

2010

Comprehensive Annual Financial Report

For the Fiscal Year Ended June 30, 2010

The Public Employees' Retirement Fund is a discretely presented component unit of the state of Indiana.

PERF is a trust and an independent body, corporate and politic. The fund is not a department or agency of the state of Indiana, but is an independent instrumentality exercising essential governmental functions. (Indiana Code Sections 5-10.3-2-1(b) and 5-10.2-2-1).

Letter of Transmittal

Steve Russo
Executive Director

December 28, 2010

Dear Board Members:

It is with pleasure that we present the Comprehensive Annual Financial Report (CAFR) of the Indiana Public Employees' Retirement Fund (PERF) for the fiscal year ended June 30, 2010.

Financial Management: PERF management and staff are very proud to have received an unqualified audit opinion for FY 2010, our fifth consecutive clean opinion. This result is affirmation of PERF's continuing commitment to accurately and completely represent the financial condition of this organization. It is also the end result of PERF's ongoing focus on effective processes and controls and its strong desire to provide its members and employers with the integrity and transparency they deserve in the management of their pension systems.

Five-year Process & Systems Strategic Plan: PERF management continues on our path of improvement with our focus squarely on our mission of Excellence in Customer Service. PERF successfully completed the third year of a five-year process and systems strategic plan it began in 2007. A state-of-the-art financial system is operational and our benefit payment processing has been upgraded. In August 2010, PERF implemented a recordkeeping system to offer its members daily valuation, daily investment election change flexibility, and more fund choices for the ASA accounts. A more user friendly, web-based tool to transact business with our sponsoring employers is planned for 2011 and a more efficient and intuitive benefits administration system is on track for implementation in 2012.

Market Performance: The global economy began to stabilize and financial markets showed signs of recovery in 2010. Within this environment, the Consolidated Retirement Investment Fund (CRIF) gained 13.6% (net of fees), outperforming the portfolio's dynamic benchmark return of 11.7%. PERF was awarded the distinction of Large Public Plan of the Year by a leading financial publication.

Letter of Transmittal, continued

Solid Funding: PERF funds reached an aggregate funded status of 93.5 percent as of June 30, 2009. Nationally, state pension plans were funded at about 80 percent according to the National Association of State Retirement Administrators (NASRA). We are pleased with this overall funded status and continue to work to achieve and maintain full funding.

Customer Service: The PERF team remains committed to continually improve customer service. During the fiscal year, we learned that our customer service scores had improved by more than 25 percent over the past four year period, placing PERF among the top pension plans according to national research. This is the conclusion of a report by CEM Benchmarking, a Toronto-based international pension benchmarking company. The report reflects in-depth research comparing PERF with 35 leading U.S. pension funds.

Accountability and National Excellence: Following this letter you'll see a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA), and an Achievement Award from the Public Pension Coordinating Council (PPCC). The GFOA certification for PERF's 2009 annual report marks the fourth straight year that a PERF annual report has achieved this recognition. The PPCC award recognizes PERF's excellence in meeting professional standards for plan design and administration. This recognition rates PERF's system management and administration among an exclusive handful of public retirement systems in the nation and also marks the fourth consecutive year we have achieved this distinction.

Background Information

As of June 30, 2010, PERF was responsible for the investment of approximately \$14.0 billion in net assets. In total, PERF paid monthly retirement, disability and survivor benefits to 68,266 benefit recipients, served 162,152 members actively employed in public service and worked in partnership with 1,213 participating employers statewide.

This report provides detailed information on the performance of all retirement plans administered by PERF, including:

- Public Employees' Retirement Fund
- 1977 Police Officers' and Firefighters' Pension and Disability Fund
- Judges' Retirement System
- State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan
- Prosecuting Attorneys' Retirement Fund
- Legislators' Retirement System

PERF also administers two special death benefit funds for public safety officers and state employees who die in the line of duty. In addition, PERF manages the Pension Relief Fund, which was created by the Indiana General Assembly to address the unfunded pension obligations of the police officers' and firefighters' pension systems of Indiana's cities and towns. PERF is not responsible for the administration of those local pension funds, which have been closed to new membership since the creation of the 1977 Police Officers' and Firefighters' Pension and Disability Fund. However, PERF makes disbursements from funds provided by the General Assembly to the local police and firefighter units throughout the state that are still obliged to pay benefits under those former plans.

Management's Responsibility for Financial Reporting

PERF's management prepared the financial statements included in this Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. PERF's management is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of PERF's operations.

The Indiana State Board of Accounts (SBoA), PERF's external auditor, has conducted an audit of the general purpose financial statements in accordance with generally accepted auditing standards, performing work as it deemed necessary to express an opinion in their report.

The SBoA completed their audit of PERF's financial statements for the fiscal year ending June 30, 2010, on September 30, 2010.

Reporting Financial Information

PERF's management is responsible for maintaining a system of adequate internal accounting controls designed to provide reasonable assurance that transactions are executed in accordance with management's general or specific authorization. This system includes the written policies and procedures of the Board of Trustees.

Management also is charged with recording these transactions as necessary to maintain accountability for assets, and to permit preparation of financial statements in accordance with generally accepted accounting principles.

For financial reporting purposes, PERF follows the Governmental Accounting Standards Board (GASB) Statement No. 25 Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans and Statement No. 50 Pension Disclosures. Assets of PERF are presented at fair value. The actuarial value of assets and the actuarial accrued liability are presented in the Required Supplemental Schedules following the Notes to the Financial Statements.

The GASB issued Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. This statement establishes financial reporting standards for state and local governments. The Management Discussion and Analysis is contained within the Financial Section and serves to supplement the Introductory Section of the Comprehensive Annual Financial Report, as well as financial statements, notes and supplementary information within the Financial Section.

During the fiscal year ended June 30, 2010, PERF implemented GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments.

Economic Condition

PERF's economic condition is based primarily upon investment results and contributions from members and employers.

Mercer Investment Consulting evaluated the year-end investment portfolio. The return comparison begins on page 77.

Investments and Asset Allocation

As of June 30, 2010, the Consolidated Retirement Investment Fund (CRIF) had a market value of \$13.3 billion, an increase of \$1.5 billion since June 30, 2009. The increase in assets was driven by positive returns across all major asset classes. The Investment Section includes an in-depth discussion of the CRIF and the investment policies guiding the Board of Trustees in their decision making. The Board of Trustees continues to make progress in diversifying the assets of PERF and adjusting its risk and return profile in order to deliver the growth and earnings needed to meet future benefit obligations.

Prudent diversification through strategic asset allocation is fundamental to the Board of Trustees' overall investment policy. The policy is designed to provide an optimal mix of asset classes in order to meet PERF's return objectives, while maintaining appropriate diversification and risk control. PERF continues to incorporate traditional assets (cash, domestic and international stocks, and domestic fixed income) while also incorporating nontraditional assets (such as real estate and private equity) into the target asset mix.

The investment portfolio mix at fair value for fiscal year ended June 30, 2010 was approximately 40 percent equities, 35 percent fixed income, and 25 percent in alternative investments.

The equity portfolio was comprised of approximately 17 percent domestic equity and 23 percent international equity.

Funding

The health of a retirement system is measured by its ability to fund current and future benefit obligations of its members, which is represented by its funding level. Adequate funding levels reflect the ratio between total actuarial assets compared to total actuarial accrued liabilities. Total CRIF returns of positive 13.9 percent (gross of fees) were above the actuarial assumptions of 7.25 percent. However, it should be noted that the 7.25 percent assumption is based on a long-term, multi-year strategy.

Notwithstanding the volatility of recent market conditions, PERF and its investments remain in sound, stable condition.

The actuarial accrued liability of PERF is a measure of the present value of actuarial accrued liabilities estimated to be payable in the future to all current retirees, beneficiaries and employees for service earned to date. The funding ratio is the percentage computed by dividing the actuarial value of net assets available for benefits by the actuarial accrued liability. This ratio provides an indication of the funding status of the plan and generally, the greater this percentage, the stronger the plan.

The accumulated balance of funds derived from the excess of additions over deductions is referred to as the net assets held in trust for pension benefits in the Statement of Changes in Fiduciary Net Assets in the Financial Section of this report. Actuarial accrued liability, funding status and progress for the plans are presented in the Required Supplementary Information Schedule of Funding Progress and Note 5 of the Notes to the Financial Statements.

Actuarial Survey Valuation

An actuarial review of PERF is performed annually. An assumption experience study is performed every three to five years.

The actuarial firm, McCready & Keene, completed the actuarial reviews and valuations. In addition, the firm served as technical advisor to PERF. Actuarial certification and supporting statistics are included in the Actuarial and Statistical sections of this report.

Acknowledgements

This 2010 Comprehensive Annual Financial Report represents our commitment to a constructive spirit of full disclosure to clearly communicate our financial story and to motivate interested individuals to read this document. It is intended to provide information for use as the basis for making management decisions, as a means of determining compliance with legal provisions, and as a means of determining responsible stewardship of the assets contributed by our members and employers.

Our success in achieving this level of public accountability would not be possible without the effective teamwork and committed service of PERF's staff and advisors.

Our members, employers and the people of the state of Indiana have bestowed on us significant confidence and trust in the management of this fund. We are committed to living up to, and exceeding, their high expectations. In addition, on behalf of the entire PERF team, I thank the Board of Trustees, Governor Mitch Daniels, the members of the Pension Management Oversight Commission, the Indiana General Assembly and the many public employees and employers who strongly encourage us to continually raise the bar of service to our customers. We also thank Terren B. Magid who served as the Executive Director of PERF until May of 2010. PERF's success during his five years of service is a reflection of his dedication to all stakeholders.

Sincerely,

Steve Russo
Executive Director

Public Pension Coordinating Council

***Public Pension Standards Award
For Funding and Administration
2010***

Presented to

Indiana Public Employees' Retirement Fund

In recognition of meeting professional standards for
plan funding and administration as
set forth in the Public Pension Standards.

INTRODUCTORY SECTION

Fund Highlights

Public Employees' Retirement Fund

Membership and Eligibility

The Public Employees' Retirement Fund (PERF Plan) includes eligible state and local government employees.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
50 up to 59	15 or more	11% at age 59, additional 5% for each year under age 59
55	Age at retirement plus total years of service equals 85 or more	None
60	15 or more	None
65	10 or more	None
65	8 or more ¹	None

¹A member who has at least eight years of PERF Plan service as a county clerk, county auditor, county recorder, county treasurer, county sheriff or county coroner is eligible for normal retirement after reaching age 65. This change in the law applies only to members retiring after June 30, 2002. Public Law 73-2002 also provides that a member serving as state auditor, state treasurer or secretary of state, and whose term commences after the November 5, 2002 election, be vested with at least eight years of creditable service.

BENEFIT FORMULA

$$\text{Annual Benefit} = (\text{Years of Creditable Service} \times \text{Average Annual Compensation} \times .011) + \text{Annuity Savings Account}^2$$

²Members can elect at retirement to receive their Annuity Savings Account as a monthly supplement to their defined pension benefit or in a total distribution.

Cost of Living Allowance

Cost of living allowances are passed by the Indiana General Assembly on an ad hoc basis.

Contribution Rates

- The amount (rate) of employer contributions is adopted by the PERF Board of Trustees based on recommendations by PERF's actuary.
- Members are required to contribute 3 percent of gross wages to their Annuity Savings Account, and employers have the option of making all or part of this contribution on behalf of the member. Members may also voluntarily contribute up to an additional 10 percent of their wages into their Annuity Savings Account, under certain limitations.

INTRODUCTORY SECTION

Fund Highlights

1977 Police Officers' and Firefighters' Pension and Disability Fund

Membership and Eligibility

1977 Police Officers' and Firefighters' Pension and Disability Fund provides coverage to full-time sworn officers of a police force of an Indiana city or town and full-time firefighters employed by an Indiana city, town or township.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Actuarial Reduction
50	20 or more	Actuarial reduction of 14 percent at age 50 which decreases uniformly from age 50 to age 52 on a monthly basis
52	20 or more	None

BENEFIT FORMULA

Annual Benefit =

50 percent¹ of first-class salary for 20 years of service.

¹This percentage is increased by 1 percent for each six months of active service accumulated after 20 years of service (to a maximum of 32 years, or 74 percent).

Cost of Living Allowance

Cost of living allowance is a percentage determined by statute equal to the change in the Consumer Price Index, but not in excess of a 3 percent increase.

Contribution Rates

- Members contribute 6 percent of first-class salary for the term of their employment up to 32 years. Employers have the option of making all or part of this contribution on behalf of the member.
- Employer contribution rates are adopted by the PERF Board of Trustees based on recommendations by PERF's actuary.

INTRODUCTORY SECTION

Fund Highlights

Judges' Retirement System

Membership and Eligibility

The Judges' Retirement System includes any person who has served, is serving or shall serve as a regular judge of the Supreme Court of the state of Indiana, Circuit Court of any Judicial Court, Indiana Tax Court or County Courts including: Circuit, Superior, Criminal, Probate, Juvenile and Municipal Courts.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
55	Age at retirement plus total years of service equals 85 or more	None
62	8 or more	0.1% for each month that retirement precedes age 65
65	8 or more	None

BENEFIT FORMULA

Annual Benefit = Salary at Retirement¹ x Percentage Below

Years of Service	Percentage	Years of Service	Percentage
8	24%	16	54%
9	27	17	55
10	30	18	56
11	33	19	57
12	50	20	58
13	51	21	59
14	52	22 or more	60
15	53	—	—

¹Benefit calculations for the 1977 System (those who began service as a judge before September 1, 1985) are based on the current salary of the judge's position from which they retired. The 1985 System (those who began service as a judge after August 31, 1985) uses the salary paid to the participant when they retired or the salary paid for the office the participant held at the time of the participant's separation, depending on the participant's separation date and date of retirement application.

Cost of Living Allowance

For the 1977 System, the cost of living allowance is a percentage increase equal to the increase in the salary of the judge's position from which the judge retired. No additional cost of living allowance is payable January 1, 2010.

Contribution Rates

- Employees contribute 6 percent of the judge's statutory salary until 22 years of service have been completed.
- Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the state's General Fund.

INTRODUCTORY SECTION

Fund Highlights

State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan

Membership and Eligibility

State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan includes employees engaged exclusively in the performance of law enforcement duties of the (1) Indiana Department of Natural Resources, (2) Indiana Alcohol and Tobacco Commission and (3) any Indiana state excise police officer, Indiana state conservation enforcement officer or gaming agent.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
45	15 or more	0.25% for each full month that retirement precedes age 60
50	25 or more	None
55	Age at retirement plus total years of service equals 85 or more	None
65	Mandatory retirement at age 65	None

BENEFIT FORMULA

$$\text{Annual Benefit} = 25 \text{ percent}^1 \times \text{Average Annual Salary}^2$$

¹This percentage is increased by 1.67 percent of average annual salary for each completed year of creditable service after 10 years. However, the total percentage may not exceed 75 percent.

²Average Annual Salary is defined as the average annual salary of an officer during the five years of highest annual salary in the 10 years immediately preceding an officer's retirement date.

Cost of Living Allowance

Cost of living allowance is applied at the same rate as was passed by the Indiana General Assembly for the Public Employees' Retirement Fund.

Contribution Rates

- Members contribute 4 percent of their annual salary.
- Employer contributions are adopted by the PERF Board of Trustees based on recommendations by PERF's actuary.

INTRODUCTORY SECTION

Fund Highlights

Legislators' Retirement System – Defined Benefit Plan

Membership and Eligibility

The Legislators' Retirement System Defined Benefit Fund includes only legislators of the state of Indiana who were serving on April 30, 1989, and elected participation. Legislators elected or appointed after April 30, 1989 participate in the Legislators' Defined Contribution Plan.¹

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
55	10 or more ²	Benefit reduced using early retirement formula ³
55	Age at retirement plus total years of service as a member of the General Assembly equals 85 or more	None
60	15 or more	None
65	10 or more ⁴	None

¹ The Legislators' Retirement System also includes a defined contribution plan available to all legislators of the state of Indiana who serve in the Indiana General Assembly on or after April 30, 1989. Members contribute 5 percent of their annual salary. The state of Indiana contribution rate is a percentage that is the sum of: 1) the state's employer contribution rate for state employees, and 2) the rate the state pays on behalf of state employees to their annuity savings accounts. This rate, by statute, cannot exceed the total contribution rate paid that year by the state to PERF for state employees.

² Has terminated service as a member of the Indiana General Assembly and is not receiving nor is entitled to receive a salary from the state.

³ Early Retirement Benefit Formula:

Step 1: $780 \text{ months (65 years)} - \text{age at retirement in full months} = [x]$.

Step 2: If $[x]$ is equal to or less than 60, then multiply $[x]$ by 0.1 percent to obtain a product $[y]$. If $[x]$ is greater than 60, then multiply 0.4167 percent by the difference between 60 and the remainder $[x]$. Then take this product and add 6 percent to obtain a sum $[y]$.

Step 3: Then subtract $[y]$ from 100 percent to determine the percentage of age 65 retirement benefit received.

⁴ Has terminated service as a member of the Indiana General Assembly, is not receiving nor is entitled to receive a salary from the state, and is not receiving and has not previously received a reduced monthly benefit under this plan.

BENEFIT FORMULA

Lesser of:

- $\$40 \times \text{Years of service before November 8, 1989}$ or
- $\text{Highest consecutive three-year average annual salary at termination} \div 12$

Legislators elected or appointed after April 30, 1989 participate in the Legislators' Defined Contribution Plan.

Cost of Living Allowance

- Cost of living allowance is applied at the same rate as was passed by the Indiana General Assembly for the PERF Plan.

Contribution Rates

- Employer contributions are adopted by the PERF Board of Trustees based on recommendations of PERF's actuary.

INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF THE PUBLIC EMPLOYEES' RETIREMENT FUND BOARD OF TRUSTEES

We have audited the accompanying financial statements of the Public Employees' Retirement Fund Board of Trustees, as of and for the year ended June 30, 2010. These financial statements are the responsibility of the Public Employees' Retirement Fund Board of Trustees' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Public Employees' Retirement Fund Board of Trustees' internal control over reporting. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Public Employees' Retirement Fund Board of Trustees as of June 30, 2010, and the respective changes in financial position where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America

The Management's Discussion and Analysis, Schedule of Funding Progress, and Schedule of Employer Contributions are not a required part of the basic financial statements but are supplementary information required by Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The Introductory Section, Administrative Expenses, Investment Expenses, Contractual and Professional Service Expenses, Investment Section, Actuarial Section, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Administrative Expenses, Investment Expenses, and Contractual and Professional Service Expenses have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Introductory Section, Investment Section, Actuarial Section, and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

State Board of Accounts

STATE BOARD OF ACCOUNTS

This section presents Management's Discussion and Analysis (MD&A) of the Public Employees' Retirement Fund of Indiana (PERF) financial statements for the year ended June 30, 2010. The MD&A is presented as a narrative overview and analysis in conjunction with the Letter of Transmittal included in the Introductory Section of the *PERF Comprehensive Annual Financial Report*. This section should be read in conjunction with the Financial Statements, Notes to the Financial Statements, Required Supplementary Information and Other Supplementary Information.

The following retirement plans are included in the PERF financial statements: Public Employees' Retirement Fund (PERF Plan); 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund); Judges' Retirement System (JRS); State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan (E, G & C Plan); Prosecuting Attorneys' Retirement Fund (PARF); Legislators' Defined Contribution Plan (LDC Plan) and Legislators' Defined Benefit Plan (LDB Plan). Also included in the financial statements are non-retirement funds managed by PERF: the Public Safety Officers' Special Death Benefit Fund (PSO Special Death Benefit Fund); the State Employees' Death Benefit Fund (SE Death Benefit Fund) and the Pension Relief Fund (PR Fund). See Notes to the Financial Statements for descriptions of these retirement plans and non-retirement funds.

Financial Highlights

- Total net assets of PERF were \$14.0 billion as of June 30, 2010. Net assets of the retirement plans, which are held in trust to meet future benefit payments, were \$13.9 billion as of June 30, 2010.
- Total net assets of PERF increased by \$1.6 billion, or 13.0 percent, from the prior year. The increase was due primarily to investment returns.
- Net assets of the PR Fund, which are held in trust for pool participants, were \$98.7 million as of June 30, 2010, compared to \$105.4 million as of June 30, 2009. PR Fund distributions are mandated by state law.
- Substantially all of the investments for the retirement plans and funds administered by PERF are pooled in the Consolidated Retirement Investment Fund (CRIF). The CRIF rate of return on investments for the year was 13.9 percent (gross of fees) on a market value basis, compared to last year's loss of 20.6 percent. The improvement was due to positive returns across all major segments of the portfolio.
- As of July 1, 2009, the date of the most recent actuarial valuation, the Public Employees' Retirement Fund, the largest pension plan administered by PERF, is funded actuarially at 93.1 percent. This represents a decrease from the 97.5 percent funded level as of July 1, 2008. Employer contributions are adjusted annually based on actuarial computations.

Overview of the Financial Statements

The Statement of Fiduciary Net Assets presents information on PERF's assets and liabilities and the resulting net assets held in trust for pension benefits, death benefits and pool participants. This statement reflects PERF's investments at fair value, along with cash and short-term investments, receivables, and other assets and liabilities. This statement indicates the resources available to pay future pension and death benefits and gives a snapshot at a particular point in time.

The Statement of Changes in Fiduciary Net Assets presents information showing how PERF's net assets held in trust for pension benefits, death benefits and pool participants changed during the years ended June 30, 2009 and June 30, 2010. It reflects contributions by members and employers along with deductions for retirement benefits, distributions, PR Fund distributions and withdrawals, and administrative expenses. Investment income and losses during the period are also presented, showing income and/or losses from investing and securities lending activities.

Management's Discussion and Analysis, continued

Financial Analysis

Total assets of PERF were \$17.7 billion as of June 30, 2010, compared to \$16.6 billion as of June 30, 2009. The increase in total assets was due primarily to positive investment returns.

Total liabilities were \$3.7 billion as of June 30, 2010, compared to \$4.1 billion as of June 30, 2009. The decrease was due primarily to a decrease in investment related transactions not yet settled at year end.

A summary of PERF's net assets is presented below:

Net Assets			
(dollars in thousands)			
	<u>June 30, 2010</u>	<u>June 30, 2009</u>	<u>% Change</u>
Assets

¹Pension Relief Fund only.

²Other Employee Benefit Trust Funds.

Additions

Additions needed to fund benefits for the pension trust funds are accumulated through member and employer contributions, and net returns on invested funds. Member contributions for the year ended June 30, 2010 totaled \$203.6 million. This represents a decrease of \$.8 million or 0.4 percent, compared to the prior year. Employer contributions were \$485.9 million, an increase of \$6.3 million or 1.3 percent. Employer contributions are adjusted annually based on actuarial computations.

PERF recognized a net investment gain of \$1.7 billion for the year ended June 30, 2010, compared to a net investment loss of \$3.3 billion the prior year. The total rate of return on the CRIF was 13.6 percent (net of fees) compared to a 21.0 percent loss the prior year.

Indiana law effective for the fiscal year ended June 30, 2002, permitted cities and towns to defer receiving their earmarked relief payments from the PR Fund. The deferred amounts remain invested in the fund and are available to those cities and towns at their request. There were no deferrals during the year ended June 30, 2010. The state of Indiana makes contributions to the PR Fund by way of appropriations, certain tax receipts and lottery funds. These contributions totaled \$195.0 million for the fiscal year ended June 30, 2010, and \$109.5 million for the fiscal year ended June 30, 2009.

Deductions

The deductions from PERF's net assets held in trust for pension benefits include retirement, disability and survivor benefits, distributions of contributions and interest/earnings to former members, and administrative expenses. For the year ended June 30, 2010, benefits paid amounted to \$663.7 million, an increase of \$51.6 million or 8.4 percent from the prior year. The increase in benefits was due primarily to an increase in the number of retirees from 65,455 at June 30, 2009 to 68,266 at June 30, 2010, and the impact of COLA and 13th check increases over prior year. Distributions paid out to former members were \$42.9 million, which represents an increase of \$2.1 million or 5.2 percent from the prior year.

Distributions from the PR Fund totaled \$213.0 million, compared to \$167.2 million in the prior year, an increase of \$45.8 million. This increase is due to the change in calculation methodology for distributions effective January 1, 2009, from the statutorily defined formulas to the actual benefits paid from these plans.

The cost of administering PERF's retirement plans and non-retirement funds, excluding investment manager expenses, amounted to \$27.2 million, an increase of \$1.1 million or 4.3 percent, compared to the prior year. The increase was due primarily to support costs for modernization projects which were launched in order to expand customer service and create operating efficiencies.

Historical Trends

A pension fund is fully funded when it has enough money in reserve to meet all expected future obligations to participants. The funded ratios of the defined benefit pension plans administered by PERF as of the latest actuarial valuations were as follows:

	July 1, 2009	July 1, 2008
PERF	93.1%	97.5%
JRS	72.9	69.3
E, G & C plan	76.3	84.7
PARF	59.3	69.2
LDB plan	93.0	101.6
	July 1, 2009	January 1, 2008
1977 Fund	98.0%	113.6%

An analysis of the funding progress, employer contributions and a discussion of actuarial assumptions and methods is set forth in Note 5 and in the Required Supplementary Information of the Financial Section.

Note 1. Description of Retirement Plans

(A) Public Employees' Retirement Fund

The Public Employees' Retirement Fund of Indiana Plan (PERF Plan) is a defined benefit multiple-employer public employee retirement system that acts as a common investment and administrative agent for units of state and local governments in Indiana. Established by the Indiana Legislature in 1945 and governed through the Public Employees' Retirement Fund of Indiana (PERF) Board of Trustees by Indiana Code (IC) 5-10.2 and IC 5-10.3, this trust fund provides a retirement program for most officers and employees of the state of Indiana who are not eligible for another program.

The PERF Plan also covers many officers and employees of municipalities of the state, including counties, cities, towns, townships and school corporations. The political subdivisions become participants by ordinance or resolution of the governing body, which specifies the classifications of employees who will become members of the plan. The ordinance or resolution is filed with and approved by the PERF Board of Trustees. In order to be a member, employees hired after June 30, 1982, except employees of a participating school corporation, must occupy positions normally requiring performance of service of more than 1,000 hours during a year. Effective July 1, 2008, members who have at least one year of service in both PERF and the Teachers' Retirement Fund (TRF) have the option of choosing from which of these funds they would like to retire.

At June 30, 2010, the number of participating political subdivisions was 1,202. At July 1, 2009, the PERF Plan membership consisted of:

Retirees, disabilitants and beneficiaries receiving benefits	65,099
Terminated employees entitled to benefits but not yet receiving them	10,670
Active employees: vested and non-vested	147,792
Total	223,561
Total covered payroll (<i>dollars in thousands</i>)	\$ 4,931,423

The PERF Plan retirement benefit consists of the sum of a defined pension benefit provided by employer contributions plus the amount credited to the member's annuity savings account. The employer contribution rate is based on an actuarial valuation and is adopted by the PERF Board of Trustees in accordance with IC 5-10.2-2-11. The annuity savings account consists of the member's contributions, set by statute at 3 percent of compensation as defined by IC 5-10.2-3-2, plus the interest/earnings or losses credited to the member's account. The employer may elect to make the contributions on behalf of the member. In addition, members may elect to make additional voluntary contributions of up to 10 percent of their compensation into their annuity savings accounts.

The pension benefit vests after 10 years of creditable service. The vesting period is eight years for certain elected officials. At retirement, a member may choose to receive a lump sum payment of the amount credited to the member's annuity savings account instead of receiving the amount as an annuity. Vested PERF members leaving a covered position must wait 30 days before being eligible to withdraw their annuity savings account. However, if a member is eligible for a full or reduced retirement at the time of the withdrawal request, he or she will have to begin drawing their pension benefit in order to withdraw the annuity savings account. A non-vested member who terminates employment prior to retirement may withdraw their annuity savings account at any time.

A member who has reached age 65 and has at least 10 years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit component. This annual pension benefit is equal to 1.1 percent times the average annual

compensation times the number of years of PERF plan covered employment. The average annual compensation in this calculation is an average of the member's highest 20 calendar quarters' salaries during PERF plan covered employment. Member contributions paid by the employer on behalf of the member and severance pay up to \$2,000 are included as part of the member's salary.

A member who has reached age 60 and has at least 15 years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit. A member who is at least 55 years old and whose age plus number of years of PERF Plan covered employment is at least 85 is entitled to 100 percent of the benefits as described above.

A member who has reached at least age 50 and has at least 15 years of creditable service is eligible for early retirement with a reduced pension, ranging from 44 to 94 percent of the pension benefit described above.

The PERF Plan also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability, if the member has qualified for social security disability benefits and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. Upon the death in service of a member with 15 or more years of creditable service as of January 1, 2007, a survivor benefit may be paid to the surviving spouse or surviving dependent children. This payment is equal to the benefit which would have been payable to a beneficiary if the member had retired at age 50 or at death, whichever is later, under an effective election of the joint and survivor option available for retirement benefits. A surviving spouse or surviving dependent children are also entitled to a survivor benefit upon the death in service after January 1, 2007, of a member who was at least 65 years of age and had at least 10 but not more than 14 years of creditable service.

There was no cost of living adjustment (COLA) for the year ended June 30, 2010.

(B) 1977 Police Officers' and Firefighters' Pension and Disability Fund

The 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund) is a defined benefit, multiple-employer, cost-sharing public employee retirement system. It was established in 1977 and is governed by IC 36-8-8 to provide coverage to full-time sworn officers of a police force of an Indiana city or town and full-time firefighters employed by an Indiana city, town, township or county.

At June 30, 2010, the number of participating employer units totaled 164 (which includes 258 police and fire departments). At July 1, 2009, the 1977 Fund membership consisted of:

Retirees, disabilitants and beneficiaries receiving benefits	2,608
Terminated employees entitled to benefits but not yet receiving them	108
Active employees: vested and non-vested	13,184
Total	15,900
Total covered payroll (dollars in thousands)	\$ 649,018

A member is required by statute to contribute 6 percent of a first class officer's or firefighter's salary for the term of their employment up to 32 years. The accumulated value of the member's contribution, including interest, may be withdrawn if the member terminates employment prior to completing 20 years of service. The actuary determines employer contributions, subject to approval by PERF Board of Trustees.

A member vests after 20 years of service. If the member retires at or after the age of 52 with 20 years of service, the benefit is equal to 50 percent of the salary of a first class officer, as reported by the employer in the year the 1977 Fund member ended service plus 1 percent of that salary for each six months of active service over 20 years to a maximum of 12 years. A member may elect to receive an actuarially reduced benefit at age 50.

The 1977 Fund also provides disability and survivor benefits. An active member may file an application for disability benefits. A determination is then made as to whether the member has a covered impairment and whether the impairment was incurred in the line of duty or not. The calculation for disability benefits is based on when the member was first hired, the type of impairment and other factors. In addition, the heirs or estate of a fund member may be entitled to receive \$12,000 upon the member's death.

If a member dies while receiving retirement or disability benefits, there are provisions for the surviving spouse and child(ren) to receive a portion of the benefits. The member's surviving spouse is entitled to a monthly benefit equal to 60 percent of the member's monthly benefit during the spouse's lifetime. Each of the member's surviving child(ren) is entitled to a monthly benefit equal to 20 percent of the member's monthly benefit until the age of 18 or age 23 if a full-time student. If there is no eligible surviving spouse or child(ren), a dependent parent(s) may receive 50 percent of the member's monthly benefit during their lifetime.

There was no COLA for the year ended June 30, 2010.

(C) Judges' Retirement System

The Judges' Retirement System is a single employer public employee retirement system and a defined benefit plan established in 1953, and is governed through the PERF Board of Trustees by IC 33-38-6, IC 33-38-7 and IC 33-38-8. Coverage is for any person who has served, is serving or shall serve as a regular judge of the (1) Supreme Court of the state of Indiana, (2) Circuit Court of any Judicial Court, (3) Indiana Tax Court or (4) county courts including: Circuit, Superior, Criminal, Probate, Juvenile, and Municipal Courts. Indiana Code 33-38-8 applies to judges beginning service after August 31, 1985.

The Judges' Retirement System consists of two plans: the 1977 System and the 1985 System. The 1977 System includes all individuals who began service as a judge before September 1, 1985, unless the individual, within ten days after becoming a judge, filed an irrevocable election not to participate in the 1977 System. The 1985 System covers all individuals who: (1) began service as a judge after August 31, 1985 and (2) are not participants in the 1977 System. The 1985 System is mandatory for all new judges.

At July 1, 2009, the Judges' Retirement System membership consisted of:

Retirees, disabilitants and beneficiaries receiving benefits	293
Terminated employees entitled to benefits but not yet receiving them	83
Active employees: vested and non-vested	288
Total	664
Total covered payroll (<i>dollars in thousands</i>)	\$ 36,196

Member contributions are established by statute at 6 percent of total statutory compensation paid by the state of Indiana, deducted from the member's salary and remitted by the Auditor of State. However, no contribution is required and no such amounts shall be paid by the member for more than 22 years of service.

Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the state's General Fund. Indiana Code 33-38-6-17 provides that this appropriation include only funds sufficient to cover the aggregate liability of the fund for benefits to the end of the biennium on an actuarially funded basis. The statute also provides for remittance of docket fees and court fees which are considered employer contributions.

The Judges' Retirement System provides retirement, permanent disability and death benefits. Retirement benefits vest after eight years of creditable service. Judges who retire at or after age 65 with eight years of creditable service (or are at least 55 years of age and the participant's age in years plus the participant's years of service is at least 85) are entitled to an annual retirement benefit, payable monthly for life, in an amount calculated in accordance with statute.

The annual retirement benefit for a participant equals the product of the salary that was paid to the participant at the time of separation from service, multiplied by a percentage for years of service as defined in the statute. The statute provides for the percentage to be prorated for partial years of service. If the annual retirement benefit of a participant who began service as a judge before July 1, 1977, as computed per IC 33-38-7-11, is less than the amount the participant would have received under IC 33-38-6 as in effect on June 30, 1977, the participant is entitled to receive the greater amount as the participant's annual retirement benefit. The benefits of the retired judges that were former participants in the 1977 System are increased by the same percentage increase as the active judges' salary.

A reduced amount is paid for early retirements that may be selected upon attainment of age 62. There is no vesting requirement for permanent disability benefits.

Surviving spouses or dependent child(ren) are entitled to benefits if the participant had qualified to receive a retirement or disability benefit, or had completed at least eight years of service and was in service as a judge.

There was no COLA for the year ended June 30, 2010.

(D) State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan

The State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan (E, G & C Plan) was established in 1972 and is governed by IC 5-10-5.5, as amended. The E, G & C Plan is a single employer defined benefit plan for certain employees of the (1) Indiana Department of Natural Resources, (2) Indiana Alcohol and Tobacco Commission and (3) any Indiana state excise police officer, Indiana state conservation enforcement officer, gaming agent or any gaming control officer who is engaged exclusively in the performance of law enforcement duties.

At July 1, 2009, the E, G & C Plan membership consisted of:

Retirees, disabilitants and beneficiaries receiving benefits	157
Terminated employees entitled to benefits but not yet receiving them	7
Active employees: vested and non-vested	443
Total	607
Total covered payroll (<i>dollars in thousands</i>)	\$ 25,238

Members are required by statute to contribute 4 percent of the member's annual salary to the E, G & C Plan. If a member leaves covered employment or dies before 15 years of creditable service, accumulated member contributions, plus interest as credited by the PERF Board of Trustees, are distributed to the member, or to the designated beneficiary or the member's estate.

The E, G & C Plan provides retirement, disability and survivor benefits. Generally, retirement benefits vest after 15 years of creditable service. Each participant is required to retire on or before the first day of the month following the participant's 65th birthday. However, officers who become a participant after reaching 50 years of age are required to retire on the earlier of: (1) the first day of the month following the participant's 65th birthday or (2) the first day of the month following the completion of 15 years of service. A participant who is at least 55 years of age and the sum of the participant's years of creditable service and age in years equals at least 85 may retire and become eligible for full retirement benefits. In addition, a participant may elect full retirement benefits at age 50 with 25 years of service. A step-rate benefits formula specified by statute is used to calculate benefits that are payable monthly for life. A reduced benefit is provided for early retirements that are elected upon attainment of age 45 with 15 years of creditable service. The retirement benefit is increased 1.67 percent of the participant's average annual salary for each year of service after 10 years.

Participants with one year of creditable service may purchase service credit for prior service in a position covered by any Indiana public retirement fund as defined under IC 5-10-5.5-7.5.

A participant is entitled to receive creditable service for the time the participant receives disability benefits under a state disability plan established under IC 5-10-8-7.

If nominated by the member, the surviving spouse or the parent(s) is entitled to an annual survivors' allowance for life equal to 50 percent of the amount the participant would have been entitled to if he/she had retired. If nominated and eligible, surviving unmarried minor child(ren) are entitled to an annual survivors' allowance equal to 50 percent of the amount the participant would have been entitled to if he/she had retired, divided equally between or among all nominated and eligible children. This benefit will continue until the child reaches 18 years of age or marries.

There is no vesting requirement for entitlement to the E, G & C Plan's permanent and temporary disability benefits. The disability benefit calculation is based on whether the disability arose in the line of duty, the degree of impairment as determined by PERF's medical authority, and the participant's monthly salary.

COLA increases for E, G & C Plan are equal to the increase for the PERF Plan subject to the general assembly providing sufficient funding for the increased cost of benefits. There was no COLA for the year ended June 30, 2010.

(E) Prosecuting Attorneys' Retirement Fund

The Prosecuting Attorneys' Retirement Fund (PARF) was established in 1989 and is governed by IC 33-39-7. PARF is a single employer defined benefit plan and is for individuals who serve as a (1) prosecuting attorney, (2) chief deputy prosecuting attorney or (3) certain other deputy prosecuting attorneys paid by the state of Indiana. These individuals' salaries are paid from the General Fund of the state of Indiana.

Notes to the Financial Statements, continued – June 30, 2010

At July 1, 2009, the PARF membership consisted of:

Retirees, disabilitants and beneficiaries receiving benefits	50
Terminated employees entitled to benefits but not yet receiving them	77
Active employees: vested and non-vested	221
Total	348
Total covered payroll (<i>dollars in thousands</i>)	\$ 20,782

Members contribute 6 percent of their salary. They receive annual interest earnings of 5.5 percent in accordance with statute.

PARF provides retirement, disability and survivor benefits. A participant is entitled to a retirement benefit if the participant is at least 65 years of age (62 years for reduced benefits), has at least eight years of service, has ceased service in a PARF covered position and is not receiving, nor is entitled to receive, any salary for services currently performed except for services rendered as a senior prosecuting attorney under IC 33-39-7-15. A member whose service ended prior to July 1, 2006 must have at least ten years of service.

The amount of the annual retirement benefit for a participant who is at least 65 years of age is the product of the highest annual salary that was paid to the participant, multiplied by a percentage based on the participant's years of service. The percentages range from 24 percent for eight years of service to 60 percent for 22 or more years of service. If the participant is at least 62 years of age, the participant is entitled to receive a reduced annual retirement benefit that equals the benefit, as calculated above, reduced by 0.25 percent for each month that the participant's age at retirement precedes the participant's 65th birthday.

Members of this fund are also participating members of the PERF Plan. Retirement benefits payable to a participant are reduced by the defined benefit portion of the pension, if any, that would be payable to the participant from the PERF Plan. The state of Indiana has elected to pay the 3 percent employee contribution for the member's annuity savings account in the PERF plan.

PARF also provides disability and survivor benefits. A participant who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the participant has qualified for social security disability benefits and has furnished proof of the qualification. The amount of the annual benefit payable to a participant for disability benefits is equal to the product of the annual salary that was paid to the participant at the time of separation from service multiplied by a percentage based on the participant's years of service. The percentages range from 40 percent for five to 10 years of service to 50 percent for 20 or more years of service.

The surviving spouse of a participant who dies is entitled to benefits if on the date of the participant's death the participant has a PARF benefit, has completed at least eight years in a covered position, or has met the requirements for a disability benefit.

The surviving spouse is entitled to a benefit for life equal to the greater of \$7,000 annually or 50 percent of the retirement benefit the participant was drawing at the time of death, or to which the participant would have been entitled had the participant retired and begun receiving retirement benefits on the date of death, with reductions as necessary for early retirement. If there is not a surviving spouse, there are provisions for dependents to receive benefits.

All disability benefits payable from PARF and benefits payable to a surviving spouse or dependent child(ren) are reduced by the amounts, if any, that would be payable under the PERF plan.

(F) Legislators' Retirement System

The Legislators' Retirement System was established in 1989 by IC 2-3.5. The retirement system is for certain members of the General Assembly of the state of Indiana as specified by the provisions of the statute.

The Legislators' Retirement System is comprised of two separate and distinct plans. The Legislators' Defined Benefit Plan (LDB Plan) (IC 2-3.5-4), a single employer defined benefit plan, applies to each member of the General Assembly who was serving on April 30, 1989, and filed an election under IC 2-3.5-3-1(b). The Legislators' Defined Contribution Plan (LDC Plan) (IC 2-3.5-5) applies to each member of the General Assembly who was serving on April 30, 1989, and filed an election under IC 2-3.5-3-1(b), and each member of the General Assembly who is elected or appointed after April 30, 1989.

At July 1, 2009, the Legislators' Retirement System membership consisted of:

	Defined Benefit Plan	Defined Contribution Plan
Retirees, disabilitants and beneficiaries receiving benefits	59	-
Terminated employees entitled to benefits but not yet receiving them	19	-
Active employees: vested and non-vested	33	224
Total	111	224
Total covered payroll (<i>dollars in thousands</i>)		\$ 8,649

Legislators' Defined Contribution Plan

Each participant in the LDC Plan shall make employee contributions of 5 percent of salary received for services rendered after June 30, 1989. The employer contribution prior to January 1, 2009 was equal to 20 percent of the annual salary received by each participant for services rendered after June 30, 1989 and was appropriated from the state of Indiana general fund. Effective January 1, 2009 the employer contribution rate is established each year by PERF and is confirmed by the State Budget Agency. The contribution rate is a percentage that is the sum of: 1) the state's employer contribution rate for state employees, and 2) the rate the state pays on behalf of state employees to their annuity savings accounts. This rate, by statute, cannot exceed the total contribution rate paid that year by the state to PERF for state employees.

Investments in the members' accounts are individually directed and controlled by plan participants who direct the investment of their account balances among several investment options of varying degrees of risk and return potential. The investment options include Consolidated Retirement Investment Fund (CRIF), Bond Fund, Money Market Fund, Small Cap Stock Fund, S&P 500 Stock Index Fund, International Equity Index Fund and Stable Value Fund. Members may make changes to their investment directions daily. Investments of the plan are reported at fair value.

A participant of the LDC Plan who terminates service as a member of the General Assembly is entitled to withdraw both the employee and employer contributions to the LDC Plan. The amount available for withdrawal is the fair market value of the participant's account

on the payment date. Account balances are fully vested to the participants. The withdrawn amount can be paid in a lump sum, a partial lump sum, a monthly annuity as purchased by the PERF board, or a series of monthly installment payments over 60, 120, or 180 months as elected by the participant.

If a participant dies while a member of the General Assembly or after terminating service as a member, but prior to withdrawing from the LDC Plan, the participant's account is to be paid to the beneficiary(ies) or to the survivor(s) if there is no properly designated beneficiary, or if no beneficiary survives the participant. The amount to be paid is the fair market value of the participant's account (employer and employee contributions) on the payment date.

A member of the LDB Plan, under certain circumstances, may also be a member of the LDC Plan.

Legislators' Defined Benefit Plan

The amount required to actuarially fund participants' retirement benefits, as determined by the PERF Board of Trustees on the recommendation of the actuary, is to be appropriated from the state of Indiana General Fund in the month of July of each year of the biennium.

The LDB Plan provides retirement, disability and survivor benefits. Members of the General Assembly who began service after April 30, 1989, are not members of this plan.

A participant is entitled to an unreduced monthly retirement benefit if the participant is at least 65 years of age and has at least 10 years as a member of the General Assembly; 55 years of age and whose years of service as a member of the General Assembly plus years of age equal at least 85; or is at least 60 years of age and has at least 15 years of service as a member of the General Assembly. To qualify for a monthly retirement benefit, the member must have terminated service as a member of the General Assembly, has at least 10 years of service as a member of the General Assembly and is not receiving, nor is entitled to receive, a salary from the state.

The monthly retirement benefit is the lesser of \$40 multiplied by the total years of service completed by the participant as a member of the General Assembly before November 8, 1989, or the highest consecutive three-year average annual salary of the participant under IC 2-3-1-1 at the date the participant's service as a member of the General Assembly is terminated, divided by 12.

A participant who has reached at least age 55, has terminated service as a member of the General Assembly, has at least 10 years of service as a member of the General Assembly, and is not receiving, nor is entitled to receive, a salary from the state of Indiana is eligible for early retirement with a reduced benefit. The actual reduction is based on the participant's age and ranges from one-tenth of 1 percent to 56 percent of the monthly retirement as calculated above.

The LDB Plan also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the member has qualified for social security disability and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. If a participant dies while receiving retirement benefits, or had completed at least 10 years of service as a member of the General Assembly, or was permanently disabled and receiving disability benefits from the system, the surviving spouse is entitled to receive survivor benefits. The benefits are for life and are equal to 50 percent of the amount of retirement benefits that the partici-

pant was receiving at the time of death or that the participant would have been entitled to receive at 55 years of age, or at the date of death, whichever is later. If there is not a surviving spouse, there are provisions for dependents to receive benefits.

COLA increases for the LDB plan are equal to the increase for the PERF Plan as determined by statute passed by the Indiana General Assembly on an ad hoc basis and are generally based on date of retirement, and other eligibility factors. There was no COLA for the year ended June 30, 2010.

Note 2. Description of Non-Retirement Funds

(A) State Employees' Death Benefit Fund

Indiana Code 5-10-11 established the State Employees' Death Benefit program. Under the program a death benefit of \$50,000 is to be paid to the surviving spouse or, if there is no surviving spouse, to the surviving child(ren) (to be shared equally) of a state of Indiana employee who dies in the line of duty as defined in the statute.

The law provides that "[t]he state shall provide these benefits by purchasing group life insurance or by establishing a program of self-insurance." It was determined that a program of self-insurance would be established, and effective with the state's pay period ended October 23, 1993, the state assessed state agencies 0.1 percent of gross pay to fund this program. Because of the size of the fund and the infrequency of payments, collection of the assessment ceased November 1999.

(B) Public Safety Officers' Special Death Benefit Fund

Indiana Code 5-10-10 established the Special Death Benefit Fund. The fund was established for the purpose of paying a lump sum death benefit of \$150,000 to the surviving spouse or child(ren) of a public safety officer (as defined by IC 5-10-10-4) or other eligible officers (as defined by IC 5-10-10-4.5) who dies in the line of duty. If there is no surviving spouse or child(ren), the benefit is paid to the parent(s) in equal shares. The fund consists of bail bond fees remitted under IC 35-33-8-3.2, payments under IC 5-10-10-4.5, and investment earnings of the fund.

(C) Pension Relief Fund

The Pension Relief Fund (PR Fund) was created by the Indiana General Assembly in 1977 (IC 5-10.3-11). The purpose of the PR Fund is to give financial relief to pension funds maintained by units of local government for their police officers' and firefighters' retirement plan benefits.

The PR Fund's additions are derived from contributions from the state of Indiana from a portion of cigarette and alcohol taxes, a portion of the state's lottery proceeds, investment income earned and appropriations from the General Assembly.

Distributions are made from the PR Fund to units of local government by June 30 and September 30. Effective January 1, 2009 the distribution is determined by an estimate of the total amount of pension, disability and survivors benefits from the 1925 police pension fund, the 1937 firefighters' fund and the 1953 police pension fund. The estimate is prepared on a city by city basis, and on a departmental basis. The distribution is offset by distributions from the Public Deposit Insurance Fund. In addition, distribution from the PR Fund is made to cover death benefits for surviving spouses of members of the 1925, 1937 and 1953 local pension funds in excess of 30 percent of the salary of a first class patrolman or a first class firefighter.

The PR Fund also pays a lump sum line of duty death benefit of \$150,000. The benefit is paid to the surviving spouse or, if there is no surviving spouse, to the surviving child(ren) of a member of the 1977 Fund who dies in the line of duty as defined by IC 36-8-8-20. If there is no surviving spouse or child(ren), the benefit is paid to the parent(s) in equal shares.

Units of local government are permitted to defer receiving their earmarked relief payments from the PR Fund. The deferred amounts remain invested in the fund and are available to the units of local government at their request. As of June 30, 2010, units of local government had investments with a market value of approximately \$7.7 million on deposit in the PR Fund. In the fund's financial statements, the earmarked relief payments are reflected as distributions, and the deferred amounts are reflected as additions from units of local government.

Note 3. Summary of Significant Accounting Policies

Listed below are significant accounting policies adhered to by the PERF Board of Trustees.

(A) Reporting Entity

PERF is an independent body corporate and politic exercising essential government functions. The financial statements presented in this report represent only those funds for which the PERF Board of Trustees has responsibility and are not intended to represent the financial position or results of operations of the state of Indiana or all of the retirement and benefit plans administered by the state. Although PERF is not a state agency, it is a discretely presented component unit of the state of Indiana for financial statement reporting purposes.

The following funds are included in the financial statements:

- Public Employees' Retirement Fund (PERF Plan);
- 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund);
- Judges' Retirement System;
- State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan (E, G & C Plan);
- Prosecuting Attorneys' Retirement Fund (PARF);
- Legislators' Defined Contribution Plan (LDC Plan);
- Legislators' Defined Benefit Plan (LDB Plan);
- State Employees' Death Benefit Fund;
- Public Safety Officers' Special Death Benefit Fund; and
- Pension Relief Fund (PR Fund).

See Notes 1 and 2 for descriptions of these funds.

(B) Basis of Accounting

The financial statements of PERF have been prepared using the economic resources measurement focus and the accrual basis of accounting in conformity with generally accepted accounting principles as applied to government units. Under the accrual basis, revenues are recognized when earned, and expenses are recognized when liabilities are incurred, regardless of the timing of related cash

flows. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for established governmental accounting and financial reporting principles. PERF applies all applicable GASB pronouncements in accounting and reporting for its operations.

The PERF Board of Trustees administers seven pension trust funds, two death benefit funds accounted for as other employee benefit trust funds, and an investment trust fund. These fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of others.

The PERF Board of Trustees also has general fund accounts on the Auditor of State's accounting system. These are used to transfer general fund appropriations to certain funds. The accounts themselves are not included in these financial statements, but the appropriations are included as contributions in the funds for which the appropriations were made.

(C) Contributions

Contributions are recognized as revenues when due, pursuant to formal commitments as well as statutory or contractual requirements. Employers are not required to submit the contributions until the month following the end of the quarter. The estimates for contributions receivable at year-end for each of the retirement funds were determined on the basis that best represents that fund's receivable. The different bases include actual third quarter contributions received during the quarter ended June 30, 2010, actual contributions received in July for workdays in June, or a combination of the two.

(D) Benefits and Distributions

Pension benefits are recognized when due and payable. Initial benefits payments are made after processing the retirement applications. Annuity savings account distributions (refunds) are recognized when the distribution applications are due and payable.

(E) Administrative Expenses

An annual budget for the administrative expenses of PERF is reviewed and approved by the PERF Board of Trustees. Administrative expenses are paid from plan assets and investment earnings.

The PERF Plan pays the administrative expenses of all the funds. At June 30, a receivable is established in the PERF Plan and a payable in the other funds for the amount due to the PERF Plan for the other funds' administrative expenses.

(F) Deposits and Investments

At June 30, cash and securities of the funds were held by banks or trust companies under custodial agreements with PERF. The PERF Board of Trustees contracts with investment counsel, trust companies or banks to assist PERF in its investment program. The PERF Board of Trustees is required to diversify investments in accordance with the prudent investor standards. The investment policy statement adopted by the PERF Board of Trustees and the asset allocation approved by the PERF Board of Trustees contain limits and goals for each type of investment portfolio and specifies prohibited transactions. See Note 6 for more information.

(G) Method Used to Value Investments

GASB Statement Nos. 25 and 50 require that investments of defined benefit plans be reported at fair value. Short-term investments are reported at market value when available, or at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the official closing price at current exchange rates. Fair values of collective trust funds are determined by the fair value per share of the pool's underlying portfolio as provided by the trustee. Mortgages are valued on the basis of future principal

and interest payments and are discounted at prevailing interest rates for similar instruments. Values for limited partnership interests are those estimates most recently provided by the general manager, plus or minus cash flows transacted since the valuation date.

(H) Investment Unit Trust Accounting

In order to provide a consolidated rate of return for the pension funds and effectively invest in a diversified manner, the PERF Board of Trustees has directed that investment unit trust accounting be implemented and that the investments be commingled as allowed by state statutes. Unit trust accounting involves assigning units to each fund based on the share of the fund's investment fair value to the total fair value of the consolidated investments. The custodian bank prepares consolidated bank statements and fund statements that show the unit trust accounting activity. Investment earnings and appreciation increase the per unit value of all participating funds. Deposits and withdrawals for each fund change the number of units held by each fund. These changes are recorded at the unit value on the transaction date. Investment earnings or losses and fees for the total consolidated fund are allocated to each of the pension funds on a monthly basis using the pro rata fair value share at month end.

The CRIF is an internal investment pool as defined by the GASB. It is comprised of investment bank accounts that are maintained individually for each of the contracted investment managers. The CRIF includes all investments and transactions of the pension funds, except for the PERF Plan members' annuity savings accounts directed outside the guaranteed fund and a short-term investment account. The LDC Plan also has investment options other than the CRIF. The non-retirement funds administered by PERF are not included in the CRIF.

In accordance with GASB criteria for internal investment pools, the assets and liabilities of the CRIF are allocated pro rata to each of the retirement funds within the pool. This includes cash equivalents, securities lending collateral, accounts receivable and payable to brokers, accrued interest and the investment holdings. The financial statements recognize the investment purchases and sales on the trade date as required by the GASB.

(I) Investment and Contract Sales Receivables and Investments Payable

Investment and contract sales receivables and investments payable consists primarily of forward currency contracts, spot currency contracts, and receivables or payables for securities purchased or sold but not settled as of June 30, 2010.

(J) Other Investments

Other investments include warrants, overdrafts and investment in shares of limited liability partnerships.

(K) Building

PERF owns and resides in the building at 143 W. Market Street. The building is depreciated over 20 years using the straight-line method. At June 30, 2010 the accumulated depreciation on the building was approximately \$854,000.

(L) Equipment

Equipment with a cost of \$20,000 or more is capitalized at its original cost and depreciation is recognized in administrative expenses. Depreciation is computed on the straight-line method over the estimated useful life of the assets. Accumulated depreciation as of June 30, 2010, was approximately \$71,000. No new equipment was capitalized during the year.

(M) Intangible Assets

PERF is in the process of implementing new computer systems. GASB Statement No.51, Accounting and Financial Reporting for Intangible Assets, was implemented by PERF in 2009, and charges for development of internally generated computer software in the

amount of \$2.4 million were capitalized during the year ended June 30, 2010. PERF began using the financial system portion of the implementation in November 2009. Amortization is computed on the straight-line basis over a 5 year period. Accumulated amortization as of June 30, 2010 was approximately \$571,000.

(N) Inventories

Inventories of consumable supplies are not recognized on the *Statement of Fiduciary Net Assets* since they are considered immaterial. Purchases of consumable supplies are recognized as expenses at the time of purchase.

(O) Reserves and Designations

Listed below are the legally required reserves and other designations of fund equity.

1. Member Reserve – The member reserve represents member contributions made by or on behalf of the members plus any earnings, less amounts distributed or transferred to the benefits in force reserve for retirement, disability or other benefits. For the PERF Plan, this reserve is the members' annuity savings accounts. Member reserves are fully funded.

2. Employer Reserve – This reserve consists of accumulated employer contributions, plus earnings, less transfers made to the benefits in force reserve. The funding status of the employer reserve is outlined in Note 5 and accompanying Required Supplementary Information.

3. Benefits in Force – This reserve represents the actuarially determined present value of future benefits for all members who are currently retired or disabled and survivors of members who died in service. The accumulated contributions of the members who elect to annuitize their annuity savings accounts and the actuarial pension cost are transferred to the reserve upon retirement or disability. This reserve is fully funded based on the latest actuarial valuation.

4. Undistributed Investment Income Reserve – This reserve is credited with all investment earnings. Interest transfers are made periodically during the year to the other reserves as allowed or required by the individual funds' statutes. The transfers are at rates established by the PERF Board of Trustees, statutes or the actual earning rates of the investment options, depending on the statutes of the individual funds. The budget for the next fiscal year is transferred to the administrative expense designation. Any remaining balance (positive or negative) is transferred to the employer reserve and allocated to the employers of the funds.

(dollars in thousands)

Retirement Funds	Member Reserve	Employer Reserve	Benefits in Force	Undistributed Income
PERF Plan	\$ 2,780,570	\$ 3,168,099	\$ 4,507,839	\$ -
1977 Fund	635,073	1,579,292	818,921	-
Judges' Retirement System	23,254	23,403	161,738	-
E, G & C Plan	6,267	21,242	33,666	-
PARF	20,902	(9,545)	11,074	-
Legislators' Retirement System –				
LDC Plan	22,356	N/A	N/A	-
LDB Plan	N/A	490	2,905	-

5. Administrative Expense – This designation represents the following fiscal year’s administrative budget in the PERF Plan, which initially pays administrative expenses. The budget for the fiscal year ending June 30, 2011 includes total expenditures of approximately \$151.2 million, including investment manager fees and capital expenditures.

(P) Compensated Absences

PERF’s full-time employees are permitted to accumulate earned but unused vacation and sick pay benefits. Vacation leave accumulates at the rate of one day per month and sick leave at the rate of one day every two months plus an extra day every four months. Bonus vacation days are awarded upon completion of five, 10 and 20 years of employment with PERF and/or the state of Indiana. Personal leave days are earned at the rate of one day every four months; any personal leave accumulated in excess of three days automatically becomes part of the sick leave balance. Upon separation from service, employees in good standing will be paid for a maximum of 30 unused vacation leave days.

No liability is reported for unpaid accumulated sick leave. Vacation and personal leave are reported as Compensated Absences Liability.

(Q) PERF Annual Pension Cost and Net Pension Obligation

PERF is a discretely presented component unit of the state of Indiana, and PERF employees are combined with the state of Indiana for actuarial purposes.

As of June 30, 2009, PERF contributed \$.5 million representing 125% of the Annual Pension Cost.

The Annual Pension Cost and Net Pension Obligations, and the historical trend information for the state of Indiana PERF Plan are as follows:

Annual Pension Cost and Net Pension Obligation (Asset) (dollars in thousands):

Annual required contribution	107,981
Interest on net pension obligation	(4,389)
Adjustment to annual required contribution	5,002
Annual pension cost	108,594
Contributions made	(111,214)
Increase (decrease) in net pension obligation	(2,620)
Net pension obligation, beginning of year	(60,541)
Net pension obligation, end of year	(63,161)
Contribution rate	7.0%

Three-Year Trend Information

(dollars in thousands)

Actuarial Valuation Date	Annual Pension Cost (APC)	% of APC Contributed	Net Pension Obligation
July 1, 2009	108,594	102.4%	(63,161)
July 1, 2008	99,675	107.2%	(60,541)
July 1, 2007	97,043	92.5%	(53,349)

(R) Transfers to and from Teachers' Retirement Fund

If a member who has service in both TRF and PERF chooses to retire from a PERF Plan, PERF will use the member's TRF service and annuity savings account balance at the time of retirement to calculate the member's retirement benefit. Likewise, if such a member chooses to retire from a TRF covered position, TRF will use the member's PERF service and annuity savings account balance. The respective fund sets up a receivable for both the annuity savings account and the calculated reserve for the pension for those members retiring from their fund with service in the other fund. The receivable is included as a line item in the receivable section of the *Statement of Fiduciary Net Assets*. Likewise, a payable is set up for the amount due to the other funds, in the liabilities section of the *Statement of Fiduciary Net Assets*.

(S) Adoption of New Accounting Standard

In June 2008, the GASB issued Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, effective for financial statements for periods beginning after June 15, 2009. The provisions of Statement No. 53 address the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. A key provision is that certain derivative instruments now be reported at fair value in the financial statements. PERF has implemented the provisions of Statement No. 53 for the fiscal year ended June 30, 2010.

Note 4. Contributions Required and Contributions Made

(A) Public Employees' Retirement Fund

The state of Indiana and any political subdivision that elects to participate in the PERF Plan is obligated by statute to make contributions to the plan. The required contributions are determined by the PERF Board of Trustees based on actuarial investigation and valuation. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension portion of the retirement benefit (normal cost) and the amortization of unfunded liabilities.

The actuarial cost method used in the valuation is the entry age normal cost method in accordance with IC 5-10.2-2-9. Under this method as applied to the PERF Plan, a normal cost is determined for each active participant which is the level percentage of compensation needed as an annual contribution from entry age to retirement age to fund projected benefits.

The unfunded actuarial accrued liability on any valuation date is the accumulated value of such normal costs for each non-retired participant from entry date to the valuation date less the value of assets for non-retired members at that date. This unfunded actuarial liability is compared to the expected unfunded actuarial accrued liability, which is determined as the prior valuation unfunded liability reduced by scheduled amortization payments and increased by interest at the actuarially assumed rate. Any changes between the actual actuarial accrued liability and expected actuarial accrued liability due to changes in benefit levels (excluding COLAs), changes in actuarial assumptions, and actuarial experience gains or losses are amortized over a 30-year period.

The actuary calculates actuarial assets using an asset smoothing method for the determination of the employer actuarially required contribution. Under the smoothing method, actuarial assets are equal to 75 percent of the expected actuarial assets plus 25 percent of the market value of assets. The expected actuarial value of assets is equal to the preceding year's actuarial assets adjusted for non-investment related transactions and increased by interest at the actuarially assumed rate.

The required contribution levels are determined under the assumption that a 1.5 percent COLA will be granted in each future year, applying not only to then current retirees, but also to active members who have yet to retire. The full effect of a 1.5 percent annual COLA is handled on a pre-funded basis.

(B) 1977 Police Officers' and Firefighters' Pension and Disability Fund

The funding policy for the 1977 Fund is mandated by statute that requires quarterly remittances of member and employer contributions based on percentages of locally established estimated salary rates rather than actual payroll. The member contribution rate is not actuarially determined but was established by statute at 6 percent of the salary of a first class officer or firefighter.

The employer contribution rate is actuarially determined using the entry age normal cost method. The total required to actuarially fund normal cost is reduced by the total estimated member contributions. As the 1977 Fund is a cost-sharing system, all risks and costs, including benefit costs, are shared proportionally by the participating employers. All participating employers are required to contribute 19.5 percent of the salary of a first class officer or firefighter during the calendar year.

Effective July 1, 2009 the valuation date for measuring assets and liabilities of the 1977 Fund for actuarial purposes was changed from January 1 to July 1.

(C) Judges' Retirement System

Employer contribution requirements for the Judges' Retirement System are not actuarially determined but are established by statute (IC 33-38-6-17) and appropriations. There is an appropriation from the state of Indiana General Fund for each biennium to the Judges' Retirement System based on the recommendation of the actuary.

(D) State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan

The funding policy for the E,G & C Plan provides for biennial appropriations authorized by the Indiana General Assembly which, when combined with anticipated member contributions, are sufficient to actuarially fund benefits (normal cost), amortize the unfunded accrued liability over 30 years and prevent the state's unfunded accrued liability from increasing. State of Indiana statute defines the funding policy. Effective July 1, 2007, member contributions, defined by statute as 4 percent of annual salary, are remitted to the fund upon each payroll.

The significant actuarial assumptions used to determine contribution requirements include: rate of return on the investment of present and future assets of 7.25 percent per year, compounded annually; projected salary increases of 4.5 percent per year, compounded annually; and assets valued by smoothed market value basis.

(E) Prosecuting Attorneys' Retirement Fund

The amount required to actuarially fund the PARF participants' retirement benefits, as determined by the PERF Board of Trustees on the recommendation of the actuary, is to be appropriated from the state of Indiana General Fund. Members contribute 6 percent of the state paid portion of their annual salary.

(F) Legislators' Retirement System

For the LDC Plan, each participant is required to contribute 5 percent of annual salary. In addition, the state of Indiana is required to contribute a percentage of the member's annual salary on behalf of the participant as determined by PERF and confirmed by the State

Budget Agency each year. Effective January 1, 2010 the rate was established at 9.5 percent. For the LDB Plan, the amount required to actuarially fund participants' retirement benefits, as determined by the PERF Board of Trustees on the recommendation of the actuary, is to be appropriated from the state of Indiana General Fund.

(G) Other Contribution Information

Beginning with the July 1, 2007 actuarial valuations for the PERF Plan, E,G & C Plan, and PARF, smoothing rules were applied to the employer contribution rate to help reduce wide variations in the employer contribution rates from year to year. Beginning with the January 1, 2007 actuarial valuation for the 1977 Fund, the same smoothing rules were applied.

Note 5. Funded Status and Funding Progress – Pension Plans

The funded status of each plan as of July 1, 2009, the most recent actuarial valuation date, is as follows:

Retirement Plans (dollars in thousands)	Actuarial Value of Plan Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfund- ed AAL or (Funding Excess) (b-a)	Funded Ratio (a/b)	Annual Covered Payroll (c)	Unfunded AAL or (Funding Excess) as a Percentage of Covered Payroll ((b-a)/c)
PERF Plan	\$ 12,569,336	\$ 13,506,280	\$ 936,944	93.1%	\$ 4,931,423	19.0%
1977 Fund	3,265,598	3,332,686	67,088	98.0%	649,018	10.3%
Judges' Retirement System	240,954	330,551	89,597	72.9%	36,196	247.5%
E,G & C Plan	68,170	89,296	21,126	76.3%	25,238	83.7%
PARF	26,467	44,632	18,165	59.3%	20,782	87.4%
LDB Plan	4,730	5,087	357	93.0%	N/A	N/A

Actuarial valuations involve estimates of the value of reported amounts, such as salaries and credited service, and assumptions about the probability of events far into the future, such as employment terminations, deaths, disabilities, and retirements. Because of these estimates and assumptions, actuarially determined amounts are subject to periodic review and potential revision depending on results as compared to actual experience and reasonably anticipated future experience.

If a defined benefit pension plan is being funded based on reasonable actuarial funding methods and reasonable actuarial assumptions, then the actuarial value of plan assets and the actuarial accrued liability for benefits should, over time, approach equality. The required *Schedule of Funding Progress* immediately following the *Notes to the Financial Statements* presents multi-year trend information which should illustrate this trend. However it should be noted that, from year-to-year, plan enhancements and actual plan experience different from that assumed will make year-to-year comparisons variable.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future.

The calculations upon which an actuarial valuation are determined are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of cost sharing between the employer and the plan members.

Notes to the Financial Statements, continued – June 30, 2010

Actuarial calculations reflect a long term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Additional information as of the latest actuarial valuation follows:

Note 6. Deposits and Investments

Investment Guidelines and Limitations:

The Indiana General Assembly enacted the prudent investor standard to apply to the PERF Board of Trustees and govern all its investments. Under the statute (IC 5-10.3-5-3(a)), the PERF Board of Trustees must “invest its assets with the care, skill, prudence and diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims.” The PERF Board of Trustees also is required to diversify such investments in accordance with the prudent investor standard.

Within these governing statutes, the PERF Board of Trustees has broad authority to invest the assets of the plans. The PERF Board of Trustees utilizes external investment managers, each with specific mandates to implement the investment program. Depending on the mandate and the contractual agreement with the investment manager, investments may be managed in separate accounts, commingled accounts, mutual funds or other structures acceptable to the PERF Board of Trustees.

The PERF Board of Trustees approved a new asset allocation for the CRIF on October 17, 2008.

Asset Classes	Target Norm	Allowable Ranges
Equities	40%	30% - 50%
Fixed Income - Core & Core Opportunistic	20	15 - 25
Fixed Income - TIPS	10	5 - 15
Alternatives – Private Equity	10	5 - 15
Alternatives – Real Assets	10	5 - 15
Alternatives – Absolute Return	10	5 - 15

Investments in the PERF annuity savings accounts and the LDC Plan are directed by the members in each plan and as such the asset allocation will differ from that of the CRIF. The Pension Relief Fund is invested 100 percent in a money market fund. The Special Death Benefit Funds are 100 percent fixed income.

Custodial Credit Risk

Custodial credit risk is the risk that PERF will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of PERF and are held by either the counterparty or the counterparty trust department’s agent, but not in PERF’s name.

There was no custodial credit risk for investments including investments related to securities lending collateral as of June 30, 2010. Per IC 5-10.3-5-4(a) and IC 5-10.3-5-5, securities held for the fund are held by banks under custodial agreements in the fund’s name. While PERF’s Investment Policy Statement does not specify custodial risk, statutes provide certain custodial requirements.

Deposit Risks

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized or collateralized with securities held by the pledging financial institution. Deposits held in the two demand deposit accounts are carried at cost and are insured up to \$250,000 each. Deposits in the demand accounts held in excess of \$250,000 are not collateralized.

Notes to the Financial Statements, continued – June 30, 2010

Deposits with the Indiana Treasurer of State are entirely insured. Deposits held with the investment custodian are insured up to \$250,000.

Cash Deposits (dollars in thousands)	Total	JP Morgan Chase	PNC Bank	Bank of New York Mellon
Demand deposit account – carrying value	\$ 1,350.0	\$ 980.1	\$ 27.7	\$ 342.2
Demand deposit account – bank balance	11,114.9	4,971.4	28.2	6,115.3
Held with Treasurer of State	7,699.0	-	-	-
Held with investment custodian:				
Cash	39,694.0	-	-	-

Credit Risk

PERF's IPS sets credit quality rating guidelines and benchmark indices for each of its sub-asset classes and is outlined in each portfolio manager contract. The guidelines and benchmarks are as follows: the Core fixed income portfolio (excluding TIPS) must maintain an average credit quality rating of at least A1 (Moody's) or the equivalent; securities must be rated at least Baa3 (Moody's) or the equivalent at the time of purchase unless specifically approved by the PERF Board of Trustees. In the case of a split rating, the higher rating will be used. The Core-Oppportunistic fixed income portfolio must maintain an average credit quality rating of at least investment grade by Moody's or the equivalent. The benchmark for the fixed income portfolio is the Barclays Capital Aggregate Bond Index and Barclays Capital Universal Bond Index. The Treasury Inflation Protection Securities (TIPS) and global linkers portfolio must substantially match the quality of its benchmarks, the Barclays Capital US TIPS Index and the Global Customized Benchmark, respectively. The quality rating of investments in debt securities as described by the Nationally Recognized Statistical Rating Organization (NRSRO) Standard and Poor's at June 30, 2010 is as follows:

Quality Rating (dollars in millions)	Fair Value	% of Portfolio
AAA	\$ 2,738.6	51.0%
AA	106.3	2.0
A	406.2	7.6
A-1	227.4	4.2
BBB	378.7	7.0
BB	103.3	1.9
B	87.8	1.6
CCC	78.2	1.5
CC	15.0	0.3
C	0.2	0.0
D	5.8	0.1
Not Rated	1,226.1	22.8
Total	\$ 5,373.6	100%

The credit risk schedule includes debt securities, short-term money market funds, bond mutual funds and bond commingled funds. Of the total fair value reported, approximately \$2.3 billion (43.3 percent) is AAA rated US Treasury, US Agency or US Agency Mortgage Backed Securities. The remaining balance of approximately \$3.0 billion (56.7 percent) consists of corporate debt, short-term custodial money market funds, commingled or mutual funds, municipal securities, asset-backed, mortgage-backed securities, and emerging markets debt of various credit quality ratings.

The \$1.2 billion not rated by Standard & Poor's is primarily in money market funds, mutual funds or commingled funds.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. PERF's IPS limits the purchase of securities of any one issuer (with the exception of the US Government and its agencies) to an initial cost of 5 percent or two times the benchmark weight of the market value of an investment manager's portfolio, whichever is greater. Through capital appreciation, no such holding should exceed 10 percent of the market value of the total holdings of such investment manager's portfolio, unless the Board approves an exception.

For investment managers contracted to manage concentrated portfolios, exposure to the securities issued by a single issuer (with the exception of the U.S. Government and its agencies) is limited to 7.5 percent or two times the benchmark weight of the market value of the investment manager's portfolio, whichever is greater. Through capital appreciation, no such holdings should exceed 15 percent of the market value of the total holdings of the investment manager's portfolio, unless the Board approves an exception.

At June 30, 2010, there was no concentration of credit risk for the CRIF.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Duration is a measure of interest rate risk. The greater the duration of a bond or a portfolio of bonds, the greater its price volatility will be in response to a change in interest rates and vice-versa. Duration, measured in years, is an indicator of a bond price's sensitivity to a 100 basis point change in interest rates.

PERF's IPS sets duration guidelines for the fixed income investment portfolio. The fixed income portfolios must substantially match the duration characteristics of the benchmark index. The Core fixed income portfolio limits the duration of the portfolio to not vary more than 20 percent above or below the duration of the applicable benchmark index. The duration of the Core Opportunistic portfolio may not vary more than 5 years above or below the duration of the benchmark index.

Duration information is provided below:

Investment Type (dollars in millions)	Net Asset Fair Value	% of Net Asset Fair Value	Duration
Short-term Investment Fund	\$ 1,039.2	18.1 %	0.00
Government & Agency Obligations	2,000.8	34.9	4.02
Residential & Commercial Mortgage- Backed Securities	790.2	13.8	1.52
Corporate Bonds	1,082.5	18.9	5.13
Asset-backed	180.6	3.1	0.72
Municipal Securities	21.7	0.4	8.25
Other ¹	620.7	10.8	0.57
Total Net Asset Fair Value	\$ 5,735.7	100 %	2.70

¹ Includes commingled funds, collective trusts, and derivatives

PERF investments are directly, or indirectly, sensitive to changes in the interest rate environment. Some derivative products, identified in the derivatives financial instruments section, are also sensitive to interest rate risk. Debt securities, debt securities mutual funds and commingled funds, and short-term cash and cash-equivalents represent the portions of the portfolio most sensitive to interest rate risk and are included in the duration information.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. PERF's foreign currency exposure is focused primarily in international equity holdings. Futures currency contracts are reported in the following schedule at gross exposure value. Forward currency contracts values include both receivables and payables.

PERF's IPS refers to foreign currency guidelines that are linked directly, or indirectly, to the benchmark indices for each sub-asset class or as outlined in each portfolio manager contract. The equity portfolio sub-asset classes have specific guidelines for international equities and global equity investments. Certain sub-asset classes do not allow emerging markets investments while some allow up to 30 percent of market value to be held in emerging markets. PERF has exposure to foreign currency fluctuation as follows:

Currency (dollars in millions)	Equity Securities	Debt Securities	Other Securities ¹	Total Fair Value	% of Foreign Currency	% of Total Investments (USD)
Euro	\$ 595.3	\$ 138.6	\$ 136.1	\$ 870.0	28.6%	6.5%
Pound Sterling	418.8	63.8	28.1	510.7	16.8	3.8
Japanese Yen	456.0	9.1	8.2	473.3	15.5	3.6
Hong Kong Dollar	152.2	0.0	18.0	170.2	5.6	1.3
Australian Dollar	124.0	7.0	24.0	155.0	5.1	1.2
Swiss Franc	121.8	0.0	5.1	126.9	4.2	1.0
Other	592.0	140.0	8.1	740.1	24.2	5.5
Total	\$ 2,460.1	\$ 358.5	\$ 227.6	\$ 3,046.2	100.0%	22.9%

¹Other securities include currencies, exchange traded funds (ETFs), forwards, futures, global depositary receipts (GDR), money markets, real estate investment trusts (REITs), rights, swaps, swaptions, and warrants.

Securities Lending

Indiana Code 5-10.2-2-13(d) provides that the PERF Board of Trustees may authorize a custodian bank to enter into a securities lending program agreement under which securities held by the custodian on behalf of PERF may be loaned. The purpose of such a program is to provide additional revenue for PERF.

Statute requires that collateral initially in excess of the total market value of the loaned securities must be pledged by the borrower and must be maintained at no less than the total market value of the loaned securities. The PERF Board of Trustees requires that collateral securities and cash be initially pledged at 102 percent of the market value of the securities lent. No more than 40 percent of CRIF's total assets may be lent at one time. The custodian bank and/or its securities lending subagents provide 100 percent indemnification to the PERF Board of Trustees and the CRIF against borrower default, overnight market risk and failure to return loaned securities. Securities received as collateral cannot be pledged or sold by the PERF Board of Trustees unless the borrower defaults. PERF retains the market value risk with respect to the investment of the cash collateral. Per the disclosure regarding last year's credit event PERF injected capital into the pool during fiscal year 2010 to bring the value of the collateral pool back to 102% of the market value of securities lent.

Cash collateral investments are subject to the investment guidelines specified by PERF's IPS. It states that the maximum weighted average days to maturity may not exceed 60. The average term to maturity of the cash collateral portfolio was approximately 25 days at June 30, 2010. The securities lending agent matches the maturities of the cash collateral investments with stated securities loans' termination dates. Cash collateral received for open-ended loans that can be terminated on demand are invested with varying maturities.

The fair value of securities lent for cash collateral at June 30, 2010

The credit quality of the cash collateral investments as described by Standard and Poor's at June 30, 2010

Investment Type (<i>dollars in millions</i>)	Loan Value	Cash Collateral Investments Quality Rating (<i>dollars in millions</i>)	Fair Value	Percent of Portfolio
Government Obligation	\$ 1,058.4	AAA	\$ 183.5	6.5%
Corporate Bonds	159.5	AA	110.0	4.9
Equities	936.2	A-1 and A-1+	1,830.7	84.2
		A2	-	-
Total Fair Value	\$ 2,154.1	Not Rated	97.9	4.4
		Total	\$ 2,222.1	100%

The majority of A-1 and A-1+ collateral investments are commercial paper. The majority of the Not Rated collateral investments are money market funds.

At June 30, 2010, PERF had loaned approximately \$238.3 million US Treasury and government agency obligations for securities collateral. The securities collateral value was approximately \$241.9 million which represented 102 percent coverage.

Note 7. Derivative Financial Instruments

Derivative transactions involve, to varying degrees, the following risks:

Market risk – Market risk is the possibility that a change in the referenced position will cause the value of a financial instrument to decrease or become more costly to settle. The market risk associated with derivatives, the prices of which are constantly fluctuating, is regulated by imposing strict limits as to the types, amounts and degree of risk that investment managers may undertake.

Interest Rate Risk — Interest rate risk is the risk of change in the market value of the assets due to a change in interest rates. Bond futures, interest rate swaps and interest rate swaptions are generally used to manage interest rate risk, adjust portfolio duration, or rebalance the total portfolio to the target asset allocation. A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Interest rate swap agreements involve the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments, with respect to the notional amount of principal. Interest rate swaptions are options to enter into an interest rate swaps based off a set of predetermined conditions. Refer to Note 6 for the interest rate risk of the Fund.

Credit Risk — Credit risk is the risk of change in the market value of assets due to the change in creditworthiness of the underlying issuer. Credit default swaps are used to achieve the desired credit exposure of a security or basket of securities. Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation or index.

Currency Risk — Currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Generally, currency futures, forward contracts and options are used to achieve the desired currency exposure, generate value-added performance, or rebalance the total portfolio to the target asset allocation. Foreign currency futures and forwards are agreements between two parties to buy and sell a set of currencies at a set exchange rates on a specified future dates. A currency option gives the buyer the right, but not the obligation, to buy one currency or sell another currency at a set exchange rate on or before a given date.

Equity Risk — Equity risk is the risk of a change in market value of assets due to the change in equity or equity index prices. Equity futures are generally used to achieve the desired market exposure of a security or index or rebalance the total portfolio to the target asset allocation. An equity futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date.

Future Settlement Risk — Future settlement risk is the risk of not receiving the asset or associated gains specified in the contract. Associated gains are derived from the change in market value of the contract due to a change in price of the underlying security. Mortgage to be announced (TBAs) and treasury forwards are used to achieve the desired market exposure of a security or asset class or adjust portfolio duration. A TBA is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed-upon date; similarly, a treasury forward is a contract for the purchase or sale of U.S. Treasury securities to be delivered at a future agreed-upon date.

PERF's IPS authorizes the use of derivative instruments as a meaningful component of the strategies within the absolute return and commodities allocations. The fair value of total investments in the absolute return portfolio was \$1.1 billion and the fair value of total investments in the commodities portfolio was \$568 million at June 30, 2010. PERF's directly held investments in derivatives are not leveraged. In the case of an obligation to purchase (long a financial future or a call option), the full value of the obligation is held in cash or cash equivalents. For obligations to sell (short a financial future or buy a put option), the reference security is held in the portfolio. During the year, PERF's derivative investments included but were not limited to, foreign currency forward contracts, swaps, options, TBAs and futures. The table below summarizes PERF's derivative information for the year ending June 30, 2010:

Derivative Type <i>(dollars in thousands)</i>	<u>Changes in Fair Value</u>		<u>Fair Value at June 30, 2010</u>		<u>Notional</u>
	<u>Classification</u>	<u>Amount</u>	<u>Classification</u>	<u>Amount</u>	
Governmental activities	N/A	N/A	N/A	N/A	N/A
Business-type activities	N/A	N/A	N/A	N/A	N/A
Fiduciary funds					
<u>Hedging derivatives</u>	N/A	N/A	N/A	N/A	N/A
<u>Investment derivatives</u>					
Futures	Realized and unrealized gain (loss)	\$ 35,154.9	Equity	\$ 1,383.6	\$ 12.1
Options	Realized and unrealized gain (loss)	3,872.7	Other	(1,798.4)	(214,100.7)
Swaps	Realized and unrealized gain (loss)	3,725.0	Other	2,154.4	890,191.7
TBAs	Realized and unrealized gain (loss)	9,760.9	Debt	135,912.9	126,900.0
Forward currency contracts	Realized and unrealized gain (loss)	4,562.4	Cash	(775.4)	224,830.2

Foreign currency forward contracts are used to hedge against the currency risk in PERF's foreign equity stock and debt security portfolios. A foreign currency forward contract is an agreement to buy or sell a specific amount of a foreign currency at a specified delivery or maturity date for an agreed-upon price. Fluctuations in the market value of foreign currency forward contracts are marked to market on a daily basis.

At June 30, 2010, PERF's investments included the following currency forwards balances (dollars in millions):

Forward Currency Contract Receivables	\$783.7
Forward Currency Contract Payables	\$779.6

PERF's investment managers use financial futures to replicate an underlying security or index they intend to hold or sell in the portfolio. In certain instances, it may be beneficial to own a futures contract rather than the underlying security. Additionally, PERF's investment managers use futures contracts to adjust the portfolio risk exposure. A financial futures contract is an agreement to buy or sell a specific amount at a specified delivery or maturity date for an agreed-upon price. Financial future positions are recorded with a corresponding offset, which results in a carrying value equal to zero. As the market value of the futures contract varies from the original contract price, a gain or loss is recognized and paid to, or received from, the clearinghouse. The cash or securities to fulfill these obligations are held in the investment portfolio. Futures contracts may be used for the purpose of investing cash flows or modifying duration but in no event may leverage be created by any individual security or combination of securities.

A derivative instrument could be a contract negotiated on behalf of the Master Trust and a specific counterparty; this would typically be referred to as an "over the counter (OTC) contract" such as swaps, forward contracts and TBAs. Alternatively, a derivative instrument, such as futures, could be listed and traded on an exchange and referred to as "exchange traded."

Inherent in the use of OTC derivatives, the Master Trust is exposed to counterparty credit risk on all open OTC positions. Counterparty credit risk is the risk that a derivative counterparty may fail to meet its payment obligation under the derivative contract. As of June 30, 2010, the Master Trust counterparty risk was not deemed to be significant, whether evaluating counterparty exposure outright or netting collateral against net asset positions on contracts with each counterparty. Additionally, with the use of collateral, master netting agreements assist in mitigating counterparty credit risk.

Credit Risk

Counterparty	Quality ratings of counterparty	Fair value exposure (dollars in thousands)	
HSBC Bank USA	AA	\$	1,200.5
Barclays Bank	AA-		991.9
J.P. Morgan	AA-		973.4
Bank of America	A+		910.8
Bank on New York Mellon	AA		639.0
Societe Generale SA	A+		610.8
Royal Bank of Canada	AA-		410.9
Brown Brothers Harriman	A+		225.1
BNP PARIBAS S.A.	AA		87.8
Standard Chartered Bank	A		77.1
State Street Bank & Trust	AA-		39.2
Royal Bank of Scotland	A+		24.9
Citibank	A+		10.5
Goldman Sachs & Co	A		3.9
Morgan Stanley Capital Services Inc.	A		(0.9)
Credit Suisse	A+		(86.2)
Deutsche Bank	A+		(416.8)

The aggregate amount of plan collateral with brokers was \$1.06 million, while the aggregate amount of collateral posted by counterparties was \$2.8 million. The aggregate amount of liabilities included in netting arrangements was \$1.2 million. Securities

eligible as collateral are typically United States government bills and US dollar cash. Collateral movement threshold is typically zero with a \$.25 million minimum transfer account per counterparty, per account. It is important to note that margin may be called at a minimum weekly, with the ability to call as frequently as daily.

The Master Trust may be subject to credit-related contingent features for those contracts governed by an International Swaps and Derivatives Association Master Agreement (generally swaps) with each counterparty for each open contract in a net liability position. In those instances, the Master Trust is generally regarded as having liquidity risk. In the event the Master Trust's assets decline by various, pre-specified rates over predetermined time periods, the Master Trust is either required to post more collateral or may be required to pay off the open liability contracts given the counterparties right to terminate the contract. At June 30, 2010, the Master Trust had a fair value of \$29.6 million in contracts in a net liability position with contingent features; \$1.1 million was posted in collateral against those positions. Contingent features that could result in an immediate payment from the counterparty include a downgrade of the counterparty below a specified rating, commonly A-/A3. Additionally, immediate payment can be made to the counterparty in the event assets under management of the portfolio falls below certain thresholds. It is important to note that these contingent features are not compulsory, rather they are voluntary.

Note 8. Long Term Commitments for Alternative Investments

PERF had entered into long term commitments for funding alternative investments in private equity, private real estate, and absolute return of approximately \$3.7 billion as of June 30, 2010. The fund has disbursed approximately \$1.76 billion toward the commitments as of June 30, 2010. The expected investment term of these commitments extend through 2028. These amounts include five Euro-denominated and one Norwegian Kroner-denominated commitments to limited liability partnerships converted to United States dollars at the closing exchange rate as of June 30, 2010.

Note 9. Risk Management

PERF is exposed to various risks of loss. These losses include damage to property owned, personal injury or property damage liabilities incurred by an officer, agent or employee, malfeasance and theft by employees, certain employee health and death benefits, and unemployment and worker's compensation costs for employees.

PERF's policy is generally not to purchase commercial insurance for the risk of losses to which it is exposed. Instead it records as an expense any loss as the liability is incurred or replacement items are purchased. PERF does carry general liability, property, and business interruption insurance, as well as a blanket bond and excess coverage on specific employees. The PERF Board of Trustees administers the state of Indiana's risk financing activity for the state employees' death benefits.

Note 10. Required and Other Supplementary Information

The historical trend information designed to provide information about PERF's progress in accumulating sufficient assets to pay benefits when due is *Required Supplementary Information*. The schedules are included immediately following the *Notes to the Financial Statements*. Other Supplementary Information is presented for the purpose of additional analysis and is not a required part of the Financial Statements.

Note 11. Subsequent Events

Member Accounts

Effective August 2, 2010, the existing LDC and PERF annuity savings account investment options were expanded to include target date funds. In addition, member accounts were converted from a quarterly valuation to daily valuation environment.

Legislative Changes

Below is a summary of significant legislative changes that are effective July 1, 2010.

Public Employees' Retirement Fund

- Certain members of PERF fund may withdraw their annuity savings account (ASA) if the member has separated employment and is not employed in a covered position for 30 days following.
- PERF members, beneficiaries, and survivors will receive a thirteenth check based on years of service, to be paid not later than October 1, 2010.

1977 Police Officers' and Firefighters' Pension and Disability Fund

- A 2.4 percent COLA will be calculated and paid effective July 1, 2010.
- A member of the 1977 Fund may purchase, at full actuarial cost, service earned out of state in a position for which the 1977 Fund would have given credit if the service were earned in Indiana.
- A member of the 1977 Fund may purchase, at full actuarial cost, prior service in certain public retirement funds.

Judges' Retirement System

- Full-time magistrates serving after July 1, 2010 are eligible to participate beginning on the later of January 1, 2011 or the date the person begins service as a full-time magistrate. Full-time magistrates serving before July 1, 2010 who make an election pursuant to IC 33-38-8-10.5 are eligible to participate on or after January 1, 2011.
- For participants who apply to receive a retirement benefit prior to January 1, 2010, and for those who separate from service prior to January 1, 2010 and who are eligible for a retirement benefit in the fiscal years beginning after June 30, 2010, participants will receive a cost of living allowance of a percentage increase equal to the increase in the salary of the judges' position from which the judge retired.

Board of Trustees

State of Indiana Public Employees' Retirement Fund

143 West Market Street

Indianapolis, IN 46204

Dear Trustees:

Mercer is pleased to present the State of Indiana Consolidated Retirement Investment Fund (CRIF) results for the fiscal year ended June 30, 2010.

As of June 30, 2010, the CRIF had a market value of \$13.3 billion, an increase of \$1.5 billion since June 30, 2009. The increase in assets was due to positive investment performance over the one-year period. During the previous twelve months:

- The U.S. economy began to stabilize as the financial situation improved. GDP growth was positive in all four quarters; however, the unemployment rate remained steady at 9.5% over the one-year period. Reflective of improving economic conditions, oil prices and stock prices showed positive signs of growth. Housing prices, as measured by the S&P/Case-Shiller 20-City Composite Home Price Index, increased 4.6% over the past twelve months as of May 2010. The broad market rebounded and rallied during the first three quarters of the past year, but suffered significant losses in the last quarter as the European debt crisis and fears of a double-dip recession surfaced. The Federal Open Market Committee left the Federal Funds Rate unchanged, at a target rate of 0.00% to 0.25%.
- The U.S. equity markets improved over the trailing one-year period. The S&P 500 Index, an index of domestic large capitalization stocks, increased 14.4% while smaller capitalization stocks, as measured by the Russell 2000 Index, grew 21.5%. Value stocks outpaced growth stocks in the large, mid and small cap spaces. The consumer discretionary (+26.1% return) and industrials (+24.6% return) sectors were the best performers in the S&P 500 Index while the telecommunication services (-2.1% return) and energy (-0.1% return) sectors experienced negative results.
- Developed international equity markets trailed their domestic counterparts over the past year, returning 6.4% in U.S. Dollar terms, as measured by the MSCI EAFE (Europe, Australasia and Far East) Index. Sweden (+30.8% return) and Singapore (+29.4% return) were among the top performing developed markets while Greece (-46.7% return) significantly underperformed. The MSCI Emerging Markets Index increased 23.5% in U.S. Dollar terms over the same time period, indicating that emerging markets continued to outperform developed markets. Indonesia (+66.9% return), Colombia (+53.6% return) and Peru (+52.2% return) led all emerging markets as Morocco (-11.2% return) lagged.

- The investment grade fixed income market performed positively over the trailing one-year period, returning 9.5% as measured by the Barclays Capital Aggregate Bond Index. Intermediate-term bonds (+8.3% return) lagged longer-term issues (+16.5% return) during the period. The Barclays Capital High Yield Bond Index returned 26.8% over the same period, significantly outperforming their investment grade counterparts. The mortgage sector, as measured by the Barclays Capital Mortgage-Backed Securities Index, returned 7.5% while Treasuries, as measured by the Barclays Capital Treasury Index, returned 6.7%.

Within this environment, the CRIF rose 13.6% (net of fees) during the one-year period ending June 30, 2010, outpacing the Target Reference Index (+10.7% return) and the Dynamic Index (+11.7% return). Three-year (-6.1% return) and five-year (+1.5% return) performance lagged the benchmarks. Longer-term underperformance can partially be attributed to relative results in the domestic equity segment of the Fund. Conversely, the international equity, fixed income and alternative investments segments outperformed their benchmarks over the trailing three- and five-year periods.

The CRIF's domestic equity managers collectively appreciated 15.7% (net of fees) during the trailing year, approximating the Russell 3000 Index. TimesSquare and Numeric outperformed their respective benchmark measures while T. Rowe Price, Wells and Artisan underperformed. Collectively, the CRIF's domestic equity managers trailed the Russell 3000 Index over the three and five-year periods.

The Fund's international equity segment returned 9.7% (net of fees) over the trailing twelve months, lagging the MSCI ACWI Ex-US Index by 1.2%. On a relative basis, Mondrian and Baillie Gifford outperformed while Schroders lagged its benchmark. Over the three- and five-year periods, the international equity segment of the CRIF outpaced the MSCI ACWI Ex-US Index.

The fixed income portion of the Fund, excluding Treasury Inflation-Protected Securities (TIPS), returned 16.3% (net of fees) over the trailing one-year period, outpacing the blended Barclays Capital Aggregate Bond Index / Barclays Capital US Universal Index return of 10.1%. The Fund's TIPS managers gained 10.2% (net of fees) over the same one-year period, outpacing the Dynamic Benchmark by 90 basis points. The combined fixed income portfolio outperformed the blended index over the three- and five-year periods.

The past twelve months were a positive period for the Fund on both an absolute and relative basis. Mercer continues to have confidence in the Fund's structure and managers moving forward.

Sincerely,

Douglas J. Kryscio, CFA
Partner

Outline of Investment Policies

The PERF Board of Trustees serves as the ultimate fiduciary of PERF. The PERF Board of Trustees is comprised of six members. Five members are appointed by the governor of Indiana and the sixth is the director of the state's budget agency or his/her designee. One must be a member of the PERF plan with at least 10 years of creditable service. Additionally, one trustee must be a member of: (a) the PERF plan, (b) a state collective bargaining unit, or (c) a labor union that represents the state. No more than three of the trustees may be of the same political affiliation. The PERF Board of Trustees appoints the executive director of PERF subject to the approval of the governor.

The PERF Board of Trustees operates under the prudent investor standard in overseeing investment activities, acting "with the care, skill, prudence and diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims."

Prior to May 1997, PERF was prohibited from investing in equities. At that time, the PERF Board of Trustees authorized re-balancing the portfolio by investing in diversified equity asset classes. As stated in the *Notes to the Financial Statements*, the Consolidated Retirement Investment Fund (CRIF) includes all investments and transactions of the pension trust funds. The other employee benefit trust and investment trust funds administered by PERF are excluded from the CRIF. A breakdown of each pension trust fund's share of the CRIF and the asset allocation of the total portfolio is provided in this section.

The investment policy statement (PERF's IPS) and corresponding addenda cover all assets under the PERF Board of Trustees' control. The purpose of the Investment Policy is to:

- Set forth appropriate and prudent investment policies in consideration of the needs of PERF legal requirements applicable to PERF and to direct investment of the Fund's assets.
- Establish criteria against which the investment managers are to be measured.
- Communicate the investment policies, objectives, guidelines and performance criteria of the PERF Board of Trustees to the staff, investment managers, consultants and all other interested parties.
- Serve as a review document to guide the ongoing oversight of the investments of PERF.
- Demonstrate that the PERF Board of Trustees is fulfilling its fiduciary responsibilities in the management of the investments of PERF solely in the interests of members and their beneficiaries.

Maintenance of adequate funding to provide for the payments of the plans' actuarially determined liabilities over time at a reasonable cost to the members, the employers, and the taxpayers of the state is the primary consideration. In order to determine the appropriate asset allocation and diversification of PERF to meet the objectives described above, the PERF Board of Trustees conducts asset and liability modeling studies as necessary. In addition, the asset allocation is reviewed by the Board of Trustees periodically, but no less frequently than every three years.

The investment portfolio includes long-term commitments to the following asset classes: domestic equity, international equity, fixed income, Treasury Inflation Protected Securities (TIPS) and alternative investments.

The PERF Board of Trustees employs professional investment managers selected through a due diligence search process. This process incorporates the state of Indiana's statutory requirements supported by staff and consultant coordination and analysis. It is the PERF

INVESTMENT SECTION

Outline of Investment Policies, continued

Board of Trustees' intent that the selection process be open to all qualified organizations wishing to participate. Investment managers are required to comply with stated investment guidelines detailed in PERF's IPS. Investment manager performance is measured against applicable benchmarks as well as a comparable peer group of investment managers.

The Guaranteed Fund provides a guarantee of the value of an individual's contributions plus any interest credited. As set by the PERF Board of Trustees, the actual investments of the Guaranteed Fund are the same as the general PERF portfolio. The PERF Board of Trustees annually establishes the interest crediting rate for the Guaranteed Fund based on a uniform methodology. The interest crediting rate for the Guaranteed Fund during the last 10 years is included in the Investment Highlights of this section on page 84.

Investment Summary

June 30, 2010
(dollars in millions)

Indiana Public Employees' Retirement Fund
Board of Trustees
143 West Market Street, Suite 500
Indianapolis, IN 46204

Dear Members of the Board:

Certification of Actuarial Valuations

The actuarial data presented in this report describes the current actuarial condition of the defined benefit pension plans ("Plans") administered by the Indiana Public Employees' Retirement Fund ("PERF"). Valuations are prepared annually as of July 1 for all Plans. Previously the 1977 Police Officers' and Firefighters' Pension and Disability Fund had Valuations prepared annually as of January 1 but effective July 1, 2010, their valuations will also be prepared as of July 1.

Under PERF statutes, employer contribution rates are certified annually for each Plan by the Board of Trustees. These rates are determined actuarially, based on the Board's funding policy. Contribution rates for the PERF Plan as determined by a given actuarial valuation become effective eighteen months after the valuation date (12 months for state employees). For example, the rates determined by the July 1, 2009 actuarial valuation were used by the Board when certifying the employer contribution rates for the year beginning January 1, 2011 (or for the year beginning July 1, 2010 for state employees). If new legislation is enacted between the valuation date and the date the contribution rates become effective, the Board may adjust the recommended rates before certifying them, in order to reflect this new legislation. Such adjustments are based on information supplied by the actuary.

Funding Objectives and Funding Policy

In setting contribution rates, the Board's principal objectives have been:

- to set rates so that the unfunded actuarial accrued liability ("UAAL") will be amortized over a fixed period.
- to set rates so that they remain relatively level over time.

Funding Objectives and Funding Policy, continued

To accomplish this, the Board's funding policy requires that the employer contribution rate be equal to the sum of the employer normal cost rate (which pays the current year's cost) and an amortization rate which results in the amortization of the UAAL in equal installments.

The Board has historically adopted smoothing rules to the political subdivisions of PERF (except for State Employees) in the determination of the employer contribution rates to reduce the variability of these rates.

Beginning with 2007, the smoothing rules were extended to the determination of the employer contribution rates for PERF State employees and for the State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan, the 1977 Police Officers' and Firefighters Pension and Disability fund, and the Prosecuting Attorneys Retirement Fund.

For 2008 an additional smoothing rule was adopted which stated that any employer contribution amount or rate developed based on the 2008 valuation could not be less than the employer contribution amount or rate based on the 2007 valuation. This smoothing rule was adopted in anticipation of the recent economic downturn much of which happened after the 2008 actuarial valuation dates. This new smoothing rule was continued for the 2009 valuations but will be reconsidered in future years.

No membership growth is anticipated in setting the contribution rate. This is consistent with GASB #25, which prohibits anticipating membership growth in determining the minimum Annual Required Contribution ("ARC").

Under this policy, the objectives of amortizing the UAAL and maintaining relatively level contribution rates over time are achieved.

Progress Toward Realization of Financing Objectives

The funded ratio (the ratio of the actuarial value of assets to the actuarial accrued liability) is a standard measure of a Plan's funded status. In the absence of benefit improvements, it should increase over time, until it reaches 100%. The combined funded ratio for all Plans decreased by about 1% from the preceding year due primarily to net actual experience losses when compared to the experience anticipated by the actuarial assumptions.

Benefit Provisions

The benefit provisions reflected in this report are those which were in effect on each Plan's valuation date. None of the pension funds had any material changes in benefit provisions from the 2008 valuations.

Assumptions and Methods

Actuarial assumptions and methods used in the valuation are set by the Board, based upon the recommendations of the actuary. The actuary reviews actual plan experience before making these recommendations. The last such review of actuarial assumptions was carried out in connection with the July 1, 2006 actuarial valuation for the PERF Plan and the January 1, 2003 actuarial valuation for the 1977 Municipal Police and Fire pension plan.

Data

Member data for retired, active and inactive members was supplied as of each Plan's valuation date by PERF. The data was in a different format and was of higher quality when compared to data received for prior valuations. We did not audit this data, but we did apply a number of tests to the data, and we concluded that it was reasonable and consistent with the prior year's data. Asset information for each Plan was also supplied by PERF.

Certification

We certify that the information presented herein is accurate and fairly portrays the actuarial position of each Plan administered by PERF as of each Plan's 2009 valuation date.

We prepared the data contained within the exhibits in the "Actuarial Section" which include Summary of Actuarial Assumptions and Methods, the Reconciliation of Changes in Unfunded Actuarial Accrued Liabilities, the Solvency Tests, the Schedules of Active Member Valuation Data, and the Schedules of Retirees and Beneficiaries. In addition, we prepared the data for the Schedules of Funding Progress and Schedules of Employer Contributions in the "Financial Section." We have reviewed all of these exhibits for accuracy.

All of our work conforms with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. In our opinion, our calculations also comply with the requirements of Indiana state law and, where applicable, the Internal Revenue Code, Employee Retirement Income Security Act (ERISA), and the Statements of the Governmental Accounting Standards Board. We are each independent Enrolled Actuaries and Members of the American Academy of Actuaries and experienced in performing valuations for large public retirement systems.

If you have any questions or require additional information, please don't hesitate to contact us.

Sincerely,

Douglas Todd

ACTUARIAL SECTION

Summary of Actuarial Assumptions and Methods as of July 1, 2009

Note 1: Prior to July 1, 2003, the COLA assumption was assumed to be 2 percent for the remaining lifetime of the benefit recipient. Effective July 1, 2003, the time period for the actuarial assumption for COLA was changed from the remaining lifetime of the benefit recipient to five years from the valuation date. This change was applied to the Indiana Public Employees' Retirement Fund (PERF Plan), the State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan, and the Legislators' Defined Benefit Plan. Effective July 1, 2004, the COLA assumption was assumed to be 0.5 percent for the remaining lifetime of the benefit recipient. Effective July 1, 2005, the COLA assumption was assumed to be 1 percent for the remaining lifetime of the benefit recipient. Effective July 1, 2006, the COLA assumption was assumed to be 1.5 percent for the remaining lifetime of the benefit recipient. These changes were applied to the PERF Plan, the State Excise Police, Gaming Agent, Gaming Control Officer and Conservation Enforcement Officers' Retirement Plan, and the Legislators' Defined Benefit Plan. An additional benefit payment, known as a 13th check, has been provided to the PERF members in lieu of a COLA for the past two years; therefore, effective July 1, 2009, the COLA assumption was changed to one percent for the remaining lifetime of the benefit recipient.

Note 2: All systems are using the 1994 U.S. UP-94 (sex distinct) for post-retirement.

Note 3: Actuarial funding method for all systems is Entry Age Normal Cost, except for the Accrued Benefit (Unit Credit) funding method that is used for the Legislators' Defined Benefit Plan. Although actual cash funding for the Judges' Retirement System is on a pay-as-you-go basis, the Entry age Normal Cost actuarial funding method is used for GASB reporting purposes. Actuarial experience gains and losses are amortized on a level dollar basis for all systems. The amortization period is closed for all systems except the 1977 Police Officers' and Firefighters' Pension and Disability Fund which has an open amortization period.

Note 4: Actuarial asset valuation method phases in the difference between expected investment return and actual investment return over a 4-year period for all systems except the PERF Plan where valuation assets are equal to 75 percent of expected actuarial value plus 25 percent of market value.

Note 5: For all systems, the assumed salary increase includes a 3 percent assumption attributable to the effects of inflation on salaries.

2010

Comprehensive Annual Financial Report

For the Fiscal Year Ended June 30, 2010

Statistical Section

107 Summary of Statistical Section

108 Schedule of Additions by Source

110 Schedule of Deductions by Type

112 Schedule of Benefit Deductions by Type

114 Schedule of Benefit Recipients by Type of Benefit Option

116 Schedule of Average Benefit Payments

119 Schedule of Average Death Benefit Payments

120 Schedule of Changes in Net Assets

121 Schedule of Participating Employers

STATISTICAL SECTION

Summary of Statistical Section

This part of the *PERF Comprehensive Annual Financial Report* contains details for understanding what the financial statements, note disclosures and required supplementary information say about each of the Fund's overall financial health.

Contents

Financial Trends

The following schedules contain trend information to help the reader understand how the financial performance of each fund has changed over time:

- Schedule of Additions by Source
- Schedule of Deductions by Type
- Schedule of Benefit Deductions by Type
- Schedule of Changes in Net Assets

Demographic and Economic Information

The following schedules contain benefit and member data regarding the environment within the financial activities of each fund:

- Schedule of Benefit Recipients by Type of Benefit Option
- Schedule of Average Benefit Payments
- Schedule of Participating Employers

Sources: Unless otherwise noted, the information in these schedules is obtained from the Comprehensive Annual Financial Reports for the relevant years.

1-Monthly benefit for life. If retiree receives benefits for at least five years prior to their death, there is no benefit payable to a designated beneficiary. If retiree dies prior to receiving benefits for five years, the beneficiary will receive the remainder of those five years of monthly benefits or the present value of those remaining payments in a lump sum.

2-Monthly benefit for retiree's life. Upon retiree's death, no benefit payable to beneficiary.

3-Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives the same monthly benefit for life.

4-Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives two-thirds of the monthly benefit for life.

5-Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives one-half of the monthly benefit for life.

6-Monthly benefit for retiree between the ages 50 and 62 who elects to integrate social security with the PERF benefit. At age 62, PERF benefit is reduced or terminated depending on the estimated monthly benefit from social security at age 62.

7-Monthly benefit for retiree's life. If retiree dies prior to receiving benefit for five years, beneficiary receives either a monthly benefit of the pension amount only for the remainder of the five years, or the present value of those pension payments in a lump sum. Beneficiary also receives a single payment of any residual balance remaining in retiree's Annuity Savings Account, if not already depleted.

8-Denotes members who are receiving a survivor benefit from this particular fund.

9-Monthly benefit for retiree's life. Upon retiree's death, surviving spouse receives 60 percent of monthly benefit for life and each surviving child receives 20 percent of monthly benefit until age 18 or 23 if enrolled in a secondary school or accredited college or university.

³Members in the 1977 Fund with less than 20 years of service are receiving a disability benefit.

⁴Members with less than 20 years of service are receiving a disability benefit from the fund. After January 1, 1990 there are two disability programs under this fund. The original

program is available only to members initially hired before January 1, 1990 and who elected not to be covered by the new program. The new program is applicable to members hired after December 31, 1989. Members deemed qualified under the original program are entitled to a benefit equal to at least that of a member with 20 years of service at age 52 and may be subject to annual medical review. The new program has three "classes" of impairment with varied entitlements based on the overed impairment.
