Dear Board Members:
Section 1942, subsection (n), of Title 16, Chapter 55, Vermont Statutes Annotated, relating to the State Teachers' Retirement System of Vermont, provides in part that the actuary shall make annual valuations of the system.

The fifty-third actuarial valuation of the system, prepared as of June 30, 2001, has now been completed and the results are presented in this report, together with our recommendations in regard to contributions payable by the State.

On the basis of the current valuation, we recommend that a normal contribution of $2.81 \%$ of covered compensation and a payment of $\$ 10,815,322$ towards the liquidation of the unfunded accrued liability be made. Based on the reported payroll, the total contribution amounts to $\$ 22,146,880$ for the year beginning July 1, 2001. Schedule G provides the estimated contributions for the following two fiscal years.

The Table of Contents, which immediately follows, outlines the material contained in this report.
Respectfully submitted,

4. Schedule C outlines the benefit provisions that were taken into account in the valuation.
5. As part of the regular valuation, experience of the system during the previous year has been analyzed. We have summarized in graph form in Section VI experience during the past year.
6. Schedule F shows a graph of projected benefit payouts during the next ten years of benefits payable to current and future pensioners.
7. Schedule G shows projected contributions for the two following fiscal years.

## SECTION II - MEMBER DATA

1. Member data were furnished by the Retirement Division.
2. Schedule D presents tables that summarize active members, by age and service and service pensioners, disability pensioners and beneficiaries by annual benefit levels.
3. The following tables show a summary of membership of the system:

THE NUMBER AND ANNUAL ALLOWANCES OF RETIRED MEMBERS AND BENEFICIARIES AS OF JUNE 30, 2001

| GROUP |  | ANNUAL |
| :--- | ---: | ---: |
| Service Retirements | 3,462 | $\$ 39,949,987$ |

| Group C | 10,191 | \$399,764,951 |
| Total | 10,264 | \$403,258,305 |

## SECTION III - ASSETS

1. The amount of assets taken into account in the valuation is based principally on information supplied by the Retirement Division.
2. For actuarial purposes, the assets are valued using a method which reflects the market value of assets through gradual recognition of any unrealized appreciation or depreciation in assets beyond the assumed $81 / 2 \%$ return, provided the adjusted asset value is within $20 \%$ of the market value. The following shows the development of the valuation assets.

| Assets for valuation purposes, June 30, 2000 |  | \$1,037,465,880 |
| :---: | :---: | :---: |
| Cash flow during year (net of investment income) |  |  |
| Contributions paid | \$ 35,789,852 |  |
| Benefit payouts | $(44,057,595)$ |  |
| Expenses | (17,405,338) |  |
| Net |  | \$(25,673,081) |
| Expected investment income (8-1/2\%) |  | 99,627,125 |
| Preliminary asset value |  | \$1,111,419,924 |
| Market value, June 30, 2001 | \$ 1,138,548,007 |  |
| Preliminary asset value | 1,111,419,924 |  |
| Unrecognized appreciation | \$ 27,128,083 |  |
| Adjustment | x 20\% | \$ 5,425,617 |
| Adjusted asset value |  | \$1,116,845,541 |
| Assets for valuation purposes, June 30, 2001 |  | \$1,116,845,541 |

3. The assets for valuation purposes are $98.1 \%$ of market value.
4. The investment rate of return for the year ending June 30, 2001 is $10.25 \%$, based on the valuation assets.

## SECTION IV - COMMENTS ON VALUATION

1. Schedule A of the report contains the valuation balance sheet, which shows the present and prospective assets and liabilities of the system as of June 30, 2001.
2. The adjusted assets of the system amount to $\$ 1,116,845,541$. The present value of prospective allowances to be paid to current retired members, terminated vested members and beneficiaries amounts to $\$ 458,852,661$ and the present value of prospective benefits expected to become payable to current active and inactive members amounts to $\$ 1,003,872,710$, for total liabilities of $\$ 1,462,725,371$. Therefore, after subtracting assets of $\$ 1,116,845,541$, the amount to be provided through prospective contributions is \$345,879,830.
3. Prospective member contributions have a value of $\$ 108,554,659$, which leaves $\$ 237,335,171$ to be met by the State. The State's contributions consist of a normal contribution and an accrued liability contribution. The accrued liability contribution represents the amount (assumed to increase by 5\% each year) necessary to liquidate the balance of the unfunded accrued liability as of June 30, 2001 over a 17-year period from that date. Future normal contributions represent the balance of contributions needed to fund the system. After subtracting the current balance of the unfunded accrued liability, $\$ 137,495,648$, from the present value of prospective State contributions, $\$ 237,325,171$, there remains $\$ 99,829,523$ to be met by future normal contributions. We have calculated that future normal contributions at the rate of $2.81 \%$ of members' compensation are required to provide this amount.
4. The normal contribution rate of $2.81 \%$ may be compared to the rate of $2.75 \%$ determined as of June 30, 2000. The following table indicates the reasons for the increase in rate:

| ITEM | EFFECT OF <br> (GAIN) OR LOSS |
| :--- | ---: |
| Normal rate as of June 30, 2000 |  |
| Investment experience | $2.75 \%$ |
| Salary increases | $+.0 .01 \%$ |
| Retired member mortality | $-0.05 \%$ |
| COLA | $+0.06 \%$ |
| New members | $-0.02 \%$ |
| Contribution shortfall | $+0.28 \%$ |
| Net withdrawal/retirement | $+0.07 \%$ |
| Normal rate as of June 30, 2001 | $\underline{-0.29 \%}$ |

## SECTION V - CONTRIBUTIONS PAYABLE UNDER THE SYSTEM

1. Section 1942, Subsection (n), of Title 16, Chapter 55, Vermont Statutes Annotated, relating to the State Teachers’ Retirement System of Vermont, indicates that the actuary shall submit to the Board of Trustees his recommendation as to the contributions payable by the State based on annual valuations of the assets and liabilities of the system.
2. On the basis of the results of the current valuation, and assuming contributions are payable monthly, the actuary recommends that the Board of Trustees certify the following contributions for the year commencing July 1, 2001:

Normal contribution
Accrued liability contribution
Total
\$11,331,558
10,815,322
\$22,146,880

## SECTION VI - EXPERIENCE

1. Records are maintained whereby the actual experience of the system may be compared with the expected experience based on the tables adopted by the Board of Trustees. This experience is reviewed periodically, and any change suggested by the cumulative experience of the system will be recommended to the Board.
2. The active service and salary experience for the latest year is summarized in graphs on the following pages.
