## TWENTY-THIRD ANNUAL REPORT OF THE PUBLIC SCHOOL EMPLOYEES' RETIREMENT BOARD

Honorable Arthur H. James  
Governor of the Commonwealth of Pennsylvania  
Harrisburg, Pennsylvania

Dear Sir:

In compliance with Section 4, Paragraph 9, of the Retirement Act the Public School Employes' Retirement Board hereby submits its Twenty-third Annual Report. This report is for the year ending June 30, 1942.

The total number of members who had enrolled in the Retirement System up to June 30, 1942, was 195,155, of whom 26,296 were Present Employee members and 168,859 were New Entrant members. On that date the number of resignations and withdrawals was 104,954 and deaths 7,658. The number of withdrawals who had returned to service and had been restored to membership was 939. The total active membership on June 30, 1942, was 83,482, of whom 15,518 were Present Employee members and 67,964 were New Entrant members.

A total of 9,254 retirement allowances had been granted up to June 30, 1942, of which 7,429 were for superannuation and 1,825 were for disability; 2,504 superannuation annuitants died and 94 returned to active school service; 530 disability annuitants died and 377 returned to active school service. On June 30, 1942, there were being paid 5,749 retirement allowances, of which 4,831 were for superannuation and 918 for disability.

To fill the vacancy on the Retirement Board caused by the expiration of the term of Miss Marguerite M. Elder on January 1, 1942, an election was held at the County and District Teachers' Meetings during 1941. The Committee appointed to count the ballots for this election reported that a total of 41,574 ballots were voted, of which Miss Clara A. Scott received 24,370 votes and Miss Anna R. Perry received 16,365 votes; 839 votes were scattered. Miss Clara A. Scott was, therefore, elected to succeed Miss Marguerite M. Elder as a member of the Retirement Board to serve for a three-year term beginning January 1, 1942.

The Accounts of the Public School Employes' Retirement System consist of the Contingent Reserve Account, State Annuity Reserve Account, State Annuity Reserve Account No. 2, Employes' Annuity Savings Account and Employes' Annuity Reserve Account.

SUMMARY SHOWING RECEIPTS AND DISBURSEMENTS FOR  
CONTINGENT RESERVE ACCOUNT FOR YEAR  
ENDING JUNE 30, 1942

RECEIPTS

Balance in Account June 30, 1941 .....		\$45,215,122.33
Received from School Districts .....	\$1,228,791.30	
Received from State .....	1,243,850.03	
Transferred from State Annuity Reserve Account on account of New Entrant Superannuation Annuitants Returned to Service .....	668.15	
Transferred from State Annuity Reserve Account on account of New Entrant Disability Annuitants Returned to Service .....	47,746.68	
Received from Interest .....	2,050,209.30	
Receipts for 1941-42 School Year .....		4,571,265.46
Total Receipts .....		\$49,796,887.79

DISBURSEMENTS

Transferred to State Annuity Reserve Account on account of State Annuity Reserve of New Entrant Superannuation An- nuitants .....	\$162,316.42	
Transferred to State Annuity Reserve Account on account of State Annuity Reserve of New Entrant Disability Annuitants .....	184,494.60	
Disbursements for 1941-42 School Year .....		\$346,811.02
Balance in Contingent Reserve Account on June 30, 1942 .....		\$49,439,576.77

## FORMER TEACHERS' FUND

Act No. 569, P. L. 1759, which was enacted on May 15, 1929, amended the Retirement Law providing that—"Any person sixty-two years of age or older who was a class-room teacher, principal, supervising principal or superintendent in the public schools of Pennsylvania for at least twenty years, and who separated from school service for any reason prior to the first day of July, one thousand nine hundred and nineteen; or any person who was a class-room teacher, principal, supervising principal or superintendent in the public schools of Pennsylvania for at least fifteen years, and who separated from school service because of physical or mental disability prior to the first day of July, one thousand nine hundred and nineteen, and who is still unable to teach because of such disability, shall receive a State Compensation equal to one-eightieth of his or her final salary for each year of school service.

A special State Appropriation of \$250,000 was made for the Former Teachers' Fund to pay the compensation authorized during the 1941-43 biennium.

Up to June 1, 1942, a total of 918 applications for compensation under this amendment had been approved by the Retirement Board; 479 former teachers who had been granted compensation died, leaving 439 who were on the payroll on June 1, 1942.

Beginning with the month of September, 1935, the minimum compensation paid former teachers from the Former Teachers' Fund was made \$20.00 per month.

The following schedule shows the number of applications approved, number of deaths, number of beneficiaries on the payroll and amount of payroll for each month beginning June, 1941, and ending with May, 1942:

Month	Applications Approved	Deaths	Beneficiaries on Payroll	Amount of Payroll
1941				
June -----	1	3	459	\$9,688.34
July -----	0	0	459	9,688.34
August -----	0	2	457	9,648.34
September -----	2	4	455	9,629.89
October -----	3	5	453	9,609.27
November -----	0	3	450	9,509.27
December -----	2	2	450	9,503.31
1942				
January -----	0	2	448	9,463.31
February -----	0	2	446	9,419.99
March -----	2	4	444	9,405.57
April -----	0	3	441	9,317.45
May -----	1	3	439	9,277.45
				\$114,160.53

In order to justify the support of a School Employees' Retirement System by the tax-paying public the school system as well as the school employes should be benefited. In the Pennsylvania School Employees' Retirement System the school employes and the public share about equally the cost of the retirement allowances. The method adopted by the Pennsylvania System for meeting the cost of the retirement allowances is based on the theory that the school employes and the schools share about equally the benefits of the Retirement System.

Without an adequate Retirement System School Boards as a rule hesitate to drop from active service a teacher who has rendered many years of efficient service, even though the teacher, by reason of advanced age or physical infirmities, is no longer able to render efficient service. Without a reasonable income a teacher who has passed the age of efficient service hesitates to make himself or herself an object of public or private charity by resigning from active school service.

The very nature of the work of the teacher is such that freedom, as far as possible, from financial worries is essential to a high standard of efficiency in the school-room. An adequate Retirement System will help to keep in school service trained and experienced teachers. It frequently happens that many of our best teachers have opportunities to enter other occupations at higher salaries than they receive as teachers. With the assurance of a retirement allowance in case of disability or old age a teacher with a number of years of experience will hesitate to leave school service even though a higher salary can be secured in some other occupation. The money contributed by the public to pay the public's share of the cost of the retirement allowances does as much if not more to increase the efficiency of our schools than any other similar amount of money contributed by the public for the support of the schools.

For the purpose of membership in the Retirement Association school employes are divided into two groups, Present Employes and New Entrants. All school employes who entered school service for the first time prior to July 18, 1917, are classified as Present Employes, and those who entered school service for the first time after July 18, 1917, are classified as New Entrants. Membership in the Retirement Association was optional for Present Employes and is compulsory for New Entrants. Originally Present Employes were given until July 1, 1919, to make application for membership. The amendment of June 12, 1939, extended the time for Present Employes to make application for membership to July 1, 1940. Unless the Retirement Act is again amended the Retirement Board does not have the legal right to accept an application for membership from a Present Employe. More than 99 $\frac{3}{4}$ % of Present Employes are now members of the Retirement System and, of course, 100% of New Entrants are members.

A separate account is kept with each individual contributor, and when a member retires or separates from service no part of his or her contribution to the Retirement Fund will have been used to help pay the retirement allowances of another retired member. This plan of keeping each member's contribution to the Retirement Fund intact until withdrawal or retirement guarantees the accumulation of an adequate reserve fund and insures the permanency and safety of the Retirement System.

During the year ending June 30, 1942, the interest income of the Public School Employes' Retirement Fund was the largest source of income. The contributions of the members of the Retirement System amounted to \$4,417,256.96, the payments by the State and local districts to State Annuity Reserve Account No. 2 amounted to \$4,223,164.56 and to the Contingent Reserve Account they amounted to \$2,472,641.23. The interest income for the year ending June 30, 1942, amounted to \$8,513,618.03.

If the Retirement System were operating under the cash disbursement plan instead of the actuarial reserve plan there would be no interest income and this interest income last year in the amount of \$8,513,618.03 would ultimately have to be paid by the State and local districts and school employes in addition to their other payments to the Retirement Fund.

It is fortunate that the Pennsylvania School Employes' Retirement System is operating under the actuarial reserve plan and that the required reserves are being accumulated to pay the cost of the retirement allowances as they accrue.

A complete list of the investments of the Retirement Fund is printed in each Annual Report of the Retirement Board. There have been no losses either in interest or principal, and that is certainly a remarkable record which has not been excelled by any other Retirement Fund in America.

An explanation of the various Accounts of the Retirement System should be of interest and the following explanation is, therefore, given:

#### CONTINGENT RESERVE ACCOUNT

This Account receives the payments made by the State and local districts on account of New Entrant members of the Retirement System. New Entrant members are school employes who entered school service for the first time after the enactment of the Retirement Law, and membership in the Retirement System is compulsory for all New Entrants. The rates of payment to the Contingent Reserve Account by the State and local districts have been actuarially computed, and with the interest earnings at 4% compounded annually will accumulate the reserve necessary to pay one-half the cost of the retirement allowances of New Entrant members of the Retirement System. The other half of the cost of the retirement allowances of retired New Entrant members will be paid from the contributions of the New Entrant members themselves.

Attention should be called to the fact that the rate which represents the percentage of salary which the State and local districts combined contribute to the Contingent Reserve Account on account of any individual employe is lower than the rate at which the employe contributes. It would seem that the combined State and local district rate should equal the employe's rate since the plan of the Retirement System is for the State and local districts to pay one-half the cost of the retirement allowances and the employe the other half. However, employes who die before retirement have their accumulated deductions refunded to their estates or designated beneficiaries, and employes who separate from service

before retirement withdraw their accumulated deductions from the Employees' Annuity Savings Account. The Actuary took into account the deaths and withdrawals from school service when he computed the rate at which the State and local districts should contribute to the Contingent Reserve Account. The amount which the State and local districts contribute to the Contingent Reserve Account on account of the entire number of New Entrants will accumulate a reserve equal to the reserve accumulated by the salary deductions of the New Entrants who continue in active service until they retire.

A question sometimes asked is—Since the contributions of an employe who dies or separates from service before retirement are refunded why is not the money which the State and local district contributed on account of such employe returned to the State and local district?

The combined rate at which the State and local districts contribute on account of any individual employe is on the average about one per cent lower than the rate at which the employe contributes. The combined contributions of the State and local districts on account of any individual employe, therefore, do not pay one-half of the cost of that employe's allowance at retirement. The part of the retirement allowance of a retired employe that is paid from the State and local district contributions is called the State Annuity and the part paid from the employe's own contributions is called the Employe's Annuity. The combined contribution which the State and local districts make on account of any individual employe is never sufficient to pay the full State Annuity of that employe at retirement. Part of the State Annuities of all retired employes is paid from the contributions which the State and local districts make on account of employes who die or separate from service before retirement.

If the combined rate at which the State and local districts contribute on account of each individual employe were exactly the same as the rate at which the employe contributes then the amount contributed by the State and local districts on account of each individual employe would pay the full State Annuity of that employe. In that case when an employe died or separated from service before retirement such employe's own accumulated deductions would not only be refunded but the amount contributed by the State and local districts on account of such an employe would also be refunded to the State and local districts. However, such an arrangement would only add to the bookkeeping required and the net amount contributed by the State and local districts would be the same as the total amount contributed under the present plan provided for by the Retirement Law.

#### STATE ANNUITY RESERVE ACCOUNT

Upon the retirement of a New Entrant member of the Retirement System an amount equal to the State Annuity Reserve of such New Entrant is transferred from the Contingent Reserve Account to the State Annuity Reserve Account. The State Annuity part of the retirement allowance of all retired New Entrant members is paid from the State Annuity Reserve Account.

## STATE ANNUITY RESERVE ACCOUNT No. 2

This Account receives the payments to the Retirement System made by the State and local districts on account of the service rendered by Present Employee members.

Present Employee members are employees who first entered school service prior to the enactment of the Retirement Law and for whom membership in the Retirement System was optional. More than 99 $\frac{3}{4}$ % of all school employes classified as Present Employees have filed an application for membership in the Retirement System.

At the time of the establishment of the Retirement System the actuary estimated the State and local districts' share of the cost of the service of Present Employees at about \$61,000,000.00. Had the State contributed \$30,500,000.00 and the local districts \$30,500,000.00 to State Annuity Reserve Account No. 2 at the time of the establishment of the Retirement System no further contributions to this Account by the State and local districts would have been required, as this would have assured the accumulation of sufficient reserve to pay the State Annuities of all Present Employee members who continue in service until retirement.

Instead of meeting the liability of State Annuity Reserve Account No. 2 in a large lump sum payment by the State and local districts the Retirement Law provided that this liability shall be spread over a period of thirty years by having the State and local districts pay into State Annuity Reserve Account No. 2 semi-annually in July and January of each year an amount equal to 2.8% of the total compensation paid all members of the Retirement System for service rendered during the preceding school year.

Because of the unusually large increase in the compensation of school employes following the war period the reserve in State Annuity Reserve Account No. 2 accumulated more rapidly than expected and at the 2.8% rate the required reserve would have accumulated in less time than thirty years. Upon the recommendation of the actuary the Retirement Law was amended under date of April 28, 1925, so as to reduce the semi-annual payments by the State and local districts into State Annuity Reserve Account No. 2 beginning with July, 1925, from 2.8% to 2% of the total compensation of members for the preceding school year.

Upon recommendation of the actuary the Retirement Law was again amended under date of May 4, 1933, so as to reduce the semi-annual payments by the State and local districts into State Annuity Reserve Account No. 2 beginning with July, 1933, from 2% to 1.6% of the total compensation of members for the preceding school year. The actuary calculated that at the 1.6% rate the required reserve for State Annuity Reserve Account No. 2 would be accumulated within the thirty-year period.

The Contingent Reserve Account to which the State and local districts contribute is a permanent Account, and contributions to this Account will continue permanently, whereas State Annuity Reserve Account No. 2 will eventually pass out of existence. When the accumulated reserve in State Annuity Reserve Account No. 2 equals the liability of this Account,

caused by the service of Present Employee members of the Retirement System, the State and local districts will make no further payments to this Account, and when the last Present Employee member of the Retirement System has been retired and has died the reserve in this Account, according to calculations of the actuary, will have been spent in the payment of the State Annuities of Present Employee members of the Retirement System. After that time all members of the Retirement System will be New Entrant members.

#### EMPLOYES' ANNUITY SAVINGS ACCOUNT

This Account receives the contributions of the school employees who are members of the Retirement System. An individual account is kept with each member and each account is credited with interest at 4% compounded annually. When a member dies or separates from service before retirement his or her accumulated deductions in the Employees' Annuity Savings Account are refunded to the member's estate or designated beneficiary.

When a member retires and is granted a retirement allowance his or her accumulated deductions are transferred from the Employees' Annuity Savings Account to the Employees' Annuity Reserve Account.

#### EMPLOYES' ANNUITY RESERVE ACCOUNT

Each retirement allowance consists of two parts, the Employee's Annuity and the State Annuity. The Employee's Annuity part of all retirement allowances, both of Present Employees and New Entrants, is paid from and charged on the books against the Employees' Annuity Reserve Account. The State Annuity part of the retirement allowance of all Present Employee members is paid from and charged on the books against State Annuity Reserve Account No. 2. The State Annuity part of the retirement allowance of all New Entrant members is paid from and charged on the books against the State Annuity Reserve Account.

#### ACTUARIAL VALUATIONS

The Retirement Law provides that there shall be not only an annual actuarial valuation but that there shall also be a special actuarial valuation at the end of each five-year period. It is gratifying to be able to report that the annual and fifth-year actuarial valuations testify to the continued actuarial soundness of the Retirement System.

Respectfully submitted,

FRANCIS B. HAAS, *Chairman,*

H. H. BAISH, *Secretary.*
