Board of Trustees
Public School Retirement System of Missouri
3210 West Truman Boulevard
Jefferson City, MO 65109
Dear Members of the Board:

We are pleased to present this report of the actuarial valuation of the Public School Retirement System of Missouri ("PSRS") as of June 30, 2010. This valuation was completed in accordance with our engagement letter dated October 27, 2008.

This valuation provides data on the funding status of PSRS. The results of the valuation show that the current contribution level will not fund the current benefits of PSRS within the framework of your funding policy.

This valuation is based on the provisions of PSRS in effect as of June 30, 2010, data on the PSRS membership, and information on the asset value of the trust fund. All member data and asset information were provided by PSRS staff. While certain checks for reasonableness were performed, the data was used unaudited. The accuracy of the results presented in this report is dependent upon the accuracy and completeness of the underlying information.

The actuarial assumptions and actuarial cost method used in this valuation are the same as those used in the prior actuarial valuation of PSRS and have been approved by the Board.

To the best of our knowledge, this actuarial statement is complete and accurate, and has been prepared in accordance with generally accepted actuarial principles and practice. The undersigned actuaries are members of the Society of Actuaries and other professional organizations, including the American Academy of Actuaries (M.A.A.A.), as indicated and meet the Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States relating to pension plans. There is no relationship between PwC and PSRS that may impair our objectivity.

This document was not intended or written to be used, and it cannot be used, for the purpose of avoiding U.S. federal, state or local tax penalties. This includes penalties that may apply if the transaction that is the subject of this document is found to lack economic substance or fails to satisfy any other similar rule of law. This document has been prepared pursuant to an engagement letter between PricewaterhouseCoopers LLP and PSRS, and is intended solely for the use and benefit of PSRS and not for reliance by any other person.

Respectfully submitted,

## PricewaterhouseCoopers LLP

Appendix F Summary of Benefit Provisions of PSRS

At your request, we have performed the actuarial valuation of the Public School Retirement System of Missouri ("PSRS") as of June 30, 2010.

The purposes of an actuarial valuation are as follows:

- To determine the funding status of PSRS as of the valuation date,
- To determine the contribution rate which would provide for the normal cost of the system plus an amount which will amortize the unfunded actuarial accrued liability over 30 years, and if different, the contribution for the fiscal year ending June 30,2012 , under the statute, and
- To provide accounting and other data required by PSRS.

## REPORT HigHLIGHTS

The key results of the valuation are summarized in the following table along with comparable values from the prior valuation report:

June 30, 2009 June 30, 2010 (\$ in Millions)

## A. Summary of Results

(1) Present Value of Future Benefits for:
(a) Active Members
(b) Retired Members
(c) Inactive Members and Other Liabilities
(d) Total
(2) Present Value of Future Normal Costs
(3) Actuarial Accrued Liability: (1) - (2)
(4) Actuarial Value of Assets
(5) Unfunded Actuarial Accrued Liability: (3) - (4)
(6) Total Contribution Rate, Member + Employer
(7) Normal Cost Rate
(8) Approximate Rate Available for Unfunded Actuarial

Accrued Liability: (6) - (7)

| d on actuarial value): | \$ | 471,349 | \$ | 471,331 |
| erage Amount of Assets per New Service tired (based on actuarial value): | \$ | 568,743 | \$ | 532,182 |

## MEMBERSHIP CHARACTERISTICS

## Active and Inactive Membership

A total of 90,872 active and inactive members of PSRS are included in this 2010 actuarial valuation.

$$
\begin{array}{ll}
\text { Active members } & 79,256 \\
\text { Inactive members } & \underline{11,616} \\
\text { Total active and inactive members } & 90,872
\end{array}
$$

Between the 2009 and 2010 actuarial valuations, the number of active employees decreased by 79 or $0.1 \%$. The average annual salaries of employees increased by $1.3 \%$ to $\$ 56,701$.

## Summary of Changes in Membership

|  | Male | Female | Total |
| :---: | :---: | :---: | :---: |
| Active and Inactive Members 7/1/2009 | 20,061 | 71,269 | 91,330 |
| New Membership 7/1/2009 to 6/30/2010 | 1,024 | 3,499 | 4,523 |
| Data Adjustments | (110) | (368) | (478) |
| Total Membership Before Decreases | 20,975 | 74,400 | 95,375 |
| Decreases: |  |  |  |
| Service Retirements | 553 | 1,818 | 2,371 |
| Disability Retirements | 13 | 40 | 53 |
| Withdrawals | 432 | 1,340 | 1,772 |
| Deaths | 18 | 23 | 41 |
| Other Terminations | 155 | 564 | 719 |
| Reciprocity | $\underline{0}$ | $\underline{2}$ | $\underline{2}$ |
| Total Decreases | 1,171 | 3,787 | 4,958 |
| Additional Members Valued ${ }^{1}$ | 109 | 346 | 455 |
| Total Valuation Membership at 6/30/2010 (includes Inactive Members) | 19,913 | 70,959 | 90,872 |

1. Includes members who had terminated employment but were yet to be cashed out as of the valuation date.

## Benefit Recipients

On June 30, 2010, PSRS was paying benefits to 45,467 retired members, beneficiaries and survivors. In addition, 165 members had benefits that were on hold due to returning to work. The headcount for current benefit recipients for valuation purposes increased $3.9 \%$ from 43,902 on June 30, 2009, to 45,632 on June 30, 2010. The June 30, 2010 headcount consists of 41,529 service retirees, 722 disability retirees, and 3,381 beneficiaries and survivors.

There are two classes of retired members - members retired because of service and members retired because of disability.

The changes among the retired group of members during the 2009-2010 year were as follows:

|  | Service <br> Retirements | Disability Retirements | Beneficiaries ${ }^{1}$ | Total |
| :---: | :---: | :---: | :---: | :---: |
| Retired Members 7/1/2009 | 39,959 | 698 | 3,245 | 43,902 |
| Added During Year | 2,348 | 48 |  |  |
| Benefits Taken Off Hold | 33 | 0 |  |  |
| Data Adjustments | (81) | $\underline{0}$ |  |  |
| Total Membership Before Decreases | 42,259 | 746 |  |  |
| Decreases: |  |  |  |  |
| Died During Year | 770 | 24 |  |  |
| Benefits Placed On Hold | $\underline{22}$ | 1 |  |  |
| Total Decreases | 792 | 25 |  |  |
| Additional Members Valued ${ }^{2}$ | 62 | 1 |  |  |
| Total Retired Members Valued at 6/30/2010 | 41,529 | 722 | 3,381 | 45,632 |

1. Due to certain participants with multiple beneficiaries, duplicate identification numbers exist. Therefore, no detailed reconciliation was completed.
2. Includes retired members with benefits on hold that earned additional retirement benefits.

As of June 30, 2010, the average monthly benefit payable to service retirees was $\$ 3,169$ compared to $\$ 3,166$ as of June 30, 2009. These averages and the amounts shown in the tables that follow include all post-retirement benefit increases.

## Actuarial Assumptions and Methods

The actuarial cost methods and assumptions used in this valuation are the same as those disclosed in the actuarial valuation report as of June 30, 2009. The assumptions and methods are described in Appendix E.

## EXPERIENCE DURING FY 2010

Overall, the system experienced a net actuarial loss of $\$ 765.6$ million.

The total net actuarial loss for the year ending June 30, 2010, is shown below and is broken out further in Table 22:

## (\$ in millions)

1. Actuarial (Gain) or Loss on Assets (at actuarial value)

1,621.2
2. Actuarial (Gain) or Loss on Liabilities Due to no Actual COLA in 2011 vs. $3.25 \%$ expected
3. Actuarial (Gain) or Loss on Unfunded Liabilities Due to Reinstated and Purchased Service
4. Actuarial (Gain) or Loss on Liabilities Due to Legislative Changes
5. Actuarial (Gain) or Loss on Liabilities Due to Salary, Demographic, and Other Experience
6. Total Actuarial (Gain) or Loss (Sum 1-5)
\$ 765.6

For the plan year ending June 30, 2010, the funds experienced an asset loss of $\$ 1,621.2$ million; based on actuarial value of assets. The use of the five year smoothing method to determine the actuarial value of assets recognizes $20 \%$ of the total gain or loss for each of the preceding five years.

There is no COLA increase scheduled for January 1, 2011. This produced a gain of $\$ 375.8$ million. The reinstatement of forfeited service generated a liability loss of approximately $\$ 28.3$ million. The purchase of service other than reinstated service generated a liability loss of approximately $\$ 39.7$ million.

In addition, due to a contribution shortfall of $\$ 105.7$ million, the unfunded liability was increased as well.

A summary of the current benefit provisions appears in Appendix F. There were no changes to the benefit provisions of PSRS during the 2010 session of the Legislature which impact the results of this valuation.

## Asset Information

The market value of the assets of the fund, which are available for benefits, has increased from $\$ 21.6$ billion at the end of FY 2009 to $\$ 23.8$ billion at the end of FY 2010. The actuarial value of assets increased from $\$ 28.8$ billion at the end of FY 2009 to $\$ 28.9$ billion at the end of FY 2010. Actuarial value of assets now exceeds the market value by $\$ 5.2$ billion.

Based on the actuarial value, the assets of the fund returned about $2.3 \%$ which compares to the market value return of $12.8 \%$. The difference is due to the recognition of investment losses from prior years under the asset smoothing method.

The detailed determinations of asset values utilized in this valuation and asset growth in the last year are set forth in Appendix B.

## Funding Status

The funding status of PSRS is measured by the Funding Ratio, which is the ratio of the assets available for benefits to a benefit liability measure for the System. While there are several such measures that could be appropriately used, the benefit liability measure that ties most closely to your funding strategy is the Actuarial Accrued Liability ("AAL").

Using the actuarial (smoothed) value of assets, the PSRS actuarial accrued liability funding ratio decreased from 83.4\% at June 30, 2008 to $79.9 \%$ at June 30, 2009, and decreased to $77.7 \%$ as of June 30, 2010. The majority of the decrease is due to asset losses.

Using the market value of assets, the PSRS actuarial accrued liability funding ratio decreased from 79.6\% at June 30, 2008 to $59.9 \%$ at June 30, 2009, and increased to $63.8 \%$ as of June 30, 2010.

## GASB DISCLOSURE

PSRS produces its accounting statements under the terms of GASB Statement Number 25. In Table 20, you will find Required Supplemental Information mandated by that statement.

This information is presented in draft form for review by the System's auditor. Please let us know if there are any changes so that we may maintain consistency with the System's financial statements.

## Funding Process

In the 2003 session of the Legislature, the funding provisions of PSRS were amended. The following changes were adopted:

1. The limitation on the total contribution rate ( $22 \%$ of pay) was eliminated.
2. Contribution rates will now be established by actuarial valuation.
3. The annual increase in the total contribution rate may not exceed $1 \%$ of pay.

As a result, the total contribution rate for the 2011 fiscal year may not increase by more than $1 \%$ of pay over the rate for the current fiscal year.

In the 2007 session of the Legislature, it was determined that the unfunded actuarial accrued liabilities associated with benefit changes shall be amortized over a twenty-year period. This provision has had no impact on the contribution requirements of the Plan, as the Plan contribution requirements were already limited by the annual increase limitation of $1 \%$ of pay established in the 2003 session of the Legislature.

## APPENDIX E

Actuarial Methods and Assumptions

## Statement of Funding Policy

In order to establish long-term, consistent methods in the funding of the System, the Board of Trustees has adopted this statement of its funding policy. The funding of the System shall be carried out in such a way that the burden of paying retirement costs shall be shared equitably by present and succeeding generations of members and taxpayers. To this end, the following principles shall apply:

1. The Board of Trustees shall adopt actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience under the System, derived from experience studies conducted every fifth year.
2. The actuarial funding method used shall be the Entry Age Normal Method with normal costs calculated as a percentage of payroll.
3. It shall be the general objective to maintain an amortization period of 30 years or less in the funding of the Unfunded Actuarial Accrued Liability. Whenever a change is made in the System's benefit and contribution rate structures, the amortization period for the System after this change should not exceed 30 years initially. The benchmark contribution shown has been adjusted for the 20 year amortization of unfunded liabilities due to changes in benefit provisions as amended in the 2007 legislative session. However, this amendment had no impact on the final contribution rates, which were limited by the annual increase limitation of $1 \%$ of pay established in the 2003 session of the legislature.
4. If an escalation in future payroll is assumed in determining the amortization payments toward the Unfunded Actuarial Accrued Liability, then the annual rate of such escalation shall not exceed the expected rate of expansion in total System payroll based upon the actuarial assumptions.
5. Assets used in the actuarial valuation shall be valued using adjusted market values averaged over a period of five years.
6. Annual actuarial valuations shall be made of the System's assets and liabilities. The contribution rate shall be established based on the results of these valuations.

## Actuarial Assumptions <br> (Adopted for use with the June 30, 2006 Valuation)

## Investment Return

It is assumed that investments of the System will return, on average, a yield of $8 \%$ per annum compound, net of system expenses (investment and administrative).

## Salary and Payroll Increases

Salaries are assumed to increase each year at the rate of $5 \%$. Longevity adjustments are made for those with less than 15 years of service, as follows:

| Service | Longevity Adjustment |  | Total Increase |
| :---: | :---: | :---: | :---: |
|  |  | $5.25 \%$ |  |
| 1 | 4.25 |  | $10.25 \%$ |
| 2 | 2.75 | 9.25 |  |
| 3 | 2.75 | 7.75 |  |
| 4 | 2.75 | 7.75 |  |
| 5 | 2.50 | 7.75 |  |
| 6 | 2.25 | 7.50 |  |
| 7 | 2.00 | 7.25 |  |
| 8 | 1.75 | 7.00 |  |
| 9 | 1.50 | 6.75 |  |
| 10 | 1.25 | 6.50 |  |
| 11 | 1.00 | 6.25 |  |
| 12 | 0.75 | 6.00 |  |
| 13 | 0.50 | 5.75 |  |
| 14 | 0.25 | 5.50 |  |
| $15 \&$ Over | 0.00 | 5.25 |  |
|  |  | 5.00 |  |

Total covered payroll of the entire membership is assumed to increase $5.0 \%$ per year in the future.

## Mortality Rates

Mortality Rates for non-disabled retirees are based on the 1994 Group Annuity Mortality Table with male ages set back three years and female ages set back three years. Mortality for active members are based on the following percentages of retiree mortality:

Male 70\%
Female 65\%

Illustrative rates per 1,000 members at various ages are as follows:

## Service Retired Members,

## Beneficiaries and Survivors

| Age | Male | Female |
| :---: | :---: | :---: |
| 20 | 0.430 | 0.262 |
| 30 | 0.727 | 0.302 |
| 40 | 0.891 | 0.551 |
| 50 | 1.899 | 1.112 |
| 60 | 5.581 | 2.919 |
| 70 | 18.034 | 10.764 |
| 80 | 45.171 | 28.366 |
| 90 | 115.671 | 84.023 |
| 100 | 268.815 | 219.655 |
| 110 | 441.935 | 424.846 |

Disability Retirees, Male and Female

| Age |  | Rate |
| :---: | :---: | :---: |
| 40 |  | 24.075 |
|  | 26.175 |  |
| 70 |  | 31.500 |
| 80 |  | 44.625 |
| 90 |  | 76.650 |
| 100 |  | 173.276 |
|  | 507.128 |  |

## Withdrawal Rates

Termination of membership prior to eligibility for retirement from all causes other than death, disability or retirement is assumed in accordance with the following illustrative rates per 1,000 members:

| Years of <br> Service |  | Rate |
| :---: | :---: | :---: |
|  |  | 190.0 |
| 1 |  | 105.0 |
| 2 |  | 85.0 |
| 3 |  | 73.0 |
| 4 |  | 62.0 |
| 5 |  | 52.0 |
| 10 |  | 23.0 |
| 15 |  | 12.0 |
| 20 |  | 5.0 |

It is assumed that $70 \%$ of those leaving after earning 5 years of service leave their contributions in the fund and receive a vested benefit.

## Disability Rates

Retirement for disability prior to age 60 is assumed in accordance with the following illustrative rates per 1,000 eligible members:

| Age |  | Rates |
| :---: | :---: | :---: |
|  |  | 0.090 |
| 35 |  | 0.130 |
| 40 |  | 0.280 |
| 45 |  | 0.505 |
| 50 |  | 0.780 |
| 55 |  | 1.535 |

## Retirement Rates

Retirement is assumed in accordance with the following rates per 1,000 eligible members:

| Age | Service |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\leq 25^{2}$ | $\underline{25}$ | $\underline{26}$ | $\underline{27}$ | $\underline{28}$ | $\underline{29}$ | 30 | $\underline{31+}$ |
| $<50^{1}$ |  | 40 | 40 | 40 | 40 | 40 | 350 | 300 |
| $50^{1}$ |  | 40 | 40 | 40 | 40 | 40 | 490 | 300 |
| $51^{1}$ |  | 40 | 40 | 40 | 40 | 490 | 350 | 300 |
| $52^{1}$ |  | 40 | 40 | 40 | 490 | 240 | 350 | 300 |
| $53^{1}$ |  | 40 | 40 | 490 | 240 | 240 | 350 | 300 |
| $54^{1}$ |  | 40 | 490 | 240 | 240 | 240 | 350 | 300 |
| 55 | 25 | 450 | 200 | 200 | 200 | 200 | 350 | 300 |
| 56 | 25 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 57 | 25 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 58 | 25 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 59 | 25 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |

| 61 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 62 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 63 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 64 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 65 | 300 | 300 | 300 | 300 | 300 | 300 | 350 | 300 |
| 66 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 67 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 68 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 69 | 200 | 200 | 200 | 200 | 200 | 200 | 350 | 300 |
| 70+ | 1,000 | 1,000 | 1,000 | 1,000 | 1,000 | 1,000 | 1,000 | 1,000 |

${ }^{1}$ Rates for members with less than 30 years of service and not eligible for the Rule of 80 are applicable through 2013.
${ }^{2}$ Rates for members who are younger than 60 are for early (age reduced) retirement.
Rates for participants whose service is less than 25 who meet the Rule of 80 are 45 percent in the first year of eligibility and 20 percent thereafter.

## Interest on Member Accounts

2\% per year.

## Service Purchases

Incremental service credits attributable to the purchase of service are not valued until all payments for the purchase of service have been made.

## Cost of Living Adjustments

The cost of living adjustment assumed in the valuation is $3.25 \%$ per year, and applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60), and does not apply to the spouse with children preretirement death benefit, the dependent children pre-retirement death benefit, nor the dependent parent death benefit. The total lifetime COLA cannot exceed $80 \%$ of the original benefit. Future COLAs for current benefit recipients reflect actual cumulative adjustments granted at the time of valuation.

## Asset Valuation Method

The Actuarial Value of Assets is based on a five-year average of adjusted market value returns. The actuarial value for a year is computed by taking the actuarial value at June 30 of the prior year, subtracting all expenses (including benefit payments), and adding contributions and expected investment return at $8 \%$ of actuarial value of assets. The difference between the actual returns at market value for the year and expected returns is determined. Twenty percent (20\%) of that difference is added to the actuarial value along with corresponding amounts from each of the prior four years. The Actuarial Value of Assets was reset to market value at June 30, 2003.

## Provisions for Expenses

There is no specific provision for expenses. The implicit assumption is that administrative expenses are paid from investment income in excess of $8 \%$ per annum.

## Beneficiaries

The percentage of males and females that are assumed to be married or to have eligible dependent beneficiaries varies by age and sex. The following are illustrative of the percentages used:

| Age | Male |  | Female |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  | $40 \%$ |  | $60 \%$ |
| 30 | 84 |  | 87 |  |
| 40 | 87 |  | 86 |  |
| 50 | 85 |  | 84 |  |
| 60 | 79 |  | 81 |  |

Beneficiaries are assumed to be of the opposite sex from the member. Female beneficiaries are assumed to be 3 years younger than the member, and male beneficiaries are assumed to be 3 years older than the member.

## Survivor Benefits

In the active member valuation, the present value for dependent based survivor benefits for children is estimated using an approximation of $\$ 165,000$ for active member deaths occurring before age 40.

Benefits for current dependent children are assumed to cease at age 22 if currently under age 22. Current dependent children older than 22 are assumed to continue receiving benefits until death.

## Joint and Survivor Election

To recognize the subsidy present in the joint and survivor reduction factors calculated without provision for cost-of-living adjustments, the active member costs resulting from all decrements except disability and refunds were loaded by $0.4 \%$.

## Terminations

Thirty percent (30\%) of all active members who terminate for reasons other than death, disability or retirement are assumed to take a refund of their member account balance. The other seventy percent (70\%) are expected to elect a termination benefit deferred to first unreduced retirement age. The same approach is used to value vested, inactive members.

If the present value of the deferred benefit is less than the member account balance, the value of the member account balance is valued.

## Return of Unused Member Account Balance

Under the single life annuity payment option, any unused balance of contributions and interest in the member account balance at the time of death is paid in a lump sum to a designated beneficiary. This benefit is approximated with a 5 -year certain benefit.

## Missing/Incomplete Data

Members without a date of birth provided are assumed to be 30 years old. Pensionable pay for members who did not earn service during the past year is assumed to be the greater of the current year's salary, the previous year's salary and $\$ 10,000$. Pensionable pay for other active members is assumed to be the greater of annualized pay and $\$ 10,000$.

## Changes in Assumptions Since Prior Valuation

None.

## APPENDIX F

Summary of Benefit Provisions of PSRS

Half the total PSRS contribution rate. For fiscal year 2010, the current total PSRS contribution rate is $28 \%$ of pay and may increase $1 \%$ each year.

## Normal (UnReduced) Retirement

## ELIGIBILITY

Attainment of age 60 with at least five years of Creditable Service, or completion of 30 years of Creditable Service at any age, or age plus Creditable Service is at least 80.

## BENEFIT

2.5\% of Final Average Salary for each year of Membership Service. Members retiring before July 1, 2013 with at least 31 years of service will receive a benefit based on $2.55 \%$. A year of Prior Service is the equivalent of 0.6 year of Membership Service. A minimum benefit applies for Members with at least 15 years of Creditable Service and varies from $\$ 600 /$ month at 15 years of Creditable Service to $\$ 1,200 /$ month at 30 years of Creditable Service. Benefits are also subject to maximum equal to $100 \%$ of the Member's final average salary at the time of retirement.

## COMPENSATION

All regular earnings as an employee of a PSRS-covered employer. Compensation or salary includes, but is not limited to, payments for extra duties, overtime payments, career ladder payments, payments for overloads (e.g. extra hours taught) and additional courses, and employer-paid medical, dental and vision insurance premiums for the member.

## FINAL AVERAGE SALARY

Average monthly salary over the Member's three highest consecutive years of service. Effective August 28, 2007, the maximum increase in the annual compensation for the final average salary shall not exceed ten percent.

## MEMBERSHIP SERVICE

Service while a participating member of PSRS. Service is measured each year in relation to full contract salary for that year.

## PRIOR SERVICE

Service in a covered position prior to July 1, 1946.

## CREDITABLE SERVICE

Membership service plus any service rendered prior to PSRS inception.

## NORMAL FORM OF BENEFIT

Single Life Annuity
Additional options available include joint and survivor (50\%, 75\%, or 100\%), term certain (60 or 120 months) and life thereafter, and partial lump sum option (PLSO).

## EARLY (AgE REDUCED) RETIREMENT

## ELIGIBILITY

Attainment of age 55 and under age 60 with at least five years of creditable service.

## BENEFIT

Normal retirement benefit accrued to the date of early retirement, actuarially reduced from age 60.

## Special Normal Retirement - Under Modified Formula

## ELIGIBILITY

Retirement on or before July 1, 2013 at an age under 55 and with at least 25 years of creditable service but not eligible for the Rule of 80 .

## BENEFIT

Based on a percentage of final average salary per year of creditable service. Percentages are as follows:

| Years of Service | Benefit Percentage |
| :---: | :---: | :---: |
| $25-25.9$ | $2.20 \%$ |
| $26-26.9$ | 2.25 |
| $27-27.9$ | 2.30 |
| $28-28.9$ | 2.35 |
| $29-29.9$ | 2.40 |

## POST-RETIREMENT DEATH BENEFIT

Regardless of the form of benefit selected, a lump sum benefit of $\$ 5,000$ is paid at the death of the retiree.

## COLA AdJustments

In any year in which the Board determines that the CPI has increased, the Board may provide for annual increases in the current benefit of up to $5 \%$. For any member retiring on or after July 1, 2001 such adjustments commence in the second January after commencement of benefits. The total of such increases may not exceed $80 \%$ of the original benefit for any member.

## DISABILITY BENEFITS

## DEFINITION OF DISABILITY

Incapacitation for performance of gainful employment after completion of five years of creditable service and before age 60 .

## BENEFIT

Lifetime benefit equal to $90 \%$ of accrued normal retirement benefit. This benefit level is subject to a minimum of $50 \%$ salary in the last full year of membership but not greater than the member's accrued normal retirement benefit assuming continuous employment to age 60 at current pay. COLA adjustments similar to those provided retirees are provided on this benefit.

## FORM OF BENEFIT

If eligible, surviving designated spouse or dependent child or parent may elect a monthly survivor benefit.

## VESTING

## ELIGIBILITY

Accrual of five years of creditable service.

## BENEFIT

Accrued normal retirement benefit payable at earliest retirement age based on service at date of termination. Benefit is based on formula in effect at commencement of benefit.

## DEATH / SURVIVOR BENEFITS

## REFUND

Refund of accumulated member contributions with interest.

## DEPENDENT BASED SURVIVOR BENEFITS

In lieu of the refund, survivors of a member with at least 2 years of service at death may elect the following survivor benefit package:

1. Spouse who was married to the deceased member for at least three years and with no dependent children - up to $\$ 860$ / month payable after spouse age 60 (immediately if spouse is disabled) and prior to remarriage.
2. Spouse with dependent children
a. Up to $\$ 860$ per month payable to spouse with at least one dependent child under age 18 .
b. Up to an additional $\$ 430$ per month payable for each child under age 18 . Benefits continue to the spouse after the child reaches age 18 , up to age 24 , if the child is a full time student.
c. Family maximum - $\$ 2,160$ per month.
3. If no surviving spouse, each eligible child receives up to $\$ 720$ per month payable as in 2.b. above, subject to a family maximum of $\$ 2,160$.
4. If no surviving spouse or children, a benefit of up to $\$ 720$ is payable to a dependent parent over age 65 , subject to a maximum of $\$ 1,440$.

No COLA adjustments apply to this benefit.

## RETIREMENT BASED SURVIVOR BENEFITS

In lieu of the benefits described above, if the member has at least 5 years of membership service at date of death, the designated spouse may receive a survivor benefit based on $100 \% \mathrm{~J} \& \mathrm{~S}$ equivalent of the benefit accrued to date of death. The benefit may commence:

1. immediately if member is eligible to retire at date of death, or
2. at a future retirement date of the deceased member.

The benefit may be reduced for early commencement if the deceased member would not have been eligible for unreduced retirement at that date based on service to date of death.

COLA adjustments similar to those provided retirees are provided on these benefits.

[^0]:    ${ }^{1}$ Includes Service Retirees and Disabled Retirees as of June 30, 2010.
    ${ }^{2}$ Includes all retirements in 1999 and, because of legislation in 2000 and 2001, all persons retiring between July 1, 2000 and December 31, 2000, and between July 1, 2001 and December 31, 2001.
    ${ }^{3}$ Includes all retirements in 2002 and, because of legislation in 2000 and 2001, all persons retiring between January 1, 2000 and June 30, 2000, and between January 1, 2001 and June 30, 2001.

[^1]:    ${ }^{1}$ Normal cost rate was determined at mid-year using an expected payroll of $\$ 4,493,864,732$.
    ${ }^{2}$ Contribution rate to amortize the UAAL was determined using expected payroll of $\$ 4,493,864,732$. The benchmark contribution shown here has been adjusted for the 20 year amortization of unfunded liabilities due to changes in the provisions as amended in the 2007 legislative session. This resulted in an increase in UAAL of $\$ 32,833,000$ as of June $30,2007$.

[^2]:    ${ }^{1}$ For COLA granted January 1, 2011 (0.00\%).
    ${ }^{2}$ Includes administrative and other expenses.
