The Board of Trustees
 Missouri Local Government
 Employees Retirement System
 Jefferson City, MO 65102

The Annual Report of the Missouri Local Government Employees Retirement System (LAGERS) for the fiscal year ended June 30, 2013, is submitted herewith. The management of LAGERS is responsible for the compilation and accuracy of the financial, investment, actuarial and statistical information contained in this report. Responsibility for both the accuracy of the data, and completeness and fairness of the presentation, rests with the management of the system. I trust that you and the members of the system will find this annual report helpful in understanding your public employee retirement system – a system which continues to maintain a strong and positive financial future.

The LAGERS system was established in 1967 consisting of 10 employers and has subsequently expanded to include 644 political subdivisions of the state. A listing of the current employers begins on page 53.

MISSION STATEMENT

The Missouri Local Government Employees Retirement System's mission is to provide secure retirement, survivors' and disability benefits to members and beneficiaries in the most efficient and economical manner possible, while providing superior service and fulfilling its fiduciary obligations.

STRATEGIC PLANNING

The Planning and Budgeting Process provides the framework for the annual Business Plan. The Business Plan corresponds to LAGERS fiscal year as well as long-term objectives ranging from the current year to five years in the future. The development of the Business Plan is a coordinated effort of the entire LAGERS management team. LAGERS staff intends for all activities to be guided by the focused Mission Statement. Each of the initiatives is categorized according to the applicable section of the Mission Statement that is being fulfilled.

ACCOUNTING SYSTEMS AND REPORTS

The report was prepared to conform with the principles of governmental accounting and reporting as put forth by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants.

The Government Finance Officers Association of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the LAGERS system for its comprehensive annual financial report for the fiscal year ended June 30, 2012. LAGERS has received this prestigious award for its annual report in each of the last thirty-five years.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. We believe this report continues to conform to the Certificate of Achievement Program requirements and we are submitting it to the Government Finance Officers Association to determine its eligibility for another certificate.

The Financial section of the report contains the independent auditors' letter, management's discussion and analysis, the financial statements, notes and other required supplementary information. Management's discussion and analysis provides a narrative introduction and overview of the financial statements and should be read in conjunction with those statements.

Transactions of the LAGERS system are reported on the accrual basis of accounting. The management of the system is charged with maintaining a sound system of internal controls. The objectives of such a system are to provide management with reasonable assurance that assets are safeguarded against loss from unauthorized use and they are recorded properly to permit the preparation of financial statements. Even though there are inherent limitations in any system of internal controls, the management of LAGERS makes every effort to ensure that through systematic reporting and internal reviews, errors or fraud are quickly detected and corrected.

Letter of Transmittal (continued)

REVENUES

The collection of employer and employee contributions, as well as income from investments, provides the reserves needed to finance retirement benefits. Contributions and investment income for fiscal year 2013 total \$864,811,372. This amount includes realized and unrealized gains/losses. Contribution rates are stabilizing with approximately half the rates decreasing due to the asset smoothing methodology utilized in the actuarial valuation process and actuarial gains related to smaller pay increases. Reserves have increased slightly, with the exception of the casualty reserve, as a result of the above actuarial experience in fiscal year 2013.

EXPENSES

The principal purpose for which LAGERS was created was to provide retirement annuities, survivor benefits, and total and permanent disability benefits to qualified members and their beneficiaries. The cost of such programs includes recurring benefit payments as designated by the plan, refund of principal to terminated employees, and the cost of administering the system. Expenses for fiscal year 2013 totaled \$217,663,741, an increase of 7.8% over fiscal year 2012 expenses. The increase in expenses resulted primarily from monthly payments to the additional number of retirees and partial lump-sum payments to retirees.

INVESTMENTS

The investments of LAGERS system are governed primarily by an investment authority known as the "prudent person rule". The prudent person rule establishes a standard for all fiduciaries, which includes anyone who has authority with respect to the fund. The prudent person standard states that fiduciaries shall discharge their duties solely in the interest of the fund participants and beneficiaries and with the degree of diligence, care, and skill which prudent men and women would ordinarily exercise under similar circumstances in a like position. By permitting further diversification of investments within a fund, the prudent person standard may enable a fund to reduce overall risk and increase return. A summary of the asset allocation can be found on page 29 of this report.

The prudent person rule permits the fund to establish an investment policy based upon certain investment criteria and allows for the delegation of investment authority to professional investment advisors. The statement of investment policy outlines the responsibility for the investment of the fund and the degree of risk that is seemed appropriate for the fund. Investment advisors are to execute the investment policy in accordance with the statutory authority, the Board policy and their respective guidelines, but are to use full discretion within the policy and guidelines. For fiscal year 2013 investments provide a 14.5% rate of return. The LAGERS annualized rate of return over the last five years was 6.6% and 8.4% over the last ten years.

FUNDING

A pension fund is well funded when it has enough money in reserve to meet all expected future obligations to participants. The LAGERS funding objective is to meet long term benefit promises through contributions that remain approximately level as a percent of member payroll. The greater the level of funding, the larger the ratio of assets accumulated to the actuarial accrued liability and the greater the level of investment potential. At June 30, 2013 the system has a funded status of 86.5%. The advantage of a well funded plan is that the participants can look at assets that are committed to the payment of benefits. A detailed discussion of funding is provided in the Actuarial Section of this report.

PROFESSIONAL SERVICES

Professional consultants are appointed by the Board of Trustees to perform professional services that are essential to the effective and efficient operation of LAGERS. An opinion from the certified public accountant and the actuary are included in this report. The consultants appointed by the Board are listed on page 5 of this report.

ACKNOWLEDGMENTS

The compilation of this report reflects the combined effort of the LAGERS staff under the leadership of the Board of Trustees. It is intended to provide complete and reliable information as a basis for making management decisions, as a means of determining compliance with legal provisions, and as a means for determining responsible stewardship of the funds of the system.

The report is being mailed to all employer members of the system. They form the link between LAGERS and its membership. Their cooperation contributes significantly to the success of LAGERS. We trust the employers and their employees find this report informative.

On behalf of the Board of Trustees, I would like to take this opportunity to express my gratitude to the staff, the advisors, and the many people who have worked so diligently to assure the successful operation of the system.

Respectfully submitted,

Keith E. Hughes, CEBS, CGFM
Executive Secretary

October 1, 2013

To all LAGERS members:

As Chairperson of the Board of Trustees of the Missouri Local Government Employees Retirement System, I am pleased to present the 2013 Comprehensive Annual Financial Report. This report provides a detailed analysis of the financial and actuarial status of your retirement system.

The investment markets returned a solid 14.5% for the one-year ending June 2013. The ten-year return through June 2013 was 8.4%, well ahead of the assumed investment rate of return of 7.25%. This return places LAGERS in the top decile of public pension plans and soundly beats the LAGERS Custom Benchmark while assuming less risk than other large pension funds. The Board continues to diversify the portfolio into alternative asset classes providing stability to the LAGERS portfolio.

LAGERS continues to improve its prefunded ratio, increasing to 86.5%. Twenty-two new employers elected LAGERS participation seeking the security and professional administration provided through the system. In spite of commentary in the press, efficient well designed defined benefit plans such as LAGERS continue to be an attractive, safe, and dependable solution for Missouri employers. LAGERS provides that secure monthly benefit permitting members to plan for a successful retirement.

Nancy Yendes, Member Trustee, elected to retire from the Board with 13 years of exceptional leadership, including two years as Board Chairperson. Nancy is an ardent supporter of LAGERS, always putting the member first, and her contributions will be missed. I am pleased to welcome Kathy Barszczak to the Board as she consistently makes contributions to the Board's deliberations. The seriousness with which the LAGERS Board takes on their oversight role is admirable and is one of the primary reasons LAGERS is one of the most sound public pension plans in the country.

Finally, I appreciate the opportunity of serving on the LAGERS Board and as your Chairperson. Thank you for your continued interest and support. Your Board will continue to endeavor to provide a quality retirement program while ensuring the financial integrity of the system.

Respectfully,

J. Robert Ashcroft, Chairperson

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
Missouri Local Government
Employees Retirement System

Report on the Financial Statements

We have audited the accompanying financial statements of the Missouri Local Government Employees Retirement System (the System), which comprise the statement of plan net position as of June 30, 2013, and the related statement of changes in plan net position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the System's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net position of the System at June 30, 2013, and the changes in plan net position for the year then ended, in conformity with U.S. generally accepted accounting principles.

American Institute of Certified Public Accountants
Missouri Society of Certified Public Accountants
PKF North American Network

Superior service. Creative solutions. Exceptional clients.

Other Matters***Required Supplementary Information***

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 14 and 15 and the schedules of funding progress and employer contributions on pages 24 through 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Systems' financial statements as a whole. The introductory, investment, actuarial and statistical sections and the schedule of operating expenses presented on page 27 are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of operating expenses on page 27 is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information on page 27 has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information on page 27 is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory, investment, actuarial and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

September 30, 2013

Management's Discussion & Analysis

Management is pleased to present this overview and analysis of the financial activities of the Missouri Local Government Employees Retirement System (LAGERS) for the year ended June 30, 2013. We encourage readers to consider the information presented in conjunction with the Letter of Transmittal on page 7 of this report, the financial statements, required supplementary information, and supplementary information, which follow the MD&A.

Required Financial Statements

LAGERS, an agent multiple-employer public employee retirement system, prepares its financial statements on an accrual basis in accordance with U.S. generally accepted accounting principles promulgated by the Governmental Accounting Standards Board. The Statement of Plan Net Position indicates the net position available to pay future benefits and provides a snapshot at a particular point in time. The Statement of Changes in Plan Net Position provides a view of the current year's additions and deductions from net position. The Notes to the Financial Statements are necessary for a full understanding of the financial statements. The Required Supplementary Information and related disclosures present the historical funding status of LAGERS, LAGERS Staff Retirement Plan, and LAGERS Staff Retiree Healthcare Supplement.

In June 2012, the Governmental Accounting Standards Board approved new accounting and reporting standards for pensions provided by state and local governments. The new statements are GASB 67, *Financial Reporting for Pension Plans* and GASB 68, *Accounting and Financial Reporting for Pensions*. GASB 67 applies to LAGERS and other state and local pension plans established as trusts, to be implemented in fiscal years beginning after June 15, 2013. GASB 68 applies to the employers that participate in LAGERS as well as other governmental employers that sponsor or contribute to pension plans, to be implemented in fiscal years beginning after June 15, 2014. The new accounting and reporting standards break the link between accounting and funding. While these changes will affect the accounting measures, they do not have an effect on the actuarial methods and assumptions used by LAGERS to determine the employer contributions needed to fund the plan. The new standards will, however, impact the financial statement presentation for pension accounting and related disclosures for LAGERS and participating employers.

Financial Analysis of LAGERS

The funding ratio (actuarial value of assets divided by the actuarial accrued liability) is computed on the last day of February each year in conjunction with the annual valuation of the system. Below are the most recent results:

<u>2013</u>	<u>2012</u>	<u>2011</u>
86.5%	83.5%	81.6%

This ratio gives an indication of how well LAGERS funding objective is being met. The 2013 change in the funding ratio is largely attributable to the investments markets of the past several years. LAGERS actuary uses a five-year smoothed market-related value to determine the actuarial value of assets. The smoothing prevents extreme volatility in employer contribution rates due to short-term fluctuations, positive or negative, in the investment markets.

Comparative Financial Statements

LAGERS provides retirement, death, and disability benefits to employees of participating political subdivisions. The following tables are a summary of LAGERS Plan Net Position (in millions) and a summary of the Statement of Changes in Plan Net Position (in millions) as of June 30.

Statement of Plan Net Position

<u>Assets</u>	<u>2013</u>	<u>2012</u>	<u>% Change</u>
Cash	\$ 9	\$ 6	50%
Receivables	26	30	(13)
Investments	5,769	5,120	13
Capital Assets	9	9	0
Total Assets	<u>\$ 5,813</u>	<u>\$ 5,165</u>	13
<u>Liabilities</u>	<u>487</u>	<u>486</u>	0
Plan Position - restricted for pension benefits	<u>\$ 5,326</u>	<u>\$ 4,679</u>	14

This table presents a \$647 million increase in net assets. The increase in investments reflects the favorable investment markets this past year which resulted in a 14.5% annualized return. As a pension fund LAGERS must retain a long-term investment horizon and the table below presents the returns for such time frames.

	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>15 Years</u>
Annualized Returns	13.5 %	6.6 %	8.4 %	6.8 %

Statement of Changes in Plan Net Position

<u>Additions</u>	<u>2013</u>	<u>2012</u>	<u>% Change</u>
Member contributions	\$ 13	\$ 12	8%
Employer contributions	179	167	7
Net investment income	673	167	303
Total additions	<u>\$ 865</u>	<u>\$ 346</u>	150
<u>Deductions</u>			
Benefit payments	\$ 211	\$ 196	8
Refunds	2	2	0
Administrative expenses	5	5	0
Total deductions	<u>\$ 218</u>	<u>\$ 203</u>	7
Changes in net position available for benefits	<u>\$ 647</u>	<u>\$ 143</u>	352

Additions to fund benefits are accumulated through contributions and investment income. Employer contributions increased slightly from fiscal year 2012 to 2013. LAGERS net investment gain reflects the investment markets for fiscal year 2013. Benefit payments continue to escalate as LAGERS fulfills its mission of providing retirement benefits to the membership. This amount will continue to escalate as the demographics of the LAGERS population continues to mature.

See accompanying notes to financial statements.

Notes to Financial Statements

(Year Ended June 30, 2013)

(1) Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting:

The financial statements were prepared using the accrual basis of accounting. Employee and employer contributions are recognized in the period in which the contributions are due and for which employee services have been rendered. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Expenses are recorded when the corresponding liabilities are incurred, regardless of when payment is made.

Use of Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires LAGERS to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Reporting Entity:

The accompanying financial statements include only the accounts of the LAGERS retirement system pursuant to RSMo 70.605.18 which requires an audit to be performed by a certified public accountant. RSMo 70.605.21 provides the LAGERS Board of Trustees with the authority to govern its own proceedings and administer the LAGERS retirement system. The LAGERS Board of Trustees established retirement and postemployment healthcare plans (Notes (5) and (6)), for its employees who administer the LAGERS retirement system. Such plans are not considered to be part of the reporting entity and thus are not included in the accompanying financial statements.

Method Used to Value Investments:

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Bonds and stocks traded on a national or international exchange are valued at the reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Fair values for alternative investments in timberland represent net asset value estimates provided by the general partner's administrators or portfolio managers and are compared to independent appraisals. The fair value of private equity alternative investments that do not have an established market are determined based upon the values of the underlying companies as determined by the general partner.

Capital Assets:

The office building, equipment and fixtures, which are presented at cost, are depreciated on the straight-line method over the estimated useful lives of the related assets, which have an original cost of \$500 or greater. The estimated useful lives are as follows: building - 25 years, furniture - 8 years, equipment - 3 years and pension administration system - 15 years.

(2) Plan Description

The Missouri Local Government Employees Retirement System (LAGERS) was established in 1967 and is administered in accordance with RSMo. 70.600-70.755. LAGERS is an agent multiple-employer, statewide public employee retirement plan for units of local government which is legally separate and fiscally independent of the state of Missouri. Responsibility for the operation and administration of the plan is vested in the LAGERS Board of Trustees which is elected by the membership. At June 30, 2013, there were 644 participating political subdivisions in the system. Any political subdivision in Missouri may elect to have its full-time general, police and fire employees covered by LAGERS. At June 30, 2013, LAGERS membership consisted of the following:

	General	Police	Fire	Total
Retirees and beneficiaries currently receiving benefits:	14,048	2,916	887	17,851
Terminated employees entitled to benefits but not yet receiving them:	4,335	1,202	185	5,722
Active employees:	24,989	5,815	2,117	32,921
Total	43,372	9,933	3,189	56,494

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

If the political subdivision participates under the contributory plan, each member contributes 4% of gross salary. If an employee leaves covered employment or dies before attaining 5 years of credited service, accumulated employee contributions are refunded to the employee or designated beneficiary. Each participating employer is required by statute to contribute the remaining amounts necessary to finance the coverage of its own employees. Benefit and contribution provisions are fixed by state statute and may be amended only by action of the state legislature.

Schedule of Funded Status: (in thousands)

Valuation Date	Actuarial Value of Assets	Entry Age Actuarial Accrued Liability	Funded Ratio
2-28-13	\$4,692,219	\$5,423,684	86.5%
Valuation Date	Unfunded Accrued Liability (UAL)	Annual Covered Payroll	UAL as a % of Covered Payroll
2-28-13	\$731,465	\$1,395,261	52.4%

Multi-year trend information regarding whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits can be found in the required supplementary information following the Notes to the Financial Statements. Additional information as of the June 30, 2013 actuarial valuation follows:

Valuation date	2-28-13
Actuarial cost method	Individual entry-age
Amortization method	Closed for all periods in excess of 15, upon attainment of 15 years liabilities are amortized over an open 15-year period by level percent of payroll contributions
Remaining amortization period	Varies between 15 and 30 years, by employer
Asset valuation method	5-year smoothed market
Actuarial assumptions:	
Investment rate of return*	7.25%
Projected salary increases*	3.5% - 8.6%
*Includes inflation component of	3.5%
Cost-of-living adjustment	Contingent upon investment return, with a maximum of the lower of 4% or cumulative CPI since retirement

The actuarial assumptions used for valuation purposes were updated as a result of the 5 year Experience Study conducted in 2010.

(3) Cash, Investments and Securities Lending

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a financial institution failure, LAGERS deposits may not be returned. The deposits are held in one financial institution with a balance of up to \$250,000 insured by the Federal Deposit Insurance Corporation (FDIC). Effective July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act provided unlimited insurance coverage for these deposits through December 31, 2012, at which time the covered amount returned to \$250,000. Subsequent to December 31, 2012, LAGERS mitigated custodial credit risk for deposits by requiring the bank to pledge securities in an amount over the FDIC insured amount at least equal in market value to 100% of the aggregate amount of the deposits. These securities are required to be delivered to a third party institution mutually agreed upon by the bank and LAGERS.

Investment Summary:

The following table presents the summary of LAGERS investments by type at June 30, 2013.

Short-term investments	\$ 252,536,405
Government bonds	288,931,182
Corporate bonds	430,238,649
International bonds	458,961,869
Mortgages & asset backed securities	114,893,021
Domestic stocks	1,414,317,214
International stocks	634,997,517
Real estate	635,321,375
Partnerships	572,925,089
Absolute return	473,499,495
Other alternative investments	11,781,579
Total	<u>\$ 5,288,403,395</u>

Custodial Credit Risk for Investments:

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, LAGERS will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. As of June 30, 2013, investments in the amount of \$823,119 were uninsured and unregistered, with securities held by the counter party or by its trust department or agent but not in LAGERS name.

Concentration of Credit Risk:

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. External investment management firms manage the fixed income portfolio. The allocation of assets among various asset classes is set by the Board with the objective of optimizing the investment return of LAGERS with framework of acceptable risk and diversification. As of June 30, 2013, no single issue exceeded 5% of the portfolio, excluding U.S. government securities.

Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to LAGERS. LAGERS does not have a formal policy relating to credit risk. At June 30, 2013, 54% of the fixed income portfolio represents obligations that are not guaranteed by the U.S. government. Below is a list of fixed income credit qualities.

Quality Rating

U.S. governments	\$ 207,211,265
U.S. agencies	
FHLMC	699,995
FNMA	5,985,958
GNMA	356,739
SBA	814,245
Other	160,000
AAA	63,603,056
AA	27,962,313
A	147,363,628
BBB	83,059,766
Not investment grade/Not rated	755,807,756
Total Credit Risk Debt	<u>\$ 1,293,024,721</u>

Notes to Financial Statements (continued)

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of a debt instrument's exposure to a change in interest rates and the related sensitivity of market price to parallel shifts in the yield curve. It uses the present value of cash flows, weighted for those cash flows as a percentage of the instruments' full price. LAGERS benchmarks for the fixed income portfolio include the Barclay's U.S. Aggregate Bond Index, Barclay's Global Bond Index, Barclays Capital US 20+ Year Treasury Bond Index, Barclays Capital Global Inflation-Linked Bond Index, 40% EMBI Global Diversified, 50% GBI-EM Global Diversified and 10% CEMBI Broad Diversified. At June 30, 2013, the effective duration for the fixed income benchmark portfolio was 4.9 years, whereas, the LAGERS fixed income portfolio had an effective duration of 5.8 years.

<u>Investment</u>	<u>Fair Value</u>	<u>Effective Duration Rate</u>
Government bonds	\$ 598,699,783	10.6 years
Corporate bonds	579,431,917	1.3 years
Mortgage & asset-backed securities	114,893,021	4.2 years
Total	<u>\$1,293,024,721</u>	

Foreign Currency Risk:

The international portfolio is constructed on the principles of diversification, quality, value and growth. Risk of loss arises from changes in currency exchange rates. LAGERS external managers may or may not hedge the portfolio's foreign currency exposures with currency forward contracts depending upon their views on a specific foreign currency relative to the U.S. dollar. Currency trading may not be used for speculative purposes. LAGERS does not have a formal policy relating to currency risk, this is handled at the manager level. LAGERS exposure to foreign currency risk is as follows:

Foreign Equities

Australian dollar	\$ 19,285,225
Brazilian real	6,296,634
British pound sterling	81,067,473

Total Fixed Income	<u>\$ 530,685,433</u>
Total Foreign Currency	<u>\$ 942,854,049</u>

Derivatives:

LAGERS investment managers may enter into derivative transactions as permitted by their guidelines. A derivative financial instrument is an investment whose value depends on the values of one or more underlying assets, financial indexes, or commodity prices. These investments include futures contracts, swap contracts, options contracts, and forward foreign currency exchange. LAGERS investment managers may buy and sell futures, forwards and option contracts and enter into swap transactions to hedge against currency fluctuations. The notional value related to these derivative instruments are generally not recorded on the financial statements; however, the amounts for the exposure on these instruments are recorded. The notional/market value for the various contracts in the portfolio as of June 30, 2013 of \$535,891,450 is recorded in investments on the Statement of Plan Net Position. The change in fair value for the year ended June 30, 2013 of \$126,686,153 is recorded in investment income on the Statement of Changes in Plan Net Position.

Derivative financial instruments involve, in various degrees, credit risk and market risk. Credit risk is the possibility that a loss may occur because a party to a transaction fails to perform according to terms. LAGERS investment managers seek to control credit risk through counterparty credit evaluations and approvals, counterparty credit limits and exposure monitoring procedures. Market risk is the possibility that a change in interest or currency rates will cause the value of a financial instrument to decrease or become more costly to settle. The market risk is controlled by imposing strict limits as to the types, amounts and degree of risk that investment managers may take. LAGERS anticipates that the counter parties will be able to satisfy their obligations under the contract.

	<u>Notional/MV</u>	<u>Cost</u>	<u>Unrealized Gain (Loss)</u>
Futures	\$ 549,561,787	\$409,807,029	\$ 139,754,758
Options	(863,170)	(637,336)	(225,834)
Swaps	(7,103,676)	35,603	(7,139,279)
Forwards	(5,703,491)	-	(5,703,491)

Securities Lending Program:

LAGERS participates in a securities lending program administered by Northern Trust Company (the custodian) in accordance with the provisions of RSMo. 70.745. A firm chosen to lend financial securities of the fund has full discretion over the selection of borrowers and shall continually review credit worthiness of potential borrowers through adequate analysis of all material provided to them. The securities lending program shall in no way inhibit the trading activities of the investment managers of the System. The securities lending agent and Investment Staff has created separate investment guidelines for the investment of cash collateral to adhere to the Statement of Investment Policy and Objectives.

LAGERS or the borrower can terminate any security loan on demand. Though any loaned security can be sold and reclaimed at any time from the borrower, the weighted average loan life of overall loans was 194 days as of June 30, 2013. Cash collateral is invested in a custom collateral account through Northern Trust Company with a weighted average life of 57 days. LAGERS cannot pledge or sell non-cash collateral unless the borrower defaults. The following table represents the balances relating to the securities lending transactions (in thousands) at June 30, 2013.

Securities Cash:

<u>Securities Lent</u>	<u>Underlying Securities</u>	<u>Securities Collateral Value</u>	<u>Cash Collateral Value</u>
U.S. government & agency securities	\$228,215	\$ 135	\$ 232,219
Global agency securities	1,121	1,224	-0-
International bonds	47,243	15,895	33,945
U.S. corporate bonds	28,413	-0-	29,062
U.S. equities	179,396	60	183,836
Global equities	71,028	72,828	2,468
Total	<u>\$555,416</u>	<u>\$90,142</u>	<u>\$481,530</u>

The lending agent provides indemnification if the borrowers fail to return the underlying securities (and if the collateral is inadequate to replace the securities lent) or fails to pay income distributions. There were no violations of legal or contractual provisions and no borrower or lending agent default losses to the security lending agent. LAGERS had no credit risk as a result of its securities lending program as the collateral held exceeded the market value of securities lent.

Notes to Financial Statements (continued)

(4) Contributions

(a) Each participating unit of local government is obligated by state law to make all required contributions to the plan based upon an annual actuarial valuation.

(b) LAGERS is a pension plan covering substantially all employees of participating units of local government in the state. Each participating unit of government is obligated by state law to make all required contributions to the plan. The required contributions are actuarially determined using the individual entry-age actuarial cost method. There are no long-term contracts for contributions to the plan. All liabilities are amortized over a period of 30 years or less, with a minimum amortization period of 15 years. Administrative costs of LAGERS are financed through investment earnings of the system.

(c) Employee contributions are determined at the election of the governing body of the local subdivision. Should the governing body elect to participate in the contributory plan, all employees shall contribute 4 percent of gross salary. The governing body may elect to participate in the non-contributory plan which would result in no employee contributions.

(d) The state statutes require LAGERS to maintain five separate reserves which are funded and described below:

Member Reserve Fund — The fund in which member contributions and interest credits are accumulated, and from which transfers are made for retirements and refunds, as applicable. The balance at June 30, 2013 was \$109,097,070.

Employer Reserve Fund — The fund in which employer contributions and interest credits are accumulated, and from which transfers are made to pay applicable benefits. The fund from which contributions are accumulated and benefit payments in excess of IRC Section 415 are made. The balance at June 30, 2013 was \$2,368,290,116.

Benefit Reserve Fund — The fund from which all retirement, disability and survivor benefits are paid. At the time of retirement, this fund receives the necessary transfers to pay such benefits. All retired individuals and the assets of this fund become the sole responsibility of the LAGERS Board of Trustees and result in no further liabilities to the previous employers. The balance at June 30, 2013 was \$1,930,457,268.

Casualty Reserve Fund — The fund in which the employer contributions and interest credits are accumulated and from which transfers are made to pay for members retired as a result of disability. The balance at June 30, 2013 was \$17,535,404.

Income-Expense Reserve Fund — The fund which accumulates the investment income and pays the administrative expenses of the system. This fund provides for the transfer of investment credits to the other reserves of the system. The balance at June 30, 2013 was \$900,895,783.

(5) LAGERS Staff Retirement Plan

LAGERS Plan Description:

The LAGERS Staff Retirement Plan is a single-employer defined benefit pension plan administered by the LAGERS Board of Trustees. The plan provides retirement, death and disability benefits to LAGERS employees and beneficiaries. The plan document is controlled by the LAGERS Board of Trustees. The LAGERS Board of Trustees issues a publicly available audited financial report that includes financial statements and required supplementary information for the LAGERS Staff Retirement Plan.

Funding Policy:

The contribution requirements of the plan members and the employer are governed by the plan document, which may be amended by the LAGERS Board of Trustees. Plan members do not contribute toward the retirement plan. The employer is required to contribute an actuarially determined rate; the current rate is 20.74 percent of annual covered payroll.

Funded Status and Funding Progress:

For 2013, 2012, and 2011, the employer's respective annual pension cost was \$342,575, \$336,857, and \$313,687 for the LAGERS Staff Retirement Plan and was equal to the required and actual contributions. For 2012 and 2011, additional employer contributions in the amount of \$600,000 and \$1,250,000, respectively, were made by the Board of Trustees to improve the plan funding. As of June 30, 2013, the plan was 86.4% funded. The actuarial accrued liability for benefits was \$8,203,335 and the actuarial value of assets was \$7,084,227, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,119,108. The covered payroll (annual payroll of active employees covered by the plan) was \$1,837,069 and the ratio of the UAAL to the covered payroll was 60.9%. A schedule of funding progress represents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. This information can be found on page 25.

Actuarial Methods and Assumptions:

The annual required contribution was determined as part of the June 30, 2010 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 7.25 percent investment rate of return and (b) projected salary increase ranging from 3.5 to 6.8 percent per year. Both (a) and (b) include an inflation component of 3.5 percent. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2013 was 15 years.

(6) LAGERS Staff Postemployment Healthcare Supplement

Plan Description:

The LAGERS Staff Retiree Healthcare Supplement (LSRHS) is a single-employer defined benefit healthcare supplement administered by LAGERS. LSRHS provides a healthcare subsidy to eligible staff retirees, spouse and minor children. The supplement does not provide access to retiree health coverage but will pay for a portion of a retiree’s health premium (subsidy) based upon coverage that the retiree is able to obtain through the open market. To be eligible for the subsidy a retiree must have at least 10 years of service credit and retire from active status.

The subsidy is equal to 2.5% x years of credited service (maximum 30 years) x healthcare premium. Under no circumstances can the healthcare premium exceed the premium that LAGERS would pay for an active member of the same age participating in the LAGERS Staff healthcare supplement. The LAGERS Board of Trustees issues a publicly available audited financial report that includes financial statements and required supplementary information for the LSRHS.

Funding Policy:

The contribution requirements are established and may be amended by the LAGERS Board of Trustees. The required contribution is based upon the most recent actuarial valuation dated June 30, 2013. For fiscal year 2013, the Board contributed \$123,573 to the plan, including \$62,605 for current normal cost and \$60,968 to fund the current unfunded accrued liability. LAGERS staff makes no contributions to the plan.

Annual OPEB and Net OPEB Obligation:

The LAGERS postemployment benefit (OPEB) cost is calculated based on the annual actuarially determined required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following shows the components of the LAGERS OPEB cost for the year:

Annual required contribution	\$123,573
Contributions made	(123,573)
Net OPEB obligation - June 30, 2013	\$ 0

LAGERS contributed 100% of the annual required contribution in 2013.

Funded Status and Funding Progress:

For 2013, 2012, and 2011, the employer’s respective annual pension cost was \$123,573, \$112,506, \$112,830 for the Staff Postemployment Healthcare Supplement and was equal to the required and actual contributions. An actuarial valuation is performed for LSRHS biennially. As of June 30, 2012, the plan was 39% funded. The actuarial accrued liability for benefits was \$1,233,057 and the actuarial value of assets was \$483,791, resulting in an unfunded actuarial accrued liability (UAAL) of \$749,266. The covered payroll (annual payroll of active employees covered by the plan) was \$1,672,378, and the ratio of the UAAL to the covered payroll was 45%. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. A schedule of funding progress represents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. This information can be found on page 26.

Actuarial Methods and Assumptions:

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The June 30, 2012 actuarial valuation was calculated using the entry age actuarial cost method. The actuarial assumptions included a 7.25% investment rate of return (net of administrative expenses), and an annual healthcare cost trend rate of 9 percent initially, reduced by decrements to an ultimate rate of 3.0 percent after ten years. Both rates include a 3.5 percent inflation assumption. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five year period. The UAAL is being amortized as a level percentage of projected payroll over a period of 24 years on a closed basis.

(7) Investment Funding Commitments

LAGERS has committed \$1,463,902,959, of which \$883,720,262 has been invested, leaving total unfunded commitments to real estate, private equity, and other alternative investments of \$580,182,697 as of June 30, 2013. The total unfunded investment commitments are not recorded in the accompanying Statement of Plan Net Position.

Required Supplementary Information

LAGERS Schedule of Funding Progress

Valuation Date	Actuarial Value of Assets	Entry Age Actuarial Accrued Liability	Unfunded Accrued Liability (UAL)	Funded Ratio	Annual Covered Payroll	UAL as a % of Covered Payroll
2-28-13	\$ 4,692,218,862	\$ 5,423,684,243	\$ 731,465,381	86.5 %	\$ 1,395,261,077	52.4
2-29-12	4,274,440,345	5,120,274,198	845,833,853	83.5	1,359,655,784	62.2

The information presented in the required supplementary schedules was determined as part of the annual actuarial valuations. Additional information as of the latest actuarial valuation follows:

Valuation date	2-28-13
Actuarial cost method.....	Individual entry-age
Amortization method.....	Closed for all periods in excess of 15 years, upon attainment of 15 years liabilities are amortized over an open 15-year period by level percent of payroll contribution
Remaining amortization period.....	Varies between 15 and 30 years, by employer
Asset valuation method	5-year smoothed market
Actuarial assumptions:	
Investment rate of return*	7.25%
Projected salary increases*	3.5% - 8.6%
*Includes inflation component of.....	3.5%
Cost-of-living adjustment	Contingent upon investment return, with a maximum of the lower of 4% or cumulative CPI since retirement

The actuarial assumptions used for valuation purposes were updated as a result of the 5 year Experience Study conducted in 2010.

Brian K. Collett, CFA, CAIA, Chief Investment Officer

October 1, 2013

Dear LAGERS Members:

The fiscal year ending June 30, 2013 was a great year for the US equity market with all four quarters having a positive return. More noteworthy was the first quarter of 2013, which returned over 10%. The US and World economy looks to be healing, slowly but surely, from the great recession. The US Consumer Price Index (CPI) was up 1.75% for the year, a slight increase from the previous year of 1.66%. US unemployment is down to 7.6% from the high of 10% set in October 2009. The S&P 500 Index had a return of 20.6% for the year with the rest of the world's equities not too far behind. MSCI's World Index returned 18.6% for the year, but the MSCI's Emerging Markets Index trailed further behind with a 2.9% return for the year. LAGERS' US Equities portfolio returned 22.8%, Global Equities returned 20.8% and the Emerging Markets portfolio returned 8.5%. LAGERS' Total Equity Portfolio returned 20.7% compared to the MSCI's All Country World Index of 16.6%

LAGERS' fixed income portfolio was more of a mixed bag. This ranged from the US fixed income portfolio returning 9.6% compared to the Barclays US Aggregate Bond Index of -.7% to the US Long Duration portfolio returning -10.9% compared to the Barclays US Aggregate Long Treasury of -9.3%. LAGERS' Total Fixed Income portfolio returned 1.2% compared to LAGERS' Fixed Income Benchmark of -2.5%.

The LAGERS Alternative Investments portfolio also had a good year returning 14.0% compared to the LAGERS' Alternative Index of 4.8%. These returns were led by our Private Equity portfolio returning 29.6% but held back by the Commodities return of -13.1% for the year.

LAGERS' portfolio had positive results across all three major asset classes: stocks, bonds and alternatives. For the fiscal year, stocks, bonds, and alternatives had returns of 20.7%, 1.2%, and 14.0%, respectively. The key to LAGERS' returns, as depicted in the "kaleidoscope" of asset types in the pie chart below, is the diversification that is within these major asset classes. The pie chart shows each of the different asset types with their respective weights held in the portfolio.

The true diversification of LAGERS' portfolio moved the total assets up to \$5.3 billion ending June 30, 2013. The return on these assets was 14.5% net of fees for fiscal year 2013, outperforming the LAGERS' Policy Benchmark by 5.4%. This placed LAGERS in the top six percent among other public funds for the fiscal year. This well diversified portfolio had a:

- 13.5% return for three years, 3.0% outperformance,
- 6.6% return for five years, 2.6% outperformance,
- 8.4% return for ten years, 1.6% outperformance,
- 6.8% return for fifteen years, 1.8% outperformance and
- 8.5% return for twenty years, 1.5% outperformance.

These returns were calculated by LAGERS' custodian, Northern Trust, using time-weighted rates of return.

The long-term success of LAGERS' portfolio will be determined by our risk-aware asset allocation, which is continually being analyzed and fine-tuned. For example, this year LAGERS' Board and Investment Staff added an Opportunistic allocation to the portfolio and removed Distressed Mortgage from the portfolio. We are continuously looking for new asset types that will help diversify the portfolio and achieve the assumed rate of return of 7.25%, while adding the least amount of risk possible.

Current allocations among asset classes are based on short- and long-term goals, liability needs, and market conditions. Please have every confidence that the prudent investment strategy that LAGERS continues to use will assure that long-term obligations to members and retirees are met.

Sincerely,

 Brian K. Collett, CFA, CAIA
 Chief Investment Officer

**Asset Allocation-Asset Class
as of June 30, 2013**

Investment Policy

Investment Policy

The LAGERS Board of Trustees, operating within the “prudent person” framework, has adopted a Statement of Investment Policy and Objectives for the investment managers and others who serve in a fiduciary capacity to the Fund. A summary of that policy follows. For a complete copy of the investment policy, please contact the LAGERS office.

Investment Goals

The goal of the Fund shall be to achieve a rate of return net of manager fees of at least 7.25% per annum as measured over a market cycle. The Trustees and Investment Staff will use the Fund’s asset allocation as the primary tool to achieve this goal. As this is a long-term projection and investments are subject to short-term volatility, the main investment review focus of the Trustees and Investment Staff will be towards the Total Fund. Each asset manager, individual investment and/or security selection will be judged on performance relative to its asset class and to its relative benchmark over a full market cycle, usually 3-5 years. With respect to the given purpose, the System’s liquidity requirement, and the source and predictability of contributions, the Board elects to target portfolio risk of 10% standard deviation in pursuing an investment program. Thus, LAGERS actively seeks to lower/stabilize the cost of funding the Plan’s pension promise by prudently taking on types of risk that best serves the long-run interest of the Fund and, therefore, of plan participants.

The Trustees have established the following asset-mix guidelines for the Pension Fund:

Asset Class	Pension Fund Guidelines
Equity Investments	48.75%
Fixed-Income Investments	24.00%
Alternative Asset Investments	27.25%

The Pension Fund’s total return should exceed the total return of an index composed as follows:

- 22.25% Russell 3000 Index
- 19.00% MSCI All Country World Index ND (non-hedged)
- 5.00% MSCI All Country World Index ex US ND (non-hedged)
- 2.50% MSCI Emerging Markets Index ND (non-hedged)
- 7.50% Barclays US Aggregate Bond Index
- 5.00% Barclays Global Bond Index
- 5.00% Barclays Capital US 20+ Year Treasury Bond Index
- 2.50% Barclays Capital Global Inflation - Linked Bond Index
- 4.00% 40% EMBI Glob. Div./50% GBI-EM Glob. Div./10% CEMBI Broad Div.
- 4.00% Consumer Price Index (CPI) +4.0% (Timber)
- 7.50% Consumer Price Index (CPI) +4.0% (Real Estate)
- 2.50% Consumer Price Index (CPI) +4.0% (Other Real Assets)
- 4.00% Consumer Price Index (CPI) +5.0% (Alpha Portfolio)
- 6.50% Consumer Price Index (CPI) +5.0% (Private Equity)
- 2.75% Dow Jones AIG Commodity Index

The time period for this objective is one market cycle (usually 3-5 years).

General Portfolio Guidelines

Diversification

The diversification of securities among sectors and issuers is the responsibility of the investment manager and Investment Staff. Therefore, full discretion is delegated to the investment managers to carry out the Investment Policy within applicable general and specific guidelines agreed upon with Investment Staff for the managers’ respective mandates. The Investment Staff has further diversification responsibility at the asset class level and the Trustees have diversification responsibility at the total portfolio level. All investments made shall be subject to the quality and diversification restrictions established by Section 70.745, 70.746, 70.747, 105.688 105.689 and 105.690 of the Revised Statutes of Missouri.

Style Adherence

The most important feature any individual manager brings to a multi-manager portfolio is style adherence. At least quarterly, fundamental portfolio characteristics and style benchmark comparisons will be monitored for adherence to a manager’s identified style.

Performance Objectives

Primary emphasis is to be placed on relative rates of return. Over a market cycle (usually 3-5 years), the following are the performance expectations for the portfolio:

Fixed Income

- The total return of the US fixed income portfolio should exceed the total return of the Barclays US Aggregate Bond Index.
- The total return of the global fixed income portfolio should exceed the total return of the Barclays Global Bond Index.
- The total return of the US long fixed income portfolio should exceed the total return of the Barclays Capital U.S. 20+ Year Treasury Bond Index.
- The total return of the inflation linked fixed income portfolio should exceed the total return of the Barclays Capital Global Inflation-Linked Bond Index.
- The total return of the emerging markets fixed income portfolio should exceed the total return of the 40% EMBI Global Div. / 50% GBI-EM Global Div. / 10% CEMBI Broad Div.
- The total return should exceed the return of the Barclays Capital US Aggregate Bond Index.
- The goal of the fixed income composite portfolio shall be to achieve a total annualized real rate of return net of fees of at least 2.5% over the CPI as measured over a market cycle.

Equity

- The total return of the domestic equity composite should exceed the total return of the Russell 3000 Index.
- The total return of the international equity composite should exceed the total return of the MSCI All Country World Index ex US (non-hedged).
- The total return of the global equity composite should exceed the total return of the MSCI All Country World Index (non-hedged).
- The total return of the combined domestic, international and global equity composites should exceed the total return of a weighted index consisting of the MSCI All Country World Index (non-hedged).
- The goal of the combined domestic, international, and global equity composite portfolio shall be to achieve a total annualized real rate of return net of fees of at least 5% over the CPI as measured over a market cycle.
- The total return of each portfolio should exceed the total return of an index of similar mandate or style.

Alternative Assets

- *Timberland:* The goal of the timberland composite portfolio shall be to achieve a total annualized real rate of return of at least 4% over the CPI as measured over a market cycle.
- *Commodities:* The total return should exceed the return of the Dow Jones AIG Commodity Index. The goal of the commodities composite portfolio shall be to achieve a total annualized real rate of return of at least 5% over the CPI as measured over a market cycle.
- *Private Equity:* The goal of the private equity composite portfolio shall be to achieve a total annualized real rate of return of at least 5% over the CPI as measured over a market cycle.
- *Real Estate:* The goal of the Real-Estate composite portfolio shall be to achieve a total annualized real rate of return of at least 4% over the CPI as measured over a market cycle.
- *Alpha Portfolio:* The goal of the Alpha Portfolio shall be to achieve a total annualized real rate of return of at least 5% over the CPI as measured over a market cycle.
- *Other Real Assets:* The goal of the Real Assets composite portfolio shall be to achieve a total annualized real rate of return of at least 4% over the CPI as measured over a market cycle.

Securities Lending Guidelines

A firm chosen to lend financial securities of the fund has full discretion over the selection of borrowers and shall continually review credit worthiness of potential borrowers through adequate analysis of all material provided to them. The securities lending program shall in no way inhibit the trading activities of the investment managers of the System. The securities lending agent and Investment Staff has created separate investment guidelines for the investment of cash collateral to adhere to the Statement of Investment Policy and Objectives. The Investment Staff will review, at least quarterly, the performance of the program and ensure that proper collateralization procedures are adhered to as stated in the investment guidelines.

September 30, 2013

The Board of Trustees
Missouri Local Government
Employees Retirement System
Jefferson City, MO 65102

The fundamental financial objective of LAGERS is to establish and receive contributions which:

- when expressed as percents of active member payroll, will remain approximately level from generation to generation of local citizens, and
- when combined with present assets and future investment return, will be sufficient to meet the financial obligations of LAGERS to present and future retirees and beneficiaries.

To test how well the fundamental objective is being achieved, annual actuarial valuations are made. These valuations adjust employer contribution rates, up or down as the case may be, for differences in the past year between assumed financial experiences and actual financial experiences. In addition, these valuations determine the reserve strength of each employer group.

Using data as of February 28, 2013, separate actuarial valuations were made for 1,031 employer groups. The data was reviewed in the aggregate by the actuary for internal and year to year consistency and reasonableness prior to use in the actuarial valuation process. It was also summarized and tabulated in order to analyze trends. Summary information about the resulting new employer contribution rates is shown in the Comprehensive Annual Financial Report.

Assumptions concerning future experience are needed for computing employer contribution rates. As time passes and actual experience develops, assumed and actual experience is compared. From time to time one or more of the assumptions about the future are changed by the Board after consulting with the actuary. The last major changes were in economic assumptions and non-economic assumptions, and these were first used in the 2011 valuations. The assumptions comply with the requirements of Statement No. 25 of the Governmental Accounting Standards Board.

The current benefit structure is outlined in the actuarial section of the Comprehensive Annual Financial Report. We provided the information used in the supporting schedules in the actuarial section and the Schedule of Funding Progress in the financial section, as well as the employer contribution rates that were the basis for the annual required contributions shown in the Schedule of Employer Contributions in the financial section.

On the basis of the 2013 valuations, it is our opinion that LAGERS continues to satisfy the actuarial principles of level cost financing.

Mita Drazilov and Judith Kermans are Members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully submitted,

Mita D. Drazilov, ASA, MAAA

Judith A. Kermans, EA, MAAA

MDD:JAK:rmg

Summary of Actuarial Assumptions

1. The investment return rate used in making the valuations was 7.25% per year, compounded annually. This rate of return is not the assumed real rate of return. The real rate of return is the portion of total investment return which is more than the wage inflation rate. Considering wage inflation recognition of 3.5%, the 7.25% investment return rate translates to an assumed real rate of return of 3.75%. Adopted 2011.
2. The mortality table used to evaluate mortality among active members was 75% of the RP-2000 Combined Healthy Table. It was assumed that 50% of pre-retirement deaths would be duty related. Adopted 2011.
3. The mortality table used in evaluating allowances to be paid was 105% of the 1994 Group Annuity Mortality (GAM) Table projected to 2000, set back 0 years for men and 0 years for women. The disability post-retirement rates were equal to the standard rates set forward 10 years. Adopted 2011.
4. The probabilities of withdrawal from service, together with individual pay increase assumptions, are shown in Schedule 1. Adopted 2011.
5. The probabilities of retirement with an age and service allowance are shown in Schedule 2. Adopted 2011.
6. Total active member payroll is assumed to increase 3.5% a year, which is the portion of the individual pay increase assumptions attributable to wage inflation. In effect, this assumes no change in the number of active members per employer. Adopted 2011.
7. An individual entry-age normal cost method of valuation was used in determining age and service allowance normal costs and the allocation of actuarial present values between service rendered before and after the valuation date. Actuarial gains and losses reduce or increase the unfunded liability and are amortized over the remaining amortization period. Adopted 1987.
8. Present assets (cash and investments at 2-28-13) are valued using smoothing techniques of market value over a five-year period. Funding value is not permitted to deviate from market value by more than 20%. Adopted 2003.
9. The data about persons now covered and about present assets were furnished by the system's administrative staff. Although examined for general reasonableness, the data was not audited by the actuary.
10. The actuarial valuation computations were made by or under the supervision of a Member of the American Academy of Actuaries (M.A.A.A.).

SCHEDULE 1

Each employer participating in the system is financially responsible for its own liabilities. Accordingly, the aggregate numbers presented on this and the following page are indicative only of the overall condition of the system and are not indicative of the status of any one employer.

Actuarial Valuation Data

(continued)

Short Condition Test

The LAGERS funding objective is to meet long term benefit promises through contributions that remain approximately level from year to year as a percent of member payroll. If the contributions to the system are level in concept and soundly executed, the system will pay all promised benefits when due — the ultimate test of financial soundness. Testing for level contribution rates is the long-term test.

A short condition test is one means of checking a system's progress under its funding program. In a short condition test, the plan's present assets (cash and investments) are compared with: (1) active member contributions on deposit; (2) the obligations for future benefits to present retired lives; (3) the obligations for service already rendered by active members. In a system that has been following the discipline of level percent of payroll financing, the obligations for active member contributions on deposit (obligation 1) and the obligations for future benefits to present retired lives (obligation 2) will be fully covered by present assets (except in rare circumstances). In addition, the obligations for service already rendered by active members (obligation 3) will be at least partially covered by the remainder of present assets. Generally, if the system has been using level cost financing, the funded portion of obligation 3 will increase over time.

The schedule below illustrates the history of obligation 3 of the system and is indicative of the LAGERS policy of following the discipline of level percent of payroll financing.

Valuation Date	Entry Age Accrued Liability For			Actuarial Value of Assets	Portion of Accrued Liability Covered by Assets		
	(1) Active Member Contributions	(2) Retirants and Beneficiaries*	(3) Active Members (Employer Financed Portion)		(1)	(2)	(3)
2-28-13	\$ 107,120,593	\$ 2,132,575,405	\$ 3,183,988,245	\$ 4,692,218,862	100 %	100 %	77 %

*Includes reserve for future benefit increases.

Employer Contribution Rate Changes

Annual actuarial valuations are conducted by the system to determine employer contribution rates for the ensuing fiscal year of the employer. As of February 28, 2013, there were 1,031 separate contribution rates determined for the 640 participating political subdivisions in the system. Of these new employer contribution rates, 359 were increases over the previous year and 595 were decreases from the previous year's rate. A six year comparative schedule of contribution rate adjustments is shown below:

Valuation Date	Decreases	Increases	Unchanged	Total*
2-28-13	595	359	77	1,031
2-29-12	507	439	61	1,007
2-28-11	230	724	41	995
2-28-10	201	707	63	971
2-28-09	71	820	54	945
2-29-08	577	233	110	920

*There are thirty-eight groups presently without active members for which dollar contribution rates were computed. They are not included in the totals.

in Accrued Liabilities for the Year Ended February 28, 2013

Type of Activity	Gain or (Loss) For Year Ended 2/28/2013
Age & Service Retirements. If members retire at older ages or with lower final average pay than assumed, there is a gain. If younger ages or higher average pays, a loss.	\$ (4,033,549)
Death-in-Service Benefits. If survivor claims are less than assumed, there is a gain. If more claims, there is a loss.	569,036
Withdrawal From Employment. If more liabilities are released by withdrawals than assumed, there is a gain. If smaller releases, a loss.	5,976,079
Pay Increases. If there are smaller pay increases than assumed, there is a gain. If greater increases, a loss.	32,803,088
Investment Income. If there is greater investment return on assets than assumed, there is a gain. If less return, a loss.	126,713,780
Retiree, Beneficiary and Deferred Activity. Includes members living longer than expected, COLA increases different than expected, etc.	18,754,362
Benefit Reserve Fund. Release of reserve for future experience.	0
Other. Miscellaneous gains and losses resulting from data adjustments, timing of financial transactions, valuation methods, etc.	(26,578,928)
Gain (or Loss) During Year From Experience	\$ 154,203,868

Summary of Plan Provisions

PURPOSE

The Missouri Local Government Employees Retirement System (LAGERS) is a body corporate created and governed by the State of Missouri to provide retirement, survivors and disability benefits to the state's local government employees in the most efficient and economical manner possible. As such, LAGERS is a non-profit entity which has the responsibility of administering the law in accordance with the expressed intent of the General Assembly and bears a fiduciary obligation to the State of Missouri, the taxpayers and the public employees who are its beneficiaries.

This summary of LAGERS plan provisions is included for informational purposes only. System eligibility requirements and benefits provisions are determined pursuant to Chapter 70, RSMo. and LAGERS Administrative Rules, 16 CSR 20. Accordingly, members, retirees, beneficiaries, and participating political subdivisions are urged to contact LAGERS before making any decisions related to matters included in the following summary.

ADMINISTRATION

The statutes provide that the administration of LAGERS be vested in a seven member Board of Trustees. Three of these trustees are "Member Trustees" who must be participating members of the system. Three members of the Board are "Employer Trustees" who must be members of the governing body of a member subdivision, but who do not personally participate in LAGERS. The statutes which govern LAGERS require that an Annual Meeting be held in the last calendar quarter of each year. Each participating political subdivision is to conduct a secret ballot election allowing each member in that subdivision to vote to elect a "member" delegate to the Annual Meeting. The governing body may then select one of their own, or another person acting in their behalf, to serve as "employer" delegate for the subdivision. All Member and Employer Trustees are elected by their respective delegates at the LAGERS Annual Meeting. The remaining Board member is a "Citizen Trustee" appointed by the governor, who can be neither a member nor employer. A complete listing of the current Board of Trustees is included on page 10.

The management of LAGERS is vested in an Executive Secretary who is appointed by the Board and serves at their pleasure. The Executive Secretary acts as advisor to the Board on all matters pertaining to the system and, with the approval of the Board, contracts for professional services and employs the remaining staff needed to operate the system. A listing of the LAGERS staff and advisors is included on page 5.

NORMAL RETIREMENT

A member may retire with an age and service allowance after completing: 1.) at least 5 years of credited service, and 2.) attaining his minimum service retirement age. This minimum service retirement age is 60 for general members and 55 for law enforcement or fire personnel.

A participating LAGERS subdivision may, by a majority vote of the governing body, select an alternate unreduced retirement for employees whose age and service total 80 or more. This provision also requires 5 years of credited service.

FINAL AVERAGE SALARY

Final average salary is the average of a member's monthly pay during the period of 60 consecutive months of credited service producing the highest monthly average, which is contained within the 120 consecutive months of credited service immediately preceding retirement. For most members, this is the last 5 years of employment. A participating LAGERS subdivision may, by majority vote of the governing body, elect to have their future retirants' benefits calculated using a 36 month final average salary period.

CREDITED SERVICE

Credited service is a combination of the prior service a member accrued prior to his employer joining LAGERS and the membership service he accrues after that date. Because LAGERS is a state-wide retirement system with hundreds of member subdivisions, credited service can be a combination of service with several employers.

AGE AND SERVICE ALLOWANCE

This is the normal retirement benefit and is payable monthly for the lifetime of a member. It equals a specified percent of a member's final average salary multiplied by his number of years of credited service. Each employer elects the percent applicable to his members from ten available programs: L-1 (1% for life); L-3 (1.25% for life); LT-4(65) (1% for life, 1% to age 65); LT-5(65) (1.25% for life, .75% to age 65); L-6 (2% for life); L-7 (1.5% for life); LT-8(65) (1.5% for life, .5% to age 65); L-12 (1.75% for life); LT-14(65) (1.75% for life, .25% to age 65); and L-11 (2.5% for life – non-OASDI coverage only). All LT programs denoted LT(62) extend temporary benefits to age 62, rather than age 65. These benefit programs can be changed by majority vote of the subdivision's governing body, but not more often than biennially.

EARLY RETIREMENT

A member in service may retire with an early retirement benefit after completing: 1.) at least 5 years of credited service, and 2.) attaining age 55 if a general member or age 50 for a law enforcement or fire member. The early retirement benefit is computed in the same manner as an age and service allowance but reduced by ½ of 1% for each month the retirant is younger than his minimum service retirement age.

DEFERRED RETIREMENT

If a member leaves LAGERS covered employment before attaining his early retirement age, but after completing 5 or more years of service, he becomes eligible for a deferred allowance; provided he lives to his early retirement age and does not withdraw his accumulated contributions, if applicable. Deferred members with less than 10 years of credited service and greater than 10 years until their minimum service retirement age may be eligible for a lump-sum payment. Any deferred benefit paid prior to the member attaining his minimum service retirement age will be reduced ½ of 1% for each month the retirant is younger than his minimum service retirement age.

NON-DUTY DISABILITY BENEFIT

A member with 5 or more years of credited service who becomes totally and permanently disabled from performing his job from other than duty connected causes is eligible for a non-duty disability benefit computed in the same manner as an age and service allowance, based upon his service and salary to time of disability.

DUTY DISABILITY BENEFIT

A member who becomes totally and permanently disabled from performing his job from a duty related injury or disease is eligible for a duty disability benefit computed in the same manner as an age and service allowance, but based upon the years of service the member would have completed had he continued in LAGERS covered employment to age 60. Continuing medical examinations are required to confirm the disability once per year for the first 5 years and once every 3 years thereafter until reaching the minimum service retirement age.

SURVIVORS BENEFIT, NON-DUTY DEATH

Upon the death of a member who had completed at least 5 years of credited service, his eligible surviving dependents receive the following benefits: 1.) the surviving spouse receives an allowance equal to the Option A allowance (joint and 75% survivor benefits) computed upon the deceased member's service and salary to time of death. If no spouse benefit is payable, the dependent children under age 18 (23 if they are full-time students) each receive an equal share of 60% of an age and service allowance computed upon the deceased member's service and salary to time of death.

SURVIVORS BENEFIT, DUTY DEATH

If a member's death was the natural and proximate result of a personal injury or disease arising out of and in the course of his actual performance of duty as an employee, the spouse is eligible for a duty death benefit computed in the same manner as an age and service allowance, but based upon the years of service the member would have completed had he continued in LAGERS covered employment to age 60. The surviving spouse receives an allowance equal to the Option A allowance (joint and 75% survivor benefits). If no spouse benefit is payable, the dependent children under age 18 (23 if they are full-time students) each receive an equal share of 60% of the life allowance computed for the deceased.

POST RETIREMENT ADJUSTMENT

All retired members are eligible for an annual post retirement adjustment beginning the October first twelve months after the effective date of their allowance. The adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year. The Board of Trustees determines annually the amount of the post retirement adjustment subject to the 4% maximum or the increase in the Consumer Price Index.

OPTIONAL FORMS OF PAYMENT

When a LAGERS member makes application for retirement, his benefits are calculated in several optional forms and he selects the one that best fits his retirement needs. This election of an optional form of payment is made immediately prior to the receipt of the first benefit check and once the election is made, it is irrevocable. The options are as follows:

LIFE OPTION: This is the largest payment available to a retiree. Upon the death of the retiree monthly payments cease. If the member has not withdrawn at least his accumulated contributions before death, a refund of the balance of his account is made to his beneficiary of record.

OPTION A: This is a continuing spouse option which allows the retiree to receive less (85% if spouse age is the same) of the Life Option with the provision that the surviving spouse will receive 75% of the member's benefit for the remainder of his or her lifetime.

OPTION B: This option is also a continuing spouse option similar to Option A except the percentages are slightly changed. Under Option B, the retiree would receive a higher benefit (90% of the Life Option if spouse is the same age) with the surviving spouse receiving 50% of the member's benefit for the remainder of his or her lifetime.

OPTION C: The final of the four options is referred to as a "ten-year certain" option. As with the other options, the benefit (95% of the Life Option) is payable for the lifetime of the member but with an added provision that the system will make at least 120 monthly payments. If the employee lives over 10 years after retirement, monthly payments will cease upon his death.

PARTIAL LUMP SUM FEATURE (PLUS): This feature provides the option to elect a partial lump sum distribution of the monthly retirement benefit, coupled with a reduced future monthly benefit. The lump sum distribution would be equal to 24 monthly payments of the life allowance amount (does not include any temporary allowance payable under a Life and Temporary plan) at time of retirement. The lump sum payment would result in a reduction (approximately 16 percent) of the retiree's future monthly benefit adjusted for age. All the current options (Life, Option A, Option B and Option C) still apply and may be elected with or without the partial lump sum feature.

MEMBER CONTRIBUTIONS

Political subdivisions may participate in LAGERS under either a contributory or non-contributory plan. If the subdivision participates under the contributory plan, each member contributes 4% of his gross salary, beginning after he has completed sufficient employment for 6 months of credited service. If a member leaves LAGERS covered employment before an allowance is payable upon his behalf, his accumulated contributions are refunded to him. If he dies prior to accruing 5 or more years of credited service, his accumulated contributions are refunded to his designated beneficiary(s) unless a duty-related death benefit is payable. If the subdivision participates under the non-contributory plan, the employing political subdivision pays the entire cost, while the members make no contributions.

Local governments participating in LAGERS are permitted, if the governing body elects, to grant refunds of members' contributions after two years of participation in the system under the non-contributory option. The cost of this option would be borne by the governmental unit.

EMPLOYER CONTRIBUTIONS

The statutes require each employer to contribute the remaining amounts above that contributed by their members to finance the benefits that political subdivision has promised their employees through their participation in LAGERS. These employer contributions are determined annually by the system's retained actuary and are based upon level-percent-of-payroll funding principles so that the contribution rates do not have to increase over decades of time. A chart showing the employer contribution rates for all LAGERS employers is included on pages 41-42 of this report.

Statistical Summary

The objectives of the statistical section are to provide additional historical perspective, context, and relevant details to assist readers in using information in the financial statements, notes to the financial statements, and required supplementary information in order to understand and assess LAGERS overall financial condition.

The schedules beginning on page 47 show financial trend information about the change in LAGERS' assets for the past 10 years. These schedules provide detailed information about the trends of key sources of asset additions and deductions, which assist in providing a context framing how LAGERS financial position has changed over time. The financial trend schedules presented are:

- Change in Net Assets
- Interest Credits to Reserve Accounts

The schedules beginning on page 49 show demographic and economic information. This information is designed to assist in understanding the environment in which LAGERS operates. The demographic and economic information and the operating information presented include:

- Retired Member Data
- Benefit Expenses by Type
- Average Monthly Benefit Payments
- Participants by Classification
- Participating Political Subdivisions

Interest Credits to Reserve Accounts

A retirement system acquires and invests assets as the result of following the financial objective of level contribution rates. The Board of Trustees of LAGERS has the responsibility for seeing that the assets are invested effectively and within the limits imposed by law. The Board retains professional money managers to assist in the investment process and reviews their activities throughout the year. The Board retains other professional firms to provide measurements of investment performance and their reports are also reviewed regularly.

The investment process continues to be volatile because of major disturbances in the economic environment.

Following is a table showing investment credits to the various reserves of the system for the last 10 years.

**Rates of Investment Return Allocated
to LAGERS Reserve Accounts**

Investment Credits as a Percent of Fund Balance

Year Ended June 30	Casualty Reserve	Benefit Reserve	Member Reserve	Employer Reserve	Inflation Percent (CPI)
	(A)	(B)	(C)	(D)	
2013	7.25%	10.1%	0.5%	10.5%	1.8%
2012	7.25	8.7	0.5	9.1	1.7
2011	7.5	9.8	0.5	10.2	3.6
2010	7.5	5.4	4.0	5.4	1.1
2009	7.5	(9.1)	4.0	(9.7)	(1.4)
2008	7.5	7.5	4.0	7.7	5.0
2007	7.5	9.4	4.0	9.6	2.7
2006	7.5	15.3	4.0	15.9	4.3
2005	7.5	7.5	4.0	7.7	2.5
2004	7.5	11.4	4.0	11.8	3.2

- (A) Casualty Reserve assets are for the non-accrued service portion of disability benefits to future retired lives. The investment percent is the rate set for actuarial purposes.
- (B) Benefit Reserve assets are for benefits to present retired lives. The investment credit is the remainder of net investment return after crediting the Casualty Reserve assets. This revised allocation of investment credits is intended to provide the resources for additional benefit increases after retirement.
- (C) Member Deposit assets are the contributions of present members. The investment percent, set by the Board, affects amounts payable to members who request a refund. The percent does not affect the monthly benefit of a retiring member.
- (D) Employer Reserve assets are for benefits to future retired lives including the accrued service portion of disability benefits. The investment credit is the remainder of the net investment return after crediting the Casualty Reserve assets, followed by a further adjustment for the investment credit to the Member Deposit assets. The Employer Reserve is responsible for covering liability increases resulting from inflation losses. The percentages shown include net realized capital gains on sale of investments.
