Utah State Retirement Board
560 East 200 South
Salt Lake City, UT 84102-2021

Dear Board Members:

We are pleased to present the 2002 Comprehensive Annual Financial Report of the Utah Retirement Systems (Systems) and 401(k) and 457 Plans (Plans), a component unit of the State of Utah, administered by the Utah State Retirement Board for calendar year 2002. The financial reporting entity of the Systems and Plans include the Public Employees Contributory and Noncontributory Retirement Systems, for both government and public education employees, the Public Safety, Firefighters and Judges Retirement Systems, the Governors and Legislative Pension Plan, and the 401(k) and 457 Plans.

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Systems. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the fiduciary funds.

For financial reporting purposes, the Systems and Plans utilize Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined*

Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, GASB Statement No. 37, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus*, and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*. Assets of the Systems and Plans are presented at fair value. The actuarial value of assets and the actuarial accrued liability are presented in the required supplementary information following the notes to the basic financial statements.

The Utah Retirement Systems and 401(k) and 457 Plans were established by legislation and authorized as indicated in the notes to the basic financial statements on page 42. The Summaries of Plan Provisions are presented on pages 106 through 115. The number of active and retired members and beneficiaries for each system is presented in the Systems' Highlights on pages 12 through 24. The purpose of the Systems and Plans is to provide benefits for all

eligible State, local government and most public education employees whose employers have elected to participate. Services provided by the staff are performed to meet that objective.

The 2002 Comprehensive Annual Financial Report is presented in five sections. The Introductory Section contains the letter of transmittal, the Board President's letter, identification of the Systems' administrative organization and professional consultants, as well as Systems' Highlights for each retirement system and plan. The Financial Section contains the opinion of the independent auditors, management's discussion and analysis (MD&A), the basic financial statements and required supplementary information of the Systems, and further information about the Systems at division levels. The Investment Section contains investment information and a list of the largest holdings. The Actuarial Section contains the independent consulting actuary's certification, an outline of actuarial assumptions and methods, and other actuarial statistics. The Statistical Section contains tables of significant data pertaining to the Systems.

Letter of Transmittal *(Continued)*

Economic Condition and Outlook

The economic condition of the Systems is based primarily upon investment earnings. The Systems' investments were evaluated at year end by Callan Associates Inc., Investment Measurement Service. A comparative analysis of rates of return is presented on page 86 of this report.

For the Future

During 2002, actuarial assumptions and contribution rates were based on the recommendations of our actuary. See the Actuarial Section of this report and the notes to the basic financial statements for explanations of these rates. Rate changes resulted from actuarial assumption modifications, economic conditions, actuarial experience gains and losses and benefit enhancements in the Systems.

The Utah Retirement Systems are maintained on an actuarially sound basis as certified in this report by our actuary, thus protecting participants' future benefits. We anticipate that investment earnings on a long term basis will continue to meet or exceed the actuarially assumed earning rate. We expect all systems to continue towards fully funded positions in accordance with actuarial assumptions.

Financial Information

Management is responsible for maintaining a system of adequate internal accounting controls designed to provide reasonable assurance that transactions are executed in accordance with management's general or specific authorization, and are recorded as necessary to maintain accountability for assets and to permit preparation of financial statements in accordance with generally

accepted accounting principles. This system includes written policies and procedures and an internal audit department that reports to the Board. Discussion and analysis of net assets and related additions and deductions is presented in the MD&A beginning on page 28.

Funding

Funds are derived from the excess of additions, which include contributions and investment earnings, over deductions, which are comprised of benefits and administrative expenses. Funds are accumulated to meet future benefit obligations to retirees and beneficiaries. This accumulated balance is referred to as the "net assets held in trust for pension benefits" in the Statements of Fiduciary Net Assets in the Financial Section of this report. The actuarial accrued liability is not disclosed in the basic financial statements but is disclosed in the required supplementary information schedules immediately following the notes to the basic financial statements. These schedules show the actuarial value of assets, which is based on a five-year smoothed expected rate of return, wherein the excess or shortfall of investment income over or under the actuarial assumed income of 8% is recognized over a five-year period. This is the value of assets used by the actuary in determining contribution rates for the Systems as disclosed in note 5 to the basic financial statements.

The actuarial accrued liability of the Systems is determined by the actuary. It is a measure of the present value of actuarial accrued liabilities estimated to be payable in the future to current retirees, beneficiaries and

employees for service earned to date. The percentage computed by dividing the actuarial value of net assets available for benefits by the actuarial accrued liability is generally referred to as the "funded ratio". This ratio provides an indication of the funded status of the Systems on a going-concern basis and generally, the greater this percentage, the stronger the system. A higher level of funding gives the participants a greater degree of assurance that their pension benefits are secure.

Although the historical level of funding is good, constant effort will be directed at achieving full funded status, assuring participants of financially sound retirement systems. Funded status and progress for overall Systems are presented in the Required Supplementary Information Schedules of Funding Progress on page 52. The current funded ratios range from 88% to 132%.

Investments

The investment portfolio mix at fair value as of the end of 2002 was 23% debt securities, 54% equities, 6% alternative investments, 10% real estate and 7% short term. The 23% debt securities are comprised of 17% domestic and 6% international instruments. The 54% equities are comprised of 37% domestic and 17% international equities. See MD&A and Investment Section for more detailed analysis and information. The Systems' investment outlook is long-term allowing the portfolio to take advantage of the favorable risk-return characteristics of equities by placing more emphasis on this category.

The Board utilizes internal and external portfolio managers employ-

Letter of Transmittal *(Continued)*

ing both passive (indexed) and active strategies. The portfolio is broadly diversified among equities, debt securities, real estate and alternative investments with additional diversification achieved through domestic and international investing.

Investment Risk

The investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Accordingly, deposits are either insured by federal depository insurance or collateralized. All collateral on deposits is held in the counterparties' joint custody accounts at the Federal Reserve Bank. On occasion, deposits may be significantly greater than collateral due to investment purchase "fails", receipt of interest earnings on the 15th of each month and proceeds from investment sales and maturities. Of approximately \$13.2 billion in investments at fair value as of December 31, 2002, none of the investments were in the category of highest custodial credit risk as defined by the GASB.

Independent Audit

An annual audit of the Systems and Plans was conducted by the independent accounting firm of Deloitte & Touche LLP. The audi-

tors' report on the basic financial statements is included in the Financial Section of this report.

Actuarial Valuation

An actuarial valuation of the Systems is performed annually. An assumption experience study is performed at least every other year. The actuarial firm, Gabriel, Roeder, Smith & Company completed the actuarial reviews and valuations and served as technical advisor to the Systems. Actuarial certification and supporting statistics are included in the Actuarial and Statistical Sections of this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Utah Retirement Systems for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2001. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable

and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such financial reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The Utah Retirement Systems has received a Certificate of Achievement for the last 18 years. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA.

Acknowledgments

The compilation of this report reflects the combined efforts of the staff under the leadership of the Utah State Retirement Board. The report is intended to provide extensive and reliable information for making management decisions, determining compliance with legal provisions, and determining responsible stewardship for the assets contributed by the Systems' members and their employers.

We would like to take this opportunity to express our gratitude to the Board, the staff, the advisors, and the many people who have worked so diligently to assure the successful operation and financial soundness of the Utah Retirement Systems.

Sincerely yours,

Robert J. Stringham, CPA
Chief Financial Officer

ROBERT V. NEWMAN
EXECUTIVE DIRECTOR

February 28, 2003

Dear members of the Retirement Systems:

As I report on the activities and programs of the Utah Retirement Systems for 2002, I'm pleased to note that nearly 32,000 retirees now enjoy monthly benefits from the Retirement Systems, and more than 94,000 working members of the Systems are earning future retirement benefits.

As Board members we serve as trustees to ensure that members' interests are properly safeguarded. We have the responsibility and mandate to provide retirement benefits to eligible members for the valued service they've rendered to the public. Despite a continuing weak economy and adverse investment returns, we emphasize that the systems are sound. Benefits to retired members will continue to be paid in timely fashion, and working members of the retirement systems can count on receiving their promised retirement benefits.

Why the Systems remain sound. Thanks to far-sighted actuarial funding principles established over several decades by governors, legislatures and boards, the outlook for the Systems is ultimately positive. Even though the year's market troubles trimmed the Systems' assets by \$1.1 billion, I wish to reiterate that this decline does not impair the Fund's ability to pay promised benefits to retirees. Assets of the Retirement Systems remain at around \$11.5 billion. As the economy improves, the Systems are poised for the opportunities and growth it will bring.

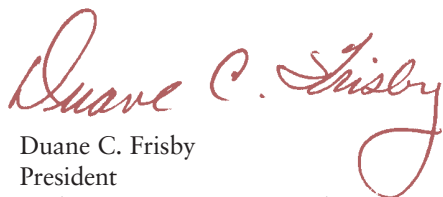

Investments show prudent, long-term planning. In 2002 as many investors saw further double-digit losses, the Systems' Investment Fund limited its decline to a negative 7.5%. The Board has successfully minimized adverse external influences by diversifying investment assets. The ability to minimize losses in an unfavorable investment environment is evidence of sound investment strategy over the long term.

401(k) and 457 plans remain important. I'm happy to report that member contribution to the 401(k) and 457 plans continued to grow. Account balances in these plans exceeded \$1.48 billion in 2002. While participants' rates of return varied in a year of market volatility, participants are increasingly diversifying their investments among the eleven available investment options to reduce risk while enhancing their potential opportunities.

Board and Staff. I express my appreciation to outgoing Board President Lily Eskelsen and to board member William N. Sheibler for their dedicated service. I'm happy to welcome two new members, each with varied expertise: Phyllis Sorensen and Phillip W. Clinger.

I also express the board's confidence and appreciation to Executive Director Robert Newman and his staff for their excellent management of the Systems.

Sincerely,

Duane C. Frisby
President

Contributory System Highlights

Membership

The Public Employees Contributory Retirement System includes eligible public employees of the State of Utah and its political subdivisions and public education employees of those entities covered by the System.

Service Retirement

Age	Years of Service	Allowance Reduction
Any age	..30None
60-6120	...3% each year before age 65
62-6410	...3% each year before age 65
654None

Service Benefit Formula

- Number of years of service before 7-1-75 x 1.25% x FAS*.
- Number of years of service after 6-30-75 x 2.0% x FAS*.
- Plan 1 allowance = total of 1 and 2.

*FAS (Final Average Salary) = highest five years' earnings converted to a monthly average. Yearly salary increases are limited to 10% plus a COLA determined by the CPI.

** If FAS is \$500 or less the formula is 1.15% for each year of service before 7-1-67.

Cost of Living Allowance

Up to 4% annually on original retirement benefit.

Contribution Rates (as of 12-31-2002)

Member rate is 6.00% of covered salary. Employer rate for the State and School Division (Level A) is 5.91% of covered salary and 4.68% for the Local Government Division (Level B).

For more detail see Summary of Plan Provisions on page 106.

401(k) and 457 Plan Highlights

The purpose of the 401(k) and 457 Plans is to allow public employees throughout Utah to adequately prepare themselves for retirement by investing a portion of their pre-tax income in one or both of these supplemental

retirement plans. It has long been recognized that for employees to experience the comfortable and rewarding retirement they desire, they cannot rely entirely upon Social Security and their employer-provided retirement. Employees must take the initiative to personally put aside a portion of their salary into some type of long-term savings plan.

The Plans provide the following benefits:

- Convenient, automatic payroll deduction
- Eleven investment options
- Tax deferred savings
- Increase or decrease contributions as often as every pay period
- Change allocation of future contributions as often as every pay period
- Transfer funds daily between investment options
- Rollover funds into any eligible plan or IRA upon termination or retirement
- Upon death, funds transfer to beneficiaries
- Immediate vesting
- No sales commissions
- Low investment and administrative fees

Each year the number of employees participating in these

plans increases. Individuals may participate in more than one option. As of December 31, 2002 the number of participants by investment option are shown to the right.

Annualized rates of returns for the Investment Funds are shown on page 91.

INDEPENDENT AUDITORS' REPORT

Utah State Retirement Board:

We have audited the accompanying basic financial statements of Utah Retirement Systems, a component unit of the State of Utah, administered by the Utah State Retirement Board as of December 31, 2002, and for the year then ended, listed in the foregoing table of contents. These financial statements are the responsibility of the management of Utah Retirement Systems. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such basic financial statements present fairly, in all material respects, the plan net assets of the pension trust funds of Utah Retirement Systems administered by the Utah State Retirement Board as of December 31, 2002, and the changes in plan net assets of the pension trust funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis and the Schedules of Funding Progress and of Employer Contributions, listed in the foregoing table of contents, are not required parts of the basic financial statements, but are supplementary information required by GASB. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental financial supporting schedules listed in the foregoing table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements of Utah Retirement Systems. The supplemental supporting schedules are also the responsibility of the management of Utah Retirement Systems. Such additional information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

The Introductory Section, Investment Section, Actuarial Section, and Statistical Section listed in the foregoing table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements of Utah Retirement Systems. Such additional information has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2003, on our consideration of Utah Retirement Systems' internal control over financial reporting and our tests of their compliance with certain provisions of laws and regulations. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management Discussion and Analysis

This section presents management's discussion and analysis of the Utah Retirement Systems' (URS) financial position and performance for the year ended December 31, 2002. It is presented as a narrative overview and analysis. Please read it in conjunction with the Letter of Transmittal included in the Introductory Section, the financial statements and other information which are presented in the Financial Section of this Comprehensive Annual Financial Report.

URS is responsible for administering retirement and defined contribution benefits for State, local government and public education employees in the State of Utah. URS is comprised of six defined benefit pension systems (Systems) and two defined contribution plans (Plans). The six defined benefit pension systems are the Public Employees Contributory Retirement System (Contributory System), the Public Employees Noncontributory Retirement System (Noncontributory System), the Public Safety Retirement System (Public Safety System), the Firefighters Retirement System (Firefighters System), the Judges Retirement System (Judges System) and the Governors and Legislative Pension Plan (Governors and Legislative Plan). The two defined contribution plans (Plans) are the 401(k) and 457 Plans. All of these Systems and Plans are defined as pension (and other employee benefit) trust funds, which are fiduciary funds. Throughout this discussion and analysis units of measure (i.e. billions, millions, thousands) are approximate, being rounded up or down to the nearest tenth of the respective unit value.

Financial Highlights

- **The URS Defined Benefit Pension Systems' combined total net assets decreased by \$1.1 billion, or 8.9 percent during calendar year 2002. The decrease was primarily due to the continued downturn in equity markets and increasing benefit payments.**
- **The URS Defined Benefit Pension Systems' rate of return on investments during calendar year 2002 was negative 7.5 percent compared with calendar year 2001 rate of return of negative 5.0 percent. The decrease in rate of return was due primarily to the continued downturn in equity markets.**
- **The URS Defined Benefit Pension Systems were actuarially funded at an average of 102.7 percent as of January 1, 2002, a decrease from the comparative average of 104.7 percent as of January 1, 2001. During 2002 the funded ratio further declined from 102.7 percent at the beginning of the year to 93.5 percent at December 31, 2002 due to lower than expected investment returns.**
- **The Defined Contribution Plans' net assets decreased \$45.2 million during calendar year 2002 due to investment losses from the continued downturn in equity markets and participant withdrawals.**
- **The Defined Contribution Plans' rates of return for investment options ranged from a high of 10.5 percent to a low of negative 29.9 percent compared to prior year investment option returns of a high of 12.8 and a low of negative 21.2 percent.**

Management Discussion and Analysis *(Continued)*

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the URS financial reporting which is comprised of the following components:

- (1) basic financial statements,
- (2) notes to the basic financial statements,
- (3) required supplementary information, and
- (4) other supplementary schedules.

Collectively, this information presents the combined net assets held in trust for pension benefits for each of the funds administered by URS as of December 31, 2002. This financial information also summarizes the combined changes in net assets held in trust for pension benefits for the year then ended. The information in each of these components is briefly summarized as follows:

(1) Basic Financial Statements.

For the calendar year ended December 31, 2002, basic financial statements are presented for the fiduciary funds administered by URS. Fiduciary funds are used to account for resources held for the benefit of parties outside of URS. The fiduciary fund is comprised of eight pension (and other employee benefit) trust funds which consist of six defined benefit systems and two defined contribution plans.

■ The Statements of Fiduciary Net Assets are presented for the pension trust funds at December 31, 2002 with combined total comparative information at December 31, 2001. These financial statements reflect the resources available to pay benefits to members, including retirees and beneficiaries, at the end of the years reported.

■ The Statements of Changes in Fiduciary Net Assets are presented for the pension trust funds for the year ended December 31, 2002 with combined total comparative information for the year ended December 31, 2001. These financial statements reflect the changes in the resources available to pay benefits to members, including retirees and beneficiaries, for calendar years 2002 and 2001.

(2) Notes to the Basic Financial Statements. The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. Information in the Notes to the Basic Financial Statements is described below.

■ Note 1 provides a general description of URS as well as a description of each of the Systems and Plans administered by URS and a summary of benefits. Information regarding employer and member participation in the Systems and Plans administered by URS is also provided.

■ Note 2 provides a summary of significant accounting policies, including the basis of accounting, investment accounting poli-

cies, management's use of estimates, information regarding the implementation of new accounting pronouncements, and other significant accounting policies.

- Note 3 describes investments, investing authority, investment risk categorizations, and additional information about cash, securities lending, and derivatives.
- Note 4 explains property and equipment of URS including depreciation and net carrying amounts.
- Note 5 provides information about actuarial values and methods for the defined benefit systems administered by URS.
- Note 6 provides information about contributions to the defined benefit systems administered by URS.
- Note 7 explains transfers to or from affiliated systems.
- Note 8 describes supplemental benefits.
- Note 9 provides information about litigation.
- Note 10 describes commitments for investment funding.
- Note 11 provides information about post employment benefit and insurance reserves.
- Note 12 describes required supplementary information.
- Note 13 provides information about risk management of URS.
- Note 14 provides information about mortgages payable.

(3) Required Supplementary Information. The required supplementary information consists of two schedules and related notes

Management Discussion and Analysis *(Continued)*

concerning actuarial information, funded status and required contributions of the defined benefit pension systems administered by URS.

(4) Other Supplementary Schedules. Other schedules include more detailed information pertaining to the Systems and Plans as well as

schedules of administrative expenses.

Financial Analysis of the Systems—Defined Benefit Plans

Investments

Investments of the URS Defined Benefit Systems are combined in a commingled investment pool as authorized by state statute. Each system owns an equity position in the pool and receives proportionate investment income from the pool in accordance with each respective ownership percentage.

Each system's allocated share of each type of investment in the pool is shown in the Statement of Net Assets of each respective system. Investment gains or losses are reported in the Statement of Changes in Fiduciary Net Assets of each retirement system. The rate of return on investments is therefore approximately the same for each of the systems.

Systems Total Investments

At December 31, 2002, URS Defined Benefit Systems had total net assets of \$11.5 billion, a decrease of \$1.1 billion from calendar year 2001 investment totals. The combined investment portfolio experienced a return of negative 7.5 percent compared with the URS investment benchmark return of a negative 8.4 percent. Investment results over time compared with URS benchmarks are presented on page 86 in the Investment Section.

Since investment losses in all of the retirement systems were about 7.5 percent of net assets, further investment performance will not be evaluated in each respective system.

Equities

At December 31, 2002, URS Defined Benefit Systems held \$6.4

billion in U.S. and international equity securities, a decrease of \$674 million from year 2001. U.S. equity and international equity securities had negative returns of 19.7 percent and 9.6 percent respectively, for the 2002 calendar year, compared to URS benchmark returns of negative 21.1 percent and negative 13.8 percent respectively.

Debt Securities

At December 31, 2002, URS Defined Benefit Systems held \$2.7 billion in U.S. debt and international debt securities, a decrease of \$764.9 million from year 2001. U.S. debt securities returned 6.5 percent while international debt securities returned 17.6 percent in calendar year 2002 compared with URS benchmark returns of 9.2 percent and 19.0 percent respectively.

Real Estate

At December 31, 2002, URS Defined Benefit Systems held \$1.1 billion in real estate investments, an increase of \$47.4 million from year 2001. Real estate investments returned 5.5 percent in calendar year 2002 which was below the URS benchmark return of 7.2 percent.

Alternative Investments

At December 31, 2002, URS Defined Benefit Systems held \$762.0 million in alternative investments, an increase of \$84.4 million from year 2001. Alternative investments returned a negative 10.8 percent in calendar year 2002. Alternative investments do not have a benchmark but have an annualized long term target assumption of 15 percent.

Short Term

At December 31, 2002, URS Defined Benefit Systems held \$763.4 million in short-term investments, an increase of \$160.4 million from year 2001. Short-term investments returned 3.7 percent in calendar year 2002, which compared to the URS benchmark return of 1.8 percent.

Security Lending

The Systems earn additional investment income by lending investment securities to brokers. This is done on a pooled basis by URS's custodial bank, The Northern Trust Company (TNT). The brokers provide collateral to TNT and generally use the borrowed securities to cover short sales and failed trades. TNT invests the cash collateral received from the brokers in order to earn interest. At December 31, 2002, the Systems had \$1.38 billion on loan secured by collateral of \$1.42 billion. For calendar year 2002, net securities lending income to the Systems amounted to \$4.4 million, a decrease of \$0.7 million under calendar year 2001. The decrease in security lending revenue for year 2002 represents mainly a decrease in demand by brokers to borrow available securities.

Defined Benefit Systems Investment Rates of Return by Investment Type for 2002

Defined Benefit Systems Asset Allocation at Fair Value

December 31, 2002

Analysis of Individual Systems:

Contributory System

The Contributory system provides retirement benefits to covered State of Utah, local government and public education employees. Benefits of the system are funded by member and employer contributions and by earnings on investments. The system net assets held in trust for benefits at December 31, 2002 totaled \$716.1 million, a decrease of \$127.9 million (15.1 percent) from \$844.0 million at December 31, 2001.

Additions to the Contributory System net assets held in trust for benefits include employer and member contributions and investment income. For the 2002 calendar year, member and employer contributions decreased from \$17.1 million for the calendar year 2001 to \$15.7 million, a decrease of \$1.4 million (8.3 percent). Contributions declined because

contribution rates decreased and the number of currently employed members for whom contributions are paid decreased. For the most part the Contributory System is a closed system. For this reason both the numbers of active members and retired individuals are declining. The system recognized a net investment loss of \$64.3 million for the 2002

calendar year compared with net investment losses of \$47.8 million for the 2001 calendar year. The decrease in investment income was mainly due to the continued downturn in equity markets during 2002.

Deductions from the Contributory System net assets held in trust for benefits include retirement benefits, administrative expenses and transfers to other systems. For the 2002 calendar year, benefits amounted to \$63.2 million, an increase of \$551 thousand (.9 percent) from 2001 calendar year. The increase in benefit payments was due to COLA increases. For the 2002 calendar year, the costs of administering the system totaled \$624 thousand, a decrease of \$30 thousand (4.6 percent) from calendar year 2001.

An actuarial valuation of the Contributory System assets and benefit obligations is performed annually. At the date of the most recent

actuarial valuation, January 1, 2002, the funded status of the system decreased to 97.7 percent from 98.8 percent at January 1, 2001. The amount by which the Contributory System actuarial assets were under actuarial benefit liabilities was \$21.4 million at January 1, 2002, compared with \$11.2 million at January 1, 2001. The decrease in funded status as of the last actuarial valuation is a result of the lower than expected investment returns over the last 3 years.

Noncontributory System

The Noncontributory System provides retirement benefits to covered State of Utah, local government and public education employees. Benefits of the system are funded by employer contributions and by earnings on investments. The system net assets held in trust for benefits at December 31, 2002 totaled \$9.1 billion, a decrease of \$832.0 million (8.4 percent) from \$9.9 billion at December 31, 2001.

Additions to the Noncontributory System net assets held in trust for benefits include employer contributions, investment income and inter system transfers. For the 2002 calendar year, member and employer contributions decreased from \$342.9 million for the calendar year 2001 to \$303.8 million, a decrease of \$39.2 million (11.4 percent). Contributions decreased because contribution rates decreased. The system recognized a net investment loss of \$788.9

million for the 2002 calendar year compared with net investment losses of \$544.8 million for the 2001 calendar year. The decrease in investment income was mainly due to the continued downturn in equity markets during 2002.

Deductions from the Noncontributory System net assets held in trust for benefits include retirement benefits and administrative expenses. For the 2002 calendar year, benefits amounted to \$351.9 million, an

increase of \$37.4 million (11.9 percent) over 2001 calendar year. The increase in benefit payments was due to an increased number of benefit recipients and benefit increases. For the 2002 calendar year, the costs of administering the system's benefits totaled \$7.1 million, an increase of \$408 thousand (6.1 percent) from calendar year 2001.

An actuarial valuation of the Noncontributory System assets and benefit obligations is performed

annually. At the date of the most recent actuarial valuation, January 1, 2002, the funded status of the system decreased to 102.8 percent from 104.3 percent at January 1, 2001. The amount by which the Noncontributory System actuarial assets were over actuarial benefit liabilities was \$298.3 million at January 1, 2002, compared with \$427.8 million at January 1, 2001. The decrease in funded status as of the last actuarial valuation is a result

Management Discussion and Analysis *(Continued)*

of the lower than expected investment returns over the last 3 years.

Public Safety System

The Public Safety System provides retirement benefits to State of Utah, local government and higher education public safety personnel covered under the Public Safety System. Benefits of the system are funded by member and employer contributions and by earnings on investments. The system net assets held in trust for benefits at December 31, 2002 amounted to \$1.1 billion, a decrease of \$105.3 million (8.6 percent) from \$1.2 billion at December 31, 2001.

Additions to the Public Safety System net assets held in trust for benefits include employer contributions, investment income and inter system transfers. For the 2002 calendar year, member and employer contributions decreased from \$50.1 million for the calendar year 2001 to \$46.5 million, a decrease of \$3.6 million (7.1 percent). Contributions decreased because contribution rates decreased. The system recognized a net investment loss of \$97.8 million for the 2002 calendar year compared with net investment losses of \$67.7 million for the 2001 calendar year. The decrease in investment income was mainly due to the continued downturn in equity markets during 2002.

Deductions from the Public Safety System net assets held in trust for benefits include retirement benefits and administrative expenses. For the 2002 calendar year, benefits amounted to \$55.1 million, an increase of \$6.0 million (12.1 percent) over 2001 calendar year. The increase in benefit payments was due to an increased number of benefit recipients and benefit increases. For the 2002 calendar year, the costs of administering the system totaled \$899 thousand, an increase of \$56 thousand (6.6 percent) from calendar year 2001.

An actuarial valuation of the Public Safety System assets and

benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2002, the funded status of the system decreased to 100.8 percent from 106.6 percent at January 1, 2001. The amount by which the Public Safety System actuarial assets were over actuarial benefit liabilities was \$10.3 million at January 1, 2002, compared with \$80.1 million at January 1, 2001. The decrease in funded status as of the last actuarial valuation is a result of the lower than expected investment returns over the last 3 years.

Firefighters System

The Firefighters System provides retirement benefits to covered firefighters of the State of Utah and local governments. Benefits of the system are funded by member and employer contributions, and by earnings on investments. The system net assets held in trust for benefits at December 31, 2002 amounted to \$461.3 million, a decrease of \$47.2 million (9.3 percent) from \$508.6 million at December 31, 2001.

Additions to the Firefighters System net assets held in trust for benefits consist of employer contributions, including insurance premium taxes, investment income and inter system transfers. For the 2002 calendar year, member and employer contributions decreased from \$15.9 million for the calendar year 2001 to \$15.3 million, a decrease of \$649 thousand (4.1 percent). Contributions decreased because contribution rates decreased. The system recognized a net investment loss of \$40.2 million for the 2002 calendar year compared with net investment losses of \$28.0 million for the 2001 calendar year. The decrease in investment income was mainly due to the continued downturn in equity markets during 2002.

Deductions from the Firefighters System net assets held in trust for benefits include retirement benefits

and administrative expenses. For the 2002 calendar year, benefits amounted to \$22.7 million, an increase of \$1.4 million (6.5 percent) over 2001 calendar year. The increase in benefit payments was due to an increased number of benefit recipients and benefit increases. For the 2002 calendar year, the costs of administering the system totaled \$323 thousand, an increase of \$5 thousand (1.6 percent) from calendar year 2001.

An actuarial valuation of the Firefighters System assets and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2002, the funded status of the system decreased to 115.9 percent from 117.8 percent at January 1, 2001. The amount by which the Firefighters System actuarial assets were over actuarial benefit liabilities was \$77.9 million at January 1, 2002, compared with \$81.0 million at January 1, 2001. The decrease in funded status as of the last actuarial valuation is a result of the lower than expected investment returns over the last 3 years.

Judges System

The Judges System provides retirement benefits to judges in the State of Utah who are eligible to participate in the system. Benefits of the system are funded by employer contributions and by earnings on investments. The system net assets held in trust for benefits at December 31, 2002 amounted to \$75.8 million, a decrease of \$7.0 million (8.5 percent) from \$82.8 million at December 31, 2001.

Additions to the Judges System net assets held in trust for benefits consist of employer contributions, including court fees, investment income and inter system transfers. For the 2002 calendar year, member and employer contributions decreased from \$3.1 million for the calendar year 2001 to \$2.9 million, a decrease of \$202 thousand (6.6

Management Discussion and Analysis *(Continued)*

percent). Contributions decreased because contribution rates decreased. The system recognized a net investment loss of \$6.6 million for the 2002 calendar year compared with net investment losses of \$4.6 million for the 2001 calendar year. The decrease in investment income was mainly due to the continued downturn in equity markets during 2002.

Deductions from the Judges System net assets held in trust for benefits include retirement benefits and administrative expenses. For the 2002 calendar year, benefits amounted to \$3.8 million, an increase of \$145 thousand (4.0 percent) over 2001 calendar year. The increase in benefit payments was due to an increased number of benefit recipients and benefit increases. For the 2002 calendar year, the costs of administering the system totaled \$57 thousand, which was an increase of \$5 thousand (9.6 percent) over calendar year 2001.

An actuarial valuation of the Judges System assets and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2002, the funded status of the system decreased to 107.7 percent from 117.8 percent at January 1, 2001. The amount by which the Judges System actuarial

assets were over actuarial benefit liabilities was \$6.7 million at January 1, 2002, compared with \$13.2 million at January 1, 2001. The decrease in funded status as of the last actuarial valuation is a result of the lower than expected investment results over the last 3 years.

Governors and Legislative Plan

The Governors and Legislative Plan provides retirement benefits to governors and legislators of the State of Utah. Benefits of the system are funded by employer contributions and by earnings on investments. The system net assets held in trust for benefits at December 31, 2002 amounted to \$8.9 million, a decrease of \$1.5 million (14.5 percent) from \$10.4 million at December 31, 2001.

Additions to the Governors and Legislative Plan net assets held in trust for benefits include investment income and inter system transfers. No employer contributions were needed for this plan because of the current over funded status. The system recognized a net investment loss of \$806 thousand for the 2002 calendar year compared with net investment losses of \$595 thousand for the 2001 calendar year. The decrease in investment income was mainly due to the continued downturn in equity

markets during 2002.

Deductions from the Governors and Legislative Plan net assets held in trust for benefits include retirement benefits and administrative expenses. For the 2002 calendar year, retirement benefits amounted to \$708 thousand, an increase of \$15 thousand (2.2 percent) from 2001 calendar year. The increase in benefit payments was due to an increased number of benefit recipients and benefit increases. For the 2002 calendar year, the costs of administering the system totaled \$5 thousand or slightly less than that of the preceding year.

An actuarial valuation of the Governors and Legislative Plan assets and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2002, the funded status of the system decreased to 143.1 percent from 146.3 percent at January 1, 2001. The amount by which the Governors and Legislative Plan actuarial assets were over actuarial benefit liabilities was \$3.5 million at January 1, 2002, compared with \$3.7 million at January 1, 2001. The decrease in funded status as of the last actuarial valuation is a result of the lower than expected investment results over the last 3 years.

Actuarial Valuations and Funding Progress

An actuarial valuation of each defined benefit system is performed annually. At January 1, 2002, the date of the most recent actuarial valuation, the average funded

ratio for the Systems was 102.7 percent. This was a decrease from the Systems' January 1, 2001 valuation average funded ratio of 104.7 percent, a decrease in funded status of 2 percent. As of December 31, 2002 the Systems' average funded ratio had further declined to 93.5 percent. This was a further decrease in the Systems'

funded ratio of 11.2 percent for calendar year 2002. The funded ratio decreases for all systems was the result of investment returns below the investment return assumption of 8 percent for the last three years.

At December 31, 2002 the Systems' unfunded actuarial accrued liability had increased to \$956

million from an over funded status of \$375 million at January 1, 2002. This is a net change from over funded to under funded position of \$1.3 billion for the year. At December 31, 2002 the difference between the actuarial value of assets and market value of assets was about \$2.3 billion in actuarially deferred losses. This was an increase of \$800 million in actuarially deferred losses from the \$1.5 billion in actuarially deferred losses at January 1, 2002. These actuarially deferred losses will be recognized by the actuary over the next four years leading to probable increases in contribution rates.

Defined Contribution Plans

401(k) Defined Contribution Plan

The 401(k) Plan is established under Section 401(k) of the Internal Revenue Code. This plan provides supplemental retirement benefits for plan participants. The plan is

funded by contributions and by investment earnings. The plan net assets held in trust for benefits at December 31, 2002 amounted to \$1.3 billion, a decrease of \$17.3 million (1.3 percent) under net assets at December 31, 2001.

Additions to the 401(k) Plan net assets held in trust for benefits include contributions and investment income. For the 2002 calendar year, contributions increased from those of 2001 calendar year from \$145.6 million to \$160.3 million or an increase of \$14.7 million (10.1 percent). Contributions increased because of increased

participation. The plan recognized a net investment loss of \$109.8 million for the 2002 calendar year compared with a net investment loss of \$34.1 million for the 2001 calendar year. The negative return from investments was mainly due to the continued downturn in equity markets.

Deductions from the 401(k) Plan net assets include participant and beneficiary refunds, and administrative expenses. For the 2002 calendar year, refunds amounted to \$63.9 million, an increase of \$9.1 million (16.6 percent) over 2001 calendar year. The increase in refunds was due

to an increase in withdrawals for calendar year 2002. For the 2002 calendar year, the costs of administering the system's benefits amounted to \$3.9 million, an increase of \$476 thousand over calendar year 2001.

Benefit obligations of the 401(k) Defined Contribution Plan are equal to the member account balances, which are equal to net assets of the plan.

457 Defined Contribution Plan

The 457 Plan is established under Section 457 of the Internal Revenue Code. This plan provides supplemental retirement benefits for plan participants. The plan is funded by contributions and by investment earnings. The plan net assets held in trust for benefits at December 31, 2002 amounted to \$171.6 million, a decrease of \$28.0 million (14.0 percent) under net assets at

Total deductions	67,758	58,193	24,985	16,627	92,743	74,820	24.0
Increase (decrease) in net assets	\$ (17,281)	53,313	(27,957)	(16,087)	(45,238)	37,226	(221.5)%

December 31, 2001.

Additions to the 457 Plan net assets held in trust for benefits include contributions and investment income. For the 2002 calendar year, contributions increased from those of 2001 calendar year from \$5.9 million to \$10.4 million or an increase of \$4.4 million (74.4 percent). Contributions increased because of increased participation. The plan recognized a net investment loss of \$13.3 million for the 2002

calendar year compared with a net investment loss of \$5.4 million for the 2001 calendar year. The negative return from investments was mainly due to the continued downturn in equity markets during 2002.

Deductions from the 457 Plan net assets include participant and beneficiary refunds, and administrative expenses. For the 2002 calendar year, refunds amounted to \$24.5 million, an increase of \$8.4 million (51.9 percent) over 2001 calendar

year. The increase in refunds was due to an increase in withdrawals for calendar year 2002. For the 2002 calendar year, the costs of administering the system's benefits amounted to \$487 thousand, a decrease of \$11 thousand under calendar year 2001.

Benefit obligations of the 457 Defined Contribution Plan are equal to the member account balances, which are equal to net assets of the plan.

1 Description of Systems and Plans

A brief description of the Utah Retirement Systems (Systems) and 401(k) and 457 Plans (Plans) follows. For a more complete description of plan provisions, membership and benefit statistics, see the Systems Highlights on pages 12 through 24 and Summaries of Plan Provisions on pages 106 through 115.

(A) General Information and Reporting Entity

General—The Utah Retirement Systems are comprised of the following pension trust funds:

- i) the **Public Employees Contributory Retirement System (Contributory System)**; the **Public Employees Noncontributory Retirement System (Noncontributory System)**; and the **Firefighters Retirement System** which are multiple-employer, cost sharing, public employee retirement systems;
- ii) the **Public Safety Retirement System** which is a mixed agent and cost-sharing, multiple-employer retirement system;
- iii) the **Judges Retirement System** and the **Governors and Legislative Pension Plan** which are single employer service employee retirement systems; and
- iv) two defined contribution plans comprised of the **401(k) Plan** and the **457 Plan**.

These Systems and Plans cover employees of the State of Utah and participating local government and public education entities.

Reporting Entity—These basic financial statements cover all of the foregoing retirement systems and defined contribution plans administered by the Utah State Retirement Board (Board), the sole governing body for these Systems and Plans.

The Systems are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems and Plans under the direction of the Board, whose members are appointed by the Governor. The Plans are established under the authority of the same sections of the Utah Code Annotated 1953, as amended, as well as under Sections 401(k) and 457 of the Internal Revenue Code. The Plans may be amended by the Board within the parameters of Sections 401(k) and 457 of the Internal Revenue Code. The Systems and Plans are fiduciary funds defined as pension (and other employee benefit) trust funds. Utah Retirement Systems are a component unit of the State of Utah.

(B) Retirement and Death Benefits

Retirement Systems' benefits are specified by the statute listed in note 1 (A). The Retirement Systems are defined benefit plans wherein benefits are based on age and/or years of service and highest average salary. Various plan options within the Systems may be selected by retiring members. Some options require actuarial reductions based on attained age, age of spouse and similar actuarial factors. A brief summary of eligibility and benefits of the various Systems is shown in the table on page 43.

The Governors and Legislative Pension Plan provides the following benefits. Former governors at age 65 receive \$1,080 per month per term. Legislators receive a benefit at age 65 with four or more years of service at the rate of \$24.00 per month per year of service. Retirement at age 62 with ten or more years of service will receive an actuarial reduction. Both the governors' and legislators' benefits are adjusted based on the CPI limited to 4% of the base benefit per year.

Death benefits for active and retired employees are in accordance with retirement statutes. Upon termination of employment, members of the Systems may leave their retirement account intact for future benefits based on vesting qualification or withdraw the accumulated funds in their individual member account and forfeit service credits and rights to future benefits upon which the contributions were based.

Summary of Benefits by System

	Contributory System	Noncontributory System	Public Safety System	Firefighters System	Judges System
Final average salary is	Highest 5 years	Highest 3 years	Highest 3 years		Highest 2 years
Years of service required and/or age eligible for benefit	30 years any age 20 years age 60* 10 years age 62* 4 years age 65	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	20 years any age 10 years age 60 4 years age 65		25 years any age 20 years age 55* 10 years age 62 6 years age 70
Benefit percent per year of service**	1.25% per year to June 1975 2.00% per year July 1975 to present	2.0% per year all years	2.5% per year up to 20 years 2.0% per year over 20 years Benefit cannot exceed 70% of final average salary		5.00% first 10 years 2.25% second 10 years 1.00% over 20 years Benefit cannot exceed 75% of final average salary

Note: The Governors and Legislative Pension Plan benefits are explained in the paragraph preceding this table.

* With actuarial reductions.

**For members and retirees in the systems, prior to January 1, 1990, there may be a 3% benefit enhancement.

(C) 401(k) and 457 Plans

The 401(k) and 457 Plans administered by the Board are defined contribution plans. These Plans are available as supplemental plans to the basic retirement benefits of the Retirement Systems for employees of employers who have adopted the 401(k) and 457 Plans. Contributions may be made into the Plans subject to plan and Internal Revenue Code limitations by employees of employers sponsoring the Plans. Employer contributions may be made into the Plans at rates determined by the employers. There are 331 employers participating in the 401(k) Plan and 154 employers participating in the 457 Plan. There are 122,125 plan participants in the 401(k) Plan and 10,325 participants in the 457 Plan.

After termination of employment, benefits are paid out to individuals in lump-sum, or as periodic benefit payments, at the option of the participant based on individual account balances and plan provisions. The 401(k) and 457 Plans account bal-

ances are fully vested to the participants at the time of deposit.

Investments in the 401(k) and 457 Plans are individually directed and controlled by plan participants who direct the investment of their funds among several investment options of varying degrees of risk and earnings potential. Participants may transfer their funds between these options daily. Investments of the Plans are reported at fair value.

(D) Contributions

As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salaries and wages as authorized by statute and specified by the Board. Employee contributions may be paid in part or in whole by the employer. Contributions in some Systems are also augmented by fees or fire insurance taxes. Contribution rates are listed in note 6. In the defined contribution plans, voluntary deferral of compensation within the limits of Plan provi-

sions may be made by employees. In addition to employee voluntary deferrals, employer contributions may be made into the Plans in behalf of employees. The recognition of deferred compensation, employer contributions and earnings on the accounts are deferred for income tax purposes until actually paid to the participant or beneficiary.

Employee (member) contributions are placed into member accounts, and in systems where it is authorized, interest is credited to member accounts. Upon termination of employment, a member may withdraw their account balance, including interest which has been credited. Upon withdrawal a member forfeits the service credit which corresponds to the member contributions withdrawn. The noncontributory retirement systems have no member contributions flowing into them. However, where members had a balance transferred in or purchased service credit in the system, these balances and on-going interest,

Basic Financial Statements

Notes to Basic Financial Statements *(Continued)*

December 31, 2002

where authorized, are credited to individual member accounts which may be withdrawn upon the termination of employment.

(E) Covered Employees

The **Public Employees Contributory Retirement System (Contributory System)** includes eligible public employees of the State of Utah and its political subdivisions including public education employees of those entities covered by the System. Members of this System are those who did not elect to transfer to the Public Employees Noncontributory Retirement System during the period when they were eligible to transfer or whose employers are not participants in the Noncontributory System.

The **Public Employees Noncontributory Retirement System (Noncontributory System)** was established

on July 1, 1986. All eligible employees of the State and school entities hired subsequent to that date are automatically members of the Noncontributory System. Local government entities had the option of adopting the new System or remaining with the Contributory System. All Contributory System members whose employers adopted the Noncontributory System were given the opportunity to transfer to the new System during limited window periods. All eligible new hires subsequent to adoption of the noncontributory plans are automatically members of that plan.

The **Public Safety Retirement System** includes eligible state and local government employees directly involved in law enforcement (e.g., game wardens, prison guards, police officers and highway patrol officers).

The Public Safety System consists of both contributory and noncontributory divisions. The noncontributory divisions were authorized by the Legislature effective July 1, 1989.

The **Firefighters Retirement System** includes eligible state and local government employees directly involved in fire fighting.

The **Judges Retirement System** includes justices and judges of the court as authorized by State Statutes.

The **Governors and Legislative Pension Plan** includes only governors and legislators of the State.

The **401(k) and 457 Plans** may be utilized by employers adopting the Plans and by their employees.

At December 31, 2002 participating members by System are included in the table below.

Participating Members by System

	Contributory System	Noncontributory System	Public Safety System	Firefighters System	Judges System	Governors and Legislative Pension Plan
Number of participating:						
Employers	164	376	119	40	1	1
Members:

Terminated vested	1,511	20,632	987	55	8	87
Retirees and beneficiaries:						
Service benefits	7,249	20,666	2,678	815	77	231
Disability benefits	153	—	43	70	—	—

2 Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Systems and Plans:

(A) Method of Accounting

The Systems maintain records and accounts, and prepare financial statements using fund accounting

principles and the accrual basis of accounting, under which expenses are recorded when the liability is incurred and revenues are recorded in

the accounting period in which they are earned and become measurable in accordance with the terms of each system and plan.

Utah Retirement Systems adhere to Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution*

Basic Financial Statements

Notes to Basic Financial Statements *(Continued)*

December 31, 2002

Plans, GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis— for State and Local Governments*, GASB Statement No. 37, *Basic Financial Statements—and Management's Discussion and Analysis— for State and Local Governments: Omnibus*, and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*. Investments are presented at fair value. The actuarial accrued liability under the entry age actuarial funding method is presented in the Required Supplementary Information on page 52.

(B) Investments

By state statute all of the investment assets of the various Systems are pooled and invested in the common Pension Investment Trust Fund (Investment Fund). Each of the Systems has equity in the Investment Fund based on funds contributed and earnings allocated. Earnings of the Investment Fund are allocated based on the average month-end balances of each of the respective Systems. Individual investments in the Investment Fund are not specifically identified to the respective Systems (see note 3). For financial statement presentation, the Investment Fund assets, liabilities, revenues

and expenses have been allocated to and presented in each respective system in the basic financial statements as required for investment pools.

Investments are presented at fair value. The fair value of investments is based on published market prices and quotations from major investment brokers at current exchange rates, as available. Many factors are considered in arriving at that value. Corporate debt securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Mortgages have been valued on an amortized cost basis which approximates market or fair value. The fair value of real estate investments has been estimated based on independent appraisals. Short-term investments are reported at market value when published market prices and quotations are available, or at cost plus accrued interest, which approximates market or fair value. For investments where no readily ascertainable market value exists, management, in consultation with their investment advisors, have determined the fair values for the individual investments.

Approximately 10% of the net assets held in trust for pension benefits are invested in debt securities of

the U.S. Government and its instrumentalities. Of the 10%, approximately 4% are U.S. Government debt securities and approximately 6% are debt securities of the U.S. Government instrumentalities. The Systems and Plans have no investments of any commercial or industrial organization whose market value equals 5% or more of the Systems' net assets available for benefits.

(C) Property and Equipment

Property and equipment are recorded at cost (see note 4), are depreciated utilizing the straight-line method, and are included in the assets of the Investment Fund. The schedule below summarizes the estimated useful life by class.

Estimated Useful Life by Class

Buildings	40 years
Building improvements	10 years
Furniture and equipment	3-10 years

(D) Administrative Expenses

Expenses for the administration of the Systems and Plans are budgeted and approved by the Board. Systems expenses are paid from investment earnings. Plan expenses are paid from Plan assets.

3 Description of Systems and Plans

Investing is governed by the prudent person rule in accordance with statutes of the State of Utah. All investments of the Systems are considered to have made in accordance with these governing statutes.

(A) Deposits

All deposits of the Systems and Plans are carried at cost plus accrued interest which approximates fair value. At December 31, 2002 the carrying amount of deposits totaled approximately \$(14,104,000) and the corresponding bank balance was \$461,850. The deposits are held in one financial institution with an

Cash	\$ 5,553
Disbursements in excess of cash balances	(19,657)
Total	\$(14,104)

insured balance of \$100,000. The deposits in the bank in excess of \$100,000 are Category 3 which is uncollateralized. Deposits are not collateralized nor are they required to be by state statute. Deposits are presented in the basic financial statements at cost plus accrued interest which is also the market or fair value.

(B) Investments

The table to the right provides information about the custodial credit risks associated with the Systems' and Plans' investments. Category 1 includes investments that are insured or registered, or for which the securities are held by the systems or its agent in the systems' name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the systems' name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the systems' name. Currently the Systems and Plans have no category 2 or category 3 investments.

(C) Securities Lending

The Systems and Plans participate in a security lending program as authorized by Board policy, whereby securities are transferred to an independent broker or dealer in exchange for collateral in the form of cash, government securities and irrevocable bank letters of credit equal to approximately 102% of the market value of the domestic securities on loan and 105% of the market value of the international securities on loan, with a simultaneous agreement to return the collateral for the same securities in the future. The custodial

bank is the agent for the securities lending program. Securities under loan are maintained in the financial records and are classified in the following summary of custodial risk. A corresponding liability is recorded for the market value of the collateral received.

At year end there was no credit risk exposure to borrowers because the collateral exceeded the amount borrowed. The securities on loan at year end were \$1,381,163,000 and the collateral received for those securities on loan was \$1,418,572,000. Under the terms of the lending

agreement, the Systems and Plans are indemnified against loss should the lending agent be unable to recover borrowed securities and distributions due to borrower insolvency or failure of the lending agent to properly evaluate the creditworthiness of the borrower. In addition, the Systems and Plans are indemnified against loss should the lending agent fail to demand adequate and appropriate collateral on a timely basis.

All securities loaned can be terminated on demand by either the Systems and Plans or the borrower. Cash collateral is invested in the lending agent's short-term investment pool. The short-term investment pool guidelines specify that a minimum of 20% of the invested cash collateral is to be available each business day and the dollar weighted average maturity of holdings should not exceed 60 days. The relationship between the maturities of the short-term investment pool and the Systems' and Plans' loans is affected by the maturities of the securities loans made by other entities that use the agent's pool, which the Systems and Plans cannot determine. Since the securities lending collateral is in a pool maintained by the custodial bank, the Systems and Plans do not have the ability to pledge or sell the securities, and it is not necessary to report the total income and expenses of securities lending.

(D) Derivative Financial Instruments

The Systems invest in derivative financial investments as authorized by Board policy. Derivatives are financial arrangements between two parties whose payments are based on, or "derived" from, the performance of some agreed-upon benchmark. As of December 31, 2002 the

Systems had three types of derivative financial instruments: Futures, currency forwards, and options.

Futures represent commitments to purchase (asset) or sell (liability) securities or money market instruments at a future date and at a specific price. Futures contracts are traded on organized exchanges (exchange traded) thereby minimizing the Systems' credit risk. The net change in the futures contract value is settled daily in cash with the exchanges. Net gains or losses resulting from the daily settlements are included with trading account securities gains (losses) in the Statement of Changes in Fiduciary Net Assets. At December 31, 2002 the Systems' investments had the following futures balances:

	Value Covered by Contract
Long-equity futures	\$ 91,831,711
Short-equity futures	(37,302,560)
Long-debt securities futures	148,481,513
Short-debt securities futures	(255,008,963)

Currency forwards represent forward foreign exchange contracts that are entered into in order to hedge the exposure to changes in foreign currency exchange rates on the foreign currency dominated portfolio holdings. A forward foreign exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts is included in net realized gains or losses on foreign currency related transactions. At December 31, 2002 the Systems' investments included the following currency forwards balances:

Currency forwards
(pending foreign
exchange purchases) **\$ 547,129,646**

Currency forwards
(pending foreign
exchange sales) **(544,383,853)**

Options represent or give buyers the right, but not the obligation, to buy or sell an asset at a preset price over a specified period. The option's price is usually a small percentage of the underlying asset's value. As a writer of financial options, the Systems receives a premium at the outset of the agreement and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. As a purchaser of financial options, the Systems pay a premium at the outset of the agreement and the counterparty bears the risk of an unfavorable change in the price of the financial instrument underlying the option. At December 31, 2002 the Systems' investments had the following options balances:

	Value Covered by Contract
Cash and cash equivalent purchased put options	\$ (486,188)
Cash and cash equivalent purchased call options	(665,438)
Fixed income written put options	(258,267)
Fixed income written call options	(2,245,003)

(E) Investment Payables

The investment accounts payable are comprised of investment advisor fees payable of \$5,593,000, administrative expenses payable of \$385,000, investment purchases payable of \$296,080,000 and real estate security deposits of \$2,948,000.

Net property and equipment	\$ 5,127	5,512

5 Actuarial Values and Methods

(A) Actuarial Asset Valuation

The actuarial value of assets is used in determining the funding progress of the Retirement Systems. The actuarial value

of assets is based on a smoothed expected income investment rate. Investment income in excess or shortfall of the expected 8% rate on fair value is smoothed over a five-year period with 20% of a year's excess or shortfall being recognized each year beginning with the current year. This smoothed actuarial value of assets utilized by the actuary in determining the actuarial funding status of the retirement systems is also used in establishing the contribution rates necessary to accumulate needed assets to pay benefits when due.

The calculations to the right were utilized in determining the actuarial value of assets as of January 1, 2002 and December 31, 2002, and the next table shows the smoothed actuarial value of assets for each System.

(B) Actuarial Accrued Liability

The actuarial accrued liability for the Systems is presented in the Required Supplementary Information Schedule of Funding Progress on page 52 and 53 of this report.

(C) Actuarial Cost Method and Assumptions

The Board engages an independent firm of actuaries to estimate the present value of actuarial accrued liability for the purpose of determining actuarial accrued liabilities for active and terminated members, retired individuals and beneficiaries, and for the determination of contribution rates (note 6).

Calculation of Actuarial Value of Assets

January 1, 2002

				<i>(in thousands)</i>
1. Fair value of assets				\$12,581,460
2. Deferral to smooth asset values based on (excess)/ shortfall of expected investment income for:				
Year	Total (Excess)/ Shortfall	Percent Deferred	Amount Deferred	
a. 2001	\$1,765,658	80%	\$1,412,526	
b. 2000	814,093	60%	\$ 488,456

e. 1997	(675,272)	0%	0	
f. Total				1,500,373
3. Actuarial value of assets available for benefits				\$14,081,833

Calculation of Actuarial Value of Assets

December 31, 2002

				<i>(in thousands)</i>
1. Fair value of assets				\$11,460,455
2. Deferral to smooth asset values based on (excess)/ shortfall of expected investment income for:				
Year	Total (Excess)/ Shortfall	Percent Deferred	Amount Deferred	
a. 2002	\$2,009,531	80%	\$1,607,625	
b. 2001	1,765,658	60%	1,059,395	
c. 2000	814,093	40%	325,637	
d. 1999	(932,957)	20%	(186,591)	
e. 1998	(137,130)	0%	0	
*f. Adjustment			(513,974)	
g. Total deferral				2,292,091
3. Actuarial value of assets available for benefits				\$13,752,546

*Actuarial value of assets can not exceed 120% of the fair value of assets or be below 80% of the fair value of assets.

Basic Financial Statements**Notes to Basic Financial Statements** *(Continued)*

December 31, 2002

Actuarial Value of Assets by System

January 1, 2002

(in thousands)

	Contributory System	Noncontributory System	Public Safety System	Firefighters System	Judges System	Governors and Legislative	Total All Systems
1. Net assets available for benefits at fair value	\$827,741	9,922,043	1,229,903	508,565	82,760	10,448	12,581,460
2. Deferral to smooth asset values based on (excess)/shortfall of expected investment income on fair value	99,782	1,182,291	146,563	60,586	9,889	1,262	1,500,373
3. Actuarial value of assets available for benefits	\$927,523	11,104,334	1,376,466	569,151	92,649	11,710	14,081,833

Actuarial accrued liabilities are future periodic payments including lump-sum distributions that are attributable to the service employees have rendered to date and the plan provisions of the various systems.

The present value of actuarial accrued liabilities are calculated based on the entry age actuarial cost method with benefits based on projected salary increases.

A schedule of the actuarial assumptions used in the actuarial report dated January 1, 2002 is presented in Notes to Required Supplementary Information on page 55.

6 Actuarially Determined Contribution Requirements and Contributions Made

Employer contribution rates consist of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the members during the current year)

and (2) an amount for amortization of the unfunded or excess funded actuarial accrued liability over an open 20 year amortization period. These rates are determined using the entry age actuarial cost method with a supplemental present value, and the same actuarial assumptions that were used to calculate the actuarial accrued liability in the Schedules of Funding Progress on pages 52 and 53.

The schedule to the right summarizes contribution rates in effect at December 31, 2002.

Contributions made by employers and members were in accordance with actuarially computed funding requirements. Fire insurance premium taxes and court fees are con-

sidered as part of employer contributions in the schedule on page 50 for the Firefighters and Judges Systems,

respectively. These contribution rates also include rates for a 3% benefit enhancement which is funded by the State. For contribution rate purposes the actuary evaluates the assets of the Systems based on a five-year smoothed expected return wherein 20% of a year's excess or shortfall of expected return is recognized each year for five years.

Contribution Rates

System	Contribution Rates as a Percent of Covered Payroll		
	Member	Employer	Other
Contributory	6.00%	4.68 - 5.91%	—
Noncontributory	—	8.69-10.40	—

Total	\$436,345		\$(64,136)		\$372,209	\$372,209	\$31,482		\$340,727		\$3,420,335

The actuary recommended some increases and some decreases in contribution rates which became effective July 1, 2002.

Information with regard to contributions to the Retirement Systems for the year ended December 31,

2002 is indicated in the schedule above.

Member contributions in the 401(k) and 457 Plans total \$170,620,000, which in combination with the member contributions made in the Retirement Systems total

\$202,102,000.

There are no funding requirements in the 401(k) and 457 Plans other than deposit of employee contributions or contributions for the employee by the employer.

7 Transfers To or From Affiliated Systems

Asset transfers to or from affiliated systems are for the purpose of spreading employer contribution costs across same employer and same class of employee groups and to record transfers of benefits and corresponding assets where employees transfer from one system to another. Benefit transfers usually are between contributory and non-contributory systems as allowed during authorized transfer windows established by statute or as otherwise authorized.

8 Supplemental Benefits

In the past, the Utah State Legislature appropriated funds as supplemental retirement benefits to be paid to qualified participants who have previously retired under the Contributory System. These benefits, already granted, are now and will continue to be funded through contribution rates unless otherwise provided by the legislature.

9 Litigation

The Systems are involved in various claims and legal actions arising in the ordinary course of business. In the opin-

ion of management and legal counsel, the ultimate disposition of these matters will not have a material adverse effect on the Systems' financial position as a whole.

10 Commitments

At December 31, 2002, the Systems had committed to fund certain alternative investment partnerships and real estate projects for an amount of \$1,828,847,759. Funding of \$1,167,747,134 had been provided by December 31, 2002 leaving an unfunded commitment as of December 31, 2002 of \$661,100,625 which will be funded over the next six years.

Basic Financial Statements

Notes to Basic Financial Statements *(Continued)*

December 31, 2002

11 Post Employment Benefits and Insurance Reserves

This consists of termination and post employment benefits of \$1,594,000 and an insurance reserve of \$43,155,000. The termination and post employment benefit reserve was established to pay out termination and post employment benefits and compensated absences for Utah State Retirement Office employees as explained below. As set forth in section 67-19-14(2) of the Utah Code Annotated, 1953 as amended, upon retirement, all employees will receive up to five years health and life insurance, and may be paid for 25% of unused accumulated sick leave at the employee's current rate of pay. Retired employees may use accrued sick leave (after the 25% cashout) for coverage of health insurance benefits at the rate of one month's coverage for each eight hours of unused sick leave to age 65. This reserve is fully funded. As of December 31, 2002, there were eight retired individuals on the insurance program. For the year ended December 31, 2002, the System payout was \$39,909 in insurance premiums.

12 Required Supplementary Information

The historical trend information designed to provide provide information about the Utah Retirement Systems' progress made in accumulating sufficient assets to pay benefits when due is required supplementary information. Required supplementary information is included immediately following the notes to the financial statements on pages 52 through 55. Other supplementary information presented in succeeding sections of this report is for the benefit of statement users and

is not a required part of the basic financial statements.

13 Risk Management

Most risks of loss to which the Systems, Plans and Investment Fund are exposed other than routine investment losses are covered under commercial insurance policies. Risks for large deductibles and otherwise uninsured losses are retained by the Systems, Plans or Investment Fund. There have been

no reductions of insurance coverage from coverages of the previous year in any of the categories of risk. Coverages are increased or decreased commensurate with real estate acquisitions or dispositions. During the past three calendar years, no loss settlements exceeded insurance coverages beyond immaterial deductible amounts. Experience and contingency losses of the Systems or Plans may be paid out of the experience and insurance reserve established by the board from investment earnings as authorized by statute.

14 Mortgages Payable

The following is a schedule of outstanding real estate mortgages payable as of December 31, 2002:

Mortgages Payable

(During calendar year 2002, interest only payments were made on these mortgages.)

Mortgage payable to Security Life of Denver Insurance Company, interest at 90 day London InterBank Offering Rate (LIBOR) rate plus 1.75% (3.23% at December 31, 2002) principal and any unpaid interest is due on August 1, 2007. The note is collateralized by real estate	\$ 4,800,000
Mortgage payable to Massachusetts Insurance Company, interest at 90 day LIBOR rate plus 1.45% (2.83% at December 31, 2002) principal and any unpaid interest is due on August 1, 2005. The note is collateralized by real estate.	27,660,000
Mortgage payable to Massachusetts Insurance Company, interest at 90 day LIBOR rate plus 1.60% (2.98% at December 31, 2002) principal and any unpaid interest is due on August 1, 2005. The note is collateralized by real estate.	41,000,000
Total mortgages	\$73,460,000

Principal payments on mortgages are as follows:

December 31, 2002	\$ 0
December 31, 2003	1,000
December 31, 2004	1,000
December 31, 2005	68,851,920
December 31, 2006	191,920
Thereafter	4,414,160
Total principal payments	\$73,460,000

Required Supplementary Information

Notes to Required Supplemental Information

December 31, 2002

1 Schedules of Funding Progress

The information contained in the schedule of funding progress is based on the actuarial study dated January 1, 2002 and calendar year 2002 activity. The actuarial accrued liability is presented based on the report

generated by that study conducted by Gabriel, Roeder, Smith & Company. The actuarial value of assets for that date is based on a smoothed expected investment income rate. Investment income in excess or shortfall of the expected 8% return on fair value is smoothed over a

five-year period with 20% of a year's excess or shortfall being recognized each year beginning with the current year. The calculations for this smoothing process are disclosed in note 5 of the notes to the basic financial statements on page 48.

2 Schedules of Employer Contributions

The required employer contributions and percent of those contributions actually made are presented in the schedule.

3 Actuarial Assumptions

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuations follows.

Additional Actuarial Information

	Contributory	Noncontributory	Public Safety	Firefighters	Judges	Governors and Legislative
Valuation date	1/1/02	1/1/02	1/1/02	1/1/02	1/1/02	1/1/02
Actuarial cost method	Entry Age	Entry Age	Entry Age	Entry Age	Entry Age	Entry Age
Amortization method	Level Percent of Payroll	Level Percent of Payroll	Level Percent of Payroll	Level Percent of Payroll	Level Percent of Payroll	Level Dollar Amount
Amortization period	Open Group 20 Year Open Period	Open Group 20 Year Open Period	Open Group 20 Year Open Period	Open Group 20 Year Open Period	Open Group 20 Year Open Period	Open Group 20 Year Open Period
Actuarial asset valuation method (All Systems under same method.)	Based on the total fair value income of investments with the excess or shortfall of actual investment income over or under the expected investment return smoothed over five years. One-fifth of the excess or shortfall is recognized each year for five years.					
Actuarial assumptions:						
Investment rate of return	8%	8%	8%	8%	8%	8%
Projected salary increases	4.75-15.00%	4.75-15.00%	4.75-10.75%	4.75-11.75%	4.75%	None
Inflation rate	3.00%	3.00%	3.00%	3.00%	3.00%	3.00%
Post retirement cost-of-living adjustment	3.00%	3.00%	2.50%	3.00%	3.00%	3.00%

NOTE: All post retirement cost-of-living adjustments are noncompounding and are based on the original benefit except for Judges which is a compounding benefit. The cost-of-living adjustments are also limited to the actual CPI increase for the year although unused CPI increases not met may be carried forward to subsequent years.

Report on Investment Activity

As we conclude a difficult year, both in the markets here and around the world, we see that many of the excesses built into the market in the late 1990s have now been erased. The Standard & Poor's 500 Index experienced returns of over 20% for each of the five years 1995 through 1999. The following three years, from 2000 through 2002, each experienced negative returns in excess of 9%. Public confidence in the economic and geopolitical outlook is somewhat negative and three years of losses have reduced stock investors' expectations to modest levels.

The domestic market as measured by the total return for the Standard & Poor's 500 index declined approximately 22.1% for the year ended December 31, 2002. The international market total return as measured by the Europe Australia/Asia Far East ("EAFE") index was only slightly better declining approximately 15.9% for the same period. Although the equity markets had significant declines, the domestic fixed income market as measured by the Lehman Brothers Aggregate returned 10.3% for the year. The international fixed income market did even better. The total return as measured by the Salomon Smith Barney Non-U.S. Government index was 22.0%.

The Utah Retirement Systems ("Systems") were not immune to the decline in the equity markets for 2002. However, because the Systems diversifies its portfolio, its loss was significantly less than the equity market returns as noted above. The Systems declined in fair market value by 7.5%. This loss impacted the Systems five-year return number dropping it to 2.8% as compared to the five year number a year ago of 7.5%. In spite of the negative news, the Systems continue to be financially strong. Over the past ten years, the Systems have returned 8.1% achieving its actuarial goal of 8%.

Going forward, the equity markets are much more reasonably

valued and, hopefully, as the economy continues to recover, the markets will return to positive returns. As we have stated previously, and will continue to state, the Systems' time horizon is very long term.

Our outlook covers twenty to thirty years. Although these past few years have certainly been painful for all of us, we do not view this environment as having any devastating impact on the Systems. The Systems produced returns better than 60% of its peers over these past three difficult years. We will continue to hold to our investment process, which we believe is sound and should produce the needed return for our participants in the long run. We have just concluded an Asset/Liability study to determine if we need to make any changes to our asset allocation strategy. We are happy to report that the study's conclusions confirm our current allocation. Although we might make minor adjustments, our commitment of 58% to equity investments, 26% to fixed income investments, 9% to real estate investments, and 7% to alternative investments remains in place. The Utah Retirement Systems are committed to following a disciplined plan that will product long-term success.

Investment Highlight

Outline of Investment Policies

The governing body of the Utah Retirement Systems (Systems) is the seven member Utah State Retirement Board. The Board is composed of the Utah State Treasurer, who serves as an ex-officio member, and six trustees who are appointed by the Governor. Four board members are appointed for their investment expertise, and two members are appointed to represent employee and employer interests.

The Board has statutory authority to pool pension assets in the Utah Retirement Investment Fund (Fund). Statutes also establish that this Fund shall be invested in accordance with the “prudent person rule”. The prudent person rule requires all members of the Board and investment staff to discharge their duties solely in the interest of Systems’ participants and beneficiaries and with the care, skill, prudence and diligence which they

would exercise in the conduct of their own affairs. To this end a Statement of Investment Policy and Performance Objectives has been created for the Fund and adopted by the Board. The purpose of this Statement is to:

- Outline the expected return and risk profile for the Fund;
- Establish the target asset allocation mix and acceptable rebalancing ranges;

- Describe plan and manager policies and objectives for performance evaluation;
- Communicate investment performance standards to investment managers.

The primary investment objectives are to preserve Fund assets and generate an appropriate level of risk-adjusted return to meet future pension obligations. The Systems periodically complete an asset allocation and liability study to determine the optimal portfolio diversification to meet those obligations.

The Systems’ investment portfolio includes strategic, long-term commitments in the following asset classes: Domestic Equities, Domestic Debt Securities, International Equities, International Debt Securities, Real Estate, and Alternative Investments. Asset allocation is reviewed in conjunction with the plan liabilities at least every five years.

Defined Benefit Investments

Investment Highlights *(Continued)*

The Board’s policy is to establish a long-term strategic asset allocation that mitigates overall expected portfolio risk (volatility) and maximizes expected return without unduly constraining the discretionary, tactical decision-making process of the investment managers.

To implement the asset allocation plan, the Executive Director, supported by the Board, staff and consultant, selects appropriate money management experts to invest the Fund assets. This selection process includes the creation of specific search criteria, completion and documentation of analysis and due diligence on potential candidates, and interviews completed by the staff and/or Board. It is not the staff or Board’s intention to be involved with the day-to-day decisions made by external investment managers. Internal investment staff also manages segments of the portfolio.

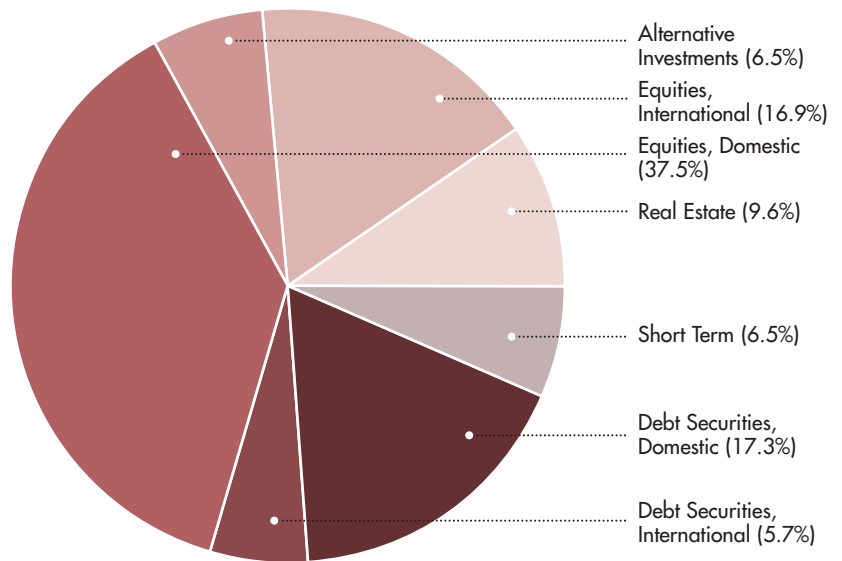

All managers must act within the restrictions established by the investment guidelines put forth in the Statement of Investment Policy. All managers must acknowledge a co-fiduciary status to the Fund. All managers are expected to communicate with the staff at least quarterly.

Managers’ portfolios are evaluated both against appropriate market indices and similar manager style groups. The investment policy outlines appropriate benchmarks.

Investment return calculations are prepared using a time-weighted rate of return based on Performance Presentation Standards of the Association for Investment Management and Research (AIMR).

(1) Smoothed Expected Rate of Return consists of investment income in excess or shortfall of the expected 8% on fair value smoothed over a five-year period with 20% of a year's excess or shortfall being recognized each year beginning with the current year.

(2) Fair Value Rate of Return consists of cash income plus gains and losses due to changes in market value, whether realized or unrealized.

(3) Actuarial Assumed Interest Rate is the assumed rate of return on the fair value of assets, and is used in establishing retirement contribution rates and in determining current benefit reserve requirements.

401(k) and 457 Investments

Investment Highlights

Introduction

Utah Retirement Systems' 401(k) and 457 Plans are tax-deferred retirement savings programs authorized under sections 401(k) and 457 of the Internal Revenue Code. These plans are available to employees of the state, local government, and public education employers throughout Utah. The participants of the plans have a choice of eleven investment funds in which their monies may be invested. Each participant may choose one or a combination of these funds.

In addition, there is a Group Annuity Fund that is closed to contributions, but where current balances still exist. The table to the right shows the total investments in the

various investment options. The asset graph below shows the asset distribution at December 31, 2002.

Investment and Administrative Expenses

There are no front-end load, redemption, or other hidden fees associated with these plans;

although, Beneficial Life Insurance Company may impose a penalty on transfers from the Group Annuity Fund. All costs reflected in the table above are deducted from earnings prior to posting to participant accounts and do not appear on participant statements.

By administering the defined contribution plans internally rather than through a third party, expenses are kept at very low levels to maximize earnings to each participant. The

table above shows these expenses to be nominal when compared to fees as high as 10% on some annuities, mutual funds, and insurance contracts.

Rates of Return

Rates of return shown on the accompanying chart on page 91 are net rates, after all costs and fees have been deducted.

August 8, 2002

Utah State Retirement Board
560 East 200 South
Salt Lake City, UT 84102

Dear Members of the Board

Subject: Certification of 2002 Actuarial Valuation

The actuarial valuation report describes the current actuarial condition of the Utah Retirement Systems (URS), determines the recommended employer contribution rates, and analyzes changes in these contribution rates. Valuations are prepared annually, as of January 1, the first day of the URS plan year.

Under URS statutes, the Board of Trustees must certify employer contribution rates annually. These rates are determined actuarially, based on the Board's funding policy. Contribution rates determined by a given actuarial valuation become effective eighteen months after the valuation date. For example, the rates determined by this January 1, 2002 actuarial valuation will be used by the Board when certifying the employer contribution rates for the year beginning July 1, 2003 and ending June 30, 2004. If new legislation is enacted between the valuation date and the date the contribution rates become effective, the Board may adjust the recommended rates before certifying them, in order to reflect this new legislation. Such adjustments are based on information supplied by the actuary.

Financing objectives and funding policy

In setting contribution rates, the Board's principal objectives have been:

- to set rates so that the unfunded actuarial accrued liability (UAAL) will be amortized over a 20-year period from the current valuation date.
- to set rates so that they remain relatively level over time.

To accomplish this, the Board's funding policy requires that the employer contribution rate be at least equal to the sum of the employer normal cost rate (which pays the current year's cost) and an amortization rate which results in the amortization of the UAAL over 20 years in installments which increase at the assumed rate of growth in payroll for URS. The current assumed rate of growth in payroll for URS is 4.00%, increased from 3.00% last year.

The Board uses an open 20-year amortization period. In other words, a 20-year amortization period is used in each valuation, rather than having the period decrease to 19, 18, etc.

Under this policy, the objective of maintaining relatively level contribution rates over time is achieved.

Progress toward realization of financing objectives

The funded ratio (the ratio of the actuarial value of assets to the actuarial accrued liability) is a standard measure of a plan's funded status. In the absence of benefit improvements, it should increase over time, until it reaches 100%. Because of the investment losses recognized in the actuarial value of assets, the funded ratio for almost all of the funds in URS decreased since the last valuation. The exceptions were two of the smaller public safety funds — Provo and Bountiful — and the 3% substantial substitute.

For all systems combined, the funded ratio decreased from 104.7% to 102.7%. Most of the individual funds have ratios over 100%, and only the 3% Substantial Substitute Fund and the Salt Lake City Noncontributory Public Safety Fund have funded ratios less than 90%. Since the funded ratio for all systems combined was 76.9% in 1990, significant progress has

been made over the last twelve years, even though a number of benefit increases have been granted during that time, and even though the 3% substantial substitute was added as a URS liability. However, if market value had been used in the calculation instead of actuarial value, the aggregate ratio for all funds combined would have been 91.8%.

Benefit provisions

The benefit provisions reflected in this valuation are those which were in effect on January 1, 2002, or which were adopted by the end of the 2002 legislative session and are effective on or before July 1, 2003.

None of the new legislation adopted since the preceding valuation date had a measurable impact on our results.

Assumptions and methods

The Board, in consultation with the actuary, sets the actuarial assumptions and methods used in the valuation. In connection with the valuations in even-numbered years, the actuary conducts a thorough review of plan experience for the preceding five years, and then makes recommendations to the Board.

An experience analysis was carried out in connection with this valuation, and as a result we are recommending a number of changes in the actuarial assumptions. Our recommendation include:

- Changes to the post-retirement mortality assumptions for most groups
- Changes to the service-related salary increase rates for members of the public safety systems
- Decreases in the disability incidence rates for most groups
- An increase in the payroll growth rate assumption from 3.00% to 4.00%

We have recommended that the assumed inflation rate remain at 3.00% and that the assumed nominal investment return rate remain at 8.00%. We have not recommended any changes in the actuarial cost method (entry age normal) or in the method for determining the actuarial value of assets (five-year smoothing).

It is our opinion that the assumption are internally consistent and are reasonably based on past and anticipated future experience of the System.

Data

Member data for retired, active and inactive members was supplied as of December 31, 2001 by the System's staff. We did not audit this data, but we did apply a number of tests to the data, and we concluded that it was reasonable and consistent with the prior year's data. The staff also supplied asset information as of December 31, 2001.

Certification

We certify that the information presented herein is accurate and fairly portrays the actuarial position of URS as of January 1, 2002. We prepared the accompanying Summary of Actuarial Assumptions and Methods, but the URS staff prepared the other supporting schedules in this section and the trend tables in the financial section based on information supplied in our report. The staff rolls forward to December 31 the actuarial liabilities supplied in our report as of January 1, and the staff computes the actuarial value of assets as of December 31. These procedures have been reviewed by us and found reasonable.

All of our work conforms with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. In our opinion, our calculations also comply with the requirements of Utah state law and, where applicable, the Internal Revenue Code, ERISA, and the Statements of the Governmental Accounting Standards Board. The undersigned are independent actuaries and consultants. Mr Carter and Mr. Conradi are Enrolled Actuaries and Members of the American Academy of Actuaries, and all three are experienced in performing valuations for large public retirement systems.

Sincerely,
Gabriel, Roeder, Smith & Company

Summary of Actuarial Assumptions and Methods

As of January 1, 2002

a The actuarial valuation was prepared using the entry age actuarial cost method. As described in the certification letter, the contribution rates are set based on the board’s funding policy, which states

the contribution rate will not be less than the amount needed to amortize the unfunded actuarial accrued liability of each System over a 20-year period from the valuation date (January 1, 2002).

In calculating this minimum, amortization payments are designed to remain level as a percent of payroll, and payroll is assumed to increase 4.0% per year. Under this method, actuarial gains and losses are identified and amortized as part of the unfunded actuarial accrued liability over a 20-year period.

b The future investment earnings of the assets of the Systems are assumed to accrue at an annual rate of 8%, compounded annually. This rate is made up of a 3.0% assumed inflation rate and a 5.0% assumed real rate of return. This assumption was adopted January 1, 2000.

c The total rates of assumed annual salary increase are shown on the actuarial schedule on page 99. The rates include increases due to promotion and longevity and a 4.75% per annum rate of increase in the general wage level of the membership. Salaries of judges are assumed to increase at 4.75%. These assumptions were adopted January 1, 2001. (Rates for public safety members were adopted January 1, 2002.)

d Post retirement benefit increases are based on the Consumer Price Index, limited by the provisions

of each System. For members of the Public Safety Retirement System, annual increases are assumed to be 2.5%. All other Systems’ annual increases are assumed to be 3.0%. Increases are based on the member’s original retirement allowance except in the Judges Retirement System, where increases are compounded.

e Tables of mortality rates for members retired for service and beneficiaries were developed from standard mortality tables. The mortality basis is dependent upon the member’s class and gender as shown below. These rates were adopted January 1, 2002. Mortality rates for active members were developed from actual experience of that group.

Retired Member Mortality

Class of Member

Educators

Men..... UP94M (-4)

Women UP94F (0)

Public Safety and Firefighters

Men..... UP94M (0)

Women..... UP94F (0)

Local Government, Public Employees and All Beneficiaries

Men..... UP94M (-2)

Women..... UP94F (0)

UP94M (xx) = 1994 Unisex Pensioners Mortality Table for Males adjusted xx years.

UP94F (xx) = 1994 Unisex Pensioners Mortality Table for Females adjusted xx years.

f Mortality among disabled members is based on a special 1981 Disability Table developed by a previous actuary from the Systems’ experience. Rates for males are based on a 2-year set forward and rates for females are based on a 2-year setback. These rates were modified January 1, 2002.

g Other demographic assumptions regarding retirement, mortality, disablement and termination from employment are illustrated in the following actuarial schedules.

The retirement assumptions illustrated are for members of the Systems who are eligible to retire with 30 years of service. The rates vary by age and service groupings.

Rates of assumed termination from employment at any age are assumed to vary during the first five years of employment. The rates of termination illustrated are for members in their first or in their sixth or subsequent year of service; rates at intermediate points fall between the two sets illustrated. All terminating members who are not eligible for vested benefits are assumed to withdraw their contributions immediately. Vested members are assumed to withdraw their contributions and forfeit the right to further benefits at the rates illustrated.

h The Retirement Board uses the expected rate of return method for calculating the actuarial value of assets. This method is based on the total earnings of the commingled investments and spreads the excess/shortfall of actual investment returns over or under the expected return over five years. One-fifth of the excess/shortfall is recognized each year. The actuarial values of assets under this method were calculated and reported to us by the Systems’ staff.

i All of the actuarial assumptions were adopted by the Retirement Board in 2002, as recommended by the actuary.

Contributory Retirement System

Summary of Plan Provisions

Description	Requirement															
Membership Eligibility	The Public Employees Contributory Retirement System includes eligible public employees of the State of Utah and its political subdivisions including public education employees of those entities covered by the System. An employee is qualified for membership in the Contributory System if his or her employer participates in the System and the employee works at least 20 hours per week and receives benefits normally provided by his or her employer as approved by the Retirement Board, teachers who teach half-time, and classified school employees who work an average of 20 hours per week or more regardless of benefits provided.															
Vesting	Retirement benefit becomes vested upon the member's completion of 4 years of qualifying service. Eligible member contributions and interest thereon vest immediately.															
Service Retirement	<table border="0"> <thead> <tr> <th style="text-align: left;">Age</th> <th style="text-align: left;">Years of Service</th> <th style="text-align: left;">Allowance Reduction†</th> </tr> </thead> <tbody> <tr> <td>Any age.....</td> <td>30.....</td> <td>None</td> </tr> <tr> <td>60-61</td> <td>203%</td> <td>each year before age 65</td> </tr> <tr> <td>62-64</td> <td>103%</td> <td>each year before age 65</td> </tr> <tr> <td>65.....</td> <td>4.....</td> <td>None</td> </tr> </tbody> </table> <p>†With fewer than 30 years of service from any combination of Utah Retirement Systems, retiring before age 65 will reduce the monthly benefit by 3% for each year between ages 60 and 65.</p>	Age	Years of Service	Allowance Reduction†	Any age.....	30.....	None	60-61	203%	each year before age 65	62-64	103%	each year before age 65	65.....	4.....	None
Age	Years of Service	Allowance Reduction†														
Any age.....	30.....	None														
60-61	203%	each year before age 65														
62-64	103%	each year before age 65														
65.....	4.....	None														
Service Benefit Formula	<ol style="list-style-type: none"> 1) Number of years of service before 7-1-75 x 1.25% x FAS*; 2) Number of years of service after 6-30-75 x 2.0% x FAS*; 3) Plan 1 allowance = total of 1 and 2. <p>*FAS (Final Average Salary) = highest five years' earnings converted to a monthly average. Yearly salary increases are limited to 10% plus a COLA determined by the CPI.</p>															
Cost of Living Allowance	Up to 4% annually on the original retirement benefit. Eligible after one year.															
Death Benefits	<p>An active member's death benefit consists of an insurance payment equal to 75% of the highest annual salary with a minimum of \$1,000 and a refund of contributions plus interest. The spouse of a deceased member is eligible for a monthly benefit if they have been married for at least six months and the member meets age and service qualifications, or has 25 years of service.</p> <p>An inactive member's death benefit for someone with fewer than ten years of service consists of a refund of contributions plus interest. For those with ten or more years of service credited to their account prior to July 1, 1987 and who have not withdrawn their contributions, the benefit is the same as for active members.</p> <p>A retired member's death benefit depends on the retirement option selected at retirement. No death benefit is available without a reduced retirement benefit.</p>															
Refunds	A terminated member is eligible for a 100% refund of member contributions plus interest. There is a 60-day refund processing period after the last day of paid employment.															
Redeposits	A redeposit with interest may be made in monthly installments, by a lump-sum payment, or by direct transfer from a qualified plan. A redeposit must be completed prior to retirement. Service credit is restored when the redeposit is completed.															
Contribution Rates <i>(as of 12-31-02)</i>	Member contribution rate is 6.00%* of covered salary. Employer rate for State and School (Level A) is 5.91% of covered salary and 4.68% for Local Government (Level B). *Employers have the option of paying all or part of member contributions on behalf of their employees.															
Interest	8% on member contributions.															

Noncontributory Retirement System

Summary of Plan Provisions

Description	Requirement																		
Membership Eligibility	The Public Employees Noncontributory Retirement System was established on July 1, 1986. All eligible employees of the State and School entities hired subsequent to that date are automatically members of the Noncontributory System. Local government entities had the option of adopting the new System or remaining with the Contributory System. An employee is qualified for membership in the Noncontributory System if his or her employer participates in the System and the employee works at least 20 hours per week and receives benefits normally provided by his or her employer as approved by the Retirement Board, teachers who teach half-time, and classified school employees who work an average of 20 hours or more per week, regardless of benefits provided.																		
Vesting	Retirement benefit becomes vested upon the member's completion of 4 years of qualifying service.																		
Service Retirement	<table border="0"> <thead> <tr> <th style="text-align: left;">Age</th> <th style="text-align: left;">Years of Service</th> <th style="text-align: left;">Allowance Reduction†</th> </tr> </thead> <tbody> <tr> <td>Any age.....</td> <td>30.....</td> <td>None</td> </tr> <tr> <td>Any age.....</td> <td>25.....</td> <td>Full actuarial before age 60</td> </tr> <tr> <td>60-61.....</td> <td>20.....</td> <td>3% each year before age 65</td> </tr> <tr> <td>62-64.....</td> <td>10.....</td> <td>3% each year before age 65</td> </tr> <tr> <td>65.....</td> <td>4.....</td> <td>None</td> </tr> </tbody> </table> <p>†With fewer than 30 years of service from any combination of Utah Retirement Systems, retiring before age 65 will reduce the monthly benefit approximately 7% for every year under age 60 and 3% for each year between ages 60 and 65.</p>	Age	Years of Service	Allowance Reduction†	Any age.....	30.....	None	Any age.....	25.....	Full actuarial before age 60	60-61.....	20.....	3% each year before age 65	62-64.....	10.....	3% each year before age 65	65.....	4.....	None

60-61.....	20.....	3% each year before age 65																	
62-64.....	10.....	3% each year before age 65																	
65.....	4.....	None																	
Service Benefit Formula	<p>Number of years of service x 2.0% x FAS*.</p> <p>*FAS (Final Average Salary) = highest three years' earnings converted to a monthly average. Yearly salary increases are limited to 10% plus a COLA determined by the CPI.</p>																		
Cost of Living Allowance	Up to 4% annually on the original retirement benefit. Eligible after one year.																		
Death Benefits	<p>An active member's death benefit consists of an insurance payment equal to 75% of the highest annual salary with a minimum of \$1,000 and a refund of transferred contributions plus interest. The spouse of a deceased member is eligible for a monthly benefit if they have been married for at least six months and the member meets age and service qualifications or has 15 or more years of service credit.</p> <p>An inactive member's death benefit for someone with fewer than ten years of service consists of a refund of transferred contributions plus interest. For those with ten or more years of service credited to their account prior to July 1, 1987 and who have not withdrawn their contributions, the benefit is the same as for active members.</p> <p>A retired member's death benefit depends on the retirement option selected at retirement. No death benefit is available without a reduced retirement benefit.</p>																		
Refunds	A terminated member who transferred from the Contributory Retirement System is eligible for a 100% refund of transferred member contributions plus interest. There is a 60-day refund processing period after the last day of paid employment.																		
Redeposits	A redeposit with interest may be made in monthly installments, by a lump-sum payment, or by direct transfer from a qualified plan. A redeposit must be completed prior to retirement. Service credit is restored when the redeposit is completed.																		
Contribution Rates <i>(as of 12-31-02)</i>	Employer rate for State & School (Level A) is 10.40% of covered salary and 8.69% for Local Government (Level B).																		
Interest	8% on member contributions transferred from the Contributory Retirement System.																		

Public Safety Retirement System

Summary of Plan Provisions

Description	Requirement												
Membership Eligibility	The Public Safety Retirement System includes eligible state and local government employees directly involved in law enforcement. The Public Safety System consists of the Contributory and Noncontributory divisions. Employees are qualified for membership in the Public Safety System if: (1) they are regularly scheduled to work and be compensated for 2,080 hours a year in a recognized public safety department; (2) they have completed a certified training program; (3) their primary duty is as a peace officer, correctional officer or special function officer; and (4) in the course of employment their life or personal safety is at risk.												
Vesting	Retirement benefit becomes vested upon the member's completion of 4 years of service credit. Eligible member contributions vest immediately.												
Service Retirement	<table border="1"> <thead> <tr> <th>Age</th> <th>Years of Service</th> <th>Allowance Reduction</th> </tr> </thead> <tbody> <tr> <td>Any age.....</td> <td>20</td> <td>None</td> </tr> <tr> <td>60.....</td> <td>10</td> <td>None</td> </tr> <tr> <td>65.....</td> <td>4</td> <td>None</td> </tr> </tbody> </table>	Age	Years of Service	Allowance Reduction	Any age.....	20	None	60.....	10	None	65.....	4	None
Age	Years of Service	Allowance Reduction											
Any age.....	20	None											
60.....	10	None											
65.....	4	None											
Service Benefit Formula	<ol style="list-style-type: none"> 1) 2.5% x FAS* x years of service up to 20 years. 2) 2.0% x FAS* x years of service over 20 years. 3) Monthly benefit = total of 1 and 2.** <p>*FAS (Final Average Salary) = highest three years' earnings converted to a monthly average. Yearly salary increases are limited to 10% plus a COLA determined by the CPI.</p> <p>**Benefits paid cannot exceed 70% of FAS.</p>												
Cost of Living Allowance	Up to 2.5% annually on original retirement benefit. Eligible after one year.												
Death Benefits	<p>Division A (with Social Security)</p> <p>If death is in the line of duty, the benefit to the surviving spouse is \$1,000 plus a monthly benefit of 30% of the final average salary. In the noncontributory system only, if death is in the line of duty, and the member has 20 years of service credit, the spouse's benefit is the same as for a retired member. If death is not in the line of duty, the benefit is \$1,000 or a refund of contributions for members with fewer than 10 years of service. For more than 10 years of service, the benefit to the surviving spouse is \$500 plus a monthly benefit of 2% of the final average salary for each year of service to a maximum of 30% of the final average salary. If there is no spouse, the settlement is a 100% refund of vested contributions payable to the beneficiary, or \$500, whichever is greater. Dependent children receive no additional benefits. A retired member's death benefit to the surviving spouse is 65% of the monthly benefit.</p> <p>Division B (without Social Security)</p> <p>If death is in the line of duty, the benefit to the surviving spouse is \$1,500 plus a monthly benefit of 37.5% of the final average salary. Each unmarried child under 18 or dependent unmarried mentally or physically disabled child receives \$50 per month if the member had two or more years of service. If death is not in the line of duty, the benefit is a refund of contributions plus 50% of the last 12 months of salary for members with fewer than two years of service. For members with more than two years of service, the benefit is the same as that for death in the line of duty. If there is no spouse, the settlement is a 100% refund of vested contributions payable to the beneficiary, or \$500, whichever is greater. A retired member's death benefit to a surviving spouse is 65% of the monthly benefit. An unmarried child under 18 or dependent unmarried mentally or physically disabled child receives \$50 per month.</p>												

Public Safety Retirement System**Summary of Plan Provisions** *(Continued)*

Description	Requirement
Refunds	A terminated member is eligible for a 100% refund of member contributions. There is a 60-day refund processing period after the last day of paid employment.
Redeposits	A redeposit with interest may be made in monthly installments, by a lump-sum payment, or by direct transfer from a qualified plan. A redeposit must be completed prior to retirement. Service credit is restored when the redeposit is completed.
Contribution Rates <i>(as of 12-31-02)</i>	<p>Contributory Option Member rates in Division A are: State units 12.29%; and all other units 12.29% of covered salary. Employer rates for Division B are: Salt Lake City 15.50%; Logan 3.66%; Provo 9.47%; and other units 7.34% of covered salary.</p> <p>*Employers have the option of paying all or part of member contributions on behalf of their employees.</p> <p>Noncontributory Option Employer rates for Division A are: State units 18.94%; Bountiful 17.41%; and other units 13.89% of covered salary. Employer rates for Division B are: Salt Lake City 28.27%; Ogden 17.98% and all other units 17.66% of covered salary.</p>
Interest	8% on member contributions in the Contributory System.

Firefighters Retirement System

Summary of Plan Provisions

Description	Requirement												
Membership Eligibility	The Firefighters Retirement System includes eligible state and local government employees directly involved in fire fighting and whose duties are classified as hazardous. If an employer does not classify the duties as hazardous, the employee will be enrolled in either the Public Employees Contributory or Noncontributory Retirement System. Employees are qualified for membership in the Firefighters System if they are regularly scheduled to work and be compensated for 2,080 hours a year in a regular constituted fire department and are regularly assigned to hazardous duty. Although volunteer firefighters who are on the rolls of a regularly constituted fire department do not contribute to the System and are not eligible for service retirement benefits, they or their beneficiaries receive benefits based on the salary of the lowest paid firefighters in a first-class city if they are disabled or killed in the line of duty.												
Vesting	Retirement benefit becomes vested upon the member's completion of 4 years of service credit. Eligible member contributions vest immediately.												
Service Retirement	<table border="1"> <thead> <tr> <th>Age</th> <th>Years of Service</th> <th>Allowance Reduction</th> </tr> </thead> <tbody> <tr> <td>Any age.....</td> <td>20.....</td> <td>None</td> </tr> <tr> <td>60.....</td> <td>10.....</td> <td>None</td> </tr> <tr> <td>65.....</td> <td>4.....</td> <td>None</td> </tr> </tbody> </table>	Age	Years of Service	Allowance Reduction	Any age.....	20.....	None	60.....	10.....	None	65.....	4.....	None
Age	Years of Service	Allowance Reduction											
Any age.....	20.....	None											
60.....	10.....	None											
65.....	4.....	None											
Service Benefit Formula	<ol style="list-style-type: none"> 1) $2.5\% \times \text{FAS}^* \times \text{years of service up to 20 years.}$ 2) $2.0\% \times \text{FAS}^* \times \text{years of service over 20 years.}$ 3) Monthly benefit = total of 1 and 2. ** <p>*FAS (Final Average Salary) = highest three years' earnings converted to a monthly average. Yearly salary increases are limited to 10% plus a COLA determined by the CPI. **Benefits paid cannot exceed 70% of FAS, but cannot be less than \$500.</p>												
Cost of Living Allowance	Up to 4.0% annually on original retirement benefit. Eligible after one year.												
Disability Benefits	If disability is in the line of duty, the benefit is 50% of the final average salary with no minimum age or service requirements. If disability is not in the line of duty, the benefit is a refund of contributions for members with fewer than five years of service. For members with more than five years of service, the benefit is the same as that for disability incurred in the line of duty. Benefits are suspended while receiving Workers Compensation.												
Death Benefits	<p>Division A (with Social Security)</p> <p>If death is in the line of duty, the benefit to the surviving spouse is \$1,500 plus a monthly benefit of 30% of final average salary.</p> <p>If death is not in the line of duty, the benefit is \$1,000 or a refund of contributions for members with fewer than 10 years of service. For members with more than 10 years of service, the benefit to the surviving spouse consists of \$500 plus a monthly benefit of 2% of the final average salary for each year of service to a maximum of 30% of the final average salary. If death is in the line of duty, and the member has 20 or more years of service credit, the spouse's benefit is the same as for a retired member. Total benefits cannot exceed 70% of the final average salary.</p>												

Firefighters Retirement System**Summary of Plan Provisions** *(Continued)*

Description	Requirement
	<p>Division B (without Social Security)</p> <p>If death is in the line of duty, the benefit to the surviving spouse is \$1,500 plus a monthly benefit of 37.5% of the final average salary. Each unmarried child under 21 or dependent unmarried mentally or physically disabled child receives \$75 per month if the member had five or more years of service. If death is in the line of duty, and the member has 20 or more years of service credit, the spouse's benefit is the same as for a retired member.</p> <p>If death is not in the line of duty, the benefit is a refund of contributions plus 50% of the last 12 months of salary for members with fewer than five years of service. For members with more than five years of service, the benefit is the same as that for death in the line of duty. If there is no spouse, the settlement is a 100% refund of vested contributions payable to the beneficiary, or \$500, whichever is greater. Total benefits cannot exceed 70% of the final average salary.</p> <p>A retired member's death benefit to a surviving spouse is 75% of the monthly benefit with a minimum monthly payment of \$350. An unmarried child under 21 or dependent unmarried mentally or physically disabled child receives \$75 per month.</p>
Refunds	A terminated member is eligible for a 100% refund of member contributions. There is a 60-day refund processing period after the last day of paid employment.
Redeposits	A redeposit with interest may be made in monthly installments, by a lump-sum payment, or by direct transfer from a qualified plan. A redeposit must be completed prior to retirement. Service credit is restored when the redeposit is completed.
Contribution Rates <i>(as of 12-31-02)</i>	<p>Member rate in Division A is 7.82% of covered salary. Member rate in Division B is 7.83% of covered salary.* Employer rate in Division A is 0.00% and in Division B is 0.00% of covered salary. A fire insurance premium tax equal to 8.88% of salaries is also an additional part of the employer contribution rates.</p> <p>Fire insurance premium taxes are collected by the Utah State Treasurer for the Firefighters Retirement System to help fund retirement benefits.</p> <p>*Employers have the option of paying all or part of member contributions on behalf of their employees.</p>
Interest	Member contributions receive no interest.

Judges Retirement System

Summary of Plan Provisions

Description	Requirement															
Membership Eligibility	The Judges Retirement System includes justices and judges of the courts of record as authorized in state statutes.															
Vesting	Retirement benefit becomes vested upon the member's completion of 6 years of service credit. Eligible member contributions and interest thereon vest immediately.

Employer rate includes 0.00% of covered salary and 18.40% from court fees.</p>															
Interest	8% on member contributions.															

Governors and Legislative Pension Plan Summary of Plan Provisions

Description	Requirement									
Membership Eligibility	The Governors and Legislative Pension Plan includes only governors and legislators of the State of Utah.									
Vesting	Retirement benefit becomes vested upon the member's completion of 4 years of service credit.									
Service Retirement	<table border="1"> <thead> <tr> <th>Age</th> <th>Years of Service</th> <th>Allowance Reduction</th> </tr> </thead> <tbody> <tr> <td>65</td> <td>4</td> <td>None</td> </tr> <tr> <td>62</td> <td>10</td> <td>3% each year before age 65</td> </tr> </tbody> </table>	Age	Years of Service	Allowance Reduction	65	4	None	62	10	3% each year before age 65
Age	Years of Service	Allowance Reduction								
65	4	None								
62	10	3% each year before age 65								
Service Benefit Formula	<p>Governors \$500 per month per term increased semi-annually up to 2% based on the CPI. The amount as of 12-31-02 is \$1,080 per term.</p> <p>Legislators \$10 per month per each year of service as a legislator increased semi-annually up to 2% based on the CPI. The amount as of 12-31-02 is \$24.00.</p>									
Cost of Living Allowance	Up to 4% annually on the original retirement benefit. Eligible after one year.									
Death Benefits	An active or retired member's death benefit to a spouse consists of a monthly pension equal to 50% of the retirement allowance paid, or to which the member would have been entitled to upon reaching age 65, if the member has four or more years of service as a governor or legislator. The deceased member and surviving spouse must have been married at least six months.									
Contribution Rates	There are currently no required contributions to the Governors and Legislative Pension Plan.									

Utah Retirement Systems

Changes in Plan Provisions

Legislation in the 2002 Session comprised two retirement bills, one comprising recodification of the retirement code and the second addressing certain types of transfers between public safety retirement systems.

General

Retirement Law Recodification

HB 250 Recodifies—or rewrites—the Retirement Code to update and clarify the language of the statute. Over time, individual bills board actions, and changes in practices and policies of the Systems necessitate incorporating these changes into the retirement law itself. Recodification was last done in the 1980s. While this bill makes significant changes in the *structure* of the statute and in administrative practices, it creates *no changes in benefits*.

Public Safety Retirement System

Retirement of Public Safety Officials

HB 230 Allows employers in the Public Safety Contributory System to convert to the Public Safety Noncontributory Retirement System for future employees. Also allows a current, appointed chief of police whose employer belongs or converts to the Public Safety Noncontributory System to also move to that system. The appointed chief may then at any future date retire and continue as the appointed chief of police.

401(k) and 457 Plans

Summary of Plan Provisions

Introduction

Utah Retirement Systems' 401(k) and 457 Plans are voluntary tax-deferred retirement savings programs authorized under sections 401(k) and 457 of the Internal Revenue Code. These plans are available to state, local government, and education employees throughout Utah whose employers have adopted the Plans.

Goals and Objectives

The purpose of these plans is to allow public employees throughout Utah to adequately prepare themselves for retirement by investing a portion of their income (before taxes) in one or both of these supplemental retirement plans.

It has long been recognized that in order for people to experience the comfortable and rewarding retirement they desire, they cannot rely entirely upon Social Security and their employer provided retirement. Employees must take the initiative to personally put aside a portion of their salary into some type of long-term savings plan. These tax-deferred defined contribution plans provide exceptional vehicles to accomplish the goal of a well balanced retirement plan. Employees who begin participating in these plans early in their careers can accumulate sizeable assets by the time they retire.

Employer Contributions

In addition to accepting employee deferrals, these plans also accept employer contributions on behalf of their employees. All state and public education employees participating in the Noncontributory Retirement System receive an amount equal to 1.5% of their salary in the 401(k)

Plan. All local government employers also have the option of contributing to the 401(k) Plan on behalf of their employees. Many contribute amounts in excess of the 1.5% the State contributes. Some employers match employee contributions.

Social Security Substitute

Local governments that have exempted themselves from Social Security coverage and have part-time, temporary, or seasonal employees, who are not participating in a qualifying retirement system, must now cover these employees with a substitute Social Security plan.

Employers may use the 401(k) / 457 Plans as a qualifying retirement system for these employees, but must contribute a minimum of 7.5% of salary to the Plan(s) in their behalf for it to be considered a "qualifying system". The employer may contribute the 7.5% themselves, or they may require their employees to pay a portion or all of it.

Summary of Plan Provisions

Deferral Limits

401(k)—Limited in 2002 to an annual maximum of \$11,000. Employer contributions and employee deferrals combined could not exceed \$40,000.

457—Limited to an annual maximum of \$11,000 or 100% of includable compensation.

Coordination of Deferrals

401(k)—Deferrals to the 401(k) and 403(b) plans were coordinated.
457—None.

Catch-up Provisions

401(k)—An additional \$1,000 for participants 50 or older during the year.

457—An additional \$1,000 for participants age 50 or older during the year. There is an additional "special catch-up" provision for individuals who are within four years of retirement eligibility. It allows participants to double their contributions to a 457 plan during three years immediately preceding the year they qualify for retirement. However, the special catch-up is limited to unused deferrals allowed in previous years.

Withdrawals

401(k)—Allowable upon termination of employment, age 59½, retirement, disability, death, or hardship caused by immediate and heavy financial needs.

457—Allowable upon termination of employment, retirement, disability, death, or severe unforeseeable financial emergencies.

Rollovers

401(k)—Allowable to or from another eligible retirement plan or to an IRA upon termination or other qualifying circumstance. May be either a direct rollover by the Plan or by the participant within 60 days after distribution.

457—Allowable to other eligible retirement plan or from another 457 plan.

Vesting

401(k)—Fully vested.
457—Fully vested.

Loans

401(k)—Available up to 50% of member account balance, to a maximum of \$50,000. Only one outstanding loan allowed.

457—None.

401(k) and 457 Plans

Summary of Plan Provisions *(Continued)*

Investment Transfer Options

Changes in deferral amounts and in the investment options for current contributions may be made at any time. Also, accumulated balances may be transferred from one investment option to another on a daily basis.

2002 Investment Options

Income Fund

The *Income Fund* is a stable value option which invests in a diversified portfolio consisting of U.S. government securities, mortgages, corporate bonds, guaranteed investment contracts, and short-term funds. This fund is the most conservative of the investment options and offers the most stable return.

Bond Fund

The *Bond Fund* invests in a diversified portfolio consisting of U.S. government securities, mortgages, corporate bonds, and short-term funds. This fund's return is affected by changes in the interest rates.

Balanced Fund

The *Balanced Fund* invests in a portfolio consisting of approximately 60% stocks, 35% bonds and 5% short-term funds. This fund is considered less risky than most stock investments but has higher risk than most fixed income investments.

Large Cap Stock Value Fund

The *Large Cap Stock Value Fund* invests in a diversified portfolio of common stocks that appear to be undervalued by the stock market but have a favorable outlook for long-term growth.

Large Cap Stock Index Fund

The *Large Cap Stock Index Fund* invests in stocks included in the Stan-

dard & Poor's 500 Index. This fund represents a broad range of industries in the U.S. economy.

Large Cap Stock Growth Fund

The *Large Cap Stock Growth Fund* emphasizes capital appreciation and seeks to identify companies with future relative earnings strength at a reasonable valuation.

International Fund

The *International Fund* invests primarily in stocks of companies outside of the United States. This fund offers international diversification, but adds currency risk and country risk not found in a U.S. fund. Accordingly, the risk and return potential of this fund is considered greater than a large cap U.S. fund.

Small Cap Stock Fund

The *Small Cap Stock Fund* invests in U.S. small companies listed on the New York Stock Exchange, the American Stock Exchange, and the NASDAQ national market system. Small company stocks have the potential for greater returns than large company stocks, and conversely have a greater risk of loss. Significant price fluctuations are more likely than in the other invest-

ment options. However this fund is well diversified and invests in over 3,000 companies.

Horizon Funds

A *Horizon Fund* asset allocation is designed to help those who want to diversify their investment. If they select one of the three Horizon Funds, contributions will be allocated to the investment options according to the following table. The Horizon Funds will generally rebalance quarterly if target ranges are exceeded. Utah Retirement Systems reserves the right to change these percentages as needed.

The *Short Horizon Fund* is designed for investors expecting to withdraw their funds within five years. This fund provides a relatively conservative investment with a more stable rate of return. However, with reduced market risk there is usually a lower rate of return.

The *Medium Horizon Fund* is designed for investors planning to withdraw their funds in five to ten years. This fund emphasizes moderate risk and moderate earnings potential. It has more risk than the Short Horizon Fund, but less than the Long Horizon Fund.

The *Long Horizon Fund* is designed for investors with ten or more years to invest before withdrawing their funds. The fund offers the potential for higher returns over a long period of time. There is higher market risk with this horizon fund, along with higher potential returns.

The historical rates of returns for each investment fund are found on page 91.

Horizon Funds Asset Allocations

1- A maximum monthly benefit for the retiree's life. No benefit to a beneficiary.

2- A reduced lifetime benefit to the retiree. A beneficiary receives the balance in retiree's account after the monthly annuity payments are deducted.

3- A reduced lifetime benefit to a retiree and a lifetime benefit equal to the retiree's benefit payable to the retiree's lawful spouse at the time of retirement.

4- A reduced lifetime benefit to the retiree and a lifetime benefit equal to half of the retiree's benefit to the retiree's lawful spouse at the time of retirement.

5- Approximately 95% of the benefit in type 3 and the same lifetime benefit for retiree's lawful spouse at the time of retirement. Benefit reverts to 100% at time of spouse's death.

6- Approximately 98% of the benefit in type 4 and a lifetime benefit for equal to half of the retiree's for retiree's lawful spouse at the time of the retirement. Benefit reverts to 100% at time of spouse's death.

7- Normal retirement for age and service and a lifetime benefit of 65% of the retiree's benefit to the retiree's lawful spouse at the time of the retiree's death.

8- Normal retirement for age and service and a lifetime benefit of 75% of the retiree's benefit to the retiree's lawful spouse at the time of the retiree's death.

9- Normal retirement for age and service and a lifetime benefit of 75% of the retiree's benefit to the retiree's lawful spouse at the time of the retirement.

* Governors and Legislative Pension Plan provides a normal lifetime pension to the retiree and 50% of the retiree's benefit to the retiree's lawful spouse at the time of death if the retiree had four or more years of service.
