## SEVENTEENTH ANNUAL REPORT PUBLIC SCHOOL EMPLOYES' RETIREMENT BOARD

---

Honorable George H. Earle  
Governor of Pennsylvania  
Harrisburg, Pennsylvania

Dear Sir:

In compliance with Section 4, Paragraph 9, of the Retirement Act the State School Employes' Retirement Board hereby submits its Seventeenth Annual Report. This report is for the year ending June 30, 1936.

The total number of members who had enrolled in the Retirement System up to June 30, 1936 was 165,334, of whom 24, 611 were Present Employe members and 140,723 were New Entrant members. On that date the number of resignations and withdrawals was 84,227 and deaths 4,772. The number of withdrawals who had returned to service and had been restored to membership was 847. The total active membership on June 30, 1936 was 77, 182, of whom 16,005 were Present Employe members and 61,177 were New Entrant members.

A total of 5,769 retirement allowances had been granted up to June 30, 1936, of which 4,475 were for superannuation and 1,294 were for disability; 1,302 superannuation annuitants died and 77 returned to active school service; 323 disability annuitants died and 294 returned to active school service. On June 30, 1936 there were being paid 3,773 retirement allowances, of which 3,096 were for superannuation and 677 for disability.

To fill the vacancy on the Retirement Board caused by the expiration of the term of Miss Marguerite M. Elder on January 1, 1936 an election was held at the County and District teachers' meetings during 1935. The committee appointed to count the ballots for this election reported that a total of 40,006 ballots were voted, of which Miss Marguerite M. Elder received 25, 022 votes and Miss Mabel E. Muloch received 14,117 votes; 867 votes were scattered. Miss Marguerite M. Elder was, therefore, elected to succeed herself as a member of the Retirement Board to serve for a three-year term beginning January 1, 1936.

The Accounts of the State School Employes' Retirement System consist of the Contingent Reserve Account, State Annuity Reserve Account, State Annuity Reserve Account No. 2, Employes' Annuity Savings Account and Employes' Annuity Reserve Account.

<b>Total Investments and Cash</b>	-----	<b>\$138,060,093.70</b>

## FORMER TEACHERS' FUND

Act No. 569, P. L. 1929, which was enacted on May 15, 1929, amended the Retirement Law providing that—"Any person sixty-two years of age or older who was a class-room teacher, principal, supervising principal or superintendent in the public schools of Pennsylvania for at least twenty years, and who separated from school service for any reason prior to the first day of July, one thousand nine hundred and nineteen; or any person who was a class-room teacher, principal, supervising principal or superintendent in the public schools of Pennsylvania for at least fifteen years, and who separated from school service because of physical or mental disability prior to the first day of July, one thousand nine hundred and nineteen, and who is still unable to teach because of such disability, shall receive a State compensation equal to one-eightieth of his or her final salary for each year of school service."

A special State Appropriation of \$247,000 was made for the Former Teachers' Fund to pay the compensation authorized during the 1935-37 biennium.

Up to June 1, 1936 a total of 744 applications for compensation under this amendment had been approved by the Retirement Board; 234 former teachers who had been granted compensation died, leaving 510 who were on the payroll on June 1, 1936.

Beginning with the month of September 1935 the minimum compensation paid former teachers from the Former Teachers' Fund was made \$20.00 per month.

The following schedule shows the number of applications approved, number of deaths, number of beneficiaries on the payroll and amount of payroll for each month beginning with June 1935 and ending with May 1936:

<i>Month</i> 1935	<i>Applications</i>		<i>Beneficiaries</i> <i>on Payroll</i>	<i>Amount of</i> <i>Payroll</i>
	<i>Approved</i>	<i>Deaths</i>		
June .....	3	1	466	\$ 6,048.75
July .....	7	1	472	6,128.71
August .....	0	4	468	6,045.47
September .....	6	1	473	10,191.64
October .....	9	5	477	10,194.41
November .....	11	4	484	10,842.73
December .....	9	3	490	10,437.79
1936				
January .....	13	2	501	10,781.19
February .....	3	4	500	10,661.53
March .....	14	8	506	11,132.20
April .....	9	5	510	10,914.14
May .....	3	3	510	10,774.37
				\$114,152.93

The actuarial investigation and valuation of the School Employees' Retirement System for the year ending June 30, 1935 was not completed in time to be included in the Annual Report of the School Employees' Retirement Board for the year ending June 30, 1935.

The actuary's reports for the year ending June 30, 1935 and for the year ending June 30, 1936 are included in this Seventeenth Annual Report of the School Employees' Retirement Board for the year ending June 30, 1936. It is gratifying to be able to say that the actuary's reports show that the Retirement System is making very satisfactory progress.

Respectfully submitted,

LESTER K. ADE, *Chairman*

H. H. BAISH, *Secretary*

REPORT ON THE ANNUAL VALUATION OF THE ASSETS  
AND LIABILITIES OF THE PENNSYLVANIA SCHOOL  
EMPLOYES' RETIREMENT SYSTEM  
AS OF JUNE 30, 1935

October 31, 1936

**To the Retirement Board  
Pennsylvania School Employes' Retirement System  
Harrisburg, Pennsylvania**

**Ladies and Gentlemen:**

Acting in accordance with your instructions I have prepared an actuarial valuation of the assets and liabilities of the Pennsylvania School Employes' Retirement System as of June 30, 1935.

The System appears to be in a slightly stronger position this year than it was last year, and I believe that on the evidence of the present valuation the Board has every reason to feel gratified with the progress of the system and hopeful for its satisfactory operation in the future.

Respectfully submitted,

**GEORGE B. BUCK**

*Actuary*

REPORT ON THE ANNUAL VALUATION OF THE ASSETS  
AND LIABILITIES OF THE PENNSYLVANIA SCHOOL  
EMPLOYEES' RETIREMENT SYSTEM AS OF  
JUNE 30, 1935

This report presents the results of the actuarial valuation of the assets and liabilities of the Pennsylvania School Employes' Retirement System prepared as of June 30, 1935, and gives a balance sheet showing the financial condition of the System as of that date.

SUMMARY OF BENEFIT AND CONTRIBUTION  
PROVISIONS

A summary of the main benefit provisions and of the sources of revenue of the system as used in making this valuation is presented in the following digest. Following the definitions employed in the act, the term "present employe" has been used to denote a member with credit for service rendered prior to July 18, 1917, the date of the enactment of the retirement law, while the term "new entrant" is used to denote a member without credit for service rendered prior to July 18, 1917. "Final salary" is used to mean the average annual salary for the last ten years of service immediately preceding retirement.

BENEFITS

1. SUPERANNUATION BENEFIT

(a) *Conditions for Allowance* Any member who is age 62 or over may retire upon his own request on a superannuation allowance. Retirement is compulsory at age 70.

(b) *Scale of Allowance*

(1) Total Benefit

The total benefit payable upon superannuation retirement is equal approximately to  $1/80$  of the final salary of the member multiplied by the number of years of creditable service. The exact benefit consists of two elements, an employe's annuity and a State annuity.

(2) *Employe's Annuity* The employe's annuity is equal to the amount which his accumulated deductions will provide at the time of retirement.

(3) *State Annuity* The State annuity is equal to  $1/160$  of final salary multiplied by the number of years of service credited to the member plus an ad-

ditional State annuity for present employes equal to  $1/160$  of final salary for each year of creditable service rendered prior to the establishment of the system.

## 2. **DISABILITY BENEFIT**

(a) *Conditions for Allowance* Any employe under age 62 mentally or physically incapacitated for service after 10 years of creditable service is eligible for a disability retirement allowance.

### (b) *Scale of Allowance*

#### (1) **Total Benefit**

The total benefit payable upon disability is equal to  $1/90$  of the final salary of the member multiplied by the number of his years of creditable service at disability but not less than 30% of such final salary, with the exception that a member who begins service after age 35 is not covered by the 30% minimum, but has a minimum equal to  $8/9$  of the rate of allowance to which he might have been entitled had retirement been deferred until age 62. The benefit consists of two elements, one provided by the employe and the other by the State.

(2) **Employe's Annuity** The employe's annuity is equal to the amount which his accumulated deductions will provide at the time of retirement.

(3) **State Annuity** The State provides the amount required in addition to the employe's annuity to equal the total benefit allowable.

## 3. **RETURN OF CONTRIBUTIONS**

To members who leave the service without a retirement allowance or to the estate of a member who dies in service a full return of deductions made from their pay with 4% compound interest is made. Members may elect to leave their money in the system and receive an annuity or a deferred annuity which is the actuarial equivalent of their accumulated deductions.

## CONTRIBUTIONS

### 1. BY EMPLOYEES

Employees contribute on a savings bank basis percentages of their salaries which are computed to be sufficient to produce an annuity of 1/160 of final salary for each year of service as a contributor at age 62. No employe is required to contribute at a rate exceeding 5% of his salary.

### 2. BY STATE

#### (a) *For Present Employes*

The State makes a semi-annual contribution of 1.6% of the annual payroll of all contributors to provide the benefits for present employes. (This contribution was reduced from 2.0% to 1.6% beginning July 1, 1933.)

#### (b) *For New Entrants*

The State makes a semi-annual contribution for each new entrant based on his age at entrance which is computed to be adequate to provide during the new entrant's future service a reserve from which his State annuity may be provided.

## VALUATION BALANCE SHEET

The valuation balance sheet shown on the following pages takes into account the contingent assets and liabilities of the Pennsylvania School Employes' Retirement System as well as the funds in hand and shows the financial condition of the system as of June 30, 1935. The amounts of the present assets credited to the various accounts of the system were furnished by the secretary of the system.

**REPORT ON THE ANNUAL VALUATION OF THE ASSETS  
AND LIABILITIES OF THE PENNSYLVANIA SCHOOL  
EMPLOYES' RETIREMENT SYSTEM AS OF  
JUNE 30, 1936**

August 11, 1937

To the Retirement Board,  
Pennsylvania School Employes' Retirement System,  
Harrisburg, Pennsylvania.

Ladies and Gentlemen:

Acting in accordance with your instructions I have prepared an actuarial valuation of the assets and liabilities of the Pennsylvania School Employes' Retirement System as of June 30, 1936.

I am glad to be able to report that the system is progressing very satisfactorily. No changes in the basis of operation were indicated as necessary by the present valuation.

Respectfully submitted,

**GEORGE B. BUCK**

*Actuary*

**REPORT ON THE ANNUAL VALUATION OF THE ASSETS  
AND LIABILITIES OF THE PENNSYLVANIA SCHOOL  
EMPLOYEES' RETIREMENT SYSTEM  
AS OF JUNE 30, 1936**

---

This report presents the results of an actuarial valuation of the present and prospective assets and liabilities of the Pennsylvania School Employees' Retirement System, prepared as of June 30, 1936.

**SUMMARY OF BENEFIT AND CONTRIBUTION  
PROVISIONS**

A summary of the main benefit provisions and of the sources of revenue of the system as used in making this valuation is presented in the following digest. Following the definitions employed in the act, the term "present employe" has been used to denote a member with credit for service rendered prior to July 18, 1917, the date of the enactment of the retirement law, while the term "new entrant" is used to denote a member without credit for service rendered prior to July 18, 1917. "Final salary" is used to mean the average annual salary for the last ten years of service immediately preceding retirement.

**BENEFITS**

**1. SUPERANNUATION BENEFIT**

(a) *Conditions for Allowance* Any member who is age 62 or over may retire upon his own request on a superannuation allowance. Retirement is compulsory at age 70.

(b) *Scale of Allowance*

(1) **Total Benefit**

The total benefit payable upon superannuation retirement is equal approximately to 1/80 of the final salary of the member multiplied by the number of years of creditable service. The exact benefit consists of two elements, an employe's annuity and a State annuity.

(2) **Employe's Annuity**

The employe's annuity is equal to the amount which his accumulated deductions will provide at the time of retirement.

(3) **State Annuity**

The State annuity is equal to 1/160 of final salary multiplied by the number of years of service credited to the member plus an additional State annuity for present

employees equal to  $1/160$  of final salary for each year of creditable service rendered prior to the establishment of the system.

## 2. DISABILITY BENEFIT

(a) *Conditions for Allowance* Any employe under age 62 mentally or physically incapacitated for service after 10 years of creditable service is eligible for a disability retirement allowance.

### (b) *Scale of Allowance*

#### (1) Total Benefit

The total benefit payable upon disability is equal to  $1/90$  of the final salary of the member multiplied by the number of his years of creditable service at disability but not less than 30% of such final salary, with the exception that a member who begins service after age 35 is not covered by the 30% minimum, but has a minimum equal to  $8/9$  of the rate of allowance to which he might have been entitled had retirement been deferred until age 62. The benefit consists of two elements, one provided by the employe and the other by the State.

(2) *Employee's Annuity* The employe's annuity is equal to the amount which his accumulated deductions will provide at the time of retirement.

(3) *State Annuity* The State provides the amount required in addition to the employe's annuity to equal the total benefit allowable.

3. RETURN OF CONTRIBUTIONS To any member who leaves the service without a retirement allowance or to the estate of a member who dies in service a full return of deductions made from his pay with 4% compound interest is made. A member withdrawing from service may elect to leave his money in the

system and receive an annuity or a deferred annuity which is the actuarial equivalent of his accumulated deductions.

## CONTRIBUTIONS

### 1. BY EMPLOYEES

Each employe contributes on a savings bank basis the percentage of his salary which is computed to be sufficient to produce an annuity of 1/160 of final salary for each year of service as a contributor at age 62. No employe is required to contribute at a rate exceeding 5% of his salary.

### 2. BY STATE

#### (a) *For Present Employes*

The State makes a semi-annual contribution of 1.6% of the annual payroll of all contributors to provide the benefits for present employes. (This contribution was reduced from 2.0% to 1.6% beginning July 1, 1933.)

#### (b) *For New Entrants*

The State makes a semi-annual contribution for each new entrant based on his age at entrance which is computed to be adequate to provide during the new entrant's future service a reserve from which his State annuity may be provided.

## MEMBERSHIP OF THE SYSTEM

Data regarding the membership of the system for use as a basis for the valuation were furnished by the secretary. The following tables summarize the membership of the system as of June 30, 1936 as used as the basis for the valuation. In the number of present employes shown by the table are included 367 members who entered during the year under the provisions of Act 123 of 1935 which gives teachers with service prior to July 18, 1917 until July 1, 1937 to become members and receive full service credit provided they make up the contributions that they would have made had they elected to enter prior to July 1, 1919.

## COMMENTS ON VALUATION

The valuation balance sheet brings out the following facts regarding the accounts of the system.

### 1. *Employees' Annuity Savings Account*

The Employees' Annuity Savings Account is the account to which members' contributions with interest are credited and from which contributions returned upon leaving the service without an annuity are paid. At retirement the member's accumulated deductions are used to provide an annuity. The liabilities of this account are exactly balanced by the assets since the benefits payable from the contributions of members are always equivalent to the amount of their contributions with interest. On June 30, 1936 this account is shown with assets of \$50,521,368 and liabilities of the same amount.

### 2. *Employees' Annuity Reserve Account*

When a member retires his own contributions with interest are transferred to the Employees' Annuity Reserve Account and that part of his total annuity known as the employee's annuity is payable from this account. The balance sheet shows that the Employees' Annuity Reserve Account has assets creditable to it on June 30, 1936 equal to \$3,548,416, after providing for a transfer to the account from excess interest earnings held in the State Annuity Reserve Account No. 2 which was made subsequent to the valuation date. The liabilities as of June 30, 1936 were \$3,570,132. This account therefore shows a deficit of \$21,716. This deficit is to be explained by the fact that the mortality rate among annuitants has been lower than expected during the past year. Although this indicates that the new tables have not been conservative to date, the tables have not been in use long enough to demonstrate whether they are going to prove suitable for continued use and no recommendation in regard to them can be made on the limited experience that has accumulated since their adoption.

### 3. *State Annuity Reserve Account*

When a new entrant retires the reserve on his State annuity is transferred to the State Annuity Reserve Account and his State annuity is payable from that account. The State Annuity Reserve Account has present assets of \$500,147. This amount includes an amount transferable to the account on the valuation date from the State Annuity Reserve Account No. 2. Its liabilities have a present value of \$505,873 and, therefore, exceed its assets by \$5,726. As in the case of the deficit in the Employees' Annuity Reserve Account, this deficit of \$5,726 has arisen due to the fact that the mortality rate among annuitants was lower than anticipated during the past year. No particular

significance can be given to the deficit which has arisen from this year's limited experience. Changes may be necessary later in the mortality tables last adopted by the Board if a deficit continues to appear in this account. For the time being no recommendations in this respect are made.

#### 4. *State Annuity Reserve Account No. 2*

The State Annuity Reserve Account No. 2 is the account to which the State and local districts are making their contributions to take care of teachers who had prior service credit when the system was established. Under the law as amended in 1933 the State and local districts are together making a contribution of 3.2 per cent of the payroll of all members to this account. The valuation balance sheet shows that the liabilities of this account are \$78,348,574. The assets of the account on June 30, 1936 have a value of \$55,344,895 after the transfers now due to the Employes' Annuity Reserve Account and the State Annuity Reserve Account have been deducted. Therefore to meet the liabilities, the State and local districts need to make contributions in the future having a value of \$23,003,679. This amount is slightly higher than the amount expected on the basis of last year's valuation due to the fact that during the past year the liabilities of the account were increased by the new members who were given the status of present entrants under Act 123 of the laws of 1935. Tests indicate that had the law not been amended to admit this new group the value of the State's contributions to be made to this account would have been about as expected on the basis of last year's valuation. The additional liabilities caused by the entrance of these new members will add approximately one half year to the term of payment of contributions to this account.

#### 5. *Contingent Reserve Account*

The Contingent Reserve Account is the account to which all contributions of the State and local districts on account of new entrant members are credited and from which are transferred to the State Annuity Reserve Account the reserves on the State annuities allowable to new entrant members at retirement. The present assets creditable to the Contingent Reserve Account amount to \$28,077,161. Future State contributions at the rates adopted by the Board including contributions accrued and unpaid have a value of \$33,520,100. The liabilities of the account are computed to be \$61,424,071. There is therefore a surplus in the account which is slightly larger than that shown by the valuation of June 30, 1935. The growth in the surplus from year to year indicates that the experience of new entrants as a whole is proving favorable to the system.

## COMMENTS ON OPERATION

The results of the valuation are very satisfactory. While the liabilities of the State Annuity Reserve Account No. 2 have been increased because of the amendment to the law permitting teachers to enter and receive prior service credit, the additional liabilities will be covered if the 3.2 per cent contribution is paid for about one half year longer than anticipated when it was set. The mortality experience of service annuitants was unfavorable indicating that it may be necessary to change again the mortality tables in use. However, no action would seem necessary until more experience has accumulated for testing the new tables. In 1939 a new experience investigation is due and one of the most important steps in this investigation will be the checking of the present mortality tables. The system was fortunate in being able to secure an interest return during the past year in excess of the regular rate of 4 per cent. The excess interest earnings many times exceeded the deficits which developed on account of adverse mortality.

In general, the service experience was favorable during the year and the system appears to be in a strong financial position.

## BASIS FOR VALUATION

## BASIS FOR VALUATION

The valuation was prepared on the basis of the tables last adopted by the Board. These tables were those recommended for use following the investigation of the service and mortality experience of members in 1929 and are those included in the report on the service experience prepared as of June 30, 1929.

Tabulations were prepared as a basis for this valuation showing as of June 30, 1936 the number and salaries of present employes classified by age and years of service, the number and salaries of new entrants classified by age and years of service and the number and annuities of retired members classified by age. The following tables summarize these tabulations. In addition certain tabulations were made referring to members in reserve, so that the actuary could arrive at some estimate of the liability of the system for this class of members. These tabulations are not shown in this report, as their use other than for the purpose just mentioned would probably be very limited.
