MISSION statement

The mission of the Board of the Public Employees Retirement Association is to preserve, protect, and administer the Trust to meet its current and future obligations and provide quality services to association members.

Value statement

The Board will act with integrity in meeting its fiduciary responsibilities to the Trust. The Board will make efficient, effective, prudent and visionary decisions in fulfilling its mission. Board Members will be reliable, responsible, and will utilize opportunities to receive necessary training in order to be knowledgeable fiduciaries. The Board will engage in inclusive decision making processes, which support its expectation that the Board speaks with a unified voice.

Board Chair's Letter

December 18, 2013

Dear PERA Members:

On behalf of the PERA Board of Trustees, I am pleased to present our Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2013. The Report provides information about the financial condition of the Fund and our membership.

As you know, significant changes were made to the Fund during the 2013 Legislative Session. Progress was made to decrease our unfunded liability by \$1.5 billion. However, we know we have a long ways to go before we completely recover from our investment losses in 2008 and 2009 and get to a funded ratio of 100%.

The PERA Board takes its fiduciary responsibility very seriously and will continue to work to preserve and protect the Fund and the benefit it allows us to offer. The Board asks for your patience while the legislative reforms are implemented to ensure that we are truly on a sustainable path to long term solvency.

We are honored to serve as your representatives and pledge our best efforts to continue the actuarial soundness and progress of the PERA Fund.

Sincerely,

Patricia (Patty) French PERA Board Chair

Executive Director's Letter

December 13, 2013

To: Board of Trustees and Members of the New Mexico Public Employees Retirement Association

The Staff of the New Mexico Public Employees Retirement Association (PERA) is pleased to present this Comprehensive Annual Financial Report (CAFR) for the Fiscal Year ended June 30, 2013 (FY13).

Management is responsible for both the accuracy of the data, the completeness and fairness of the report and the presentation contained in this report. To the best of our knowledge, the report is materially accurate and presents fairly the financial position and results of operations of PERA. The report includes all retirement plans administered by PERA covering the following public employees: State, Municipal, Legislative, Judicial, Magistrate and Volunteer Firefighters. This report is intended to provide complete and reliable information as a basis for making management decisions and complying with all federal and state laws and ensuring fiscal responsibility of PERA's assets.

PERA was established by statute in 1947. For further discussion of the background of PERA, see the Notes to Financial Statements starting on page 46.

CAFR

The CAFR is presented in five sections: introduction, financial, investment, actuarial and statistical. The introduction includes this transmittal letter, a letter from the Board Chair, PERA's organizational chart, PERA at a glance, and Member Service Communications.

PERA's transactions are reported on the accrual basis of accounting. Sufficient internal accounting controls exist to provide reasonable assurance regarding the fair presentation of the financial statements and supporting schedules.

The financial section was prepared in accordance with generally accepted accounting principles (GAAP) as well as the reporting requirements described by the Governmental Accounting Standards Board (GASB). The financial section features a Management's Discussion and Analysis (MD&A). GASB requires that a narrative introduction, overview and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found in the financial section immediately following the report from the independent auditor.

The Investment section provides an overview of the investment program and other portfolio information.

The Actuarial section details the funding status and other actuarial information.

Executive Director's Letter (continued)

The Statistical section includes financial and demographic information along with the Deferred Compensation information.

Fiscal Year 2013 Highlights

During Fiscal Year 2013 PERA experienced a higher than expected return on investment of 13.26% and in October of 2013 the Fund reached an all time high of \$13.9 billion, representing a recovery of the significant losses incurred during the worldwide financial crisis of 2008 and 2009

Summary of Financial Information

The following schedule is a summary of the Fund's additions and deductions for the years ended June 30, 2013 and June 30, 2012 (excluding the Deferred Compensation (IRC 457) Fund).

	June 30, 2012	June 30, 2011
Additions	\$447,012,405	\$2,784,723,221
Deductions	(847,532,395)	(781,281,003)
Net Change	(\$400,519,990)	\$2,003,442,218

Additions decreased from FY11 to FY12 by \$ 2,337,710,816 primarily due to a decrease in net investment income. Deductions increased by \$66,251,392 primarily due to an increase of \$64,317,518 in benefit payments for the year.

Plan Financial Condition

PERA's funding objective is to meet long-term benefit payments through contributions that are statutorily fixed as a percent of member payroll, and achieving a 7.75% annual Assumed Actuarial Investment Return. Historical information relating to progress in meeting this objective is presented on pages 79-80. As a result of legislation enacted in 2013, for the year ended June 30, 2013, the funded ratio of PERA was 72.9%, an increase over June 30 2012. Additional information regarding the financial condition of the various component funds of PERA can be found in the Actuarial Section of this report.

Investment Activity

PERA's investment portfolio produced a total return, gross of expenses, of 13.26% for the year ended June 30, 2013, outperforming the Assumed Actuarial Investment Return of 7.75%.

PERA is a long-term investor and our portfolio is constructed to weather financial storms through diversification and constant attention to our process to make improvements as needed. Additional information regarding the investment results for the year is included in the Investment Section of this report.

Legislation Enacted During the 2013 Legislative Session

Senate Bill 25 – SB 25 was the result of a multiyear process undertaken by the PERA Board of Trustees and the Legislature to enact reforms to the benefit offered by PERA and address the long term funding challenges faced by PERA. The legislation reformed the annual cost of living adjustment for all PERA members (current and future) and made other changes to the benefit multiplier, vesting period, final average salary calculation period, employer and employee contributions and years of service requirements. As a result of SB 25, PERA saw a \$1.5 billion reduction in its Unfunded Accrued Actuarial Liability (UAAL) and an increase in its funded ratio.

Senate Bill 27 – SB 27 made changes to the Judicial and Magistrate retirement plans in an effort to restore the plans to solvency. While the bill passed the Legislature, it was vetoed by the Governor. Efforts to reform these two plans are expected to continue in 2014.

Actuarially Analysis

PERA's funding objective is to meet long-term benefit payments through contributions that are statutorily fixed as a percent of member payroll, and achieving a 7.75% annual Assumed Actuarial Investment Return. The actuarial reports are prepared by Cavanaugh Macdonald LLP based on data provided by PERA. They also serve as a technical advisor to staff on actuarial issues. More detailed information for all the plans can be found in the Actuarial Section of this report.

Management Responsibility for Financial Reporting

PERA maintains a system of internal controls designed to provide reasonable assurance that assets are properly safeguarded, transactions are properly executed, and financial statements are reliable. In addition, internal audit personnel provide a continuing review of the internal controls and operations of PERA, and the Internal Auditor regularly reports to the PERA Board's Audit and Budget Committee. The objective of internal control is to provide reasonable, not absolute, assurance that the financial statements are free of material misstatements; PERA maintains internal controls to provide reasonable assurance that control objectives are met. The Committee reviews the audit findings and recommendations for improvements in internal control and operational efficiency and the actions of management to implement such recommendations.

The internal control system includes the organizational plan, the segregation of duties, sound accounting practices in the performance of duties, knowledgeable personnel and an internal auditor. PERA believes the internal controls during FY13 were appropriate and provide reasonable assurance regarding the proper recording of financial transactions.

Independent Audit

An annual audit of PERA's Financial Statements has been performed this year by the independent accounting firm of Moss Adams, LLP in conjunction with the New Mexico State Auditor's Office. The auditors' report on the financial statements is included in the Financial Section of this report. Moss Adams incorporated the audit done by CliftonLarsonAllen, LLP in regard to the Deferred Compensation (IRC 457) Fund, which PERA administers.

Conclusion

This report is a product of the combined efforts of the PERA staff functioning under the Board's guidance. It is intended to provide complete and reliable information that will facilitate the management decisionmaking process, serve as a means for determining compliance with legal requirements, and allow for the evaluation of responsible stewardship of the PERA Fund.

Sincerely,

Wayne Propst **Executive Director**

Member Communications

Member Services

Providing quality customer service to our members is one of the most important functions of PERA. The Member Services Division staff serves PERA's active members and retirees. The benefits counselors and support staff provide information over the telephone, through written correspondence, by personal counseling appointments and through group presentations. PERA staff processed and put on payroll approximately 1,690 retirements in FY13.

The PERA staff is responsible for preparing benefit estimates, calculating the cost of purchasing withdrawn service credit and air time, assisting members with understanding retirement procedures, preparing military service calculations, processing refund repayment requests and assisting members with death benefit claims. Member Services also prepares adjustments to PERA retiree pension checks to reflect the yearly Cost-of-Living Adjustment (COLA).

Publications

Starting in the last quarter of 2011 the PERA newsletter, La Voz, was distributed electronically to 80% of PERA employers. Approximately 11,000 printed copies of La Voz were distributed to the rest of the PERA employers. The time frame for distribution was changed to three times a year to active and retired members. La Voz informs members about their retirement plan, legislative updates, news from our Board and other relevant subjects. All PERA publications are available on the PERA website or by contacting PERA at the numbers listed at the front of this report.

Public Relations

Executive Director Wayne Propst has continued his mission of meeting with agency affiliates throughout the state. City and county managers, financial directors and governing commissions and councils were updated on the PERA fund status and legislative changes. The executive director made presentations at meetings of the Retirement Systems Solvency Task Force, Investments and Pensions Oversight Committee, Legislative Auditors, Legislative Finance Committee and Retired Public Employees of New Mexico. The Executive staff and Board members conducted 32 outreach meetings across the state informing members

of the upcoming legislative changes PERA would be requesting during the next legislative session. PERA liaison officers also visited the following affiliates: the cities and towns of Alamogordo, Albuquerque, Belen, Bernalillo, Carlsbad, Clovis, Deming, Farmington, Gallup, Grants, Hobbs, Las Cruces, Lordsburg, Los Lunas, Portales, Rio Rancho, Roswell, Santa Fe, Silver City, Taos, and Tucumcari; the counties of Bernalillo, Chavez, Curry, Dona Ana, Eddy, Grant, Hidalgo, Lea, Lincoln, Los Alamos, Luna, McKinley, Otero, Quay, Roosevelt, San Juan, Sandoval, Santa Fe, Socorro County, Taos, and Valencia and various state agencies across the State.

Benefits Training

This year, the PERA liaison officers in the Santa Fe and Albuquerque offices conducted over 150 seminars statewide. PERA continues to expand training sessions for members and affiliates.

Annual Member Statements, Cost-Of-Living Adjustment Letters and 1099-R Forms

Annual statements of account for individual active members are mailed directly to each active member. providing a summary of account transactions and member contribution balances. The FY13 Annual Member Statements were mailed in October 2013. Member 1099-R forms are mailed each January to retirees as well as to members who requested refunds of their member accounts. The 2013 annual notifications of Cost-of-Living Adjustments (COLAs) were mailed to retirees and beneficiaries in July.

PERA's Website

PERA's website contains updated, valuable information concerning PERA current events, administration, investments and member services. Please visit the website at www.pera.state.nm.us.

PERA Customer Service Center

The PERA Customer Service Center allows members, retirees and employers to speak directly to a customer service representative by calling or visiting the Santa Fe and Albuquerque offices. PERA strives to make the latest information available to its members, retirees and affiliates.

Independent Auditor's Report

REPORT OF INDEPENDENT AUDITORS

To Members of the Retirement Board of the Public Employees Retirement Association of New Mexico and Mr. Hector H. Balderas, New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying Statements of Plan Net Position and Statements of Changes in Plan Net Position of the Public Employees Retirement Fund, Judicial Retirement Fund, Magistrate Retirement Fund, and the Volunteer Firefighters Retirement Fund (collectively, the Funds) administered by the Public Employees Retirement Association of New Mexico (PERA) as of and for the year ended June 30, 2013, as listed in the table of contents. We did not audit the Deferred Compensation (IRC 457) Fund, which reflect total assets and additions constituting 3 percent and 4 percent, respectively. The financial statements of the Deferred Compensation (IRC 457) Fund were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Deferred Compensation (IRC 457) Fund, is based solely on the report of the other auditors.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PERA's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1, the financial statements of PERA are intended to present the plan net position and changes in the plan net position of only that portion of the State of New Mexico which are attributable to the transactions of the Funds administered by PERA. They do not purport to, and do not present fairly, the financial position of the State of New Mexico as of June 30, 2013, and the changes in its financial position, for the year then ended in conformity with U.S. generally accepted accounting principles.

Opinions

In our opinion, based on the report of our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the plan net position of PERA as of June 30, 2013, and the respective changes in financial position of its plan net position for the year then ended in conformity with account-

Independent Auditor's Report (continued)

ing principles generally accepted in the United States of America. In addition, in our opinion, the individual financial statements of each Fund referred to above present fairly, in all material respects, the financial position of the plan net position of each of the individual funds administered by PERA as of June 30, 2013, and the respective changes in the financial position of the plan net position of the individual funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Funding Progress, Schedule of Contributions from Employers and Other Contributing Entities and Notes to Required Supplementary Information on pages 6 through 23 and 70 through 73, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on them.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Public Employees Retirement Association of New Mexico's basic financial statements. The accompanying Schedule of Administrative and

Investment Expenses Public Employees Retirement Fund Only, Schedule of Administrative and Investment Expenses Judicial Retirement Fund Only, Schedule of Administrative and Investment Expenses Deferred Compensation Fund Only, Schedule of Administrative and Investment Expenses Magistrate Retirement Fund Only, and Schedule of Administrative and Investment Expenses Volunteer Firefighter Retirement Fund Only are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Schedule of Administrative and **Investment Expenses Public Employees Retirement** Fund Only, Schedule of Administrative and Investment Expenses Deferred Compensation Fund Only, Schedule of Administrative and Investment Expenses Judicial Retirement Fund Only, Schedule of Administrative and Investment Expenses Magistrate Retirement Fund Only, and Schedule of Administrative and Investment Expenses Volunteer Firefighter Retirement Fund Only are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Schedule of Administrative and Investment Expenses Public Employees Retirement Fund Only, Schedule of Administrative and **Investment Expenses Deferred Compensation Fund** Only, Schedule of Administrative and Investment Expenses Judicial Retirement Fund Only, Schedule of Administrative and Investment Expenses Magistrate Retirement Fund Only, and Schedule of Administrative and Investment Expenses Volunteer Firefighter Retirement Fund Only are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Independent Auditor's Report (continued)

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 13, 2013 on our consideration of PERA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering PERA's internal control over financial reporting and compliance.

Albuquerque, New Mexico December 13, 2013

Mess adams LLP

Management's Discussion and Analysis

For the Fiscal Year ending June 30, 2013

This discussion and analysis of the Public Employees Retirement Fund, the Judicial Retirement Fund, the Magistrate Retirement Fund, the Volunteer Firefighters Retirement Fund, and the Deferred Compensation (IRC 457) Plan (collectively, the "Funds") of the Public Employees Retirement Association of New Mexico (PERA) for the years ended June 30, 2013 and 2012 provides a summary of the financial position of the Funds, including highlights and comparisons.

The Public Employees Retirement Association (PERA) administers 31 different retirement plans, for affiliated public employers in the State of New Mexico. PERA is a governed Board of Trustees consisting of two ex-officio members and ten members elected by the Association's membership. The Board serves as the trustee for the funds controlled by PERA and is authorized to invest the funds on behalf of PERA. The Board appoints an Executive Director to oversee daily operations of the agency.

PERA administers a qualified governmental plan under Section 401(a) of the Internal Revenue Code (IRC), which provides retirement, disability and survivor benefits pursuant to the Public Employees Retirement Act. The Public Employees Retirement Act, NMSA 1978 §§10-11-1 to 10-11-141, provides most of PERA's statutory authority. Additional statutory authority is contained in NMSA 1978 § 10-11A-1 et seq, NMSA 1978 § 10-12B-1 et seq, NMSA 1978 § 10-12C-1 et seq, and NMSA 1978 § 10-13A-1 et seq. Deferred compensation is governed by NMSA 1978 §§ 10-7A-1 to 10-7A-12 and the U.S. Internal Revenue Code § 457.

In FY12, the PERA Board reported an unfunded liability of \$6.2 billion, approximately \$1.2 billion greater than the previous year. In response, the PERA Board developed a pension reform proposal with the objective of providing a stable and affordable retirement benefit for the public employees of the State of New Mexico. The final reform proposal projected the Fund would achieve a 100% funded ratio on or before 2041. The PERA Board held 32 public meetings statewide regarding the reform proposals. The Board's final proposal, endorsed by the Investments and Pensions Oversight Committee, affected all employee groups: current retirees, active employees and future employees. The proposed pen-

sion reform package, introduced in the 2013 Legislative Session as Senate Bill 27, passed the Legislature and was signed by the Governor. SB 27 became effective July 1, 2013 (see Note 1, section D for detailed information regarding changes) and represents the most sweeping changes to the PERA benefit since the agency's founding.

Preliminary analysis of the impact of SB 27 indicates that the UAAL has decreased by almost \$1.6 billion and the funded ratios of all PERA Plans have improved. PERA's actuaries project the Fund will reach a funded ratio of 100% by 2041 and 108.8% by 2043.

Recent Governmental Accounting Standards Board (GASB) accounting changes (GASB 67 and GASB 68) will change how an unfunded liability is calculated for accounting purposes and how it is reported on financial statements for PERA's participating entities. PERA staff is working to implement the new rules and the agency's actuaries will conduct a test of the new accounting requirements for February 2014. Additionally, PERA staff is taking the following steps to prepare for the new rules:

- Participating in a GASB 68 task force that consists of PERA, Educational Retirement Board (ERB), Department of Finance and Administration (DFA) and the State Auditor Office (SAO) staff.
- PERA is developing an online training program as well as site trainings to educate employers and their auditors the impact of GASB 68.
- PERA is responsible for implementing GASB 67 in the FY14 financial statements. Employers of PERA are required to implement GASB 68 in their FY15 financial statements.

Fiscal Year Overview

As noted above, the PERA Board and PERA staff proposed changes to the PERA pension benefits to improve long-term funding and reduce its Unfunded Actuarial Accrued Liability (UAAL).

The market environment was steadily positive most of the year due to Federal Reserve keeping interest rates near zero, positive corporate earnings and the slowly improving economy, which resulted in the overall earnings for the year of 13.26%. These posi-

For the Fiscal Year ending June 30, 2013

tive earnings were 5.51% over the projected 7.75% for the year.

Financial Highlights

- The plan net position held in trust to pay pension benefits was \$13.3 billion as of June 30, 2013. This amount reflects an increase of \$1.16 billion from the prior fiscal year. Interest rates for member accounts and for refund interest was reduced from 5.25% to 2%, which resulted in slight cost savings to the plan. The increase change is primarily the result positive returns of domestic equity and international securities. It is important to note that the change from year to year is not only due to changes in fair value, but also to purchases, sales and redemptions.
- PERA's funding objective is to meet long-term benefit obligations through member and employer contributions and investment earnings. The funded ratio is the ratio of actuarially determined assets against actuarial liabilities. The PERA Retirement Fund funded ratio as of June 30, 2013 is 72.9%. The increase in the funding ratio from June 30, 2012 rate of 65.3% is primarily due to legislative changes in SB27, primarily the reduction of the COLA from 3% to 2%.
 - o Legislative funding ratio at June 30, 2013 is 115.2% versus 91.8% from June 30, 2012. The increase in the funding ratio is primarily the reduction of the Cost-of-Living-Adjustment (COLA) from 3% to 2%.
 - o Judicial funding ratio at June 30, 2013 is 55.7% versus 51.0% from June 30, 2012. The increase in the funding ratio is primarily due to the reduction of the COLA from 3% to 2%.
 - o Magistrate funding ratio at June 30, 2013 is 58.4% versus 53.2% from June 30, 2012. The increase in the funding ratio is primarily due to the reduction of the COLA from 3% to 2%.
 - o Volunteer Firefighter funding ratio at June 30, 2013 is 138.2% versus 167.9% from June 30, 2012. The decrease in the funding ratio is primarily due to legislative changes increasing the annuity benefit.

- Retirement and death benefits paid this year (excluding Deferred Compensation) totaled \$855 million to 32,042 annuitants as compared to \$792 million to 31,108 annuitants for last year. The increase in benefits paid is due to the number of new retirees and cost-of-living allowances.
- Contributions from employers increased from \$280 million in FY12 to \$290 million in FY13, a difference of \$10 million. The increase is primarily due to the changes made in the employer contribution rates since a swap of 1.75% expired in FY13. Contributions from members decreased from \$250 million in FY12 to \$228 million in FY13, a difference of \$22 million. The decrease is primarily due to the changes made in the member contribution rates due to the contribution swap expiring.
- PERA's investments reported a total return of positive 13.26% for the current year and negative 0.38% for last fiscal year. This increase was due to favorable financial market conditions in 2013, especially in regards to domestic equity. (This percentage does not include the investments administered by the Deferred Compensation Plan's contracted third party.)

PERA HIGHLIGHTS

Overview of Financial Statements

PERA's basic financial statements include the following components:

- 1) Statement of Plan Net Position
- 2) Statement of Changes in Plan Net Position
- 3) Notes to the Basic Financial Statements
- The financial statements of the funds of PERA include Statements of Plan Net Position and Statements of Changes in Plan Net Position for the four retirement funds administered by the Agency and the Deferred Compensation Plan (DC Plan) described below. The financial statements also include notes that explain the history and purpose of the funds, significant accounting policies, investment details, statutory disclosures and other required information regarding the financial position of the funds. The required supplementary information and the additional supplementary information that appear after

For the Fiscal Year ending June 30, 2013

- the notes to the financial statements are not a required part of the financial statements, but represent supplementary information required by the Governmental Accounting Standards Board.
- The Deferred Compensation (DC Plan) available to state employees is administered by a contracted third party with oversight by the PERA Board and staff. The assets of that plan are included in these financial statements as a separate fund. The net operating account is funded by fees collected from the DC Plan participants and is used to pay administration expenses for the DC Plan. These amounts are included in the Public Employees Retirement Fund.
- The Statement of Plan Net Position: The Statement of Plan Net Position reflects the resources available at the end of the fiscal year to pay members, retirees, and beneficiaries. This statement also provides information about the fair value and composition of net position. The net increase/decrease serves as an indicator to the financial position of the fund and whether the fund has the ability to fund future benefit payments.
- The Statement of Changes in Plan Net Position: The Statement of Changes in Plan Net Position presents the changes to PERA's net position for the fiscal year, including investment income, net appreciation in fair value of the investment portfolio, administration costs and contributions from members and employers.
- Notes to the Basic Financial Statements: The
 notes to the financial statements are an integral
 part of the basic financial statements and provide
 additional information about the plans of PERA.
 Notes include plan descriptions, significant accounting policies, contributions, funding policies,
 funding status, derivatives disclosure, investment
 risk disclosure, investment credit risk, security
 lending program, commitments and contingencies.
- Required Supplementary Information: The required supplementary information schedules include information regarding funding progress for current fiscal year and the previous five years. In addition, it includes employer annual required

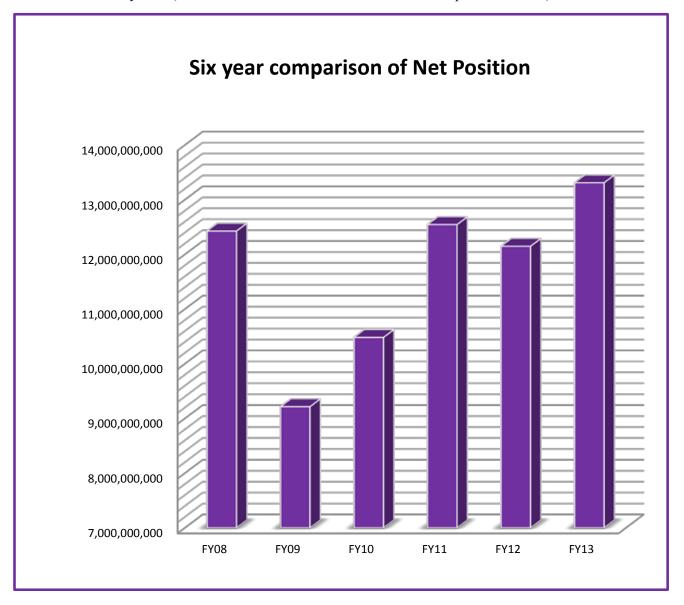

- contributions for current year and previous five years. These schedules provide historical information and actuarial assumptions and methods that assist in understanding the funding status of PERA.
- Supplemental Information: The additional supplementary information includes detailed schedules of administrative, investment and consulting fee expenditures for the PERA Fund, Judicial Fund, Magistrate Fund and Volunteer Fire Fighter Fund.

For the Fiscal Year ending June 30, 2013

Comparative Summary Statements

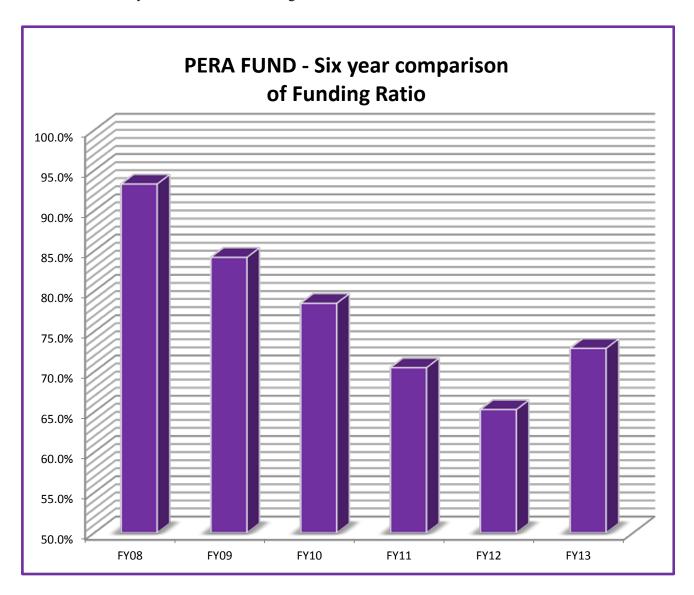

The Public Employees Retirement Association is a defined benefit plan that provides retirement, disability and survivor benefits. It is comprised of five funds: PERA Fund, Judicial Fund, Magistrate Fund, Volunteer Firefighter Fund and the Deferred Compensation Fund. (See Note 1 for further descriptions of the plans)

The following chart represents the change in total net position for the Public Employees Retirement Association over the last 6 years. (This includes all 4 funds and the Deferred Compensation fund.)

PUBLIC EMPLOYEES RETIREMENT FUND

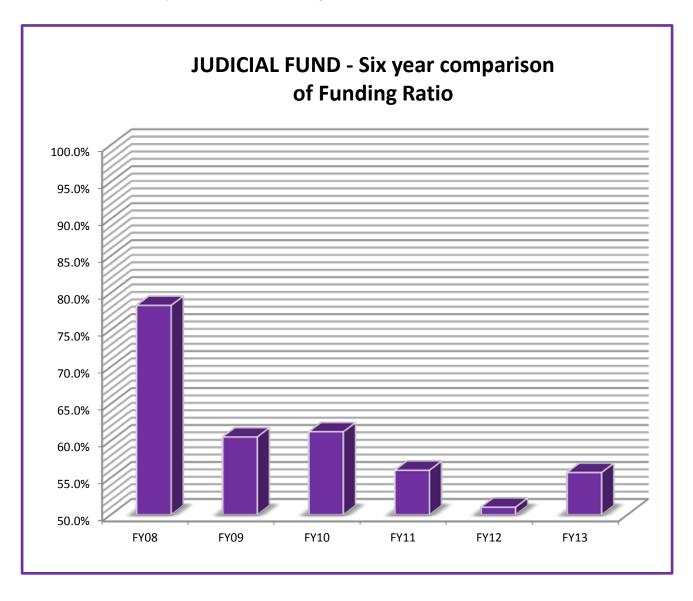

The following chart represents the change in the Funding Ratio for the Public Employees Retirement Association over the last 6 years. The current funding ratio is 72.9%.

For the Fiscal Year ending June 30, 2013

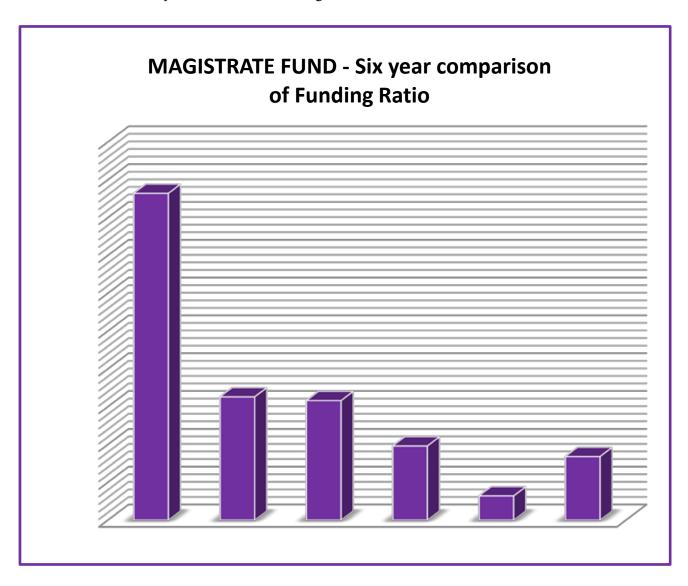

JUDICIAL RETIREMENT FUND

The following chart represents the change in the Funding Ratio for the Judicial Employees Retirement Association over the last 6 years. The current funding ratio is 55.7%.

MAGISTRATE RETIREMENT FUND

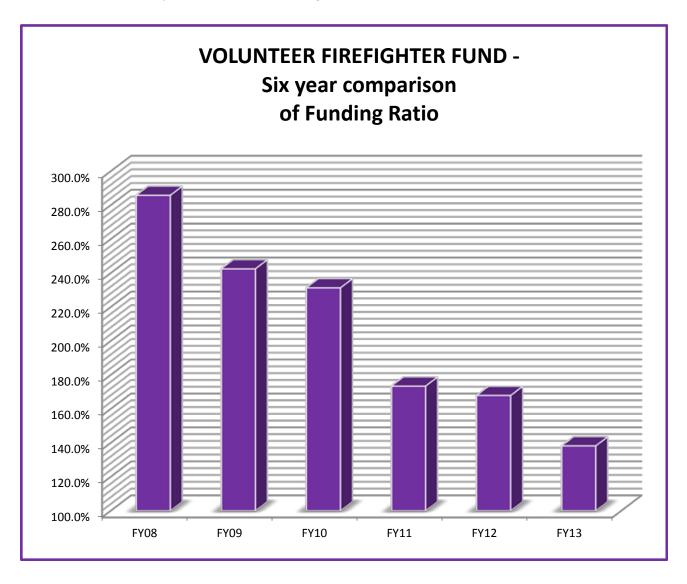

The following chart represents the change in the Funding Ratio for the Magistrate Employees Retirement Association over the last 6 years. The current funding ratio is 58.4%.

For the Fiscal Year ending June 30, 2013

VOLUNTEER FIREFIGHTER FUND

The following chart represents the change in the Funding Ratio for the Volunteer Firefighters Retirement Association over the last 6 years. The current funding ratio is 138.2%.

For the Fiscal Year ending June 30, 2013

Comparative Summary Statements

The following table displays the total assets, liabilities, net position, and changes in net position for the four retirement funds and the Deferred Compensation Plan in total as of June 30, 2013:

ALL FUNDS:

	2013	2012	Dollar Change	Percentage Change
Assets	\$ 14,175,739,174	\$ 14,150,904,896	\$ 24,834,278	0.18 %
Liabilities	(868,926,480)	(2,004,484,783	1,135,558,303	(56.65) %
Net Assets Held in Trust	\$ 13,306,812,694	\$ 12,146,420,113	1,160,392,581	9.55 %
Change in Net Position	\$ 1,160,392,581	\$ (396,232,913)	1,556,625,494	(392.86) %

The total net position held by PERA increased during the fiscal year ended June 30, 2013 primarily as a result of the net increase of the fair value of the investment portfolio. All four retirement funds participate in an investment pool and share in investment earnings or losses based on the fund's equity percentage in the pool.

The most significant pension plan administered by PERA includes the following balances at the years ended June 30, 2013 and 2012:

PUBLIC EMPLOYEES RETIREMENT FUND:

The overall change in Net Position from FY2012 to FY2013 is a positive 9.55%. This is a result of the net increase of the change in fair value of investments, especially in regard to international securities and domestic equities.

Statement of Plan Net Position as of June 30, 2013, as compared to June 30, 2012, is as follows:

			Percentage
2013	2012	Dollar Change	Change
\$532,300,770	\$455,916,817	\$76,383,953	16.75 %

JUDICIAL RETIREMENT FUND

The overall change in Net Position from FY2012 to FY2013 is a positive 8.17%. This is a result of the net increase of the change in fair value of investments, especially in regard to international securities and domestic equities (Judicial Retirement Fund is part of the investment pool and shares in the changes in fair value of investments in proportion to the total pool allocation). The net position of the Judicial Retirement Fund amounts to 0.61% of the total net position of all funds.

Statement of Plan Net Position as of June 30, 2013, as compared to June 30, 2012, is as follows:

	2013	2012	Dollar Change	Percentage Change
Assets:				
Cash & equivalents	\$3,397,320	\$2,923,726	\$473,594	16.20 %

Change in net position	\$6,158,695	\$(3,465,615)	\$9,624,310	(277.71) %

MAGISTRATE RETIREMENT FUND

The overall change in Net Position from FY2012 to FY2013 is a positive 5.14%. This is a result of the net increase of the change in fair value of investments, especially in regard to international securities and domestic equities (Magistrate Retirement Fund is part of the investment pool and shares in the changes in fair value of investments in proportion to the total pool allocation). The net position of the Magistrate Retirement Fund amounts to 0.24% of the total net position of all funds.

Statement of Plan Net Position as of June 30, 2013, as compared to June 30, 2012, is as follows:

	2013	2012	Dollar Change	Percentage Change
Assets:				
Cash & equivalents	\$1,294,217	\$1,200,428	\$93,789	7.81 %

DEFERRED COMPENSATION (IRC 457) FUND

In addition to the above retirement funds, the comparative summary of assets, liabilities, net position and the related change in net position of the Deferred Compensation (IRC 457) Plan is presented below. The assets and liabilities of this plan are administered by the plan administrator under contract with PERA as indicated in Note 1 to the financial statements.

The overall change in Net Position from FY2012 to FY2013 is a positive 9.90%. This increase was primarily due to interest income on investments earned during the current year. Net position available for Plan benefits increased by approximately \$38.9 million during the current period from \$392.8 million at June 30, 2012 to \$431.7 million at June 30, 2013. This increase was primarily due to investment income earned during the current year.

Statement of Plan Net Position as of June 30, 2013, as compared to June 30, 2012, is as follows:

	2013	2012	Dollar Change	Percentage Change
Assets:				
Receivables	\$7,229,224	\$6,702,327	\$526,897	7.86 %
Policyholder-value of life insurance contracts	1,953,123	1,998,662	(45,539)	% (2.28)
Investments	422,545,925	384,119,668	38,426,257	10.00 %
Total Assets	431,728,272	392,820,657	38,907,615	9.90 %
Statement of Net Position	\$431,728,272	\$392,820,657	\$38,907,615	9.90 %

For the Fiscal Year ending June 30, 2013

Statement of Changes in Plan Net Position as of June 30, 2013, as compared to June 30, 2012, is as follows:

	2013	2012	Dollar Change	Percentage Change
Additions:				
Contributions and service credit purchases	\$35,920,698	\$33,868,513	\$2,052,185	% 6.06
Net Investment Income	2,585,637	1,456,819	1,128,818	77.49 %
Net Appreciation (Depreciation)				
of Fair Value of Investments	37,604,199	(10,935)	37,615,134	(343,988.42) %
Total Additions	76,110,534	35,314,397	40,796,137	115.52 %
Deductions:				
Benefit Payments	(36,193,619)	(29,959,708)	(6,233,911)	20.81 %
Life Insurance Premiums	(91,787)	(111,701)	19,914	(17.83) %
Administrative Expenses	(917,513)	(955,911)	38,398	(4.02) %
Total Deductions	(37,202,919)	(31,027,320)	(6,175,599)	19.90 %
Change in net position	\$38,907,615	\$4,287,077	\$34,620,538	807.56 %

Employee contributions were \$35.9, \$33.9 and \$35.8 million for the years ending June 30, 2013, 2012 and 2011, respectively. Fluctuations in employee contributions are primarily due to fluctuations in the number of actively contributing participants from year to year as well as changes in the average contribution per participant. There were 11,462, 11,250 and 11,540 actively contributing participants at June 30, 2013, 2012 and 2011, respectively.

Benefits paid to participants increased from \$30.0 million for the year ended June 30, 2012 to \$36.2 million for year ended June 30, 2013. This increase was primarily due to an increase in the average benefit payment and an increase in the number of retirees from 2,523 in 2012 to 2,774 in 2013.

Variable earnings investment income increased from a \$1.0 million loss for the year ended June 30, 2012 to a \$37.6 million gain for the year ended June 30, 2013. This increase was due to more favorable market conditions in 2013 as compared to 2012.

For the Fiscal Year ending June 30, 2013

INVESTMENTS

The purpose of the investments is to provide for long-term growth, while also ensuring a reliable cash flow that meets the funding requirements of the current pension obligations. The investments are allocated to a variety of asset types and strategies in order to meet the current funding needs and future growth requirements of the pension liability given reasonable risk levels. Equity related investments are included for their longterm return and growth characteristics, while fixed income and debt related investments are included in the allocation for their ability to control investment risk and provide for a reliable cash flow that meets the funding requirement of current pension payments.

Schedule of invested assets as of June 30, 2013, as compared to June 30, 2012, follows:

Investment Category	June 30 2013	June 30 2012	Dollar Change	Percentage Change
U.S. Government and Agency Securities	\$1,173,749,124	\$1,190,399,573	\$(16,650,449)	(1.40) %
Municipal Bonds	33,783,776	41,834,649	(8,050,873)	(19.24) %
Variable Earning Investments (IRC 457)	281,962,370	240,968,529	40,993,841	17.01 %
Stable Value Option & Other (IRC 457)	140,583,555	143,151,139	(2,567,584)	(1.79)
Corporate Equity Securities	3,581,996,306	2,868,486,232	713,510,074	24.87 %
Corporate Obligations	1,541,406,506	1,344,764,636	196,641,870	14.62 %
International Securities	3,331,404,452	3,027,362,501	304,041,951	10.04 %
Venture Capital and Partnerships	2,468,908,679	2,339,930,658	128,978,021	5.51 %
Alternative Investments	276,126,989	346,072,783	(69,945,794)	(20.21) %
Securities Lending Collateral	338,166,311	444,837,638	(106,671,327)	(23.98) %
Investment in State General Fund	7,329,923	7,768,878	(438,955)	(5.65) %
Subtotal Investments	\$13,175,417,991	\$11,995,577,216	\$1,179,840,775	9.84 %
Other Assets		19,694,212		
Total Investments	\$13,175,417,991	\$12,015,271,428		

With the total fund returning 13.26% (excluding Deferred Compensation) for the fiscal year ending June 30, 2013, market values increased across most investment categories and at the total investment level. The largest market value increase occurred in the Corporate Equity Securities category and International Securities, which were up significantly due to strong performance in the global equity markets. Corporate Obligations (corporate bonds) also increased due largely to out performance of PERA's bond managers. The Venture Capital and Partnerships category, which includes private equity, real estate, and real asset partnerships continued to call capital to fund new investments, combined with positive realizations and higher valuations caused this category to rise.

The largest decrease in market value occurred in the Securities Lending Collateral pool due to waning demand for equity securities. This correlates directly with the decrease in collateral pool. The slight decline in U.S. Government and Agency Securities and Municipal Bonds was due to security selection and bond sector decisions made by PERA's core and core plus managers. The decline in market value for the Alternative Investment category, which is composed of PERA's REIT and TIPS allocations, were caused by rising Treasury

For the Fiscal Year ending June 30, 2013

yields and due to these two allocations being used to fund private partnership capital calls as they occur.

As Deferred Compensation participants continued to contribute to their retirement savings plans, the fixed income investments (IRC 457) category rose positively by 15.22%.

Budget Highlights: Original Budget – Final Budget Comparisons

There were eight budget adjustments made to the beginning budget during fiscal year 2013, for an increase of \$8,042,496 from the original budget. In FY13, the Legislature only appropriated in the original budget funding for investment managers and investment consultants. Other essential professional service contracts that historically were within PERA's normal course of business and procured during the fiscal year (audit, actuary, doctors, legal, etc.) were not funded. These eight Budget Adjustment Requests (BARs) increases were primarily used to increase PERA's contractual services budget for 1) professional services and contracts, 2) payment to investment managers, and 3) to conduct additional actuarial information for the Board to review Legislative changes to the pension funds. See Note 14 for an explanation of upcoming changes to the pension plans.

Budget Comparisons – Budget to Actual

All of PERA's expenditures used to administer the retirement funds that are under management by PERA are appropriated in the Public Employees Retirement Fund. For trust accounting and financial statement purposes, allocations of the budgeted expenditures were made as follows:

	Judicial Fund	Magistrate Judges Fund	Volunteer Firefighters Fund	Total
Investment expenses	\$ 177,063	\$67,452	\$118,042	\$362,557
Administrative expenses	26,075	14,223	<u> </u>	40,298
Total allocated expenses	\$203,138	\$81,675	\$118,042	\$402,855

The investment expenses were allocated based on each individual fund's equity in the investment pool. The administrative expenses were allocated based on each fund's number of the members participating in the plan to the total number of members.

For the Fiscal Year ending June 30, 2013

Capital Assets

Capital assets, at carrying value, are listed for the years ended June 30, 2013 and 2012:

CAPITAL ASSETS:	2013	2012
Land	¢1 F40 000	¢1 540 000
Land	\$1,548,990	\$1,548,990
Capital Assets: Net of Depreciation		
Building	11,346,456	11,767,996
Computer Equipment and Software	161,125	322,726
Property and Equipment	2,778	3,111
Automobile	6,559	11,480
Total	\$13,065,908	\$13,654,303

Depreciation and amortization expense, reported as part of administrative expenses, for the year ended June 30, 2013 was \$666,124.

Currently Known Facts and Conditions

During fiscal year 2013, the global equity markets moved up strongly while interest rate sensitive markets lagged as expectations for higher rates, in the U.S. in particular, dominated. Importantly, because the values of individual investments fluctuate with market conditions, the amount of losses or gains that PERA will recognize in our future financial statements cannot be determined. Subsequent to June 30, 2013, improving growth expectations lifted most assets as the U.S. economy continued to grow at over 2%, unemployment moved lower, and the housing market demonstrated strong gains. Despite risky assets melting up for the year, investment markets have generally continued to be volatile, including higher than normal unemployment rates, continued political unrest in the Middle East, concerns regarding below long-term potential growth rates and rising interest rates, continued strife in Congress regarding rising debt limit, Affordable Car Act, and the federal government shutdown. (See Note 11).

Legislative Update

In the upcoming 2014 Legislative session, PERA will work with the Administrative Office of the Courts to ensure the long term solvency of the Judicial and Magistrate Funds.

Request for Information

Any questions regarding the financial statements of PERA should be directed to the Executive Director, at (505) 476-9301; Deputy Investment Director at (505) 476-9333, ASD Director at (505) 476-9304 or Comptroller at (505) 476-9313. All can be reached by mail at P.O. Box 2123, Santa Fe, NM 87504. Contact information is also located on PERA's website at www.pera.state.nm.us.

Notes to the Financial Statements

For the Fiscal Year ending June 30, 2013

NOTE 1. GENERAL DESCRIPTION OF THE ASSOCIATION AND RETIREMENT FUNDS

A. General

The Public Employee Retirement Association ("PERA") was created by legislation enacted in 1947.

PERA is the administrator of four retirement funds, including the Public Employees Retirement Fund, the Judicial Retirement Fund, the Magistrate Retirement Fund, and the Volunteer Firefighters Retirement Fund, offering an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of these funds are set forth in Chapter 10 of the New Mexico Statutes Annotated 1978 ("NMSA 1978") and applicable Replacement Pamphlets. PERA also has limited administrative responsibilities with respect to the State of New Mexico Deferred Compensation Fund, as more fully discussed in Note 1(c). Collectively, the four retirement funds and the Deferred Compensation Fund are known as "Funds".

PERA is directed by the Public Employees Retirement Board (the "Board") which consists of twelve members. Ten of the Board members are elected by PERA active and retired members under state and municipal coverage plans. Two Board members, the Secretary of State and the State Treasurer, are exofficio members.

B. Reporting Entity

PERA is an agency of the State of New Mexico. The funds administered by PERA are considered part of the State of New Mexico financial reporting entity and are pension trust funds of the State of New Mexico. The State of New Mexico Deferred Compensation Fund is also presented in the financial statements. See section 1(c) for information on the Deferred Compensation Fund and how to obtain separate financial statements of the Deferred Compensation Fund.

PERA has developed criteria to determine whether other state agencies, boards or commissions which benefit the members of PERA should be included within its financial reporting entity. The criteria include, but are not limited to, whether PERA exercises oversight responsibility on financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters, scope of public service, and special financing relationships. Based on these criteria, management of PERA has determined that no other such entities should be included in its financial reporting entity. PERA does not have any component units.

The State of New Mexico, Department of Finance and Administration (DFA) codes for the PERA funds are as follows:

- Public Employees Retirement Fund SHARE fund
- Judicial Retirement Fund SHARE fund #60300
- Magistrate Retirement Fund SHARE fund #60400
- Volunteer Firefighters Retirement Fund SHARE fund #60700
- Deferred Compensation Fund SHARE fund #75500*

This fund is used strictly to account for expenses that are reimbursed by the Deferred Compensation Plan administrator

*This fund is combined with SHARE fund #60600 in the financial statements under "Public Employees Retirement Fund.

PERA does not receive General Fund Appropriations from the State of New Mexico. PERA is self-funded through investment income and therefore is a nonreverting fund. PERA is not required to follow New Mexico Statute (6-5-10, NMSA 1978), which defines reverting funds.

C. Description of the Funds

Public Employees Retirement Fund is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 31 different coverage plans. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division.

For the Fiscal Year ending June 30, 2013

Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service. Generally, the amount retirement pension is based on final average salary, which is defined as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 100% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post retirement survivors' annuities are also available.

The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired on or after July 1, 2010 increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age with 30 or more years of service credit. General members hired on or before June 30, 2010 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, municipal juvenile detention officers and municipal police and firefighters in Plans 3, 4 and 5 will not be affected

by the new age or service requirements. Police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 20 or more years of service credit. State police and adult correctional officers and municipal juvenile detention officers will remain in 25-year retirement plans where service credit is enhanced by 20%. In regards to Tier II, in addition to retiring at any age with 30 or more years of service credit, general members in the new plans can retire at any age if the sum of the member's age and years of service credit equals at least 80 or at age 67 with 5 or more years of service credit. No changes were made to pension factors, employee or employer contribution percentages or to the computation of final average salary.

State Legislative Fund is a defined benefit pension plan that is a division accounted for under the Public Employees Fund. Eligibility for membership in the State Legislative Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, Section 43 and 43.5, NMSA 1978). State Legislators and lieutenant governors much elect to be a member no later than 180 days after first taking office to be covered under the State Legislative Plan.

Member contributions are \$500 for each year of service credit prior to 2012 session, \$600 for each year of service credit beginning with the 2012 legislative session. Legislative service credit is earned each calendar year during which the member fulfills the obligations of the position of legislator for more than six months of the calendar year, including the legislative session. Legislators are not required to make a member contribution until after the legislative session has ended and PERA verifies service credit. PERA will invoice legislative members for \$600 to cover member contributions for each legislative session after the session ends, which is normally July or August.

State funding for the State Legislative Fund is defined in Sections 10-11-43 and 10-11-43.5, NMSA 1978. The state is required to contribute sufficient amounts to finance the membership of members under state legislator coverage plan 2 on an actuarial reserve basis. The total actuarial determined amount for the State Legislative Fund for the fiscal year ended June 30, 2013 was determined by the actuary to be \$283,784. Regarding the source of funding,

For the Fiscal Year ending June 30, 2013

Section 7 -1-6.43 of the Tax Administration Act states "A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars (\$200,000) a month or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year."

Age and service requirements for retirement are age 65 or older with 5 or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect, pursuant to Section 2-1-8, NMSA 1978, on the first day of the calendar year that the legislator or lieutenant governor retires multiplied by 60 and further multiplied by credited service as a legislator or lieutenant governor. The per diem rate for January 1, 2013 is \$154. The per diem rate starting January 1, 2014 will increase to \$159.

Judicial Retirement Fund is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in 10-12B-4 NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Judicial Retirement plan.

For individuals that became a member of this plan prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75% of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became a member of this plan subsequent to July 1, 2005, the annual pension amount is determined as 75% of salary received during the last year in office prior to retirement multiplied by 5% of the number of years in service, not exceeding fifteen years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of three and seventy-five hundredths percent times the sum of the number of years of service; provided that a pension calculated shall not exceed seventy-five percent of one-twelfth of the salary received during the last year in office.

Early retirement provisions apply to members retiring between ages 50 and 60. The plan also provides for survivors' allowances and disability benefits. Members contribute at a rate of 7.5% of their salaries and the member's court contributes at a rate of 12% of the member's salary. Additionally, the district court contributes \$38 for each civil case docket fee paid in the district court, \$25 from each civil docket fee paid in metropolitan court and \$10 for each jury fee paid in metropolitan court. Contribution rates are established by State statute.

Magistrate Retirement Fund is a single employer defined benefit pension plan. Eligibility for membership in the Magistrate Retirement Fund is set forth in 10-12C-4 NMSA 1978. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Magistrate Retirement plan.

Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having served as a magistrate for a minimum of 5 years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75% of the salary received during the last year in office prior to retirement by 5% of the number of years of service, not exceeding 15 years, plus 5 years.

Member contributions are based on 7.5% of salaries

For the Fiscal Year ending June 30, 2013

and the State of New Mexico, through the administrative office of the courts, contributes at a rate of 11% of the member's salary. Additionally, the magistrate or metropolitan courts contribute \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute.

Volunteer Firefighters Retirement Fund is a single employer defined benefit pension plan with a special funding situation. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in NMSA 1978 10-11A-2. Any volunteer non-salaried firefighter who is listed as an active member on the rolls of a fire department and who meets certain age and service credit requirements is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer fire fighter for a minimum of 10 years. Benefits are \$100 per month (\$125 per month as of July 1, 2013) with at least 10 but less than 25 years of service or \$200 per month (\$250 per month as of July 1, 2013) with 25 or more years of service. Benefits for post retirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make individual contributions to the plan. State statutes required that the State Treasurer transfer \$750,000 during the 2013 fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund for purposes of contributing to the plan.

Deferred Compensation Plan - The State of New Mexico also offers employees a deferred compensation plan under NMSA 1978, Sections 10-7A-1 through 10-7A-12, the "Deferred Compensation Act," in conformity with Internal Revenue Code Section 457. The plan provides eligible employees a voluntary, supplemental, tax-deferred retirement program as an additional method to save a portion of their income for future years.

PERA is the trustee of the Deferred Compensation Plan (the "Plan"); however, the Plan is administered by a third party administrator (the "Administrator") acting under contract with PERA. The Administrator has authority to perform record-keeper, enrollment education services and other administrative duties for the Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Plan, and has certain discretionary authority to decide all matters under the Plan. As Plan trustee, PERA's primary responsibility is to select investment options that provide a prudent rate of return and to ensure that all investments, amounts, property, and rights under the executed Plan-Trust are held for the exclusive benefit of Plan participants and their beneficiaries, as defined in the Plan Document.

The Plan was amended in October 2004 to allow participants to take loans from their account balances. The maximum term permitted on a loan is five years or 15 years if the loan is for the purchase of a principal residence. The minimum loan amount permitted is \$1,000 and the maximum amount of any loan under the Plan is the lesser of 50% of the participant's vested account balance or \$50,000. The total balance of loans outstanding to participants was \$7,024,203 and \$6,536,805 at June 30, 2013 and 2012, respectively. Interest rates range between 4.25% and 6.00% for all loans outstanding.

Participant of this plan may take distributions at the age of 70½ years old. Participants of this plan also may take distributions under certain circumstances such as the participant's death, separation from service, retirement, severe financial emergency, or if a participant's account balance does not exceed \$5,000 and no amount was deferred during a 2-year period and there was no prior distribution. Participants may select various payout options, including lump sum payments or periodic payments.

The Deferred Compensation Plan issues a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza La Prensa, Santa Fe, New Mexico 87507, or calling (505) 476-9395.

D. Senate Bill 27 - Summary of PERA Pension Plan Changes effective July, 1, 2013

Effective July 1, 2013, this legislation establishes two tiers of benefits under each PERA coverage plan.

TIER 1

Individuals who are retired members or members (i.e. currently employed, contributing employees of an affiliated public employer or individuals who have been, but are not currently, employed by an affiliated

For the Fiscal Year ending June 30, 2013

public employer who have not retired and who have not received a refund of member contributions) on June 30, 2013 are in Tier 1.

State and Municipal General Members hired between July 1, 2010 and June 30, 2013 are grandfathered into Tier 1 coverage plans.

TIER 2

Individuals who are not retired members or members on June 30, 2013 (i.e., were first hired by a PERA employer on or after July 1, 2013) are in Tier 2.

CHANGES FOR TIER 1 MEMBERS

Pension Maximum

• Increased to 90% of final average salary for all plans.

Service Credit

• Establishes blended pensions for service credit earned after July 1, 2013. A blended pension benefit is equal to the sum of the pension attributable to the service credit the member has accrued under each coverage plan with different pension factors.

Cost-of-Living Adjustment (COLA)

- Eligible retired members will receive a 2% COLA.
- Graduated COLA eligibility period for those who retire:
 - $\sqrt{}$ before June 30, 2014: no change to current 2 full-calendar years after retirement to receive a COLA;
 - $\sqrt{}$ between July 1, 2014 and June 30, 2015: 3 full-calendar year eligibility period to receive a COLA:
 - $\sqrt{\ }$ between July 1, 2015 and June 30, 2016: 4 full-calendar year eligibility period to receive a COLA; and
 - √ after July 1, 2016: 7 full-calendar year eligibility period to receive a COLA.
- No change in 1-year COLA eligibility for disability retirees or retirees age 65 or older.

Employee Contribution Rate

• Increases the statutory employee contribution rate by 1.5% for employees who earn \$20,000 or more in annual salary.

• Employee contribution increase of 1.5% accomplished for state members by removing the sunset of the contribution shift.

CHANGES FOR TIER 2 MEMBERS

Pension Benefits

General Members (Non-Public Safety Employees)

- 0.5% reduction in the Annual Pension Factor
- 5-year Final Average Salary calculation
- Retirement eligibility: Rule of 85 or age 65 with 8 years of service
- 8-year Vesting Period
- 90% Pension Maximum
- 2% COLA
- 7 full-calendar year eligibility period to receive a **COLA**

Public Safety Plan Members (State Police, Adult Correctional Officers, Peace Officers, Juvenile Correctional Officers, Municipal Police, Fire, Detention Officers)

- 0.5% reduction in the Annual Pension Factor
- 5-year Final Average Salary calculation
- Retirement eligibility: 25 years of service credit/ any age or age 60 with 6 years of service
- 6-year Vesting Period
- 90% Pension Maximum
- 2% COLA
- 7 full-calendar year eligibility period to receive a **COLA**

Blended pension is equal to the sum of the pension attributable to the service credit the member has earned under each coverage plan with different pension factors.

Employee Contribution Rate

- Increases the statutory employee contribution rate by 1.5 % for employees who earn \$20,000 or more in annual salary.
- Employee contribution increase of 1.5% accomplished for state members by removing the sunset of the contribution shift effective July 1, 2013.

CHANGES FOR RETIREES

Cost-of-Living Adjustment (COLA)

- Reduces the COLA from 3% to 2% except for:
- 2.5% COLA for members retired with 25 or more

For the Fiscal Year ending June 30, 2013

years of PERA service credit (not reciprocity) and disability retired members, whose annual pensions are less than \$20,000.

CHANGES FOR RE-EMPLOYED RETIREES

Cost-of-Living Adjustment (COLA)

• Suspends the COLA for grandfathered return-to-work retirees during reemployment with PERA-affiliated employers or retirees employed by entities covered by the Educational Retirement Act.

CHANGES FOR EMPLOYERS

- Optional municipal employer "pickup" of future employee contribution increases.
- Increases the statutory employer contribution rate 0.4% for FY15.

CHANGES TO VOLUNTEER FIREFIGHTER RETIREMENT PLAN

The following monthly benefit increases are effective July 1, 2013:

- Age 55 years with 25 or more years of service credit: \$250 (from \$200)
- Age 55 years with 10 or more years of service credit: \$125 (from \$100)

E. Membership of the Plans

At June 30, 2013, the number of participating government employers were as follows:

Public Employees Retirement Fund

State Agencies	126
Cities	88
Counties	33
Special Districts and Councils of Government	46
Housing Authorities	16
Hospitals	2
Other	7
Totals	318
Judicial Retirement Fund	16
Magistrate Retirement Fund	9
Volunteer Firefighters Retirement Fund	363

At June 30, 2013, membership in the plans was as follows:

	PERA* Retirement Fund	Judicial Retirement Fund	Magistrate Retirement Fund	VFF Retirement Fund	Totals
Retirees and beneficiaries receiving benefits	32,042	133	86	762	33,023
Terminated plan members					
not yet receiving benefits	7,756	23	13	805	8,597
Active plan members	50,131	123	41	6,461	56,756

^{*}Note: PERA Retirement Fund includes the Legislative Fund

For the Fiscal Year ending June 30, 2013

F. Cost of Living Adjustment (COLA)

The Cost-of-Living Adjustments (COLA) are made to eligible retirees and beneficiaries. Retirees of the PERA, Legislative, Magistrate and Judicial fund receive a COLA yearly after retirement of two fullcalendar years (January 1 through December 31). The 3% Cost-of-Living Adjustment (COLA) will therefore be effective July 1 of the following year after the two full calendar years and will be compounded for each fiscal year thereafter. COLA recipients receive

a notification letter each July advising them of the increase in their pension payments. The total annual COLA payments for FY13 were \$20,769,588 (average of \$1,730,799 per month). In FY14, the COLA will be 2% (exceptions for disability members making less than \$20,000 and members that make less than \$20,000 and have 25 years of service credit. The COLA for those members will be 2.5%). See Note 14 for more information regarding benefit changes effective July 1, 2013.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting and Measurement Focus.

The financial statements of the Funds presented herein have been prepared on the accrual basis of accounting under which expenses are recorded when the liability is incurred and revenues are recorded in the accounting period in which they are earned. Employee contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Contributions from employees and employers for service through June 30 are accrued. These contributions are considered to be fully collectible, and accordingly, no allowance for uncollectible receivables is reflected in the financial statements. Benefits and refunds are recognized when due and payable in accordance with provisions set forth in NMSA 1978. The Funds are accounted for on the flow of economic resources measurement focus.

Cash and Cash Equivalents. Cash and cash equivalents include demand deposit accounts and all shortterm instruments with maturities at purchase of 90 days or less. Cash and short-term investments are stated at amortized cost, which approximates fair value.

Receivables due to PERA. Per Article IV, Section 32 of the New Mexico Constitution, no obligation or liability will be exchanged, transferred, remitted, released, postponed or in any way diminished by the legislature, nor shall any such obligation or liability be extinguished except by the payment thereof into the proper treasury or by proper proceeding in court. Per 2.80.800.8 NMAC, the Board directs the Executive Director to make all reasonable efforts to collect any pension or refund overpayment made for any reason.

Investments. In conformity with the Uniform Prudent Investor Act, which is cited as (UPIA) and is in the NMSA 1978 Subsection 45-7-601 to 612, PERA primarily invests in obligations of the United States Treasury, obligations of federal agencies guaranteed by or for which the credit of the United States government is pledged for payment of principal and interest, corporate bonds, stocks, and international securities. Security transactions and any resulting gains or losses are accounted for on a trade date basis.

All investment securities are reported at fair value. Fair value is defined as the amount that a plan can reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller. Due to the nature of investments, it is reasonable that changes in the value of investments will occur in the near future and changes could materially affect the amounts reported. The determination of fair values includes, among other things, published market prices, prices obtained from pricing services, and prices quoted by independent brokers at current exchange rates.

For investments where no readily ascertainable fair value exists, management, in consultation with their investment advisors, has determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk.

Stocks traded on national or international exchanges are reported at current quoted market values.

For the Fiscal Year ending June 30, 2013

Bonds are primarily reported at fair values obtained from independent pricing services.

Real estate partnerships are reported at values provided by general partners in conjunction with management and investment advisors. The valuation assumptions are based upon both market and property specific inputs which involve expert judgment.

Private equity and absolute return strategy investments are reported at fair value as determined by the general partners in conjunction with management and investment advisors. The valuation assumptions are based on the nature of the investment and the underlying business. The valuation techniques vary based upon investment type and involve a certain degree of expert judgment.

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses,

Public Employees Retirement Fund
Magistrate Retirement Fund
Judicial Retirement Fund
Volunteer Firefighters Retirement Fund

Capital Assets. Capital assets costing \$5,000 or more (12-1-10 NMSA 1978) that are used in PERA's operations are capitalized. Intangible assets such as internally generated computer software used to maintain a membership data base also are capitalized. These are recorded at historical cost less accumulated depreciation or amortization. The building is depreciated over 50 years. All remaining capital assets are depreciated over five to ten years, depending on the nature of the asset, using the straight-line method of depreciation. See Note 6 for a more detailed summary of PERA's capital assets.

Accrued Compensated Absences. Accumulated vacation, compensation time and sick leave over 600 hours earned but not taken at June 30 are recorded as a liability and expense of the Public Employees Retirement Fund.

which include investment management and custodial fees, securities lending expense, and all other significant investment related costs.

In an effort to maximize the benefits of investment diversification and investment earnings, the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds participate with the Public Employee Retirement Fund in an investment pool. The fair value of PERA's investments in short-term investment pools is the same as the value of the pool shares. All investments in the short-term investment pool are either SEC registered or are exempt from SEC registration under exemption 3a3 or 4(2) of SEC regulations. Each fund's equity percentage in the pool is based on that fund's individual investment in the increases or decreases based upon the fund's deposits or withdrawals.

Ownership percentages (rounded to the nearest hundredth of a percent) in the investment pool at June 30, 2013, are as follows:

	98.71%
	0.24
	0.63
	0.42
Total	100%

Interfund Receivables and Payables. During the course of operations, transactions occur between the Funds for goods provided and services rendered. These receivables and payables are expected to be repaid in the subsequent fiscal year and are not eliminated in the financial statements.

Reserves. New Mexico Statutes, Annotated 1978, Subsections 10-11-123, 10-12B-3, and 10-12C-3 set forth required reserves to be maintained for benefits for the Public Employees Retirement Fund, the Judicial Retirement Fund, and the Magistrate Retirement Fund, respectively. State statutes do not specifically require separate accounting for the Volunteer Firefighters Retirement Fund. The reserves to be maintained are as follows:

Retirement Reserve Fund represents the accumulated balance available to pay pension benefits to retired members and eligible survivors of

For the Fiscal Year ending June 30, 2013

deceased members or retirees and to pay residual refunds due to eligible beneficiaries and survivors as provided for in the statute.

Members Contribution Reserve represents the accumulated contributions deducted from members' compensation, less refunds and transfers of contributions as provided for in the statute. Annually on June 30, the members' accounts are credited with interest on member contributions and previously earned interest at a rate determined by the Board. The rate for the 2013 fiscal year was 2.00%.

Employers Accumulation Reserve represents the accumulated contributions made by affiliated public employers. Each year following receipt of the report of the annual actuarial valuation, the

Net Position balances as of June 30, 2013 are as follows:

excess, if any, of the reported actuarial present value of benefits to be paid over the balance in the Retirement Reserve Fund is transferred to the Retirement Reserve Fund from the Employers Accumulation Fund.

Income Reserve represents the accumulation of interest, dividends, rents, and other income of PERA, less administrative expense paid out of this fund. At least annually, the balance in this fund is transferred to the Retirement Reserve Fund in a manner determined by the Board. The distribution rate of interest as determined by the Board for fiscal year 2013 was 2.00% of member account balances to the Member Contribution Fund. The remaining balance of the Income Fund was distributed to the Retirement Reserve Fund.

	Public Employees Retirement Fund	Judicial Retirement Fund	Magistrate Retirement Fund	Volunteer Firefighter Retirement Fund
Members Contribution Reserve	\$2,311,870,438	\$10,484,159	\$3,309,456	\$-
Employers Accumulation Reserve	3,828,753,267	53,482,468	23,126,834	-
Retirement Reserve Fund	6,567,117,221	17,552,002	6,003,027	53,312,473
Subtotal	\$12,707,740,926	\$81,518,629	\$32,439,317	\$53,312,473
Deferred Compensation Fund	73,077	-	-	-
TOTAL	\$12,707,814,003	\$81,518,629	\$32,439,317	\$53,312,473

Deferred Compensation Plan. At June 30, 2013, PERA had \$73,077 in an operating account maintained for the sole purpose of paying administrative expenses associated with the Deferred Compensation Fund. This cash account is maintained by the State Treasurer. Accrued expenses and other liabilities associated with administrative operations are included in the financial statements of the Public Employees Retirement Fund. The net of cash held, accrued income earned on cash deposits and accrued expenses are reflected as liabilities of the Public Employees Retirement Fund.

<u>Actuarial Valuation.</u> The information included in the required supplementary information as listed in the foregoing table of contents is based on the actuarial valuations performed as of June 30, 2013, which is the latest available information. Significant actuarial assumptions used in the valuations are included in the notes to the required supplementary information.

<u>Use of Estimates.</u> The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and

For the Fiscal Year ending June 30, 2013

liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from plan net position during the reported period.

Actual results could differ from those estimates. The Funds utilize various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of plan net position.

Federal Income Tax Status. The four retirement funds are qualified plans under Section 401(a) of the Internal Revenue Code and are exempt from federal income taxes under Section 501(a). The Deferred Compensation (IRC 457) Fund is an eligible deferred compensation plan as defined by Section 457 to the Internal Revenue Code. Accordingly, any compensation deferred under the Plan and any income attributable to the amounts so deferred shall be included in the gross income of the participant only for the taxable year in which such compensation or other income is paid or, otherwise, made available to the participant or their beneficiary.

Funding Policy. Funding of the retirement funds is accomplished through member and employer contributions and the investment earnings on these contributions. The retirement funds use the aggregate actuarial funding method, which does not identify or separately amortize unfunded actuarial accrued liabilities

The individual entry-age actuarial cost method allocates the actuarial present value of each member's projected benefits on a level basis over the member's pensionable compensation between the entry age of the member and the pattern of projected exit ages.

The portion of the actuarial present value allocated to the valuation year is called the normal cost. The portion of the actuarial present value not provided for by the actuarial present value of future normal costs is called the actuarial accrued liability. Deducting accrued assets from the actuarial accrued liability determines the unfunded actuarial accrued liability. The period of time needed to finance the unfunded actuarial accrued liability with current statutory contribution rates is determined using a level percent of payroll amortization technique.

Active member payroll was projected to increase 4.0% a year for the purpose of determining the financing period. This estimate is consistent with the base rate of increase in salaries used to calculate actuarial present values.

The valuation assets used for funding purposes is derived as follows: prior year valuations assets are increased by contributions and expected investment income and reduced by refunds, benefit payments and expenses. To this amount, 25% of the difference between expected and actual investment income net of expenses for each of the previous four years is added. The funding value of assets for each division is allocated in proportion to the total fund balances.

The following is a schedule of funding progress using the entry age normal funding method to approximate the funding status of the retirement fund divisions as of the most recent actuarial valuation date.

For the Fiscal Year ending June 30, 2013

The funded status of the retirement plans and divisions as of June 30, 2013 are as follows:

Plan	Actuarial Assets	Actuarial Accrued Liability	Unfunded (Overfunded) Actuarial Accrued Liability	Funded Ratio	Covered Payroll	Unfunded Actuarial Accrued Liability as a Percentage of Covered Payroll
	(a)	(b)	(b) – (a)	(a)/(b)	(c)	((b-a)/c)
PERA	\$12,438,151,665	\$17,057,380,22	\$4,619,228,357	72.90%	\$2,049,737,510	225.4%
Legislative	28,939,243	25,127,311	(3,811,932)	115.20%	N/A**	N/A**
Judicial	80,007,287	143,745,971	63,738,684	55.70%	13,226,142	481.9%
Magistrate	31,813,605	54,498,646	22,685,041	58.40%	3,136,834	723.2%
Volunteer Fire	52,179,180	37,766,300	(14,412,880)	138.20%	N/A**	N/A**

^{**} Legislative and Volunteer Firefighters Retirement Fund benefits are not based on salary. Neither plan have active members receiving a salary. Accordingly, payroll information has been excluded

The required Schedule of Funding Progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

For the Fiscal Year ending June 30, 2013

The actuarial methods and significant assumptions as of June 30, 2013 are as follows:

	Public Employees Retirement Fund	Legislative Retirement Fund	Judicial Retirement Fund	Magistrate Retirement Fund	Volunteer Firefighters Retirement Fund
Valuation date	June 30, 2013	June 30, 2013	June 30, 2013	June 30, 2013	June 30, 2013
Actuarial cost method	Entry age	Projected Unit Credit	Entry age	Entry age	Entry age
Amortization method	Level percent, open	Level dollar, open	Level percent, open	Level percent, open	Level dollar, open
Amortization period	30 years^^	30 years#	30 years^^	30 years^^	30 years#
Asset valuation method	4 year smoothed	4 year smoothed	4 year smoothed	4 year smoothed	4 year smoothed
	market	market	market	market	market
Rate of return on investment of present and future assets*	7.75%	7.75%	7.75%	7.75%	7.75%
Projected salary increases	4.00% - 19.00%	N/A+	4.75%	4.25%	N/A+
Post retirement benefit Increases (1)	2.00%	2.00%	2.00%	2.00%	N/A+
* Includes inflation at	3.50%	3.50%	3.50%	3.50%	3.50%

Notes:

- + Benefits are not based on salary and are not subject to cost of living increases.
- # Assets currently exceed actuarial accrued liabilities. The excess is amortized over 30 years and applied as a credit to determine the required contribution.
- ^^The statutory contribution rate is not sufficient to meet PERA board's objective of funding over 30 years.
- (1) 2.5% for certain retirees and disabled participants with annual benefits less than \$20,000

NOTE 3. DEPOSITS, INVESTMENTS, AND ALTERNATIVE INVESTMENTS

A. DEPOSITS

Investment balances reported in the Statements of Plan Net Position include an interest in the State General Fund Investment Pool maintained by the State Treasurer's Office. All deposit accounts maintained at the State Treasurer's Office participate in an overnight repurchase agreement program administered by the State Treasurer.

The Plan's interest in the State General Fund Investment Pool are pooled with other state funds on deposit in the State Treasurer's name at commercial banking and other financial institutions. Information regarding the adequacy of collateralization of deposits is not known to individual agencies and is the responsibility of the State Treasurer. To obtain information about pledged collateral, investment risk, and insurance coverage information for the Department's State Treasurer deposits, a copy of separately issued financial statements can be obtained from the State Treasurer's Office

The disclosure of the deposits by fund is required by the New Mexico Administrative Code 2.2.2. These amounts, listed below, are held in the name of the entity indicated and are fully collateralized.

PERA Trust Administration Deferred Compensation Operating Account Judicial Retirement Fund Magistrate Retirement Fund Volunteer Firefighters Retirement Fund Total deposits at State Treasurer's Office

Bank Balance	Carrying Amount
\$5,547,500	\$5,547,500
85,553	85,553
616,625	616,625
1,032,782	1,032,782
47,463	47,463
\$7,329,923	\$7,329,923

In addition to the Plan's interest in the State General Fund Investment Pool, the Plan also invests in the Short-Term Investment Fund (STIF), held by J.P. Morgan. STIF investments are reported as cash and cash equivalents in the statement of plan net position. STIF investments are used to facilitate more efficient trade procedures with the Plan's external money managers. STIF investments held by the investment custodian (J.P. Morgan) are invested in commercial paper, government agencies, asset backed securities with Standard and Poor's ratings of at least AA as presented in the schedule of custodial credit risk. The Plan's investment in STIF accounts totaled \$539,257,187 as of June 30, 2013.

B. INVESTMENTS

IRC 457 Fund. Securities held in the IRC 457 Fund are excluded from the investment disclosures below because the investments are self-directed by participants. Further detail of the investments are detailed in a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, P.O. Box 2123, Santa Fe, New Mexico 87504-2123, or calling (505) 476-9395.

Government Agency Mortgage-backed Securi-

ties. As of June 30, 2013, the Funds' investment portfolios, excluding securities lending collateral investments, included mortgage-backed securities issued by agencies of the United States government of \$587,894,760 at fair value. The overall return or yield on mortgage-backed securities depends on the amount of interest collected over the life of the security and the change in the market value. Although the Funds will receive the full amount of principal if prepaid, the interest income that would have been collected during the remaining period to maturity, net of any market adjustment, is lost. Accordingly, the yields and maturities of mortgage-backed securities generally depend on when the underlying mortgage loan principal and interest are repaid. If market rates fall below a mortgage loan's contractual rate, it is generally to the borrower's advantage to prepay the

FINANCIAL

For the Fiscal Year ending June 30, 2013

existing loan and obtain new lower financing. In addition to the change in interest rates, mortgage loan prepayments depend on other factors such as loan types and geographic location of the related properties.

Corporate Asset-backed Securities. As of June 30, 2013, the Funds' investment portfolio, excluding securities lending collateral investment, included corporate asset-backed securities with a fair value of \$182,780,459. These securities represent interests in various trusts consisting of pooled financial assets conveyed by the issuing parties. The Funds' ability to recover the amount of principal invested in these securities depends on the performance and quality of the trust assets.

<u>Custodial Credit Risk.</u> For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, PERA will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Mutual funds, external investment pools, and securities underlying reverse repurchase agreements are not exposed to custodial credit risk.

PERA's securities are held by a third-party custodian, independent of any counterparty; therefore, management believes there is minimal risk that PERA will not be able to recover the value of its investments or collateral securities held by a counterparty.

The Custodian holds assets directly, through its agents, its sub-custodians, or designated clearing systems. The Custodian is accountable for registration of those designated assets in good delivery form, collection of income generated by those assets, and any corporate action notification. The Custodian is responsible for delivery and receipt of securities of the aforementioned transactions. The Custodian is responsible for the ongoing pricing and valuation of all assets; investment managers must reconcile their values to those of the Custodian. The Custodian is to cooperate with, and provide assistance to, PERA and its investment managers in the reconciliation process. The Custodian is required to provide online records and reports, performance reporting, accounting reports and other services included in the agreement. The Board may opt to designate other duties to the Custodian as stipulated in the agreement.

With regard to Repurchase Agreements (REPOS) the policy states, "The Board shall utilize the services of the State Treasurer for holding PERA's assets. The State Treasurer at the direction of the Board shall deposit said assets with a bank or trust company for safe keeping or servicing. In addition, for cash management, the Board may utilize the services of the State Treasurer for overnight investment of short-term assets and/or a separate or commingled short-term investment fund ("STIF") approved by the Board or administered by the Custody Bank designated by the State Treasurer or the Board providing the STIF account only invests in those securities authorized by PERA's statutes, investment policy and investment guidelines. Investment managers shall invest all cash in PERA's approved STIF funds."

In addition the policy states, in part, "An investment manager under contract to PERA must preliminarily reconcile the differences between market values of securities as reported by the Custody Bank designated by the State Treasurer for safekeeping PERA's securities and the market values as shown on the monthly report of the investment manager's records."

For the Fiscal Year ending June 30, 2013

PERA's investments (summarized) at June 30, 2013 and its exposure to custodial credit risk are as follows:

Asset Type	Held in the name of the Fund by the Fund's custodian bank	Custody arrangements contracted by fund manager	Total

Held in the name Custody

<u>Credit Risk.</u> Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. PERA is required to disclose credit ratings of its investments in order to assess credit risk. U.S. obligations or investments guaranteed by the U.S. Government are excluded from this requirement.

PERA's investment policy restricts investments to specific investment ratings issued by nationally recognized statistical rating organizations as follows:

Credit ratings are limited to:

- 1. Bonds, notes or other obligations issued by a state, its municipalities or other political subdivisions, that have received an investment grade (at least Baa or BBB) bond rating, and are registered by the SEC or the Municipal Securities Rulemaking Board (MSRB).
- 2. Bonds, notes, commercial paper or other obligations of any corporation organized and operating within the United States; provided that the securities shall have a minimum credit rating of CCC- according to Standard and Poor's rating system or Caa3 according to Moody's investors rating system or their equivalents by a national rating agency approved by the Board; and provided that not more than ten percent of the funds for which the retirement board is trustee shall at any one time be invested in debt obligations of corporations with a credit rating less than BBB according to the Standard and Poor's rating system or Baa according to the Moody's inves-

- tors rating system or its equivalents. Investment managers may purchase securities that are not rated by a national rating agency, if stipulated in their contract, and provided that the investment manager's internal credit rating on the security is equivalent to at least CCC- according to Standard and Poor's or Caa3 according to Moody's.
- 3. Debt obligations of non-United States governmental or quasi-governmental entities may be denominated in foreign currencies; obligations, including but not limited to bonds, notes or commercial paper with an investment grade (at least Baa or BBB) rating (unless otherwise approved by the Board) of any corporation organized outside of the United States. Currency transactions, including spot or cash basis currency transactions, forward contracts and buying or selling options or futures on foreign currencies, shall be permitted for the purposes of hedging foreign currency risk.
- 4. Collateralized obligations, including but not limited to mortgages, held in trust that; (1) are publicly traded and are registered by the SEC or other Self Regulatory Organization (SRO) and (2) have underlying collateral that is either an obligation of the United States government or else has a credit rating above or equal to BBB according to the Standard and Poor's rating system or Baa according to the Moody's investors rating system or their equivalent by a national rating agency approved by the Board (unless otherwise approved by the Board)."

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager which are attached to each investment manager's contract, or Professional Services Agreement (PSA), with PERA. Duration is loosely defined as the dollar

weighted average time to recover all principal in a fixed-income investment. For example, a "duration" of four years suggests a 1% increase in corresponding interest rates could cause a 4% decline in the market value of the portfolio. PERA's fixed income managers are typically limited to a duration of plus or minus two year or 20% of the duration of the applicable portfolio benchmark. Such limitations are contained in the Plan's investment guidelines for fixed income managers.

For the Fiscal Year ending June 30, 2013

A summary of PERA's investments and its respective maturities at June 30, 2013 and its exposure to interest rate risk are as follows:

Bond Category	Weighted Average Maturity in Years	Market Value plus Accrued Income	Percentage of Fixed Income Portfolio
Corporate Bonds	9.41	\$ 1,184,427,192	36.53%

TOTAL INVESTMENTS SUBJECT TO INTER- EST RATE RISK		\$ 3,306,441,724	·

Concentration of Credit Risk. Concentration Risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments in any one issuer that represent 5% or more of all total investments including components unit investments are considered to be exposed to concentrated credit risk and are required to be disclosed. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. PERA's policy over concentration of credit risks are contained in each investment managers' Investment Guidelines.

At June 30, 2013, PERA had no investments with a concentration of greater than 5% of total investments.

<u>Foreign Currency Risk.</u> Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit.

PERA has risk exposure through direct investments in international equities, international fixed income and international private equity investments.

PERA's (non-U.S. equity) allocation is less than 25% of PERA's total combined-funds' assets. Since this portfolio is broadly diversified among many countries, the likelihood of a decline in the market value of a single local currency (the non-U.S. currency) or of several local currencies versus the U.S. dollar such that the impact on PERA's total assets is mitigated.

The following table presents a summary of the PERA's investments exposed to foreign currency risk by currency and the respective values at June 30, 2013.

For the Fiscal Year ending June 30, 2013

C. ALTERNATIVE INVESTMENTS

Alternative investments are described as investments that are not traditional investment assets such as: stocks, bonds or cash. For the purposes of PERA's investment portfolio, management classifies alternative investments by investment strategies that include absolute return (hedge funds), private equity, real "tangible" assets and real estate. Generally, investments in these asset classes are invested via limited partnership vehicles and contain different liquidity and investor terms than traditional asset classes. PERA pays participation fees it's made via limited partnerships. These fees are paid as part of PERA's committed capital. The PERA Board adopted an allocation to Alternative Investments in calendar year 2006 and revised the policy in 2010. The PERA Board adopted an allocation to Alternative Investments in calendar year 2012 and revised the total allocation to alternative investments in November 2012 to 20% of the investment portfolio (7% to Absolute Return (hedge funds), 5% to Private Equity, 3% to Real Estate, and 5% to Real Assets).

Absolute Return (hedge funds). Absolute Return is defined as investment assets in varying hedge fund strategies for the purpose of providing positive returns regardless of market direction. The stated target for Absolute Return investments is to produce returns at LIBOR + 3% to 5%. Funding for Absolute Return investments is from PERA's fixed income portfolio. PERA's Absolute Return portfolio is comprised of 100% single manager or direct hedge funds in such strategies as: Market Neutral, Credit, Distressed, Event Driven, Equity Long/Short, Global Macro and Multistrategy.

For the Fiscal Year ending June 30, 2013

As of June 30, 2013, PERA had a total market value of \$1,488,246,016 of assets invested in Absolute Return.

Private Equity. Private Equity investments are typically private interests in corporations across different areas of the capital structure and in different stages of the corporations' development via limited partnership vehicles. Private Equity investments are illiquid and long term in nature (10-12 years), typically held until maturity. PERA's Private Equity portfolio will likely have a "J-Curve Effect" whereby there are low to negative returns in the initial years due to the payment of investment management fees and initial funding of investments made by the General Partner during a period when investments are typically carried at cost and returns have not been realized. Funding for Private Equity is from PERA's public equity portfolio. To diversify the program, Private Equity investments are made across business cycles, vintage years, and different strategies. PERA's Private Equity investments are made in such strategies as: Buyouts, Venture Capital, and Distressed Debt. PERA's private equity investments also include investments in limited partnerships or limited liability companies that have an ownership interest in properties where the majority value of the property is derived from income-producing timber or energy-related businesses. As of June 30, 2013, PERA had committed \$927,434,000 to Private Equity limited partnerships and funded only a portion of the total commitment for a market value of \$605,170,601.

Real Estate and Real "Tangible" Assets. These investments are intended to provide allocations to tangible assets that are expected to be inflation protected and provide performance above the inflation rate as indicated by the CPI. Investments will include both private limited partnerships and publicly traded assets. Funding for Real Estate and Real Asset investments are from PERA's fixed income portfolio. As of June 30, 2013, PERA had committed \$754,000,000 to Real Assets partnerships and funded only a portion of the total commitment for a market value of \$250,766,487, including the TIPS and Commodity allocations

Real Estate Investment Trusts (REITS). These include investments in private vehicles through limited partnerships or limited liability companies that have an ownership interest in direct real estate properties. The investment strategies may include "value added" strategies, which derive their return from both income and appreciation, an "opportunistic", which derive their return primarily through appreciation. REITS include equity investments in publicly traded securities of a company dedicated to owning, and/ or operating income-producing real estate, including but not limited to apartments, shopping centers, offices and warehouses. As of June 30, 2013, PERA had committed \$530,684,000 to Real Estate limited partnerships and funded only a portion of the total commitment for a market value of \$444,087,031, including the REIT allocations.

For the Fiscal Year ending June 30, 2013

NOTE 4. DERIVATIVES

This note disclosure relates to PERA's investment derivative instruments measured at fair value on the Statements of Plan Net Position and Statements of Changes in Plan Net Position. The accumulated changes in fair value of PERA's derivative instruments as of June 30, 2013, are reported within the "Net Appreciation in Fair Value of Investments" on the Statement of Changes in Plan Net Position. Derivatives are defined as contracts whose value depend on, or derive from, the value of an underlying asset,

reference rate or financial index. The Board's investment policies allow for certain portfolio managers to utilize derivatives subject to a manager's investment management guidelines.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2013, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the 2013 financial statements are as follows:

	Change in	Fair Value	Fair Value		Notional	Unit of
Туре	Classification	Amount	Classification	Amount	Amount	Value
Equity derivatives - futures	Investment Revenue	\$(8,407,014)	Investments	\$605,999,366	721,827	\$1,010,451,414

Other Derivatives	Investment Revenue	(754,627)	Investments	(646,205)	(26,740,000)	113,372

Derivatives Counterparty Credit Risk. PERA enters into various types of derivative transactions to which the counterparty credit risk of PERA non-exchange traded investment derivatives instruments outstanding are subject to loss exposure at June 30, 2013. Credit ratings of these counterparties range from AAA to not rated and include currency forward contracts, commodity futures, equity futures, and fixed income futures.

<u>Derivatives Custodial Credit Risk.</u> The custodial credit risk disclosure for exchange traded derivative

instruments is made in accordance with the custodial credit risk disclosure requirements of GASB Statement 40. At June 30, 2013, all of PERA's investments in derivative instruments are held in PERA's name and are not exposed to custodial credit risk as of June 30, 2013.

<u>Derivative Foreign Currency Risk.</u> Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. PERA's derivative exposure to foreign currency risk are in the markets of the Australian

Dollar, Brazilian Real, Canadian Dollar, Euro, British Pound Sterling, Hong Kong Dollar, Indian Rupee, Japanese Yen, Mexican Peso, New Zealand Dollar, Polish Zloty, Russian Ruble and South African Rand.

Detailed below are derivatives with foreign currency risk. These derivatives are included in the totals for Note disclosure 3, which also describes in more detail foreign currency risk.

For the Fiscal Year ending June 30, 2013

Equity Futures. Equity futures are exchange-traded futures contracts used to replicate the performance of an underlying stock market index. PERA's index futures held by managers are for long-term exposure (non-hedging), and they are carried at fair value. Indices for futures include well-established indices such as S&P, FTSE, DAX, CAC40 and other G12 country indices. PERA utilizes stock market index futures within the Portable Alpha program and in the index accounts managed by NTGI and SsgA to a very limited extent to equitize cash dividends and other small cash balances.

Fixed Income Futures. Fixed income futures contracts are also exchange-traded derivatives. The exchange's clearing house acts as counterparty on all contracts, sets margin requirements, and also provides a mechanism for settlement. Futures typically have interim partial settlements, or "true-ups", in margin requirements. A futures contract gives the holder the obligation to make or take delivery under the terms of the contract.

Commodity Futures. Commodities futures, or futures contracts, are agreements to buy or sell a set amount of a commodity at a predetermined price and date. Buyers use these to avoid the risks associated with the price fluctuations of the product or raw material, while sellers try to lock in a price for their products. Futures are the obligation of the purchase or sale of the underlying asset. PERA utilizes commodity futures within the real asset segment of the alternative assets allocation

Fixed Income Option. An option is a derivative financial instrument that specifies a contract between two parties for a future transaction on an asset at a reference price. The buyer of the option gains the right, but not the obligation, to engage in that transaction, while the seller incurs the corresponding obligation to fulfill the transaction. The price of an option derives from the difference between the reference price and the value of the underlying asset (commonly a stock, a bond, a currency or a futures contract) plus a premium based on the time remaining until the expiration of the option. The nature of credit risk is default or non-performance of the counterparty to fulfill its contractual obligations.

<u>Fixed Income Swap.</u> A swap is a derivative in which counterparties exchange certain benefits of one

party's financial instrument for those of the other party's financial instrument. The benefits in question depend on the type of financial instruments involved. Specifically, the two counterparties agree to exchange one stream of cash flows against another stream. The swap agreement defines the dates when the cash flows are to be paid and the way they are calculated. The nature of credit risk is default or non-performance of the counterparty to fulfill its contractual obligations.

Forward Currency Contracts. The Funds may enter into various currency contracts to manage exposure of foreign portfolio holdings to changes in foreign currency exchange rates. A forward exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. The maximum potential loss is the aggregate face value at the time the contract was opened. Management believes the likelihood of such loss is remote. At June 30, 2013, the Funds had outstanding forward exchange currency contracts to purchase foreign currencies of \$352,831,763 and to sell foreign currencies of \$416,288,586. The fair values of these outstanding contracts at June 30, 2013, were to purchase foreign currencies of \$375,723,840 and to sell foreign currencies of \$380,794,322, respectively. The fair values of the contracts are reflected in the Statement of Plan Net Position. Gains and losses on forward currency may occur to the extent that the fair value of the contracts varies from the actual contract amount and are recorded as incurred in the Statement Changes in Plan Net Position.

For the Fiscal Year ending June 30, 2013

NOTE 5. SECURITIES LENDING

NMSA 1978 10-11-132 and PERA's policies permit the use the Funds' investments to enter into securities lending transactions—loans of securities to brokerdealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future. PERA's securities lending agent may loan United States government and agency securities, international securities, domestic equity securities, and corporate obligations owned by the Funds in exchange for cash and short term securities issued or guaranteed by the United States government as collateral.

Collateral for loans are held by PERA's custodial agent and must be equal to either 102% of the market value of the loaned securities in the case of loaned securities denominated in United States dollars or whose primary trading market is located in the United States or sovereign debt issued by foreign governments, or 105% in the case of loaned securities not denominated in United States. PERA may invest cash collateral received in eligible securities as defined in a governing securities lending agreement.

The securities lending agent is restricted to a maximum loan value of \$600,000,000, inclusive of all loaned securities. PERA manages its market risk by recording investments at market value daily and maintaining the value of the collateral held in

excess of the value of the securities loaned. As of June 30, 2013, the fair value of securities on loan was \$338,134,451. The associated collateral was \$355,860,014, of which \$17,725,563 was cash collateral, \$288,517,127 was short term (maturing in one business day) US Treasury securities and \$49,617,324 was collateral invested in varied legacy securities maintained from a previous securities lending agent. The collateral has been reinvested in other instruments which had a fair value of \$338,166,308 as of June 30, 2013 and the securities lending obligations were \$355,841,473. The unrealized loss in invested collateral on June 30, 2013 was \$17,888,526 which is reflected in the Statement of Changes in Plan Net Position, "Net Appreciation in fair value of investments."

Open security loans may be terminated on demand by either the Fund or the borrower. To insure liquidity, all collateral is invested in overnight US Treasury investments with a Weighted Average Maturity of one business day. The Weighted Average Maturity was 824 days as of June 30, 2013. The total portion of collateral made up of these assets was 18.96% as of June 30, 2013. All loans were open loans. There were no direct matching loans. As of June 30, 2013, no borrowers defaults have occurred.

For the Fiscal Year ending June 30, 2013

NOTE 6. CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2013, is as follows:

	Balance		Balance
	June 30, 2012	Additions	June 30, 2013
Capital assets @ cost:			
Land	\$1,548,990		\$1,548,990
Building	12,646,204		12,646,204
Property and equipment	36,016		36,016
Computer equipment and soft- ware	13,960,781	77,729	14,038,510
Automobile	80,107		80,107
	\$28,272,098	\$77,729	\$28,349,827
Accumulated depreciation:			
Building	\$(878,208)	\$(421,540)	\$(1,299,748)
Property and equipment	(32,905)	(333)	(33,238)
Computer equipment and soft- ware	(13,638,055)	(239,330)	(13,877,385)
Automobile	(68,627)	(4,921)	(73,548)
	\$(14,617,795)	\$(666,124)	\$(15,283,919)
Total	\$13,654,303	\$(588,395)	\$13,065,908

The following are included in the above schedule.

- Depreciation and amortization expense, reported as part of administrative expenses, for the year was \$666,124.
- PERA did not dispose of any capital assets in FY13.

For the Fiscal Year ending June 30, 2013

NOTE 7. COMPENSATED ABSENCES

The following represents changes in long-term liabilities for the year ended June 30, 2013.

	Balance				
	June 30, 2012	Additions	Deletions	June 30, 2013	
Compensated absences	\$292,104	\$219,074	(219,305)	\$291,873	

Management estimates that compensated absences are due within one year. The amount of compensated absences is calculated by multiplying the vested hours by the pay rate at year-end plus applicable payroll taxes.

NOTE 8. CONTINGENCIES

PERA has been named as a defendant in various lawsuits arising in the normal course of business primarily related to disability and retirement benefits. Management of PERA intends to vigorously defend the actions, and it is their opinion as well as the opinion of legal counsel that the resolution of these matters will not have a material effect on these financial statements.

PERA is exposed to various risks of loss for which PERA carries insurance (Auto; Employee Fidelity Bond; General Liability; Civil Rights and Foreign Jurisdiction; Money and Securities; Property; and Worker's Compensation) with the State of New Mexico Risk Insurance Program. The Plan's insurance coverages are designed to satisfy the requirements of the State tort claims. Also, any claims are processed through the Risk Management Division of the State of New Mexico.

NOTE 9. RETIREMENT PLANS

Plan Description. Substantially all of the PERA's full-time employees participate in the public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). PERA is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA,

P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. For fiscal year 2013, plan members are required to contribute 8.92% of their gross salary. For fiscal year 2012, plan members were required to contribute 10.67% of their gross salary. For fiscal year 2009 through 2011, plan members were required to contribute 8.92% of their gross salary (ranges from 4.78% to 16.65% depending on the plan – i.e., state general, state hazardous duty, state police and adult correctional officers, municipal general, municipal police, municipal fire, municipal detention officer).

For fiscal year 2013, PERA employers were required to contribute 15.09% of the gross covered salary. For fiscal year 2012, PERA employers were required to contribute 13.34% of their gross salary. For fiscal year 2009 through 2011, PERA employers were required to contribute 15.09% of the gross covered salary (ranges from 7.0% to 25.72% depending upon the plan). The contribution requirements of plan members and PERA are established in State statute under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the legislature.

PERA's contributions to the PERA retirement plan for PERA employees were for the years ending June 30, 2013, 2012, and 2011, were \$565,115, \$473,261, and \$602,122, respectively, equal to the amount of the required contributions from the employer for each year. In addition, the employees contributed an additional \$334,051, \$378,538, and \$355,926 respectively, equal to the amount of the required contributions from employees for each year.

For the Fiscal Year ending June 30, 2013

NOTE 10. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

Plan Description. PERA contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: (1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf, unless that person retires before the employer's RHCA effectivedate, in which the event the time period required for employee and employer contributions shall become the period of time between the employee's effective date, and the date of retirement; (2) retirees defined by the Act who retired prior to July 1, 1990; (3) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or a

former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The statute requires each participating employer as of July 1, 2012 to contribute 2.0% of each participating employee's annual salary; each participating employee is required to contribute 1.0% of their salary. Prior to July 1, 2012, the statute required each participating employer as of July 1, 2011 to June 30, 2012 to contribute 1.834% of each participating employee's annual salary; each participating employee is required to contribute 0.917% of their salary. From July 1, 2010 to June 30, 2011, the statute required each participating employer contribute 1.666% of each participating employee's annual salary; each participating employee is required to contribute 0.833% of their salary. Prior to July 1, 2010, employers contributed 1.3% and employees contributed 0.65%. Employers joining the program after 1/1/1998 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

PERA's contributions to the RHCA for the years ending June 30, 2013, 2012, and 2011 were \$74,948, \$64,480, and \$67,095, for employer contributions and \$37,474, \$32,240, and \$33,547 in employee contributions, respectively, which equal the required contributions for each year.

For the Fiscal Year ending June 30, 2013

NOTE 11. MARKET VOLATILITY

Global asset markets have shown marked strength in the months since the fiscal year end through late November in the face of sluggish global economic data, mixed corporate earnings, uncertain monetary policy, uncertainty over the future leadership of the Federal Reserve, a drawn out fiscal impasse resulting in a government shutdown in October, and a near technical default on US debt payments. Sturdy investor sentiment and the prevailing expectation that monetary policy will be supportive of growth for longer has pushed the S&P 500 to a new all-time high of 1,800 as of late November causing this important index to return 12.75% since June. The developed non-US equity markets (MSCI EAFE) are up nearly 15% and the emerging markets have returned 12% in the same time period. Notably, the rising global equity markets have caused PERA to exceed its alltime high of \$13.8 billion, which was last touched in October 2007. As of November 22, 2013, the PERA market value totaled \$13.83 billion.

Underneath the over-riding trend of rising global equity markets, continued fiscal policy gridlock and speculation over the nature and timing of monetary policies have caused interest rate sensitive assets and currency markets to gyrate since June. This was most apparent in the bond markets, which sought to regain composure after selling off in the second quarter of the year in anticipation of the Federal Reserve reducing their bond purchase program. With the consensus view that the FOMC would announce the beginning of the "taper" in mid-September global bonds sold-off with yields rising above June levels. Only when

the Fed unexpectedly maintained its existing pace of asset purchases with its September 18th surprise announcement did bond yields undergo a more meaningful unwind of their brisk ascent since April. But the cautious tone at the US Fed encouraged a more sober assessment of growth prospects, and the level of government yields across both the US and Europe have remained not too far from where they began mid-year. The US Federal Reserve was not the only central bank to see downside risks to economic growth, and several others with actual room to lower rates continued to ease policy during the third quarter. Despite these moves, broader upward pressure on global bond yields held sway through November with rates and bond yields broadly higher than at the end of June. The 10-year US Treasury stands at 2.78% compared to 2.5% at the end of June with investment grade US bond yields at 4.46% compared to 4.31% in June. The US Barclays Aggregate bond index is down 0.28% since the start of July.

Although PERA has exceeded its target return already for the 2014 fiscal year, the US federal government will run-out of funding again as early as January and the national debt will reach the just raised ceiling in February. Another bout of political gridlock would likely roil global asset markets. Additionally, although the US economy is expected to continue to grow at a moderate pace through 2014, growth in Europe is still sluggish and emerging economies are also expanding below their long-term potential. Periodic corrections in global equity markets and a secular trend in rising interest rates are likely.

NOTE 12. INVESTMENT PLACEMENT AGENTS

Placement agents are entities who act on behalf of an investment manager as a finder, solicitor, marketer, consultant, broker or other intermediary to raise funds from investors. The role of a placement agent can vary depending on the needs of their clients. About 2% of PERA's private investments involve placement agents. In each case, the agent is an established firm such as Credit Suisse or the Park Hill Group as opposed to an individual. A typical agent's fee is 1 to 2 percent of the amount invested. The role of placement agents moved into the spotlight during 2009 in a New York scandal that has rippled into

New Mexico's other two investing agencies.

Currently PERA complies with the statutory disclosure requirement of NMSA 1978, Section 10-11-133.1, which mandates the disclosure of the identity and fees paid, if any, to any third-party marketer or placement agent involved in PERA's investment in private funds. PERA has no direct relationships with third-party marketers or placement agents. PERA has rewritten its internal Investment Policy to incorporate the disclosure requirements of NMSA 1978, 10-11-133.1 as it pertains to private investments. PERA's two investment consultants, RVKuhns (effective until

For the Fiscal Year ending June 30, 2013

March 4, 3013) and Cliffwater, LLC, do not receive any form of compensation other than client advisory fees and do not accept compensation from investment management organizations or their marketers. Cliffwater, LLC serves in a gatekeeper capacity for all PERA's private investments and does not recommend any investment management firm to a client without interfacing directly with the firm's portfolio management professionals.

NOTE 13. CASH RECONCILIATION

General Fund Investment Pool Not Reconciled Note Disclosure per DFA. For cash management and investment purposes, funds of various state agencies are deposited in the State General Fund Investment Pool (the Pool), which is managed by the Office of the New Mexico State Treasurer. Claims on the Pool are reported as assets by the various agencies investing in the Pool.

In June 2012, an independent diagnostic report revealed that Pool balances had not been reconciled at a "business unit by fund" level since the inception of the Statewide Human Resources, Accounting, and Management Reporting System (SHARE) system in July 2006. This report, entitled "Current State Diagnostic of Cash Control," also described a difference between Pool bank balances and the corresponding general ledger balances and indicated that the effect of reconciling items were unknown. The report, dated June 20, 2012, is available on the website of the New Mexico Department of Finance & Administration at: http://www.nmdfa.state.nm.us/Cash Control.aspx.

By state statute, the New Mexico Department of Finance and Administration (DFA) is responsible for the performance of monthly reconciliations with the balances and accounts kept by the State Treasurer. Therefore, under the direction of the State Controller / Financial Control Division Director, the Financial Control Division (FCD) of the New Mexico Department of Finance & Administration undertook action to address the situation. DFA/FCD initiated the Cash Management Remediation Project (Remediation Project) in partnership with the Office of the New Mexico State Treasurer, the New Mexico Department of Information Technology, and a contracted third party with expertise in the Enterprise System Software used by the State.

The Remediation Project objective was to design and implement changes necessary to ensure ongoing completion of timely, accurate and comprehensive reconciliation of the Pool. DFA has or is in the process of implementing all the recommendations resulting for the Remediation Project and has made changes to the State's SHARE system configuration, cash accounting policies and procedures, business practices, and banking structure. This has enabled DFA to complete timely and accurate reconciliation of bank to book balances at the State and Business Unit level on a post-implementation basis, however it did not resolve historical reconciling items. Additional changes recommended by the Project continue to be cascaded through DFA and state agencies to support the Business Unit by Fund accounting requirements.

A plan to address historical reconciling items is being assessed and a separate initiative will need to be undertaken to resolve the historical reconciling items. Management considers it unlikely that this separate initiative will be successful in allocating all historical reconciling items to the State entities invested in the Pool. As a result, any remaining differences post specific allocation to Pool participants will be reported in the State General Fund.

Management in FY 2012 recorded a loss contingency of \$101.7 million in the State General Fund based on its estimate of the effect of issues related to the reconciliation of the Pool, that estimate is still current. Because no specific loss amount is determinable, consistent with generally accepted accounting principles, the amount accrued is the minimum amount that management considers to be probable. Ultimately, the loss could exceed the amount accrued, perhaps by a substantial amount.

General Fund Investment Pool DFA Reconciliation Impact to PERA. PERA believes the cash invested in the State Treasurer Overnight Pool is represented fairly and with no material misstatements due to the reconciliation done by PERA. PERA has established internal control procedures applying the State of

For the Fiscal Year ending June 30, 2013

New Mexico Manual of Model Accounting Practices (MAP). These procedures are designed to implement necessary and mandatory controls to avert accounting errors and violations of state and federal law and rules related to financial matters. In addition, PERA ensures that any disbursement of funds does not exceed the unencumbered funds at its disposal. Incorporating the State's financial software system (SHARE) and monthly internal reporting and reconciliation throughout the fiscal year, PERA maintains optimum fiscal safeguards. This ensures that the cash balances in SHARE are correct to the extent that PERA has control (i.e., collection, depositing, reconciling, and documentation of outstanding items) of the cash, its receipts and transfers to the state general fund and other state agencies pursuant to state statute. Each deposit, payment voucher, investment, and any other item that affects cash is verified monthly against SHARE to ensure the amount was posted correctly into the State's general ledger system. Any discrepancies are noted immediately to the Department of Finance and Administration and State Treasurer Office.

Interest in the General Fund Investment Pool. State law (Section 8-6-3 NMSA 1978) requires the Department's cash be managed by the New Mexico State Treasurer's Office. Accordingly, the investments of the Department consist of an interest in the General Fund Investment Pool managed by the New Mexico

State Treasurer's Office. At June 30, 2013 the Department had the following invested in the General Fund Investment Pool: \$7,329,923.

Interest Rate Risk - The New Mexico State Treasurer's Office has an investment policy that limits investment maturities to five years or less on allowable investments. This policy is means of managing exposure to fair value losses arising from increasing interest rates. This policy is reviewed and approved annually by the New Mexico State Board of Finance.

Credit risk - The New Mexico State Treasurer pools are not rated. For additional GASB 40 disclosure information regarding cash held by the New Mexico State Treasurer, the reader should see the separate audit report for the New Mexico State Treasurer's Office for the fiscal year ended June 30, 2013.

PERA believes the cash invested in the State Treasurer Overnight Pool is represented fairly and with no material misstatements due to the reconciliation done by PERA. Each deposit, payment voucher, investment, and any other item that affects cash is verified monthly against SHARE to ensure the amount was posted correctly into the State's general ledger system. Any discrepancies are noted immediately to the Department of Finance and Administration and State Treasurer Office.

NOTE 14. SUBSEQUENT EVENTS

Subsequent events have been evaluated through December 13, 2013 (the date the financial statements were available to be issued) to determine whether such events should be recorded or disclosed in the financial statements for the year ended June 30, 2013. Management believes no material subsequent events have arisen that would require adjustment or disclosure.

Pension Proposal Changes for Judicial and Magistrate for the 2014 Legislative Session:

Due to the high unfunded balances in both of these plans (see Note 2) and anticipated continued decrease of available funds, the Judges and Administrative Court Staff are going to be introducing two separate

proposals for the 2014 Legislative Session to change the two pension funds to help these pensions be at least 80% funded in 30 years. The proposals are still in draft stages and will be discussed, reviewed and amended by many constituents including the Judges themselves, along with the PERA Board, Legislature and the Governor.

SCHEDULE OF FUNDING PROGRESS

PERA uses the aggregate funding method, which does not identify or separately amortize unfunded actuarial liabilities. Below is a schedule of funding progress using the individual entry age normal funding method to approximate the funding status. The individual entry-age actuarial cost method allocates

Schedule of Funding Progress For the Fiscal Year ending June 30, 2013

the actuarial present value of each member's projected benefits on a level basis over the member's pensionable compensation between the entry age of the member and the pattern of projected exit ages.

Actuarial Valuation Date	(1) Actuarial Value of Assets	(2) Actuarial Accrued Liability (AAL) Entry Age	(3) Unfunded (Excess) AAL (UAAL) (2) – (1)	(4) Funded Ratios (1)/(2)	(5) Annual Covered Payroll	(6) UAAL as a % of Covered Payroll (3)/(5)

Chief Investment Officer's Letter

November 25, 2013

Dear PERA Members:

I am pleased to provide to you the following report for the New Mexico Public Employees Retirement Association (PERA).

PERA's performance for the fiscal year 2013 was very good with the Fund returning 13.26%, in excess of the actuarially required annual return assumption of 7.75% for an annual investment gain of \$1.2 billion. The Fund outperformed its benchmark by almost two percentage points with nearly all of the value add coming from manager out performance in the fixed income and domestic equity allocations. The Fund's one year performance was strong enough to rank PERA in the top 35th percentile the Fund's US public pension peers. PERA's positive FY13 performance offset the disappointing FY12 return and raised the three-year annualized number to 11.39%. Notably, PERA exceeded its policy benchmark by eighty-six basis points for the three year period.

A strong year of returns in global equities drove the markets. In particular, the S&P 500 index gained 20.6% and the developed market non-US equity index, the MSCI EAFE, was up over 19%. Emerging markets stocks lagged the developed markets by returning a disappointing 3.23%. The Barclays Aggregate core bond index was down 0.67%, and investment grade bonds were flat at 0.15% while high yield bonds generated equity-like returns of 9.50%. PERA's strong year also helped to improve the Fund's long-term performance with the ten-year total fund return improving to an annualized 6.45%. This number includes a mass sell-off in global equities when major stock indices were cut in half. Impor-

tantly, the PERA Fund has recovered nearly all of the losses experienced in 2008.

During the 2013 fiscal year the PERA Board approved new strategic asset allocation (SAA) target, refining previous adjustments made in 2010. These changes moved the non-US equity target from 27% to 20% and increased the US equity target from 27% to 29%. The real assets target was raised to 5% from 3%, and a 5% allocation for liquid alpha opportunities was added while reducing hedge funds to 7% from 9%. These changes served to deepen the diversification of several of the alternative asset allocations. Namely, the real assets allocation is composed of primarily growth-oriented opportunities given that the majority of the portfolio is concentrated in upstream energy. In addition to increasing this target slightly the PERA Board decided to add explicit targets for Master Limited Partnerships (MLPs) and infrastructure opportunities. This adds a current income and an inflation hedge component to the real assets portfolio, which will assist in meeting current beneficiary payments while helping to offset COLA increases. Additionally, these opportunities are expected to dampen the expected volatility of the energy heavy real assets portfolio. The addition of the Liquid Alpha/GTAA allocation will delegate some of the strategic and tactical asset allocation decisionmaking to a few select Investment Partners.

Other highlights for the year include the approval and execution of a \$450 million private assets commitment budget, the completion of a search for consulting services resulting in the selection of a

new general consultant and the retention of PERA's alternative assets consultant. The PERA Board also completed a domestic equity structure study, which led to small adjustments in this allocation and identified potential areas for improvement to be revisited in the near future.

The PERA Fund will continue to be managed in a disciplined manner for the long term with emphasis on the fundamental objective of prudent investing that will meet current and future obligations to the membership. We will seek to achieve this by strategically utilizing asset allocation, diversification and risk management while closely monitoring the market forces that can and will impact these components.

I wish to thank and commend the PERA Board for their dedication and their diligence in insuring the management of the Fund is held to the highest standards. I would also like to thank the PERA Staff for their hard work and steadfastness in weathering the turbulent last few years, which has been challenging on various levels. It is the caliber of the PERA trustees and staff that drives the success of the Fund, resulting in the outstanding fiscal year return of 13.26%.

SINCERELY,

Julian A. Baca

Deputy Chief Investment Officer

Investment Policy Summary

GENERAL OBJECTIVES OF THE INVESTMENT **POLICY**

PERA's overall objective is to provide adequate retirement and death benefits to its beneficiaries through the investment of contributions and other PERA assets, in a manner designed to maintain adequate funding of the liabilities over time. The general investment objective is to obtain a reasonable long-term total return consistent with the degree of risk assumed.

The Board, in investing PERA assets according to the Investment Policy, acts with the care, skill, prudence and diligence of the provision of the "Uniform Prudent Investor Act" adopted by the New Mexico Legislature and effective July 1, 2005. Further, all transactions undertaken on behalf of PERA are for the sole benefit of the beneficiaries.

INVESTMENT CONSULTANTS

The Board utilizes the services of two investment management consultants, one as the general investment consultant and the other is a specialist consultant for alternative investments in private equity, real estate, real assets and hedge funds. The investment consultants provide performance review, asset allocation studies, manager screening and selection, and topical studies to the Board and Staff. The comments and recommendations of the consultants are considered by the Board in conjunction with other available information for the purpose of making informed and prudent decisions.

PROFESSIONAL INVESTMENT MANAGERS

Proessional investment managers are retained by PERA to assist in managing PERA's assets. Investments are sufficiently diversified, both by asset class and investment manager, to minimize concentration and market risks. Each investment manager must be a registered adviser under the Investment Advisers Act of 1940 (or appropriately exempt from registration) and functions under a formal contract that delineates the manager's responsibilities and appropriate performance expectations. A formal set of investment guidelines and administrative requirements for management of each portfolio is provided to each manager. PERA's external managers are delegated responsibility for investment selection, purchases and sales, and implementation of investment strategies, subject to compliance with PERA's Investment

Policy and applicable State and federal statutes.

The Board reviews the investment performance of these managers against their stated objectives at least quarterly and invites the managers for annual presentations in its open public forum for updates, performance, outlook and discussion. The individual managers are judged according to benchmarks that reflect the objectives and characteristics of the strategic role their portfolio is to fulfill. Investment managers must act in accordance with PERA's Investment Policy and applicable State and federal statutes.

PROHIBITIONS

Effective July 1, 2005, the New Mexico Legislature repealed the provisions in NMSA 1978 Subsection 10-11-132 that set forth a list of allowable investments. It adopted the Uniform Prudent Investor Act, which is cited as (UPIA) and is in the NMSA 1978 Subsection 45-7-601 to 612. On December 29, 2005, PERA amended its investment policy adopting UPIA.

Transactions that involve a broker acting as a "principal" where such broker is also the investment manager who is making the transaction are prohibited.

Investments will not be made to the detriment of long term investment results regardless of the apparent rationale for social good or the immediate needs of the local, state or national economy.

No investment or action relating to an investment may be taken unless permitted by the Investment Policy or by approval of the Board.

NMSA 10.11-133.1, effective June 2009, requires the disclosure of third-party marketers used for securing alternative investments, as well as the amounts paid for those services. Knowingly withholding the required information is punishable by law.

ASSET ALLOCATIONS

Asset allocation is the single largest contributor to the PERA fund's return and risk. Based on the factors identified in the Investment Policy, the Board has established strategic asset allocation targets and ranges for U.S. equities, non-U.S, equities, global fixed income instruments and cash or cash equivalents on a market value basis. Ranges for each asset class are included in the Asset Allocation Investment Policy to

Investment Policy Summary (continued)

provide the Board with the flexibility to take advantage of market opportunities.

The Long-term Asset Allocation Investment Policy below was amended by the Board in 2012, providing for the objectives, terms and conditions for alternative investments, including real estate, real assets, private equity and absolute return hedge fund investments in accordance with the revisions to the Investment Policy.

Long-Term Asset Allocation Investment Policy regarding Traditional and Alternative Assets effective 06/30/10:

Asset Classes	Target	Minimum	Maximum
Domestic	29%	24%	34%
Equities			
International	20%	15%	25%
Equities			
Fixed Income	26%	23%	29%
Absolute Return	7%	5%	9%
Private Equity	5%	3%	7%
Real Estate	3%	1%	5%
Real Assets	5%	3%	7%
Cash Equivalents	0	0%	5%
TOTAL	100%		

The Board's re-balancing policy is governed by allocation ranges rather than time periods. Upper and lower allocation limits have been established for each asset class. The ranges, specified in the table above are a function of the volatility of each asset class and the proportion of the total fund allocated to the asset class. When any one of the public market asset classes breaches an upper or lower limit, the asset class will is re-balanced to within its strategic asset allocation target range within ninety (90) days. The Board has authorized the CIO and Staff to re-balance the portfolio in accordance with policy guidelines on an on-going basis. The goal in implementing the re-balancing policy is to minimize transaction costs, market impact, and opportunity costs.

The allocation of assets among various asset classes is approved by the Board and is predicated on factors such as (1) the historical performance of capital markets adjusted for the perception of the future short and long term market performance, (2) the correlation of returns among the relevant asset classes, (3)

the projected liability stream of benefits and the costs of funding to both covered employees and employers and (4) the relationship between the current and projected assets and the projected actuarial liability stream.

The Investment Policy assigns the target allocation for investable asset types and the allowable ranges. This is expected to provide diversification of assets in an effort to maximize the investment return to PERA consistent with prudent market and economic risk. PERA assets are fully invested at all times with only small balances in cash equivalents to cover benefits and operational expenses.

CONSULTING, LLC The experience and dedication you deserve

December 27, 2013

Board of Trustees Public Employees Retirement Association of New Mexico 33 Plaza La Prensa Santa Fe, New Mexico 87507

Attention: Mr. Wayne Propst, Executive Director

Re: Certification and Statement Regarding the Actuarial Valuations as of June 30, 2013

Dear Members of the Board:

The basic funding objective of the Public Employees Retirement Association of New Mexico (PERA) is to establish and receive contributions which, when expressed as a percentage of active member payroll, will remain approximately level over time and together with present assets and future investment return, will be sufficient to meet the future obligations of PERA

In order to measure progress toward this objective, PERA has an actuarial valuation performed each year. The valuation measures the present financial position and determines the sufficiency of the current statutory contribution rates to meet the Board's established objective to fund the current normal cost plus an amount necessary to amortize the unfunded actuarial accrued liability over a period not to exceed 30 years. The current statutory combined employer and employee contribution rates are:

State General Division	25.51%
State Police/Corrections Division	33.90
Municipal General Division	23.03
Municipal Police Division	35.35
Municipal Fire Division	38.47

If it is determined that the current employer contribution rate is less than the GASB compliant annual required contribution, we have provided in our report the contribution required to comply with GASB for financial disclosure purposes.

In preparing the valuations, we, as the actuary, relied on data provided by PERA. As part of our work, we performed a limited review of the data for consistency and reasonableness. The economic assumptions (rates of price inflation, wage inflation, payroll growth and investment return) were adopted by the Board for use beginning with the June 30, 2011 valuations. The demographic assumptions were adopted by the Board of Trustees pursuant to an experience study for the four-year period ending June 30, 2008. Assets are valued according to a method that fully recognizes expected investment return and averages unanticipated market return over a four-year period. The assumptions and methods utilized in this valuation, in our opinion, meet the parameters established by Governmental Accounting Standards Board Statement No. 25.

Beginning with the June 30, 2010 actuarial valuation, we provided some of the information used in the

Actuaries Certification Letter (continued)

schedules of Active Member Valuation Data, Retirees and Beneficiaries, Analysis of Financial Experience, and the Solvency Test found in the Actuarial Section and the Schedule of Funding Progress and the Schedule of Contributions in the Financial Section. All information provided prior to June 30, 2010 was provided by the prior actuary.

We are qualified actuaries with Cavanaugh Macdonald Consulting, LLC and are experienced with performing actuarial valuations of public sector benefit plans. We are Members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein. On the basis of the foregoing, we certify that, to the best

of our knowledge the valuation reports are complete and accurate and have been prepared in accordance with New Mexico's statutes and generally recognized and accepted actuarial principles. We further certify that our reports are prepared using practices which are consistent with the principles prescribed by the Actuarial Standards Board (ASB) and the Code of Professional Conduct and Qualification Standards for Public Statements of Actuarial Opinion of the American Academy of Actuaries.

Respectfully submitted,

John J. Garrett, ASA, FCA, MAAA Principal and Consulting Actuary

Jonathan T. Craven, ASA, FCA, MAAA, EA Senior Actuary

Summary of Assumptions and Methods

The method used for the PERA, Judicial, and Magistrate valuation is called the individual entry-age actuarial cost method, and it has the following characteristics:

- The annual normal costs for each individual active member are sufficient to accumulate the value of the member's pension at time of retirement.
- Each annual normal cost is a constant percentage of the member's year by year projected pensionable compensation.

The method used for Volunteer Firefighters valuation is called the entry age normal level dollar cost method, and it has the following characteristics:

- The total present value of projected benefits of each individual is allocated on a level basis over service from entry age to retirement age. The portion of this present value allocated to the valuation is the normal cost.
- The actuarial accrued liability is accumulation of past normal costs on the valuation date.

The method used for Legislature valuation is called the projected unit credit cost method, and it has the following characteristics:

- The normal cost is equal to the present value of benefits arising from service rendered in the current year. The normal cost increases from date of hire to date of retirement.
- The actuarial accrued liability is the present value of total projected plan benefits times the ratio of the number of years of service credit at the valuation date to the total expected service credit at retirement.

The individual entry-age actuarial cost method allocates the actuarial present value of each member's projected benefits on a level basis over the member's pensionable compensation between the entry age of the member and the pattern of projected exit ages.

Judicial: Normal cost for each judge is based on the benefits payable to that judge. Since new hires (after July 1, 2005) have lower benefits, the total normal cost for the plan is expected to decrease as pre-2005 members are replaced.

The portion of the actuarial present value allocated to the valuation year is called the normal cost. The

portion of the actuarial present value not provided for by the actuarial present value of future normal costs is called the actuarial accrued liability. Deducting accrued assets from the actuarial accrued liability determines the unfunded actuarial accrued liability (UAAL).

PERA: The period of time needed to finance the unfunded actuarial accrued liability with current statutory contribution rates is determined using a level percent of payroll amortization technique.

Judicial: Unfunded actuarial accrued liability was amortized as a level percent of payroll over 30 years to determine the computed contribution for fiscal integrity. This period is consistent with the policy established by the Retirement Board as of October 1996

Magistrate: Unfunded actuarial accrued liability was amortized as a level percent of payroll over 30 years to determine the computed contribution for fiscal integrity. This period is consistent with the policy established by the Retirement Board as of October 1996.

Volunteer Firefighters: Unfunded actuarial accrued liability is amortized over a 30 year period. As of June 30, 2012 funding value of assets exceeded accrued liabilities. The excess was amortized over 30 years and applied as a credit to the computed normal cost.

Legislative: Amortize the unfunded actuarial accrued liability over an open 30-year period. This is done in accordance with PERA Board funding objectives adopted in October of 1996.

The valuation assets used for funding purposes is derived as follows: prior year actuarial value assets are increased by contributions and expected investment income and reduced by refunds, benefit payments and expenses. To this amount 25% of the difference between expected and actual investment income (net of expenses) for each of the previous four years is added. The funding value of assets for each division is allocated in proportion to the total fund balances.

Assumptions used by the professional actuaries in valuing PERA's actuarial position were adopted by the PERA Board based on recommendations from the actuary on September 27, 2001 and have been

Summary of Assumptions and Methods (continued)

amended for fiscal years 2011 and 2012. Plan assets are valued on a market related basis for purposes of the actuarial valuation. The 2000 Group Annuity Mortality table (1971 GAM projected), set back 3 years for healthy men and 7 years for healthy women. A special table reflects disabled person's mortality. In addition, the following assumptions were used in calculating the actuarial liability:

- Active member payroll in the:
 - ° PERA payroll was projected to increase 3.5% per year due to inflation. Other projected salary increases of up to 15% per year are attributed to seniority and merit.
 - ° Judicial payroll was projected to increase 4.75% a year for the purpose of determining the contribution needed to amortize the unfunded actuarial accrued liability.

- ° Magistrate payroll was projected to increase 4.25% a year for the purpose of determining the contribution needed to amortize the unfunded actuarial accrued liability.
- Benefit payments are increased by cost of living adjustments of 3% per year for those retirees who have been retired for two full-calendar
- Rate of return on the investment of present and future assets of 7.75% (net of administrative and investment expenses) per year compounded annually, is made up of a 3.5% assumed inflation rate and a 4.25% assumed real rate of return.
- Other assumptions in the following tables and schedules (see following pages):
 - ° Rates of Retirement
 - ° Rate of Separation of Active Membership
 - ° Rates of Disability
 - ° Member and Employer Contribution Rates

Rates of Separation From Active Membership

These rates are used to measure probabilities of active members terminating that status for a reason other than disability or death.

The rates do not apply to members who are within the retirement rate range.

Separation rates are presumed to be service related during the first 5 to 8 years of employment and age related thereafter.

^{*} Members with at least 5 years of service and a last reported date within the last 5 years are valued similarly to deferred vested members in order to recognize potential liability these members hold.

Comprehensive Annual Financial Report

SUMMARY OF PERA PLAN PROVISIONS:

Membership Eligibility:

The Public Employees Retirement Association of New Mexico includes employees of the State of New Mexico and employees of affiliated public employers. Employees excluded from PERA membership include: seasonal employees; student employees; part-time employees who work less than 20 hours per week; independent contractors; and retirees of the Educational (ERA), Judicial (JRA) or Magistrate (MRA) Retirement Systems. Elected officials become members unless they submit a written application for exemption from membership.

Vesting:

Retirement benefits become vested upon member's completion of five years of qualifying service with accumulated member contributions remaining on deposit with the Association.

Retirement Eligibility	y – prior to July 1, 2010
Age	Years of Credited Service
Any	25 or more
60+	20 or more
61+	17 or more
62+	14 or more
63+	11 or more
64+	8 or more
65+	5 or more

Retirement Eligibility – after July 1, 2010

- 1) Any age with 30 or more years of service credit; or
- 2) Any age if the member's age plus years of service credit equals 80 or more; or
- 3) Age 67 with 5 or more years of service credit.

The municipal police and fire coverage plans 3, 4, and 5 require any age with 20 or more years of credited service.

The service credit for members of State Police and Adult Correctional Officer Member Coverage Plan 1 shall be increased by twenty percent for service credit earned while under the plan. To qualify for retirement under the plan, adult correctional officers were required to contribute 18 months under the plan beginning July 1, 2004 and ending December 31, 2005 for those first eligible.

The service credit for members of Municipal Detention Officer Member Coverage Plan 1 shall be increased by twenty percent for service credit earned while under the plan. To qualify for retirement under the plan, municipal detention officers are required to contribute a minimum of 18 months under the plan. Members employed by municipalities which adopted the plan effective July 1, 2004 were first eligible after December 31, 2005.

Service Benefit Formula:

Final average salary (calculated with highest 36 consecutive months salary) multiplied by years of service multiplied by the applicable plan pension factor, up to the maximum allowable pension.

Cost of Living Adjustment:

Pensions are increased each July 1 by 3% if the retirement has been in effect for at least two full calendar years. (2% starting July 1, 2014) If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits:

PERA death benefits depend on whether or not the death occurred in the line of duty.

Death in the Line-of-Duty – A survivor pension is paid to the eligible spouse and children if the member has not designated a different survivor beneficiary under the "Elective Survivor Pension Beneficiary" provision. The amount of pension payable for life to an eligible spouse is the greater of 1) 50% of final average salary, or 2) the accrued normal retirement pension reduced for option B election. The amount of pension payable to each eligible child is an equal share of 25% of final average salary. If there is not an eligible spouse or the eligible spouse dies, and if there are 2 or more eligible children, the amount of pension payable to each eligible child is an equal share of 50% of final average salary.

Death NOT in the Line-of-Duty – Requires five years of credited service for eligibility. A survivor pension is paid to the eligible spouse or children if the member has not designated a different survivor beneficiary

under the "Elective Survivor Pension Beneficiary" provision. The amount of pension payable for life of an eligible spouse is the greater of 1) 30% of final average salary, or 2) accrued normal retirement pension reduced for option B election. An eligible child pension is paid if there is not an eligible spouse or following the death of an eligible spouse. The amount of pension payable to each eligible child is an equal share of 25% of final average salary or if greater, 50% of accrued normal retirement pension.

Disability Retirement:

Applicable to members and vested former members with five or more years of credited service. The five year credited service requirement is waived if the disability is incurred in the line of duty. The amount of disability pension is the accrued normal retirement pension at time of disability retirement. If the disability is in the line of duty, the credited service used is the amount that would have been acquired when first eligible for normal retirement.

Refunds:

A terminated member is eligible for a 100% refund of member contributions plus interest after being unemployed by an affiliated public employer for 30 days or more. There is a 30 to 45 day refund processing period after the completed application is received by PERA.

Purchase of Service Credit:

A PERA member or current contributing member of ERA, JRA, or MRA may purchase previously refunded service credit by paying a lump sum amount plus interest.

Contribution Rates:

Applicable member contribution rates are dependent on the plan adopted by the affiliated public employer.

Interest:

Effective July 1, 2013 - 2% on member contributions. Prior to July 1, 2013 - 5.25% on member contributions.

SUMMARY OF JUDICIAL PLAN PROVISIONS **Membership Eligibility:**

The Judicial Retirement Plan of New Mexico includes all justices of the Supreme Court and judges of district courts, metropolitan courts and the Court of Appeals.

Retirement Eligibility:

A judge or justice may retire at: 1) Age 64 with five or more years of service, or 2) Age 60 with fifteen or more years of service. For judges or justices hired after July 1, 2005: 1) Age 64 with five or more years of service, or 2) Age 55 with sixteen or more years of service.

Service Benefit Formula:

Final average salary (calculated using the last 12 months of salary received in office prior to retirement) multiplied by a minimum of 37.5% up to a maximum of 75%, depending on years of service.

Early Retirement Pension:

Applicable to judges or justices between the ages of 50 and 60, with 18 or more years of service. The pension is 70% of final average salary (received during the last year in office prior to retirement) plus 0.5% of final average salary multiplied by the number of complete years the age at retirement exceeds age 50. Members hired after July 1, 2005 are not eligible for early retirement.

Cost of Living Adjustment:

Pensions are increased each July 1 by 3% if the retirement has been in effect for at least two full calendar years. (2% starting July 1, 2014) If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits:

The surviving beneficiary of an active or retired member would receive 75% of the member's vested pension until death. The pension is payable to the deceased member's minor and dependent children if there is no eligible surviving spouse or designated survivor beneficiary.

Refunds:

A terminated member is eligible for a 100% refund of member contributions plus interest. There is a 30 to 45 day refund processing period after the completed application is received by PERA.

Purchase of Service Credit:

A JRA member or current contributing member of PERA, ERA, or MRA may purchase previously refunded service credit by paying a lump sum amount plus interest.

Other Service:

PERA, MRA and ERA service may be combined with Judicial service for purposes of satisfying age and service requirements once a member has attained one month of Judicial service. When combining service, members may retire under the JRA after satisfying either the JRA or PERA age and service requirements for immediate benefits.

Contribution Rates:

The contribution rate for judges and justices from July 1, 2005 is 7.5% of salary. For fiscal years 2010 and 2011, the member contribution rate is 9.0%. For fiscal years 2012 and 2013, the member contribution rate is 10.75%. From July 1, 2005, the employer contributes 12% plus \$38 from each civil case docket fee paid in district court, \$25 from each civil case docket fee paid in metropolitan court and \$10 from each jury fee paid in metropolitan court. For fiscal years 2010 and 2011, the employer contribution was 10.5% and thereafter the rate is 12% with the docket fees charges remaining the same.

Interest:

Effective July 1, 2013 - 2% on member contributions. Prior to July 1, 2013 - 5.25% on member contributions.

SUMMARY OF MAGISTRATE PLAN **PROVISIONS**

Membership Eligibility:

The Magistrate Retirement Plan of New Mexico includes all magistrate court judges.

Retirement Eligibility:

A judge may retire at: 1) Age 64 with five or more years of service, or 2) Age 60 with fifteen or more years of service, or 3) Any age with twenty-four or more years of service. Magistrates with one or more years of service in PERA, ERA or JRA may combine service credits to satisfy these voluntary retirement conditions.

Service Benefit Formula:

Final average salary (calculated using the last 12 months of salary received in office prior to retirement) multiplied by a minimum of 37.5% up to a maximum of 75%, depending on years of service.

Cost of Living Adjustment:

Pensions are increased each July 1 by 3% if the retirement has been in effect for at least two full calendar years. (2% starting July 1, 2014) If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits:

The surviving beneficiary of an active or retired member would receive 75% of the member's vested pension until death. The pension is payable to the deceased member's minor and dependent children if there is no eligible surviving spouse or designated survivor beneficiary.

Disability Retirement:

Applicable if magistrate has five or more years of magistrate service and becomes incapacitated to perform duties of office. Magistrate would receive vested pension. Five year service requirement is waived if the disability is duty-related.

Refunds:

A terminated member is eligible for a 100% refund of member contributions plus interest. There is a 30 to 45 day refund processing period after the completed application is received by PERA.

Purchase of Service Credit:

A MRA member or current contributing member of PERA, ERA, or JRA may purchase previously refunded service credit if employed by an affiliated public employer at the time of purchase by paying a lump sum amount plus interest.

Contribution Rates:

The contribution rate for judges and justices from July 1, 2005 is 7.5% of salary. For fiscal years 2010 and 2011, the member contribution rate is 9.0%. For fiscal years 2012 and 2013, the member contribution rate is 10.75%. From July 1, 2005, the employer contributes 11% plus \$25 from each civil case docket fee paid and \$10 from each jury fee paid in magistrate or

metropolitan court. For fiscal years 2010 and 2011, the employer contribution was 9.5% and thereafter the rate is 11% with the docket fees charges remaining the same.

Interest:

Effective July 1, 2013 - 2% on member contributions. Prior to July 1, 2013 - 5.25% on member contribu-

SUMMARY OF VOLUNTEER FIREFIGHTER PLAN PROVISIONS

Membership Eligibility:

The Volunteer Firefighter Retirement Plan of New Mexico includes any active volunteer non-salaried firefighter whose first year of service credit was earned during or after the year turning age 16.

Retirement Eligibility:

A member may retire at: 1) a full retirement annuity at age 55 with 25 or more years of service, or 2) with a reduced retirement annuity at age 55 with at least 10 but less than 25 years of service credit.

Service Credit:

A year of service credit may be granted upon required certification for each year the member: 1) attended 50% of all scheduled fire drills; 2) attended 50% of all scheduled business meetings; and 3) participated in at least 50% of all emergency response calls which the fire department held him/her responsible to attend.

Service Benefit Formula:

The full retirement annuity is \$200 per month. The reduced retirement annuity is \$100 per month.

Vested Retirement Annuity:

Any member with at least 10 years of service credit who ceases to be a volunteer non-salaried firefighter is eligible for a deferred retirement annuity commencing at age 55. The monthly amount is \$200 if the member has at least 25 years of service credit and \$100 if the member has between 10 and 25 years of service credit.

Cost of Living Adjustment:

Retired volunteer firefighters are not eligible for a Cost of Living Adjustment.

Death Benefits:

- 1) The surviving spouse of a deceased annuitant receives a pension equal to two-thirds of the retirement annuity being paid at the time of death. The annuity ceases upon the surviving spouse's marriage or death.
- 2) If there is no surviving spouse, then a surviving depended child will receive an annuity equal to two-thirds of the retirement annuity being paid at the time of the member's death. The annuity will cease upon the earlier of the dependent child's 18th birthday or death.

Contribution Rates:

Funding from the New Mexico State's Fire Protection Fund is transferred annually to the Volunteer Firefighter Retirement Fund. The amount transferred in FY2013 was \$750,000.

SUMMARY OF LEGISLATIVE PLAN PROVISIONS:

Membership Eligibility:

The New Mexico Legislative Retirement Plan includes any state legislators and lieutenant governors.

State Legislator Member Coverage Plan 1 and Plan 1 Enhanced

Age	Years of Credited Service
Any	14 or more
60+	12 or more
63+	11 or more
64+	8 or more
65+	5 or more

State Legislator Member Coverage Plan 2

- Any age with 10 or more years of service 1) credit; or
- 2) Age 65 with 5 or more years of service credit.

Service Benefit Formula:

The annual pension for State Legislator Member Coverage Plan 1 is \$250 multiplied by the years of credited service.

The annual pension for State Legislator Member

Coverage Plan 1 Enhanced is \$500 multiplied by the vears of credited service.

The annual pension for State Legislator Member Coverage Plan 2 is 11% of the per diem rate in effect multiplied by 60 and further multiplied by the member's service credit.

Cost of Living Adjustment:

Pensions are increased each July 1 by 3% if the retirement has been in effect for at least two full calendar years. (2% starting July 1, 2014) If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits:

Legislative death benefits depend on whether or not the death occurred in the line of duty.

Death in the Line-of-Duty – A survivor pension is paid to the eligible spouse and children if the member has not designated a different survivor beneficiary under the "Designated Survivor Pension Beneficiary" provision. The pension payable for life to an eligible beneficiary is 80% of the accrued normal retirement pension.

Death NOT in the Line-of-Duty – Requires five years of credited service for eligibility. A survivor pension is paid to the eligible spouse or children if the member has not designated a different survivor beneficiary under the "Designated Survivor Pension Beneficiary" provision. The pension payable for life to an eligible spouse is 80% of accrued normal retirement pension. An eligible child pension is paid if there is not an eligible spouse or following the death of an eligible spouse. The amount of pension payable to each eligible child is an equal share, with each other child, of 50% of accrued normal retirement pension. An eligible child is an unmarried natural or adopted child who is under age 18 years. A child's pension terminates upon death, marriage or reaching age 18. The pension of any remaining eligible children is recalculated whenever a child's pension is terminated.

Disability Retirement:

Applicable to members and vested former members with five or more years of credited service. The five year credited service requirement is waived if the disability is incurred in the line of duty. The amount of disability pension is the accrued normal retirement pension at time of disability retirement. If the disability is in the line of duty, the credited service used is the amount that would have been acquired when first eligible for normal retirement.

Contribution Rates:

Members contribute \$100 for each year of credited service under State Legislator Member Coverage Plan 1, \$200 for each year of credited service under State Legislator Member Coverage Plan 1 Enhanced and \$500 for each year of credited service prior to 2012 and \$600 for each year of service beginning with the 2012 legislative session for the State Legislator Member Coverage Plan 2. An additional annual appropriation to the Legislative Retirement Fund is determined by the actuarial valuation.

Interest:

Effective July 1, 2013 - 2% on member contributions. Prior to July 1, 2013 - 5.25% on member contributions.
