certification and supporting statistics are included in the Actuarial and Statistical Sections of this report.

Acknowledgements

I would like to take this opportunity to acknowledge the support of the Governor, Lieutenant Governor, and the General Assembly, particularly since the adoption of the state constitutional referendum of 1996 that allowed the Fund to expand its investment portfolio to capture the best possible returns. In addition, the Governor and State Legislature were instrumental in the passage of Senate Bill 64 in July of 2000, which made PERF a "separate body corporate and politic." This put the Board of Trustees in the position to operate the Fund using the best practices from both the public and private sectors.

I would also like to thank the Board, the staff, the advisors, and the many people who have worked so diligently to ensure the successful operation and financial soundness of the Public Employees' Retirement Fund of Indiana.

Our goal remains the same – to assist our members in creating a financially secure retirement system. As we monitor our investments and explore new ways to bring value and service to our customers, we will continue to rely on our best assets – the vision and sound leadership of our Board and the work of our dedicated staff.

Sincerely,

E. William Butler
Executive Director

Board Chairman's Letter

BOARD OF TRUSTEES

PUBLIC EMPLOYEES' RETIREMENT FUND
INDIANA

HARRISON BUILDING
143 WEST MARKET STREET
INDIANAPOLIS, INDIANA 46204

November 1, 2001

Dear Governor O'Bannon & Members of the Public Employees' Retirement Fund of Indiana:

On behalf of the Board of Trustees of the Public Employees' Retirement Fund of Indiana (PERF or Fund), I am pleased to report to you on the Fund's activities during the fiscal year ended June 30, 2001 and on its financial condition as of that year end.

The Fund's Activities

As you may recall, PERF administers six separately managed pension funds, as well as the Pension Relief Fund, the Special Death Benefit Fund for police officers and firefighters and the State Employee Death Benefit Fund. As of June 30, 2001, we were responsible for the investment of approximately \$1.1 billion in combined assets. Now in our fourth year of diversifying the portfolio, we have allocated approximately 60 percent of the Fund's assets into marketable common stocks, while investing the remaining balance in quality fixed income securities. The Board's present policy of spreading our investments among a variety of carefully selected securities in various classes is, in our judgment, key to the maintenance of the good health and soundness of the Fund through all economic cycles.

While our primary obligation is to disburse benefits to more than 50,000 retired or disabled members of the Fund, we also provide other related financial services to more than 140,000 active members and over 1,000 units of state, county, and city government. We are making a particular effort this year to enhance the quality of the Fund's service to its members by installing new operating systems and selectively adding to our staff. These moves are designed to make PERF more efficient and more readily responsive to the needs and the inquiries of our membership.

The Fund's Financial Condition is Strong

While the Fund's investments did not perform as well as in previous years, the Fund's financial condition is strong thanks to the many administrative and funding decisions of the Governor, the Legislature, the PERF Board, participating employers and our members. The Fund's actuarial value of assets as of the most recent actuarial valuation exceeded its total actuarially determined liabilities for payment of future pension and other benefits.

Annuity Savings Account

Our members continue to take advantage of the Annuity Savings Account, viewing it as an important way to supplement their other sources of retirement income. Currently there are five investment options available to members, each of which is designed to enable our membership to select investment categories of their choice. As expected during this past year of volatile market activity, rates of return for account participants varied, depending upon the particular investment fund selections made. The total of our members' account balances in the five Annuity Savings Account Funds exceeded \$1.7 billion as of June 30, 2001.

Board and Staff

The Board of Trustees and the staff of the Fund take very seriously their responsibilities related to the investment and administration of the Fund's assets. Be assured that we will continue to strive diligently to provide the highest quality of service possible to PERF members and to the many participating units of government so significantly involved.

Sincerely,

Richard T. Doermer

Annuity Savings Account

In addition to the employer-financed defined benefit, the Public Employees' Retirement Fund benefits structure also includes the Annuity Savings Account. The purpose of the Annuity Savings Account is to help public employees of state and local governments save for their retirement by allowing them to invest in a number of different investment funds.

While employer-provided retirement and Social Security are valuable sources of retirement income, they are only a part of the total retirement picture. Employees can begin investing their own money in a long-term savings plan and take responsibility for their future retirement income.

The plan provides the following benefits:

- Convenient, automatic payroll deductions,
- Five investment options,
- Tax deferred savings,
- Roll over funds into qualified plan or IRA upon termination or retirement,
- Upon death, funds transfer to beneficiaries,
- Immediate vesting, and
- Low investment and administrative fees.

2000 Retirees

Number	228
Average Annual Benefit	\$ 34,307

Membership

The 1977 and 1985 Judges' Retirement System includes justices and judges of the Supreme Court, appellate, circuit, superior, criminal, probate, juvenile, and municipal courts.

Receiving Retirement Benefits

Age	Years of Service	Allowance Reduction
55	Age at retirement plus total years of service equals 85 or more	None
62	8 or more	0.1% for each month that retirement precedes age 65
65	8 or more	None

Service Benefit Formula

Salary at Retirement¹ x Percentage Below

Years of Service	Percentage	Years of Service	Percentage
8	24%	16	54%
9	27%	17	55%
10	30%	18	56%
11	33%	19	57%
12	50%	20	58%
13	51%	21	59%
14	52%	22 or more	60%
15	53%		

¹Benefit calculations for the 1977 System are based on the current salary of the judge's position from which they retired. The 1985 System uses the salary paid to the judge when they retired.

Cost of Living Allowance

For the 1977 System, the cost of living allowance is a percentage increase equal to the increase in the salary of the judges' position from which the judge retired. There is no cost of living allowance in the 1985 System. There is no cost of living allowance for survivor benefits.

Contribution Rates

- Employees contribute 6% of the judge's statutory salary until 22 years of service have been completed.
- Employer contribution rates are determined by an actuary.

Average annual salary	\$ 43,317

2000 Retirees

Number	119
Average Annual Benefit	\$ 10,879

Membership

The Excise Police and Conservation Enforcement Officers' Retirement Fund includes employees of both the Department of Natural Resources and the Alcoholic Beverage Commission who are engaged exclusively in the performance of law enforcement duties.

Receiving Retirement Benefits

Age	Years of Service	Allowance Reduction
45	15 or more	0.25% for each full month that retirement precedes age 60
55	Age at retirement plus total years of service equals 85 or more	None
60	15 or more	None

Service Benefit Formula

25%¹ x Average Annual Salary²

¹This percentage is increased by 1-2/3% of average annual salary for each completed year of creditable service after 10 years (up to 25 years) and by 1% for each year of creditable service after 25 years.

²Average Annual Salary means the average annual salary of an officer during the 5 years of highest annual salary in the 10 years immediately preceding an officer's retirement date.

Cost of Living Allowance

Cost of living allowance is equal to the ad-hoc cost of living allowance for Indiana PERF.

Contribution Rates

- Member rates equal 3% of the first \$8,500 of annual salary (maximum contribution is \$255 per year).
- Employer rates are determined by an actuary.

2000 Retirees

Number	1,646
Average Annual Benefit	\$ 15,620

Membership

The 1977 Police Officers' and Firefighters' Pension and Disability Fund includes eligible state and local police officers and firefighters.

Receiving Retirement Benefits

Age	Years of Service	Allowance Reduction
50	20 or more	Actuarial allowance reduction
52	20 or more	None

Service Benefit Formula

Monthly benefit equal to 50%¹ of first-class salary for 20 years of service

¹This percentage is increased by 1% for each 6 months of active service accumulated after 20 years of service (to a maximum of 32 years, or 74%).

Cost of Living Allowance

Cost of living allowance is a percentage determined by statute equal to the change in the Consumer Price Index, but not in excess of a 3% increase.

Contribution Rates

- Members contribute 6% of first-class salary.
- Employers contribute 21% of first-class salary.
- Employer rate is determined by an actuary.

Legislators' Retirement System—Defined Benefit Fund*

Composite Picture

Total Membership

Active	60
Terminated vested	27
Retired	32

2000 Active Members

Average age	59.9 years
Average years of service	19.8 years
Average annual salary	\$ 31,314

2000 Retirees

Number	32
Average Annual Benefit	\$ 6,603

Membership

The Legislators' Retirement System Defined Benefit Fund includes only legislators of the State of Indiana who were serving on April 30, 1989 and elected participation.

Receiving Retirement Benefits

Age	Years of Service	Allowance Reduction
55	10 or more ¹	Benefit reduced using early retirement formula ²
55	Age at retirement plus total years of service as a member of the General Assembly equals 85 or more	None
65	10 or more ³	None

¹Have terminated service as a member of the General Assembly and is not receiving nor is entitled to receive a salary from the state.

²Early Retirement Benefit Formula:

Step 1: 780 months (65 years) – your age at retirement in full months = [x].

Step 2: If [x] is equal to or less than 60, then multiply [x] by 0.1% to obtain a product [y]. If [x] is greater than 60, then multiply 5/12% by the difference between 60 and the remainder [x]. Then take this product and add 6% to obtain a sum [y].

Step 3: Then subtract [y] from 100% to determine the percentage of your age 65 retirement benefit you receive.

³Have terminated service as a member of the General Assembly, are not receiving nor are entitled to receive a salary from the state, and are not receiving and have not previously received a reduced monthly benefit under this plan.

Service Benefit Formula

Lesser of:

- \$40 x Years of Service before November 8, 1989 or
- Highest Consecutive 3-year Annual Salary at Termination ÷ 12

Cost of Living Allowance

Cost of living allowance is equal to the ad-hoc cost of living allowance for Indiana PERE

Contribution Rates

Employer rates are determined by an actuary.

*The Legislators' Retirement System also includes a defined contribution fund available to all legislators of the State of Indiana who were serving in the general assembly on or after April 30, 1989. Members contribute 5% of their annual salary. Employers contribute 20% of their members' annual salaries for service after June 30, 1989.

INDEPENDENT AUDITORS' OPINION ON GENERAL PURPOSE FINANCIAL STATEMENTS

Independent Auditors' Report

TO: THE OFFICIALS OF THE PUBLIC EMPLOYEES' RETIREMENT FUND BOARD OF TRUSTEES

We have audited the accompanying general purpose financial statements of the Public Employees' Retirement Fund Board of Trustees, as of and for the year ended June 30, 2001. These financial statements are the responsibility of the Public Employees' Retirement Fund Board of Trustees' management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the various funds of the Public Employees' Retirement Fund Board of Trustees, as of June 30, 2001, and the results of its operations of such funds for the year then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The Schedule of Funding Progress, Schedule of Employer Contributions, the Notes to Required Supplemental Schedules and Schedule of Administrative Expenses are presented for purposes of additional analysis and are required disclosures for the Public Employees' Retirement Fund Board of Trustees. This information, and not the information in the Introductory, Investment, Actuarial, and Statistical sections, has been subjected to auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the fund types and included in the financial statements taken as a whole. We express no opinion on the information in the Introductory, Investment, Actuarial, or Statistical sections.

Notes to General Purpose Financial Statements

June 30, 2001

Note 1. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by PERF:

(A) Reporting Entity

The Public Employees' Retirement Fund (PERF) Board of Trustees is an independent body corporate and politic exercising essential government functions. The financial statements presented in this report present only those funds that the PERF Board has responsibility for and are not intended to present the financial position or results of operations of the State of Indiana or all of the retirement and benefit plans administered by the State. Although PERF is not a state agency it is a component unit of the State of Indiana for financial statement reporting purposes.

The following funds are included in the financial statements: Public Employees' Retirement Fund, Judges' Retirement System, Excise Police and Conservation Enforcement Officers' Retirement Fund, 1977 Police Officers' and Firefighters' Pension and Disability Fund, Legislators' Defined Contribution Fund, Legislators' Defined Benefit Fund, Prosecuting Attorneys' Retirement Fund, Pension Relief Fund, Public Safety Officers' Special Death Benefit Fund, and the State Employees' Death Benefit Fund. See Notes 2 and 3 for descriptions of these funds.

(B) Basis of Presentation

The financial statements of the PERF Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for established governmental accounting and financial reporting principles. GASB Statement 25 has been implemented for the defined benefit pension plans.

(C) Fund Accounting

PERF uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue fund), the servicing of general long-term debt (debt service funds), and the acquisition or construction of general fixed assets (capital projects funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or government (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governmental units, or on behalf of other funds within the same governmental unit. When these assets are held under the terms of a formal trust agreement, either a pension trust fund, a nonexpendable trust fund or an expendable trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the government is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that government holds on behalf of others as their agent.

The PERF Board has three special revenue funds and seven pension trust funds. For descriptions of these funds see Notes 2 and 3. The PERF Board also has general fund accounts on the Auditor of State's accounting system. These are used to transfer general fund appropriations to certain funds. The accounts themselves are not included in these financial statements but the appropriations are included as contributions in the funds for which the appropriations were made.

(D) Basis of Accounting

The records of this agency are maintained on a cash basis. The modified accrual basis and accrual basis is used for reporting purposes.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. Within this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds, nonexpendable trust funds and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included in the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statement presents increase (i.e., revenue) and decrease (i.e., expenses) in net total assets.

The modified accrual basis of accounting is used by all governmental fund types, internal service funds, expendable trust funds, and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available"

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

(E) Budgets

A budget for the administrative expenses is prepared and approved by the Board of Trustees.

(F) Deposits and Investments

The Treasurer of State acts as the official custodian of the cash and securities of the funds, except for securities held by banks or trust companies under custodial agreements with the Board of Trustees. The Board of Trustees contract with investment counsel, trust companies, or banks to assist the Board in its investment program. The Board is required to diversify investments in accordance with prudent investment standards. Investment guidelines, issued by the Board, contain limits and goals for each type of investment portfolio and specify prohibited transactions. The investment guidelines authorize investments of: U.S. Treasury and Agency obligations, U.S. Government Securities, corporate bonds, notes and debentures, common stocks, repurchase agreements secured by U.S. Treasury obligations, mortgage securities, commercial paper, banker's acceptances, and other such investments.

(G) Method Used to Value Investments

GASB 25 requires that investments of defined benefit plans be reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair value. The buildings purchased as investments by the Public Employees' Retirement Fund (PERF) are reported at cost as there has not been a recent independent appraisal. The buildings are immaterial to total investments by PERF.

(H) Investment Unit Trust Accounting

In order to provide a consolidated rate of return for the pension funds, and effectively invest in a diversified manner, the Board of Trustees directed that investment unit trust accounting be implemented and that the investments be commingled as allowed by state statutes. Unit trust accounting involved assigning units to each fund based on the share of the fund's investment fair value to the total fair value of the consolidated investments. The custodian bank prepares consolidated bank statements and fund statements that show the unit trust accounting activity. Investment earnings and appreciation increased the per unit value of all participating

funds. Deposits and withdrawals for each fund change the number of units held by each fund. These changes are recorded at the unit value on the transaction date. Investment earnings and fees for the total consolidated fund are allocated to each of the pension funds on a monthly basis using the pro rata fair value share at month end.

The consolidated fund is an internal investment pool as defined by GASB. It is comprised of investment bank accounts that are maintained individually for each of the contracted investment managers. The consolidated fund included all investments and transactions of the pension funds, except for two short-term investment accounts for building maintenance and checking. The non-pension funds administered by PERF were excluded from the consolidated fund.

In accordance with GASB criteria for internal investment pools, the assets and liabilities of the consolidated investment fund were allocated pro rata to each of the pension funds within the pool. This includes cash equivalents, securities lending collateral, accounts receivable and payable to brokers, accrued interest, and the investment holdings. The financial statements recognize the investment purchases and sales on the trade date as required by GASB.

Effective October 1, 1998, the PERF members' directed annuity savings accounts were implemented in accordance with statute and Board directives. The PERF members' directed annuity savings for the bond index, 500 stock index, and small cap stocks were included with those portfolios maintained for the consolidated fund investments. The unit trust method is used to separately account for the transactions and balances owned by the consolidated fund and that owned by the PERF member annuity savings. This was also implemented and accounted for through the custodian bank.

(I) Real Estate Investment

PERF does not recognize depreciation on the buildings owned at 125 and 143 West Market Street, Indianapolis, or the fixed assets relating to the buildings' operations, as they were purchased for investment purposes.

(J) Equipment

Equipment with a cost of \$5,000 or more is capitalized at the original cost and depreciation is recognized in the Administration Expenses. Depreciation is computed on the straight-line method over the estimated ten-year life of all assets.

(K) Contributions Receivable

Contributions are considered due when the payroll is issued. Employers are not required to submit the contributions until the month following the end of the quarter.

The estimates for contributions received for each of the retirement funds were determined on the basis that best represents that fund's receivable. The different bases include actual third quarter contributions received during the quarter ended June 30, 2001, actual

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

contributions received in July for workdays in June, or a combination of the two. Legislators receive the majority of their pay in January and February and the contributions are transferred on the pay dates. Therefore, no receivable is established for the legislators' retirement funds.

(L) Due From Lottery Commission

This receivable is based on Indiana Code 4-30-16-3(2) that requires the Lottery Commission to transfer to the Treasurer of State for deposit into the Pension Relief Fund \$7,500,000 of the surplus revenue before the last business day of January, April, July, and October. The Generally Accepted Government Accounting Standards' definitions relating to receivables for special revenue funds include being measurable and available.

(M) Inventories

Inventories of consumable supplies are not recognized on the balance sheet since they are considered immaterial. Purchases of consumable supplies are recognized as expenses at the time of purchase.

(N) Reserves and Designations

The following are the legally required reserves and other designations of fund equity:

1. Member Reserve – The members' reserve represents member contributions made by or on behalf of the employee plus any interest distributions, less amounts refunded or transferred to the Benefits in Force reserve for retirement, disability, or other benefit. For PERF this reserve is the employee's annuity savings account. Member Reserves are fully funded.

2. Benefits in Force – This reserve represents the actuarially determined present value of future benefits for all members who are presently retired or disabled. The accumulated contributions of the members are transferred to the reserve upon retirement or disability. The remainder of the actuarial pension cost is transferred from the employer reserve to fund the benefits. The reserve is fully funded based on the last actuarial evaluation.
3. Employer Reserve – This reserve consists of the accumulated employer contributions plus earnings distributions less transfers made to the benefits in force reserve of the actuarial pension cost. The reserve is fully funded based on the last actuarial evaluation.
4. Undistributed Investment Income Reserve – This reserve was credited with all investment earnings. Interest transfers have been made annually to the other reserves as allowed or required by the individual funds' statutes. The transfers are at rates established by the Board of Trustees, statutes, or in amounts that equal all investment earnings on a cash basis of accounting, depending on the statutes of the individual funds.
5. Unreserved Fund Balance – This reserve represents the unfunded actuarial accrued liability for non-retired participants, determined by the fund's actuary, as of the date of the last valuation. (A positive number represents that the fund is fully funded.)

The following are the balances of the reserves and designations of fund equity:

<i>(Dollars in Thousands)</i>	Member Reserve	Employer Reserve	Benefits In Force	Undistributed Income	Unreserved Fund Balance
Public Employees' Retirement Fund	\$ 1,728,972	\$ 4,516,889	\$ 2,406,897	\$ (865,044)	\$ 567,771
1977 and 1985 Judges' Retirement System	15,661	87,486	87,799	–	(78,715)
Excise Police & Conservation Enforcement Officers' Retirement Fund	3,026	32,025	14,569	(1,412)	(11,904)
1977 Police Officers' and Firefighters' Pension and Disability Fund	251,435	938,393	341,855	1,610	–
Legislators' Retirement System- Defined Benefit Plan	N/A	3,356	2,053	–	(896)

Prosecuting Attorneys' Retirement Fund	8,203	5,366	1,878	(454)	(4,162)

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

(O) Payables and Liabilities

Payables and liabilities are not maintained on the accounting records. They are calculated or estimated for financial statement reporting purposes.

(P) Compensated Absences

PERF's full-time employees are permitted to accumulate earned but unused vacation and sick pay benefits. Vacation leave accumulates at the rate of one day per month and sick leave at the rate of one day every two months plus an extra day every four months. Bonus vacation days are awarded upon completion of five, ten and twenty years of employment with the State of Indiana. Personal leave days are earned at the rate of one day every four months; any personal leave accumulated in excess of three days automatically becomes part of the sick leave balance. Upon separation from service, employees in good standing will be paid for a maximum of thirty unused vacation leave days.

No liability is reported for unpaid accumulated sick leave. Vacation and personal leave and the salary-related payments that are expected to be liquidated are reported as Compensated Absences Liability.

(Q) Administrative Expenses

The Public Employees' Retirement Fund pays all the administrative expenses of all the funds. Records are kept on the expenses and at June 30 a receivable is established on PERF's financial statements and a payable on the other funds' statements for the amount due to PERF for the other funds' administrative expenses. The Legislators' Defined Contribution Fund is not provided funds or a method to pay administrative expenses. Therefore, the Legislators' Defined Benefit Fund covers the administrative costs of both funds. Administrative expenses are paid from investment earnings.

(R) Memorandum Only – Total Columns

Total columns on the combined financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns is not meant to present the financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

Note 2. Retirement Plans

The following is a brief description of each of the retirement funds and plans:

(A) Public Employees' Retirement Fund

The Public Employees' Retirement Fund (PERF) is an agent multi-employer Public Employee Retirement System and a defined benefit plan that acts as a common investment and administrative agent for units of state and local governments in Indiana. Established by the legislature in 1945 and governed by IC 5-10.2 and IC 5-10.3, this trust fund provides a retirement program for most officers and employees of the State of Indiana who are not eligible for another program.

The Fund also covers many officers and employees of municipalities of the State, including counties, cities, towns, townships, and school corporations. The political subdivisions become participants by ordinance or resolution of the governing body, which specifies the classifications of employees who will become members of the Fund, and is filed with and approved by the PERF Board of Trustees. In order to be a member, employees hired after June 30, 1982 must occupy positions normally requiring performance of service of one thousand hours during a year. School corporation employees, however, as well as those hired before July 1, 1982 must occupy positions requiring service of six hundred hours during a year.

At June 30, 2001, the number of participating political subdivisions was 1,037. PERF membership at July 1, 2000 consisted of:

Retirees, disabilitants, and beneficiaries receiving benefits	49,305
Terminated employees entitled to benefits but not yet receiving them	8,368
Active employees: vested and non-vested	<u>146,613</u>
Total	<u>204,286</u>
Total covered payroll (in thousands)	<u>\$ 3,482,453</u>

The PERF retirement benefit consists of the sum of a pension provided by employer contribution plus an annuity provided by the amount credited to the member in the annuity savings account. The mandatory employer contribution is a percentage of payroll, determined by PERF's actuary, necessary to fund the pension benefit in accordance with IC 5-10.2-2-11. The annuity savings account consists of member's contributions set by statute at three percent of compensation, plus the interest credited to the member's account. The employer may elect to make these contributions on behalf of the member.

At retirement a member may choose to receive a lump sum payment of the amount credited to the member's annuity savings account instead of the annuity. The annuity savings account may be withdrawn at any time should an employee terminate employment prior to retirement. All benefits vest after ten years of creditable service. When benefit rights are vested, employees may retain them even if they withdraw from active service before normal retirement age.

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

A member who has reached age sixty-five and has at least ten years of creditable service is eligible for normal retirement and, as such, is entitled to one hundred percent of the pension benefit component. This annual pension benefit is equal to 1.1 percent times the average annual compensation times the number of years of PERF covered employment. The average annual compensation in this calculation is an average of the employee's highest twenty calendar quarters' salaries during his PERF covered employment. Employer paid employee contributions and severance pay up to \$2,000 are included as part of the member's salary.

A member who has reached at least age fifty and has fifteen years of creditable service is eligible for early retirement with a reduced pension, ranging from forty-four percent to ninety-nine percent of the pension benefit described above. However, a member who is at least fifty-five years old and the member's age plus number of years of PERF covered employment is at least eighty-five is entitled to 100 percent of the benefits as defined in the preceding paragraph.

PERF also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the member has qualified for Social Security disability benefits and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. Upon the death in service of the member with fifteen or more years of creditable service a survivor benefit may be paid to the spouse or designated dependent beneficiary. This payment is equal to the benefit which would have been payable to a beneficiary if the member had retired at age fifty or at his death, whichever is later, under an effective election of the joint and survivor option available for retirement benefits.

(B) Judges' Retirement System

The Judges' Retirement System is a single employer Public Employee Retirement System and a defined benefit plan, established by the Acts of 1953, Chapter 157, as amended, and is governed by IC 33-13-8. Coverage is for any person who has served, is serving or shall serve as a regular judge of the Supreme Court of the State of Indiana, Circuit Court of any Judicial Circuit, Indiana Tax Court, or County Courts including: Circuit, Superior, Criminal, Probate, Juvenile, Municipal, and County Court. IC 33-13-10.1 applies to judges beginning service after August 31, 1985.

Retirement, permanent disability, and death benefits are provided by the Judges' Retirement System. Retirement benefits vest after eight years of creditable service. Judges who retire at or after age sixty-five with eight years of creditable service are entitled to an annual retirement annuity, payable monthly for life, in an amount calculated in accordance with statutes.

A reduced amount is paid for early retirements that may be selected upon attainment of age sixty-two. There is no vesting requirement for permanent disability benefits. Surviving spouses or dependent

children are entitled to benefits for life, or until attainment of age eighteen, if the participant had qualified to receive a retirement or disability annuity or had completed at least ten years of service and was in service as a judge.

At July 1, 2000 membership consisted of:

Retirees, disabilitants, and beneficiaries receiving benefits	228
Terminated employees entitled to benefits but not yet receiving them	17
Active employees: vested and non-vested	<u>336</u>
Total	<u>581</u>
Total covered payroll (in thousands)	<u>\$ 30,428</u>

Member contributions are established by statute at six percent of total statutory compensation that is deducted from the member's salary or paid by the employer, and is remitted by the Auditor of State or County Auditor. However, no contribution is required and no such amounts shall be paid on behalf of any participant for more than twenty-two years.

Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the State's General Fund. Indiana Code 33-13-8-16(a)(1) provides that this appropriation only include sufficient funds to cover the aggregate liability of the fund for benefits to the end of the biennium, on an actuarially funded basis. The statutes also provide for remittance of docket fees and court fees. These are considered employer contributions.

(C) Excise Police and Conservation Enforcement Officers' Retirement Fund

The Excise Police and Conservation Enforcement Officers' Retirement Fund (E&C) was created by Public Law 1, Acts of 1972 and is controlled by IC 5-10-5.5 as amended. The retirement fund is a single employer defined benefit plan. The retirement fund is for employees of the Indiana Department of Natural Resources and the Indiana Alcoholic Beverage Commission who are engaged exclusively in the performance of law enforcement duties.

The E&C Fund provides retirement, disability, and survivor benefits. Retirement survivor benefits vest after fifteen years of creditable service. Each participant is required to retire on or before the first day of the month following the participant's sixtieth birthday. A participant who is at least fifty-five years of age and the sum of the participant's years of creditable service and age in years equals at least eighty-five may retire and become eligible for benefits. A step rate benefits formula specified by statute is used to calculate benefits that are payable monthly for life. A reduced benefit is provided for early retirements that are elected upon attainment of age forty-five with fifteen years of creditable service. Surviving parents or the spouse are entitled to benefits for life generally equal to fifty percent of the amount the participant would have received if retired. Any surviving spouse who had benefits terminated due to remarriage shall be reinstated on June 1, 1997. Surviving

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

unmarried children are entitled to benefits equal to their proportionate share of the amount the participant would have received if retired. This benefit will continue until the child reaches eighteen years of age or marries.

There is no vesting requirement for entitlement to the plan's permanent and temporary disability benefits. The benefit amount is greater if the disability arose in the line of duty. The benefit is based upon the participant's monthly salary times the degree of impairment as determined by the disability medical panel, established in accordance with statute.

Members are required by statute to contribute three percent of the first \$8,500 of annual salary to the fund. If an employee leaves covered employment or dies before fifteen years of credited service, accumulated employee contributions plus interest, as credited by the Board of Trustees, are refunded to the employee, designated beneficiary, or the member's estate. The State of Indiana, as the employer, is required by statute to contribute the remaining amount necessary to actuarially finance the coverage.

At July 1, 2000 the E&C fund's membership consisted of:

Retirees, disabilitants, and beneficiaries receiving benefits	119
Terminated employees entitled to benefits but not yet receiving them	-
Active employees: vested and non-vested	261
Total	<u>380</u>
Total covered payroll (in thousands)	<u>\$ 11,306</u>

(D) 1977 Police Officers' and Firefighters' Pension and Disability Fund

The 1977 Police Officers' and Firefighters' Pension and Disability Fund is a defined benefit, multiple employer, cost-sharing Public Employee Retirement System. The fund was established in 1977 by IC 36-8-8 to provide coverage to full-time sworn officers of a police force of an Indiana city or town and full-time firefighters employed by an Indiana city, town, township, or county.

A participant is required by statute to contribute six percent of a first-class patrolman or firefighter's salary for the term of his employment up to thirty-two years. The accumulated value of the member's contribution, including interest, may be withdrawn if the employee terminates employment prior to completing twenty years of service. Employer contributions are determined by the fund's actuaries.

An employee who retires at or after the age of fifty-two with twenty years of service is entitled to fifty percent of the prevailing salary of a first-class officer, as defined by the local unit, plus one percent for each six-month period over twenty years. The maximum benefit is seventy-four percent of the salary of a first class-officer. The plan also contains disability and survivor benefits. Benefit calculations are as specified by state statute.

The fund also provides disability and survivor benefits. If an active fund member has a covered impairment the member is entitled to receive benefits. The statutes define the disability benefits. The benefits may be based on when the member was first hired, the type of impairment, and other factors.

If a member dies while receiving retirement or disability benefits, there are provisions for the surviving spouse and children to receive a portion of the benefits. Each of the member's surviving children is entitled to a monthly benefit equal to twenty percent of the member's monthly benefit until the age of eighteen. The member's surviving spouse is entitled to a monthly benefit equal to sixty percent during the spouse's lifetime. If there is no eligible surviving spouse or children, a dependent parent or parents may receive fifty percent of the fund member's monthly benefit during their lifetime.

At June 30, 2001, the number of participating employer units totaled 153 (244 police and fire departments). Membership of the fund at January 1, 2000 consisted of:

Retirees, disabilitants, and beneficiaries receiving benefits	1,646
Terminated employees entitled to benefits but not yet receiving them	122
Active employees: vested and non-vested	<u>9,729</u>
Total	<u>11,497</u>
Total covered payroll (in thousands)	<u>\$ 352,377</u>

Indiana Code 36-8-8-9 was amended effective July 1, 1998 allowing firefighters and police officers who converted their benefits from a 1925, 1937, or 1953 fund and either were retired or disabled on or before June 30, 1998 to be entitled to receive benefits under the 1977 fund using the 1977 fund's eligibility criteria. The employee is then considered a member of the 1977 fund for the purposes of paying benefits to him effective for benefits paid on or after October 1, 1998. Due to this law change, 1,256 retirees became a part of the 1977 fund.

(E) Legislators' Retirement System

The Legislators' Retirement System was created by Public Law 6, Acts of 1989 (IC 2-3.5). The retirement system is for the members of the General Assembly of the State of Indiana.

The Legislators' Retirement System is comprised of two separate and distinct plans. The Legislators' Defined Benefit Plan (IC 2-3.5-4) applies to each member of the General Assembly who was serving on April 30, 1989 and files an election under IC 2-3.5-3-1(b). The Legislators' Defined Contribution Plan (IC 2-3.5-5) applies to each member of the General Assembly who was serving on April 30, 1989 and files an election under IC 2-3.5-3-1(b), and each member of the General Assembly who is elected or appointed after April 30, 1989.

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

Legislators' Defined Contribution Plan

A participant of the Legislators' Defined Contribution Plan who terminates service as a member of the General Assembly is entitled to withdraw both the employee and employer contributions. The amount available for withdrawal is the fair market value of the participant's accounts on the June 30 preceding the date of withdrawal plus employee contributions deducted since June 30 preceding the date of withdrawal. The withdrawn amount can be paid in a lump sum or as an actuarially equivalent monthly annuity as offered by the Board of Trustees and elected by the participant.

If a participant dies while a member of the General Assembly or after terminating service as a member, but prior to withdrawing from the plan, the participant's account is to be paid to the beneficiary (or beneficiaries) or to the survivors. The amount to be paid is the fair market value of the participant's accounts (employer and employee contributions) on June 30 preceding the date of payment, plus employee contributions deducted since June 30 preceding the date of payment.

Each participant shall make contributions of five percent of salary received for services rendered after June 30, 1989. Contributions are credited on the June 30 following their deduction. Contributions equal to twenty percent of the annual salary received by each participant for services rendered after June 30, 1989 are to be appropriated from the state's General Fund.

Legislators' Defined Benefit Plan

The Legislators' Defined Benefit Plan provides retirement, disability, and survivor benefits. A participant is entitled to a monthly retirement benefit if the participant is at least sixty-five years of age (fifty-five years for reduced benefits) or is at least fifty-five years of age and whose years of service as a member of the General Assembly plus years of age equal at least eighty-five, or is at least sixty years of age and has at least fifteen years of service; has terminated service as a member of the General Assembly; has at least ten years of service as a member of the General Assembly; and is not receiving, nor entitled to receive, compensation from the state for work in any capacity.

The monthly retirement benefit is the lesser of (1) forty dollars (\$40) multiplied by the total years of service completed by the participant as a member of the General Assembly before November 8, 1989, or (2) the highest consecutive three-year average annual salary of the participant under IC 2-3-1-1 at the date the participant's service as a member of the General Assembly is terminated, divided by twelve.

A participant who has reached at least age fifty-five and meets the other requirements stated above is eligible for early retirement with a reduced benefit. The actual reduction is based on the participant's age and ranges from one-tenth of one percent to fifty-six percent of the monthly retirement as calculated above.

The Legislators' Defined Benefit Plan also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the member has qualified for social security disability and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. Upon the death of a participant who was receiving retirement benefits, or had completed at least ten years of service as a member of the General Assembly, or was permanently disabled and receiving disability benefits from the system, the surviving spouse is entitled to receive survivor benefits. The benefits are for life and are equal to fifty percent of the amount of retirement benefits that: (1) the participant was receiving at the time of death or (2) the participant would have been entitled to receive at fifty-five years of age, or at the date of death, whichever is later. If there is not a surviving spouse, there are provisions for dependents to receive benefits.

The amount required to actuarially fund participants' retirement benefits, as determined by the Board of Trustees on the recommendation of an actuary, is to be appropriated from the state's General Fund for each biennium.

At July 1, 2000 the Legislators' Retirement System's membership consisted of:

	Defined Benefit	Defined Contribution
Retirees, disabilitants, and beneficiaries receiving benefits	32	-
Terminated employees entitled to benefits but not yet receiving them	27	-
Active employees: vested and non-vested	60	179
Total	119	179
Total covered payroll (in thousands)		\$ 3,880

Members of the Defined Benefit Fund may also be a member of the Defined Contribution Fund if they are still a member of the General Assembly or have not withdrawn from the Defined Contribution Fund.

(F) Prosecuting Attorneys' Retirement Fund

The Prosecuting Attorneys' Retirement Fund was created by Public Law 62, Acts of 1989 (IC 33-14-9). The retirement fund is a single employer defined benefit plan. The retirement fund is for individuals who serve as prosecuting attorneys or chief deputy prosecuting attorneys on or after January 1, 1990. These individuals are paid from the General Fund of the State of Indiana.

The Prosecuting Attorneys' Retirement Fund provides retirement, disability, and survivor benefits. A participant is entitled to a retirement benefit if the participant is at least sixty-five years of age

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

(sixty-two years for reduced benefits), has ceased service as a prosecuting attorney, and is not receiving, nor entitled to receive, any salary from the state for services currently performed.

The amount of the annual retirement benefit for a participant who is at least sixty-five years of age is the product of the annual salary that was paid to the participant at the time of separation from service, multiplied by a percentage based on the participant's years of service. The percentages range from thirty percent for ten years of service to sixty percent for twenty-two or more years of service.

If the participant is at least sixty-two years of age, the participant is entitled to receive a reduced annual retirement benefit that equals the benefit as calculated above reduced by one-fourth percent (0.25%) for each month that the participant's age at retirement precedes the participant's sixty-fifth birthday.

Retirement benefits payable to a participant are reduced by the pension, if any, that would be payable to the participant from the Public Employees' Retirement Fund (PERF) if the participant had retired from PERF on the date the participant's retirement from the Prosecuting Attorneys' Retirement Fund occurred. Members of this fund are also participating members of PERF with the State paying the three percent employee contributions.

The Prosecuting Attorneys' Retirement Fund also provides disability and survivor benefits. A participant who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the participant has qualified for Social Security disability benefits and has furnished proof of the qualification. The amount of the annual benefit payable to a participant for disability benefits is equal to the product of the annual salary that was paid to the participant at the time of separation from service multiplied by a percentage based on the

participant's years of service. The percentages range from forty percent for five years of service to fifty percent for twenty or more years of service.

The surviving spouse of a participant who dies is entitled to benefits regardless of the participant's age if the participant was: receiving benefits from this fund, serving as a prosecuting attorney or chief deputy prosecuting attorney and had completed at least ten years of service, or met the requirements for disability benefits.

The surviving spouse is entitled to a benefit for life equal to the greater of seven thousand dollars (\$7,000) or fifty percent of the retirement benefit the participant was drawing at the time of death, or to which the participant would have been entitled, had the participant retired and begun receiving retirement benefits on the date of death, with the reductions as necessary for early retirement. If there is not a surviving spouse, there are provisions for dependents to receive benefits.

All benefits payable from the Prosecuting Attorneys' Retirement Fund are reduced by the amounts, if any, that would be payable if the member had retired from the Public Employees' Retirement Fund.

At July 1, 2000 the Prosecuting Attorneys' Retirement Fund membership consisted of:

Retirees, disabilitants, and beneficiaries receiving benefits	17
Terminated employees entitled to benefits but not yet receiving them	111
Active employees: vested and non-vested	<u>240</u>
Total	<u>368</u>
Total covered payroll (in thousands)	<u>\$ 13,422</u>

Notes to General Purpose Financial Statements

June 30, 2001

(continued)

Note 3. Description of Non-Retirement Funds

The following is a brief description of the Special Revenue funds:

(A) Pension Relief Fund

The Pension Relief Fund was created by the Indiana General Assembly in 1977 (IC 5-10.3-11). The purpose of the fund is to give financial relief to cities' and towns' pension funds for their police officers and firefighters. The financial relief is needed because cities and towns have to pay benefits to retirees under the old plans (locally administered) and adequately fund those in the 1977 Police Officers' and Firefighters' Pension and Disability Fund. The Public Employees' Retirement Fund Board of Trustees makes a distribution twice a year based on a fixed formula.

The fund also pays a lump sum death benefit of \$150,000. The benefit is paid to the surviving spouse or, if there is no surviving spouse, to the surviving children of a member of the 1977 fund who dies in the line of duty as defined by IC 36-8-8-20. If there are no surviving spouse or children, the benefit is paid to the parent or parents in equal shares.

The Pension Relief Fund derives its revenues from a portion of cigarette and alcohol taxes, a portion of the state's lottery proceeds, and the investment income earned. A fixed distribution formula provides for relief payments two times per year. The distribution is based on two separate computations, the "K portion" and the "M portion." The first is based on the number of retirees and amount of benefits paid the previous year, and the latter is based on the maximum ad valorem tax levy established for each participating municipality.

(B) Public Safety Officers' Special Death Benefit Fund

Indiana Code 5-10-10 established the Special Death Benefit Fund. The fund was established for the purpose of paying a lump sum death benefit of \$150,000 to the surviving spouse or children of a public safety officer (as defined by IC 5-10-10-6) who dies in the line of duty. If there are no surviving spouse or children, the benefit is paid to the parent or parents in equal shares. The fund consists of bail bond fees remitted to the Auditor of State under IC 35-33-8-3.1 and investment earnings of the fund.

(C) State Employees' Death Benefit Fund

Indiana Code 5-10-11 established the State Employees' Death Benefit program. The PERF Board of Trustees was given the responsibility to administer the program. Under the program a death benefit of \$50,000 is to be paid to the surviving spouse, or if there is no surviving spouse, to the surviving children (to be shared equally) of a state employee who dies in the line of duty.

The statute did not establish a method to fund the program. It stated that: "The state shall provide these benefits by purchasing group life insurance or by establishing a program of self-insurance." Effective with the state's pay period ended October 23, 1993, the state assessed state agencies 0.1% of gross pay to fund this program. Because of the size of the fund, collection of the assessment ceased November 1999. The fund has refunded \$1,105,790 by transferring that amount to the State Budget Agency.

Note 4. Contributions Required and Contributions Made

The following is a brief description of the contributions required and the contributions made to each of the retirement funds and plans:

(A) Public Employees' Retirement Fund

The state of Indiana and any political subdivision that elects to participate in the PERF fund is obligated by statute to make contributions to the plan. The required contributions are determined by the Board of Trustees based on actuarial investigation and valuation. PERF funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension portion of the retirement benefit (normal cost) and the amortization of unfunded liabilities. The amortization period is forty years for those employers whose effective date of participation is prior to 1997. The amortization period for employers joining thereafter will be reduced 1 year per year until 2007 when it will be leveled at 30 years.

The actuarial cost method used in the valuation is the entry age normal cost method in accordance with IC 5-10.2-2-9. Under this method as supplied to the Public Employees' Retirement Fund, a normal cost is determined for each active participant which is the level percentage of his compensation needed as an annual contribution from entry age to retirement age to fund this projected benefits.

The unfunded actuarial accrued liability on any valuation date is the accumulated value of such normal costs for each non-retired participant from entry date to the valuation date less the value of assets for non-retired members at that date. This unfunded actuarial liability is compared to the expected unfunded actuarial accrued liability, which is determined as the prior valuation unfunded liability reduced by scheduled amortization payments and increased by interest at the actuarially assumed rate. Any changes between the actual liability and expected liability due to changes in benefit levels (excluding Cost-of-Living Adjustments), changes in actuarial gains or losses are amortized over a forty year period (to be reduced to 30 years by 2007, see above) from the date of change.

Notes to General Purpose Financial Statements

June 30, 2001
(continued)

The actuary calculates the net assets using an asset smoothing method for the determination of the employer actuarially required contribution. Under the smoothing method asset gains or losses above or below the actuarially assumed rate of 7.25% are recognized over a four-year period. A given year's asset gain or loss will be fully recognized by the end of the fourth succeeding year.

Based on the actuarial valuation at July 1, 2000, employer actuarially required contributions were \$201,200,266 normal cost and a \$31,826,401 negative amount for amortization of the unfunded actuarial accrued liability. Contributions made by employers for the year ended June 30, 2001 totaled \$187,758,669, which was 5.39% of anticipated covered payroll.

The required contribution levels are determined under the assumption that a Cost-of-Living Adjustment (COLA) will be granted in each future year, applying not only to current retirees, but also to active employees who have yet to retire. Thus, the full effect of the COLA is handled on a pre-funded basis.

(B) Judges' Retirement System

Contribution requirements for the Judges' Retirement System are not actuarially determined but are established by statute (IC 33-13-8-16(a)) and appropriations. The actuarial valuation suggested that the minimum contribution for 1999 was 37.1% of anticipated payroll.

(C) Excise Police and Conservation Enforcement Officers' Retirement Fund

The funding policy of the Excise Police and Conservation Enforcement Officers' Retirement Fund provides for biennial appropriations authorized by the Indiana General Assembly, which when combined with anticipated member contributions are sufficient to actuarially fund benefits (normal cost), amortize the unfunded accrued liability over thirty years, and prevent the state's unfunded accrued liability from increasing. The funding policy is defined by state statutes. Member contributions, defined by statute as three percent of the first \$8,500 of annual salary, are remitted to the fund upon each payroll deduction.

Significant actuarial assumptions used to determine contribution requirements included: rate of return on the investment of present and future assets of 7.25% per year, compounded annually; projected salary increases of 5.0% per year, compounded annually; and assets valued by smoothed basis.

(D) 1977 Police Officers' and Firefighters' Pension and Disability Fund

The funding policy mandated by statute requires quarterly remittances of member and employer contributions based on percentages of locally established estimated salary rates, rather than actual payroll. The member contribution rate is not actuarially determined, but was established by statute at six percent of the salary of a first-class officer.

The employer contribution rate is actuarially determined using the entry age normal cost method. The total required to actuarially fund normal cost is reduced by the total estimated member contributions.

As the 1977 Police Officers' and Firefighters' Pension and Disability Fund is a cost sharing system, all risks and costs, including benefit costs, are shared proportionally by the participating employers. All participating employers were required to contribute twenty-one percent of the salary of a first-class officer or firefighter during the fiscal year ended June 30, 2001.

The significant actuarial assumptions used to compute the actuarially required employer contribution include: investment earnings of 7.5% per year compounded annually; salary increases of 5% percent per year; benefit increases of 3% percent per year while the benefit is in payment status; and no recoveries from disabilities.

(E) Legislators' Retirement System

For the Legislators' Defined Contribution Plan, each participant is required to contribute five percent of his salary and the State of Indiana is required to contribute twenty percent of the participant's annual salary on behalf of each participant. For the year ended June 30, 2001, \$954,471 was contributed by or for the participants.

For the Legislators' Defined Benefit Plan, the amount required to actuarially fund participants' retirement benefits, as determined by the Board of Trustees on the recommendation of an actuary, is to be appropriated from the state's General Fund.

(F) Prosecuting Attorneys' Retirement Fund

The amount required to actuarially fund participants' retirement benefits, as determined by the Board of Trustees on the recommendation of an actuary, is to be appropriated from the state's General Fund.

Notes to General Purpose Financial Statements

Note 5. Deposits and Investments

The cash deposits with financial institutions at year end were entirely insured.

Investments are categorized to give an indication of the level of custodial risk assumed. **Category 1** includes investments that are insured or registered or for which the securities are held by PERF or its agent in PERF's name. **Category 2** includes uninsured and unregistered investments for which the securities are held by the broker's or dealer's trust department or agent in PERF's name. **Category 3** includes uninsured and unregistered investments for which the securities are held by the broker or dealer, or by a trust department or agent, but not in PERF's name.

Underlying securities to the collateral reported on the financial statements are not classified by category of custodial risk, but are presented by type of investment as held by broker dealer under securities loans.

The following are the investments (including cash equivalents) held by the funds at June 30, 2001:

(Dollars in Thousands)	Category			Total Fair Value

Securities Lending

Indiana Code 5-10.2-2-13(d) provides that the Board of Trustees may authorize a custodian bank to enter into a securities lending program agreement under which securities held by the custodian on behalf of the fund may be loaned. The purpose of such a program is to provide additional revenue for the fund.

Statute requires that collateral initially in excess of the total market value of the loaned securities must be pledged by the borrower, and must be maintained at no less than the total market value of the loaned securities. The Board requires that collateral securities and cash be initially pledged at 102 percent of the market value of the securities lent. No more than 40 percent of the Funds total assets may be lent at one time. The types of securities lent during the year included U.S. Treasury and agency notes, common stock, corporate bonds, and foreign bonds. Asset-backed and mortgage securities were generally not subject to security loans. The custodian bank and/or its securities lending subagents

Notes to General Purpose Financial Statements

June 30, 2001

(continued)

provide 100 percent indemnification to the Board and the Fund against borrower default, overnight market risk, and fails on the return of loaned securities. Securities received as collateral cannot be pledged or sold by the Board unless the borrower defaults. The Fund retains the market value risk with respect to the investment of the cash collateral. Cash collateral investments were subject to the investment guidelines specified by the Board. The Board policy includes that the maximum weighted average days to maturity may not exceed sixty. The securities lending agents match the maturities of the investments of cash collateral for the securities loans with stated termination dates. Cash collateral received for open-ended loans that can be terminated on demand are invested with varying maturities.

In the preceding schedule of custodial credit risk, the securities lent at year-end for cash collateral are not classified as to their custodial credit risk. Securities lent for securities collateral are classified according to the category for the collateral.

At fiscal year end, the fund has no credit risk exposure to borrowers because the amount the fund owes the borrowers exceeds the amount the borrowers owe the fund.

Note 6. Annuity Savings Account

Per Indiana Code 5-10.2-2-3, members of the Public Employees' Retirement Fund may select how their annuity savings account is invested. If the Guaranteed Fund is selected, the member's account earns interest at the rate determined by the Board of Trustees. For the other options (Bond Fund, Money Market Fund, Small Cap, and Index 500) the member earnings (or loss) are based on the change in fair value on the investments in that fund. This chart shows the earnings for the fiscal year and the fair value at June 30, 2001 for the investment options. These amounts are included in the investment income and investments at June 30 on the financial statements.

<i>(Dollars in Thousands)</i>	Bond Fund	Money Market	Small Company Stock Fund	S&P 500 Index Fund
Investment Income (Loss)	\$ 1,556	\$ 490	\$ 21,622	\$ (38,290)
Fair Value at June 30	19,885	9,792	92,337	206,807

Note 7. Risk Management

The Public Employees' Retirement Fund is exposed to various risks of loss. These losses include damage to property owned, personal injury or property damage liabilities incurred by an officer, agent or employee, malfeasance and theft by employees, certain employee health and death benefits, and unemployment and worker's compensation costs for employees.

The PERF's policy is generally not to purchase commercial insurance for the risk of losses to which it is exposed. Instead, it records as an expenditure any loss as the liability is incurred or replacement items are purchased. The PERF Board of Trustees does purchase a limited amount of insurance to limit the exposure to errors and omissions. The PERF Board of Trustees administers the State of Indiana's risk financing activity for the state employees' death benefits. Other risk financing activities for the state are administered by other agencies of the state.

Note 8. Reclassification

The State Employees' Death Benefit Fund was reclassified from an Internal Service Fund to a Special Revenue Fund when Public Employees' Retirement Fund became an independent body corporate and politic.

Report on Investment Activity

William M. Mercer, Incorporated
10 South Wacker Drive
Suite 1700
Chicago, IL 60606

August 28, 2001

Dear Trustees:

William M. Mercer Investment Consulting, Inc. is pleased to provide the following summary of investment results for the State of Indiana Consolidated Retirement Investment Fund (CRIF) within the Public Employees' Retirement Fund of Indiana for fiscal year ended June 30, 2001. The CRIF was created in order to allow each of six separately managed pension plans the ability to share in the investment returns of the combined portfolio. Each plan owns a portion of the pooled assets in the CRIF

As of June 30, 2001, the CRIF had a \$9.6 billion market value. It decreased by \$0.2 billion since June 30, 2000, which was largely due to negative equity markets during the twelve-month period, which offset net contributions and income.

The twelve-month period ended June 30, 2001 was marked by volatility within equity markets worldwide, while bond markets performed well.

- Growth strategies, which dominated the equity markets in the late 1990s, underperformed their value counterparts by wide margins. Small capitalization stocks outpaced their large capitalization counterparts with the Russell 2000 Index posting a 0.6 percent return, while the S&P 500 Index declined 14.8 percent.
- Amidst equity market uncertainty, domestic bonds performed well. The Lehman Brothers Aggregate Index returned 11.2 percent during the twelve-month period, as investors fled the equity markets for the relative safety of bonds.
- Developed international markets, as measured by the EAFE Index, fell 23.3 percent, underperforming the domestic market, due largely to a strong U.S. dollar. Within the international equity markets, as in the United States, value-oriented sectors outperformed growth sectors, such as technology, media, and telecommunications (TMT). After a strong 1999, emerging markets participated in the global slowdown, declining 25.8 percent in U.S. dollar terms, largely due to performance in the second half of 2000.

Within this economic backdrop, the CRIF returned -2.51 percent during the year ending June 30, outpacing its Index benchmark. In addition, the CRIF performed well relative to other public funds, as measured by the Russell/Mellon Public Fund Universe, which averaged a -6.6 percent return over the trailing one-year period. While the CRIF did not meet its actuarial assumed rate of return of 7.25 percent, relative performance remained strong amidst significant equity market volatility, due largely to the fixed income allocation, coupled with above-benchmark equity performance. Over the trailing three-year period, the CRIF surpassed its Index benchmark.

The domestic equity portfolio returned -10.98 percent during the year ending June 30, surpassing both the Russell 3000 Index return of -13.9 percent and the S&P 500 Index return of -14.8 percent. Domestic equity performance was primarily enhanced by strong performance by the small capitalization portion of the portfolio. Over the trailing three-year period, the domestic equity portfolio again outpaced its Index benchmarks, primarily due to small capitalization equity performance.

The CRIF fixed income portfolio returned 11.56 percent during the one-year period, exceeding the 11.2 percent Lehman Brothers Aggregate Index return. Performance over longer time periods was similar. One-year performance was augmented by the active fixed income managers, which generally overweighed Corporate and mortgage-backed securities within their portfolios, and benefited from spread narrowing versus similar maturity U.S. Treasuries. More recently, the allocation to Treasury Inflation Protected Securities (TIPS), which commenced in December 2000, added to results.

Report on Investment Activity

(continued)

Burnley Associates, Inc. stated that all performance results were calculated in accordance with the Association for Investment Management and Research (AIMR) standards.

The State of Indiana Public Employees' Retirement Fund maintains an appropriately diversified strategy, designed to maximize return with an acceptable risk level. During the last twelve months, the Fund initiated its international equity allocation, and is in the process of funding the remainder. In addition, the Fund continued to assess the domestic equity structure diversification by style and capitalization. The allocation to fixed income and small cap strategies served the Fund well during the past twelve-month period, when large cap equities underperformed. The movement of fixed income from the worst performing asset class in fiscal year 2000 to the best performing asset class in fiscal year 2001 underscores the benefits of diversification as a means for moderating risk. Mercer continues to support the strategic goals of the investment program, the Trustees' continued movement towards more diversified equity strategies, and the level of investment manager due diligence activities.

Sincerely,

William M. Mercer Investment Consulting, Inc.

Stephanie Grieser Braming, CFA

Outline of Investment Policies

The Board of Trustees of the Indiana Public Employees' Retirement Fund (the Fund) is composed of five members, one of whom must be a member of the Fund with at least ten years of service. The Trustees are appointed by the Governor, and serve four-year terms.

Members of the Fund include employees of the State and other school and governmental units who have adopted resolutions joining the Fund. The Trustees are acknowledged fiduciaries to the Fund and operate under the prudent investor standard in overseeing investment activities. As such, the Board must invest Fund assets "with the care, skill, prudence, and diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims."

In addition to their other responsibilities, the Trustees are charged with administering and overseeing the following funds:

- Public Employees' Retirement Fund
- The 1977 Police Officers' and Firefighters' Pension and Disability Fund
- The 1977 and 1985 Judges' Retirement System
- The Legislators' Retirement System
- The Excise Police and Conservation Enforcement Officers' Retirement Fund
- The Prosecuting Attorneys' Retirement Fund

PERF was prohibited from investing in equities prior to the Equity Referendum of 1996. In May of 1997, the PERF Board began re-balancing the portfolio by making its first investment into diversified equity asset classes. PERF is a retirement system of six separately managed pension plans. The Consolidated Retirement Investment Fund (CRIF) was created in order to allow each of those plans the ability to share in the investment returns of equities, and each plan owns a portion of the pooled assets in the general portfolio, or CRIF. As stated in the notes to the Financial Section, the CRIF includes all investments and transactions of the pension funds. The non-pension funds administered by PERF are excluded from the CRIF. A breakdown of each plan's share of the CRIF and the asset allocation of the total portfolio is provided in this section.

The Board has approved a Statement of Investment Policy and corresponding Addenda to the policy, which governs the activities for all assets under the Board's control. The purpose of the investment policy is summarized below:

- Set forth appropriate and prudent investment policies in consideration of the needs of the Fund, legal requirements applicable to the Fund, and to direct investment of the Fund's assets;
- Establish criteria against which the investment managers are to be measured;
- Communicate the investment policies, objectives, guidelines, and performance criteria of the Board to the staff, investment managers, consultants and to all other interested parties;
- Serve as a review document to guide the ongoing oversight of the investment of the Fund; and
- Demonstrate that the Board is fulfilling its fiduciary responsibilities in the management of the investment of the Fund solely in the interests of members and Fund beneficiaries.

The primary objectives of the investment portfolio are to provide a return on Fund assets that, when coupled with the periodic contributions of the membership and employers, will meet or exceed benefit and funding requirements of the Fund. Of primary consideration is the maintenance of funding which is adequate to provide for the payments of the plans' actuarially determined liabilities over time, at a reasonable cost to the members and the taxpayers of the State. In order to determine the appropriate asset allocation of the Fund to meet the objectives described above, the Board periodically conducts asset/liability modeling studies, which ensure that the assets relate appropriately to the liabilities and are adequately diversified.

The Board establishes long-term strategic allocations to the primary asset classes, which are designed to produce the optimal risk/return tradeoff with relation to the Fund's liabilities. The investment portfolio includes long-term commitments to the following asset classes: domestic equity, domestic fixed income, and international equity. The international equity allocation commenced during fiscal year 2001.

The Board employs professional investment managers to invest the Fund's assets. These managers are selected through a thorough manager due diligence search process, which incorporates the State of Indiana's statutory requirements for professional service procurement. In addition, the staff and consultants coordinate search requirements, evaluation standards and analysis of responses for the selection process. It is the Board's intent that the selection process be open to all qualified organizations wishing to participate. Once investment managers have been hired by the Fund, they are expected to comply with stated investment guidelines detailed in the Statement of Investment Policy, which reflect prudent investment standards and diversification requirements. In addition, investment manager performance is measured against applicable market indices, as well as a comparable peer group of managers.

Another unique facet of PERF's investment practice is the Guaranteed Fund. The Guaranteed Fund is the original self-directed investment option for the Annuity Savings Account program within the PERF plan. It provides a guarantee of the value of member contributions to the Fund and a guarantee of the value of any interest credited on these contributions. As set by the PERF Board, the actual investments of the Guaranteed Fund are the same as the general PERF portfolio.

The PERF Board annually establishes the interest crediting rate for the Guaranteed Fund and the rate is related to the actuary's reasonable expectation for long-term investment performance and provides a stable view of earnings potential for the total Fund. The interest crediting rate for the Guaranteed Fund during the last ten years is included in the Investment Highlights on the following page.

Actuary's Certification Letter

McCready and Keene, Inc.
7941 Castleway Drive
PO Box 50460
Indianapolis, Indiana 46250-0460

August 23, 2001

Indiana Public Employees' Retirement Fund
Board of Trustees
143 West Market Street, Suite 500
Indianapolis, IN 46204

Dear Members of the Board:

Certification of Actuarial Valuations

The actuarial data presented in this report describes the current actuarial condition of the defined benefit pension plans (Plans) administered by the Indiana Public Employees' Retirement Fund (PERF). Valuations are prepared annually, as of July 1 for all Plans except the Municipal Police and Fire pension plans which are as of January 1.

Under PERF statutes, employer contribution rates are certified annually for each Plan by the Board of Trustees. These rates are determined actuarially, based on the Board's funding policy. Contribution rates for the PERF Plan as determined by a given actuarial valuation become effective eighteen months after the valuation date. For example, the rates determined by the July 1, 2000 actuarial valuation will be used by the Board when certifying the employer contribution rates for the year beginning January 1, 2002 and ending December 31, 2002. If new legislation is enacted between the valuation date and the date the contribution rates become effective, the Board may adjust the recommended rates before certifying them, in order to reflect this new legislation. Such adjustments are based on information supplied by the actuary.

Funding Objectives and Funding Policy

In setting contribution rates, the Board's principal objectives have been:

- to set rates so that the unfunded actuarial accrued liability (UAAL) will be amortized over a fixed period. The fixed period was formerly 40 years, but is being reduced to 30 years over a 10-year period (to be completed on July 1, 2007), and
- to set rates so that they remain relatively level over time.

To accomplish this, the Board's funding policy requires that the employer contribution rate be equal to the sum of the employer normal cost rate (which pays the current year's cost) and an amortization rate which results in the amortization of the UAAL in equal installments. The Board has adopted smoothing rules to the determination of the employer contribution rate to reduce the variability of these rates.

No membership growth is anticipated in setting the contribution rate. This is consistent with GASB 25, which prohibits anticipating membership growth in determining the minimum Annual Required Contribution (ARC).

Under this policy, the objectives of amortizing the UAAL and maintaining relatively level contribution rates over time are achieved.

Progress Toward Realization of Financing Objectives

The funded ratio (the ratio of the actuarial value of assets to the actuarial accrued liability) is a standard measure of a Plan's funded status. In the absence of benefit improvements, it should increase over time, until it reaches 100%. The funded ratio for all of the PERF Plans have increased over the last few years.

Benefit Provisions

The benefit provisions reflected in this report are those which were in effect on each Plan's valuation date. No material changes have been made to the provisions since the preceding valuation for each Plan.

Assumptions and Methods

Actuarial assumptions and methods used in the valuation are set by the Board, based upon the recommendations of the actuary. The actuary reviews actual plan experience before making these recommendations. The last such review of actuarial assumptions was carried out in connection with the July 1, 1995 actuarial valuation for the PERF Plan and the January 1, 1998 actuarial valuation for the 1977 Municipal Police and Fire pension plan. It is our opinion that the assumptions are internally consistent and are reasonably based on past and anticipated future experience of each Plan.

Data

Member data for retired, active and inactive members was supplied as of each Plan's valuation date by PERF staff. We did not audit this data, but we did apply a number of tests to the data, and we concluded that it was reasonable and consistent with the prior year's data. Asset information, for each Plan was supplied by PERF.

Certification

I certify that the information presented herein is accurate and fairly portrays the actuarial position of each Plan administered by PERF as of each Plan's 2000 valuation date. I prepared the accompanying Summary of Actuarial Assumptions and Methods and the other supporting schedules in this section.

All of my work conforms with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. In our opinion, our calculations also comply with the requirements of Indiana state law and, where applicable, the Internal Revenue Code, Employee Retirement Income Security Act (ERISA), and the Statements of the Governmental Accounting Standards Board. I am an independent Enrolled Actuary and Member of the American Academy of Actuaries and experienced in performing valuations for large public retirement systems.

If you have any questions or require additional information, please don't hesitate to contact me.

Sincerely,

Douglas Todd
A.S.A., M.A.A.A., E.A.
Senior Actuary

Summary of Actuarial Assumptions and Methods

As of July 1, 2000

Note 1: All plans use mortality rates according to 1983 GAM (sex distinct)

Note 2: Actuarial funding for all systems is Entry Age Normal Cost, except Accrued Benefit (Unit Credit) for the Legislators' Defined Benefit Plan.

Note 3: Actuarial asset valuation method is according to example (6) in IRS Regulation 1.412(c)(2)-1(b)(9) for all systems except PERF where valuation assets are equal to 75% of expected actuarial value plus 25% of market value.

1 - Monthly benefit for retiree's life. If retiree receives benefits for at least five years prior to their death, there is no benefit payable to a designated beneficiary. If retiree dies prior to receiving benefits for five years, the beneficiary will receive the remainder of those five years of monthly benefits or the present value of those remaining payments in a lump sum.

2 - Monthly benefit for retiree's life. Upon retiree's death, no benefit payable to beneficiary.

3 - Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives the same monthly benefit for life.

4 - Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives two-thirds of the monthly benefit for life.

5 - Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives one-half of the monthly benefit for life.

6 - Monthly benefit for retiree between ages 50 and 62 who elects to integrate Social Security with the PERF benefit. At age 62, PERF benefit is reduced or terminated depending on the estimated monthly benefit from Social Security at age 62.

7 - Monthly benefit for retiree's life. If retiree dies prior to receiving benefit for five years, beneficiary receives either a monthly benefit of the pension amount only for the remainder of those five years, or the present value of those pension payments in a lump sum. Beneficiary also receives a single payment of any residual balance remaining in retiree's annuity savings account, if not already depleted.

8 - Monthly benefit for retiree's life. Upon retiree's death, surviving spouse entitled to 60 percent of monthly benefit for life, and all surviving children entitled to 20 percent of monthly benefit until the age of 18.

¹ Members may choose to take the distribution of their Annuity Savings Account (ASA) in two ways. This represents those retirees who elected to receive their ASA account as a supplement in addition to their monthly premium benefit.

² Members may choose to take the distribution of their Annuity Savings Account (ASA) in two ways. This represents those retirees who elected to receive their ASA account balance as a total distribution at the time of retirement.

³ Members with less than 10 years of service are receiving a distribution benefit from PERF. This represents those members who are receiving a disability benefit from PERF.

¹ Members with less than 20 years of service are receiving a disability benefit from the 1977 Police Officers' and Firefighters' Pension and Disability Fund. This represents those members who are receiving a disability benefit from PERF. Since January 1, 1990, there are two disability programs under this fund. The original program is available only to members initially hired before January 1, 1990 and who elected not to be covered by the new program. The new program is applicable to all members hired after December 31, 1989. Members deemed qualified under the original program are entitled to a benefit equal to that of a member with 20 years of service at age 55, and subject to annual medical review up to the point the member actually reaches 20 years of service and age 55. The new program has three "classes" of impairment with varied entitlements based on the covered impairment.
