### The Commonwealth of Massachusetts

### EIGHTEENTH ANNUAL REPORT OF THE TEACHERS' RETIRE-MENT BOARD

#### To the Honorable Senate and House of Representatives:

In accordance with the provisions of Section 16, Chapter 15 of the General Laws, the election of the member of the Retirement Association to serve on the Retirement Board for the term of three years from December 1, 1931, was held in November. There were 4,675 ballots returned to the office of the Board, of which 4,669 were for Mr. Harry Smalley of Fall River and he has been re-elected for the term of three years. Mr. Smalley has been a member of the Board since 1914.

The Teachers' Retirement Law was amended at the last session of the Legislature so that now no interest can be credited to the accounts of teachers who have left the service, after the third annual interest compounding date following resignation. Interest is compounded on December 31 of each year. If a member who has left the service applies for a refund before the third annual interest compounding date following his resignation, interest will be credited to his account to the first day of the month in which the refund is made. On December 31, 1931, there were 481 accounts of members who had left the service without withdrawing the amount to their credit. Many of these teachers expect to again be employed in the public schools of Massachusetts within a short time and are therefore leaving their contributions on deposit. There are, however, 93 accounts to which no further interest can be credited.

In accordance with the provisions of the retirement law, 1,439 new teachers who entered the service for the first time in 1931 were enrolled as members of the Retirement Association. Teachers who served in Massachusetts before July 1, 1914, who have never joined the Retirement Association may become members at any time before attaining the age of seventy by paying their back assessments with interest and in 1931 there were 124 such teachers who became members. There were therefore 1,563 new members enrolled during the year, the smallest number of enrollments for any year since the Retirement System was established and 270 less than in 1930.

With the exception of the year the system was established, the largest number of enrollments was in 1920 when 2,260 teachers became members of the Retirement Association. Since 1920 there has been a decrease each year in the number of new teachers who have entered the service of the public schools, with the exception of two years, 1925 and 1929, when there was a slight increase. For the year 1931 there was a net increase in the active membership of 360, the smallest increase for any year since the Retirement System was established.

On December 31, 1931, there were 20,213 active members, of whom 4,259 were teachers who served in Massachusetts prior to July 1, 1914, and voluntarily joined the Retirement Association and 15,954 were teachers who entered the service of this State for the first time since that date and were required to join.

The deposits for the year amounted to \$1,825,165.06, an increase of \$83,954.04 over the deposits received in 1930. Refunds amounting to \$456,-755.99 were made on account of members who left the service of the public schools of Massachusetts. Of this amount \$380,145.27 was contributions and the balance, \$76,610.72, was interest. Payments for the year amounting to \$87,683.28 were made to the estates of deceased members.

Since the Retirement System was established, \$4,339,279.56 has been paid on account of members who have left the service and \$559,806.71 has been paid to the estates of deceased members.

The income over disbursements amounted to \$1,881,138.93. The gross assets increased to \$18,181,091.16. The total liabilities amount to \$18,008,-891.05, leaving a surplus of \$172,200.11.

Interest at the rate of  $4\frac{1}{2}$ % was credited to the accounts of the members on December 31, 1931. The total interest credited for the year to the

#### P. D. 109

members' accounts and the annuity reserve amounted to \$738,761.33. Interest at the rate of  $4\frac{1}{2}\%$  has been credited since 1920.

One hundred fifty-seven teachers retired during the year 1931, their annual retiring allowances amounting to \$128,991.80. Of this amount, \$26,093.16 was annuity derived from the contributions made by members before retirement and the balance was pension paid from State appropriations. The retirements for the year were as follows: On account of disability before attaining the age of sixty, 11; voluntary retirements, ages sixty to sixty-nine, 99; compulsory retirements at age seventy, 47.

The following table gives statistics relating to the 157 teachers retired in 1931:

Retirements	Number of Retire- ments	Average Age at Re- tirement	Average Length of Service	Average Salary Last 5 Years	Average Annuity	Average Pension	Average Retiring Allowance
Before age 60 on ac- count of disability . At age 60 or over, with-	11	52.18	29.44	\$1,662.55	\$98.83	\$336.37	\$435.20
out credit for prior service* At age 60 or over, with	5	66.00	10.54		97.01	102.41	199.42
credit for prior ser- vice* .	141	65.95	38.55	1,981.41	173.91	699.90	873.81

\* Teachers who served in Massachusetts prior to July 1, 1914, who have at the time of retirement 15 years of service in this State, the last 5 of which are continuous, receive a pension from the State based on their total service in Massachusetts.

Of the 141 teachers retired during the year at the age of sixty or over with credit allowance for service prior to July 1, 1914, 70 received the maximum pension payable under the retirement law and only 3 received the minimum pension. Eight of these 141 teachers had served in the public schools of Massachusetts for fifty years or more.

On December 31, 1931, there were 1,264 retired members living who were retired at the age of sixty or over and the average retiring allowance for these members was \$700.17. There were also 81 retired members living who were retired on account of disability before age sixty. The average retiring allowance for these members was \$375.89. There were, therefore, 1,345 retired members living on December 31, 1931, their retiring allowances amounting to \$915,455.52, of which \$776,727.16 is pension paid from State appropriations and \$138,728.36 is annuity.

There are 1,376 members of the Retirement Association who during the year 1932 will be eligible to retire at the age of sixty or over, of whom 46 will be required to retire at the compulsory age of seventy.

The rate of assessment for the school year beginning July 1, 1931, was fixed at 5% of the annual salary of each member, subject to the provision of the law which requires that the minimum annual assessment shall be \$35 and the maximum annual assessment \$100. Notice has been given by the Board of its intention to continue this rate for the school year beginning July 1, 1932.

The Teachers' Retirement Board has estimated that it will be necessary that the State appropriate the following amounts for the fiscal year ending November 30, 1932:

Pensions to retired members a						in	
the annuity fund .							\$830,000.00
Reimbursement of cities and	towns	s on	accour	nt of	pensio	ns	
paid under local systems					<b>•</b> . •		210,524.88
Administration expenses							$15,\!627.50$

\$1,056,152.38

Respectfully submitted,

PAYSON SMITH, Chairman, HARRY SMALLEY, ELIZABETH F. WASSUM. 3

P.D. 109
