Introductory

Board Chairperson's Report

December 22, 2021

Dear Members, Benefit Recipients, and Employers:

Fiscal year 2021 has been another challenging year. Yet fiscal year 2021 has also been a successful year for the Minnesota State Retirement System (MSRS). Legislation passed during the 2018 legislative session and strong investment returns provide stable, sustainable and secure pension funds for all of our current and future benefit recipients. Higher than expected investment returns in fiscal year 2021 had a significant impact on the retirement plans' funding status. The Board successfully proposed legislation that made important changes to MSRS pension funds. Also, in support of ensuring complete, accurate, and timely information for decision making, the Board approved actuarial assumption changes in fiscal year 2021.

As of July 1, 2021, MSRS' largest retirement plan, the State Employees Retirement Plan, was 111.5 percent funded based on the market value of assets. The plan's funding status increased by over 20.2 percent since July 1, 2020. Although the investment return was 4.2 percent in fiscal year 2020, it was followed by a stunning 30.3 percent investment return in fiscal year 2021. This impressive figure is due primarily to the investment return achieved by the State Board of Investment. The fiscal year 2021 return eclipsed the 7.5 percent assumed rate of return, and outperformed its benchmark during an outstanding investment year.

MSRS' fiduciary net position as of June 30, 2021, totaling almost \$32.1 billion, increased 25.6 percent from the prior year. Total assets of over \$33.4 billion grew 25.1 percent, while total liabilities also increased by over \$166.2 million, or 14.5 percent, compared with our position on June 30, 2020. The Board monitors MSRS' financial position on an ongoing basis. Even in years such as this, where the MSRS fiduciary net position increases, the Board reviews, identifies, and proposes proactive measures that ensure that MSRS provides financially secure retirement plans to pay promised retirement benefits now and in the future.

During the 2021 legislative session, the Board worked with staff to produce and pass the 2021 Pension and Retirement Bill, which was signed into law by Governor Tim Walz. The legislation made important changes to MSRS plans including reducing the Judges Retirement Plan postretirement adjustment and removing triggers for future potential increases. Other pension and retirement plan administrative provisions were also passed.

The Board approved actuarial assumption changes for State Patrol, Correctional, Judges and Legislators retirement Plans in fiscal year 2021. In accordance with the Board Funding Policy, the Board uses guidelines to ensure that MSRS establishes appropriate actuarial methodologies and adopts baseline actuarial measurements to provide guidance for actuarial valuations performed. Experience studies were completed for these funds and assumption changes were recommended by our actuary and staff. The Board approved these assumption changes to ensure our actuarial valuations are accurate and can be relied on for decision making.

The MSRS Board remains committed to being a leader in public pension plan policy. We strive to fulfill our fiduciary duty to provide you with a secure, sustainable and reliable retirement plan. We truly appreciate your continued support.

Sincerely,

A handwritten signature in black ink that reads "Mary Benner". The signature is written in a cursive, flowing style.

Mary Benner, Chair
Board of Directors

Achievement Awards

GFOA
Government
Finance Officers
Association

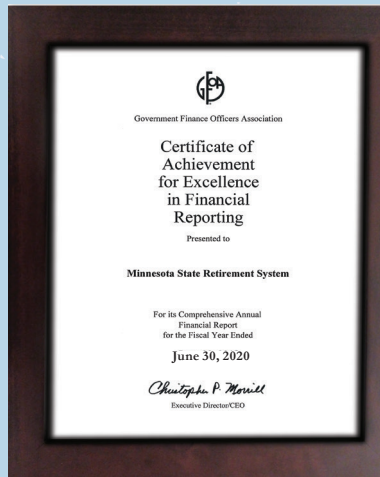

The Government Finance Officers Association (GFOA) recognizes public retirement systems that meet its rigorous reporting standards with its annual Certificate of Achievement for Excellence in Financial Reporting. It is the highest form of recognition for accounting and financial reporting in the public pension sector. MSRS received this award for our 2020 Comprehensive Annual Financial Report.

MSRS published its Popular Annual Financial Report in 2020 and was recognized by the GFOA with an award for Outstanding Achievement in Popular Annual Financial Reporting. This award recognizes conformance with the highest standards of creativity, presentation, understandability and reader appeal in government popular reports.

PPCC
Public Pension
Coordinating
Council

The Public Pension Coordinating Council (PPCC) recognized MSRS for meeting its professional standards for plan design, funding, member communications and administrative practices. The standards serve as a benchmark by which all public defined benefit plans are managed.

Letter of Transmittal

December 22, 2021

Board of Directors
Minnesota State Retirement System
60 Empire Drive, Suite 300
St. Paul, MN 55103-3000

Dear Directors:

We are pleased to present this Annual Comprehensive Financial Report (ACFR) for the Minnesota State Retirement System (MSRS) for the fiscal year ended June 30, 2021, our 92nd year of operation.

Report Contents and Structure

This ACFR is designed to meet the reporting requirements of Minnesota Statutes 356.20. The preparation of this report, including the financial statements contained within, is the result of a collaborative effort of the MSRS Executive Director and the MSRS Finance Division staff under the direction of its Chief Financial Officer.

This report provides complete and reliable information on which management decisions may be based and through which compliance with statutory requirements may be assessed. It is reproduced, in its entirety, on the MSRS website at www.msrs.state.mn.us/annual-reports-fy-2021.

Ultimate responsibility for the integrity of the data presented within this report and the fair presentation of the financial statements, in all material respects, lies with MSRS management. The MSRS Board of Directors provides an oversight role, and is assisted in this responsibility by its four-person Audit Committee. MSRS management is responsible for establishing and maintaining a system of internal controls over financial reporting. The objective of this internal control framework is to provide reasonable, not absolute, assurance that assets are safeguarded against loss or unauthorized disposition, that financial records and reports are reliable, and that MSRS has complied with all finance-related legal provisions. The concept of reasonable assurance recognizes the relationship between the cost of an internal control and the benefit likely to be derived,

based on management's judgment. Management asserts, to the best of its knowledge and belief, that the internal controls over financial reporting are operating effectively as of June 30, 2021, to meet the purpose for which they were intended.

Inherent limitations exist in the effectiveness of any internal control system, including the possibility of human error, faulty decision making, fraud or management overriding the system. Accordingly, even a well-conceived and operating internal control system may not prevent or detect misstatements in the preparation of financial statements. Also, any projection of the evaluation of the effectiveness of internal controls to a future period is subject to risk that controls may become inadequate due to changing business conditions, or that the degree of MSRS compliance with established policies and procedures has deteriorated.

State law permits the Office of the Legislative Auditor (OLA), a professional, nonpartisan office in the legislative branch of Minnesota state government, to audit the financial statements and related note disclosures contained in this report. The OLA completed this audit in accordance with auditing standards generally accepted in the United States, and the standards applicable to financial audits contained in Government Auditing Standards. The OLA also reviewed the adequacy of our internal controls over financial reporting and compliance with certain legal provisions. The Legislative Auditor's opinion letters are presented in the *Financial Section* of this ACFR. The auditors reported no material weaknesses in our internal controls.

Letter of Transmittal

The *Financial Section* of this report also contains *Management's Discussion and Analysis*. This narrative presents financial highlights and an overview of the MSRS financial statements for fiscal year 2021, along with an analysis the MSRS defined benefit and defined contribution retirement funds. This letter of transmittal complements *Management's Discussion and Analysis* and these items should be read together. MSRS' financial activities are also reflected in the pension trust fund financial statements included in the Fiduciary Funds section of the State of Minnesota's Annual Comprehensive Financial Report. This report is available online at www.mn.gov/mmb/accounting/reports.

About MSRS Funds

MSRS administers five defined benefit and four defined contribution funds. The fiduciary net position (total assets minus total liabilities) of these funds that is reserved for payments of pension benefits is over \$32.1 billion as of June 30, 2021.

For the defined benefit funds, MSRS serves 56,637 active employees from 14 employers and component units, 51,030 benefit recipients, and 29,526 members who are no longer contributing, but are eligible for either future monthly benefits or a lump-sum distribution. The fiduciary net position for these funds is almost \$20.3 billion as of June 30, 2021.

Alternatively, for the defined contribution funds, member participation and financial position as of June 30, 2021, varied significantly among the funds. MSRS serves 95,181 participants in the Minnesota Deferred Compensation Fund with a fiduciary net position totaling almost \$9.7 billion. The Health Care Savings Fund has 143,205 participants and a fiduciary net position of over \$1.6 billion. The Unclassified Employees Retirement Fund has 3,321 participants with a fiduciary net position of nearly \$401.6 million. Finally, the Supplemental Retirement Fund for Hennepin County has 1,052 participants with a fiduciary net position of \$190.5 million.

Major Initiatives

Fiscal year 2021 accomplishments included additional progress in talent management, service delivery, participant success and financial sustainability strategic initiatives. These accomplishments contributed to MSRS fulfilling its mission of *empowering Minnesota public employees to build a strong foundation for retirement*. The year also included MSRS kicking off new strategic projects that will carry into the future. Accomplishments and goals are highlighted in the columns that follow.

Talent Management. MSRS had several fiscal year 2021 strategic accomplishments in talent management. Successes included:

- Launching the University of MSRS, an online employee training portal with customized, interactive trainings;
- Completing nearly 100 processes in our business documentation tool, Nintex Promapp, to promote collaboration and resiliency; and
- Completing an employee engagement survey, where over 85 percent of staff stated that they are satisfied with their job at MSRS.

Service Delivery. Fiscal year 2021 service delivery successes included:

- Implementing Docuware, a tool for document management and workflow automation;
- Launching an electronic purchasing tool;
- Implementing a new content management system so our website engine is up-to-date and author-friendly;
- Expanding multi-factor authentication on nearly all logins; and
- Completing documentation related to information technology security, risk management and internal controls.

Participant Success. Participant success achievements in fiscal year 2021 included:

- Participating in a benchmarking survey comparing our services to those of our peers;
- Studying auto-enrollment and asset retention strategies for retirement readiness campaigns; and
- Updating our website design and functionality so our online presence is modern, unified, and more integrated with our recordkeeper.

Financial Sustainability. MSRS also had fiscal year 2021 strategic successes in financial sustainability. Accomplishments included:

- Completing a marketing plan that included an editorial calendar, social media, and brand guide to ensure external communications are coordinated to encourage participation and activity within our plans.

Letter of Transmittal

Other notable MSRS accomplishments during fiscal year 2021 include:

- Implementing numerous processes to provide services to our members and keep our employees safe during the COVID-19 pandemic.
- Scoring an 87 on the Cobalt Community Research customer satisfaction survey. This survey collects responses from new retirees. A score of 87 compares favorably to MSRS peers.
- Engaging with an internal audit contractor to provide internal audit reviews on behalf of the MSRS Audit Committee.

MSRS fiscal year 2022 goals continue to be based on the MSRS Strategic Plan categories of talent management, service delivery, participant success and financial sustainability.

Specific fiscal year 2022 objectives within talent management include:

- Focusing on Diversity, Equity, Inclusion & Belonging (DEIB) by hiring a DIEB coordinator and completing cultural competency training;
- Having a 90 percent or more retention rate of staff within their first five years of service; and
- Completing an employee engagement survey with a goal of 85 percent or more job satisfaction.

Fiscal year 2022 projects within service delivery include:

- Completing a continuous improvement evaluation of the defined benefit eligibility process;
- Performing accessibility policy development, including training and support to convert existing documents; and
- Implementing electronic claims submission for the Health Care Savings Plan.

Participant success is a strategic objective with a goal of increasing retirement readiness of Minnesota public employees. Fiscal year 2022 projects for participant success include:

- Standardizing best practices for counseling and other customer experiences;
- Launching a customer relationship management system;

- Enhancing our front-end scanning process;
- Implementing mid-career and new employee seminars; and
- Updating our website design and functionality.

Finally, objectives in fiscal year 2022 for financial sustainability include:

- Implementing a risk management program including the creation of a risk dashboard;
- Creating financial reporting, investment and actuarial dashboards; and
- Reissuing unclaimed benefit checks to members, beneficiaries or estates routinely.

Financial Information

MSRS prepares its financial statements in accordance with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB). Transactions are reported on the accrual basis of accounting. Contributions from members and employers are recognized as revenue when earned. Expenses are recorded when corresponding liabilities are incurred, regardless of when payment is made. Most financial transactions are processed through our accounting system, Microsoft Dynamics GP, and interfaced with the Statewide Integrated Financial Tools system under the oversight of the department of Minnesota Management and Budget.

Exhibit 1 is a comparative summary of total additions and total deductions that determine the change in fiduciary net position for the MSRS defined benefit and defined contribution funds for the fiscal years ended June 30, 2021, and 2020. Total additions represent employee and employer contributions and net investment income. Total deductions include annuity payments, refunds, health care reimbursements, ongoing deferred compensation and other defined contribution plan withdrawals, and administrative expenses. With a 30.3 percent investment return in fiscal year 2021, MSRS realized an increase of nearly \$6.6 billion in the fiduciary net position for all MSRS pension trust funds for fiscal year 2021. This amount includes an increase of \$4.2 billion for the MSRS defined benefit funds and an increase of over \$2.3 billion for its defined contribution funds.

Letter of Transmittal

For the Fiscal Years Ended June 30, 2021 and 2020

(Dollars in thousands)

Source	Defined Benefit Funds		Defined Contribution Funds	
	FY 2021	FY 2020	FY 2021	FY 2020
Total Additions	\$5,334,760	\$1,219,760	\$2,937,689	\$872,808
Total Deductions	1,132,809	1,087,895	589,381	524,110
Net Increase (Decrease) in Net Position	\$4,201,951	\$131,865	\$2,348,308	\$348,698
Fiduciary Net Position - beginning of year	16,053,555	15,921,690	9,526,767	9,178,069
Fiduciary Net Position - end of year	\$20,255,506	\$16,053,555	\$11,875,075	\$9,526,767

Actuarial Valuations

MSRS contracted with Gabriel Roeder Smith & Company (GRS) of Minneapolis, Minnesota to perform two annual actuarial valuations for each MSRS defined benefit fund and to provide other actuarial consulting and advisory services during fiscal year 2021.

The first set of actuarial valuations is the traditional funding valuations. These valuations report funding progress, the required contribution rate, contribution sufficiency or deficiency levels and other actuarial information necessary for monitoring each defined benefit retirement plan's funding status. The actuarial methods, assumptions and funding status of the MSRS defined benefit retirement plans are detailed in the *Actuarial Section* of this report.

The second set of actuarial valuations is to determine actuarial valuation information necessary to prepare financial reports in compliance with GASB Statements No. 67 and Statement No. 68, including the computation of the net pension liability, pension income or expense, enhanced note disclosures and expanded Required Supplementary Information. More detail regarding these financial reporting actuarial valuations may be found in the *Notes to the Financial Statements* in the *Financial Section* of this ACFR.

Retirement Plan Funding Status

The traditional funding actuarial valuations for each defined benefit fund measure current costs and contribution requirements to determine how much members and employers should contribute to maintain appropriate funding levels to pay future benefits. These funding actuarial valuations also measure assets and actuarial accrued liabilities to determine the funding status for each defined benefit plan that MSRS administers. Improvement in the funding status leads to a larger ratio of assets to actuarial accrued liabilities and

a greater level of investment income potential. A high funded ratio gives members assurance that their pensions are financially secure and that existing assets and projected investment earnings on those assets are sufficient to cover the liabilities for present and future annuities, survivor and disability benefits, refunds and administrative expenses.

Exhibit 2 on the next page highlights the actuarial value of assets, actuarial accrued liability, funded ratio and the contribution sufficiency or deficiency (expressed as a percent of payroll except for Legislators Retirement Fund, which is expressed in dollars because it is a closed plan) for each defined benefit fund as of the latest actuarial valuation date, July 1, 2021.

For each of the defined benefit retirement funds, both the funded ratio (determined on an actuarial value of assets basis) as of the July 1, 2021, valuation date, improved in comparison to the funded ratio as of July 1, 2020. For each of the defined benefit retirement funds, with the exception of the Legislators Retirement Plan, the contribution sufficiency or deficiency as of the July 1, 2021, valuation date, improved in comparison to the contribution sufficiency or deficiency as of July 1, 2020. The contribution sufficiency or deficiency and funded ratio improvements are primarily due to exceptional investment returns during the fiscal year and to changes in actuarial assumptions in a number of plans. Please refer to *Management's Discussion and Analysis* in the *Financial Section* for additional actuarial valuation details.

The MSRS Board of Directors continues to monitor funding status and contribution deficiency rates and will take appropriate action, as necessary, to ensure the financial security of the retirement funds.

Letter of Transmittal

Exhibit 2: Highlights of the 2021 Actuarial Valuations

(Dollars in thousands)

Defined Benefit Retirement Fund	Actuarial Value of Assets	Actuarial Accrued Liability	Funded Ratio	Contribution Sufficiency/ (Deficiency)
State Employees	\$15,197,610	\$15,646,401	97.13 %	3.12 %
State Patrol	835,280	991,850	84.21	11.99
Correctional Employees	1,380,410	1,770,998	77.95	3.70
Judges	240,906	391,341	61.56	4.84
Legislators ⁽¹⁾	0	174,301	0.00	\$(35,704)

⁽¹⁾ The Legislators Fund is closed to new hires and is funded on a pay-as-you-go basis by annual appropriations from the State's general fund. The deficiency is expressed as an annual dollar amount rather than a percent of payroll.

Investment Results

In accordance with the Minnesota Constitution, the State Board of Investment (SBI) invests the assets of the MSRS funds. The Board includes the Governor, Attorney General, Secretary of State and State Auditor. For all investments under the SBI's management, the Board, the 17-member Investment Advisory Council (IAC) to the board (which includes the MSRS executive director), and the SBI staff are governed by the prudent person rule and fiduciary standards detailed in Minnesota Statutes, Chapters 11A and 356A. The Board, in consultation with the IAC and the SBI staff, establishes asset allocation and other investment policies and guidelines, and conducts detailed investment analysis of the funds under its control.

MSRS does not own specific securities, but instead owns shares in various pools invested by the SBI. The Combined Funds, which represent all defined benefit pension assets under the SBI's control, reported a 30.3 percent return (net of fees) for the 2021 fiscal year. The Combined Funds generated a 10.4 percent return (net of fees) when annualized over the latest ten-year period, outperforming a composite market index by 0.3 percentage points.

During fiscal year 2021, the Combined Funds public equity investments, which include domestic, international, and global equities, reported a 42.4 percent return (net of fees), performing better than its benchmarks, the Russell 3000 and the Morgan Stanley Capital International All Country World Index excluding USA, by 0.8 percentage points. The Combined Funds

fixed income investments, which include core bonds, return seeking fixed income, treasury protection, and laddered bonds, returned a loss of 1.3 percent for fiscal year 2021, 1.5 percentage points better than the benchmarks. Private markets reported a gain of 37.8 percent in fiscal year 2021.

Please refer to the *Investment Section* for additional details on the investment results of the largest MSRS defined benefit retirement funds for fiscal year 2021.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Minnesota State Retirement System for its annual comprehensive financial report for the fiscal year ended June 30, 2020. This was the twelfth consecutive year that MSRS has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. We believe our current ACFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the GFOA has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to MSRS for its Popular Annual Financial Report for the fiscal year ended June 30, 2020. This was the third consecutive year MSRS received the award. The award is valid for one year. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal.

We are also very pleased to report that MSRS received the Public Pension Coordinating Council's (PPCC) Public Pension Standards 2021 Award, in recognition of meeting professional standards for plan funding and administration as set forth in the Public Pension Standards. These standards were developed by a coalition of three associations that represent public pension funds who cover the vast majority of public employees in the U.S. They are intended to reflect minimum expectations for public retirement systems management and administration, and serve as a benchmark by which all defined benefit public plans should be measured. The PPCC has offered this award program to public retirement systems for the past sixteen years. MSRS is proud to be a recipient of this award.

Acknowledgments

As the MSRS Chief Financial Officer, I wish to express my utmost appreciation to the team who have partnered with me to produce this ACFR including: Financial Reporting and Risk Management Director, Cheryl Jahnke; Accounting Director, Doris Hall; Accounting Officer, Jason White; and the entire MSRS Finance Division. It is always a pleasure to work with this team each year to complete our MSRS ACFR together.

We would also like to thank the Board of Directors for your continued dedication to create funding policies and advocate for legislation that preserves our defined benefits plans. We are grateful for your commitment to advance initiatives to allow us to administer financially secure retirement plans, a low-cost deferred compensation plan and a tax-free health savings plan.

Finally, we would like to recognize all of the staff at MSRS for their dedication to MSRS members during another challenging year. Their adaptability and resiliency directly contributed to MSRS fulfilling its mission of *empowering Minnesota public employees to build a strong foundation for retirement.*

Respectfully submitted,

Erin Leonard

Mission Statement

We empower Minnesota public employees to build a strong foundation for retirement.

The vision of MSRS is to be a nationally recognized leader in public retirement plans by leveraging our engaged workforce, customer-focused culture and innovative technologies to promote sustainable retirement options for Minnesota public employees.

Summary of Plan Provisions - Defined Benefit Plans

The following table is a summary of the major plan provisions for the MSRS defined benefit retirement plans. Within the General Employees Retirement Plan are three special groups: Military Affairs, Transportation Pilots, and Fire Marshals Retirement Plans. These special groups have the same plan provisions as the General Employees Retirement Plan, except as noted below.

Plan descriptions are not all inclusive, and provide general information only. Plan provisions specific to the MSRS defined contribution plans follow this section.

GENERAL EMPLOYEES	MILITARY AFFAIRS, TRANSPORTATION PILOTS, AND FIRE MARSHALS	STATE PATROL
STATUTORY OR LEGAL REFERENCES:		
Minn. Stat. §352.01 - 352.76	Minn. Stat. §352.85 - 352.87	Minn. Stat. §352B
COVERAGE:		
<ul style="list-style-type: none"> • Most state employees, University of Minnesota non-instructional employees, and selected metropolitan agency employees 	<ul style="list-style-type: none"> • Military Affairs: Minnesota Department of Military Affairs personnel on active duty who elect coverage within 90 days of employment • Transportation Pilots: Pilots and chief pilots employed by the Minnesota Department of Transportation who elected coverage before June 1, 2008. All current pilots began employment after 2008, therefore this is a closed plan. • Fire Marshals: Employees of the State Fire Marshal Division of the Minnesota Department of Public Safety who are employed as a deputy state fire marshal or fire/arson investigator, and who elect coverage within 90 days of employment 	<ul style="list-style-type: none"> • State troopers, conservation officers, Department of Commerce fraud investigators, members of the Department of Corrections fugitive apprehension unit, and certain crime bureau and gambling enforcement agents

GENERAL EMPLOYEES	MILITARY AFFAIRS, TRANSPORTATION PILOTS, AND FIRE MARSHALS	STATE PATROL
BENEFIT FORMULA:		
<p>Employees hired before July 1, 1989:</p> <ul style="list-style-type: none"> The benefit formula is the greater of: <ul style="list-style-type: none"> (a) 1.2 percent of high-five average salary for the first 10 years of allowable service, then 1.7 percent of high-five average salary for each subsequent year. The benefit is reduced for each month the member is under age 65 at the time of retirement, or reduced for each month the member is under age 62 with 30 years of allowable service. <p>OR</p> <ul style="list-style-type: none"> (b) 1.7 percent of high-five average salary for each year of allowable service, with benefit reduced for each month the member is under age 65. <ul style="list-style-type: none"> There is no benefit reduction if the member's age plus years of allowable service total 90 or more. 	<p>Military Affairs:</p> <ul style="list-style-type: none"> Same as General Employees <p>Transportation Pilots:</p> <ul style="list-style-type: none"> Same as General Employees <p>Deputy Fire Marshals:</p> <ul style="list-style-type: none"> 2.0 percent of high-five average salary for each year of allowable service 	<ul style="list-style-type: none"> 3.0 percent of high-five average salary for each year of allowable service up to 33 years. Contributions above the service cap are refunded at retirement. Members with at least 28 years of service as of July 1, 2013, are not subject to the allowable service limit.
<p>Employees hired after June 30, 1989:</p> <ul style="list-style-type: none"> 1.7 percent of high-five average salary for each year of allowable service. The benefit is reduced for each month the member is under the normal retirement age. 		
For all benefit calculations:		
<ul style="list-style-type: none"> Salary includes wages or other periodic compensation, but excludes lump sum payments at separation, employer contributions to deferred compensation and tax sheltered annuity plans, and benevolent vacation and sick leave donation programs. The high-five average salary is the average salary from the sixty successive month period with the highest gross salary. 		

Summary of Plan Provisions - Defined Benefit Plans

CORRECTIONAL EMPLOYEES

JUDGES

LEGISLATORS

BENEFIT FORMULA:

Employees hired before July 1, 2010:

- 2.4 percent of high-five average salary for each year of allowable service

Employees hired after June 30, 2010:

- 2.2 percent of high-five average salary for each year of allowable service

For all benefit calculations:

- Members have the option of choosing an accelerated annuity to age 62 or 65, with an actuarially-adjusted benefit thereafter. This will provide a higher benefit until the chosen age, then a lower, permanent amount to cover the remaining retirement years.

Tier 1 Benefit Program:

- 2.7 percent of high-five average salary for each year of allowable service prior to July 1, 1980, then 3.2 percent of high-five average salary for each year of allowable service after June 30, 1980
- The maximum benefit is capped at 76.8 percent of the high-five average salary.

Tier 2 Benefit Program:

Judges elected before July 1, 2013:

- 3.2 percent of high-five average salary for each year of allowable service prior to January 1, 2014, then 2.5 percent of high-five average salary for each year of allowable service after December 31, 2013

Judges elected after June 30, 2013:

- 2.5 percent of high-five average salary for each year of allowable service
- No maximum benefit limit applies to Tier 2 members.

Tier 1 and Tier 2 Benefit Programs:

- The high-five average salary is determined using only the final ten years of employment.

Legislators elected prior to January 1, 1979:

- 5.0 percent of high-five average salary for the first eight years of allowable service prior to January 1, 1979, then 2.5 percent for subsequent years

Legislators elected after December 31, 1978:

- 2.5 percent of high-five average salary

Summary of Plan Provisions - Defined Benefit Plans

CORRECTIONAL EMPLOYEES

JUDGES

LEGISLATORS

DISABILITY ELIGIBILITY AND BENEFIT CALCULATION:

Disability Eligibility:

- **Job-related:** The disability must result from an incident while performing duties of the job which present inherent dangers to the employee. There is no service time requirement
- **Regular (non job-related):**
 - For employees hired before July 1, 2009: one year of covered correctional service
 - For employees hired after June 30, 2009: employee must be vested
- **Both Regular and Job Related:** Member is reclassified from disabled to retired at age 55 (age 65 if disabled prior to July 1, 2009)

Calculation:

- **Job Related:** 50 percent of the average of the high-five average salary plus 2.4 percent (2.2 percent if hired after June 30, 2010) for each year beyond 20 years and ten months of allowable service
- **Regular:** Normal Correctional benefit based on salary and years of service. If hired before July 1, 2009, the benefit is calculated with a minimum of 15 years of service. If hired after June 30, 2009, there is no minimum benefit.

Disability Eligibility:

- Member is permanently unable to perform duties of a judge.

Calculation:

- Prior to commencement of disability benefits, the member will receive a continuation of full salary for one year, but not beyond age 70.
- If disability continues after one year, disability benefits are equal to the normal retirement benefit or 25 percent of high-five average salary, whichever is larger. There is no early-retirement reduction applied.

- None

We have audited the accompanying financial statements of the Minnesota State Retirement System (MSRS), which included the Statement of Fiduciary Net Position as of June 30, 2021, the related Statement of Changes in Fiduciary Net Position, and Notes to the Financial Statements, as listed in the Financial Section of the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to MSRS's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of MSRS's internal controls. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Report

Members of the MSRS Board of Directors

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Minnesota State Retirement System as of June 30, 2021, and the changes in financial position for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the other required supplementary information, as listed in the Financial Section of the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to Management's Discussion and Analysis and the other required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Included with the Financial Statements

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise MSRS's basic financial statements. The supporting schedules, including the Supplementary Schedules and the Government Accounting Standards Board, Statement No. 68, *Supplemental Employer Schedules*, in the Financial Section and the Introductory, Investment, Actuarial, and Statistical Sections, as listed in the Table of Contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supporting schedules, as listed in the Financial Section of the Table of Contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The supporting schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supporting schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory, Investment, Actuarial, and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will issue a report on our consideration of the Minnesota State Retirement System of Minnesota's internal controls over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope and results of our testing of internal controls over financial reporting and compliance and not to provide an opinion on the internal controls over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis

We, the management of the Minnesota State Retirement System (MSRS), present this discussion and analysis of the financial activities of MSRS for the fiscal year ended June 30, 2021. We encourage you to read the information contained in this narrative in conjunction with the Letter of Transmittal that begins on page 10, the financial statements with explanatory notes, and required supplementary information contained in this section of the Annual Comprehensive Financial Report (ACFR).

Financial Highlights

Overall, the financial condition of MSRS improved during fiscal year 2021. MSRS' fiduciary net position for all pension trust funds increased over \$6.55 billion, or 25.61 percent, from \$25.58 billion as of June 30, 2020, to over \$32.13 billion as of June 30, 2021.

For the MSRS defined benefit retirement funds, the investment rate of return, net of fees, increased from 4.20 percent in 2020 to 30.30 percent in 2021. This is higher than the assumed rate of return of 7.50 percent used in the annual actuarial valuations, and more than the 28.80 percent benchmark the State Board of Investment uses for the Combined Funds.

For the MSRS defined contribution retirement funds, investment performance varied depending upon the types of assets held in the portfolios of plan participants. The fiscal year 2021 rates of return ranged from a low of a negative 0.3 percent for the Vanguard Total Bond Market Index to a high of 54.5 percent for the T. Rowe Price Small Cap Stock Fund.

Total additions to all MSRS pension trust funds increased almost \$6.18 billion, or 295.33 percent, during fiscal year 2021, from over \$2.09 billion for fiscal year 2020 to \$8.27 billion for fiscal year 2021. This increase reflects the improved investment return, from 4.20 percent in 2020 to 30.30 percent in 2021.

Total deductions from all MSRS pension trust funds increased almost \$110.19 million, or 6.84 percent, from over \$1.61 billion for fiscal year 2020 to more than \$1.72 billion for fiscal year 2021. The change was due in part to defined benefit annuity payments, which grew \$44.50 million, or 4.20 percent, resulting from annual post-retirement benefit increases for retirees, as well as growth in the number of retirees. In addition, plan member refunds increased \$54.64 million, or 16.14 percent.

On an actuarial valuation of assets basis, where gains or losses are smoothed over a five year period, MSRS' largest defined benefit retirement fund, the State Employees Retirement Fund, was 97.13 percent funded as of the July 1, 2021, valuation date, in comparison to 91.90 percent funded as of July 1, 2020. On a market value of assets basis, where gains are not smoothed, this fund was 111.46 percent funded based on the 2021 actuarial valuation, an improvement over the 91.25 percent funded ratio reported as of the 2020 actuarial valuation. Most of the improvement can be attributed to the higher investment return of 30.30 percent, compared to the assumed 7.50 percent return.

Governmental Accounting Standards Board (GASB) Statements No. 67 and No. 68 actuarial valuation results indicated that on June 30, 2021, the governmental employers participating in the State Employees Retirement Fund incurred a net pension liability of \$81.53 million, a \$1.25 billion decrease from the net pension liability of the previous year. The fiduciary net position as a percentage of the total pension liability was 99.53 percent, an increase of 8.28 percent over the 91.25 percent ratio as of June 30, 2020, due to the high investment returns for the fiscal year.

Management's Discussion and Analysis

Overview of the Financial Statements

MSRS administers five defined benefit retirement funds and four defined contribution funds. The defined benefit funds include the State Employees, State Patrol, Correctional Employees, Judges and Legislators Retirement Funds. The defined contribution funds include the Unclassified Employees Retirement Fund, the Health Care Savings Fund, the Minnesota Deferred Compensation Fund and the Hennepin County Supplemental Retirement Fund. All of these pension trust funds are fiduciary funds for governmental accounting and financial reporting purposes.

This ACFR includes two basic financial statements for the MSRS pension trust funds: the *Statement of Fiduciary Net Position* and the *Statement of Changes in Fiduciary Net Position*.

Consistent with Minnesota Statutes, Chapter 356.20, the purpose of these financial statements, along with the accompanying *Notes to the Financial Statements* and *Required Supplementary Information*, is to present the financial position and results of MSRS operations to

our membership, participating employers, and other financial statements users. This ACFR also provides readers with financial information in a format that is reasonably comparable to that of other public employee pension trust funds. These financial statements and explanatory notes are prepared in conformance with generally accepted governmental accounting principles and are reported using the accrual basis of accounting.

The *Statement of Fiduciary Net Position* provides a snapshot of the financial resources and obligations for all of the MSRS pension trust funds on June 30, the last day of the fiscal year. The assets available and the liabilities owed are reported at fair value as of that date. The difference between the sum of total assets and the sum of total liabilities is net position restricted for pensions. This amount is available for payment of future pension benefits or other obligations. Comparisons of total assets, total liabilities, and net position restricted for pensions as of June 30, 2021, and 2020, are depicted in the table below.

Summary Statement of Fiduciary Net Position - All MSRS Pension Trust Funds

As of June 30, 2021 and 2020

(Dollars in thousands)

	FY 2021	FY 2020	Change	Percent Change
Total Assets	\$33,444,696	\$26,728,235	\$6,716,461	25.13 %
Total Liabilities	1,314,115	1,147,913	166,202	14.48
Net Position Restricted for Pensions	\$32,130,581	\$25,580,322	\$6,550,259	25.61 %

Total assets as of June 30, 2021, totaling over \$33.44 billion, increased almost \$6.72 billion, or 25.13 percent, from the prior year. This growth can be attributed to investment returns for fiscal year 2021, which resulted in investment income for the year, net of fees, of over \$7.15 billion.

Total liabilities of over \$1.31 billion as of June 30, 2021, increased just over \$166.20 million, or 14.48 percent, from the prior year. This is due to a increase of almost \$163.59 million in security lending cash collateral, driven by changes in the marketplace. A corresponding securities lending cash collateral asset is also recorded in the financial statements.

This fiscal year, the increase in the net position restricted for pensions was over \$6.55 billion, or 25.61 percent. This increase was mostly due to investment income resulting from the 30.3 percent investment return for fiscal year 2021, a significant improvement over the the 4.20 percent return recognized in fiscal year 2020. Increases in employee and employer contributions in several defined benefit plans also contributed to the increase in net position.

MSRS had no deferred outflows or inflows of resources as of June 30, 2021.

Management's Discussion and Analysis

The *Statement of Changes in Fiduciary Net Position* summarizes the financial transactions that occurred during the fiscal year. Additions include contributions, net investment income, and other revenue sources. Deductions include annuity benefit payments from our defined benefit retirement funds, ongoing withdrawals

from our defined contribution retirement funds, refunds and other administrative expenses.

Total additions by major source and total deductions by type for the fiscal years ended June 30, 2021, and 2020, are depicted below.

Summary Statement of Changes in Fiduciary Net Position – All MSRS Pension Trust Funds				
For the Fiscal Years Ended June 30, 2021 and 2020				
(Dollars in thousands)				
	FY 2021	FY 2020	Change	Percent Change
Additions (by Major Source)				
Plan Member Contributions	\$762,464	\$717,975	\$44,489	6.20 %
Employer Contributions	299,452	289,327	10,125	3.50
Investment Income (Net)	7,152,042	1,036,600	6,115,442	589.95
Other	58,491	48,666	9,825	20.19
Total Additions	\$8,272,449	\$2,092,568	\$6,179,881	295.33 %
Deductions (by Type)				
Benefits, Withdrawals and Reimbursements	\$1,261,730	\$1,215,822	\$45,908	3.78 %
Refunds	393,224	338,586	54,638	16.14
Recordkeeper Expenses	3,715	4,836	(1,121)	(23.18)
Administrative Expenses	20,102	19,245	857	4.45
Other	43,419	33,516	9,903	29.55
Total Deductions	\$1,722,190	\$1,612,005	\$110,185	6.84 %
Net Increase (Decrease) in Net Position Restricted for Pensions	\$6,550,259	\$480,563	\$6,069,696	1,263.04 %

Total additions increased 295.33 percent, almost \$6.18 billion, to over \$8.27 billion. This increase was primarily due to higher investment returns than was reported in the previous fiscal year. Total plan member and employer contributions also had an impact, increasing \$54.61 million, or 5.42 percent, for fiscal year 2021. The change was caused by increases in employee and employer contribution rates in two defined benefit retirement funds during fiscal year 2021.

Total deductions increased \$110.19 million, or 6.84 percent, from just over \$1.61 billion in fiscal year 2020 to over \$1.72 billion in fiscal year 2021. This change was largely due to an increase in annuity benefits and refunds. Increases in annuity benefits are the result of post-retirement benefit increases and to the growth in the number of benefit recipients, from 49,362 as of June 30, 2020, to 51,030 as of June 30, 2021. On January 1, 2021, retirees in the State Employees, State Patrol, and Legislators Retirement Funds received annual post-retirement benefit increases of 1.0 percent. Eligible members in the Correctional Employees Retirement Fund received a 1.5 percent annual post-retirement benefit increase, and retirees in the Judges Retirement Fund received a 1.75 percent annual post-retirement benefit increase.

Management's Discussion and Analysis

The *Notes to the Financial Statements* are an integral part of the financial statements. They provide additional information relevant to obtaining a full understanding of the financial statements. The notes are divided into six sections. Each section is described below.

1. Description of Organization and Plans - This section describes MSRS as an organization, including key membership, contribution, and benefit or distribution provisions for each of its retirement funds.
2. Summary of Significant Accounting Policies - This section provides a summary of significant accounting policies, including the basis of financial statement presentation and accounting methods applied in recording financial transactions, investment policies, and policies MSRS abides by in the valuation of assets, liabilities, revenue and expenses reported on the financial statements, where generally accepted accounting principles permit more than one approach.
3. Deposits and Investments - This section provides information about cash deposits and MSRS investments, including risks and fair value reporting.
4. Liabilities - This section provides information about certain liabilities reflected in the *Statement of Fiduciary Net Position*.
5. Capital Assets - This section of the notes provides information about capital assets, including balances, additions, and depreciation.
6. Net Pension Liability of Participating Employers - This section provides information about the net pension liability of the employers participating in the MSRS retirement plans.

Required Supplementary Information (RSI) consists of three schedules with related notes.

- Schedule of Investment Returns
- Schedule of Changes in the Employer Net Pension Liability and Related Ratios
- Schedule of Employer Contributions

These schedules are intended to show information for the most recent 10 years. However, for all but the *Schedule of Employer Contributions*, only the information for the past eight years is presented. Additional yearly data will be displayed as it becomes available. The presentation of multi-year data is designed to provide economic context regarding amounts reported in the financial statements and to provide historical context for each pension fund's fiduciary net position related to the total pension liability. Significant assumptions used in the calculation of actuarially determined contributions and factors significantly affecting trends in the amounts reported are disclosed in the notes presented with each RSI schedule.

Supplementary schedules include the *Schedule of Administrative Expenses*, the *Schedule of Payments to Consultants* and the *Schedule of Investment Expenses*. These schedules summarize the operating expenses MSRS incurred during fiscal year 2021 to administer its defined benefit and defined contribution retirement funds.

GASB Statements No. 67 and No. 68 require two schedules which MSRS includes in the *Financial Section* of this report: a *Schedule of Employer Allocations* for our cost-sharing pension funds (the State Employees and Correctional Employees Retirement Funds) and the *Schedule of Pension Amounts by Employer* for each defined benefit retirement fund. These schedules contain essential financial data, including net pension liability, deferred outflows and deferred inflows of resources, and pension income or pension expense for governmental employers participating in our defined benefit retirement funds to report in their own financial statements.

Management's Discussion and Analysis

Financial Analysis of the MSRS Funds

Each of the MSRS defined benefit and defined contribution retirement funds have some characteristics that are different from the others, such as membership served. The MSRS retirement funds also have some characteristics in common, such as shared investment pools. The following pages highlight events or conditions that had a significant effect on each fund's financial position or results of operations during fiscal year 2021.

Analysis of the Defined Benefit Funds

The following two tables compare various performance measures to the previous fiscal year for the four largest MSRS defined benefit retirement funds. The Legislators Retirement Fund has been closed to new membership since July 1, 1997. Funding is primarily by annual General Fund appropriation from the State of Minnesota, and therefore the Legislators Retirement Fund is not included in these tables.

Summary Statement of Fiduciary Net Position – MSRS Defined Benefit Funds

For the Fiscal Years Ended June 30, 2021 and 2020

(Dollars in thousands)

	State Employees	State Patrol	Correctional Employees	Judges
Total Assets, as of 06/30/2021	\$18,560,104	\$1,019,196	\$1,683,442	\$294,368
Total Assets, as of 06/30/2020	14,835,601	810,973	1,310,990	232,064
Change in Total Assets	\$3,724,503	\$208,223	\$372,452	\$62,304
Percentage Change	25.11 %	25.68 %	28.41 %	26.85 %
Total Liabilities, as of 06/30/2021	\$1,120,053	\$61,332	\$102,489	\$17,730

Percentage Change	4,197.69%	4,404.59%	803.89%	1,238.57%

State Employees Retirement Fund

Fiduciary Net Position Restricted for Pensions for the State Employees Retirement Fund, the largest MSRS defined benefit retirement fund, increased \$3.58 billion, or 25.87 percent, to over \$17.44 billion as of June 30, 2021. Investment returns outpaced the minimal increase in deductions, leading to the improvement.

Total additions increased almost \$3.54 billion, or 356.32 percent, to over \$4.53 billion. This change is almost entirely attributable to the fiscal year 2021 investment return of 30.30 percent, which was 26.10 percent higher than the return in fiscal year 2020. The investment return resulted in an increase in investment income of \$3.53 billion, or 619.39 percent.

Total deductions increased over \$38.67 million to \$948.65 million, an increase of 4.25 percent. The increase is due almost entirely to increased annuity benefit distributions, which rose 4.27 percent to nearly \$923.36 million. The increase is the result of growth in the number of members receiving benefits, up 3.44 percent to 45,430 members, and to the payment of a 1.0 percent post-retirement benefit increase to retirees and other benefit recipients in January 2021.

Management's Discussion and Analysis

State Patrol Retirement Fund

The Fiduciary Net Position Restricted for Pensions for the State Patrol Retirement Fund increased during fiscal year 2021 to just over \$200.27 million, or 26.44 percent, largely due to investment returns.

Total additions increased \$197.05 million, or 295.67 percent, to \$263.69 million. The high investment return drove an increase in investment income, increasing from \$31.07 million in fiscal year 2020 to \$224.27 million in fiscal year 2021, an change of 621.75 percent. As a result of contribution rate increases, employee and employer contributions increased to \$38.41 million, or 11.12 percent, during the fiscal year. Other income includes \$1.0 million of supplemental state aid that will continue to be received annually until this fund and the Public Employees Retirement Association's Police and Fire Fund both reach a 90.0 percent funded ratio.

Total deductions increased \$1.22 million, or 1.96 percent, to just over \$63.41 million. The slight increase is partially the result of higher annuity benefit distributions, which increased over \$1.23 million, or 2.00 percent, to \$63.09 million. The higher benefit distributions are due to the payment of a 1.0 percent post-retirement benefit increase to retirees and other benefit recipients in January 2021, and to the minor increase in retirees and other benefit recipients, up to 1,121, a change of 1.26 percent.

Correctional Employees Retirement Fund

The Fiduciary Net Position Restricted for Pensions for the Correctional Employees Retirement Fund increased almost \$357.42 million, or 29.21 percent, to over \$1.58 billion. Like the other funds, investment returns and increased employee and employer contributions accounted for this increase.

Total additions were up \$322.33 million, or 268.61 percent, to \$442.33 million. As in other funds, the increase is the result of higher investment returns than were earned in the previous year. Investment income increased 638.49 percent, from \$49.61 million to \$366.35 million. Increased employer contribution rates resulted in higher total contributions, up 7.91 percent to \$75.96 million.

Total deductions increased \$4.46 million, or 5.54 percent, to \$84.92 million, due to higher annuity benefit distributions. Benefits increased \$4.78 million, or 6.21 percent, to \$81.83 million due to growth in the number of benefit recipients and to the 1.5 percent post-retirement benefit increase to retirees and other benefit recipients in January 2021. Retiree, survivor and

disabled member counts in fiscal year 2021 increased 3.96 percent to 3,728.

Judges Retirement Fund

Fiduciary Net Position Restricted for Pensions for the Judges Retirement Fund increased \$59.90 million, or 27.64 percent, to almost \$276.64 million due to the favorable investment performance during fiscal year 2021.

Total additions increased \$56.13 million, or 181.70 percent, to \$87.02 million. Investment income increased from \$8.95 million in fiscal year 2020 to \$64.93 million in fiscal year 2021 due to a higher investment return. Additions for the Judges Retirement Fund also includes an appropriation of \$6.0 million from the State's General Fund. Unlike other funds, membership in this fund is steady and there were no contribution rate changes.

Total deductions increased, from \$26.41 million in fiscal year 2020 to \$27.12 million in fiscal year 2021, a change of 2.65 percent. Annuity benefits increased \$766.58 thousand, or 2.92 percent, primarily due to the payment of a 1.75 percent post-retirement benefit increase to retirees and other benefit recipients in January 2021.

Legislators Retirement Fund

There are no assets available for payment of benefits in the Legislators Retirement Fund so the Fiduciary Net Position Restricted for Pensions remains at \$0. The Legislators Fund consists of two retirement plans closed to new membership. Benefit payments and administrative expenses are paid by contributions from the 12 remaining active members of the fund and by General Fund appropriation.

Total assets increased \$147.23 thousand, or 40.38 percent, to \$511.86 thousand. These assets will be used for payment of administrative expenses with any balance due back to the State's General Fund.

Total additions of \$8.72 million for fiscal year 2021 are down \$135.46 thousand, or 1.53 percent, from fiscal year 2020. In fiscal year 2021, active, contributing members decreased from 17 to 12, resulting in a reduction in contributions from \$86.71 thousand to \$76.35 thousand. The remaining additions, a state General Fund appropriation, also declined as benefit payments to fewer members required a lower appropriation.

Management's Discussion and Analysis

Total deductions decreased \$135.46 thousand, or 1.53 percent, to \$8.72 million during fiscal year 2021. Annuity benefits decreased \$133.79 thousand, or 1.52 percent, due to a decreasing number of benefit recipients.

Analysis of the Defined Contribution Funds

MSRS administers four defined contribution funds. Each of these funds was affected by the same investment market conditions that impacted the MSRS defined benefit retirement funds. However, because individual members select their own investment options, comparisons of net participant's investment income between fiscal years 2021 and 2020 for each defined contribution fund are not meaningful.

Certain non-investment related financial activities of the MSRS defined contribution funds merit mention.

Unclassified Employees Retirement Fund

The fiduciary net position for the Unclassified Employees Retirement Fund increased \$70.85 million, 21.42 percent, to \$401.58 million as of June 30, 2021. The increase is due to increases in investment returns during fiscal year 2021. Contributions decreased 2.34 percent, from \$15.27 million in fiscal year 2020, to \$14.91 million in fiscal year 2021, corresponding to a decrease in active members, from 1,402 in fiscal 2020 to 1,355 in fiscal year 2021.

Health Care Savings Fund

For the fastest-growing MSRS fund, the Health Care Savings Fund, membership again grew during fiscal year 2021. Total participants grew by 6,045 members, or 4.41 percent, to 143,205 as of June 30, 2021. Fiduciary Net Position Restricted for Pensions for the fund increased almost \$325.47 million, 25.01 percent, to almost \$1.63 billion as of June 30, 2021. The change was driven, in large part, by investment returns, with investment income increasing by 393.51 percent, or \$239.90 million. The increased membership led to a 20.11 percent increase in contributions, from \$155.37 million in fiscal year 2020 to \$186.61 million in fiscal year 2021.

Deductions increased between fiscal year 2020 and 2021, with a total increase of \$7.53 million, or 7.52 percent. This change is due largely to an additional \$7.18 million in health care reimbursements during the year, partially the result of an additional 433 participants in the plan able to draw benefits. The required federal tax to finance operations of the Patient-Centered Outcomes Research Institute (PCORI) increased from

\$340.75 thousand in fiscal year 2020 to \$372.39 thousand in fiscal year 2021, an increase of 9.28 percent. The PCORI tax was extended for another ten-year period in 2019, and will continue to be paid from this fund.

Minnesota Deferred Compensation Fund

The Fiduciary Net Position Restricted for Pensions for the Minnesota Deferred Compensation Fund increased over \$1.92 billion, or 24.84 percent, from \$7.74 billion on June 30, 2020, to almost \$9.66 billion as of June 30, 2021. There was a 17.06 percent increase in refunds, from \$313.52 million in fiscal year 2020 to \$367.01 million in fiscal year 2021. Member contributions increased slightly, \$10.22 million, or 3.26 percent. Investment income of \$2.03 billion was more than sufficient to cover remaining expenses of the plan and contribute to the increase in net position restricted for pensions.

Hennepin County Supplemental Retirement Fund

The Fiduciary Net Position Restricted for Pensions for the Hennepin County Supplemental Retirement Fund increased \$30.74 million in fiscal year 2021, or 19.24 percent, to \$190.51 million. Investment income increased by 318.98 percent during the year, from \$10.11 million in fiscal year 2020 to \$42.37 million in fiscal year 2021. Only Hennepin County employees who began employment prior to April 14, 1982, are eligible for this fund, so the number of active participants has been slowly declining, resulting in ongoing decreases in contributions from participants and employers. Active participants decreased by 25 during the fiscal year, or 25.25 percent. As a result, contributions decreased 44.99 thousand, or 25.47 percent, to 131.65 thousand in fiscal year 2021. Decreasing numbers of inactive and withdrawing members reflect final payouts of account balances through refunds and benefit payments. Refunds and annuities increased \$586.41 thousand, or 5.29 percent, to \$11.67 million in fiscal year 2021.

Management's Discussion and Analysis

Actuarial Valuation Results

MSRS' consulting actuaries conduct two actuarial valuations for each MSRS defined benefit retirement fund on an annual basis: one for funding purposes and the other for GASB-compliant financial reporting purposes. Each valuation type is performed using a different set of actuarial methods and assumptions. Results of each are highlighted in the following paragraphs.

Funding Actuarial Valuations

The July 1, 2021, actuarial valuation results indicate the State Employees Retirement Fund was 97.13 percent funded, the State Patrol Retirement Fund was 84.21 percent funded, the Correctional Employees Retirement Fund was 77.95 percent funded, and the Judges Retirement Fund was 61.56 percent funded. These funded ratios are calculated using the actuarial value of assets, which requires gains or losses be recognized over a five year period. The State Patrol Retirement Fund, the Correctional Employees Retirement Fund, and Judges Retirement fund had experience studies performed in 2020, and the resulting changes to actuarial assumptions are reflected in the July 1, 2021, valuations.

A brief discussion of the funding actuarial valuation results is below. Additional information about the funding actuarial valuation results for each defined benefit fund can be found in the *Actuarial Section* of this report.

State Employees Retirement Fund

For the State Employees Retirement Fund, the fiscal year 2020 contribution sufficiency of 1.69 percent improved to a contribution sufficiency of 3.12 percent reported in the July 1, 2021, valuation, primarily due to favorable investment experience. For this same reason, funded ratios on an actuarial value of assets basis improved from the previous year, from 91.90 percent to 97.13 percent, and from 91.25 percent to 111.46 percent on the market value of assets basis.

State Patrol Retirement Fund

For the State Patrol Retirement Fund, the 4.10 percent contribution sufficiency as of July 1, 2020, showed significant improvement, ending with a contribution sufficiency of 11.99 percent as of July 1, 2021. The change was the result of favorable investment experience, as well as changes in a number of actuarial assumptions, including mortality tables. The actuarial value of assets funded ratio increased, from 77.13 percent on July 1, 2020, to 84.21 percent on July 1, 2021. The market value of assets is not subject to investment gain or loss smoothing, so the investment

gain is reflected in the current fiscal year. As a result, the funded ratio on the market value of assets basis increased considerably, from 76.60 percent on July 1, 2020, to 96.57 percent on July 1, 2021.

Correctional Employees Retirement Fund

For the Correctional Employees Retirement Fund, the contribution sufficiency of 0.80 percent on July 1, 2020, improved to a contribution sufficiency of 3.70 percent on July 1, 2021. The improvement is the result of greater than expected return on assets. For the same reason, the actuarial value of assets funded ratio increased from 73.83 percent on July 1, 2020, to 77.95 percent on July 1, 2021, and the market value of assets funded ratio increased from 73.23 percent to 89.27 percent. There were numerous changes in actuarial assumptions based on the 2020 experience study, including mortality tables. Unlike the State Patrol Retirement Fund, actuarial assumption changes made as a result of the experience study did not contribute to the improvement in funding status, but instead increased the unfunded actuarial accrued liability.

Judges Retirement Fund

The Judges Retirement Fund improved from a contribution deficiency of 0.47 percent on July 1, 2020, to a sufficiency of 4.84 percent on July 1, 2021. The improvement is due to better than expected investment returns and to changes in plan provisions and assumptions. Changes in actuarial assumption as the result of the fiscal year 2020 experience study include new mortality tables, and a change in plan provisions reduced the post-retirement benefit increase. The impact of both of these changes was a reduction in the accrued liability. The actuarial value of assets funded ratio increased from 54.22 percent on July 1, 2020, to 61.56 percent on July 1, 2021, and the market value of assets increased, from 53.83 percent to 70.69 percent.

Management's Discussion and Analysis

Legislators Retirement Fund

The Legislators Retirement Fund is a closed plan, with only 12 active, contributing members. Remaining assets in the fund were depleted in the fiscal year ending June 30, 2016, and benefits are paid by annual appropriations from the state's General Fund.

Financial Reporting Actuarial Valuations

This is the eighth year since MSRS implemented pension accounting and financial reporting standards issued by the Governmental Accounting Standards Board (GASB). To comply with GASB Statement No. 67, *Financial Reporting for Pensions, an amendment of GASB Statement No. 25*, MSRS relied upon its consulting actuary to compute the total pension liability, net pension liability, pension income or expense, and deferred outflows and deferred inflows of resources for each of its defined benefit retirement funds as of June 30, 2021. MSRS' participating governmental employers are required to report their respective shares of these amounts in their financial statements in compliance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27*.

For the largest cost sharing, multiple-employer MSRS defined benefit fund, the State Employees Retirement Fund, the June 30, 2021, GASB-compliant actuarial valuation report revealed a net pension liability of just over \$81.53 million, an almost \$1.25 billion decrease from the fiscal year 2020 net pension liability of \$1.33 billion. The decrease is the result of investment gains. The other defined benefit plans also showed improvements in the net pension liability due to investment gains, as well as changes in actuarial assumptions and a change in the post-retirement benefit increase in the Judges Plan.

Additional information on the financial reporting actuarial valuation results for the MSRS defined benefit retirement funds can be found in the *Actuarial Section* of this report, beginning on page [166](#).

Request for Information

This financial report is intended to provide a general overview of the financial position of MSRS as of June 30, 2021, and financial activities for fiscal year 2021. If you have any questions or comments concerning the contents of this report, please contact Minnesota State Retirement System by mail at 60 Empire Drive, Suite 300, Saint Paul, MN 55103-3000; by telephone toll-free at 1-800-657-5757; or via e-mail at info@msrs.us.

Notes to the Financial Statements

These notes provide disclosures relevant to the basic financial statements on the preceding pages.

Note 1: Description of Organization and Plans

A. Organization

The Minnesota State Retirement System (MSRS) is the administrator of a multiple-employer, cost-sharing public employee retirement system. It consists of five defined benefit funds and four defined contribution funds. The defined benefit funds are listed below with parenthetical disclosure of the Minnesota Statutes (MS) that set forth criteria for benefit computations, obligations of members and participating employers to make contributions, and other plan provisions:

State Employees Retirement Fund

(MS Sections 352.01 - 352.87)

State Patrol Retirement Fund

(MS Chapter 352B)

Correctional Employees Retirement Fund

(MS Sections 352.90 - 352.955)

Judges Retirement Fund

(MS Chapter 490)

Legislators Retirement Fund

(MS Chapter 3A)

The defined contribution funds are listed below with parenthetical disclosure of the Minnesota Statutes pertinent to plan administration:

Unclassified Employees Retirement Fund

(MS Chapter 352D)

Health Care Savings Fund

(MS Chapter 352.98)

Minnesota Deferred Compensation Fund

(MS Sections 352.965 - 352.97)

Hennepin County Supplemental Retirement Fund

(MS Sections 383B.46 - 383B.52)

Minnesota Statutes Section 356.20 defines financial reporting requirements for the four largest MSRS defined benefit funds.

Responsibility for the organization is vested in the MSRS Board of Directors, which consists of eleven members. Four members are elected by the membership at large of the State Employees Retirement Plan and the Unclassified Employees Retirement Plan. Three members are appointed by the Governor, one of whom must be a constitutional officer or an appointed state official, and two of whom must be public members knowledgeable in pension matters. The remaining four members represent the State Patrol Retirement Plan, the Correctional Employees Retirement Plan, the Transit Division of the Metropolitan Council and the retired and disabled members of all plans that MSRS administers. MSRS employees are ineligible for membership on the board of directors.

B. Participating Employers

MSRS members are employed by the State of Minnesota, the non-instructional employees at the University of Minnesota, approximately 77 counties, 315 cities and townships, 301 school districts and other educational entities and 245 additional miscellaneous entities.

C. Reporting Entity

MSRS functions as a separate statutory entity. The system maintains rights to sue or be sued in its own name and to hold property in its own name. For financial reporting purposes, MSRS funds are considered pension trust funds of the State of Minnesota and are included in the State's Annual Comprehensive Financial Report with its fiduciary funds. MSRS does not have any component units and this report includes financial information for MSRS only.

D. Defined Benefit Retirement Funds – Membership Statistics, Contribution Information, and Plan Descriptions

Membership statistics as of June 30, 2021, for all MSRS defined benefit retirement funds are shown in **Exhibit 1** on the following page. Specific descriptions of each of these funds are contained in the narrative and schedules that follow.

Notes to the Financial Statements

Participating Employers	14	1	2	1	1	

Note: These retirement funds have no nonemployer contributing entities

State Employees Retirement Fund

The State Employees Retirement Fund includes the General Employees Retirement Plan (General Plan), a multiple-employer, cost-sharing plan. All state of Minnesota employees are covered by the General Plan. Within the General Plan are three special groups: Military Affairs, Transportation Pilots and Fire Marshals. Only certain employees of the Department of Military Affairs, Department of Transportation, and the office of the State Fire Marshal are eligible to be members of those groups. The Transportation Pilots group has been closed to new entrants since July 1, 2008, and there are no active contributing members.

The General Plan provides retirement, disability and death benefits to plan members and their beneficiaries.

As of June 30, 2021, all MSRS employees are members of the General Plan, except for the Executive Director, who is a member of the Unclassified Employees Retirement Plan.

MSRS employee and employer contributions are funded at 100.0 percent of the required contributions set by statute. Total covered payroll for MSRS employees was approximately \$10.0 million for fiscal year 2021, with employee contributions of \$595,382 and employer contributions of \$620,188.

State Patrol Retirement Fund

The State Patrol Retirement Fund includes only the State Patrol Retirement Plan, a single-employer plan. Membership is limited to State of Minnesota employees who are state troopers, conservation officers, and certain crime bureau and gambling enforcement agents.

The State Patrol Retirement Plan provides retirement, disability and death benefits to plan members and their beneficiaries.

Notes to the Financial Statements

Correctional Employees Retirement Fund

The Correctional Employees Retirement Fund includes only the Correctional Plan, a multiple-employer, cost-sharing plan. Membership is limited to State of Minnesota employees with 75.0 percent working time spent in direct contact with inmates or patients in Minnesota correctional facilities, the state-operated Forensic Services Program or the Minnesota Sex Offenders Program. Additionally, employees on leave from eligible positions to work for a labor organization may also be covered.

The Correctional Employees Retirement Plan provides retirement, disability and death benefits to plan members and their beneficiaries.

Judges Retirement Fund

The Judges Retirement Fund includes only the Judges Retirement Plan, a single employer plan. Membership is limited to Minnesota District, Appellate and Supreme Court judges. Retirees also include former municipal and county court judges.

The Judges Retirement Plan provides retirement, disability and death benefits to plan members and their beneficiaries.

The Judges Retirement Plan provides both a Tier 1 and a Tier 2 benefit program depending upon a judge's appointment or election date. Tier 1 program judges are those first appointed or elected before July 1, 2013, and Tier 2 program judges are those first appointed or elected after June 30, 2013. Judges with less than five years of service as of December 31, 2013, may make a one-time irrevocable election into the Tier 2 benefit program.

Legislators Retirement Fund

The Legislators Retirement Fund includes two state of Minnesota General Fund plans: the Legislators Retirement Plan and the Elective State Officers Retirement Plan. Each is a single employer plan that is closed to new entrants. Effective July 1, 2013, these plans were merged for administrative cost-savings purposes.

The Legislators Retirement Plan includes members of the Minnesota State Legislature who were first elected to office before July 1, 1997, and who elected to retain coverage under this plan. Legislators elected after that date are participants in the Unclassified Employees Retirement Plan, a defined contribution plan.

The Elective State Officers Retirement Plan includes constitutional officers (Governor, Lieutenant Governor, Secretary of State, Attorney General and State Auditor) who were first elected to office between July 1, 1967, and July 1, 1997, and chose to retain coverage under this plan. All members of the Elective State Officers Plan are in retirement status.

The General Fund plans provide retirement and death benefits to plan members and their beneficiaries.

Benefits for both plans are financed on a pay-as-you-go basis, funded primarily by annual appropriations from the state's General Fund.

Contribution Rates

Minnesota statutes require that eligible employees contribute a percentage of their total compensation to the retirement fund. Participating employers are also required to contribute a percentage to the funds. Contribution rates are reflected in **Exhibit 2**.

The employer contribution for the State Patrol Retirement Fund includes a 5.0 percent supplemental employer contribution. This supplemental contribution will increase in future years, and will remain in place until the plan is fully funded. A similar supplemental contribution of 2.95 percent exists in the Correctional Employees Retirement Fund, and, with increases, will remain in place until the plan is fully funded.

Details of future contribution increases are included in the *Summary of Plan Provisions* in the *Introductory Section* of this ACFR.

Notes to the Financial Statements

Exhibit 2: Fiscal Year 2021 Contribution Rates for MSRS Defined Benefit Retirement Funds

Retirement Plan	Employee Contribution Rate	Employer Contribution Rate	Statutory Authority
State Employees (General Plan)	6.00 %	6.25 %	M.S. 352.04
State Patrol	15.40	28.10	M.S. 352B.02
Correctional Employees	9.60	17.35	M.S. 352.92
Judges - Tier 1 ⁽¹⁾	9.00	22.50	M.S. 490.123
Judges - Tier 2	7.00	22.50	M.S. 490.123
Legislators	9.00 % to the State's General Fund	Funded by General Fund appropriation	M.S. 3A.03

⁽¹⁾ Contributions for Tier 1 Judges are redirected to the Unclassified Employees Retirement Plan after the judge's maximum retirement benefit is reached

In addition to the contributions noted above, the State Patrol Retirement Fund and the Judges Retirement Fund receive further funding.

The State Patrol Retirement Fund receives a \$1 million supplemental state contribution on an annual basis until the earlier of July 1, 2048, or when the State Patrol Retirement Fund and the Public Employees Retirement Association Police and Fire Retirement Fund both reach a 90 percent funded level on a market value of assets basis.

The Judges Retirement Fund receives a general fund appropriation of \$6 million on an annual basis until the Judges Retirement Fund is fully funded or until July 1, 2048, whichever is earlier.

Post-Retirement Benefit Increases

Post-retirement benefit increases are effective on January 1 of each year. Benefit increase rates are noted in **Exhibit 3**.

Exhibit 3: Annual Post-Retirement Benefit Increases for MSRS Defined Benefit Retirement Plans

Retirement Plan	Benefit Increase Amount
State Employees (General Plan)	1.00 percent through 2023, 1.50 percent thereafter
State Patrol	1.00 percent
Correctional Employees	1.50 percent
Judges	1.75 percent through 2021, 1.50 percent thereafter
Legislators	1.00 percent through 2023, 1.50 percent thereafter

Optional Retirement Annuities

In the defined benefit funds, three joint-and-survivor annuity options are available: a 50.0 percent survivor benefit, a 75.0 percent survivor benefit, and a 100.0 percent survivor benefit to the beneficiary. Each option includes the right of reversion to the single-life amount if the beneficiary dies before the member. A 15-year period certain and life thereafter annuity is also available. By statute, the Legislators Retirement Fund automatically provides a 50.0 percent benefit continuance to a surviving spouse. Legislators can also choose a 100.0 percent survivor coverage with an actuarially reduced benefit.

Notes to the Financial Statements

Vesting and Retirement Ages

All active and deferred members are fully vested to the extent of their contributions plus interest at a rate of 6.0 percent through June 30, 2011, 4.0 percent through

June 30, 2018, and 3.0 percent thereafter. For monthly retirement benefits, members are vested in each plan as noted in **Exhibit 4**.

Exhibit 4: Fiscal Year 2021 Vesting and Retirement Ages for MSRS Defined Benefit Retirement Plans

Retirement Plan	Vesting Requirements	Full retirement Age	Reduced (Early) Retirement Age
State Employees (General Plan)	Hired before July 1, 2010: Three years of covered service	Hired before July 1, 1989: - age 65, or	Age 55, if vested
	Hired after June 30, 2010: Five years	- age 62 with 30 years of service, or	
		- Rule of 90 eligible (age plus years of service equals 90 or more)	
		Hired after June 30, 1989: - age 66	
State Patrol	Hired before July 1, 2013: Three years of covered service	Age 55	Age 50
	Hired after June 30, 2013: ten years for members, five years for survivor purposes		
Correctional Employees	Hired before July 1, 2010: Three years of covered service	Age 55	Age 50
	Hired after June 30, 2010: must have a minimum of five years allowable service before a graded vesting schedule begins, which ranges from 50 percent vested after five years of allowable service to 100 percent vested after ten years of allowable service.		
Judges - Tier 1	Five years of allowable service	Age 65, mandatory age 70	Age 60
Judges - Tier 2	Five years of allowable service	Age 66, mandatory age 70	Age 60
Legislators	Six years of allowable service	Age 62	Age 55

Notes to the Financial Statements

Benefit Formulas

Benefits are calculated based on years and months of service, member age and the average salary from the sixty successive-month period (five years) with the

highest gross salary. Formulas for MSRS defined benefit plans are shown in **Exhibit 5**.

Exhibit 5: Benefit Formulas for MSRS Defined Benefit Retirement Plans

Retirement Plan	Benefit Formula
State Employees (General Plan)	<p>Members hired before July 1, 1989: Step or Level formula, whichever is greater. It also includes full benefits under the Rule of 90 (age plus years of allowable service equals 90).</p> <p>Members hired on or after July 1, 1989: Level formula. Not Rule of 90 eligible.</p> <p>Step formula: 1.20 percent of the high-five average salary for each of the first 10 years of covered service, then 1.70 percent for each year thereafter.</p> <p>Level formula: 1.70 percent of the high-five average salary for all years of covered service, with full benefits at normal retirement age.</p>
State Patrol	<p>3.00 percent of the high-five average salary for each year of allowable service.</p> <p>Allowable service used to determine benefits is limited to 33 years, with a refund of employee contributions for excess years of service. Members with at least 28 years of service as of July 1, 2013, are not subject to this service limit.</p>
Correctional Employees	<p>For employees hired before July 1, 2010: 2.40 percent of the high-five average salary for each year of allowable service, prorated for completed months.</p> <p>For employees hired after June 30, 2010: 2.20 percent of the high-five average salary for each year of allowable service, prorated for completed months.</p> <p>Monthly benefits can be received either as level lifelong payments or accelerated payments until a reversion age of 62 or 65. Upon attaining the reversion age, the benefit is adjusted actuarially to a lower, permanent amount.</p>
Judges - Tier 1	<p>2.70 percent of the high-five average salary for each year of allowable service prior to July 1, 1980, then 3.20 percent for each year of allowable service after June 30, 1980.</p> <p>The maximum benefit a Tier 1 program member receives is 76.80 percent of high-five average salary.</p>
Judges - Tier 2	<p>2.50 percent of the high-five average salary for each year of allowable service.</p> <p>There is no maximum benefit for Tier 2 program members.</p>
Legislators	<p>For members first elected prior to January 1, 1979: 5.00 percent of high-five average salary for the first eight years of service prior to January 1, 1979, then 2.50 percent for subsequent years.</p> <p>For members elected after December 31, 1978: 2.50 percent of the high-five average salary for each year of allowable service.</p>

Notes to the Financial Statements

E. Defined Contribution Retirement Funds Membership Statistics, Contribution Information, and Plan Descriptions

MSRS contracts with a third-party administrator, Empower Retirement™ (Great-West Life & Annuity Insurance Company), to provide various recordkeeping

services for the four MSRS defined contribution funds. Membership statistics as of June 30, 2021, are provided in **Exhibit 6**.

Exhibit 6: Membership Statistics – MSRS Defined Contribution Funds

(Dollars in thousands)

As of June 30, 2021	Unclassified Employees	Health Care Savings	MN Deferred Compensation	Hennepin County Supplemental	Totals
Active Members	1,355	72,006	53,935	74	127,370
Inactive Members	1,966	59,344	31,559	817	93,686
Withdrawing Members	0	11,855	9,687	161	21,703
Total Members	3,321	143,205	95,181	1,052	242,759
Annual Payroll	\$124,255	NA	NA	\$6,586	
Participating Employers	6	601	760	2	

Unclassified Employees Retirement Fund

The Unclassified Employees Retirement Fund is a tax-deferred, defined contribution fund entirely composed of a single, multiple-employer defined contribution plan, the Unclassified Employees Retirement Plan. Minnesota Statute Section 352D.01 authorized creation of this plan. Participation is limited to certain, specified employees of the State of Minnesota and various statutorily designated entities.

It is considered a money purchase plan, with participants vesting only to the extent of the value of their accounts (employee contributions plus employer contributions plus/minus investment gains/losses, less administrative expenses), but functions as a hybrid of a defined contribution plan and a defined benefit plan.

Minnesota Statutes, Section 352D.04, subdivision 2, requires a contribution rate of 6.0 percent of salary from participating employees, which is equivalent to the employee contribution rate for members of the General Employees Retirement Plan. The employer contribution rate for the Unclassified Employees Retirement Plan is 6.25 percent of salary.

Unclassified Employees Retirement Plan participants are eligible to apply for the balance in their account after termination of public service. There is no minimum employment requirement to qualify for this lump-sum payment. Since contributions made to this plan are not taxed, participants pay taxes when funds are withdrawn and may be subject to a 10.0 percent tax penalty if funds are withdrawn in a lump sum before the member reaches age 59 1/2. Monthly benefits are available to terminated participants at age 55 or later, regardless of the individual's length of service. Participants age 55 or older may also apply for a portion of their account balance as a lump-sum payment and the remainder in lifetime, monthly benefits.

Retirement and disability benefits are available to some participants through conversion to the General Plan, at the participant's option, provided the employee has at least 10 years of allowable service in the Unclassified and/or the General Plan if hired prior to July 1, 2010, or has no more than seven years of service if hired after June 30, 2010. This conversion option is not available to judges, legislators and elected state officers. It is a contingent liability of the State Employees Retirement Fund and actuarially valued as of June 30, 2021, in the amount \$2,648,000.

Notes to the Financial Statements

Health Care Savings Fund

The Health Care Savings Fund is a defined contribution fund entirely composed of the Health Care Savings Plan. It is an employer-sponsored program authorized by Minnesota Statutes Section 352.98. The Health Care Savings Plan allows employees to save tax-free contributions in an investment account to be used to reimburse the plan participants for future medical expenses and medical insurance premiums after they terminate employment. As a result of various Internal Revenue Service (IRS) rulings and regulations, benefit payments are tax exempt. Program participation is mandated by either collective bargaining agreement or personnel policy. Contribution rates are determined by collective bargaining agreements or employer personnel policies. They are highly variable, ranging from a percentage of weekly earnings to lump sum contributions such as severance pay.

Minnesota Deferred Compensation Fund

The Minnesota Deferred Compensation Fund is a defined contribution fund entirely composed of the Minnesota Deferred Compensation Plan. Minnesota Statutes Section 352.965 establishes this plan. It is a voluntary plan offered to all state employees and political subdivisions located in Minnesota. Authorized under Section 457(b) of the Internal Revenue Code, contributions and investment earnings are tax sheltered until the time of withdrawal. Employee contributions may be as little as \$10 each paycheck. Some employer units or bargaining units may match a portion of an employee’s contributions annually. All contributions are subject to annual maximum limits determined by the IRS.

All assets and income are held in trust for the sole benefit of plan participants and beneficiaries. Plan participants may only withdraw money from their account upon separation of service or retirement. Unlike many other supplemental retirement plans, Section 457(b) plan participants who take a distribution before reaching age 59 1/2 are not subject to the IRS 10.0 percent early withdrawal penalty.

Hennepin County Supplemental Retirement Fund

MSRS provides recordkeeping services for the Hennepin County Supplemental Retirement Fund, a defined contribution fund. Only employees of Hennepin County who began employment prior to April 14, 1982, are eligible to participate in this tax-sheltered nonqualified plan. This plan was created in accordance with Minnesota Statutes Section 383B.46 and Section 6064(d)(2) and (3) of the Technical and Miscellaneous Revenue Act of 1988. Employee contributions of 1.0 percent of salary are matched by employer contributions of 1.0 percent of salary.

Plan Administrative Fees

Plan administrative fees in each defined contribution plan are collected near the middle of the month, and are based on each participant’s account balance on that day. The fees are used to pay for recordkeeping and custodial services, and to reimburse MSRS for expenses incurred to administer the plan. The fiscal year 2021 plan administrative fee rate structure for each defined contribution fund is shown in **Exhibit 7**.

Exhibit 7: Fiscal Year 2021 Plan Administrative Fee Schedule for MSRS Defined Contribution Retirement Funds

Defined Contribution Retirement Fund	Administrative Fee Rate Schedule
Unclassified Employees	\$2 per month for an account balance up to \$10,000 \$4 per month for an account balance between \$10,000.01 and \$30,000 \$6 per month for an account balance between \$30,000.01 and \$90,000 \$8 per month for an account balance over \$90,000
Health Care Savings	0.65% or 65 basis points of a participant’s account balance (\$140 annual maximum fee)
Minnesota Deferred Compensation	0.10% or 10 basis points of a participant’s account balance (\$125 annual maximum fee)
Hennepin County Supplemental	0.05% or 5 basis points of a participant’s account balance

Notes to the Financial Statements

Note 2: Summary of Significant Accounting Policies

A. Basis of Presentation and Basis of Accounting

Basis of Presentation

The accompanying financial statements were prepared in accordance with generally accepted accounting principles (GAAP). In doing so, MSRS adheres to accounting and financial reporting standards established by the Governmental Accounting Standards Board (GASB). GASB is the independent, not-for-profit, standards-setting organization and the official source of GAAP for state and local governmental entities in the United States of America.

The MSRS accounts are organized and presented on the basis of funds. All of the funds presented in the financial statements are fiduciary funds. These funds are classified as pension trust funds, and are maintained for the exclusive benefit of the members or their beneficiaries.

Basis of Accounting

The basis of accounting indicates the timing of transactions or events for recognition in the financial statements. MSRS' financial statements are reported using the accrual basis of accounting. Plan member contributions, employer contributions, and related receivables are recognized as revenues when due, pursuant to formal commitments and statutory requirements. Annuity benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Administrative and other expenses, and the associated liabilities, are recognized when the liability is incurred.

Changes in Accounting Principles

There were no changes in accounting principles affecting MSRS during fiscal year 2021.

B. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position Restricted for Pensions

Cash and Cash Equivalents

For the MSRS defined benefit retirement funds, cash and cash equivalents include cash on deposit in the state's treasury, commingled with other state funds, and short-term investments. Cash on deposit consists of year-end receipts not yet processed as of the investment cutoff on June 30. Short-term investments include U.S. Treasury issues, repurchase agreements, banker's acceptances, commercial paper, and certificates of deposit. For each MSRS defined contribution fund, cash equivalents represent the money market funds associated with a Plan Sponsor Account, or plan expense account. This is the account the recordkeeper uses to deposit monthly participant administrative fees and to pay authorized, allowable plan operating expenses.

Accounts Receivable

Accounts receivable represents plan member and employer contributions, calculated as a percentage of each employee's salary as specified in Minnesota Statutes, which is received after fiscal year-end for services rendered during the fiscal year.

For the defined contribution funds, accounts receivable includes any plan administrative fees, determined as a percentage of each participant's account balance, which were earned during the fiscal year, but received after fiscal year-end.

Interfund Receivables, Payables, and Transfers

The purpose of interfund receivables and payables is to accrue interfund obligations that are outstanding as of the fiscal year-end date, June 30. Most of these balances are the result of our reallocation of administrative expenses, which is done annually. The only balances that may not be completely liquidated during the ensuing fiscal year are the interfund payables from the Unclassified Employees Retirement Fund and the Health Care Savings Plan to the State Employees Retirement Fund.

Interfund transfers are primarily the result of elective membership eligibility changes that have occurred during the fiscal year.

Notes to the Financial Statements

Due From/To the State's General Fund

The Legislators Retirement Fund is primarily funded on a pay-as-you-go basis with an annual appropriation from the State's General Fund. This appropriation, reported as a General Fund contribution on the *Statement of Changes in Fiduciary Net Position*, is used to finance annuity benefits paid to retirees or their survivors, member refunds, and the Legislators Fund's share of the MSRS administrative expenses. The amount due from the State's General Fund as of fiscal year-end represents funds receivable to cover the Legislators Fund's share of administrative expenses for the fiscal year. The amount due to the State's General Fund as of fiscal year-end represents the unused portion of the full appropriation that MSRS is obligated to return to the state.

Investments

Investment Policy

The Minnesota State Board of Investment (SBI) is established by Article XI of the Minnesota Constitution to invest all state funds. The membership is made up of the Minnesota Governor (who is designated as chair of the Board), State Auditor, Secretary of State and Attorney General. The legislature has also established a 17-member Investment Advisory Council (IAC) to advise the SBI and its staff on investment related matters. The MSRS Executive Director is a permanent member of the IAC.

All investments undertaken by the SBI are governed by the prudent person rule and other standards codified in Minnesota Statutes, Chapter 11A and Chapter 356A.

The SBI, with assistance of the SBI staff and the IAC, has the authority for establishing and amending investment policy for all funds under its control by majority vote of the Board. The policy outlines the investment philosophy and guidelines within which the Combined Fund's investments will be managed.

The state's public retirement fund assets are commingled in various pooled investment accounts, commonly referred to as the Combined Funds, as established in Minnesota Statutes Section 11A. Each participating retirement fund owns an undivided participation in all of the assets of the Combined Funds' pooled investment accounts.

Description of Significant Investment Policy Changes During the Year

A number of SBI investment policies and strategies were approved at the end of fiscal year 2020 and implemented during fiscal year 2021.

Approved and implemented policies include:

- The Total Combined Funds allocation to the Fixed Income Program was increased to 25.0 percent. The resulting Fixed Income Program includes a 20.0 percent combined Cash and Short Duration Treasury Ladder allocation; a 40.0 percent Treasury Protection allocation; and, a combined 40.0 percent Core/Core-plus and Returns Seeking Bond allocation.
- The upper limit of Private Markets fair value plus unfunded commitments was temporarily increased from 35.0 percent to 45.0 percent. SBI staff, together with a Private Market consultant, will propose a permanent recommendation for the management of unfunded commitments by the end of Fiscal Year 2023.

Approved and implemented strategies include:

- Segregating uncommitted Private Market investments from the balance of the Public Equities Investment Pool. If a 25.0 percent allocation to Private Markets cannot be achieved, the uncommitted allocation is invested in Public Equities. The uncommitted portion is now in its own Public Equities pool, managed using physical securities and a cash overlay program.
- The use of cash overlay to facilitate rebalancing and enhance portfolio liquidity.
- The use of currency overlay to more effectively manage the portfolio's non-dollar exposure.
- Implementing a procedure to remove any publicly traded companies which derive 25.0 percent or more of their revenue from the extraction and/or production of thermal coal from the SBI's Combined Funds investment portfolio.

Notes to the Financial Statements

Valuation of Investments

Investments in the Combined Funds and the Participant Directed Investment Programs (which includes investments in the MSRS defined contribution plans) are reported at fair value. Fair value is the proportionate share of the combined market value of the investment portfolio of the SBI investment pool in which the funds participate. All securities within the pools are valued at fair value except for U.S. government short-term securities and commercial paper, which are valued at fair value less accrued interest. Accrued interest is recognized as short-term income. The SBI values long-term fixed income securities by using various valuation systems which provide prices for both actively traded and privately placed bonds. For equity securities, the SBI uses various valuation services and fair value is the last reported sales price for securities traded on national or international exchanges. If a security is not actively traded, then the fair value is based on the analysis of financial statements, analysis of future cash flows and independent appraisals.

Assumptions made in valuing securities are as follows:

- Values of actively traded securities determined by recognized exchanges are objectively negotiated purchase prices between willing buyers and sellers, and are not subject to either undue influence or market manipulation. Securities traded on a national or international exchange are valued using the last reported trade price.
- Values of securities not actively traded are determined by objective appraisals by qualified professional analysts whose results would not vary materially from those of other similarly qualified professionals. The fair value of investments is based upon valuations provided by a recognized pricing service. Short-term investments are reported at cost, which approximates fair value. The fair value of real estate investments is based on independent yearly appraisals. Investments that do not have an established market are reported at estimated fair value.

The term “market value” is used when describing asset valuation methods for actuarial purposes, and is used consistently throughout the *Actuarial Section* and in other places in the ACFR when referring to funding status. “Market value” is equivalent to “fair value.”

Investment Income

Investment income is recognized as it is earned. Accrued investment income of the pooled investment accounts is included in participation in the accounts. Gains and losses on sales or exchanges are recognized on the transaction date.

Investment Expenses

For financial reporting purposes, the cost of security transactions is included in the transaction price. Investment expenses include administrative expenses of the SBI to manage the state’s comprehensive investment portfolio and investment management fees paid to the external money managers and the state’s master custodian for pension fund assets. These expenses are allocated proportionately to the funds participating in the pooled investment accounts. Details of these expenses are presented in the *Schedule of Investment Fees* found within the unaudited *Investment Section* of this annual comprehensive financial report. A more detailed schedule of fees and commissions the SBI paid to brokerage firms, along with the number of shares traded, total commissions, commissions per share for the pooled investment accounts, and other investment information may be obtained from the Minnesota State Board of Investment at the Retirement Systems of Minnesota Building, 60 Empire Drive, Suite 355, Saint Paul, Minnesota 55103.

Investment expenses exclude plan administrative fees, self-directed brokerage account fees, investment advisory service fees and any fund redemption fees deducted from participants’ defined contribution retirement plan account balances. These investment-related fees are reported as Other Expenses in the *Statement of Changes in Fiduciary Net Position*.

Notes to the Financial Statements

Asset Allocation

To match the long-term nature of pension obligations, the SBI maintains a strategic asset allocation for the Combined Funds that includes allocations to public equity (both domestic and international), fixed income, and private markets. The current long-term asset allocation shown in **Exhibit 8**.

If a 25.0 percent allocation to Private Markets cannot be achieved, the uncommitted allocation is invested in Public Equities. When the actual asset allocation deviates beyond specified ranges, assets are redistributed to achieve the long-term allocation targets.

The long-term expected rate of return is based on an asset allocation completed by the SBI in 2016. A new

study, typically completed once every five years, is anticipated in the near future. The SBI’s long-term expected rate of return was determined using a building-block method. Best estimates of future real rates of return (expected returns, net of inflation) were developed for each asset class using both long-term historical returns and long-term capital market expectations from a number of investment management and consulting organizations. The asset class estimates and target allocations were then combined to produce a geometric, long-term expected real rate of return for the portfolio. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

Exhibit 8: SBI Target Asset Allocations and Long Term Expected Real Rate of Return

Asset Class	Target Allocation	Long-term Expected Real Rate of Return (Geometric Mean)
Domestic Equity ^{(1) (3)}	33.5 %	5.10 %
International Equity ^{(2) (3)}	16.5	5.30
Fixed Income ⁽⁴⁾	25.0	0.75
Private Markets ⁽⁵⁾	25.0	5.90
Total	100.0 %	

⁽¹⁾ Domestic Equity includes the Domestic Active Equity Pool and the Domestic Equity Pool.
⁽²⁾ International Equity includes Broad International Stock Pool.
⁽³⁾ The Global Equity Pool includes both domestic and international equities. The assets in the pool are included in the target allocations of both Domestic Equity and International Equity.
⁽⁴⁾ Fixed Income includes the Bond Pool and Treasuries Pool.
⁽⁵⁾ If a 25 percent allocation cannot be achieved, the uncommitted allocation is invested in Domestic and International Equities.

Notes to the Financial Statements

Annual Money-Weighted Rate of Return

The annual money-weighted rate of return is a method of calculating period-by-period returns on pension fund investments that adjusts for the changing amounts actually invested. The money-weighted rate of return is calculated as the internal rate of return on pension fund investments, net of pension fund investment expenses. Because the pension funds each have different cash flows throughout the year, they have different money-weighted rates of return. The money-weighted rate of return for each MSRS retirement fund is presented in **Exhibit 9**. The Legislators Retirement Fund had no assets at June 30, 2021, and therefore no rate of return.

Exhibit 9: Money-weighted Rate of Return

For the Fiscal Year Ended June 30, 2021

Retirement Fund	Money-weighted Rate of Return
State Employees	30.30 %
State Patrol	30.28
Correctional Employees	30.23
Judges	30.14
Legislators	NA

Capital Assets

Capital assets consist of land, building, building improvements, equipment, furniture, and fixtures, and internally developed software intended for MSRS use only. With the exception of internally developed or acquired computer software, capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated minimum useful life of two years. The capitalization threshold for internally developed or acquired software is \$30,000 per application. All assets were capitalized at historical cost at the date of acquisition, issuance or completion. All assets, except land, are depreciated or amortized when placed into operation using the straight-line method over the estimated useful lives shown in **Exhibit 10**.

Exhibit 10: Capital Assets Estimated Useful Lives

Capital Asset Types	Useful Life (in Years)
Land	NA
Building	30
Building Improvements and Equipment	10
Equipment, Furniture, and Fixtures	2-10
Internally Developed and Acquired Software	4-10

Deferred Outflows/Inflows of Resources

In addition to assets, the *Statement of Fiduciary Net Position* may report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods so will not be recognized as an outflow of resources (expense) until then. MSRS has no deferred outflows of resources in 2021.

In addition to liabilities, the *Statement of Fiduciary Net Position* also may report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods so will not be recognized as an inflow of resources (revenue) until that time. MSRS has no deferred inflows of resources in 2021.

Net Position Restricted for Pensions

Net position represents the sum of total assets and total deferred outflows of resources less the sum of total liabilities and total deferred inflows of resources. For each defined benefit and defined contribution retirement fund, the amount reported as net position is restricted for the future payment of benefits and refunds to members or their surviving spouses or beneficiaries, and administrative expenses.

Notes to the Financial Statements

Accrued Compensated Absences

In accordance with various collective bargaining unit agreements, MSRS employees earn vacation, sick, and compensatory leave benefits. Earned but unused benefits are eligible for payment upon separation from state government service. At fiscal year-end, MSRS recognizes an obligation for future payment to the extent that the right to receipt is vested or expected to become vested.

Other Income

Other income for the MSRS defined benefit retirement funds represents its proportionate ownership share (27.5 percent) of the Retirement Services Building office space lease income, room rental fees and parking fee revenues. Other income for these funds also includes employer late fees submitted with payroll contributions and fees received for fulfilling data requests.

Other income for the MSRS defined contribution retirement funds represents participant plan administrative fee income earned during the fiscal year.

For all defined contribution funds, except the Supplemental Retirement Fund for Hennepin County, this revenue is primarily used to cover fees for recordkeeping and custodial services, and to reimburse MSRS for administrative costs incurred to counsel members, adjudicate health care reimbursement claims, and perform various business support services. For the Supplemental Retirement Fund for Hennepin County, the excess of participant plan administrative fee income over recordkeeping and MSRS' administrative expenses is returned to the county.

Refunds

For defined benefit plans, refunds represent distributions to members, separated from service, of their retirement deductions with interest compounded daily at 6.0 percent through June 30, 2011, 4.0 percent through June 30, 2018, and 3.0 percent thereafter. It excludes employer contribution amounts. When a member takes a refund, the member forfeits the right to retirement, survivor, and disability benefits. Refunds also include rollovers to an individual retirement account or another qualified retirement plan.

For defined contribution funds, refunds represent distributions to plan participants equal to all or a portion of their account balances, which are composed of contributions plus any investment gains or losses. Refunds may be in the form of cash withdrawals or rollovers to other qualified plans.

Administrative Expenses

MSRS administrative expenses are disbursed from the State Employees Retirement Fund. At fiscal year-end, these expenses are allocated pursuant to an approved cost reallocation plan to the various funds administered. Each fund then reimburses the State Employees Retirement Fund for their allocated portion of administrative expenses.

Notes to the Financial Statements

Note 3: Deposits and Investments

A. Risks

Custodial Credit Risk

Custodial credit risk for cash deposits and investments is the risk that, in the event of a bank or custodian failure, MSRS will not be able to recover the value of its investments or collateral securities. Minnesota Statutes, Section 9.031, requires that deposits be secured by depository insurance or a combination of depository insurance and collateral securities held in the state’s name by an agent of the state. Such insurance and collateral shall be in amounts sufficient to ensure that deposits do not exceed 90 percent of the sum of the insured amount and the fair value of the collateral. Throughout fiscal year 2021, the combined depository insurance and collateral was sufficient to meet legal requirements and secure all MSRS deposits, eliminating exposure to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations. The SBI has policies designed to minimize credit risk. They may invest funds in governmental obligations provided the issue is backed by the full faith and credit of the issuer, or that the issue is rated among the top four quality rating categories by a nationally recognized rating agency. They may invest funds in corporate obligations provided the issue is rated among the top four quality categories by a nationally recognized rating agency. They may also invest in unrated corporate obligations or in corporate obligations that are not rated among the top four quality categories provided that:

- The aggregate value of these obligations may not exceed 5.0 percent of the fund for which the SBI is investing;
- Participation is limited to 50.0 percent of a single offering; and,
- Participation is limited to 25.0 percent of an issuer’s obligations.

The SBI may also invest in banker’s acceptances, deposit notes of U.S. banks, certificates of deposit, mortgage securities and asset-backed securities rated in the top four quality categories by a nationally recognized rating agency. Commercial paper must be rated in the top two quality categories.

As of June 30, 2021, MSRS’ proportionate share of the SBI’s exposure to credit risk, based on the lower of Standard and Poor’s or Moody’s Quality Ratings for debt securities and short-term investments, is shown in **Exhibit 11**. For clarity of reporting, Moody’s ratings are displayed in this exhibit using the comparable Standard and Poor’s rating. If only one rating exists, that rating is used.

Quality Rating	Fair Value
AAA	\$167,178
AA	2,834,534
A	137,173
BBB	460,085
BB	280,570
B	278,508
CCC	121,123
CC	8,250
C	380
D	542
Unrated	1,190,339
Total	\$5,478,682

Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government’s investment in a single issuer. The SBI determined the concentration of credit risk based on security identification number. The MSRS defined benefit retirement funds do not have exposure to a single issuer that equals or exceeds 5.0 percent of the MSRS fiduciary net position. Therefore, there is no concentration of credit risk.

Notes to the Financial Statements

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt instruments could adversely affect the fair value of an investment. The SBI controls interest rate risk through guidelines established for each portfolio. The

MSRS share of debt securities is held in external investment pools and as of June 30, 2021, had the weighted-average maturities shown in **Exhibit 12**.

Exhibit 12: Interest Rate Risk

As of June 30, 2021

(Dollars in thousands)

Security Type	Fair Value	Weighted Average Maturity in Years
U.S. Agencies	\$108,960	8.94
Asset-Backed Securities	155,513	4.36

Mortgage-Backed Securities (non-commercial)	335,081	4.95
State and Local Government Bonds	30,891	7.90
Bank Loans	54,785	5.39
U.S. Treasuries	2,365,894	13.66
Total Fair Value	\$5,478,681	
Portfolio Weighted-Average Maturity		8.53

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates between the U.S. dollar and foreign currencies could adversely affect the fair value of an investment. Most foreign currency risk resides within the SBI's international equity investment holdings. To reduce foreign currency risk, the SBI implements several policies. Government obligations, including guaranteed or insured issues of the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, and the African Development Bank, must pay interest and principal in U.S. dollars. The principal and interest of obligations of corporations, including those corporations incorporated or organized under the laws of the Dominion of Canada or any province thereof, must also be paid in U.S. dollars. The SBI uses a foreign currency overlay manager to implement an active hedging program for its international passive equity portfolio. In addition, the SBI active managers also have discretion to use forward currency contracts within their portfolios to

hedge foreign currency risk as they deem appropriate. The MSRS share of foreign security investments at June 30, 2021, was distributed among the currencies shown in **Exhibit 13** on the following page.

Notes to the Financial Statements

Derivative Financial Instruments and Credit Risk

On behalf of MSRS, the SBI invests in various types of derivative financial instruments. Derivatives are defined as any financial arrangement between two parties that has value based on or derived from future price fluctuations. The derivative financial instruments that the SBI enters into include futures, options, stock warrants and rights, currency forwards, swaps and synthetic guaranteed investment contracts.

Minnesota Statutes, Section 11A.24, provides that any agreement for put and call options and futures contracts may only be entered into with a fully offsetting amount of cash or securities. This applies to foreign currency forward contracts used to offset the currency risk of a security. All other derivatives are exchange-traded. The purpose of the SBI's derivative activity is to equitize cash in the portfolio, adjust the duration of the portfolio or to offset current futures positions.

The fair value balances and notional (face value) amounts at June 30, 2021, classified by derivative instrument type, and the changes in fair value for fiscal year 2021 are shown in **Exhibit 14** on the next page. Explanations of each derivative instrument type are presented below.

- **Futures** are contract commitments to purchase (asset) or sell (liability) at a future date. The net change in the values of futures contracts is settled on a regular basis. Gains and losses are included in investment income.
- **Options** are contracts that give buyers or sellers the right to buy (calls) or sell (puts) a security at a predetermined price on a future date. Gains and losses result from variances in the fair value of the security that is the subject of the contract that occur prior to or on the contract specified date. The gains and losses are included in investment income.
- **Currency forward contracts** are used to manage portfolio foreign currency risk. The provisions of the contract vary based on what is negotiated between the two parties to the contract.
- **Stock warrants and rights**, similar to options, are the right to purchase shares of a stock at a certain price by a certain date. They usually have five years or more before expiration. When exercised, the company issues new shares. Rights are similar but are issued to current stock owners to enable them to retain their relative ownership share. Gains and losses from the sale or exercise of stock warrants and rights are included in investment income.

- **Swaps** are a derivative contract through which two parties exchange the cash flows or liabilities from two different financial instruments. Most swaps involve cash flows based on a notional principal amount such as a loan, bond, or currency. Usually, the principal does not change hands. Each cash flow comprises one leg of the swap. One cash flow is generally fixed, while the other is variable and based on a benchmark interest rate, floating currency exchange rate or index price. The most common kind of swap is an interest rate swap, but currency swaps and credit default swaps on a reference security or basket of securities are also common.

The SBI maintains a fully benefit-responsive synthetic guaranteed investment contract for the Supplemental Investment Fund - Stable Value Fund. The investment objective of the Stable Value Fund is to protect investors from loss of their original investment and to provide a competitive interest rate. On June 30, 2021, the SBI's portfolio of well-diversified, high quality, investment grade fixed income securities had a fair value of \$1,738,134,021 that is \$62,735,691 above the value protected by a wrap contract. The Stable Value Fund also includes liquid investment pools with a combined fair value of \$28,806,180.

Derivative Credit Risk

The SBI is exposed to credit risk through 19 counterparties in foreign currency forward contracts that are used to offset the currency risk of a security. MSRS' proportionate share of the maximum loss that the SBI would have recognized as of June 30, 2021, if all counterparties failed to perform as contracted is \$51,967,645. These counterparties have Standard and Poor's ratings of BBB+ or better.

Notes to the Financial Statements

Total Return Swaps Equity	(5)	(4)	(1,133)

B. Securities Lending Transactions

MSRS does not own specific securities but instead owns shares in various pooled funds invested by the SBI. The amounts shown on the financial statements are MSRS' proportionate share of securities loaned, collateral pledged, and loan income that resulted from the lending activity of the investment managers, retained by the SBI, of these investment pools. The types and amounts of securities loaned are presented in **Exhibit 15**.

Minnesota Statutes, section 356A.06, subdivision 7, allows the SBI to participate in securities lending transactions. The SBI has, by way of a Securities Lending Authorization Agreement, authorized State Street Bank and Trust Company (State Street) to lend its securities to broker-dealers and banks pursuant to a form of loan agreement.

During the fiscal year, State Street lent, on behalf of the SBI, certain securities held by State Street as custodian and received cash or other collateral including securities issued or guaranteed by the United States government.

State Street does not have the ability to pledge or sell collateral securities delivered absent a borrower default. Borrowers were required to deliver collateral for each loan equal to at least 100 percent of the fair value of the loaned securities.

Exhibit 15: Securities Loaned

(Dollars in thousands)

Investment Type	Amount as of June 30, 2021
Domestic Equities	\$1,235,811
Domestic Corporate Bonds	217,411
U.S. Government Bonds	167,725
International Equities	64,169
International Corporate Bonds	31
Total	\$1,685,147

Notes to the Financial Statements

Pursuant to the Securities Lending Authorization Agreement, State Street had an obligation to indemnify the SBI in the event of default by the borrower. There were no failures by any borrowers to return loaned securities or pay distributions during the fiscal year that resulted in a declaration or notice of default of the borrower.

During the fiscal year, the SBI and the borrowers maintained the right to terminate securities lending transactions upon notice. The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a collective investment pool. As of June 30, 2021, the investment pool had an average duration of 1.0 day and an average weighted final maturity of 107.98 days for U.S. dollars. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. On June 30, 2021, the SBI had no credit risk exposure to borrowers. The MSRS share of the collateral held and the fair value of securities on loan (in U.S. dollars) as of June 30, 2021, was \$1,742,125,277 and \$1,685,147,387 respectively. Cash collateral totaling \$1,289,207,565 is reported on the *Statement of Fiduciary Net Position* as an asset and as a corresponding liability.

C. Fair Value Reporting

GASB Statement No. 72, *Fair Value Measurement and Application*, sets forth the framework for measuring the fair value of investments based on a hierarchy of valuation inputs. The hierarchy has three levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2: Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. Inputs for level 2 include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and,
- Inputs derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Unobservable inputs for the asset or liability. Unobservable inputs reflect the SBI's assumptions about the inputs that market participants would use in pricing an asset or liability.

Net Asset Value (NAV): Investments that do not have a readily determinable fair value are measured using the net asset value per share (or its equivalent) as a practical expedient and are not classified in the fair value hierarchy.

All non-cash investments, including derivative investments that are not hedging derivatives, are required to be measured at fair value on a recurring basis. The SBI maintains investment pools that participants can invest in; participants own a proportionate share of the investment pools. The fair value of the investment pools is priced daily by the SBI custodian, when a daily price is available, by using independent pricing sources.

In **Exhibit 16** on the following page, Level 3 investments primarily consist of assets where the asset is distressed, or there is not an active market. The fair value of the assets measured at NAV have been determined using March 31, 2021, values, adjusted for cash flows. The investments measured at NAV are typically not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which occur over the life of the investment. Cash and a portion of short-term investments are not leveled under GASB Statement No. 72, and therefore are not included in the exhibit.

The SBI has 60 investments that are valued at NAV that are currently in the liquidation mode, totaling 2.0 percent of the NAV value. MSRS' proportionate share of the unfunded commitments to the investments valued at NAV totals \$2,592,868,622. Unfunded commitments are funds that have been committed to an investment but not yet transferred to investors.

Explanations of investment types follow the exhibit.

Notes to the Financial Statements

Exhibit 16: Fair Value of MSRS Investments

As of June 30, 2021

(Dollars in thousands)

Investments	Fair Value	Level 1	Level 2	Level 3

Notes to the Financial Statements

Equity

Common Stock: Securities representing equity ownership in a corporation, providing voting rights and entitling the holder to a share of the company's success through dividends and/or capital appreciation.

Real Estate Investment Trust (REIT): An investment pool established by a group of investors for the purpose of investing in real estate or mortgages. REITs are generally exempt from federal taxes, provided that 95 percent of earned income is distributed and that the various investors are not treated differently.

Other Equity: Includes Preferred Stock, Depository Receipts, Limited Partnership Units, Common Stock Units, Rights, Warrants and Mutual Funds.

Fixed Income

Bank Loans: Floating rate debt instruments issued by corporations, secured by company property, plant, equipment or other assets, and typically senior in the capital structure to other liabilities.

Asset-Backed Securities: Bonds or notes backed by financial assets, including auto loans and credit card receivables.

Mortgage-Backed Securities: An asset-backed security that is secured by a mortgage or collection of mortgages. The mortgages are sold to a government agency or investment bank that will package the loans together into a security that can be purchased by investors.

Corporate Bonds: Debt obligations issued by corporations as an alternative to offering equity ownership by issuing stock. Like most municipal bonds and Treasuries, most corporate bonds pay semi-annual interest and promise to return their principal when they mature. Maturities range from 1 to 30 years.

Government Issue: Securities or bonds issued by any of the fifty states, the territories and their subdivisions, counties, cities, towns, villages, school districts, agencies (such as authorities and special districts created by the states), and certain federally sponsored agencies such as local housing authorities.

Other Debt Instruments: Includes STIF (Short Term Investment Fund) type instruments.

Investment Derivatives

Rights: The right to purchase newly issued securities in proportion to an investor's holdings of certain stocks.

Warrants: The right to purchase one or more shares of stock, usually attached to other issues purchased by an investor.

Options: A contract that gives the holder the right to buy from or sell to the writer a specified amount of securities at a specified price, good for a specified period of time.

Swaps: A derivative contract through which two parties exchange the cash flows or liabilities from two different financial instruments. The most common kind of swap is an interest rate swap, but currency swaps, credit default swaps, and total return swaps on a reference security or basket of securities are also common.

Net Asset Value (NAV)

Private Equity: The private equity investment strategy is to establish and maintain a broadly diversified private equity portfolio composed of investments that provide diversification by industry type, stage of corporate development and location.

Real Estate: The real estate investment strategy calls for the establishment and maintenance of a broadly diversified real estate portfolio composed of investments that provide overall diversification by property type and location. The main components of this portfolio consist of investments in closed-end commingled funds. The remaining portion of the portfolio may include investments in less diversified, more focused (specialty) commingled funds, and REITs.

Real Assets: The strategy for real assets investments is to establish and maintain a portfolio of real assets investment vehicles that provide an inflation hedge and additional diversification. Real assets investments include oil and gas investments and energy service industry investments that are diversified by geographic area as well as by type.

Private Credit: The strategy for private credit investments is to target funds that typically provide a current return and may have an equity component. Structures such as subordinated debt investments and mezzanine investments are typical private credit investments.

Notes to the Financial Statements

Note 4: Liabilities

A. Long-term Debt

Legislation was passed in 1999 allowing MSRS, the Teachers Retirement Association (TRA) and the Public Employees Retirement Association (PERA) to purchase land and construct a 140,000 square foot building to house all three retirement systems. Ownership of the facility is prorated based on the proportionate share of the building's usable space in square feet. On June 1, 2000, the state Department of Finance (currently known as Minnesota Management and Budget) issued \$29,000,000 in 30-year revenue bonds to finance the building construction.

In the fall of 2012, the remaining bonds were refunded with the proceeds of a new, lower-interest rate bond issue. The bonds are secured by the value of the total assets of the largest defined benefit plans in the three statewide retirement systems. Through the issuance of the refunding bonds, which received an AAA rating in late July 2012, the bond term was reduced by five years

and the present value of the savings to the three systems was \$9,582,538. The MSRS portion of the savings was \$2,568,120.

Exhibit 17 shows the debt service amounts for which MSRS is directly responsible. Pursuant to the joint and several liability clause in the bond sale official statement, in the event of default, MSRS could be liable for the entire remaining outstanding principal and premium balances of the bonds, plus the interest accrued for the month of June, a total of \$6,963,582. Bonds Payable on the *Statement of Fiduciary Net Position* is the MSRS share of the outstanding debt, calculated at the MSRS building ownership percentage on June 30, 2021, of 27.5 percent. Bonds Payable includes the principal balance as of June 30, 2021, the premium balance as of June 30, 2021, and interest accrued for the month of June.

Exhibit 17: Debt Repayment Schedule by Fiscal Year

Fiscal Year	Principal	Interest	Premium	Total Principal, Interest, and Premium
2022	\$515,625	\$30,253	\$32,420	\$578,298
2023	526,625	21,704	30,656	578,985
2024	507,375	12,972	18,323	538,670
2025	275,000	4,559	6,440	285,999
Totals	\$1,824,625	\$69,488	\$87,839	\$1,981,952

Total Unpaid Principal, June 30, 2021	\$1,824,625
Total Unpaid Premium, June 30, 2021	87,839
Accrued Interest for June 2021	2,521
Bonds Payable per Statement of Fiduciary Net Position	\$1,914,985

Notes to the Financial Statements

B. Lease Obligations

MSRS' main office is in the Retirement Systems of Minnesota building located in St. Paul. MSRS, PERA, and TRA jointly own this building under the terms of a co-tenancy agreement. MSRS also leases space for branch offices in Detroit Lakes and Mankato. MSRS has interagency agreements to reimburse TRA for office space located in the Duluth and St. Cloud branch offices.

As of June 30, 2021, future obligations under the terms of the MSRS leases are scheduled in **Exhibit 18**.

C. Reemployed Retirees' Earnings Limitations

MSRS members whose age is under the Social Security full retirement age, and who return to work in an MSRS covered position after their retirement, are subject to an annual earnings limitation for the calendar year unless hired under a Post-Retirement Option agreement. The maximum earnings limits for calendar years 2020 and 2021 for individuals under the full retirement age are \$18,240 and \$18,960, respectively. For individuals that reach full retirement age during 2020 or 2021, the maximum earnings limits are \$48,600 and \$50,520, respectively.

Benefit payments for members exceeding the earnings limit are stopped for the remainder of the calendar year and held in abeyance for later distribution to the retiree. Through December 31, 2010, any funds held in abeyance accrued 6.0 percent interest. Effective January 1, 2011, funds held in abeyance no longer accrue interest.

Exhibit 18: Lease Obligations

Fiscal Year	Location		Totals
	Detroit Lakes	Mankato	
2022	\$6,900	\$83,542	\$90,442
2023	6,993	13,925	20,918
2024	7,121	0	7,121
2025	7,246	0	7,246
2026	1,819	0	1,819
Total	\$30,079	\$97,467	\$127,546

Funds held in abeyance are included in Other Payables in the respective fund's Statement of Fiduciary Net Position. As of June 30, 2021, MSRS had 39 reemployed retirees with funds held in abeyance, which totaled \$1,375,190 (\$625,061 for the State Employees Retirement Fund and \$750,129 for the Correctional Employees Retirement Fund).

Retirees must wait one year following termination of their post-retirement employment to be eligible to receive a distribution of these funds. At the time of distribution, the retiree may choose a lump-sum payment or a direct rollover to an eligible retirement plan as defined by section 402(c) of the Internal Revenue Code. MSRS processed 11 distributions of these funds, totaling \$382,666 during fiscal year 2021 (\$369,339 for the State Employees Retirement Fund and \$13,327 for the Correctional Employees Retirement Fund).

Notes to the Financial Statements

Note 6: Net Pension Liability of Participating Employers

Two actuarial valuations for each MSRS defined benefit retirement fund are performed annually: a traditional funding actuarial valuation and a GASB-compliant actuarial valuation. The purpose of the traditional funding actuarial valuation is to measure funding progress, and to determine the required contribution rate, contribution sufficiency or deficiency, and other actuarial information necessary for monitoring funding position. The purpose of the GASB-compliant actuarial valuation is to determine actuarial information necessary to prepare financial reports in compliance with GASB Statements

No. 67 and No. 68. This includes computation of the net pension liability. Net pension liability is computed as the total pension liability for each MSRS defined benefit retirement fund less the fiduciary net position of the respective fund.

Exhibit 20 presents the components of the net pension liability of the participating employers for each MSRS defined benefit retirement fund as of June 30, 2021. This exhibit also depicts each retirement fund’s net position as a percentage of the total pension liability.

Exhibit 20: Net Pension Liability of MSRS Participating Employers
 As of June 30, 2021
 (Dollars in thousands)

Component of Net Pension Liability	Defined Benefit Retirement Fund				
	State Employees	State Patrol	Correctional Employees	Judges	Legislators
Total Pension Liability (TPL)	\$17,521,580	\$1,111,995	\$2,023,040	\$429,083	\$140,796
Fiduciary Net Position (FNP)	17,440,051	957,864	1,580,953	276,638	0
Employers' Net Pension Liability	\$81,529	\$154,131	\$442,087	\$152,445	\$140,796
FNP as a percentage of the TPL	99.53 %	86.14 %	78.15 %	64.47 %	0.00 %

Actuarial Methods and Assumptions

The total pension liability for each MSRS defined benefit retirement fund was determined by an actuarial valuation as of June 30, 2021, using the key actuarial assumptions shown in **Exhibit 22** on the following page, applied to all prior periods included in the measurement.

Actuarial assumptions are based on experience studies, generally conducted every four years for the four largest MSRS defined benefit funds. The most recent studies reflected in actuarial valuations and the periods covered are presented in **Exhibit 21**.

Results of the studies are reflected in the valuations performed for fiscal year 2021.

Exhibit 21: MSRS Experience Study Dates

Retirement Fund	Fiscal Years Covered
State Employees	2014 - 2018
State Patrol	2015 - 2019
Correctional Employees	2015 - 2019
Judges	2015 - 2019

Notes to the Financial Statements

Exhibit 22: Summary of Key Actuarial Methods and Assumptions for GASB-Compliant Valuations

	Defined Benefit Retirement Fund			
	State Employees	State Patrol	Correctional Employees	Judges
Actuarial Valuation Date	June 30, 2021 for all funds			
Actuarial Cost Method	Entry Age Normal for all funds			
Asset Valuation Method	Fair Value for all funds			
Long-Term Expected Rate of Return	6.50 percent for all funds			
Inflation	2.25 percent for all funds			
Salary Increases	Service related rates		2.50 percent	4.25 percent
Payroll Growth	3.00 percent		2.50 percent	NA
Mortality Rates	State Employees and Legislators: Pub-2010 mortality tables using projection scale MP-2018, adjusted by a multiplier to match fund experience			
	All Other Funds: Pub-2010 mortality tables using projection scale MP-2019			
Retirement	Age-related rates			
Withdrawal	Service related rate based on actual experience		None	Rates based on actual experience
Disability	Age-related rates based on experience			None
Single Discount Rate	6.50 percent			1.92 percent

Notes to the Financial Statements

Single Discount Rate

Projected benefit payments are discounted to their actuarial present values using a single discount rate. The single discount rate reflects the long-term expected rate of return on pension plan investments for the period in which assets are projected to be available to pay benefits, and a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating for the remaining years.

As long as assets are projected to be on hand to pay future benefits, the long-term expected rate of return is used as the discount rate. In years where assets are not projected to be sufficient to meet benefit payments, the use of a “risk-free” municipal bond rate is required in the calculation of the single discount rate. The single discount rate is the equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods.

All MSRS defined benefit funds use a long-term expected rate of return assumption of 6.50 percent, and a municipal bond rate of 1.92 percent, as published by the Fidelity Index in June 2021.

The projection of cash flows used to determine the single discount rates assumes that plan member and employer contributions will be made at the current statutory contribution rates.

Based on the selected assumptions, the fiduciary net position for the four largest MSRS plans was projected to be available to make all future benefit payments of current plan members through fiscal year 2121. Therefore, the single discount rate is the long-term

expected rate of return on pension plan investments, which was applied to all periods of projected benefit payments to determine the total pension liability. The single discount rate used to measure the total pension liability was 6.50 percent, a reduction of one percent from the single discount rate that was used for the four funds in fiscal year 2020.

For the Legislators Retirement Fund, assets are not sufficient to pay benefits in any future year, so the municipal bond rate of 1.92 percent was used in all years as the single discount rate. In the previous fiscal year, the municipal bond rate of 2.45 percent was used to calculate the total pension liability.

Further detail on the calculation of the single discount rates can be found in the unaudited *Actuarial Section* of this annual comprehensive financial report beginning on page [165](#).

Sensitivity Analysis

GASB Statement No. 67 requires the disclosure of the sensitivity of the net pension liability to changes in the discount rate. **Exhibit 23** presents the June 30, 2021, net pension liability for each of the MSRS defined benefit retirement funds calculated using the current single discount rate, as well as what each fund’s net pension liability would be if it were calculated using a single discount rate that is one percentage-point lower or one percentage-point higher than the current rate. The actuaries believe that a 7.5 percent discount rate, one of the rates reflected in the table below, does not comply with the Actuarial Standards of Practice.

Exhibit 23: Sensitivity of the Fiscal Year 2021 MSRS Net Pension Liability to Changes in the Discount Rate

(Dollars in thousands)

Retirement Fund	With 1% Decrease		Current Discount Rate		With 1% Increase	
	Rate	Net Pension Liability	Rate	Net Pension Liability	Rate	Net Pension Liability
State Employees	5.50 %	\$2,351,249	6.50 %	\$81,529	7.50 %	\$(1,793,650)
State Patrol	5.50	300,696	6.50	154,131	7.50	33,986
Correctional Employees	5.50	753,731	6.50	442,087	7.50	190,045
Judges	5.50	196,507	6.50	152,445	7.50	114,703

State Employees Retirement Fund

Fiscal Year 2021 Changes Since the Fiscal Year 2020 Actuarial Valuation

Actuarial Assumptions: The investment return and single discount rates decreased from 7.50 percent to 6.50 percent.

Plan Provisions: There were no changes to plan provisions in fiscal year 2021.

Additional Significant Changes to Actuarial Assumptions or Plan Provisions are noted below:

Actuarial Assumptions:

Single Discount Rate: The single discount rate assumption changed over time, from 7.90 percent in 2013, to 4.17 percent in 2016, to 5.42 percent in 2017, and finally to 7.50 percent in 2018.

Long Term Rate of Return: The long-term expected rate of return on investments was reduced from 7.90 percent to 7.50 percent in 2016.

Post Retirement Benefit Increases: Post-retirement benefit increases fluctuated within a range of 2.0 to 2.5 percent annually based upon funded ratio, until the assumption was eliminated in fiscal 2019 with the implementation of a fixed post retirement benefit increase rate.

Mortality: In fiscal year 2016, the base mortality tables were changed from the RP-2000 fully generational table and the RP-2000 disabled mortality table to the RP-2014 fully generational table and the RP-2014 disabled annuitant mortality table. The mortality improvement scale was changed from Scale AA to Scale MP-2015.

In fiscal year 2020, the base mortality tables were changed to the Pub-2010 General Mortality table and Pub-2010 General/Teacher disabled annuitant mortality table, with the mortality improvement scale changing to Scale MP-2018.

Fiscal Year 2016 Experience Study Assumption Changes: Based on an experience study, various assumption changes were implemented, including changes to the inflation and payroll growth assumptions, salary increase rates, rates of retirement, disability, and termination, the percentage of married members, and the percentage of members electing joint and survivor annuities.

Fiscal Year 2020 Experience Study Assumption Changes: Based on an experience study, various assumption changes were implemented, including changes to price inflation, payroll growth, salary increase rates, rates of retirement, disability, and termination, the percentage of married members and age differences with spouses, and the percentage of members electing joint and survivor annuities.

Plan Provisions:

Member Contribution Rates: In 2014, the member and employer contribution rates increased from 5.0 percent to 5.5 percent of pay, then to 5.75 percent of pay in fiscal year 2019, and to 6.00 percent of pay in fiscal year 2020.

Employer Contribution Rates: In fiscal year 2018, employer contributions increased from 5.50 percent to 5.875 percent of pay, then to 6.25 percent of pay in fiscal year 2020.

Post Retirement Benefit Increases: Post-retirement benefit increases assumptions were eliminated with the implementation of a fixed rate of 1.0 percent for five years beginning January 1, 2019, and 1.5 percent annually thereafter.

Detailed Changes to Actuarial Assumptions or Plan Provisions can be found in actuarial valuations posted on the MSRS website at www.msrs.state.mn.us/annual-reports-fy-2021.

Required Supplementary Information

State Patrol Retirement Fund

Fiscal Year 2021 Changes Since the Fiscal Year 2020 Actuarial Valuation

Actuarial Assumptions:

- The investment return and single discount rates decreased from 7.50 percent to 6.50 percent.
- The inflation assumption was reduced from 2.50 percent to 2.25 percent.
- The wage growth assumption was changed from 3.25 percent to 3.00 percent.
- The base mortality tables were changed from the RP-2014 tables to the Pub-2010 mortality tables, and the mortality improvement scale was changed from MP-2015 to MP-2019.
- Assumed rates of salary increase were modified, resulting in rates that average approximately 48 basis points higher than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer predicted retirements.
- Assumed rates of withdrawal were changed, resulting in rates that are generally higher than current rates for members with less than 22 years of service.
- Assumed rates of disability were changed, resulting in a slight increase to assumed disability retirements.
- Minor changes to the form of payment assumptions were applied.

Plan Provisions: There were no changes to plan provisions in fiscal year 2021.

Additional Significant Changes to Actuarial Assumptions are noted below:

Actuarial Assumptions:

Single Discount Rate: The single discount rate assumption changed over time, from 7.90 percent in 2013, to 5.31 percent in 2016, to 6.38 percent in 2017, and finally to 7.50 percent in 2018.

Long Term Rate of Return: The long-term expected rate of return on investments was reduced from 7.90 percent to 7.50 percent in 2016.

Post Retirement Benefit Increases: Post-retirement benefit increases fluctuated within a range of 1.0 to 2.5 percent annually based upon funded ratio, until the assumption was eliminated in fiscal 2019 with the implementation of a fixed rate.

Mortality: In fiscal year 2017, the base mortality tables were changed from the RP-2000 fully generational tables to the RP-2014 fully generational tables. Mortality improvement scales changed from Scale AA to Scale MP-2015.

Fiscal Year 2016 Economic Assumption Changes: The assumed future salary increases, payroll growth, and inflation rates were decreased by 0.25 percent.

Fiscal Year 2017 Experience Study Assumption Changes: Based on the experience study, various new assumption changes were implemented, including changes to salary increase rates, rates of retirement, disability, and termination, the percentage of members electing joint and survivor annuities, and the form of payment assumptions.

Required Supplementary Information

Notes to Schedule of Changes in the Employers' Net Pension Liability and Related Ratios

State Patrol Retirement Fund

Additional Significant Changes to Plan Provisions are noted below:

Plan Provisions:

Member Contribution Rates: Member contributions increased from 14.4 to 15.4 percent of pay over three years, effective July 1, 2018.

Employer Contribution Rates: Regular employer contributions increased from 21.6 percent to 23.1 percent of pay over two years, effective July 1, 2018.

Supplemental Employer Contributions: Supplemental employer contributions totaling 7.0 percent of pay will be phased in between fiscal year 2018 and fiscal year 2022, remaining in effect until the plan is 100 percent funded.

Post Retirement Benefit Increases: Post-retirement benefit increase assumptions were eliminated with the implementation in fiscal year 2018 of a fixed rate of 1.0 percent annually.

Detailed Changes to Actuarial Assumptions or Plan Provisions can be found in actuarial valuations posted on the MSRS website at www.msrs.state.mn.us/annual-reports-fy-2021.

Correctional Employees Retirement Fund

Fiscal Year 2021 Changes Since the Fiscal Year 2020 Actuarial Valuation

Actuarial Assumptions:

- The investment return and single discount rates decreased from 7.50 percent to 6.50 percent.
- The inflation assumption was reduced from 2.50 percent to 2.25 percent.
- The wage growth assumption was changed from 3.25 percent to 3.00 percent.
- The base mortality tables were changed from the RP-2014 tables to the Pub-2010 mortality tables, and the mortality improvement scale was changed from MP-2015 to MP-2019.
- Assumed rates of salary increase were modified, resulting in a decrease in gross salary increase rates.
- Assumed rates of retirement were changed, resulting in more unreduced retirements and fewer early retirements.
- Assumed rates of withdrawal were changed, resulting in more assumed terminations.
- Assumed rates of disability were lowered, and the disability incidence assumption was extended to age 70.
- The assumed percent married for active female members was lowered from 75 to 60 percent, and minor changes to the form of payment assumptions were applied.

Plan Provisions: There were no changes to plan provisions in fiscal year 2021.

Required Supplementary Information

Notes to Schedule of Changes in the Employers' Net Pension Liability and Related Ratios

Correctional Employees Retirement Fund

Additional Significant Changes to Actuarial Assumptions or Plan Provisions are noted below:

Actuarial Assumptions:

Single Discount Rate: The single discount rate assumption changed over time, from 6.08 percent in 2013, to 6.82 percent in 2014, to 6.25 percent in 2015, to 4.24 percent in 2016, to 5.02 percent in 2017, and finally to 7.50 percent in 2018.

Long Term Rate of Return: The long-term expected rate of return on investments was reduced from 7.90 percent to 7.50 percent in 2016.

Post Retirement Benefit Increases: Post-retirement benefit increases fluctuated within a range of 2.0 to 2.5 percent annually based upon funded ratio, until the assumption was eliminated in fiscal 2019 with the implementation of a fixed rate.

Mortality: In fiscal year 2017, the base mortality tables were changed from the RP-2000 fully generational table and the RP-2000 disabled mortality table to the RP-2014 fully generational table and the RP-2014 disabled annuitant mortality table. Mortality improvement scales changed from Scale AA to Scale MP-2015.

Fiscal Year 2016 Economic Assumption Changes: The assumed future salary increases, payroll growth, and inflation rates were decreased by 0.25 percent.

Fiscal Year 2017 Experience Study Assumption Changes: Based on the experience study, various new assumption changes were implemented, including changes to salary increase rates, rates of retirement, disability, and termination, the percentage of married members and age differences with spouses, and the percentage of members electing joint and survivor annuities.

Plan Provisions:

Member Contribution Rates: Member contribution rates increased from 8.6 percent to 9.1 percent of pay in 2014, and then to 9.6 percent of pay in 2019.

Employer Contribution Rates: Employer contribution rates increased from 12.10 percent to 12.85 percent of pay in 2014, and then to 14.40 percent of pay in 2019.

Supplemental Employer Contributions: Supplemental employer contributions totaling 4.45 percent of pay will be phased in between fiscal year 2018 and fiscal year 2022, and will remain in effect until the plan is 100 percent funded.

Post Retirement Benefit Increases: Post-retirement benefit increase assumptions were eliminated with the implementation in fiscal year 2018 of a fixed rate of 1.5 percent annually.

Detailed Changes to Actuarial Assumptions or Plan Provisions can be found in actuarial valuations posted on the MSRS website at www.msrs.state.mn.us/annual-reports-fy-2021.

Judges Retirement Fund

Fiscal Year 2021 Changes Since the Fiscal Year 2020 Actuarial Valuation

Actuarial Assumptions:

- The investment return and single discount rates decreased from 7.50 percent to 6.50 percent.
- The inflation assumption was reduced from 2.50 percent to 2.25 percent.
- The base mortality tables were changed from the RP-2014 tables to the Pub-2010 mortality tables, and the mortality improvement scale was changed from MP-2015 to MP-2019.
- Assumed rates of unreduced and early retirements were changed, resulting in more predicted retirements.
- Assumed rates of disability were changed to 60 percent of the previous rates.
- The assumed spouse age difference for female members was changed from three years older to two years older.

Plan Provisions: Post-retirement benefit increases based on funded ratio were replaced by a fixed rate of 1.50 percent annually.

Additional Significant Changes to Actuarial Assumptions or Plan Provisions are noted below:

Actuarial Assumptions:

Single Discount Rate: The single discount rate assumption changed over time, from 5.57 percent in 2013, to 5.78 percent in 2014, to 5.25 percent in 2015, and finally to 7.50 percent in 2016.

Long Term Rate of Return: The long-term expected rate of return on investments was reduced from 7.90 percent to 7.50 percent in 2016.

Post Retirement Benefit Increases: Post-retirement benefit increases were changed in 2016 from 1.75 percent annually, to a range between 1.75 and 2.50 percent annually based on funded ratio. The post-retirement benefit increase assumption was eliminated in fiscal year 2020 with the implementation of a fixed rate.

Mortality: In fiscal year 2017, the base mortality tables were changed from the RP-2000 fully generational tables to the RP-2014 fully generational tables. The mortality improvement scale was changed from Scale AA to Scale MP-2015.

Fiscal Year 2016 Economic Assumption Changes: The assumed future salary increases, payroll growth, and inflation rates were decreased by 0.25 percent.

Fiscal Year 2017 Experience Study Assumption Changes: Based on the experience study, various new assumption changes were implemented, including rates of retirement and disability.

Plan Provisions:

Post Retirement Benefit Increases: Post-retirement benefit increase assumptions were eliminated with the implementation of a fixed rate of 1.5 percent annually in fiscal year 2022.

Additional Contributions: Legislation provides state contributions equal to \$3,000,000 for fiscal year 2017 and \$6,000,000 per year thereafter until the plan is fully funded or until July 1, 2048, whichever is earlier.

Detailed Changes to Actuarial Assumptions or Plan Provisions can be found in actuarial valuations posted on the MSRS website at www.msrs.state.mn.us/annual-reports-fy-2021.

Fiscal Year 2021 Changes Since the Fiscal Year 2020 Actuarial Valuation

Actuarial Assumptions:

- The investment return assumption was reduced from 7.50 percent to 6.50 percent.
- The Single Discount Rate changed from 2.45 percent to 1.92 percent.
- The salary increase assumption changed from 4.50 percent to 4.25 percent.
- The inflation assumption was reduced from 2.50 percent to 2.25 percent.
- The base mortality table for retirees and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, and the mortality improvement scale was changed from MP-2015 to MP-2018.

Plan Provisions: There were no changes to plan provisions in fiscal year 2021.

Additional Significant Changes to Actuarial Assumptions or Plan Provisions are noted below:

Actuarial Assumptions:

Single Discount Rate: The single discount rate assumption changed over time, from 4.63 percent in 2013, to 4.29 percent in 2014, to 3.80 percent in 2015, to 2.85 percent in 2016, to 3.56 percent in 2017, to 3.62 percent in 2018, to 3.13 percent in 2019, and finally to 2.45 percent in 2020.

Long Term Rate of Return: The long-term expected rate of return on investments was reduced from 7.90 percent to 7.50 percent in 2016.

Post Retirement Benefit Increases: Post-retirement benefit increases fluctuated within a range of 2.0 to 2.5 percent annually based upon funded ratio, until the assumption was eliminated in fiscal 2019 with the implementation of a fixed rate.

Mortality: In fiscal year 2017, the base mortality tables were changed from the RP-2000 fully generational tables to the RP-2014 fully generational tables. Mortality improvement scales changed from Scale AA to Scale MP-2015.

Fiscal Year 2016 Economic Assumption Changes: The assumed future salary increases and inflation rates were decreased by 0.25 percent.

Plan Provisions:

Post Retirement Benefit Increases: Post-retirement benefit increases assumptions were eliminated with the implementation of a fixed rate of 1.0 percent for five years beginning January 1, 2019, and 1.5 percent annually thereafter.

Detailed Changes to Actuarial Assumptions or Plan Provisions can be found in actuarial valuations posted on the MSRS website at www.msrs.state.mn.us/annual-reports-fy-2021.

MSRS does not directly pay any investment fees or commissions. All investment expenses are paid by the Minnesota State Board of Investment. These are the proportionate share of the expenses charged to the investment pools in which MSRS participates.

The Legislators Retirement Fund has no assets, and therefore no investment expenses.

GASB Statement No. 68 Supplemental Employer Schedules

The schedules on the following pages are provided for financial reporting purposes for the employer units of the defined benefit plans of MSRS.

Independent Auditor's Report

OFFICE OF THE LEGISLATIVE AUDITOR

STATE OF MINNESOTA • Judy Randall, Legislative Auditor

Independent Auditor's Report

Members of the Board of Directors
Minnesota State Retirement System

Ms. Erin Leonard, Executive Director
Minnesota State Retirement System

Report on Schedules

We have audited the accompanying Schedule of Employer Allocations of the Minnesota State Retirement System (MSRS) as of and for the fiscal year ended June 30, 2021. We have also audited the total for all entities of the columns titled Net Pension Liability, Total Deferred Outflows of Resources, Total Deferred Inflows of Resources, and Total Pension Expense (specified column totals) included in the accompanying Schedule of Pension Amounts by Employer of MSRS as of and for the year ended June 30, 2021.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of the schedules that are free from material misstatement, due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the Schedule of Employer Allocations and the specified column totals included in the Schedule of Pension Amounts by Employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts in the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement within the schedules, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the schedules in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Room 140 Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155-1603 • Phone: 651-296-4708 • Fax: 651-296-4712
E-mail: legislative.auditor@state.mn.us • Website: www.auditor.leg.state.mn.us • Minnesota Relay: 1-800-627-3529 or 7-1-1

Independent Auditor's Report

Members of the MSRS Board of Directors
Ms. Erin Leonard, MSRS Executive Director
Page 2

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expenses for the total of all participating entities for the Minnesota State Retirement System as of and for the year ended June 30, 2021, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of MSRS as of and for the year ended June 30, 2021, and our report thereon, also dated December 21, 2021, expressed an unmodified opinion on those financial statements.

Other Reporting Required by Government Auditing Standards

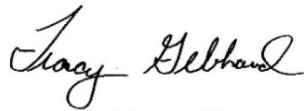

In accordance with *Government Auditing Standards*, we will also issue a report on our consideration of the Minnesota State Retirement System's internal controls over the preparation of these schedules and on our tests of compliance with certain provisions of laws, regulations, and other matters. The purpose of that report is to describe the scope of our testing of internal controls and compliance and not to provide an opinion on internal controls over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*.

Restriction on Use

Our report is intended solely for the information and use of the Minnesota State Retirement System's Board of Directors and its management to support the financial reporting needs of employers participating in MSRS's plans and their auditors for the year ended June 30, 2021. It is not suitable for any other purpose.

Lori Leysen, CPA
Deputy Legislative Auditor

Tracy Gebhard, CPA
Audit Director

An Equal Opportunity Employer

INVESTMENT AUTHORITY

The assets of the Minnesota State Retirement System (MSRS) are invested along with the assets of the Public Employees Retirement Association and the Teachers Retirement Association under the direction and authority of the State Board of Investment (SBI) in accordance with Minnesota Statutes, Chapters 11A and 356A. The SBI includes Minnesota's governor, auditor, secretary of state and attorney general. The Legislature has established a 17-member Investment Advisory Council (IAC) to advise the SBI and its staff on investment related matters. MSRS's executive director is a member of the IAC.

INVESTMENT POLICY

Investment policy states that the SBI will operate within standard investment practices of the prudent person rule. The SBI is to "exercise that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived therefrom." (See *Minnesota Statutes*, section 11A.09.) The SBI is authorized to own government obligations, corporate obligations, various short-term obligations, corporate stocks, venture capital interests, resource investments, and real estate interests subject to specific constraints. (See *Minnesota Statutes*, section 11A.24.) In particular, pension fund assets are to be invested for the exclusive benefit of the members of the fund.

INVESTMENT OBJECTIVES AND PERFORMANCE

MSRS's pension contributions from employees and employers are invested in the Combined Funds. The Combined Funds include the assets of active and retired public employees who participate in the defined benefit plans administered by MSRS, the Minnesota Teachers Retirement Association, and the Public Employees Retirement Association. MSRS does not own any underlying assets, but instead owns a participation in the pooled Combined Funds. Because these assets normally accumulate for thirty to forty years, SBI's objective is to take advantage of the long investment time horizon offered by equities and alternative assets in order to meet its actuarial return target and ensure that sufficient funds are available to finance promised benefits at the time of retirement. The 2018 Legislature reduced the actuarial interest rate assumption for MSRS to 7.5%.

Investment Report

The long term objectives of the Combined Funds are:

- Provide returns that are 3-5 percentage points greater than inflation over the latest 20-year period; and
- Outperform a composite market index weighted in a manner that reflects the actual asset mix of the Combined Funds over the latest 10-year period.

Consistent with these objectives, the SBI maintains a long-term strategic asset allocation policy target for the Combined Funds as follows:

- Public Equity 50%
- Total Fixed Income 25%
- Private Markets 25%

Based on values as of June 30, 2021, the Combined Funds' 20-year annualized return was 8.1%, which exceeded inflation as measured by CPI by 6.0 percentage points. Over the last 10-year period, the Combined Funds returned 10.4%, outperforming the composite index by 0.3%. Investment returns ranked in the 1st percentile over the past 5 and 10-year time periods and in the top 5th percentile over the past 20 years, compared to other public plans with over \$20 billion in assets in the Trust Universe Comparison Service.

INVESTMENT PRESENTATION

Investment returns were prepared using time-weighted rate of return methodology based upon fair market value, net of investment expenses.

Respectfully submitted,

Mansco Perry III
Executive Director and Chief Investment Officer
Minnesota State Board of Investment
November 9, 2021

Schedule of Investment Results

Funds	Rates of Return (Annualized)			
	FY 2021	Three-Year	Five-Year	Ten-Year
Combined Funds	30.3 %	13.4 %	13.1 %	10.4 %
Combined Funds-Composite Index	28.8	13.0	12.6	10.1
Difference	1.5 %	0.4 %	0.5 %	0.3 %

Investment Return percentages are the time-weighted rate of return, net of all management fees.

The composite index is composed of the market indicators listed below, weighted according to asset allocation.

Investment Type	Market Indicator
Public Equity	Russell 3000 (67%)
	Morgan Stanley Capital International All Country World Index ex-U.S. (33%)
Fixed Income	Bloomberg Barclays U.S. Aggregate Index (40%)
	Bloomberg Barclays Treasury 5+ Years Index (40%)
	ICE BofA US 3-Month Treasury Bill (20%)
Private Markets	Private Markets

Asset Allocation

Asset allocation can have a significant effect on investment returns. To achieve the best results, allocations are periodically reviewed and adjusted to reflect changing market conditions and revised investment objectives.

Investment Type	Combined Funds	
	Actual Asset Mix 06/30/2021	Long-Term Policy Target
Domestic Equity	33.0 %	33.5 %
International Equity	15.7	16.5
Bonds	9.9	10.0
Treasuries	9.7	10.0
Private Markets ⁽¹⁾		25.0
Private Markets - Invested	17.4	
Private Markets - Uninvested	8.3	
Cash and Laddered Bonds	4.7	5.0
Global Equity	1.3	0.0
Totals	100.0 %	100.0 %

⁽¹⁾ If a 25 percent allocation cannot be achieved, the allocation not invested in Private Markets is invested in Domestic and International Equities. Private Markets include Private Equity, Private Credit, Resources, and Real Estate.

Actuarial

Actuarial Section

MSRS actuaries prepare actuarial valuations for each of the five MSRS defined benefit plans on an annual basis. Each plan has two separate valuations completed, a valuation used for funding purposes, and a valuation used for financial reporting purposes.

The schedules found in much of the *Actuarial Section* of this *Annual Comprehensive Financial Report* are compiled based on the funding actuarial valuations. These valuations are based on actuarial assumptions and methods prescribed by Minnesota Statutes, the Legislative Commission on Pensions and Retirement (LCPR), and the MSRS Board of Directors. MSRS uses these methods and assumptions to monitor funding progress and the sufficiency of plan member and employer contribution rates to meet future benefit payments. The actuarial assumptions are based on experience studies of the MSRS demographic and economic data for each plan, conducted by the MSRS actuary.

MSRS implemented GASB Statement No. 67 in fiscal year 2014, which requires pension plans to calculate and disclose a net pension liability in financial statement footnote disclosures using a fairly specific set of actuarial methods and assumptions. The data required for these disclosures is obtained through the financial reporting actuarial valuations.

While most of the actuarial methods and assumptions used for financial reporting purposes are the same as those used for funding purposes, there are a few differences. For example, following GASB standards, the fair value of assets is used when calculating the net pension liability for reporting purposes. In contrast, for funding purposes, gains and losses are smoothed over a five-year period to calculate the asset value, as prescribed by Minnesota statute. Differences in actuarial assumptions between the two types of valuations is generally limited to the assumed rate of return, which is set in statute only for the funding valuations, whereas the assumed rate of return for financial reporting valuations can be set by the MSRS Board as recommended by the MSRS actuary.

Actuarial assumptions used in the funding valuations are found beginning on page [135](#). Methods and assumptions used for financial reporting purposes, if they differ from those used for funding purposes, are found beginning on page [175](#). Both types of actuarial valuations for each MSRS fund can be found online at www.msrs.state.mn.us/annual-reports-fy-2021.

A summary of plan provisions is available in the *Notes to the Financial Statements* beginning on page [54](#), as well as in the *Introductory Section* beginning on page [18](#).

Actuarial Valuation information for funding purposes.

Typically, these valuations include the calculations for funded ratio and annual required contribution, which are necessary for developing and monitoring funding policy. The Executive Director, staff and advisors develop funding policy recommendations for review and approval by the MSRS Board of Directors. The Board of Directors is responsible for establishing and maintaining funding policy for all MSRS defined benefit retirement plans, and the Minnesota state Legislature establishes contribution rates within state statute.

The valuation results can be found beginning on page [131](#).

Actuarial Valuation information for GASB-compliant accounting and financial reporting purposes.

These valuations provide information necessary for the MSRS governmental employers to record pension related transactions in their accounting system and financial statements, including year-end actuarially determined pension amounts and related note disclosures.

The valuation results can be found beginning on page [166](#).

Re: 2021 Annual Comprehensive Financial Report (ACFR)

Dear Members of the Board:

We have previously prepared and presented to you our annual actuarial valuation of the State Employees Retirement Fund (SERF), the State Patrol Retirement Fund (SPRF), the Correctional Employees Retirement Fund (CERF), the Judges Retirement Fund (JRF) and the Legislators Retirement Fund (LRF) as of July 1, 2021.

In this Annual Comprehensive Financial Report (ACFR), MSRS prepared all supporting schedules in the Actuarial Section based on the information included in the annual actuarial valuation prepared by Gabriel, Roeder, Smith & Company (GRS). Specifically, these exhibits are:

- Summary of Actuarial Methods and Assumptions;
- Changes in Actuarial Assumptions;
- Changes in Plan Provisions;
- Other Assumptions;
- Actuarial Tables;
- Actuarial Accrued Liability (AAL);
- Contributions Sufficiency / (Deficiency);
- Schedule of Changes in Unfunded Actuarial Accrued Liabilities;
- Schedule of Actuarial and Market Value Funding Progress;
- Schedule of Active Member Valuation Data;
- Schedule of Retirees and Beneficiaries;
- Solvency Test; and
- Summary of Unfunded Actuarial Accrued Liabilities (UAAL).

Reading the ACFR is not a substitute for reading the actuarial reports. In order to gain a full understanding of the actuarial condition of the Funds, it is important to read and understand the full actuarial reports and potentially other relevant information in addition to this ACFR for each of the aforementioned funds. Annual actuarial valuation reports for funding purposes as well as for accounting and financial reporting purposes are available on the MSRS website, along with online copies of this and previous ACFRs.

 Page 2

Valuation Results

The results of the valuations are summarized in the following table. They are based upon the 7.5% statutory discount rate. The results would appear less favorable if they were based upon a discount rate that satisfied the requirements of Actuarial Standard of Practice No. 27. For all plans, except LRF, because the asset returns are smoothed over five years in the valuation, the market value of assets is higher than the actuarial value of assets. LRF assets have been zero since July 1, 2016.

Plan	Accrued Liability Funded Ratio		Contribution (Deficiency)/Sufficiency (% of Pay)		Statutory Amortization Date
	Actuarial Value of Assets	Market Value of Assets	Actuarial Value of Assets	Market Value of Assets	
SERF	97.13%	111.46%	3.12%	7.08%	2048
SPRF	84.21%	96.57%	11.99%	20.62%	2048
CERF	77.95%	89.27%	3.70%	8.09%	2048
JRF	61.56%	70.69%	4.84%	9.23%	2048
LRF*	0.00%	0.00%	(\$35,704,000)*	(\$35,704,000)*	2026

* This fund is closed to new hires and currently funded on a pay-as-you-go basis by annual appropriations from the State's General Fund. The deficiency is expressed as an annual dollar amount rather than a percent of payroll.

SERF, SPRF, CERF, and JRF currently have a contribution sufficiency on an Actuarial Value of Assets basis and on a Market Value of Assets basis. A contribution sufficiency means that the fund is expected to meet the goal of full funding by (or before) the statutory amortization date. LRF is funded on a pay-as-you-go basis.

The following changes were recognized this year in the actuarial funding valuations:

- For JRF, the post-retirement benefit increases changed from 1.75% per year, increasing to 2.00% per year upon achieving a 70% funding ratio, and increasing to 2.50% upon achieving a 90% funded ratio, to a fixed 1.50% per year beginning January 1, 2022.
- For SPRF, CERF, JRF and LRF:
 - The price inflation assumption was decreased from 2.50% to 2.25%.
 - The base mortality table for was changed from the RP-2014 table to the PUB-2010 General Mortality table.
- For SPRF, CERF, and JRF:
 - The mortality improvement scale was updated from MP-2015 to MP-2019.
 - Assumed rates of disability and retirement were changed as recommended in the most recent experience study, dated June 30, 2020.
 - Minor demographic changes were made as recommended in the most recent experience study, dated June 30, 2020, as follows:
 - SPRF: Minor changes were made to form of payment assumptions.
 - CERF: Percent married assumption was modified and minor changes were made to form of payment assumptions.
 - JRF: Assumed spouse age difference for females was modified.

Actuary's Certification Letter

Board of Directors
Minnesota State Retirement System
December 14, 2021
Page 3

- For SPRF and CERF:
 - The payroll growth assumption was decreased from 3.25% to 3.00%.
 - Assumed salary increase rates and rates of termination were changed as recommended in the most recent experience study, dated June 30, 2020.
- For LRF:
 - The salary increase assumption changed from 5.00% to 4.25%.
 - The mortality improvement scale was changed from MP-2015 to MP 2018.

The fundamental financing objective of the fund is to establish contribution rates which will remain approximately level as a percentage of active member payroll from generation to generation and meet the required deadline for full funding.

The funded ratio measurements shown above are not appropriate for assessing the sufficiency of plan assets to cover the estimated cost of settling the plan's benefit obligations (of transferring the obligations to an unrelated third party in an arm's length market value transaction). The measurements also are dependent upon the actuarial cost method which, in combination with the plan's amortization policy, affects the timing and amounts of future contributions. The amounts of future required contributions will be different from those calculated in the actuarial reports due to future actual experience differing from assumed experience based upon the actuarial assumptions. A funded status measurement of 100% is not synonymous with no required future contributions. A plan whose funded status is 100% would still require future normal cost contributions (i.e., contributions to cover the cost of the active membership accruing an additional year of service credit).

GRS performed a brief review of the basic financial and membership data provided to us as of June 30, 2021 by MSRS, and determined that the data appears reasonable in comparison to last year. We did not audit the data. We have relied upon the data as submitted in performing the actuarial valuation and in preparing trend data schedules. The actuarial cost method and the assumptions related to asset valuation and investment return are specified by State Statute, and the earnings progression and active member payroll growth are defined in the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement (LCPR). All other assumptions are based on actual experience, with changes adopted by the MSRS Board, and approved by the LCPR. The assumptions and methods meet the parameters established by Actuarial Standards of Practice.

In our professional judgment, the statutory investment return assumption of 7.50% used in the report deviates materially from the guidance set forth in the Actuarial Standards of Practice No. 27 (ASOP No. 27). In a 2021 analysis of long-term rate of investment return and inflation assumptions, GRS suggested that an investment return assumption in the range of 5.71% to 7.00% would be reasonable for this valuation. Please see our letter dated June 24, 2021 for additional information.

Actuarial standards do not require the actuary to evaluate the ability of the plan sponsor or other contributing entity to make required contributions to the plan when due. Such an evaluation was not within the scope of this project and is not within the actuary's domain of expertise. Consequently, the actuary did not make such a determination.

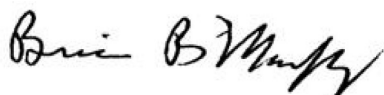

This report reflects the impact of COVID-19 through June 30, 2021. It does not reflect the ongoing impact of COVID-19, which is likely to influence demographic and investment experience, at least in the short term. We will continue to monitor these developments and their impact on the plan.

This report was prepared using our proprietary valuation model and related software which, in our professional judgment, has the capability to provide results that are consistent with the purposes of the valuation and has no material limitations or known weaknesses. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.

To the best of our knowledge and belief, the valuations were performed in accordance with generally accepted actuarial principles and procedures, the requirements of Minnesota Statutes, Section 356.215, and the requirements of the Standards for Actuarial Work established by the LCPR. In our opinion, the results of the valuations reflect the actuarial position of the plans on an ongoing basis under the prescribed assumptions, methods, and procedures.

Brian B. Murphy and Bonita J. Wurst are Members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained in this report. In addition, Mr. Murphy meets the requirements of "approved actuary" under Minnesota Statutes, Section 356.215, Subdivision 1, Paragraph (c). The signing actuaries are independent of the plan sponsor. We are not aware of any relationship that would impair the objectivity of our work.

Respectfully submitted,
Gabriel, Roeder, Smith & Company

Brian B. Murphy, FSA, EA, FCA, MAAA, PhD

Bonita J. Wurst, ASA, EA, FCA, MAAA

BBM/BJW:dj

Summary of Actuarial Methods and Assumptions

State Employees Retirement Fund

Actuarial Methods

- 1. Actuarial Cost Method:** Entry age normal, with the unfunded actuarial accrued liability amortized over the statutory period using a level percent of payroll assuming payroll increases.
- 2. Asset Valuation Method:** Market value smoothed over five years.
- 3. Funding Objective:** Establish contribution rates which, when expressed as a percentage of active member payroll, will remain approximately level from generation to generation and meet the required deadline for full funding.
- 4. Change in Methods since the July 1, 2020 Valuation:** None.

Actuarial Assumptions ⁽¹⁾

- 1. Investment Return:** 7.50% per year (2018)
- 2. Salary Increases:** Service-related rates as shown in the table on page 143 (2020)
- 3. Inflation:** 2.25% per year (2020)
- 4. Payroll Growth:** 3.00% per year (2020)
- 5. Mortality Rates:**
 - a. Healthy Pre-retirement: Pub-2010 General Employee Mortality Table adjusted for mortality improvements using projection scale MP-2018. Rates are multiplied by a factor of 0.97 for males and 1.06 for females. (2020)
 - b. Healthy Post-retirement: Pub-2010 Healthy Retired General Mortality Table, adjusted for mortality improvements using projection scale MP-2018. Rates are multiplied by a factor of 1.04 for males and 1.10 for females. (2020)
 - c. Disabled: Pub-2010 General/Teacher Disabled Retiree Mortality Table, adjusted for mortality improvements using projection scale MP-2018. Rates are set forward two years for males and set forward five years for females. (2020)
- 6. Retirement:** Age-based rates as shown in the table on page 148 (2020)
- 7. Withdrawal:** Service-related rates based on experience as shown in the table on page 149 (2020)
- 8. Disability:** Age-related rates based on actual experience as shown in the table on page 151 (2020)
- 9. Allowance for Combined Service Annuity:** Liabilities for former vested members are increased by 4%, and liabilities for former, non-vested members are increased by 5% to account for the effect of some participants having eligibility for a Combined Service Annuity (2017)
- 10. Administrative Expenses:** Prior year administrative expenses expressed as a percentage of prior year projected payroll (1994)
- 11. Refund of Contributions:** Employees who withdraw are assumed to take the larger of their contributions accumulated with interest or the value of their deferred benefit (1978)

⁽¹⁾ Year in parentheses is the date of adoption

Summary of Actuarial Methods and Assumptions

State Patrol Retirement Fund

Actuarial Methods

- 1. Actuarial Cost Method:** Entry age normal, with the unfunded actuarial accrued liability amortized over the statutory period using a level percent of payroll assuming payroll increases
- 2. Asset Valuation Method:** Market value smoothed over five years
- 3. Funding Objective:** Establish contribution rates which, when expressed as a percentage of active member payroll, will remain approximately level from generation to generation and meet the required deadline for full funding
- 4. Change in Methods since the July 1, 2020 Valuation:** None.

Actuarial Assumptions ⁽¹⁾

- 1. Investment Return:** 7.50% per year (2018)
- 2. Salary Increases:** Service-related rates as shown in the table on page 143 (2021)
- 3. Inflation:** 2.25% per year (2021)
- 4. Payroll Growth:** 3.00% per year (2021)
- 5. Mortality Rates:**
 - a. Healthy Pre-retirement: Pub-2010 General Employee Mortality Table adjusted for mortality improvements using mortality improvement scale MP-2019 (2021)
 - b. Healthy Post-retirement: Pub-2010 General Retired Mortality Table adjusted for mortality improvements using mortality improvement scale MP-2019 (2021)
 - c. Disabled: Pub-2010 General Disabled Mortality Table adjusted for mortality improvements using mortality improvement scale MP-2019 (2021)
- 6. Retirement:** Age-based rates as shown in the table on page 148 (2021)
- 7. Withdrawal:** Service-related rates based on experience as shown in the table on page 149 (2021)
- 8. Disability:** Age-related rates based on experience as shown in the table on page 151. All incidences are assumed to be duty-related (2021)
- 9. Allowance for Combined Service Annuity:** Liabilities for former, vested members are increased by 13% to account for the effect of some participants having eligibility for a Combined Service Annuity (2017)
- 10. Administrative Expenses:** Prior year administrative expenses expressed as a percentage of prior year projected payroll (1994)
- 11. Refund of Contributions:** Employees who withdraw are assumed to take the larger of their contributions accumulated with interest or the value of their deferred benefit (1978)

Summary of Actuarial Methods and Assumptions

Legislators Retirement Fund

Actuarial Methods

- 1. Actuarial Cost Method:** Entry age normal, with the unfunded actuarial accrued liability amortized over 30 years as a level percent of payroll
- 2. Asset Valuation Method:** Market value
- 3. Funding Objective:** Pay-as-you-go, with annual benefit payments and administrative expenses financed primarily by State of Minnesota General Fund appropriations
- 4. Change in Methods since the July 1, 2020 Valuation:** None.

Actuarial Assumptions ⁽¹⁾

- 1. Investment Return:** 0% per year (2011)
- 2. Salary Increases:** 4.25% per year (2021)
- 3. Inflation:** 2.25% per year (2021)
- 4. Payroll Growth:** Not applicable; closed plan with decreasing payroll
- 5. Mortality Rates:**
 - a. Healthy Pre-retirement: Pub-2010 General Employee Mortality Table adjusted for mortality improvements using projection scale MP-2018. Rates are multiplied by a factor of 0.97 for males and 1.06 for females. (2021)
 - b. Healthy Post-retirement: Pub-2010 Healthy Retired General Mortality Table, adjusted for mortality improvements using projection scale MP-2018. Rates are multiplied by a factor of 1.04 for males and 1.10 for females. (2021)
 - c. Disabled: Not applicable
- 6. Retirement:** Age-based rates as shown in the table on page 148 (2012)
- 7. Withdrawal:** Ultimate rates based on actual experience as shown on page 150
- 8. Disability:** No disability benefits
- 9. Allowance for Combined Service Annuity:** None (2017)
- 10. Administrative Expenses:** Prior year administrative expenses expressed as a percentage of prior year projected payroll (1994)
- 11. Refund of Contributions:** Employees who withdraw are assumed to take the larger of their contributions accumulated with interest or the value of their deferred benefit (1978)

⁽¹⁾ Year in parentheses is the date of adoption

Changes in Actuarial Assumptions

The following changes in funding actuarial assumptions have occurred since the July 1, 2020, actuarial valuations, based on June 30, 2020, experience studies.

State Employees Retirement Fund

- There were no changes in assumptions since the previous actuarial valuation.

State Patrol Retirement Fund

- The inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed, resulting in rates that average approximately 48 basis points higher than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer predicted retirements.
- Assumed rates of termination were changed, resulting in rates that are generally higher than the previous rates for members with less than 22 years of service.
- Assumed rates of disability were changed, resulting in a slight increase to assumed disability retirements.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table. The mortality improvement scale was changed from Scale MP-2015 to Scale MP-2019. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the Pub-2010 General disabled annuitant mortality table and the mortality improvement scale was changed from MP-2015 to MP-2019.
- Minor changes to form of payment were applied.

Correctional Employees Retirement Fund

- The inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table. The mortality improvement scale was changed from Scale MP-2015 to Scale MP-2019. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the Pub-2010 General disabled annuitant mortality table and the mortality improvement scale was changed from MP-2015 to MP-2019.
- Assumed salary increase rates were changed, resulting in a decrease in gross rates.
- Assumed rates of retirement were changed, resulting in more unreduced (normal) retirements and fewer assumed early retirements.
- Assumed rates of withdrawal were changed, resulting in more assumed terminations.
- Assumed rates of disability were lowered, and the disability incidence assumption was extended to age 70.
- Assumed percent married for active female members was lowered from 75 percent to 60 percent. Minor changes to form of payment assumptions were applied.

Changes in Actuarial Assumptions

Judges Retirement Fund

- The inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table. The mortality improvement scale was changed from MP-2015 to MP-2019. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the Pub-2010 General disabled annuitant mortality table and the mortality improvement scale was changed from MP-2015 to MP-2019.
- Assumed rates of unreduced and early retirement were changed, resulting in more predicted retirements.
- Assumed rates of disability were changed to 60 percent of previous rates.
- The assumed spouse age difference for females was changed from three years older to two years older.

Legislators Retirement Funds

- The inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The salary increase assumption was changed from 5.00 percent to 4.25 percent.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The mortality improvement scale was changed from MP-2015 to MP-2018.

Changes in Plan Provisions

State Employees, State Patrol, Correctional Employees, and Legislators Retirement Funds

- There have been no changes in plan provisions since the July 1, 2020, actuarial valuations.

Judges Retirement Fund

- Post-retirement benefit increases based on funded ratio will be replaced by a fixed 1.50 percent annual increase beginning January 1, 2022.

A description of the system and plans may be found in the *Notes to the Financial Statements* beginning on page [54](#). Additional plan provisions are summarized in the *Introductory Section* beginning on page [18](#).

Other Assumptions

Used in the July 1, 2021 Actuarial Valuations

Member Information

Retirement Fund	Percent Married ⁽¹⁾		Age of Beneficiaries for:	
	Males	Females	Males	Females
	State Employees	80 %	60 %	2 years younger
State Patrol	85	85	2 years younger	2 years older
Correctional Employees	75	60	2 years younger	2 years older
Judges	marital status as indicated in member data file		3 years younger	2 years older
Legislators	85	85	3 years younger	3 years older

⁽¹⁾ Actual marital status is used for members in payment status in the four largest plans. Legislators in payment status are assumed to be 100% married for purposes of a death benefit, except if reported with a joint and survivor benefit. 100% of Elective State Officers members are assumed to be eligible for the automatic survivor benefit.

Form of Payment

Annuity Option Selected	Benefit Option			
	50% Joint and Survivor	75% Joint and Survivor	100% Joint and Survivor	Straight Life
State Employees				
Male - Married	10 %	15 %	65 %	10 %
Female - Married	15	10	40	35
All Unmarried	0	0	0	100
All Deferred	0	0	0	100

Contribution Sufficiency / (Deficiency)

As of June 30, 2021
(Dollars in thousands)

Retirement Fund	Actuarial Valuation Date	Actual Contribution Rates				Recommended Rate	Sufficiency/ (Deficiency)
		Employee	Employer	State	Total		
State Employees	July 1, 2021	6.00 %	6.25 %	NA	12.25 %	9.13 %	3.12 %
State Patrol ⁽¹⁾	July 1, 2021	15.40	30.10	1.11 %	46.61	34.62	11.99
Correctional Employees	July 1, 2021	9.60	18.85	NA	28.45	24.75	3.70
Judges ^{(2) (3)}	July 1, 2021	7.81	22.50	11.04	41.35	36.51	4.84
Legislators	July 1, 2021	9.00	NA	NA	9.00	\$35,770,000	\$(35,704,000)

⁽¹⁾ Annual state contribution of \$1 million is statutorily required until the earlier of July 1, 2048, or until the Public Employee Retirement Association Police and Fire Retirement Fund and the MSRS State Patrol Retirement Fund both reach a 90 percent funded ratio on an actuarial value of assets basis.

⁽²⁾ Annual state appropriation of \$6 million is statutorily required until the earlier of July 1, 2048, or until the Judges Retirement Fund is fully funded.

⁽³⁾ The statutory contribution rate for Judges in the Tier 1 benefit program is 9 percent of salary. The statutory contribution rate for Judges in the Tier 2 benefit program is 7 percent of salary. The employee and total rates on the schedule reflect the fact that member contributions for Tier 1 Judges at the maximum benefit are directed to the Unclassified Employees Retirement Fund. If these contributions were not directed to the Unclassified Employees Retirement Fund, the employee and total rates would be 7.98 percent and 41.52 percent, respectively, instead of 7.81 and 41.35 percent as shown above. The distinction between the Tier 1 and Tier 2 benefit programs is explained in the *Notes to the Financial Statements*.

Schedule of Changes in Unfunded Actuarial Accrued Liabilities

For the Fiscal Year Ended June 30, 2021
(Dollars in thousands)

	Defined Benefit Retirement Funds				
	State Employees	State Patrol	Correctional Employees	Judges	Legislators
A. Unfunded Actuarial Accrued Liabilities (UAAL) at the Beginning of the Year	\$1,229,281	\$226,180	\$437,264	\$184,349	\$195,405
B. Changes Due to Interest Requirements and Current Rate of Funding					
1. Normal Cost, including Expenses	\$281,772	\$21,999	\$48,333	\$10,281	\$1,278

GASB Statements No. 67 and No. 68 Actuarial Valuation Results

The following pages contain information specific to the actuarial valuations performed to determine the pension liability and pension expense reported in the *Notes to the Financial Statements* in this ACFR. In addition, each employer participating in a MSRS defined benefit retirement plan will be allocated their proportionate share of these liability and expense amounts. State and local government employers will be required to recognize their share of the pension expense and pension liability in their financial statements.

These valuations have no bearing on measurement of pension plan funding status, or in decisions regarding contribution requirements for any plan.

Re: 2021 Annual Comprehensive Financial Report (ACFR)

Dear Members of the Board:

We have previously prepared and presented to you our actuarial valuations for accounting and financial reporting purposes for the State Employees Retirement Fund (SERF), the State Patrol Retirement Fund (SPRF), the Correctional Employees Retirement Fund (CERF), the Judges Retirement Fund (JRF) and the Legislators Retirement Fund (LRF) as of June 30, 2021. These annual reports provide information that is intended to comply with the Governmental Accounting Standards Board (GASB) Statements No. 67 and No. 68. These calculations have been made on a basis that is consistent with our understanding of these accounting standards.

GASB Statement No. 67 is the accounting standard that applies to the financial reports issued by retirement systems. GASB Statement No. 68 establishes accounting and financial reporting requirements for state and local government employers who provide their employees (including former employees) pension benefits through a trust.

In this Annual Comprehensive Financial Report (ACFR), MSRS was responsible for preparing the Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer. MSRS prepared the following exhibits in the Financial Section and the Actuarial Section based on information included in the annual actuarial valuation prepared by Gabriel, Roeder, Smith & Company (GRS):

- Schedule of Changes in the Employers' Net Pension Liability and Related Ratios;
- Schedule of Employer Contributions (and Notes to Schedule);
- Summary of GASB Statements No. 67 and No. 68 Actuarial Valuation Results;
- Summary of Deferred Outflows (Inflows) of Resources Arising from Current Reporting Period;
- Summary of Pension Expense (Income); and
- Summary of Actuarial Methods and Assumptions.

Reading the ACFR is not a substitute for reading the actuarial reports. In order to gain a full understanding of the actuarial condition of the System, it is important to read and understand the full actuarial reports for each of the aforementioned funds. Annual actuarial valuation reports for funding purposes, as well as for accounting and financial reporting purposes, are available on the MSRS website.

Valuation Results

The results of the June 30, 2021 GASB Statements No. 67 and No. 68 valuations are summarized in the following table (Dollars in Thousands).

Plan	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)	Ratio ⁽¹⁾ (b) / (a)	Pension Expense/ (Income)	Single Discount Rate
SERF	\$17,521,580	\$17,440,051	\$81,529	99.53%	\$(2,098,087)	6.50 %
SPRF	1,111,995	957,864	154,131	86.14	812	6.50
CERF	2,023,040	1,580,953	442,087	78.15	(122,025)	6.50
JRF	429,083	276,638	152,445	64.47	4,449	6.50
LRF ⁽²⁾	140,796	0	140,796	0.00	2,646	1.92

⁽¹⁾ Plan Fiduciary Net Position as a Percentage of Total Pension Liability.

⁽²⁾ The Legislators Retirement Fund is currently funded on a pay-as-you-go basis.

The following changes were recognized this year in the valuations for GASB Statements No. 67 and No. 68 purposes:

- For all plans, the long-term expected rate of return on plan investments was changed from 7.50% to 6.50% (assumption is not used for LRF since plan assets are \$0).
- For LRF, the Single Discount Rate was changed from 2.45% to 1.92%.
- For SERF, SPRF, CERF, and JRF, the Single Discount Rate was changed from 7.50% to 6.50%.
- For JRF, the post-retirement benefit increases changed from 1.75% per year, increasing to 2.00% per year upon achieving a 70% funding ratio, and increasing to 2.50% upon achieving a 90% funded ratio, to a fixed 1.50% per year beginning January 1, 2022.
- For SPRF, CERF, JRF and LRF:
 - The price inflation assumption was decreased from 2.50% to 2.25%.
 - The base mortality table for was changed from the RP-2014 table to the PUB-2010 General Mortality table.
- For SPRF, CERF, and JRF:
 - The mortality improvement scale was updated from MP-2015 to MP-2019.
 - Assumed rates of disability and retirement were changed as recommended in the most recent experience study, dated June 30, 2020.
 - Minor demographic changes were made as recommended in the most recent experience study, dated June 30, 2020, as follows:
 - SPRF: Minor changes were made to form of payment assumptions.
 - CERF: Percent married assumption was modified and minor changes were made to form of payment assumptions.
 - JRF: Assumed spouse age difference for females was modified.

Actuary's Certification Letter

Board of Directors
Minnesota State Retirement System
December 14, 2021
Page 3

- For SPRF and CERF:
 - The payroll growth assumption was decreased from 3.25% to 3.00%.
 - Assumed salary increase rates and rates of termination were changed as recommended in the most recent experience study, dated June 30, 2020.
- For LRF:
 - The salary increase assumption changed from 4.50% to 4.25%.
 - The mortality improvement scale was changed from MP-2015 to MP 2018.

GRS performed a brief review of the basic financial and membership data provided to us as of June 30, 2021 by MSRS, and determined that the data appears reasonable in comparison to last year. We did not audit the data. We have relied upon the data as submitted in performing the actuarial valuation and in preparing trend data schedules. The actuarial cost method and the assumptions related to asset valuation and investment return are specified by State Statute, and the earnings progression and active member payroll growth are defined in the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement (LCPR). All other assumptions are based on actual experience, with changes adopted by the MSRS Board, and approved by the LCPR. The assumptions and methods meet the parameters established by Actuarial Standards of Practice.

This report reflects the impact of COVID-19 through June 30, 2021. It does not reflect the ongoing impact of COVID-19, which is likely to influence demographic and investment experience, at least in the short term. We will continue to monitor these developments and their impact on the plan.

This report was prepared using our proprietary valuation model and related software which, in our professional judgment, has the capability to provide results that are consistent with the purposes of the valuation and has no material limitations or known weaknesses. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.

To the best of our knowledge and belief, the methods and assumptions used in the actuarial valuations comply with Actuarial Standards of Practice (ASOPs), Generally Accepted Accounting Principles (GAAP) applicable in the United States, the requirements of Minnesota Statutes, Section 356.215, and the requirements of the Standards for Actuarial Work established by the LCPR. In our opinion, the results of the reports reflect the actuarial position of the plans on an ongoing basis under these assumptions, methods, and procedures.

Summary of Deferred Outflows (Inflows) of Resources Arising from the Current Reporting Period

For the Fiscal Year Ended June 30, 2021
(Dollars in thousands)

Changes in the net pension liability from one fiscal year to the next are recognized as a pension expense, except in specific situations as outlined in GASB Statement No. 68, and presented here. In the situations noted in the schedule below, the change in net pension liability is considered a deferred outflow of resources or a deferred inflow of resources. The deferred outflows and inflows of resources are amortized on a straight-line basis over a specified period of time, and recognized as an expense (or income) partially in the current period and partially in future periods.

	Total Difference	Recognition period	Recognized in Current Pension Expense	Recognized in Future Pension Expense
Deferred Outflows (Inflows) of Resources Due to Differences Between Expected and Actual Experience				
State Employees	\$13,632	5 years	\$2,726	\$10,906
State Patrol	1,596	6 years	266	1,330
Correctional Employees	(4,738)	5 years	(948)	(3,790)
Judges	(1,481)	5 years	(296)	(1,185)
Legislators	(527)	1 year	(527)	0
Deferred Outflows (Inflows) of Resources Due to Changes in Actuarial Assumptions				
State Employees	\$1,875,179	5 years	\$375,036	\$1,500,143
State Patrol	90,144	6 years	15,024	75,120
Correctional Employees	269,564	5 years	53,913	215,651
Judges	24,695	5 years	4,939	19,756
Legislators	(942)	1 year	(942)	0
Deferred Outflows (Inflows) of Resources Due to Differences Between Expected and Actual Earnings on Pension Plan Investments				
State Employees	\$(3,078,219)	5 years	\$(615,644)	\$(2,462,575)
State Patrol	(168,354)	5 years	(33,671)	(134,683)
Correctional Employees	(274,922)	5 years	(54,984)	(219,938)
Judges	(48,867)	5 years	(9,773)	(39,094)
Legislators	0	5 years	0	0

Summary of Actuarial Methods and Assumptions

For the Year Ended June 30, 2021

Actuarial Methods

1. Actuarial Cost Method: Entry age normal

2. Asset Valuation Method: Fair value of assets

Actuarial Assumptions

Most assumptions used for GASB-compliant financial reporting purposes are the same as those used for the purposes of measuring funding progress and determining the required contribution rate, as noted beginning on page [135](#) of this section. Only the assumptions that differ are listed below, and the funds to which they pertain are noted parenthetically.

1. Investment Rate of Return: 6.50 percent (State Employees, State Patrol, Correctional Employees, Judges)

2. Single Discount Rate as of the June 30, 2021, Measurement Date:

6.50 percent (State Employees, State Patrol, Correctional Employees, Judges)

1.92 percent (Legislators)

Statistical

Introduction

GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section*, issued in May 2004, established the requirements for the information presented in this section of the annual comprehensive financial report. The information that follows is intended to provide financial statement users with historical perspectives, context and details. The information contained in this section supplements the financial information provided in the preceding sections and displays trends where they exist, to help readers gain a better understanding of the overall financial condition of MSRS.

The *Schedule of Changes in Fiduciary Net Position* shows a 10-year history of the asset growth of the various funds. This data allows readers to review trends in revenue sources and expense categories for all MSRS defined benefit and defined contribution funds. The *Schedule of Benefits and Refunds by Type* displays in detail the growth of benefits disbursed, whereas the *Schedule of Revenues by Source* provides a 10-year history of the resources received along with the corresponding member payroll contributions and rate information. The *Schedule of Expenses by Type* summarizes the application of those resources over the past ten years.

The remaining schedules provide demographic information about the memberships and information about the employers that participate in the funds. The *Membership Summary* reports member counts, average age, and service credit over a 10-year period. The *Schedule of New Retirees and Average Benefit Payments* reflects the number of new retirees and their average monthly benefits, also over a 10-year period. The *Schedule of Retired Members by Type of Benefit* reports the June 30, 2021, retirees, monthly benefit amount, and various benefit options selected.

The schedules in this section can be used together to gain a broader historical picture of the activities at MSRS. For instance, when service credit increases on the *Membership Summary*, the average benefit shown on the *Schedule of New Retirees and Average Benefit Payments* will similarly increase for members with comparable years of service. Consequently, higher average benefits will be reflected in larger annuity benefit payment amounts reported in the *Schedule of Changes in Fiduciary Net Position* and *Schedule of Expenses by Type*.

All the information contained in the schedules of this section was extracted from the database records of MSRS and summarized in the formats shown. There were no estimates or assumptions used in compiling this data.
