December 17th, 2022

Board of Trustees New York City Police Pension Fund 233 Broadway, 25th Floor New York, New York 10279

Dear Members of the Board of Trustees,

I am pleased to present the Annual Comprehensive Financial Report ("ACFR") of the New York City Police Pension Funds ("the Plan" or "Fund"); a pension trust fund of the City of New York, for the fiscal year ended June 30, 2022. Responsibility for accuracy of the data, the completeness and fairness of the presentation, including all disclosures, rests with the management of the Plan. To the best of the Plan's knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of the operations of the Plan. All disclosures necessary to enable the reader to gain an understanding of the financial activities of the Plan are included.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditors' Report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Background of the Funds

The Plan was incorporated on March 1, 1940 and commenced business on March 29, 1940. This incorporation succeeded the Police Pension Fund Article 1, established for uniformed members of the New York City Police Department prior to 1940. By legislation enacted in 1995, Article 1 was merged into the Plan.

The Fund received corpus funding in 2001 to improve service to our active and retired members. Corpus funding has enabled the Fund to establish a new headquarters and initiate major upgrades to its computer infrastructure and capabilities. Over the past twenty years, many Information Technology enhancements have been implemented.

The Plan is governed by a Board of Trustees consisting of twelve members. Voting rights are as follows: The Police Commissioner, a representative of the Mayor, the Comptroller and the Commissioner of Finance all have one and one-half votes each, four specified officers of the Patrolmen's Benevolent Association have one vote each and the president of the Detectives' Endowment Association, the Sergeants Benevolent Association, the Lieutenants Benevolent Association and the Captains Endowment Association, have one-half vote each. Board

meetings are held every month with special meetings called by the Chairman or requested by a quorum of members whose combined votes are at least seven.

Major Initiatives

COPS 2.0 Project

While Rollout 1 for COPS 2.0 was in production, the team focused on finalizing the design components for Rollout 2 and started the design for the foundational components for Rollout 3.

Rollout 1 – Production

The Fund released an updated, more secure version of the member self-service registration process that includes a PIN being mailed to the member to finalize their registration. The Fund felt this extra level of security was necessary after some recent cyber/identity fraud issues at other pension funds around the country.

Rollout 2 – Retiree Services

The project completed the formalized design phase for Rollout 2 and finish FY2022 focusing on identified design and scope GAPs while delivering fixes for important components identified during testing. The Fund is on pace to start the next formalized testing phases in October of FY2023.

Rollout 3 – Active Member Services

The project started the data mapping process for converting member contribution and service tracking accounts and design of the Employer payroll induction process. Rollout 3 activities were put on hold (as scheduled) while the entire team focused on the final phases of Rollout 2 delivery. Rollout 3 activities will restart once Rollout 2 is released into production.

Financial and Budgetary Controls

The management of the Fund is responsible for establishing and maintaining an internal control structure, designed to ensure that the assets are protected from loss, theft, or misuse and that preparation of financial statements conforms to Generally Accepted Accounting Principles (GAAP). The cost of a control should not exceed the benefits derived and therefore the objective is to provide reasonable, rather than absolute assurance, that the assets of the Fund are safeguarded, and the financial statements are free from any material misstatements. The Fund also maintains budgetary controls. An annual examination of internal controls is performed in accordance with the City Comptroller's Directive # 1 and the latest evaluation on record did not disclose any material weakness. Also, the Audit Committee of the City of New York, which includes experts in Accounting and Municipal Finance from the private sector, oversees the independent audit process. The financial statements for Fiscal Year 2022 were audited in accordance with generally accepted auditing standards and the Fund received an unmodified opinion from external auditor's Grant Thornton, LLP. A copy of the report is presented separately in this ACFR.

The primary financial objective of the Fund is to ensure that member contributions, employer contributions, and income from investments support benefit payment obligations. A review of

the Qualified Pension Fund ("QPP") assets gives an indication of the current fiscal health and the income potential from investments. It also gives participants reasonable assurance that benefits will continue into the future. According to the Governmental Accounting Standards Board Statements (GASB) Nos. 67 and 68, Schedule of Changes in Net Pension Liability prepared by the Office of the Actuary, Plan Fiduciary Net Position as a Percentage of Total Pension Liability was 84.2%, 96.6% as of June 30, 2022 and 2021, respectively.

Investments

Investment policy is subject to approval of the Board of Trustees and is designed to minimize risks while maintaining a competitive yield. The policy uses a strategic implementation of assets, diversified in a broad array of instruments to limit concentration risks. The operations of the Fund are governed by the Administrative Code of the City of New York and the State Retirement and Social Security Laws. The Comptroller of the City of New York acts as an Investment Advisor to the fund. In addition, several independent investment consultants are employed as investment advisors. The Fund also uses a number of investment managers to administer long-term debt and equity portfolios. Investment managers are regularly reviewed against performance and adherence to guidelines. There are four main factors influencing the philosophy of the Board of Trustees: Risk-Tolerance, Returns, Diversification, and Liquidity. As of June 30, 2022, the policy mix for the QPP portfolio asset allocation consists of the following categories; U.S. Domestic Equities 30.1%, Fixed Income 32.9%, International Equities 7.4%, Emerging Markets 4.6%, Private Real Estate and Equities 17.3%, Hedge Funds 5.5% and others 2.2%. QPP total portfolio return was (7.1)%. The asset allocation for the Police Officers' Variable Supplements Fund ("POVSF") consists of 64.2% in Total Equity and 35.8% in Total Fixed Income. POVSF total portfolio return was (13.5)%. Police Superior Officers' Variable ("PSOVSF") consists of 63.9% in Total Equity and 36.1% in Total Fixed Income. PSOVSF total portfolio return was (13.3)%. Financial information regarding investment activities, policies, safeguards, strategies and yield information of the Fund, accompanied by various charts, schedules and a consolidated performance report, is contained in the ACFR Investment section.

Professional Services

The Comptroller of the City of New York is the custodian of the Plan's assets and provides investment services through independent advisors and consultants who are listed in the Additional Supplementary Schedule of Fees Paid to Investment Managers and Consultants on pages 142 through 153. Brokerage firms and the amounts paid to each firm is listing in the schedule of Broker's Commissions and Fees on Pages 188 through 194 in the Investment Section. Actuarial services are provided to the Plan by the Chief Actuary of the City of New York. The City's Corporation Counsel provides legal services to the Plan.

Financial Highlights

The combined financial statements of the Fund for Fiscal Year 2022 show total net position restricted for benefits decreased by \$5.5 billion to \$51.6 billion, or 9.6% below the prior fiscal year. In Fiscal Year 2021 the increase was \$10.8 billion or 23.3% to \$57.1 billion, compared to Fiscal Year 2020. The \$51.6 billion reported in the combined statements, includes net restricted amounts held for benefits under: the QPP, the PSOVSF and the POVSF for \$47.0 billion, \$2.8

billion and \$1.8 billion, respectively.

Selected accounts from the combined financial statements for the past two fiscal years are shown below, along with percentage changes for balances reported (in thousands) as of the fiscal year end:

| Description | FY 2022 | FY 2021 | (%) Change |
|-----------------------------|-----------|-----------|------------|
| Member Contributions | \$281,185 | \$255,789 | 9.93 |
| Employer Contributions | 2,490,134 | 2,437,728 | 2.15 |
| Interest Income | 768,330 | 581,688 | 32.09 |
| Dividend Income | 819,598 | 570,513 | 43.66 |
| Benefits Paid & Withdrawals | 3,821,373 | 3,841,319 | (0.52) |

Economic Conditions

The real gross domestic product (GDP) increased at an annual rate of 2.6% in the third quarter of 2022 following a 0.6% decrease in the second quarter according to the Bureau of Economic Analysis (BEA) on October 27, 2022. This deceleration of real GDP in the second quarter was led by a slowdown in private Inventory Investment, residential fixed investment, federal government spending, and state and local government spending, that were partly offset by an upturn in exports and acceleration in consumer spending.

According to the BEA, the decrease in private inventory investment was led by a decrease in retail trade (mainly "other" general merchandise stores). The decrease in residential fixed investment was led by a decrease in "other" structures (specifically real estate brokers' commissions). The decrease in federal government spending reflected a decrease in nondefense spending that was partly offset by an increase in defense spending. The decrease in nondefense spending reflected the sale of crude oil from the Strategic Petroleum Reserve, which results in a corresponding decrease in consumption expenditures. Because the oil sold by the government enters private inventories, there is no direct net effect on GDP. In addition, the decrease in state and local government spending was led by a decrease in investment in structures.

The increase in exports reflected increases in both goods (led by industrial supplies and materials) and services (led by travel). The increase in consumer spending reflected an increase in services (led by food services and accommodations as well as "other" services) that was partly offset by a decrease in goods (led by food and beverages).

According to the NYC Comptroller, New York City's jobs recovery shows strength in June 2022, with employers adding 372,000 jobs in June, exceeding the Bloomberg consensus expectation of 265,000. The unemployment rate remained unchanged at 3.6% while the growth of average hourly earnings was +5.1% year over year. At the current pace of job growth, which would assume no near-term recession, New York City is about 5 to 6 months from fully reversing pandemic job losses.

In addition, the Russian war on Ukraine is said to cost the global economy \$2.8 Trillion per the Wall Street Journal. Russia's attack on Ukraine has spiked energy prices which has weakened household spending.

Acknowledgements/Other

The compilation of this ACFR reflects the efforts of the management and staff of the New York City Police Pension Fund. I thank them for their assistance in this endeavor. I also thank the Office of the Actuary, the Office of the Comptroller and the investment advisors of the Plan for the data and other information provided during the preparation of this report. This ACFR is intended to provide sufficient and reliable information that serves as a basis for management decision making; in determining compliance with legal requirements; and as a means of indicating stewardship of the assets of the Plan. I am confident that this goal was achieved.

Very Truly Yours,

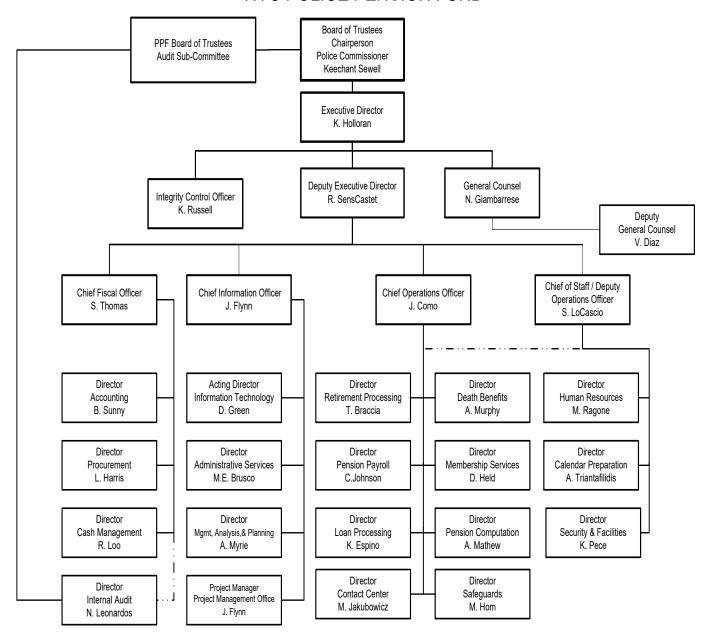

Kevin Holloran Executive Director

Introduction

This booklet is called the Tier 2 Summary Plan Description (SPD). It is published by the New York City Police Pension Fund (NYCPPF, PPF, Fund), and is intended to summarize provisions relating to the retirement benefits offered to uniformed employees of the New York City Police Department (NYPD), whose membership date is between July 1, 1973 and June 30, 2009.

This booklet is not intended to be comprehensive. Laws affecting the plan can be enacted in any given year, which may result in inaccuracies within this SPD. In the event of a conflict between the contents of this booklet and any applicable law and/or rules, including, but not limited to, the Administrative Code of the City of New York (NYCAC), the New York State Retirement and Social Security Law (RSSL), and the Rules of NYCPPF, the applicable Law or Rule will govern.

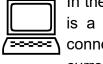

About PPF

In 2001, legislation provided Corpus Funding for the Pension Fund to begin operations in September, 2002 at its new location at 233 Broadway in New York City. The PPF is governed by the Board of Trustees. The Comptroller of the City of New York is Custodian of the funds of the System, and by delegation of the Board of Trustees, has the power to invest those funds. The Executive Director is the chief administrative officer of the agency. The Chief Actuary for the City of New York provides actuarial services to the PPF. The Office of Corporation Counsel provides legal services to the Fund.

NYCPPF is a defined benefit plan. PPF manages the Fund's invested assets and pays out benefits according to formulas set forth in New York State and New York City laws. In general, Tier 2 members are governed by Title 13 of the NYCAC, the Rules of the Fund and certain other applicable statutes.

How to Contact PPF

The Fund cannot answer member specific questions regarding financial information or provide legal or tax advice.

In the Fall of 2019, PPF announced a new service for our members: webCOPS. This is a secure website where members can view pension account information and connect with PPF online. Members who register on webCOPS can check their current account balance, verify contact and beneficiary information, and download and submit member request forms. This is the first release of a phased implementation, webCOPS will evolve with scheduled updates over the next few years. Members can register by visiting https://www.webcops.org/ppfmss. PPF's Call Center is available to provide webCOPS support during standard business hours - please contact the Call Center at (646) 905-5596 for more information.

Members can also find the answers to many questions quickly and conveniently by visiting the PPF website: www.nvc.gov/nvcppf.

At PPF, protecting and securing the privacy of member data is a top priority. Therefore, some transactions require notarization; please refer to the individual form or request. PPF staff does not respond to telephone or e-mail inquiries relating to private member information because the identity of the caller or e-mail writer cannot be confirmed.

For answers to questions of a **general** nature concerning retirement and pensions, please call PPF at (212) 693-5100; or visit the Pension Fund at 233 Broadway, 19th Floor, New York, New York 10279.

The Fund will respond promptly and completely to pension questions. PPF's ongoing mission is to provide excellent service to every member.

Serving the Finest Online

You may send forms or letters to the Fund at 233 Broadway, 25th Floor, New York, New York 10279. = the Fund directly at policepensioninguiries@nycppf.org. The Fund cannot answer member specific questions regarding financial information or provide legal or tax advice.

The Fund is also now on Facebook! Members, their beneficiaries, and fans of the Fund can "like" us on Facebook at www.facebook.com/nycppf.

In person and online, PPF is proud to be serving the FINEST.

Membership

Uniformed members of the New York City Police Department with membership dates between July 1, 1973 and June 30, 2009 are considered Tier 2 members. Contributions to the Fund are made while employed with the NYPD in accordance with the "Contributions" section. Membership in the Fund ceases upon withdrawal of contributions.

Credited Service

Credited service is classified as Allowable Police Service or other credited service. Members may buy back any missing service under Chapter 552, as described below.

Allowable Police Service

Twenty years of Allowable Police Service are required for Service Retirement. Allowable Police Service includes:

- ✓ All service rendered as a uniformed member of the NYC Police Department.
- ✓ Credit for service rendered as a uniformed member of the NYC Fire Department.
- ✓ Credit for service rendered while a member of the New York City Employees' Retirement System uniformed force service immediately preceding appointment as a uniformed member of the New York City Police Department. Such uniformed service includes: service in the Housing Police Department, Transit Police Department, Department of Correction, Sanitation Department, and as an Emergency Medical Technician (EMT).
- ✓ Credit for uniformed service rendered while a member of the New York State Employees' Retirement System or New York State Police and Fire Retirement System.
- ✓ Credit for service as a Peace Officer in accordance with New York State Criminal Procedure Law §2.10
- ✓ Service in the United States Military
- ✓ Up to one year for each authorized Child Care Leave purchased pursuant to Chapter 594 of the Laws of 2000.

Other Credited Service

Other credited service is any service other than Allowable Police Service. This service counts as additional service credit beyond the required twenty years and will provide an additional monetary benefit.

Other credited service includes membership service rendered while a member in a non-uniformed position. In addition, uniformed service credit that does not immediately precede uniformed service in the New York City Police Department is considered to be Other Credited Service.

Please note buybacks and transfers must be completed within prescribed time limits. For further information please contact Membership Services at (212) 693-5850.

Retroactive Military Seniority (RMS)

Retroactive Military Seniority (RMS) is awarded to a member after being appointed to the NYPD from a special list, retroactive to the date the member would have been appointed had the member not been serving in the military. Information contained herein applies only to pension, not employment, benefits.

Members who are awarded RMS from the Department of Citywide Administrative Services (DCAS) are eligible to receive pension credit retroactive to their RMS date upon remitting the cost of pension contribution to the Fund. This entitles the member to the same rights, privileges and obligations as if he had served continuously in such position from the RMS date

Contributions must be completed within the repayment period prescribed by law; the maximum repayment period is the time from the RMSD to the NYPD appointment multiplied by 3, up to a maximum of 5 years. Payments can be made via certified check or money order, or through bi-weekly payroll deductions. Upon completion of the payment, interest will be credited to the account, as it would have been earned during the period.

Tier 2 members may elect to not make their contributions, forgoing the interest the Fund would have paid, thereby creating a shortage in their contribution account. If a shortage exists in the contribution account at the time of retirement, the pension will be offset by an actuarial equivalent to the shortage..

Members may also elect to make voluntary contributions, i.e., the ITHP Waiver, and/or 50% Additional Contributions, as if they were made during the RMS period. The Fund is responsible for interest on such voluntary contributions. Members who make this election must elect to participate in one or both programs for the entire RMS period.

Please note a member cannot receive RMS and credit for the same military service through a buyback. Members who have already completed a military buyback for time covering the RMS period, will receive a refund for the buyback or the Fund will credit the money toward the RMS payment.

Prior Transit and Housing Service

Former Transit and Housing Police Officers who became members of the Police Pension Fund Article II due to the 1995 merger, or a rollover, maintain their eligibility based on their original dates of membership in NYCERS.

Transfer of Service

Members with a previous membership in New York City or State public retirement system may be eligible to transfer their prior service to PPF. Members transferring uniformed Police or Fire time, Peace Officer status or EMT time will be granted allowable police service provided the application for such credited service was made within prescribed time limits and such credited service was properly transferred to PPF.

Members should discuss potential transfers with PPF, as well as a representative from the former retirement system to determine eligibility.

<u>Prior State of New York service may be transferred to PPF for up to seven years</u> from the termination of state service, after which point the member must purchase the time to obtain service credit or a pension benefit, as permitted by law. All properly transferred state time is uniformed time. Please note that the New York State Teachers' Retirement System does not allow system-to-system transfers; such prior time must be purchased. Members should initiate the transfer process with PPF Membership Services.

<u>Prior City of New York service may be transferred to PPF for up to one year from</u> termination of city service, after which point the member must purchase the time to obtain service credit or a pension benefit, as permitted by law. Members should initiate the transfer process with the former retirement system.

<u>Under Chapter 498 of the Laws of 2005</u>, active members who properly transferred City or State time that immediately preceded appointment to the NYPD may count this time as uniformed time, provided it is considered to have peace officer status under New York State Criminal Procedure Law § 2.10 or is service as a NYC Emergency Medical Technician (EMT). This law is not retroactive, and it will impact a member's contribution rate. Members who wish to have this time count as uniformed time must ask the Police Pension Fund's Membership Services Unit for application assistance. This time, if properly transferred to the New York City Police Pension Fund as an active member, shall be credited as uniformed time.

To receive credit for this time, PPF members must have had a preceding membership in either NYCERS or the Board of Education Retirement System. See Operations Order 13, dated 03/06/2006, found on the Police Pension Fund website.

Buyback Information

There are several statutory provisions that allow for the purchase of prior service. Some of these buybacks merely grant service credit that will provide an additional monetary benefit at retirement, while others may count toward the number of years necessary to reach Service Retirement. However, those that grant such service credit as "allowable" police service, typically must be immediately preceding the NYPD service (including service in the uniformed transit police force, the housing police force, uniformed corrections force or the uniformed force of the Department of Sanitation.

Prior Service, Chapter 646, Laws of 1999

Chapter 646 allows PPF members with former membership in a New York City or State public retirement system to receive credited service by repaying contributions that system refunded (if any) with interest.

Service purchased pursuant to Chapter 646 can either be non-uniformed service, which increases the pension's value but does not change the retirement date, or it can be uniformed service, which changes the retirement date. Both types of service change the contribution rate and may cause a shortage due to the rate change.

Former Police Pension Fund members with a lapse in service also can buy back time under Chapter 646. See Operations Order 2-25, c.s. dated 12/11/2002, found on the PPF website.

Military Service, RSSL § 1000

New York State Retirement and Social Security Law ("RSSL") § 1000 allows members to purchase up to three years of pre-membership military service.

To be eligible for this service credit purchase, the member must:

- ✓ Be in active City service; and
- ✓ Have five years of allowable police service with PPF, not including the military service being purchased; and
- ✓ Produce a DD-214 demonstrating an honorable discharge from any branch of the U.S Armed Forces.

The member must render payment for the service credit as follows: 3% of the member's compensation earned during the 12 months of credited service immediately preceding the application date multiplied by years of military service claimed

The member must apply and remit payment for service credit before the effective date of retirement. In the event of retirement prior to completing payment for the service credit purchase, the amount of service credited to the member shall be proportional to the total amount paid. If upon death, retirement, or separation, the service purchase does not produce a greater benefit, the cost of the service purchase must be refunded to the member with interest.

Prior Service, Chapter 552, Laws of 2000

Chapter 552 allows members to buy back previous service while employed by New York City, State or political subdivisions of the State prior to becoming a member of the Police Pension Fund. Service bought back under Ch. 552 can be uniformed or non-uniformed service, but only uniformed service will change the retirement date. The contribution rate under Chapter 552 always is unchanged. See Operations Order 2-24, c.s. dated 12/11/2002, found on the PPF website.

Child Care, Chapter 594, Laws of 2000

Chapter 594 allows members who were on leave without pay for purposes of authorized child care leave to purchase uniformed credited service. A member must file an application not later than ninety (90) days from the final date of the leave. See Operations Order 11, dated 1/22/01, found on the Police Pension Fund website.

Bosnia Bill, Chapter 606, Laws of 2000

Chapter 606 permits PPF members to purchase police duty rendered on behalf of the U. S. Government that is located in a foreign country (e.g., Bosnia). When such police service is combined with qualifying military service under Chapter 606, a maximum of four years of service may be purchased. See Operations Order 35, dated 05/21/2001, found on the Police Pension Fund website.

Contributions

During active service, members are required to make pension contributions until eligibility for Service retirement, at which point all contributions become voluntary. At the time of hire to the NYPD, members are assigned a contribution rate based upon their age. Member contributions in Tier 2 earn a statutory 8.25% interest, paid by the City and compounded annually. The contribution rate is applied to the member's pensionable earnings during their career and when combined with earned interest, creates what is called the "required amount." The required amount is unique to each member and is the amount necessary to remain in the account to receive a retirement benefit with no reduction. This amount "freezes" when the member becomes eligible for service retirement, as contributions are no longer necessary after such point.

Pensionable earnings consist of: base salary, overtime, night differential, holiday pay, worked vacation, portal to portal and allowable longevity..

Per Internal Revenue Code § 414(h), member contributions made on or after December 1, 1989, are not subject to federal taxation, but are subject to state and local income taxes. Member contributions made before December 1, 1989 are subject to federal, state and local taxation.

Contribution Rates

| Age at Appointment | Required Rate = | = City/ITHP Rate + | Member Rate |
|--------------------|-----------------|--------------------|-------------|
| 17 | 8.55% | 5.00% | 3.55% |
| 18 | 8.40% | 5.00% | 3.40% |
| 19 | 8.20% | 5.00% | 3.20% |
| 20 | 8.05% | 5.00% | 3.05% |
| 21 | 7.85% | 5.00% | 2.85% |
| 22 | 7.65% | 5.00% | 2.65% |
| 23 | 7.50% | 5.00% | 2.50% |
| 24 | 7.30% | 5.00% | 2.30% |
| 25 | 7.15% | 5.00% | 2.15% |
| 26 | 6.95% | 5.00% | 1.95% |
| 27 | 6.80% | 5.00% | 1.80% |
| 28 | 6.65% | 5.00% | 1.65% |
| 29 | 6.45% | 5.00% | 1.45% |
| 30 | 6.30% | 5.00% | 1.30% |
| 31 | 6.15% | 5.00% | 1.15% |
| 32 | 6.00% | 5.00% | 1.00% |
| 33 | 5.85% | 5.00% | 0.85% |
| 34 | 5.65% | 5.00% | 0.65% |
| 35 | 5.50% | 5.00% | 0.50% |
| 36 | 5.35% | 5.00% | 0.35% |
| 37 | 5.20% | 5.00% | 0.20% |
| 38 | 5.05% | 5.00% | 0.05% |
| 39 | 4.90% | 5.00% | 0.00% |
| 40 | 4.75% | 5.00% | 0.00% |

Voluntary Employee Contributions

Waive ITHP

The City assumes 5% of a member's contribution rate, which is referred to as "increased take home pay" or "ITHP." The City's assumptions are placed in a separate account and partially fund the benefit. City ITHP cannot be borrowed against or otherwise taken as a distribution by the member; however, the ITHP assumption made after a member is eligible for service retirement, but continues working, is annuitized and added as an additional monetary benefit when the member ultimately retires. The City assumes this ITHP rate regardless of whether the member is making any pension contributions, as long as the member is active. A member may elect to waive the City's ITHP assumption and make their entire contribution. For instance, if a member's assigned rate is 7%, the member contributes 2% and the City assumes 5%; if ITHP is waived, the member contributes 7% to his account, all of which earns interest, and the City continues to assume the 5%, which is deposited into a separate account. This is a very common voluntary election by Tier 2 members, because it creates an excess in the account and leads to a greater retirement benefit. ITHP waiver contributions made by members are tax deferred. 5% by the City.

50% Additional

In addition to the ITHP waiver, a member can also participate in another voluntary contribution program: the 50% additional. Under this program, a member can contribute an additional 50% of their required contribution rate to their account. With the above example, if a member is assigned an 7% contribution rate, the additional contribution would be 3.5%. This contribution is made post-tax, but earns the guaranteed interest in the account, which is tax deferred. Stop or Reinstate Member Contributions

Even though it is not advisable, a member may stop making pension contributions. When this occurs, the City will continue making the ITHP contribution. It is important to note that stopping member contributions will create a shortage in the ASF account; if that shortage is not repaid it will result in a lower pension upon retirement. See the "Shortages" section for further information.

Members may only stop member contributions until earnings for the year reach the level upon which FICA (Social Security) taxes are no longer imposed. If and when a member's earnings reach that level, member contributions are automatically reinstated.

A member may reinstate member contributions at any time.

Member Contributions While on Military Leaves

Members may take military leaves with or without pay during their career with the NYPD; however, all members must be given the opportunity to purchase pension credit for such leaves.

The Uniformed Services Employment and Reemployment Rights Act of 1994 ("USERRA") military service members' pensions—as well as employer and employee contributions to pension plans—are required to be computed based on the rate of compensation the employees would have received but for their periods of military service.

Therefore, when a member goes on military leave, PPF must impute, for purposes of pension calculations, overtime and night-shift differential compensation that members would have earned had they not taken military leaves during their careers with the NYPD.

For example, the member may ordinarily have earned overtime or night-shift differential compensation, but missed the opportunity to do so because of military obligations. Military service begins on the day a member begins his or her leave from the NYPD for the purposes of military service; this may include use of annual leave and/or compensatory time. The military service is deemed completed on the day before the member returns to the NYPD.

To determine the amount of earnings a member would have earned, PPF will average any additional differential payments and overtime the member earned during the 12 months immediately preceding his or her active military service. PPF will then add the base pay to the imputed earnings to reach the pensionable earnings for the military leave. Members are responsible for making additional pension contributions to the Fund.

Excess Contributions/Refund of Excess

A member with twenty or more years of service and no shortage may make an application for a refund of any excess funds in the member's account. If no refund request is made by the time of retirement, the pension will be increased by the actuarial value of the excess.

A refund of excess is the return of any funds in a member's account above the amount required on the member's 20th anniversary. All taxable distributions are subject to a 20% withholding. The withholding tax is credited toward the payment of the tax on the distribution. Members under the age of 59 ½ are also subject to a 10% penalty on the distribution; however, if a member is retiring from the service, the age for the 10% penalty is reduced from 59 ½ to age 50. Members retiring are eligible to roll over a taxable distribution into an IRA, thereby avoiding the 20% withholding and 10% penalties.

A member who requests a refund of excess will receive a 1099 from the Comptroller's Office at the end of the year for the distribution.

Refund of Contributions upon Separation From The Fund

If a member separates from the Fund for reasons other than retirement (resignation, termination, or death) a request for a refund of accumulated contributions plus interest may be made. If contributions are left with the Fund, the money will continue to earn interest for a maximum of five years from the date of separation. After this time, the contributions will no longer accrue interest and will be refunded. If a member has a taxable outstanding loan balance, a Form 1099-R will be generated at the end of the separation year.

Loans

Overview

The maximum allowable loan for members, including any outstanding loans, cannot exceed 90% of accumulated contributions, plus interest.

Loans are issued in multiples of \$10.00, with a minimum amount of \$100. Members are limited to holding 10 outstanding loans at one time, and no more than two new loans may be granted during any 12-month period.

Repayments are automatically deducted from salary checks in the amount specified by the member, but in no event less than 2% of the bi-weekly gross check. Payments may not exceed 10% of the bi-weekly gross check without written authorization from the member. Repayment on all loans must occur prior to a member's 63rd birthday. Members must appear in person at the Pension Fund if they desire to repay loans prior to termination.

Loans with a repayment schedule of five years (130 payments) or less are treated as separate loans for purposes of repayment, tax liability and tracking. Loans being repaid with a term of five years or more will be combined, resulting in a single repayment on the combined loan. If there is a prior loan outstanding, a new loan will have a separate repayment schedule unless the consolidated loan will be repaid in full by the original repayment date.

Why Pension Loans Cause Shortages

A pension loan causes a shortage even if the loan is repaid. The interest on a member's ASF account is 8.25%, whereas the interest on a pension loan 4.0%. Accordingly, making regular pension contributions during the loan repayment period, or even fully repaying the loan, does not prevent the shortage from occurring because the loan is repaid at 4.25 percentage points lower than what the borrowed funds would have earned in the account.

When a member's ASF account falls below the required amount there is a shortage in the account. If not repaid, a shortage will reduce the member's pension at retirement.

The Police Pension Fund recommends that members carefully evaluate whether taking a pension loan is the best option.

Loan Repayment and Insurance

Members may repay a loan in full or in part at any time; the minimum partial payment is \$500. Additionally, members may change the loan payment amount during the months of May and November.

If a member dies prior to retirement, loans with a combined balance up to \$25,000 are insured, subject to how long each loan has been outstanding, as follows:

| Days Loan Outstanding | Percentage of Loan Insured |
|-----------------------|----------------------------|
| Less than 30 days | 0% |
| 30-59 days | 25% |
| 60-89 days | 50% |
| 90 or more days | 100% |

Deferred Compensation Plan Loans

The NYC Deferred Compensation Loan Program (DCLP) works in conjunction with Loans taken at the Police Pension Fund.

The maximum DCLP loan is the lesser of:

- > 50% of a participant's DCP account balance; or
- ➤ \$50,000, reduced by the highest outstanding principal at the Police Pension Fund during the 12-month period ending on the date of the proposed DCLP loan.

Police Pension Fund members seeking a DCP loan must have the Police Pension Fund certify their highest outstanding PPF loan balance during the above period. NYC Deferred Compensation will not issue a loan if the combined PPF/DCP loan balance exceeds the \$50,000 DCLP maximum.

For more information visit www.nyc.gov/nycppf and click the Loan Services link, then click the Deferred Compensation Loans link.

Loan Taxability

A pension loan will be taxed when the member borrows taxable contributions (i.e., 414(h) contributions made after December 1, 1989) and

➤ the cumulative loan principal is greater than \$50,000; or the term of repayment exceeds five years.

A member under the age of $59 \frac{1}{2}$ will incur an additional 10% penalty on the taxable loan amount.

An IRS Form 1099-R is issued if taxable contributions are borrowed. The Fund sends a 1099-R to the address listed on file.

Principal Residence Exception

Internal Revenue Code §72(p)(2)(B)(ii) provides an exception to the five-year rule mentioned in "Loan Taxability" above, if the loan is used to purchase a principal residence. If it can be demonstrated that the loan falls within this exception, the IRS will allow deferral of the tax payable on the loan. PPF is required by law to send an IRS Form 1099-R for this loan.

To establish the right to this exception, the IRS requires documentation of the residence purchase. Documentation examples may include: the HUD-1 Settlement Statement, an Affidavit of Occupancy, the Deed of Trust, Mortgage Terms/Note and the Home Insurance Policy. Members wishing to use this exception should consult a tax professional to ensure the appropriate documentation is provided.

Taxability of the Final Withdrawal

A member may elect to withdraw up to 90% of the required amount at retirement. This is called the final withdrawal (sometimes called the "final loan"). The final withdrawal can consist of both taxable and/or non-taxable funds. The final withdrawal will also create a reduction in the member's retirement allowance.

The portion of the final withdrawal made up of taxable contributions is subject to federal tax withholding at 20%. Taxable contributions withdrawn are also subject to a possible 10% tax penalty for members younger than 50.

Any portion of the final withdrawal that is made up of tax-free funds may pass directly to you tax-free. Contributions made before December 1, 1989, lump sum contributions made to pay off a shortage, and/or 50% Additional contributions are all made using post-tax funds; accordingly, these contributions may be withdrawn tax-free at retirement.

Members have the option of choosing a direct rollover for the final withdrawal. By choosing a direct rollover, the Fund will make the payment of a final withdrawal directly to the IRA or employer's plan selected by the member. Part of the payment can be made to an IRA or employer's plan with the remainder paid directly to the member.

Members also have the option of receiving the entire payment directly; however, if any taxable money is paid directly to the member, the Fund will withhold 20% of the taxable amount as federal withholding taxes. Members may want to consult a professional tax adviser to assist in making this decision.

At retirement, the Police Pension Fund provides every retiree with the tax-free/taxable breakdown of their ASF contributions as well as the tax-free/taxable composition of the final withdrawal and any outstanding pension loans, as applicable.

Pension Shortages

Shortage Causes

A shortage occurs whenever a member's ASF balance falls below its required amount. If a member's ASF balance is higher than the required amount, the ASF has an excess. There are four possible causes of a shortage in your ASF:

1. Pension loan

This creates a shortage because loans are repaid at 4% interest, whereas the ASF earns 8.25% interest. Accordingly, the ASF does not earn the additional 4.25% the loan principal would have earned had it stayed in the member's account (8.25% minus 4% = 4.25%). The lost interest creates a shortage, even if the member repays the loan before retirement and continues to make pension contributions.

2. Insufficient member contributions

A shortage may be created anytime a member stops pension contributions. Some members choose to stop making pension contributions and contribute to the NYC Deferred Compensation Plan; by doing so, the member may have a pension shortage at retirement.

3. Service transfers and most buybacks

With service transfers and most service buybacks, the required rate must be adjusted to the rate corresponding to the member's age at the start of the service transferred or purchased, creating a shortage. PPF will inform members of any change in the required amount.

Example: A member appointed on January 9, 1996 at age 24 (7.30% required rate) purchased three years of uniformed service (January 1, 1991 to December 31, 1993), which changes the membership date to January 1, 1991. As the member was 19 years old on January 1, 1991, the new required contribution rate becomes 8.20%. Because the member was contributing at a lower rate before the buyback occurred, the member now has a shortage.

4. Contract settlement

Receiving back pay from a contract settlement can also create a shortage. At the time a member receives back pay, member contributions are deposited into the ASF account. However, the ASF account did not earn the interest on these contributions while the contract was being settled. Since interest earned on contributions is part of a member's required amount, a shortage may occur.

Effects of a Shortage

If a member has a shortage that has not been repaid prior to retirement, the pension will be reduced by the actuarial value of the shortage. When a member has a pension shortage, the member is given the opportunity to pay back the shortage before retirement. Shortages may be caused in any number of ways, as described above.

Example: A 45-year-old member retires for Service with a \$50,000 shortage. To create the actuarial value of this shortage, it is multiplied by the age-driven actuarial factor (per thousand dollars of shortage) of \$81.78, resulting in a pension reduction of \$4,088 per year.

Reducing a Shortage

Members can reduce or eliminate a shortage in any of the following ways:

1. Waive ITHP

By waiving ITHP, the member agrees to contribute 100% of the required rate; contributions assumed by the City still remain in effect when a member waives ITHP. City ITHP does not appear on your pay stub, but City ITHP plays a major role in funding your pension. Waiving ITHP can help decrease a shortage and may even result in an account excess.

2. Choose 50% Additional

Choosing 50% Additional has similar benefits to waiving ITHP, but 50% Additional contributions are made from after-tax income rather than pre-tax income. Reducing a shortage by choosing 50% Additional may result in ASF funds that can be withdrawn tax-free at retirement.

3. Lump Sum Contribution

A member may also eliminate a shortage by making a lump sum payment. The Fund will only accept a lump sum payment of \$500 or more. This may be done at any time either in person or by mail. The member must request a shortage evaluation at the time of the payment and submit a personal check to the Membership Services Unit payable to the New York City Police Pension Fund. This payment is then credited to the member's ASF account. *Note:* Members may only make lump sum contributions if a shortage exists in the ASF account.

Effect of the Final Withdrawal

At retirement, a member may take a final withdrawal (sometimes called a "final loan"). Members may withdraw up to 90% of their required amount, as well as some or all of their excess, if applicable. Taking a final withdrawal has the same effect as creating a shortage; therefore the member's pension will be reduced for the life of the pension. Having an outstanding loan balance at the time of retirement may also have the effect of creating a shortage.

Retirement

Applicants for Service Retirement should call the Retirement Processing Unit for an appointment three to four weeks before filing for retirement. Filing for retirement must be done in person at least ten days prior to the start of terminal leave and at least 30 days prior to the retirement date. Members are authorized to take an administrative tour for retirement processing.

A member appearing at PPF for retirement must be in possession of his or her shield and identification card.

Pension checks are mailed to a member's mailing addresses on file with the Fund unless a member requests otherwise. Members may have pension payments directly deposited to any bank upon the submission of an Electronic Funds Transfer (EFT) Form. It is the member's responsibility to keep address information current with the Fund, even after retirement.

Procedures for all members applying for retirement

Property Receipt—Discontinuance of Service (PD 520-013)

This form must be completed and signed by the Commanding Officer of the member's permanent command, or an officer at least a rank above the member within the command, and delivered by the member to Retirement Processing. The field, "Next Scheduled Tour After Leaves, Except Terminal Leave" must be filled out on this form. The date in this field is the starting date of terminal leave. All NYPD equipment listed on the Property Receipt (PD-520-013) must be turned in at the member's command.

Firearms

Members who are New York City residents and wish to obtain a New York City Pistol License must visit www.licensing.nypdonline.org. The Application should be submitted four weeks prior to the member's obtaining a retired ID card for processing, otherwise the member may be subject to vouchering firearms until the permit is processed. Questions regarding the Handgun License Application should be directed to the License Division at (646) 610-5536 or https://licensing.nypdonline.org.

Members who are not New York City residents may need to provide a copy of the Property Clerk Invoice (PD 521-141) for all firearms listed on the NYPD Force Record Card if an HR218 card is not obtained. Please contact your resident county for further instructions regarding their process.

Health Insurance Information

Members, and in some cases beneficiaries, may be eligible for health benefits from the City of New York. Members appointed on or before December 27, 2001 need at least five years of credited service; members appointed on or after December 28, 2001 need at least ten years of credited service. Please note members who retire on an Accidental Disability Retirement are eligible for health benefits immediately; members who retire on an Ordinary Disability Retirement need at least five years of credited service to be eligible for health benefits.

Health benefits are only available to a person actually collecting a pension. For example, a member who vests with 10 years of service and does not collect a retirement allowance until what would have been the member's 20th anniversary is not eligible for health benefits until the Fund begins to disburse the retirement allowance. Members should contact Employee Health Benefits at the NYC Office of Labor Relations at 40 Rector Street, New York, NY 10006 or (212) 306-7390 for further information regarding health benefits.

For health insurance purposes, the following information must be provided when a member appears at the Fund to retire:

- ✓ GHI, HIP or other health plan card;
- ✓ Spouse's date of birth and Social Security Number;
- ✓ Date of marriage;
- ✓ Dates of birth and Social Security Numbers of dependent children;
- ✓ If spouse is employed and has health insurance, bring pertinent information (name of employer, health plan, and policy number).

Retirement Processing

During the retirement process at the PPF, members are provided information on health insurance, pension survivor options, employment restrictions, withholding tax and other important retirement issues. The member's retirement date will be set, and estimates for both final pension and pre-finalization pension will be provided.

Estimate of Final Pension

An applicant for retirement will receive a pension estimate after meeting with a retirement processor—this is only an estimate. Any additional overtime, night differential and worked vacation earned between the estimated retirement date and the actual retirement date will be included at finalization. Any difference in monthly average earnings between the retirement processing date and the finalization date will be disbursed as a retroactive payment.

Terminal Leave

Members are entitled to take all accrued time and terminal leave after the last day on active duty, or request a lump sum payment for such time. All accrued time must be used prior to the

start of terminal leave. During terminal leave, members remain on the active payroll. Terminal leave will not be granted if a member has charges pending with the Police Department.

Application Withdrawal

A member being processed for Vested or Service Retirement may withdraw the retirement application while it is still pending by appearing at the Fund in person at least one business day prior to the scheduled retirement date. Any terminal or annual leave used prior to withdrawal of the retirement application may not be restored; however, unused terminal leave may be used toward a future retirement. A member must work 30 days after withdrawing an application for retirement to be eligible for annual leave in the next calendar year.

Final Average Salary

- ➤ <u>Members appointed before July 1, 2000</u>—Final average salary is the greater of pensionable earnings in one of the following periods:
 - Final 12 months immediately preceding the retirement date; or
 - Average of the final 36 months immediately preceding the retirement date; or
 - Average of the best three consecutive calendar years.
- ➤ <u>Members appointed on or after July 1, 2000</u>—Final average salary is defined as pensionable earnings in the final 12 months of service.

Pensionable Earnings

Pensionable earnings are made up of salary, overtime, night shift differential, worked vacation and allowable longevity. If the final 12 months immediately preceding the retirement date are used to calculate final average salary, pensionable earnings may not exceed 120% of the previous 12 months' pensionable earnings. If the average of the final 36 months immediately preceding the retirement date or average of the best three consecutive calendar years is used to calculate the final average salary, no single year's pensionable earnings may exceed 120% of the average of the two previous years' pensionable earnings.

A member's uniform allowance, Fair Labor Standards Act (FLSA) payments and excluded longevity are not pensionable earnings. After 20 years of service, longevity is pensionable only at the 5- and 10-year levels. After 25 years of service, full longevity is pensionable.

Vested Retirement

A member "vests" after five years of uniformed service and becomes eligible for pension benefits. The member may apply for Vested Retirement at any point between "vesting" and eligibility for Service Retirement. The application for Vested Retirement must be filed at the Police Pension Fund at least 30 days before discontinuance of active police service.

A Vested Retirement Pension starts on the earliest date the member would have been able to retire for Service. Vested retirees are not entitled to terminal leave before separation from service, Variable Supplements Fund payments or the Reserve for Increased Take-Home Pay.

Note: New York State service may not be counted for vesting purposes until after the completion of five years of New York City uniformed service.

A Vested Retirement pension benefit is as follows:

1/40 x final average salary x years of uniformed service plus

75% x 1/60th x last five-year average earnings x years (to the day) of all prior non-uniform service

plus

Annuity value of ASF in excess of the required amount

less

Annuity value of ASF balance shortage

<u>Health benefits note:</u> Health benefits stop on the vested separation date, but vested retirees become eligible to receive health benefits beginning on their 20th anniversary. However, the credited service required in order to receive health benefits varies by appointment date.

Service Retirement

Members are eligible for Service Retirement upon completion of 20 years of Allowable Police Service. The application for Service Retirement must be filed at the Police Pension Fund at least 30 days before discontinuance of active police service.

A Service Retirement pension benefit is as follows:

50% of final average salary

plus

1/60th of total earnings after the 20th anniversary

plus

75% x $1/60^{th}$ x average earnings for the last five years x number of years (to the day) of all prior non-uniform service

plus

Annuity value of City ITHP contributions after the 20^{th} anniversary

plus

Annuity value of ASF in excess of the required amount

less

Annuity value of ASF shortage

Termination

Pursuant to Chapter 514 of the Laws of 2011, if a member is dismissed from the NYPD, for any reason other than a felony conviction, and the member has at least 20 years of Allowable Police Service, the member will be deemed to have retired as of the date of his dismissal and will suffer no loss of rights or benefits from the PPF. If a member is convicted of a felony, the member may forfeit any right to a retirement benefit. This law applies only to members who are terminated after September 23, 2011.

Variable Supplements Fund

Members who **retire for Service** are eligible to receive an annual statutorily defined Variable Supplements Fund (VSF) payment in addition to regular pension payments. The VSF is prorated based upon the number of full months of retirement in the retirement year. The annual VSF benefit for 2011 and every year thereafter is \$12,000. <u>Only members who retire for Service Retirement are eligible for VSF benefits.</u>

VSF DROP (Deferred Retirement Option Plan)

In addition to the annual VSF benefit discussed above, members who continue on active duty beyond the 20th anniversary, and ultimately retire for Service, may be entitled to the VSF DROP (Deferred Retirement Option Plan), also known as the "Banked Variable." The VSF DROP was designed to retain experienced members of the NYPD by guaranteeing a lump sum payment upon retirement for each year the member remains in active service beyond the member's twentieth police anniversary. Accrued VSF DROP funds are eligible for rollover, subject to IRS regulations.

The VSF DROP is not payable to members who die in active service or retire for a disability.

VSF Payment Schedule

VSF payments and VSF DROP payments will be made or credited on or about December 15th of the retirement year. Members who retire in the month of December are not eligible for a prorated VSF for the month; however, if the member is eligible for the VSF DROP, it will not be paid until December of the following year.

Disability Retirement

An application for Ordinary or Accident Disability may be made by a member who is incapacitated from performing the duties of a police officer.

A disability application may be filed by the member or a legally authorized person acting on the member's behalf; or by a committee or conservator duly appointed by a court of competent jurisdiction; or by the Police Commissioner.

Applications for ODR and ADR are made at the Medical Division, 1 Lefrak City Plaza, 59-17 Junction Boulevard, Corona, New York, 11368. Applicants will be notified of the time to appear before the Medical Board for examination.

After the examination, the Medical Board will report to the NYCPPF Board of Trustees with a recommendation for approval or disapproval of the disability application. After the Board of Trustees meeting, members are informed of the decision and other necessary information.

If a member has 20 years or more of allowable police service, the application for Ordinary Disability Retirement may be withdrawn and the member may retire for Service, provided the Police Pension Fund Board of Trustees has not made a final disability determination. The application withdrawal request must be sent in writing to the Executive Director of the Police

Pension Fund. This request also requires the approval of the Chairman of the Police Pension Fund Board of Trustees.

Note: Under either Ordinary Disability or Accident Disability Retirement, a member may choose either the Maximum Retirement Allowance or a pension option to provide for a beneficiary upon the death of the member.

Ordinary Disability Retirement (ODR)

Members are eligible to apply for an Ordinary Disability Pension regardless of age or years of uniformed service. To be granted an Ordinary Disability Retirement, a member must be found to be physically or mentally unable to perform regular job duties by the Medical Board. If the Medical Board finds the member to be disabled, the Police Pension Fund Board of Trustees then makes the final determination for or against Ordinary Disability Retirement.

The ODR benefit is calculated differently depending on a member's length of credited service.

Member with less than ten years of credited service:

Pension equal to 33 1/3% of final average salary

plus

An annuity based on ASF balance in excess of required amount

less

Annuity value of any shortage

Member with ten or more years of credited service:

Pension equal to 50% of final average salary

plus

An annuity based on ASF balance in excess of required amount

less

Annuity value of any shortage

Member with twenty or more years of credited service:

Pension equal to (years of all credited service) /40 x final average

salary

plus

An annuity based on ASF balance in excess of required amount

less

Annuity value of any shortage

Accident Disability Retirement (ADR)

Members are eligible to apply for an Accident Disability Pension regardless of age or years of uniformed service. In order to be granted Accident Disability Retirement, the Medical Board must find the member to be physically or mentally unable to perform police duties as the result of an accident sustained in the line of duty. If the member is found to be disabled in this way, the Police Pension Fund Board of Trustees then makes the final determination regarding ADR. An ADR pension becomes effective after the last day a member is on the active NYPD payroll.

An ADR pension benefit is as follows:

75% of final average salary

plus

1/60th of total earnings after the 20th anniversary

plus

Annuity value of ITHP Reserve Account

plus

Annuity value of ASF account balance

World Trade Center Disability Law

Active and retired Police Pension Fund members who participated as active member in the World Trade Center rescue, recovery, and clean-up operations may receive an Accident Disability Pension if found to be disabled as a result of such participation. A Notice of Participation must be been filed by September 11, 2022 to preserve eligibility for applying.

2009 Taxability Change

Pension benefits are non-taxable for members who retired on ADR before January 1, 2009.

Members who retired on ADR on or after January 1, 2009 are subject to taxation on the following portions of the Accident Disability Pension:

- ✓ The portion of the pension that is attributable to member contributions under IRC § 414 (h) and accumulated interest on all member contributions; and
- ✓ ITHP attributable to years after 20 years of service; and
- ✓ The additional 1/60th benefit for years after 20 years of service.

All other pensions (Service, Ordinary Disability and Vested) are subject to the Internal Revenue Code, but are exempt from New York City, New York State and Social Security taxes.

Members are required to ensure that federal income taxes are withheld from their pensions. The tax laws of all states are different and subject to change; when relocating after Tier 2 SPD January 2022—Page 26

retirement, the Fund recommends researching the state's tax laws, or consulting a tax professional.

Cost of Living Adjustments (COLA)

A retiree becomes eligible for Cost of Living Adjustments (COLA) at age 62 if retired for at least five years, or at age 55 if retired for at least ten years, and all disability retirees are eligible for COLA after being retired for five years. The COLA amount is calculated at ½ the Federal Consumer Price Index (CPI), with the minimum amount being 1% and the maximum being 3%.

Spouses collecting a benefit under a joint and survivor option may also be eligible to receive COLA; however, the beneficiary receives 50% of the amount that the member/retiree would have received.

The COLA amount is applied to the first \$18,000 of the retirement allowance, or to the full retirement allowance if less than \$18,000. COLA payments to Service retirees are subtracted from their VSF payments until attainment of age 62, after which point the retiree will receive both the full COLA and full VSF payments.

Pension Options

Through a pension option, a member may elect to receive a smaller retirement allowance while alive in order to provide a benefit for a beneficiary upon the member's death. There are nine options that provide such benefits; a member may elect one at the time of retirement. Each option has a cost, determined by the member's age and the beneficiary's age at the time of the member's retirement. Option selection is generally irrevocable.

To receive the Maximum benefit and yet still provide for a beneficiary, commercial life insurance policies or annuities should be considered.

Maximum Retirement Allowance

The Maximum Retirement Allowance is the highest pension to which a member is entitled by law. Under the Maximum Retirement Allowance, the pension ceases upon the member's death, and no further pension payments may be made to any survivors.

Option Two: 100% Joint and Survivor

Upon the member's death, the designated beneficiary receives 100% of the member's total monthly benefit for the rest of his or her life. Only one beneficiary may be named and may not be changed. If the beneficiary predeceases the member, pension payments continue at the

reduced rate unchanged; a new beneficiary may not be named and benefits cease upon the death of the member.

Note: Option 4-2 below has the same beneficiary and payment structure as Option 2, 100% Joint and Survivor, except that Option 4-2 allows the pension to revert to the Maximum Retirement Allowance should the beneficiary predecease the member.

Option Three: 50% Joint and Survivor

Upon the member's death, the designated beneficiary receives 50% of the total monthly benefit for the rest of his or her life upon the death of the member. Only one beneficiary may be named, and that beneficiary may not be changed. If the beneficiary predeceases the member, pension payments continue at the reduced rate unchanged; a new beneficiary may not be named and all benefits cease upon the death of the member.

Note: Option 4-3 below has the same beneficiary and payment structure as Option 3, 50% Joint and Survivor, except that Option 4-3 allows the pension to revert to the Maximum Retirement Allowance should the beneficiary predecease the member.

Option 4: Lump Sum

Upon the member's death, the designated beneficiary, or beneficiaries, will receive a specific amount (lump sum), determined at the time of finalization. More than one beneficiary may be designated, and such beneficiaries can be changed at any time.

Option 4: Annuity

Upon the member's death, the designated beneficiary receives a retirement allowance specified by the member payable for the life of the designated beneficiary. Only one beneficiary may be named, and that beneficiary may not be changed. If the beneficiary predeceases the member, pension payments continue at the reduced rate unchanged; a new beneficiary may not be named and all benefits cease upon the death of the member.

<u>Note:</u> Option 4-4 below has the same beneficiary and payment structure as Option 4, Annuity, except that Option 4-4 allows the pension to revert to the Maximum Retirement Allowance should the beneficiary predecease the member.

Option 4-2: 100% Joint and Survivor with "Pop-Up"

Upon the member's death, the designated beneficiary receives 100% of the member's total monthly benefit for the rest of his or her life. Only one beneficiary may be named and may not be changed. If the beneficiary predeceases the member, pension payments revert to the Maximum Retirement Allowance.

Option 4-3: 50% Joint and Survivor with "Pop-Up"

Upon the member's death, the designated beneficiary receives 50% of the member's total monthly benefit for the rest of his or her life. Only one beneficiary may be named and may not be changed. If the beneficiary predeceases the member, pension payments revert to the Maximum Retirement Allowance.

Option 4-4: Annuity with "Pop-Up"

Upon the member's death, the designated beneficiary receives a retirement allowance specified by the member payable for the life of the designated beneficiary. Only one beneficiary may be named, and that beneficiary may not be changed. If the beneficiary predeceases the member, pension payments revert to the Maximum Retirement Allowance.

Option 5: Five Year Certain

If a member elects this option, the benefit is payable to the retiree for life; however, if the member dies within 5 years of retirement, the benefit is only payable to the designated beneficiary until the 5th anniversary of the member's retirement. For example, a member may elect this option and live for 15 years after retirement, upon the member's death the benefit would cease and not be payable to a beneficiary. Conversely, if a member died one year after retirement, under this option the benefit would be payable to the beneficiary for 4 more years.

Option 6: Ten Year Certain

If a member elects this option, the benefit is payable to the retiree for life; however, if the member dies within 10 years of retirement, the benefit is only payable to the designated beneficiary until the 10th anniversary of the member's retirement. For example, a member may elect this option and live for 25 years after retirement, upon the member's death the benefit would cease and not be payable to a beneficiary. Conversely, if a member died 3 years after retirement, under this option the benefit would be payable to the beneficiary for 7 more years.

Pre-finalization Pension

After retirement, members will receive a monthly pension of approximately 90% of their estimated final pension. Full monthly pension payments will not be received until the benefit is certified by the Chief Actuary of the City of New York. Upon certification by the Actuary, a pension is considered finalized. After finalization, members begin to receive full monthly pension payments. Any retroactive adjustments are included in the first full pension payment.

<u>Note:</u> Members considering choosing an option may wish to withhold more than 10% from the pre-finalization pension because choosing an option results in a pension lower than the Maximum Retirement Allowance because of the cost of the option.

Finalization Requirement

A pension cannot be finalized unless either the Maximum Retirement Allowance or a pension option is selected. The Fund will send three notices for option selection; if no response is received after the third notice, the Fund will finalize the pension at the Maximum Retirement Allowance. Finalization is generally irrevocable.

Reinstatement and Restoration of Membership

Before the 20th Anniversary

Return within five years and member contributions were not withdrawn

If member contributions have not been withdrawn and the member returns to service within five years of the separation date, membership with the Fund has not ceased. Accordingly, the prior service must be automatically credited to the member. The member's required contribution rate would continue to be based on the member's original tier and appointment date.

Return after five years or member contributions are withdrawn

To receive credit for the prior NYPD time if contributions have been withdrawn, or if you rejoin more than five years after separation. the member must purchase the prior service through a Chapter 646 or Chapter 552 buyback.

After the 20th Anniversary

If, after Service Retirement, a member rejoins the NYPD the pension stops and an active membership begins in the Police Pension Fund. The member will receive a new Tax ID number upon reinstatement. The member will receive a new required rate based on age at reinstatement and start pension contributions as any new PPF member would.

Note: If a member reinstates at age 39 and older, the member contribution rate will be negated by the ITHP unless ITHP is waived and/or the member participates in 50% Additional. The required rate for members 39 and older is less than the 5.0% the City assumes with ITHP.

A reinstated member must work at least five years after reinstatement before the new service and the prior service from the earlier retirement may be combined for purposes of retiring on a recalculated pension.

If a member qualifies for the full value of a recalculated pension, a member must first repay to the Police Pension Fund all pension funds received prior to reinstatement. Any prior pension amount not repaid at the time of the member's second retirement will be actuarially deducted from the recalculated pension. If the member retires for a second time before completing five years of uniformed service after reinstatement, the pension will be the original pension, adjusted for additional 1/60th and ITHP values.

Retiree Employment Restrictions

NYCPPF retirees must comply with post-retirement earnings restrictions to ensure any portion of the retirement allowance is not jeopardized. All PPF retirees are subject to post-retirement limitations and reemployment restrictions. Violations of any of these laws and/or rules may jeopardize some or all of the retirement allowance.

Service and Vested Retirees-Under 65

Section 211: Waiver Required

RSSL Section 211 enables New York State or any of its political subdivisions to hire non-disability retirees who possess certain qualifying skills; however, such an employer needs to obtain a Section 211 Waiver on behalf of the employee. It is the retiree's responsibility to ensure the employer obtains the 211 Waiver and it remains in force throughout the employment period. The NYS Civil Service Commission and the NYC Department of Citywide Administrative Services (DCAS) are among the entities empowered to grant a Section 211 Waiver.

Section 211(a) – Earnings Cap

If the position's salary or compensation is over \$35,000 and the position is with a former employer (City of New York, except the NYC Dept. of Education), the maximum salary or compensation the non-disability retiree may receive is calculated as follows:

Base: Current salary* at retirement rank

Less: Retirement allowance

Equals: Maximum annual earnings (rounded to the next highest \$500)

The Police Pension Fund will suspend the retirement allowance if the retiree earns more than the maximum annual earnings.

Section 211(b) - No Earnings Cap

If the position the non-disability retiree seeks is not with a former employer (the State, or a municipality in New York State other than NYC), the retiree may be hired with no earnings limitations. However, the employer must obtain a 211 Waiver on behalf of the employee.

^{*}Salary is defined as base pay plus overtime, uniform allowance for rank at retirement and worked vacation.

Section 212: Earnings Cap

Under RSSL Section 212, a non-disability retiree under 65 years of age may be employed by New York State or any of its political subdivisions without prior approval of the New York State Civil Service Commission or DCAS. However, the employee's annual salary or compensation must be equal to, or less than, an amount determined by the New York State Legislature (currently \$35,000). A retired PPF member must notify the Executive Director of NYCPPF in writing if he intends to exercise this right, using the RSSL 212 Certification Form. If the retiree's earnings exceed the state-established limit, PPF will suspend, and if necessary recoup, the pension benefit for that year.

Retirees Age 65 and Over

In the calendar year in which a non-disability retiree attains age 65, and every year thereafter, the retiree has no restrictions on earnings paid by New York State or any of its political subdivisions.

Public Benefit Corporations

Section 1117 of the New York City Charter does not apply to Public Benefit Corporations (PBCs), so all retirees may work for such corporations with no earnings limitations.

The following are some common PBCs, including but not limited to:

- Metropolitan Transportation Authority
- New York City Housing Authority
- New York City Transit Authority
- New York City Dormitory Authority
- New York City School Construction Authority
- New York City Convention Operating Corporation
- New York City Health and Hospitals Corporation
- New York City Economic Development Corporation
- New York/New Jersey Port Authority
- New York State Urban Development Corporation
- Waterfront Commission of New York Harbor

Safeguards

Before the 20th Anniversary

Before the 20th anniversary, Ordinary Disability or Accident Disability retirees are not governed by Section 1117 of the New York City Charter. Accordingly, such retirees may earn more than \$1,800.00 per year when employed by New York State or any of its political subdivisions or a public benefit corporation.

However, New York City Administrative Code § 13-254 limits the earnings of pre-20th anniversary disability retirees. Maximum earnings are defined as follows:

Base: Current salary* at next highest rank (immediately above retirement rank)

Less: Pension portion of the retirement allowance

Equals: Maximum annual earnings

*Salary is defined as base pay plus overtime, uniform allowance for rank at retirement and worked vacation.

The Police Pension Fund will suspend the pension portion of the retirement allowance if the retiree earns more than the maximum annual earnings.

After the 20th Anniversary

After the 20th anniversary, disability retirees are governed by Section 1117 of the New York City Charter. RSSL §§ 211 and 212 do not apply to disability retirees after the 20th anniversary as per RSSL § 210. Therefore, such retirees are prohibited from working for the State of New York or any of its political subdivisions.

Note: If a disability retiree becomes an employee of New York State or any of its political subdivisions after the 20th anniversary, PPF will suspend the pension portion of the member's retirement allowance; however disability retirees may be employed by public benefit corporations and non-public organizations with no earnings limitations after the 20th anniversary.

Second Retirement System Membership

A retiree may not join another New York State retirement system as an active member while receiving a pension from the Police Pension Fund. If a retiree does so, the pension portion of the retirement allowance will be suspended; when active membership in the second retirement system ends, pension portion payments will resume.

Active Member Death Benefits

This section describes death benefits available to beneficiaries following the death of an active member. Whenever such a death occurs, the Police Pension Fund Death Benefits staff is available to meet upon request with the designated beneficiary/ies to explain all available benefits.

Payments for All Deaths

The following payments are made in the event of an active member's death, regardless of the cause of death:

- Refund of accumulated contributions, which includes pension loan insurance, if applicable;
- Payment of unpaid salary;
- Payment of worked vacation and lost time, if any

Ordinary Death Benefit (non-line-of-duty, under 20)

This death benefit will be paid provided the member was in service for 90 days or more at the time of death and the member was a salaried PPF member at the time of death.

If the deceased member had under 20 years of service, and the death was not in the line of duty, the beneficiary will receive a lump sum payment equal to three times the member's final years earnings, rounded up to the nearest \$1,000.

Death Gamble Benefit (non-line-of-duty, over 20)

The Death Gamble applies to active members with over 20 years of service and to members retired for Service awaiting finalization of their pension benefit. Under the Death Gamble, members are presumed to have taken Service Retirement the day before they died. The beneficiary of a Death Gamble may receive this benefit either as a lump sum payment of the member's pension reserve accounts or as an annuity for life.

Accidental Death Benefit

An application must be made to the Medical Board to determine whether a member's death was the result of an accident sustained in the line of duty. If the Police Pension Fund Board of Trustees ratifies an affirmative determination from the Medical Board, an Accidental Death Benefit is paid.

The Accidental Death Benefit consists of four parts:

- 1. A lump sum equal to the member's accumulated deductions and any insured loan amount paid to the designated beneficiary(ies), or the member's estate if no beneficiary.
- 2. A lump sum payment of the balance in the member's ITHP reserve account.
- 3. A New York City-paid pension based on 50% of the member's determined salary. This benefit is paid to the spouse; if there is no surviving spouse, or if the surviving spouse dies before any child of the member attains the age of 18 years, or is a full-time student before such child attains the age of 23 years, then the benefit is paid to such a child (or children) while remaining eligible. If the member has no surviving spouse or qualifying child, then the benefit is paid to a dependent father or mother for life.
- 4. A Special Accidental Death benefit (SADB). This is a New York State-paid pension equal to the member's final year's salary, less the New York City-paid pension and Social Security benefits. The SADB is payable to the surviving spouse or child/children at the time of death. The SADB is not payable to dependent parents, and it may be increased periodically by the New York State Legislature. Effective September 1, 2000, any Cost of Living Adjustment (COLA) received on the New York City-paid 50% pension must be subtracted from the Special Accidental Death Benefit.

Vested Death Benefit

The Vested separation period begins on the date a member leaves police service after vesting and ends on the member's 20th anniversary. A Vested Death Benefit is available to beneficiaries of members who die during the Vested separation period.

The benefit varies with the member's length of allowable police service prior to Vested Separation:

- ➤ If the member had less than ten years of service upon vested separation and dies before the 20th anniversary, the beneficiary will receive only the remaining accumulated contributions.
- ➤ If the member had ten or more years of service upon vested separation and dies before the 20th anniversary, the beneficiary is entitled to one-half the Ordinary Death Benefit that would have been payable prior to retirement.

Beneficiaries

All members designate a beneficiary (or beneficiaries) for Death Benefits when joining the PPF; however, whenever a member's social condition changes (e.g., marriage, separation, divorce), the beneficiary designation should be updated.

Reviewing beneficiary designations regularly is well worth the time and effort; doing so protects both assets and heirs. Tax filing and open enrollment periods are recommended times to do this. Major life events, e.g., marriage, remarriage, divorce, birth, adoption and death, often create the need to update beneficiaries.

Checking Your Beneficiary

To obtain beneficiary information, please visit webCOPS. If you do not have webCOPS, inquiries can be mailed to PPF, attention: Membership Services Unit. Due to privacy concerns, telephone and e-mail requests are not permitted.

Changing Line Organization Beneficiaries

Whenever checking beneficiary information with the PPF, remember to also contact the appropriate line organization at the address and number listed below to obtain beneficiary information in those records, as well:

| Police Officers | Patrolmen's' Benevolent Association (PBA) | 212-349-7560 |
|------------------|---|--------------|
| Sergeants | Sergeants' Benevolent Association (SBA) | 212-431-6555 |
| Detectives | Detectives' Endowment Association (DEA) | 212-587-1000 |
| Lieutenants | Lieutenants' Benevolent Association (LBA) | 212-964-7500 |
| Captains & above | Captains Endowment Association (CEA) | 212-791-8292 |

Changing Beneficiaries

You can change your beneficiary on webCOPS. If you do not have webCOPS, you can download the Change of Beneficiary Form on the PPF website and return it to the Fund via mail.

Changing Health Insurance Dependents (Active Members)

To change the dependents on active health insurance by mail or in person, please contact the NYPD Health Insurance Section, 51 Chambers Street, 3rd Floor, New York, New York 10007 or call 646-610-5122 for information.

To change dependents on retiree health benefits, contact the NYC Health Benefits Program to request the appropriate health benefits forms. This Program is located at 40 Rector Street, 3rd Floor, New York, NY 10006 and can be reached at 212-513-0470.

Changing Deferred Compensation Plan Beneficiaries

If enrolled in the NYC Deferred Compensation Plan, call 212-306-7760 for information about updating Plan Beneficiaries. Information is also available at www.nyc.gov/OLR.

Guide for Surviving Beneficiaries

There are few situations in life more stressful than the loss of a loved one; there are no words of comfort at such a difficult time. This section is designed to aid the survivors of PPF members by providing a checklist of who to contact upon the death of a PPF member or retiree, and the information that is required. There are four calls to make:

1. NYPD Operations Unit

Survivors should call NYPD Operations at 646-610-5580, located at NYPD Headquarters, 1 Police Plaza, New York, New York 10038. Pall bearers may be requested at that time and are available for all five City boroughs, Long Island, Westchester, Rockland, Orange and Putnam counties.

2. NYC Police Pension Fund

Please notify PPF in writing at 233 Broadway, 19th Floor, New York, NY 10279, attention: Death Benefits Unit or by telephone at 212-693-5619/5919. Please have the following information available at the time of the phone call: the first, middle and last name of the deceased; the date of death; Social Security Number of the deceased; name of the next of kin; and name, address and phone number of the executor or executrix of the estate, if applicable.

The Fund will need (prompt receipt will expedite the ability to make payments):

- ✓ A certified copy of the death certificate;
- ✓ A copy of the paid funeral bill;
- ✓ A copy of the marriage certificate, if applicable; and
- ✓ A copy of the beneficiary's Social Security card.

3. Member's line organization

Contact the appropriate line organization below, and ask about a possible life insurance policy and whether any continuing optional benefits are available:

| PBA | 125 Broad St. | 11th Floor | 212-349-7560 |
|-----|---------------|------------------------|--------------|
| DEA | 26 Thomas St. | | 212-587-1000 |
| SBA | 35 Worth St. | First and second floor | 212-431-6555 |
| LBA | 40 Peck Slip | | 212-964-7500 |
| CEA | 40 Peck Slip | | 212-791-8292 |

4. Health Benefits Program (Retired Members)

Contact the NYC Employee Health Benefits to request the appropriate health benefits forms. This office is located at 40 Rector Street, 3rd Floor, New York, NY 10006 and can be reached at 212-513-0470.

Introduction

This booklet is called the Tier 3 Summary Plan Description ("SPD"). This SPD applies to the following Tier 3 plans: Original, Revised, and Enhanced. It is published by the New York City Police Pension Fund ("NYCPPF," "PPF," "Fund"), and is intended to summarize provisions relating to the retirement benefits offered to uniformed employees of the New York City Police Department (NYPD) who are subject to the various Tier 3 plans.

This booklet is not intended to be comprehensive. Laws affecting the plan can be added to or changed at any time, which may result in discrepancies within this SPD. In the event of a conflict between the contents of this booklet and any applicable law and/or rules, including, but not limited to, the Administrative Code of the City of New York ("NYCAC"), the New York State Retirement and Social Security Law ("RSSL"), and the Rules of NYCPPF, the applicable Law or Rule will govern.

About PPF

In 2001, legislation provided Corpus Funding for the Pension Fund to begin operations in September 2002 at its new location at 233 Broadway in New York City. The PPF is governed by the Board of Trustees. The Comptroller of the City of New York is Custodian of the funds of the System, and by delegation of the Board of Trustees, has the power to invest those funds. The Executive Director is the chief administrative officer of the agency. The Chief Actuary for the City of New York provides actuarial services to the PPF. The Office of Corporation Counsel provides legal services to the Fund.

NYCPPF is a defined benefit plan, meaning that a specific benefit is provided at retirement in amounts that are paid either on a fixed-dollar basis or as a percentage of compensation. PPF manages the Fund's invested assets and pays out benefits according to formulas set forth in New York State and City laws. In general, Tier 3 members are governed by Article 14 of the RSSL, the NYCAC, the Rules of the Fund and certain other applicable statutes.

How to Contact PPF

The Fund cannot answer member specific questions regarding financial information or provide legal or tax advice.

In the Fall of 2019, PPF announced a new service for our members: webCOPS. This is a secure website where members can view pension account information and connect with PPF online. Members who register on webCOPS can check their current account balance, verify contact and beneficiary information, and download and submit member request forms. This is the first release of a phased implementation.

webCOPS will evolve with scheduled updates over the next few years. Members can register by visiting https://www.webcops.org/ppfmss. PPF's Call Center is available to provide webCOPS support during standard business hours – please contact the Call Center at (646) 905-5596 for more information.

Members can also find the answers to many questions quickly and conveniently by visiting the PPF website: www.nyc.gov/nycppf.

At PPF, protecting and securing the privacy of member data is a top priority. Therefore, some transactions require notarization; please refer to the individual form or request. PPF staff does not respond to telephone or e-mail inquiries relating to private member information because the identity of the caller or e-mail writer cannot be confirmed.

For answers to questions of a **general** nature concerning retirement and pensions, please call PPF at (212) 693-5100.

You may send forms or letters to the Pension Fund at 233 Broadway, 25th Floor, New York, New York 10279.

The Fund is also on Facebook! Members, their beneficiaries, and fans of the Fund can "like" us on Facebook at www.facebook.com/nycppf.

In person and online, PPF is proud to be serving the FINEST.

Membership

Uniformed members of the New York City Police Department appointed on or after July 1, 2009 are subject to Article 14 of the RSSL, also known as Tier 3. Contributions to the Fund must be made while employed with the NYPD, but are not required after 25 years of service. Membership in the Fund ceases upon withdrawal of contributions. There are three different plans within Tier 3: Original, Revised, and Enhanced.

| Members appointed | Plan |
|--|-----------------|
| Between July 1, 2009 – March 31, 2012 | Tier 3 Original |
| Between April 1, 2012 – March 31, 2017 | Tier 3 Revised |
| On or after April 1, 2017 | Tier 3 Enhanced |

Tier 3 Original or Revised members who elected to opt-in to Tier 3 Enhanced are subject to the rights, benefits, and provisions provided by the Enhanced plan. The period to opt-in to Tier 3 Enhanced is now closed.

Credited Service

Participation in the Fund is mandatory for uniformed members of the service. A member will not receive retirement credit for any day not on the payroll, *e.g.*, suspended without pay. Military service with the federal government may be credited pursuant to New York State Military Law §243, the Uniformed Services Employment and Reemployment Rights Act (USERRA), and RSSL §1000, as explained below.

Prior Service Credit

A member is eligible to obtain service credit for any New York State Police and Fire time, or service with the New York City Fire Department. This credited service may count toward the requirements for vesting and retirement.

Transfer to New York City Police Pension Fund

A member may transfer a membership from another public retirement system within the State of New York to PPF. In Tier 3, transferring prior City or State service, other than Police or Fire time, does not provide service credit or an additional monetary benefit. There may, however, be a transfer into a prior tier depending on membership dates. Before deciding whether to transfer service from another pension system, an eligible member should speak with Membership Services.

Buyback of Prior Service

Members must apply and remit payment for all service credit purchases before their effective date of retirement. In the event of retirement prior to completing payment for the service credit

purchase, the amount of service credited to the member shall be proportional to the total amount paid.

Chapter 646 of the Laws of 1999

Chapter 646 of the Laws of 1999 amended RSSL § 645, which allows for the purchase of prior service in another retirement system for a membership that has ceased. Chapter 646 may allow for a Tier change or Tier reinstatement. A member who may be eligible to purchase service under this provision should contact Membership Services.

Chapter 552 of the Laws of 2000

Chapter 552 of the Laws of 2000 allows members the ability to purchase any prior service rendered before becoming a member of the Fund, or any other New York State or New York City retirement system. Only prior police or fire service will provide service credit.

Child Care, Chapter 594, Laws of 2000

Chapter 594 allows members who were on leave without pay for purposes of authorized child care leave to purchase uniformed credited service. A member must file an application not later than 90 days from the final date of the leave.

Military Service, RSSL § 1000

New York State Retirement and Social Security Law ("RSSL") § 1000 allows members to purchase up to three years of pre-membership military service.

To be eligible for this service credit purchase, the member must:

- ✓ Be in active City service; and
- ✓ Have five years of credited service with PPF, not including the military service being purchased; and
- ✓ Produce a DD-214 demonstrating an honorable discharge from any branch of the U.S Armed Forces.

The cost of this buyback is dependent on appointment date:

- ▶ If the member has a membership date with PPF on or prior to March 31, 2012:
 - 3% of the member's compensation earned during the 12 months of credited service immediately preceding the application date multiplied by years of military service claimed
- If the member has a membership date with PPF on or after April 1, 2012:
 - 6% of the member's compensation earned during the 12 months of credited service immediately preceding the application date multiplied by years of military service claimed.

If upon death, retirement, or separation, the service purchase does not produce a greater benefit, the cost of the service purchase must be refunded to the member with interest.

Retroactive Military Seniority (RMS)

Retroactive Military Seniority ("RMS") is awarded to a member after being appointed to the NYPD from a special list, retroactive to the date the member would have been appointed had the member not been serving in the military. Information contained herein applies only to pension, not employment, benefits.

Members who are awarded RMS from the Department of Citywide Administrative Services (DCAS) are eligible to receive pension credit retroactive to their RMS date upon remitting the cost of the pension contributions to the Fund. This entitles the member to the same rights, privileges and obligations as if he had served continuously in such position from the RMS date, including Tier status.

Contributions must be completed within the repayment period prescribed by law; the maximum repayment period is the time from the RMSD to the NYPD appointment multiplied by 3, up to a maximum of 5 years. Payments can be made via certified check or money order or through biweekly payroll deductions. Upon completion of the payment, interest will be credited to the account as it would have been earned during the period.

Please note a member cannot receive RMS and credit for the same military service through a buyback. Members who have already completed a RSSL §1000 buyback for the same time will receive a refund for the buyback or the City will credit the money toward the RMS payment.

Contributions

Contributions to the New York City Police Pension Fund are mandatory for all members, but are not required after 25 years. Contribution rates vary by Tier 3 plan. Pensionable earnings consist of: base salary, overtime, night differential, holiday pay, worked vacation, portal to portal and allowable longevity. Member contributions are based on gross pay and will be deducted from pay before federal taxes are deducted.

Contribution Rates

Member contributions and the interest they earn are known as accumulated contributions. The Tier 3 rate of interest is currently 5%. A member's accumulated contributions must equal the required amount (the 3% contribution rate plus statutory interest) to be eligible for a pension.

| Plan | Contribution Rate |
|-----------------|-------------------|
| Tier 3 Original | 3% |

| Tier 3 Revised | 3% |
|-----------------|-----|
| Tier 3 Enhanced | 4%* |

^{*} Tier 3 Enhanced members contribute 3% of pensionable earnings PLUS an additional contribution rate to help fund the enhanced disability benefit. Currently, the additional contribution rate is 1%. This additional 1% can be raised to up to 3% based on a financial analysis by the Office of the Actuary, which is conducted every three years. At no time can the total contribution rate exceed 6%.

Taxability of Contributions

Tier 3 Original and Revised contributions are taken pre-tax. Tier 3 Original and Revised members who opt into Tier 3 Enhanced will have split taxability: the base 3% is pre-tax, however the additional contribution (currently 1%) will be taken after tax.

Tier 3 Enhanced contributions in their entirety are taken pre-tax only for members appointed on or after April 1, 2017.

Pensionability of Longevity

Longevity payments are not automatically pensionable. "Pensionable" means what portion of your earnings are included in the final average salary. When a member has 20 years of service, the payments for five and ten year longevity become pensionable. At 25 years of service, the payments for 15 and 20 year longevity become pensionable.

Member Contributions While on Military Leaves

Members may take military leaves with or without pay during their career with the NYPD; however, all members must be given the opportunity to purchase pension credit for such leaves. The Uniformed Services Employment and Reemployment Rights Act of 1994, 38 U.S.C. §§ 4301–35 ("USERRA") requires military service members' pensions—as well as employer and employee contributions to pension plans—to be computed based on the rate of compensation the employees would have received but for their periods of military service.

Therefore, when a member goes on a military leave, PPF must impute, for purposes of pension calculations, overtime and night-shift differential compensation that members would have earned had they not taken military leaves during their careers with the NYPD.

For example, the member may ordinarily have earned overtime or night-shift differential compensation, but missed the opportunity to do so because of military obligations. Military service begins on the day a member begins his or her leave from the NYPD for the purposes of military service; this may include use of annual leave and/or compensatory time. The military service is deemed completed on the day before the member returns to the NYPD.

To determine the amount of earnings a member would have earned, PPF will average any additional differential payments and overtime the member earned during the 12 months

immediately preceding his or her active military service. PPF will then add the base pay to the imputed earnings to reach the pensionable earnings for the military leave. Members are responsible for making additional pension contributions to the Fund.

Refunds of Member Contributions

A member may withdraw any excess funds within six months of appointment or at the time of separation. Excess created by errors of the Fund will be returned upon identification.

If a member separates from the Fund for reasons other than retirement (resignation, termination, or death) a request for a refund of accumulated contributions plus interest may be made. If contributions are left with the Fund, the money will continue to earn interest for a maximum of five years from the date of separation.

Upon separation of service (either by way of resignation or dismissal), contributions may be withdrawn until a member has 10 years of credited service. After 10 years of service, contributions may not be withdrawn or transferred to another system, and members will receive a vested retirement benefit.

Shortages

A shortage occurs when a member's pension account balance falls below the required amount. Members are responsible for any account shortages; there is no actuarial offset if a member has a shortage at retirement. Unfortunately, a member will not be permitted to retire with a shortage.

Shortages may occur because of delays in contract settlements. Retroactive pay from a contract settlement does not include the interest that would have been earned on these contributions. Interest earned on contributions is part of a member's required amount; therefore, a shortage can occur.

The Fund will notify any member with a shortage prior to retirement. Members may opt to make a lump sum payment(s) or biweekly payroll deductions to reduce any shortage.

Loans

There is no provision in Tier 3 that allows a member to take loans.

Members who transfer to the Fund with an active loan from their previous retirement system will be enrolled in their prior repayment plan; no changes may be made to the repayment plan.

Retirement

When a member decides to retire, there is no statutory minimum time period by which the member must file before retiring. However, it is recommended that applicants for Service Retirement call the Retirement Processing Unit for an appointment three to four weeks before filing for retirement.

Filing for retirement should be done in person at least 10 days prior to the start of terminal leave. Members are authorized to take an administrative tour for retirement processing.

A member appearing at PPF for retirement must be in possession of his or her shield and identification card.

Pension checks are mailed to a member's mailing address on file with the Fund unless a member requests otherwise. Members may have pension payments directly deposited to any bank upon the submission of an Electronic Funds Transfer (EFT) Form. It is the member's responsibility to keep address information current with the Fund, even after retirement.

Procedures for all members applying for retirement

Property Receipt—Discontinuance of Service (PD 520-013)

This form must be completed and signed by the Commanding Officer of the member's permanent command, or an officer at least a rank above the member within the command, and delivered by the member to Retirement Processing.

The field, "Next Scheduled Tour After Leaves, Except Terminal Leave" must be filled out on this form. The date in this field is the starting date of terminal leave. It is the responsibility of the member to return Department property to the appropriate locations.

Firearms

Members who are New York City residents and wish to obtain a New York City Pistol License must visit www.licensing.nypdonline.org. The Application should be submitted four weeks prior to the member's obtaining a retired ID card for processing, otherwise the member may be subject to vouchering firearms until the permit is processed. Questions regarding the Handgun License Application should be directed to the License Division at (646) 610-5536 or https://licensing.nypdonline.org.

Members who are not New York City residents may need to provide a copy of the Property Clerk Invoice (PD 521-141) for all firearms listed on the NYPD Force Record Card if an HR218 card is not obtained. Please contact your resident county for further instructions regarding their process.

Health Insurance Information

Members, and in some cases their beneficiaries, may be eligible for health benefits from the City of New York. A member needs at least 10 years of credited service to be eligible for health

benefits upon retirement. Health benefits are only available to a person actually collecting a pension.

For example, a member who vests with 10 years of service and does not collect a retirement allowance until what would have been the member's 22nd anniversary is not eligible for health benefits until the Fund begins to disburse the retirement allowance. Likewise, a member who retires with 22 years of service and elects to defer payment of the pension until what would have been 25 years for escalation purposes would not be eligible to receive health benefits until collection of the pension benefit.

Members should contact Employee Health Benefits at the NYC Office of Labor Relations at 40 Rector Street, New York, NY 10006 or (212) 306-7390 for further information regarding health benefits.

For health insurance purposes, the following information must be provided when a member appears at the Fund to retire:

- ✓ GHI, HIP or other health plan card;
- ✓ Spouse's date of birth and Social Security Number;
- ✓ Date of marriage;
- ✓ Dates of birth and Social Security Numbers of dependent children;
- ✓ If spouse is employed and has health insurance, bring pertinent information (name of employer, health plan, and policy number).

Retirement Processing

During the retirement process at PPF, members are provided information on health insurance, pension survivor options, employment restrictions, withholding tax, and other important retirement issues. The member's retirement date will be set, and estimates for both final pension and pre-finalization pension will be provided.

Estimate of Final Pension

An applicant for retirement will receive a pension estimate after meeting with a retirement processor—this is only an estimate. Any additional overtime, night differential and worked vacation earned between the estimated retirement date and the actual retirement date will be included at finalization. Any difference in monthly average earnings between the retirement processing date and the finalization date will be disbursed as a retroactive payment.

Terminal Leave

Members are entitled to take all accrued time and terminal leave after the last day on active duty, or request a lump sum payment for such time. All accrued time must be used prior to the start of terminal leave. During terminal leave, members remain on the active payroll.

Application Withdrawal

A member being processed for Vested or Service Retirement may withdraw the retirement application while it is still pending by appearing at PPF in person at least one business day prior to the scheduled retirement date. Any terminal or annual leave used prior to withdrawal of the retirement application may not be restored; however, unused terminal leave may be used toward a future retirement. A member must work 30 days after withdrawing an application for retirement to be eligible for annual leave in the next calendar year.

Final Average Salary

The compensation base that is used to calculate a pension benefit is referred to as your Final Average Salary (FAS). The FAS period is different in the various Tier 3 plans.

FAS is defined as the average of wages earned by a member during a certain continuous period of employment for which the member was credited with service. This is not determined by a mere average of wages.

The "Kingston Limitation" is a statutory provision which states wages earned in any one year used in the FAS computation cannot exceed the average of prior years by more than 10 percent. The period of exclusion under the Kingston Limitation is different throughout the various Tier 3 plans, as described below.

If the member was on a leave of absence without pay (e.g. suspension) at any time during the FAS period, that time will be excluded from the calculation and the same period of time immediately preceding the FAS period will be included for the final average salary.

Tier 3 Original

Tier 3 Original (Tier 3 Original who Opt into Tier 3 Tier 3 Original Opts Into Tier 3 Enhanced Enhanced and retires for Vested or (and retires for disability)* Service) Average wages earned by a member during any Average wages earned by a member during any 3 consecutive calendar years or 36 months 5 consecutive calendar years or 60 months immediately preceding the member's retirement immediately preceding the member's retirement date that provides the highest average wage. date that provide the highest average wage. If the wages earned during any year included in If the wages earned during any year included in the period exceeds the average of the prior two the period exceeds the average of the prior four years by more than 10%, the amount in excess years by more than 10%, the amount in excess of 10% shall be excluded. of 10% shall be excluded.

^{*}Tier 3 Original members who opt into Tier 3 Enhanced will only see this changed in their FAS if they retire for a disability retirement. The Original FAS calculation remains for members who retire for Vested or Service retirement.

Tier 3 Revised and Enhanced

FAS is the average wages earned by a member during any **5 consecutive calendar years** or **60 months immediately** preceding the member's retirement date that provide the highest average wage.

If the wages earned during any year included in the period exceeds the average of the **prior four years** by more than 10%, the amount in excess of 10% shall be excluded.

Social Security Offset

Most pension benefits in Tier 3 are reduced by a Social Security Offset.

Members who retire for Ordinary Disability Retirement ("ODR") will have their benefit offset by 50% of their primary Social Security Disability Insurance ("SSDI") benefit. The benefit will not be further reduced if the Social Security benefit increases after separation from service.

Members who retire for Accident Disability Retirement ("ADR") follow the regular Offset, as described below, unless they receive SSDI for the same disability claimed from the Fund. Upon receipt of SSDI, ADR retirees will have their benefit offset by 50% of their SSDI, as described above.

Tier 3 Enhanced members who retire for a ADR or ODR will not have their pension benefits reduced by the Social Security Offset.

All other pension benefits are reduced by a regular Social Security Offset at age 62, regardless of whether the member is in receipt of Social Security Benefits. This offset is determined at the time of the member's retirement. All public earnings for which the member has accrued service credit will be factored into the calculation of the Offset.

Mandatory Retirement

A member must separate from uniformed service upon turning 62 years old. The separation must occur regardless of whether the member is eligible for a Normal Service Retirement.

- Members appointed between July 1, 2009 and March 31, 2012: The retirement benefit may be calculated the same as Early Service Retirement, or the member may be entitled to a Vested benefit. This Vested benefit will be reduced 1/15th for each year that a member's early retirement age is in excess of age 60, as described in the Vested Retirement section. Members who must retire for mandatory retirement and do not have 20 years of service are not eligible for the VSF.
- Members appointed on or after April 1, 2012: If a member attains mandatory retirement age and does not have enough service credit for an Early Service Retirement, the member must take a Vested Retirement. Accordingly, if a member reaches age 62 with less than 20 years of NYPD service, the member is not eligible for the VSF.

Vested Retirement

After five years of uniformed service a member is eligible for vested retirement benefits. Please note that to be eligible for health benefits in retirement, a member must have completed ten years of service.

Vested benefits are payable upon attainment of the 20th anniversary of NYPD service.

A member may elect to receive the Vested benefit early, if the member attains age 55 prior to reaching the 20th anniversary, subject to a reduction of 1/30th for each year the benefit commenced before the 20th anniversary.

To be eligible for annual escalation, a member may elect to defer payment of the vested pension benefit until 22 years and one month or more, up to 25 years. See the Escalation section of this SPD for an explanation of how appropriate escalation is calculated.

Vested retirees are not entitled to terminal leave before separation from service, nor eligible for Variable Supplement Fund payments.

The vested pension benefit is as follows:

2.1% of the final average salary x years of credited service -minus-

50% of primary Social Security benefit commencing at 62

Early Service Retirement

A member is eligible for Early Service Retirement after the completion of 20 years of uniformed service.

An Early Service Retirement pension benefit is as follows:

2.1% of FAS x years of credited service (for first 20 years) -plus-

1/3% of FAS for each month in excess of 20 years
[total benefit not in excess of 50% of FAS]
-entire benefit above less50% of primary Social Security benefit commencing at 62

Normal Service Retirement

A member is eligible to retire for Service without reduction upon the completion of 22 years of uniformed service.

The Normal Service Retirement benefit is:

50% of FAS-less-

50% of primary Social Security benefit commencing at 62

Disability Retirement

An application for Ordinary or Accident Disability may be made by a member in active service, who is not eligible for a Normal Service Retirement (22 years), and is incapacitated from performing the duties of a police officer. Applications for ODR and ADR are made at the Medical Division, 1 Lefrak City Plaza, 59-17 Junction Boulevard, Corona, New York, 11368. Applicants will be notified of the time to appear before the Medical Board for examination.

A disability application may be filed by the member or a legally authorized person acting on the member's behalf; or by a committee or conservator duly appointed by a court of competent jurisdiction; or by the Police Commissioner.

To apply for ODR or ADR, Tier 3 Original and Revised members must sign a waiver of the statutory presumptions. A determination of disability should be made by the Medical Board regardless of any statutory presumptions (except the World Trade Center presumption). Tier 3 Enhanced members are entitled to the benefit of statutory presumptions, which include the Heart Bill and the Exposure (HIV, AIDS, Hepatitis, and Tuberculosis) Bill.

After the examination, the Medical Board will report to the NYCPPF Board of Trustees with a recommendation for approval or disapproval of the disability application. After the Board of Trustees meeting, members are informed of the decision and other necessary information.

Ordinary Disability Retirement (ODR)

To be eligible for Ordinary Disability Retirement, a member must be in active service and have at least five years of credited service, but not yet be eligible for a Normal Service Retirement benefit. To retire for ODR a member must be approved for primary Social Security disability benefits ("SSDI"). Payment of ODR is contingent on active receipt of SSDI, such proof is required annually until age 65.

The Ordinary Disability Retirement benefit is the greater of:

33 1/3 % of FAS

-or-

2% of FAS x years of credited service
-either benefit above, less50% of SSDI

Accident Disability Retirement (ADR)

To be eligible for ADR, a member must be in active service and be physically or mentally incapacitated for the performance of duty as the natural and proximate result of an accident sustained in active service and not caused by the member's own willful negligence. Receipt of ADR is not conditioned on eligibility for, or receipt of, primary Social Security benefits. Accordingly, payment of a benefit from the Fund will commence after approval by the PPF Board of Trustees.

A Tier 3 ADR pension is calculated as follows:

| Tier 3 Original and Revised | Tier 3 Enhanced |
|---|-----------------|
| 50 % of FAS | |
| less | 75 % of FAS |
| 50% of primary Social Security Disability | |

Taxation of Benefits

ADR pensions are generally not subject to taxation.

All other pensions (Normal Service, Early Service, Ordinary Disability, and Vested) are subject to Federal tax, but are exempt from New York City, New York State and Social Security taxes.

The tax laws of all states are different and subject to change; if relocating after retirement, the Fund recommends researching the state's tax laws, or consulting a tax professional.

Escalation

Members may be eligible for Escalation on their pension. Escalation is a post-retirement increase (or decrease) to retirement benefits and are calculated by the New York City Office of the Actuary. Escalation is capped annually at 3%. In the event of negative escalation, your benefit will never be reduced below your initial pension amount.

Tier 3 Enhanced members who retire for a disability, do not receive escalation, rather Cost of Living Adjustments ("COLA").

Tier 3 members eligible for Escalation will receive the greater of COLA or Escalation as calculated on a cumulative basis.

Full Escalation Date

The full escalation date is calculated as follows for different retirement types:

- ➤ <u>Vested and Service Pensions:</u> The first day of the month after a member completes, or would have completed 25 years of service.
- ➤ <u>Disability Pensions (Tier 3 Original and Revised only):</u> The first day of the month following the day on which a member retires for ODR or ADR.
- ➤ **<u>Death Benefits:</u>** The first day of the month following the day on which a beneficiary first becomes eligible for a death benefit paid as other than a lump sum.

Partial Escalation

Partial escalation is calculated on benefits that commence prior to the member's full escalation date. A retiree will be eligible to receive 1/36th of the escalation rate for each month the benefit starts after the 22nd anniversary, but before the 25th anniversary.

Deferred Benefit for Escalation - 22 years of service or less

A member who retires for Early Service or Vests with less than 20 years of credited service may choose to defer the retirement benefit for the purpose of becoming eligible for annual escalation, in exchange for a reduction in their pension. The reduced pension benefit would then be calculated as follows:

2% x FAS x each year of credited service
-less50% of the Primary Social Security Benefit at age 62

If a member chooses the above option, the member will receive the escalation rate in effect at the time pension benefits become payable.

Deferred Benefit for Escalation - Normal Service Retirement

A Normal Service retiree with less than 25 years of service may choose to defer the retirement benefit for the purpose of becoming eligible for full escalation.

Deferred Benefit for Escalation and the VSF

A service retiree (Early and Normal) with over 20 years of service is eligible for the VSF, as described in the earlier VSF section. A member who defers their benefit for escalation, will be paid any banked Variable (VSF DROP) in the year he or she retires, regardless of the duration of the deferral. VSF will not be accrued during the deferral period. When the member begins receipt of the retirement benefit, payment of the VSF will resume.

Cost of Living Adjustments ("COLA")

Tier 3 Enhanced members who retire for ODR or ADR become eligible for Cost of Living Adjustments ("COLA") after being retired for five years. COLA is calculated annually by the New York City Office of the Actuary.

The COLA amount is applied to the first \$18,000 of the retirement allowance, or to the full retirement allowance if less than \$18,000.

Spouses collecting a benefit under a joint and survivor option may also be eligible to receive COLA; however, the beneficiary receives 50% of the amount that the member/retiree would have received.

Variable Supplements Fund

Members who retire for Service, with at least 20 years of credited police service are eligible to receive an annual statutorily defined Variable Supplements Fund ("VSF") payment in addition to regular pension payments. The VSF is prorated based upon the number of full months of retirement in the retirement year. The annual VSF benefit is \$12,000. Only members who retire for Early or Normal Service Retirement are eligible for VSF benefits.

VSF DROP (Deferred Retirement Option Plan)

In addition to the annual VSF benefit discussed above, members who continue on active duty beyond the 20th anniversary, and ultimately retire for Early or Normal Service Retirement, may be entitled to the VSF DROP, also known as the "Banked Variable." Accrued VSF DROP funds are eligible for rollover, subject to IRS regulations.

The VSF DROP is not payable to members who die while in active service.

VSF Payment Schedule

VSF payments and VSF DROP payments will be made or credited on or about December 15th of the retirement year. Members who retire in the month of December and are eligible for the VSF DROP will not be paid until December of the following year.

Options

A member may elect to receive a reduced retirement allowance while alive in order to provide a continued benefit for someone else upon the member's death. There are five options that provide such benefits; a member may elect one. Each option has a cost, determined by the member's age and the beneficiary's age at the time of the member's retirement.

Members will be presented with the estimated cost at the time of retirement. A member will be required to choose the option within 30 days of the retirement date or the maximum retirement allowance will be granted. In the case of disability retirements, a member may elect to change any prior option selection within 30 days of approval of the disability benefits by the PPF Board.

- Maximum Retirement Allowance: The Maximum Retirement Allowance is the highest pension to which a member is entitled by law. Under the Maximum Retirement Allowance, the pension ceases upon the member's death, and no further pension payments may be made to any survivors.
- Option 1: 100% Joint and Survivor: Upon the member's death, the designated beneficiary receives 100% of the member's total monthly benefit for the rest of his or her life. Only one beneficiary may be named and may not be changed. If the beneficiary predeceases the member, pension payments continue at the reduced rate unchanged; a new beneficiary may not be named and benefits cease upon the death of the member.
- ▶ Option 2: Annuity: Upon the member's death, the designated beneficiary receives a retirement allowance of ninety percent or less (but not less than ten percent) payable for the life of the designated beneficiary. Only one beneficiary may be named, and that beneficiary may not be changed. If the beneficiary predeceases the member, pension payments continue at the reduced rate unchanged; a new beneficiary may not be named and all benefits cease upon the death of the member.
- ▶ Option 3: 5 Year Certain: If a member elects this option, the benefit is payable to the retiree for life; however, if the member dies within 5 years of retirement, the benefit is only payable to the designated beneficiary until the 5th anniversary of the member's retirement. For example, a member may elect this option and live for 15 years after retirement, upon the member's death the benefit would cease and not be payable to a beneficiary. Conversely, if a member died one year after retirement, under this option the benefit would be payable to the beneficiary for 4 more years.
- ▶ Option 4: 10 Year Certain: If a member elects this option, the benefit is payable to the retiree for life; however, if the member dies within 10 years of retirement, the benefit is only payable to the designated beneficiary until the 10th anniversary of the member's retirement. For example, a member may elect this option and live for 25 years after retirement, upon the member's death the benefit would cease and not be payable to a beneficiary. Conversely, if a member died 3 years after retirement, under this option the benefit would be payable to the beneficiary for 7 more years.
- ➤ Option 5A: 50% Joint and Survivor with "Pop-up": Upon the member's death, a retirement allowance in an amount equal to 50% of the member's retirement allowance shall be paid for life to the designated beneficiary. If the beneficiary pre-deceases the member, the retirement allowance "pops up" or reverts to the Maximum Retirement Allowance, as if no retirement option was selected. The revision is prospective from the date of the beneficiary's death.
- Option 5B: 100% Joint and Survivor with "Pop-up": Upon the member's death, a retirement allowance in an amount equal to 100 % of the member's retirement allowance shall be paid for life to the designated beneficiary. If the beneficiary pre-deceases the

member, the retirement allowance "pops up" or reverts to the Maximum Retirement Allowance, as if no retirement option was selected. The revision is prospective from the date of the beneficiary's death.

Reinstatement and Restoration of Membership

Before Service Retirement Eligibility

Return within five years and member contributions were not withdrawn

If member contributions have not been withdrawn and the member returns to service within five years of the separation date, membership with the Fund has not ceased. Accordingly, the prior service must be automatically credited to the member. The member's required contribution rate would continue to be based on the member's original tier and appointment date.

Return after five years or member contributions are withdrawn

To receive credit for the prior NYPD time if contributions have been withdrawn, the member must purchase the prior service through a Chapter 646 or Chapter 552 buyback. Members who are rehired and would obtain an earlier membership date that would bring them into eligibility for an earlier Tier 3 plan will be placed in that plan. A Chapter 552 buyback would not move a member to another Tier 3 Plan.

Tier 3 to Tier 2

If a member resigned while Tier 2 was in effect and reinstated after Tier 3 was enacted (July 1, 2009) that member would have to complete a Chapter 646 buyback to tier reinstate pursuant to New York State Retirement and Social Security Law (RSSL) § 645. The member's contribution rate would be governed by RSSL § 645.

After Service Retirement

If, after Service Retirement, a member rejoins the NYPD (i.e., reinstates as a uniformed member), the pension stops and an active membership begins in the Police Pension Fund. A reinstated member must work at least five years after reinstatement before the new service and the prior service from the earlier retirement may be combined for purposes of retiring on a recalculated pension or receiving escalation benefits.

Retiree Employment Restrictions

NYCPPF retirees must comply with post-retirement earnings restrictions to ensure any portion of the retirement allowance is not jeopardized. All PPF retirees are subject to post-retirement

limitations and reemployment restrictions. Violations of any of these laws and/or rules may jeopardize some or all of the retirement allowance.

Service and Vested Retirees Under 65

Section 211: Waiver Required

RSSL Section 211 enables New York State or any of its political subdivisions to hire non-disability retirees who possess certain qualifying skills; however, such an employer needs to obtain a Section 211 Waiver on behalf of the employee. It is the retiree's responsibility to ensure the employer obtains the 211 Waiver and it remains in force throughout the employment period. The NYS Civil Service Commission and the NYC Department of Citywide Administrative Services (DCAS) are among the entities empowered to grant a Section 211 Waiver.

Section 211(a) - Earnings Cap

If the position's salary or compensation is over \$35,000 and the position is with a former employer (City of New York, except the NYC Dept. of Ed.), the maximum salary or compensation the non-disability retiree may receive is calculated as follows:

Base: Current salary* at retirement rank

Less: Pension

Equals: Maximum annual earnings

*Salary is defined as base pay plus overtime, uniform allowance for rank at retirement and worked vacation.

The Police Pension Fund will suspend the pension if the retiree earns more than the maximum annual earnings; this includes any VSF payment.

Section 211(b) – No Earnings Cap

If the position the non-disability retiree seeks is not with a former employer (a municipality in New York State other than NYC), the retiree may be hired with no earnings limitations. However, the employer must obtain a Section 211 Waiver on behalf of the employee.

Section 212: Earnings Cap

Under RSSL Section 212, a non-disability retiree under 65 years of age may be employed by New York State or any of its political subdivisions without prior approval of the New York State Civil Service Commission or DCAS. However, the employee's annual salary or compensation must be equal to, or less than, an amount determined by the New York State Legislature (currently \$35,000). A retired PPF member must notify the Executive Director of NYCPPF in writing if he intends to exercise this right, using the RSSL 212 Certification Form. If the retiree's earnings exceed the state-established limit, PPF will suspend, and if necessary recoup, the pension for that calendar year, including any VSF payment.

Retirees Age 65 and Over

In the calendar year in which a non-disability retiree attains age 65, and every year thereafter, the retiree has no restrictions on retirement earnings paid by New York State or any of its political subdivisions.

Public Benefit Corporations

Section 1117 of the New York City Charter does not apply to Public Benefit Corporations (PBCs), so all retirees may work for such corporations with no earnings limitations.

The following are some common PBCs, including but not limited to:

- Metropolitan Transit Authority
- New York City Housing Authority
- New York City Transit Authority
- New York City Dormitory Authority
- New York City School Construction Authority
- New York City Convention Operating Corporation
- New York City Health and Hospitals Corporation
- New York City Economic Development Corporation
- New York/New Jersey Port Authority
- New York State Urban Development Corporation
- Waterfront Commission of New York Harbor

Safeguards: Accident Disability Retirees

Before 20th Anniversary

Before the 20th anniversary, Ordinary Disability or Accident Disability retirees are not governed by Section 1117 of the New York City Charter. Accordingly, such retirees may earn more than \$1,800.00 per year when employed by New York State or any of its political subdivisions or a public benefit corporation.

However, New York City Administrative Code § 13-254 limits the earnings of pre-20th anniversary disability retirees. Maximum earnings are defined as follows:

Base: Current salary* at next highest rank (immediately above retirement rank)

Less: Pension portion of the retirement allowance

Equals: Maximum annual earnings

*Salary is defined as base pay plus overtime, uniform allowance for rank at retirement and worked vacation.

The Police Pension Fund will suspend the pension if the retiree earns more than the maximum annual earnings.

After 20th Anniversary

After the 20th anniversary, disability retirees are governed by Section 1117 of the New York City Charter. RSSL §§ 211 and 212 do not apply to disability retirees after the 20th anniversary as per RSSL § 210. Therefore, such retirees are prohibited from working for the State of New York or any of its political subdivisions.

Note: If a disability retiree becomes an employee of New York State or any of its political subdivisions after the 20th anniversary, PPF will suspend the pension; however disability retirees may be employed by public benefit corporations and non-public organizations with no earnings limitations after the 20th anniversary.

Safeguards: Ordinary Disability Retirees

If a disability retiree becomes **ineligible** for primary Social Security benefits before reaching age 65, the retirement benefits from the Fund shall cease.

If the disability retiree is found to be ineligible for disability benefits but is otherwise eligible for City employment, the retiree will be placed on a preferred eligible list of the City of New York. The disability benefit will continue until the retiree is offered a civil service position from the preferred eligible list, at which time the disability benefit shall cease.

Second Retirement System Membership

A retiree may not join another New York State retirement system as an active member while receiving a pension from the Police Pension Fund. If a retiree does so, the pension will be suspended, including any VSF payments; when active membership in the second retirement system ends, pension payments will resume.

Death Benefits

In Service

To be eligible for an Ordinary Death Benefit, a member needs to have completed ninety (90) days of uniformed service with the NYPD.

The Ordinary Death Benefit is calculated as follows:

3 x member's salary raised to the next highest multiple of \$1,000 -plus-

a return of the member's accumulated contributions

The Ordinary Death Benefit is paid to a beneficiary designated by the member. Members may designate multiple beneficiaries.

Tier 3 SPD January 2022—Page 24

Any death benefits paid, except for the Accidental Death Benefit, are in lieu of all other statutory death benefits.

Vested But Not Yet Collecting

A vested member who dies prior to payability is entitled to 50% of an ordinary death benefit.

Accidental Death

An accidental death benefit is payable to an eligible beneficiary if the member dies before the effective date of retirement as the natural and proximate result of an accident sustained in the performance of duty, not caused by the member's own willful negligence.

The application for Accidental Death Benefits must be filed within two years of the death of the member.

Eligible beneficiaries are dictated by statute, payable in the following hierarchy:

- 1. A surviving spouse who has not renounced survivorship rights in a separation agreement, until remarriage; or
- 2. Surviving children until age 25; or
- 3. Parents; or
- 4. Any other person qualified as a dependent on the final tax return of the member until such person reaches age 21.

In the event that a class of eligible beneficiaries consists of more than one person, the benefit will be divided equally.

The benefit is calculated as follows:

A New York City-paid pension based on 50% of final average salary

If an Accidental Death Benefit payment to an eligible beneficiary does not exceed what an Ordinary Death Benefit would have been, a lump sum payment of the difference between the Ordinary Death Benefit and what was paid as an Accidental Death Benefit will be paid to an eligible beneficiary as described above.

If there are no eligible beneficiaries, the death benefit will be converted to an Ordinary Death Benefit and the Fund will pay the designated beneficiary on file.

Additionally, a Special Accidental Death benefit (SADB) may be payable. This benefit is payable to the member's surviving spouse. If there is no surviving spouse, it is paid to the member's child, or children, until age 18, or 23 if a full-time student. If there is no spouse or eligible children, the benefit is not paid.

The benefit is calculated as follows:

A New York State-paid pension equal to the member's final year's salary,

less the New York City-paid pension as calculated above and any Social Security benefits that are payable.

Beneficiaries

All members designate a beneficiary (or beneficiaries) for Death Benefits when joining the PPF; however, whenever a member's social condition changes (e.g., marriage, separation, divorce), the beneficiary designation should be updated.

Reviewing beneficiary designations regularly is well worth the time and effort; doing so protects both assets and heirs. Tax filing and open enrollment periods are recommended times to do this. Major life events, e.g., marriage, remarriage, divorce, birth, adoption and death, often create the need to update beneficiaries.

Checking Your Beneficiary

To obtain beneficiary information, please visit webCOPS. If you do not have webCOPS, inquiries can be mailed to PPF, attention: Membership Services Unit. Due to privacy concerns, telephone and e-mail requests are not permitted.

Changing Line Organization Beneficiaries

Whenever checking beneficiary information with PPF, remember to also contact the appropriate line organization at the address and number listed below to obtain beneficiary information in those records, as well:

| Police Officers | Patrolmen's Benevolent Association (PBA) | 212-349-7560 |
|------------------|---|--------------|
| Sergeants | Sergeants' Benevolent Association (SBA) | 212-431-6555 |
| Detectives | Detectives' Endowment Association (DEA) | 212-587-1000 |
| Lieutenants | Lieutenants' Benevolent Association (LBA) | 212-964-7500 |
| Captains & above | Captains' Endowment Association (CEA) | 212-964-7500 |

Changing Beneficiaries

You can change your beneficiary on webCOPS. If you do not have webCOPS, you can download Change of Beneficiary forms on PPF's website and mail them to PPF, attention: Membership Services Unit.

Changing Health Insurance Dependents

To change the dependents on active health insurance by mail or in person, please contact the NYPD Health Insurance Section, 51 Chambers Street, 3rd Floor, New York, New York 10007 or call 646-610-5122 for information.

To change dependents on retiree health benefits, contact the NYC Health Benefits Program to request the appropriate health benefits forms. This Program is located at 40 Rector Street, 3rd Floor, New York, NY 10006 and can be reached at 212-513-0470.

Changing Deferred Compensation Plan Beneficiaries

If enrolled in the NYC Deferred Compensation Plan, call 212-306-7760 for information about updating Plan Beneficiaries. Information is also available at www.nyc.gov/OLR.

Guide for Surviving Beneficiaries

There are few situations in life more stressful than the loss of a loved one; there are no words of comfort at such a difficult time. This section is designed to aid the survivors of PPF members by providing a checklist of who to contact upon the death of a PPF member or retiree, and the information that is required. There are four calls to make:

1. NYPD Operations Unit

Survivors should call NYPD Operations at 646-610-5580, located at NYPD Headquarters, 1 Police Plaza, New York, New York 10038. Pall bearers may be requested at that time and are available for all five City boroughs, Long Island, Westchester, Rockland, Orange and Putnam counties.

2. NYC Police Pension Fund

➤ Please notify PPF in writing at 233 Broadway, 19th Floor, New York, NY 10279, attention: Death Benefits Unit or by telephone at 212-693-5619/5919. Please have the following information available at the time of the phone call: the first, middle and last name of the deceased; the date of death; Social Security Number of the deceased; name of the next of kin; and name, address and phone number of the executor or executrix of the estate, if applicable.

> The Fund will need:

- ✓ A certified copy of the death certificate;
- ✓ A copy of the paid funeral bill;
- ✓ A copy of the marriage certificate, if applicable; and
- ✓ A copy of the beneficiary's Social Security card.

Prompt receipt of these items will expedite the Fund's ability to make payments to any beneficiaries.

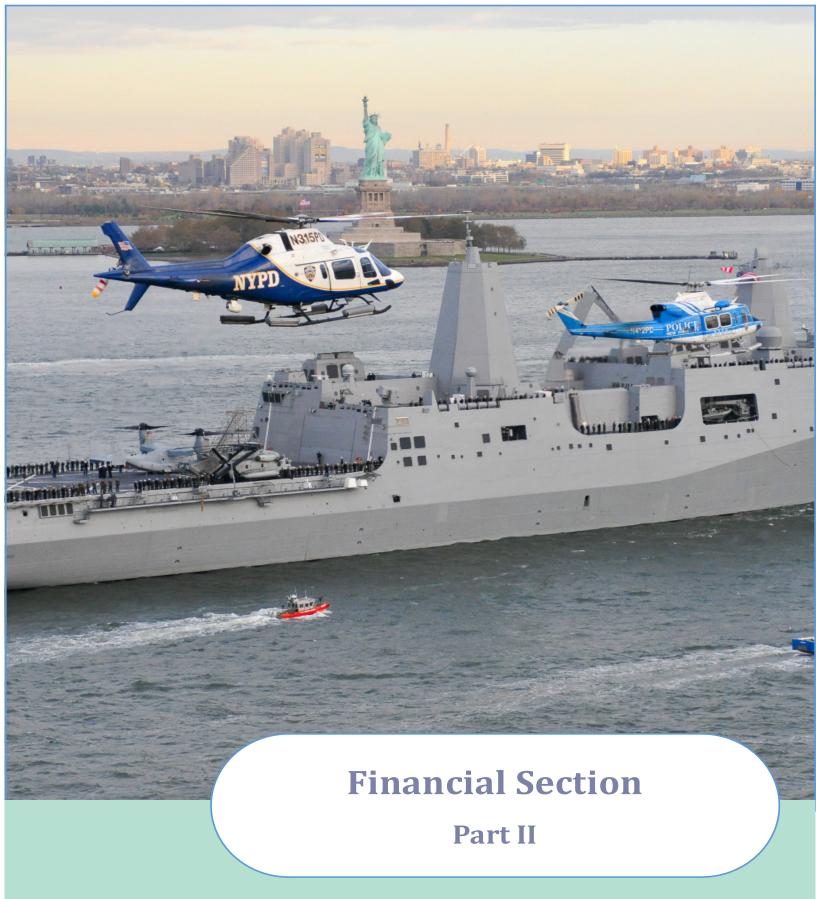

3. Member's line organization

➤ Contact the appropriate line organization below, and ask about a possible life insurance policy and whether any continuing optional benefits are available:

| PBA | 125 Broad St. | 11th Floor | 212-349-7560 |
|-----|---------------|------------------------|--------------|
| DEA | 26 Thomas St. | | 212-587-1000 |
| SBA | 35 Worth St. | First and second floor | 212-431-6555 |
| LBA | 40 Peck Slip | | 212-964-7500 |
| CEA | 40 Peck Slip | | 212-964-7500 |

4. Health Benefits Program

➤ Contact the NYC Health Benefits Program to request the appropriate health benefits forms. This Program is located at 40 Rector Street, 3rd Floor, New York, NY 10006 and can be reached at 212-513-0470.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Trustees of New York City Police Pension Funds

Opinion

We have audited the combining financial statements of New York City Police Pension Fund, New York City Police Officers' Variable Supplements Fund, and New York City Police Superior Officers' Variable Supplements Fund, which collectively comprise the New York City Police Pension Funds (the "Funds"), which comprise the combining statements of fiduciary net position as of June 30, 2022 and 2021 and the related combining statements of changes in fiduciary net position for the years then ended, and the related notes to combining financial statements, which collectively comprise the Funds' basic combining financial statements.

In our opinion, the accompanying combining financial statements present fairly, in all material respects, the combining fiduciary net position of the Funds as of June 30, 2022 and 2021, and the changes in the combining fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Funds and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the combining financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the combining financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the combining financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the combining financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the combining financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required supplementary information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule 1 - schedules of changes in the employer's net pension liability and related ratios for each of the nine years in the period ended June 30, 2022, schedule 2 - schedules of employer contributions for each of the ten years in the period ended June 30, 2022, and schedule 3 - schedule of investment returns for each of the nine years in the period ended June 30, 2022, be presented to supplement the basic combining financial statements. Such information is the responsibility of management and, although not a required part of the basic combining financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic combining financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with US GAAS. These limited procedures consisted of inquiries of management about the methods of preparing the

information and comparing the information for consistency with management's responses to our inquiries, the basic combining financial statements, and other knowledge we obtained during our audit of the basic combining financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming an opinion on the basic combining financial statements as a whole. The schedule of investment expenses, schedule of pension cost allocation and schedule of administrative expenses ("Additional Supplementary Information") for the year ended June 30, 2022, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic combining financial statements. The information has been subjected to the auditing procedures, applied in the audit of the basic combining financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic combining financial statements or to the basic combining financial statements themselves, and other additional procedures in accordance with US GAAS. In our opinion, the Additional Supplementary Information is fairly stated, in all material respects, in relation to the basic combining financial statements taken as a whole.

Other information

Management is responsible for the other information. The other information comprises the accompanying Introductory Section, Investment Section, Actuarial Section, and Statistical Section, but does not include the basic combining financial statements and our auditor's report thereon. Our opinion on the basic combining financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic combining financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic combining financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

New York, New York October 26, 2022

Sant Thornton LLP

(except for the Additional Supplementary Information and the Other information section of our report, as to which the date is December 16, 2022)

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

June 30, 2022 and 2021

This narrative discussion and analysis of the New York City Police Pension Funds ("POLICE", "Funds" or the "Plan"), provides an overview of the Funds combining financial activities for the Fiscal Years ended June 30, 2022 and 2021. It is meant to assist the reader in understanding the Funds combining financial statements by providing an overall review of the combining financial activities during the years and the effects of significant changes, as well as a comparison with the prior year's activity and results. This discussion and analysis is intended to be read in conjunction with the Funds combining financial statements.

The Funds administer: the New York City Police Pension Funds, Tiers 1, 2, 3, and 6 (Tier 3 Revised), in conjunction with the establishment of an administrative staff separate from the New York City Police Department, in accordance with Chapter 292 of the Laws of 2001 - Qualified Pension Plan ("QPP") – as set forth in the Administrative Code of The City of New York ("ACNY") § 13-214.1; the Police Superior Officers' Variable Supplements Fund ("PSOVSF"), as set forth in ACNY § 13-278; and the Police Officers' Variable Supplements Fund ("POVSF"), as set forth in ACNY § 12-268.

Overview of Combining Financial Statements

The following discussion and analysis is intended to serve as an introduction to the Funds' combining financial statements. The combining financial statements, which include the financial statements of each of the above stated Funds are prepared in accordance with Governmental Accounting Standards Board ("GASB") pronouncements, are as follows:

- The Combining Statements of Fiduciary Net Position presents the financial position of the Funds at fiscal year end. It provides information about the nature and amounts of resources with present service capacity that the Funds presently control (assets), consumption of net assets by the Funds that is applicable to a future reporting period (deferred outflow of resources), present obligations to sacrifice resources that the Funds have little or no discretion to avoid (liabilities), and acquisition of net assets by the Funds that is applicable to a future reporting period (deferred inflow of resources) with the difference between assets/deferred outflow of resources and liabilities/deferred inflow of resources being reported as net position. Investments are shown at fair value. All other assets and liabilities are determined on an accrual basis.
- The Combining Statements of Changes in Fiduciary Net Position presents the results of activities
 during the fiscal year. All changes affecting the assets/deferred outflow and liabilities/deferred inflow of
 the Funds are reflected on an accrual basis when the activity occurred, regardless of the timing of the
 related cash flows. In that regard, changes in the fair values of investments are included in the year's
 activity as net appreciation (depreciation) in fair value of investments.
- The Notes to Combining Financial Statements provide additional information that is essential to a full understanding of the data provided in the combining financial statements. The notes present information about the Funds' accounting policies, significant account balances and activities, material risks, obligations, contingencies, and subsequent events, if any.
- Required Supplementary Information (Unaudited) includes the management discussion and analysis (this section), and the notes to combining financial statements as required by the GASB.

Financial Highlights

The Funds' net position restricted for benefits decreased by \$5.5 billion, or (9.6)% to \$51.6 billion in Fiscal Year 2022 compared to Fiscal Year 2021, and increased by \$10.8 billion, or 23.3% to \$57.1 billion in Fiscal Year 2021 compared to Fiscal Year 2020. Increases and decreases in the Funds net position are primarily due to the fluctuations of investment returns, contributions, benefit payments and withdrawals.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) - CONTINUED

June 30, 2022 and 2021

Changes in Fiduciary Net Position Years ended June 30, 2022, 2021, and 2020 (In thousands)

| | 2022 | 2021 | 2020 |
|--|------------------|------------------|------------------|
| Additions: | | | |
| Member contributions | \$ 281,185 | \$ 255,789 | \$ 280,129 |
| Employer contributions | 2,490,134 | 2,437,728 | 2,458,907 |
| Net investment income | (4,405,904) | 11,961,703 | 2,038,305 |
| Litigation income | 3,491 | 2,470 | 4,488 |
| Net receipts from other retirement systems | 1,810 | 1,988 | 2,053 |
| Total additions | (1,629,284) | 14,659,678 | 4,783,882 |
| Deductions: | | | |
| Benefit payments and withdrawals | 3,821,373 | 3,841,319 | 3,491,495 |
| Administrative expenses | 24,301 | 24,925 | 26,803 |
| Total deductions | 3,845,674 | 3,866,244 | 3,518,298 |
| Net (decrease) increase in net | | | |
| position | (5,474,958) | 10,793,434 | 1,265,584 |
| Net position restricted for benefits | | | |
| Beginning of year | 57,056,325 | 46,262,891 | 44,997,307 |
| End of year | \$ 51,581,367 | \$ 57,056,325 | \$ 46,262,891 |

During Fiscal Year 2022, member contributions increased 9.9% to \$281.2 million as compared to Fiscal Year 2021 contributions of \$255.8 million. During Fiscal Year 2021, member contributions decreased 8.7% to \$255.8 million as compared to Fiscal Year 2020 contributions of \$280.1 million. Increases and decreases in member contributions are primarily due to the fluctuations of active members and their voluntary and required contributions. In accordance with the pension plan requirements, certain members, under certain conditions, may elect to increase or decrease their deductions.

Employer contributions in Fiscal Year 2022 were \$2.49 billion, an increase of 2.1% from Fiscal Year 2021 contributions of \$2.44 billion primarily due to the increase in the amortization payment for the initial unfunded liability and experience gains and losses. Employer contributions in Fiscal Year 2021 were \$2.44 billion, a decrease of 0.9% from Fiscal Year 2020 contributions of \$2.46 billion primarily due to restart of the Actuarial Value of Assets ("AVA") and experience gains offset by the cost of assumption changes.

Benefit payments and withdrawals were \$3.82 billion, \$3.84 billion, and \$3.49 billion for the Fiscal Years ended June 30, 2022, 2021, and 2020, respectively. This is primarily due to an increase and decrease in the number of retirees eligible for benefits.

In Fiscal Year 2002, Chapter 292 of the New York State Laws of 2001 provided the Funds with corpus funding for administrative expenses. In Fiscal Years 2022, 2021, and 2020, the administrative expenses were \$24.3 million, \$24.9 million, and \$26.8 million, respectively.

Fiduciary Net Position

In Fiscal Year 2022, the Funds experienced a 9.6% decrease in the combined net position restricted for benefits is primarily due to a decrease in the fair value of investments compared to Fiscal Year 2021.

Due to the long-term nature of the Funds' liabilities, the Funds' assets are invested with a long-term investment horizon. Assets are invested in a diversified portfolio of capital market securities. Investments in these assets are expected to produce higher returns, but are also subject to greater volatility and may produce negative returns. For example, the Russell 3000 Index, a broad measure of the United States stock market, decreased to (13.87)% from 44.16% in Fiscal Years 2022 and 2021, respectively. In 2022, the World ex-USA Custom BM Index decreased to (17.73)% from 34.82% in 2021. In Fiscal Year 2022, the Emerging International Market decreased to (25.28)% from 40.90% in 2021. For the three-year period ended June 30, 2022, the overall rate of return on investments for QPP, PSOVSF, and POVSF were 7.43%, 3.97%, and 3.87%, for the five-year period the return was 7.82%, 5.38%, and 5.13% and for the 10-year period was 8.72%, 7.02%, and 7.84%.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) - CONTINUED

June 30, 2022 and 2021

Assets are invested long term for the benefit of the Funds participants and their beneficiaries. All investments are managed by registered investment managers and advisors, pursuant to applicable laws and to guidelines issued by The Comptroller of The City of New York (the "Comptroller"). Collectively, the investments utilize 16 domestic equity managers, 17 international equity managers, 17 hedge fund managers, 49 private real estate managers, 13 infrastructure managers, 104 private equity investment managers, 14 public-fixed income managers, and 28 alternative credit managers and one Economically Targeted Investment ("ETI") manager.

Assets are allocated in accordance with policy adopted periodically by the Funds' Board of Trustees. The percentage in each category is determined by a study indicating the probable rates of return and levels of risk for various asset allocations. The actual allocation may vary from this policy mix as fair values shift and as investments are added or terminated.

NOTES TO COMBINING FINANCIAL STATEMENTS

June 30, 2022 and 2021

NOTE 1 - PLAN DESCRIPTION

The City of New York ("City" or "The City") maintains a number of pension systems providing benefits for employees of its various agencies (as defined within New York State ("State") statutes and City laws). The City's five major actuarially-funded pension systems are the New York City Police Pension Funds ("POLICE", "Funds" or the "Plan"), the New York City Employees' Retirement System ("NYCERS"), the Teachers' Retirement System of the City of New York ("TRS"), the New York City Board of Education Retirement System ("BERS"), and the New York City Fire Pension Funds ("FIRE"). Each separate pension system or fund is a separate Public Employee Retirement System ("PERS") with a separate oversight body and are financially independent of the others.

POLICE administers the New York City Police Pension Funds, Tiers 1, 2, 3, and Tier 6 (Tier 3 Revised), in conjunction with the establishment of an administrative staff separate from the New York City Police Department, in accordance with Chapter 292 of the Laws of 2001 - Qualified Pension Plan ("QPP"); as set forth in Administrative Code of The City of New York ("ACNY") § 13-214.1, the Police Superior Officers' Variable Supplements Fund ("PSOVSF"), as set forth in ACNY § 13-278; and the Police Officers' Variable Supplements Fund ("POVSF"), as set forth in ACNY § 13-268.

The QPP is a single-employer pension plan. The QPP provides pension benefits for full-time uniformed employees of the New York City Police Department ("NYPD"). All full-time uniformed employees of the NYPD become members of the QPP upon employment. The QPP functions in accordance with existing State statutes and City laws, which are the basis by which benefit terms and employer and member contribution requirements are established and amended. The QPP combines features of a defined-benefit pension plan with those of a defined contribution pension plan, but is considered a defined-benefit pension plan for financial reporting purposes.

The PSOVSF and the POVSF (collectively, "VSFs") operate pursuant to the provisions of Title 13, Chapter 2 of the ACNY and provide supplemental benefits to retired Police Superior Officers (including Detectives, and Sergeants through Deputy Chiefs) and retired Police Officers, respectively. To be eligible to receive benefits from the VSFs, Police Superior Officers or Police Officers must retire on or after October 1, 1968 with 20 or more years of credited service, and be receiving a service retirement benefit from the QPP. Under current law, the VSFs are not to be construed as constituting a pension or retirement system. Instead, they provide defined supplemental payments, other than pension or retirement system allowances, in accordance with applicable statutory provisions. While The City guarantees these payments, the New York State Legislature has reserved to itself and the State the right and power to amend, modify, or repeal the VSFs and the payments they provide. For financial reporting purposes, however, the VSFs are considered single-employer defined-benefit pension plans.

POLICE is a fiduciary fund of The City and is included in the Pension and Other Employee Benefit Trust Funds section of The City's Annual Comprehensive Financial Report ("ACFR"). GASB Statement No. 98, The Annual Comprehensive Financial Report, establishes the term annual comprehensive financial report and its acronym ACFR. The new term replaces comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. POLICE has decided to early implement this pronouncement and has applied the change as of the issuance of this report.

Board of Trustees

The QPP Board of Trustees consists of 12 members. The Trustees and their voting rights are as follows: The Police Commissioner, representative of the Mayor, The Comptroller of The City of New York (the "Comptroller"), and the Commissioner of Finance (one and one-half votes each); four specified officers of the Police Benevolent Association (one vote each); and the presidents of the Detectives' Endowment Association, the Sergeants Benevolent Association, the Lieutenants Benevolent Association, and the Captains Endowment Association (one-half vote each).

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

The PSOVSF Board of Trustees consists of seven members. The Trustees and their voting rights are as follows: a representative of the Mayor, the Comptroller and the Commissioner of Finance (two votes each), and four representatives of the Police Superior Officers' Associations who are the four members of the QPP Board of Trustees (one vote each).

The POVSF Board of Trustees consists of five members each with one vote: a representative of the Mayor, Comptroller, and Commissioner of Finance and two of the officers of the Police Benevolent Association that are members of the QPP Board of Trustees.

Membership Data

At June 30, 2022, 2021, and 2020, the QPP's membership consisted of:

| | | QPP | |
|--|--------|--------|--------|
| | 2022* | 2021 | 2020 |
| Retirees and beneficiaries receiving benefits | 53,949 | 52,837 | 51,465 |

Summary of Benefits

QPP

The New York State Constitution provides that the pension rights of public employees are contractual and shall not be diminished or impaired. In 1973, amendments were made to the New York State Retirement and Social Security Law ("RSSL") to modify certain benefits for employees joining the QPP on or after the effective date of such amendments. These amendments, which affect employees who joined the QPP on and after July 1, 1973, established certain benefit limitations relating to eligibility for retirement, the salary

^{**} Members that are on leave with insufficient service for vesting and assumed to not return to active service are classified as terminated non-vested members.

^{***} Represents the number of actively employed Police Superior Officers and Police Officers, respectively, as of the June 30 valuation dates.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

base for benefits and maximum benefits. Recent laws, including but not limited to Chapter 372 of the Laws of 2000, which provides a revised definition of salary base to be used in the computation of certain benefits for Tier 2 members of the QPP and Chapter 589 of the Laws of 2001, which eliminated the Tier 2 maximum 30 years of service limitation, have lessened these limitations.

The QPP currently administers the following pension tiers: Tier 1, Tier 2, Tier 3, Tier 3 Revised, and Tier 3 Enhanced. Membership is mandatory for uniformed employees of the New York City Police Department.

The QPP provides four main types of retirement benefits for all tiers: Vested Retirements, Service Retirements, Ordinary Disability Retirements ("ODR") (non-job-related disabilities), and Accident Disability Retirements ("ADR") (job-related disabilities). Additionally, the QPP provides death benefits for all tiers.

Tier 1 is applicable to members appointed to the NYPD prior to July 1, 1973. Tier 2 is applicable to members appointed between July 1, 1973 and June 30, 2009. Benefits are generally the same for Tier 1 and Tier 2.

For Tier 1 and Tier 2 members, the QPP generally provides the following:

- A Vested Retirement Benefit is payable to Tier 1 and 2 members with at least five years of uniformed service. Tier 1 and 2 members who commenced their membership with the QPP prior to February 4, 2000 must have 15 years of uniformed service to be eligible for a Vested Retirement Benefit. This benefit is generally comprised of a pension equal to 1/40 of their final average salary for every year of uniformed service and is reduced or increased based on the actuarial value of an account shortage or excess. The benefit can be increased for any purchased non-uniformed service.
- A Service Retirement Benefit provides an allowance of one-half of final average salary after 20 years or 25 years of credited service (as elected), with additional benefits equal to a specified percentage per year of service (currently approximately 1.67%) of actual earnings times the number of years of service in excess of the 20-year or 25-year minimum. These additional benefits are increased, where applicable, by an annuity attributable to member contributions in excess of the required amount and by any benefits attributable to the Increased-Take-Home-Pay ("ITHP") contributions accumulated after eligibility for service retirement. ITHP represents amounts assumed by The City in lieu of members' own contributions. These amounts reduce the contributions that members would have to make to the QPP during their service and thereby increase their take-home pay. Members have the choice of waiving their ITHP reduction, which would reduce their take-home pay, but increase pension contributions made to the QPP.
- ODR benefits are contingent on the member's amount of credited service. Members with less than 10 years of credited service are entitled to a pension equal to 1/3 of their final average salary, members with 10-20 years of credited service are entitled to a pension equal to 50% of their final average salary; and members with 20 or more years of credited service are entitled to a pension equal to 1/40 of their final average salary for every year of credited service. All ODR benefits are either reduced for the annuity value of an account deficit, or increased for the annuity value of an account excess.
- An ADR benefit provides a pension of three-fourths of final salary plus an increment as described above based on years of service in excess of the 20-year or 25-year minimum plus an annuity based on the member's contributions with accumulated interest and the amount accumulated under the ITHP program.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Tier 1 and Tier 2 members have the right to make voluntary member contributions ("Voluntary Contributions") in excess of their required member contributions ("Required Contributions"). Both the Voluntary Contributions and the Required Contributions are credited with interest at a statutory rate (currently 8.25% Annual Percentage Rate ("APR")). At the time of retirement or refund of contributions, a member's aggregate balance of actual Required Contributions and Voluntary Contributions, including statutory interest ("Actual Balance"), less the outstanding balance of any member loans ("Net Actual Contributions"), may exceed ("Excess of Contributions") or fall short of ("Deficiency of Contributions") the member's Required Amount. The Required Amount is the sum of the Required Contributions which a member should have made during his or her first 20 years of credited service, plus statutory interest earnings thereon. The amount of the member's retirement annuity or the refund of contributions that he or she is entitled to is increased by the actuarial value of any Excess of Contributions or reduced by any Deficiency of Contributions. Annuities attributable to member contributions are reduced on an actuarial basis for any loans with unpaid balances outstanding at the date of retirement.

Cost of Living Adjustments ("COLA") are automatically payable to members who are either: (1) at least age 62 and have been retired for at least five years; or (2) at least age 55 and have been retired for at least 10 years. Additionally, COLA are payable to members who retired for disability after being retired for five or more years and to beneficiaries receiving accidental death benefits who have been receiving them for at least five years. Beginning September 2001, COLA benefits equal 50% of the increase in the Consumer Price Index for All Urban Consumers ("CPI-U") based on the year ending March 31, rounded to the next higher 0.1% not less than 1% nor greater than 3% of the first \$18,000 of the sum of maximum pension allowance and prior COLA.

In June of 2009, the Governor vetoed legislation that would have extended Tier 2 to members hired after June 30, 2009. As a result of the Governor's veto, QPP members hired on and after July 1, 2009 are covered under Tier 3, as governed by Article 14 of the RSSL. As a result of Chapter 18 of the Laws of 2012, there are certain limitations on Tier 3 benefits available to participants hired on and after April 1, 2012. In most New York State PERS, including the QPP, these changes are sometimes referred to as Tier 3 Revised.

For Tier 3/Tier 3 Revised/Tier 3 Enhanced members, the QPP generally provides the following:

- A Normal Service Retirement Benefit is earned after completion of 22 years of uniformed service.
- An Early Service Retirement Benefit is payable upon completion of 20 years or age 62 for Tier 3 or upon completion of 20 years for Tier 3 Revised and is payable as a pension equal to 2.1% of Final Average Salary plus 1/3% of Final Average Salary for each month in excess of 20 years of uniformed service, such benefit not to exceed 50% of Final Average Salary.
- A Vested Benefit payable to members with at least five years of uniformed service. The benefit is
 equal to 2.1% of final average salary for every year of uniformed service, payable upon attainment of
 eligibility for early age, or 55.
- An ODR retirement allowance is payable to member who has at least five years of service and is in receipt of Social Security Disability Benefits (non-Enhanced members only). An ODR benefit is 1/3 of Final Average Salary or 2% of Final Average Salary for each year of credited service, whichever is greater and does not exceed 50% of Final Average Salary.
- An ADR retirement allowance is payable to a member who was disabled as the result of a line-of-duty accident not attributable to his own willful negligence. An ADR pension for a non-Enhanced member is 50% of a member's Final Average Salary. An ADR pension for an Enhanced member is 75% of a member's Final Average Salary.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

All of the above retirement allowances, except for Enhanced Plan ODR/ADR retirement allowances, are reduced by one-half of the member's Social Security Benefit attributable to New York State public earnings at age 62, regardless of eligibility for Social Security, except for ODR retirees, in which case the Social Security Offset occurs immediately.

Tier 3/Tier 3 Revised members are eligible for annual Escalation on the retirement allowance: (1) in full, if they have retired for service completing 25 or more years of police service (or elected to defer commencement of their benefit to that 25-year date) or on a reduced basis, by 1/36 for each month that their retirement precedes 25 years; or (2) in full, if they have retired for disability and are Non-Enhanced members; or (3) in full, to their beneficiary for accidental death benefits. Escalation is determined from the change in the CPI-U based on the prior year ending December 31, not greater than 3% nor less than -3% in the event of a decrease. Tier 3/Tier 3 Revised members, when eligible, receive the greater of the applicable increase from COLA or Escalation. Tier 3 Enhanced members who retire for disability are not entitled to Escalation.

Tier 3 Enhanced Members contribute 3% of pensionable earnings plus an additional contribution rate to help fund the enhanced disability benefit. Currently, the additional contribution rate is 1% that can be raised to 3% based on a financial analysis by the Office of the Actuary every three years. At no time can the total contribution rate exceed 6%.

<u>VSFs</u>

VSF benefits are payable to members who retire for a Service pension, regardless of tier.

The PSOVSF provides a guaranteed schedule of supplemental benefits for Police Superior Officers who retire (or have retired) as Police Superior Officers on Service Retirement with at least 20 years of credited service as follows:

For a Police Superior Officer hired before July 1, 1988, who retires from service as a Police Superior
Officer on or after October 1, 1988, the annual benefit was \$5,000 in Calendar Year 1993. For those
who retired during the Calendar 1993, the annual \$5,000 benefit was prorated.

The annual benefit increases \$500 each year thereafter to a maximum of \$12,000 in Calendar Year 2007 and thereafter.

- For those who were members of the QPP prior to July 1, 1988, and who retire after Calendar Year 1993, the annual benefit payment is the scheduled amount described above prorated in the year of retirement and the full amount thereafter.
- For those who become members of the QPP on or after July 1, 1988, the annual supplemental benefit is \$2,500 for the first 12 months of retirement, which increases by \$500 each year until a maximum of \$12,000 is payable in the 20th and later years of retirement. This was later modified by Chapter 444 of the Laws of 2001 ("Chapter 444/01") such that these members will receive the maximum \$12,000 benefit beginning Calendar Year 2008.

The POVSF provides a guaranteed schedule of supplemental benefits for Police Officers who retire (or have retired) as Police Officers on Service Retirement with at least 20 years of credited service as follows:

• For those who retired prior to July 1, 1988, the annual benefit was \$2,500 in Calendar Year 1988. For those who retired during Calendar Year 1988, the annual \$2,500 benefit payment was prorated. The annual benefit increases \$500 each year thereafter to a maximum of \$12,000 in Calendar Year 2007 and thereafter.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

For those who were members of the QPP prior to July 1, 1988 and who retire after Calendar Year 1988, the annual benefit payment is the scheduled amount described above prorated in the year of retirement and the full amount thereafter.

• For those who become members of the QPP on or after July 1, 1988, the annual supplemental benefit is \$2,500 for the first 12 months of retirement, which increases by \$500 each year until a maximum of \$12,000 is payable in the 20th and later years of retirement. This was modified by Chapter 503 of the Laws of 1995 ("Chapter 503/95") such that these members will receive the maximum \$12,000 benefit beginning Calendar Year 2008 and thereafter.

Chapter 503 of the Laws of 1995 ("Chapter 503/95") amended the ACNY in relation to the transfer of assets, liabilities and administration of certain pension funds in the New York City Police Department. In addition, this law permits certain active employees with prior service credit before entering the QPP to utilize their original dates of hire for determining eligibility for benefits from the PSOVSF and POVSF.

In addition to the VSF benefits discussed earlier, Chapter 216 of the Laws of 2002 ("Chapter 216/02") provides that all participants of the PSOVSF and POVSF who retire for service from the QPP on and after January 1, 2002, with more than 20 years of credited service are entitled to the Deferred Retirement Option Plan ("DROP"). The DROP, also known as "Banked Variable," represents the VSF payments that the member would have received had he retired for service upon reaching eligibility. The DROP payment is an eligible distribution that may be rolled over pursuant to Internal Revenue Service regulations. Members who retired for a disability or die in active service are not eligible for the VSF DROP.

Any increase in the amount of ad-hoc cost-of-living increases ("Supplementation") or automatic COLA payable from the QPP to a retiree of the PSOVSF under legislation enacted on or after January 1, 1993 or to a retiree of the POVSF under legislation enacted on or after January 1, 1988, will reduce benefits payable from the PSOVSF or POVSF to such retiree by an amount equal to such increase until the following date:

- For a retiree with a date of membership before July 1, 1988, the later of: (a) the first day of the month following the month such retiree attains age 62; and (b) January 1, 2007.
- For a retiree with a date of membership on or after July 1, 1988, the later of: (a) the first day of the month following the month such retiree attains age 62; and (b) the earlier of: (1) the first day of the month following the 19th anniversary of such retiree's date of retirement; and (2) January 1, 2008.

Chapter 3 of the Laws of 2013 ("Chapter 3/13") provides for the transfer of assets from the QPP to the PSOVSF and POVSF if assets of the PSOVSF and POVSF are insufficient to pay scheduled benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Funds use the accrual basis of accounting where the measurement focus is on the flow of economic resources. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred. Contributions from members are recognized by the QPP when the employer makes payroll deductions from QPP members. Employer contributions are recognized when due and the employer has a legal obligation to provide the contributions. Benefit payments and withdrawals are recognized when due and payable in accordance with the terms of the Funds.

Use of Estimates - The preparation of combining financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combining financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Cash and Cash Equivalents - Cash equivalents consist of financial instruments with original maturity dates of three months or less.

Investment Valuation - Investments are reported at fair value. Fair value is defined as the quoted market price at the end of the last trading day for the specified period, except for alternative investments which are considered long term and illiquid in nature. Alternative investments consist of limited partnership structures invested in privately held investments for which exchange quotations are not readily available and are valued at estimated fair value. Fair value at fiscal year-end is based on the fair value of net assets reported in the most recently available partnership's capital account statements from the general partner, adjusted for any subsequent contributions, distributions, management fees and changes in values of foreign currency. They include investments held within Hedge Funds, Private Equity, Real Estate, Opportunistic-Fixed Income, and Infrastructure.

Purchases and sales of securities are reflected on the trade date.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis.

Income Taxes - Income earned by the Funds is not subject to federal income tax.

Accounts Payable - Accounts payable is principally comprised of amounts owed to the Funds' banks for overdrawn bank balances. The Funds' practice is to fully invest cash balances in most bank accounts on a daily basis. Overdrawn balances result primarily from outstanding benefit checks that are presented to the banks for payment on a daily basis and these balances are routinely settled each day.

Accrued Benefits Payable - Accrued benefits payable represents benefits due and unpaid by the Funds as of the fiscal year end.

Inter-Plan Eliminations - Included on the Combining Statements of Fiduciary Net Position and the Combining Statements of Changes in Fiduciary Net Position is an elimination column, the purpose of which is to remove from the statement any transactions involving dealings between reported entities.

Securities Lending Transactions - State statutes and Board policies permit the Funds to lend its investments to broker-dealers and other entities for collateral, for the same securities in the future with a simultaneous agreement to return the collateral in the form of cash, U.S. Treasury and U.S. Government securities. The Funds' agent lends the following types of securities: short-term securities, common stocks, long-term corporate bonds, U.S. Government and U.S. Government agency bonds, asset-backed securities, and international equities and bonds held in collective investment funds. In return, the Funds receive collateral in the form of cash, U.S. Treasury and U.S. Government agency securities at 100% to 105% of the principal plus accrued interest for reinvestment. At June 30, 2022 and 2021, management believes that the Funds had no credit risk exposure because the fair value of collateral held by the Funds equaled or exceeded the fair value of securities lent to the borrowers. The contracts with the Funds' Securities Lending Agent (the "Agent") require the Agent to indemnify the Funds. In the situation when a borrower goes into default, the Agent will liquidate the collateral to purchase replacement securities. Any shortfall before the replacement securities cost and the collateral value is covered by the Agent. All securities loans can be terminated on demand within a period specified in each agreement by either the Funds or the borrowers. Cash collateral is invested by the securities lending agent using approved Lender's Investment guidelines. The weighted-average maturity is 70.34 days for Collateral Investments. The securities lending program in which the Funds participate only allows pledging or selling securities in the case of borrower default.

GASB Statement No. 28, Accounting and Financial Reporting for Securities Lending Transactions, requires that securities loaned as assets and related liabilities be reported in the statement of fiduciary net position.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. Securities received as collateral are also reported as assets if the government entity has the ability to pledge or sell them without a borrower default. Accordingly, the Funds recorded the investments purchased with the cash collateral as collateral from securities lending with a corresponding liability for securities lending. Securities on loan are carried at fair value and the value as of June 30, 2022 and 2021 was \$4.6 billion and \$5.4 billion, respectively, for the QPP, \$355.5 million and \$271.9 million, respectively, for the PSOVSF, and \$211.1 million and \$162.4 million, respectively, for the POVSF. Cash collateral received related to securities lending as of June 30, 2022 and 2021 was \$4.7 billion and \$5.5 billion, respectively, for the QPP, \$360.0 million and \$268.8 million, respectively, for the PSOVSF, and \$213.8 million and \$160.5 million, respectively, for the POVSF.

GASB Statement No. 72, Fair Value Measurement and Application ("GASB 72"), describes fair value as an exit price, requiring investments to be categorized under a fair value hierarchy prescribed by GASB. GASB 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels based on market price observability. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs, and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. GASB 72 also contains note disclosure requirements regarding the hierarchy of valuation inputs and valuation techniques that was used for the fair value measurements.

GASB Statement No. 87, *Leases* ("GASB 87"), establishes standards of accounting and financial reporting for leases by lessees and lessors. This statement increases the usefulness of governments financials statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases. Management has evaluated all leases of the Funds and determined there was no material impact as a result of adoption of GASB 87.

GASB Statement No. 97 Certain Component Unit Criteria, and Accounting and Financial reporting for Internal Revenue Code Section 457 Deferred Compensation Plans ("GASB 97"), clarifies component unit criteria for a potential component unit in the absence of a governing board in determining financial accountability; limits the applicability of financial burden criteria in paragraph 7 of GASB Statement No. 84; and classifies Section 457 Deferred Compensation plans as either a pension plan or other employee benefit plan. Police is financially accountable for the VSF's. Management has determined there was no material impact as a result of adoption of GASB 97.

NOTE 3 - INVESTMENTS AND DEPOSITS

The Comptroller acts as an investment advisor to the Funds. In addition, the Funds employ several independent investment consultants as investment advisors. The Funds utilize several investment managers to manage the long-term debt and equity portfolios. The managers are regularly reviewed, with regard to both their investment performance and their adherence to investment guidelines.

The Funds' investment policy is approved by the respective Boards of Trustees of the Funds. The Funds' investment policy is implemented using a strategic allocation of assets that meets their objectives, while working within the confines of the ACNY and the RSSL. The ACNY authorizes the investment in assets, except equities, subject to the terms, conditions, limitations and restrictions imposed by law for investment by savings banks. Equity investments may be made only in stocks that meet the qualifications of the State RSSL. Short-term investments may be made in U.S. Government securities or other securities fully guaranteed by the U.S. Government, commercial paper rated A1 or P1 or fully collateralized repurchase agreements. Investments up to 25% of total assets held by the Funds may be made in instruments not expressly permitted by the RSSL.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

The Funds do not possess an investment risk policy statement, nor do they actively manage assets to specified risk targets. Rather, investment risk management is an inherent function of the asset allocation process. Assets are diversified over a broad range of asset classes and encompass multiple investment strategies aimed at limiting concentration risk. The policy asset allocation targeted for the Funds in Fiscal Years 2022 and 2021 included securities in the following categories:

| | 2022 | 2021 |
|----------------------------|------|------|
| U.S. equity | 30% | 30% |
| Core U.S. fixed | 12 | 14 |
| EAFE markets | 8 | 8 |
| Private equities | 8 | 8 |
| Emerging market | 5 | 5 |
| High yield | 7 | 7 |
| Real estate | 7 | 7 |
| Infrastructure | 3 | 3 |
| Hedge funds | 6 | 6 |
| TIPS | 3 | 5 |
| Opportunistic fixed income | 5 | 5 |
| Convertible bonds | 2 | - |
| U.S. Treasuries | 2 | - |
| ETI | 2 | 2 |
| Total | 100% | 100% |

State Street Bank and Trust Company is the primary custodian for substantially all the securities of the Funds.

Concentrations - In accordance with RSSL section 177, no investment in any individual company may represent more than 2% of the Plan's total net assets or 5% of the company's total outstanding shares. Exclusions apply for obligations of the United States, or those for which the faith of the United States is pledged to provide payment of the interest and principal.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Credit Risk - The possibility of a loss or default resulting from a borrower's inability to repay a loan or fulfill its contractual debt obligations. Portfolios other than U.S. Government and related portfolios, have credit rating limitations. Investment Grade portfolios are limited to mostly ratings, of BBB/Baa2 and above, except that they are also permitted a 10% maximum exposure to BB & B/Ba2 & B2 rated securities. While high yield non-investment grade managers primarily invest in BB & B / Ba2 & B2 rated securities, they can also invest up to 10% of their portfolio in securities rated CCC/Caa2. The quality ratings of the Funds' investments, by percentage of the rated portfolio, as described by nationally recognized statistical rating organizations, at June 30, 2022 and 2021 are as follows:

| | | Moody's Quality Ratings | | | | | | | | | | | | | | | | | |

Custodial Credit Risk - is the risk that in the event of a failure of the counterparty or depository financial institution, the Funds will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are not registered in the name of the Funds and are held by either the counterparty or the counterparty's trust department or agent but not in the name of the Funds.

Consistent with the Funds' investment policy, the investments are held by the Funds' custodian and registered in the name of the Funds. All of the Funds' deposits are insured by the Federal Deposit Insurance Corporation ("FDIC") (subject to the FDIC limit or \$250K per plan per member) and/or collateralized by securities held by a financial institution separate from the Funds' depository financial institution. However, the Plan's cash balances can exceed FDIC insured limits. Non-invested cash is swept into a State Street Short-Term investment intraday account, which is not FDIC insured.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Interest Rate Risk - The risk that the value of debt securities will be affected by fluctuations in market interest rates. Although there is no formal interest rate risk management policy, the duration of the portfolio, relative to the duration of the portfolio's benchmark, is monitored by the Comptroller's Bureau of Asset Management. The lengths of investment maturities (in years) of the Funds' investments, as shown by the percent of the rated portfolio, at June 30, 2022 and 2021, are as follows:

| Years to Maturity | Investment Maturities (in Years) | | | | | | | | |
|--------------------------------|----------------------------------|-----------|-------------|------------|-----------|--|--|--|--|

Foreign Currency Risk - Foreign currency risk is the risk that changes in the exchange rates will adversely impact the fair value of an investment. Currency risk is present in underlying portfolios that invest in foreign stock and/or bonds. The currency markets are effective diversifiers in a total portfolio context; therefore, the Funds have numerous managers that invest globally. In general, currency exposure is viewed as a benefit for its diversification reasons and not as an inherent risk within the portfolio. Foreign currency exposures of the Funds' investments as of June 30, 2022 and 2021, are as follows:

| | | (in USD, in thousands) | | | |

Rate of Return - For the years ended June 30, 2022 and 2021, the annual money-weighted rate of return on investments, net of investment expense, for the Funds was as follows:

| | 2022 | 2021 |
|---------------|---------------------|------------------|
| QPP PSOVSF | (7.12)% (13.31)% | 26.37% 25.95% |
| POVSF | (13.48)% | 25.40% |

The money-weighted rate of return expresses investment performance, net of investment expense adjusted for the changing amounts actually invested.

In Fiscal Year 2015, the Funds adopted GASB 72. GASB 72 was issued to address accounting and financial reporting issues related to fair value measurements.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

GASB 72 - Level Inputs

The Funds categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Funds have the following recurring fair value measurements as of June 30, 2022 and June 30, 2021:

| GASB 72 - Disclosure | 2022 | | | | | | | | |

^{*} Hedge Funds that do not have a readily determinable fair value and are measured at fair value using the net asset value ("NAV") per share (or its equivalent) as a practical expedient ("NAV Practical Expedient"), have not been classified in the fair value hierarchy.

Equity and Fixed Income Securities

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets issued by pricing vendors for these securities. Fixed income and equity securities classified in Level 2 of the fair value hierarchy are valued using prices determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Fixed income and equity securities classified in Level 3 of the fair value are securities whose stated market price is unobservable by the marketplace, many of these securities are priced by the issuers or industry groups for these securities. Fair Value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the Funds' custodian bank. Fixed income and equity securities held in collective trust funds are held in those funds on behalf of the pension system and there is no restriction on the use and or liquidation of those assets for the exclusive benefit of the Funds' participants.

June 30, 2022 and 2021

Collective Trust Funds

Collective trust funds are separately managed accounts which are owned 100% by The City's pension systems. The investments underlying the collective trust funds are presented as Level 1, Level 2 or Level 3 based on their respective fair value hierarchy classifications.

Alternative Investments

Alternative investments include Private Equity, Real Estate, Opportunistic-Fixed Income and Infrastructure Investments. These are investments for which exchange quotations are not readily available and are valued at NAV calculated by the GP's valuation policy. Alternative investments are mainly illiquid and typically not sold or redeemed.

Investments in non-public equity securities should be valued by the GP or the fund administrator using one or more valuation methodologies outlined in GASB 72, depending upon the availability of data required by each methodology. In some cases, the GP may use multiple approaches to estimate a valuation range.

Because of the subjective nature of estimated fair value of the private investments, such value may differ significantly from the values that would have been used had a ready market existed for these investments. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will generally be liquidated within 10 years but in some cases can take longer.

Alternative investments that are measured at fair value using the net asset value ("NAV") per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value quantities presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the entity's financial statements.

Alternative investments are not fully funded upon subscribing to the investment. The GP can draw down or call for capital as the fund goes into more investments or when the need arises such as expenses associated with the partnership. The residual balance of uncalled capital is also known as unfunded commitments which are restricted to the maximum amount of the limited partners total committed amount. The total unfunded commitments for the alternative investments as of June 30, 2022 and 2021 amounted to \$6.3 billion and \$6.1 billion, respectively.

The fair value quantities presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the entity's combining financial statements. The following table below displays details the fair value, redemption terms, redemption notice periods, gates and redemption holdback amounts.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

NOTE 4 - TRANSFER TO VARIABLE SUPPLEMENTS FUNDS

The ACNY provides that the QPP transfer to the VSFs an amount equal to certain excess earnings on equity investments, limited to the unfunded actuarial present value ("APV") of accumulated plan benefits for each VSF. Excess earnings are defined as the amount by which earnings on equity investments of the QPP exceed what those earnings would have been had such funds been invested at a yield comparable to that available from fixed-income securities ("Hypothetical Fixed Income Security Earnings" or "HFISE"), less any cumulative deficiencies of prior years' excess earnings that fell below the yield of fixed income investments. The VSFs also receive credit for investment earnings on VSF assets.

The calculation of the HFISE requires the determination of the Hypothetical Interest Rate ("HIR"), which is computed by the Comptroller.

For Fiscal Year 2022, the preliminary excess earnings of the QPP are reported on the combining financial statements for the year ended June 30, 2022 to be equal to \$0, where \$0 was reported as a liability from the QPP to the PSOVSF.

For Fiscal Year 2021, the preliminary excess earnings of the QPP are reported on the combining financial statements for the year ended June 30, 2021 to be equal to \$0 (after limiting the unfunded APV of accumulated plan benefits), where \$0 was reported as a liability from the QPP to the POVSF and \$0 was reported as a liability from the QPP to the PSOVSF.

In addition, under Chapter 3 of the Laws of 2013, if the assets of the POVSF or PSOVSF are less than the amount required to pay the retirees' guaranteed supplemental benefit payments, then an amount sufficient to pay such benefits shall be appropriated from the Contingent Reserve Fund of the QPP.

The amounts shown for the APV of accumulated plan benefits, are the measure of the present value of scheduled supplemental benefits estimated to be payable in the future as a result of employee service to date. It is calculated as the actuarial present value of credited projected benefits, prorated on service, and is intended to help users assess the funded status of the VSFs on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make a comparison among VSFs.

Actuarial valuations of the VSFs are performed annually as of June 30.

A comparison of the APV of accumulated plan benefits as calculated by the Funds' Chief Actuary (the "Actuary") with the net position restricted for benefits for the POVSF and the PSOVSF as of June 30, 2021 and June 30, 2020, is as follows:

| | POVSF P | | | | | PSC | SOVSF | | |
|--|---------|-------------------|----|------------------|----|--------------------|-------|--------------------|--|
| (In millions) | | 2021 ² | | 2020 | | 2021 ² | | 2020 | |

| benefits | | 1,915.6 | | 2,003.7 | | 3,601.5 | | 3,743.6 | |
| Net position held in trust for benefits ¹ | | 2,323.1 | | 1,809.1 | | 3,648.9 | | 3,076.7 | |
| (Overfunded) Unfunded APV of accumulated plan benefits | \$ | (407.5) | \$ | 194.6 | \$ | (47.4) | \$ | 666.9 | |

See Note 2 for valuation of investments in the calculation of net position restricted for benefits. Reflects net position not inclusive of the SKIM amounts payable for the respective year and includes an adjustment made for accrued benefits payable for the respective year.

² Preliminary.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

For purposes of the June 30, 2021 and the June 30, 2020 actuarial valuations of the VSFs, Chapter 125/00 has been taken into account in the determination of the unfunded APV of accumulated plan benefits relative to the Supplementation benefit increases that began Fiscal Year 2001 and the automatic COLA that began Fiscal Year 2002 (see Note 1).

Sections 13-270 and 13-280 of the ACNY provide that the Boards of Trustees of the POVSF and the PSOVSF shall adopt, upon the recommendation of the Actuary, actuarial assumptions as to interest rate, mortality of retirees and estimated number of active members of the QPP in service as of each June 30 who will retire for service with 20 or more years of service as Police Officers and Police Superior Officers, for use in making annual valuations of liabilities.

The following actuarial assumptions represent the recommendations of the Actuary and were used in the actuarial calculations to determine the preceding APV of accumulated plan benefits as of June 30, 2021 and June 30, 2020:

| | June 30, 2021 ¹ | June 30, 2020 |
|--|---|---|
| Investment rate of return | 7.00% per annum.² | 7.00% per annum.² |

Preliminary.

Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per year.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

NOTE 5 - QPP CONTRIBUTIONS

The financial objective of the QPP is to fund members' retirement benefits during their active service and to establish employer contribution rates which, expressed as a percentage of annualized covered payroll, will remain approximately level from year to year. The employer contributes amounts that, together with Member Contributions and investment income are intended to ultimately be sufficient to accumulate assets to pay benefits when due.

Member Contributions - Tier 1 and Tier 2 members contribute by salary deductions on the basis of a normal rate of contribution, based on age and actuarial tables in effect at the time of membership. Member contribution rates are reduced by 5.0% under the ITHP program as defined earlier. Additionally, members may voluntarily increase their rates of contribution by 50% for the purpose of purchasing an additional annuity. Members are permitted to borrow up to 90% of their own contributions including accumulated interest.

Tier 3 Original/Tier 3 Revised/Tier 3 Enhanced members contribute 3.0% of pensionable earnings pre-tax until attainment of 25 years of credited service. Tier 3 Enhanced members contribute an additional 1.0% (currently 1.0%, to be updated every three years) of pensionable earnings after tax until attainment of 25 years of credited service.

Employer Contributions - Statutory Contributions to the QPP, determined by the Actuary in accordance with State statutes and City laws, are generally funded by the employer within the appropriate fiscal year. The Statutory Contribution for the year ended June 30, 2022, based on an actuarial valuation as of June 30, 2020 was \$2.5 billion and the Statutory Contribution for the year ended June 30, 2021, based on an actuarial valuation as of June 30, 2019 was \$2.4 billion. The Statutory Contributions for Fiscal Years 2022 and 2021 were equal to the Actuarial Contributions. Refer to the Schedule of Employer Contributions in the accompanying required supplementary information for more information on the actuarial methods and assumptions applied by the Actuary to determine the Statutory Contributions.

NOTE 6 - NET PENSION LIABILITY

The components of the net pension liability of the employer at June 30, 2022 and 2021 for the Funds were as follows:

| June 30, 2022 (In thousands) | QPP | POVSF | PSOVSF | TOTAL | | | |
|---|-----------------------------|---------------------------|---------------------------|-----------------------------|--|--|--|
| Total pension liability* Fiduciary net position** | \$ 55,448,119 47,043,387 | \$ 2,094,495 1,860,558 | \$ 3,972,189 2,894,727 | \$ 61,514,803 51,798,672 | | | |
| Employers' net pension liability | \$ 8,404,732 | \$ 233,937 | \$ 1,077,462 | \$ 9,716,131 | | | |
| Fiduciary net position as a percentage of the total pension liability | 84.84% | 88.83% | 72.87% | 84.21% | | | |

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

| June 30, 2021 (In thousands) | QPP | POVSF | PSOVSF | TOTAL |
|---|--------------------------------|------------------------------|------------------------------|--------------------------------|
| Total pension liability* Fiduciary net position** | \$ 53,309,898 51,293,938 | \$ 2,083,913 2,323,129 | \$ 3,909,614 3,648,903 | \$ 59,303,425 57,265,970 |
| Employers' net pension liability | \$ 2,015,960 | \$ (239,216) | \$ 260,711 | \$ 2,037,455 |
| Fiduciary net position as a percentage of the total pension liability | 96.22% | 111.48% | 93.33% | 96.56% |

^{*} Includes liabilities from Special Accidental Death Benefits pursuant to Section 208-F of the General Municipal Law.

Actuarial Methods and Assumptions

The total pension liability as of June 30, 2022 and 2021 was calculated from the actuarial valuations as of June 30, 2021 (Preliminary) and June 30, 2020 (Updated Preliminary), respectively, that were rolled forward to develop the total pension liability to the respective fiscal year end. The following actuarial assumptions were applied to all periods included in the measurement:

| Projected Salary Increases | In general, merit and promotion increase plus assumed General Wage Increases of 3.0% per annum. |
|----------------------------|---|
| Investment Rate of Return | 7.0% per annum, net of Investment Expenses. |
| COLAs | 1.5% per annum for Auto COLA.2.5% per annum for Escalation. |

The above assumptions were developed assuming a long-term Consumer Price Inflation assumption of 2.5% per annum.

The Fiscal Year 2021 results reflect changes in the actuarial assumptions and methods from the prior year. These changes reflect refinements and improvements to the actuarial assumptions and methods under the judgment of the Chief Actuary. Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of the five actuarially-funded NYCRS are conducted every two years. The most recent of these studies was performed by Bolton, Inc. and included experience through June 30, 2017. Milliman is performing the current experience study that covers the period through June 30, 2021.

On January 2, 2019, the Actuary issued a Report titled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and after July 1, 2018 for the New York City Police Pension Fund." The actuarial assumptions and methods described in that report are referred to as the "2019 A&M."

On July 28, 2021, the Actuary issued a memorandum titled "Proposed Changes to Actuarial Assumptions and Methods." The actuarial assumptions and methods described in that memorandum amend certain assumptions and methods from the 2019 A&M. This revised set of actuarial assumptions and methods are referred to as the "Revised 2021 A&M."

^{**} Such amounts represent the preliminary Funds' fiduciary net position and may differ from the final Funds' fiduciary net position.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

The June 30, 2021 total pension liability was calculated from the Updated Preliminary June 30, 2020 actuarial valuation, which was based on the Revised 2021 A&M.

The June 30, 2022 total pension liability was calculated from the Preliminary June 30, 2021 actuarial valuation, which was based on the Revised 2021 A&M.

The Entry Age Normal ("EAN") cost method of funding is utilized by the Funds' Actuary to calculate the contribution required of the employer.

Under this method, the Present Value ("PV") of Future Benefits ("PVFB") of each individual included in the actuarial valuation is allocated on a level basis over the expected earnings (or service) of the individual between entry age and the assumed exit age(s). The employer portion of this PVFB allocated to a valuation year is the Normal Cost. The portion of this PVFB not provided for at a valuation date by the PV of Future Normal Costs or future member contributions is the Accrued Liability ("AL").

The excess, if any, of the AL over the Actuarial Value of Asset is the Unfunded Accrued Liability ("UAL").

Under this method, actuarial gains and losses, as they occur, reduce and increase the UAL, respectively, and are explicitly identified and amortized. Increases or decreases in obligations due to benefit changes, actuarial assumption changes, and actuarial method changes are also explicitly identified and amortized.

The obligations of POLICE to the POVSF and the PSOVSF are recognized through a methodology where the PV of future VSF transfers from POLICE to the POVSF and PSOVSF is included directly as an actuarial liability of POLICE. This amount is computed as the excess, if any, of the PV of benefits of the POVSF and PSOVSF over the AVA of the POVSF and PSOVSF, respectively. Under EAN, a portion of the PV of future VSF transfers is reflected in the PV of future normal costs and a portion is reflected in the UAL.

Expected Rate of Return on Investments

The long-term expected rate of return on the Funds' investments was determined using a building-block method in which best-estimate ranges of expected real rates of return (i.e., expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table as of June 30, 2022 and 2021:

| | As of Jun | e 30, 2022 | As of June 30, 2021 | | | | |
|---|----------------------------|--|----------------------------|--|--|--|--|
| Asset Class | Target Asset Allocation | Long-Term Expected Real Rate of Return | Target Asset Allocation | Long-Term Expected Real Rate of Return | | | |
| Public Markets | | | | | | | |
| U.S. public market equities | 30.0% | 5.7% | 30.0% | 5.1% | | | |
| Developed public market equities | 8.0% | 6.4% | 8.0% | 5.8% | | | |
| Emerging public market equities | 5.0% | 7.8% | 5.0% | 7.2% | | | |
| Fixed income | 28.0% | 3.2% | 28.0% | 2.2% | | | |
| Private Markets (Alternative Investments) | | | | | | | |
| Private equity | 8.0% | 11.0% | 8.0% | 10.0% | | | |
| Private real estate | 7.0% | 7.4% | 7.0% | 7.2% | | | |

| Total | 100.0% | | 100.0% | | | | |

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Discount Rate

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumes that employee contributions will be made at the rates applicable to the current Tier for each member and that Employer contributions will be made at rates as determined by the Actuary. Based on those assumptions, the Funds' fiduciary net position was projected to be available to make all projected future benefit payments of current active and non-active members. Therefore, the long-term expected rate of return on the Funds' investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the net pension liability of the employer for the Funds of June 30, 2022, calculated using the discount rate of 7.0%, as well as what the employer's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate as of June 30, 2022 and 2021:

| Net Pension Liability - June 30, 2022 | 1% Decrease | Discount Rate | 1% Increase | | | |
|--|-----------------------|----------------------|-----------------------|--|--|--|
| (In thousands) | (6.0%) | (7.0%) | (8.0%) | | | |
| QPP | \$ 14,892,471 | \$ 8,404,732 | \$ 3,009,221 | | | |
| POVSF | 452,183 | 233,937 | 49,705 | | | |
| PSOVSF | 1,482,870 | 1,077,462 | 734,585 | | | |
| Total | \$ 16,827,524 | \$ 9,716,131 | \$ 3,793,511 | | | |
| Net Pension Liability - June 30, 2021 (In thousands) | 1% Decrease (6.0%) | Discount Rate (7.0%) | 1% Increase (8.0%) | | | |
| QPP | \$ 8,375,632 | \$ 2,015,960 | \$ (3,175,317) | | | |
| POVSF | (44,859) | (239,216) | (443,640) | | | |
| PSOVSF | 627,698 | 260,711 | (107,714) | | | |
| Total | \$ 8,958,471 | \$ 2,037,455 | \$ (3,726,671) | | | |

NOTE 7 - MEMBER LOANS

Tier 1 and 2 members are permitted to borrow up to 90% of their own contributions, including accumulated interest. Loans are repaid at the statutory interest rate of 4%. The balance of QPP member loans receivable at June 30, 2022 and 2021, is \$162.1 million and \$174.7 million, respectively. Upon termination of employment before retirement, certain members are entitled to refunds of their own contributions, including accumulated interest, less any loans outstanding. As a result of a review of all member accounts, there were no prior year loans due from retired or inactive employees that were deemed uncollectible in Fiscal Years 2020 and 2019.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

NOTE 8 - RELATED PARTIES

Pursuant to statute and resolutions, the Comptroller has been appointed as custodian for the assets of the Funds. Securities are held by certain banks under custodial agreements with the Comptroller. The Comptroller, the Financial Information Services Agency ("FISA"), and the Office of Payroll Administration ("OPA") also provide cash receipt and cash disbursement services to the Funds. Actuarial services are provided to the Funds by the New York City Office of the Actuary. The City's Corporation Counsel provides legal services to the Funds. Other administrative services are also provided by The City. The aforementioned services may be provided by employees or officers of The City who may also be participants in the Funds. The cost of providing such services amounted to \$7.8 million and \$8.7 million in Fiscal Years 2022 and 2021, respectively.

NOTE 9 - ADMINISTRATIVE AND INVESTMENT EXPENSES

Chapter 292 of the Laws of 2001 provides Corpus funding of administrative expenses for the QPP commencing July 1, 2001 and allows for the appointment of an executive director for the QPP. In Fiscal Year 2022 and Fiscal Year 2021, total administrative expenses of \$24.3 million and \$24.9 million were paid from the assets of the QPP, respectively. Investment expenses charged to the investment earnings of the QPP, exclusive of expenses relating to securities-lending transactions, amounted to approximately \$397 million in 2022 and \$294 million in 2021.

In July 2010, the Funds renegotiated their lease agreement to rent office space. The agreement will expire in Fiscal Year 2031. The future minimum rental payments required under this operating lease are as follows:

| Fiscal years ending June 30, | Amount |
|--|--|
| 2023 to 2025 2026 2027 to 2030 2031 | \$ 6,659,226 2,425,794 9,778,104 203,711 |

Additionally, the Funds renegotiated their lease agreement to rent additional colocation space in 2019 pursuant to its Disaster Recovery and Business Continuity Plan. The original agreement was signed in February 2010 and terminates on July 14, 2024. The current rental payments required under this lease are as follows:

| Fiscal years ending June 30, | Amount | - |
|------------------------------|-----------------------|---|
| 2023 2024 | \$ 459,219 464,244 | |
| 2025 | 19,343 | |

Rent expense under the lease agreements for each of the Fiscal Years ended June 30, 2022 and 2021, was approximately \$2.8 million.

NOTE 10 - CONTINGENT LIABILITIES AND OTHER MATTERS

Contingent Liabilities - The Funds have claims pending against them and have been named as defendant in lawsuits and also have certain other contingent liabilities. Management of POLICE, on the advice of legal counsel, believes that such proceedings and contingencies will not have a material effect on the Funds' net position or changes in the Funds' net position. Under the existing State statutes and City laws that govern

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

the functioning of the Funds, increases in the obligations of the Funds to members and beneficiaries ordinarily result in increases in the obligations of The City to the Funds.

Other Matters - During Fiscal Years 2022 and 2021, certain events described below took place which, in the opinion of POLICE management, could have the effect of increasing benefits to members and/or their beneficiaries and therefore would increase the obligations of the Funds. The effect of such events has not been fully quantified. However, it is the opinion of POLICE management that such developments would not have a material effect on the Funds' combined net position restricted for benefits or cause changes in the Funds' net position restricted for benefits.

Actuarial Audit - Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of the five actuarially-funded New York City Retirement Systems ("NYCRS") are conducted every two years. Refer to Note 6 for the results of the most recent actuarial studies for POLICE.

Revised Actuarial Assumptions and Methods - In accordance with the ACNY and with appropriate practice, the Boards of Trustees of the five actuarially-funded NYCRS are to periodically review and adopt actuarial assumptions as proposed by the Actuary for use in the determination of Employer Contributions.

The most recently completed study was published by Bolton, Inc. dated June 2019. Bolton analyzed experience for the four- and 10-year periods ended June 30, 2017 and made recommendations with respect to the actuarial assumptions and methods based on their analysis. Based, in part, on these, recommendations, the Actuary proposed new assumptions and methods for use in determining Employer Contributions for Fiscal Years beginning on and after July 1, 2018. These assumptions and methods have been adopted by the Board of Trustees during Fiscal Year 2019.

Previously, Gabriel, Roeder, Smith & Company (GRS) published their study in October 2015.

New York State Legislation (only significant laws since Fiscal Year 2018 included)

Chapter 266 of the Laws of 2018 extended the Notice of Participation filing deadline to September 11, 2022 for vested members to file a sworn statement indicating participation in the Rescue, Recovery, and Clean-up Operations.

Chapter 589 of the Laws of 2019 amended Retirement and Social Security Law § 212, increased the amount of money a Service or Vested retiree may earn in retirement without diminution of their benefit from \$30,000 to \$35,000.

Chapter 89 of the Laws of 2020 provided a death benefit to statutory beneficiaries of members whose death was a result of or was contributed to by SARS-CoV-2 (also known as the coronavirus or "COVID-19").

The CARES Act of March 2020 suspended Required Minimum Distributions due in 2020. It also authorized more advantageous loans and distributions to members who certify that COVID-19 adversely affected themselves or their household. These special rules sunset on or before December 31, 2020.

COVID-19 and Related Legislation

The outbreak of COVID-19, was declared a pandemic by the World Health Organization. On March 7, 2020 then Governor Cuomo enacted Executive Order 202 declaring a state of emergency for the entire State of New York. Through a series of further executive orders, the Governor temporally suspended and modified laws as it related to the disaster emergency, which included as they relate to the Police Pension Fund, a suspension of New York State Retirement and Social Security Law § 212 earnings limitations, portions of the Open Meetings Law, allowing the Board of Trustees to conduct business virtually, electronic notarization of documents, and tolled the filing deadlines and statutes of limitations for all civil actions. This series of Executive Orders expired on June 29, 2021.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

On September 27, 2021, Governor Hochul signed Executive Order 4, which partially mirrored Executive Order 202 and its progeny. As the result of this Executive Order, and its subsequent extensions, RSSL § 212 earnings limitations remain suspended.

Chapter 417 of the Laws of 2021 was enacted on September 2, 2021 to continue the modification of the Open Meetings Law under the prior Executive Orders and on April 9, 2022, Chapter 56 of the Laws of 2022 was enacted, which adds new provisions specifying how and when a public body may use videoconferencing in conducting its meetings. Under this legislation, public bodies may, in the same manner as before the law's enactment, meet and provide for public attendance by remote means. This new law remains in effect until July 1, 2024, at which point it sunsets and ceases to apply. Chapter 56 requires at least a quorum of the members of a public body holding a meeting must be present at one or more physical locations where members of the public may attend in person to allow other members not required to make a quorum attend remotely by videoconference, regardless of their location or its accessibility to the public, if such attendance is necessitated by "extraordinary circumstances." Remote attendance must include audio and visual components which "ensure that members of the public body can be heard, seen and identified while the meeting is being conducted" as allowed; Members who attend remotely at locations not accessible to the public do not count towards a quorum, but may participate and vote in the meeting. As the result of Chapter 56, the Board of Trustees must formulate procedures that govern remote attendance. Moreover, the meeting notice must state the physical location or locations where the meeting will be held and where in person attendance will be possible, as well as that the meeting will include a videoconferencing component and indicate where members of the public can view and, if applicable, participate in the meeting. The record must reflect which members participated remotely, and a recording of such meeting must be posted on the public body's website within five business days of the meeting and maintained there for at least five years. Accordingly, the Board of Trustees passed a resolution stating the following:

- 1. The public noticed location for all meetings shall continue to be the Fund's headquarters at 233 Broadway.
- 2. Extraordinary circumstances shall include disability, illness, caregiving responsibilities, weather related instances, or any other significant or unexpected factor or event which precludes the member's physical attendance at such meeting.
- 3. Every meeting of this Board of Trustees shall have a teleconference component and should be noticed with the meeting; however, the Board and the Executive Director shall ensure there is a physical quorum as required by the Open Meetings Law at each meeting.
- 4. A member wishing to participate remotely must give the Executive Director of the Fund notice as soon as practicable.

Litigation

Currently pending is a case brought by Police Benevolent Association ("PBA") president, Patrick Lynch against the Police Pension Fund challenging the fact that Tier 3 officers do not have the same service credit purchase and transfer rights as Tier 2 officers, alleging that the Funds' interpretation of the statutory provisions is in error. The Supreme Court, New York County, rendered a decision dated July 9, 2019, which was not clear in its instruction. The Plaintiff served notice of entry and leave to appeal simultaneously. The City filed leave to re-argue, and Plaintiff cross-filed for same. Both motions for re-argument were denied, and the Fund lost on appeal in a decision dated May 4, 2021. The City filed leave to appeal to the Court of Appeals, which was granted. All briefs in the case are due by September 23, 2022.

NOTES TO COMBINING FINANCIAL STATEMENTS - CONTINUED

June 30, 2022 and 2021

Amendments to Plan Provisions

As described above, the Board of Trustees enacted a resolution relating to partially remote meetings in accordance with newly enacted legislation.

Additionally, in March of 2022 the Board of Trustees passed a resolution divesting from Russian Securities.

Lastly, in June of 2022 the Board of Trustees extended the provisions of the Group Life Insurance Plan through June 30, 2023.

A Pension Trust Fund of the City of New York

Annual Comprehensive Financial Report

For the fiscal years ended June 30, 2022 and June 30, 2021

This page is intentionally left blank

Investment Report

This section is prepared by management from data provided by the Investment Managers. The Comptroller administers the Fund's investments, subject to the management and control of the Board of Trustees. The Board of Trustees has the ultimate responsibility of ensuring that all the assets of the Fund are managed prudently, in compliance with the administrative code of the City of New York and the State Retirement Social Security Laws. The Board monitors and measures market and various other risk factors associated with investments. Independent investment consultants are employed as investment advisors to the Fund. Investment managers are utilized to manage long term debt and equity portfolios and seek to increase investment returns and provide greater safety for the assets of the Fund. The performance of the investment managers is reviewed frequently to ensure that their activities in dealing securities are consistent with the best practices in the industry.

Investment Policy

Investment Policy is approved by the Board of Trustees. The New York City Comptroller is the Treasurer, Chief Custodian and Investment Advisor to the Board. The primary objective of the Board is to provide retirement and other benefits for its members.

The Board realizes that increasing investment returns will strengthen the Fund and significantly enhance benefits enjoyed by the members. Increased returns will further assure the safety of assets held in trust for pension benefits. The Investment Policy adopted by the Board of Trustees is one that minimizes credit and market risks while maintaining a competitive yield on the Fund's portfolio. All returns are time-weighted rates of return. For periods greater than one year, returns are analyzed.

Investment Philosophy

The investment philosophy of the Board is influenced by key factors that affect investment and strategy, i.e. Risk Tolerance, Returns, Diversification and Liquidity.

1-Risk Tolerance

The Board shall always act to assure that the level of investment risk in the portfolio will be prudent and not exceed levels that may jeopardize the primary objective.

2-Returns

The Board believes that over the long term there is a relationship between the level of investment risk taken and the rate of investment return realized. In order to enhance the level of returns, the assumption of a moderate level of risks is therefore reasonable and justified.

3-Diversification

The Board seeks diversification through investing in a broad array of instruments in order to reduce overall portfolio risks.

4-Liquidity

The system anticipates positive cash flow over the near and intermediate term. Liquidity requirements for payment of current and intermediate benefits will therefore not be an issue for the future.

Investment Objectives

The Board has adopted the following general investment objectives in order to enhance returns, provide greater benefits and ensure the safety of assets held in trust for benefits.

- 1. In recognition that obligations of the Fund will increase as a result of inflation, the Board seeks to maximize the total return on assets held in trust for pension benefits, while operating within the bounds of regulatory restrictions and prudent parameters of risk.
- 2. The Board also aims to protect the system from depreciation of assets during adverse market conditions and to attain a level of return that is competitive, not only with similar funds but also with the wider market. These results are attained through broad diversification, careful review of risks and emphasis on long term results.
- 3. The Board of Trustees, where possible and not in conflict with other provisions, is interested in increased economic activity in local communities. The Comptroller's Office has made substantial efforts to broaden the Pension Fund's activity in economically targeted investments in the City of New York. This will promote growth in communities while increasing returns. All existing targeted investments are guaranteed by government agencies and earn a rate of return commensurate with risk.

Asset Allocation

The Board's investment policy is implemented using a strategic allocation of assets that meet its objectives, while working within the confines of the Administrative Code of New York City and the State Retirement and Social Security Laws. The code authorizes the investment of Plan Assets, except equities, subject to the terms, conditions, limitations and restrictions imposed by law for investment by Savings Banks. The code imposes specific criteria for Plan investments. Fixed income investments may be made mostly in U.S. Government securities or agencies backed by the U.S Government, companies rated BBB or better by the Standard and Poor's Corporation or Moody's Investor's Services or in companies on the Legal Investments lists published by the New York State Banking Department.

Equity investments may be made only in stocks that meet the qualifications of the New York State Retirement and Social Security Laws. Short Term Investments may be made in U.S. Government Securities or other securities fully guaranteed by the Government, commercial paper rated AI or PI or fully collateralized repurchase agreements. Investments are made in a broad array of financial instruments; including domestic stocks, bonds and international securities, through a collective fund investment vehicle. Diversification of investments provides greater security for the assets held in trust, enabling the Fund to become stronger and to meet its obligation. The policy mix targeted asset allocation for the QPP in fiscal year 2022 included securities from the following categories: U.S. Domestic Equities 30.1%, Fixed Income 32.9% International Equities 7.4%, Emerging Markets 4.6%, Private Real Estate and Equities 17.3%, Hedge Funds 5.5% & others 2.2%. The asset allocation for POVSF consists of 64.2% in Total Equity and 35.8% in Total Fixed Income. PSOVSF consists of 63.9% in Total Equity and 36.1% in Total Fixed Income.

Results

For the fiscal year that just ended, Police Pension Fund Total Investments decreased from \$63,837,200 thousand in fiscal year 2021 to \$57,296,127 thousand in fiscal year 2022. Total assets decreased from \$65,413,306 thousand to \$58,372,975 thousand respectively, with net investment income decreasing from \$11,961,703 thousand to (\$4,405,904) thousand respectively. The total investment returns for QPP, POVSF, and PSOVSF are (7.12%), (13.48%), and (13.31%) respectively.

MAREK TYSZKIEWICZ
CHIEF ACTUARY

December 1, 2022

Board of Trustees New York City Police Pension Fund 233 Broadway New York, NY 10279

Re: Actuarial Information for the Annual Comprehensive Financial Report (ACFR) for the Fiscal Year Ended June 30, 2022

Dear Members of the Board of Trustees:

The financial objective of the New York City Police Pension Fund (POLICE or the Plan) is to fund members' retirement benefits during their active service by establishing employer normal contribution rates that, expressed as a percentage of active member annualized covered payroll, would remain approximately level over the future working lifetimes of those active members and, together with member contributions and investment income, are intended to ultimately be sufficient to accumulate assets to pay benefits when due.

An actuarial valuation of the Plan is performed annually as of the second June 30 preceding each fiscal year to determine the Employer Contributions to be paid for that fiscal year (i.e. the June 30, 2020 actuarial valuation is used to determine Fiscal Year 2022 Employer Contributions (Actuarial Contributions)).

The funding policy of the City of New York (the City) is to contribute statutorily-required contributions (Statutory Contributions) and these contributions are generally funded by the City within the appropriate fiscal year.

For Fiscal Year 2022, the Actuarial Contributions to POLICE, are equal to those recommended by the Actuary of the New York City Retirement Systems and Pension Funds (the Actuary) and represent the Statutory Contributions.

Pursuant to the Governmental Accounting Standards Board (GASB) Statement No. 67 (GASB67) and Statement No. 68 (GASB68), on September 23, 2022, the Office of the Actuary published the "Fiscal Year 2022 GASB 67/68 Report for the City of New York and the New York City Retirement Systems" (the Fiscal Year 2022 GASB67/68 Report). Appendix D of the Fiscal Year 2022 GASB67/68 Report contains information developed in accordance with GASB67 for POLICE.

Board of Trustees New York City Police Pension Fund December 1, 2022 Page 2

Actuarial Assumptions and Methods

The assumptions and methods used for the June 30, 2020 valuation were presented in the memorandum titled "Proposed Changes to Actuarial Assumptions and Methods (Revised 2021 A&M)" dated July 28, 2021 and were adopted by the Board of Trustees at the September 8, 2021 Board meeting. These actuarial assumptions and methods used for funding purposes meet the parameters set forth by the Actuarial Standards of Practice (ASOPs).

Benefits, Financial Information, and Census Data

The June 30, 2020 and June 30, 2019 actuarial valuations are based upon the census data as of those dates submitted by the Plan's administrative staff and the employer's payroll facilities. A summary of the census data used in the June 30, 2020 actuarial valuation is included in this ACFR. A summary of the census data used in the June 30, 2019 actuarial valuation of the Plan is available in the Fiscal Year 2021 ACFR.

Consistent with the Actuarial Standards of Practice, the Office of the Actuary has reviewed the census data and financial information for consistency and reasonability but has not audited it. The accuracy of the results and calculations presented are dependent on the accuracy of this census data and financial information. To the extent any such data or information provided is materially inaccurate or incomplete, the results contained herein will require revision.

A summary of the benefits available under the terms of the Plan is shown in the Introductory Section of this ACFR. The benefits under the Plan are unchanged from the prior valuation.

Funded Status

The funded status of the Plan is usually expressed by the relationship of assets to liabilities.

With respect to the funded status of the Plan, included in the Actuarial Section of the ACFR is a schedule of funded status based on the Entry Age Normal cost method (Table 13).

Also included in the Actuarial Section of the ACFR are Solvency Tests (i.e. Comparative Summary of Accrued Liabilities Funded by Actuarial Value of Assets) (Tables 14a-c), as prescribed by the Government Finance Officers Association (GFOA). These Solvency Tests represent an alternative approach to describing progress toward funding objectives.

Board of Trustees New York City Police Pension Fund December 1, 2022 Page 3

Presentation Style and Sources of Information

The actuarial information herein is believed to be presented in a manner consistent with the requirements of the GFOA and, where applicable, with GASB67.

The following items in the Actuarial Section of the ACFR were prepared by the OA:

- Summary of Actuarial Assumptions and Methods in Effect for the June 30, 2020 Actuarial Valuation.
- Summary of Active Member Valuation Data.
- Summary of Plan Membership Data.
- Schedule of Retirees and Beneficiaries Added to and Removed from Rolls.
- Actuarial and Statutory Contribution History.
- Funded Status Based on Entry Age Normal Cost Method.
- Comparative Summary of Accrued Liabilities Funded by Actuarial Value of Assets Solvency Test.
- Contributions.

The following items in the Financial Section of the ACFR were also prepared by the OA:

- Membership Data.
- Net Pension Liability.
- Actuarial Assumptions and Methods.
- Schedule of Changes in Employers' Net Pension Liability and Related Ratios.
- Schedule of Employer Contributions.

If you have any questions about the information in this Actuarial Section or the actuarial information presented elsewhere in this ACFR, please do not hesitate to contact Anderson Huynh, Edward Hue, or me.

Acknowledgement of Qualification

I, Marek Tyszkiewicz am the Chief Actuary for, and independent of, the New York City Retirement Systems and Pension Funds. I am an Associate of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of my knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

Respectfully submitted,

Marek Tyszkiewicz, ASA, MAAA

Chief Actuary

MT/eh

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2020 ACTUARIAL VALUATION

1. Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of the five actuarially-funded New York City Retirement Systems (NYCRS) are conducted every two years.

Also, in accordance with the Administrative Code of the City of New York (ACCNY), the Boards of Trustees of the five actuarially-funded NYCRS are to periodically review and adopt actuarial assumptions as proposed by the Actuary for use in the determination of Employer Contributions.

The Actuary issued a memorandum titled, "Proposed Changes to Actuarial Assumptions and Methods (Revised 2021 A&M)" dated July 28, 2021. The actuarial assumptions and methods described in that memorandum were adopted by the Board of Trustees at the September 8, 2021 Board meeting and are referred to as the "Revised 2021 A&M." These actuarial assumptions and methods are effective beginning with Fiscal Year 2021.

- 2. The Actuarial Interest Rate (AIR) assumption is 7.0% per annum, net of investment expenses.
- 3. Active service tables are used to estimate various withdrawals from active service. Probabilities are shown in Tables 1 and 2 for members withdrawing from active service for service retirement, Table 3 for members terminating from active service, and Tables 4 and 5 for members withdrawing from active service due to disability or death, respectively. Mortality improvement scale MP-2020, published by the Society of Actuaries, is applied to probabilities of ordinary death for actives and precommencement mortality for deferred vesteds.
- 4. The service retiree mortality, disabled retiree mortality, and beneficiary mortality base tables are projected from 2012 using mortality improvement scale MP-2020. The base tables are also multiplied by adjustment factors to convert from livesweighted to amounts-weighted tables to reflect socioeconomic effects on mortality. Base table probabilities for service and disability pensioners are shown in Tables 6a and 6b, respectively, and for beneficiaries in Table 6c.
- 5. A salary scale is used to estimate salaries at termination, retirement, or death. Percentage increases are shown in Table 7. The salary scale includes a General Wage Increase (GWI) assumption of 3.0% per annum.

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2020 ACTUARIAL VALUATION (Cont'd)

- 6. The salary data was adjusted to reflect overtime earnings. A Baseline Overtime assumption is applied to most years and a separate overtime assumption, known as a Dual Overtime assumption, is applied to the years included in the calculation of Final Salary or Final Average Salary. Baseline Overtime and Dual Overtime percentages are shown in Table 8.
- 7. The economic assumptions (i.e. the assumed investment return rate, GWI rate, and Cost-of-Living Adjustments (COLA)) were developed assuming a long-term Consumer Price Inflation (CPI) assumption of 2.5% per annum. The assumption is 1.5% per annum for AutoCOLA and 2.5% per annum for escalation.
- 8. The valuation assumes a closed group of members.
- 9. The Actuary reset the Actuarial Value of Assets (AVA) to market value as of June 30, 2019.

Beginning with the June 30, 2020 actuarial valuation, the Actuarial Asset Valuation Method (AAVM) recognizes investment returns greater or less than expected over a period of five years. In accordance with this AAVM, the Unexpected Investment Returns are phased into the AVA over a five-year period at 20% per year.

The AVA is further constrained to be within a corridor of 80% to 120% of the Market Value of Assets.

10. The Entry Age Normal (EAN) cost method of funding is used by the Actuary to calculate the Employer Contribution.

Under this method, the Present Value (PV) of Future Benefits (PVFB) of each individual included in the actuarial valuation is allocated on a level basis over the expected earnings (or service) of the individual between entry age and the assumed exit age(s). The employer portion of this PVFB allocated to a valuation year is the Normal Cost. The portion of this PVFB not provided for at a valuation date by the PV of Future Normal Costs or future member contributions is the Accrued Liability (AL).

The excess, if any, of the AL over the AVA is the Unfunded Accrued Liability (UAL).

Under this method, actuarial gains and losses, as they occur, reduce and increase the UAL, respectively, and are explicitly identified and amortized. Increases or decreases in obligations due to benefit changes, actuarial assumption changes, and actuarial method changes are also explicitly identified and amortized.

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2020 ACTUARIAL VALUATION (Cont'd)

The explicit UALs that are developed under EAN each year are generally financed over fixed periods.

Under EAN, the Normal Cost as a percentage of pay remains constant by individual and changes gradually over time for the entire plan as the characteristics of the group changes (e.g. more Tier 3 Enhanced active members decrease the average Normal Cost as a percentage of pay).

- 11. The Employer Contribution for a fiscal year is increased by the interest-adjusted amount of administrative expenses paid from POLICE during the second prior fiscal year.
- 12. Obligations attributable to the World Trade Center (WTC) Disability Benefits Law and to the WTC Death Benefits Law are determined through estimation techniques for post-retirement reclassifications.
- 13. One-Year Lag Methodology (OYLM) uses a June 30, XX-2 valuation date to determine Fiscal Year XX employer contributions.

This methodology requires adjustments to certain components used to determine the Fiscal Year XX employer contributions as follows:

a. Normal Cost

The normal cost as of June 30, XX-2 is rolled forward with the assumed AIR of 7.0% to derive the normal cost as of December 31, XX-1.

b. UAL Payments

For determining the UAL payments for Fiscal Year XX, and to be consistent with the OYLM, the UAL as of June 30, XX-2 is adjusted by the discounted value of the employer normal cost and UAL payments paid during Fiscal Year XX-1 and the discounted value of Administrative Expenses reimbursed during Fiscal Years XX-1 and XX.

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2020 ACTUARIAL VALUATION (Cont'd)

14. The obligations of POLICE to the POVSF and the PSOVSF are recognized through a methodology where the PV of future VSF transfers from POLICE to the POVSF and PSOVSF is included directly as an actuarial liability of POLICE. This amount is computed as the excess, if any, of the PV of benefits of the POVSF and PSOVSF over the AVA of the POVSF and PSOVSF, respectively. Under EAN, a portion of the PV of future VSF transfers is reflected in the PV of future normal costs and a portion is reflected in the UAL.

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS IN EFFECT FOR THE JUNE 30, 2020 ACTUARIAL VALUATION (Cont'd)

COMPARATIVE SUMMARY OF ACCRUED LIABILITIES FUNDED BY ACTUARIAL VALUE OF ASSETS (Cont'd)

SOLVENCY TEST - NOTES

The ultimate test of financial soundness in a pension fund is its ability to pay all of its promised benefits when due. The pension fund's progress in accumulating assets to pay all promised benefits can be measured by comparing the Actuarial Value of Assets of the pension fund with the Accrued Liabilities for:

- a. Accumulated Member Contributions;
- b. Current Retirees and Beneficiaries; and
- c. Active Members' Employer-Financed Portion.

Prior to the June 30, 2019 valuation, the Accrued Liabilities were calculated under the Projected Unit Credit actuarial cost method. Beginning with the June 30, 2019 actuarial valuation, the Accrued Liabilities are calculated based on the Entry Age Normal (EAN) actuarial cost method.

The values in the table are dependent upon census data, benefit levels, and the actuarial assumptions and methods employed at each valuation date.

To fully evaluate trends in financial soundness, changes in assumptions need to be evaluated. The Actuarial Interest Rate assumption has been 7.0% per annum, net of investment expenses, throughout the period shown. However, other actuarial assumptions and methods have been revised. The two most recent changes in actuarial assumptions and methods occurred in the June 30, 2019 valuation used to compute the Employer Contribution for Fiscal Year 2021 and in the June 30, 2017 valuation used to compute the Employer Contribution for Fiscal Year 2019.

CONTRIBUTIONS

The benefits of the Fund are financed by member and employer contributions and from investment earnings of the Fund.

A. MEMBER CONTRIBUTIONS

Tier 1 and Tier 2: Required Member Contributions – Based upon age at entry and elected retirement age, credited with regular and special interest. Contributions are required for the first 20 years.

Voluntary Member Contributions – Additional contributions to the Annuity Savings Fund credited with regular and special interest.

Contributions from members are recorded when the employer makes payroll deductions from Plan members. Tier 1 and Tier 2 members are permitted to borrow up to 90% of their own contributions including accumulated interest. These loans are accounted for as reductions in such member's contribution accounts.

Tier 3, Tier 3 Revised, and Tier 3 Enhanced: Basic Member Contributions – Members contribute 3.0% of salary for a maximum of 25 years.

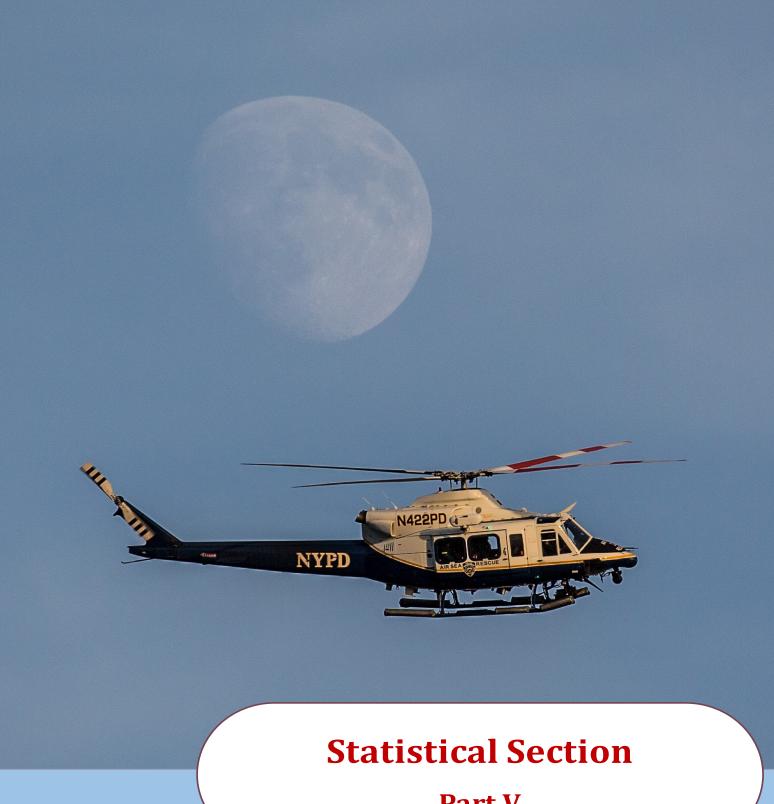

Additional Member Contributions (AMC) – Effective April 10, 2017, Tier 3 Enhanced Plan members are required to contribute an additional 1.0% of salary for a maximum of 25 years. Chapter 59/17 states that the AMC rate for Tier 3 Enhanced Plan members is required to be reviewed by the Actuary every 3 years. The AMC rate currently remains at 1.0% of salary.

Loans are not permitted for Tier 3, Tier 3 Revised, and Tier 3 Enhanced Plan members.

B. EMPLOYER CONTRIBUTIONS

The Entry Age Normal cost method of funding is utilized by the Plan's Actuary to calculate the contributions required of the employer.

Employer contributions are accrued by the Plan and are funded by the employer on a current basis.

Annual Comprehensive Financial Report

For the fiscal years ended June 30, 2022 and June 30, 2021

This page is intentionally left blank

Statistical Section Overview

Introduction

The objective of the statistical section is to reflect data that is necessary to fund members' retirement benefits during their active service together with members' employer's contributions and investment income that would be required to accumulate assets to pay various retirement benefits.

The Statistical Section of the New York City Police Pension Fund's Annual Comprehensive Financial Report presents detailed information related to the financial statements, as well as highlights of the actuarial valuations. The data provided is a useful source in determining the fund's economic condition. The schedules are organized into four categories: Operating Information, Demographic and Economic Information, Financial Trend and Revenue Capacity.

Operating Information

The operating information gives users an indication of how the information in the financial statements relate to the activities of the fund. The schedules show data on benefits ranges, years of credited service, types of retirement and options selected and the amount of monthly, annual or average benefit paid to each group of retirees and beneficiaries. The data is presented for the fiscal period or over a ten-year period.

Demographic and Economic Information

The demographic and economic categories present data to give users an understanding of the environment in which the pension plan operates. This is done mainly through the breakdown of the population groups in the plan membership. The schedules present the number of members and beneficiaries grouped according to several indicators including average monthly or annual salaries or age participating in the pension plan, for the fiscal period or over a ten-year period.

Financial Trends

The schedules of trend data provide financial and actuarial data for the most current ten-year period. This data shows the changes in benefit types and changes in the plan's performance over time, as relates to revenues, received benefits and expenses paid and net position.

Revenue Capacity

Revenue capacity information help users evaluate the different sources of revenue for the plan. The schedules show the sources and change in the level of revenues over time. The main sources of revenues for the plan are investment income and employer contributions.
