Certificate of Achievement for Excellence in Financial Reporting

Presented to

New York City

Police Pension Fund, Subchapter 2

New York

For its Comprehensive Annual

Financial Report

for the Fiscal Year Ended

June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

New York City Police Pension Fund

233 BROADWAY
NEW YORK, NEW YORK 10028
PHONE: 606-5160

Kevin Holloran
Executive Director

December 15, 2010

To: Members of the Board of Trustees, New York City Police Pension Fund.

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the New York City Police Pension Fund (the Plan); a Pension Trust Fund of the City of New York, for the fiscal year ended June 30, 2010. Responsibility for accuracy of the data, the completeness and fairness of the presentation, including all disclosures, rests with the management of the Plan. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of the operation of the Pension System. All disclosures necessary to enable the reader to gain an understanding of the Pension System's Financial Activities have been included.

Our independent auditors Deloitte & Touche, LLP; have audited our financial statements for fiscal year ended June, 2010 and a copy of the audit report is included in this CAFR. The audit was conducted in accordance with generally accepted auditing standards.

Background of the Fund

The New York City Police Pension Fund (Subchapter 2) was incorporated on March 1, 1940 and commenced business on March 29, 1940. On January 30, 1940 the Fund operated on an actuarial basis covering persons appointed to the police force after June 1, 1940. The Fund succeeded the Subchapter 1 (Article 1) Pension Fund established for New York City Police prior to 1940.

In 1995 legislation was enacted merging Subchapter 1 with Subchapter 2. In the same year legislation was passed allowing the New York City Transit Authority and Housing Authority Police Officers to transfer out of New York City Employees Retirement System (NYCERS) and merge with the Fund. Three police departments then became one force under direct control of the Police Commissioner. Chapter 292 of the laws of 2001 provided Corpus Funding for the administrative expenses of the Plan, effective July 1, 2001. The Executive Director was named as administrator of the Fund.

The Board of Trustees comprises twelve members with voting rights as follows: the Police Commissioner, the Mayor, the Comptroller and the Commissioner of Finance with one and one-half votes each; four specified officers of the Patrolmen's Benevolent Association with one vote each, and the presidents of the following police unions: the Detectives Endowment Association, the Sergeants Benevolent Association, the Lieutenants Benevolent Association and the Captains Endowment Association, with one half vote each. Meetings are held every month but special meetings may be called by the Board Chairman or requested by a quorum of members with at least five votes combined.

The Comptroller of the City of New York is the custodian of the Fund's assets and provides investment services through independent advisors. The City's Chief Actuary provides actuarial services and Corporation Counsel provides legal services to the Plan. The New York City Police Pension Fund and New York City Police Department Subchapter Two Pension Fund are synonymous.

Economic Conditions

Economic conditions at both the National and City levels have a dominant impact on the activities of the financial markets and the investment industry. Positive investment results, measured in profit and loss, stimulate growth of the Pension Fund assets. Also, the level of taxpayers' money required to fund the Pension benefits is influenced by prevailing economic conditions. A look at conditions in fiscal year 2010 showed that the national economy, supported by various fiscal and monetary measures, experienced positive growth. While national economic growth was positive, the city experienced another year of economic decline. The issues currently in the forefront relate to serious weakness in the job market, the mortgage foreclosures and the slow pace of economic growth.

The national economy emerged from a long recession and a period of decline, ending fiscal year 2010 with a 0.7% growth; as measured by change in real Gross Domestic Product (GDP), the output of goods and services produced by labor and property in the US. The financial crisis is resolving and, except for some concerns remaining in banking, the financial sector is stabilized. The Federal Reserve Bank and government have helped to stimulate national economic growth with fiscal and monetary measures. Since December 2008, the benchmark Fed funds rate is being held, at its lowest, a range of 0 to 0.25%. The government provided a large fiscal stimulus package and the Federal Reserve Bank has set up a program to purchase Treasury bonds. The measures already taken appear to have had a positive effect on the economic recovery efforts, but the pace of growth is slow. The unemployment rate remains high, falling in August 2010 to 9.6% from 10.1% in October 2009 when the number of unemployed residents actually reached 15.6 million. The housing market is still troubled. Media reports have indicated that over eight million home loans are in some state of delinquency, default or foreclosure. However, the pace of

mortgage foreclosures has slowed due to a modification program and other efforts by the government.

In fiscal year 2010, the City's economy began to show some improvement although the economy declined 1.2% and unemployment remained high. The City lost 182,000 jobs or 4.8% of its peak job base and 158,000 or 4.9% of its total private jobs, before regaining 70,000 jobs. The unemployment rate fell slightly to 9.4% by August 2010 from a prior high of 10.5%. Incomes are recovering as revenues from personal income taxes are up 3.9% to \$6.9 billion. Some large financial firms in the city, which experienced substantial asset write-downs during the financial crisis, have returned to profitability. The major indices in the stock market are again on the rise with slightly less volatility and recent reports suggest that Wall Street is recovering faster than the national economy. Improvement in the local real estate market is noted, as Manhattan apartments rose 80% in the last quarter of fiscal year 2010 and home sales in Brooklyn and Queens were up 35% and 87%, respectively.

The job market continues to be weak, consumer confidence is somewhat subdued and economic growth is slow. The Federal Reserve recently announced it will add to existing measures by spending \$600 billion over eight months, to buy US Treasury bonds. This is intended to lower interest rates on mortgages and other loans and encourage more borrowing and spending by both business and consumers. A recent report by The Department of Commerce stated, in advance estimates, that in the third quarter of 2010, real GDP increased at an annual rate of 2.0%. Overall, after a long period of negative growth, economic recovery has started, the recession is over and fiscal and monetary support has been forthcoming to help boost growth.

Major Initiatives FY2010

The New York City Police Pension Fund (NYCPPF) was given corpus funding in 2001 to improve service to our active and retired members. Corpus funding has enabled NYCPPF to establish a new headquarters and initiate a major upgrade to its computer infrastructure and capabilities. Over the past eight years, NYCPPF has implemented many Information Technology (IT) enhancements. Here are some accomplishments for fiscal year 2010 and new initiatives for fiscal year 2011:

- **COPS Maintenance** – On March 17, 2008 our Comprehensive Officer Pension System (COPS) went into production. The projected lifespan of the COPS application is over 20 years. NYCPPF is entering its third year maintenance support contract with Vitech.
- **New Annual Statement** – The annual statement document was redesigned in 2010 to include additional data, as well as implement a new format. The original legal-size, one -page document was converted into a smaller six page booklet. This year a few final enhancements were added

to the document that provides members with additional information in an easier to understand format.

- **New Desktops & 64-bit Windows 7 Desktop Operating System**
NYCPPF continues to invest in current technology. The agency replaced its older desktop equipment with newer technology that will provide the agency with an extended replacement cycle.
- **Microsoft's 2008 R2 Hyper-V Virtual Server** – FY 2010 was a big year for NYCPPF's conversion from physical servers into a virtual environment saving time and money while adding redundancy. Microsoft's Virtual server software called Hyper-V technology allows a single physical server to run dozens of virtual servers on the single physical computer. Currently NYCPPF has 43 physical servers and 33 virtual servers. Our goal is to continue reducing the number of physical servers to a bare minimum. This will lead to significant cost savings by:
 - Reduced heat generation with less physical boxes
 - Reduced air conditioning BTU's
 - Reduced electricity costs
 - Reduced UPS requirements
 - Reduced sound emissions – an OSHA issue
- **Document Image Management System (Docushare)** - Since April 2003, NYCPPF has continued to upgrade and expand usage of the Document Image Management System. Our imaged documents grow by 30% each year. Today Docushare contains over 15 million images in 610,536 documents. Our final phase to convert 4,000 boxes stored in two warehouses is about 25% completed and will be finished by mid-2011.
- **Moving towards a Paperless Office** – Currently all active member's paper folders are stored within NYCPPF's headquarters and electronically on the Docushare servers. After a member is retired for more than two years, their paper folder is moved to an off-site storage facility. We are currently converting all 4,000 boxes of paper (10 million pages) into electronic images and shredding the paper. Going forward all additional paperwork for retired members will also be imaged and shredded.
- **Docushare Upgrade** - Docushare was upgraded from version 4.0 to 6.5. and is one of the most extensively used services at NYCPPF.

New initiatives FY2011

- **COPS Multi-Tier** –On July 1, 2009, for the first time in over 20 years, a new retirement tier (Tier 3) was added for Police Officers. NYCPPF's pension tracking system, called COPS, will be enhanced to support this additional retirement tier. The goal when building COPS was to design a system that can adapt with changing times.

- **COPS Maintenance** – Along with the development needed to support Tier 3 members, NYCPPF will work with Vitech to implement major releases into COPS, incorporating additional user enhancements and maintenance patches.

Funding

The Police Pension Fund was established to provide members and their beneficiaries with retirement, disability and death benefits, primarily based on salary and length of service. The primary financial objective of the Fund is to ensure a level of funding through contributions and investment income that will support payment of these benefits. Consequently, the assets section of the financial statement is especially important to members. A review of the assets gives an indication of the Fund's fiscal health and the income potential from investments. It also gives the participants a high degree of assurance that benefits will continue into the future. We have presented a detailed discussion of assets in our Management Discussion and Analysis, in the financial section, under the caption Plan Net Assets.

Comparing the Actuarial Accrued Liability to the Actuarial Value of Assets provides an indication of the funding progress of the pension plan. As noted in Schedule 1 in the Financial Section, the Funded Ratio, determined in conformity with the Plan's funding method, equals 100%. For informational purposes only, other measures of funded status are provided in the Actuarial Section.

Financial and Budgetary Controls

The management of the Plan is responsible for establishing and maintaining an internal control structure designed to ensure that assets are protected from loss, theft, or misuse and that preparation of financial statements is done in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable but not absolute assurance that these objectives are met. The Plan also maintains budgetary controls. An annual examination of existing Internal Controls is performed in compliance with City Comptroller's Directive #1 of the City Manager Financial Integrity Directives. The latest study and evaluation disclosed no material weakness. As a further quality control, the Audit Committee of the City of New York, which includes experts in Accounting and Municipal Finance from the private sector, oversees the independent audit process. This process involves the independent auditors' report and the Auditors' Management letter, as well as the Retirement System's response. The Audit Committee operates independently and issues an annual report.

Investment Policy

The Comptroller of the City of New York is the treasurer, chief custodian and investment manager of the assets of the Fund, subject to the direction and control of the Board of Trustees. The capacity to meet benefit payments to members is strengthened with increasing rates of return on the assets of the Fund. The investment policy adopted by the Board of Trustees is one that

promotes growth, maintains a competitive rate of return and minimizes risk. The strategy used in implementing this policy is allocation of the assets of the Fund in a diversified group of securities. Diversification of the investment portfolio helps to minimize risk. No investment in any one security represents 5% or more of Plan Net Assets Held in Trust for Benefits. The Plan's investment portfolio consists of a variety of securities, which include domestic and international stocks, bonds and short-term investments. At the end of the fiscal year 2010, the asset allocation policy adopted by the Pension Fund produced a combined rate of return of 13.74%, slightly above the policy index benchmark of 13.72%. For the three-year period the rate of return was -4.14%, which was below the policy index benchmark of -4.12%. The Fund's investment portfolio performed within close range of the policy index benchmark with risks maintained at acceptable levels.

Based on the Plan's financials for fiscal year 2010, net assets available for pension benefits increased 15 %; from \$17.42 billion fiscal year 2009 to \$19.98 billion. As indicated below, net investment income and net appreciation in fair value of investments for the current fiscal year show a reversal of negative performance trends experienced in the prior fiscal year

The following table reflects selected items from the audited financial statements for fiscal Years 2010 and 2009.

Description	2010	2009	% change
	*	*	
Member Contributions	\$ 222,711	\$ 211,559	5%
Employer Contributions	1,980,066	1,932,150	2%
Interest Income	320,152	329,163	(3%)
Dividend Income	239,919	248,934	(4%)
Net.(depreciation) appreciation in fair value of investments	1,802,617	(4,470,872)	140%
Investment Expenses	90,105	73,692	22%
Net Investment (Loss) income	2,283,072	(3,937,833)	158%
Benefit Payments & Withdrawals	\$1,911,331	\$1,830,032	4%

* The amounts are presented in thousands.

The financial statements are discussed further in the Financial Section, while a discussion on investment policy is in the Investment Section of this CAFR.

Other Information

Awards

This report complies with the principles of governmental accounting and reporting standards, promulgated by the Governmental Accounting Standards Board. It will be forwarded for annual review by the Government Finance Officers Association (GFOA) who awards the Certificate of Achievement for Excellence in Financial Reporting.

In order to be awarded the prestigious certificate, a government unit must publish an easily readable and efficiently organized financial report that conforms to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements. The GFOA has awarded the Certificate of Achievement for Excellence in Financial Reporting to the New York City Police Pension Fund Subchapter 2, annually, since fiscal year 1986. We believe that our current report satisfies the GFOA program requirements. If we receive the award this year, it would be over twenty years that this honor is bestowed upon the Police Pension Fund; a record for which we are quite proud.

Acknowledgements

The compilation of this CAFR is a reflection of the hard work and dedication of the management and staff of the Police Pension Fund. I commend them for their efforts and cooperation in this endeavor. I also thank the office of the City Actuary, the Comptroller's Office and the investment advisors of the Plan for the data and other information provided during the preparation of this report.

A special thanks to our Accounting Unit, Chief Accountant Abraham Papilsky and Deputy Chief Accountant Bavakutty Sunny for their consistent hard work, above and beyond the call of duty, in preparing accounting and statistical data for this report, in an accurate and expeditious manner. To you, members of the Board of Trustees, I express my sincere gratitude for outstanding leadership and support during fiscal year 2010.

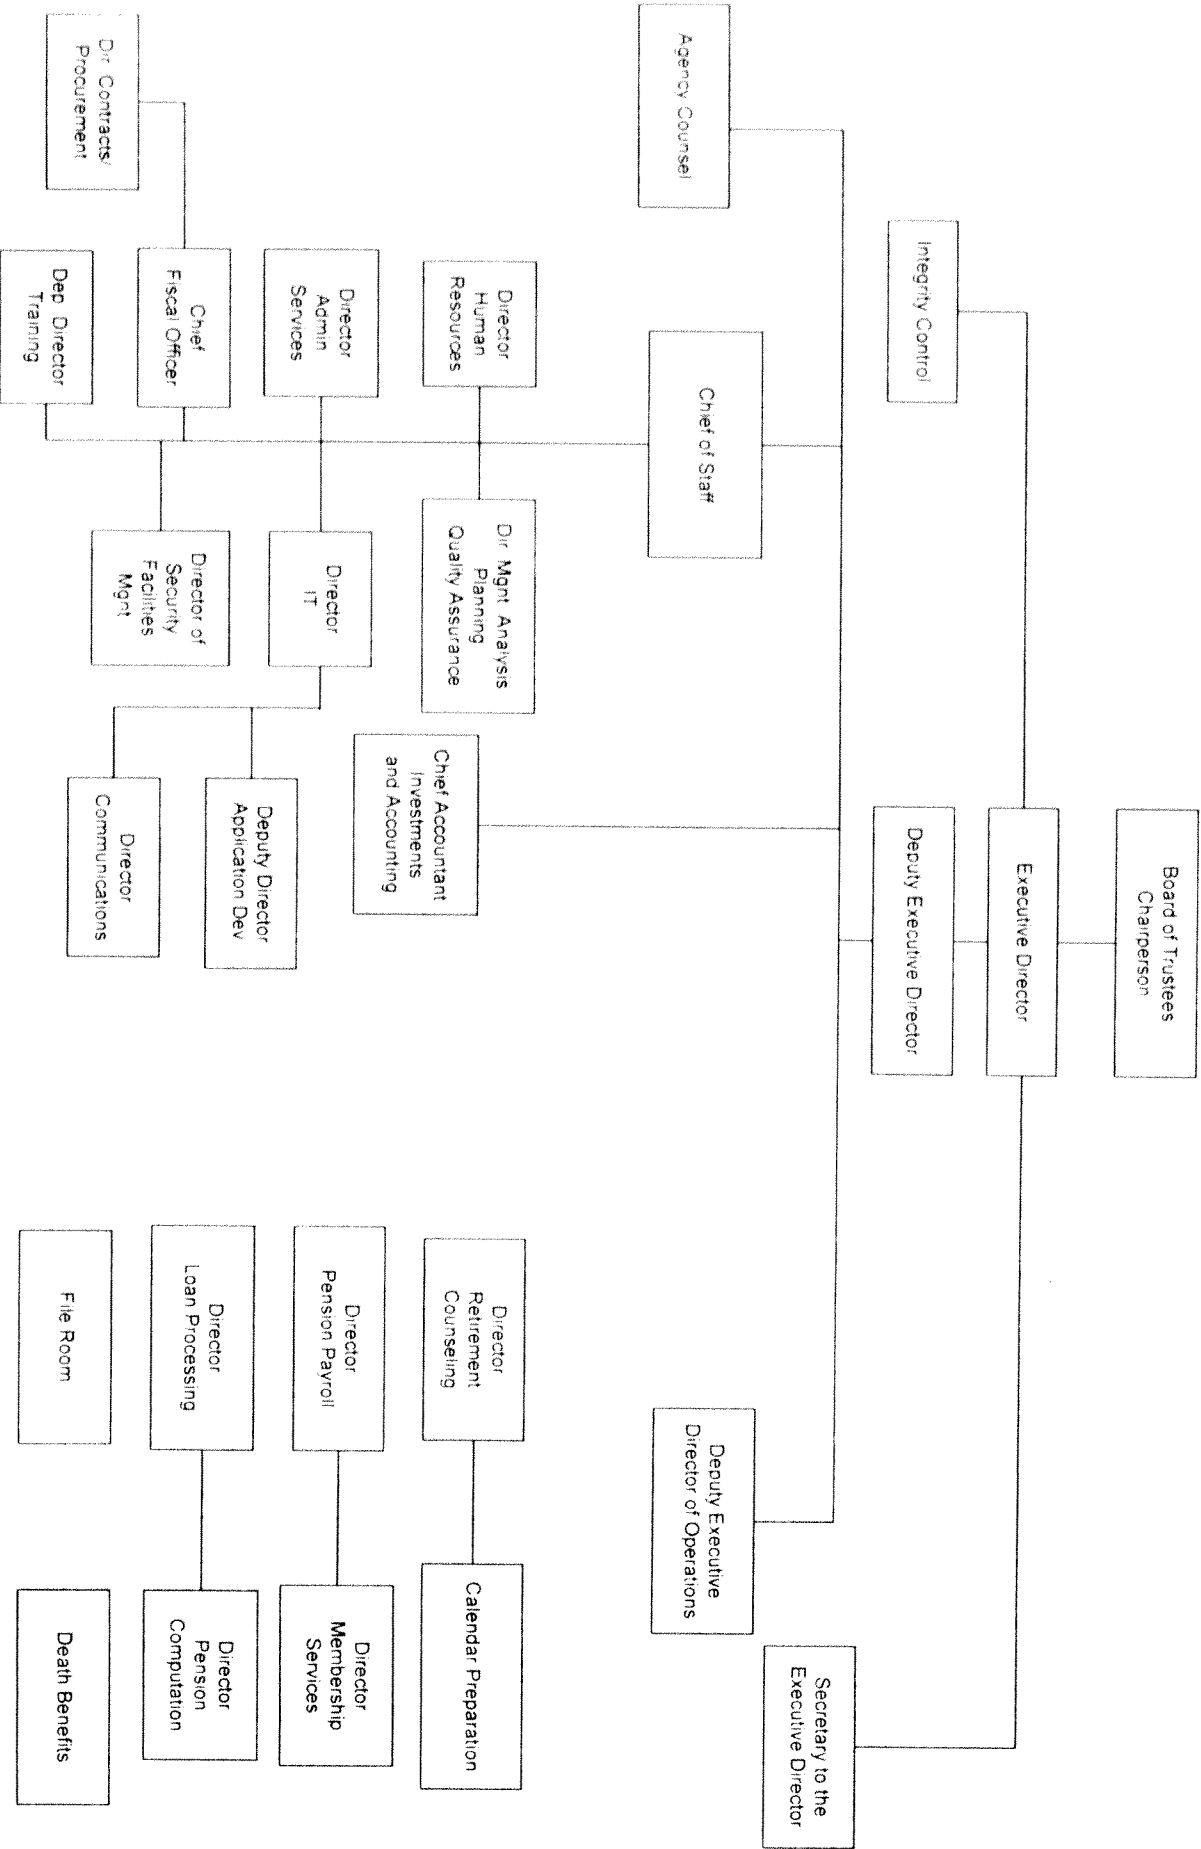

This CAFR is intended to provide sufficient and reliable information that will help serve; as a basis for management decision making, in determining compliance with legal requirements and as a means of indicating stewardship of the assets of the Plan. I am confident that this goal has been achieved.

Respectfully,

Kevin Holloran,
Executive Director.

NYC POLICE PENSION FUND

NEW YORK CITY POLICE PENSION FUND
COMPREHENSIVE ANNUAL FINANCIAL REPORT

A PENSION TRUST FUND OF THE CITY OF NEW YORK

FINANCIAL SECTION

PART II

FISCAL YEAR ENDED

June 30, 2010

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of the
New York City Police Pension Fund

We have audited the accompanying statements of plan net assets of the New York City Police Pension Fund (the "Plan") as of June 30, 2010 and 2009, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets of the Plan as of June 30, 2010 and 2009, and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis and the supplemental schedules, Schedule 1, Schedule 2, and Schedule 3, listed in the table of contents are not a required part of the financial statements, but are supplementary information required by the Governmental Accounting Standards Board ("GASB"). This supplementary information is the responsibility of Plan Management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of such required supplementary information. However, we did not audit this information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of the Plan. The accompanying additional supplementary information as listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. This additional supplementary information is also the responsibility of management. The additional supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Introductory, Investment, Actuarial, Statistical Sections and Schedule 4- Funded Status Based on Entry Age Actuarial Cost Method within the Financial Section are presented for the purpose of additional analysis and are not a required part of the basic financial statements of the Plan. This supplementary information is also the responsibility of Plan management. Such supplementary information has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on it.

NEW YORK CITY POLICE PENSION FUND MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED) JUNE 30, 2010 AND 2009

This narrative discussion and analysis of New York City Police Pension Fund ("Police" or the "Plan"), also known as the New York City Police Department Sub Chapter Two Pension Fund, financial performance provides an overview of the Plan's financial activities for the fiscal years ended June 30, 2010 and 2009. It is meant to assist the reader in understanding the Plan's financial statements by providing an overall review of the financial activities during the years and the effects of significant changes, as well as a comparison with the prior years' activity and results. This discussion and analysis is intended to be read in conjunction with the Plan's financial statements.

OVERVIEW OF BASIC FINANCIAL STATEMENTS

The following discussion and analysis is intended to serve as an introduction to the Plan's basic financial statements. The basic financial statements are:

- **The Statement of Plan Net Assets** - presents the financial position of the Plan at fiscal year-end. It indicates the assets available for payment of future benefits and any current liabilities that are owed as of the statement date. Investments are shown at fair value. All assets and liabilities are determined on an accrual basis.
- **The Statement of Changes in Plan Net Assets** - presents the results of activities during the year. All changes affecting the assets and liabilities of the Plan are reflected on an accrual basis when the activity occurred, regardless of the timing of the related cash flows. In that regard, changes in the fair values of investments are included in the year's activity as net appreciation (depreciation) in fair value of investments.
- **The Notes to Financial Statements** - provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes present information about the Plan's accounting policies, significant account balances and activities, material risks, obligations, contingencies and subsequent events, if any.

Required Supplementary information - as required by the Governmental Accounting Standards Board (GASB) is presented after the Notes to the financial statements. The financial statements are prepared in accordance with GASB Pronouncements.

FINANCIAL HIGHLIGHTS

The Plan's net assets held in trust for pension benefits increased by \$2.6 billion, or 15% to \$20.0 billion in fiscal year 2010 compared to fiscal year 2009, and decreased by \$3.6 billion, or 17% to \$17.4 billion in fiscal year 2009 compared to fiscal year 2008. The Plan net assets held in trust for pension benefits increased in fiscal year 2010 due to the significant increase in the fair value of investments and the continued growth of the national economy. The decrease in Plan net assets in fiscal year 2009 was due to the slumping housing market that emerged, as a major potential threat to the financial markets with rising defaults on subprime mortgage loans. This undermined investor confidence in asset backed securities and the financial institutions that issued or held them.

Changes in Plan Net Assets
Years ended June 30, 2010, 2009 and 2008
(in thousands)

Additions:	2010	2009	2008
Member Contributions	\$ 222,711	\$ 211,559	\$ 143,755
Employer Contributions	1,980,066	1,932,150	1,797,824
Net Investment Income	480,455	533,039	580,923
Net appreciation (depreciation) in fair value of investments	1,802,617	(4,470,872)	(1,562,108)
Net receipts from other retirement systems	3,060	3,759	4,008
Total additions	4,488,909	(1,790,365)	964,402
Deductions:			
Benefit payments and withdrawals	1,911,331	1,830,032	1,793,656
Administrative expenses	16,518	16,580	15,205
Total deductions	1,927,849	1,846,612	1,808,861
Net Increase (Decrease) in Plan Net Assets	\$ 2,561,060	\$ (3,636,977)	\$ (844,459)

During fiscal year 2010 member contributions increased by 5% to \$ 222.7 million, above fiscal year 2009 contributions of \$ 211.6 million. During fiscal year 2009 member contributions increased by 47% to \$211.6 million, above fiscal year 2008 contributions of \$143.8 million. The higher percentage in member contributions for the current year was due to higher overall salaries earned by the participants.

Employer contributions received in fiscal year 2010 were \$1.98 billion, an increase of 2% over fiscal year 2009 contributions of \$ 1.93 billion. Employer contributions received in fiscal year 2009 were \$1.93 billion, an increase of 7% over fiscal year 2008 contributions of \$1.80 billion. Employer contributions are statutory, based on the actuarial valuation performed for the respective fiscal year.

Plan benefits and withdrawals were \$1.91 billion, \$1.83 billion and \$ 1.79 billion for the fiscal years ended June 30, 2010, 2009 and 2008 respectively. The increase is primarily due to the additional pension benefits costs.

In fiscal year 2002, Chapter 292 of the New York State Laws of 2001 provided the Plan with Corpus Funding for administrative expenses. In fiscal year 2010, the Plan incurred \$16.5 million; in fiscal year 2009, the Plan incurred \$16.6 million; and in fiscal year 2008, the Plan incurred \$15.2 million administrative expenses.

PLAN NET ASSETS

In fiscal year 2010 the Plan experienced a 15% upward movement due to an increase in fair value of investments. In fiscal years 2009 and 2008, the plan experienced a 17% and 4% downward movement, respectively, due to the significant decrease in fair value of investments.

Plan Net Assets June 30, 2010, 2009 and 2008 (in thousands)	2010	2009	2008
Cash	\$ 15,328	\$ 30,980	\$ 28,222
Receivables	1,137,627	1,140,635	909,154
Investments, at fair value	21,091,635	17,810,464	21,598,972
Collateral from securities lending	1,884,722	2,028,510	3,095,410
Other Assets	9,401	7,090	4,966
Total Assets	24,138,713	21,017,679	25,636,724
Accounts Payable	2,263,918	1,560,156	1,475,324
Payables for Securities Lending Transactions	1,889,681	2,033,469	3,100,369
Total Liabilities	4,153,599	3,593,625	4,575,693
Plan Net Assets Held In Trust for Benefits	\$ 19,985,114	\$ 17,424,054	\$ 21,061,031

The Plan's receivables and payables related to Investment Securities are primarily generated through the timing of differences between the trade and settlement dates for investment securities purchased or sold.

Investment Summary Fair Value (in thousands)

Type of Investment	June 30, 2010	June 30, 2009	June 30, 2008
Short-term investments	\$ 1,428,704	\$ 567,138	\$ 588,989
U.S. Debt Securities	5,671,768	5,245,731	5,623,100
Yankee Bonds	26,045	69,462	86,855
Promissory Notes	8,872	8,492	9,413
U.S. Equity Securities	7,998,560	6,796,065	8,874,941
Mutual Funds-Mortgage	106,807	78,850	72,145
Treasury Inflation-Protected Securities	547,434	498,286	618,370
International Equity	3,431,883	3,104,566	4,409,746
Security Lending Transactions	1,884,722	2,028,510	3,095,410
Private Equity	1,871,562	1,441,874	1,315,413
Total	\$ 22,976,357	\$ 19,838,974	\$ 24,694,382

Due to the long-term nature of the Plan's liabilities, the assets are invested with a long-term investment horizon. Assets are invested in a diversified portfolio of capital market securities. Investments in these assets are expected to produce higher returns, but are also subject to greater volatility and may produce negative returns. For example, the Russell 3000 Index, a broad measure of the United States Stock market, in fiscal years 2010 and 2009 gained 15.72% and lost 26.57%, respectively. Also in 2010, the Europe, Australia, and Far East international index gained 5.92%, and in 2009, the Europe, Australia, and Far East international index lost 31.36%. In fiscal year 2010, the less-developed international market gained 23.48%; and in fiscal year 2009, the less-developed international market lost 27.81%. The returns of the Fund have been consistent with the broad market trend. For the three-year period ended June 30, 2010, the overall rate of return on investments was a loss of 4.14%, for the five-year period the overall rate of return was a gain of 2.98%, and for the ten-year period there was a gain of 2.67%.

Assets are invested long-term for the benefit of the Plan's participants and their beneficiaries. All investments are managed by registered investments advisors, pursuant to applicable laws and to guidelines issued by the Comptroller. Collectively, the investments utilize thirty one domestic equity managers, fourteen international equity managers, six emerging market managers, five enhanced yield managers, two internal managers, three treasury inflation protected security investment managers, five opportunistic equity strategies managers, one hundred thirty seven private equity managers, thirty six private real estate managers and three convertible bonds managers, one opportunistic FI manager and one global FI manager. Assets are allocated in accordance with plan policy adopted periodically by the Plan's Board of Trustees. The percentage in each category is determined based on a study indicating the probable rates of return and levels of risk for various assets' allocations. The actual allocation may vary from this policy mix as market values shift and as investments are added or terminated.

NEW YORK CITY POLICE PENSION FUND

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009

I. PLAN DESCRIPTION

The City of New York ("The City") maintains a number of pension systems providing benefits for employees of its various agencies (as defined within New York State ("State") statutes and City laws). The City's five major actuarially-funded pension systems are the New York City Police Pension Fund (the "Plan"), the New York City Employees' Retirement System (NYCERS), the Teachers' Retirement System of the City of New York -- Qualified Pension Plan (TRS), the New York City Board of Education Retirement System -- Qualified Pension Plan (BERS) and the New York City Fire Department Pension Fund (FIRE). Each pension system is a separate Public Employee Retirement System (PERS) with a separate oversight body and is financially independent of the others.

In conjunction with the establishment of an administrative staff separate from the New York City Police Department, in accordance with Chapter 292 of the Laws of 2001, the New York City Police Department, SubChapter Two Pension Fund, is generally being referred to herein as the New York City Police Pension Fund, as set forth in Administrative Code of the City of New York Section 13-214.1.

The Plan is a single-employer PERS. The Plan provides pension benefits for full-time uniformed employees of the New York City Police Department (the "Employer"). All full-time uniformed employees of the New York City Police Department become members of the Plan upon employment.

The Plan functions in accordance with existing State statutes and City laws. It combines features of a defined benefit pension plan with those of a defined contribution pension plan. Contributions are made by the Employer and the members.

In June 1991, the Governmental Accounting Standards Board (GASB) issued Statement No. 14, *The Financial Reporting Entity*. The definition of the reporting entity is based primarily on the notion of financial accountability. In determining financial accountability for legally separate organizations, the Plan considered whether its officials appoint a voting majority of an organization's governing body and is either able to impose its will on that organization or if there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the Plan. The Plan also considered whether there are organizations that are fiscally dependent on it. It was determined that there are no component units of the Plan.

The Plan is included in the Pension and Other Employee Benefit Trust Funds section of The City's Comprehensive Annual Financial Report (CAFR).

At June 30, 2008 and 2007, the dates of the Plan's most recent actuarial valuations, the Plan's membership consisted of:

	2008	2007
Retirees and beneficiaries receiving benefits	44,290	43,731
Terminated vested members not yet receiving benefits	813	777
Other inactives*	2,168	2,636
Active members receiving salary	<u>35,337</u>	<u>34,956</u>
Total	<u>82,608</u>	<u>82,100</u>

* Represents members who are no longer on payroll but not otherwise classified.

Under the One-Year Lag Methodology (OYLM) in effect for Fiscal Years beginning 2006, the actuarial valuation determines the Employer Contribution for the second following Fiscal Year. June 30, 2008 and 2007, are the dates used for calculating Fiscal Year 2010 and 2009 Employer Contributions, respectively.

The Plan provides three main types of retirement benefits: service retirements, ordinary disability retirements (non job-related disabilities) and accident disability retirements (job-related disabilities). For Tier I (Tier 1) and Tier II (Tier 2) members, the Plan generally provides:

- A service retirement benefit provides an allowance of one-half of final salary after 20 years or 25 years of service (as elected), with additional benefits equal to a specified percentage per year of service (currently approximately 1.67%) of average salary times the number of years of service in excess of the 20-year or 25-year minimum. These additional benefits are increased, where applicable, by an annuity attributable to member contributions with respect to service over the 20-year or 25-year minimum and by any benefits attributable to the Increased-Take-Home-Pay (ITHP) contributions accumulated after such qualifying service. ITHP represents amounts contributed by The City in lieu of members' own contributions. These amounts reduce the contributions that members would have to make to the Plan during their service and thereby increase their take-home pay. Members have the choice of waiving their ITHP reduction, which would reduce their take-home pay, but provide them with additional benefits upon retirement.
- An ordinary disability retirement benefit generally provides a pension equal to 1/40 of final salary times the number of years of service but not less than one-half of final salary if ten or more years of service were completed, or one-third of final salary if less than ten years of service were completed.
- An accident disability retirement benefit provides a pension of three-fourths of final salary plus an increment as described above based on years of service in excess of the 20-year or 25-year minimum plus an annuity based on the member's contributions with accumulated interest and the amount accumulated under the ITHP program.

Annuities attributable to member contributions are reduced on an actuarial basis for any loans with unpaid balances outstanding at the date of retirement.

Chapter 659 of the Laws of 1999 reduced the amount of service credit needed for vesting purposes to five years, subject to certain conditions. In addition, the Plan includes provisions for death benefits.

During the Spring 2000 session, the State Legislature approved and the State Governor ("Governor") signed laws that provide automatic Cost-of-Living Adjustments (COLA) for certain retirees and beneficiaries (Chapter 125 of the Laws of 2000), an increase of the ITHP contribution rate to 5.0% from 2.5% for certain Tier 1 and Tier 2 members (Chapter 373 of the Laws of 2000) and a revised definition of salary to be used in the computations of certain Tier 2 benefits (Chapter 372 of the Laws of 2000).

Finally, certain service retirees also receive supplemental benefits under the New York City Police Department Variable Supplements Funds, which are not included in these financial statements.

The New York State Constitution provides that the pension rights of public employees are contractual and shall not be diminished or impaired. In 1973, amendments were made to the State Retirement and Social Security Law (RSSL) to modify certain benefits for employees joining the Plan on or after the effective date of such amendments. These amendments, which affect employees who joined the Plan on and after July 1, 1973, established certain benefit limitations relating to eligibility for retirement, the salary base for benefits and maximum benefits. Recent laws, including but not limited to Chapter 372 of the Laws of 2000 which provides a revised definition of salary base to be used in the computation of certain benefits for Tier 2 members of the Plan and Chapter 589 of the Laws of 2001 which eliminated the Tier 2 maximum 30 years of service limitation, have lessened these limitations.

Tier III (Tier 3) – In June of 2009, the Governor vetoed legislation that would have extended Tier II (Tier 2) to members hired after June 30, 2009. As a result of the Governor's veto, POLICE members hired on and after July 1, 2009 are covered under Tier III (Tier 3).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

Basis of Accounting — The Plan uses the accrual basis of accounting where the measurement focus is on the flow of economic resources. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred. Contributions from members are recognized when the employer makes payroll deductions from Plan members. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Investment Valuation — Investments are reported at fair value. Securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold. Fair value is defined as the quoted market value on the last trading day of the period, except for the Short-Term Investment Fund (STIF) (a money market fund), International Investment funds (the IIF) and Alternative Investment funds (the ALTINVF). The IIF are private funds of publicly traded securities which are managed by various investment managers on behalf of the Plan. Fair value is determined by Plan management based on information provided by the various investment managers. The investment managers determine fair value using the last available quoted price for each security owned adjusted by any contributions to or withdrawals from the fund during the period. The ALTINVF are Investments for which exchange quotations are not readily available and are valued at estimated fair value as determined in good faith by the General Partner (GP). These investments are initially valued at cost with subsequent adjustments that reflect third party transactions, financial operating results and other factors deemed relevant by the GP. Fair value is determined by plan management based on information provided by the various GP's after review by an independent consultant and the custodian bank for the fund.

Purchases and sales of securities are reflected on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis.

No investment in any one security represents 5% or more of the Plan net assets held in trust for benefits.

Income Taxes — Income earned by the Plan is not subject to Federal income tax.

Accounts Payable — Accounts payable is principally comprised of amounts owed to the Plan's banks for overdrawn bank balances. The Plan's practice is to fully invest cash balances in most bank accounts on a daily basis. Overdrawn balances result primarily from outstanding benefit checks that are presented to the banks for payment on a daily basis and these balances are routinely settled each day.

Securities Lending Transactions — State statutes and Board policies permit the Plan to lend its investments to broker-dealers and other entities for collateral, for the same securities in the future with a simultaneous agreement to return the collateral in the form of cash, treasury and U.S. Government securities. The Plan's custodian lends the following types of securities: short-term securities, common stock, long-term corporate bonds, U.S. Government and U.S. Government agency bonds, asset-backed securities and international equities and bonds held in collective investment funds. In return, it receives collateral in the form of cash, U.S. Treasury and U.S. Government agency securities at 100% to 105% of the principal plus accrued interest for reinvestment. At June 30, 2010 and 2009, management believes, the Plan had no credit risk exposure to borrowers because the amounts the Plan owed the borrowers equaled or exceeded the amounts the borrowers owed the Plan. The contracts with the Plan's custodian require borrowers to indemnify the Plan if the borrowers fail to return the securities and if the collateral is inadequate to replace the securities loaned or fail to pay the Plan for income distributions by the securities' issuers while the securities are on loan. All securities loans can be terminated on demand within a period specified in each agreement by either the Plan or the borrowers. Cash collateral is invested in the lending agents' short-term investment pools, which have a weighted average maturity of 90 days. The underlying fixed income securities, which comprise these pools, have an average maturity of 10 years.

During Fiscal Year 2003, the value of certain underlying securities became impaired because of the credit failure of the issuer. Accordingly, the carrying amount of the collateral reported in the Plan's statements of plan net assets for Fiscal Year 2003 was reduced by \$15 million to reflect this impairment and reflect the net realizable value of the securities purchased with collateral from securities lending transactions. In May 2004, the Plan received \$1.1 million from a distribution in bankruptcy proceedings from the defaulted issuer. In August 2004, the Plan received \$2.8 million as partial settlement from parties involved in the initial purchase of the impaired security. In fiscal years ended June 30, 2008, 2007 and 2006, the Plan also received a partial settlement of \$3.3 million, \$1.3 million, and \$871 thousand, respectively, from the parties involved in the initial purchase of the impaired security. In fiscal years ended 2010 and 2009, the plan received \$0 and \$1,151, respectively. The securities lending program, in which the Plan participates, only allows pledging or selling securities in the case of borrower default.

GASB Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*, requires that securities loaned as assets and related liabilities be reported in the statement of plan net assets. Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. Securities received as collateral are also reported as assets if the government entity has the ability to pledge or sell them without a borrower default. Accordingly, the Plan recorded the investments purchased with the cash collateral as collateral from securities lending with a corresponding liability for securities lending. Securities on loan are carried at market value and the value as of June 30, 2010 was \$2.0 billion. As of the balance sheet date the maturities of the investments made with cash collateral, on average, exceed the maturities of the securities loans by approximately 30 days.

3. INVESTMENTS AND DEPOSITS

The Comptroller of The City of New York (the "Comptroller") acts as an investment advisor to the Plan. In addition, the Plan employs an independent investment consultant as an investment advisor. The Plan utilizes several investment managers to manage the long-term debt and equity portfolios. The managers are regularly reviewed, with regard to both their investment performance and their adherence to investment guidelines.

Concentration of Credit Risk — The Plan does not have any investments in any one entity that represent 5% or more of plan net assets.

The legal requirements for Plan investments are as follows:

Fixed income, equity and other investments may be made as permitted by New York State RSSL §§176–178(a) and Banking Law § 235, the New York City Administrative Code, and the Legal Investments for New York Savings Banks list as published by The New York State Banking Department, subject to Note 3(b).

Investments up to 25% of total pension fund assets may be made in instruments not expressly permitted by the State RSSL.

The Bank of New York Mellon (BNYM) is the primary custodian for substantially all of the securities of the Plan.

Cash deposits are insured by the Federal Deposit Insurance Corporation for up to \$250,000 per Plan member and are, therefore, fully insured.

Credit Risk – Portfolios, other than U.S. Government and related portfolios, have credit rating limitations. Investment Grade portfolios are limited to mostly ratings of BBB and above except that they are also permitted a 10% maximum exposure to BB & B rated securities. While non-investment grade managers are primarily invested in BB & B rated securities, they can also invest up to 7% of their portfolio in securities rated CCC. Non-rated securities are considered to be non-investment grade. The quality ratings of investments, by percentage of the rated portfolio, as described by nationally recognized statistical rating organizations, at June 30, 2010 and 2009, are as follows:

Investment Type*	S&P Quality Ratings									
	AAA	AA	A	BBB	BB	B	CCC & Below	Short term	Not Rated	Total

* U.S. Treasury bonds, notes and treasury-inflation protected securities are obligations of the U.S. government or explicitly guaranteed by the U.S. government and therefore not considered to have credit risk and are not included above.

Custodial Credit Risk – Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

Consistent with the Plan's investment policy, the investments are held by the Plan's custodian and registered in the Plan's name.

All of the Plan's deposits are insured and or collateralized by securities held by a financial institution separate from the Plan's depository financial institution.

All of the Plan's securities are held by the Plan's custodial bank in the Plan's name.

Interest Rate Risk – Interest rate risk is the risk that the fair value of investments could be adversely affected by the change in interest rates. Duration limits are used to control the portfolios exposure to interest rate changes. Duration is limited to a range of -1 to .75 years. Duration range is a measure of the overall portfolio, while statements of the stated maturity reflect the specific maturities of the individual securities held. The lengths of investment maturities (in years), as shown by the percent of the rated portfolio, at June 30, 2010 and 2009, are as follows:

Years to Maturity 2010	Investment Maturities				
	Fair Value	Less Than One Year	One to Five Years	Six to Ten Years	More Than Ten Years
U.S. Government	42.32 %	0.24 %	1.08 %	6.73 %	34.27 %

4. DUE TO VARIABLE SUPPLEMENTS FUNDS (VSFS)

The Administrative Code of the City of New York (ACNY) provides that the Plan transfer to the Police Officers' Variable Supplements Fund (POVSF) and the Police Superior Officers' Variable Supplements Fund (PSOVSF) amounts equal to certain excess earnings on equity investments of the Plan, if any.

These excess earnings are defined as the amount by which earnings on equity investments of the Plan exceed what the earnings would have been had such funds been invested at a yield comparable to that available from fixed income securities, less any cumulative deficiencies of prior years' excess earnings that fell below the yield of fixed income investments. In addition, such transfers from the Plan to the POVSF and PSOVSF are limited to the unfunded Accumulated Benefit Obligation (ABO) of these VSFs.

For Fiscal Year 2010, the excess earnings of the Plan, inclusive of prior years' cumulative deficiencies, are estimated to be equal to zero and therefore, no transfers will be due from the Plan to the VSFs as of June 30, 2010.

For Fiscal Year 2009, the excess earnings of the Plan, inclusive of prior years' cumulative deficiencies, were equal to zero and therefore, no transfers were due from the Plan to the VSFs as of June 30, 2009.

5. CONTRIBUTIONS AND ACTUARIAL ASSUMPTIONS

The financial objective of the Plan is to fund members' retirement benefits during their active service and to establish Employer contribution rates which, expressed as a percentage of annualized covered payroll, will remain approximately level from year to year. Under current law, the Employer contributes statutorily-required contributions ("Statutory Contributions") that together with Member Contributions and investment income would ultimately be sufficient to accumulate assets to pay benefits when due.

Member Contributions — Tier I (Tier 1) and Tier II (Tier 2) members contribute by salary deductions on the basis of a normal rate of contribution which is assigned by the Plan at membership. This member normal rate, which is dependent upon age and actuarial tables in effect at the time of membership, is determined so as to provide approximately one-fourth of the service retirement allowance at the earliest age for service retirement. For Tier 1, the average member normal rate is approximately 7.9%. For Tier 2, the average member normal rate is approximately 7.0%.

These member contribution rates are reduced by 5.0% under the IHHP program.

Members may voluntarily increase their rates of contribution by 50% for the purpose of purchasing an additional annuity. Members are permitted to borrow up to 90% of their own contributions including accumulated interest.

Tier III or Tier 3 - In June of 2009 the Governor vetoed legislation that would have extended Tier II (Tier 2) to members hired after June 30, 2009. As a result of the Governor's veto, POLICE members hired on and after July 1, 2009 are covered under Tier III (Tier 3).

Tier III (Tier 3) members contribute 3.0% of salary until they have 25 years of credited service.

Employer Contributions — Statutory Contributions to the Plan, determined by the Plan's Chief Actuary of the Office of the Actuary (the "Actuary") in accordance with State statutes and City laws, are generally funded by the Employer within the appropriate fiscal year.

The June 30, 2008 (Lag) actuarial valuation was used to determine the Fiscal Year 2010 Employer Contribution. There were no changes in actuarial assumptions and methods from the prior actuarial valuation.

The June 30, 2007 (Lag) actuarial valuation was used to determine the Fiscal Year 2009 Employer Contribution. There were no changes in actuarial assumptions and methods from the prior actuarial valuation.

The Frozen Initial Liability Actuarial Cost Method is utilized by the Actuary to calculate the contributions from the Employer. Under this actuarial cost method, the Initial Liability was reestablished by the Entry Age Actuarial Cost Method as of June 30, 1999, but with the Unfunded Actuarial Accrued Liability (UAAL) not less than zero. The excess of the Actuarial Present Value (APV) of projected benefits of members as of the valuation date, over the sum of the Actuarial Asset Value (AAV) plus UAAL, if any, and the APV of future employee contributions, is allocated on a level basis over the future earnings of members who are on the payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.

Chapter 85 of the Laws of 2000 ("Chapter 85/00") reestablished the UAAL and eliminated the Balance Sheet Liability (BSL) for actuarial purposes as of June 30, 1999. The schedule of payments toward the reestablished UAAL provides that the UAAL, if any, be amortized over a period of 11 years beginning Fiscal Year 2000, where each annual payment after the first equals 103% of its preceding annual payment.

The obligation of the Plan to the POVSF and the PSOVSF are recognized through the Liability Valuation Method.

Under this method the APV of Future SKIM from the Plan to the POVSF and PSOVSF is included directly as an actuarial liability to the Plan. SKIM is all or a portion of the excess earnings on equity securities of the Plan which are transferable to the POVSF and PSOVSF. The APV of Future SKIM is computed as the excess, if any, of the APV of benefits of the POVSF and PSOVSF offset by the AAV of the POVSF and PSOVSF, respectively.

Beginning with the June 30, 2004 (Lag) actuarial valuation, the Actuarial Asset Valuation Method (AAVM) was changed to a method which reset the AAV to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

Under this revised AAVM, any Unexpected Investment Returns (UIR) for Fiscal Years 2000 and later are phased into the AAV beginning the following June 30 at a rate of 15%, 15%, 15%, 15%, 20% and 20% per year (or cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

The UIR for Fiscal Years 2000 to 2004 under the revised AAVM was set equal to the UIR under the prior AAVM.

For determining employer contributions for Fiscal Years 2000 through 2005 inclusive, the AAVM was changed as of June 30, 1999, to reflect a market basis for investments held by the Plan. This AAVM recognized expected investment returns immediately and phased in UIR.

Under this prior AAVM, any UIR for Fiscal Years 2000 through 2004, inclusive, were phased into the AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., cumulative rates of 10%, 25%, 45%, 70% and 100% over a period of five years).

Chapter 125 of the Laws of 2000 ("Chapter 125/00") provided eligible retirees and eligible beneficiaries with increased Supplementation as of September 2000 and with automatic Cost-of-Living Adjustments (COLA) beginning September 2001. Chapter 125/00 also provided for a five-year phase-in schedule for funding the additional actuarial liabilities created by the benefits provided by this law. Chapter 278 of the Laws of 2002 ("Chapter 278/02") required the Actuary to revise the methodology and timing for determining the Statutory Contributions on account of the additional actuarial liabilities attributable to the benefits provided under Chapter 125/00 by extending the phase-in period for funding these liabilities from five years to ten years.

The impact of the ten-year phase-in of Chapter 278/02 was to postpone funding of the additional actuarial liabilities attributable to Chapter 125/00 resulting in greater Employer Contributions in later years.

Chapter 152 of the Laws of 2006 (Chapter 152/06) eliminated the ten-year phase-in. All actuarial liabilities attributable to Chapter 125/00 are now recognized in the actuarial valuation.

Statutory Contributions for Fiscal Years 2010 and 2009 were equal to the amounts calculated by the Actuary.

Funded Status and Funding Progress — One measure of the funded status of the Plan as of June 30, 2008, the most recent actuarial valuation date, based on the Frozen Initial Liability Actuarial Cost Method, the plan's funding method, is as follows (dollar amounts in thousands):

Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
\$21,393,152	\$21,393,152	\$ 0	100%	\$3,095,904	0.0%

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits under the Plan's Actuarial Cost Method.

An additional schedule of funding progress, presented as supplementary information following the notes to the financial statements, presents multiyear trend information about whether actuarial values of plan assets are increasing or decreasing over time relative to AALs for benefits under the Entry Age Actuarial Cost Method.

Additional information as of the latest actuarial valuation follows:

Valuation Date	June 30, 2008 (Lag)
Actuarial Cost Method	Frozen Initial Liability
Amortization Method Initial Unfunded	Increasing Dollar
Remaining Amortization Period Initial Unfunded	NA
Asset Valuation Method	6-Year Smoothed Market
Actuarial Assumptions Projected Salary Increases *	In general, merit and promotion increases plus assumed general wage increases of 3.0% per year.
Investment Rate of Return *	8.0% per annum
COLAs *	1.3% per annum

* Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per annum.

6. MEMBER LOANS

Members are permitted to borrow up to 90% of their own contributions, including accumulated interest. The balance of member loans receivable at June 30, 2010 and 2009, is \$278.8 million and \$265.4 million, respectively. Upon termination of employment before retirement, certain members are entitled to refunds of their own contributions, including accumulated interest, less any loans outstanding. As a result of a review of all member accounts, there were no prior year loans due from retired or inactive employees were deemed uncollectible in Fiscal Years 2010 and 2009.

7. RELATED PARTIES

The Comptroller has been appointed by law as custodian for the assets of the Plan. Securities are held by certain banks under custodial agreements with the Comptroller. The Comptroller also provides cash receipt and cash disbursement services to the Plan. Actuarial services are provided to the Plan by the Office of the Actuary employed by the Boards of Trustees of the City's main pension systems. The City's Corporation Counsel provides legal services to the Plan. Other administrative services are also provided by The City. The aforementioned services may be provided by employees or officers of The City who may also be participants in the Plan. The cost of providing such services amounted to \$5,216,455 and \$4,533,930 in Fiscal Years 2010 and 2009, respectively.

8. ADMINISTRATIVE AND INVESTMENT EXPENSES

Chapter 292 of the Laws of 2001 provides Corpus Funding of administrative expenses for the Plan commencing July 1, 2001, and allows for the appointment of an executive director for the Plan. In Fiscal Year 2010, total non-investment expenses attributable to the Plan were approximately \$21.7 million, of which \$16.5 million were paid from the assets of the Plan and \$5.2 million were paid by The City on behalf of the Plan. In Fiscal Year 2009, total non-investment expenses attributable to the Plan were approximately \$21.6 million, of which \$16.6 million were paid from the assets of the Plan and \$5.0 million were paid by The City on behalf of the Plan. Investment expenses charged to the investment earnings of the Plan, exclusive of expenses relating to securities-lending transactions, amounted to approximately \$90.1 million in 2010 and \$73.7 million in 2009.

In July 2011, the Plan renegotiated its lease agreement to rent office space. The agreement will expire in Fiscal Year 2031. The future minimum rental payments required under this operating lease are as follows:

Fiscal Years Ending	Amount
2011	\$ 1,889,213
2012	1,882,556
2013	1,882,556
2014	1,882,556
2015	1,882,556
2016 to 2020	10,252,144
2021 to 2025	11,095,084
2026 to 2030	12,217,796
2031	52,570

9. CONTINGENT LIABILITIES AND OTHER MATTERS

Contingent Liabilities — The Plan has claims pending against it and has been named as defendant in lawsuits and also has certain other contingent liabilities. Management of the Plan, on the advice of legal counsel, believes that such proceedings and contingencies will not have a material effect on the Plan's net assets or changes in the Plan's net assets. Under the State statutes and City laws that govern the functioning of the Plan, increases in the obligations of the Plan to members and beneficiaries ordinarily result in increases in the obligations of The City to the Plan.

Other Matters — During Fiscal Years 2010 and 2009, certain events described below took place which, in the opinion of Plan management, could have the effect of increasing benefits to members and/or their beneficiaries and therefore would increase the obligations of the Plan. The effect of such events has not been fully quantified. However, it is the opinion of Plan management that such developments would not have a material effect on the Plan net assets held in trust for pension benefits cause changes in Plan net assets held in trust for pension benefits.

Actuarial Audit — Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of the five actuarially-funded New York City Retirement Systems (NYCRS) are conducted every two years. The most recently completed study was published by The Segal Company (Segal) dated November 2006 and analyzed experience for Fiscal Years 2002 through 2005. Segal made recommendations with respect to the actuarial assumptions and methods based on their analysis.

Currently, the Hay Group (Hay) is conducting a study of actuarial assumptions and analyzing experience for Fiscal Years 2006 through 2009. Hay has completed their study of Fiscal Years 2006 and 2007. An

analysis of experience for Fiscal Years 2008 and 2009 is underway. Hay will recommend changes to the actuarial assumptions and methods in conjunction with the completion of their study of experience for Fiscal Years 2008 and 2009.

The Actuary is currently reviewing results from the Segal and Hay studies in preparation for recommending revised actuarial assumptions and methods.

Revised Actuarial Assumptions and Methods — In accordance with the ACNY and with appropriate practice, the Boards of Trustees of the five actuarially-funded NYCRS are to periodically review and adopt actuarial assumptions as proposed by the Actuary for use in the determination of Employer Contributions.

Based in part upon a review of an October 2003 experience study by Gabriel, Roeder, Smith & Company (GRS), the Actuary issued an August 24, 2005, Report entitled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and After July 1, 2005, for the New York City Police Pension Fund" ("August 2005 Report").

Where required, the Board of Trustees of the Plan adopted those changes to actuarial assumptions that required Board approval and the State Legislature and the Governor enacted Chapter 152/06 to provide for those changes to the actuarial assumptions and methods that required legislation, including the AIR assumption of 8.0% per annum.

New York State Legislation (only significant laws included) — Chapter 104 of the Laws of 2005, as amended by Chapter 93 of the Laws of 2005, created a presumptive eligibility for accidental disability in connection with the World Trade Center attack on September 11, 2001.

Chapter 105 of the Laws of 2005 states that a member killed in the US Armed Forces on and after June 14, 2005 is deemed a Line-of-Duty death while on active payroll.

Chapter 498 of the Laws of 2005 deemed certain prior service as a Peace Officer, Deputy Sheriff and others as qualifying time for all pension purposes.

Chapter 152/06 provided for the changes in actuarial assumptions and methods that require legislation, including the continuation of the AIR assumption of 8.0% per annum and continuation of the current Frozen Initial Liability (FIL) Actuarial Cost Method and the existing Unfunded Actuarial (Accrued) Liability (UAL). In addition, Chapter 152/06 provides for elimination of the use of the ten-year phase-in of Chapter 278/02 for funding the additional actuarial liabilities created by the benefits provided by Chapter 125/00.

Chapter 445 of the Laws of 2006 (Chapter 445/06) created a presumptive eligibility for accidental death benefits in connection with the World Trade Center attack on September 11, 2001.

Chapter 654 of the Laws of 2006 expanded presumptive eligibility for Line-of-Duty accidental disability and accidental death benefits to include strokes effective from January 1, 2002.

Chapter 713 of the Laws of 2006 provided that retired Police members who are appointed to the Office of NYC Marshall will have no reduction or suspension of retirement allowance.

Chapter 5 of the Laws of 2007 amended Chapter 445/06 to clarify the World Trade Center accidental disability benefits payable to retirees who die in the first 25 years of retirement. It also amended

Chapter 445/06 to include World Trade Center deaths as presumptive accidental death benefits in the Line-of-Duty.

Chapter 489 of the Laws of 2008 expanded and redefined the eligibility provisions of the accidental disability and accidental death benefits that arise in connection with the World Trade Center attack on September 11, 2001.

Chapter 211 of the Laws of 2009 continued the valuation and other interest rates for one year to June 30, 2010 from June 30, 2009.

Chapter 265 of the Laws of 2010 continued the valuation and other interest rates for one year to June 30, 2011 from June 30, 2010.

Tier III (Tier 3) – In June of 2009 the Governor vetoed legislation that would have extended Tier II (Tier 2) to members hired after June 30, 2009. As a result of the Governor's veto, POLICE members hired on and after July 1, 2009 are covered under Tier III (Tier 3).

2005 (Lag)	18,767,256	18,767,256	0	100.0	2,812,930	0
2004 (Lag) [#]	18,735,134	18,735,134	0	100.0	2,757,662	** 0
2004	18,510,638	18,510,638	0	100.0	2,460,750	0

* Based on the Frozen Initial Liability Actuarial Cost Method.

[#] Reflects revised actuarial assumptions and methods based on experience review.

** The annualized covered payroll under the One-Year Lag Methodology used for the Fiscal Year 2006 Employer Contribution differs from that as of June 30, 2004, to compute Fiscal Year 2005 Employer Contribution due to changes in actuarial assumptions and methods and more recent information on labor contract settlements.

Notes:

A. Beginning with the June 30, 2004 (Lag) actuarial valuation, the Actuarial Asset Valuation Method (AAVM) was changed to a method which reset the AAV to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

Under this revised AAVM, any Unexpected Investment Returns (UIR) for Fiscal Years 2000 and later are phased into the AAV beginning the following June 30, 2000 at rates of 15%, 15%, 15%, 15%, 20%, and 20% per year (or cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

The UIR for Fiscal Years 2000 to 2004 under the revised AAVM was set equal to the UIR under the prior AAVM.

The prior AAVM was changed as of June 30, 1999, to reflect a market basis for investments held by the Plan and was made as one component of an overall revision of actuarial assumptions and methods as of June 30, 1999.

(Schedule of Funding Progress continued)

Under the AAVM used for the June 30, 1999 to June 30, 2004 actuarial valuations, any UIR for Fiscal Years 2000 and later were phased into the AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., cumulative rates of 10%, 25%, 45%, 70% and 100% over a period of five years).

- B. To effectively assess the funding progress of the Plan, it is necessary to compare the AAV and the AAL, calculated in a manner consistent with the Plan's funding method over a period of time. The AAL is the portion of the Actuarial Present Value of pension plan benefits and expenses which is not provided for by future Employer normal costs and future Member Contributions.
- C. The UAAL is the excess of the AAL over the AAV. This is the same as the unfunded frozen AAL, which is not adjusted from one actuarial valuation to the next to reflect actuarial gains and losses.

(Schedule of Funding Progress concluded)

NEW YORK CITY POLICE PENSION FUND

SCHEDULE 2

**REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)
SCHEDULE OF EMPLOYER CONTRIBUTIONS
(In thousands)**

Fiscal Years Ended June 30	Annual Required Contribution (ARC)	Percentage of ARC Contributed	Net Pension Obligation
2010	\$1,980,996	100.0%	\$ 432,412
2009	1,932,150	100.0	458,751
2008	1,797,824	100.0	485,493
2007	1,544,341	100.0	513,301
2006	1,337,715	100.0	543,955
2005	1,123,939	91.9	579,052

Under the requirements of Governmental Accounting Standards Board Statement Number 25 ("GASB 25"), as amended by GASB Statement No. 50 ("GASB 50"), the Annual Required Contribution (ARC) is determined through an actuarial valuation reflecting all liabilities of the Plan. The Employer Contribution to the Plan is determined in accordance with statute (i.e., Statutory Contribution).

For Fiscal Year 2005, the difference between the ARC and the Statutory Contribution is the consequence of Chapter 278/02 which phased-in over 10 years the additional actuarial liabilities attributable to the benefits provided by Chapter 125/00 (i.e., automatic COLA). The Statutory Contribution of \$1,033.3 million for Fiscal Year 2005 was computed in accordance with Chapter 278/02.

Chapter 152/06 eliminated the use of the ten-year phase-in of Chapter 278/02 beginning Fiscal Year 2006.

NEW YORK CITY POLICE PENSION FUND

REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)
SCHEDULE OF ACTUARIAL METHODS AND ASSUMPTIONS

The information presented in the required supplementary schedules was determined as part of the actuarial valuations as of June 30, 2008 (Lag) and June 30, 2007 (Lag). These actuarial valuations were used to determine Employer Contributions for Fiscal Years 2010 and 2009, respectively. Additional information as of the last two actuarial valuations follows:

	June 30, 2008 (Lag) ¹	June 30, 2007 (Lag) ¹
Actuarial cost method	Frozen Initial Liability ²	Frozen Initial Liability ²
Amortization method for Unfunded Actuarial Accrued Liabilities	Not applicable ³	Not applicable ³
Remaining amortization period	Not applicable ³	Not applicable ³
Actuarial asset valuation method	Modified six-year moving average of market values with "market value restart" as of June 30, 1999	Modified six-year moving average of market values with "market value restart" as of June 30, 1999
Actuarial assumptions:		
Assumed rate of return	8.0% per annum ⁴	8.0% per annum ⁴
Post-retirement mortality	Tables adopted by Board of Trustees during Fiscal Year 2006.	Tables adopted by Board of Trustees during Fiscal Year 2006
Active service: withdrawal, death, disability, service retirement	Tables adopted by Board of Trustees during Fiscal Year 2006.	Tables adopted by Board of Trustees during Fiscal Year 2006
Salary increases	In general, merit and promotion increases plus assumed general wage increases of 3.0% per year. ⁴	In general, merit and promotion increases plus assumed general wage increases of 3.0% per year. ⁴
Cost-of-Living Adjustments	1.3% per annum ⁴	1.3% per annum ⁴

- Under the One-Year Lag Methodology, the actuarial valuation determines the Employer Contribution for the second following Fiscal Year.
- Under this Actuarial Cost Method, the Initial Liability was reestablished as of June 30, 1999, by the Entry Age Actuarial Cost Method but with the UAAI, not less than \$0. The financial results using this Frozen Initial Liability Actuarial Cost Method are the same as those that would be produced using the Aggregate Actuarial Cost Method.
- In conjunction with Chapter 85/00, there is an amortization method. However, the June 30, 1999 UAAI for the Plan equaled \$0 and no amortization period was required.
- Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per year.

NEW YORK CITY POLICE PENSION FUND

SUPPLEMENTARY INFORMATION (UNAUDITED)
FUNDED STATUS BASED ON ENTRY AGE ACTUARIAL COST METHOD
(In thousands)

This Schedule is being provided by the Actuary for the Plan to improve the transparency and decision usefulness of this financial report.

The Actuarial Cost Method (ACM) used to develop the funding requirements for the Plan is the Frozen Initial Liability (FIL) ACM. Under this ACM, following establishment of any Initial Unfunded Actuarial Accrued Liabilities (UAAL), actuarial gains and losses are financed over the working lifetimes of active participants and are not identified as separate UAAL.

The funding status and funding progress information provided in this Schedule has been prepared using the Entry Age ACM where the Actuarial Present Value (APV) of any obligations of the Plan not provided by the APV of Future Contributions (Employer and Employee), as determined under the Entry Age ACM, equals the Actuarial Accrued Liability (AAL). Under the Entry Age ACM, the UAAL equals the AAL minus the Actuarial Value of Assets.

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) — Entry Age (b)	Unfunded AAL (UAAL) — Entry Age (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
June 30, 2008 (Lag)	\$ 21,393,152	\$ 30,226,568	\$ 8,833,416	70.8%	\$ 3,095,904	285.3%
June 30, 2007 (Lag)	19,800,553	28,728,913	8,928,360	68.9	2,961,649	301.5
June 30, 2006 (Lag)	18,689,451	26,902,144	8,212,693	69.5	2,816,929	291.5
June 30, 2005 (Lag)	18,767,256	24,852,979	6,085,723	75.5	2,812,930	216.3
June 30, 2004 (Lag)	18,735,134	23,378,380	4,643,246	80.1	2,757,662	168.4

Note: Actuarial assumptions used are those shown in Schedule 3.

NEW YORK CITY POLICE PENSION FUND
COMPREHENSIVE ANNUAL FINANCIAL REPORT

A PENSION TRUST FUND OF THE CITY OF NEW YORK

INVESTMENT SECTION

PART III

FISCAL YEAR ENDED

June 30, 2010

Investment Section

This section is prepared by management from data provided by the Investment Managers. The Comptroller administers the Fund's investments, subject to the management and control of the Board of Trustees. The Board of Trustees has the ultimate responsibility of ensuring that all the assets of the Fund are managed prudently, in compliance with the administrative code of the City of New York and the State Retirement Social Security Laws. The Board monitors and measures market and various other risk factors associated with investments. Independent investment consultants are employed as investment advisors to the Fund. Investment managers are utilized to manage long term debt and equity portfolios and seek to increase investment returns and provide greater safety for the assets of the Fund. The performance of the investment managers is reviewed frequently to insure that their activities in dealing securities are consistent with the best practices in the industry.

Investment Policy

Investment Policy is approved by the Board of Trustees. The New York City Comptroller is the Treasurer, Chief Custodian and Investment Advisor to the Board. The primary objective of the Board is to provide retirement and other benefits for its members.

The Board realizes that increasing investment returns will strengthen the Fund and significantly enhance benefits enjoyed by the members. Increased returns will further assure the safety of assets held in trust for pension benefits. The Investment Policy adopted by the Board of Trustees is one that minimizes credit and market risks while maintaining a competitive yield on the Fund's portfolio. All returns are time-weighted rates of return. For periods greater than one year, returns are analyzed.

Investment Philosophy

The investment philosophy of the Board is influenced by key factors that affect investment and strategy, i.e. Risk Tolerance, Returns, Diversification and Liquidity.

1-Risk Tolerance

The Board shall always act to assure that the level of investment risk in the portfolio will be prudent and not exceed levels that may jeopardize the primary objective.

2>Returns

The Board believes that over the long term there is a relationship between the level of investment risk taken and the rate of investment return realized. In order to enhance the level of returns, the assumption of a moderate level of risks is therefore reasonable and justified.

3-Diversification

The Board seeks diversification through investing in a broad array of instruments in order to reduce overall portfolio risks.

4-Liquidity

The system anticipates positive cash flow over the near and intermediate term. Liquidity requirements for payment of current and intermediate benefits will therefore not be an issue for the future.

Investment Objectives

The Board has adopted the following general investment objectives in order to enhance returns, provide greater benefits and ensure the safety of assets held in trust for benefits.

1. In recognition that obligations of the Fund will increase as a result of inflation, the Board seeks to maximize the total return on assets held in trust for pension benefits, while operating within the bounds of regulatory restrictions and prudent parameters of risk.
2. The Board also aims to protect the system from depreciation of assets during adverse market conditions and to attain a level of return that is competitive, not only with similar funds but also with the wider market. These results are attained through broad diversification, careful review of risks and emphasis on long term results.
3. The Board of Trustees, where possible and not in conflict with other provisions, is interested in increased economic activity in local communities. The Comptroller's Office has made substantial efforts to broaden the Pension Fund's activity in economically targeted investments in the City of New York. This will promote growth in communities while increasing returns. All existing targeted investments are guaranteed by government agencies and earn a rate of return commensurate with risk.

Asset Allocation

The Board's investment policy is implemented using a strategic allocation of assets that meet its objectives, while working within the confines of the Administrative Code of New York City and the State Retirement and Social Security Laws. The code authorizes the investment of Plan Assets, except equities, subject to the terms, conditions, limitations and restrictions imposed by law for investment by Savings Banks. The code imposes specific criteria for Plan investments. Fixed income investments may be made mostly in U.S. Government securities or agencies backed by the U.S. Government, companies rated BBB or better by the Standard and Poor's Corporation or Moody's Investor's Services or in companies on the Legal Investments lists published by the New York State Banking Department.

Equity investments may be made only in stocks that meet the qualifications of the New York State Retirement and Social Security Laws. Short Term Investments may be made in U.S. Government Securities or other securities fully guaranteed by the Government, commercial paper rated A1 or P1 or fully collateralized repurchase agreements. Investments are made in a broad array of financial instruments; including domestic stocks, bonds and international securities, through a collective fund investment vehicle. Diversification of investments provides greater security for the assets held in trust, enabling the Fund to become stronger and to meet its obligation. The policy mix targeted for the Fund in fiscal year 2010 included securities from the following categories: U.S. Equities 40.6%, U.S. Fixed Income (core) 25.2%, International Equities 12.6%, Emerging Markets 4.8%, Enhanced yield (Fixed Income) 4.5%, Private Real Estate 1.6%, Private Equities 6.9%, U.S. Treasury Inflation - Protected Securities 2.8% & cash 1%.

Results

Fiscal year 2010 was a good year for the securities industry and for the Police Pension Fund. The Consolidated Performance report prepared for the Fund through June 30, 2010 indicates the following portfolio returns: the Russell 3000 Index gained 15.72%, NYC Core Plus five gained 10.49%, The Europe, Australia and Far East international index gained 5.92% and the Emerging markets gained 23.48%. It is also noted that total investments of the Police Pension Fund during the year increased from \$19,838,974 thousand to \$22,976,357 thousand. For the same period, total assets increased from \$21,017,679 thousand to \$24,138,713 thousand, while net investment income increased from \$(3,937,833) thousand to \$2,283,072 thousand. Overall, the total portfolio of the Police Pension Fund investments returned 13.74% compared to the policy benchmark of 13.72%.

Other Information

This section includes a list of the Police Pension Fund portfolio's largest investment holdings. A complete list of the portfolio's holdings can be obtained by writing to Anthony J. Garvey, Executive Director, New York City Police Pension Fund, 233 Broadway, New York, NY 10279.

Re: Actuarial Information for the Comprehensive Annual Financial Report ("CAFR") for the Fiscal Year Ended June 30, 2010

Dear Members:

The financial objective of the New York City Police Pension Fund (the "Plan") is to fund members' retirement benefits during their active service and to establish employer normal contribution rates that, expressed as a percentage of active member annualized covered payroll, would remain approximately level over the future working lifetimes of those active members and, together with member contributions and investment income, would ultimately be sufficient to accumulate assets to pay benefits when due.

An actuarial valuation of the Plan is performed annually as of the second June 30 preceding each fiscal year to determine the Employer Contributions to be paid for that fiscal year (i.e., June 30, 2008 (Lag) actuarial valuation to determine Fiscal Year 2010 Employer Contributions).

Under current law, the City of New York is required to contribute statutorily-required contributions ("Statutory Contributions") and these contributions are generally funded by the City of New York within the appropriate fiscal year.

Statutory Contributions for Fiscal Year 2010 were equal to the Annual Required Contributions as defined under Governmental Accounting Standards Board ("GASB") Statement Number 25 ("GASB 25") as amended by GASB Statement No. 50 ("GASB 50").

The Annual Required Contributions were computed in accordance with GASB 25 as amended by GASB 50 and are consistent with generally accepted actuarial principles.

Actuarial Assumptions and Methods

Provided in this Actuarial Section of the CAFR is a "Summary of Actuarial Assumptions and Methods in Effect for the June 30, 2008 (Lag) Actuarial Valuation." These actuarial assumptions and methods were first employed in the June 30, 2004 (Lag) actuarial valuation that was used to determine Fiscal Year 2006 Employer Contributions to the Plan and are referenced in the Summary of Actuarial Assumptions and Methods as the August 2005 Report.

These actuarial assumptions and methods are unchanged from those employed in the June 30, 2007 (Lag) actuarial valuation that was used to determine Fiscal Year 2009 Employer Contributions to the Plan.

Benefits and Census Data

A summary of the benefits applicable to Plan members included in the June 30, 2008 (Lag) actuarial valuation is shown later in this Actuarial Section of the CAFR.

Included in the summary of benefits are the benefit provisions applicable to those members who join the Plan on and after July 1, 2009 (i.e., Tier III). Note: This summary reflects the understanding of the Actuary and is provided for informational purposes. There were no Tier III members of POLICE prior to July 1, 2009.

Census data are submitted by the Plan's administrative staff and by the employer's payroll facilities and are reviewed by the Office of the Actuary ("OA") for consistency and reasonability.

A summary of the census data used in the June 30, 2008 (Lag) actuarial valuation is included in this CAFR. A summary of the census data used in the June 30, 2007 (Lag) actuarial valuation of the Plan is available in the June 30, 2009 CAFR.

Funded Status

The Funded Status of the Plan is usually expressed in various relationships of Assets to Liabilities.

With respect to the Funded Status of the Plan, included in the Financial Section of the CAFR is a Schedule of Funding Progress (Schedule 1).

Included in the Actuarial Section of the CAFR is a Solvency Test (i.e., Comparative Summary of Actuarial Values and Percentages Covered by Actuarial Value of Assets) as prescribed by the Government Finance Officers Association ("GFOA"). This Solvency Test represents an alternative approach to describing progress toward funding objectives.

In addition to the Schedule of Funding Progress and the Solvency Test, included for informational purposes in the Actuarial Section of the CAFR (following the Solvency Test) is an Additional Discussion of Plan Funding and Other Measures of Funded Status that provides different comparisons between the Assets and Liabilities of the Plan. Included in this Other Measures of Funded Status discussion is information consistent with the disclosure expectations of GASB 50.

Presentation Style and Sources of Information

The actuarial information herein is being presented in a manner believed to be consistent with the requirements of the GFOA and, where applicable, with GASB 25 which was adopted for financial reporting purposes beginning Fiscal Year 1995 and with GASB 50 which was adopted for financial reporting purposes beginning Fiscal Year 2008.

The Additional Discussion of Plan Funding and Other Measures of Funded Status represents additional information provided by the Actuary to assist those users who desire alternative disclosures.

As prescribed by GASB 25 as amended by GASB 50, included in the Financial Section of the CAFR are the following schedules prepared by the OA:

- Schedule of Funding Progress.
- Schedule of Employer Contributions.
- Schedule of Actuarial Assumptions and Methods.

The following schedules in the Actuarial Section of the CAFR were prepared by the OA:

- Summary of Actuarial Assumptions and Methods in Effect for the June 30, 2008 (Lag) Actuarial Valuation.
- Active Member Valuation Data.
- Retirants and Beneficiaries Added to and Removed from Rolls.
- Statutory vs. Annual Required Contributions.
- Comparative Summary of Actuarial Values and Percentages Covered by Actuarial Value of Assets – Solvency Test.
- Additional Discussion of Plan Funding and Other Measures of Funded Status.
- Summary of Plan Provisions.

Board of Trustees
New York City Police Pension Fund
December 9, 2010
Page 4

The Summary of Plan Membership in the Financial Section of the CAFR was also prepared by the OA.

If you have any questions about any of the information in this Actuarial Section or any of the actuarial information elsewhere presented in this CAFR, please do not hesitate to contact Mr. John R. Gibney, Jr., Mr. Edward Hue or me.

I, Robert C. North, Jr., am the Chief Actuary for the New York City Retirement Systems. I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully submitted,

Robert C. North, Jr., FSA, MAAA
Chief Actuary

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2008 (LAG) ACTUARIAL VALUATION

- (1) Based, in part, upon a review of an October 2003 experience study by Gabriel, Roeder, Smith & Company ("GRS"), the Actuary issued an August 24, 2005 Report entitled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and After July 1, 2005 for the New York City Police Pension Fund" ("August 2005 Report"). Where required, the Board of Trustees of the Plan adopted those changes to actuarial assumptions that required Board approval and the State Legislature and the Governor enacted Chapter 152 of the Laws of 2006 ("Chapter 152/06") to provide for those changes to the actuarial assumptions and methods that required legislation, including the Actuarial Interest Rate ("AIR") assumption of 8.0% per annum.

Chapter 152/06 provided for the changes in actuarial assumptions and methods that require legislation, including the continuation of the AIR assumption of 8.0% per annum and continuation of the current Frozen Initial Liability ("FIL") Actuarial Cost Method and the existing Unfunded Actuarial Accrued Liability ("UAAL"). In addition, Chapter 152/06 provided for elimination of the use of the ten-year phase-in of Chapter 278 of the Laws of 2002 ("Chapter 278/02") for funding the additional actuarial liabilities created by the benefits provided by Chapter 125 of the Laws of 2000 ("Chapter 125/00").

- (2) The investment rate of return assumption is 8.0% per annum.
- (3) The mortality tables for service and disability pensioners were developed from an experience study of the Plan's and the predecessor Plan's pensioners. Sample probabilities are shown in Table 1.
- (4) Active Service tables are used to estimate various withdrawals from Active Service. Sample probabilities are shown in Table 2 for members retiring and dying after eligibility for Service Benefits, in Table 3 for members withdrawing from Active Service due to Death or Disability, and in Table 4 for members withdrawing from Active Service without employer-provided benefits or with Vested Benefits.
- (5) A Salary Scale is used to estimate salaries at termination, retirement or death. Sample percentage increases are shown in Table 5. The Salary Scale includes a General Wage Increase ("GWI") assumption of 3.0% per annum.
- (6) The economic assumptions (i.e., the assumed investment return rate, GWI rate and Cost-of-Living Adjustments ("COLA")) were developed assuming a long-term Consumer Price Inflation ("CPI") assumption of 2.5% per annum. The COLA assumption is 1.3% per annum.
- (7) The valuation assumes a closed group of members. Salaries of members on the valuation date are assumed to increase in accordance with the Salary Scale.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2008 (LAG) ACTUARIAL VALUATION (Cont'd)

- (8) The Frozen Initial Liability Actuarial Cost Method is utilized by the Plan's Actuary to calculate the employer contribution. Under this Actuarial Cost Method, the Initial Liability was reestablished under the Entry Age Actuarial Cost Method as of June 30, 1999 but with the UAAL, not less than \$0.

Under this method, the excess of the Actuarial Present Value ("APV") of projected benefits of members as of the valuation date, over the sum of the Actuarial Asset Value ("AAV") plus UAAL, if any, and APV of future employee contributions, is allocated on a level basis over the future earnings of members who are on payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.

All outstanding components of the UAAL are being amortized over closed periods.

Chapter 85 of the Laws of 2000 ("Chapter 85/00") reestablished the UAAL and eliminated the Balance Sheet Liability ("BSL") for actuarial purposes as of June 30, 1999.

The schedule of payments toward the reestablished UAAL provides that the UAAL, if any, be amortized over a period of 11 years beginning Fiscal Year 2000, where each annual payment after the first annual payment equals 103% of its preceding annual payment.

However, the initial UAAL as of June 30, 1999 equaled \$0 and no amortization period was required.

Note: Because no UAAL has been established, the financial results using the Frozen Initial Liability Actuarial Cost Method are identical to those that would be produced using the Aggregate Actuarial Cost Method.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2008 (LAG) ACTUARIAL VALUATION (Cont'd)

- (9) One-Year Lag Methodology uses a June 30, 2008 ("Lag") valuation date to determine Fiscal Year 2010 Employer Contributions.

This methodology requires technical adjustments to certain components used to determine Fiscal Year 2010 Employer Contributions as follows:

- Present Value of Future Salary ("PVFS")

The PVFS at June 30, 2008 is reduced by the value of salary projected to be paid during Fiscal Year 2009.

- Salary for Determining Employer Contributions

Salary used to determine the employer Normal Cost is the salary projected to be paid during Fiscal Year 2010 to members on payroll at June 30, 2008.

- Present Value of Future Normal Costs ("PVFNC")

The PVFNC at June 30, 2008 is reduced by the discounted value of the Fiscal Year 2009 Employer Contribution (after offsetting for any UAAL payments).

- (10) Beginning with the June 30, 2004 (Lag) actuarial valuation, the Actuarial Asset Valuation Method ("AAVM") was changed to a method that reset the AAV to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

Under this revised AAVM, any Unexpected Investment Returns ("UIR") for Fiscal Years 2000 and later are phased into the AAV beginning the following June 30 at a rate of 15%, 15%, 15%, 15%, 20% and 20% per year (or cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

These revised averaging factors were applied against the UIR computed under the prior five-year AAVM used for Fiscal Years 2000 to 2004.

The revised AAVM was utilized for the first time in the June 30, 2004 (Lag) actuarial valuation to determine the Fiscal Year 2006 Employer Contribution in conjunction with the One-Year Lag Methodology and the revised economic and noneconomic assumptions.

The AAVM in effect for the June 30, 2008 (Lag) actuarial valuation is unchanged from the AAVM used in the June 30, 2007 (Lag) actuarial valuation.

- (11) The obligations of the Plan to the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF") are recognized through the Liability Valuation Method.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2008 (LAG) ACTUARIAL VALUATION (Cont'd)

Under this method the APV of Future SKIM from the Plan to the POVSF and PSOVSF is included directly as an actuarial liability to the Plan. SKIM is all or a portion of the excess earnings on equity securities of the Plan which are transferable to the POVSF and PSOVSF. The APV of Future SKIM is computed as the excess, if any, of the APV of benefits of the POVSF and PSOVSF offset by the AAV of the POVSF and PSOVSF, respectively.

- (12) Distinct male and female probabilities for mortality are used effective June 30, 1995.
- (13) A Dual Overtime assumption (i.e., a Baseline Overtime assumption for most years and a separate overtime assumption for the years included in the calculation of Final Salary or Final Average Salary) was introduced as of June 30, 1995. A Baseline Overtime of 12% is assumed.

Additionally, a separate overtime assumption of 16% is utilized when calculating the Final Salary or Final Average Salary for Service Retirements, 6% for Disability Retirements, except that 10% is used for Tier 2 Ordinary Disability Retirements with over 20 years of service, and 12% for all other benefits.

- (14) The Actuarial Present Value of Future Benefits ("APVB") as of June 30, 2008, used to determine the Fiscal Year 2010 Employer Contributions, includes estimates of liabilities for:
- World Trade Center Disability Benefits
 - World Trade Center Death Benefits
- (15) The Actuarial Assumptions and Methods are generally unchanged from the June 30, 2007 (Lag) actuarial valuation.

6/30/10	1,980,996	1,980,996	63.955

* Represents total employer contributions accrued for fiscal year.

The Statutory Contributions for Fiscal Years 2001 and 2002 were computed in accordance with Chapter 125/00 which provided for a five-year phase-in of the additional actuarial liabilities attributable to Chapter 125/00.

The Statutory Contributions for Fiscal Years 2003 through 2005 were computed in accordance with Chapter 278/02 which extended from five to ten years the phase-in period for the funding of the additional actuarial liabilities attributable to Chapter 125/00.

Beginning Fiscal Year 2006, the Statutory Contributions were computed using a One-Year Lag Actuarial Valuation Methodology in accordance with Chapter 152/06 which also eliminated the use of ten-year phase-in of Chapter 278/02 for funding the additional actuarial liabilities attributed to Chapter 125/00.

** The employer rates of contribution equal the Statutory Contributions as percentages of the salaries of members who were on payroll or projected to be on payroll (under One-Year Lag Methodology) as of the preceding June 30 increased to reflect overtime earnings and adjusted, where applicable, to be consistent with collective bargaining agreements estimated to be achieved.

Also, see following "SOLVENCY TEST – NOTES."

NEW YORK CITY POLICE PENSION FUND

COMPARATIVE SUMMARY OF ACTUARIAL VALUES AND PERCENTAGES COVERED BY ACTUARIAL VALUE OF ASSETS

SOLVENCY TEST - NOTES

The ultimate test of financial soundness in a retirement system is its ability to pay all of its promised benefits when due. The retirement system's progress in accumulating assets to pay all promised benefits can be measured by comparing the Actuarial Value of Assets of the retirement system with the Aggregate Accrued Liabilities for:

- (A) Accumulated Member Contributions;
- (B) Current Retirants and Beneficiaries; and
- (C) Active Members' Employer Financed Portion.

The Aggregate Accrued Liabilities are the APV of projected benefits produced by the projected benefit attribution approach prorated on service. The Aggregate Accrued Liabilities were calculated in accordance with Governmental Accounting Standards Board Statement No. 5 ("GASB 5").

This comparative summary allocated assets as if they were priority groups, somewhat similar to (but not identical to) the priority categories of Section 4044 of the Employee Retirement Income Security Act of 1974 ("ERISA").

The values in the table are dependent upon census data, benefit levels (which have changed on occasion over the past years), and the actuarial assumptions and methods employed at each valuation date. The most recent change in assumptions and methods occurred in the June 30, 2004 (Lag) valuation used to compute the employer contribution for Fiscal Year 2006. These underlying bases can be found within the Comprehensive Annual Financial Report for each respective year.

To fully evaluate trends in financial soundness, changes in assumptions need to be evaluated. For the valuation dates shown in the table, the Actuarial Interest Rate and General Wage Increase assumptions were all equal to 8.0% per annum and 3.0% per annum, respectively.

NEW YORK CITY POLICE PENSION FUND

ADDITIONAL DISCUSSION OF PLAN FUNDING AND OTHER MEASURES OF FUNDED STATUS

On-Going Funding of the Plan

Under the basic equation of pension funding, Contributions plus Investment Earnings pay for Benefits plus Expenses.

There are three major sources for financing those Benefits and Expenses paid from the Plan.

First, Member Contributions are established by statute and paid as percentages of member salaries.

Second, Investment Earnings reflect the rates of return achieved on the amounts of assets held in different asset classes in the Trust.

Third, Employer Contributions are determined by actuarial methodology to finance the Benefits payable by the Plan that are not provided by either Member Contributions or Investment Earnings and for the Administrative and Investment Expenses of the Plan.

This actuarial methodology includes demographic and certain tabular assumptions recommended by the Actuary and adopted by the Board of Trustees, and certain economic assumptions and financing methods recommended by the Actuary, supported by the Board of Trustees and, where required, enacted into law by the New York State Legislature and Governor.

Employer Contributions are particularly responsive to Investment Earnings and increase (decrease) on a smoothed basis whenever Investment Earnings are less (more) than expected.

For example, during Fiscal Years 2001 to 2003, the Assets of the Plan decreased because they earned less than expected. Consequently, over the following several years, the actuarial methodology responds by increasing Employer Contributions in order to bring the overall financial status of the Plan back into balance.

The New York City Charter requires an independent actuary to conduct an experience review of the Plan every two years. The Actuary utilizes this information and regularly proposes changes in actuarial assumptions and methods, most recently during Fiscal Year 2006.

These most recent changes, approved by the Board of Trustees and implemented during Fiscal Year 2006, include (1) updated demographic assumptions, (2) full recognition of all Obligations of the Plan (i.e., removing the statutory phase-in of certain liabilities) and (3) revised methodologies for smoothing changes in Employer Contributions due to Plan experience. Together, these changes further enhance the long-term financial integrity of the Plan.

The ongoing process of actuarial rebalancing and periodic reviews of actuarial assumptions and methods by the Actuary and the Board of Trustees, coupled with a financially responsible, long-duration employer like the City of New York (the "City") that can afford some variability of Employer Contributions, help provide financial security for the Plan and its participants and reasonable intergenerational budget equity for taxpayers.

NEW YORK CITY POLICE PENSION FUND

ADDITIONAL DISCUSSION OF PLAN FUNDING AND OTHER MEASURES OF FUNDED STATUS (Cont'd)

With the City that has always paid and is expected to continue to pay the statutorily-required Employer Contributions as calculated by the Actuary and approved by the Board of Trustees, changes in Employer Contributions represent the source for rebalancing the basic equation of pension funding.

Other Measures of Funded Status

Measures of Funded Status of the Plan are determined at specific points in time and are usually expressed in various relationships of Assets to Obligations. Assets as percentages of Obligations are referred to as Funded Ratios.

Comparisons of Funded Status over time provide insight into the evolving financial condition of the Plan.

The Other Measures of Funded Status presented herein provide somewhat different insights into the financial condition of the Plan and comparisons amongst these Other Measures of Funded Status can provide even more.

As noted, there are multiple, possible definitions of the Plan's Assets and Obligations. Some of these definitions of and comments on Assets and Obligations are set forth immediately hereafter. Additional observations about the meanings and usefulness of and the relationships amongst certain of the Funded Ratios are provided following the table of Funded Ratios.

Definition of and Comments on Assets

With respect to Assets, both Market Value of Assets ("MVA") and the Actuarial Value of Assets (or Actuarial Asset Value ("AAV")) are used to determine Funded Ratios.

In the case of the Plan, the AAVM currently in use provides for smoothing of the MVA by phasing any Unexpected Investment Returns (i.e., Investment Earnings greater or less than those expected under the actuarial assumption of 8.0% of AAV each year) into the AAV over a period of six years.

The advantage of using MVA is that it represents the tradable value of the Assets of the Plan at any point in time.

NEW YORK CITY POLICE PENSION FUND

ADDITIONAL DISCUSSION OF PLAN FUNDING AND OTHER MEASURES OF FUNDED STATUS (Cont'd)

The advantage of using AAV is that it is smoothed to remove the volatility of MVA. The disadvantage of AAV is that it is not the tradable value of Assets in the marketplace and, therefore, does not show the volatility of the Assets.

Definition of and Comments on Obligations

With respect to Obligations, the Actuarial Accrued Liability ("AAL") under any particular Actuarial Cost Method ("ACM") is that portion of the APV of projected benefits which is not provided by future normal costs (employer and employee).

With respect to the Plan, where the ACM is the Frozen Initial Liability ("FIL") ACM, the AAL mathematically can be recast as the Unfunded AAL ("UAAL") plus the AAV. To the extent that the UAAL does not change much year to year, then the related AAL remains relatively consistent in value with the AAV each year.

With respect to the ongoing funding of the Plan, the use of the FIL ACM provides for amortizing actuarial gains and losses over the future working lifetimes of active employees. As used by the Plan, the FIL ACM generally results in funding that is more conservative (i.e., greater Employer Contributions) than that of most other Public Pension Plans.

The Entry Age Accrued Liability ("EAAL") is defined as the APV of projected benefits less the sum of the APV of future employee contributions and the APV of future employer entry age normal costs.

The EAAL is a required disclosure in accordance with Governmental Accounting Standards Board ("GASB") Statement Number 43 ("GASB 43") and GASB Statement Number 45 ("GASB 45") for Other Post-Employment Benefits ("OPEB") under certain ACM.

In accordance with GASB Statement Number 50 ("GASB 50"), beginning with Fiscal Year 2008, the EAAL is a required disclosure for Public Pension Plans that determine employer contributions using the Aggregate ACM.

The Entry Age ACM is the most-commonly utilized ACM for funding Public Pension Plans.

The Projected Benefit Obligation ("PBO") is defined as the proportion of APV of all benefits attributed by the Plan's benefit formula to employee service rendered prior to the valuation date. The PBO was required reporting under GASB Statement Number 5 ("GASB 5") prior to its replacement by GASB 25 and GASB 27.

NEW YORK CITY POLICE PENSION FUND

ADDITIONAL DISCUSSION OF PLAN FUNDING AND OTHER MEASURES OF FUNDED STATUS (Cont'd)

The Accumulated Benefit Obligation ("ABO") is determined in the same manner as the PBO but without assuming future salary increases.

The Market Value Accumulated Benefit Obligation ("MVABO") is determined in the same manner as an ABO using the same actuarial assumptions except that projected benefit payments are discounted using annual yields on U.S. Treasury securities of like duration. The MVABO is sometimes described as a Mark-to-Market measure of Obligations or a Market Value of Liabilities ("MVL").

[#] The AAV used for the June 30, 1999 to June 30, 2004 actuarial valuations assumes the AAV was reset to MVA as of June 30, 1999. As of each June 30 thereafter, the AAV recognizes Investment Returns greater or less than expected over a period of five years (six years beginning with the June 30, 2004 (Lag) actuarial valuation).

* Calculated in accordance with the Actuarial Cost Method (i.e., Frozen Initial Liability) and actuarial assumptions used for determining Employer Contributions.

** Calculated based on actuarial assumptions used for determining Employer Contributions.

*** Calculated based on actuarial assumptions used for determining Employer Contributions except that projected benefit payments are discounted using annual yields derived from U.S. Treasury Spot Rates as published by the U.S. Department of the Treasury Office of Thrift Supervision in its Selected Asset and Liability Price Tables. Also shown are the related MVABO Equivalent Discount Yield and the MVABO Weighted Average Duration.

The June 30, 2009 (Lag) figures are preliminary and are generally based on the same census data, actuarial assumptions and methods used to develop published, preliminary Fiscal Year 2011 employer contributions.

* Preliminary.

Comments on Funded Ratios and Funding Methodology

With respect to the different Funded Ratios shown in the preceding table, the ratio of AAV/AAL is from the Schedule of Funding Progress (Schedule 1) presented in the Financial Section of this CAFR.

NEW YORK CITY POLICE PENSION FUND

ADDITIONAL DISCUSSION OF PLAN FUNDING AND OTHER MEASURES OF FUNDED STATUS (Cont'd)

Due to the mathematics of the FIL ACM where AAL equals AAV plus UAAL, the AAV/AAL Funded Ratios tend to remain relatively constant from year to year and provide limited insight into the ongoing financial performance of the Plan.

The Other Measures of Funded Status shown in the preceding table provide different relationships between the Assets and Obligations of the Plan and are designed to offer additional insight into the Funded Status of the Plan that the Actuary believes useful to some users.

The ratios of AAV/EAAL reflect information that is now a required disclosure for certain Public Pension Plans that utilize the Aggregate ACM. This requirement also exists for certain OPEB plans under GASB 43 and GASB 45.

The ratios of AAV/PBO present information that was previously required under GASB 5 and is a comparable but somewhat different representation of the information shown in the Solvency Test presented earlier in this Section of the CAFR.

The ratios of MVA/MVABO provide information on Funded Status that is (1) independent of the asset allocation of the Plan, (2) exclusive of any advance recognition of expected asset risk premia (e.g., equity risk premium) and (3) absent any smoothing of asset values.

Inherent in its design, the MVA/MVABO Funded Ratio is expected to be volatile due to the impact of asset gains and losses without smoothing and the impact of changes in interest rates in the economy. Such volatility is a reflection of markets and can provide useful disclosure information. However, such volatility is not consistent with the needs of budgeting. Those budgeting needs are met by the actuarial assumptions and FIL ACM currently in use to determine Employer Contributions.

NEW YORK CITY POLICE PENSION FUND

ADDITIONAL DISCUSSION OF PLAN FUNDING AND OTHER MEASURES OF FUNDED STATUS

(Cont'd)

Comparing the MVA/EAAL to AAV/EAAL, MVA/PBO to AAV/PBO or MVA/ABO to AAV/ABO provides an opportunity to evaluate the degree of smoothing provided by the Actuarial Asset Valuation Method.

Comparing Funded Ratios based on the same Assets (i.e., MVA or AAV) but different definitions of Obligations (e.g., EAAL versus PBO versus ABO) provides an opportunity to evaluate the differences in those different definitions of Obligations.

Comparing AAV/PBO with AAV/ABO provides insight into the impact of expected salary growth on the value of benefits earned to date.

Comparing MVA/ABO with MVA/MVABO provides an opportunity to compare the impact of alternative interest rates on discounting the ABO.

It should also be noted that Measures of Funded Status are best examined with more consideration of their trends over time than their values at any given point in time.

Finally, over time, it should be noted that as the City pays into the Plan the actuarially-determined Employer Contributions, all Funded Ratios can be expected to increase from their current levels.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS

This Summary of Plan Provisions is applicable to Plan members included in the June 30, 2008 (Lag) actuarial valuation.

Also, included in this Summary are the benefit provisions applicable to those members who join the Plan on and after July 1, 2009.

DEFINITIONS

Accumulated Deductions - The total contributions made by a member to his/her annuity savings account, with regular and special interest thereon.

Reserve for Increased Take Home Pay ("ITHP") - A reserve consisting of 2.5% or 5.0% of the member's salary, pursuant to the provisions of Section 13-226 of the Administrative Code of the City of New York ("Code"), accumulated with regular and additional interest.

Chapter 373 of the Laws of 2000 increased the ITHP contribution rate to 5.0% from 2.5% for certain members.

Minimum Accumulation - The amount of required contributions accumulated with interest to the earliest date for service retirement less the amount of the reserve for ITHP on such date.

Final Salary - For a member who joined prior to July 1, 1973, Final Salary equals the annual rate of salary earnable on the date of retirement. However, for members appointed on or after June 17, 1971 and on or before June 30, 1973, if the salary earned during the one-year period prior to retirement exceeds the previous one-year period prior to retirement by more than twenty percent, the amount in excess of twenty percent is excluded from the computation.

For a member who joined after June 30, 1973, Final Salary equals the salary earned during the one-year period prior to retirement or final three-year average salary immediately preceding the date of retirement. The salary cannot exceed 120% of the previous twelve months or the three consecutive calendar years used. The final year cannot exceed 120% of the average of the previous two years.

For a member who joined on and after July 1, 2009 (i.e., Tier III), Final Salary equals final three-year average salary immediately preceding the date of retirement.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS (Cont'd)

Variable Supplements Funds - The New York City Police Department maintains the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF"). These funds operate pursuant to the provisions of Title 13, Chapter 2 of the Administrative Code of the City of New York.

MEMBER CONTRIBUTIONS

Member contributions are made on the basis of a normal rate of contribution that is assigned by the Plan at the time of membership. The normal rate, which is dependent upon the member's age and the Plan at the time of membership, as well as the tables in effect for such purpose, is determined so as to provide an annuity of approximately one-fourth of the service retirement allowance at the earliest date for service retirement. Members may voluntarily increase their rates of contribution by 50% for the purpose of purchasing an additional annuity.

Tier III members contribute 3.0% of annual wages for a maximum of 25 years.

Contributions from members are recorded when the employer makes payroll deductions from Plan members. Members are permitted to borrow up to 90% of their own contributions including accumulated interest. These loans are accounted for as reductions in such member's contribution accounts.

Loans are not permitted for Tier III members.

BENEFITS

Briefly stated, the benefit provisions and the contribution provisions, of which account was taken in the valuation, are as follows:

I. SERVICE RETIREMENT

The service retirement allowance consists of two parts, a pension payable from City contributions and an annuity from member's contributions.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS

(Cont'd)

According to his election when he joined the Pension Fund, a member may retire from service after having completed 20 years of police service, or after having completed 25 years of police service, or at the attainment of age 55 regardless of years of service.

Upon retirement after having become eligible for service retirement Tier I and Tier II members receive an annual allowance which is the sum of (a) 50% of Final Salary, reduced by an annuity which is the actuarial equivalent of the Minimum Accumulation, (b) an annuity which is the actuarial equivalent of the Accumulated Deductions and (c) for all years of service other than the minimum required service:

- (i) 1/60 of average salary for the period of service after the completion of his minimum required service for each year of such service and
- (ii) an annual pension for ITHP which is the actuarial equivalent of the reserve for ITHP less the reserve for ITHP at the minimum service date with interest to the date of retirement.

For Tier III members, Normal Service Retirement is permitted after having completed 22 years of police service. An annual retirement allowance is payable equal to 50% of Final Salary and reduced, commencing at age 62, by 50% of the Primary Social Security attributable to all service with the City.

Early Service Retirement is available to Tier III members on and after completing 20 years of police service or at attainment of age 62. The allowance is based on police service.

II. ORDINARY DISABILITY RETIREMENT

An annual ordinary disability retirement allowance is paid upon the disablement of a member from causes other than accident in the actual performance of duty.

For Tier I and Tier II members who elected the 20 year plan, the annual ordinary disability retirement allowance is equal to 1/40 (1/50 for members who elected the 25 year plan) of Final Salary multiplied by the number of years of service, but not less than 1/2 of his Final Salary if he completed 10 or more years of City service, or 1/3 of his Final Salary if less than 10 years of City service.

For Tier III members, a member must complete at least 5 years of City service and be eligible for Social Security Disability. The annual ordinary disability retirement allowance equals the greater of: 33-1/3% of Final Salary or 2% of Final Salary times years of police service (not more than 22 years), less 50% of the Primary Social Security Disability Benefit (based on City service) and less 100% of Workers' Compensation benefits.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS (Cont'd)

III. ACCIDENTAL DISABILITY RETIREMENT

Upon the occurrence of disability caused by an accident in the actual performance of duty, a member is granted a retirement allowance. For Tier I and Tier II members the allowance consists of a pension equal to three-fourths of his Final Salary and, if he is eligible for service retirement, an additional increment of 1/60 of average salary from date of eligibility for service retirement to date of retirement for each year of service. An additional pension is paid which is the actuarial equivalent of the reserve for ITHP, as well as an annuity which is the amount which can be purchased with the member's Accumulated Deductions.

For Tier III members who have incurred a line-of-duty disability, an accidental disability allowance is payable equal to 2% of Final Salary times years of police service projected at full Escalation date (not in excess of 22 years), less 50% of the Social Security Disability Benefit attributable to City service less 100% Workers' Compensation benefits.

IV. ORDINARY DEATH BENEFIT

Upon the death of a member in active service from causes other than accident in the actual performance of duty, a benefit is paid to his estate or to such person as he shall have nominated.

With respect to a member who joined before July 1, 1973, the benefit is equal to the compensation earnable by the member in the six months immediately preceding his death and, if the total number of years of allowable service exceeds ten, then the benefit is equal to the compensation earnable by him during the twelve months immediately preceding death. In addition, the member's accumulated deductions, the reserve for ITHP, and the City's obligation on account of military service, if any, are paid to his estate or to his designated beneficiary.

A member who joins after June 30, 1973 is covered for a death benefit upon completion of 90 days of service. The amount of the death benefit is equal to three times member's salary raised to the next higher multiple of \$1,000. In addition, the member's accumulated deductions are payable.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS (Cont'd)

The benefit payable on account of a member who at the time of his death, would have been eligible for service retirement is either the benefit described above or an amount equal to the reserve on the retirement allowance which would have been payable if he had retired on the day before his death, whichever is larger.

The Rules and Regulations adopted by the Board of Trustees in accordance with Chapter 581 of the Laws of 1970 provide that the first \$50,000 of each benefit on account of death in active service is payable from the group term life insurance plan. Only the amount in excess of \$50,000, if any, is payable by the Pension Fund.

For Tier III members who die after completing 90 days of service, a benefit is payable to the member's beneficiary equal to three times the member's salary, raised to the next highest multiple of \$1,000.

V. ACCIDENTAL DEATH BENEFIT

The benefit is payable upon the death of a member which occurs as the result of an accident sustained in the performance of duty.

For Tier I and Tier II members the accidental death benefit is a lump sum payment of the member's accumulated deductions and ITHP reserve plus an annual pension equal to one-half of the average salary in the five years immediately preceding death but not less than one-half the full salary of a first grade patrolman, payable to the widow for life, or if there is no widow, to a child, or children until the attainment of age 18 or age 23 if a full-time student, or if there is no widow or child, to the dependent parents.

The accidental death benefit for Tier III members is an annual pension equal to 50% of Final Salary.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS (Cont'd)

VI. TERMINATION OF EMPLOYMENT

A Tier I or Tier II member who either resigns or is dismissed receives a benefit equal to his Accumulated Deductions. At resignation with at least 5 years of service, the member may elect, in lieu of a return of his Accumulated Deductions, to receive a service retirement allowance reduced in proportion to his years of service. The allowance is deferred to the earliest date on which the member would have been eligible for service retirement had the member not resigned. Should a member with less than 10 years of service who elected to receive a vested retirement allowance die during the period of deferment, the benefit is the Accumulated Deductions. For a member who at resignation with at least 10 years of service, who elected to receive a deferred retirement allowance and dies before the attainment of his service retirement date, the benefit is one-half of the ordinary death benefit.

Tier III members have similar rights to a refund of member contributions until 10 years of service. On and after the completion of 5 years of service, in lieu of a refund, a vested deferred retirement allowance is payable at the date 20 years of police service would have been completed or at age 55, if earlier and elected by the member. Benefits are derived in accordance with a formula based on years of police service and subject to a Primary Social Security Benefit (based on City service) reduction from age 62.

VII. DEPENDENT BENEFIT

Upon the death of a member during active service or after retirement, a pension of \$600 per annum is payable to the widow until remarriage, to a child, or to the dependent parents provided that upon becoming a member, he had elected to make the additional contributions required for this benefit.

This benefit is not available to Tier III members.

VIII. AUTOMATIC COST-OF-LIVING ADJUSTMENTS ("COLA")

COLA benefits are payable to Tier I and Tier II members who are either (1) at least age 62 and have been retired for at least 5 years or (2) at least age 55 and have been retired for at least 10 years. Additionally, COLA benefits are payable to members who retired for disability after being retired for 5 or more years and to beneficiaries receiving accidental death benefits who have been receiving them for at least 5 years.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS (Cont'd)

Beginning September 2001, COLA benefits equal 50% of the increase in the CPI-U based on the year ending March 31, rounded to the next higher .1%, not less than 1% nor greater than 3% of the first \$18,000 of the sum of the maximum pension allowance and prior COLA.

The COLA benefit is payable during the life of the retired member. One half of the amount is also payable after the member's death and during the life of the spouse beneficiary if such retired member had elected one of the options under the Code which provides that benefits are to be continued for the life of such spouse after the death of the retired member, and where the death of such retired member occurred or occurs more than thirty days after the effective date of the retirement of such member.

Tier III members are eligible for annual Escalation on their retirement allowance (1) in full, if they have retired for service after completing 25 or more years of police service (or elected to defer commencement of their benefit to that 25-year date) or on a reduced basis, by 1/36 for each month that their retirement precedes 25 years or (2) in full, if they have retired for disability or (3) in full, to their beneficiary for accidental death benefits.

Escalation is paid in April and is determined from the change in the CPI-U based on the prior year ending December 31, not greater than 3% nor less than -3% in the event of a decrease.

Tier III members, when eligible, receive the greater of the applicable increase from COLA or Escalation.

IX. OPTIONS ON RETIREMENT

Upon retirement a member may elect to receive his basic retirement allowance payable in monthly installments throughout life with all payments ending at death. Alternatively, the member may elect to receive the actuarial equivalent in any one of the following optional forms:

- (a) With respect to members who joined prior to July 1, 1973, a cash refund allowance under which reduced payments will be made for the life of the member with a provision that, in case of death before such payments have equaled the present value of the retirement allowance at date of retirement, the balance shall be paid to the designated beneficiary or estate in a lump sum. With respect to members who joined after June 30, 1973, this option is only available with respect to the annuity benefit derived from the member's Accumulated Deductions.

NEW YORK CITY POLICE PENSION FUND

SUMMARY OF PLAN PROVISIONS

(Cont'd)

- (b) With respect to members who join or joined after June 30, 1973, a five-year or ten-year certain and life thereafter allowance under which reduced payments will be made for the life of the member with a provision that, in case of death within the guarantee period, the benefit that would have been payable had the member survived shall continue to the designated beneficiary or estate for the balance of the guarantee period.
- (c) A joint and survivor allowance under which reduced payments will be made for the life of the member with a provision that at the death of the member the same payments or one-half of such payments shall be continued for the life of such other person as the member shall have designated.
- (d) For Tier I members, such other form of benefit which is the actuarial equivalent of the basic benefit as may be certified by the Actuary and approved by the Board of Trustees. By resolution, the Board of Trustees has approved an option under which reduced payments will be made for the life of the member with a provision that upon his death, a sum specified by the member at the time of retirement shall be paid to his designated beneficiary or estate.

NEW YORK CITY POLICE PENSION FUND
COMPREHENSIVE ANNUAL FINANCIAL REPORT

A PENSION TRUST FUND OF THE CITY OF NEW YORK

STATISTICAL SECTION

PART V

FISCAL YEAR ENDED

June 30, 2010

The Statistical Section

The objective of the statistical section is to reflect data that is necessary to fund members' retirement benefits during their active service together with members' employer's contributions and investment income that would be required to accumulate assets to pay various retirement benefits.

The Statistical Section of the New York City Police Pension Fund's Comprehensive Annual Financial Report presents detailed information related to the financial statements, as well as highlights of the actuarial valuations. The data provided is a useful source in determining the fund's economic condition. The schedules are organized into four categories: Operating Information, Demographic and Economic Information, Financial Trends and Revenue Capacity

Operating Information

The operating information gives users an indication of how the information in the financial statements relate to the activities of the fund. The schedule shows data on benefit ranges, years of credited service, types of retirement and options selected and the amount of monthly, annual or average benefit paid to each group of retirees and beneficiaries. The data is presented for the fiscal period or over a ten year period.

Demographic and Economic Information

The demographic and economic categories present data to give users an understanding of the environment in which the pension plan operates. This is done mainly through the breakdown of the population groups in the plan membership. The schedules present the number of members and beneficiaries grouped according to several indicators including average monthly or annual salaries or age participating in the pension the plan, for the fiscal period or over a ten-year period.

Financial Trends

The schedules of trend data provide financial and actuarial data for the most current ten-year period. This data shows the changes in benefit types and changes in the plan's performance over time, as relates to revenues received benefits and expenses paid and net assets.

Revenue Capacity

Revenue capacity information helps users evaluate the different sources of revenue for the plan. The schedules show the sources and the change in the level of revenues over time. The main sources of revenues for the plan are investment income and employer contributions.
