Board of Trustees
Teachers' Pension and Annuity Fund of New Jersey
State of New Jersey
Department of the Treasury
Division of Pensions and Benefits, CN 295
Trenton, NJ 08625-0295

Ladies and Gentlemen:

This report presents the revised results of the actuarial valuation of Teachers' Pension and Annuity Fund of New Jersey as of June 30, 2010. The report has been revised to reflect the pension reforms included in Chapter 78, P.L. 2011. Section I contains highlights of the valuation including a general discussion and comments on the various schedules included in the report. The subsequent Sections contain schedules summarizing the underlying calculations, asset information, participant data, plan benefits and actuarial assumptions.

Purpose

The main purposes of this report are:

- to provide the annual state contribution in accordance with N.J. Statutes to be made in the Fiscal Year ending June 30, 2012 which represents the contribution for the valuation year beginning July 1, 2010;
- to determine the Annual Required Contribution in accordance with Governmental Accounting Standards Board Statements 25 and 27 for the Fiscal Year ending June 30, 2012;
- to review the experience under the plan for the valuation year ending June 30, 2010; and,
- to present the impact of Chapter 78, P.L. 2011 on the financial situation of TPAF.

Actuarial computations presented in this report are for purposes of determining the statutory contribution amounts for TPAF. Actuarial computations under GASB Statements No. 25 and 27 are for purposes of fulfilling financial accounting requirements. The calculations in the enclosed report have been made on a basis

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

consistent with our understanding of the N.J. statutes and GASB Statements No. 25 and 27. Determinations for purposes other than these requirements may be significantly different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman's work is prepared solely for the internal business use of the State of New Jersey Division of Pension and Benefits. To the extent that Milliman's work is not subject to disclosure under applicable public records laws, Milliman's work may not be provided to third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product. Milliman's consent to release its work product to any third party may be conditioned on the third party signing a Release, subject to the following exception:

- The System may provide a copy of Milliman's work, in its entirety, to the System's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit the System.

No third party recipient of Milliman's work product should rely upon Milliman's work product. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Data Reliance

In performing this analysis, we relied, without audit, on census data, plan provisions, asset statements and other information (both written and oral) provided by the State of New Jersey Division of Pensions and Benefits. We have not audited or verified the census data, asset statements or other information. To the extent any of these are inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

We performed a limited review of the data used directly in our analysis for reasonableness and consistency and have not found material defects in the data. If there are material defects in the data, it is possible that they would be uncovered by a detailed, systematic review and comparison of the data to search for data values that are questionable or for relationships that are materially inconsistent. Such a review was beyond the scope of our assignment.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

Future Measurements

Future actuarial measurements may differ significantly from the current measurements presented in this analysis due to actual plan experience deviating from the actuarial assumptions, and changes in plan provisions, actuarial assumptions, and applicable law. An assessment of the potential range and cost effect of such differences is beyond the scope of this analysis.

Certification

We hereby certify that, to the best of our knowledge, this report, including all costs and liabilities based on actuarial assumptions and methods adopted by the Board or mandated by statute, is complete and accurate and determined in conformance with generally recognized and accepted actuarial principles and practices, which are consistent with the Actuarial Standards of Practice promulgated by the Actuarial Standards Board and the applicable Guides to Professional Conduct, amplifying Opinions and supporting Recommendations of the American Academy of Actuaries.

In compliance with New Jersey statute, this actuarial valuation is based on an investment return assumption of 8.25%. The investment return assumption is specified by the State Treasurer. Based on our most recent analysis, this assumption is outside our reasonable range. If the investment return assumption was lowered, the actuarial accrued liability and statutory contributions would increase and the funded ratio would decrease. Determining results at an alternative investment return assumption is outside the scope of our assignment.

We are members of the American Academy of Actuaries and meet its Qualification Standard to render this actuarial opinion.

Respectfully submitted,

MILLIMAN, INC.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments

This report summarizes the revised results of the actuarial valuation of the Teacher's Pension and Annuity Fund (TPAF) as of June 30, 2010. This revised valuation reflects the adoption of Chapter 78, P.L. 2011. There are many provisions in this legislation impacting the benefits received from and contributions made to TPAF. Some provisions will have an immediate impact on the revised June 30, 2010 actuarial valuation results while other provisions will first impact actuarial valuation results in future years. The exhibits shown on pages 1 - 8 compare the results of revised June 30, 2010 actuarial valuation with the original valuation.

Provisions with Immediate Impact on Actuarial Valuation Results

- Effective July 1, 2011, additional pension adjustment benefits (COLAs) for all current and future retirees will cease
- Effective October 1, 2011, the employee contribution rate will increase from 5.5% to 6.5% of compensation, and then increase by 1/7 of 1% each July 1 thereafter, until an ultimate rate of 7.5% is attained on July 1, 2018
- The amortization method is changed to a level dollar method from level percent of pay

These changes resulted in a significant reduction in the actuarial accrued liability of \$8,173.4 million or 14.4%. The funded ratios of the system increased from 45.5% to 53.2% on a market value basis and from 58.6% to 68.4% on an actuarial value basis. These revised results are primarily due to the elimination of the COLAs. Previous actuarial valuations included the present value of expected pension adjustments to active, retired and deferred vested member's retirement benefits. Chapter 78 eliminated any increases in pension adjustments after July 1, 2011. Please note that Chapter 78 does provide for the possibility of re-establishing pension adjustments in future years once the Target Funded Ratio is attained. This feature is discussed further below.

These changes also resulted in a decrease in the full statutory contribution for the fiscal year ending June 30, 2012 of \$176.4 million or 8.1%. The statutory contribution continues to be phased-in over a 7-year period according to Chapter 1, P.L. 2010 beginning with the fiscal year ending June 30, 2012. The reduction in the phased-in contribution is \$25.2 million. This is primarily due to the elimination of the

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

COLAs offset by the change in the amortization method from level percent of pay to level dollar.

A 30-year level percent of pay amortization method results in an amortization payment that is less than the interest on the unfunded liability. This results in an increase in the unfunded liability. Therefore if the amortization period continues to be reset to 30 years each year, the unfunded liability will continue to increase even if full accrued liability contributions are made. A level dollar amortization results in an amortization payment greater than interest on the unfunded liability. If the full amortization payment is made, the unfunded liability would be expected to decrease assuming no other gains or losses. This change in the amortization method increased the amortization payment by 67%.

Provisions Impacting future Actuarial Valuation Results

- The unreduced retirement age would be increased to age 65 for members hired on or after June 28, 2011
- For members hired on or after June 28, 2011, the eligibility for early retirement would be increased to 30 years of service. The early retirement reduction factors will be 3% per year from age 65
- The maximum amortization period will be reduced by 1 each year beginning with the June 30, 2019 valuation (2021 fiscal year), but not less than 20 years attained with the June 30, 2028 valuation (2030 fiscal year)
- Additional employee contributions in excess of 5.5% of compensation would not be used to offset the State's contribution. Although this provision is not included in Chapter 78, it is our understanding that the State's intention is to utilize this provision in the State's contribution determination. This provision would first be reflected in the 2011 actuarial valuation.

The changes affecting new members hired after July 1, 2011 would first be reflected in the 2012 actuarial valuation as that will be the first valuation that includes data for members hired after July 1, 2011.

The reduction in the amortization period and excluding any employee contributions in excess of 5.5% will increase the statutory contributions in future years, thus improving the funded status of the system over time.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Miscellaneous Provisions

- Each member of TPAF will have a contractual right to the annual required contribution made by the employer requiring the contribution to be made timely to help ensure the retirement system is securely funded
- Upon attainment of the target funded ratio, a new pension committee will be formed to review possible changes to member contributions, retirement benefits including eligibility conditions, and with priority consideration, reactivation of pension adjustment benefits

The Target Funded Ratio (TFR) is defined as the ratio of the Actuarial Value of Assets to the Actuarially Accrued Liability and equals 75% for fiscal year 2012 (June 30, 2010 actuarial valuation) increasing to 80% in equal increments over the following 7 years. Once the TFR is attained, a special pension committee will be formed and have the authority to modify member contribution rates, calculation of final compensation, benefit formula, eligibility conditions and benefits provided for disability retirement. Also, the committee shall give priority consideration to reactivating pension adjustment benefits. The committee may modify the basis for the calculation of the adjustment and set the duration and extent of the reactivation. No decision of the committee will be implemented if the system's funded ratio falls below the TFR in any projected valuation period during the 30 years following implementation.

Provisions Not Included in Chapter 78, P.L. 2011

The Administration's original proposal released in the fall of 2010 regarding pension reform included a reduction in the investment return assumption from 8.25% to 7.5%. This assumption is set by the State Treasurer and the reduction was not included in Chapter 78, P.L. 2011. Based on our most recent analysis, the current assumption of 8.25% is outside our reasonable range. We recommend a reduction in the assumption. A reduction in the assumption would increase the actuarial accrued liability and the statutory contributions and would decrease the funded ratio.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

GASB Annual Required Contribution

Chapter 92, P.L. 2007 states that the System shall use consistent and generally accepted actuarial standards as established by GASB for the purpose of determining asset values, obligations and employer contributions. However, the System's contribution requirements, which are defined in NJ State statute, differ from the GASB compliant figures that are shown in this report. Also, current budgetary practices do not assess interest on contributions to reflect payment after the start of the fiscal year to the date paid. Page 4 contains a Summary Exhibit on the Annual Required Contribution (ARC) per GASB 25 and 27. GASB 25 and 27 do not allow the use of a term cost funding method for the non-contributory group life insurance (NCGI). Furthermore, since the contributory group life insurance is provided through TPAF, an actuarial cost for these benefits is included in the ARC. Expected employee contributions of 0.4% of pay offset the normal cost portion of the contributory group life insurance. For the 2007 and later fiscal years, the ARC includes an actuarial determination of the cost of the non-contributory and contributory group life insurance. The ARC in prior years included the term cost for the non-contributory group life insurance.

The revised ARC for the 2012 fiscal year is \$2,269.8 million, which is \$224.3 million or 11.0% higher than the sum of the required statutory pension contribution of \$2,009.8 million and the estimated non-contributory group life insurance term cost of \$35.7 million for a total of \$2,045.5 million. Due to Chapter 78, the ARC for the 2012 year has decreased \$234.6 million or 9.4%.

Statutory Contributions

The statutory contribution requirements are highlighted on Summary Exhibits shown on pages 3 (pension only) and 5 (pension, NCGI and ERI). Included on these exhibits is our understanding of the effect of the fiscal year 2011 State budget resolution on contributions to the system for the 2011 and 2012 fiscal years. These exhibits are discussed in detail in the paragraphs below.

The required statutory pension contribution is \$2,009.8 million for the State's 2012 fiscal year. This contribution consists of the Normal Contribution (\$525.0 million), the Additional Formula Contribution (\$95.2 million) and the Accrued Liability Contribution (\$1,389.6 million). Chapter 92 P.L. 2007 eliminated the use of any Excess Assets to offset the pension normal cost in determining the Normal

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Contribution. Chapter 133 P.L. 2001 established the Benefit Enhancement Fund (BEF) to reduce the State's Additional Formula Normal Contribution. As of June 30, 2010, there are no assets in the BEF so no offset occurred and there are no Excess Assets as of July 1, 2010, so no assets will be transferred to the BEF as of that date.

In addition to the pension contribution, the estimated non-contributory group life payment is \$35.7 million and the ERI-3 contribution is \$2.75 million for the State's 2012 fiscal year.

The summary exhibit on Page 3 reflects our understanding of the effect of the fiscal year 2011 State budget resolution on these contributions to the system for the 2011 and 2012 fiscal years as outlined below:

- For the 2011 fiscal year, the State did not appropriate any portion of the \$1,826.7 million pension contribution or the \$1.7 million ERI-3 contribution. The actual amount of the non-contributory group life insurance claims of \$30.7 million was appropriated.
- Since an appropriation to cover the 2011 fiscal year pension contribution (\$1,826.7 million) was not made, this increases the Unfunded Actuarial Accrued Liability as of July 1, 2010 by \$1,826.7 million resulting in an increase in the 2011 fiscal year Accrued Liability Contribution of \$111.0 million. The accumulated value of statutory pension contributions, excluding ERI-3 contributions, not appropriated by the State in fiscal years 2004 through 2011 equals \$7,539.2 million. The Unfunded Actuarial Accrued Liability as of July 1, 2010 is \$15,281.5 million.
- For the 2012 fiscal year, Chapter 1, P.L. 2010 requires 1/7th or approximately 14.3% of the statutory pension contribution of \$2,009.8 million and the combined ERI-3 and ERI-5 contributions of \$2.8 million to be appropriated. This amounts to \$287.1 million for the pension contribution plus \$0.4 million for the ERI contribution. In addition, it is anticipated that the State will appropriate an amount to cover the non-contributory group life insurance claims (NCGI est. \$35.7 million). In displaying the results of this actuarial valuation, we have not reduced the contribution otherwise due under statute to reflect the expectation that funds will not be appropriated.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Actuarial Value of Assets

As mandated by statute, only 20% of the difference between the expected actuarial value of assets and the market value is recognized in calculating the actuarial value of assets each year. Due to the significant drop in the financial markets since 2007, the actuarial value of assets as of June 30, 2010 is 129% of market value, which is a decrease from the prior year's ratio of 139%. Section III(G) shows the impact of using the market value of assets to determine the statutory pension contribution instead of the actuarial value.

Actuarial Accrued Liability

Due to Chapter 78, the actuarial accrued liability excludes any additional actuarial liability due to pension adjustment benefits for actives, retirees, terminated vested members and beneficiaries that would have been provided after July 1, 2011. It excludes the actuarial liability associated with the group life insurance benefits and post retirement medical benefits. The State will appropriate funds to cover the actual amount of the non-contributory group life insurance claims. The post retirement medical benefits are no longer financed through TPAF. The liabilities are based on the assumptions adopted in the 2009 Experience Study.

Normal Cost

For purposes of calculating employer contributions, the portion of the normal cost attributable to the pension adjustment benefits for active members is reflected separately. Since Chapter 78 eliminated the pension adjustment benefits, this portion of the normal cost has been eliminated.

Unfunded Actuarial Accrued Liability

The unfunded Actuarial Accrued Liability decreased by \$3,428.8 million from \$18,710.3 million as of July 1, 2009 to \$15,281.5 million as of July 1, 2010 reflecting Chapter 78. The following table summarizes the reasons for the decrease in the unfunded liability.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Unfunded Liability as of June 30, 2009	\$18,710.3
Chapter 78, P.L. 2011	(8,173.4)
Impact of 2009 Experience Study	1,170.7
Pension Contribution Less than State Appropriation for Prior Year	67.6
State Appropriation Less than Statutorily Required	1,826.7
Phase-in of Pension Adjustment Benefits	69.2
Amortization Payment Less/(More) than Interest Accrual	406.4
Actuarial Loss/(Gain)	1,244.2
Member Contributions Less/(More) than anticipated	<u>(40.2)</u>
Total Change in Unfunded Liability	\$(3,428.8)
Unfunded Liability as of June 30, 2010	\$15,281.5

Funded Ratio

The funded ratio as of June 30, 2010 based on the actuarial value of assets is 68.4%. Since this is lower than the Target Funded Ratio for the 2012 fiscal year of 75%, no adjustments may be made to the benefits of the system. On a market value basis, the funded ratio is 53.2%. Since July 1, 2001, the funded ratio on a market value basis has decreased 41.1%. This decrease is primarily due to investment losses experienced over the period, State contributions less than the GASB Annual Required Contribution and the strengthening of actuarial assumptions offset slightly by Chapter 78, P.L. 2011.

As of June 30, 2010, the market value of assets is below the actuarial liability attributable to retirees due to significant investment losses during fiscal years 2008 and 2009 and State contributions significantly less than the statutorily required contribution. However, the liability attributable to retirees decreased significantly due to Chapter 78 eliminating pension adjustment benefits. Including all assets, the funded ratio is 94.1%. If the assets contained in the Annuity Savings Fund (ASF) are excluded, the funded ratio of the remaining market value of assets to the actuarial accrued liability for retirees is 60.7%.

As of June 30, 2010, the ratio of market value of assets to the prior year's benefit payments is 8.7. This is a simplistic measure of the number of years that the assets

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

can cover benefit payments, excluding: investment income, State and member contributions, and future increases in those payments. Due to the elimination of the pension adjustment benefits under Chapter 78, this ratio is now closer to the accrued liability ratio of 9.3 for retirees. If ASF assets are excluded, since they represent accumulated contributions from active and inactive members, the ratio is 5.6.

Actuarial Gain/(Loss) Analysis

TPAF experienced an actuarial loss of \$1,244.2 million during the period July 1, 2009 to June 30, 2010 based on the actuarial assumptions adopted in the 2006 Experience Study. This loss is approximately 2.2% of the Actuarial Accrued Liability as of June 30, 2010. The major factors contributing to this loss are summarized below and are compared to the experience for the prior two plan years.

	<u>June 30, 2010</u>	<u>Gain/(Loss)</u> <i>(Amounts in Millions)</i> <u>June 30, 2009</u>	<u>June 30, 2008</u>
Economic Factors:			
Investment Return	\$(1,843.2)	\$(2,433.5)	\$(1,045.7)
Salary Increases	188.3	230.0	20.1
Pension Adjustments (COLA)	587.5	(286.0)	125.2
Expenses	(12.2)	(13.2)	(14.3)
Demographic Factors:			
Active Members	(78.9)	(34.5)	(82.8)
New Entrants	(47.7)	(61.7)	(58.0)
Non-Contributing Members	(28.0)	(29.4)	(28.4)
Retirees and Beneficiaries	<u>(10.0)</u>	<u>(75.0)</u>	<u>(47.3)</u>
Total	(1,244.2)	(2,703.3)	(1,131.2)

Total pension assets earned investment returns of approximately 13.83% on a market value basis and 2.74% on an actuarial value basis for the period ending June 30, 2010. The determination of the approximate rate of return on the market value of assets is based on all assets of the fund including receivables and payables in addition to the investment holdings. This will result in a different rate of return reported by the Division of Investments. The resulting loss to the plan of \$1,843.2

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

million represents the shortfall in the actuarial value of assets relative to the 8.25% assumed investment return.

Salary increases for contributory members who were active on both July 1, 2009 and July 1, 2010 averaged 4.81% versus expected salary increases of 5.97% resulting in an actuarial gain of \$188.3 million. Salaries for new entrants averaged \$49,014, which is significantly below the average salary of all contributory members of \$69,402. This resulted in the average salary of all contributory members increasing by 2.9% over last year, with total contributory payroll also growing by 2.9%.

For annuitants receiving benefits since 2007, the pension adjustments were based on no CPI increase for the prior year, which is lower than the 3.0% actuarial assumption for CPI increases. This resulted in an actuarial gain of \$587.5 million.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits

Assets

Section II summarizes the System assets taken into account in the preparation of the actuarial valuation. Subsection A summarizes the market value of System assets as of June 30, 2010 and includes the present value of expected contributions from State and local employers for ERI and Terminal Funding retirements as of June 30, 2010.

Subsection B reconciles the development of the market value of pension assets starting from the market values as of June 30, 2009, which reflects a reduction in the State contribution for fiscal year 2010 from the prior valuation report. Subsection C summarizes the development of the actuarial value of pension assets as of July 1, 2010. The exhibit reflects the growth in the pension assets based on the expected investment income at an assumed rate of 8.25% adjusted to reflect 20% of the difference between the market value of pension assets as of the valuation date and the expected actuarial value.

Subsection D estimates the annual rate of return for the year ending June 30, 2010 on the actuarial value and the market value of pension assets. Subsection E summarizes the estimated annual rates of return for the five previous plan years. The 5-year compounded annual return on the actuarial value of assets and the market value of assets are 4.36% and 3.56%, respectively.

Actuarial Liabilities and Contributions

Section III summarizes the actuarial liabilities and the development of the required State contribution for the plan year beginning July 1, 2010. The State is statutorily required to make three contributions, a Normal Cost Contribution, an Accrued Liability Contribution and an Additional Formula Normal Cost Contribution, which in general are determined under the Projected Unit Credit funding method. The Normal Cost and Additional Formula Normal Cost under the Projected Unit Credit funding method is defined as the present value of the benefits attributed to the current year. The Unfunded Accrued Liability (Surplus) is determined as the difference between the Actuarial Accrued Liability used to develop contributions and the Adjusted Actuarial Value of Assets (excludes the BEF). The actuarial liabilities

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

used to develop contributions reflect the assumptions developed in the 2009 Experience Study and the economic assumptions prescribed by the State Treasurer.

Subsection A summarizes the development of the Actuarial Accrued Liability as of July 1, 2010 for all current members and indicates the portion of those present values attributable to active participants, retirees and beneficiaries, and terminated vested participants. These liabilities include the liability for pension adjustment benefits provided to members prior to July 1, 2011. The non-contributory lump sum death benefits payable from active service, terminated vested status and retiree status have been excluded from the Actuarial Accrued Liability since those benefits are funded on a term cost basis. Projected benefits based on compensation in excess of the 401(a)(17) compensation cap for a group of grandfathered employees for certain School Districts under Chapter 113, P.L. 1997 have been included in the determination of the Accrued Liability.

Subsection B summarizes the development of the pension Normal Cost under the 1/60 and 1/55 formulas payable July 1, 2010. The schedule shows the portion of the Normal Cost attributable to: (1) the basic allowances and (2) pension adjustment benefits for active members (which have been eliminated due to Chapter 78) and (3) expected member contributions. The Normal Cost as of July 1, 2010 was developed based on the Projected Unit Credit Method. Projected benefits based on compensation in excess of the 401(a)(17) compensation cap for a group of grandfathered employees for certain School Districts under Chapter 113, P.L. 1997 have been included in the determination of the Normal Cost.

Subsection C summarizes the Actuarial Accrued Liability and Gross Pension Normal Cost (1/55 formula) for active contributory members by employee type as of July 1, 2010.

Subsection D summarizes the development of the Excess Valuation Assets which are \$0 as of July 1, 2010. The Excess Valuation Assets are determined by subtracting the Actuarial Accrued Liability for basic allowances and pension adjustment benefits, the Post Retirement Medical Premium Fund, the present value of the total projected normal cost in excess of the projected phased-in normal cost for pension adjustment benefits of active members and the BEF (prior to reduction

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

for the additional formula normal contribution for fiscal year 2012) from the Valuation Assets.

Subsection E summarizes the development of the BEF as of July 1, 2010 and the Additional Formula Normal Contribution. Chapter 133, P.L. 2001 established the BEF as of June 30, 1999. The BEF is \$0 as of June 30, 2010. The BEF is credited with excess assets not to exceed actual member contributions made to the system nor the present value of expected additional normal costs due to the formula change. Since there are no excess assets, there is no contribution to the BEF. Since the BEF is \$0, there is no offset to the additional formula normal cost.

Subsection F summarizes the development of the State's estimated fiscal year 2012 Statutory Required Contributions to TPAF comprising three components: pension, non-contributory group life insurance, and ERI. The total pension contribution of \$2,009,810,329 equals the Normal Contribution of \$525,052,954 based on the 1/60 formula plus the Additional Formula Normal Contribution of \$95,200,632 plus the Accrued Liability Contribution of \$1,389,556,743. The non-contributory group life insurance contribution represents a one year term cost of lump sum death benefits payable during active service, terminated vested status and retiree status and is estimated to be \$35,730,000. The State's combined ERI-3 and ERI-5 contributions are \$2,751,595. The total Statutory Required Contribution for the State's fiscal year 2012 is estimated to be \$2,048,291,924. This is an estimate because the State will contribute the actual 2012 fiscal year non-contributory group life insurance benefits, not the estimated amount shown above. For the 2012 fiscal year, Chapter 1, P.L. 2010 requires the State to contribute 1/7th of the pension and ERI portions of the contribution. Combined with the estimated contribution for the non-contributory group life insurance benefits, the expected amount to be appropriated is \$323,238,846.

Subsection G shows the Statutory Required Contribution as a percentage of appropriation payroll on two bases: (1) on a statutory basis – 20.41% and (2) as if the Market Value of Assets were used to determine the Accrued Liability Contribution – 27.10%. The latter figure is an estimate of the percentage of payroll that would need to be contributed each year for the next 30 years in order to fully amortize the unfunded actuarial pension liability assuming no gains or losses and a closed (amortization period is reduced by one year each year) amortization method.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

Subsection H summarizes these contributions as a percentage of appropriation payroll for the five previous fiscal years.

Subsection I shows the fiscal year 2012 Statutory Required Contribution based on the 1/60 formula, the Additional Formula Contribution after application of the BEF, the Accrued Liability Contribution and the estimated non-contributory group life insurance contribution payable by the State and certain State Colleges. It does not reflect the phase-in under Chapter 1, P.L. 2010. The State's contribution is allocated between the Department of Higher Education, Department of Education, County Colleges, Charter Schools and other.

Subsection J shows the calculation of the total actuarial gain (loss). The general comments section outlines the areas where experience differed from that expected.

Actuarial Balance Sheet

Section IV provides the actuarial balance sheet summarizing the assets and liabilities by Fund as of June 30, 2010. The assets credited to the various funds include the portion of the investment income allocated to each fund for the year and ending June 30, 2010. The actuarial value of assets is used as the basis for the balance sheet. Note that the actuarial value of assets is 29% higher than market value. The liabilities presented are based on the actuarial accrued liabilities summarized in Section III without any phase-in adjustments.

The actuarial balance sheet indicates the following transfers should be made:

(1) Retirement Reserve Fund

When a member retires, or when he dies and an allowance is payable to his beneficiary, the allowance including cost-of-living adjustments is paid from the Retirement Reserve Fund. The member's own contributions with interest are transferred from the Annuity Savings Fund, and the balance of the reserve on the total allowance is transferred from the Contingent Reserve Fund. As of June 30, 2010, the Retirement Reserve Fund has present assets of \$31,300,789,254 including accrued interest. The liabilities of the fund amount

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

to \$27,384,960,948 so that there is a credit of \$3,915,828,306 in the fund as of the valuation date. New Jersey statute states that the fund be put in balance as of June 30, 2010 by a transfer of assets from the Contingent Reserve Fund, and this transfer is shown in the balance sheet.

(2) Pension Fund

The reserves held in the Pension Fund represent the reserves on retirement allowances payable to non-veteran members who retired prior to 1956. As of June 30, 2010, the Pension Fund has assets credited to it amounting to \$136,373 including accrued interest. The liabilities of the fund amount to \$67,592 so that there is a surplus of \$68,781 in the fund as of the valuation date. It is recommended that the fund be put in balance as of June 30, 2010 by a transfer of assets to the Contingent Reserve Fund, and this transfer is shown in the balance sheet.

(3) Annuity Savings Fund and Contingent Reserve Fund

The Annuity Savings Fund, which is the fund to which members' contributions with interest are credited, has assets amounting to \$9,151,924,963 as of June 30, 2010 after accrued interest has been added. The Contingent Reserve Fund is the fund to which contributions made by the State and local employers to provide the benefits paid from retirement fund monies are credited. The assets creditable on an actuarial value basis to the Contingent Reserve Fund amount to \$(3,400,477,873) as of June 30, 2010 after adjustment is made on account of accrued interest and the amounts transferable from the Retirement Reserve Fund and the Pension Fund. If a market value basis was used, assets creditable to the Contingent Reserve Fund after transfers would amount to \$(10,773,308,667).

If a member withdraws from active service before qualifying for retirement, the amount of his accumulated deductions is paid to him from the Annuity Savings Fund. If he dies before retirement and no survivorship benefit is payable, his accumulated deductions are paid to his beneficiary from the Annuity Savings Fund. If he retires, or if he dies leaving a beneficiary eligible for a survivorship benefit, his accumulated deductions are transferred from the Annuity Savings

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

Fund to the Retirement Reserve Fund, and the reserve on the allowance which is not provided by his own deductions is transferred from the Contingent Reserve Fund to the Retirement Reserve Fund. Any lump sum benefit payable upon the death of a member before or after retirement is paid by The Prudential Insurance Company of America.

(4) Benefit Enhancement Fund

The reserves held in the BEF are used to fund the additional formula normal contributions. The BEF is credited with excess assets not to exceed actual member contributions made to the system nor the present value of the expected additional formula normal contributions. No additional excess assets will be credited to the BEF after the maximum amount is attained. If excess assets permit, monies are transferred from the Contingent Reserve Fund. As of June 30, 2010, the BEF has no assets.

(5) Special Reserve Fund

The Special Reserve Fund is the fund to which any excess interest earnings are transferred and against which any losses from the sale of securities are charged. The maximum limit on the accumulations in this fund is set at one percent of the market value of the investments of the retirement fund; any amounts in excess of this limit are creditable to the Contingent Reserve Fund. The Special Reserve Fund is considered as an asset of the retirement fund. This fund has assets amounting to \$0 as of June 30, 2010.

Accounting Information

Section V presents the accounting information required under Governmental Accounting Standards Statement No. 25 (GASB 25). Schedule A outlines the development of the Annual Required Contribution (ARC). The ARC comprises the employer's normal cost plus a specified amortization of the unfunded actuarial accrued liability (UAAL). For 2012 and later fiscal years (2010 and subsequent valuations), the amortization method selected for this system is an open level dollar method (level percentage of projected payroll based on an assumed payroll growth rate of 4.0% was used prior to the 2012 fiscal year) for 30 years. For fiscal years

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

2021 and later (2019 and subsequent valuations), the amortization period will close until the period reaches 20 years.

For 2007 and later fiscal years (the 2005 and subsequent valuations), an actuarial determination of the cost for non-contributory and contributory group life insurance benefits is included in the calculation since these benefits are paid from TPAF. Prior years included a term cost for the non-contributory group life insurance and excluded the contributory group life insurance. The portion of the ARC for the 2012 fiscal year attributable to group life insurance benefits is \$94.2 million. The total ARC for the 2012 fiscal year is \$2,269.8 million.

Schedule B shows the Net Pension Obligation (NPO) as of June 30, 2011 and a projected estimate as of June 30, 2012. The NPO represents the cumulative difference between the Annual Pension Costs for the system and the contributions made. After the actual contribution of \$30.7 million for fiscal year 2011 and expected contribution of \$322.8 million for fiscal year 2012, the NPO as of June 30, 2012 is expected to be \$11,965.6 million.

Schedule C is the Schedule of Funding Progress. This schedule presents the Actuarial Accrued Liability, the Actuarial Value of Assets, the Unfunded Accrued Liability, the funded ratio (assets as a percentage of Actuarial Accrued Liability), and the Unfunded Accrued Liability as a percentage of covered payroll. Six years of historical information are shown in compliance with GASB 25.

Schedule D is the Schedule of Employer Contributions. This schedule presents the ARC for the fiscal year, the employer contributions made for that fiscal year and the percentage of the ARC those contributions represent. For the fiscal year ending June 30, 2011 the employer contributions are 1.4% of the ARC and for the fiscal year ending June 30, 2012, the expected employer contributions are 14.2% of the ARC. Six years of historical information are shown in compliance with GASB 25. Schedule E presents the funding policy for the fiscal year. This disclosure includes the valuation date, the Actuarial Cost Method, the amortization period and method, the Asset Valuation Method, and certain key actuarial assumptions.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

Census Data

Section VI summarizes the census data provided by the Division of Pensions and Benefits and utilized in the preparation of the actuarial valuation. Subsection A provides a reconciliation of the current year participant counts from the prior valuation. Subsection B shows the appropriation count and salary information by group. Subsection C shows the number and annual retirement allowances with pension adjustments by beneficiary type. Subsection D shows information on members who retired since the last valuation split between those who retired with less than and more than 25 years of service. Subsection E shows the average age and average pension at retirement for retired members, disabled members, and beneficiaries. Subsections F and G present a profile of Contributory and Non-contributory members split by gender, summarized by 5-year age and service groupings. Subsection H provides a profile of terminated vested members, retired members, disabled members, and beneficiaries broken down into 5-year age categories. The census data represents the status of plan participants as of June 30, 2010.

In performing this analysis, we relied, without audit, on census data, plan provisions, asset statements and other information (both written and oral) provided by the State of New Jersey Division of Pensions and Benefits. We have not audited or verified the census data, asset statements or other information. To the extent any of these are inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

We performed a limited review of the data used directly in our analysis for reasonableness and consistency and have not found material defects in the data. If there are material defects in the data, it is possible that they would be uncovered by a detailed, systematic review and comparison of the data to search for data values that are questionable or for relationships that are materially inconsistent. Such a review was beyond the scope of our assignment.

Actuarial Assumptions and Methods

Section VII summarizes the actuarial assumptions and methods utilized in the preparation of this actuarial valuation. Subsection A identifies the various

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

assumptions. These assumptions are based on the assumptions developed in the Experience Study from July 1, 2006 to June 30, 2009 and the economic assumptions prescribed by the Treasurer. Subsection B summarizes the actuarial valuation methodology set forth in Chapter 62, P.L. 1994 as modified by Chapters 115, P.L. 1997, 133, P.L. 2001, 92 P.L. 2007 and 78 P.L. 2011.

Future actuarial measurements may differ significantly from the current measurements presented in this analysis due to actual plan experience deviating from the actuarial assumptions, and changes in plan provisions, actuarial assumptions, and applicable law. An assessment of the potential range and cost effect of such differences is beyond the scope of this analysis.

Summary of Principal Plan Provisions

Section VIII summarizes the principal plan provisions as of the valuation date and denotes any changes from the previous valuation.

Early Retirement Incentive Contribution Schedule

Appendix I presents the contribution schedule for the early retirement incentive programs (ERI-1, ERI-2, ERI-3, ERI-4 and ERI-5) by location for the 2012 fiscal year. It also provides the present value of the future contributions as of June 30, 2010. This list reflects locations who paid off their ERI liabilities through June 2010 as a result of Chapter 42, P.L. 2002.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VII - ACTUARIAL ASSUMPTIONS AND METHODS
AS OF JUNE 30, 2010

A. Actuarial Assumptions (Continued)

Post-retirement Mortality: Rates of mortality vary by age, gender and type of retirement. A generational approach is applied using Scale AA to account for future mortality improvement for non-disabled annuitants. The base year is 2000 for males and 2003 for females. Illustrative rates for the base year and Scale AA are shown below:

<u>Age</u>	<u>Service Retirements and Beneficiaries</u>		<u>Scale AA</u>		<u>Disability Retirement</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
45	0.3573%	0.1375%	1.3%	1.6%	1.8057%	0.7078%
50	0.5265	0.2151	1.8	1.7	2.3180	1.0958
55	0.4781	0.3066	1.9	0.8	2.8354	1.5717
60	0.5813	0.4937	1.6	0.6	3.3634	2.0747
65	1.0238	0.6602	1.4	0.5	4.0139	2.6625
70	1.6962	1.0497	1.5	0.6	5.0066	3.5753
75	2.9598	1.7342	1.4	0.8	6.5654	4.9619
80	5.2282	3.0118	1.0	0.7	8.7498	6.8696
85	9.2106	6.4019	0.7	0.6	11.3282	9.5193

Non-contributory Members: 30% are assumed to return to contributory status.

Marriage: Husbands are assumed to be 3 years older than wives. Among the active population, 80% of participants are assumed to be married. No children are assumed. Neither the percentage married nor the number of children assumptions are necessarily individually explicit, but they are considered reasonable, when viewed as a single combined assumption.

Form of Payment: Modified Cash Refund Annuity.

Special Data Adjustments: Determination of employee type is based on Class Code and was used as provided by the Division. Active members where no salary was provided, no date of birth was provided, or ASF was negative were excluded from the valuation. A liability equal to the ASF was held. For beneficiaries where no gender code or date of birth was provided, reasonable assumptions were made based on records provided in prior years or the deceased retiree's records. All

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VII - ACTUARIAL ASSUMPTIONS AND METHODS AS OF JUNE 30, 2010

A. Actuarial Assumptions (Continued)

such records were included in the valuation. Retiree members where no benefit and monthly allowance was provided, or no cause, class, or option was provided were excluded from the valuation.

B. Actuarial Valuation Method

The Projected Unit Credit Method was used as required by Chapter 62, P.L. 1994 as modified by Chapters 115, P.L. 1997 and 133, P.L. 2001. Non-contributory life insurance benefits are funded on a term cost basis.

C. Asset Valuation Method

A five year average of market value with write-up was used. This method takes into account appreciation (depreciation) in investments in order to smooth asset values by averaging the excess of the actual over the expected income, on a market value basis, over a five year period. Cash flows are based on an accrual accounting approach. This method is prescribed by statute. The market value of assets is used for the Contributory Group Insurance Premium Fund for GASB purposes.

D. Changes in Actuarial Assumptions

This is the first valuation that reflects the proposed assumptions adopted in the June 30, 2006 – June 30, 2009 Experience Study.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

Section VII – A, B, C& D

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS AS OF JUNE 30, 2010

This summary of plan provisions is intended only to describe the essential features of the plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

1. Type of Plan

The Plan is a contributory, defined benefit plan. Effective October 1, 2011, contributions by Members are 6.5% and increase by 1/7 of 1% each July thereafter until an ultimate rate of 7.5% is attained on July 1, 2018. For members hired on or after July 1, 2007, compensation for contributions is capped at the Social Security Taxable Wage Base (\$106,800 for 2010). For compensation in excess of the Social Security Taxable Wage Base, contributions on the excess compensation are made to the Defined Contribution Retirement Program.

2. Effective Date

The Plan was established in 1919. It was reorganized and integrated with Social Security in 1955. Social Security integration was eliminated in 1966, i.e., reductions in retirement benefits based on Social Security benefits were eliminated.

3. Eligibility for Membership

Employees appointed to positions requiring certification as members of a regular teaching or professional staff of a public school system in New Jersey are required to enroll as a condition of employment. Employees of the Department of Education holding unclassified, professional and certificated titles are eligible for membership. Temporary or substitute employees are not eligible. The eligible employee must be scheduled to work at least 32 hours per week effective May 22, 2010, per Chapter 1, P.L. 2010.

4. Definitions

- a. Fiscal Year: A Fiscal Year is a 12-month period beginning on July 1 and ending on June 30.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS

AS OF JUNE 30, 2010

4. Definitions (continued)

- b. Credited Service: A year of Credited Service for each year an employee is a Member of the Retirement System plus service, if any, covered by a prior service liability. Class F members must be scheduled to work at least 32 hours per week, Class E members also must have an annual salary of \$7,500 (indexed for inflation) and other members must have an annual salary of \$500.
- c. Final Compensation: This is the average annual compensation upon which contributions by a member are based on the period consecutive years of Creditable Service immediately preceding retirement or the period of highest fiscal years of Membership Service. The period equals three for members hired prior to May 22, 2010 and five for Class F and later members.
- d. Final Year Compensation: This is the compensation upon which contributions by a Member to the Annuity Savings Fund are based in the last year of Membership Service.
- e. Aggregate Member Contributions: This is the sum of all amounts deducted from the compensation of a Member or contributed by him or on his behalf without interest.
- f. Class A Member: Any member who contributes towards retirement allowance based on 1/64th benefit rate per year of creditable service.
- g. Class B Member: Any member hired prior to July 1, 2007 who contributes towards a retirement allowance based on 1/55th benefit rate per year of creditable service.
- h. Class D Member: Any member hired on or after July 1, 2007 and before November 2, 2008 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/55th benefit rate per year of creditable service payable at age 60.
- i. Class E Member: Any member hired after November 1, 2008 and before May 22, 2010 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/55th benefit rate per year of creditable service payable at age 62.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS AS OF JUNE 30, 2010

4. Definitions (continued)

- j. Class F Member: Any member hired after May 21, 2010 and before June 28, 2011 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/60th benefit rate per year of creditable service payable at age 62.
- k. Class G Member: Any member hired on or after June 28, 2011 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/60th benefit rate per year of creditable service payable at age 65.

5. Cost-of-Living Adjustment

The Pension Adjustment Program provides a cost-of-living adjustment (COLA) to retirees and their survivors who receive a monthly retirement allowance from the TPAF. The first adjustment is received in the 25th month after the member's retirement. Subsequent cost-of-living adjustments are computed annually and are first reflected in February. The rate of increase is equal to 60 percent of the percentage change between the average CPI for the 12 month period ending December 31 in the year of retirement and the August 31 preceding the February adjustment. Any pension adjustments to be paid on or after July 1, 2011 have been eliminated for all members.

6. Retirement Benefits

a. Service Retirement

Service Retirement Eligibility: Eligibility means age 60 (Class A, B, and D), age 62 (Class E and F) or age 65 (Class G) with no minimum service requirement.

Service Retirement Benefit: An employee's annual service retirement allowance is equal to a member annuity plus an employer pension which together equals 1/64th of Final Compensation for each year of service for Class A members, 1/55th of Final Compensation for each year of service for Class B, D and E members and 1/60th of Final Compensation for each year of service for Class F and G members. Member annuity based on member contributions credited at the valuation interest rate.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

6. Retirement Benefits (continued)

Note: See Section 12 for special benefits for veteran members.

b. Early Retirement

Early Retirement Eligibility: Class A, B, D, E and F members may retire after completion of 25 years of Creditable Service and Class G members may retire after completion of 30 years of Creditable Service.

Early Retirement Benefit: The benefit may be either:

- (i) the lump sum withdrawal benefit described in 7.a. below; or
- (ii) the Service Retirement Benefit reduced by 1/4 of one percent for each month the retirement date precedes age 55 for Class B members; or
- (iii) the Service Retirement Benefit reduced by 1/12 of one percent for each month the retirement date precedes age 60 but over age 55 and by ¼ of one percent for each month the retirement date precedes age 55, for Class D members.
- (iv) the Service Retirement Benefit reduced by 1/12 of one percent for each month the retirement date precedes age 62 but over age 55 and by ¼ of one percent for each month the retirement date precedes age 55, for Class E and F members.
- (v) the Service Retirement Benefit reduced by ¼ of one percent for each month the retirement date precedes age 65, for Class G members.

c. Deferred Retirement

Eligibility: A Member is eligible upon termination of service prior to age 60 (Class A, B, D), age 62 (Class E and Class F) or age 65 (Class G) and after 10 years of Creditable Service.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

6. Retirement Benefits (continued)

Deferred Retirement Benefit: The benefit may be either:

- (i) the lump sum withdrawal benefit described in 7.a. above; or
- (ii) a deferred retirement benefit, commencing at age 60 (Class A, B, D), age 62 (Class E and Class F) or age 65 (Class G), equal to a member annuity plus an employer pension which together provide a retirement allowance equal to the service retirement benefit based on Final Compensation and Creditable Service at date of termination. Member annuity based on member contributions credited at the valuation interest rate.

7. Termination Benefits

a. Lump Sum Withdrawal

Eligibility: A Member is eligible upon termination of service.

Lump Sum Withdrawal Benefit: The benefit equals a refund of Aggregate Member Contributions plus, if the member has completed three years of service, interest accumulated at 2.0% per annum allowed thereon.

8. Death Benefits

a. Ordinary Death (Insured) Benefit - Lump Sum (Non-Contributory)

Pre-retirement Death Benefit Eligibility: Any current active member is eligible.

Pre-retirement Death Benefit: The benefit is a lump sum benefit equal to the Aggregate Contributions with interest allowed thereon plus an amount equal to 1-1/2 times Compensation at date of death.

Post-retirement Death Benefit Prior to Age 60 (Class A, B, D), Age 62 (Class E and Class F) or Age 65 (Class G) Eligibility: Eligible if disabled or retired early.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

8. Death Benefits (continued)

Post-retirement Death Benefit Prior to Age 60 (Class A, B, D), Age 62 (Class E and Class F) or Age 65 (Class G) Benefit: The benefit is as follows:

- (i) For death while a Disabled Retiree the benefit is equal to 1-1/2 times Compensation.
- (ii) For death while an Early Retiree, the benefit is equal to 3/16 times Compensation.
- (iii) For death while vested terminated, the benefit is equal to his Aggregate Contributions with interest allowed thereon.

Post-retirement Death Benefit After Age 60 (Class A, B, D), Age 62 (Class E and F) or Age 65 (Class G) Eligibility: Eligible after attainment of service retirement , deferred and disabled retirements (if not disabled, 10 years of Creditable Service required for members enrolling on or after July 1, 1971).

Post-retirement Death Benefit After Age 60 (Class A, B, D), Age 62 (Class E and F) or Age 65 (Class G) Benefit: The benefit payable is equal to 3/16 times Compensation.

- b. Contributory Death Benefit: An additional, employee-paid, death benefit is also available through group insurance purchased by the Board of Trustees. Contributions for this benefit are required by Members during the first year of enrollment. Participation may be terminated after the first year. The benefit prior to retirement is 2 times compensation. The benefit after retirement is 1/4 times final year compensation (coverage at retirement, and 10 years of participation for Members enrolling on or after July 1, 1970, is required).

- c. Pre-retirement Accidental Death Benefit:

Eligibility: A death resulting from injuries received from an accident during performance of duty and not a result of willful negligence is eligible.

Pre-retirement Lump Sum Benefit: The benefit is a lump sum equal to 1-1/2 times Compensation.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

8. Death Benefits (continued)

Pre-retirement Accidental Death Benefit: The benefit payable is as follows:

- (i) The annuity benefit to a widow or widower is equal to 50% of Compensation, payable for life or until remarriage.
- (ii) The annuity benefit, when there is no spouse, or the spouse is remarried, is equal to 20% of Compensation for one child, 35% for two children, 50% for three or more children. The benefit is payable while the children are under age 18 and it is payable for life if they are disabled.
- (iii) The annuity benefit, when there is no spouse or children, is equal to 25% of Compensation for one dependent parent and 40% for two dependent parents.
- (iv) The benefit, when there is no relation as stated above, is equal to the Aggregate Contributions with interest allowed thereon and is payable to a beneficiary or to the Member's estate. This is also the minimum benefit payable under (i), (ii) and (iii) above.

9. Disability Benefits

a. Ordinary Disability Retirement

Eligibility: A Member is eligible for Ordinary Disability Retirement if he (she) has 10 years of Creditable Service and is totally and permanently incapacitated from the performance of usual or available duties.

Ordinary Disability Retirement Benefit for Class A, B, D and E members: The total retirement allowance is equal to the greater of:

- (i) 1.64% of Final Compensation times the number of years of Creditable Service; or
- (ii) 43.6% of Final Compensation.

Note: See Section 12 for special benefits for veteran members.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

9. Disability Benefits (continued)

Ordinary and Accidental Disability Retirement Benefit for Class F and G members: A disability benefit equal to 60% of salary reduced by the initial Social Security benefit is paid until the earlier of age 70 or commencement of a retirement benefit from a disability income policy outside of TPAF. The policy also makes employee contributions during the period of disability.

b. Accidental Disability Retirement for Class A, B, D and E members

Eligibility: A Member is eligible upon total and permanent incapacitation as a direct result of a traumatic event occurring during and as a result of the performance of regular or assigned duties.

Accident Disability Retirement Benefit: The benefit payable is equal to a Member annuity plus an employer pension which together equals 72.7% of the Compensation at date of injury.

10. Additional Old-Plan Benefit: An additional pension is payable to any retiree who was a member of the old Teachers' Retirement Fund. This pension is the actuarial equivalent of his contributions to the old Teachers' Retirement Fund without interest.

11. Special Minimum Benefit: A member who retired prior to 1955 with 20 or more years of service may receive a minimum pension of \$500 a month inclusive of any amounts payable under any pension adjustments.

12. Special Benefits for Veterans:

a. Service Retirement: Eligible if member attains age 60 and completes 20 years of service or attains age 55 and completes 25 years of service. Benefit equals 54.5% of highest 12-month contributory compensation.

b. Chapter 97 Benefit: Eligible if age 55 and completes 35 years of service. Benefit equals 1/55th of final year compensation for each year of service.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS AS OF JUNE 30, 2010

13. Benefit and Compensation Limits

The provisions of IRC Section 415 and IRC Section 401(a)(17), which limit benefits paid and limit compensation used in determining benefits, has been reflected in this report. The IRC Section 415 limit is \$195,000 and the 401(a)(17) compensation cap is \$245,000 for 2010 and is applied on a calendar year basis.

14. Forms of Payment

- a. Maximum Option – Single life annuity.
- b. Option 1 – Single life annuity with return of reserve option.
- c. Option 2 – 100% joint and survivor annuity.
- d. Option 3 – 50% joint and survivor annuity.
- e. Option 4 – Other percentage joint and survivor annuity.
- f. Option A – 100% pop-up joint and survivor annuity.
- g. Option B – 75% pop-up joint and survivor annuity.
- h. Option C – 50% pop-up joint and survivor annuity.
- i. Option D – 25% pop-up joint and survivor annuity.

15. Contributions

- a. Member Contributions: Each member becoming a member on or after January 1, 1956 and prior to July 1, 2007 contributes at the rate of contribution applicable to Class B members. Any members hired after June 30, 2007 and prior to November 2, 2008 are Class D members. Members hired after November 1, 2008 and prior to May 22, 2010 are Class E members. Members hired after May 21, 2010 are Class F members and members hired after June 28, 2011 are Class G members.
 - (i) Class D, E, F or G Membership: Class D, E, F or G members contribute at their applicable contribution rate up to the Social Security Taxable Wage Base.
 - (ii) Class B Membership: Any member on December 31, 1955 may elect to be classified as a Class B member and contribute at the rate of contribution applicable to Class B members at his age at membership. Any such member may elect to increase his accumulated deductions by the amount required by the Board to receive credit as a Class B member for all or part of his service prior to such election.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

15. Contributions (continued)

- (iii) Class A Membership: Any member who is not a veteran and does not elect to be classified as a Class B member continues to contribute at the rate of contribution applicable to his age at membership which was payable prior to the establishment of the integrated system, except that if he became a member subsequent to June 30, 1946 he will pay after January 1, 1955 at the rate of contribution in effect on June 30, 1946 applicable to his age at membership.

Prior to July 1, 1979 different contribution rates were established for men and women. Effective on that date members contribute at rates intermediate between the rates previously applicable to male and female members, computed to provide the same present value of future employee contributions at each entry age on the basis of the membership as constituted on the effective date.

b. Local Employer Contributions

- (i) Early Retirement Incentive Contributions: The State and Local employers which elected to participate in the early retirement incentive programs authorized by Chapters 137, 229 and 231, P.L. 1991, Chapters 48, 138 and 163, P.L. 1993, Chapter 23, P.L. 2001 and Chapters 128 and 129, P.L. 2003 pay contributions to cover the additional liability for these programs over amortization periods chosen by the employer (15 years for Chapters 128 and 129) or the amortization period for the Unfunded Accrued Liability of the system (Chapter 23, P.L. 2002 and Chapter 21, P.L. 2008).
- (ii) Chapter 113 Contributions: Certain School Districts have elected to exempt a select group of employees from the compensation limit under IRC Section 401(a)(17) incorporated under Chapter 113. These school districts will pay the full cost of this exemption at a member's date of retirement.

16. Changes in Plan Provisions Since Prior Valuation

This valuation reflects the adoption of Chapter 78, P.L. 2011 as well as Chapter 1, P.L. 2010 and Chapter 3, P.L. 2010.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

**TEACHERS' PENSION AND ANNUITY FUND
OF NEW JERSEY**

June 30, 2010 Actuarial Valuation Report

December 22, 2010

Board of Trustees
Teachers' Pension and Annuity Fund of New Jersey
State of New Jersey
Department of the Treasury
Division of Pensions and Benefits, CN 295
Trenton, NJ 08625-0295

Ladies and Gentlemen:

This report presents the results of the actuarial valuation of Teachers' Pension and Annuity Fund of New Jersey as of June 30, 2010. Section I contains highlights of the valuation including a general discussion and comments on the various schedules included in the report. The subsequent Sections contain schedules summarizing the underlying calculations, asset information, participant data, plan benefits and actuarial assumptions.

Purpose

The main purposes of this report are:

- to provide the annual state contribution in accordance with N.J. Statutes to be made in the Fiscal Year ending June 30, 2012 which represents the contribution for the valuation year beginning July 1, 2010;
- to determine the Annual Required Contribution in accordance with Governmental Accounting Standards Board Statements 25 and 27 for the Fiscal Year ending June 30, 2012 and,
- to review the experience under the plan for the valuation year ending June 30, 2010.

Actuarial computations presented in this report are for purposes of determining the statutory contribution amounts for TPAF. Actuarial computations under GASB Statements No. 25 and 27 are for purposes of fulfilling financial accounting requirements. The calculations in the enclosed report have been made on a basis consistent with our understanding of the N.J. statutes and GASB Statements No. 25 and 27. Determinations for purposes other than these requirements may be significantly

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

different from the results contained in this report. Accordingly, additional determinations may be needed for other purposes.

Milliman's work is prepared solely for the internal business use of the State of New Jersey Division of Pension and Benefits. To the extent that Milliman's work is not subject to disclosure under applicable public records laws, Milliman's work may not be provided to third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product. Milliman's consent to release its work product to any third party may be conditioned on the third party signing a Release, subject to the following exception:

- The System may provide a copy of Milliman's work, in its entirety, to the System's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit the System.

No third party recipient of Milliman's work product should rely upon Milliman's work product. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Data Reliance

In performing this analysis, we relied, without audit, on census data, plan provisions, asset statements and other information (both written and oral) provided by the State of New Jersey Division of Pensions and Benefits. We have not audited or verified the census data, asset statements or other information. To the extent any of these are inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

We performed a limited review of the data used directly in our analysis for reasonableness and consistency and have not found material defects in the data. If there are material defects in the data, it is possible that they would be uncovered by a detailed, systematic review and comparison of the data to search for data values that are questionable or for relationships that are materially inconsistent. Such a review was beyond the scope of our assignment.

Future Measurements

Future actuarial measurements may differ significantly from the current measurements presented in this analysis due to actual plan experience deviating from the actuarial assumptions, and changes in plan provisions, actuarial assumptions, and applicable law. An assessment of the potential range and cost effect of such differences is beyond the scope of this analysis.

Certification

We hereby certify that, to the best of our knowledge, this report, including all costs and liabilities based on actuarial assumptions and methods adopted by the Board or mandated by statute, is complete and accurate and determined in conformance with generally recognized and accepted actuarial principles and practices, which are consistent with the Actuarial Standards of Practice promulgated by the Actuarial Standards Board and the applicable Guides to Professional Conduct, amplifying Opinions and supporting Recommendations of the American Academy of Actuaries.

We are members of the American Academy of Actuaries and meet its Qualification Standard to render this actuarial opinion.

Respectfully submitted,

MILLIMAN, INC.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments

This report summarizes the results of the actuarial valuation of the Teacher's Pension and Annuity Fund (TPAF) as of June 30, 2010. This valuation reflects the adoption of the proposed assumptions from the July 1, 2006 – June 30, 2009 Experience Study. These assumptions lowered the rates of both pre-retirement and post-retirement mortality as well as lowered the rates of termination as members approach eligibility for post-retirement medical benefits. The adoption of these assumptions increased the Actuarial Accrued Liability as of June 30, 2010 by \$1,170.7 million or 2.1% and the Total Pension Contribution by Statute by \$97.2 million or 4.7%.

This actuarial valuation is the first valuation since Chapter 1, P.L. 2010 and Chapter 3, P.L. 2010 were enacted affecting members hired after May 21, 2010 (Class F members), although there were no members hired after the effective date and prior to the valuation date included in this valuation. Chapter 1, P.L. 2010 decreased the benefit accrual rate from 1/55 to 1/60 and increased the final average earnings period from 3 years to 5 years. It also increased the requirements for participation and service accrual to 32 hours per week plus for members in multiple positions, only one position may be designated for benefits and contributions. Chapter 3, P.L. 2010 eliminated ordinary and accidental disability benefits from TPAF. A benefit of 60% of salary would be provided through a disability income policy until the earlier of age 70 and the commencement of the pension benefit. Until age 65, the disability benefit is offset by the initial Social Security benefit. During the period of disability, the member would continue to earn service as member contributions would be made on their behalf from the disability income policy. The actuarial valuation for TPAF will not include the cost of the disability income policy.

This actuarial valuation is the second and third valuation that reflects members hired after November 1, 2008 (Class E members) affected by Chapter 89, P.L. 2008 and members hired on or after July 1, 2007 and before November 2, 2008 (Class D members) affected by Chapter 103, P.L. 2007. Chapter 89, P.L. 2008 increased the age unreduced retirement benefits can commence from age 60 to age 62, which also impacts Class F members. Both chapters increased the early retirement reductions for members retiring prior to age 60 for Class D members and age 62 for Class E and Class F members, plus also imposed a maximum salary equal to the Social Security Wage Base (\$106,800 for 2010) upon which contributions and benefits will be based. The reduction in the plan's total normal cost associated with

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

these chapters for 19,985 affected members is approximately \$3.9 million, which is a 4.1% reduction.

Chapter 1, P.L. 2010 also requires payment of the statutory contribution to be phased-in over a 7 year period beginning with the fiscal year ending June 30, 2012 to the fiscal year ending June 30, 2018. Phasing-in the statutory contribution will result in continued increases in the unfunded actuarial accrued liability and the statutory contribution unless actuarial gains are experienced or pension reforms are legislated.

GASB Annual Required Contribution

Chapter 92, P.L. 2007 states that the System shall use consistent and generally accepted actuarial standards as established by GASB for the purpose of determining asset values, obligations and employer contributions. However, the System's contribution requirements, which are defined in NJ State statute, differ from the GASB compliant figures that are shown in this report. Also, current budgetary practices do not assess interest on contributions to reflect payment after the start of the fiscal year to the date paid. Page 4 contains a Summary Exhibit on the Annual Required Contribution (ARC) per GASB 25 and 27. GASB 25 and 27 do not (1) exclude the Benefit Enhancement Fund from the Actuarial Value of Assets, (2) permit a portion of the normal cost to be paid by the BEF, (3) permit a phase-in of the pension adjustment normal cost or 4) allow the use of a term cost funding method for the non-contributory group life insurance (NCGI). Furthermore, since the contributory group life insurance is provided through TPAF, an actuarial cost for these benefits is included in the ARC. Expected employee contributions of 0.4% of pay offset the normal cost portion of the contributory group life insurance. For the 2007 and later fiscal years, the ARC includes an actuarial determination of the cost of the non-contributory and contributory group life insurance. The ARC in prior years included the term cost for the non-contributory group life insurance.

The ARC for the 2012 fiscal year is \$2,504.5 million, which is \$282.5 million or 12.7% higher than the sum of the required statutory pension contribution of \$2,186.2 million and the estimated non-contributory group life insurance term cost of \$35.7 million for a total of \$2,221.9 million.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Statutory Contributions

The statutory contribution requirements are highlighted on Summary Exhibits shown on pages 3 (pension only) and 5 (pension, NCGI and ERI). Included on these exhibits is our understanding of the effect of the fiscal year 2011 State budget resolution on contributions to the system for the 2011 and 2012 fiscal years. These exhibits are discussed in detail in the paragraphs below.

The required statutory pension contribution has increased from \$1,826.7 million for the State's 2011 fiscal year to \$2,186.2 million for the State's 2012 fiscal year. This contribution consists of the Normal Contribution (\$644.1 million), the Additional Formula Contribution (\$116.6 million) and the Accrued Liability Contribution (\$1,425.5 million). Chapter 92 P.L. 2007 eliminated the use of any Excess Assets to offset the pension normal cost in determining the Normal Contribution. Chapter 133 P.L. 2001 established the Benefit Enhancement Fund (BEF) to reduce the State's Additional Formula Normal Contribution. As of June 30, 2010, there are no assets in the BEF so no offset occurred and there are no Excess Assets as of July 1, 2010, so no assets will be transferred to the BEF as of that date.

In addition to the pension contribution, the estimated non-contributory group life insurance contribution is expected to increase from \$34.7 million to \$35.7 million and the ERI-3 contribution has increased from \$1.70 million to \$1.84 million from the State's 2011 fiscal year to the State's 2012 fiscal year.

The summary exhibit on Page 3 reflects our understanding of the effect of the fiscal year 2011, as well as any change to fiscal year 2010, State budget resolution on these contributions to the system for the 2011 and 2012 fiscal years as outlined below:

- For the 2010 fiscal year, the State actually contributed \$0.0 million versus the expected appropriation of \$62.4 million included in the June 30, 2009 actuarial valuation report. This reduction in the State appropriation is reflected throughout this report.
- For the 2011 fiscal year, the State has not appropriated any portion of the \$1,826.7 million pension contribution or the \$1.7 million ERI-3 contribution. In addition, it is our understanding that the actual amount of the non-contributory

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

group life insurance claims will be appropriated. The estimated amount of those claims is \$34.7 million for the 2011 fiscal year.

- Since an appropriation to cover the 2011 fiscal year pension contribution (\$1,826.7 million) was not made, this increases the Unfunded Actuarial Accrued Liability as of July 1, 2010 by \$1,826.7 million resulting in an increase in the 2011 fiscal year Accrued Liability Contribution of \$111.0 million. The accumulated value of statutory pension contributions, excluding ERI-3 contributions, not appropriated by the State in fiscal years 2004 through 2011 equals \$7,539.2 million. The Unfunded Actuarial Accrued Liability as of July 1, 2010 is \$23,454.9 million.
- For the 2012 fiscal year, Chapter 1, P.L. 2010 requires 1/7th or approximately 14.3% of the statutory pension contribution of \$2,186.2 million and the combined ERI-3 and ERI-5 contributions of \$1.8 million to be appropriated. This amounts to \$312.3 million for the pension contribution plus \$0.3 million for the ERI contribution. In addition, it is anticipated that the State will appropriate an amount to cover the non-contributory group life insurance claims (NCGI est. \$35.7 million). In displaying the results of this actuarial valuation, we have not reduced the contribution otherwise due under statute to reflect the expectation that funds will not be appropriated.

Actuarial Value of Assets

As mandated by statute, only 20% of the difference between the expected actuarial value of assets and the market value is recognized in calculating the actuarial value of assets each year. Due to the significant drop in the financial markets since 2007, the actuarial value of assets as of June 30, 2010 is 129% of market value, which is a decrease from the prior year's ratio of 139%. Section III(G) shows the impact of using the market value of assets to determine the statutory pension contribution instead of the actuarial value.

Actuarial Accrued Liability

The actuarial accrued liability figures reflect the full additional actuarial liability due to pension adjustment benefits for actives, retirees, terminated vested members and

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

beneficiaries. It excludes the actuarial liability associated with the group life insurance benefits and post retirement medical benefits. The State will appropriate funds to cover the actual amount of the non-contributory group life insurance claims. The post retirement medical benefits are no longer financed through TPAF. The liabilities are based on the assumptions adopted in the 2009 Experience Study.

Normal Cost

For purposes of calculating employer contributions, the portion of the normal cost attributable to the pension adjustment benefits for active members is reflected separately and its cost is being phased-in over a period beginning with the March 31, 1987 valuation. The current valuation reflects a 62.94% phase-in of the pension adjustment normal cost for active members.

The net pension normal cost, based on the 1/60 formula and reflecting the phase-in of the pension adjustment benefits, payable as of July 1, 2010 is \$595.0 million. This is \$56.5 million more than the comparable normal cost of \$538.5 million payable on July 1, 2009. This increase is due to the adoption of the proposed assumptions in the 2009 Experience Study (\$21.7 million), the continued phase-in of the pension adjustments (\$3.9 million) and increases in payroll and the number of active participants (\$30.9 million).

The additional formula normal cost payable as of July 1, 2010 is \$107.7 million. This is \$9.2 million more than the additional formula normal cost of \$98.5 million payable on July 1, 2009. This increase is due to the adoption of the proposed assumptions in the 2009 Experience Study (\$2.3 million), increases in payroll and the number of active participants (\$6.9 million).

Unfunded Actuarial Accrued Liability

The unfunded Actuarial Accrued Liability increased by \$4,744.6 million from \$18,710.3 million as of July 1, 2009 to \$23,454.9 million as of July 1, 2010. This increase in the unfunded liability resulted in an increase in the Accrued Liability Contribution of \$288.4 million from \$1,137.1 million payable June 30, 2010 to \$1,425.5 million payable June 30, 2011. The following table summarizes the reasons for the increase in the unfunded liability.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Unfunded Liability as of June 30, 2009	\$18,710.3
Impact of 2009 Experience Study	1,170.7
Pension Contribution Less than State Appropriation for Prior Year	67.6
State Appropriation Less than Statutorily Required	1,826.7
Phase-in of Pension Adjustment Benefits	69.2
Amortization Payment Less/(More) than Interest Accrual	406.4
Actuarial Loss/(Gain)	1,244.2
Member Contributions Less/(More) than anticipated	<u>(40.2)</u>
Total Change in Unfunded Liability	\$4,744.6
Unfunded Liability as of June 30, 2010	\$23,454.9

Funded Ratio

As a result of the increase in the unfunded liability, the funded ratio based on the actuarial value of assets decreased by 6.4% from 65.0% as of June 30, 2009 to 58.6% as of June 30, 2010. On a market value basis, the funded ratio decreased by 1.3% from 46.8% to 45.5%. The decrease is less on a market value basis since the market value reflected the investment losses from fiscal years 2008 and 2009 completely and the actuarial value smoothes these investment losses over time. Since July 1, 2001, the funded ratio on a market value basis has decreased 48.8%. This decrease is primarily due to investment losses experienced over the period, State contributions less than the GASB Annual Required Contribution and the strengthening of actuarial assumptions.

As of June 30, 2010, the market value of assets is below the actuarial liability attributable to retirees due to significant investment losses during fiscal years 2008 and 2009 and State contributions significantly less than the statutorily required contribution. Furthermore, if the assets contained in the Annuity Savings Fund (ASF) are excluded, the funded ratio of the remaining market value of assets to the actuarial accrued liability for retirees is 52.0%.

As of June 30, 2010, the ratio of market value of assets to the prior year's benefit payments is 8.7, which is slightly less than the ratio of 8.9 from the prior year. This is a simplistic measure of the number of years that the assets can cover benefit

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

payments, excluding: investment income, State and member contributions, and future increases in those payments. This ratio has decreased 30% over the past two years. If ASF assets are excluded, since they represent accumulated contributions from active and inactive members, the ratio is 5.6. The ratio for the prior year is 5.9.

Actuarial Gain/(Loss) Analysis

TPAF experienced an actuarial loss of \$1,244.2 million during the period July 1, 2009 to June 30, 2010 based on the actuarial assumptions adopted in the 2006 Experience Study. This loss is approximately 2.2% of the Actuarial Accrued Liability as of June 30, 2010. The major factors contributing to this loss are summarized below and are compared to the experience for the prior two plan years.

	<u>June 30, 2010</u>	<u>Gain/(Loss)</u> <i>(Amounts in Millions)</i> <u>June 30, 2009</u>	<u>June 30, 2008</u>
Economic Factors:			
Investment Return	\$(1,843.2)	\$(2,433.5)	\$(1,045.7)
Salary Increases	188.3	230.0	20.1
Pension Adjustments (COLA)	587.5	(286.0)	125.2
Expenses	(12.2)	(13.2)	(14.3)
Demographic Factors:			
Active Members	(78.9)	(34.5)	(82.8)
New Entrants	(47.7)	(61.7)	(58.0)
Non-Contributing Members	(28.0)	(29.4)	(28.4)
Retirees and Beneficiaries	<u>(10.0)</u>	<u>(75.0)</u>	<u>(47.3)</u>
Total	(1,244.2)	(2,703.3)	(1,131.2)

Total pension assets earned investment returns of approximately 13.83% on a market value basis and 2.74% on an actuarial value basis for the period ending June 30, 2010. The determination of the approximate rate of return on the market value of assets is based on all assets of the fund including receivables and payables in addition to the investment holdings. This will result in a different rate of return reported by the Division of Investments. The resulting loss to the plan of \$1,843.2 million represents the shortfall in the actuarial value of assets relative to the 8.25% assumed investment return.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

B. General Comments (continued)

Salary increases for contributory members who were active on both July 1, 2009 and July 1, 2010 averaged 4.81% versus expected salary increases of 5.97% resulting in an actuarial gain of \$188.3 million. Salaries for new entrants averaged \$49,014, which is significantly below the average salary of all contributory members of \$69,402. This resulted in the average salary of all contributory members increasing by 2.9% over last year, with total contributory payroll also growing by 2.9%.

For annuitants receiving benefits since 2007, the pension adjustments were based on no CPI increase for the prior year, which is lower than the 3.0% actuarial assumption for CPI increases. This resulted in an actuarial gain of \$587.5 million.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits

Assets

Section II summarizes the System assets taken into account in the preparation of the actuarial valuation. Subsection A summarizes the market value of System assets as of June 30, 2010 and includes the present value of expected contributions from State and local employers for ERI and Terminal Funding retirements as of June 30, 2010.

Subsection B reconciles the development of the market value of pension assets starting from the market values as of June 30, 2009, which reflects a reduction in the State contribution for fiscal year 2010 from the prior valuation report. Subsection C summarizes the development of the actuarial value of pension assets as of July 1, 2010. The exhibit reflects the growth in the pension assets based on the expected investment income at an assumed rate of 8.25% adjusted to reflect 20% of the difference between the market value of pension assets as of the valuation date and the expected actuarial value.

Subsection D estimates the annual rate of return for the year ending June 30, 2010 on the actuarial value and the market value of pension assets. Subsection E summarizes the estimated annual rates of return for the five previous plan years. The 5-year compounded annual return on the actuarial value of assets and the market value of assets are 4.36% and 3.56%, respectively.

Actuarial Liabilities and Contributions

Section III summarizes the actuarial liabilities and the development of the required State contribution for the plan year beginning July 1, 2010. The State is statutorily required to make three contributions, a Normal Cost Contribution, an Accrued Liability Contribution and an Additional Formula Normal Cost Contribution, which in general are determined under the Projected Unit Credit funding method. The Normal Cost and Additional Formula Normal Cost under the Projected Unit Credit funding method is defined as the present value of the benefits attributed to the current year. The Normal Cost reflects the phase-in of the cost of pension adjustment benefits. The Unfunded Accrued Liability (Surplus) is determined as the difference between the Actuarial Accrued Liability used to develop contributions and the Adjusted Actuarial Value of Assets (excludes the BEF). The actuarial liabilities

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

used to develop contributions reflect the assumptions developed in the 2009 Experience Study and the economic assumptions prescribed by the Treasurer.

Subsection A summarizes the development of the Actuarial Accrued Liability as of July 1, 2010 for all current members and indicates the portion of those present values attributable to active participants, retirees and beneficiaries, and terminated vested participants. These liabilities include the full liability for pension adjustment benefits for all members. The non-contributory lump sum death benefits payable from active service, terminated vested status and retiree status have been excluded from the Actuarial Accrued Liability since those benefits are funded on a term cost basis. Projected benefits based on compensation in excess of the 401(a)(17) compensation cap for a group of grandfathered employees for certain School Districts under Chapter 113, P.L. 1997 have been included in the determination of the Accrued Liability.

Subsection B summarizes the development of the pension Normal Cost under the 1/60 and 1/55 formulas payable July 1, 2010. The schedule shows the portion of the Normal Cost attributable to: (1) the basic allowances and (2) pension adjustment benefits for active members and (3) expected member contributions. The Normal Cost due to pension adjustments reflects the 62.94% phase-in of the pension adjustment benefits. The Normal Cost as of July 1, 2010 was developed based on the Projected Unit Credit Method. Projected benefits based on compensation in excess of the 401(a)(17) compensation cap for a group of grandfathered employees for certain School Districts under Chapter 113, P.L. 1997 have been included in the determination of the Normal Cost.

Subsection C summarizes the Actuarial Accrued Liability and Gross Pension Normal Cost (1/55 formula) for active contributory members by employee type as of July 1, 2010.

Subsection D summarizes the development of the Excess Valuation Assets which are \$0 as of July 1, 2010. The Excess Valuation Assets are determined by subtracting the Actuarial Accrued Liability for basic allowances and pension adjustment benefits, the Post Retirement Medical Premium Fund, the present value of the total projected normal cost in excess of the projected phased-in normal cost for pension adjustment benefits of active members and the BEF (prior to reduction

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

for the additional formula normal contribution for fiscal year 2012) from the Valuation Assets.

Subsection E summarizes the development of the BEF as of July 1, 2010 and the Additional Formula Normal Contribution. Chapter 133, P.L. 2001 established the BEF as of June 30, 1999. The BEF is \$0 as of June 30, 2010. The BEF is credited with excess assets not to exceed actual member contributions made to the system nor the present value of expected additional normal costs due to the formula change. Since there are no excess assets, there is no contribution to the BEF. Since the BEF is \$0, there is no offset to the additional formula normal cost.

Subsection F summarizes the development of the State's estimated fiscal year 2012 Statutory Required Contributions to TPAF comprising three components: pension, non-contributory group life insurance, and ERI. The total pension contribution of \$2,186,221,192 equals the Normal Contribution of \$644,080,671 based on the 1/60 formula plus the Additional Formula Normal Contribution of \$116,626,187 plus the Accrued Liability Contribution of \$1,425,514,334. The non-contributory group life insurance contribution represents a one year term cost of lump sum death benefits payable during active service, terminated vested status and retiree status and is estimated to be \$35,730,000. The State's combined ERI-3 and ERI-5 contributions are \$1,839,123. The total Statutory Required Contribution for the State's fiscal year 2012 is estimated to be \$2,223,790,315. This is an estimate because the State will contribute the actual 2012 fiscal year non-contributory group life insurance benefits, not the estimated amount shown above. For the 2012 fiscal year, Chapter 1, P.L. 2010 requires the State to contribute 1/7th of the pension and ERI portions of the contribution. Combined with the estimated contribution for the non-contributory group life insurance benefits, the expected amount to be appropriated is \$348,310,045.

Subsection G shows the Statutory Required Contribution as a percentage of appropriation payroll on two bases: (1) after reflecting the actual phase-in of the pension adjustment benefits and any BEF reductions – 22.16% and (2) as if the pension adjustment liabilities were fully phased-in, BEF reductions did not exist and the Market Value of Assets were used to determine the Accrued Liability Contribution – 27.33%. The latter figure is an estimate of the percentage of payroll that would need to be contributed each year for the next 30 years in order to fully

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

amortize the unfunded actuarial pension liability assuming no gains or losses and a closed (amortization period is reduced by one year each year) amortization method.

Subsection H summarizes these contributions as a percentage of appropriation payroll for the five previous fiscal years.

Subsection I shows the fiscal year 2012 Statutory Required Contribution based on the 1/60 formula, the Additional Formula Contribution after application of the BEF, the Accrued Liability Contribution and the estimated non-contributory group life insurance contribution payable by the State and certain State Colleges. It does not reflect the phase-in under Chapter 1, P.L. 2010. The State's contribution is allocated between the Department of Higher Education, Department of Education, County Colleges, Charter Schools and other.

Subsection J shows the calculation of the total actuarial gain (loss). The general comments section outlines the areas where experience differed from that expected.

Actuarial Balance Sheet

Section IV provides the actuarial balance sheet summarizing the assets and liabilities by Fund as of June 30, 2010. The assets credited to the various funds include the portion of the investment income allocated to each fund for the year and ending June 30, 2010. The actuarial value of assets is used as the basis for the balance sheet. Note that the actuarial value of assets is 29% higher than market value. The liabilities presented are based on the actuarial accrued liabilities summarized in Section III without any phase-in adjustments.

The actuarial balance sheet indicates the following transfers should be made:

(1) Retirement Reserve Fund

When a member retires, or when he dies and an allowance is payable to his beneficiary, the allowance including cost-of-living adjustments is paid from the Retirement Reserve Fund. The member's own contributions with interest are transferred from the Annuity Savings Fund, and the balance of the reserve on the total allowance is transferred from the Contingent Reserve Fund. As of

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

June 30, 2010, the Retirement Reserve Fund has present assets of \$31,300,789,254 including accrued interest. The liabilities of the fund amount to \$31,919,273,989 so that there is a deficit of \$618,484,735 in the fund as of the valuation date. New Jersey statute states that the fund be put in balance as of June 30, 2010 by a transfer of assets from the Contingent Reserve Fund, and this transfer is shown in the balance sheet. Note that the balance in the Contingent Reserve Fund is negative so that this fund remains in balance.

(2) Pension Fund

The reserves held in the Pension Fund represent the reserves on retirement allowances payable to non-veteran members who retired prior to 1956. As of June 30, 2010, the Pension Fund has assets credited to it amounting to \$136,373 including accrued interest. The liabilities of the fund amount to \$71,385 so that there is a surplus of \$64,988 in the fund as of the valuation date. It is recommended that the fund be put in balance as of June 30, 2010 by a transfer of assets to the Contingent Reserve Fund, and this transfer is shown in the balance sheet.

(3) Annuity Savings Fund and Contingent Reserve Fund

The Annuity Savings Fund, which is the fund to which members' contributions with interest are credited, has assets amounting to \$9,151,924,963 as of June 30, 2010 after accrued interest has been added. The Contingent Reserve Fund is the fund to which contributions made by the State and local employers to provide the benefits paid from retirement fund monies are credited. The assets creditable on an actuarial value basis to the Contingent Reserve Fund amount to \$(7,934,794,707) as of June 30, 2010 after adjustment is made on account of accrued interest and the amounts transferable to the Retirement Reserve Fund and from the Pension Fund. If a market value basis was used, assets creditable to the Contingent Reserve Fund after transfers would amount to \$(15,307,625,501).

If a member withdraws from active service before qualifying for retirement, the amount of his accumulated deductions is paid to him from the Annuity Savings Fund. If he dies before retirement and no survivorship benefit is payable, his

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

accumulated deductions are paid to his beneficiary from the Annuity Savings Fund. If he retires, or if he dies leaving a beneficiary eligible for a survivorship benefit, his accumulated deductions are transferred from the Annuity Savings Fund to the Retirement Reserve Fund, and the reserve on the allowance which is not provided by his own deductions is transferred from the Contingent Reserve Fund to the Retirement Reserve Fund. Any lump sum benefit payable upon the death of a member before or after retirement is paid by The Prudential Insurance Company of America.

(4) Benefit Enhancement Fund

The reserves held in the BEF are used to fund the additional formula normal contributions. The BEF is credited with excess assets not to exceed actual member contributions made to the system nor the present value of the expected additional formula normal contributions. No additional excess assets will be credited to the BEF after the maximum amount is attained. If excess assets permit, monies are transferred from the Contingent Reserve Fund. As of June 30, 2010, the BEF has no assets.

(5) Special Reserve Fund

The Special Reserve Fund is the fund to which any excess interest earnings are transferred and against which any losses from the sale of securities are charged. The maximum limit on the accumulations in this fund is set at one percent of the market value of the investments of the retirement fund; any amounts in excess of this limit are creditable to the Contingent Reserve Fund. The Special Reserve Fund is considered as an asset of the retirement fund. This fund has assets amounting to \$0 as of June 30, 2010.

Accounting Information

Section V presents the accounting information required under Governmental Accounting Standards Statement No. 25 (GASB 25). Schedule A outlines the development of the Annual Required Contribution (ARC). The ARC comprises the employer's normal cost plus a specified amortization of the unfunded actuarial accrued liability (UAAL). The amortization method selected for this system is an

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

open level percentage of projected payroll based on an assumed payroll growth rate of 4.0% for 30 years. For 2007 and later fiscal years (the 2005 and subsequent valuations), an actuarial determination of the cost for non-contributory and contributory group life insurance benefits is included in the calculation since these benefits are paid from TPAF. Prior years included a term cost for the non-contributory group life insurance and excluded the contributory group life insurance. The portion of the ARC for the 2012 fiscal year attributable to group life insurance benefits is \$61.7 million. The total ARC for the 2012 fiscal year is \$2,504.5 million.

Schedule B shows the projection of the Estimated Net Pension Obligation (NPO) as of June 30, 2011 and June 30, 2012. The NPO represents the cumulative difference between the Annual Pension Costs for the system and the contributions made. After the expected contributions of \$34.7 million for fiscal year 2011 and \$348.0 million for fiscal year 2012, the NPO as of June 30, 2012 is expected to be \$12,425.0 million.

Schedule C is the Schedule of Funding Progress. This schedule presents the Actuarial Accrued Liability, the Actuarial Value of Assets, the Unfunded Accrued Liability, the funded ratio (assets as a percentage of Actuarial Accrued Liability), and the Unfunded Accrued Liability as a percentage of covered payroll. Six years of historical information are shown in compliance with GASB 25.

Schedule D is the Schedule of Employer Contributions. This schedule presents the ARC for the fiscal year, the employer contributions made for that fiscal year and the percentage of the ARC those contributions represent. For the fiscal year ending June 30, 2011 the employer contributions are 1.6% of the ARC and for the fiscal year ending June 30, 2012, the expected employer contributions are 13.9% of the ARC. Six years of historical information are shown in compliance with GASB 25. Schedule E presents the funding policy for the fiscal year. This disclosure includes the valuation date, the Actuarial Cost Method, the amortization period and method, the Asset Valuation Method, and certain key actuarial assumptions.

Census Data

Section VI summarizes the census data provided by the Division of Pensions and Benefits and utilized in the preparation of the actuarial valuation. Subsection A provides a reconciliation of the current year participant counts from the prior

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

valuation. Subsection B shows the appropriation count and salary information by group. Subsection C shows the number and annual retirement allowances with pension adjustments by beneficiary type. Subsection D shows information on members who retired since the last valuation split between those who retired with less than and more than 25 years of service. Subsections E and F present a profile of Contributory and Non-contributory members split by gender, summarized by 5-year age and service groupings. Subsection G provides a profile of terminated vested members, retired members, disabled members, and beneficiaries broken down into 5-year age categories. The census data represents the status of plan participants as of June 30, 2010.

In performing this analysis, we relied, without audit, on census data, plan provisions, asset statements and other information (both written and oral) provided by the State of New Jersey Division of Pensions and Benefits. We have not audited or verified the census data, asset statements or other information. To the extent any of these are inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

We performed a limited review of the data used directly in our analysis for reasonableness and consistency and have not found material defects in the data. If there are material defects in the data, it is possible that they would be uncovered by a detailed, systematic review and comparison of the data to search for data values that are questionable or for relationships that are materially inconsistent. Such a review was beyond the scope of our assignment.

Actuarial Assumptions and Methods

Section VII summarizes the actuarial assumptions and methods utilized in the preparation of this actuarial valuation. Subsection A identifies the various assumptions. These assumptions are based on the assumptions developed in the Experience Study from July 1, 2006 to June 30, 2009 and the economic assumptions prescribed by the Treasurer. Subsection B summarizes the actuarial valuation methodology set forth in Chapter 62, P.L. 1994 as modified by Chapters 115, P.L. 1997, 133, P.L. 2001 and 92 P.L. 2007.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION I - SUMMARY (continued)

C. Discussion of Supporting Exhibits (continued)

Future actuarial measurements may differ significantly from the current measurements presented in this analysis due to actual plan experience deviating from the actuarial assumptions, and changes in plan provisions, actuarial assumptions, and applicable law. An assessment of the potential range and cost effect of such differences is beyond the scope of this analysis.

Summary of Principal Plan Provisions

Section VIII summarizes the principal plan provisions as of the valuation date and denotes any changes from the previous valuation.

Early Retirement Incentive Contribution Schedule

Appendix I presents the contribution schedule for the early retirement incentive programs (ERI-1, ERI-2, ERI-3, ERI-4 and ERI-5) by location for the 2012 fiscal year. It also provides the present value of the future contributions as of June 30, 2010. This list reflects locations who paid off their ERI liabilities through June 2010 as a result of Chapter 42, P.L. 2002.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VII - ACTUARIAL ASSUMPTIONS AND METHODS
AS OF JUNE 30, 2010

A. Actuarial Assumptions

Interest: 8.25% per annum, compounded annually (as prescribed by the State Treasurer).

CPI: 3.0% per annum, compounded annually (as prescribed by the State Treasurer). The pension adjustment is 60% of the cumulative increase.

Future Payroll Growth: 4.0% per annum, compounded annually.

Salary Scale: Salary increases vary by years of employment averaging 5.91% (based on the 2009 Experience Study). Schedule of rates are shown below.

<u>Years of Employment</u>	<u>Annual Rate</u>
0-12	7.35%
13	7.20
14	6.85
15	6.55
16	5.90
17	5.30
18	5.10
19	4.75
20	4.75
21	4.30
22	4.25
23-25	4.10
26-30	3.75
31+	3.40

Increases in Compensation Limits: The IRC Section 401(a)(17) limit is assumed to increase 3.0% per annum, compounded annually. The Social Security Taxable Wage Base is assumed to increase 4.0% per annum, compounded annually.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VII - ACTUARIAL ASSUMPTIONS AND METHODS
AS OF JUNE 30, 2010

A. Actuarial Assumptions (Continued)

Disability: Incidence of ordinary disabilities among active members apply upon the attainment of 10 years of service until the attainment of first eligibility for retirement. For members eligible for early retirement, the greater of the early retirement and disability benefit is valued. The rates vary by age, gender and type of disability. Illustrative rates are shown below:

<u>Age</u>	<u>Ordinary</u>		<u>Accidental</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
25	0.0301%	0.0379%	0.0060%	0.0060%
30	0.0473	0.0550	0.0060	0.0060
35	0.0609	0.0674	0.0060	0.0060
40	0.0701	0.0893	0.0060	0.0060
45	0.1023	0.1317	0.0060	0.0060
50	0.1421	0.1759	0.0060	0.0060
55	0.3732	0.3506	0.0060	0.0060

Pre-retirement Mortality: Illustrative rates of mortality of active members which vary by age and gender are shown below. No accidental deaths are assumed.

<u>Age</u>	<u>Ordinary</u>	
	<u>Male</u>	<u>Female</u>
25	0.0345%	0.0170%
30	0.0376	0.0191

60	0.2747	0.1589
65	0.4263	0.2374
70	0.6725	0.3754

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VII - ACTUARIAL ASSUMPTIONS AND METHODS
AS OF JUNE 30, 2010

A. Actuarial Assumptions (Continued)

Post-retirement Mortality: Rates of mortality vary by age, gender and type of retirement. A generational approach is applied using Scale AA to account for future mortality improvement for non-disabled annuitants. The base year is 2000 for males and 2003 for females. Illustrative rates for the base year and Scale AA are shown below:

<u>Age</u>	<u>Service Retirements and Beneficiaries</u>		<u>Scale AA</u>		<u>Disability Retirement</u>	
	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>	<u>Male</u>	<u>Female</u>
45	0.3573%	0.1375%	1.3%	1.6%	1.8057%	0.7078%
50	0.5265	0.2151	1.8	1.7	2.3180	1.0958
55	0.4781	0.3066	1.9	0.8	2.8354	1.5717
60	0.5813	0.4937	1.6	0.6	3.3634	2.0747
65	1.0238	0.6602	1.4	0.5	4.0139	2.6625
70	1.6962	1.0497	1.5	0.6	5.0066	3.5753
75	2.9598	1.7342	1.4	0.8	6.5654	4.9619
80	5.2282	3.0118	1.0	0.7	8.7498	6.8696
85	9.2106	6.4019	0.7	0.6	11.3282	9.5193

Non-contributory Members: 30% are assumed to return to contributory status.

Marriage: Husbands are assumed to be 3 years older than wives. Among the active population, 80% of participants are assumed to be married. No children are assumed. Neither the percentage married nor the number of children assumptions are necessarily individually explicit, but they are considered reasonable, when viewed as a single combined assumption.

Form of Payment: Modified Cash Refund Annuity.

Special Data Adjustments: Determination of employee type is based on Class Code and was used as provided by the Division. Active members where no salary was provided, no date of birth was provided, or ASF was negative were excluded from the valuation. A liability equal to the ASF was held. For beneficiaries where no gender code or date of birth was provided, reasonable assumptions were made based on records provided in prior years or the deceased retiree's records. All

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY

SECTION VII - ACTUARIAL ASSUMPTIONS AND METHODS AS OF JUNE 30, 2010

A. Actuarial Assumptions (Continued)

such records were included in the valuation. Retiree members where no benefit and monthly allowance was provided, or no cause, class, or option was provided were excluded from the valuation.

B. Actuarial Valuation Method

The Projected Unit Credit Method was used as required by Chapter 62, P.L. 1994 as modified by Chapters 115, P.L. 1997 and 133, P.L. 2001. Non-contributory life insurance benefits are funded on a term cost basis.

C. Asset Valuation Method

A five year average of market value with write-up was used. This method takes into account appreciation (depreciation) in investments in order to smooth asset values by averaging the excess of the actual over the expected income, on a market value basis, over a five year period. Cash flows are based on an accrual accounting approach. This method is prescribed by statute. The market value of assets is used for the Contributory Group Insurance Premium Fund for GASB purposes.

D. Changes in Actuarial Assumptions

This is the first valuation that reflects the proposed assumptions adopted in the June 30, 2006 – June 30, 2009 Experience Study.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

Section VII – A, B, C & D

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

This summary of plan provisions is intended only to describe the essential features of the plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

1. Type of Plan

The Plan is a contributory, defined benefit plan. Effective July 1, 2007, contributions by Members are 5.5% of compensation. For members hired on or after July 1, 2007, compensation for contributions is capped at the Social Security Taxable Wage Base (\$106,800 for 2010). For compensation in excess of the Social Security Taxable Wage Base, contributions of 5.5% of the excess compensation are made to the Defined Contribution Retirement Program.

2. Effective Date

The Plan was established in 1919. It was reorganized and integrated with Social Security in 1955. Social Security integration was eliminated in 1966, i.e., reductions in retirement benefits based on Social Security benefits were eliminated.

3. Eligibility for Membership

Employees appointed to positions requiring certification as members of a regular teaching or professional staff of a public school system in New Jersey are required to enroll as a condition of employment. Employees of the Department of Education holding unclassified, professional and certificated titles are eligible for membership. Temporary or substitute employees are not eligible. The eligible employee must be scheduled to work at least 32 hours per week effective May 22, 2010, per Chapter 1, P.L. 2010.

4. Definitions

- a. Fiscal Year: A Fiscal Year is a 12-month period beginning on July 1 and ending on June 30.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

4. Definitions (continued)

- b. Credited Service: A year of Credited Service for each year an employee is a Member of the Retirement System plus service, if any, covered by a prior service liability. Class F members must be scheduled to work at least 32 hours per week, Class E members also must have an annual salary of \$7,500 (indexed for inflation) and other members must have an annual salary of \$500.
- c. Final Compensation: This is the average annual compensation upon which contributions by a member are based on the period consecutive years of Creditable Service immediately preceding retirement or the period of highest fiscal years of Membership Service. The period equals three for members hired prior to May 22, 2010 and five for Class F members.
- d. Final Year Compensation: This is the compensation upon which contributions by a Member to the Annuity Savings Fund are based in the last year of Membership Service.
- e. Aggregate Member Contributions: This is the sum of all amounts deducted from the compensation of a Member or contributed by him or on his behalf without interest.
- f. Class A Member: Any member who contributes towards retirement allowance based on 1/64th benefit rate per year of creditable service.
- g. Class B Member: Any member hired prior to July 1, 2007 who contributes towards a retirement allowance based on 1/55th benefit rate per year of creditable service.
- h. Class D Member: Any member hired on or after July 1, 2007 and before November 2, 2008 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/55th benefit rate per year of creditable service payable at age 60.
- i. Class E Member: Any member hired after November 1, 2008 and before May 22, 2010 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/55th benefit rate per year of creditable service payable at age 62.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

4. Definitions (continued)

- j. Class F Member: Any member hired after May 21, 2010 who contributes up to the Social Security Taxable Wage Base towards a retirement allowance based on 1/60th benefit rate per year of creditable service payable at age 62.

5. Cost-of-Living Adjustment

The Pension Adjustment Program provides a cost-of-living adjustment (COLA) to retirees and their survivors who receive a monthly retirement allowance from the TPAF. The first adjustment is received in the 25th month after the member's retirement. Subsequent cost-of-living adjustments are computed annually and are first reflected in February. The rate of increase is equal to 60 percent of the percentage change between the average CPI for the 12 month period ending December 31 in the year of retirement and the August 31 preceding the February adjustment.

6. Retirement Benefits

a. Service Retirement

Service Retirement Eligibility: Eligibility means age 60 (Class A, B, and D) or age 62 (Class E and F) with no minimum service requirement.

Service Retirement Benefit: An employee's annual service retirement allowance is equal to a member annuity plus an employer pension which together equals 1/64th of Final Compensation for each year of service for Class A members, 1/55th of Final Compensation for each year of service for Class B, D and E members and 1/60th of Final Compensation for each year of service for Class F members.

Note: See Section 12 for special benefits for veteran members.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

6. Retirement Benefits (continued)

b. Early Retirement

Early Retirement Eligibility: A Member may retire after completion of 25 years of Creditable Service.

Early Retirement Benefit: The benefit may be either:

- (i) the lump sum withdrawal benefit described in 7.a. below; or
- (ii) the Service Retirement Benefit reduced by 1/4 of one percent for each month the retirement date precedes age 55 for Class B members; or
- (iii) the Service Retirement Benefit reduced by 1/12 of one percent for each month the retirement date precedes age 60 but over age 55 and by ¼ of one percent for each month the retirement date precedes age 55, for Class D members.
- (iv) the Service Retirement Benefit reduced by 1/12 of one percent for each month the retirement date precedes age 62 but over age 55 and by ¼ of one percent for each month the retirement date precedes age 55, for Class E and F members.

7. Termination Benefits

a. Lump Sum Withdrawal

Eligibility: A Member is eligible upon termination of service.

Lump Sum Withdrawal Benefit: The benefit equals a refund of Aggregate Member Contributions plus, if the member has completed three years of service, interest accumulated at 2.0% per annum allowed thereon.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

6. Retirement Benefits (continued)

b. Deferred Retirement

Eligibility: A Member is eligible upon termination of service prior to age 60 (Class A, B, D) or age 62 (Class E and Class F) and after 10 years of Creditable Service.

Deferred Retirement Benefit: The benefit may be either:

- (i) the lump sum withdrawal benefit described in 7.a. above; or
- (ii) a deferred retirement benefit, commencing at age 60 (Class A, B, D) or age 62 (Class E and Class F), equal to a member annuity plus an employer pension which together provide a retirement allowance equal to the service retirement benefit based on Final Compensation and Creditable Service at date of termination.

8. Death Benefits

a. Ordinary Death (Insured) Benefit - Lump Sum (Non-Contributory)

Pre-retirement Death Benefit Eligibility: Any current active member is eligible.

Pre-retirement Death Benefit: The benefit is a lump sum benefit equal to the Aggregate Contributions with interest allowed thereon plus an amount equal to 1-1/2 times Compensation at date of death.

Post-retirement Death Benefit Prior to Age 60 (Class A, B, D) or Age 62 (Class E and Class F) Eligibility: Eligible if disabled or retired early.

Post-retirement Death Benefit Prior to Age 60 (Class A, B, D) or Age 62 (Class E and Class F) Benefit: The benefit is as follows:

- (i) For death while a Disabled Retiree the benefit is equal to 1-1/2 times Compensation.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

(ii) For death while an Early Retiree, the benefit is equal to 3/16 times Compensation.

8. Death Benefits (continued)

(iii) For death while vested terminated, the benefit is equal to his Aggregate Contributions with interest allowed thereon.

Post-retirement Death Benefit After Age 60 (Class A, B, D) or Age 62 (Class E and F) Eligibility: Eligible after attainment of age 60 (Class A, B, D) or age 62 (Class E and F) for service, deferred and disabled retirements (if not disabled, 10 years of Creditable Service required for members enrolling on or after July 1, 1971).

Post-retirement Death Benefit After Age 60 (Class A, B, D) or Age 62 (Class E and F) Benefit: The benefit payable is equal to 3/16 times Compensation.

b. Contributory Death Benefit: An additional, employee-paid, death benefit is also available through group insurance purchased by the Board of Trustees. Contributions for this benefit are required by Members during the first year of enrollment. Participation may be terminated after the first year. The benefit prior to retirement is 2 times compensation. The benefit after retirement is 1/4 times final year compensation (coverage at retirement, and 10 years of participation for Members enrolling on or after July 1, 1970, is required).

c. Pre-retirement Accidental Death Benefit:

Eligibility: A death resulting from injuries received from an accident during performance of duty and not a result of willful negligence is eligible.

Pre-retirement Lump Sum Benefit: The benefit is a lump sum equal to 1-1/2 times Compensation.

Pre-retirement Accidental Death Benefit: The benefit payable is as follows:

(i) The annuity benefit to a widow or widower is equal to 50% of Compensation, payable for life or until remarriage.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN PROVISIONS
AS OF JUNE 30, 2010

8. Death Benefits (continued)

- (ii) The annuity benefit, when there is no spouse, or the spouse is remarried, is equal to 20% of Compensation for one child, 35% for two children, 50% for three or more children. The benefit is payable while the children are under age 18 and it is payable for life if they are disabled.
- (iii) The annuity benefit, when there is no spouse or children, is equal to 25% of Compensation for one dependent parent and 40% for two dependent parents.
- (iv) The benefit, when there is no relation as stated above, is equal to the Aggregate Contributions with interest allowed thereon and is payable to a beneficiary or to the Member's estate. This is also the minimum benefit payable under (i), (ii) and (iii) above.

9. Disability Benefits

a. Ordinary Disability Retirement

Eligibility: A Member is eligible for Ordinary Disability Retirement if he (she) has 10 years of Creditable Service and is totally and permanently incapacitated from the performance of usual or available duties.

Ordinary Disability Retirement Benefit for Class A, B, D and E members: The total retirement allowance is equal to the greater of:

- (i) 1.64% of Final Compensation times the number of years of Creditable Service; or
- (ii) 43.6% of Final Compensation.

Note: See Section 12 for special benefits for veteran members.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

9. Disability Benefits (continued)

Ordinary and Accidental Disability Retirement Benefit for Class F members: A disability benefit equal to 60% of salary reduced by the initial Social Security benefit is paid until the earlier of age 70 or commencement of a retirement benefit from a disability income policy outside of TPAF. The policy also makes employee contributions during the period of disability.

b. Accidental Disability Retirement for Class A, B, D and E members

Eligibility: A Member is eligible upon total and permanent incapacitation as a direct result of a traumatic event occurring during and as a result of the performance of regular or assigned duties.

Accident Disability Retirement Benefit: The benefit payable is equal to a Member annuity plus an employer pension which together equals 72.7% of the Compensation at date of injury.

10. Additional Old-Plan Benefit: An additional pension is payable to any retiree who was a member of the old Teachers' Retirement Fund. This pension is the actuarial equivalent of his contributions to the old Teachers' Retirement Fund without interest.

11. Special Minimum Benefit: A member who retired prior to 1955 with 20 or more years of service may receive a minimum pension of \$500 a month inclusive of any amounts payable under any pension adjustments.

12. Special Benefits for Veterans:

a. Service Retirement: Eligible if member attains age 60 and completes 20 years of service or attains age 55 and completes 25 years of service. Benefit equals 54.5% of highest 12-month contributory compensation.

b. Chapter 97 Benefit: Eligible if age 55 and completes 35 years of service. Benefit equals 1/55th of final year compensation for each year of service.

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

13. Benefit and Compensation Limits

The provisions of IRC Section 415 and IRC Section 401(a)(17), which limit benefits paid and limit compensation used in determining benefits, has been reflected in this report.

The IRC Section 415 limit is \$195,000 and the 401(a)(17) compensation cap is \$245,000 for 2010 and is applied on a calendar year basis.

14. Forms of Payment

- a. Maximum Option – Single life annuity.
- b. Option 1 – Single life annuity with return of reserve option.
- c. Option 2 – 100% joint and survivor annuity.
- d. Option 3 – 50% joint and survivor annuity.
- e. Option 4 – Other percentage joint and survivor annuity.
- f. Option A – 100% pop-up joint and survivor annuity.
- g. Option B – 75% pop-up joint and survivor annuity.
- h. Option C – 50% pop-up joint and survivor annuity.
- i. Option D – 25% pop-up joint and survivor annuity.

15. Contributions

- a. Member Contributions: Each member becoming a member on or after January 1, 1956 and prior to July 1, 2007 contributes at the rate of contribution applicable to Class B members. Any members hired after June 30, 2007 and prior to November 2, 2008 are Class D members. Members hired after November 1, 2008 and prior to May 22, 2010 are Class E members. Members hired after May 21, 2010 are Class F members.
 - (i) Class D, E or F Membership: Class D, E or F members contribute at their applicable contribution rate up to the Social Security Taxable Wage Base.
 - (ii) Class B Membership: Any member on December 31, 1955 may elect to be classified as a Class B member and contribute at the rate of contribution applicable to Class B members at his age at membership. Any such member may elect to increase his accumulated deductions by the amount

This work product was prepared solely for the State of NJ and may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

TEACHERS' PENSION AND ANNUITY FUND OF NEW JERSEY
SECTION VIII – SUMMARY OF PRINCIPAL PLAN APROVISIONS
AS OF JUNE 30, 2010

15. Contributions (continued)

required by the Board to receive credit as a Class B member for all or part of his service prior to such election.

- (iii) Class A Membership: Any member who is not a veteran and does not elect to be classified as a Class B member continues to contribute at the rate of contribution applicable to his age at membership which was payable prior to the establishment of the integrated system, except that if he became a member subsequent to June 30, 1946 he will pay after January 1, 1955 at the rate of contribution in effect on June 30, 1946 applicable to his age at membership.

Prior to July 1, 1979 different contribution rates were established for men and women. Effective on that date members contribute at rates intermediate between the rates previously applicable to male and female members, computed to provide the same present value of future employee contributions at each entry age on the basis of the membership as constituted on the effective date.

b. Local Employer Contributions

- (i) Early Retirement Incentive Contributions: The State and Local employers which elected to participate in the early retirement incentive programs authorized by Chapters 137, 229 and 231, P.L. 1991, Chapters 48, 138 and 163, P.L. 1993, Chapter 23, P.L. 2001 and Chapters 128 and 129, P.L. 2003 pay contributions to cover the additional liability for these programs over amortization periods chosen by the employer (15 years for Chapters 128 and 129) or the amortization period for the Unfunded Accrued Liability of the system (Chapter 23, P.L. 2002 and Chapter 21, P.L. 2008).
- (ii) Chapter 113 Contributions: Certain School Districts have elected to exempt a select group of employees from the compensation limit under IRC Section 401(a)(17) incorporated under Chapter 113. These school districts will pay the full cost of this exemption at a member's date of retirement.
