MISSION STATEMENT

It is the mission of the Public Employees' Retirement System to:

- Provide public workers and their dependents with a retirement program that provides a reasonable base income for retirement or for periods where a disability has removed a worker's earning capacity.
- Encourage those workers to enter into and remain in government service for such periods of time to give public employers and the people of the State of Nevada the full benefit of their training and experience.

INTRODUCTORY SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

December 1, 2011

Dear Chairman and Members of the Board:

It is a pleasure to present the Comprehensive Annual Financial Report (CAFR) of the Public Employees' Retirement System of Nevada (System or PERS), a component unit of the State of Nevada, for the fiscal year ended June 30, 2011.

The financial statements included in this report are the responsibility of the System's management and have been prepared in accordance with generally accepted accounting principles as promulgated or adopted by the Governmental Accounting Standards Board (GASB). In management's opinion, the financial statements present fairly the financial position of the System at June 30, 2011, and changes in fiduciary net assets for the year then ended.

The System was established by the Nevada Legislature in 1947. By July 1, 1949, the System had approximately 3,000 members and 64 retirees. At the end of fiscal year 2011, the System had 181 participating employers, 99,911 active members, and 46,578 retirees and beneficiaries. The System is comprised of two sub-funds, Regular, consisting of members who are not police or fire employees, and Police and Firefighters (Police/Fire). The Regular sub-fund was established to provide retirement, disability, and survivor benefits for public employees with the exception of those who are police officers or firefighters. The Police/Fire sub-fund was established to segregate accounting for retirement and survivor benefits related to members who are police officers or firefighters. All services provided by staff are performed in order to meet those objectives. For more specific information on plan provisions, please refer to the Plan Summary, beginning on page 117.

Included in the Financial Section of this CAFR, beginning on page 24, is Management's Discussion and Analysis (MD&A). Users of the financial statements are encouraged to review the MD&A, which contains a statement overview, highlights for the year, and a short analysis of the statements comparing the current and previous year.

We hope that you and the members of the System will find this CAFR helpful in understanding your public employees' retirement system.

Major Initiatives

Legislation

In preparation for the 2011 legislative session, the Public Employees' Retirement Board (Retirement Board or Board) commissioned an analysis and comparison of defined benefit and defined contribution retirement plans by The Segal Company. The study results were presented to the Board at their December 2010 meeting and adopted by the Board to ensure that correct, concise information as to the costs, benefits, and transition considerations were provided before possible legislation was introduced.

The Board's adopted legislative agenda for the 2011 session was very successful overall. In the challenging economic environment the System was successful in having the State incorporate the contribution rate increase into the proposed budget with no objections. Given the fiscal environment and the Board's funding policy, the Board adopted a very conservative outlook and agenda for the session. There were no bills that proposed benefit improvements. Only one bill was opposed by the Retirement Board. Assembly Bill 67 proposed to limit the application of the employer responsibility language for erroneously reporting wages to PERS. This bill failed to pass out of the Assembly Committee on Government Affairs.

Four bills affecting Chapter 286, that were either endorsed or on which the Board was neutral, became law as a result of the 2011 legislative session. Assembly Bill 117 allowed school districts to implement a furlough program holding the retirement credit accrued harmless. Assembly Bill 405 required the Interim Retirement and Benefits Committee to perform a study on PERS utilizing the System's independent actuary should certain funding thresholds be met. A final report is due to the Legislative Commission by December 31, 2012, with any proposals for legislative changes for the 2013 legislative session. Assembly Bill 464 corrects language in the NRS as requested by the Legislative Counsel Bureau but did not change the meaning of the statutes. Assembly Bill 477 was the System's technical legislation for compliance with the Internal Revenue Code.

System Governance

During this past year the Board completed a self-assessment process with the assistance of executive staff and a consultant. The Board also completed a review of compliance with the governance charters. The report concluded that the Retirement Board and staff have demonstrated a high degree of compliance with verifiable provisions of the governance charters.

Communications

Staff enhanced the use of the three communication programs established last year (Employer Advisory Council, Employee Advisory Council, and Retiree Ambassadors) to provide regular updates with news of the legislative session and the System generally. In addition, the Retiree Ambassador program has been extremely successful as a way to interact with interested retirees and to provide education to them on the positive economic impact of the System on their communities and the State as a whole. Retirees from all over the State have graduated from the program and encourage their fellow retirees to participate in the program as well.

Operational Initiatives

Operations of the System are conducted in accordance with the Operational Yearly Plan. This plan is designed to organize all agency functions by department and to ensure that all duties are performed within the fiscal year. The System's performance, in part, is measured by total member and retiree workload. Between July 1, 2010, and June 30, 2011, staff completed approximately 74,000 pieces of work. Of this group, 55,000 were directly related to customer requests, such as benefit estimates and purchase of service estimates, with 19,000 relating to back office support. Approximately 95% of all work was performed within the ten working days benchmark.

Benefit payments to approximately 46,000 retirees and beneficiaries were made within our benchmark of four working days before the end of the month. During this fiscal year, staff completed 3,694 one-fifth of a year purchases for educational employees and 682 service credit audits for the Public Employees' Benefits Program (PEBP).

Staff implemented a new wage and contribution reporting function which allows public employers to report their PERS ineligible employees, used for testing compliance with appropriate enrollment rules. Employers will provide the total number of hours worked and the wages earned for ineligible employees. This additional information will allow staff to assist the public employers with determining if the ineligible employees are working in positions that may be eligible for membership. PERS staff provided extensive training to non-choice (only one contribution plan available) public employers in the use of electronic enrollment. A total of 84 agencies now use this process to enroll their new hires into PERS, including our largest public employer.

The 7th Annual Liaison Officer Conference was held in Reno on November 17, 2010. Public employers from across the state attended this one-day conference. The conference included a morning general session followed by afternoon breakout sessions organized by agency type. Reviewing the conference attendee surveys completed at the end of the conference indicated 99% of attendees rated the conference good or excellent.

PERS continued participation in a benchmarking analysis service in fiscal year 2011. The purpose of the analysis was to help PERS understand how our total administration costs and service levels compare to our peers, given the lack of in-state competition to use as a benchmark. The analysis shows that Nevada PERS provides a good level of service at a substantially lower administration cost than the peer average.

Information Technology

During fiscal year 2011, PERS completed modifications to the pension processing system in order to implement the provisions of Senate Bill 427 from the 2009 legislative session. PERS also modified the pension processing system to allow employers to report all ineligible employees. This enhances the System's ability to identify employees who meet eligibility thresholds and reemployed retirees subject to benefit suspension. Information technology staff built and replaced the existing intranet, accounting application, e-mail, and directory servers. This allows each of these servers to run at optimal performance and provides additional warranties in the case of hardware failure.

Network security continues to be a priority for PERS. The System's security consultant, along with staff, continuously monitors, documents, and attacks vulnerabilities identified. Risk assessment is one of the most critical aspects of information technology. The System's consultant assisted staff in keeping the System's networks safe and up to date.

Strategic Planning

Annually, PERS' executive staff reviews the System's strategic plan for updates, including both additions and deletions. The Strategic Plan covers a five-year period and is updated annually by the Executive Officer in consultation with the Board.

The Strategic Plan contains the following sections: Philosophy, Mission, Planning Process, Core Values, Organization and History, Goals and Objectives, Strategies, Internal Assessment, External Assessment, and Performance and Caseload Indicators. The Organization and History section was updated to include data from the most recent annual financial report. Language was modified in the Strategies, Internal Assessment, and External Assessment sections to update information on member communications, technology, plan design, accounting issues, and Securities and Exchange Commission projects. The Performance and Caseload Indicators were also updated. The current Strategic Plan is available on the website.

Summary of Financial Information

The System's management is responsible for maintaining internal controls designed to provide reasonable assurance that transactions are executed according to management's authorization, recorded to maintain accountability for assets, and to allow the preparation of financial statements in accordance with generally accepted accounting principles. The internal controls include written policies and procedures and are reviewed periodically by independent auditors and the System's internal audit staff.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk. We believe our internal control structure considers these risks and that we maintain a system of internal controls designed to provide reasonable assurance that assets are properly safeguarded, transactions are properly executed, and financial statements are reliable.

The Retirement Act requires a biennial financial audit of the System by a certified public accountant. The Board chooses to conduct such audits on an annual basis, rather than biennially, to ensure proper financial controls are in place. The System is also required by statute to submit a biennial budget proposal to the Budget Division of the State of Nevada, which must be incorporated with the State Executive Budget and approved by the Nevada Legislature.

The following schedule is a summary of the pension trust funds' additions and deductions for the years ended June 30:

	2011	2010
Additions	$ 5,797,923,427	$ 3,469,597,861
Deductions	(1,448,938,513)	(1,333,451,852)
Increase (decrease) in net assets	$ 4,348,984,914	$ 2,136,146,009

Additions increased approximately $2.3 billion from fiscal year 2010, due to increases in net investment income. Deductions increased by $115.5 million between 2010 and 2011 due in part to increases in benefit payouts of $110.5 million, refunds of $4.5 million, and transfer of contributions in the amount of $1.1 million.

Funding

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due. Although the System receives an annual actuarial valuation indicating the contribution rates required to fund the System on an actuarial reserve basis, contributions actually made are in accordance with the rates derived from the actuarial rates and then rounded according to statute.

The actuarial funding method used is the Entry Age Normal Cost Method. This method is used to calculate liabilities using a year-by-year closed amortization period where each amortization period is set at 30 years, in addition to other significant actuarial assumptions detailed beginning on page 81. Fiscal year 2011 funding levels are presented on page 36 in the Financial Section of this report. In addition, Required Supplemental Information on page 46 shows ten-year schedules of funding progress. The funded ratio for all members is 70.2% in 2011, a slight decrease from 70.5% in fiscal year 2010.

Investments

Investment performance plays an important role in the System's ability to provide retirement benefits to its members. Approximately 80% of the benefits the average member receives in retirement are funded from investment earnings. The remaining 20% is funded from contributions. The Board's investment philosophy centers on time tested investment principles and efficient, cost-effective portfolio management.

The investment portfolio is designed to meet the funding objectives of the System while taking the least possible risk. Investment of the System's assets is governed by the prudent person standard. This standard states that the Board may invest the System's funds in every type of investment which persons of prudence, discretion, and intelligence acquire or retain for their own account.

The System's investment portfolio is well diversified by asset class, investment structure, and individual security. In fact, the System's portfolio currently holds over 5,000 individual securities from 30 different countries. The Board utilizes these portfolio components to maintain strict control of the fund's risk/return profile.

Asset allocation is the most significant factor influencing the risk and return of the investment program. Since inception, 98% of the System's investment performance is explained by asset allocation. Determination of the fund's long-term asset allocation involves estimating the expected return and risk of major types of investments and blending them into a portfolio which meets the System's risk/return objectives.

The fair value of the System's investment assets at the end of fiscal year 2011 was $24.8 billion. The portfolio return objective includes a premium over the Consumer Price Index (CPI). This premium has ranged from 3.0% to 4.5% over time. On that basis the total fiscal year 2011 inflation return objective was 8.1%. The System's total return on investments for that same time period was 21.1%, which includes both realized and unrealized gains. Fiscal year 2011 returns were influenced by above average returns from U.S. and non-U.S. stocks, non-U.S. fixed income and private markets.

The recent financial crisis has been the catalyst for some of the most volatile markets in history. In this environment, PERS was quite competitive versus other large public pension plans, ranking in the top 32% for return and the bottom 32% for risk. Generating returns in the top of the peer group while experiencing less volatility than the majority of those same investors is a testament to the effectiveness of the Retirement Board's investment strategy.

The fund's annualized rate of return is 9.7% since inception (27 years) versus the long-term actuarial funding objective of 8%. The fund is competitive on a risk-adjusted basis, ranking in the top 17% of public funds for that same time frame. The investment section beginning on page 56 addresses specific activity and results in the portfolio.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the System for its comprehensive annual financial report for the fiscal year ended June 30, 2010 (see page 19). This was the 21st consecutive year the System has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to meet the Certificate of Achievement Program requirements and are submitting it to the GFOA for consideration again this year.

PPCC Award

The Public Pension Coordinating Council awarded the Public Pension Standards Award to the System for the fiscal year ended June 30, 2011 (see page 20). The award is designed to commend public employee retirement systems for implementing and maintaining high professional standards. PERS has received the award every year it has been offered.

Professional Services

Professional consultants are hired to perform services essential to the efficient operation of the System. The Report of Independent Auditors, Consultant's Report of Investment Activity, and the actuary's certifications are included in this report. The System's consultants are listed on pages 17 and 54.

Acknowledgements

This report reflects the combined effort of the System's administrative staff. It is intended to provide both complete and reliable information as a basis for making management decisions, determining compliance with legal provisions, and determining the responsible stewardship of assets contributed by the members and their employers.

I would like to express my appreciation to the staff, consultants, Board, and other associates whose efforts ensured the successful operation of the System in 2011.

Respectfully submitted,

Dana K. Bilyeu

Independent Auditor's Report

Public Employees' Retirement Board
of the State of Nevada
Carson City, Nevada

We have audited the accompanying financial statements of the Public Employees' Retirement System of Nevada (the System), a component unit of the State of Nevada as of and for the year ended June 30, 2011, as listed in the table of contents. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audit. The comparative totals for the year ended June 30, 2010 which are included for additional analysis have been derived from the Public Employees' Retirement System of Nevada's 2010 financial statements and, in our report dated December 6, 2010, we expressed an unqualified opinion on such information

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net assets of the System as of June 30, 2011 and the changes in its fiduciary net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 24 through 27 and the Schedules of Funding Progress and Employer Contributions on pages 46 and 47 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information included on pages 48 through 53 is for the purpose of additional analysis and is not a required part of the financial statements, and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

The Introduction Section on pages 9 through 20, the Investment Section on pages 53 through 74, the Actuarial Section on pages 75 through 94, the Statistical Section on pages 95 through 114 and the Plan Summary on pages 115 through 122 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis (MD&A) of the financial performance of PERS provides an overview of the System's financial activities for the fiscal year ended June 30, 2011. The MD&A is designed to focus on the current year's activities, resulting changes, and currently known facts while also showing three-year trends. Readers are encouraged to consider the information presented in conjunction with the financial statements as a whole, which follow the MD&A.

The System is responsible for administering retirement, disability, and survivor benefits for Regular members (consisting of employees within the State of Nevada and local governments which include schools, counties, cities, special districts, etc.) as well as Police/Fire members throughout the state.

Overview of Financial Statements

The basic financial statements consist of: (1) the Statement of Fiduciary Net Assets, (2) the Statement of Changes in Fiduciary Net Assets, (3) the Notes to the Financial Statements, and (4) the Required Supplementary Information. Other supplementary information is also presented.

The **Statement of Fiduciary Net Assets** includes all of the System's pension trust fund assets, liabilities, and the net assets available at the end of the fiscal year.

The **Statement of Changes in Fiduciary Net Assets** reports additions to and deductions from the pension trust fund during the fiscal year presented. Over time the increase or decrease in net assets serves as a useful indicator of the health of the System's financial position.

The **Notes to the Financial Statements** provide additional information that is required by generally accepted accounting principles.

The **Required Supplementary Information** following the notes to the financial statements consists of schedules and related notes on the funding progress of the defined benefit pension plan, the funding progress broken down between Regular and Police/Fire members, and a short history of contributions from employers.

Other Supplementary Information details administrative expenses, investment expenses, consultant and professional service expenses, in addition to Schedules of Fiduciary Net Assets and Changes in Fiduciary Net Assets broken down between Regular and Police/Fire members.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Highlights

As of June 30
(in millions)

	2011	2010	2009
Total investments	$ 24,826.3	$ 20,516.4	$ 18,540.1
Net investment income (loss)	4,402.4	2,059.4	(3,543.4)
Contributions	1,393.3	1,408.3	1,334.8
Benefit payments	1,412.1	1,301.6	1,189.6
Refunds of contributions	24.8	20.3	18.6
Transfers of contributions	1.5	0.4	3.8
Administrative expenses	10.5	11.1	9.7
Net assets	$ 25,255.3	$ 20,906.3	$ 18,770.1
Percentage funded	70.2%	70.5%	72.5%

Financial Analysis

Total investments for fiscal year 2011 increased by 21.0% from 2010; there was an increase of 10.7% from 2009 to 2010. Commensurately, the percentage change in investment income between 2010 and 2011 resulted in a recovery of 113.8%. The PERS investment program outperformed its actuarial goal of 8.0% and the total return objective of 20.8%. The 9.7% annualized return since inception (27 years) exceeds the actuarial objective.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following are summary comparative statements of the System.

CONDENSED STATEMENT OF FIDUCIARY NET ASSETS

	As of June 30, 2011	As of June 30, 2010	As of June 30, 2009	Percentage Increase/ (Decrease) from 2010 to 2011
Cash and cash equivalents	$ 553,430,971	$ 389,957,314	$ 422,475,446	41.9 %
Receivables	203,843,591	203,958,252	189,054,729	(0.1)
Pending trades receivable	233,345,442	251,956,939	141,678,033	(7.4)
Investments, at fair value	24,826,265,268	20,516,359,658	18,540,091,760	21.0
Collateral on loaned securities, at fair value	3,550,013,175	2,942,675,281	1,760,287,271	20.6
Property and equipment, net	3,315,213	4,289,301	4,896,423	(22.7)
Other assets	2,120,259	2,053,010	1,962,283	3.3
Total assets	29,372,333,919	24,311,249,755	21,060,445,945	20.8
Accounts payable and accrued expenses	12,059,039	11,205,817	13,385,742	7.6
Pending trades payable	485,608,284	372,683,783	429,255,245	30.3
Obligations under securities lending activities	3,619,398,577	3,021,077,050	1,847,667,862	19.8
Total liabilities	4,117,065,900	3,404,966,650	2,290,308,849	20.9
Net assets held in trust for pension benefits	$ 25,255,268,019	$ 20,906,283,105	$ 18,770,137,096	20.8 %

While the investment portfolio is recovering, contributions decreased between 2010 and 2011 by 1.1% as compared to 2009 and 2010, which increased 5.5%. Breaking this down into its components reveals that employer contributions declined by 1.3% between 2010 and 2011. Employee contributions declined 2.7%. Nevada continues to lead the nation in unemployment and many public employers have left vacancies unfilled or laid off staff. These vacancies have caused overall contribution income paid to the System to decline. Repayments and purchases of service declined by 4.4% between 2009 and 2010 but increased 17.3% between 2010 and 2011.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CONDENSED STATEMENTS OF CHANGES IN FIDUCIARY NET ASSETS
For the Years Ended June 30,

	2011	2010	2009	Percentage Increase/ (Decrease) from 2010 to 2011
Contributions	$ 1,393,340,781	$ 1,408,288,940	$ 1,334,832,060	(1.1) %
Investment net income (loss)	4,402,393,135	2,059,377,798	(3,543,425,973)	113.8
Other income	2,189,511	1,931,123	2,430,401	13.4
Total additions	5,797,923,427	3,469,597,861	(2,206,163,512)	67.1
Benefit payments	1,412,115,819	1,301,633,191	1,189,620,073	8.5
Refunds of contributions	24,754,580	20,270,764	18,581,557	22.1
Transfer of contributions	1,488,115	429,264	3,791,831	246.7
Administrative expenses	10,471,805	11,118,417	9,710,115	(5.8)
Other expenses	108,194	216	4,348	-
Total deductions	1,448,938,513	1,333,451,852	1,221,707,924	8.7
Net increase (decrease)	4,348,984,914	2,136,146,009	(3,427,871,436)	103.6
Net assets, beginning of year	20,906,283,105	18,770,137,096	22,198,008,532	11.4
Net assets, end of year	$ 25,255,268,019	$ 20,906,283,105	$ 18,770,137,096	20.8 %

Refunds of contributions increased 22.1% between 2010 and 2011, compared to a 9.1% increase in refunds between 2009 and 2010. Members no longer employed in a position eligible for membership in the System, who are eligible for a refund, may apply for a refund of contributions, making this number unpredictable from year to year.

Benefit payments rose 8.5% between 2010 and 2011 as compared to an increase of 9.4% in 2010 from 2009. The increase in 2011 may largely be attributed to early retirement incentive programs offered by employers. These programs resulted in a significant number of eligible members retiring during the year.

Tranfers of contributions consist of contributions associated with judges who choose to transfer from PERS to the Judicial Retirement System (JRS). The percentage increase of transfers of contributions from 2010 to 2011 was 246.7%. Similar to refund requests, the transfers of members and associated contributions from PERS to JRS are unpredictable from year to year. For example, in fiscal year 2010 $0.4 million was transferred, while in fiscal year 2011 $1.5 million was transferred.

All of the above factors contributed to the fiscal year 2011 net assets held in trust for pension benefits increasing by 20.8% from 2010. The majority of this increase is due to the recovery of the financial markets. This is the second year in a row the System has increased its net assets.

STATEMENT OF FIDUCIARY NET ASSETS

June 30, 2011
(With Comparative Totals for June 30, 2010)

ASSETS	2011	2010
Cash and cash equivalents	$ 553,430,971	$ 389,957,314
Receivables:		
Contributions receivable	103,286,037	106,390,406
Pending trades receivable	233,345,442	251,956,939
Accrued investment income	100,557,554	97,567,846
Total receivables	437,189,033	455,915,191
Investments, at fair value:		
Fixed income securities	6,873,746,896	6,184,214,644
Marketable equity securities	10,059,148,942	7,833,430,243
International securities	5,921,962,844	5,069,365,796
Mortgage loans	1,761	4,378
Real estate	1,234,533,004	853,999,874
Private equity	736,871,821	575,344,723
Total investments	24,826,265,268	20,516,359,658
Collateral on loaned securities, at fair value	3,550,013,175	2,942,675,281
Property and equipment	36,187,465	35,321,293
Accumulated depreciation	(32,872,252)	(31,031,992)

Beginning of year	20,906,283,105	18,770,137,096
End of year	$ 25,255,268,019	$ 20,906,283,105

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – Summary of Significant Accounting Policies and Plan Asset Matters

Financial Reporting Entity

The Board is the governing body of the System with responsibility for administration and management. This autonomous, seven-member Board is appointed by the Governor of the State of Nevada.

The System has developed criteria in accordance with standards issued by GASB to determine whether other state agencies, boards, and commissions, which benefit the members of the System, should be included within its financial reporting entity as component units. A component unit is defined as a legally separate organization for which officials of the System are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with the System are such that exclusion would cause the System's financial statements to be misleading or incomplete.

In accordance with GASB, the following criteria are used when evaluating financial accountability: The ability of the System to appoint a voting majority of the organization's governing body and (1) the ability to impose its will on the other organization or (2) the potential for the organization to provide specific financial benefits to or impose specific financial burdens on the System. In addition, the System may be financially accountable if an organization is fiscally dependent on the System regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board.

The System has no relationship with another entity that meets the above criteria and has not included any other entity as a component unit of its financial reporting entity.

The System is classified as a component unit of the State of Nevada for financial reporting purposes in accordance with the provisions of GASB because the State Legislature retains certain significant governing powers over the System.

Basis of Accounting

The System uses the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded in the accounting period in which they are earned and become measurable. Per statute, employee and employer contributions are recognized in the reporting period for which they are due. Expenses are recorded when the corresponding liabilities are incurred, regardless of when payment is made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Unfunded portions of actuarially determined liabilities for retirement benefits are not recorded in the financial statements.

Organization

The System is comprised of two sub-funds.

> Regular sub-fund – Established to provide retirement, disability, and survivor benefits for public employees with the exception of those who are police officers or firefighters.

NOTES TO FINANCIAL STATEMENTS

Police/Fire sub-fund – Established to segregate accounting for benefits related to members who are police officers or firefighters.

Assets of the System can legally be used to pay both Regular or Police/Fire beneficiaries.

Cash, Cash Equivalents, and Derivatives

Cash and cash equivalents (other short-term investments) include cash on deposit and highly liquid financial instruments with original maturities of one year or less.

Derivatives are instruments (securities or contracts) whose value is dependent on such things as stock or bond prices, interest rate levels or currency exchange rates, and are reported at fair value. The types of derivatives used and limits on their use are defined in the System's Investment Objectives and Policies. Only foreign currency forward contracts are permitted to reduce foreign currency risk. All other derivatives are prohibited within the Fund.

Contributions Receivable

No allowance for doubtful accounts has been established since the System anticipates no material collection loss with respect to contribution receivables.

Benefits Payable

Benefits are paid during the month they are due; therefore, no benefit payable is recorded each month or at year-end.

Federal Income Tax

The System is a qualified pension plan under Section 401a of the Internal Revenue Code (IRC) and, as such, is required to withhold federal income tax from member and benefit recipient payments in accordance with IRC. As a public entity, the System is not required to file a federal income tax return with the Internal Revenue Service.

Investments

The Regular sub-fund and the Police/Fire sub-fund are accounted for separately, based upon actual funds contributed and an allocation of the combined investment earnings. Individual investments are not specifically identified as belonging to either the Regular sub-fund or the Police/Fire sub-fund.

Plan investments are reported at fair value. Fair value is defined as the price at which an asset passes from a willing seller to a willing buyer. It is assumed that both buyer and seller are rational and have a reasonable knowledge of relevant facts. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. The fair value of real estate investments is based on estimated current values and Member Appraisal Institute (MAI) independent appraisals. For private equity partnership investments, estimated fair value is determined in good faith by the general partner of the respective investment partnership. In addition, each partnership undergoes an independent audit on an annual basis.

NOTES TO FINANCIAL STATEMENTS

Investment purchases and sales are recorded as of the trade date. Dividend income is recognized on the ex-dividend date. Investment income is recognized as earned. Net appreciation (depreciation) is determined by calculating the change in fair value of investments between the beginning of the fiscal year and the end of the fiscal year, less purchases of investments at cost, plus sales of investments at fair value.

There are certain market risks, credit risks, foreign exchange currency risks, or event risks which may subject the System to economic changes occurring in certain industries, sectors, or geographies.

The System's investment assets in the Investment Section are presented on the same basis of accounting described here except that assets in the Investment Section exclude unrealized gains/losses related to securities lending. Unrealized losses from securities lending cash collateral investment activities in certain securities, including Lehman Brothers Holdings Inc., have been recognized on the financial statements. However, securities lending management and performance practice is for the loss to be recorded upon the settlement of the impaired asset, which in the case of Lehman Brothers Holdings Inc. will be upon completion of bankruptcy proceedings. In addition, during fiscal year 2009, the System created a securities lending reserve account funded by securities lending income earned during the year. This reserve will be used to mitigate losses upon settlement.

Property and Equipment

Property and equipment consists of furniture, equipment, computer hardware, and software at cost with accumulated depreciation. Assets are capitalized when the expected life is greater than one year and the initial cost is $5,000 or more per unit. Intangible assets are capitalized for the development stage only (design, configuration, installation, and testing). Depreciation is calculated using the straight-line depreciation method over five years. The term "depreciation" includes amortization of intangible assets.

Administrative Expenses

The funds for administering the System are provided by assessment of an administrative fee for each member and benefit recipient. Monthly fees at June 30, 2011, were $3.10 for each Regular member and benefit recipient and $3.27 for each Police/Fire member and benefit recipient. PERS is required by statute to submit a biennial budget proposal to the Budget Division of the State of Nevada, which must be incorporated with the State Executive Budget and approved by the Nevada Legislature.

Financial Statement Presentation

Comparative data shown for the prior year has been extracted from the June 30, 2010, financial statements. Securities lending income and expense have been reclassified for comparability with fiscal year 2011. Fiscal year 2010 data has been presented to facilitate financial analysis but is not considered full disclosure of transactions for that year.

The System accounts for securities using the "country of issue" methodology. Under this methodology, regardless of the manager's directive, if a manager invests funds and the underlying country of issue for the security is not the United States, then the security is classified as international.

NOTES TO FINANCIAL STATEMENTS

New Accounting Pronouncement

During the year ended June 30, 2011, the System adopted GASB Statement No. 59, Financial Instruments Omnibus, which was issued to update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments.

NOTE 2 – Plan Description

History and Purpose

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earning capacities have been removed or substantially impaired by age or disability.

Membership

At June 30, 2011, the number of participating public employers and active members were:

Entity Type	Number of Employers	Number of Members
State of Nevada and Related Agencies	21	16,848
University of Nevada System	2	3,668
Schools	45	45,677
Counties	16	12,163
Cities	19	8,871
Hospitals	7	3,917
Utility, Irrigation, and Sanitation Districts	19	747
Special Districts and Agencies	52	8,020
	181	99,911

Please see pages 110-112 for a complete list of participating employers.

NOTES TO FINANCIAL STATEMENTS

Any public employer in the State of Nevada may have its Regular or Police/Fire employees covered by the System. Retired, active, and inactive membership at June 30 was as follows:

	2011	2010
Regular retired members:		
Service retirees	36,123	34,047
Beneficiaries and survivors	4,552	4,353
	40,675	38,400
Police/Fire retired members:		
Service retirees	5,136	4,794
Beneficiaries and survivors	767	725
	5,903	5,519
Total benefit recipients	46,578	43,919
Inactive members:		
Regular	11,931	11,167
Police/Fire	701	640
Total inactive members	12,632	11,807
Active members:		
Regular	87,975	90,219
Police/Fire	11,936	12,375
Total active members	99,911	102,594
Total retired, active, and inactive membership	159,121	158,320

Benefits

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for Regular members are computed at 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. However, for members entering the System on or after January 1, 2010, there is only a 2.5% multiplier. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

NOTES TO FINANCIAL STATEMENTS

Post-retirement increases are provided by authority of NRS 286.575–.579. See Note 3 on page 37 for detail.

Vesting

Regular members are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with ten years of service, or any age with thirty years of service.

Police/Fire members are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefit allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Member Contributions

The authority for establishing and amending the obligation to make contributions, and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer-pay contributions only. Under the matching Employee/Employer Contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions which have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. If EPC was elected, the member cannot convert to the Employee/Employer Contribution plan.

Termination

Upon termination or partial termination from the System, all accrued benefits that are funded become 100% vested and nonforfeitable.

Additional Plan Information

See Plan Summary beginning on page 117 for additional information.

NOTE 3 – Contributions Required and Contributions Made

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

NOTES TO FINANCIAL STATEMENTS

Although the System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis, contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary. As of June 30, 2011 (date of the most recent actuarial valuation), the System's funded status (in millions) is as follows:

Actuarial Valuation Date June 30	Actuarial Value of Assets (AVA)	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (UAAL)	Ratio of AVA to AAL	Annual Covered Payroll	UAAL as a % of Annual Covered Payroll
2011	$ 25,871.1	$ 36,876.2	$ 11,005.1	70.2%	$ 5,214.6	211.0%

See Required Supplementary Information (RSI) on page 46 for a 10-year schedule of funding progress. This schedule indicates how the actuarial values of plan assets have increased or decreased over time, relative to the actuarial accrued liability (AAL) for benefits.

The unfunded actuarial accrued liability is amortized using a year-by-year closed amortization period where each amortization period is set at 30 years. This presumes each year's change in unfunded liability will be fully paid 30 years from inception.

Fiscal year 2011 employer contributions required and contributions made were as follows:

Actuarial Valuation Date June 30	Regular		Police/Fire		Total	
	Annual Required Contribution	Percentage Contributed	Annual Required Contribution	Percentage Contributed	Annual Required Contribution	Percentage Contributed
2011	$ 1,057,566,978	89%	$ 372,888,833	88%	$ 1,430,455,811	88%

See RSI on page 47 for a 10-year schedule of employer contributions.

NOTES TO FINANCIAL STATEMENTS

Actuarial Information

The funding progress and employer contribution information presented above and in the RSI schedules were determined as part of the actuarial valuations at the date indicated. Additional information as of the latest actuarial valuation for the System follows:

Valuation date		June 30, 2011
Actuarial cost method		Entry age normal
Amortization method		Level percent of payroll over a year-by-year closed amortization period where each amortization period is set at 30 years
Asset valuation method		5-year smoothed market limited to not less than 70% or greater than 130% of market value of assets
Actuarial assumptions:		
Investment rate of return		8.0%
Assumed inflation rate		3.5%
Projected salary increases:	Regular	4.5% - 9.75%
	Police/Fire	6.5% - 14.75%
Assumed payroll growth rates:		
	Regular	6.5%
	Police/Fire	8.0%
Post-retirement benefit increases		For members with an effective date of membership before January 1, 2010: Members who retired during 1992 and earlier are assumed to receive 3.5% increases per year. Those retiring later are assumed to receive the increases below. 2.0% per year compounded following the third anniversary of benefit commencement; 3.0% per year compounded following the sixth anniversary; 3.5% per year compounded following the ninth anniversary; 4.0% per year compounded following the twelfth anniversary; 5.0% per year compounded following the fourteenth anniversary;

NOTES TO FINANCIAL STATEMENTS

3.5% per year compounded following the twenty-fourth anniversary.

For members with an effective date of membership on or after January 1, 2010:

2.0% per year compounded following the third anniversary of benefit commencement;
3.0% per year compounded following the sixth anniversary;
3.5% per year compounded following the ninth anniversary;
4.0% per year compounded following the twelfth anniversary;
3.5% per year compounded following the thirty-eighth anniversary.

Underlying this assumption is that CPI will grow over time at a rate of 3.50% per year.

For the fiscal year ended June 30, 2011, the System experienced an investment return of 21.1%. The actuarial valuation of assets is determined by smoothing the asset gain or loss over a five-year period. Effective with the June 30, 2009 valuation, assets were valued using five-year smoothing of investment gain/loss limited to not less than 70% or greater than 130% of the market value of assets.

Rates in effect for fiscal year ended June 30, 2011, were as follows:

Regular Employees	Funding Basis*	Statutory Rate
Employer-pay plan	23.63%	21.50%
Employee/employer plan (matching rate)	12.26	11.25
Police/Fire Employees		
Employer-pay plan	39.77%	37.00%
Employee/employer plan (matching rate)	20.27	19.00

* From June 30, 2010 actuarial valuation

For fiscal year 2011 contributions totaling $1,393,340,781 ($1,264,759,603 employer and $128,581,178 employee) were made in accordance with statutory rates.

The Public Employees' Retirement Act requires an adjustment in the statutory contribution rates on July 1 of each odd-numbered year, based on the actuarially determined rates indicated in the actuarial valuation report for the immediately preceding year. Rates are only adjusted upward if the new rates are more than 0.50% higher than the existing rate for Employer-Pay and more than 0.25% higher for Employee/Employer. Rates are only adjusted downward if the new rates are more than 2.00% lower than the existing rate for

NOTES TO FINANCIAL STATEMENTS

Employer-Pay (and adjusted only by the amount in excess of 2.00%) and more than 1.00% lower than the existing rate for Employee/Employer (and adjusted only by the amount in excess of 1.00%). Rates are rounded to the nearest 0.25% of payroll.

Under the Employer-Pay provisions the contributions made by employers on behalf of employees are not credited to the member's account and are not refunded upon termination. For employees covered by the Employer-Pay provisions average compensation is increased by half the total contribution made by the public employer and may not be less than it would have been if contributions had been made by the member and the employer separately.

The Judicial Retirement System (JRS) was established in 2001 to provide benefits for the retirement, disability, or death of all justices of the Supreme Court and district judges. In fiscal year 2006 justices of the peace and municipal court judges began participating in JRS on a voluntary, employer-by-employer basis. Each participating individual who has service credit in PERS may transfer, subject to statutory time frames and requirements, to JRS. At the time of transfer all of the individual's contributions and the related liability to the System for that individual are moved from PERS to JRS.

NOTE 4 – Retirement Fund Contributions of PERS' Employees

Administrative employees of PERS (as a participating employer) are members of the System. All participating public employers make contributions to the System at the same percentage of salary rate for Regular members as required by statute. Actuarially determined contribution requirements for administrative employees of the System are the same as all other employers within the System (see Note 3). Employer contributions for administrative employees were $673,006 for the year ended June 30, 2011.

NOTE 5 – Deposit and Investment Risk Disclosures

The investments of the System are governed primarily by the "prudent person" standard. The prudent person standard, as set forth in NRS 286.682, authorizes the Board to invest the System's funds in "every kind of investment which persons of prudence, discretion and intelligence acquire or retain for their own account." Additionally, the System has established limits on the concentration of investments in any single issuer or class of issuer or managed by a single investment firm.

The majority of the System's investments are held by the Depository Trust Company (DTC) in DTC's nominee name, and trading is conducted through DTC's book-entry system. The holder of record for the System is The Bank of New York Mellon.

Custodial Credit Risk – Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of its depository financial institution, the System will not be able to recover its deposits.

At June 30, 2011, the carrying amount of the System's commercial cash deposits was $4,811,207 and the commercial bank balance was $10,840,051. Of the bank balance, $250,000 was insured by the Federal Deposit Insurance Corporation (FDIC). The remaining commercial bank balance is, per a depository pledge agreement between the System and the System's commercial bank, collateralized at 102% of the

NOTES TO FINANCIAL STATEMENTS

collected funds on deposit (increased by the amount of accrued but uncredited interest, reduced by deposits covered by FDIC). These collateral securities are held by the System's agent in the System's name.

Custodial cash is swept nightly from the custodial bank to an overnight short-term investment fund held outside the bank. Funds arriving at the bank after the overnight sweep deadline are part of the custodial bank cash reserve and are covered up to the FDIC limit, any amount in the cash reserve in excess of this limit is subject to custodial credit risk.

The custodial bank also carries insurance covering destruction of cash or securities on or off premises (including securities or others held in custody) with a limit of $850,000,000.

Credit Risk – Investments

Credit risk for investments is the risk that an issuer or other counterparty will not fulfill its obligations to the System and *custodial credit risk for investments* is the risk that, in the event of the failure of the counterparty to a transaction, the System will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

System policies provide protection from undue investment credit risk as follows:

- Investment in commercial paper provided it, or the guarantor, is rated A1, F1, and P1 or the equivalent by at least two of the following: Moody's, Standard & Poor's, or Fitch.

- Certificates of deposit, banker's acceptances, and time deposits are only allowed of banks with a minimum of $10 billion in bank capital which have a quality rating of A-, A3, or better by at least two of Moody's, Standard & Poor's, or Fitch.

- Repurchase agreements with banks or dealers provided the agreement is collateralized by 102% with U.S. Treasuries or Government Sponsored Enterprise (GSE) mortgages and such collateral is delivered to the System's bank or its correspondent.

- Money market mutual funds must be SEC registered 2(a)–7 and AAA rated by at least two of Moody's, Standard & Poor's, or Fitch and whose investment guidelines are substantially equivalent to and consistent with the System's overall short-term investment criteria.

- Bonds and notes of United States corporations and asset-backed instruments must have an investment grade rating by at least two of Moody's, Standard & Poor's, or Fitch (BBB- or better by Standard & Poor's/Fitch, Baa3 or better by Moody's). Asset-backed instruments may also be warranted by counsel to be of equivalent credit quality.

- Debt issued in the United States by foreign entities located in countries in the Citigroup Non-Dollar Government Bond Index is authorized provided both interest and principal are payable in U.S. dollars and such debt is rated investment grade by at least two of Moody's, Standard & Poor's, or Fitch (BBB- or better by Standard & Poor's/Fitch, Baa3 or better by Moody's).

NOTES TO FINANCIAL STATEMENTS

- To Be Announced (TBA) mortgage transactions are utilized to provide access to mortgage securities. Sufficient short-term investments must be available at all times to settle TBA transactions. Determination of broker creditworthiness and reliability is the responsibility and liability of counsel. Outstanding TBA positions with a single broker may not exceed 10% of each counsel's portfolio.

Regarding U.S. Government securities, the System carries two types, U.S. Treasury and Government Sponsored Enterprise (GSE or agency) securities. There is no risk assigned to the U.S. Treasury securities (such as Government National Mortgage Association and Small Business Administration securities) as these are explicitly guaranteed by the U.S. Government. During 2008 Federal National Mortgage Association and Federal Home Loan Mortgage Corporation were placed under conservatorship. Such government intervention secures the repayment of debt and guaranteed loans which in turn reduces systemic risk. Under the conservatorship the Federal Housing Finance Agency (FHFA) takes over the assets of and operates these entities with all of the powers of the shareholders, the directors, and the officers and conducts all business including authorizing the payment of valid obligations as outlined in the Housing and Economic Recovery Act of 2008. It is important to note, however, that the value of agency-issued securities like these fluctuate based on non-credit-related factors, such as interest-rate movements, which could cause future price declines despite government backing.

The System invests in a variety of investment securities. Investment securities by their nature are exposed to various risks such as interest rate, market, and credit risks.

QUALITY RATING

Investment Type (in millions)	**AAA**	**AA**	**A**	**BBB**	**BB**	**Not Rated**	**Total**
Cash equivalents	$ -	$ -	$ -	$ -	$ -	$ 499.4	$ 499.4
Asset-backed securities	43.8	3.8	2.0	0.2	-	2.7	52.5
Collateralized mortgage obligations	123.8	22.4	18.4	28.1	1.2	24.7	218.6
Corporate bonds and other	61.7	211.7	759.9	518.4	27.6	9.8	1,589.1
Non-U.S. markets	159.9	90.7	126.4	111.1	-	1,101.4	1,589.5
U.S. Government*	17.4	0.9	7.5	-	-	2,982.4	3,008.2
Total	$ 406.6	$ 329.5	$ 914.2	$ 657.8	$ 28.8	$ 4,620.4	$ 6,957.3

The above table does not include commercial cash of $4.8 million and cash in custodial of $36.4 million.

*Quality Ratings of agency securities have been provided by the System's custodial bank, The Bank of New York Mellon. In addition, the System holds $2,170.7 million in Treasury securities which are explicitly guaranteed by the U.S. Government.

Concentration of credit risk is the risk of loss attributed to the magnitude of the System's investment in a single issuer. System policy limits corporate short-term investments of any of the System's counsels to 5% of a single issuer. Each counsel's portfolio shall be suitably diversified as to assets with any single issuer (except U.S. Government obligations) or class of issuers so that an adversity affecting a particular sector will not impact a substantial share of the total portfolio.

System policy further requires bond portfolios to be suitably diversified as to assets with any single issuer (except Government Agency or Government Sponsored Enterprise-guaranteed obligations) or class of issuers so that an adversity affecting a particular sector will not impact a disproportionate share of the bond

NOTES TO FINANCIAL STATEMENTS

portfolio. Corporate issuers are limited to 5% per issuer and asset-backed, commercial mortgage-backed, and private label mortgage-backed securities are limited to 5% per issuer.

Equity portfolios shall be suitably diversified to the extent that an adversity affecting a particular sector or issuer will not impact a disproportionate share of counsel's portfolio. No more than 10% of counsel's portfolio shall be invested in any one security.

In addition, no more than 10% of the System's assets shall be managed on a permanent basis by a single investment firm in active strategies. A single firm may manage up to 25% of the System's assets on a permanent basis in index strategies. No asset manager may oversee more than 25% of the System's assets. The System's assets shall not permanently constitute more than 20% of any firm's assets within the asset class (equity, bonds, real estate, or private equity) managed for PERS.

No individual asset exceeded 5% of the total portfolio during the fiscal year.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment or a deposit. The System mitigates interest rate risk through portfolio diversification as discussed previously. The System's investment policy and investment portfolio counsel mandates permit investment in all securities within the Barclays Aggregate Index.

If securities purchased are outside the Barclays Aggregate Index (except those issued or guaranteed by the U.S. Government or its agencies or instrumentalities), they must be of investment grade rating by at least two of the following: Moody's, Standard & Poor's, or Fitch (BBB- or better by Standard & Poor's/Fitch, Baa3 or better by Moody's).

The actual years to maturity method is used to determine investment maturity time horizons. The following table shows the fair value of fixed income and short-term securities and the applicable investment maturities as of June 30, 2011.

INVESTMENT MATURITIES
(in years)

Investment Type (in millions)	**Less than 1**	**1 to 5**	**6 to 10**	**More than 10**	**Total**

Total	$ 667.4	$ 3,101.9	$ 1,539.8	$ 3,818.9	$ 9,128.0

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The System mitigates foreign currency risk through portfolio diversification as

NOTES TO FINANCIAL STATEMENTS

discussed previously. Foreign currency forward contracts are allowed by System policy for purposes of hedging, including cross currency hedges. Leverage and highly speculative positions in currency are not permitted.

The System's exposure to foreign currency risk in U.S. dollars as of June 30, 2011, is summarized in the following table.

CURRENCY BY INVESTMENT AND FAIR VALUE
(in millions)

Currency Type	Fixed Income	Equity	Derivatives	Cash	Total
Australian Dollar	$ 13.9	$ 285.1	$ 0.3	$ 0.4	$ 299.7

Total	$ 1,251.4	$ 3,816.2	$ (3.7)	$ 27.0	$ 5,090.9

Derivatives

Foreign exchange forward contracts are periodically employed by the System to hedge currency risk of investments in foreign currencies. No other derivatives are permitted within the System's portfolio.

Generally, derivatives are subject both to market risk and to counterparty risk. The derivatives utilized by the System typically have no greater market risk than their physical counterparts and, in many cases, are offset by exposures elsewhere in the portfolio. *Counterparty risk*, the risk that the "other party" to a contract will default, is managed by careful screening of counterparties.

Derivative securities are priced and accounted for at fair value. Foreign exchange forward contracts are valued at the price at which the transaction could be settled by offsets in the forward markets.

NOTES TO FINANCIAL STATEMENTS

The System's derivative transactions for fiscal year 2011 are summarized in the following table.

FOREIGN EXCHANGE CONTRACTS
For Year Ended June 30, 2011

Currency	Purchases	Realized Gain / Loss	Sells	Realized Gain / Loss	Total Realized Gain / Loss
Australian Dollar	$ 13,853,992	$ 55,280	$ (121,607,674)	$ (157,613)	$ (102,333)

Total	$ 587,482,001	$ 192,146	$ (1,450,020,421)	$ (3,308,548)	$ (3,116,402)

The System's pending derivative transactions as of June 30, 2011, are summarized in the following table.

FOREIGN EXCHANGE CONTRACTS
Pending as of June 30, 2011

Currency	Purchases	Unrealized Gain / Loss	Sells	Unrealized Gain / Loss	Total Unrealized Gain / Loss
British Pound Sterling	$ -	$ -	$ (1,125,315)	$ 28	$ 28
Danish Krone	196,667	(5)	-	-	(5)
Euro	3,591,998	(149)	(362,561)	(693)	(842)
Japanese Yen	-	-	(4,650,093)	24,062	24,062
Total	$ 3,788,665	$ (154)	$ (6,137,969)	$ 23,397	$ 23,243

Management believes that it is unlikely that any of the derivatives in the System's portfolio could have a material adverse effect on the financial condition of the System. In addition, the credit, market, or legal risks are not above and beyond those risks apparent by the nature of the type of investment for any of the securities contained within the portfolio.

NOTES TO FINANCIAL STATEMENTS

Securities Lending

The System maintains a securities lending program by authorization of NRS 286.682, the “prudent person” standard previously described. Securities loaned under this program consist of U.S. Treasury Obligations, corporate fixed income securities, international fixed income securities, equity securities, and international equity securities. Collateral received consists of cash and securities issued by the U.S. Government, its agencies, or instrumentalities. The System has no discretionary authority to sell or pledge collateral received.

At June 30, 2011, the weighted average maturities were 4 days for loans outstanding and 27 days for collateral/reinvestments. Collateral received for the lending of U.S. securities must equal at least 102% of market value, plus accrued interest in the case of fixed income securities. Collateral received for the lending of international securities must equal at least 105% of market value, plus accrued interest in the case of fixed income securities. In accordance with the System’s Investment Objectives and Policies, the securities lending agent is authorized to invest collateral only in high quality, short-term investment vehicles. Risk exists if short-term investment vehicles permanently lose value to the extent they fall below the value of loan collateral.

The System has no credit risk exposure to borrowers, because the amount the System owes the borrowers exceeds the amount the borrowers owe the System. At June 30, 2011, the System had collateral, on an operational basis, of 103%. Collateral consisted of cash and securities issued by the U.S. Government, its agencies, or instrumentalities. In addition, securities loaned may not exceed 33⅓% of the total portfolio. Loss indemnification due to borrower default is provided by agents. There were no losses during the period resulting from borrower default.

The fair value of securities loaned at June 30, 2011, was $3,515,968,584. Cash collateral received in securities lending arrangements is reported on the Statement of Fiduciary Net Assets as an asset with a related liability.

NOTE 6 – Commitments and Contingencies

The System has entered into investment funding commitments related to private markets to fund an additional $642.2 million at some future date.

NOTE 7 – Risk Management

The System is exposed to various risks of loss related to theft of, damage to, and destruction of assets; injuries to employees; and court challenges to fiduciary decisions. To cover these risks, the System maintains commercial building and contents insurance, vehicle liability and collision/comprehensive insurance, general liability insurance, worker’s compensation insurance, and employee fidelity bonds. For coverage included within the State of Nevada’s policies (all but worker’s compensation and building/contents insurance), the System pays its premium directly to the State. The System’s worker’s compensation and building/contents insurance are placed with private insurance companies. There have never been any insurance settlements which exceeded insurance coverage.

	Regular	Police/ Fire	Regular	Police/ Fire	Regular	Police/ Fire
2002	$2,433.8	$773.7	84.6%	143.3%	83.5%	78.1%
2003	2,612.5	1,045.2	85.9	188.2	83.2	73.9
2004	3,306.5	1,248.6	103.3	203.6	80.5	71.7
2005	4,252.0	1,470.2	124.9	222.8	77.3	69.8
2006	4,778.0	1,679.1	131.0	234.0	76.5	68.9
2007	4,615.8	1,696.8	116.0	214.4	78.8	71.1
2008	5,363.0	1,895.2	123.8	219.4	77.7	70.8
2009	6,929.3	2,173.9	155.1	240.1	73.4	68.9
2010	7,950.5	2,401.8	178.4	264.5	71.2	67.8
2011	8,514.1	2,491.0	196.5	282.4	70.6	68.4

Trends are affected by investment experience (favorable or unfavorable), salary experience, and changes in demographic characteristics of employees as well as the distribution of employees under Employer-Pay and Employee/Employer contribution provisions. Other factors include retirement experience. For example, the number of service retirements could be greater or less than expected for those with shorter or longer service. Changes in benefit provisions and in actuarial methods and assumptions also affect trends.

September 28, 2011

Dear Reader:

Callan Associates is pleased to report on the investment activity for the Public Employees' Retirement System of Nevada (PERS) for the fiscal year ending June 30, 2011.

Fiscal year 2011 was a great year for the publicly traded asset classes. The U.S. and international equity markets posted gains of 30.7% and 30.4% respectively. The broad fixed income market also performed well (up 3.9%).

The asset allocation policy for fiscal year 2011 remained unchanged; 40% Domestic Equity, 15% International Equity, 30% Domestic Fixed Income, 5% International Fixed Income and 10% Private Markets.

For the fiscal year, the total Fund returned 21.1% - exceeding the benchmark return of 20.8% and slightly lagging the return of the median large pension fund. This represented the best fiscal year return in 25 years. For the period, the Fund beat the 8% actuarial return assumption by 13.1% and continues to exhibit a lower risk profile than peers.

The Fund's 5-year return was 4.8%, also above the benchmark return of 4.4%. Longer-term results remain competitive and the return for the past 27 years is above the actuarial return assumption.

A conservative and consistent investment strategy has produced attractive risk-adjusted returns over the years. PERS' risk adjusted return is better than 83% of other public funds of similar size over the past 27 years.

We welcome any comments or questions regarding the investment activity of PERS for the 2011 fiscal year.

INVESTMENT REVIEW

Introduction

The investment program is designed to generate an 8% long-term return while minimizing risk. The structure and administration of the portfolio is defined by the prudent person standard. The standard states that the Board may invest the System's funds in every type of investment which persons of prudence, discretion, and intelligence acquire or retain for their own account under similar circumstances. The Board's investment philosophy centers on time tested investment principles such as maintaining consistent exposure to the capital markets, buying assets at lower prices and selling them at higher prices through faithful rebalancing, and keeping costs low by utilizing index management. Developing a sound long-term investment strategy and faithfully adhering to that strategy in both strong and weak market environments has been a key element in the fund's success.

The System's Investment Objectives and Policies detail the fund's long-term investment goals, management responsibilities, return/risk expectations, and monitoring requirements. These policies are subject to change at any time by the Board and are reviewed thoroughly at least annually to ensure that they continue to reflect the System's expectations.

Objective

The investment objective of the System is to:

- Generate an 8% long-term investment return which exceeds the rate of inflation (CPI) by 4.5% by capturing market returns within each asset class.

- Invest so that the short-term volatility of returns will not cause the System to alter its long-term strategy.

- Structure an investment program which is sufficiently uncomplicated to control the ability to consistently meet return and risk objectives.

Chart 1, on page 60, demonstrates that the investment portfolio, over the last ten years, has captured the blended real return (inflation) objective in six of those years. The objective was CPI + 3.0% until September 30, 2000; CPI + 3.5% from October 1, 2000 through September 30, 2002; CPI + 3.75% from October 1, 2002 through September 30, 2003; and CPI + 4.5% thereafter. Chart 2, on page 60, details annualized returns for long-term periods ended June 30, 2011. The System achieved the blended market objective for the 1, 3, 5, 10, and 25-year periods. The System's 21.1% return for fiscal year 2011 was influenced by above average returns from U.S. and non-U.S. stocks.

The recent financial crisis has been the catalyst for some of the most volatile markets in history. In this environment, PERS was quite competitive versus other large public pension plans ranking in the top 32% for return and the bottom 32% for risk. Generating returns in the top of the peer group while experiencing less volatility than the majority of those same investors is a testament to the effectiveness of the Retirement Board's investment strategy. An analysis of asset class results versus the markets is included on pages 66-68.

Note: Inception on Chart 2 refers to July 1, 1984, the date the System began calculating total return versus annual yield. For all other charts, inception refers to the point at which the System began including that particular investment vehicle in the portfolio.

Asset Allocation

Asset allocation is the most significant factor influencing the risk and return of the investment program. Since inception 98% of the System's investment performance is explained by asset allocation. Determination of the fund's long-term asset allocation involves estimating the expected return and risk of major types of investments and blending them into a portfolio which meets the System's risk/return objectives.

To establish an appropriate long-term asset allocation strategy, the Board evaluates expected return and risk for each of the major asset types (stocks, bonds, private markets). These asset classes are then combined in the most efficient manner possible to construct a portfolio that matches the risk and return needs of the fund. By diversifying the System's investments in multiple asset classes the Board is able to reduce the volatility of annual investment earnings. The Board reviews capital market expectations and asset allocation annually. In addition, the Board employs a disciplined rebalancing policy to profit from market volatility and to ensure the portfolio's exposures are consistent with the System's long-term asset targets.

The long-term target allocation for the fund as of June 30, 2011, was 30% U.S. Fixed Income, 40% U.S. Equity, 5% International Fixed Income, 15% International Equity, and 10% Private Markets. The June 30, 2011, actual asset class allocation is shown in Chart 3, page 61.

Diversification

After the asset allocation strategy is established, the Board implements a portfolio management structure that is designed to capture the market objective in each asset class. The portfolios are diversified by strategy and investment management. For example, in U.S. stocks, management categories include active and index approaches, as well as value and growth styles. Within the U.S. stock portfolio, seven investment firms are employed that utilize different stock selection approaches. This diversification of strategies is expected to reduce return volatility.

Similar diversification measures are utilized throughout the fund. The System's overall portfolio is well diversified by asset class, investment structure, and individual security. The System's portfolio currently holds over 5,000 individual securities from 30 different countries.

Chart 4, on pages 62-63, shows the market value of the assets under management by investment type, category, and manager. A list of the ten largest Equity and Fixed Income holdings based on fair market value at June 30, 2011, is included in Chart 5 on page 64. A complete list of security holdings is available upon request.

Investment Class Objectives

In order to achieve the total fund objectives, each asset type is assigned return objectives (listed below). Progress toward those benchmarks is closely monitored.

U.S. Equity	-	Produce a total return that captures the Standard & Poor's 500 Common Stock Index over rolling 10-year periods with commensurate volatility.

International Equity	-	Produce a total return that captures the unhedged Morgan Stanley Capital International Europe, Australia, Far East (MSCI EAFE) Index over rolling 10-year periods with commensurate volatility.
U.S. Fixed Income	-	Produce a total return that captures the Barclays Aggregate Index over rolling 10-year periods with commensurate volatility.
International Fixed Income	-	Produce a total return that captures the Citigroup Non-Dollar Government Bond Index over rolling 10-year periods with commensurate volatility.
Private Markets	-	Produce a total return that captures the blended return (based on PERS actual allocation) of: the National Council of Real Estate Investment Fiduciaries (NCREIF) Property Index -0.75%, and S&P 500 Index + 4% over rolling 10-year periods with commensurate volatility.

Each of the System's investment managers agrees to a performance benchmark which, when all the benchmarks in an investment class are combined, is expected to produce the class objective.

Investment Performance

The System's investment consultant calculates performance for the total fund, each asset class, and individual investment management firms employed by the Board. Performance calculations are prepared using time-weighted rate of return based on market values. Returns in this report are gross of fees.

Chart 6, shown on page 65, shows a year-by-year comparison of how the total fund and each investment class compared with its corresponding objective.

Charts 7-10, on pages 66-67, compare 1, 3, 5, 10-year, and since-inception returns for each asset class to the corresponding objective for periods ended June 30, 2011.

Chart 11, on page 68, shows Private Markets returns for the fiscal year ended June 30, 2011, compared to since-inception returns using a blended objective.

The U.S. Equity portfolio outperformed the market objective during fiscal year 2011 and has exceeded its market objective for the 3, 5, and 10-year periods. The Board has implemented a portfolio structure that combines active and index management. This structure controls risk versus the index and enables the fund to employ fewer active managers with larger portfolios. This approach keeps costs low and prevents dilution of the active management positions. Four of the six active managers in the program have worked with PERS for over 10 years; this consistency has contributed to competitive results in the past decade.

Due to the emphasis on index management, the International Equity portfolio's 1-year return met the market objective. The asset class remains below the market objective for the 3, 5, and 10-year periods and has outperformed since inception. Two active international stock managers were retained during fiscal year 2011 to replace the two enhanced quantitative strategies which were terminated during the prior fiscal year.

U.S. Fixed Income performed well during fiscal year 2011 as interest rates continued to decline. While long-term performance remains slightly below the market since inception, returns over short-term periods are above the market objective. All three current active managers are over their benchmarks since inception.

The International Fixed Income portfolio experienced strong returns during fiscal year 2011 and captured the market objective. The portfolio has added value since inception versus the index but has not captured the market for medium term periods. This portfolio was restructured to 100% index management three years ago, so returns are expected to closely track the markets going forward.

The Private Markets portfolio has 7 ¾ years of performance history as an asset class and has captured its objectives in all time periods except the most recent fiscal year. The private equity portfolio is compared to a public stock benchmark (the S&P 500 index + 4%), which introduces year to year volatility into the comparison due to differences in the timing of pricing assets in public and private markets.

This report has been prepared in conjunction with the System's investment consultant, Callan Associates.

Objectives
U.S. Equity – S&P 500
Int'l Equity – MSCI-EAFE
U.S. Fixed Income – Barclays Aggregate
Int'l Fixed Income – Citigroup Non-U.S. Government
Real Estate – NCREIF -0.75%
Private Markets – Portfolio weighted blend of NCREIF -0.75% and S&P 500 + 4%

Total Fund:
Until September 30, 2000 – CPI + 3%
October 1, 2000 – September 30, 2002 – CPI + 3.5%
October 1, 2002 – September 30, 2003 – CPI + 3.75%
October 1, 2003 thereafter – CPI + 4.5%

Performance calculations are prepared using time-weighted rate of return based on market values.

* Real Estate was combined with Private Equity in September 2003. Fiscal Year 2004 Private Markets return represents performance from October 1, 2003 through June 30, 2004.

Public Employees' Retirement Board
State of Nevada
693 West Nye Lane
Carson City, Nevada 89703

Re: **Certification Letter for Actuarial Section of Financial Report for Fiscal Year Ended June 30, 2011**

Dear Retirement Board Members:

This letter is to certify that Segal has prepared an actuarial valuation of the Public Employees' Retirement System of the State of Nevada as of June 30, 2011 and that such valuation is accurate and fairly presents the actuarial position of the Public Employees' Retirement System of Nevada.

The unfunded actuarial accrued liability is being amortized by level percentage-of-payroll payments over a year-by-year closed amortization period where each amortization period will be set at 30 years. As of June 30, 2011, the funded ratio is 70.6% for regular employees and 68.4% for police/fire employees.

Actuarial valuations are prepared annually by the independent actuary for the Public Employees' Retirement Board. The basic purposes of annual actuarial valuations are to determine the Retirement System's actuarial liabilities and the level percentage-of-payroll contribution rates required to fund the Retirement System on an actuarial reserve basis.

For funding purposes, to amortize the unfunded portion of actuarial accrued liability under the level percentage-of-payroll amortization method, the dollar amounts of calculated amortization payments increase in direct proportion to the assumed payroll growth rates of 6.5% per year for regular employees and 8.0% per year for police and firefighters. These payroll growth rates are based on a 3.5% per year inflation assumption.

For GASB 25 reporting purposes only, the unfunded actuarial accrued liability payments are assumed to increase in direct proportion to assumed payroll growth rates of 5.0% per year for both regular and police/fire employees. This payroll growth rate is based on a 3.5% per year inflation assumption. Also, for GASB reporting purposes only, the unfunded actuarial accrued liability is amortized over an open (non-declining) amortization period of 30 years.

Public Employees' Retirement Board
November 14, 2011
Page 2

The most recent actuarial valuation prepared as of June 30, 2011 is based on the following major elements:

- Current benefit provisions (as specified in the Public Employees' Retirement Act).
- Membership data as of June 30, 2011 obtained from electronic files provided by the Retirement System. Membership data contained on the electronic files is examined and tested for reasonableness, but is not audited by the actuary.
- Assets as of June 30, 2011 obtained from the System's unaudited financial statements.
- Trend schedules for financial and actuarial sections of the Comprehensive Annual Financial Report (CAFR) as of June 30, 2011 (based upon data from the System, accepted without verification or audit, and upon results of the annual actuarial valuation).
- Actuarial assumptions and methods adopted by the Public Employees' Retirement Board.

A complete copy of the June 30, 2011 actuarial valuation is available from the System.

Each annual actuarial valuation involves a projection of the benefits expected to be paid in the future to all members of the Retirement System. The projection of expected future benefit payments is based on the benefit provisions in effect on the actuarial valuation date. (See the Plan Summary section of this Annual Financial Report for a summary of current benefit and contribution provisions.)

List of Trend Schedules

The following schedules, prepared by Segal, are included in the Financial Section of this report:

- ➢ Schedules of Funding Progress
- ➢ Schedule of Employer Contributions

List of Supporting Schedules

The following schedules and summaries prepared by Segal are included within this Actuarial Section:

- ➢ Summary of Actuarial Assumptions and Methods
- ➢ Schedule 1 – Retirement System Membership
- ➢ Schedule 2 – Active Member Valuation Data
- ➢ Schedule 3 – Pay Status Participants Added to and Removed from the Rolls
- ➢ Schedule 4 – Solvency Test
- ➢ Schedule 5 – Analysis of Actuarial Experience
- ➢ Actuarial Valuation Statement (GASB Disclosure Basis)

Public Employees' Retirement Board
November 14, 2011
Page 3

The Public Employees' Retirement Act requires an adjustment in the statutory contribution rates on July 1 of each odd-numbered year, based on the actuarially determined rates indicated in the actuarial valuation report for the immediately preceding year. Rates are only adjusted upward if the new rates are more than 0.50% higher than the existing rate for Employer-Pay and more than 0.25% higher for Employee/Employer. Rates are only adjusted downward if the new rates are more than 2.00% lower than the existing rate for Employer-Pay (and adjusted only by the amount in excess of 2.00%) and more than 1.00% lower than the existing rate for Employee/Employer (and adjusted only by the amount in excess of 1.00%). Rates are rounded to the nearest 0.25% of payroll.

Since this valuation year is an odd-numbered year, no adjustment in the statutory contribution rate is required as a result of this valuation.

	Regular Employees	Police/Fire Employees
Employer-Pay		
Statutory Rate for Fiscal Years July 1, 2011 through June 30, 2013	23.75 %	39.75 %
Actuarial Determined Contribution Rate per June 30, 2011 Actuarial Valuation	24.33 %	39.45 %

	Regular Employees	Police/Fire Employees
Employee/Employer		
Statutory Rate for Fiscal Years July 1, 2011 through June 30, 2013	24.50 %	40.50 %
Actuarial Determined Contribution Rate per June 30, 2011 Actuarial Valuation	25.31 %	40.33 %

5160225v5/01068.001

Public Employees' Retirement Board
November 14, 2011
Page 4

A summary of the GASB disclosure rates are as follows:

	Regular Employees	Police/Fire Employees
Employer-Pay	24.58%	41.28%
Employee/Employer	25.56%	42.16%

The actuarial calculations prepared for disclosure requirements under GASB as well as for funding purposes were made in accordance with generally accepted actuarial principles and practices. The information supplied in this letter is based on the current provisions of the Public Employees' Retirement Act and on the actuarial assumptions and methods adopted by the Public Employees' Retirement Board. Further, in our opinion, the assumptions as approved by the Board are reasonably related to the experience of and the expectations for the Plan.

We are members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein.

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

The actuarial assumptions and methods used in the June 30, 2011 actuarial valuation were adopted by the Public Employees' Retirement Board and were based on the results of the experience review completed in 2007.

Economic Assumptions

The economic assumptions for the 2011 actuarial valuation.

Investment return* - 8.0% per year.

Salary increases* - The assumed salary increase rates are shown below:

Regular Employees	
Years of Service	**Rate**
1	9.75%
2	8.25%
3	7.75%
4	7.50%
5	7.25%
6	7.00%
7	6.75%
8	6.25%
9	5.75%
10	5.50%
11	5.10%
12	4.90%
13 or more	4.50%

Police/Fire Employees	
Years of Service	**Rate**
1	14.75%
2	10.75%
3	10.20%
4	9.80%
5	9.40%
6	9.00%
7	8.25%
8	7.75%
9	7.25%
10 or more	6.50%

Rate Payroll - Based on actual contributions for the prior year with an increase of 3.00% for regular employees and 5.00% for police/fire employees.

Payroll growth* (Funding) - 6.5% per year for regular employees and 8.0% per year for police/fire employees.

Payroll growth* (GASB disclosure) - 5.0% per year for both regular employees and for police/fire employees.

*Includes inflation at 3.5% per year.

Post-retirement Benefit increases -	For members with an effective date of membership before January 1, 2010: Members who retired during 1992 and earlier are assumed to receive 3.5% increases per year. Those retiring later are assumed to receive the increases below. 2.0% per year compounded following the third anniversary of benefit commencement; 3.0% per year compounded following the sixth anniversary; 3.5% per year compounded following the ninth anniversary; 4.0% per year compounded following the twelfth anniversary; 5.0% per year compounded following the fourteenth anniversary; 3.5% per year compounded following the twenty-fourth anniversary. For members with an effective date of membership on or after January 1, 2010: 2.0% per year compounded following the third anniversary of benefit commencement; 3.0% per year compounded following the sixth anniversary; 3.5% per year compounded following the ninth anniversary; 4.0% per year compounded following the twelfth anniversary; 3.5% per year compounded following the thirty-eighth anniversary. Underlying this assumption is that CPI will grow over time at a rate of 3.50% per year.

Non-Economic Assumptions

The assumed retirement rates, which project the percentage of eligible employees who will retire, are shown below:

Regular Employees				
Years of Service				
Age	**5 – 19**	**20 – 24**	**25 – 29**	**30 or more**
45 – 49	--	1%	8%	--
50 – 54	2%	2%	10%	25%
55 – 59	4%	7%	15%	30%
60 – 61	13%	20%	25%	30%
62 – 64	15%	20%	25%	30%
65 – 69	22%	25%	30%	30%
70 & older	100%	100%	100%	100%

Police/Fire Employees					
Years of Service					
Age	**5 – 9**	**10 – 19**	**20 – 24**	**25 – 29**	**30 or more**
40 – 44	--	1%	1%	--	--
45 – 49	--	1%	3%	15%	15%
50 – 54	1%	5%	12%	15%	25%
55 – 59	5%	12%	20%	25%	35%
60 - 64	10%	20%	25%	25%	35%
65 & older	100%	100%	100%	100%	100%

The retirement age for inactive vested members is equal to their earliest unreduced retirement age.

The assumed withdrawal rates are shown below:

6 or more	2.00%

Withdrawal rates end when retirement rates commence.

The assumed disability rates are shown below for selected ages:

Age	Regular Employees	Police/Fire Employees
22	0.01%	0.05%
27	0.02%	0.05%
32	0.06%	0.06%
37	0.09%	0.09%
42	0.18%	0.37%
47	0.31%	0.53%
52	0.50%	0.66%
57	0.69%	0.60%
62	0.50%	0.60%

No disability rates are assumed after age 65.

Mortality Table - For non-disabled male regular members it is the RP-2000 Combined Healthy Mortality Table. For non-disabled female regular members and for all non-disabled police/fire members it is the RP-2000 Combined Healthy Mortality Table set forward one year. The schedules below show the assumed mortality rates and projected life expectancies for selected ages:

Regular Members				
	Mortality Rates		Expected Years of Life Remaining	
Age	Males	Females	Males	Females
40	0.11%	0.08%	39.8	41.7
50	0.21%	0.19%	30.3	32.1
60	0.67%	0.58%	21.2	23.0
70	2.22%	1.86%	13.4	15.0
80	6.44%	5.08%	7.3	8.6

Police/Fire Members				
	Mortality Rates		Expected Years of Life Remaining	
Age	Males	Females	Males	Females
40	0.11%	0.08%	38.8	41.7
50	0.24%	0.19%	29.4	32.1
60	0.77%	0.58%	20.4	23.0
70	2.46%	1.86%	12.7	15.0
80	7.20%	5.08%	6.7	8.6

The mortality table used in the actuarial valuation to project mortality rates for disabled male members is the RP-2000 Disabled Retiree Mortality Table set back three years for regular members and the RP-2000 Combined Healthy Mortality Table set forward ten years for police/fire members. For both regular and police/fire disabled female members, it is the RP-2000 Disabled Retiree Mortality Table set forward eight years.

Presence and Age of Beneficiary

It is assumed for purposes of the actuarial valuation that beneficiaries of female members are three years older than the female member. Beneficiaries of male members are assumed to be three years younger than the male member.

Since pre-retirement death benefits are payable to a surviving beneficiary of an unmarried member, all members are assumed to have a beneficiary upon pre-retirement death.

The unmodified option is a straight life annuity except for “employer-pay” Police/Fire retirees, for whom it is a 50% joint and survivor annuity. Existing “employer-pay” Police/Fire retirees with an unmodified option who retired after June 30, 1981 and before July 1, 2007 have been valued assuming no surviving spouse, pending the results of an analysis and verification of spousal information. The assumed probability of marriage at retirement for future “employer-pay” Police/Fire retirees are shown below for selected ages:

Age	Male	Female
22	33.0%	37.1%
27	58.9%	65.2%
32	65.3%	61.8%
37	71.3%	63.6%
42	71.4%	63.1%
47	73.3%	61.0%
52	75.7%	64.0%
57	77.0%	57.6%
62	74.0%	49.5%

Dependent Children

The assumption for dependent children in the actuarial valuation is one dependent child who is 28 years younger than the employee.

Asset Valuation Method

The actuarial value of assets is equal to the prior year’s actuarial value of assets plus contributions, less benefit payments and expenses, an adjustment for net transfers, plus expected investment return, and 20% of each of the previous five years’ gain/(loss) due to investment return greater/(less) than expected. The actuarial value of assets is further limited to not less than 70% or greater than 130% of the market value of assets.

Actuarial Funding Method

The actuarial cost or funding method used in the actuarial valuation is the Entry Age Normal Cost Method. Under this method, the total calculated employer contribution rate consists of the normal cost, the administrative expense allowance, plus the payment required to amortize the unfunded actuarial accrued liability over the established amortization period.

The normal cost rate is the level percentage-of-salary contribution required each year to accumulate over each covered employee's projected working lifetime the reserves needed to meet the cost of projected benefits. The normal cost is determined based on the plan provisions and current benefit accrual rate applicable to that individual.

The total actuarial accrued liability under the Entry Age Normal Cost Method represents the value of all projected benefit payments for current members less the portion that will be paid by future normal costs. The unfunded actuarial accrued liability is the amount obtained by subtracting valuation assets from the total actuarial accrued liability.

Amortization of the Unfunded Actuarial Accrued Liability

For funding purposes, the unfunded actuarial accrued liability is amortized over a year-by-year closed amortization period where each amortization period for each year will be set at 30 years. For GASB disclosure, the unfunded accrued liability is amortized over an open (non-declining) amortization period of 30 years.

Changes in Actuarial Assumptions and Methods Since the Previous Year

There were no changes in actuarial assumptions or cost methods since the preceding valuation.

SCHEDULE 5

ANALYSIS OF ACTUARIAL EXPERIENCE

Gains and Losses in Actuarial Accrued Liabilities (AAL) During Year Ended June 30, 2011 Resulting from Differences Between Assumed Experience and Actual Experience (Dollar Amounts in Millions)

	Regular		Police/Fire	
Type of Activity	**Amount**	**As Pct of AAL**	**Amount**	**As Pct of AAL**
Age and Service Retirements. If members retire at older ages or with lower final average pay than assumed, there is a gain. If retirements occur at younger ages with higher average pay, there is a loss.	($107.2)	(0.37%)	($14.3)	(0.18%)
Disability Retirements. If disability claims are less than assumed, there is a gain. If there are more claims, there is a loss.	(15.5)	(0.05%)	0.6	0.01%
Pre- and Post-Retirement Deaths. If retirees live longer than assumed, there is a loss. If retirees live shorter than assumed, there is a gain.	8.0	0.03%	(12.9)	(0.16%)
Post-Retirement Benefit Increases. If increases are more than assumed, there is a loss. If increases are less than assumed, there is a gain.	90.6	0.31%	21.6	0.27%
Withdrawal From Employment. If more liabilities are released by withdrawals than assumed, there is a gain. If less liabilities are released, there is a loss.	41.4	0.14%	3.8	0.05%
Pay Increases. If there are smaller pay increases than assumed, there is a gain. If there are greater increases, there is a loss.	521.3	1.80%	206.9	2.62%
Active New Entrants. Cost due to new hires.	(43.4)	(0.15%)	(4.4)	(0.06%)
Active Rehires. Some new active members have past service credits reinstated, thereby increasing costs due to the unanticipated liabilities.	(22.4)	(0.07%)	(3.1)	(0.04%)
Inactive and Retiree Showups. Persons in inactive or pay status who are added to the valuation data during the year.	(11.3)	(0.04%)	(0.8)	(0.01%)
Other. Miscellaneous gains and losses result from data changes and adjustments, timing of financial transactions, and other miscellaneous impacts on the valuation results.	18.5	0.06%	1.5	0.02%
Total Liability Experience Gain (Loss) During Year.	480.0	1.66%	198.9	2.52%
Investment Income. If there is a greater investment income than assumed, there is a gain. If there is less income, there is a loss.	(625.2)	(2.16%)	(149.3)	(1.89%)
Total Experience Gain (Loss) During the Year.	(145.2)	(0.50%)	49.6	0.63%

The Public Employees' Retirement System of the State of Nevada is funded on an actuarial reserve basis. Participating employers are making contributions to the Retirement System based on the results of actuarial valuations and the statutory funding provisions of the Public Employees' Retirement Act.

The actuarial calculations performed solely for the GASB Disclosure were made in accordance with generally accepted actuarial principles and procedures, based on the current provisions of the Public Employees' Retirement Act and on the actuarial assumptions and methods recommended to the Public Employees' Retirement Board and as required under GASB No. 25. A comparison of the funding contribution rates and the GASB disclosure contribution rates can be found in the Certification Letter.

STATISTICAL SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

STATISTICAL HIGHLIGHTS

Data Sources

Financial data presented in this section was obtained directly from June 30 audited financial statements. Demographic data was taken from actuarial records, both from an independent actuary and from internal System records provided to the actuary. Contribution rate history was compiled from actuarial valuations prepared by an independent actuary on an annual basis. Participating employer information was obtained from internal records and verified with actuarial data.

Change in Net Assets

As exhibited in Schedule 1, three of the past ten years (2002, 2008, and 2009) resulted in a negative change to net assets, with fiscal year 2009 being the most severe. The 2002 result may largely be attributed to the World Trade Center event of September 11, 2001. The decreases experienced during 2008 and 2009 are primarily the result of difficult and widespread economic conditions which began in 2008 and began recovering during 2010. The PERS investment program generated the 8% actuarial goal for fiscal year 2011, and the fund outperformed its market objective. The 9.7% since inception (27 years) annualized return of the plan exceeds the actuarial objective.

Plan Membership

Active membership in PERS for fiscal year 2011 decreased by 2,683 or 2.6%. While this is not a material number, this is the third consecutive year membership has decreased. Until 2009, the State of Nevada had been among the top five fastest growing states in the country for many years and had shown only upward trends in membership numbers.

This year's decrease in membership may be a reflection of the large number of retirement inceptions during the year, coupled with the widespread economic downturn that began in 2008 which caused more positions to remain unfilled, staff layoffs, and fewer or no new positions to be created. The number of benefit recipients (excluding survivors and beneficiaries) increased by 2,418 or 6.2%. We expect to see consistent growth in the number of retired members over the following years.

The increase in retired members and the decrease in active members caused the number of active members per retiree to drop from 2.6 to 2.4 (a 7.7% decrease) for Regular members/retirees and from 2.6 to 2.3 (an 11.5% decrease) for Police/Fire members/retirees. It is expected that as the economy begins to recover active membership will increase. Active and retired membership data, broken down between Regular and Police/Fire members, along with statistics on the number of active members per retiree can be found in Schedule 5 of this section.

Funded Ratio

The ten-year history of the funded ratio (Actuarial Value of Assets to Actuarial Accrued Liability) appears on the Schedule of Funding Progress (page 46) in the Financial Section of this report. Some possible causes of fluctuations in this ratio are strong or weak investment returns, the smoothing of actuarial gains and losses over five-year periods (see Actuarial Section, Asset Valuation Method narrative for further information on smoothing), and changes in the method of amortizing of the Unfunded Actuarial Accrued Liability (such a change occurred effective July 1, 2004). Fiscal years 2008 and 2009 were challenging years regarding investment returns, and this is reflected in the downward trend of the funded ratios for the past several years.

Fluctuations in the funded ratio are to be expected depending on financial and world events, and the existence of unfunded actuarial accrued liabilities is not necessarily an indicator of financial problems. However, the funding ratio is closely monitored and controlled to the best of the System's ability.

SCHEDULE 1
CHANGES IN NET ASSETS - LAST TEN FISCAL YEARS
(in millions)

	Fiscal Year			
	2002	2003	2004	2005
Additions				
Employer contributions	$ 680.7	$ 724.0	$ 808.3	$ 875.5
Plan member contributions	53.9	55.4	61.1	66.9
Repayment and purchase of service	24.7	29.4	43.4	63.7
Investment income (net of expenses)	(367.8)	672.9	1,700.8	1,491.3
Other income	2.1	2.1	2.1	3.3
Total additions to plan net assets	393.6	1,483.8	2,615.7	2,500.7
Deductions				
Benefit payments	533.0	591.8	657.6	739.8
Refunds	15.8	11.1	12.1	14.5
Administrative and other expenses	8.7	9.6	9.8	9.0
Transfers of contributions	-	6.7	-	-
Total deductions from plan net assets	557.5	619.2	679.5	763.3
Change in net assets	$ (163.9)	$ 864.6	$ 1,936.2	$ 1,737.4

Notes:

Contribution rates increased July 1 of 2004, 2006, 2008, and 2010.

Computer system replacement project from 2001 through 2004.

Information is from internal System records.

Fiscal Year

2006	2007	2008	2009	2010	2011
$ 966.1	$ 1,046.6	$ 1,167.4	$ 1,213.1	$ 1,281.7	$ 1,264.8

$ 1,795.3	$ 3,158.4	$ (503.4)	$ (3,427.9)	$ 2,136.1	$ 4,348.9

SCHEDULE 2
BENEFIT AND REFUND DEDUCTIONS FROM NET ASSETS
(in millions)

	2002	2003	2004	2005
Regular Members:				
Benefits				
Retirement and survivor	$ 415.5	$ 460.2	$ 509.5	$ 574.1
Disability	22.6	24.7	27.8	31.0
Post-retirement increases	0.1	0.1	-	-
Total benefits	$ 438.2	$ 485.0	$ 537.3	$ 605.1
Total refunds of contributions	$ 13.4	$ 8.7	$ 9.1	$ 11.1
Police/Fire Members:				
Benefits				
Retirement and survivor	$ 88.3	$ 99.7	$ 112.6	$ 126.6
Disability	6.5	7.1	7.6	8.1
Total benefits	$ 94.8	$ 106.8	$ 120.2	$ 134.7
Total refunds of contributions	$ 2.4	$ 2.4	$ 3.0	$ 3.4
Total Members:				
Benefits				
Retirement and survivor	$ 503.8	$ 559.9	$ 622.1	$ 700.7
Disability	29.1	31.8	35.4	39.1
Post-retirement increases	0.1	0.1	0.1	-
Total benefits	$ 533.0	$ 591.8	$ 657.6	$ 739.8
Total refunds of contributions	$ 15.8	$ 11.1	$ 12.1	$ 14.5

Notes:

Both Regular and Police/Fire retired members received post-retirement increases each year. However, in all years for Police/Fire members, and in some years for Regular members, the amounts were immaterial for purposes of this schedule.

Information is from internal System records.

PLAN SUMMARY

THIS PAGE INTENTIONALLY LEFT BLANK

Administration

PERS provides retirement, disability, and death benefits to long-term public employees. The System includes the employees of Nevada counties, cities, schools, state government, and other local public employers.

The governing authority of the System is a 7-member board appointed by the Governor. Day-to-day operations are managed by the Executive Officer. Operating funds are provided by transfer of an administrative fee assigned to each member and benefit recipient. Monthly fees at June 30, 2011, were $3.10 for each Regular member and benefit recipient and $3.27 for each Police/Fire member and benefit recipient.

Membership

An employee of a participating public employer is required to be a member of the System from the first day of service if he or she is employed in a position which is normally considered to be half-time or more according to the full-time work schedule established by the public employer. Persons employed in an approved police or fire position are covered under the Police/Fire sub-fund. Persons who are not police or fire employees are covered under the Regular sub-fund. Membership is canceled upon refund, retirement, or death. Membership is not canceled automatically upon termination of employment. A member must apply for a refund, distribution, or retirement to cancel membership.

Types of Contribution Plans

All pay that meets the definition of compensation as defined in NRS 286.025(2) is subject to retirement contribution. New hires (in agencies which did not elect the Employer-Pay Contribution Plan (EPC) prior to July 1, 1983) have the option of selecting EPC or the Employee/Employer Contribution Plan. Each plan is described below.

Employer-Pay Contribution Plan (EPC)

Under EPC, contributions are paid on the employee's behalf by their public employer. However, the employee shares equally in the cost of the contribution rate either through salary reduction or in lieu of a promised pay increase. EPC contributions are not deposited to the individual member's account and are not available for refund upon termination of employment. The EPC contribution rates, through June 30, 2011, were 21.5% for Regular members and 37.0% for Police/Fire members.

Employee/Employer Contribution Plan

Under this plan, through June 30, 2011, the Regular member and the employer each contributed 11.25% of compensation to the System. Police/Fire members and their employers each contributed 19.00% of compensation. Employee contributions made under this plan are refundable upon termination of employment. Employer contributions are not refundable.

Public employees, other than school employees, earn service credit for years, months, and days actually worked. School employees, who are not regular 12-month employees, receive service credit on the basis of a full year if they work full-time for the entire school year. For these same school employees, service for a part of the school year is credited on a ratio of one and one-third days for each day worked.

Service

Purchase of Service

Members with five years of creditable service may purchase up to five years of service credit. The member must pay the full actuarial cost associated with age and average compensation at the time of purchase.

Refund of Contributions

Members who have contributed under the Employee/Employer Contribution plan may withdraw employee contributions if terminating all employment for which contribution is required or if employed in a position ineligible for membership for at least 90 days. A refund cancels all rights of membership.

Repayment of Refunded Contributions

Members who receive a refund of employee contributions and later return to work and re-establish active membership for a period of at least six months may repay the refunded contributions and restore service credit. Repayment, including interest at the actuarially determined rate, may be in the form of a lump-sum payment or by monthly installments. Service will not be restored until repayment is complete.

Benefits

The 2009 Legislature passed Senate Bill 427 which provided for various changes to the System. While the new law made no changes to the benefits of current members and benefit recipients, it did change some of the benefits allowed new members who enroll on or after January 1, 2010. Such changes are noted within each subject area below.

Service Retirement Vesting

Contributing members of the System earn the right to receive a retirement benefit after five years of service.

Service Retirement

Requirements for Regular members to retire with an unreduced benefit – age 65 with five years of service, **or** age 60 with ten years of service, **or** any age with thirty years of service.

For Regular members who enter the System on or after January 1, 2010, to retire with an unreduced benefit – age 65 with five years of service, **or** age 62 with ten years of service, **or** any age with thirty years of service.

Requirements for Police/Fire members to retire with an unreduced benefit – age 65 with five years of service, **or** age 55 with ten years of Police/Fire service, **or** age 50 with twenty years of Police/Fire service, **or** at any age with twenty-five years of Police/Fire service.

For Police/Fire members who enter the System on or after January 1, 2010, to retire with an unreduced benefit – age 65 with five years of service, **or** age 60 with ten years of Police/Fire service, **or** age 50 with twenty years of Police/Fire service **or** any age with thirty years of total service.

Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Early Retirement Penalty

Members with the years of service necessary to receive a retirement benefit but who have not reached the age for an unreduced benefit may retire at any age with the benefit reduced by 4% for each full year they are under the required age.

Members entering the System on or after January 1, 2010, with the years of service necessary to receive a retirement benefit but who have not reached the age for an unreduced benefit may retire at any age with the benefit reduced by 6% for each full year they are under the required age.

Important Factors for Determining Retirement Benefits

Benefit amounts are based on three factors:

1. Average compensation – defined as the average of 36 highest consecutive months of compensation and, for members entering the system on or after January 1, 2010, the average of 36 highest consecutive months of compensation with a provision that each 12-month period of salary may not increase greater than 10% of the prior 12 months of salary reported. Salary increases due to promotion and assignment-related compensation are excluded from the salary cap calculation.
2. Service credit – years, months, and days worked.
3. Selection of retirement plan – prospective retirees may elect one of seven retirement options.

Option 1 – (the unmodified plan) for Regular members – Pays the full monthly benefit earned but provides no income protection for beneficiary after death.

Option 1 – (the unmodified plan) for Police/Fire members – Pays the full monthly benefit earned for the retiree’s lifetime. A person who was the spouse or domestic partner at time of retirement shall be entitled, at the time of the retired employee’s death or upon the attainment of age 50; whichever is later, to a benefit of 50% of the deceased retired employee’s benefit earned at the time of his/her death in an eligible police/fire position.

Option 2 – Provides an actuarially reduced lifetime benefit. After death the same benefit continues for the lifetime of the beneficiary.

Option 3 – Provides an actuarially reduced lifetime benefit. After death 50% of the benefit continues for the lifetime of the beneficiary.

Option 4 – Provides an actuarially reduced lifetime benefit. After retiree’s death and upon beneficiary reaching age 60, the same benefit continues for the lifetime of the beneficiary.

Option 5 – Provides an actuarially reduced lifetime benefit to retiree. After retiree’s death and upon beneficiary reaching age 60, 50% of the benefit continues for the lifetime of the beneficiary.

Option 6 – Provides an actuarially reduced lifetime benefit to retiree. Upon death of the retiree, this option provides to the beneficiary a specific sum per month, which cannot exceed the monthly benefit paid to retiree.

Option 7 – Provides an actuarially reduced lifetime benefit to retiree. The option provides to the beneficiary, upon retiree's death and the beneficiary reaching age 60, a specific sum per month, which cannot exceed the monthly benefit paid to retiree.

Post-Retirement Benefit Increases

Retirees are eligible for annual benefit increases if they began receiving benefits at least three years before the effective date of the increase. Benefits are increased annually on the first day of the month following the anniversary of the commencement of benefits. The increases begin at 2% in years four, five, and six; increase to 3% in years seven, eight, and nine; 3.5% in years ten, eleven, and twelve; 4% for years thirteen and fourteen; and 5% in year fifteen and each year thereafter. If the benefit outpaces inflation in the period since retirement, the increase may be capped by a rolling three-year average of the Consumer Price Index (all items).

Retirees who enter the System on or after January 1, 2010, are eligible for annual benefit increases if they began receiving benefits at least three years before the effective date of the increase. Benefits are increased annually on the first day of the month following the anniversary of the commencement of benefits. The increases begin at 2% in years four, five, and six; increase to 3% in years seven, eight, and nine; 3.5% in years ten, eleven, and twelve; and 4% in year thirteen and each year thereafter. If the benefit outpaces inflation in the period since retirement, the increase may be capped by a rolling three-year average of the Consumer Price Index (all items).

Benefit Formula

The formula used for calculating retirement benefits is as follows:

- Total Service Credit Earned (or purchased) before July 1, 2001 X 2.5% = Service Time Factor
- Total Service Credit Earned (or purchased) on and after July 1, 2001 X 2.67% = Service Time Factor
- Total Service Time Factors X Average Monthly Compensation (36 Highest Consecutive Months of Salary) = Unmodified benefit (Option 1).

For members entering the System on or after January 1, 2010, the formula for calculating retirement benefits is as follows:

- Total Service Credit Earned (or purchased) X 2.5% = Service Time Factor
- Total Service Time Factor X Average Monthly Compensation (36 Highest Consecutive Months of Salary with applicable limits) = Unmodified benefit (Option 1).

Maximum benefits are 90% of average compensation for individuals who became members before July 1, 1985, and 75% of average compensation for individuals who became members after June 30, 1985.

Actuarial reductions are based on the member's age and the beneficiary's age at the time of retirement, determined from tables supplied by the System's actuary.

Disability Retirement

Members with five or more years of service who become totally unable to perform their current or any comparable job because of an injury or mental or physical illness of a permanent nature are eligible to apply for disability retirement. The application must be filed with the System prior to termination of employment. Disability retirement benefits are calculated in the same manner as service retirement without reduction for age.

Survivor Benefits

Eligibility

Eligible survivors of a member who dies prior to retirement are entitled to a benefit if:

1. The member had two years of service in the two and one-half years immediately preceding death, or
2. The member had more than ten years of accredited service, or
3. The member's death was caused by an occupational disease or an accident arising out of or in the course of employment, regardless of service credit.

Eligible survivors:

1. Spouse or domestic partner
2. Each unmarried dependent child under age 18, or up to age 23 if a full-time student.
2. Dependent parents, provided there are no other eligible survivors at the time of member's death.
4. If the member is unmarried at the time of death, one designated survivor beneficiary. Additional payees may also be designated to receive direct payment of a portion of the survivor beneficiary benefit.

Amount of Survivor Benefits

Generally, if a member dies with less than ten years of service, the spouse or domestic partner would receive $450 per month and each dependent child would receive $400 per month. The spouse or domestic partner would receive survivor benefits for his or her lifetime. Each unmarried dependent child would receive monthly benefits until age 18, or age 23 if he or she is a full-time student.

If a member dies with more than ten years of service credit, the spouse or domestic partner is entitled to a lifetime benefit. The amount of the benefit is based on the member's age, years of service, and average compensation at the time of death. A child would receive the same benefits as previously described.

A member is able to designate one survivor beneficiary to receive benefits (as described above) to be paid if the member is unmarried at the time of death. A member may also designate additional payees to receive direct payment of a portion of the survivor beneficiary benefit.
