ACTUARIAL CERTIFICATION

January 1, 2013 to December 31, 2013

In our opinion, the following report presents fairly the January 1, 2013 Actuarial Valuation of The City of Bismarck Employees' Pension Plan in accordance with Generally Accepted Actuarial Principles and Practices.

Our Actuarial Valuation has been conducted with reliance upon Participant information and financial information provided to us by the City of Bismarck. The accuracy of the information in this report is dependent on the quality and completeness of the information provided to us. We have reviewed the information provided to us for general reasonableness. The valuation was performed on the basis of the Participant data, Plan Provisions, actuarial assumptions, and actuarial methods stated in this report.

The actuarial assumptions used in this report were selected by the City of Bismarck, with the agreement of Gallagher Benefit Services, Inc. The assumptions were modified effective January 1, 2012 to reflect the results of an Experience Study for the period from January 1, 2005 through December 31, 2011. In our opinion, the actuarial assumptions used (a) each, and in the aggregate, are reasonably related to the experience of the plan and to reasonable expectations, and (b) in the aggregate, represent our best estimate of anticipated experience under the plan.

To the best of our knowledge, the information contained in this report is complete and accurate.

COMMENTARY

In this report we present the results of the January 1, 2013 Actuarial Valuation of the City of Bismarck Employees' Pension Plan. There were no changes in actuarial assumptions or plan provisions since the revised January 1, 2012 report. This report reflects a one-time 3.0% Cost of Living Adjustment (COLA) for retirees effective January 1, 2013. The Actuarial Accrued Liability increased by $663,059 as a result of the COLA.

Annual Required Contribution

We recommend that the City contribution be at least equal to the Annual Required Contribution developed under the Entry Age Normal actuarial cost method. On this basis, a contribution of $1,299,110 (6.7% of covered payroll) is recommended for the 2013 plan year. The calculation of this contribution is illustrated in Exhibit 12.

Expected City Contribution

The City commission has approved that the City contribution will be 10.4% of salary. The expected contribution for 2013 on this basis is $2,016,959 (10.4% of payroll).

Contribution Requirements

The valuation results are shown on page 3 in a comparison between 2012 and 2013. The 2012 calculation, developed in the first column, shows an UAAL of $8,210,537 and, with an actual City payment of $2,234,521 in 2012 and expected payment of $2,016,959 in 2013 plus future contributions of 10.4% of covered payroll, an amortization period of 10 years.

The calculation for 2013 shows an UAAL of $5,247,779 and, with an expected City payment of $2,016,959 for 2013, an amortization period of 6 years.

Funding Ratio

Plan assets cover 121% of the Present Value of Accumulated Plan Benefits. More detail is contained on page 20. Last year plan assets covered 117% of the Present Value of Accumulated Plan Benefits. The Present Value of Accumulated Plan benefits is the value of benefits based only on salaries and service as of the valuation date and does not reflect the value of any future benefit accruals.

GASB No. 25 and No. 27

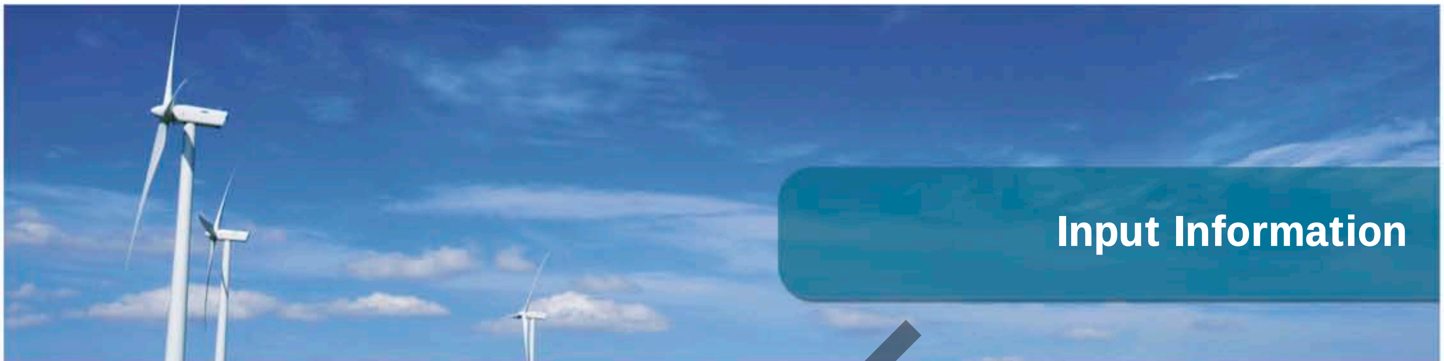
Information required by Statements No. 25 and No. 27 of the Governmental Accounting Standards Board is summarized on pages 21 and 22.

SUMMARY OF RESULTS

	1/1/12	1/1/13	Percent Change
1. Number of Participants			
(a) Active	393	395	0.5%
(b) Terminated vested	39	44	12.8%
(c) Retired	139	157	12.9%
(d) Total Participants = (a)+(b)+(c)	571	596	4.4%
2. Annual covered salaries for Participants under the assumed retirement age	$ 18,776,386	$ 19,393,833	3.3%
3. Actuarial Accrued Liability			
(a) Active Participants	$ 44,737,707	$ 46,229,620	3.3%
(b) Terminated vested Participants	2,567,712	2,910,827	13.4%
(c) Retired Participants	20,008,750	23,509,698	17.5%
(d) Total Actuarial Accrued Liability = (a)+(b)+(c)	$ 67,314,169	$ 72,650,145	7.9%
4. Actuarial Value of Assets	$ 59,103,632	$ 67,402,366	14.0%
5. Unfunded Actuarial Accrued Liability = (3)(d)-(4)	$ 8,210,537	$ 5,247,779	(36.1%)
6. Actual 2012/Expected 2013 annual financial support by City	$ 2,234,521	$ 2,016,959	(9.7%)
7. Annual Required Contribution	$ 1,423,866	$ 1,299,110	(8.8%)
8. Amortization period at expected level of funding	10 years[1]	6 years[2]	(40.0%)

[1] Amortization period based on City Contributions of $2,234,521 in 2012, $2,016,959 in 2013, and increasing due to total salary growth at the rate of 3.0% annually thereafter.

[2] Amortization period based on $2,016,959 contribution for 2013, and increasing due to total salary growth at the rate of 3.0% annually thereafter.



Gallagher Benefit Services, Inc.

EXHIBIT 1
Summary of Plan Provisions

The following summary has been prepared for valuation purposes only. It outlines the Provisions found in Chapter 9-07 (City Employees' Pension) necessary to perform the Actuarial Valuation, as interpreted by Gallagher Benefit Services Inc.

Definitions

Actuarial Equivalence Factors: In calculating the actuarial equivalence of one form of benefit to another, the interest rate to be used shall be 7.0% and the mortality table to be used shall be the "applicable mortality table" as defined by Section 417(e)(3) of the Code (9-07-10).

Average Basic Monthly Compensation: The average of the monthly base compensation of a Participant over the highest 36 month period of employment. Monthly base compensation excludes overtime, bonuses, severance payments, and other remuneration in excess of base compensation (9-07-15(1)).

Effective Date of the Plan: January 1, 1966.

Early Retirement Date: Participants who have completed 60 consecutive months of contributing service and have attained age 50 are eligible for a monthly pension benefit (9-07-15(2)).

Membership Fee: Every full-time employee of the City of Bismarck except police officers and fire fighters shall be assessed and required to pay an amount of 5.0% of their basic salary (9-07-01).

Normal Form of Benefit: Married Participants receive a Joint & Two-Thirds to Survivor annuity. Single Participants receive a Life Only annuity.

Normal Retirement Date: Participants who have attained age 62 are eligible for a monthly pension benefit (9-07-15(1)).

Plan Year: January 1st through December 31st (9-07-08).

Recognized Service: Full and fractional years of contributing service during which the employee contributed to the fund (9-07-23). Military service will be included as part of the period of service with the City provided that the period does not exceed 5 years and the employee pays into the fund 5.0% of the lesser of the last full year's salary paid by the City or military salary for each year of military service (9-07-05).

Plan Provisions

Eligibility: Every full-time employee, other than members of the Police Department who are sworn officers, members of the firefighter's relief association, and employees who perform fire suppression duties. (9-07-11).

Normal Retirement Benefit: Participants serving until the Normal Retirement Date are eligible for a monthly pension benefit computed by multiplying his or her highest 36 months of Average Basic Monthly Compensation times 1.75% times his or her number of full and fractional years of Recognized Service prior to January 1, 2005 plus 2.25% times his or her number of full and fractional years of Recognized Service after December 31, 2004. (9-07-15(1)).

Early Retirement Benefit: The monthly pension benefit shall be equal to the Normal Retirement Benefit actuarially reduced for payments commencing prior to age 62 (9-07-15(2)). The reduction factors are as follows:

Age	Factor	Age	Factor
50	.4287	57	.6841
51	.4567	58	.7353
52	.4870	59	.7918
53	.5199	60	.8542
54	.5557	61	.9233
55	.5947	62	1.000
56	.6373		

Termination Benefit: After 60 consecutive months of contributing service and termination of employment, a Participant may elect a deferred retirement benefit to commence at an elected age 50 to 62. The Participant's deferred benefit shall equal the Normal Retirement Benefit (based on service and compensation to the date of termination) actuarially reduced for early commencement (9-07-15(3)).

EXHIBIT 1 (Continued)
Summary of Plan Provisions

Death Benefit:	The surviving spouse (while unmarried) receives 2/3 of the actuarially reduced pension to which the Participant would have been entitled, but not less than \$65 per month provided the Participant served at least 60 consecutive months of contributing service (9-07-15(4)). The surviving spouse has the option to elect a refund of contributions in lieu of the above-mentioned benefit (9-07-15(5)). If there is no surviving spouse, the Participant's contributions are paid to the Participant's estate (9-07-15(6)).
Refund of Contributions:	Any Participant who has contributed to the plan and terminates employment before being entitled to a pension shall be entitled to a refund of all contributions made by him to the pension system with accumulated interest. Interest of 5% per year will be credited on such contributions made after July 1, 1972. Interest of 2.5% per year will be credited on such contributions made prior to July 1, 1972. Any Participant electing a refund of contributions forfeits all rights to any other form of benefit under this plan (9-07-14).
Cost of Living Adjustments:	Persons receiving pension payments shall be eligible for cost of living adjustments in an amount determined by the Board of Trustees. The adjustment may not exceed the lesser of the City employees' salary adjustment or 3% (9-07-16).

EXHIBIT 2
Census Summary and Reconciliation

	1/1/12	1/1/13	Percent Change
Active Participants			
▪ Number of Participants			
– Fully vested	270	272	0.7%
– Non-vested	123	123	0.0%
– Total	393	395	0.5%
▪ Average age	48.0	48.2	0.4%
▪ Average service	13.7	13.5	(1.5%)
▪ Average salary	$ 45,750	$ 47,010	2.8%
Terminated Vested Participants			
▪ Number of Participants	39	44	12.8%
▪ Average age	51.7	49.7	(3.9%)
▪ Average years since termination	5.9	5.3	(10.2%)
▪ Average monthly benefit at Normal Retirement	$ 861.55	$ 872.56	1.3%
Retired Participants			
▪ Number of Participants	139	157	12.9%
▪ Average age	73.8	73.5	(0.4%)
▪ Average years since retirement	10.9	10.4	(4.6%)
▪ Average monthly benefit	$ 1,359.70	$ 1,408.54	3.6%

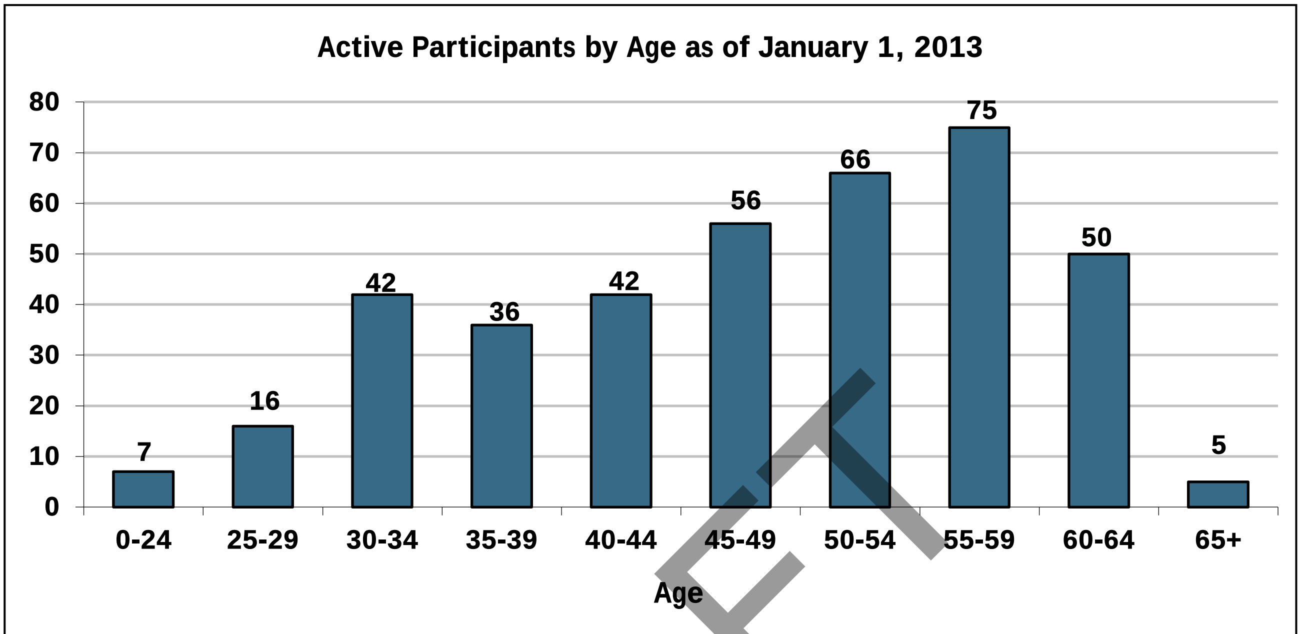
EXHIBIT 3
Participant Reconciliation

The following information provides the reconciliation from January 1, 2012 to January 1, 2013 of Plan Participants.

	Active	Terminated Vested	Retired	Disabled	Beneficiary	Total
1/1/2012 Participants	393	39	105	0	34	571
New Participants	40	-	-	-	-	40
Rehired	-	-	-	-	-	0
Terminated vested	(8)	8	-	-	-	0
Terminated non-vested	(15)	-	-	-	-	(15)
Retired	(15)	(3)	18	-	-	0
Disabled	-	-	-	-	-	0
Died with beneficiary	-	-	(2)	-	2	0
Died without beneficiary	-	-	-	-	-	0
Benefit stopped	-	-	-	-	-	0
Paid-out lump sum	-	-	-	-	-	0
Data corrections	-	-	-	-	-	0
1/1/2013 Participants	395	44	121	0	36	596

During 2012 the total Participant count increased by 25 due to 40 new Participants offset by 15 Participants that terminated employment and received a return of their employee contributions. There were 18 Participants that retired and 8 Participants that moved from active to terminated vested status during the year. There were 2 Participant deaths during 2012 with immediate benefits to a beneficiary.

EXHIBIT 4
Active Participant Data



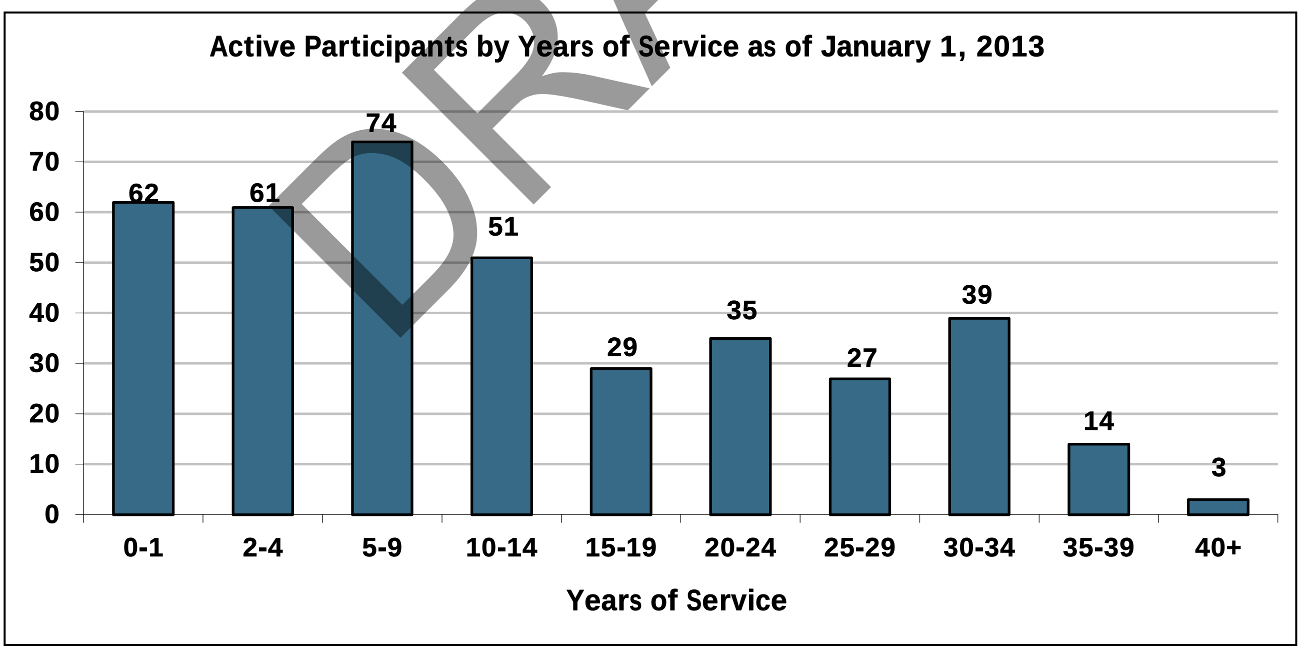


EXHIBIT 5
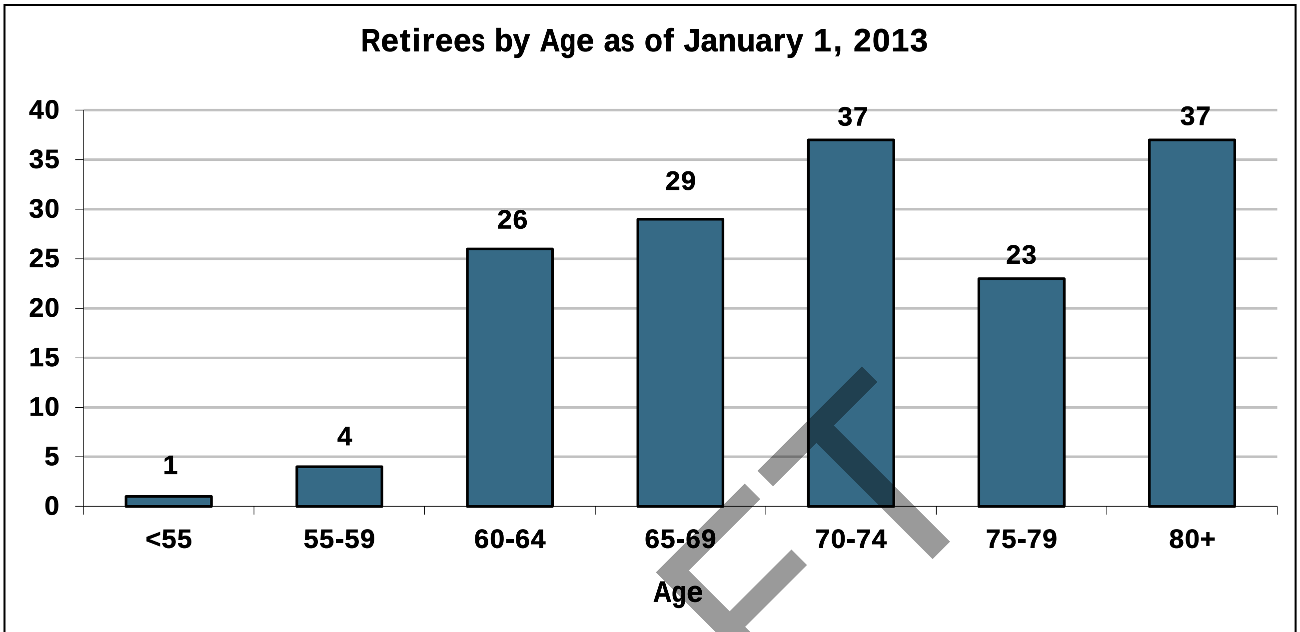
Retired Participant Data



Retirees include those on service retirement, disability retirement and beneficiaries with survivor benefits.

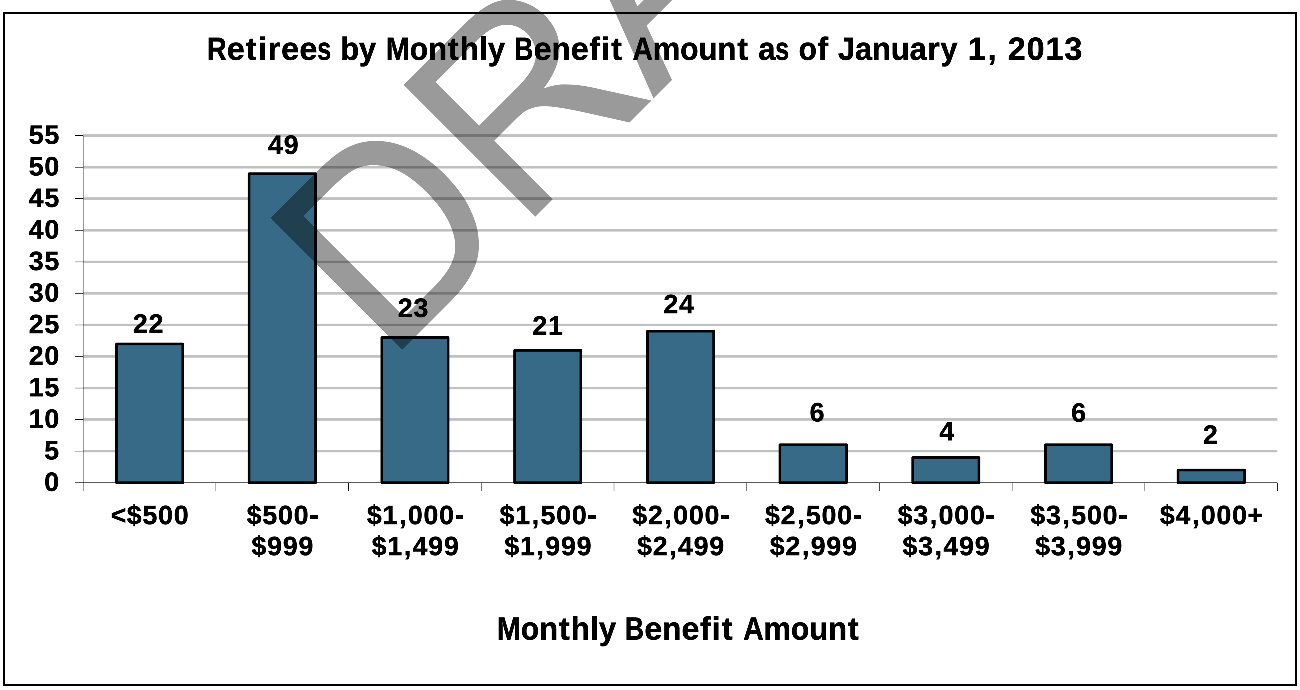


EXHIBIT 6
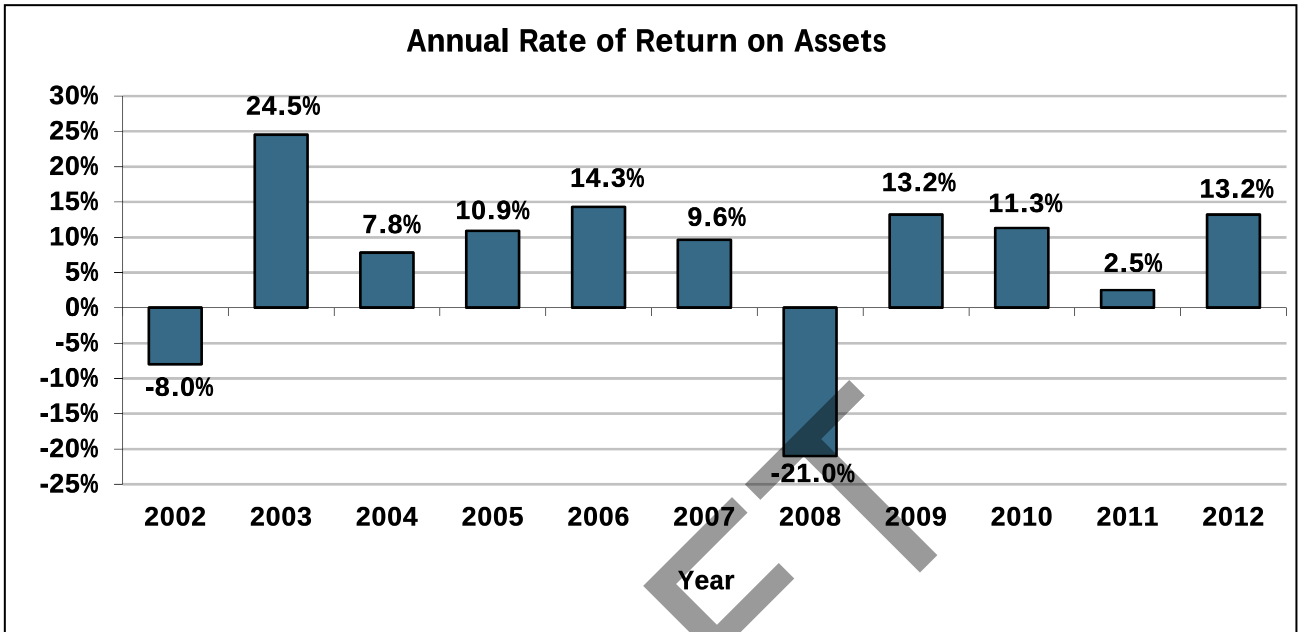
Reconciliation of Assets

1. Beginning Balance as of January 1, 2012			$ 59,108,805
2. Revenue			
(a) Employer's Contribution			
(i)	General Property Tax	$ 949,179	
(ii)	Mobile Home Tax	11,205	
(iii)	Homestead Credit	5,046	
(iv)	Disabled Veteran Credit	3,655	
(v)	State Payment in Lieu of Tax	171,869	
(vi)	Park & Rec. Contribution	218,384	
(vii)	Department Contribution	$ 875,183	
(viii)	Total City Contribution	2,234,521	
(b) Employee's Contribution		954,286	
(c) Investment Income (Loss)		7,839,838	
(d) Total Revenue			$ 11,028,645
3. Expenditure			
(a) Pension Benefit Payments		$ 2,373,085	
(b) Professional & Legal Fees		981	
(c) Management Consulting		46,323	
(d) Administration Fees		32,093	
(e) Investment Expense		220,990	
(f) Pension Refund		60,758	
(g) Postage		854	
(h) Total Expenditure			$ 2,735,084
4. Net Income (Loss)			$ 8,293,561
5. Ending Balance as of December 31, 2012			$ 67,402,366

Total assets increased $8,293,561 during 2012. This increase was from net cash flow (total contributions less expenditures) of $453,723, and an investment income of $7,839,838. Some components were rounded up or down to ensure that the totals would add correctly. The net rate of return after expenses was 13.2%.

EXHIBIT 7
Historical Asset Information



Rates of return are determined after expenses. Calculations prior to 2004 exclude the employee accumulation fund (Kemper Account).

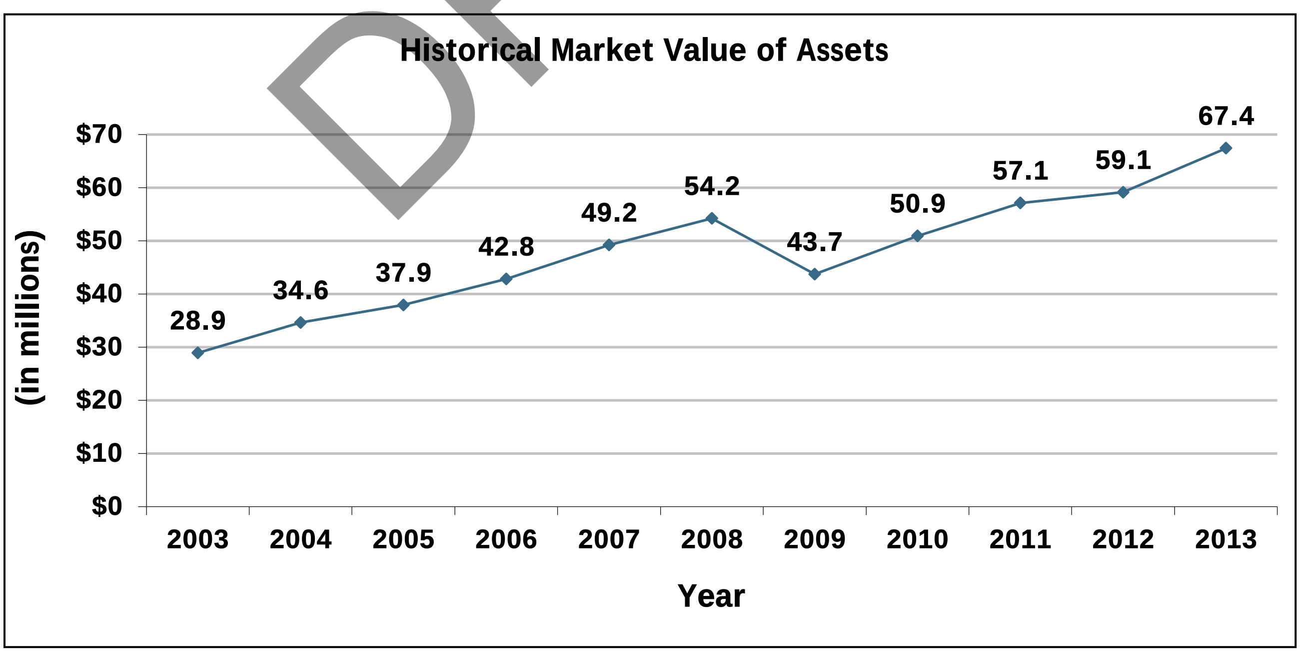


EXHIBIT 8
Actuarial Assumptions and Cost Methods

Economic Assumptions

Investment Return: The Fund is assumed to earn 7.5% per year after expenses.

Salary Scale: Active Participant Salaries are assumed to increase at rates according to the following table:

Years of Service	Rate
0-9	5.0%
10+	4.0%

Inflation: The amortization of the Unfunded Actuarial Accrued Liability is determined as a level percent of payroll using a 3% total payroll growth assumption.

Demographic Assumptions

Retirement: Active Participant retirement rates are based on plan experience between 1/1/05 and 12/31/11 (See Illustrations on Page 14).

Mortality: Mortality rates are based on the 1994 Group Annuity Mortality Table (See Illustrations on Page 14).

Disability: None.

Withdrawal: Active Participant termination rates are based on plan experience between 1/1/05 and 12/31/11 (See Illustrations on Page 14).

Spouse Age: Male Participants are assumed to be 3 years older than female spouses. Female Participants are assumed to be 3 years younger than male spouses.

Marriage Rate: 85% of Participants are assumed to be married.

EXHIBIT 8 (Continued)
Actuarial Assumptions and Cost Methods

Cost Methods

Form of Benefit: Married Participants receive their benefit in the form of a Joint and Two Thirds to Survivor annuity. Single Participants receive their benefit in the form of a Life Only annuity.

Actuarial Asset Value: The Actuarial Value of Assets is equal to the Market Value of Assets reserved for employee pension benefits.

Expenses: Plan expenses are paid from plan assets.

Funding Method: The contribution requirement is determined using the Entry Age Normal actuarial cost method.

Illustrations

	Rate of Mortality (per 1,000)	
Age	Male	Female
25	0.66	0.29
30	0.80	0.35

Gallagher Benefit Services, Inc.

EXHIBIT 9
Development of Unfunded Actuarial Accrued Liability

	1/1/13	
1. Actuarial Accrued Liability		
(a) Participants receiving benefits	$	22,846,639
(b) Terminated vested Participants		2,910,827
(c) Active Participants		46,229,620
(d) Total Participants = (a)+(b)+(c)	$	71,987,086
2. Adjustment for cost of living adjustments		663,059
3. Adjustment for assumption changes		0
4. Actuarial Accrued Liability after adjustments = (1)(d)+(2)+(3), not less than zero	$	72,650,145
5. Actuarial Value of Assets		67,402,366
6. Unfunded Actuarial Accrued Liability as of January 1, 2013 = (4)-(5)	$	5,247,779

Under the Entry Age Normal actuarial cost method, the Unfunded Actuarial Accrued Liability is recalculated each year. The Actuarial Accrued Liability is valued using participant data, plan provisions and assumptions as of the valuation date. Past demographic or economic experience different than assumed is called an actuarial gain or loss and is reflected in the Unfunded Actuarial Accrued Liability. A breakdown of actuarial gains and losses from the past year is shown on the next page.

The Unfunded Actuarial Accrued Liability is amortized over a fixed period of time. The amortization period was reset at 30 years as of January 1, 2009. Therefore, there are 26 years remaining in the amortization period. The resulting amortization payment is a component of the Annual Required Contribution.

The Unfunded Actuarial Accrued Liability is scheduled to be reduced to $0 over the amortization period. However, this schedule is met only if all assumptions are met and the actual employer contribution equals the Annual Required Contribution each year. If assumptions are not met, an actuarial gain or loss will either decrease or increase the UAAL. Also, if the employer contribution exceeds the recommended contribution, the UAAL will be reduced more rapidly. Alternatively, if the employer contribution is less than the recommended contribution, the UAAL will reduce more slowly or even increase.

EXHIBIT 10
Development of Actuarial (Gain)/Loss

Development of Liability (Gain) or Loss

Actual Actuarial Liability as of January 1, 2012		$ 67,314,169
Expected changes		
▪ Normal cost	$ 1,809,331	
▪ Interest at 7.5%	5,184,263	
▪ Cost of living adjustment	663,059	
▪ Benefit payments with interest to year end	(2,525,112)	
▪ Total expected changes		$ 5,131,541
Expected Actuarial Liability as of January 1, 2013		$ 72,445,710
Actual Actuarial Liability as of January 1, 2013		72,650,145
Actuarial Liability (gain) or loss		$ 204,435

Breakdown of Actuarial Liability (gain) or loss by source	
▪ Participant experience different than assumed for death, retirement, termination, disability and other amounts	$ 488,008
▪ Inactive mortality	51,285
▪ Salary increases other than expected	(347,245)
▪ New entrants	12,387
▪ Assumption changes	N/A
Actuarial Liability (gain) or loss	$ 204,435

Development of Asset (Gain) or Loss

Market Value of Assets as of January 1, 2012	$ 59,108,805
▪ Interest at 7.5%	4,433,160
▪ Actual contributions with interest to year-end	3,308,387
▪ Actual benefit payments with interest to year-end	(2,525,112)
▪ Actual expenses with interest to year-end	(312,538)
Expected value of assets as of January 1, 2013	$ 64,012,702
Actual value of assets as of January 1, 2013	67,402,366
Asset (gain) or loss	$ (3,389,664)

A (gain)/loss occurs when actual demographic or economic experience is different from the valuation assumptions. For example, if salary increases are greater (lower) than expected the liability will go up (down). During 2012, an actuarial liability loss of $204,435 and an asset gain of $3,389,664 resulted in a decrease in UAAL of $3,185,229 more than expected.

EXHIBIT 11
Recommended Amortization Schedule

Year	Unfunded Liability at Beginning of Year	Annual Amortization Payment	Unfunded Liability at End of Year
2013	$ 5,247,779	$ 327,366	$ 5,289,444
2014	5,289,444	337,187	5,323,676
2015	5,323,676	347,303	5,349,602
2016	5,349,602	357,722	5,366,271
2017	5,366,271	368,453	5,372,655
2018	5,372,655	379,507	5,367,634
2019	5,367,634	390,892	5,349,997
2020	5,349,997	402,619	5,318,432
2021	5,318,432	414,697	5,271,515
2022	5,271,515	427,138	5,207,705
2023	5,207,705	439,952	5,125,334
2024	5,125,334	453,151	5,022,596
2025	5,022,596	466,746	4,897,540
2026	4,897,540	480,748	4,748,051
2027	4,748,051	495,170	4,571,847
2028	4,571,847	510,025	4,366,458
2029	4,366,458	525,326	4,129,217
2030	4,129,217	541,086	3,857,241
2031	3,857,241	557,319	3,547,416
2032	3,547,416	574,038	3,196,381
2033	3,196,381	591,259	2,800,506
2034	2,800,506	608,997	2,355,872
2035	2,355,872	627,267	1,858,251
2036	1,858,251	646,085	1,303,078
2037	1,303,078	665,468	685,432
2038	685,432	685,432	0

The Annual Amortization Payment is determined by amortizing the Unfunded Actuarial Accrued Liability (UAAL) over 26 years as a level percentage of total payroll. Total payroll is assumed to increase at 3% per year. Therefore, the UAAL of $5,247,779 as of January 1, 2013 is scheduled to be fully amortized over a 26-year period with payments increasing from $327,366 in 2013 by 3% per year.

This schedule is in accordance with Governmental Accounting Standards Board No. 27 guidelines. The City commission has approved that the City contribution will be 10.4% of salary.

The annual City contribution of 10.4% of salary will be enough to amortize the UAAL over 6 years. Please see Exhibit 13 for more details.

EXHIBIT 12
Development of Annual Required Contribution

Annual Required Contribution (Dollar Amounts)

	2012	2013
1. Total Normal Cost	$ 1,809,331	$ 1,894,480
2. Expected employee contribution	(938,819)	(969,692)
3. City Normal Cost	$ 870,512	$ 924,788
4. Amortization of Unfunded Actuarial Accrued Liability	501,889	327,366
5. Total Annual Required Contribution	$ 1,372,401	$ 1,252,154
6. Interest to mid-year at 7.5%	51,465	46,956
7. Recommended contribution, mid-year = (5)+(6)	$ 1,423,866	$ 1,299,110

Annual Required Contribution (As a Percent of Payroll)

	2012	2013
1. Total Normal Cost	9.6%	9.8%
2. Expected employee contribution	(5.0%)	(5.0%)
3. City Normal Cost	4.6%	4.8%
4. Amortization of Unfunded Actuarial Accrued Liability	2.7%	1.7%
5. Total Annual Required Contribution	7.3%	6.5%
6. Interest to mid-year at 7.5%	0.3%	0.2%
7. Recommended contribution, mid-year = (5)+(6)	7.6%	6.7%

Percent of Payroll results are based on total expected covered payroll of $18,776,386 in 2012 and $19,393,833 in 2013. The expected city contribution of 10.4% of covered payroll is more than the 2013 Annual Required Contribution of 6.7%.

EXHIBIT 13
10.4% of Payroll Funding Amortization Schedule

Year	Unfunded Liability B.O.Y.	Amortization Payment E.O.Y.	Unfunded Liability E..O.Y.
2013	$ 5,247,779	$ 1,060,059	$ 4,581,304
2014	4,581,304	1,091,861	3,833,041
2015	3,833,041	1,124,617	2,995,902
2016	2,995,902	1,158,355	2,062,240
2017	2,062,240	1,193,106	1,023,802
2018	1,023,802	1,100,587	0

The City commission has approved that the City contribution will be 10.4% of salary. The expected contribution for 2013 on this basis is $2,016,959. The Annual Amortization Payment shown above represents the total expected City contribution available to reduce the UAAL at the end of that year after a reduction for payment of the annual City normal cost.

As shown above, a City contribution of 10.4% of salary per year will amortize the UAAL over 6 years.

Gallagher Benefit Services, Inc.

EXHIBIT 14
Statement of Accumulated Plan Benefits

A measure of the degree of progress made in funding any plan is a comparison between the Accumulated Benefit Liability and the assets accumulated to date. The Accumulated Benefit Liability measures the present value of future benefit payments. However, benefit payments are based only on service and salaries earned as of the valuation date. This liability amount is less than the Actuarial Accrued Liability used to determine the Annual Required Contribution, because the AAL anticipates future salary increases for active participants. The liabilities are determined using the regular valuation assumptions. The table below shows the actuarial present value of the Accumulated Benefit Liability.

Actuarial Present Value of Accumulated Plan Benefits (PVAB)

	1/1/12	1/1/13
Vested accrued benefits		
▪ Participants currently receiving payments	$ 20,008,750	$ 23,509,698
▪ Other Participants	30,489,934	32,089,782
Total vested accrued benefits	$ 50,498,684	$ 55,599,480
Non-vested accrued benefits	74,200	84,279
Total accrued benefits	$ 50,572,884	$ 55,683,759

Statement of Changes in Accumulated Plan Benefits

Beginning value, January 1, 2012	$	50,572,884
Increases (Decreases)		
▪ Cost of living adjustment	$	663,059
▪ Change in actuarial assumptions		0
▪ Benefits accumulated and (gain)/loss		3,178,312
▪ Increase for interest due to decrease in discount period		3,703,347
▪ Benefits paid		(2,433,843)
▪ Net increase (decrease)	$	5,110,875
Ending Value, January 1, 2013	$	55,683,759

The ratio of assets to the above liabilities (known as the Funding Ratio) represents the degree to which Accumulated Benefit liability has been funded. As of January 1, 2013, the Market Value of Assets was $67,402,366. The table below outlines the funding ratios.

Funding Ratio (Assets/PVAB)	
Vested accrued benefits	121%
Total accrued benefits	121%

EXHIBIT 15
GASB Statement No. 25

Statement No. 25 requires disclosure of supplementary information in the form of two schedules, the Schedule of Funding Progress and the Schedule of Employer Contributions. The schedules are shown below.

Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded Actuarial Accrued Liability (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b - a) / c]
1/1/2003	$ 28,324,967	$ 32,464,523	$ 4,139,556	87.2%	$ 11,806,729	35.1%
1/1/2004	34,646,791	39,088,399	4,441,608	88.6%	12,441,844	35.7%
1/1/2005	37,922,220	42,856,344	4,934,124	88.5%	12,765,077	38.7%
1/1/2006	42,836,388	48,871,708	6,035,320	87.7%	13,106,843	46.0%
1/1/2007	49,153,640	50,825,581	1,671,941	96.7%	13,892,759	12.0%
1/1/2008	54,224,695	55,307,884	1,083,189	98.0%	14,901,848	7.3%
1/1/2009	43,690,842	59,315,384	15,624,542	73.7%	15,932,987	98.1%
1/1/2010	50,883,840	64,117,376	13,233,536	79.4%	17,134,528	77.2%
1/1/2011	57,154,675	68,666,067	11,511,392	83.2%	17,408,878	66.1%
1/1/2012	59,103,632	67,314,169	8,210,537	87.8%	18,776,386	43.7%
1/1/2013	67,402,366	72,650,145	5,247,779	92.8%	19,393,833	27.1%

Schedule of Employer Contributions

Year Ended	Annual Required Contribution (a)	Employer Contribution (b)	Percentage Contributed (b / a)
12/31/2003	$ 1,531,586	$ 906,670	59.2%
12/31/2004	1,267,143	1,678,601	132.5%
12/31/2005	1,414,021	2,113,743	149.5%
12/31/2006	1,233,248	2,147,360	174.1%
12/31/2007	1,068,130	2,182,902	204.4%
12/31/2008	1,090,182	2,542,707	233.2%
12/31/2009	2,010,653	2,649,359	131.8%
12/31/2010	1,958,692	1,862,086	95.1%
12/31/2011	1,904,777	2,076,309	109.0%
12/31/2012	1,423,866	2,234,521	156.9%
12/31/2013	1,299,110	TBD	TBD

EXHIBIT 16
GASB Statement No. 27

The GASB Statement No. 27 annual pension expense is defined as the Annual Required Contribution (ARC) plus one year's interest on the Net Pension Obligation (NPO) offset by an adjustment to the Annual Required Contribution (ARC). The NPO is defined as the cumulative difference, including interest, for the years prior to the transition date between (a) the employer's required contributions in accordance with the plan's actuarially determined funding requirements and (b) the contributions made by the employer in relation to the required contributions. The adjustment to the Annual Required Contribution is necessary to amortize past contribution deficiencies or excess contributions of the employer.

	2012 Plan Year	2013 Plan Year
Annual Required Contribution (ARC)	$ 1,372,401	$ 1,252,154
Interest on Net Pension Obligation (asset)	(376,061)	(445,937)
Adjustment to Annual Required Contribution - Beginning of Year NPO amortized as a level percent of pay over a closed 30 year period beginning 1/1/2009[1]	306,502	370,912
Annual Pension Cost	$ 1,302,842	$ 1,177,129
Contributions Made	2,234,521	*
Increase (decrease) in Net Pension Obligation (asset)	$ (931,679)	$ *
Net Pension Obligation (asset) beginning of year	(5,014,152)	(5,945,831)
Net Pension Obligation (asset) end of year	$ (5,945,831)	$ *

[1]The 2012 Amortization Factor is 16.36. The 2013 Amortization Factor is 16.03.

* To be determined at end of year.

The Net Pension Obligation at transition (January 1, 2007) is the cumulative difference, including interest, between (a) the employer's required contributions in accordance with the plan's actuarially determined funding requirements and (b) the contributions made by the employer in relation to the required contributions. The cumulative difference was based on plan records dating back to January 1, 2001. Since the Unfunded Actuarial Accrued Liability as of that date was $0, all actuarially determined required contributions prior to that date are assumed to have been made.
