#### **Independent Auditor's Report**

Retirement Board City of Kansas City, Missouri Firefighters' Pension System Kansas City, Missouri

We have audited the accompanying financial statements of the City of Kansas City, Missouri Firefighters' Pension System (the Plan), a component unit of the City of Kansas City, Missouri, which comprise the statements of fiduciary net position as of April 30, 2015 and 2014, and the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Retirement Board City of Kansas City, Missouri Firefighters' Pension System Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the City of Kansas City, Missouri Firefighters' Pension System as of April 30, 2015 and 2014, and the changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in *Note 1* to the financial statements, in 2015, the Plan adopted GASB Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*. Our opinion is not modified with respect to this matter.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information listed in the table of contents be presented to supplement the financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Kansas City, Missouri October 29, 2015

# A Component Unit of the City of Kansas City, Missouri Management's Discussion and Analysis April 30, 2015 and 2014

The Firefighters' Pension System of Kansas City, Missouri is the defined benefit retirement plan for firefighters of Kansas City, Missouri. The Firefighters' Pension System was established by City ordinance in 1953 and is administered by the Retirement System Board of Trustees to provide retirement, disability and survivor benefits to its members.

This discussion and analysis of the Firefighters' Pension System's financial statements provides an overview of the Firefighters' Pension System's operations and investment performance during the years ended April 30, 2015 and 2014, with selected comparative information for the fiscal year ended April 30, 2013. Please read it in conjunction with the Firefighters' Pension System's financial statements, which follow this section.

#### Overview of the Financial Statements and Accompanying Information

- The financial statements presented in this report are the Statements of Fiduciary Net Position as of April 30, 2015 and 2014 and the Statements of Changes in Fiduciary Net Position for the years ended April 30, 2015 and 2014. These statements reflect resources available for the payment of benefits as of the year-end, and the sources and uses of those funds during the year.
- The notes to the financial statements are an integral part of the financial statements and provide facts and detailed information to assist the reader in understanding the statements. Information in the notes includes a description of the Plan, a summary of significant accounting policies, the method used to value investments and a summary of investments.
- Required supplementary information presents schedules related to employer contributions and the changes in net pension liability and related ratios of the Plan.

Net Position, End of Year	\$ 485,996,525	\$ 465,216,027	\$ 20,780,498	4.47%

#### 2015 Financial Highlights

All asset classes in the investment portfolio posted positive returns, with real assets posting the highest absolute returns. The investment portfolio attained an investment rate of return, net of expenses of 7.19%, which modestly exceeded the policy index benchmark. The domestic equity, global equity and real assets segments of the fund outperformed their respective benchmarks, while both the international equity and fixed income managers, in aggregate, underperformed.

The 4.5% rise in fiduciary net position, to \$486 million, was largely due to net investment income of \$33 million and an increase in contributions of \$5 million. Benefits paid to members grew in ordinary fashion and administrative expenses increased, due to health insurance enrollment expenses.

#### 2015 Operational Highlights

There were no significant changes to the investment structure of the fund. Ongoing cash needs were met through the sale of appreciating equity securities.

Same sex marriage legislation was passed by the City Council on December 11, 2014 (Ordinance No. 140976). This legislation requires the System to begin recognizing same sex marriages.

A Component Unit of the City of Kansas City, Missouri Management's Discussion and Analysis April 30, 2015 and 2014

#### 2014 Financial Highlights

Although fixed income returns were negligible during the period, prices surged in most equity markets. The investment portfolio attained a return of 10.85%, which modestly exceeded the policy index benchmark. The domestic equity, fixed income and real estate segments of the fund all bested performance expectations, while both the international equity and global equity managers, in aggregate, underperformed.

The 7.2% rise in fiduciary net position, to \$465 million, was largely due to investment income of \$46 million. Contributions and benefits grew in ordinary fashion. Administrative expenses rose significantly, primarily due to staffing costs.

#### 2014 Operational Highlights

Changes in key personnel at a fixed income manager prompted their removal. The two managers retained as replacements, coupled with a simultaneous reduction in passive fixed income exposure, should position the fund to generate slightly higher returns with less interest rate exposure. Ongoing cash needs were met through the sale of appreciating equity securities.

Pension reform legislation was passed by the City Council on February 20, 2014 (Ordinance No. 140034). This legislation established a new tier of benefits for employees hired on or after April 20, 2014.

#### Requests for Information

This financial report is designed to provide members of the Firefighters' Pension System, citizens, investors and creditors of the City of Kansas City, Missouri with a general overview of the Firefighters' Pension System's finances and to demonstrate its accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Firefighters' Pension System, City Hall, 414 East 12th Street, 12th Floor, Kansas City, Missouri 64106-2705.

There are no other currently known facts, conditions or decisions that are expected to have a significant effect on the financial position or results of operations of the Firefighters' Pension System.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

#### Note 1: Summary of Significant Accounting Policies

#### Reporting Entity

The City of Kansas City, Missouri Firefighters' Pension System (the Plan) is a contributory, single-employer, defined benefit pension plan, covering all employees of the Firefighting Division of the City of Kansas City, Missouri (the City). The Plan is considered part of the City's financial reporting entity and is included in the City's comprehensive annual financial report as a pension trust fund. Employees should refer to the plan agreement for more complete information.

#### Adoption of New Accounting Standard

In 2015, the Plan adopted the provisions of GASB Statement No. 67, Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25, which has as its objective improving the usefulness of pension information included in the general purpose external financial reports of state and local government pension plans for making decisions and assessing accountability. The Plan has treated adoption of GASB 67 as an adjustment of prior periods by restating the 2014 financial statements. Adoption of GASB 67 had no effect on net position restricted for pensions or net increase (decrease) in net position. It did, however, change the requirements for information disclosed in the footnotes to the financial statements and information required to be presented as required supplementary information.

#### Reclassifications

Certain reclassifications have been made to the 2014 financial statements to conform to the 2015 financial statement presentation. These reclassifications had no effect on changes in net position restricted for pensions.

#### Basis of Accounting

The financial statements are prepared on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when paid in accordance with the terms of each plan.

#### Investments

Investments owned are valued at fair value as follows:

Common stock and foreign equities (A) Listed – closing prices are reported on the composite summary of national securities exchanges or (B) Over-the-counter – bid prices

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

Collective trusts and short-term investment funds consist primarily of non-marketable investments in various venture capital, corporate finance funds and private partnerships (collectively referred to as "Portfolio Funds"). These funds are primarily invested in a diversified portfolio of equities, fixed income, real estate and alternative or non-traditional investments. These investments are recorded at fair value based on financial data, which is generally at an amount equal to the net asset value per share or the Fund's proportionate interest in the net assets or net equity of the Portfolio Funds as determined by each Portfolio Fund's general partner or investment manager.

The estimated value of such investments is subject to uncertainty and, therefore, may differ from the value that would have been used had a market for such investments existed.

Investment transactions are accounted for on a trade-date basis (date order to buy or sell is executed), and dividend income is recognized on the ex-dividend date. Interest income is recognized on an accrual basis. Realized gains and losses from investments are determined on an average cost basis.

#### Administrative Expenses

Plan administrative salary, duplicating, telecommunications and travel expenses are included in the Plan's administrative expenses when incurred. The City provides office space, a portion of administrative and clerical services of the Human Resources Department and accounting services of the Finance Department without any direct charge to the Plan.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### Note 2: Plan Description

The Plan is established by City ordinances enacted by the City Council. The Plan is administered by the Board of Trustees of the Firefighters' Pension System of Kansas City, Missouri (the "Board"). The Board is composed of nine members, four of which are the Director of the Fire Department, the Director of Human Resources, the Director of Finance and the City Treasurer. One is an appointed retired member and the remaining four are elected by the members of the pension system.

# A Component Unit of the City of Kansas City, Missouri Notes to Financial Statements April 30, 2015 and 2014

At April 30, 2015 and 2014, the Plan's membership consists of the following:

		2015	
	Tier I	Tier II	
	Members	Members	Total
Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but

Notes to Financial Statements
April 30, 2015 and 2014

#### **Contributions**

Funding is provided by contributions from the Plan's members, the City and earnings on investments. Firefighters contribute 9.55% of their base salary and an additional 1% to fund the health insurance subsidy through April 20, 2014. Contributions were increased as of April 20, 2014, where Firefighter's contributions increased to 10.55% of their base salary and an additional 1% to fund the health insurance subsidy. The City's contribution is set by the City Council in conjunction with its approval of the City's annual budget, based on the actuarially determined contribution rate set by the Plan's consulting actuary.

Based upon the April 30, 2014 actuarial valuation, the actuary recommended a City contribution rate of 27.91%. The Board of Trustees recognized a scheduled City contribution rate of 27.73% for 2015 and 2014. The City Council approved a City contribution rate of 27.73% (and 2% to fund the health insurance subsidy) for the year ended April 30, 2015 and 19.6% (and 2% to fund the health insurance subsidy) for the year ended April 30, 2014.

#### Retirement Benefits

Benefit terms for the Plan are established in the City administrative code and can only be amended by the City Council. The Plan provides retirement, survivor, disability as well as pre-retirement death benefits as noted below:

#### Tier I Members

The Plan provides retirement benefits, for those employees hired before April 20, 2014 (Tier I Members). Members become vested for retirement benefits after 10 years of service. Members who retire with 25 years or more of creditable service are entitled to an annual pension of 2.5% of final average compensation multiplied by the number of years of creditable service, subject to a maximum limit of 80% of final compensation as defined in the Plan.

If members terminate prior to retirement and before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to City contributions and are refunded their member contributions with interest. Such refunds result in the forfeiture of all other benefits under the Plan and are reduced by a service charge if the terminated employee has less than five years of service.

An automatic annual cost-of-living adjustment of 3.0%, non-compounded, per year is provided in the Plan. The Plan also provides for a minimum monthly payment of \$600 to all current and future service and disability retirees.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

#### **Tier II Members**

The Plan provides retirement benefits, for those employees hired on or after April 20, 2014 (Tier II Members). Members become vested for retirement benefits after 10 years of service. Members who retire with 27 years or more of creditable service are entitled to an annual pension of 2.5% of final average compensation multiplied by the number of years of creditable service, subject to a maximum limit of 80% of final compensation as defined in the Plan.

If members terminate prior to retirement and before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to City contributions and are refunded their member contributions with interest. Such refunds result in the forfeiture of all other benefits under the Plan and are reduced by a service charge if the terminated employee has less than five years of service.

An annual cost-of-living adjustment, not to exceed 2.5%, non-compounded, per year is provided in the Plan if the prior year funding ratio is equal to or greater than 80% and will be equal to the percentage increase in the prior 12 months of the final national consumer price index. The Plan also provides for a minimum monthly payment of \$600 to all current and future service and disability retirees.

#### **Death Benefits**

If an active member dies, the following benefits shall be paid:

A funeral benefit of \$2,000 to the spouse or named beneficiary.

To the member's spouse until death, a pension equal to one-half of the member's accrued pension, but not less than 25% of the member's average final compensation. The minimum monthly benefit is \$275 to all spouses. Certain benefit provisions have been established for deaths sustained in the performance of a member's duties, or deaths of active members prior to retirement who have achieved 25 years or more of creditable service.

To the member's children, an allowance of \$100 a month each until the attainment of age 18, unless certain conditions are met whereby benefits may continue.

To the member's designated beneficiary or estate, if there is no surviving spouse or qualifying child, any remaining member contributions and interest.

If a retired member dies, the following benefits shall be paid:

To the member's spouse until death, a retirement benefit equal to one-half of the member's normal retirement benefit.

To the member's designated beneficiary or estate, if there is no surviving spouse, any remaining member contributions and interest.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

#### **Disability Benefits**

Disability benefits are available for members and are based on an average final compensation. The Plan provides for a minimum monthly payment of \$600 to all current and future disability retirees.

#### Health Care Subsidy

Effective May 1, 1991, the Plan established a subsidy fund (subsidy). The City and active firefighters each contribute 2% and 1% of salary, respectively. Prior to April 1 of each year, the board of trustees of the Plan establishes the dollar value of the monthly subsidy. The monthly subsidy for the years ended April 30, 2015 and 2014 was \$430.

The subsidy is invested in both fixed income and equity securities and is stated at fair value. Investments totaled \$2,978,814 and \$2,630,561 at April 30, 2015 and 2014, respectively.

The actuarial valuations do not consider the subsidy's fiduciary net position, which at April 30, 2015 and 2014 were \$2,978,814 and \$2,630,561, respectively. According to the City ordinance that established the subsidy, if the fiduciary net position available for the subsidy is zero, the subsidy will no longer be available. For the years ended April 30, 2015 and 2014, City contributions for the subsidy were \$2,740,019 and \$2,730,205, respectively, and employee contributions were \$593,309 and \$594,202, respectively.

#### Note 3: Deposits and Investments

The City administrative code and ordinances passed by the City Council provide that Plan investments may include, but are not limited to, obligations of the U.S. government, state of Missouri and municipal corporations, including school districts, corporate bonds, real estate mortgages and common and preferred stocks. The Plan purchases investments from Securities and Exchange Commission registered securities broker dealers and banks through its investment managers. Investments in U.S. Treasury obligations are held at the Federal Reserve Bank through the customer account of a financial institution.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

#### **Investment Policy**

The asset type and classes, target allocation and ranges that have been approved by the Board are shown below. All percentages are based on market values. The Board has authorized Plan staff, with the guidance from the investment consultant, to rebalance the portfolio in accordance with the strategy guidelines below:

Asset Type and Class	Range	Target
Equities		
Domestic Equity	20% - 30%	25%
Non-U.S. Equity	10% - 20%	15%
Long/Short Equity	5% - 15%	10%
Global Equity	5% - 15%	10%
Fixed Income	25% - 35%	30%
Real Estate	5% - 15%	10%

#### Securities Lending Transactions

City ordinances and the Plan's Board policies permit the Plan to use investments of the Plan to enter into securities lending transactions – loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future.

The Plan has contracted with Northern Trust as its third-party lending agent to lend domestic equity and debt securities for cash collateral of not less than 102% of the market value and international debt and equity securities of not less than 105% of the market value. At April 30, 2015 and 2014, management believes the Plan has no credit risk exposure to borrowers because the amounts the Plan owes the borrowers exceed the amounts the borrowers owe the Plan. Contracts with the lending agent require it to indemnify the Plan if borrowers fail to return the securities, if the collateral is inadequate to replace the securities lent or if the borrowers fail to pay the Plan for income distributions by the securities' issuers while the securities are on loan; therefore, non-cash collateral is not recorded as an asset or liability on the financial statements.

	2015	2014
Market value of securities loaned	\$ 39,804,308	\$ 32,098,932
Market value of cash collateral received from borrowers	\$ 41,084,056	\$ 32,755,352

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

All securities loans can be terminated on demand by either the Plan or the borrower. The cash collateral received on each security loan was invested, in accordance with the Plan investment guidelines, in short-term funds. The maturities of the resulting investments generally match the maturities of the securities lending arrangements themselves. The Plan is not permitted to pledge or sell collateral received unless the borrower defaults.

#### Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the Plan's securities lending policy, \$39,804,308 and \$32,098,932 at April 30, 2015 and 2014, respectively, was held by the counterparty that was acting as the Plan's agent in securities lending transactions.

#### **Investment Concentrations**

The following presents investments that represent 5% or more of the fiduciary net position of the Plan, as of April 30, 2015:

Investment	l	Fair Value
Acadian Global Equity Fd	\$	56,126,001
FID Intl Growth Collective Trust		40,589,007
Pioneer Multi-Sector Fixed Income		53,026,534
Franklin Templeton Global Multisectorplus Trust Fund		51,766,639
JPMCB Special Situation Property Fund		28,007,662
Rock Creek Georgetown LTD CL		46,994,126

The following presents investments that represent 5% or more of the fiduciary net position of the plan, as of April 30, 2014:

Investment	Fair Value	
Acadian Global Equity Fd	\$	52,488,980
FID Intl Growth Collective Trust		39,931,736
Pioneer Multi-Sector Fixed Income		51,243,781
Franklin Templeton Global Multisectorplus Trust Fund		51,520,132
JPMCB Special Situation Property Fund		25,288,100
Rock Creek Georgetown LTD CL		41,899,602

Notes to Financial Statements
April 30, 2015 and 2014

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Plan. As of April 30, 2015 and 2014, the Plan's fixed income assets that are not government guaranteed represented 100% of the fixed income portfolio. The Plan has not established a policy with regard to credit risk. The following tables summarize the Plan's fixed income portfolio exposure levels and credit qualities at April 30, 2015 and 2014:

#### Average Credit Quality and Exposure Levels of Nongovernment Guaranteed Securities

Fixed Income Security Type	Fair Value April 30, 2015	Percentage of all Fixed Income Assets	Weighted Average Credit Quality
Money market funds Collective trusts - fixed income	\$ 14,557,917 65,743,870 \$ 80,301,787	82%	Not rated Not rated
Fixed Income Security Type	Fair Value April 30, 2014	Percentage of all Fixed Income Assets	Weighted Average Credit Quality

Each portfolio is managed in accordance with operational guidelines that are specific as to permissible credit quality ranges, exposure levels within individual quality tiers and the average credit quality of the overall portfolios.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Plan has not established a policy with regard to interest rate risk. The Plan actually owns an interest in the underlying assets of the collective trusts and the money market funds and the unit values are based on the fair value of their underlying assets.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

#### Effective Duration of Fixed Income Assets by Security Type at April 30, 2015

Fixed Income Security Type	Fair Value oril 30, 2015	Percentage of all Fixed Income Assets	Weighted Average Effective Duration (Years)
Money market funds** Collective trusts - fixed income	\$ 14,557,917 65,743,870	18.1% 81.9%	** 3.90
	\$ 80,301,787	100.0%	

#### Effective Duration of Fixed Income Assets by Security Type at April 30, 2014

Fixed Income Security Type	Fair Value April 30, 2014	Percentage of all Fixed Income Assets	Weighted Average Effective Duration (Years)	
Money market funds**	\$ 14,838,258	18.7%	**	
Collective trusts - fixed income	64,453,398	81.3%	3.21	
	\$ 79,291,656	100.0%		

<sup>\*\*</sup>The Plan actually owns an interest in the underlying assets of the money market funds and the unit values are based on the fair value of their underlying assets. The money market funds do not have a maturity date, even though their underlying assets do have maturity dates of less than one year.

#### Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Plan's currency risk exposure, or exchange rate risk, primarily reside within the Plan's foreign debt obligations and foreign equity holdings through the Plan's various asset managers. The Plan's policy for each specific portfolio does not place limits on the amount of foreign exposure that can be held by the individual asset managers.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

#### Annual Money-Weighted Rate of Return

For the year ended April 30, 2015 and 2014, the annual money-weighted rate of return on the pension plan investments, net of pension plan investment expense, was 7.19% and 10.85%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### Note 4: Net Pension Liability

The components of the net pension liability of the City at April 30, were as follows:

	2015	2014
Total pension liability	\$604,987,291	\$583,167,922
Plan fiduciary net position	(483,017,711)	(462,585,466)
City's net pension liability	\$ 121,969,580	\$ 120,582,456
Fiduciary net position as a % of total pension liability	79.84%	79.33%

#### Note 5: Actuarial Methods and Assumptions

An actuary from Cheiron determines the total pension liability. The total pension liability as of April 30, 2015 and 2014 was determined based on an actuarial valuation prepared as of April 30, 2014 and 2013, respectively, rolled forward one year, using the following actuarial assumptions:

Inflation	2.5% per annum
Projected salary increases, including inflation	3.0% to 8.0% per annum, depending on age
Long-term investment rate of return, net of plan investment expenses, including inflation Mortality Tables:	7.50% and 7.75% per annum, respectively
Healthy	RP – 2000 Combined Mortality Table Set forward
Disabled	one year  RP – 2000 Combined Mortality Table Set forward three years

The actuarial assumptions used in both valuations were based on the results of the most recent actuarial experience study for the period May 1, 2007 through April 30, 2011. The actuarial experience study is dated April 27, 2012.

A Component Unit of the City of Kansas City, Missouri
Notes to Financial Statements
April 30, 2015 and 2014

For purposes of calculating the total pension liability, future ad hoc COLAs of 3.0% (simple COLA) were assumed to be granted in all future years, for both Tier I and Tier II Members.

#### Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best-estimates arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of April 30, 2015 and 2014 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	25%	9.41%
Non-U.S. Equity	15%	10.49%
Long/Short Equity	10%	8.73%
Global Equity	10%	9.69%
Fixed Income	30%	4.46%
Real Estate	10%	8.25%

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.5%. A cash flow projection done through the year 2117 by the Plan's actuary shows that continuation of the City's funding policy will result in the Plan's projected fiduciary net position being greater than or equal to the benefit payments projected for each future period. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments.

#### Sensitivity Analysis

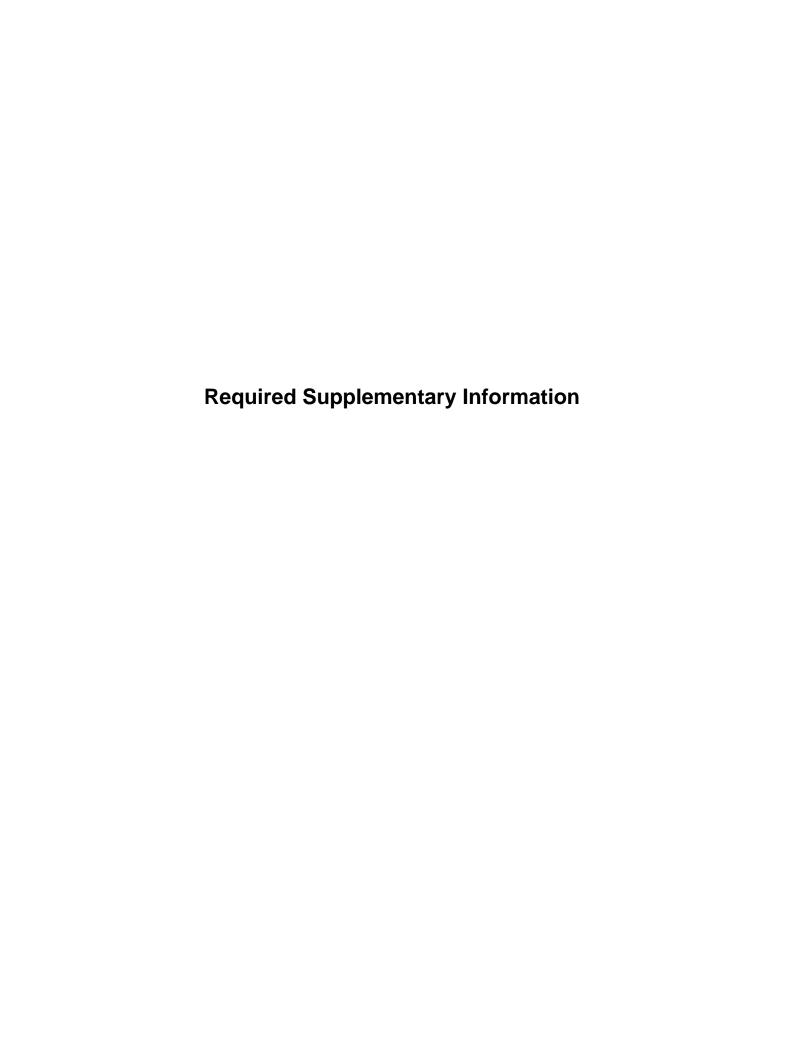

The following sensitivity analysis presents the net pension liability of the City, calculated using the discount rate of 7.50% as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%) or one percentage point higher (8.50%) than the current rate as of April 30, 2015 and 2014:

		2015			
	1%	Current	1%		
	Decrease	<b>Discount Rate</b>	Increase		
	(6.50%)	(7.50%)	(8.50%)		
Total pension liability	\$ 679,945,586	\$ 604,987,291	\$ 542,111,651		
Fiduciary net position	(483,017,711)	(483,017,711)	(483,017,711)		
Net pension liability	\$ 196,927,875	\$ 121,969,580	\$ 59,093,940		
		2014			
	1%	Current	1%		
	Decrease	Discount Rate	Increase		
	(6.50%)	(7.50%)	(8.50%)		
T-4-1 1 - 1 114-114-	Φ 655 206 000	Ф 592 177 022	¢ 500 (10 700		
Total pension liability	\$ 655,396,009	\$ 583,167,922	\$ 522,618,723		
Fiduciary net position	(462,585,466)	(462,585,466)	(462,585,466)		
Net pension liability	\$ 192,810,543	\$ 120,582,456	\$ 60,033,257		

#### Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of fiduciary net position.

Plan contributions are made and the total pension liability are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

# Firefighters' Pension System A Component Unit of the City of Kansas City, Missouri Required Supplementary Information Schedule of Changes in the City's Net Pension Liability and Related Ratios April 30, 2015

Total pension liability

#### A Component Unit of the City of Kansas City, Missouri Notes to Required Supplementary Information April 30, 2015 and 2014

**Changes of benefit and funding terms** – The following changes to the plan provisions were reflected in the valuation as listed below:

#### 4/30/2014 Valuation

• Effective April 20, 2014, member contribution rates increased by 1.00% and Tier II have been added to the Plan.

#### 4/30/2011 Valuation

 According to Ordinance No. 100606, members can now designate at retirement that a qualified domestic partner receive death benefits.

**Changes in actuarial assumptions and methods** – The following changes to the plan provisions were reflected in the valuations as listed below:

#### 4/30/2014 Valuation

• The investment return assumption decreased from 7.75% to 7.50%.

#### 4/30/2012 Valuation

- An actuarial experience study was conducted and resulted to changes in the following assumptions:
  - Inflation
  - o Real wage growth
  - o Termination rates
  - Retirement rates
  - Disability rates
  - o Duty related disability percentage
  - o Spouse age difference
  - o Marriage assumption
  - Health mortality
  - o Disabled mortality

#### 4/30/2009 Valuation

• The minimum asset corridor, used in the asset smoothing method, changed from 85% to 80% and the maximum asset corridor changed from 110% to 120%.

# A Component Unit of the City of Kansas City, Missouri Notes to Required Supplementary Information (Continued) April 30, 2015 and 2014

• The Amortization of UAL changed from a 20-year fixed level percent of pay amortization method for changes to the UAL for the years on and after May 1, 2009 to a 30-year fixed level percent of pay amortization method for changes to the UAL for the years on and after May 1, 2009.

#### 4/30/2008 Valuation

- The minimum asset corridor, used in the asset smoothing method, changed from 90% to 85%.
- The Amortization of UAL changed from a 30-year rolling level percent of pay amortization method to a 30-year fixed level percent of pay amortization of the May 1, 2008 UAL and a 20-year fixed level percent of pay amortization method for changes to the UAL for the years on and after May 1, 2009.
- The investment return assumption was changed from 8.00% to 7.75%.

#### 4/30/2006 Valuation

- The salary increase rate for ages 25 through 29 were increased and the salary increase rates for ages 30 through 64 were decreased.
- The withdrawal rates for ages above 25 were decreased.
- The mortality tables for healthy lives were changed to the 1983 Group Annuity Mortality Table with 5% of deaths assumed to be Duty related, from the 1971 Group Annuity Mortality Table.
- The mortality tables for disabled lives were changed to the 1983 Group Annuity Mortality Table, from the 1983 Railroad Retirement Board Disabled Life Mortality Table.

# A Component Unit of the City of Kansas City, Missouri Notes to Required Supplementary Information (Continued) April 30, 2015 and 2014

The following actuarial methods and assumptions were used to determine the actuarially determined employer contribution reported in the most recent fiscal year, which was based on the April 30, 2014 actuarial valuation:

Valuation Date 5/1/2014

Timing Actuarially determined contribution rates are calculated based on the

actuarial valuation one year prior to the beginning of the plan year.

Key Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method Entry Age

Asset valuation method 5-year smoothed market. 80% / 120% corridor around market value.

30-year layered amortization as a level percent of pay for changes to the

unfunded actuarial liability on or after 5/1/2008.

Discount rate 7.50%
Amortization growth rate 3.00%
Price inflation 2.50%

Salary increases Ranges from 8.0% to 3.0% Cost-of-living adjustments 3.00% simple

Mortality Healthy: RP-2000 Combined Mortality Table set forward one year for

males and females

Disabled: RP-2000 Combined Mortality Table set forward three years

for males and females
