Oct. 17, 2014

Board of Trustees  
Ohio Police & Fire Pension Fund  
140 East Town Street  
Columbus, Ohio 43215

Members of the Board:

Ohio Police & Fire retained Buck Consultants, LLC (Buck) to complete this actuarial valuation of the Ohio Police & Fire Pension Fund (OP&F). This report presents the results of the annual actuarial valuation of the assets and liabilities of OP&F as of Jan. 1, 2014, prepared in accordance with Chapter 742 of the Ohio Revised Code (ORC), as amended by Senate Bill No. 340. The valuation takes into account all of the promised benefits to which members are entitled, including pension and survivor benefits.

The principal results of the valuation do not take into account Medicare Part B premium reimbursements or any other health care benefits. However, at the request of the Ohio Retirement Study Council (ORSC), supplemental results have been prepared that do take into account Medicare Part B premium reimbursements and are presented in Table 1A in the report.

The purpose of the valuation is to determine the financial status of OP&F on an actuarial basis and to provide disclosure information in accordance with and in compliance with the parameters set forth in Governmental Accounting Standards Board (GASB) Statement No. 25. Statement No. 25 was amended by Statement No. 67 and is effective with OP&F's fiscal year ending Dec. 31, 2014. Buck Consultants will provide information required under Statement No. 67 in a separate report for OP&F's year-end disclosure. (Buck prepares a separate valuation of OP&F retiree health care benefits in accordance with and in compliance with the parameters set forth in Statement No. 43.) Use of this report for any other purpose may not be appropriate and may result in mistaken conclusions due to failure to understand applicable assumptions, methodologies, or inapplicability of the report for that purpose. No one may make any representations or warranties based on any statements or conclusions contained in this report without the written consent of Buck.

Board of Trustees  
Ohio Police & Fire Pension Fund  
Oct. 17, 2014

The valuation was based on the actuarial assumptions and methods that have been adopted by the Board of Trustees, including a valuation interest rate of 8.25 percent per annum compounded annually. The assumptions were effective Jan. 1, 2012 and recommended by the actuary based on a five-year experience review covering the period 2007-2011. Actuarial Standards of Practice require that the likelihood and extent of future mortality improvements be considered. We have reflected future mortality improvement in the valuation. Additional assumptions related to the benefit provision changes under Senate Bill No. 340 were employed for this valuation.

### **Assets and Membership Data**

OP&F reported to the actuary the individual data for members as of the valuation date. While we did not verify the data at their source, we did perform tests for internal consistency and reasonableness. The amount of assets in the pension trust fund taken into account in the valuation was based on financial statements prepared for us by OP&F.

### **Funding Objectives and Progress**

The actuary uses an actuarial cost method to determine the portion of OP&F's liabilities accrued by the members as of the valuation date and the portion that is attributable to future years of service. The rate of contribution necessary to systematically fund the future service liabilities, the normal cost rate, is calculated under the cost method to be a level percentage of active member payroll. The portion of the liabilities accrued as of the valuation date, the actuarial accrued liability (AAL), is compared to a market-related, actuarial value of OP&F's assets. The amount of liabilities in excess of the assets is called the unfunded actuarial accrued liability (UAAL).

The total of Deferred Retirement Option Plan (DROP) accruals reported as of Dec. 31, 2013 was \$1.246 billion. It should be noted that the financial statements prepared by OP&F treats the balance of DROP accruals as a benefit payable, which is subtracted from ( i.e., not included in) the net asset value. For consistency with this exclusion from the asset value, the AAL also has been reduced by the same amount. By treating the DROP accruals as a benefit payable, and excluding the accruals from both the liabilities and the assets, the UAAL is the same as if both the assets and liabilities included the DROP accruals.

Board of Trustees  
Ohio Police & Fire Pension Fund  
Oct. 17, 2014

The actuary determines how many years are required by OP&F to completely amortize the UAAL (the funding period), using the member and employer contributions reduced by the amount allocated to health care and the amount of normal cost for the year. For 2003-2012, the funding period was infinite years, meaning the annual contribution toward the unfunded when compared to the unfunded amount was not sufficient to pay it off. For 2013, the pension funding period is 47 years. For 2014, reflecting favorable asset investment gains and an increase in the allocation of contributions to pension funding due to reducing the allocation of contributions for health care from 2.85 percent to 0.50 percent, the pension funding period is 33 years.

Section 742.16 of the ORC, as adopted by Senate Bill No. 82, sets forth an objective that the funding period is no more than 30 years. If the funding period exceeds 30 years, a plan shall be developed and presented by the Board of Trustees to the ORSC to reduce the funding period to not more than 30 years. Section 742.14 of the ORC, as amended by Senate Bill No. 340, sets forth that the next 30-year funding plan be developed and presented not later than 90 days after the Board of Trustees' receipt of the Jan. 1, 2016 actuarial valuation.

The funded ratio (i.e., the ratio of actuarial assets to the AAL) determined as of Jan. 1, 2014 is 66.7 percent, compared to 64.2 percent determined as of Jan. 1, 2013. Taking into account the Medicare Part B premium reimbursements, the funded ratio would be 64.8 percent.

### **Financial Results and Membership Data**

The valuation report shows detailed summaries of the financial results of the valuation and membership data used in preparing this valuation. The actuary prepared supporting schedules included in the Actuarial and Statistical Sections of the OP&F Comprehensive Annual Financial Report. The actuary prepared the trend data schedules included in the Financial Section of the OP&F Comprehensive Annual Financial Report.

The valuation assumptions were chosen by the Board of Trustees with the advice of the actuary. The assumptions used to develop the Jan. 1, 2014 valuation are individually reasonable and in combination represent our best estimate of anticipated experience under the Plan.

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. Because of limited scope, Buck performed no analysis of the potential range of such future differences.

Board of Trustees  
Ohio Police & Fire Pension Fund  
Oct. 17, 2014

The undersigned are Enrolled Actuaries, Associates of the Society of Actuaries and Members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained in this report. This report has been prepared in accordance with all Applicable Actuarial Standards of Practice. We are available to answer any questions on the material contained in the report, or to provide explanations or further details as may be appropriate.

Respectfully submitted,

Larry Langer, FCA, ASA, EA, MAAA  
Principal, Consulting Actuary

Paul R. Wilkinson, ASA, EA, MAAA

## Summary of Principal Results

### Introduction

This report presents the results of the actuarial valuation as of Jan. 1, 2014 of pension benefits for the OP&F Pension Fund.

The principal valuation results include:

- The unfunded accrued liability funding period, which is 33 years.
- The funded status of the plan determined as of Jan. 1, 2014 based on the accrued liability and the actuarial value of assets as of that date, which is 66.7 percent.
- The determination of the experience gain or loss as of Jan. 1, 2014, which is a gain of \$455 million.
- Annual disclosure as of Jan. 1, 2014 as required by Statement No. 25 of the GASB – only to be used for comparison of relevant Statement No. 67 information.

This valuation report does not contain information under GASB Statement Nos. 67 and 68.

The valuation was completed based upon membership and financial data submitted by OP&F.

A separate valuation is performed for all health care benefits. However, at the request of the ORSC, this report includes a supplemental table, Table 1A, that shows what the valuation results would be if the liability for Medicare Part B premium reimbursements is included in this valuation.

### Changes Since Last Year

The Board changed the retiree health care contribution allocation from 2.85 percent of payroll to 0.50 percent effective Jan. 1, 2014.

## Summary of Principal Results

Summarized below are the principal financial results for the OP&F Pension Fund based upon the actuarial valuation as of Jan. 1, 2014. Comparable results from the Jan. 1, 2013 valuation are also shown.

Item	Jan. 1, 2014	Jan. 1, 2013
<b>Membership Data</b>

➤ Actuarial Assets	<u>(11,063,198,000)</u>	<u>(10,278,031,000)</u>
➤ Unfunded Accrued Liability (UAAL)	\$ 5,514,557,000	\$ 5,729,857,000
➤ Funded Ratio	66.7%	64.2%
➤ Funding Period	33 years	47 years

\* Contribution rates are blended averages reflecting mid-year changes in the rates

\*\* Actuarial Assets and Liabilities are net of DROP accruals

### Actuarial Funded Status

OP&F's funded status is measured by comparing the actuarial value of assets with the AAL. The AAL is the present value of benefits attributed to past service under OP&F's funding method and reflects future pay increases for active members. The actuarial value of assets is a value based on OP&F's market value, but defers recognition over four years of any market returns that are greater than or less than the assumed valuation assumption of 8¼ percent. The use of this asset valuation method mitigates, or smoothes, market fluctuation in the valuation assets from year to year. The actuarial valuation method includes a 20 percent corridor around the market value, so that the actuarial value must be no less than 80 percent and no greater than 120 percent of the market value.

As of Jan. 1, 2014, the AAL exceeds the actuarial value of assets, resulting in an unfunded accrued liability of \$5.5 billion. The funded ratio, which is the ratio of the assets to the accrued liability, is 66.7 percent. These figures are based on an actuarial value of assets of \$11,063,198,000 and an AAL of \$16,577,755,000.

### Reasons for Change in the Funded Ratio

The funded ratio increased from 64.2 percent as of Jan. 1, 2013 to 66.7 percent as of Jan. 1, 2014, an increase of 2.5 percentage points. The primary reasons for the increase are as follows:

	<u>Increase or (Decrease)</u>
Investment gain based on actuarial value of assets	2.7%
Liability gain due to plan experience	0.0
Contribution level	<u>(0.2)</u>
Net increase (decrease)	2.5%

### Five-Year History of Actuarial Funded Status

Valuation as of Jan. 1	Actuarial Accrued Liability (AAL)	Actuarial Assets	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio
2014	\$ 16,577,755,000	\$ 11,063,198,000	\$ 5,514,557,000	66.7%
2013	16,007,888,000	10,278,031,000	5,729,857,000	64.2
2012	16,346,699,000	10,308,959,000	6,037,740,000	63.1
2011	15,384,437,000	10,681,012,000	4,703,425,000	69.4
2010	14,830,742,000	10,794,093,000	4,036,649,000	72.8

The following chart shows a five-year history of the accrued liability and the valuation assets:

### Five-Year History of Liabilities, Assets and Funded Ratio

### Rate of Return on Assets

The investment returns of the trust fund on a market value basis (i.e., total return including both realized and unrealized gains and losses) for years ended Dec. 31, 2009 through Dec. 31, 2013 are shown below. Also shown are the rates of return on the actuarial value of assets used to determine OP&F's actuarial funded status.

### Five-Year History of Rates of Return

Year Ended Dec. 31	Rate of Return Based on	
	Market Value	Actuarial Assets
2013	16.9%	13.6%
2012	14.9	5.9
2011	2.6	2.2
2010	15.8	4.0
2009	20.7	21.8

### Five-Year History of Market Value and Actuarial Assets

### Net Actuarial Gain (Loss)

The results of the valuation as of Jan. 1, 2014 determine the net actuarial gain or loss due to plan experience for the year ended Dec. 31, 2013. There was a net experience gain of \$454.5 million, consisting of a gain of \$447.6 million on the actuarial value of assets and a gain of \$6.9 million on liabilities. The asset gain reflects investment performance on a market value basis during 2013 and the previous three years. The analysis of the net experience loss is shown in Table 5.

### Five-Year History of Actuarial Gains or (Losses)

Fiscal Year Ended Dec. 31	Net Gain or (Loss)
2013	\$ 454,508,000
2012	(380,992,000)
2011	(631,882,000)
2010	(396,730,000)
2009	1,321,694,000

### Funding Period

The funding period is the number of years needed to pay off the unfunded accrued liability, based on the current pension contribution rate. A period of infinity means the contribution level is not sufficient to pay down the unfunded over any number of years. The funding period based on this valuation is 33 years.

### Five-Year History of Contribution Rates and Funding Period

Valuation as of Jan. 1	Contribution Rates				Allocation		Funding Period
	Member	Police Employer	Fire Employer	Employer Average	Health Care	Pension	
2014	11.13%	19.50%	24.00%	21.61%	0.50%	32.24%	33 years
2013	10.38	19.50	24.00	21.61	3.62	28.37	47 years
2012	10.00	19.50	24.00	21.62	6.75	24.87	Infinity
2011	10.00	19.50	24.00	21.60	6.75	24.85	Infinity
2010	10.00	19.50	24.00	21.59	6.75	24.84	Infinity

## **GASB No. 25 Disclosure**

Statement No. 25 of the GASB established reporting standards for the annual financial reports of defined benefit pension plans. The statement requires disclosure of the “schedule of funding progress” and the “schedule of employer contributions” in OP&F’s financial statements.

The “schedule of funding progress” shows historical trend information about OP&F’s actuarial value of assets, the Actuarial Accrued Liability (AAL) and the Unfunded Actuarial Accrued Liability (UAAL). The actuarial funded status is measured by comparing the actuarial value of assets (based on a four-year moving market average value) with the AAL. The AAL is the present value of benefits accumulated to date under OP&F’s funding method and reflects future pay increases for active employees. On this basis, OP&F’s funded ratio is 66.7 percent as of Jan. 1, 2014. The funded ratio is based on an actuarial value of assets of \$11,063,198,000 and an accrued liability of \$16,577,755,000. Table 6 shows the schedule of funding progress information.

The “schedule of employer contributions” shows historical trend information about the annual required contributions (ARC) of the employer and the percentage of the ARC contributed to OP&F. The ARC is equal to the employer normal cost plus amortization of the UAAL. The maximum period for amortizing the UAAL permitted by GASB Statement No. 25 is 30 years. The employer contributions to OP&F for the year ended Dec. 31, 2013, which results in a funding period of 47 years, were equal to 74 percent of the ARC for 2013. Table 7 shows the schedule of employer contributions.

The ARC for 2014 is 23.32 percent of estimated payroll. This is the sum of the employer normal cost rate plus the rate to amortize the UAAL over 30 years based on the Jan. 1, 2014 valuation.

Statement No. 25 was amended by Statement No. 67 and is effective with OP&F’s fiscal year ending Dec. 31, 2014. Buck Consultants will provide information required under Statement No. 67 in a separate report for OP&F’s year-end disclosure.

The remainder of this report consists of tables and exhibits.

9. Actuarial Value of Assets **	\$ 6,088,815,888	\$ 4,974,382,530	\$ 11,063,198,418
10. Unfunded Accrued Liability: (8) - (9)	\$ 3,035,028,154	\$ 2,479,528,254	\$ 5,514,556,409
11. Funding Period			33 Years
12. Funded Ratio	66.7%	66.7%	66.7%
<b>Allocation of Employer Contribution Rate</b>			
13. Employer Contribution Rate			
a) Total Employer Rate (by law)	19.50%	24.00%	21.61%
b) Health Care Stabilization Fund Allocation	<u>0.50%</u>	<u>0.50%</u>	<u>0.50%</u>
c) Employer Pension Rate: (a) - (b)	19.00%	23.50%	21.11%
d) Total Normal Cost Rate	17.63%	17.72%	17.68%
e) Member Rate (by law)	<u>11.13%</u>	<u>11.13%</u>	<u>11.13%</u>
f) Employer Normal Cost Rate: (d) - (e)	6.50%	6.59%	6.55%
g) Unfunded Accrued Liability Amortization Rate: (c) - (f)	12.50%	16.91%	14.56%
<b>GASB 25 Annual Required Contribution</b>			
14. ARC Rate as % of Payroll			
a) Employer Normal Cost Rate	6.50%	6.59%	6.55%
b) Amortization Payment for UAAL	<u>17.35%</u>	<u>16.10%</u>	<u>16.77%</u>
c) Total ARC %: (a) + (b)	23.85%	22.69%	23.32%

\* The DROP accruals subtracted from the AAL are the amounts treated by OP&F as a liability to, and subtracted from, plan assets.

\*\* The Actuarial Value of Assets is split between Police and Firefighters in proportion to the Actuarial Accrued Liability.

The contribution rates shown are for 2014. The member rate of 11.13% is a blend of 10.75% from Jan. 1 to July 1 and 11.50% from July 2 to Dec. 31. The member rate will further increase July 2, 2015 to 12.25%. The Funding Period reflects these future increases in the member rate on the dates they become effective.

**as of Jan. 1, 2014**

Item	Amount
1. Unfunded Accrued Liability at Jan. 1, 2013	\$ 5,729,856,782
2. Contributions Toward Unfunded Accrued Liability	\$ 224,255,408
3. Interest Credit at 8.25% to Dec. 31, 2013	\$ 463,462,649
4. Expected Unfunded Accrued Liability at Dec. 31, 2013 (1) - (2) + (3)	\$ 5,969,064,023
5. Actual Unfunded Accrued Liability at Jan. 1, 2014	<u>\$ 5,514,556,409</u>
6. Net Gain (4) - (5)	\$ 454,507,614
7. Reasons for Net Gain	
(a) Experience Gains (Losses)	
(i) Gain from Investment Return on Actuarial Value of Assets	\$ 447,649,124
(ii) Gain from Demographic Experience and Other	<u>\$ 6,858,490</u>
(b) Total	\$ 454,507,614

**Table 5**  
**Detailed Analysis of Gains and Losses due to Plan Experience**  
**Resulting In Differences Between Assumed and Actual Experience**

Type of Activity	Gain (Loss)	
	Jan. 1, 2014	Jan. 1, 2013
Plan Experience:		
Turnover <i>If more liabilities are released by withdrawal separations from active membership than assumed, there is a gain. If smaller releases, a loss.</i>	\$ (9,005,087)	\$ (9,379,013)
Retirement <i>If members retire at older ages than assumed, there is a gain. If younger, a loss.</i>	2,074,994	4,162,443
Death among retired members and beneficiaries <i>If more deaths occur than assumed, there is a gain. If fewer deaths than assumed, there is a loss.</i>	4,614,595	(361,462)
Disability retirements <i>If disability claims are less than assumed, there is a gain. If more claims, a loss.</i>	13,304,806	13,335,860
Salary increase/decrease <i>If there are smaller pay increases than assumed, there is a gain. If greater increases, a loss.</i>	101,583,243	154,641,716
Return to work <i>If participants return to work with previous service restored, there is a loss.</i>	(1,535,632)	(1,747,867)
New Entrants <i>If new entrants join OP&amp;F, there is a loss.</i>	(5,249,686)	(4,465,577)
Deaths among actives <i>If claims costs are less than assumed, there is a gain. If more claims, a loss.</i>	(2,508,111)	(1,734,810)
Investment <i>If there is greater investment return than assumed, there is a gain. If less return, a loss.</i>	447,649,124	(627,390,032)
Other Experience and Payroll Growth <i>If other experience, including less than expected payroll growth, increases the unfunded liability, there is a loss. Otherwise, there is a gain.</i>	<u>(96,420,632)</u>	<u>91,946,958</u>
Net gain (or loss) during the year due to plan experience	\$ 454,507,614	\$ (380,991,784)

\*\* The amounts reported in this schedule do not include assets or liabilities for post-employment health care benefits.

**Table 7**  
**Schedule of Employer Contributions**  
**GASB Statement No. 25 Disclosure**

Year Ended Dec. 31	Annual Required Contribution	Percentage Contributed
2013	\$ 474,733,997	74 %
2012	538,382,928	53 %
2011	492,649,662	57 %
2010	459,798,114	62 %
2009	506,496,386	55 %
2008	370,765,124	75 %
2007	363,660,967	77 %
2006	321,712,471	73 %
2005	292,454,788	79 %
2004	257,851,201	88 %

The information presented above was determined as part of the actuarial valuation as of one year prior to the dates indicated (i.e., the contribution determined by the valuation completed as of Jan. 1, 2013 was contributed in the year ending Dec. 31, 2013).

Additional information as of the latest actuarial valuation follows:

Valuation date:	Jan. 1, 2014
Actuarial cost method:	Entry Age
Amortization method:	Level percent of payroll, open
Remaining amortization period:	30 years*
Asset valuation method:	4-year adjusted fair value with a corridor of 20% of the fair value

Actuarial Assumptions:	
- Investment rate of return (discount rate)	8.25%
- Projected salary increases	4.25% - 11.00%
- Payroll increases	3.75%
- Inflation assumption	3.25%
- Cost of living adjustments	2.60% and 3.00% simple

\* The Annual Required Contributions for 2003-2006 were based on 40-year amortization. Years 2007 and later use a 30-year amortization basis.

**Table 9**  
**Description of Actuarial Assumptions and Methods**

**Assumptions**

The actuarial assumptions were adopted as of Jan. 1, 2012, based on a five-year experience review covering the period 2007-2011. The next review of the actuarial assumptions is to be completed for adoption with the Jan. 1, 2017 valuation.

INTEREST RATE: 8.25 percent per annum, compounded annually.

SALARY INCREASE RATES: Assumed annual salary increases are as follows:

Years of Service	Salary Increase Rate
Less than 1	11.00%
1	9.50%
2	8.50%
3	6.50%
4	5.00%
5 or more	4.25%

DROP INTEREST RATE: 4.5 percent per annum, compounded annually.

COLA: 3 percent simple; 2.6 percent simple for increases based on the lesser of the increase in CPI and 3 percent.

WITHDRAWAL RATES: The following sample withdrawal rates are based on age and service (for causes other than death, disability, or retirement):

**Police**

Age	Years of Service

The same rates apply for members entering DROP after July 1, 2013, except the rates for years three and four are replaced with the rates for year two.

**RETIREMENT AGE FOR INACTIVE VESTED PARTICIPANTS:** Commencement at age 48 and 25 years of service from full-time hire date, whichever is later.

**MORTALITY:** Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

**CREDITED SERVICE:** Credited service on the valuation date, as provided by OP&F, includes all service credited under the plan, including service transferred from other municipal plans and purchased service. The valuation assumes future service will be credited at the rate of one year per year worked, with no assumed future crediting of transferred service or purchased service.

**415 LIMITS:** Benefits are limited by the IRC Section 415, assumed to increase 3.25 percent per annum.

**FUTURE EXPENSES:** The normal cost is increased by all administrative expenses budgeted, net of the State Subsidy received from the State of Ohio.

**Table 9**

**Description of Actuarial Assumptions and Methods  
(Continued)**

UNKNOWN DATA FOR MEMBERS: Same as those exhibited by members with similar known characteristics.

PERCENT MARRIED: 75 percent of active members are assumed to be married.

AGE OF SPOUSE: Wives are assumed to be three years younger than their husbands.

OPTIONAL FORM ELECTION: 33 percent of service retirees and 10 percent of disability retirees are assumed to elect the 50 percent Joint and Survivor pension. If the joint annuitant predeceases the retiree, assume the retiree's benefit increases 17.65 percent.

DEPENDENT PARENTS: Costs based upon allowance for mortality (same rates as for beneficiaries), but no specific allowance for change in dependency status.

DEPENDENT CHILDREN: Each member is assumed to have two children, born when the member was age 26. Dependency is assumed to cease when the child is 22.

MEDICARE PART B PREMIUM TREND RATES: The Medicare Part B premium subsidy (\$104.90 per month for 2014) is assumed to increase as follows:

Year	Increase
2014	5.50%
2015	5.40%
2016	5.30%
2017	5.20%
2018	5.10%
2019 and Later	5.00%

MEDICARE PART B PREMIUM REIMBURSEMENT: 90 percent of members are assumed to be eligible for reimbursement once they reach age 65.

**Table 9**  
**Description of Actuarial Assumptions and Methods**  
**(Continued)**

**METHODS**

ACTUARIAL COST METHOD: Projected benefit method with individual level percentage entry age normal cost and AAL. Gains and losses are reflected in the accrued liability. To be consistent with the asset methodology employed by OP&F, DROP accruals are netted out of the liabilities.

ASSET VALUATION METHOD: A four-year moving average market value of assets that spreads the difference between the actual investment income and the expected income on the market value (based on the valuation interest rate) over a period of four years. The actuarial value shall not be less than 80 percent or more than 120 percent of market value.

PAYROLL GROWTH: Inflation rate of 3.25 percent plus productivity increase rate of 0.5 percent.

**DATA**

CENSUS AND ASSETS: The valuation was based on members of OP&F as of the valuation date and does not take into account future members. All census and asset data was supplied by OP&F.

**Table 10**  
**Plan Summary**

**Summary of Benefit and Contribution Provision**

The following is intended to summarize the key provisions valued in this valuation. Members of OP&F and other parties should not rely on this summary as a substitute for or legal interpretation of the laws and rules covering this retirement plan.

**Membership**

Membership in OP&F is mandatory under Ohio Law for all full-time police officers employed by Ohio municipalities and appointed under the required statutory provisions. Membership is also mandatory for all full-time firefighters employed by municipalities, townships, villages, joint fire districts or other political subdivisions. In order to become members of OP&F, full-time firefighters are required to satisfactorily complete, or have satisfactorily completed, a firefighter training course approved under former Section 3303.07, Section 4765.55 or conducted under Section 3737.33 of the ORC.

**Eligibility for Membership**

Full-time police officers or firefighters are eligible for membership in OP&F immediately upon commencement of employment as a full-time police officer or firefighter.

**Contributions**

Employer and member contributions are established by statute and both are due monthly. Employers of police officers pay 19.5 percent of salary; employers of firefighters pay 24 percent of salary. Members contributed 10 percent of salary through July 1, 2013. On July 2, 2013 the member contribution rate increased by 0.75 percent to 10.75 percent. The member contribution rate will continue to increase annually by 0.75 percent until it reaches 12.25 percent on July 2, 2015.

Employer Contribution Rates – Percentage of Active Member Payroll:

Time Frame of Rates	Police	Fire
Jan 1, 1986 thru Present	19.50%	24.00%

Member Contribution Rates – Percentage of Active Member Payroll:

Time Frame of Rates	Police	Fire
July 2, 2015 and Thereafter	12.25%	12.25%
July 2, 2014 thru July 1, 2015	11.50%	11.50%
July 2, 2013 thru July 1, 2014	10.75%	10.75%
Sept. 9, 1988 thru July 1, 2013	10.00%	10.00%

**Table 10**  
**Plan Summary**  
**(Continued)**

**BENEFITS**

**Service Retirement**

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary.

Since average annual salary is subject to certain statutory and administrative limitations, not all salary, earnings, or compensation may be used in the calculation. OP&F calculates allowable average annual salary as follows:

- For members with less than 15 years of service credit as of July 1, 2013, average annual salary is an average of the five years of highest allowable earnings, regardless of when in their career the highest years occurred. Allowable average annual salary means one-fifth of the total salary during the five years for which the total earnings were greatest.
- For OP&F members with 15 or more years of service credit or more as of July 1, 2013, average annual salary is an average of the three years of highest allowable earnings, regardless of when in their career the highest years occurred. Allowable average annual salary means one-third of the total salary during the three years for which the total earnings were greatest.

**Normal Service Retirement**

**Eligibility**

- For members hired into an OP&F-covered position after July 1, 2013, minimum retirement age is 52 with at least 25 years of service.
- For members hired into an OP&F-covered position on or before July 1, 2013, minimum retirement age is 48 with 25 years of service.

**Benefit**

An annual pension equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service, 2.0 percent for each of the next five years of service, and 1.5 percent for each year of service in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Service Commuted Retirement**

**Eligibility**

- For members hired into an OP&F-covered position after July 1, 2013, the minimum retirement age is 52, they must have at least 15 years of service and 25 years have elapsed from the date of their full-time hire.
- For members hired into an OP&F-covered position on or before July 1, 2013, the minimum retirement age is 48, they must have at least 15 years of service but less than 25 years of service and 25 years have elapsed from the date of their full-time hire.

**Benefit**

An annual pension equal to 1.5 percent of the allowable average annual salary multiplied by the number of full years of service.

**Age/Service Commuted Retirement**

**Eligibility**

Age 62, 15 years of service and still working as a full-time police officer or firefighter.

**Benefit**

An annual pension that uses the same formula as for the Normal Service Retirement benefit.

**Actuarially Reduced**

**Eligibility**

For members hired into an OP&F-covered position after July 1, 2013, age 48 with 25 years of service.

**Benefit**

An annual pension reduced to the actuarial equivalent of the amount payable had the member retired at age 52.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Rights Upon Separation From Service**

**Deferred Pension**

If a member meets the years of service required for any of the service retirement pensions but leaves service before attaining the minimum retirement age, a pension becomes payable upon attainment of the qualifying age and filing the appropriate paperwork with OP&F.

**Refund of Employee Contributions**

Upon separation from service, a member can receive the contributions that he or she made to the plan or the employee share of member contributions picked-up on the member's behalf by their employer. Employer contributions are not refundable.

**Termination Before Retirement With 25 Years of Service**

**Benefit**

Same as the Normal Service Retirement benefit, except benefit commences once the member reaches minimum retirement age.

- For members hired into an OP&F-covered position after July 1, 2013, minimum retirement age is 52.
- For members hired into an OP&F-covered position on or before July 1, 2013, minimum retirement age is 48.

**Termination Before Retirement With 15 Years of Service**

**Benefit**

Same as the Service Commuted Retirement, except benefit commences once the member reaches minimum retirement age and 25 years have elapsed from the date of full-time hire.

- For members hired into an OP&F-covered position after July 1, 2013, the minimum retirement age is 52.
- For members hired into an OP&F-covered position on or before July 1, 2013, the minimum retirement age is 48.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Termination Before Retirement With Less Than 15 Years of Service**

**Benefit**

A lump sum amount equal to the sum of the member's contributions to OP&F.

**Deferred Retirement Option Plan**

**Eligibility**

When a member is eligible for a normal service retirement they can enter DROP by delaying retirement and continuing to work as a full-time police officer or firefighter.

- For members hired into an OP&F-covered position after July 1, 2013, normal service retirement eligibility is age 52 with at least 25 years of service credit.
- For members hired into an OP&F-covered position on or before July 1, 2013, normal service retirement eligibility is age 48 with at least 25 years of service credit.

**Benefit**

DROP is a cost neutral benefit offered by OP&F. Upon the DROP effective date, the member's pension is calculated as if that were their date of retirement. While the member continues to work and draw their normal salary, the amount they would have received in retirement benefits

accumulates tax-deferred at OP&F on their behalf, as well as a portion of their OP&F employee contributions and interest. Since the member's pension has already been calculated:

- The years of DROP service do not apply towards the member's normal service retirement.
- If a member earns a higher salary after their DROP effective date due to a raise, job promotion, etc., it will not be used to recalculate their pension and, therefore, will not result in that member receiving a higher pension upon retirement.

The DROP interest rate is set by administrative rule and is subject to change at any time. OP&F credits interest to all DROP balances each month at a rate equal to the 10-year United States (U.S.) Treasury Note Business Day Series, as published by the U.S. Federal Reserve, with a cap of five percent. This variable interest rate is adjusted quarterly to match the published 10-year U.S. Treasury Note rate for the last business day of each quarter and is in effect for the subsequent quarter.

**Table 10**  
**Plan Summary**  
**(Continued)**

Members whose election to participate in DROP is effective after July 1, 2013 do not qualify for annual cost-of-living allowances (COLA) at any time during DROP. Members whose election to participate in DROP is effective on or before July 1, 2013 will continue to receive a cost-of-living allowance during DROP, but only when they reach 55 years of age and have been participating in DROP for at least one year. Those members whose years of service qualify them for a cost-of-living allowance during DROP will receive three percent of their base pension.

Member contributions are credited to their DROP account based on the number of years of DROP service. For those members whose election to participate in DROP is effective after July 1, 2013, OP&F applies contributions to DROP in the following manner:

Years of DROP Service	Percentage of Member Contributions
Years 1-3	50 percent of member's contributions
Year 4-5	75 percent of member's contribution
Years 6-8	100 percent of member's contributions

For this group of members, the minimum participation in DROP, without penalty, is five years and the maximum is eight. If a member terminates within the first five years of joining DROP, then the member forfeits all of their DROP interest. If a member chooses to continue working after eight years in DROP, the member forfeits all DROP benefits and receives the Normal Service Retirement benefit upon retirement, which will be calculated to include the service credit earned during the DROP participation period.

For those members whose election to participate in DROP was on or before July 1, 2013, member contributions are applied to DROP under the following schedule:

Years of DROP Service	Percentage of Member Contributions
Years 1-2	50 percent of member's contributions
Year 3	75 percent of member's contribution
Years 4-8	100 percent of member's contributions

For this group of members, the minimum participation in DROP, without penalty, is three years and the maximum is eight. If a member terminates within the first three years of joining DROP, then the member forfeits all of their DROP interest. If a member chooses to continue working after eight years in DROP, the member forfeits all DROP benefits and receives the Normal Service Retirement benefit upon retirement, with service during the DROP period included.

**Table 10**  
**Plan Summary**  
**(Continued)**

All DROP members retiring before the eight-year max receive their Normal Service Retirement benefit determined at the time of DROP entry, with the COLA adjustment (if applicable) to date of retirement when eligible. These members will also receive the DROP account balance as a lump sum or monthly annuity.

If a member dies while participating in DROP, the member's surviving spouse, designated beneficiary or estate will receive the entire DROP account balance determined at the time of death. The surviving spouse or contingent dependent beneficiary will receive the greater of the retirement allowance made at the time of DROP entry or the Normal Service Retirement benefit paid with COLA adjustments (if applicable) to the date of death, paid as if the member had elected a 50 percent joint and survivor option at death. All other statutory death benefits will apply.

If the member becomes disabled while in DROP, and has not terminated employment, the member must choose either to receive a disability benefit or a service retirement with DROP. If the member chooses the disability benefit, the member forfeits all DROP benefits and receives the disability benefit, with service during the DROP period included.

For member's participating in DROP, termination of active service at any time during the disability application process will render a disability application null and void, as well as immediately vest a DROP benefit. If this occurs, the OP&F member must apply for a service pension. Furthermore, if a disability grant is offered the member must accept the grant on a form provided by OP&F prior to termination of active employment.

**Cost-of-Living Allowances**

Retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on Sept. 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Disability Benefits**

Members who become unable to perform their official duties and whose earning capacities are impaired may qualify for disability benefits. Disability benefits are classified as either service-incurred (on-duty) or non-service-incurred (off-duty) and differ in eligibility requirements and benefit formulas. Annual medical evaluations are required for disability benefit recipients who would not have met the age and service requirements for a Normal Service Retirement, unless the Board of Trustee waives this requirement based upon an OP&F physician's certification that the disability is ongoing and further evaluation would not be cost effective. Annual earnings statements are also required to be submitted to OP&F.

**Permanent and Total Disability (On-Duty)**

**Eligibility**

No age or service requirement.

**Benefit**

An annual benefit equal to 72 percent of allowable average annual salary.

**Partial Disability (On-Duty)**

**Eligibility**

No age or service requirement.

**Benefit**

An annual benefit fixed by the Board of Trustees to be a certain percent up to 60 percent of the allowable average annual salary. If the member has 25 or more years of service, the annual disability benefit is equal to the Normal Service Retirement amount.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Non-Service Incurred Disability (off-Duty)**

**Eligibility**

Any age and five years of service.

**Benefit**

An annual amount is the percent awarded by the Board of Trustees and may not exceed 60 percent of the allowable average annual salary. Service over 25 years cannot be used in calculating an off-duty disability award.

**Pre-Retirement Survivor Annuity**

**Eligibility**

Upon death before retirement, but after having satisfied the requirements for a Normal Service Retirement or an Age/Service Commuted retirement.

**Benefit**

The surviving spouse or contingent dependent beneficiary will receive the equivalent of a 50 percent joint and survivor annuity, calculated under the assumption that the decedent had retired effective the day following his/her death.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Statutory Survivor Benefits**

**Eligibility**

Upon death of any active or retired member of OP&F.

**Benefit**

*Surviving Spouse's Benefit*

An annual amount equal to \$6,600 (\$550 monthly), plus an annual COLA of three percent of the original base benefit, paid each July 1, beginning July 1, 2000. The benefit is paid to the surviving spouse for life.

If the spouse is receiving a full death benefit under the Death Fund Benefit statute, the spouse's Statutory Survivor Benefit is \$4,920 (\$410 monthly). The Death Benefit Fund is funded by the State of Ohio and provides special benefits to eligible survivors of public safety officers who are killed in the line of duty or who die from injuries or disease incurred in the performance of official duties. These eligible survivors are entitled to receive the member's full monthly salary, which will be reduced at the member's retirement eligibility date. These death benefit payments are in addition to any optional payment plan benefits elected by the member.

*Surviving Child's Benefit*

An annual amount equal to \$1,800 (\$150 monthly), payable until such child attains age 18 or marries, whichever occurs first. The payment can continue to an unmarried full-time student until age 22. A dependent disabled child, regardless of age at time of member's death, is entitled to a benefit until death or recovery. A COLA of three percent of the original base is payable each July 1.

**Table 10**  
**Plan Summary**  
**(Continued)**

*Dependent Parents' Benefit*

If there is no surviving spouse or dependent children, an annual amount of \$2,400 (\$200 monthly) is payable to one dependent parent or \$1,200 (\$100 monthly) each to two dependent parents for life or until dependency ceases or remarriage. A COLA of three percent of the original base is payable each July 1.

Survivors	Monthly Pension	Causes of Termination
Widow / Widower	current amount + future COLA	* Death
Minor child	current amount + future COLA	* Death * Marriage * Attainment of age 18
Dependent disabled child	current amount + future COLA	* Death * Recovery from disability
Student	current amount + future COLA	* Death * Marriage * Attainment of age 22 * Loss of student status
One dependent parent Two dependent parents	current amount + future COLA ½ current amount (each) + future COLA	* Death * Re-marriage * Termination of dependency

Benefit Type	Base Monthly Benefit Amount	Base Monthly Benefit Amount Plus Increases Through July 1, 2013	Monthly Increases Effective July 1, 2014
Spouse *	\$550	\$776.60 **	\$16.50
Child	150	211.80 ***	4.50
One Parent	200	282.40 ****	6.00
Two Parents	100	141.20	3.00

\* Spouse's benefit is \$410 if spouse is receiving a full death benefit under the Death Fund Benefit statute. There is no annual increase on this benefit payment.

\*\* On July 1, 2000 the Statutory Surviving Spouse Benefit increased by \$12.10 per month. This increase was a percentage of the original benefit amount, equaling the percentage increase in the CPI plus unused prior increases, to a maximum of three percent. Every year after 2000, the monthly increase was \$16.50 or three percent of the base benefit.

\*\*\* On July 1, 2000 the Statutory Child Benefit increased by \$3.30 per month. This increase was a percentage of the original benefit amount, equaling the percentage increase in the CPI plus unused prior increases, to a maximum of three percent. Every year after 2000, the monthly increase was \$4.50 or three percent of base benefit.

\*\*\*\* On July 1, 2000 the Statutory Surviving One Parent Benefit increased by \$4.40 per month. This increase was a percentage of the original benefit amount, equaling the percentage increase in the CPI plus unused prior increases, to a maximum of three percent. Every year after 2000, the monthly increase was \$6.00 or three percent of base benefit.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Lump Sum Death Benefit**

**Eligibility**

Upon death of any retired or disabled member of OP&F.

**Benefit**

A lump sum payment of \$1,000 is paid to the member's surviving spouse or, if no surviving spouse, to a designated beneficiary. If there is no surviving spouse or beneficiary, then it is made to the member's estate.

**ANNUITIES**

Effective Feb. 28, 1980, for those members who are retiring on either a service pension or a disability benefit, optional annuity plans can be chosen, subject to certain limitations. The member can elect actuarially reduced benefits under a joint and survivor annuity, life annuity certain and continuous, or multiple beneficiary annuity plan. The optional annuity plans allow the member's beneficiary(ies) to receive a lifetime payment upon their death.

**Annuity Types**

**Single Life Annuity**

For unmarried members, this is the standard annuity plan. Married members may elect this plan only if the spouse consents to the selection in writing. This plan pays the maximum retirement allowance that the member is entitled to receive and, upon the member's death, none of the pension or benefit is continued to any beneficiary.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Joint and Survivor Annuity (JSA)**

Under this plan, a member designates that, upon his or her death, a certain percentage of the member's actuarially reduced benefit is continued to a surviving designated beneficiary for life.

Any percentage between one percent and 100 percent of the member's reduced pension may be continued to the surviving designated beneficiary but the percent continued may be limited based on the beneficiary's age. If a member is married at the time benefits are elected, the standard plan is a 50 percent JSA continuing one-half of the member's reduced monthly benefit to his or her surviving spouse. If the member wants to select a plan which provides for the continuation of benefits for someone other than the spouse or less than 50 percent JSA for the spouse, the spouse must consent in writing to this choice. This plan automatically terminates upon death of the beneficiary, to be effective the month following OP&F's receipt of notice of death, or it may be cancelled upon divorce with the consent of the member's spouse or a specific court order, at which point the annuity reverts to the single life annuity to the member. Elected option may be canceled within one year after benefits commence, with the consent of the beneficiary.

**Multiple Beneficiary Annuity**

Under the multiple beneficiary annuity plan, a member may designate up to four beneficiaries at the time of retirement so that, upon death, a certain percentage of reduced monthly allowance will be continued to the member's surviving beneficiaries for their lives. If the member is married at the time of retirement, the spouse must consent in writing for an annuity selection that provides for less than 50 percent JSA payable to the spouse.

**Life Annuity Certain and Continuous (LACC)**

This plan provides a lifetime allowance to the member and will only be paid to a designated beneficiary if the member dies and the period elected by the member has not expired. The minimum guarantee period is five years and the maximum is 20 years. 100 percent of the member's reduced pension continues to the beneficiary for the guarantee period selected. Elected option may be canceled within one-year after benefits commence, with the consent of the beneficiary. If the member is married at the time of retirement, the spouse must consent in writing for an annuity selection that provides for less than a 50 percent JSA payable to the spouse. minimum guarantee is five years and the maximum is 20 years. 100 percent of the member's reduced pension continues to the beneficiary for the guarantee period selected. Elected option may be canceled within one-year after benefits commence, with the consent of the beneficiary.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Group Health Insurance and Medicare**

Commencing Jan. 1, 1974, the Board of Trustees may contract for group health insurance on the basis of part or all of the cost of the premium for the coverage to be paid by OP&F. Medical and prescription drug coverage sponsored by OP&F are not rights vested and are subject to change at any time upon action of the Board of Trustees.

Effective Jan. 1, 1977, OP&F is mandated to pay the premium for supplemental Medicare (Part B) up to the statutory maximum provided the benefit recipient is not eligible for reimbursement from any other sources. By law, OP&F is required to pay monthly to each recipient of service benefits, disability benefits and survivor benefits not less than \$96.40, with the exception that OP&F cannot pay an amount that exceeds the amount paid by the recipient for the coverage. Once OP&F obtains the proper documentation from the service retiree, disability retiree or surviving beneficiary of their enrollment in the Medicare program, Medicare (Part B) premium payments begin. Note: This benefit is not included in the principal valuation results, but is included in the retiree health care valuation results.

Effective July 1992, retirees and survivors make monthly medical benefit contributions, which are credited to the Health Care Stabilization Fund. These contributions are reviewed on an annual basis to determine adequacy with the rising cost of health care. In 2004, a new contribution strategy was implemented. Retirees and survivors now pay a percentage of the full cost of the benefit. The percentage ranges from 25 percent to 100 percent for themselves and dependents based on the year of retirement.

**Tiered Retirement Plan – COLA or Terminal Pay (Non-COLA)**

Members retiring on or after July 24, 1986, who had 15 or more years of service as of Jan. 1, 1989, are allowed to select between two different pension calculation plans. Under the terminal pay method, a pension is calculated using terminal payments such as accrued sick leave and vacation compensation to increase the average annual salary, but subject to certain limitations and these members do not receive cost-of-living adjustments. Under the COLA method, no terminal payments are added, but the pension is subject to annual increases once the member attains the age of 55 and has been receiving a pension benefit for at least one year. The COLA method is the automatic calculation method for an active member with fewer than 15 years of service as of Jan. 1, 1989.

OP&F members who have 15 or more years of service as of July 1, 2013 and who are not receiving a benefit from OP&F, and members who are receiving a pension that became effective before July 1, 2013, will receive a COLA once they have received pension benefits for at least one year and have attained the age of 55. The COLA amount will be equal to three percent of the member's base pension benefit.

OP&F members who have less than 15 years of service as of July 1, 2013 will receive a COLA once they have received a pension for at least one year and have attained the age of 55. The COLA amount will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of three percent or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

**Table 10**  
**Plan Summary**  
**(Continued)**

**Post-Retirement Cost-of-Living Allowance (COLA)**

Members who retired prior to July 24, 1986 or their surviving beneficiaries under optional plans are entitled to cost-of-living increases. The annual increase is paid on July 1<sup>st</sup> of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

**Re-employed Retiree's Defined Contribution Plan Benefit**

Effective June 30, 1991, every person who is retired under an Ohio public pension plan and who is re-employed in an OP&F covered position must contribute to OP&F at the same rate as other police officers or firefighters. The employer pays the normal rate as well. If the re-employed member terminates employment before age 60, Ohio law allows the member to receive a lump sum payment of post-retirement employee contributions made during the period of re-employment, plus interest. If the member waits until age 60 to receive this benefit, he or she can choose to receive either a lump sum payment in an amount equal to twice his or her contributions, plus interest, or a lifetime annuity paid monthly. If, after calculation, the member's lifetime monthly annuity is less than \$25, the member may only select the lump sum payment option. Spousal consent may be required before payment can occur.

## Glossary of Terms

Note that the first definitions given are the “official” definitions of the term. For some terms there is a second definition, in italics.

**Actuarial Accrued Liability (AAL).** The portion of the Present Value of Projected Benefits (PVFB) allocated to past service. Also difference between (i) the actuarial present value of future benefits, and (ii) the present value of future normal cost. Sometimes referred to as “accrued liability” or “past service liability.” *The amount of money that should be in the Fund. The funding target.*

**Actuarial Assumptions.** Estimates of future plan experience with respect to rates of mortality, disability, retirement, investment income and salary increases. Demographic (“people”) assumptions (rates of mortality, separation, and retirement) are generally based on past experience, often modified for projected changes in conditions. Economic (“money”) assumptions (salary increases and investment income) consist of an underlying rate appropriate in an inflation-free environment plus a provision for a long-term average rate of inflation. *Estimates of future events used to project what we know now- current member data, assets, and benefit provisions – into an estimate of future benefits.*

**Actuarial Cost Method.** A mathematical budgeting procedure for allocating the dollar amount of the Present Value of Projected Benefits (PVFB) between the normal costs to be paid in the future and the actuarial accrued liability. Sometimes referred to as the “actuarial funding method.”

**Actuarial Methods.** The collective term for the Actuarial Cost Method, the Amortization Payment for UAAL Method, and the Asset Valuation Method used to develop the contribution requirements for the Retirement System. *The Funding Policy.*

**Actuarial Equivalent.** Benefits whose actuarial present values are equal.

**Actuarial Present Value.** The amount of funds presently required to provide a payment or series of payments in the future. It is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.

**Actuarial Value of Assets (AVA).** The value of assets used to determine the contribution requirement and funded ratio. The AVA can be thought of as the average value of assets over a period of years. This smoothed value of assets is used to limit contribution volatility. Also known as the funding value of assets. *Smoothed value of assets.*

## Glossary of Terms (Continued)

**Amortization Payment for UAAL.** Payment of the unfunded actuarial accrued liability by means of periodic contributions of interest and principal, as opposed to a lump sum payment. The components of the amortization payment for UAAL includes:

- Amortization Period Length – Generally amortization periods up to 30 years are allowed, although more recent white papers regarding public sector actuarial practice favor reducing the period to 15 to 20 years. Similar to a mortgage, the shorter the amortization period, the higher the payment and the faster the UAAL is paid off.
- Amortization payment increases – Future payments can be level dollar, like a mortgage, or as a level percent of pay. Most PERS amortize UAAL as a level percent of pay which when combined with the employer normal cost that is developed as a level percent of pay can result in contributions that are easier to budget.
- Amortization schedule can be closed or open. A closed amortization schedule is similar to a mortgage – at the end of the amortization period the UAAL is designed to be paid off. An open amortization period is similar to refinancing the UAAL year after year.
- Amortization schedule UAAL can be amortized over a single amortization period, or it can be amortized over a schedule, also known as layered amortization.

*The amortization payment for UAAL can be thought of as the UAAL mortgage payment.*

**Asset Valuation Method.** The components of how the actuarial value of assets is to be developed. Typical components are the averaging period and the corridor. The averaging period tends to be 3 to 5 years but can be longer. The corridor limits the actuarial value of assets to within a percent, say 20%, of the actual market value. Corridors are more common with longer averaging periods; white papers on the subject suggest that no corridor is needed for averaging periods of five years or less because the period is short enough to recognize asset gains and losses over a sufficiently small period and because corridors provide for excessive contribution volatility.

**Experience Gain Loss.** A measure of the difference between actual experience and experience anticipated by a set of actuarial assumptions during the period between two actuarial valuation dates, in accordance with the actuarial cost method being used. *The experience Gain (Loss) represents how much the actuary missed the mark in a given year.*

**Fiduciary Net Position (FNP).** Used for GASB 67, it represents the assets, measured at fair value, held in trust to provide benefits.

**Funded Ratio.** The percent of the actuarial accrued liabilities covered by the actuarial value of assets. Also known as the funded status. *The ratio of how much money you actually have in the fund to the amount you should have in the fund.*

**Net Pension Liability (NPL).** Used for GASB 67, it is the difference between the total pension liability (TPL) and fiduciary net position (FNP). It is similar to the UAAL. It represents the liability of employers and nonemployer contributing entities to plan members for benefits provided through a defined benefit pension plan.

## Glossary of Terms (Continued)

**Normal Cost.** The annual cost assigned, under the actuarial funding method, to current and subsequent plan years. Sometimes referred to as “current service cost.” An amortization payment toward the unfunded actuarial accrued liability is paid in addition to the normal cost to arrive at the total contribution in a given year. *The cost of benefits accruing during the year.*

**PERS.** A generic term given to a Public Employees Retirement System

**Present Value of Future Normal Cost (PVFNC).** The portion of the Present Value of Future Benefits (PVFB) allocated to future service. *The value in today’s dollars of the amount of contribution to be made in the future for benefits accruing for members in the Retirement System as of the valuation date. Note that in practice, this number is rarely discussed.*

**Present Value of Future Benefits (PVFB).** The projected future benefit payments of the plan are discounted into today’s dollars using an assumed rate of investment return assumption to determine the Present Value of Future Benefits (PVFB) of the Retirement System. The PVFB is the discounted value of the projected benefits promised to all members as of a valuation date, including future pay and service for members which has not yet been earned. *If the Retirement System held assets equal to the PVFB and all the assumptions were realized, there would be sufficient funds to pay off all the benefits to be paid in the future for members in the Retirement System as of the valuation date.*

**Reserve Account.** An account used to indicate that funds have been set aside for a specific purpose and is not generally available for other uses.

**Service Cost.** Used for GASB 67, it is the annual cost assigned, using the cost method (entry age normal) and assumptions under GASB 67, to current and subsequent plan years. It is similar to normal cost.

**Total Pension Liability (TPL).** Used for GASB 67, it is the portion of the Present Value of Future Benefits (PVFB) allocated to past service using the cost method (entry age normal) and assumptions under GASB 67. It is similar to the actuarial accrued liability.

**Unfunded Actuarial Accrued Liability (UAAL).** The difference between the actuarial accrued liability (AAL) and actuarial value of assets (AVA). The UAAL is sometimes referred to as “unfunded accrued liability.” *Funding shortfall, pension debt or prefunded amount if negative.*

**Valuation Date.** The date that the actuarial valuation calculations are performed as of. *Also known as the “snapshot date”.*
