The Board of Trustees Oklahoma City Employee Retirement System Oklahoma City, Oklahoma 73102

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the Oklahoma City Employee Retirement System ("OCERS") for fiscal year ended June 30, 2007. During the past years, the OCERS has seen significant advances and celebrated numerous successes and will continue to meet the challenges of tomorrow.

#### FINANCIAL INFORMATION

The OCERS' management is responsible for both the accuracy of the data and the completeness of the presentation of the financial statements, including all notes and disclosures. To the best of my knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position of the OCERS. The OCERS' management is also responsible for establishing and maintaining an internal control structure designed to ensure that assets are protected from loss, theft, or misuse and to ensure that adequate accounting information is generated in order to prepare financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. Sufficient internal accounting controls exist to provide reasonable assurance regarding safekeeping of assets and fair presentation of the financial statements and supporting schedules.

Grant Thornton LLP, a firm of independent certified public accountants has audited the OCERS' financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the OCERS for the fiscal year ended June 30, 2007, are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the statements, assessing the accounting principles used, and evaluating the overall financial statement presentation. The independent certified public accountants concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the OCERS' financial statements for the fiscal year ended June 30, 2007, are fairly presented in conformity with U.S. GAAP. The Report of Independent Certified Public Accountants is presented as the first component of the Financial Section of this report.

U.S. GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The OCERS MD&A can be found immediately following the Report of Independent Certified Public Accountants.

#### PROFILE OF THE OCERS

The Oklahoma City Employee Retirement System was created under the authority granted by Chapter 11 of the Oklahoma State Statutes on January 21, 1958, to provide pension and survivor benefits to all full-time civilian employees of The City of Oklahoma City. The benefit provisions of the OCERS are established by City Ordinance. The OCERS provides normal service retirement and early service retirement benefits for members who attain certain age and service requirements. Coverage for employment-connected (duty) disability benefits is immediate upon entry into the OCERS; while for non-duty-related injuries or illnesses, disability benefits are provided after attainment of fifteen years of service. Members are vested after five years of service and are eligible for benefits at their early or normal service retirement date. For additional information on benefit provisions, see the Summary of Benefit Provisions Evaluated or Considered in the Actuarial Section of the CAFR.

#### **FUNDING**

A pension plan is said to be "well-funded" when it has enough money in reserve to meet all expected future obligations to its members. The OCERS funding objective is to meet long-term benefit promises through contributions that remain approximately level as a percent of member payroll. The greater the level of funding, the larger the ratio of assets accumulated to fund the actuarial accrued liabilities. Also, a better level of funding gives the members a higher degree of assurance that their pension benefits are secure. As of December 31, 2006, the OCERS had an actuarial asset value of \$476,913,000 and an actuarial accrued liability of \$457,547,000, resulting in funding in excess of the actuarial accrued liability of \$19,366,000.

The ratio of actuarial assets to actuarial accrued liabilities is 104%. The OCERS is considered "well-funded", and is currently funded at a better than 100% level. The City's dedication to provide a financially sound plan for its members is illustrated in the "Solvency Test-Schedule of Funding Progress" found in the Actuarial Section of the CAFR. This illustration presents the accrued liabilities calculated according to the plan funding method and the historical progress made toward the funding of those liabilities. The "funded ratio" presents a positive indication of the financial strength of the OCERS.

#### FACTORS AFFECTING FINANCIAL CONDITION

As provided in the plan provisions, Section 40-95 of the Oklahoma City Municipal Code, the Board of Trustees is authorized to invest the plan assets and to take appropriate action regarding the investment, management, and custodianship of the plan assets. The investment responsibilities of the Board of Trustees include establishing reasonable investment objectives, developing investment policy guidelines, selecting investment managers, and evaluating performance results to assure adherence to guidelines and the achievement of objectives.

Primarily, an investment authority known as the "prudent person rule" governs the investments of the OCERS. The prudent person rule establishes a standard for all fiduciaries, which includes anyone who has authority with respect to the fund. The prudent person rule states that fiduciaries shall discharge their duties solely in the interest of the fund participants and beneficiaries and with the degree of diligence, care, and skill which prudent men and women would ordinarily exercise under similar circumstances in a like position. The Board of Trustees recognizes that the objective of a sound and prudent policy is to produce investment results, which will preserve the plan's assets, as well as maximize earnings consistent with long-term needs. Furthermore, through diversification of plan assets over several investment classifications, the Board of Trustees recognizes the need to maintain a balanced investment approach to not only maximize investment results but also to reduce risk. The Board of Trustees along with the investment advisor is involved in a thorough review of each investment manager and asset type to assure they are fulfilling their role in achieving total portfolio performance. It is important that each investment manager maintain their assigned investment style so the OCERS total portfolio is less likely to experience erratic market fluctuations. For fiscal year 2007, investments provided a 15.4 percent rate of return. The OCERS earned an annualized rate of return over the past three years of 10.6 percent and 10.6 percent over the last five years. As the Board of Trustees looks forward, it does not appear that financial markets, in the near future, will be replicating the long period of above average returns experienced in the prior decade. The financial markets will continue to change and the OCERS will have to be as diligent and proactive as it has been in the past. The Board of Trustees continues to monitor the cost of benefits as well as the financial stability of the OCERS to ensure all benefits promised are paid to our members.

#### AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Oklahoma City Employee Retirement System for its CAFR for the fiscal year ended June 30, 2006. Fiscal year 2006 was the seventh year that the OCERS submitted and achieved this prestigious award. In order to be awarded a Certificate of Achievement, a report must satisfy both U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. I believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and I am submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the dedicated efforts of the City's Controller and his staff. I would like to express my appreciation to all who assisted and contributed to its preparation.

On behalf of the Board of Trustees, I would like to take this opportunity to express my gratitude to the City staff, OCERS advisors, and the many people who have worked so diligently to assure the successful operation of the Oklahoma City Employee Retirement System.

Respectfully submitted,

Rena L. Hutton Administrator This Page Intentionally Left Blank

# Oklahoma City Employee Retirement System

November 30, 2007

The Members of the Oklahoma City Employee Retirement System:

The Comprehensive Annual Financial Report provides a comprehensive overview of the Oklahoma City Employee Retirement System's (OCERS) financial position, funding activity and benefit payments during the past fiscal year. This report sets forth pertinent financial, investment, actuarial, and statistical data, and is available to all plan participants and the general public.

The Board realizes that proper, prudent, and faithful stewardship is necessary for the accumulation and preservation of assets needed to pay promised retirement benefits. Over the years, the Board has taken steps resulting in a positive financial position and a high level of security for the OCERS. The OCERS invests in various asset classes to provide a balanced investment approach, diversify plan assets and reduce risk. Through careful selection of our financial advisor and investment managers, the Board has achieved quality investment performance for its assets when compared to other public retirement systems.

The OCERS also continues to improve communication with our members by providing personalized retirement statements and personal interviews with the OCERS Administrator. Opportunities for improvements to the OCERS financial strength and membership benefits are continuously identified and evaluated by the Board.

On behalf of the Board, and the OCERS' staff I would like to take this opportunity to extend a special note of thanks to our membership for their support and constructive input during the past year. Additionally, I would like to thank the many dedicated consultants who provide valuable information to the Board. And finally, I would like to recognize the support provided by the Mayor, City Council and City management in helping the OCERS provide a financially secure retirement future for its members.

Sincerely,

<u>Fax:</u> (405) 297-2216

## Financial Section

#### Report of Independent Certified Public Accountants

The Board of Trustees Oklahoma City Employee Retirement System

We have audited the accompanying statements of plan net assets and the related statements of changes in plan assets of the Oklahoma City Employee Retirement System (the "OCERS"), as of and for the years ended June 30, 2007 and 2006. These financial statements are the responsibility of the OCERS' management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the OCERS internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the OCERS net assets held in trust as of June 30, 2007 and 2006, and the respective changes in net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supporting schedule on page 26 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and in our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The management's discussion and analysis and other required supplementary information on pages 12 through 14 and page 25, respectively are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it. The investment section on pages 27 through 37, the actuarial section on pages 39 through 51, and the statistical section on pages 53 through 56 are presented for the purpose of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audits of the basic financial statements and, accordingly we express no opinion on this information.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the Oklahoma City Employee Retirement System (OCERS) annual financial report, the OCERS management provides narrative discussion and analysis of the financial activities of the OCERS for the fiscal year ended June 30, 2007. The financial performance of the OCERS is discussed and analyzed within the context of the accompanying financial statements and disclosure following this section. Introductory information is available in the transmittal letter which precedes *Management's Discussion and Analysis (MD&A)*. The OCERS is a pension trust of the City of Oklahoma City (City).

#### **Financial Summary**

- OCERS net assets reported in the financial statements are \$529,872,908 for the fiscal year reported. This compares to
  the previous year when net assets reported were \$466,060,982. These assets are held in trust to pay pension benefits to
  employees.
- The actuarial value of assets as of the December 31, 2006, actuarial report is \$476,913,000 as compared to the December 31, 2005, value of \$424,182,000.
- The fair value of OCERS investments at June 30, 2007, is \$570,067,469 compared to \$497,899,559 at June 30, 2006.
- The OCERS funded ratio of the actuarial accrued liability at December 31, 2006, was 104% compared to 97% at December 31, 2005.

#### **Overview of the Financial Statements**

*Management's Discussion and Analysis* introduces the OCERS basic financial statements. The basic financial statements include: (1) statement of plan net assets, (2) statement of changes in plan net assets, and (3) notes to the financial statements. The OCERS also includes in this report additional information to supplement the basic financial statements.

#### **Basic Financial Statements**

The OCERS annual report includes two basic financial statements. These statements provide both long-term and short-term information about the overall status of the OCERS. Financial reporting for the OCERS uses a perspective similar to that found in the private sector with its basis in full accrual accounting.

The first of these basic statements is the *Statements of Plan Net Assets*. These statements present information that includes all of the OCERS assets and liabilities, with the difference reported as *net assets* held in trust for pension benefits. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the OCERS as a whole is improving or deteriorating.

The second OCERS statements are the *Statements of Changes in Plan Net Assets* which report how the OCERS net assets changed during the fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

The OCERS is a pension trust fund of the City. Pension trust resources are not available to fund City programs but are held in trust to pay retirement benefits to members.

#### **Financial Analysis**

The OCERS net assets at fiscal year end are \$529,872,908. This is an increase of \$63,811,926 over last year's net assets at fiscal year-end of \$466,060,982. The table on the following page provides a summary of net assets.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OKLAHOMA CITY EMPLOYEE RETIREMENT SYSTEM June 30, 2007

Market conditions had a significant impact on the OCERS performance through the 2007 and 2006 fiscal years as demonstrated in the table below summarizing the OCERS changes in net assets. Changes in net assets track with the economic and market changes over these periods. With the advice of OCERS actuaries, the OCERS Board adopted the "four year smoothed market" actuarial method many years ago. Market fluctuations are "smoothed" over time distributing volatile market shifts over the longer term consistent with the funding perspective of a retirement system. The actuarial funding status reflects benefit enhancements and the "smoothing" of market fluctuations over the last four years. The four year span used for actuarial asset valuation purposes includes 2004 and 2007 when the market improved and a declining market during fiscal years 2005 and 2006. For more information, see the *Investment Section* of this report.

#### **Summary of Changes in Net Assets**

Diversification of investments is one of the primary means the OCERS uses to moderate risk. The *Investment Section* of this report provides details on the types of investments, asset allocation, and investment approach that guide the OCERS investment decisions. The *Investment Section* also contains information on some of the specific investments held and their annual return over the last one, three, and five years. Also see Note II. A.

#### **Contacting the OCERS Financial Management**

This financial report is designed to provide a general overview of the OCERS finances, comply with finance-related laws and regulations, and demonstrate commitment to public accountability. If you have questions about this report or would like to request additional information, contact the City's Finance Department, Accounting Services Division, at 100 North Walker, Suite 300, Oklahoma City, Oklahoma 73102.

End of year	\$529,872,908	\$466,060,982

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### I. A. INTRODUCTION

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the Notes are organized to provide explanations, including required disclosures, of the Oklahoma City Employee Retirement System (OCERS) financial activities for the fiscal year ended June 30, 2007 and 2006.

#### I. B. BASIS OF PRESENTATION

#### I. B. 1. RELATIONSHIP TO THE CITY OF OKLAHOMA CITY, OKLAHOMA

The OCERS was authorized and created by Oklahoma City (City) ordinance on January 21, 1958, to hold funds in trust for its members. The purpose of the OCERS is to provide retirement benefits and disability allowances for substantially all full-time, civilian employees of the City and public trusts included in the City's reporting entity. Assets are held separately from the City and may be used only for the payment of benefits to the members. OCERS administers a single employer defined benefit pension plan. See Note III. for description of the plan.

The OCERS Board of Trustees (Board) is comprised of thirteen members. The City Council appoints two City employees or department heads from the various City departments. The City Council also appoints three members who have demonstrated professional experience relating to pension fund investment and management practices. The City Clerk serves as an ex-officio member (non-voting) and acts as the Clerk and Secretary of the Board. The City Auditor and Finance Director are members by position. Three members are elected by ballot of active City employees. One member is elected by ballot of retired City employees. The City Treasurer serves as an ex-officio member (non-voting) and acts as the Treasurer of the OCERS.

Method of Reporting in the City's Comprehensive Annual Financial Report (CAFR)

The OCERS is reported in the City's CAFR as a pension trust fund included in the City's primary government.

#### I. B. 2. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Financial statements of the OCERS are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (U. S. GAAP). Revenues are recognized when earned and expenses are recorded when incurred regardless of the timing of related cash flows. All assets and liabilities (both current and non-current) are included in the statement of net assets. Plan member contributions to the OCERS are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

#### I. C. USE OF ESTIMATES

The preparation of the OCERS financial statements in conformity with accounting principles generally accepted in the United States of America (U. S. GAAP) requires the OCERS to make significant estimates and assumptions that affect the reported amounts of net assets held in trust for pension benefits at the date of the financial statements. The actuarial information included in the required supplementary information as of the benefit information date, the changes in OCERS net assets during the reporting period, and applicable disclosures of contingent assets and liabilities at the date of the financial statements could also be affected. Actual results could differ from reported estimates.

#### I. D. RISKS AND UNCERTAINTIES

Contributions to the OCERS and the actuarial information included in the required supplementary information are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions may occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effects of such changes could be material to the financial statements. In addition, due to the unpredictability of market performance, there are risks and uncertainties regarding future investment performance.

#### I. E. ASSETS AND LIABILITIES

#### I. E. 1. CASH AND INVESTMENTS

The OCERS Board has formally adopted investment policies. Provisions of the policies, the composition of OCERS investments with respective fair values, and additional cash and investment information are discussed in Note II. A.

Investments are reported at fair value which is determined using selected bases. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Market quotations are as of June 30, 2007. Managed funds not listed on an established market are reported at estimated fair value as determined by the fund manager based on quoted sales prices of the underlying securities. The carrying amount of cash deposits reasonably estimates fair value.

For the years ended June 30, 2007 and 2006, net realized gains were \$66,317,286 and \$16,483,060, respectively. Net realized gains (losses) are calculated independently of the calculation of net appreciation (depreciation) and include investments sold in the current year that had been held for more than one year for which unrealized gains and losses were reported in net appreciation (depreciation) in prior years.

Oklahoma City judgments are carried at cost which approximates market value.

#### I. E. 2. CAPITAL ASSETS AND EMPLOYEE LIABILITIES

The OCERS owns no significant capital assets and has two employees. Therefore, reporting and disclosures related to capital assets, depreciation, and employment liabilities are not material. Compensated absences balances changed from 2006 to 2007 by accruals of \$10,845 and usages of \$5,891.

#### I. E. 3. TAX STATUS

The Internal Revenue Service has determined and informed the OCERS by a letter dated September 18, 2002, that the OCERS is designed in accordance with applicable sections of the Internal Revenue Code (Code). The OCERS Board of Trustees believes that the OCERS is designed and is currently being operated in compliance with the applicable requirements of the Code.

#### II. DETAIL NOTES ON ASSETS

#### II. A. DEPOSITS AND INVESTMENTS

Deposits

**Custodial credit risk** for deposits is the risk that in the event of a bank failure, the OCERS deposits may not be returned or the OCERS will not be able to recover collateral securities in the possession of an outside party. The OCERS policy does not formally address **custodial credit risk** for deposits. However, investment policy restricts uninvested cash to minimal balances generally covered by the Federal Deposit Insurance Corporation (FDIC).

The OCERS cash is insured or collateralized with securities held by the OCERS, or its agent in the OCERS name.

#### Investments

OCERS investment policies provide for investment managers who have full discretion of assets allocated to them subject to the overall investment guidelines set out in the policy. Manager performance is reviewed by a consultant who provides reports to the governing board. Any changes in the investment management firm must be reported as they occur. Overall investment guidelines provide for diversification and allow investment in domestic and international common stocks, fixed income securities, cash equivalents, index funds, collective trust funds, mutual funds, and City judgments.

**Custodial credit risk** policy provides for the engagement of a custodian who accepts possession of securities for safekeeping; collects and disburses income; collects principal of sold, matured, or called items; and provides periodic accounting to the pension board. The OCERS holds \$369,249,781 in equity funds compared to \$387,692,327 in 2006. Of this amount \$193,090,413 and \$98,646,642, respectively are held by the investment counterparty, not in the name of the OCERS or the City. The OCERS participates in securities lending. See subsequent securities lending disclosure for policy discussion. Securities lending short-term collateral which is held by the investment counterparty, not in the name of the OCERS, is \$30,519,943 for 2007 compared to \$14,737,043 for 2006.

OCERS investments for June 30, 2007, and 2006 are as follows:

	2007

International	5	10	15
Fixed income (1)	20	35	50
Real estate	=	5	7.5

OCEDS

(1) Fixed income includes cash.

OCERS policy provides risk parameters for various portfolio compositions. These address **credit risk, concentration of credit risk, interest rate risk,** and **foreign currency risk** applicable to the portfolio. OCERS contractually delegates portfolio management to investment managers based on these prescribed portfolio structures. Domestic equity securities (common stock or equivalent) must be traded on a major U.S. exchange and may include issues convertible to common stocks. International equity securities are non-U.S. issues whose principal markets are outside the U.S. In general, cash may not exceed more than 10% of any equity manager's portfolio. Portfolio parameters are as follows:

Large cap domestic portfolio investment in equity securities may not exceed 10% of an individual equity, 10% of the market value of the individual portfolio, or 10% of any company's outstanding equity.

Small cap portfolio investment in equity securities may not exceed 5% of an individual equity, 10% of the market value of the individual portfolio, or 5% of any company's outstanding equity.

*International portfolio* investment policy designates that no single stock may exceed 5% of the market value of the individual portfolio or 5% of any company's outstanding equity. Cash assets may be invested in short-term fixed income investments denominated in U.S. dollars or other foreign currencies. Fixed income should not exceed 10% of the individual portfolio.

Core fixed income investment may include any amount of U.S. government or U.S. government agencies obligations. Corporate bonds are diversified by industry and no more than 5% of any issuer. Mortgages and mortgage-backed securities are permitted. Bonds must have a minimum quality rating of BBB with overall portfolio average credit quality of AA or higher. International bonds may not exceed 20% of an individual portfolio and no more than 5% may be invested in one country. Convertible securities or preferred stock may not exceed 5% of the portfolio. Average option adjusted duration of the portfolio shall approximate the option adjusted duration of the relevant benchmark designated as the Lehman Brothers Aggregate Bond Index.

Core plus fixed income investment is structured to include 80-100% domestic securities and 0-20% high yield, emerging market, non-dollar securities which may include below investment grade corporate bonds. Other provisions are similar to the core fixed income portfolio with exceptions for bonds limited to 2% and neither cash or structured notes, as individual investment types, may exceed 5% of the total portfolio. Derivatives may be used on a limited basis to eliminate undesirable risk. No more than 5% of the portfolio will be invested in original futures margin and option premiums. Swap contracts may be executed with counterparties whose credit rating is A2/A or better. Average option adjusted duration of the portfolio shall approximate the option adjusted duration of the relevant benchmark designated as the Lehman Brothers Aggregate Bond Index, within a band of plus or minus 20%. On an ongoing basis, cash should not exceed 5% of the portfolio.

OCERS investment policy is more restrictive than the requirements of Oklahoma law found in Title 60 of the Oklahoma Statutes and the standards of the Oklahoma Uniform Prudent Investor Act. These statutes restrict public trust investing to the Prudent Investor Rule defined by Title 60 Oklahoma Statutes to consider the purposes, terms, distribution requirements, and other circumstances of the trust and to exercise reasonable care, skill, and caution. Investment decisions must be evaluated not in isolation, but in the context of the trust portfolio as a whole and as a part of the overall investment strategy having risk and return objectives reasonably suited to the trust. For discussion of adopted deposit and investment policy and other related information, see Note I. E. 1.

#### Securities Lending Transactions

City ordinance and the Board of Trustees permit the OCERS to lend securities with a simultaneous agreement to return collateral for the same securities in the future with agent indemnification in the event of borrower default. Securities lent may consist of both equity and fixed income securities. Collateral may consist of cash or securities issued or guaranteed by the U.S. government or its agencies. The OCERS may use or invest cash collateral at its own risk. However, collateral other than cash may not be pledged, sold, or otherwise transferred without borrower default. During fiscal year 2007 and 2006, substantially all collateral consisted of cash. The OCERS' securities custodial bank is the agent in lending the plan's securities for cash collateral of 102

percent. At year-end, the OCERS has no **credit risk** exposure to borrowers because the amounts the OCERS owes the borrowers exceed the amounts the borrowers owe the OCERS. The contract with the lending agent requires them to indemnify the OCERS if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the OCERS for income distributions by the securities' issuers while the securities are on loan. **Custodial credit risk** for securities lending transactions is included in the previous discussion of OCERS policy.

All securities loans can be terminated on demand by either the OCERS or the borrower, although the average term of the loans is one day. The term to maturity of the securities loans is matched with the term to maturity of the investment of the cash collateral by investing in money market, overnight repurchase agreements, and master notes with overnight put provisions. The contract with the agent requires that the difference between the average weighted maturity of loan transactions and the average weighted maturity of permitted investments shall not exceed three days. Such matching existed at year-end. Net income produced from securities lending activities described above for fiscal year 2007 and 2006 was \$88,086 and \$48,622, respectively. The OCERS contractually delegates securities lending management. The market value of securities on loan as of June 30, 2007, was \$29,892,889, comprised of: \$1,809,407 of corporate obligations, \$20,496,250 of common stock, and \$7,587,232 of U. S. government securities. The market value of securities on loan as of June 30, 2006, was \$14,737,043 comprised of: \$421,710 of corporate obligations, \$7,053,033 of common stock, and \$7,262,300 of U. S. government securities.

The OCERS also receives securities lending income as a participant in one of the managed (mutual) funds it holds as an investment. Within the fund, the OCERS does not own or hold specific identifiable securities that may be loaned or any corresponding collateral received as the result of transactions. The OCERS is not a direct party to the securities lending agreement. Risks, loaned securities, collateral, or other securities lending terms cannot be specifically assigned to the OCERS as a participant in the managed fund. Selection of and participation in the managed fund inclusive of securities lending activity was approved by the OCERS Board of Trustees. OCERS income received from securities lending activities of the fund was \$25,247 and \$29,395 for fiscal years 2007 and 2006, respectively.

#### **Derivatives**

The OCERS is permitted to own derivative investments. However, OCERS investment policy restricts derivative investing with investment policy guidelines. Derivative investments comprise less than .5 percent of the OCERS portfolio.

#### II. B. CONTRIBUTION RECEIVABLES

There are no receivables older than ninety days. Receivables are due from City funds and related public trusts.

#### III. PLAN DESCRIPTION AND BENEFIT PROVISIONS

The OCERS is the administrator of a single employer defined benefit local government retirement plan for the City of Oklahoma City. See Note I. B. 1. Plan amendments and benefit provisions are established and amended by City Council action. Unless otherwise indicated, the information in this Note is provided as of the latest actuarial valuation, December 31, 2006. Actuarial valuations are performed annually.

Membership in the OCERS is as follows:

	<u>December 31, 2006</u>	<u>December 31, 2005</u>
Active employees - nonvested	628	607
Active employees - vested	1,725	1,705
Retirees and beneficiaries currently		
receiving benefits	1,113	1,076
Terminated plan members entitled		
to but not yet receiving benefits	<u>62</u>	<u>58</u>
	$3,5\overline{28}$	<u>3,446</u>

Summary of Benefit Provisions:

The OCERS was established by City Council Ordinance in 1958 to hold funds in trust to provide pension, disability, and survivor benefits to its members. Participants vest with five years of service and are eligible for benefits as described in the following summary:

30 years credited service regardless of age, or age 60 with 10 years (pre March 1967 hires), or

25 years credited service regardless of age, or age 65 with 5 years (post March 1967 hires), or

Age 55 with 5 years on a reduced basis, or

5 years service with benefits to begin at age 65 (60 with 10 years if pre March 1967 hire)

Benefit provisions include both duty and non-duty disability retirement and death benefits. Average Final Compensation (AFC) determines the retirement benefit and is calculated as the highest 36 months of earned employee compensation (excluding compensation for unused vacation and sick leave and amounts elected to be deferred under Section 125 of the Internal Revenue Code) during the last 60 months of service. Generally, the normal retirement benefit is 2% of AFC for each full year of service, plus 1/12 of 2% for each whole month of a partial year of service to a maximum of 100% of AFC. There are modifications to the normal retirement benefit for early and deferred retirement, duty and non-duty disability, and death benefits.

#### Post-Retirement Adjustments

Pensions may be adjusted annually for changes in the Consumer Price Index. The maximum adjustment is 4% compounded annually.

#### IV. CONTRIBUTION REQUIREMENTS, FUNDING POLICIES, AND RESERVES

Contribution requirements are actuarially determined and established by City Council ordinance. Beginning January 1, 2007, the employer contribution rate changed from 9.49% to 7.94%. The employee contributes 6% of covered payroll. Administrative costs are funded with investment earnings.

There are no assets legally reserved for purposes other than the payment of plan member benefits. The OCERS held no individual investments (other than U.S. government and U.S. government guaranteed obligations) whose market value exceeds five percent or more of net assets available for benefits. There are no long-term contracts for contributions.

#### Annual Required Contributions

Actuarial assumptions and other information used to determine the Annual Required Contributions (ARC) are located in the Required Supplementary Information and Supporting Schedules section of this report.

#### Changes In Actuarial Assumptions

The OCERS contracted with actuaries for a Review of System Experience (Report). The Report was dated February 27, 2006. Actuarial assumptions were changed for the December 31, 2005 actuarial valuation for the OCERS based on the Report. Actuarial assumptions changed include: (a) rates of retirement were reduced; (b) the 1994 group annuity mortality table replaced the 1971 group annuity mortality table which increased life expectancy; (c) wage inflation changed from 5.0% to 4.5% annually; (d) price inflation changed from 4.5% to 4.0% annually; (e) actuarial valuation of assets changed from recognizing interest and dividends immediately to spreading differences over a four year period consistent with the treatment of all other investment income (i.e. realized or unrealized appreciation and depreciation); (f) the amortization period changed from 40 years to 30 years. If applied to the 2006 fiscal year, the City ARC would have been reduced by the adopted assumptions from 9.49% to 7.07% of covered payroll. For the December 31, 2006 actuarial valuation dated May 10, 2007, the amortization period changed from 30 years, open to 29 years, closed.

#### V. RELATED PARTY TRANSACTIONS

As of June 30, 2007 and 2006, the OCERS held judgments in the amounts of \$5,939,363 and \$1,893,652, respectively. The judgments earn 7.25 - 9.25 percent interest rates. State Statutes permit the OCERS to purchase judgments rendered against the City throughout the year. In November of each year, the City (through the property tax levy process) pays the OCERS for the principal amount and earned interest for each purchased judgment.

The OCERS reimburses the City for the cost of providing financial and other services. Amounts charged are expensed during the period incurred. For fiscal years ending June 30, 2007 and 2006, the OCERS reported charges for City services of \$160,304 and \$125,767, respectively.

The City also reimburses the OCERS for the cost of providing services. OCERS staff provided administrative services for the City's deferred compensation and defined contribution plans. However, responsibilities are contractually limited and the OCERS does not hold or administer these plan assets in a trustee capacity. Revenue for services is reported during the period earned. For fiscal years ending June 30, 2007 and 2006, the OCERS reported income for services of \$31,524 and \$29,958, respectively.

Oklahoma City Employees Retirement System Oklahoma City, Oklahoma

The investment performance returns as shown in the five year investment performance review are all calculated using information derived from monthly statements provided by the Fund's custodial institution. Monthly returns are calculated using a time-weighted rate of return methodology based upon beginning and end of month market values and cash flows. Monthly returns are linked to provide compounded, annual, and annualized rates of return for periods of one, three, five years and beyond when available. The returns as shown in this report are gross of investment manager fees.

The investment performance of the Total Fund and its segments is compared to relevant benchmark returns and presented to the Board of Trustees on a monthly basis. For the Total Fund, the benchmark is an index which reflects the asset mix policy established by the Board of Trustees and is referred to as the Policy Portfolio. Comparisons to the Policy Portfolio, the median total fund universe, and the median return of a universe of total funds with similar asset allocation are presented to the Board of Trustees on a quarterly basis.

All of the above comparisons are included in the Statement of Investment Policy, Objectives, and Guidelines, and are also reported to the Board of Trustees on a quarterly basis. Investment objectives are spelled out for the Total Fund and each of the segments for one year time periods and longer (3-5 years), and include protecting the fund corpus, both nominally and in terms of inflation, achieving a return in excess of the risk free rate of return (90 day U.S. T-bills), achieving a return in excess the actuarial required return, and a return in excess of the median return of a universe of funds with similar asset mix, and achieving a return in excess of that of an unmanaged index return (constructed to reflect the asset mix of the Fund's assets). In addition, investment managers are monitored for adherence to style, both on a returns-based regression analysis as well as a holdings-based characteristic analysis versus the appropriate benchmarks specified in the Statement of Investment Policy, Objectives, and Guidelines. Current asset allocation ranges, and targets within those ranges, are measured against target ranges established in the Statement of Investment Policy, Objectives, and Guidelines on a monthly basis. The status of each is also presented in a monthly investment performance review submitted to the Board of Trustees.

The risk profile of the Total Fund and its segments is also measured quarterly for one, three, five years and beyond when available, and includes the usual MPT statistics: alpha, beta, R<sup>2</sup>, and standard deviation. To further reduce risk, Fund assets are diversified by asset class, by security, by investment manager, and by investment manager style. The fund has a target allocation of 60% in equity, 35% fixed income, and 5% real estate.

Respectfully submitted,

Jason C. Pulos, CFA

Director

#### **INVESTMENT POLICY SUMMARY (STATEMENT)**

#### Purpose and Objectives

The primary objective of the Oklahoma City Employee Retirement System (Plan) is to provide eligible employees with retirement benefits. Assets will be invested in a diversified portfolio to achieve attractive real rates of return. Following prudent standards for preservation of capital, the goal is to achieve the highest possible rate of return consistent with the System's tolerance for risk as determined by the Board of Trustees in its role as fiduciary.

#### Parties Associated with the Plan

#### Board of Trustees (Board)

- 1. Holds ultimate responsibility for the Plan and the appropriateness of its investment policy and its execution.
- 2. Retains consultants, investment managers and other advisors to implement and execute investment policy as it relates to the Plan.
- 3. Reviews adequacy or need for change of this Statement.
- 4. Meets with investment managers and reviews quarterly reports concerning Plan asset management.
- 5. Administers and interprets the Plan.
- 6. Engages a custodian.
- 7. Defines investment policy, objectives and guidelines for the plan including risk tolerance.
- 8. Responsible for changes in funding of investment management.

#### **Investment Managers**

- 1. Will have full discretion in the management of assets allocated to the investment managers, subject to the overall investment guidelines set by the Board.
- 2. Serve as fiduciaries responsible for specific securities decision.
- 3. Will abide by duties, responsibilities and guidelines detailed in any specific investment manager agreement.

#### Custodian

- 1. Accepts possession of securities for safekeeping; collects and disburses income, collects principal of sold, matured or called items; provides periodic accounting statements; and processes and maintains securities lending program.
- 2. Meets as required with the Board and provides reports relative to the status of the Plan.
- The custodian shall, in a timely fashion, forward and transmit to the investment manager all proxies related to equity securities held in an account.
- 4. Will abide by duties, responsibilities and guidelines detailed in any specific custodial agreement.

#### **Investment Consultant**

- 1. Assists Board in developing investment policy guidelines, including asset class choices, asset allocation targets and risk diversification.
- 2. Provides Board with objective information on a broad spectrum of investment management specialists and helps construct a portfolio management team of superior investment managers.
- 3. Monitors the performance of the investment managers and provides regular quarterly reports to the Board, which will aid them in carrying out the intent of this Statement.
- 4. Reports conclusions and recommendations to the Board as required.
- 5. Evaluates and makes recommendations, as needed, on portfolio management.
- 6. Evaluates and makes recommendations, as needed, on other areas of investment, such as real estate, foreign securities or venture capital.
- 7. Will abide by duties, responsibilities and guidelines detailed in any specific investment consulting agreement.

## Investment Objectives and Guidelines Policies

- 1. To structure the Plan's portfolio for maximum investment style diversification and to achieve expected total return investment results, the Board:
  - a) May retain multiple equity portfolio managers who will be granted full investment discretion. The total return concept as it applies to this portion of the Plan means dividend income plus realized and unrealized capital appreciation. Complementary multiple managers across various market capitalizations and styles will be used in structuring the equity asset mix.
  - b) May retain separate fixed income portfolio managers who will be granted full investment discretion. Fixed income investments will constitute a portion of the Plan's assets to primarily reduce the volatility of the total portfolio, in addition to providing current income. The total return concept as it applies to this portion of the Plan means interest income plus realized and unrealized capital appreciation.
  - c) May invest in judgements purchased by the City Treasurer for the benefit of the Plan. The interest rate is determined at the annual rate of the average U.S. Treasury bill rate of the preceding calendar year as certified to by the Administrator Director of the Courts of the State Treasurer on the first business day of January, plus four (4) percentage points but not to exceed ten percent (10%).
- 2. Investment management will be delegated to external professional organizations. The managers will operate within a set of guidelines, objectives and constraints.
- 3. The Board will follow the policy that, except for established guidelines and unusual circumstances, no restrictions will be placed on the selection of individual investments by the Plan's investment managers.
- 4. The Plan's managers shall vote proxies. Each manager shall vote the individual proxys in the manner which they feel will benefit the Oklahoma Employees Retirement System the most. The Board reserves the right to instruct the managers on how to vote individual proxies. The manager will keep a record of proxy voting and, upon request, will make these records available to the Board. If an investment manager needs policy clarification, the Plan's Investment Committee should be considered as the source for such clarification.
- 5. The Board may institute a securities lending program to generate additional income above and beyond that produced through dividend, interest and capital appreciation. The Board will receive collateral, consistent with industry standards, of at least 102% of market value, initially, on equity securities and 100% on fixed income securities. Securities are priced daily and collateral adjustments (marked to market) made as required.
- 6. The Board has authorized a commission recapture program whereby certain brokers rebate 50% or more of their commissions back to the Plan. The recapture brokers should provide monthly transaction reports to the Board or its representative for review.
- 7. Trustees, officers, employees, investment managers and consultants involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees, investment officials and consultants shall disclose to the Chairperson of the Board any direct financial interests in financial institutions that conduct business with the Plan, and they shall further disclose any personal financial investment positions that could be related to the performance of the Plan. Such disclosure shall be made to the Board within 90 days of any such position being taken. Employees, officers, trustees and consultants shall subordinate their personal investment transactions to those of the Plan, particularly with regard to the timing of purchases and sale.
- 8. The Plan is subject to an annual audit of its financial position and review of its internal control procedures. The Board or Chairperson may establish internal control procedures, as they or he/she deems necessary for services performed by the City and/or its employees on behalf of the Plan.

#### Portfolio Asset Allocation Guidelines

Target percentages have been determined for each asset class. Percentage allocations are intended to serve as guidelines; the Board will not be required to remain strictly at the designated allocation. Market conditions or an investment transition (asset class or manager) may require an interim investment strategy and, therefore, a temporary imbalance in asset mix.

	Min.	Target	Max
Equities			
Large Cap Domestic	20%	25%	30%
Small Cap Domestic	5%	10%	15%
International	5%	10%	15%
Long/Short Equity	5%	10%	15%
Private Equity	-%	5%	7.5%
Fixed Income			
Core Bonds	7.5%	12.5%	17.5%
Core Plus Bonds	12.5%	17.5%	22.5%
Low Volatility Hedge	-%	5.0%	10.0%
Real Assets			
Real Estate	-%	5.0%	7.5%

For purposes of this policy statement Fixed Income may include certain hedge fund strategies that exhibit similar volatility to fixed income with low correlation to long only equity and fixed income markets. The above target allocations will be achieved over an appropriate time period, based on market conditions, manager availability and portfolio needs and constraints.

The Board, in conjunction with its investment consultant, will formally review asset allocation on an annual basis for potential rebalancing to target levels as established by the investment policy. The Board will informally monitor rebalancing needs to maintain compliance with the investment policy on a monthly basis.

## Performance Objectives

The Plan's total return will be expected to provide equal or superior results, using a three-year moving average, relative to the following benchmarks:

- 1. An absolute return objective of 8.0% (or current actuarial rate).
- 2. A relative return objective of 40% S&P 500 Index, 10 % Russell 2000 index, 10% MSCI-EAFE, 40% Lehman Aggregate Bond Index,
- 3. A relative return objective of above median in consultant's total fund peer group universe.

#### Annual Review of Guidelines

In view of the rapid changes within the capital markets and investment management techniques, the Board and its investment managers should review these guidelines annually. Any recommended changes to this Statement should be communicated in writing to the Board for review. Exceptions to these guidelines may be made anytime with the written approval of the Board.

#### **Investment Objective of Money Managers**

The investment management style and process of each manager is important because of the manner in which each style blends with the structure of the total Plan; therefore, adherence to this discipline is a critical issue. The portfolio should be managed in a style consistent with the asset manager's other portfolios within the same investment mandate or product. Any significant deviation from the manager's stated style will require written approval from the Board.

## Performance Criteria for Money Managers

Manager performance shall be monitored over current and long term time periods. Performance will be reviewed over the following periods with an emphasis on 3 and 5 year periods:

- 3 months
- Year to date
- One Year
- Three Years
- Five Years

The manager's performance will be evaluated on absolute return, relative return, volatility profile, and consistency with stated style.

### Performance Expectations

Manager portfolios should outperform the designated broad based or other relevant benchmark over a market cycle. Relative performance should be above median over a market cycle when compared to relevant peer groups.

## INVESTMENT SUMMARY

<b>Equity</b>	Cost of <u>Holdings</u>	Cash <u>Equivalents</u>	Cost	Market <u>Value</u>	% of Total <u>Market Value</u>

## Actuarial Section

October 15, 2007

The Board of Trustees Oklahoma City Employees Retirement System Oklahoma City, Oklahoma 73102

### Dear Board Members:

The basic financial objective of the Oklahoma City Employees Retirement System is to establish and receive contributions which, expressed as percents of active member payroll, will remain approximately level from generation to generation of Oklahoma City citizens, and when combined with present assets and future investment return will be sufficient to meet the financial obligations of the System to present and future benefit recipients.

The financial objective is addressed within the actuarial valuation. The valuation process develops contribution rates that are sufficient to fund the plan's current cost (i.e., the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund any unfunded accrued liabilities as a level percent of active member payroll over a finite period. The most recent valuation was completed based upon population data, asset data, and plan provisions as of December 31, 2006.

The Retirement System Manager provides the actuary with data for the actuarial valuation. The actuary relies on the data after reviewing it for internal and year to year consistency. The actuary summarizes and tabulates population data in order to analyze long term trends. The Plan's external auditor also audits the actuarial data annually.

The actuary prepared the following supporting schedules for the Comprehensive Annual Financial Report:

Solvency Test-Schedule of Funding Progress
Summary of Plan Provisions Evaluated or Considered
Schedule of Retirees and Beneficiaries as of the Valuation Date
Schedule of Active and Inactive Member Valuation Data
Summary of Actuarial Assumptions and Methods
Analysis of Financial Experience – Derivation of Experience Gains (Losses) for Valuation
Years 2002-2006

Retirees and Beneficiaries Added to and Removed From Rolls Schedule of Funding Progress Schedule of Employer Contributions Notes to Required Supplementary Information Board of Trustees October 15, 2007 Page 2

Assets are valued on a market related basis that recognizes a portion of each year's investment gain or loss over a closed four year period.

Annual actuarial valuations are based upon assumptions regarding future activity in specific risk areas including the rate of investment return and payroll growth, eligibility for the various classes of benefits and longevity among retired lives. These assumptions are adopted by the Board after considering the advice of the actuary and other professionals. The assumptions and the methods comply with the requirements of GASB Statement No. 25. Each actuarial valuation takes into account all prior differences between actual and assumed experience in each risk area and adjusts the contribution rates as needed.

Investment return for 2006 was favorable this year and takes into account prior years gains and losses. The investment program is a very important factor in the long term well being of the Retirement System. In addition, it is important that the System receive the recommended level of employer contribution and generate sufficient investment income.

Respectfully submitted,

Louise M. Gates, ASA

Mark Buis, FSA

**Actuarial Cost Method**. The actuarial cost method is a procedure for allocating the actuarial present value of pension plan benefits and expenses to time periods. The method used for the valuation is known as the individual entry-age actuarial cost method and has the following characteristics.

- (i) The annual normal costs for each individual active member, payable from the date of employment to the date of retirement, are sufficient to accumulate the value of the member's pension at time of retirement.
- (ii) Each annual normal cost is a constant percentage of the member's year by year projected compensation.

The entry-age actuarial cost method allocates the actuarial present value of each member's projected benefits on a level basis over the member's compensation between the entry age of the member and the assumed exit ages.

The portion of the actuarial present value allocated to the valuation year is called the normal cost. The portion of the actuarial present value not provided for by the actuarial present value of future normal costs is called the actuarial accrued liability. Deducting System assets from the actuarial accrued liability determines the unfunded actuarial accrued liability.

**Experience Gains and Losses**. Experience gains and losses are the difference between actual experience and the experience anticipated by the actuarial assumptions during the period between two actuarial valuation dates. The recognition of gains and losses is based on the provisions of the Retirement System ordinance.

Asset Valuation Method. The funding value of assets recognizes assumed investment income fully each year. Differences between actual and assumed investment income are phased-in over a closed 4-year period. During periods when investment performance exceeds the assumed rate, funding value of assets will tend to be lower than market value. During periods when investment performance is less than the assumed rate, funding value of assets will tend to be greater than market value. The funding value of assets is unbiased with respect to market value. At any time it may be either greater or less than market value. If assumed rates are exactly realized for 4 consecutive years, it will become equal to market value.

**Actuarial Assumptions Disclosure**. The actuarial assumptions used in this valuation of the system were adopted by the Retirement Board based on recommendations made by the actuary. Except where noted, the assumptions used in this report were first used in the December 31, 1983 actuarial valuation of the plan.

**Investment Return** (net of expenses). The rate of investment return assumed in the valuation was eight percent (8.0%) per year, compounded annually.

**Wage Inflation**. The wage inflation rate assumed in this valuation was 4.5% per year. The wage inflation rate is defined to be the portion of total pay increases for an individual that are due to macro economic forces including productivity, price inflation, and labor market conditions. The wage inflation rate does not include pay changes rated to individual merit and seniority effects. The assumed real rate of return over wage inflation is 3.5% per year.

**Salary Increase Rates**. These assumptions are used to project current pays to those which will determine average final compensation.

	Annual Rate of Salary Increase			
Sample	Inflation		Merit and	
Ages	Component	Productivity	Longevity	Total
			•	
20	4.00 %	0.50 %	3.80 %	8.30 %
25	4.00	0.50	3.10	7.60
30	4.00	0.50	2.70	7.20
35	4.00	0.50	2.40	6.90
40	4.00	0.50	2.10	6.60
45	4.00	0.50	1.70	6.20
50	4.00	0.50	1.10	5.60
55	4.00	0.50	0.70	5.20
60	4.00	0.50	0.20	4.70
65	4.00	0.50	0.00	4.50

For purposes of financing the unfunded liabilities, total payroll is assumed to grow at the wage inflation rate, 4.5% per year.

**Price inflation**. The assumed rate of price inflation used in this valuation was 4.0% per year.

Mortality Table. The mortality assumption is used to measure the probabilities of member dying before retirement and the probability of each benefit payment being made. The 1994 Group Annuity mortality table set forward 1 year for women and 3 years for men. The mortality assumption is used to measure probabilities of death and probabilities of benefit payments being made. Sample values are shown below. This was first used in the 12/31/2005 valuation.

Sample	Value at Retirement of \$1 Monthly for Life			re Life ncy (Years)
Ages	Men	Women	Men	Women
50	\$130.37	\$139.27	27.95	33.94
55	121.75	132.99	23.52	29.24
60	111.34	124.83	19.39	24.70
65	99.69	115.07	15.66	20.46
70	86.85	103.62	12.34	16.54
75	72.81	89.91	9.40	12.90
80	59.14	74.92	7.00	9.71

Rates of Retirement. Rates of retirement are used to measure the probabilities of an eligible member retiring during the next year, and are summarized below. These rates were first used for the December 31, 2005 valuation.

Age of Member	Percent of Eligible Members Retiring During Next Year	Years of Service	Percent Retiring
50	12%	25	20%
51	8	26	12
52	8	27	12
53	8	28	12
54	8	29	12
55	8	30	12
56	8	31	12
57	8	32	12
58	8	33	12
59	8	34	12
60	8	35	12
61	8	36	12
62	20	37	12
63	8	38	12
64	8	39	12
65	55	40	100
66	25		
67	30		
68	40		
69	70		
70	100		

The service based retirement rates were applied to those members first eligible to retire under "25 and out" (30 and out for pre 3/67 hires). The age based retirement rates were applied to members retiring under either 65/5 (60/10 for pre 3/67 hires) or the Plan's early retirement conditions.

The probability of retiring at age 70 was assumed to be 100% regardless of service.

43

Rates of Separation from Active Membership. This assumption measures the probabilities of a member terminating employment. The rates do not apply to members who are eligible to retire.

Sample Ages	Years of Service	% of Active Members Separating within Next Year
ALL	0	30.00%
	1	20.00
	2	15.00
	3	10.00
	4	7.00
25	5 & Over	7.00
30		6.00
35		4.75
40		3.50
45	11	2.40
50	•	1.50
55		1.00
60		1.00

Rates of Disability. This assumption measures the probabilities of a member becoming disabled.

Age	% of Active Members During Next Year						
of Member_	Males	Females					
25	0.09%	0.05%					
30	0.10	0.07					
35	0.14	0.13					
40	0.21	0.19					
45	0.32	0.28					
50	0.52	0.45					
55	0.92	0.76					
60	1.53	1.10					

Disabled life mortality is measured by the 1994 Group Annuity Mortality Table set forward by 1 year for women and 3 years for men at time of disability. Rates of recovery from disability were assumed to be zero.

Active Member Group Size. The number of active members was assumed to remain constant.

**Forfeitures.** Describes the practice of terminating members electing refunds of employee contributions in lieu of Plan benefits. The assumed rate of forfeiture is described below based on hire date.

Post 3/67 hires: The rate of forfeitures is graded form 0% to 100% based on age.

Pre 4/67: The rate of forfeitures is 0%.

<sup>(1)</sup> Beginning with the 12/31/97 valuation, Employer Financed Portion is calculated in accordance with Governmental Accounting Standards Board Statement No. 25, which replaces Statement No. 5 used in prior years. This is the same calculation that is used in computing contribution rates.

<sup>(2)</sup> The funding value of assets (as of the actuarial valuation date) is the value used in the calculation of computed contribution rates pursuant to Governmental Accounting Standards Board Statement No. 25. This change was effective with the 12/31/97 valuation. Prior to 12/31/97, the cost value of assets was used in accordance with GASB Statement No. 5.

## ANALYSIS OF FINANCIAL EXPERIENCE DERIVATION OF EXPERIENCE GAIN (LOSS) FOR VALUATION YEARS 2002-2006

Actual experience will never (except by coincidence) coincide exactly with assumed experience. It is hoped that gains and losses will cancel each other over a period of years, but sizable year to year fluctuations are common. Detail on the derivation of the experience gain (loss) is shown below, along with a year by year historic comparison.

•	Amounts snown are expressed in thousands of dolla						
	2006	2005	2004	2003	2002		
·							
(1) UAAL* at start of year	\$12,722	\$33,669	\$ 16,831	\$ (2,822)	\$(28,140)		
(2) Normal cost from last valuation	12,635	12,784	12,379	11,933	12,257		
(3) Actual member and employer contributions	15,022	11,887	12,209	10,980	11,401		
(4) Interest accrual on (1), (2) and (3)	922	2,729	1,353	(188)	(2,217)		
(5) Expected UAAL before changes: $(1) + (2) - (3) + (4)$	11,257	37,295	18,354	(2,057)	(29,501)		
(6) Increase due to benefit changes	0	0	0	0	0		
(7) Increase due to revised actuarial assumptions	0	(28,175)	0	0	0		
(8) Expected UAAL after changes: $(5) + (6) + (7)$	11,257	9,120	18,354	(2,057)	(29,501)		
(9) Actual UAAL at end of year	(19,366)	12,722	33,669	16,831	(2,822)		
(10) Gain (loss) (8) - (9)	30,623	(3,602)	(15,315)	(18,888)	(26,679)		

A detailed analysis of gain or loss by source, is not available for the years shown above.

## SUMMARY OF BENEFIT PROVISIONS EVALUATED OR CONSIDERED (DECEMBER 31, 2006)

## Regular Retirement (no reduction factor for age)

*Eligibility* - Pre 3-1-67 hires: Age 60 with 10 years of service; or, any age with 30 years of service.

Post 3-1-67 hires: Age 65 with 5 years of service; or, any age with 25 years of service.

Annual Amount - Normal retirement benefit: 2% of average final compensation for all years and complete months of service, to a maximum of 100% of AFC.

Average Final Compensation (AFC) - Average earned compensation (excluding compensation for unused vacation and sick leave) during highest 36 months of service out of the last 60 consecutive months of service.

## Early Retirement (reduction factor for age)

Eligibility - Age 55 with 5 years of service.

**Annual Amount** - Same as regular retirement amount but reduced 4% for each full year or portion of a year that payments commence prior to age 65 (age 60 if hired prior to 3-1-67).

## Deferred Retirement (vested benefit)

*Eligibility* - 5 years of service. Benefit begins at age 65 (age 60 if hired prior to 3-1-67) or at age 55 on a reduced basis.

Annual Amount - Same as regular retirement based on service and average final compensation at time of termination.

## **Duty Disability Retirement**

*Eligibility* - No age or service requirements.

Annual Amount - 40% of average final compensation, reduced if degree of disability is less than total disability.

## **Non-Duty Disability Retirement**

Eligibility - Any age with 15 years of service.

Annual Amount - 2% of average final compensation for each full year of service, plus 1/12 of 2% for each full month of service due to a partial year of service to a maximum of 40% of AFC. Amount is reduced if degree of disability is less than total disability.

## SUMMARY OF BENEFIT PROVISIONS EVALUATED OR CONSIDERED (DECEMBER 31, 2006)

## **Duty Death Before Retirement**

Eligibility - No age or service requirements.

Annual Amount - 20% of average final compensation to an eligible spouse. Payments cease upon death. If there is no eligible spouse, accumulated employee contributions are paid to designated beneficiary. For members eligible under age and service conditions, the benefit is the amount the spouse would have received as a joint annuitant under normal or early retirement conditions.

## **Non-Duty Death Before Retirement**

*Eligibility* - Any age with 15 years of service.

Annual Amount - Same as duty death.

## **Post-Retirement Adjustments**

Pensions may be adjusted annually (in January) for changes in the Consumer Price Index. Maximum adjustment is 4% per year compounded. The first adjustment is made one year following retirement for those age 65 (60 for pre 3-1-67 hires) or those awarded disability allowances. For all others, the first adjustment is made no earlier than 4 years following retirement.

### Post-Retirement Death Benefit

*Eligibility* – Retiree currently collecting pension benefits from the System.

**Amount** – A one-time payment of \$5,000 payable upon the death of the retiree. This benefit is payable only upon the death of the retiree, and is payable to the designated beneficiary.

#### **Member Contributions**

6% of annual pay.

## **Employer Contributions**

7% of annual payroll effective March 2, 2001 – December 31, 2005.

The actuarially determined contribution rate (up to a maximum of 10% of pay) effective January 1, 2006.

## **Partial Lump Sum Payment Option**

Members who are eligible for Regular Retirement may elect this optional form of payment, which allows for cash at retirement of up to \$30,000. Any remaining monthly retirement benefit is reduced actuarially to reflect the payment of cash at retirement.

<sup>(1)</sup> In February 2001, the City Council approved a change in the employer's rate from 8.35% to 7.00% effective March 2001. Beginning January 1, 2006, the employer contribution rate changed from 7.0% to 9.49%. Beginning January 1, 2007, the employer contribution rate changed from 9.49% to 7.94%.

<sup>(2)</sup> The OCERS investment income was significantly affected by declines in market values in 2002 and 2001 in conjunction with the national economic recession.

# Report of Independent Certified Public Accountants on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Trustees Oklahoma City Employee Retirement System

We have audited the statement of plan net assets and the related statement of changes in plan assets of the Oklahoma City Employee Retirement System (the OCERS) as of and for the year ended June 30, 2007 and 2006, and have issued our report thereon dated November 30, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered OCERS' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the OCERS' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the OCERS' internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the OCERS' financial statements that is more than inconsequential will not be prevented or detected by the OCERS' internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the OCERS' internal control

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether OCERS' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the management and Board of Trustees and is not intended to be and should not be used by anyone other than these specified parties.
