LETTER OF TRANSMITTAL

Highway and Transportation Employees' and Highway Patrol
RETIREMENT SYSTEM
Norm Robinson, Executive Director

October 15, 2001

Board of Trustees Highway and
Transportation Employees' and
Highway Patrol Retirement System
Jefferson City, MO 65101

Dear Board Members:

It is again with great pleasure that I submit this year's annual report of the Highway and Transportation Employees' and Highway Patrol Retirement System (HTEHPRS).

Fiscal Year 2001 Highlights

Last year, HTEHPRS' staff worked towards the successful implementation of the Year 2000 Plan and this year that effort continued as retired employees were given the option of staying in the Closed Plan or converting to the Year 2000 Plan. During the year, 630 retiree Year 2000 Plan conversion elections were processed.

The retirement system staff also began work on the implementation of legislation passed this year, which provides for a Deferred Retirement Option Provision (BackDROP) for general state employees. As of June 30, 2001, procedures were in place to provide benefit estimates to those who may want to consider utilizing the BackDROP option that will go into effect on January 1, 2002. Additional information regarding the BackDROP option is included in this annual report.

During the year, the state of Missouri implemented the human resource/payroll portion of their new financial accounting and reporting system (SAM II). With the implementation of SAM II, the state of Missouri converted from monthly anticipatory payroll cycles to semi-monthly lag payroll cycles. For the most part, the conversion has resulted in a faster and more efficient collection of payroll data and contributions from MoDOT and MSHP. HTEHPRS' staff continues to work with those in the Office of Administration on the remaining conversion issues.

Report Contents and Structure

This Comprehensive Annual Financial Report of the Highway and Transportation Employees' and Highway Patrol Retirement System for the fiscal year ended June 30, 2001, has been prepared to enhance knowledge and understanding of the retirement system. The material has been prepared in a manner to be useful and informative to the members, to the management of the Missouri Department of Transportation and Missouri State Highway Patrol, and to the elected officials of the state of Missouri.

Management of the retirement system is responsible for the accuracy and completeness of the information in this report. To the best of our knowledge and belief, the information presented is accurate in all material respects and is reported in a manner designed to fairly present the financial position of the fund. The report is also designed to comply with the reporting requirements of Sections 104.190, 104.1006, and 105.661 of the Revised Statutes of Missouri (RSMo) as amended. The report is divided into the following five sections:

- The Introductory Section, which contains general information regarding the operations of HTEHPRS.
- The Financial Section, which contains an in-depth explanation of the financial position of the plan, as well as the auditor's opinion of the system's financial records.
- The Investment Section, which outlines the value of the system's assets and the historical returns of the portfolio.
- The Actuarial Section, which the actuary certifies the recommended contribution rates and presents the assumptions used to arrive at those rates.
- The Statistical Section, which provides a statistical profile of our active, terminated vested, and retired members.

BACKGROUND INFORMATION

The Highway and Transportation Employees' and Highway Patrol Retirement System was established by state statute in 1955. Under that legislation, employees of the Missouri Department of Transportation and Missouri State Highway Patrol became members of the retirement system on September 1, 1955. The system initially provided only regular retirement and disability benefits and required the employees to share in the cost of the plan.

While the participating employers in the system, the Missouri Department of Transportation and the Missouri State Highway Patrol, have remained the same since 1955, the plan provisions have changed many times. Today, at no cost to the employees, the system offers not only enhanced retirement and disability benefits, but also benefits for survivors of active and retired members, benefits for qualified terminated vested members, and death benefits.

FINANCIAL INFORMATION

Accounting System

This report has been prepared in accordance with generally accepted accounting principles for governmental accounting and reporting. Assets, liabilities, revenues, and expenses are reported on the accrual basis. Internal controls have been established by management to reasonably protect the assets from loss, theft, or misuse.

Revenues

Two sources of revenue are used to finance retirement, survivor, and long-term disability benefits: employer contributions and income on investments. During Fiscal Year 2001, revenues from these two sources totaled $51,523,810. The Missouri Department of Transportation and the Missouri State Highway Patrol contributed $81,353,019. Investment income for the year was ($29,829,209).

Expenses

Expenses of the system totaled $115,947,646 in Fiscal Year 2001. Benefit payments represent the major expense of the retirement system. Expenses incurred to administer the plan include personal services provided by the staff and professional services for (1) investing the system's funds, (2) monitoring the system's investment guidelines, (3) providing actuarial information, and (4) auditing.

During Fiscal Year 2001, benefit payments totaled $111,985,064. Administrative expenses during this period were $835,215. During fiscal year 2001, expenses exceeded contributions by ($64,423,836). Investment expenses during this period was $3,127,367.

INVESTMENTS
The state statutes allow the system to make investments using the same care, skill, and diligence that a prudent person acting in a similar capacity would use. In keeping with this prudent person rule, the Board of Trustees has established investment guidelines. The system's investment managers are allowed full discretion in investment decisions within the confines of those guidelines and the statutory investment authority.

The balanced stock and bond portfolio experienced a negative 3.51% time-weighted rate of return for the 2001 fiscal year. Over the last ten fiscal years through June 30, 2001, our balanced fund earned a time-weighted rate of 9.21%.

FUNDING
The Board of Trustees certifies to the Missouri Department of Transportation and the Missouri State Highway Patrol the actuarially determined percentages of payroll necessary to meet the system's obligations. Realizing the importance of maintaining a financially sound system, the participating employers have never failed to contribute the amounts certified by the Board of Trustees.

REPORT CONCLUSION & DISTRIBUTION
This report is a product of the combined efforts of the HTEHPRS' staff and advisors functioning under your leadership. It is intended to provide complete and reliable information, which will facilitate the management decision making process; serve as a means for determining compliance with legal requirements; and allow for the evaluation of responsible stewardship of the funds of the system.

Copies of this report are provided to the Governor, the State Auditor, and the Joint Committee on Public Employee Retirement. It is also being distributed to all Missouri Department of Transportation Division and District offices and Missouri State Highway Patrol General Headquarters and Troop offices. These offices form the link between HTEHPRS and its members, and their cooperation contributes significantly to the success of HTEHPRS. We hope all recipients of this report find it informative and useful. Copies to others will be furnished upon request.

ACKNOWLEDGMENTS
I would like to take this opportunity to express my gratitude to you, the staff, the advisors, the Governor's Task Force on Total Compensation, and other people who have worked so diligently to assure the continued successful operation of the system.

Respectfully submitted,

Norm Robinson

Norm Robinson
Executive Director

BOARD OF TRUSTEES

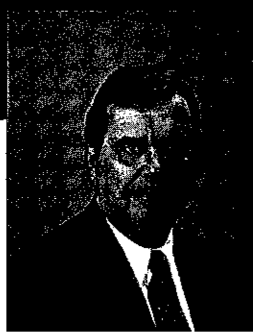
The Highway and Transportation Employees' and Highway Patrol Retirement System is governed by a Board of Trustees. As set out in Section 104.160 of the Revised Statutes of Missouri, the Board is comprised of the following ten members:

W.L. "Barry" Orscheln

Board Chairman

Highway & Transportation Commissioner
Term Expires 12-1-2003

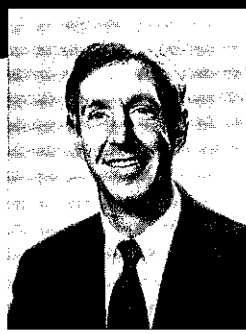
William E. Gladden



Board Vice-Chairman

Highway & Transportation Commissioner
Term Expires 12-1-2001

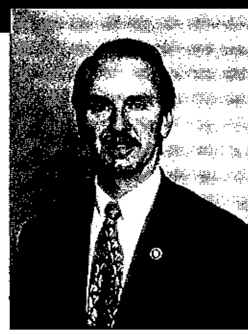
Edward D. Douglas



Commission Member

Highway & Transportation Commissioner
Term Expires 10-13-2001

Senator Steve Stoll



State Senator

District 22
Appointed by President Pro-Tem of the Senate

Representative James P. O'Toole

State Representative

District 20
Appointed by the Speaker of the House

Colonel Roger Stottlemyre

Superintendent of The Missouri State Highway Patrol

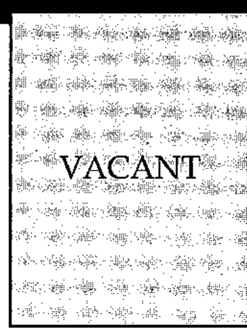
Henry Hungerbeeler

Director of the Missouri Department of Transportation

Larry Thompson

MoDOT Employees Representative

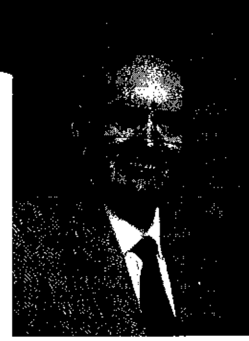
Elected by MoDOT Employees
Term Expires 7-1-2002



Highway Patrol Employees Representative

Elected by Patrol Employees
Term Expires 7-1-2002

Bill Shaw



Retiree Representative

Elected by Retired Members of the System
Term expires 7-1-2002

CHAIRMAN'S LETTER

Highway and Transportation Employees' and Highway Patrol RETIREMENT SYSTEM

July 16, 2001

To the Members of the Highway and Transportation
Employees' and Highway Patrol Retirement System:

On behalf of the Board of Trustees, we are pleased to present the Comprehensive Annual Financial Report of the Highway and Transportation Employees' and Highway Patrol Retirement System for the fiscal year ended June 30, 2001. This report provides information on the financial status of your retirement system while also highlighting significant changes that occurred during the year.

A review of the report confirms that, though faced with a difficult investment environment this year, the system remains well funded. The preservation and long-term growth of system assets remains the primary focus of the board to ensure that future benefit obligations will be met. HTEHPRS is strong and will, through the guidance of the board and the dedication of an outstanding staff, weather the uncertain times we are facing. We will be here for our members in the years to come.

During the past year, the Board's membership changed with the departure of Representative Gracia Backer. She ended her service with the State Legislature and thereby vacated her position as the House of Representatives' Member for the Board of Trustees. Rep. Backer served on the Board for a period of 10 years. Representative James P. O'Toole filled this position by appointment by the Speaker of the House of Representatives. The position of Superintendent of the Missouri State Highway Patrol was vacated due to the retirement of Colonel Weldon Wilhoit. Colonel Wilhoit served on the Board for a period of 3 years. This position was filled by Colonel Roger Stottlemyre upon his appointment by the Governor to succeed Colonel Wilhoit. Colonel Stottlemyre then vacated his position as the Patrol employee representative. At the May 4, 2001 Retirement Board meeting, the Board called a special election to fill the vacated position. On behalf of the board, staff, and membership, I would like to express our collective thanks to these individuals for serving, and for their many valuable contributions to the system.

Perhaps the most important duty of trustees is that of prudent investment fiduciaries for the HTEHPRS' trust fund. The board has worked diligently to develop a diversified investment program that will allow the system to meet or exceed our actuarial requirements, ensuring that retirement benefits for our members are properly funded with the lowest possible cost to participants and, ultimately, Missouri's taxpayers. The trustees are constantly striving to better educate ourselves as to the prudent management of the assets to which we have been entrusted. The board policy of preserving system assets and maximizing the long-term growth of those assets through diversification will continue to be our primary focus as we move into the next fiscal year.

At the end of the fiscal year, our net asset value was $1,413,243,548 with 9,106 active members and 6,192 benefit recipients.

I am proud of the HTEHPRS and would like to take this opportunity to thank the members, retirees, advisors, and staff who assist the board in the operation of our retirement system. On behalf of the Board of Trustees, we will continue to prudently manage the system so as to provide for a secure retirement future for each of our members.

In closing, I would like to thank the retirement system staff for continuing to maintain a high level of commitment and service to our plan participants. If you have any questions regarding this report, please contact the Retirement System office.

Sincerely,

Barry Orscheln
Chairman

ADMINISTRATIVE ORGANIZATION

PERSONAL SERVICES

The Executive Director of the Highway and Transportation Employees' and Highway Patrol Retirement System has charge of the offices and records of the system and hires such employees deemed necessary, subject to the direction of the Board of Trustees. The system employs four full-time staff.

The Chief Counsel of the Highway and Transportation Commission furnishes legal services and provides legal opinions of the retirement statutes as necessary for implementation.

Work assignments related to the Retirement System that are performed by Missouri Department of Transportation and Missouri State Highway Patrol personnel are considered duties in connection with their regular employment.

FINANCIAL/BENEFIT SERVICES

The financial services section handles the payroll and accounting functions of the Retirement System in the Controller's Office of the Missouri Department of Transportation. Mary Sue Fontana performs the accounting duties for the system, and Mary Jordan, Ginger Miller, and Flo Schulte prepare and review the retirement payroll for accuracy and correctness.

The benefit services section processes retirement applications, handles retirement inquiries, and assists with pre-retirement seminars and new employee orientations. Marvin Klebba and Mariel Hale also work closely with the Executive Director to analyze and evaluate questions regarding prior service credit and eligibility for disability.

INDEPENDENT AUDITORS' REPORT

Evers & Company, CPA's, L.L.C.
Certified Public Accountants and Consultants

Elmer L. Evers
Jerome L. Kauffman
Richard E. Elliott
Dale A. Siebeneck
Keith L. Taylor
Lynn J. Graves

To the Board of Trustees of the
Highway and Transportation Employees'
and Highway Patrol Retirement System
Jefferson City, Missouri:

We have audited the accompanying statements of the plan net assets of the Highway and Transportation Employees' and Highway Patrol Retirement System (the Retirement System) as of June 30, 2001 and 2000, and the related statements of changes in plan net assets for the years ended. These financial statements are the responsibility of the Retirement System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts of disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of the Highway and Transportation Employees' and Highway Patrol Retirement System as of June 30, 2001 and 2000, and the changes in the plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary schedules of funding progress and employer contributions on pages 13 through 16 are not a required part of the basic financial statements of the System, but are required by the Governmental Accounting Standards Board (GASB). The supplementary information included on page 17 is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Retirement System. Such information, included on pages 13 through 17, have been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Beginning of Year	1,477,667,384	1,451,518,950
End of Year	$ 1,413,243,548	$ 1,477,667,384

See accompanying notes to financial statements.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED JUNE 30, 2001 AND 2000

1. PLAN DESCRIPTION:

General

The Missouri Highway and Transportation Employees' and Highway Patrol Retirement System (the Retirement System) was established by, and is administered by, a Board of Trustees in accordance with the Revised Statutes of Missouri (RSMo). The Retirement System is a single-employer public employee retirement system which provides retirement, death, and disability benefits to full-time (defined as anticipating at least 1,000 hours to be worked annually) employees of the Missouri Department of Transportation and the Missouri State Highway Patrol. Due to the nature of the Retirement System, reliance on the funding from the State of Missouri and the overall control of policies by state officials, the Retirement System is considered a part of the State of Missouri financial reporting entity. The Retirement System is not subject to the provisions of the Employee Retirement Income Security Act of 1974.

Membership in the Retirement System at June 30, 2001 and 2000 consisted of the following:

	2001	2000
Retirees and beneficiaries currently receiving benefits	6,011	5,857
Disability recipients	111	186
Long-term disability recipients	70	76
Vested terminated employees	1018	912
Active with vested benefits	6,196	6,328
Active without vested benefits	2,910	2,843
Total	16,316	16,202

Benefits

Benefits in the Retirement System currently vest after five years of creditable service. For members retiring prior to August 28, 1994, normal retirement age is 65 with four years of creditable service (55 for members of the uniformed patrol), with the retirement annuity based on a formula which considers average final compensation and number of years of creditable service. Non-uniformed employees are eligible for an unreduced annuity at age 65 with four years of creditable service, or age 60 with fifteen years of creditable service, or age 50 with age and service equalling 80 or more. Non-uniformed employees may retire with a reduced annuity on or after age 55 with at least ten years of creditable service. Uniformed employees are eligible for an unreduced annuity at age 55 with four years of creditable service. See "Amendments to the Retirement System" for changes made in normal retirement age and other benefit changes effective August 18, 1994, or January 1, 1995.

State statutes provide for special consultant fees to be paid to certain retirees along with the normal retirement benefits. These retirees have been appointed by the Board of Trustees to serve as consultants on the problems of retirement, aging, and other state matters. For such services provided, special consultant fees are paid monthly in amounts equal to the incremental increases in retirement benefits that would have been received had those persons benefited from changes in the law that affected increases in the retirement formula enacted since their retirement. Benefit provisions are established by state statute and may be amended only by action of the Missouri State Legislature.

The Retirement System also provides survivor, disability, and lump-sum death benefits. Survivor benefits are payable to a surviving spouse or minor children of active employees who die after earning three years of creditable service. The annuity paid to the survivor is based on a percentage of the accrued benefit at the time of death. All disability benefits are offset by any workers' compensation benefits. Duty-related disability benefits are 70% (not to exceed 90%) of salary at the time of disability. Normal disability benefits are based on the accrued annuity at the date of disability. Long-term disability benefits are 60% of salary immediately prior to the disability, less any Social Security benefit. Those who retire from active employment subsequent to September 28, 1985, with an immediate pension, are provided a $5,000 lump-sum death benefit to be paid to a designated beneficiary.

Contributions

Contributions to the Retirement System are made by the State of Missouri. Employees do not contribute to the Retirement System. The Retirement System's funding policy provides for actuarially determined employer contributions using the entry-age normal cost method on a closed group basis (consisting of normal cost and amortization of any unfunded accrued liabilities over a 35-year period). Actuarially determined rates, expressed as percentages of annual covered payroll, provide for amounts sufficient to fund those benefits designated by state statute to be funded in advance. Actuarial assumptions used to compute contribution requirements are the same as those used to compute the pension benefit obligation as discussed in Note 3. Contributions for the special consultant fees are being funded on an actuarial basis.

Contributions totaling $81,353,019 and $70,191,993 for Fiscal Years 2001 and 2000, respectively, represent funding of normal costs and amortization of the unfunded accrued liability. Contribution rates determined by the Retirement System's actuary for the years ended June 30, 2001, and 2000 are as follows:

	2001		2000	
	Non-uniformed	Uniformed	Non-uniformed	Uniformed
Normal cost	10.68%	12.73%	22.00%	30.44%
Amortization of unfunded accrued liability	12.43	21.93		
Expenses	.18	.28		
LTD			.08	.08
Total contribution rate	23.29%	34.94%	22.08%	30.52%

Amendments to the Retirement System

Benefits of the Retirement System, as discussed above, were effected by House Bill 1149 (HB 1149) which was approved and made effective, for most provisions, August 28, 1994, with the remainder effective January 1, 1995. The Bill provides for the following changes:

- Normal Retirement--members 50 or older are entitled to retire with a normal annuity and elect any of the survivor benefits if the sum of their age and service totals 80 or more. This provision was effective August 28, 1994.
- Increase In Formula Multiplier--the multiplier utilized in the retirement benefit formula increased from 1.5% to 1.6% effective January 1, 1995. This increase is also retroactive to individuals whose retirement date is before January 1, 1995.
- Survivor's Cost of Living Adjustment (COLA)--beneficiaries receiving benefits qualify for the annual minimum 4% to a maximum 5% COLA. Those beneficiaries now receiving a benefit are limited to 65% of the benefit they are receiving in total COLAs. Those who begin receiving COLAs after the effective date are limited to 65% of their initial benefit.

- Pop-Up Provision--retired members and future retirees whose spouse precedes them in death who have chosen a spouse option that reduced their initial retirement benefit will have their monthly benefit adjusted to the amount they would be receiving if they had not chosen the option. This provision was effective August 28, 1994.

- Minimum Benefit--effective January 1, 1995, the minimum benefit increased to $15 from the prior level of $12. As a result, a member's normal annuity amount cannot be less than the total years of service multiplied by $15.

- Purchase of service for uniformed patrol--effective August 28, 1994, uniformed patrol members who previously served in the police force of any city will be allowed to purchase creditable service time of up to four years maximum.

Benefits of the Retirement System were also affected by House Bill 356 effective August 28, 1997. The amended provisions are as follows:

- For current active and inactive employees, annual COLA's continue at 80% of the change in the CPI, limited to the 4%-5% range. After the 65% cap, COLA's will be 80% of the change in the CPI limited to a range of 0%-5%.

- For employees hired after August 28, 1997, the COLA will be 80% of the change in the CPI, with a range of 0%-5%.

On July 10, 1999, Governor Mel Carnahan signed into law Senate Bills 308 and 314 (SB308)-legislation that creates a new retirement plan for eligible state employees. The new retirement plan, effective July 1, 2000, is commonly referred to as the Year 2000 Plan.

This new plan is for employees hired on or after July 1, 2000, that would otherwise be participants in the existing Closed Plan that is administered by the Highway and Transportation Employees' and Highway Patrol Retirement System. All retired members prior to July 1, 2000, will be allowed to participate in the Year 2000 Plan. Furthermore, employees covered by the Closed Plan, who are active on the effective date of the new plan, and terminated-vested members will be able to elect which plan they wish to retire under at the time of retirement.

SB308 also makes the following changes to the Year 2000 Plan as well as the existing Closed Plan:

- Effective July 1, 2000, a member who is not married at retirement but marries thereafter will be allowed to designate a spouse as beneficiary upon completion of one year of marriage. In addition, the member can designate a new spouse as beneficiary upon completion of one year of marriage in the event of the death of a spouse the member was married to at the date of retirement. These designations, however, must occur within six months after the completion of one year of marriage;

- The definition of average compensation is modified to allow the system to consider the compensation an employee would have earned during a medical leave of absence just as if the employee had been able to work. Allows the Final Average Pay (FAP) to be calculated properly based on a state payroll system (lag payroll) adopted on or after January 1, 2000;

- Effective August 28, 1999, SB308 will provide a minimum annuity in the amount of 50% of a member's FAP to a survivor or unemancipated children under age 21 in the event of duty-related death. In such instances, there is no minimum length of service requirement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements were prepared using the accrual basis of accounting. Plan member contributions are recognized as revenues in the period in which employee services are performed. Expenses are recorded when the corresponding obligations are incurred.

Method Used to Value Investments

Investments are reported at fair value on a trade date basis. Short-term investments are reported at cost, which approximates fair value. Bonds and stocks traded on a national or international exchange are valued at the reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair value.

Dividend income is recognized when dividends are declared. Interest income is recognized when earned.

Investments

	2001		2000	
	Carrying Amount	Market Amount	Carrying Amount	Market Amount
Government and government agency securities	$ 313,290,564	$ 318,596,790	$ 256,304,101	$ 253,151,774
Corporate bonds	113,082,946	114,310,861	140,511,417	137,428,109
Common and preferred stocks	851,132,311	878,252,240	723,488,252	987,372,552
Timberland	30,000,000	36,747,417	30,000,000	30,054,904
Short-term investments	58,957,794	59,227,132	60,944,858	61,043,488
Total investments	$1,366,463,615	$1,407,134,440	$1,211,248,628	$1,469,050,827

The timberland investments consist of forestland with trees suitable for harvesting timber.

Cash

As of June 30, 2001, and 2000, the Retirement System had cash with a book balance of $852,604 and ($58,906), respectively, and a bank balance of $317 and $328, respectively. The bank in which this cash is held is required to pledge securities sufficient to collateralize these accounts. As of June 30, 2001, and 2000, the market value of this collateral was sufficient.

Categories of Asset Risks

The investments of the Retirement System are governed primarily by an investment authority known as the "prudent person rule." The prudent person rule, as set forth by State statute, establishes a standard for all fiduciaries, which includes anyone that has authority with respect to the fund. The Retirement System's investments are categorized to give an indication of the level of risk assumed by the fund at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the Retirement System or its agent in the Retirement System's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the Retirement System's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department but not in the Retirement System's name. As of June 30, 2001, and 2000, all investments of the Retirement System, except real estate mortgages, are classified in Category 3. Real estate investments are not considered securities and, as such, are not categorized for credit risk.

Related-Party Transactions
The Retirement System reimburses the Missouri Highway and Transportation Commission for accounting, management, legal, data processing services, office space, and utilities. This amounted to $437,156 for June 30, 2001, and $343,971 for June 30, 2000.

Office Equipment and Fixtures
The office equipment and fixtures which are presented at cost, are depreciated on the straight-line method over the estimated useful lives of the related assets. The estimated useful lives are as follows:

furniture - 10 years, and equipment - 5 years

Receivables
Receivables consist primarily of contributions owed and yet to be remitted by the employer, pending investment trades and interest and dividends.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. CONCENTRATIONS:

No investments in any one organization (other than those issued by the U.S. Government) represent five percent of plan net assets.

4. COMPENSATED DEFERRED ABSENCES:

Expenses for accumulated annual leave earned by employees are recorded when earned by the employee. The balance owed was $23,389 and $17,342 as of June 30, 2001, and 2000, respectively.

5. RETIREMENT PLAN:

The Retirement System employs six people, four full-time and two part-time. Four employees are covered by the Retirement System. Upon retirement, benefits paid to Retirement System employees are considered to be administrative expenses of the System.

6. SECURITIES LENDING PROGRAM:

Under the "prudent person" authority of the governing statutes and in accordance with the policies set by the Board of Trustees, the System lends its securities to broker-dealers and banks pursuant to a form of loan agreement. The System's custodial bank is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

During the fiscal year, the System lent securities and received cash, securities insured or guaranteed by the US government or its agencies, and irrevocable bank letters of credit as collateral. The System did not have the ability to pledge or sell collateral securities absent a borrower default. Borrowers were required to deliver collateral for each loan equal to: (1) in the case of loaned securities denominated in dollars or whose primary trading market was located in the United States, 102% of the market value of the loaned securities; and (2) in the case of loaned securities not denominated in US dollars or whose primary trading market was not located in the United States, 105% of the market value of the loaned securities.

The System did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no failures by any borrowers to return loaned securities or pay distributions thereon during the year. There were no losses during the year resulting from a default of the borrowers or the custodial bank.

The System and borrowers maintained the right to terminate all securities lending transactions on demand. The average duration of cash collateral in a collective investment pool was unavailable as of the report date. Because the loans were terminable at will, their duration did not match the duration of the investments made with the cash collateral. On June 30, 2001 and 2000, the System had no credit risk exposure to borrowers.

At June 30, 2001, and 2000, the System earned $80,671 and $94,899 respectively on the securities lending program.

7. SUBSEQUENT EVENTS:

BackDROP

Legislation effective January 1, 2002 provides a Deferred Retirement Option Provision (BackDROP) to members of the System. It is available in both the Closed Plan and the Year 2000 Plan.

To be eligible to participate in the BackDROP, a member must have been eligible to retire under normal age and/ or service conditions for at least two years. A retroactive starting date is established for BackDROP purposes which, at the earliest, is the later of: 1) the member's normal retirement date or 2) five years prior to the annuity starting date under the retirement plan selected by the member.

The BackDROP period for the accumulation of the BackDROP account is from the retroactive starting date to the annuity starting date. This results in a BackDROP period of two to five years depending upon the individual situation.

A theoretical BackDROP account is accumulated that includes 90% of the value of the benefit payments that would have been paid during the BackDROP period had the member retired at the retroaction starting date with their respective option election. These payments include applicable post-retirement benefit increases.
The member is paid the resulting lump sum value of the BackDROP account as of the annuity starting date or as three equal installments beginning at the annuity starting date.

The annuity benefit payable from the actual retirement date is computed with years of service and average pay as of the retroactive starting date for the BackDROP. Post-retirement benefit increases that occurred during the BackDROP period are applicable in the calculation of the monthly annuity.

LETTER FROM CONSULTANTS

Asset Consulting Group, Inc.
7700 Bonhomme Avenue, Suite 650
St. Louis, Missouri 63105

September 30, 2001

Mr. Norman Robinson
Executive Director
Highway and Transportation Employees'
and Highway Patrol Retirement System
P.O. Box 1930
Jefferson City, MO 65102-1930

Dear Mr. Robinson:

As we conclude the fiscal year ending June 30, 2001, we would like to summarize the overall performance of the Highway Transportation Employees' and Highway Patrol Retirement System (HTEHPRS) investment portfolio.

As of June 30, 2001 the total investment portfolio had a market value of $1,413,407,336. Equities represented 62.2% of the total investment portfolio, with the balance of the portfolio being comprised of domestic fixed-income (32.5%), timber (2.6%) and cash equivalents (2.7%).

During the 12 months ending June 30, the Fund had a total return (comprised of both income and price change) of -2.6%, compared to an overall pension fund median return of -1.5% over the same interval. By comparison, an allocation index consisting of unmanaged index returns comprising the same asset allocation as the overall Fund returned -4.4% over the same 12 months. During this interval, large cap US stocks suffered setbacks in a difficult market environment significantly lagging the excellent returns from bonds. The S&P 500 posted a -14.8% return, compared to the Lehman Aggregate bond index at 11.2%. Unlike the prior fiscal year, the Fund's large cap domestic equity portfolio outpaced the overall US stock market (-8.1%, compared to the S&P 500 at -14.8%). During the trailing 12 month period, the Board restructured the overall equity portfolio, which resulted in what we believe will be a better diversified structure leading to more competitive returns.

International equities lagged US equities during this 12 month period, with the MSCI EAFE index posting a return of -23.3%. Fortunately, the Fund's international equity manager outperformed the EAFE index by a wide margin, with a return of -15.8%. Although the international equity component detracted from overall equity results, the active management of this allocation provided better than market results during this difficult period.

The Fund's fixed income allocation was diversified among different styles this year and, as with the equity component, a new manager was added to the team of advisors. Since several accounts were transitioned to new management during this 12 month period, including some fixed income allocations, results are mixed over the last fiscal year. In general, the overall fixed income composite posted returns of 10.1%, compared to bond index returns for intermediate to core duration accounts slightly in excess of 11%

Overall Fund returns for the trailing 3 and 5 year periods ending June 30 were 4.1% and 8.1%, respectively, on an annualized basis. These returns lag the median returns of other pension funds (5.8% and 10.3%, respectively over the 3 and 5 year intervals).

We appreciate the opportunity to be of service to the HTEHPRS and look forward to working with you and your colleagues.

Sincerely,

Randall L. Kirkland, CFA
Managing Director

The Retirement Board
Highway and Transportation Employees
and Highway Patrol Retirement System
P.O Box 1930
Jefferson City, Missouri 65102-1930

Dear Board Members:

The basic financial objective of the Highway and Transportation Employee's and Highway Patrol Retirement System (HTEHPRS) is to establish and receive contributions that:

(1) when expressed in terms of percents of active member payroll will remain approximately level from generation to generation of Missouri citizens, and which

(2) when combined with present assets and future investment return will be sufficient to meet the present and future financial obligations of HTEHPRS.

In order to measure progress toward this fundamental objective, HTEHPRS has annual actuarial valuations performed. The valuations (i) measure present financial position, and (ii) establish contribution rates that provide for the current cost and level percent of payroll amortization of unfunded actuarial accrued liabilities over a reasonable period. An actuarial valuation was performed based upon data and assumptions as of June 30, 2001. This valuation indicates that the contribution rates, established by the Board of Trustees for the benefits scheduled to be in effect on July 1, 2002, meet the basic financial objective. The calculated contribution rates are 22.67% of payroll for the 8,010 non-uniformed employees and 32.56% of payroll for the 1,077 uniformed patrol employees.

The actuarial valuations are based upon financial and participant data that is prepared by retirement system staff. The valuations are based on assumptions regarding future rates of investment return and inflation, rates of retirement, turnover, death, and disability among members and their beneficiaries. We review the data for internal and year-to-year consistency as well as general reasonableness prior to its use in the actuarial valuations. It is also summarized and tabulated for the purpose of analyzing trends. The assumptions were adopted by the Board of Trustees and were based upon actual experience of HTEHPRS during the period July 1, 1994 to June 30, 1999. Assets were valued using the three-year smoothing method. The assumptions and methods utilized in this valuation, in our opinion, meet the parameters established by Governmental Accounting Standards Board Statement No. 25.

The current benefit structure is outlined in the introductory section. We provided the information used in the supporting schedules in the actuarial section and the Schedules of Funding Progress in the financial section, as well as the employer contribution rates shown in the Schedule of Employer Contributions in the financial section.

Based upon the valuation results, it is our opinion that the Highway and Transportation Employees' and Highway Patrol Retirement System for the State of Missouri continues in sound condition in accordance with actuarial principles of level percent of payroll financing.

Brian B. Murphy

Brian B. Murphy, F.S.A.
Senior Consultant & Actuary

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS

METHODS

Asset Valuation Method
Valuation assets were determined using a three-year smoothed market value method. This method recognizes assumed investment return fully each year. Differences between actual and assumed investment return are phased in over a closed three-year period.

Actuarial Cost Method
The Entry Age Normal actuarial cost method was used for determining liabilities and normal cost. Normal costs were computed as a level percent of pay and were based on the Year 2000 Plan. Unfunded Actuarial Accrued Liabilities were amortized as a level percent of payroll over 35 years. For this purpose, covered payroll is assumed to increase 4% per year. Continued yearly reductions in the amortization period will result in a 30-year period being used for the June 30, 2006 valuation. This is consistent with GASB amortization period requirements.

ASSUMPTIONS

Interest Rate:	8.25% per annum, net of administrative fees.
Operating Expenses:	0.21% of payroll.
Surviving Spouses:	90% of employees dying in-service will have an eligible beneficiary.
Post-Retirement Benefit Increases:	The annual Consumer Price Index is assumed to be 3.5%.
Applicable Disability Benefit:	All future disabilities are assumed covered by LTD benefits.
Offsets to LTD Benefits:	It was assumed Workers Compensation Indemnity Benefits would be zero and that Social Security Disability PIA benefits would always apply.
Mortality:	Rates used in evaluating allowances to be paid to non-disabled pensioners were the 1971 Group Annuity Mortality (GAM) tables projected to the year 2000 set back one year for males and seven years for females. Pre-retirement mortality used was 50%of the 71GAM2000 tables set back one year for males and seven years for females. Disabled pension mortality was based on PBGC Disabled Mortality tables.

SUMMARY OF PLAN PROVISIONS*

AS OF JUNE 30, 2001

Comparison of the Closed Plan and the Year 2000 Plan

Plan Provision	Closed Plan	Year 2000 Plan
Membership Eligibility	Members who work in a position normally requiring at least 1,000 hours of work a year.	Members hired for the first time on or after July 1, 2000, in a position requiring at least 1,000 hours of work a year. Members who left state employment prior to becoming vested and return to work on or after July 1, 2000, in a position normally requiring at least 1,000 hours of work a year.
Normal Retirement Eligibility	Age 65 & active with 4 years of service. Age 65 with 5 years of service. Age 60 with 15 years of service. "Rule of 80"/minimum age 50. Age 55 with 4 years of service. (uniform members only)	Age 62 with 5 years of service. "Rule of 80"/minimum age 50. Mandatory retirement at age 60 with 5 or more years credited service (uniform members only).
Early Retirement Eligibility	Age 55 with 10 years of creditable service.	Age 57 with 5 years creditable service.
Benefit: Life Benefit	1.6% x FAP** x service. (Base benefit is increased by 33 1/3% for uniform patrol members only.)	1.7% x FAP** x service
Temporary Benefit	Not available.	0.8% x FAP** x service (until age 62 - only if retiring under "Rule of 80").
Vesting	5 years of service.	5 years of service.
COLA (Cost-of-Living Allowance)	If hired before August 28, 1997, annual COLA is a minimum of 4%, maximum 5%. Based on 80% of the increase in the CPI over the previous year, up to a maximum of 65% of original benefit. After 65% cap is reached, annual COLA increases will be equal to 80% of the change in the CPI, with a maximum of 5%. If hired after the above date, annual COLAs will be equal to 80% of the increase in the CPI, maximum 5%, with no guaranteed minimum.	80% of increase in CPI with a maximum of 5%.
Survivor Benefit (Death before retirement) Non duty-related Death	A survivor benefit is payable to eligible spouse or children if member has 3 years service calculated using 25% of the base benefit and increased 5/12 of 1% for each month of service in excess of 5 years to a maximum of 50% of the base benefit. The spouse of an active employee who dies after accruing 5 years of creditable service may elect to receive an annuity as if the employee had retired on the date of death and elected a Joint and 100% survivor annuity. If the spouse dies, leaving eligible children, the payment shall continue until the children reach 21 years of age.	Survivor benefit to eligible spouse calculated using the Joint & 100% survivor option or 80% of the member's life income annuity paid to eligible children.
Duty-related Death	Survivor benefit to eligible spouse or children equal to 50% of final average compensation (no service requirement).	Same
Optional Forms of Payment (Death after retirement)	Survivor benefit to eligible spouse based on payment option elected at retirement. Payment options include: Life Income Annuity, Unreduced Joint & 50% Survivor, Joint & 100% Survivor, and 60 or 120 Guaranteed Payments.	Survivor benefit to eligible spouse based on payment option elected at retirement. Payment options include: Life Income Annuity, Joint & 50% Survivor, Joint & 100% Survivor, and 120 or 180 Guaranteed Payments.
Disability	Long-Term Disability, Work Related and Normal Disability	Long-Term Disability, Work Related and Normal Disability

* This summary describes the plan provisions of the Revised Statutes of Missouri (RSMo.), as amended, that governed the programs, which HTEHPRS administered during the period covered by this report. It does not overrule any applicable statute or administrative rule and, in the event of a conflict, the applicable statute or rule would apply. The Year 2000 Plan is effective July 1, 2000.

** Final Average Pay - highest 36 consecutive months of pay.

LEGISLATIVE CHANGES

On July 13, 2001, Governor Bob Holden signed into law Senate Bill 371 (SB 371). Most of the provisions contained in SB 371 consisted of minor modifications to and clarifications of The Closed Plan and The Year 2000 Plan. Two of the more substantive changes contained in the legislation, however, create a BackDROP option for MoDOT and Patrol employees (effective January 1, 2002).

A member may elect a BackDROP option at retirement that would allow for a benefit to be calculated as if the member had retired at a previous date. To be eligible to participate in the BackDROP, a member must have been eligible to retire under normal age and/or service conditions for at least two years. A retroactive starting date is established, which is the later of the member's normal retirement date or five years prior to the annuity starting date. This results in a BackDROP period of two to five years depending on the member's situation. A theoretical BackDROP account is accumulated that includes 90% of the value of the benefit payments that would have been paid during the BackDROP period. These payments include applicable post-retirement benefit increases, however, no interest is paid. The member is paid the resulting lump sum value of the BackDROP account as of the annuity starting date or as three equal annual installments beginning at the annuity starting date.
