Department of Retirement Systems Guiding Principles

The personal financial security of our members is a key part of the economic vitality of Washington State.

*

Long-term financial security provides the opportunity for individuals to reach their personal goals.

*

Lifetime financial security is more likely to be achieved when individuals have access to unbiased information and instruments that recognize the challenges of saving.

*

An informed, competent, self-confident staff provides outstanding services to plan members.

*

Appreciation for performance, mutual accountability for underperformance, and recognition for outstanding performance are the foundation of the employee/employer relationship.

Introductory Section

Message from the Director

Every seven seconds, a person born in the baby boom generation turns 50. By 2014—less than a decade from now—these people will all be over the age of 50, with the first among them turning 68. And they will have a healthier and longer lifespan than that of any previous generation.

These facts and others have caught the attention of many, including the news media, who over the last year have been asking “Are we ready to retire?” The Department of Retirement Systems takes this question and your well-being seriously. It is the basis for continuous upgrades we will be making in our publications, website, one-on-one counseling, and planning seminars.

Our goal is to assist you in using your retirement benefits to create a life-long income stream. How are we approaching this? By partnering with our members and others to help plan changes in our services. Equally important, we will continue to maintain the cost-effectiveness and the personalized service you appreciate, as we look toward the future.

Here are a few of the highlights of our 2006 year:

- **Cost-effectiveness.** In 2006, our administrative cost per member again came in below that of peer pension systems with similar complexity.
- **Outstanding service.** Incoming phone calls reached a trained, knowledgeable staff member within 35 seconds, walk-in customers met with staff in less than four minutes and requests for written pension estimates were fulfilled in an average of less than 4 days.
- **Innovation.** We designed and launched a staff recruitment process that gives prospective employees an up-close look at the job requirements so that we know each member of our agency cares about you and can give you first-rate service.
- **Outreach.** We made presentations to public employee groups, as well as civic and news organizations, that increased awareness of the need to plan and prepare for a post-career life.

In 2006, we celebrated 30 years as an agency by continuing to deliver exceptional service to our members and value to the taxpayers of Washington. It was a time of looking back, but more importantly, ahead.

We look forward to providing you with outstanding and continuously improving services in 2007.

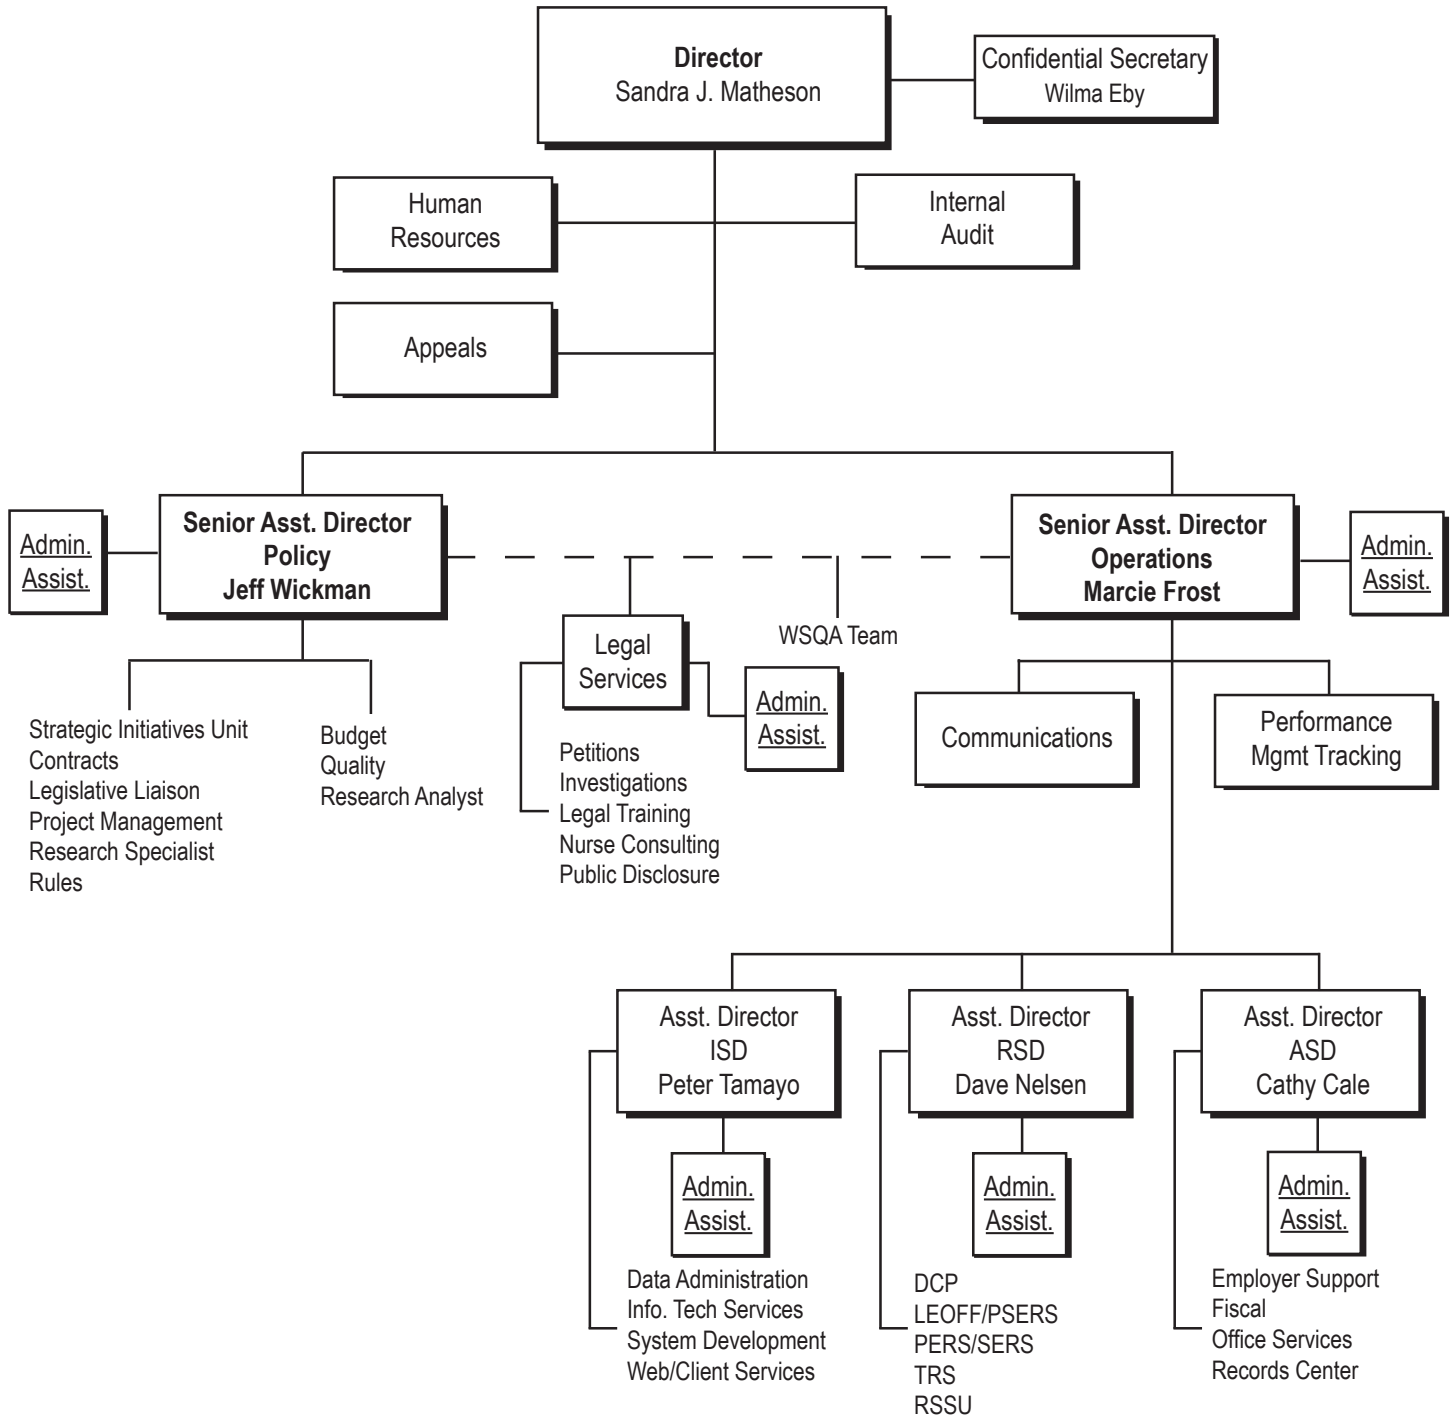

Sincerely,

Sandra J. Matheson
Director

If you have questions about this report or would like to request additional information, please call us toll-free at 1-800-547-6657. In the Olympia area, dial 664-7000. You may also write us at P.O. Box 48380, Olympia, WA 98504-8380 or visit our Web site at www.drs.wa.gov.

Department of Retirement Systems' Organization

December 2006

Pension System Roles and Responsibilities

Department of Retirement Systems (DRS)

Collects and accounts for employer and employee contributions; maintains retirement records; pays benefits; communicates pension information; provides investment education; and administers the Deferred Compensation and Dependent Care Assistance Programs.

The governor appoints the director of DRS.

P.O. Box 48380, Olympia, WA 98504-8380
Telephone: (360) 664-7000, in Olympia, or toll-free at 1-800-547-6657
Web site: www.drs.wa.gov

Legislative Fiscal Committees

Review and report on retirement bills to the full Legislature.

The legislative fiscal committees are the House Appropriations Committee and the Senate Ways and Means Committee.

House Appropriations Committee
P.O. Box 40600, Olympia, WA 98504-0600
Telephone: (360) 786-7573 or toll-free 1-800-562-6000
(Legislative Hotline)
Web site: www1.leg.wa.gov/legislature

Senate Ways and Means Committee
P.O. Box 40482, Olympia, WA 98504-0482
Telephone: (360) 786-7715 or toll-free 1-800-562-6000
(Legislative Hotline)
Web site: www1.leg.wa.gov/legislature

Select Committee On Pension Policy

Studies pension issues and retirement finances. Develops pension policies and recommends pension legislation.

The Select Committee on Pension Policy is composed of four members of the Senate, four members of the House of Representatives, four representatives of active state retirement system members, two representatives of retired members, four employer representatives and the directors of the Office of Financial Management and the Department of Retirement Systems.

Committee Membership (June 30, 2006)

Representative Barbara Bailey	Lois Clement - PERS Retiree
Representative Steve Conway	Bob Keller - PERS Active
Representative Larry Crouse	Corky Mattingly - PERS Employers
Representative Bill Fromhold (Vice Chair)	Doug Miller - PERS Employers
Senator Karen Fraser	Glenn Olson - PERS Employers
Senator Joyce Mulliken	Pat Thompson - PERS Active
Senator Craig Pridemore (Chair)	David Westberg - SERS Active
Senator Mark Schoesler	Elaine Banks - TRS Retiree
Sandra J. Matheson - Director, Department of Retirement Systems	Diane Rae - TRS Active
Victor Moore - Director, Office of Financial Management	Leland Goeke - SERS and TRS Employers

Can be contacted through the State Actuary's office
 P.O. Box 40914, Olympia, WA 98504-0914
 Telephone: (360) 786-6140
 Web site: www1.leg.wa.gov/scpp

Pension Funding Council

Adopts economic assumptions for pension funding and member and employer pension contribution rates for PERS, SERS, TRS, LEOFF Plan 1 and WSPRS.

Membership consists of the directors of DRS and Office of Financial Management, and the Chairs and Ranking Minority Members of the Senate Ways and Means Committee and House Appropriations Committee.

Council Membership

- Sandra J. Matheson—Director, Department of Retirement Systems, Chairperson
- Victor Moore—Director, Office of Financial Management
- Representative Gary Alexander—Ranking minority member, Appropriations Committee
- Representative Helen Sommers—Chair, Appropriations Committee
- Senator Margarita Prentice—Chair, Ways and Means Committee
- Senator Joseph Zarelli—Ranking minority member, Ways and Means Committee

Can be contacted through DRS. See information on preceding page.

Office of Financial Management

Advises the governor on pension and funding policies and issues.

The governor appoints the director of OFM.

P. O. Box 43113, Olympia, WA 98504-3113

Telephone: (360) 902-0555

Web site: www.ofm.wa.gov

Washington State Investment Board

Invests and accounts for pension funds. The Board consists of ten voting members.

Membership consists of the director of DRS; the state treasurer; the director of Department of Labor and Industries; a state senator; a state representative; an active member of PERS, SERS, LEOFF and TRS; and a retired member of one of the seven systems.

Board Members (Voting Members, June 30, 2006)

Senator Lisa Brown

Representative Helen Sommers

George Masten
Representative of Retired Members

Gary K. Weeks
Director, Department of Labor and Industries

Sandra J. Matheson
Director, Department of Retirement Systems

Vacant
Representative of PERS

Patrick McElligott (Chair)
Representative of LEOFF

Glenn Gorton
Representative of SERS

Michael J. Murphy
State Treasurer

David Scott
Representative of TRS

Board Members (Nonvoting Members, June 30, 2006)

Charles A. Kaminski
Investment Professional

Robert S. Nakahara
Investment Professional

Jeffrey Seely
Investment Professional

John Magnuson
Investment Professional

David Nierenberg
Investment Professional

P.O. Box 40916, Olympia, WA 98504-0916

Telephone: (360) 956-4600

Web site: www.sib.wa.gov

Office of the State Actuary

Acts as an advisory agency to the legislature and director of DRS. Performs actuarial studies and reports on retirement bills. Creates formulas used to compute benefit payment adjustments that are based on early retirement, cost-of-living or long-term survivor benefits.

The State Actuary is appointed by the Select Committee on Pension Policy.

P.O. Box 40914, Olympia, WA 98504-0914

Telephone: (360) 786-6140

Web site: osa.leg.wa.gov

Employee Retirement Benefits Board

Provides recommendations to the Washington State Investment Board on self-directed investment options for defined contribution plans; determines the payment options available for Plan 3 members; ratifies administrative charges assessed to members who participate in self-directed investment options; and provides recommendations on investment options for the Deferred Compensation Program. Board members are appointed by the governor.

Board Membership (June 30, 2006)

Board Chairperson

- Sandra J. Matheson—Director, Department of Retirement Systems

Representing experience in defined contribution plan administration:

- Al Symington (Vice-Chair)—Retired
- Jason Zenk—Investment Consultant, Marco Consulting

Representing Public Employees' Retirement System members:

- Claude Burfekt—DSHS/Fircrest School
- Dr. Robert Lenigan—Psychologist/Program Coordinator, Western State Hospital
- Gene Otis—Retired

Representing Teachers' Retirement System members:

- Nancy Baldwin—Retired
- Herbert Sargo—Science Teacher, Burlington-Edison School District
- Staci Vesneske—Executive Director, Human Resources, Spokane Public Schools

Representing School Employees' Retirement System members:

- Virginia Drummond—Personnel Report Technician, Tacoma School District
- Sheila Marcy—Retired
- Judi Owens—Head Secretary Maintenance Department, Central Valley School District

Representing Deferred Compensation Program Participants:

- Kathy Whitlock—Retired

Can be contacted through DRS. See information on page 5.

DRS Advisory Committee

Serves in an advisory role to the director of DRS on retirement administrative issues. The committee consists of members representing active and retired members of the retirement systems administered by DRS.

Committee Membership (June 30, 2006)

Letter of Transmittal

STATE OF WASHINGTON

DEPARTMENT OF RETIREMENT SYSTEMS

P.O. Box 48380 • Olympia, Washington 98504-8380

December 20, 2006

The Honorable Christine Gregoire, Governor
 Members of the Fifty-Ninth Legislature
 Members of the Select Committee on Pension Policy
 State of Washington
 Olympia, Washington 98504

We are pleased to present to you the Department of Retirement Systems' Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2006. This CAFR is designed to comply with the requirements of chapters 41.50.050(4) RCW, 41.50.780(9) RCW, and 41.04.630(2) RCW.

Responsibility for the accuracy of the data and the fairness and completeness of this presentation, including all disclosures, rests with the management of the Department of Retirement Systems (DRS). To the best of our knowledge, the enclosed data is accurate in all material respects and is reported in a manner designed to provide a fair representation of the financial position and results of the operations of the department.

Peterson Sullivan PLLC, Certified Public Accountants, have issued an unqualified ("clean") opinion on DRS' basic financial statements for the year ended June 30, 2006. The independent auditor's report is located at the front of the Financial Section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

This report consists of five sections:

- (1) The Introductory Section, which contains a message from the Director of DRS, this letter of transmittal, which is designed to complement the Management's Discussion and Analysis with additional narrative, other data currently beyond the scope of Generally Accepted Accounting Principles (GAAP), and information about the agency's administrative structure and operations;
- (2) The Financial Section, which contains the report of the independent auditors, Management's Discussion and Analysis, the financial statements, the notes to the financial statements, required supplementary information, and additional financial information;
- (3) The Investment Section, which contains the report of the Washington State Investment Board (WSIB), investment policies, results, associated fees and commissions, and additional investment information;
- (4) The Actuarial Section, which contains the report of the State Actuary, a summary of actuarial assumptions and methods, and actuarial schedules and data; and
- (5) The Statistical Section, which contains significant data pertaining to the retirement systems.

Agency Description and History

As of June 30, 2006, DRS administered seven statewide public employee retirement systems, which were comprised of 11 defined benefit pension plans and three combination

defined benefit/defined contribution plans. Effective July 1, 2006, an additional system, the Public Safety Employees' Retirement System, comprised of a single defined benefit plan, was added.

The purpose of DRS is to administer pension plan coverage for state employees, teachers and classified educational employees, law enforcement officers and fire fighters, and other employees of participating political subdivisions. As of June 30, 2006, there were 1,296 covered employers participating in multiple systems and/or plans administered by DRS. The eligibility requirements and provisions of each plan can be found in Note 2 of the Notes to the Financial Statements. DRS also administers a deferred compensation program and a dependent care reimbursement program. Additionally, DRS is responsible for all accounting and reporting services for the Judicial Retirement Account (JRA), which is a defined contribution pension plan administered by the State of Washington Administrative Office of the Courts.

The Washington State Legislature created the Department of Retirement Systems in 1976 to administer the Public Employees' (PERS), Teachers' (TRS), Law Enforcement Officers' and Fire Fighters' (LEOFF), Washington State Patrol (WSPRS), and Judicial (JRS) retirement systems, and the Judges' Retirement Fund (Judges).

Significant events in DRS history are listed below:

1930s-1940s

The PERS, TRS, WSPRS, Judges and many local police and fire fighters' retirement systems were created.

1950s-1960s

Independent administration of individual retirement systems continued.

1960s-1970s

Local police and fire fighters' retirement systems were consolidated into LEOFF.

1976

The Department of Retirement Systems was created to administer state retirement systems. The Office of the State Actuary was created to provide pension cost estimates.

1977

The PERS Plan 2, TRS Plan 2, and LEOFF Plan 2 were created.

1981

The Washington State Investment Board was created to handle the investment of all state trust funds.

1987

The Joint Committee on Pension Policy was created.

1995

The TRS Plan 3 was created effective July 1, 1996.

1996

The state Deferred Compensation and Dependent Care programs were transferred to DRS.

DRS assumed accounting and reporting responsibility for the Judicial Retirement Account (JRA) defined contribution plan.

1998

The School Employees' Retirement System (SERS) Plans 2 and 3 were created effective September 1, 2000.

The Pension Funding Council was created.

1999

The PERS Plan 3 was created effective March 1, 2002, for state and higher education employees, and effective September 1, 2002, for local government employees.

2001

The WSPRS Plan 2 was created effective January 1, 2003.

2003

The LEOFF 2 Board was established effective July 1, 2003.

The Joint Committee on Pension Policy became the Select Committee on Pension Policy effective July 27, 2003.

2004

The Public Safety Employees' Retirement System (PSERS) was created effective July 1, 2006.

Accounting System and Internal Control

This report has been prepared to conform with the principles of accounting and reporting established by the Governmental Accounting Standards Board (GASB). The basic financial statements are presented in accordance with guidelines established by GASB Statement No. 25, Financial Reporting for Defined Benefit Plans and Note Disclosures for Defined Contribution Plans, and other GASB statements, as appropriate. Specific accounting treatments are detailed in the Notes to the Financial Statements found in the Financial Section of this report.

In May 2004, the GASB issued Statement No. 44 (GASB 44), *Economic Condition Reporting: The Statistical Section*, which amended NCGA Statement 1, *Governmental Accounting and Financial Reporting Principles*. Effective for Fiscal Year 2006 reporting, DRS implemented the provisions of GASB 44. GASB 44 has no monetary impact on the financial statements of DRS, but does require additional disclosure. As a result of this implementation, the information in the Statistical Section has been modified and expanded with the objective of increasing the information's usefulness and enhancing the CAFR reader's understanding.

Management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management. In addition, budgetary controls are maintained by the Office of Financial Management and the Washington State Legislature.

Funding

The goal of pension funding is to accumulate enough money during a member's working career to pay retirement benefits after the member retires. Measurements of funding status indicate how well a retirement plan is accomplishing that goal. There are two standard indicators of funding status: the funding ratio and the existence of an unfunded liability. Both measure the benefit obligations, or liabilities, of a plan against its assets. If the funding level is adequate, the ratio of total accumulated assets to total liabilities will be larger and more funds will be available for investment purposes. Also, an adequate funding level gives the participants assurance that their pension benefits are secure.

The actuarial value of assets available as of the latest actuarial date for all systems was \$45,418 million. The accrued liability is \$51,391 million. The accrued liability exceeds the net actuarial value of assets available for benefits by \$5,973 million. The ratio of assets to liabilities is 88 percent compared to 91 percent last year.¹ Current contribution rates remain in keeping with the goal of attaining a funding ratio of 100 percent by the amortization dates applicable to each plan (June 30, 2024, or earlier), as required by chapter 41.45 RCW. Valuations are performed for all DRS-administered retirement systems on a yearly (October 1 to September 30) basis. These calculations are prepared by the Office of the State Actuary and reflect the latest valuation results. Additional actuarial information is included in the Actuarial Section of this report.

¹ As dictated by GASB Statement No. 25, the ratios noted here are the result of calculating accrued liabilities utilizing the Entry Age method for non-standard valuation methods (such as the variation of the Frozen Initial Liability (FIL) method used by the Office of the State Actuary (OSA) for PERS Plan 1 and TRS Plan 1). When this Entry Age method is used, the liabilities are higher, and the ratios are lower, than those produced by the methods included in the valuation report published by OSA.

Investments

The Washington State Investment Board (WSIB) has sole authority and responsibility for the investment of all state and local pension fund assets. The enabling statute requires the WSIB to “. . . establish investment policies and procedures designed exclusively to maximize return at a prudent level of risk.” The policies adopted by the WSIB include provisions for the setting of strategic asset allocation objectives, as well as strategies and return objectives for individual asset classes. A summary of the asset allocation can be found in the Investment Section of this report. For Fiscal Year 2006, the commingled trust fund (CTF) investments provided a 16.69 percent rate of return. The CTF annualized rate of return over the last three years was 15.47 percent and 8.51 percent over the last five years. The day-to-day management of pension fund assets is the responsibility of WSIB staff. Further investment information is included in the Investment Section of this report.

Departmental Initiatives

The department’s activities are highlighted in the “Message from the Director” on page 3 of this Introductory Section.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to DRS for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This was the twelfth consecutive year that DRS has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

This report was made possible by the staff of DRS based in part on information provided by the Office of the State Actuary, the Office of Financial Management, the Office of the State Treasurer and the Washington State Investment Board. Each member of these agencies has our sincere appreciation. The report will be provided to the Governor, the members of the Select Committee on Pension Policy, the members of the DRS Advisory Committee, and other interested parties.

This report is intended to provide complete and reliable information that can be used to make management decisions, determine compliance with legal provisions, and evaluate responsible stewardship of DRS-administered retirement system funds.

Respectfully submitted,

Sandra J. Matheson
Director

Certificate of Achievement

Certificate of Achievement for Excellence in Financial Reporting

Presented to
Washington State
Department of Retirement
Systems

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2005

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Carla E. Fudge

President

Jeffrey R. Emmer

Executive Director

2006 Washington State Legislative Actions

The 2006 Washington State Legislature passed 12 pension-related bills that were signed into law by Governor Gregoire. A breakdown of these bills follows:

Multiple retirement systems

- House Bill 2681 sets minimum contribution rates and establishes funding targets in PERS, PSERS, SERS and TRS.
- House Bill 2684 allows PERS, SERS and TRS Plans 3 members to vest (become eligible for a pension) after completing ten service credit years, or after completing five service credit years that include 12 service credit months after the age of 44.
- House Bill 2690 allows members of PERS, WSPRS, TRS, SERS, LEOFF and PSERS to purchase up to five years of additional service credit at the time of normal retirement. This service credit cannot be used to qualify for retirement and the cost for the purchase is the full actuarial value of the increase to the benefit.
- Senate Bill 6453 expands a 2004 bill to set a minimum benefit level for PERS Plan 1 and TRS Plan 1 retirees who have at least 20 years of service and have been retired for at least 25 years. It also adds an automatic 3% increase each year, beginning July 1, 2006.

Law Enforcement Officers' and Fire Fighters' Retirement System

- House Bill 2688 removes the benefit cap of 60% of final average salary for LEOFF Plan 1 members enrolled on or after February 19, 1974.
- House Bill 2932 guarantees LEOFF Plan 2 members who are severely disabled in the line of duty a benefit equal to 70% of their final average salary.
- House Bill 2933 extends a \$150,000 death benefit to LEOFF Plan 2 members who die from illness as a result of a job-related exposure.
- Under Senate Bill 6723, eligible surviving spouses and/or dependents of LEOFF Plan 2 members killed in the line of duty are reimbursed for the cost of ongoing health care insurance coverage by the LEOFF Plan 2 trust.

Teachers' Retirement System

- House Bill 2680 allows TRS Plan 2 and 3 members to purchase up to seven years of service credit for educational experience earned outside the state.

Public Employees' Retirement System

- House Bill 2691 allows judges in PERS to pay increased contributions to fund a retirement benefit with a 3.5% multiplier in Plan 1 and Plan 2. Plan 3 members will receive a 1.6% multiplier. Judges have the option of purchasing prior judicial service at the increased multiplier.

Public Safety Employees' Retirement System

- House Bill 2685 replaces the list of job titles eligible for membership with a list of specific duties and qualifications.

Washington State Patrol Retirement System

- House Bill 3137 concerns surviving spouses of disabled members. The benefit is determined by a new formula based on the last salary received while on disability, rather than the last salary received before becoming disabled.

INDEPENDENT AUDITORS' REPORT

Ms. Sandra J. Matheson, Director
State of Washington Department of Retirement Systems
Olympia, Washington

We have audited the accompanying financial statements (including the individual fund financial statements) of the Washington State Department of Retirement Systems as of and for the year ended June 30, 2006. The Department of Retirement Systems is a part of the State of Washington's primary government. These financial statements are the responsibility of the Department of Retirement Systems' management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Washington State Department of Retirement Systems' June 30, 2005, financial statements and in our report dated November 17, 2005, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2006 financial statements referred to above present fairly, in all material respects, the financial position of the Washington State Department of Retirement Systems as of June 30, 2006, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the financial statements present fairly, in all material respects, the financial position of each of the individual funds of the Washington State Department of Retirement Systems as of June 30, 2006, and the results of operations of such funds for the year then ended in conformity with accounting principles generally accepted in the United States.

The accompanying management discussion and analysis and required supplementary information listed in the accompanying table of contents is not a required part of the basic financial statements, but is supplementary information required by the Government Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supporting schedules and the statement of changes in assets and liabilities – dependent care agency fund as listed in the accompanying table of contents are presented for the purposes of additional analysis and are not a required part of the financial statements of the Washington State Department of Retirement Systems. Such information has been subject to the auditing procedures applied in the audit of the financial statements and in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective individual funds taken as a whole.

The introductory, actuarial, investment, and statistical sections of this report are not required parts of the financial statements, and we did not audit or apply limited procedures to such information and do not express any assurance on such information.

Management's Discussion and Analysis

This discussion and analysis of the Washington State Department of Retirement Systems (DRS) financial performance provides an overview of DRS' financial activities for the fiscal year ended June 30, 2006. Please read it in conjunction with the Letter of Transmittal beginning on page 10 and DRS' financial statements, which begin on page 25 of this report.

DRS posted strong results of operations for the year ending June 30, 2006 and its overall financial condition remained sound at fiscal year end.

FINANCIAL HIGHLIGHTS

The following financial highlights occurred during the fiscal year ended June 30, 2006:

- The combined plan net assets of all the pension funds administered by DRS increased by \$6,918.3 million during Fiscal Year 2006.
- The covered payroll requiring both employee and employer pension contributions reported during the year totaled \$13,934.5 million, representing an increase of 5%. Employee contributions increased by 23% and employer contributions increased by 92%.
- Net investment earnings (net appreciation in the fair value of investments, plus interest and dividend income, less investment expenses) increased by 40% compared to last fiscal year.
- Pension benefits paid to retirees and beneficiaries increased \$115.1 million bringing the total benefit payments to \$2,193.4 million. Refunds of contributions paid to former retirement system members upon termination of employment increased from \$210.0 million to \$257.9 million.
- Administrative expenses totaled \$26.0 million, an increase of \$0.6 million from last fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the DRS basic financial statements, which consist of the

following components: basic financial statements, notes to the financial statements, required supplementary information, and other supporting schedules.

Basic Financial Statements

The basic financial statements presented for the fiduciary funds are fund financial statements and include a Statement of Plan Net Assets and a Statement of Changes in Plan Net Assets. The fiduciary funds include defined benefit and defined contribution pension trust funds, the deferred compensation program trust fund, and the dependent care assistance program agency fund. The Statement of Plan Net Assets presented on pages 25-28 reports the assets, liabilities and resulting net assets available for pension and other benefits as of June 30, 2006. The Statement of Changes in Plan Net Assets presented on pages 29-32 reports the additions to, deductions from, and resulting net change in net assets for the fiscal year ending June 30, 2006.

DRS also administers a small governmental (special revenue) fund to account for the operations of the Dependent Care Assistance Program. The financial statements for this fund are presented on pages 33 and 34 of this report. These statements show the conversion of the fund's Balance Sheet (at June 30, 2006) and Statement of Revenues, Expenditures, and Changes in Fund Balance (for the year ending June 30, 2006), both of which use the current financial resources measurement focus and modified accrual basis of accounting, to the Statement of Net Assets and Statement of Activities, respectively, which use the economic resources measurement focus and accrual basis of accounting.

Notes to the Financial Statements

The notes to the financial statements presented on pages 35-64 of this report are an integral part of the financial statements and include additional information not readily evident in the statements themselves. Note 1 provides a summary of significant accounting policies and plan asset matters including the reporting entity, measurement focus, basis of accounting, investments, reserves, capital assets, long-term liabilities, financial statement formatting, and any accounting and

reporting changes. Note 2 provides a general description of DRS, plan descriptions, and funding policy.

Required Supplementary Information

Because of the long-term nature of a defined benefit pension plan, financial statements alone cannot provide sufficient information to properly reflect the plan's ongoing plan perspective. The required supplementary information consists of two historical trend schedules and related notes. The Schedules of Funding Progress presented on pages 65-66 include historical trend information about the actuarially funded status of each plan from a long-term, ongoing plan perspective and the progress made in accumulating sufficient assets to pay benefits when due. The Schedule of Contributions from Employers and Other Contributing Entities presented on page 67 includes historical trend information about the annual required contributions of employers and the contributions made by employers in relation to this requirement. These schedules provide information that contributes to understanding the changes over time in the funded status of the plans. The Notes to the Required Supplementary Information presented on pages 68-69 accompany the two trend schedules and summarize the actuarial and economic methods and significant assumptions used for the most recent year.

Supporting Schedules and Other Financial Information

These schedules and the Statement of Changes in Assets and Liabilities--Dependent Care Agency Fund are presented on pages 70-73 and they provide additional detailed information useful in evaluating the condition of the plans administered by DRS. These schedules include information on administrative expenses, investment expenses, payments to consultants, and other additional information.

FINANCIAL ANALYSIS OF DRS FUNDS

Analysis of Net Assets – Fiduciary Funds

(dollars in millions)

Net Assets	Fiscal Year 2006	Fiscal Year 2005	Increase (Decrease) Amount	Increase (Decrease) Percentage
Assets				
Cash and Pooled				
Investments	\$ 39.7	\$ 47.2	\$ (7.5)	(16%)
Receivables	488.4	265.3	223.1	84%
Capital Assets, Net of Depreciation	0.5	0.8	(0.3)	(38%)
Investments, Noncurrent	63,474.0	55,348.0	8,126.0	15%
Other Assets	1.1	1.1	-	0%
Total Assets	<u>64,003.7</u>	<u>55,662.4</u>	<u>8,341.3</u>	<u>15%</u>
Liabilities				
Obligations Under Security Lending Agreements	5,660.6	4,365.3	1,295.3	30%
Other Short-Term Liabilities	240.6	113.0	127.6	113%
Long-Term Obligations	1.2	1.1	0.1	9%
Total Liabilities	<u>5,902.4</u>	<u>4,479.4</u>	<u>1,423.0</u>	<u>32%</u>
Total Net Assets	<u>\$58,101.3</u>	<u>\$51,183.0</u>	<u>\$6,918.3</u>	<u>14%</u>

Total trust fund assets as of June 30, 2006 were \$64,003.7 million and were mostly comprised of investments and contributions due from employers. This was an increase of \$8,341.3 million or 15% over the last fiscal year. This increase was largely due to the improved returns resulting from the reallocation of investments from public equity to fixed income, private equity and real estate; as well as to the increases in general investment earnings and market values.

Total trust fund liabilities as of June 30, 2006 were \$5,902.4 million and were mostly comprised of obligations under securities lending. This was an increase of \$1,423.0 million or 32% over the prior fiscal year, and was primarily due to an increase in obligations under securities lending agreements, resulting from more favorable market conditions for this type of activity.

Total combined trust fund plan net assets as of June 30, 2006 were \$58,101.3 million, which was an increase of \$6,918.3 million or 14% over the last fiscal year.

Analysis of Changes in Net Assets – Fiduciary Funds*(dollars in millions)*

Changes in Net Assets	Fiscal Year 2006	Fiscal Year 2005	Increase (Decrease) Amount	Increase (Decrease) Percentage
Additions				
Employer Contributions	\$ 352.4	\$ 183.3	\$ 169.1	92%
Member Contributions	639.0	521.4	117.6	23%
State Contributions	38.6	27.8	10.8	39%
Participant Contributions	168.0	160.0	8.0	5%
Net Income from Investment Activities	8,157.3	5,840.3	2,317.0	40%
Net Income from Securities Lending Activities	13.1	1.4	11.7	836%

Transfers to Other Pension Plans	5.5	5.5	-	0%
Transfers to State General Fund	2.0	4.8	(2.8)	(58%)
Administrative Expenses	26.0	25.4	0.6	2%
Total Deductions	<u>2,484.8</u>	<u>2,324.0</u>	<u>160.8</u>	7%
Increase/(Decrease) in Net Assets	<u>6,918.3</u>	<u>4,444.0</u>	<u>2,474.3</u>	56%
Net Assets - Beginning of Year	<u>51,183.0</u>	<u>46,739.0</u>	<u>4,444.0</u>	10%
Net Assets - End of Year	<u>\$58,101.3</u>	<u>\$51,183.0</u>	<u>\$6,918.3</u>	14%

Additions to the retirement trust funds primarily consist of contributions from employers, active system members, the state, and investment earnings. Additions to the deferred compensation trust fund primarily consist of participant contributions and investment earnings. Total trust fund additions (excluding plan transfers) for Fiscal Year 2006 amounted to \$9,397.6 million, an increase of \$2,635.1 million

or 39% from Fiscal Year 2005. This was primarily due to investment returns rising from 13.3% in 2005 to 16.7% in 2006.

Deductions to the retirement trust funds primarily consist of the payment of benefits to retirees and beneficiaries, the refund of contributions to former retirement system members, and the cost of administering the retirement systems. Benefit payments to members include both pension and annuity benefits. Expenses for the management of trust funds are incurred by the Washington State Investment Board and funded from earnings on investments. Deductions to the deferred compensation trust fund primarily consist of refunds paid to plan participants and administrative expenses. Total trust fund deductions (excluding plan transfers) for Fiscal Year 2006 totaled \$2,479.3 million, an increase of \$160.8 million or 7% over Fiscal Year 2005. This was primarily due to an increase in benefits paid to retirees and beneficiaries, and in refunds of contributions to former members. Benefit payments increased by 6% and refunds increased by 23% as a result of an increase in the number of retirees. Administrative Expenses for Fiscal Year 2006 totaled approximately \$26.0 million, an increase of 2% from last fiscal year. The increase in expenses was due to increased administrative personnel costs.

Transfers from Other Pension Plans and Transfers to Other Pension Plans represent transfers among the various pension plans administered by DRS. Total plan transfers for Fiscal Year 2006 amounted to \$5.5 million, representing no change from the prior fiscal year.

Transfers to the State General Fund were \$2.0 million in Fiscal Year 2006. These operating budget transfers were authorized by ESHB 6386, Chapter 372, Laws of 2006, pursuant to RCW 43.135.035 (5).

Analysis of Net Assets – Governmental Fund*(dollars in thousands)*

Net Assets	Fiscal Year 2006	Fiscal Year 2005	Increase (Decrease) Amount	Increase (Decrease) Percentage
Assets				
Cash and Pooled Investments	\$ 64	\$ 82	\$ (18)	(22%)
Total Assets	<u>64</u>	<u>82</u>	<u>(18)</u>	<u>(22%)</u>
Liabilities				
Due to Other Agencies	1	1	-	0%
Accounts Payable & Accrued Liabilities	5	6	(1)	(17%)
Total Liabilities	<u>6</u>	<u>7</u>	<u>(1)</u>	<u>(14%)</u>
Total Net Assets	<u>\$ 58</u>	<u>\$ 75</u>	<u>\$ (17)</u>	<u>(23%)</u>

Governmental fund total assets as of June 30, 2006 were \$64,000, and were entirely comprised of cash. This was a decrease of \$18,000 from last fiscal year.

Governmental fund total liabilities as of June 30, 2006 were \$6,000 and were mostly comprised of accrued salaries and administrative costs representing a decrease of \$1,000 from the previous year.

Analysis of Changes in Net Assets – Governmental Fund*(dollars in thousands)*

Changes in Net Assets	Fiscal Year 2006	Fiscal Year 2005	Increase (Decrease) Amount	Increase (Decrease) Percentage
Revenues				
Charges For Services	\$ 171	\$ 173	\$ (2)	(1%)
Total Revenues	<u>171</u>	<u>173</u>	<u>(2)</u>	<u>(1%)</u>
Expenses				
Administrative Expenses	188	181	7	4%
Total Expenses	<u>188</u>	<u>181</u>	<u>7</u>	<u>4%</u>
Increase/Decrease in Net Assets	(17)	(8)	(9)	(113%)
Net Assets - Beginning of Year	<u>75</u>	<u>83</u>	<u>(8)</u>	<u>(10%)</u>
Net Assets - End of Year	<u>\$ 58</u>	<u>\$ 75</u>	<u>\$ (17)</u>	<u>(23%)</u>

Governmental fund revenues consist of charges for services. DRS bills state agencies with participating employees a percentage of the payroll taxes saved by the agency and uses these amounts (charges for services) to operate the program. Total governmental fund revenues for Fiscal Year 2006 amounted to \$171,000, a decrease of \$2,000 or 1% from Fiscal Year 2005. This was due to a decrease in the number of participating employees.

The only expenses of the governmental fund are for the cost of administering the program. Administrative expenses for this fund include personnel expenses, goods and services, travel, and other miscellaneous expenses. Administrative expenses for Fiscal Year 2006 totaled \$188,000, an increase of \$7,000 or 4% from the prior fiscal year. This was primarily due to an increase in personnel expenses.

CAPITAL ASSETS

DRS' investment in capital assets for its fiduciary activities as of June 30, 2006, was \$2.5 million, with accumulated depreciation of \$2.0 million, leaving a net book value of \$0.5 million. This amount represents a decrease of 37% from last year, which was mainly due to an increase in the disposal of computer equipment. This investment

in capital assets includes furnishings and equipment, and improvements other than buildings. Additional information on DRS' capital assets can be found in section H of Note 1 to the financial statements.

OTHER LONG-TERM OBLIGATIONS

At year-end, DRS had \$1.2 million in outstanding general long-term obligations, which represented a 3% decrease from the prior year. These long-term obligations represent DRS' liability for accumulated annual and sick leave. Additional information on DRS' long-term debt obligations can be found in section J of Note 1 to the financial statements.

CONTACTING DRS' FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of DRS' finances. If you have questions about this report or need additional financial information, contact the Department of Retirement Systems' Administrative Services Division, P. O. Box 48380, Olympia, WA 98504-8380.

Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2006

Note 1: Summary of Significant Accounting Policies and Plan Asset Matters

A. Reporting Entity

The Department of Retirement Systems (DRS) is a part of the primary government of the state of Washington. The Governmental Accounting Standards Board has developed criteria relating to elements of financial accountability to be used to determine the reporting entity. Financial accountability is manifest when the primary government appoints a voting majority of an organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board. An organization is fiscally dependent if it is unable to determine its budget without another government having the substantive authority to approve or modify that budget, or to set rates or charges without substantive approval by another government. Based on this criteria, DRS is considered part of the state of Washington financial reporting entity and is included in the state's comprehensive annual financial report as the administrator of the pension trust funds.

Copies of the state of Washington's Comprehensive Annual Financial Report may be obtained by writing to:

Washington State Office of Financial Management
300 Insurance Building
P.O. Box 43113
Olympia, WA 98504-3113

The state of Washington, through DRS, administers seven retirement systems for public employees of the state and political subdivisions: the Public Employees' Retirement System, the School Employees' Retirement System, the Teachers' Retirement System, the Law Enforcement Officers' and Fire Fighters' Retirement System, the Washington State Patrol Retirement System, the Judicial Retirement System, and the Judges' Retirement Fund. The Director of DRS is appointed by the Governor. The state Legislature establishes laws pertaining to the creation and administration of all public retirement systems. The members of the public retirement systems together with their employers and the state provide funding for all costs of the systems based upon actuarial valuations. The state establishes benefit levels and approves the actuarial assumptions used in determining contribution levels. Based upon these criteria, DRS views itself as part of the state of Washington's primary government.

B. Basic Financial Statements

Separate financial statements are provided for the fiduciary funds and the governmental fund.

Fiduciary funds report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. DRS' fiduciary funds include the retirement pension trust funds, the deferred compensation trust fund, and the dependent care assistance program agency fund. The statements presented for the fiduciary funds include a Statement of Plan Net Assets and a Statement of Changes in Plan Net Assets. The statements provide a separate column for each plan administered by DRS. The

Statement of Plan Net Assets includes information about the assets, liabilities, and net assets for each plan. The Statement of Changes in Plan Net Assets includes information about the additions to, deductions from, and net increase (or decrease) in net assets for each plan for the year.

DRS' governmental fund is a special revenue fund used to account for the administrative revenues and operating expenditures incurred in administering the dependent care program. Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The statements presented for the special revenue fund include a Balance Sheet/Statement of Net Assets and a Statement of Revenues, Expenditures, and Changes in Fund Balance/Statement of Activities. The statements for the special revenue fund are presented following the statements for the fiduciary funds because the fiduciary funds are the main focus of DRS. Since the special revenue fund is a minor administrative fund for DRS, showing this fund on a statement preceding the fiduciary fund statements would improperly put too much focus on it.

The Balance Sheet/Statement of Net Assets for the special revenue fund has three separate columns: Balance Sheet, Adjustments, and Statement of Net Assets. The Balance Sheet column presents the assets, liabilities, and fund balance using the current financial resources measurement focus and the modified accrual basis of accounting. The Statement of Net Assets column presents the difference between assets and liabilities as net assets and uses the economic resources measurement focus and accrual basis of accounting. The Adjustments column contains the reconciliation between these two different bases of accounting.

The Statement of Revenues, Expenditures, and Changes in Fund Balance/Statement of Activities for the special revenue fund has three separate columns: Statement of Revenues, Expenditures, and Changes in Fund Balance; Adjustments; and Statement of Activities. The Statement of Revenues, Expenditures, and Changes in Fund Balance column presents the inflows, outflows, and balances of current finan-

cial resources using the current financial resources measurement focus and the modified accrual basis of accounting. The Statement of Activities is presented using the economic resources measurement focus and accrual basis of accounting. The Adjustments column contains the reconciliation between these two different bases of accounting.

C. Measurement Focus and Basis of Accounting

DRS' financial statements have been prepared in conformity with accounting principles generally accepted in the United States (GAAP). The retirement plans are accounted for in pension trust funds using the flow of economic resources measurement focus and the accrual basis of accounting. Plan member contributions are recognized as revenues in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

The deferred compensation plan is accounted for in a pension trust fund using the flow of economic resources measurement focus and the accrual basis of accounting. Participant contributions are recognized as revenues in the period in which the contributions are due. Refunds are recognized when due and payable in accordance with the terms of the plan. DRS maintains an administrative fund to account for the administrative revenues and operating expenditures incurred in administering the deferred compensation plan. Since these costs are incurred in the administration of the deferred compensation plan, they have been reported within the deferred compensation plan.

The dependent care assistance program is accounted for in two separate funds. The administrative revenues and operating expenditures incurred in administering the dependent care program are accounted for in the dependent care administrative fund. This fund is classified as a special revenue fund using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and

available to finance current expenditures of the fund. The dependent care salary reduction plan is classified as an agency fund and is accounted for using the accrual basis of accounting. Agency funds are custodial in nature and do not measure the results of operations or have a measurement focus.

D. Method Used to Value Investments

Investments are presented at fair value. The fair value of investments is based on published market prices and quotations from national security exchanges and security pricing services, or by the respective fund managers for securities that are not actively traded. Privately held mortgages are valued at cost which approximates fair market value. Certain pension trust fund investments, including real estate and private equity, are valued based on appraisals or by independent advisors. The pension funds have no investments of any commercial or industrial organization whose market value exceeds five percent of each plan's net assets.

E. Allocation

DRS maintains an administrative fund to account for the administrative additions and deductions incurred in administering the pension plans (excluding any fees incurred while protecting the pension plans). All additions received are based on a legislatively approved percent of employer contributions. These additions and deductions have been allocated to the pension plans based on asset balance.

DRS maintains a general capital assets fund to account for the capital assets used in administering the pension plans. These capital assets have been allocated to the pension plans based on asset balance. DRS also maintains a general long-term obligation fund to account for accumulated compensated absences incurred in administering the pension plans. These general long-term obligations have also been allocated to the pension plans based on asset balance.

F. Deposits, Investments, and Securities Lending

Deposits: DRS' deposits are managed by the Office of the State Treasurer (OST) and are entirely insured by the Federal

Deposit Insurance Corporation (FDIC) and by the Washington Public Deposit Protection Commission (PDPC). The PDPC constitutes a multiple financial institution collateral pool. Pledged securities under the PDPC collateral pool are held by the PDPC's agent in the name of the collateral pool. State law (chapter 43.84.080 RCW) specifies that whenever there is a fund or cash balance in the state treasury more than sufficient to meet the current expenditures properly payable therefrom, the OST may invest or reinvest such portion of such funds or balances as the OST deems expedient. Statute authorizes the OST to buy and sell the following types of instruments: U.S. Government and Agency securities, banker's acceptances, and certificates of deposit with qualified public depositories. Securities underlying repurchase and reverse repurchase agreements are limited to those stated above. DRS receives its proportionate share of investment earnings from surplus balances in the state treasury based upon its daily balance for the period. DRS' deposits are separately displayed on the Statement of Plan Net Assets as cash and pooled investments.

Deposits--Custodial Credit Risk: Custodial credit risk is the risk that deposits may not be returned to a depositor in the event of the failure of a financial institution. The OST minimizes custodial credit risk by restrictions set forth in state law. Statutes restrict the OST to deposit funds in financial institutions that are physically located in Washington unless otherwise expressly permitted by statute and authorized by the PDPC. As of June 30, 2006, the carrying amount of DRS' cash and pooled investment deposits is \$39.1 million for the pension trust funds, \$0.6 million for the dependent care agency fund, and \$64,000 for the dependent care special revenue fund, all of which are insured or collateralized.

Investments: The Washington State Investment Board (WSIB) has been authorized by statute as having the investment management responsibility for pension and deferred compensation funds. The WSIB is authorized to invest as provided by statute (chapter 43.33A RCW) and WSIB policy. The WSIB is authorized and invests in the following: U.S.

Treasury Bills; discount notes; repurchase agreements; reverse repurchase agreements; banker's acceptances; commercial paper; guaranteed investment contracts; U.S. Government and Agency (government sponsored corporations eligible for collateral purposes at the Federal Reserve) securities; non-dollar bonds; investment grade corporate bonds; non-investment grade corporate bonds; publicly traded mortgage-backed securities; privately placed mortgages; private placements of corporate debt; Washington State Housing Finance Commission (HFC) taxable municipal bonds up to a total of \$25.0 million, with a maximum of \$10.0 million per year; U.S. and foreign common stock; U.S. preferred stock; convertible securities; private equity including but not limited to: investment corporations, partnerships, and limited liability companies for venture capital, leveraged buy-outs, real estate, or other forms of private equity; asset backed securities; and derivative securities including futures, options, options on futures, forward contracts, and swap transactions.

There were no violations of these investment restrictions during Fiscal Year 2006.

Investments--Interest Rate Risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of a fixed income investment. The WSIB does not have a formal policy regarding interest rate risk.

Effective duration is the measure of a debt investment's exposure to fair value changes arising from changes in interest rates. Effective duration uses the present value of cash flows, weighted for those flows as a percentage of the investments' full price. Increases in prevailing interest rates generally translate into decreases in fair values of those investments. The WSIB's fixed income investments are to be actively managed to exceed the return of the Lehman Universal Index, with volatility as measured by duration to be similar to or less than the index. As of June 30, 2006 the funds' durations of the various fixed income classes were within the duration targets of the Lehman Universal Index.

The Pension Trust funds hold both U.S. agencies and corporate debt variable-rate securities, most of which reset periodically to the market interest rate. Because these securities frequently reprice to prevailing market rates, interest rate risk is substantially reduced at each periodic reset date. In the schedule on page 39, variable-rate securities are presented according to the length of time until the next reset date, rather than the stated maturity. The schedule provides information about the interest rate risks associated with the Pension Trust funds' investments as of June 30, 2006. The schedule also displays various asset classes held by maturity in years and effective durations. The investment types are presented consistent with their separately issued financial statements by investment type.

Investments--Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The WSIB does not have a formal policy regarding credit risk but mitigates said risk through active management and credit analysis. The Pension Trust funds' rated debt investments as of June 30, 2006, were rated by Moody's and/or an equivalent national rating organization. Credit ratings for the Pension Trust funds' rated debt investments as of June 30, 2006 are presented in the schedule on page 40.

Investments--Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The WSIB policy states that no corporate fixed income issue shall exceed 3% of cost at the time of purchase or 6% of market value of the fund thereafter and that no high yield issues shall exceed 1% of cost or 2% of the market value of the fund. There was no concentration of credit risk exceeding these policy guidelines as of June 30, 2006. Additionally, no single investment (other than any issued or explicitly guaranteed by the U.S. government, or involving mutual funds or investment pools) comprised more than five percent of DRS' net investments at the end of Fiscal Year 2006.

Investments-Custodial Credit Risk: Custodial credit risk is the risk that, in the event of failure of the custodian, the WSIB would not be able to recover its investment securities or collateral securities that are in the possession of the custodian. The WSIB has no formal policy regarding custodial credit risk. However, as all of the retirement system assets are registered and held in the State of Washington's name, they are not subject to custodial credit risk.

Investments-Foreign Currency Risk: Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The WSIB

does not have a formal policy to limit foreign currency risk. The WSIB manages its exposure to fair value loss by requiring its international securities investment managers to maintain diversified portfolios by sector and by issuer to limit foreign currency and security risk. DRS' exposure to foreign currency risk as of June 30, 2006, is presented in the schedule on page 41. The schedule provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The Pension Trust Funds also had \$4,226.1 million invested in an international commingled equity index fund. Because these funds are commingled, they are not included in this schedule.

Securities Lending: Securities lending management responsibilities as authorized by statute are as follows:

WSIB—State law and Board policy permit the WSIB to participate in securities lending transactions to augment investment income. The Board has entered into an agreement with State Street Corporation (SSC) to act as agent for the WSIB in securities lending transactions. As SSC is the custodian bank for the WSIB, it is a counterparty to these transactions. In accordance with GASB Statement No. 28, the WSIB reports securities lent (the underlying securities) as assets in the statement of net assets. Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. Securities received as collateral are reported as assets if the WSIB has the ability to pledge or sell them without a borrower default. Liabilities resulting from these transactions are reported in the statement of net assets. Securities lending transactions collateralized by securities that the WSIB does not have the ability to pledge or sell unless the borrower defaults are not reported as assets and liabilities.

All U.S. and foreign fixed income and equity securities are available for lending. Securities were loaned and collateralized by the WSIB's agent with cash and U.S. government securities (exclusive of mortgage backed securities and letters of credit), and irrevocable letters of credit. When the loaned securities were denominated in United States dollars, were securities whose primary trading market was located in the United States or were sovereign debt issued by foreign governments, the collateral requirement was 102 percent of the market value of the securities loaned. When the loaned securities were not denominated in United States dollars or were securities whose primary trading market was not located in the United States, the collateral requirement was 105 percent of the market value of the loaned securities.

Credit Risk: The WSIB mitigates credit risk in securities lending with a policy that strictly limits the types of collateral that may be used to secure these transactions.

Custodial Credit Risk: At June 30, 2006, the market value of securities on loan was \$5,657.2 million. The corresponding collateral held totalled \$5,549.7 million and was comprised of securities held in the WSIB's own Short-Term Investment Fund. As such, these securities are not subject to custodial credit risk.

During Fiscal Year 2006, securities lending transactions could be terminated on demand by either the WSIB or the borrower. The average term of overall loans was 32 days.

Cash collateral was invested by the WSIB's agents in securities issued or guaranteed by the U.S. government, the WSIB's short term investment pool (average weighted maturity of 312 days) or term loans. Because the securities lending agreements were terminable at will, their duration did not generally match the duration of the investments made with the cash collateral. Non-cash collateral could not be pledged or sold absent borrower default. There are no restrictions on the amount of securities that can be lent.

Securities were lent with the agreement that they would be returned in the future for exchange of the collateral. SSC indemnified the WSIB by agreeing to purchase replacement securities or return the cash collateral in the event a borrower failed to return the loaned securities or pay distributions thereon. SSC's responsibilities included performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral, and complying with applicable federal regulations concerning securities lending.

During Fiscal Year 2006, there were no significant violations of legal or contractual provisions nor failures by any borrowers to return loaned securities or to pay distributions thereon. Further, the WSIB incurred no losses during Fiscal Year 2006 resulting from a default by either the borrowers or the securities lending agents.

OST—Statute authorizes the OST to buy and sell the following types of instruments: U.S. government and agency securities, banker's acceptances, commercial paper, and certificates of deposit with qualified public depositories. Securities underlying repurchase and reverse repurchase agreements are limited to those stated above.

The OST has statutory authority to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The OST has contracted with a third party securities lending agent, The Bank of New York, to lend the OST's U.S. government and agency securities portfolio. The agent lends securities for collateral in the form of cash or other securities at 102 percent of the loaned securities value. The collateral for the loans is maintained at 102 percent.

Credit Risk: The OST limits its credit risk with an investment policy that restricts the types of investments in which the OST can participate. Additionally, the OST investment policy requires that any securities on loan be made available by the lending agent for next day liquidity at the option of the OST. At June 30, 2006, OST has no credit risk exposure to borrowers because the amounts the OST owes borrowers exceeds the amounts that the borrowers owe the OST. The contract with the agent requires it to indemnify the OST if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or if the borrower fails to pay OST for income distributions by the securities' issuers while the securities are on loan.

All securities loans can be terminated on demand by either the OST or the borrower. Cash collateral is invested in accordance with the investment guidelines approved by the OST. The OST cannot pledge or sell collateral securities received unless the borrower defaults. Generally, the maturity of the securities on loan is matched with the term of the investment of the cash collateral. On June 30, 2006, the average life of both the loans and the investment of cash collateral received as collateral was three days.

Custodial Credit Risk: The OST investment policy requires that securities purchased be held by the master custodian, acting as an independent third party, in its safekeeping or trust department. Securities accepted as collateral for repurchase agreements are subject to additional restrictions. These restrictions are designed to limit the OST's exposure to risk and insure the safety of the investment.

During Fiscal Year 2006, there were no violations of legal or contractual provisions nor any losses resulting from a default by either the borrowers or the securities lending agent.

Derivatives: WSIB is authorized to utilize various derivative financial instruments, including mortgage-backed securities, financial futures, forward contracts, interest rate and equity swaps, and options to manage its exposure to fluctuations in interest and currency rates while increasing portfolio returns. Derivative transactions involve, to varying degrees, market and credit risk. The WSIB mitigates market risks arising from derivative transactions by requiring collateral in cash and investments to be maintained equal to the securities positions outstanding, and thereby prohibiting the use of leverage or speculation. Credit risks arising from derivative transactions are mitigated by selecting and monitoring creditworthy counterparties and collateral issuers.

Consistent with the WSIB authority to invest in derivatives, international active equity managers may make limited investments in financial futures, forward contracts or other derivative securities to manage exposure to currency rate risk and equitize excess cash holdings. No such derivative securities were held as of June 30, 2006 or 2005. Domestic and foreign passive equity index fund managers may also utilize various derivative securities to manage exposure to risk and increase portfolio returns. Information on the extent of use, and holdings of derivative securities by passive equity index fund managers is unavailable. At June 30, 2006, the only derivative securities held directly by WSIB were collateralized mortgage obligations of \$1.393 billion.

Certain investment types in DRS' portfolio cannot be categorized within the guidelines established by GASB Statement Number 3. These investments total approximately \$44.6 billion in both carrying value and fair value.

There were approximately \$32.5 million repurchase agreements outstanding at June 30, 2006. Repurchase agreements are collateralized at 102 percent. The collateral is priced daily and held by DRS' agent in DRS' name. Repurchase agreements outstanding as of June 30, 2006 are typical of the level of activity during the year.

State law permits WSIB to enter into reverse repurchase agreements, that is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The market value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the dealers margin against a decline in market value of the securities. If the dealers default on their obligations to resell these securities to the state or provide securities or cash of equal value, WSIB would suffer an economic loss equal to the difference between the market value plus accrued interest of the underlying securities and the agreement obligation, including accrued interest. There were no reverse repurchase agreements during the year and there were no liabilities outstanding as of June 30, 2006.

Management Fees: The fees paid by the WSIB are accounted for as a reduction of investment income to the trust funds. These fees include investment management fees and commissions, investment consultant fees, and legal fees. As of June 30, 2006, total investment management fees were \$252.5 million. For a detailed disclosure, refer to the Schedule of Investment Expenses in the Financial Section of this report.

Unfunded Commitments: The WSIB has entered into agreements that commit the DRS pension funds, upon request, to make additional investment purchases up to a stated amount. As of June 30, 2006, the DRS pension funds had the following unfunded investment commitments in millions of dollars:

Private Equity Partnerships	\$6,245.9
Real Estate	\$5,221.4

G. Reserves

Member Reserves: The member reserves reflect the total liability for all contributions made by members. These reserves are increased by employee contributions and interest earnings and are decreased by contributions refunded and contributions transferred to the benefit reserves for current year retirees. The member reserves are considered fully funded.

Because the PERS Plan 3, SERS Plan 3 and TRS Plan 3 defined contribution plans each offer two separate investment programs to members, DRS is required to maintain two separate member reserves for each defined contribution plan. The "PERS Plan 3—WSIB," "SERS Plan 3—WSIB," and "TRS Plan 3—WSIB" reserves account for members who participate in the investment programs offered by the Washington State Investment Board (WSIB). The "PERS Plan 3—SELF," "SERS Plan 3—SELF," and "TRS Plan 3—SELF" reserves account for members who participate in the self-directed investment offerings established by the Employee Retirement Benefits Board (ERBB).

Member reserves as of June 30, 2006 and 2005 are as follows:

	June 30, 2006	June 30, 2005
	(expressed in thousands)	
PERS Plan 1	\$1,370,735	1,457,906
PERS Plan 2/3	3,531,670	3,341,156
PERS Plan 3-WSIB	628,240	515,776
PERS Plan 3-SELF	473,647	428,878
SERS Plan 2/3	232,391	216,027

WSPRS Plan 1/2	54,185	51,563
JRS	3,652	4,098
Judges	-	-
Total Member Reserves	<u>\$12,969,160</u>	<u>\$12,009,324</u>

Benefit Reserves: The benefit reserves reflect the funded liability associated with all retired members of DRS administered systems. These reserves are increased by employer contributions, state contributions, investment earnings, and employee contributions which are attributable to current year retirees. These reserves are decreased by the amounts of pensions actually paid in the current year, interest payments transferred to the member reserves, and administrative expenses in support of the trust funds.

Benefit reserves as of June 30, 2006 and 2005 are as follows:

	June 30, 2006	June 30, 2005
	(expressed in thousands)	
PERS Plan 1	\$8,881,202	\$8,115,143
PERS Plan 2/3	10,692,770	8,733,118
SERS Plan 2/3	1,799,083	1,499,628

TRS Plan 2/3	4,622,651	3,864,322
LEOFF Plan 1	5,478,118	4,938,445
LEOFF Plan 2	3,020,542	2,410,864
WSPRS Plan 1/2	763,752	672,082
JRS	(3,651)	(1,741)
Judges	4,105	4,293
Total Benefit Reserves	<u>\$42,910,764</u>	<u>\$37,220,192</u>

The funded status of each of the benefit reserves is the same as the funded status of each of the respective pension plans. The funded status of the pension plans is shown in the Solvency Test schedules in the Actuarial Section of this report.

H. Capital Assets

All capital assets with a unit cost (including ancillary costs) of \$5,000 or greater are capitalized and reported in the accompanying financial statements. Capital leases with a net present value or fair market value, whichever is less, of \$10,000 or more are capitalized and also included in these financial statements. All purchased capital assets are valued at cost where historical records exist. Donated capital assets are valued at their estimated fair market value on the date of donation. Where necessary, estimates of original cost and fair market value are derived by factoring price levels from the current period to the time of acquisition.

Capital asset costs include the purchase price or construction cost, plus those costs necessary to place the asset in its intended location and condition for use. Normal maintenance and repair costs that do not materially add to the value or extend the life of the asset are not capitalized.

Depreciation is calculated using the straight-line method with estimated useful lives of 5 to 50 years for buildings, and 3 to 50 years for furnishings and equipment, other improvements, and miscellaneous capital assets.

Following is a summary of changes in capital assets for Fiscal Year 2006:

Assets	Beginning Balance	Acquisition/ Increase Depreciation	Disposal	Ending Balance
(expressed in thousands)				
Improvements Other Than Buildings	\$ 634	\$ -	\$ -	\$ 634
Furnishings & Equipment	2,197	41	(350)	1,888
Accumulated Depreciation	(2,047)	(330)	344	(2,033)
Total	\$ 784	\$ (289)	\$ (6)	\$ 489

I. Leases

DRS leases land, office facilities, office and computer equipment. Lease terms vary. Leases are considered non-cancelable for financial reporting purposes. All DRS leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the life of the lease. Certain operating leases are renewable for specified periods. In most cases, management expects that the leases will be renewed or replaced by other leases.

The following schedule presents future minimum payments for operating leases as of June 30, 2006:

Operating Leases	
(expressed in thousands)	
By Fiscal Year:	
2007	\$1,336
2008	1,289
2009	713
Total Future Minimum Payments	\$3,338

The total operating lease rental expenditure for Fiscal Year 2006 was \$1.3 million.

J. Other Long-Term Obligations

Annual Leave: DRS employees accrue annual leave at a variable rate based on years of service. In general, accrued annual leave cannot exceed 30 days at the employee’s anniversary date. The expense and accrued liability is recognized when the annual leave is earned. DRS’ liability for accumulated annual leave was \$0.9 million as of June 30, 2006.

Sick Leave: Employees accrue sick leave at the rate of one day per month without limitation on the amount that can be accumulated. Sick leave is not vested; i.e., the department does not pay employees for unused sick leave upon termination except upon employee death or retirement, at which time DRS is liable for 25 percent of the employee’s accumulated sick leave. In addition, the department has a “sick leave buyout option” in which each January, employees who accumulate sick leave in excess of 60 days may redeem sick leave earned but not taken during the previous year at the rate of one day’s pay in exchange for each four days of sick leave. The expense and accrued liability is recognized when the sick leave is earned. DRS’ liability for accumulated sick leave was \$0.3 million as of June 30, 2006.

Following is a summary of changes in compensated absences for the fiduciary funds for Fiscal Year 2006:

Compensated Absences	Beginning Balance	Additions	Deletions	Ending Balance
(expressed in thousands)				
Annual Leave	\$ 838	\$ 891	\$ (870)	\$ 859
Sick Leave	308	131	(115)	324
Total	\$ 1,146	\$ 1,022	\$ (985)	\$ 1,183

K. Transfers

Transfers to and from other pension plans, as reported in the financial statements, reflect routine transfers among the various trust funds resulting from plan membership changes and member-directed defined contribution plan selections.

Transfers to the State General Fund are operating state budget transfers authorized by ESHB 6386, Chapter 372, Laws of 2006, pursuant to RCW 43.135.035(5).

Note 2: General Description of the Retirement Systems

A. General

The Department of Retirement Systems (DRS) administers retirement systems covering eligible employees of the state and local governments. The state Legislature establishes laws pertaining to the creation and administration of all public retirement systems, and the Governor appoints the Director of DRS to manage the systems. Information pertinent to each system is provided later in this section.

Administration of the PERS, SERS, TRS, and LEOFF systems and plans was funded by an employer rate of .19 percent of employee salaries. Administration of the WSPRS, JRS, and Judges' plans was funded by means of legislative appropriations.

As established in the Revised Code of Washington (RCW) chapter 41.50, DRS administers seven retirement systems comprising 11 defined benefit pension plans and three combination defined benefit/defined contribution plans as follows:

Public Employees' Retirement System (PERS)

Plan 1—defined benefit

Plan 2—defined benefit

Plan 3—defined benefit/defined contribution

School Employees' Retirement System (SERS)

Plan 2—defined benefit

Plan 3—defined benefit/defined contribution

Teachers' Retirement System (TRS)

Plan 1—defined benefit

Plan 2—defined benefit

Plan 3—defined benefit/defined contribution

Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF)

Plan 1—defined benefit

Plan 2—defined benefit

Washington State Patrol Retirement System (WSPRS)

Plan 1—defined benefit

Plan 2—defined benefit

Judicial Retirement System (JRS)

Defined benefit

Judges' Retirement Fund (Judges)

Defined benefit

Number of Participating Members

Plan	Retirees and Beneficiaries Receiving Benefits	Terminated Members Entitled to But Not Yet Receiving Benefits	Active Plan Members Vested	Active Plan Members Nonvested	Total
PERS Plan 1	54,795	2,833	14,904	1,058	73,590
PERS Plan 2	13,471	17,941	80,769	37,631	149,812

Judges	-	-	-	-	-
Total	630	1,716	959	1,083	4,388

Employers can participate in multiple systems and/or plans. The actual total number of participating employers as of June 30, 2006 is 1,296.

For a listing of the covered employers, refer to the Statistical Section of this report.

B. Plan Descriptions

Public Employees' Retirement System (PERS): PERS is a cost-sharing multiple-employer retirement system comprised of three separate plans for membership purposes: Plans 1 and 2 are defined benefit plans and Plan 3 is a defined benefit plan with a defined contribution component. PERS participants who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977 and by either, February 28, 2002 for state and higher education employees, or August 31, 2002 for local government employees, are Plan 2 members unless they exercise an option to transfer their membership to Plan 3. PERS participants joining the system on or after March 1, 2002 for state and higher education employees, or September 1, 2002 for local government employees have the irrevocable option of choosing membership in either PERS Plan 2 or PERS Plan 3. The option must be exercised within 90 days of employment. An employee is reported in Plan 2 until a choice is made. Employees who fail to choose within 90 days default to PERS Plan 3.

PERS is comprised of three separate plans for accounting purposes: Plan 1, Plan 2/3, and Plan 3. Plan 1 accounts for the defined benefits of Plan 1 members. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 defined benefit plan may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

PERS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the PERS Plan 1 and 2 defined benefit plans accrue interest at a rate specified by DRS. During Fiscal Year 2006, the DRS-established rate on employee contributions was 5.5 percent compounded quarterly. Employees in PERS Plan 1 and 2 can elect to withdraw total employee contributions and interest thereon upon separation from PERS-covered employment.

PERS defined contribution benefits are financed from employee contributions and investment earnings. Employees in PERS Plan 3 can elect to withdraw total employee contributions adjusted by earnings and losses from the investment of those contributions upon separation from PERS-covered employment.

The Legislature established PERS in 1947. Membership in the system includes: elected officials; state employees; employees of the Supreme, Appeals, and Superior Courts (other than judges currently in a judicial retirement system); employees of legislative committees; community and technical colleges, college and university employees not participating in national higher education retirement programs; judges of district and municipal courts; and employees of local governments. Approximately 50 percent of PERS salaries are accounted for by state employment. PERS retirement benefit provisions are established in state statute and may be amended only by the State Legislature.

PERS Plan 1 retirement benefits are vested after an employee completes five years of eligible service. Plan 1 members are eligible for retirement after 30 years of service, or at the age of 60 with five years of service, or at the age of 55 with 25 years of service. Plan 1 retirements from inactive status prior to the age of 65 may receive actuarially reduced benefits. The benefit is actuarially reduced to reflect the choice of a survivor option. The annual benefit is 2 percent of the average final compensation (AFC) per year of service, capped at 60 percent. (The AFC is based on the greatest compensation during any 24 eligible consecutive compensation months.)

PERS Plan 2 retirement benefits are vested after an employee completes five years of eligible service. Plan 2 members may retire at the age of 65 with five years of service, or at the age of 55 with 20 years of service, with an allowance of 2 percent of the AFC per year of service. (The AFC is based on the greatest compensation during any eligible consecutive 60-month period.) Plan 2 retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a 3 percent per year reduction applies; otherwise an actuarial reduction will apply. The benefit is also actuarially reduced to reflect the choice of a survivor option. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3 percent annually.

PERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. The defined benefit portion provides a benefit calculated at 1 percent of the AFC per year of service. (The AFC is based on the greatest compensation during any eligible consecutive 60-month period.) Effective June 7, 2006, PERS Plan 3 members are vested in the defined benefit portion of their plan after 10 years of service; or after five years of service if 12 months of that service are earned after age 44; or after five service credit years earned in PERS Plan 2 by June 1, 2003. Plan 3 members are immediately vested in the defined contribution portion of their plan. Vested Plan 3 members are eligible to retire with full benefits at age 65, or at age 55 with 10 years of service. Retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a 3 percent per year reduction applies; otherwise an actuarial reduction will apply. The benefit is also actuarially reduced to reflect the choice of a survivor option. There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2. See section D of Note 2 for a description of the defined contribution component of PERS Plan 3.

PERS Plan 1 provides duty and non-duty disability benefits. Duty disability retirement benefits for disablement prior to the age of 60 consist of a temporary life annuity payable to the age of 60. The allowance amount is \$350 a month, or two-thirds of the monthly AFC, whichever is less. The benefit is reduced by any worker's compensation benefit and is payable as long as the member remains disabled or until the member attains the age of 60. A member with five years of covered employment is eligible for non-duty disability retirement. Prior to the age of 55, the allowance amount is 2 percent of the AFC for each year of service reduced by 2 percent for each year that the member's age is less than 55. The total benefit is limited to 60 percent of the AFC and is actuarially reduced to reflect the choice of a survivor option.

PERS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 allowance amount is 2 percent of the AFC for each year of service. For Plan 3 the allowance amount is 1

percent of the AFC for each year of service. Benefits are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor option.

In addition, a \$150,000 death benefit is provided to the estate (or duly designated nominee) of a PERS member who dies in the line of service as a result of injuries sustained in the course of employment, if found eligible by the Department of Labor and Industries.

The following changes to the PERS plans are the result of recent years' legislation:

Effective June 10, 2004:

- PERS Plan 1 members receive a minimum \$1,000 monthly benefit if they have at least 25 years of service and have been retired at least 20 years. The new minimum amount remains in effect until the original benefit calculation, plus annual cost of living increases, exceeds \$1,000. (SHB 2538, Chapter 85, Laws 2004)
- An asset smoothing corridor is established for actuarial valuations used in the funding of the state retirement systems. (SB 6249, Chapter 93, Laws 2004)

Effective April 21, 2005:

- PERS Plan 2 and Plan 3 members may opt out of plan membership if terminally ill, with less than five years to live. (SSB 5497, Chapter 131, Laws 2005)

Effective May 3, 2005:

- PERS Plan 1 members can receive credit for military service while actively serving in the military, if such credit makes them eligible to retire. (SHB 1938, Chapter 247, Laws 2005)

Effective July 24, 2005:

- PERS Plan 2 and Plan 3 members can purchase service credit for military service that interrupted employment, if they are disabled while on active duty and cannot return to employment. Should the member die during this active duty, the surviving spouse or eligible child(ren) of member may purchase service credit on behalf of the deceased member. (HB 1325, Chapter 64, Laws 2005)

- PERS members can purchase up to 24 months (previously 12 months) of service credit lost because of an on-the-job injury. (SB 5522, Chapter 363, Laws 2005)

PERS pension benefit provisions have been established by chapters 41.34 and 41.40 RCW.

School Employees' Retirement System (SERS): SERS is a cost-sharing multiple-employer retirement system comprised of two separate plans for membership purposes: Plan 2 is a defined benefit plan and Plan 3 is a defined benefit plan with a defined contribution component. As of September 1, 2000, the membership of classified school employees in PERS Plan 2 was transferred to SERS Plan 2. Those who joined on or after October 1, 1977 and by August 31, 2000 are SERS Plan 2 members unless they exercised an option to transfer their membership to Plan 3. SERS participants joining the system on or after September 1, 2000, and those who exercised their transfer option, are members of SERS Plan 3.

SERS is comprised of two separate plans for accounting purposes: Plan 2/3 and Plan 3. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 defined benefit plan may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

SERS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the SERS Plan 2 defined benefit plan accrue interest at a rate specified by DRS. During Fiscal Year 2006, the DRS-established rate on employee contributions was 5.5 percent compounded quarterly. Employees in SERS Plan 2 can elect to withdraw total employee contributions and interest thereon upon separation from SERS-covered employment. SERS defined contribution benefits are financed from employee contributions and

investment earnings. Employees in SERS Plan 3 can elect to withdraw total employee contributions adjusted by earnings and losses from the investment of those contributions upon separation from SERS-covered employment.

The Legislature created SERS in 1998 to be effective in 2000. Membership in the system includes classified employees of school districts or educational service districts. SERS is comprised principally of non-state-agency employees. SERS retirement benefit provisions are established in state statute and may be amended only by the State Legislature.

SERS Plan 2 retirement benefits are vested after an employee completes five years of eligible service. Plan 2 members may retire at the age of 65 with five years of service, or at the age of 55 with 20 years of service, with an allowance of 2 percent of the average final compensation (AFC) per year of service. (AFC is based on the greatest compensation during any eligible consecutive 60-month period.) Plan 2 retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a 3 percent per year reduction applies; otherwise an actuarial reduction will apply. The benefit is also actuarially reduced to reflect the choice of a survivor option. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3 percent annually.

SERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. The defined benefit portion provides a benefit calculated at 1 percent of the AFC per year of service. (AFC is based on the greatest compensation during any eligible consecutive 60-month period.) Effective June 7, 2006, SERS Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44; or after five service credit years earned in PERS Plan 2 by September 1, 2000. Plan 3 members are immediately vested in the defined contribution portion of their plan. Vested Plan 3 members are eligible to retire with full benefits at age 65. Retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a 3 percent per year re-

duction applies; otherwise an actuarial reduction will apply. The benefit is also actuarially reduced to reflect the choice of a survivor option. There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2. See section D of Note 2 for a description of the defined contribution component of SERS Plan 3.

SERS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 allowance amount is 2 percent of the AFC for each year of service. For Plan 3 the allowance amount is 1 percent of the AFC for each year of service. Benefits are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor option.

In addition, a \$150,000 death benefit is provided to the estate (or duly designated nominee) of a SERS member who dies in the line of service as a result of injuries sustained in the course of employment, if found eligible by the Department of Labor and Industries.

The following changes to the SERS plans are the result of recent years' legislation:

Effective July 1, 2004:

- An asset smoothing corridor is established for actuarial valuations used in the funding of the state retirement systems. (SB 6249, Chapter 93, Laws 2004)

Effective April 21, 2005:

- SERS Plan 2 and Plan 3 members may opt out of plan membership if terminally ill, with less than five years to live. (SSB 5497, Chapter 131, Laws 2005)

Effective July 24, 2005:

- SERS Plan 2 and Plan 3 members can purchase service credit for military service that interrupted employment, if they are disabled while on active duty and cannot return to employment. Should the member die during this active duty, the surviving spouse or eligible child(ren) of member may purchase service credit on behalf of the deceased member. (HB 1325, Chapter 64, Laws 2005)

There were no other material changes in SERS benefit provisions for the fiscal year ended June 30, 2006.

SERS pension benefit provisions have been established by chapters 41.34 and 41.35 RCW.

Teachers' Retirement System (TRS): TRS is a cost-sharing multiple-employer retirement system comprised of three separate plans for membership purposes: Plans 1 and 2 are defined benefit plans and Plan 3 is a defined benefit plan with a defined contribution component. TRS participants who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977 and by June 30, 1996 are Plan 2 members unless they exercised an option to transfer their membership to Plan 3. TRS participants joining the system on or after July 1, 1996, and those who exercised their transfer option, are members of TRS Plan 3.

TRS is comprised of three separate plans for accounting purposes: Plan 1, Plan 2/3, and Plan 3. Plan 1 accounts for the defined benefits of Plan 1 members. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although members can only be a member of either Plan 2 or Plan 3, the defined benefit portions of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of this Plan 2/3 defined benefit plan may legally be used to pay the defined benefits of any of the Plan 2 or Plan 3 members or beneficiaries, as defined by the terms of the plan. Therefore, Plan 2/3 is considered to be a single plan for accounting purposes.

TRS defined benefit retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to the TRS Plan 1 and 2 defined benefit plans accrue interest at a rate specified by DRS. During Fiscal Year 2006, the DRS-established rate on employee contributions was 5.5 percent compounded quarterly. Employees in TRS Plan 1 and 2 can elect to withdraw total employee contributions and interest thereon upon separation from TRS-covered employment. TRS Plan 3 defined contribution benefits are financed from

employee contributions and investment earnings. Employees in TRS Plan 3 can elect to withdraw total employee contributions adjusted by earnings and losses from the investment of those contributions upon separation from TRS-covered employment.

TRS was legislatively established in 1938. Eligibility for membership requires service as a certificated public school employee working in an instructional, administrative or supervisory capacity. TRS is comprised principally of non-state-agency employees. TRS retirement benefit provisions are established in state statute and may be amended only by the State Legislature.

TRS Plan 1 retirement benefits are vested after an employee completes five years of eligible service. Plan 1 members are eligible for retirement after 30 years of service, or at the age of 60 with five years of service, or at the age of 55 with 25 years of service. The annual pension is 2 percent of the average final compensation (AFC) per year of service (AFC is based on the greatest compensation during the highest of any consecutive two compensation contract years), capped at 60 percent.

TRS Plan 2 retirement benefits are vested after an employee completes five years of eligible service. Plan 2 members may retire at the age of 65 with five years of service, or at the age of 55 with 20 years of service, with an allowance of 2 percent of the AFC per year of service. (AFC is based on the greatest compensation during any eligible consecutive 60-month period.) Plan 2 retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a 3 percent per year reduction applies; otherwise an actuarial reduction will apply. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3 percent annually.

TRS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. The defined benefit portion provides a benefit calculated at 1 percent of the AFC per year of service. (AFC is based on the greatest compensation during any eligible consecutive 60-

month period.) Effective June 7, 2006, TRS Plan 3 members are vested in the defined benefit portion of their plan after 10 years of service; or after five years of service if 12 months of that service are earned after age 44; or after five service credit years earned in TRS Plan 2 by July 1, 1996 and transferred to Plan 3. Plan 3 members are immediately vested in the defined contribution portion of their plan. Vested Plan 3 members are eligible to retire with full benefits at age 65. Retirements prior to the age of 65 receive reduced benefits. If retirement is at age 55 or older with at least 30 years of service, a 3 percent per year reduction applies; otherwise an actuarial reduction will apply. There is no cap on years of service credit; and Plan 3 provides the same cost-of-living allowance as Plan 2. See section D of Note 2 for a description of the defined contribution component of TRS Plan 3.

TRS Plan 1 provides death and temporary disability benefits. TRS Plan 1 members receive the following additional lump sum death benefits: retired members-\$400 (if retired with ten years of full-time membership), \$400 (if inactive with ten years of membership), active members-\$600 (if employed full-time at time of death). Members on temporary disability receive a monthly payment of \$180 payable for up to two years, for the same occurrence. After five years of service, members on a disability retirement receive an allowance based on their salary and service to date of disability. Members enrolled in TRS prior to April 25, 1973, may elect a benefit based on the formula in effect at that time.

TRS Plan 2 and Plan 3 provide disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 allowance amount is 2 percent of the AFC for each year of service. For Plan 3, the allowance amount is 1 percent of the AFC for each year of service. Benefits are actuarially reduced for each year that the member's age is less than 65, and to reflect the choice of a survivor option.

In addition, a \$150,000 death benefit is provided to the estate (or duly designated nominee) of a TRS member who dies in the line of service as a result of injuries sustained in the course of employment, if found eligible by the Department of Labor and Industries.

The following changes to the TRS plans are the result of recent years' legislation:

Effective June 10, 2004:

- TRS Plan 1 members receive a minimum \$1,000 monthly benefit if they have at least 25 years of service and have been retired at least 20 years. The new minimum amount remains in effect until the original benefit calculation, plus annual cost of living increases, exceeds \$1,000. (SHB 2538, Chapter 85, Laws 2004)

Effective April 21, 2005:

- TRS Plan 2 and Plan 3 members may opt out of plan membership if terminally ill, with less than five years to live. (SSB 5497, Chapter 131, Laws 2005)

Effective July 24, 2005:

- TRS Plan 1 members who are employed less than full time as psychologists, social workers, nurses, physical therapists, occupational therapists, speech language pathologists or audiologists can annualize their salaries when calculating their average final compensation. (HB 1321, Chapter 23, Laws 2005)
- TRS Plan 2 and Plan 3 members can purchase service credit for military service that interrupted employment, if they are disabled while on active duty and cannot return to employment. Should the member die during this active duty, the surviving spouse or eligible child(ren) of member may purchase service credit on behalf of the deceased member. (HB 1325, Chapter 64, Laws 2005)

There were no other material changes in TRS benefit provisions for the fiscal year ended June 30, 2006.

TRS pension benefit provisions have been established by chapters 41.32 and 41.34 RCW.

Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF): LEOFF is a cost-sharing multiple-employer retirement system comprised of two separate defined benefit plans. LEOFF participants who joined the system by September 30, 1977 are Plan 1 members. Those who joined on or after October 1, 1977 are Plan 2 members.

LEOFF was established in 1970 by the Legislature. Membership includes all full-time, fully compensated, local law enforcement officers and firefighters. LEOFF membership is comprised primarily of non-state employees, with Department of Fish and Wildlife enforcement officers who were first included prospectively effective July 27, 2003, being an exception.

Effective July 1, 2003, the LEOFF Plan 2 Retirement Board was established by Initiative 790 to provide governance of LEOFF Plan 2. The Board's duties include adopting contribution rates and recommending policy changes to the Legislature for the LEOFF Plan 2 retirement plan. LEOFF retirement benefit provisions are established in state statute and may be amended by the state Legislature.

LEOFF defined benefit retirement benefits are financed from a combination of investment earnings, employer and employee contributions, and a special funding situation in which the state pays through state legislative appropriations. Employee contributions to the LEOFF Plan 1 and Plan 2 defined benefit plans accrue interest at a rate specified by DRS. During Fiscal Year 2006, the DRS-established rate on employee contributions was 5.5 percent compounded quarterly. Employees in LEOFF Plan 1 and Plan 2 can elect to withdraw total employee contributions and interest earnings upon separation from LEOFF-covered employment.

LEOFF Plan 1 retirement benefits are vested after an employee completes five years of eligible service. Plan 1 members are eligible for retirement with five years of service at the age of 50. The benefit per year of service calculated as a percent of final average salary (FAS) is as follows:

Term of Service	Percent of FAS
20+	2.0%
10 - 19	1.5%
5 - 9	1.0%

The FAS is the basic monthly salary received at the time of retirement, provided a member has held the same position or rank for 12 months preceding the date of retirement. Otherwise, it is the average of the highest consecutive

24 months' salary within the last 10 years of service. If membership was established in LEOFF after February 18, 1974, the service retirement benefit is capped at 60 percent of FAS. A cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index).

LEOFF Plan 2 retirement benefits are vested after an employee completes five years of eligible service. Plan 2 members may retire at the age of 50 with 20 years of service, or at the age of 53 with five years of service, with an allowance of 2 percent of the FAS per year of service (FAS is based on the highest consecutive 60 months). Plan 2 retirements prior to the age of 53 are reduced 3 percent for each year that the benefit commences prior to age 53 and to reflect the choice of a survivor option. There is no cap on years of service credit; and a cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3 percent annually.

LEOFF Plan 1 provides death and disability benefits. Death benefits for Plan 1 members on active duty consist of the following: (1) If eligible spouse, 50 percent of the FAS, plus 5 percent of FAS for each surviving child, with a limitation on the combined allowances of 60 percent of the FAS; or (2) If no eligible spouse, 30 percent of FAS for the first child plus 10 percent for each additional child, subject to a 60 percent limitation of FAS. In addition, a duty death benefit of \$150,000 is provided to Plan 1 and Plan 2 members.

The LEOFF Plan 1 disability allowance is 50 percent of the FAS plus 5 percent for each child up to a maximum of 60 percent. Upon recovery from disability before the age of 50, a member is restored to service with full credit for service while disabled. Upon recovery after the age of 50, the benefit continues as the greater of the member's disability allowance or service retirement allowance.

LEOFF Plan 2 provides disability benefits. There is no minimum amount of service credit required for eligibility. The Plan 2 allowance amount is 2 percent of the FAS for each year of service. Benefits are actuarially reduced for each year that the member's age is less than 53, unless the disability is duty-related, and to reflect the choice of a survivor option.

Members of LEOFF Plan 2 who leave service because of a line of duty disability are allowed to withdraw 150 percent of accumulated member contributions. This withdrawal benefit is not subject to federal income tax. Alternatively, members of LEOFF Plan 2 who leave service because of a line of duty disability may be eligible to receive a retirement allowance of at least 10 percent of final average salary and two percent per year of service beyond five years. The first 10 percent of the FAS is not subject to federal income tax.

The following changes to the LEOFF plans are the result of recent years' legislation:

Effective July 24, 2005:

- LEOFF Plan 1 retirees can designate a spouse from a post-retirement marriage as a beneficiary, even if an ex-spouse is receiving a portion of the retiree's benefit under a court-approved property settlement. (HB 1329, Chapter 67, Laws 2005)
- The spouse of a LEOFF Plan 1 retiree who receives a portion of the retiree's monthly pension under a court-ordered property settlement, can continue receiving that portion after the retiree dies. (HB 1319, Chapter 62, Laws 2005)
- LEOFF Plan 2 retirees may return to work in an eligible position covered by another retirement system, choose membership in that system and suspend their pension benefits, or not choose membership and continue receiving pension benefits without interruption. (HB 1270, Chapter 372, Laws 2005)
- LEOFF Plan 2 members can purchase credit for military service that interrupted employment, if they are disabled while on active duty and cannot return to employment. Should the member die during this active duty, the surviving spouse or eligible child(ren) of member may purchase service credit on behalf of the deceased member. (HB 1325, Chapter 64, Laws 2005)
- Current members of PERS who are emergency medical technicians can elect to become members of LEOFF Plan 2. (SHB 1936, Chapter 459, Laws 2005)

Effective March 14, 2006:

- LEOFF Plan 2 members who are severely disabled in the line of duty and incapable of substantial gainful employment in any capacity in the future, can receive a catastrophic disability benefit from LEOFF Plan 2, equal to 70 percent of their final average salary subject to offsets for workers' compensation and Social Security disability benefits received. (HB 2932, Chapter 39, Laws 2006)

Effective June 7, 2006:

- Coverage is extended for the \$150,000 death benefit to LEOFF Plan 2 members who die from a duty-related illness such as an infectious disease or cancer, which results from a job-related exposure. (SHB 2933, Chapter 351, Laws 2006)
- Survivors of LEOFF Plan 2 members who are killed in the line of duty are reimbursed for the cost of on-going health care insurance coverage. (SB 6723, Chapter 345, Laws 2006)

There were no other material changes in LEOFF benefit provisions for the year ended June 30, 2006. LEOFF pension benefit provisions have been established by chapter 41.26 RCW.

Washington State Patrol Retirement System (WSPRS):

WSPRS is a single-employer defined benefit retirement system. WSPRS participants who joined the system by December 31, 2002 are Plan 1 members. Those who joined on or after January 1, 2003 are Plan 2 members. For financial reporting and investment purposes, however, both plans are accounted for in the same pension fund.

WSPRS retirement benefits are financed from a combination of investment earnings and employer and employee contributions. Employee contributions to WSPRS accrue interest at a rate specified by DRS. During Fiscal Year 2006, the DRS-established rate on employee contributions was 5.5 percent annually, compounded monthly. Employees in WSPRS can elect to withdraw total employee contributions and interest earnings upon separation from WSPRS-covered employment.

WSPRS was established by the Legislature in 1947. Any commissioned employee of the Washington State Patrol is eligible to participate. WSPRS benefits are established in state statute and may be amended only by the state Legislature.

WSPRS retirement benefits are vested after an employee completes five years of eligible service. Members are eligible for retirement at the age of 55 with five years of service, or after 25 years of service. The annual pension is 2 percent of the average final salary (AFS) per year of service, capped at 75 percent. A cost-of-living allowance is granted (indexed to the Seattle Consumer Price Index), capped at 3 percent annually.

WSPRS benefit provisions include death benefits; however, the system provides no disability benefits. Disability benefits may be available from the Washington State Patrol (WSP). If disability benefits are received, the member may be eligible to acquire service credit for the period of disability. In addition, a duty death benefit of \$150,000 is provided to WSPRS members.

For WSPRS Plan 1 members, AFS is based on the average of the two highest-paid service credit years and excludes voluntary overtime. Death benefits for these members, if on active duty, consist of the following: (1) If eligible spouse, 50 percent of the AFS, plus 5 percent of the AFS for each surviving child, with a limitation on the combined allowances of 60 percent of the AFS; or (2) If no eligible spouse, 30 percent of AFS for the first child plus 10 percent for each additional child, subject to a 60 percent limitation of AFS.

For WSPRS Plan 2 members, AFS is based on the average of the five consecutive highest-paid service credit years and excludes both voluntary overtime and cash-outs of annual and holiday leave. At retirement, these members also have the option of selecting an actuarially reduced benefit in order to provide for post-retirement survivor benefits. Death benefits for these members, if on active duty, consist of the following: (1) If the member is single or has less than 10 years of service, the return of the member's accumulated contributions; or (2) If the member is married, has an eligible child, or has completed 10 years of service, a reduced benefit

allowance reflecting a joint and 100 percent survivor option or 150 percent of the member’s accumulated contributions, at the survivor’s option.

Beneficiaries of a WSPRS Plan 2 member with 10 years of service who is killed in the course of employment receive retirement benefits without actuarial reduction, if the member was not at normal retirement age at death. This provision applies to any member killed in the course of employment, on or after June 10, 2004, if found eligible by the Director of the Department of Labor and Industries.

The following changes to the WSPRS plans are the result of recent years’ legislation:

Effective July 24, 2005:

- WSPRS Plan 2 members can purchase credit for military service that interrupted employment, if they are disabled while on active duty and cannot return to employment. Should the member die during this active duty, the surviving spouse or eligible child(ren) of member may purchase service credit on behalf of the deceased member. (HB 1325, Chapter 64, Laws 2005)

Effective June 7, 2006:

- Legislation clarifies how benefits are calculated for the surviving spouses of disabled State Patrol troopers. Survivor benefits for a WSPRS Plan 1 member who becomes disabled is the average monthly salary received by active members of the WSP during the two years prior to the death of the disabled member; five years for WSPRS Plan 2 members. (HB 3137, Chapter 94, Laws 2006)

There were no other material changes in WSPRS benefit provisions for the fiscal year ended June 30, 2006.

WSPRS pension benefit provisions have been established by chapter 43.43 RCW.

Judicial Retirement System (JRS): JRS is an agent multiple-employer retirement system comprised of a single defined benefit plan. JRS retirement benefits are financed

on a pay-as-you-go basis from a combination of investment earnings, employer contributions, employee contributions, and a special funding situation in which the state pays the remaining contributions.

JRS was established by the Legislature in 1971. Membership includes judges elected or appointed to the Supreme Court, Court of Appeals, and Superior Courts on or after August 9, 1971. The system was closed to new entrants on July 1, 1988, with new judges joining PERS Plan 2. JRS retirement benefit provisions are established in state statute and may be amended only by the state Legislature.

During Fiscal Year 2006, the DRS-established rate on employee contributions was 5.5 percent, compounded quarterly. JRS employees who are vested in the plan may not elect to withdraw their contributions upon termination. However, any JRS member that left the system before July 1, 1988, or his/her spouse, who was ineligible to receive a benefit at that time, may apply and receive a refund of such contributions from DRS, if said contributions have not been already refunded via a sundry claims appropriation from the state legislature.

JRS members are eligible for retirement at the age of 60 with 15 years of service, or at the age of 60 after 12 years of service (if the member left office involuntarily) with at least 15 years after beginning judicial service.

The benefit per year of service calculated as a percent of average final compensation (AFC) is as follows:

Term of Service	Percent of AFC
15+	3.5%
10 - 14	3.0%

Death and disability benefits are also provided. Eligibility for death benefits while on active duty requires ten or more years of service. A monthly spousal benefit is provided which is equal to 50 percent of the benefit a member would have received if retired. If the member is retired, the surviving spouse receives the greater of 50 percent of the member’s

retirement benefit or 25 percent of the AFC. For members with ten or more years of service, a disability benefit of 50 percent of AFC is provided.

There were no material changes in JRS benefit provisions for the fiscal year ended June 30, 2006.

JRS pension benefit provisions have been established by chapter 2.10 RCW.

Judges’ Retirement Fund: The Judges’ Retirement Fund is an agent multiple-employer retirement system comprised of a single defined benefit plan. There are currently no active members in this plan. Retirement benefits are financed on a pay-as-you-go basis from a combination of past employee and employer contributions, and a special funding situation in which the state contributes to the plan. Retirees did not earn interest on their contributions, nor could they elect to withdraw their contributions upon termination.

The Judges’ Retirement Fund was created by the Legislature on March 22, 1937, pursuant to RCW 2.12, to provide retirement benefits to judges of the Supreme Court, Court of Appeals, or Superior Courts of the state of Washington. Subsequent legislation required that all judges first appointed or elected to office on or after August 9, 1971, enter the Judicial Retirement System. Judges’ retirement benefit provisions are established in state statute and may be amended only by the state Legislature.

Judges’ members are eligible for retirement at the age of 70 with ten years of service, or at any age with 18 years of service. Members are eligible to receive a partial retirement allowance after 12 years of credited service as a judge. With the exception of a partial retirement allowance, the member receives a benefit equal to one-half of the monthly salary being received as a judge at the time of retirement, or at the end of the term immediately prior to retirement if retirement occurs after the expiration of the member’s term in office. A partial retirement allowance is based on the proportion of the member’s 12 or more years of service in relation to 18 years of service.

There were no material changes in Judges’ benefit provisions for the fiscal year ended June 30, 2006.

Pension benefit provisions have been established by chapter 2.12 RCW.

C. Funding Policy

PERS: Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates, Plan 2 employer and employee contribution rates, and Plan 3 employer contribution rates. Employee contribution rates for Plan 1 are established by statute at 6 percent for state agencies and local government unit employees, and at 7.5 percent for state government elected officials. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the level established by the Legislature. Under PERS Plan 3, employer contributions finance the defined benefit portion of the plan, and member contributions finance the defined contribution portion. The Employee Retirement Benefits Board sets Plan 3 employee contribution rates. Six rate options are available ranging from 5 to 15 percent; two of the options are graduated rates dependent on the employee’s age.

The methods used to determine the contribution requirements are established under state statute in accordance with chapters 41.40 and 41.45 RCW.

Required contribution rates (expressed as a percentage of current-year covered payroll) at the close of Fiscal Year 2006 were as follows:

PERS Actual Contribution Rates			
	Plan 1	Plan 2	Plan 3
Employer Rates:			
State Agencies*	2.44%	2.44%	2.44% **
Local Governmental Units*	2.44%	2.44%	2.44% **
State Government Elected Officials*	3.57%	2.44%	2.44% **
Employee Rates:			
State Agencies	6.00%	2.25%	***
Local Governmental Units	6.00%	2.25%	***
State Government Elected Officials	7.50%	2.25%	***

*Includes an administrative expense rate of 0.19 percent.
 **Plan 3 defined benefit portion only.
 ***Variable from 5% to 15% based on rate selected by the member.

SERS: Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates and Plan 3 employer contribution rates. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the level established by the Legislature. Under SERS Plan 3, employer contributions finance the defined benefit portion of the plan, and member contributions finance the defined contribution portion. The Employee Retirement Benefits Board sets Plan 3 employee contribution rates. Six rate options are available ranging from 5 to 15 percent; two of the options are graduated dependent on the employee’s age.

The methods used to determine the contribution requirements are established under state statute in accordance with chapters 41.35 and 41.45 RCW.

Required contribution rates (expressed as a percentage of current-year covered payroll) at the close of Fiscal Year 2006 were as follows:

SERS Actual Contribution Rates

	Plan 2	Plan 3
Employer Rates:		
State Agencies*	2.94%	2.94% **
Local Governmental Units*	2.94%	2.94% **
Employee Rates:		
State Agencies	2.75%	***
Local Governmental Units	2.75%	***

*Includes an administrative expense rate of 0.19 percent.
 ** Plan 3 defined benefit portion only.
 ***Variable from 5% to 15% based on rate selected by the member.

TRS: Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates, Plan 2 employer and employee contribution rates, and Plan 3 employer contribution rates. Employee contribution rates for Plan 1 are established by statute at 6 percent for state agencies and local government unit employees, and at 7.5 percent for state elected officials. The employer and employee contribution rates for Plan 2 and the employer contribution rate for Plan 3 are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. All employers are required to contribute at the

level established by the Legislature. Under TRS Plan 3, employer contributions finance the defined benefit portion of the plan and member contributions finance the defined contribution portion. The Employee Retirement Benefits Board sets Plan 3 employee contribution rates. Six rate options are available ranging from 5 to 15 percent; two of the options are graduated rates dependent on the employee’s age. The methods used to determine the contribution requirements are established under state statute in accordance with chapters 41.32 and 41.45 RCW. Required contribution rates (expressed as a percentage of current-year covered payroll) at the close of Fiscal Year 2006 were as follows:

TRS Actual Contribution Rates

	Plan 1	Plan 2	Plan 3
Employer Rates*	2.92%	2.92%	2.92% **
Employee Rates:			
State Agencies	6.00%	2.48%	***
Local Governmental Units	6.00%	2.48%	***
State Government Elected Officials	7.50%	2.48%	***

*Includes an administrative expense rate of 0.19 percent.
 **Plan 3 defined benefit portion only.
 ***Variable from 5% to 15% based on rate selected by the member.

LEOFF: Starting on July 1, 2000, Plan 1 employers and employees will contribute zero percent as long as the plan remains fully funded. Employer and employee contribution rates are developed by the Office of the State Actuary to fully fund the plan. Plan 2 employers and employees are required to pay at the level adopted by the LEOFF Plan 2 Retirement Board in accordance with chapter 41.45 RCW. All employers are required to contribute at the level required by state law.

Required contribution rates (expressed as a percentage of current-year covered payroll) at the close of Fiscal Year 2006 were as follows:

LEOFF Actual Contribution Rates		
	Plan 1	Plan 2
Employer Rates:		
Cities, Counties, Fire Districts, etc.*	0.19%	4.39%
Ports and Universities*	n/a	7.18%
Employee Rates:		
Cities, Counties, Fire Districts, etc.	--	6.99%
Ports and Universities	n/a	6.99%
State of Washington Contributions	n/a	2.79%
*Includes an administrative expense rate of 0.19 percent.		

The Legislature has the ability, by means of a special funding arrangement, to appropriate money from the state General Fund to supplement the current service liability and fund the prior service costs of Plans 1 and 2 in accordance with the requirements of the Pension Funding Council. However, this special funding situation is not mandated by the state constitution and this funding requirement could be returned to the employers by a change of statute. For Fiscal Year 2006, the state contributed \$31.7 million to LEOFF Plan 2.

WSPRS: Each biennium, the state Pension Funding Council adopts the employee and the state contribution rates. The employee and the state contribution rates are developed by the Office of the State Actuary to fully fund the plan. State statute also requires employees to contribute at a rate of at least 2 percent. The methods used to determine the contribution requirements are established under state statute in accordance with chapters 43.43 and 41.45 RCW.

Required contribution rates (expressed as a percentage of current-year covered payroll) at the close of Fiscal Year 2006 were as follows:

WSPRS Actual Contribution Rates		
	Plan 1	Plan 2
Employer Rate*	4.70%	4.70%
Employee Rate	4.51%	4.51%
* Includes an administrative expense rate of 0.19 percent.		

JRS: Contributions made are based on rates set in chapter 2.10 RCW. By statute, employees are required to contribute 7.5 percent with an equal amount contributed by the state. In addition, the state guarantees the solvency of the JRS on a pay-as-you-go basis. Each biennium, the Legislature, through biennial appropriations from the state General Fund, contributes amounts sufficient to meet benefit payment requirements. For Fiscal Year 2006, the state contributed \$6.6 million.

Judges: Contributions made are based on rates set in chapter 2.12 RCW. By statute, employees are required to contribute 6.5 percent with an equal amount contributed by the state. In addition, the state guarantees the solvency of the Judges' Retirement fund on a pay-as-you-go basis. As of June 30, 2006, there are no active members remaining in the Judges Retirement Fund and member contributions are no longer collected. Each biennium, the Legislature, through biennial appropriations from the state General Fund, contributes amounts sufficient to meet benefit payment requirements. For Fiscal Year 2006, the state contributed \$0.3 million.

D. Employer Contributions Required and Paid

The following table presents DRS' required contributions to cost-sharing plans in accordance with the funding policy. All contributions required by the funding method were paid.

	2006	2005	2004
(amounts expressed in thousands)			
PERS Plan 1	\$ 35.0	\$ 20.7	\$ 28.3
PERS Plan 2/3	250.0	137.5	137.0
TRS Plan 1	1.0	0.5	0.6
Total	\$286.0	\$158.7	\$165.9

E. Defined Contribution Plans

Public Employees' Retirement System Plan 3: The Public Employees' Retirement System (PERS) Plan 3 is a defined benefit plan, with a defined contribution component, administered by the state through DRS. Eligible employees include: elected officials; state employees; employees of the Supreme, Appeals, and Superior Courts (other than judges currently in a judicial retirement system); employees of legislative com-

mittees; community and technical colleges, college and university employees not in national higher education retirement programs; judges of district and municipal courts; and employees of local governments. PERS participants who joined on or after October 1, 1977 and by either, February 28, 2002 for state and higher education employees, or August 31, 2002 for local government employees, are Plan 2 members unless they exercise an option to transfer their membership to Plan 3. PERS participants who joined the system on or after March 1, 2002 for state and higher education employees, or September 1, 2002 for local government employees have the irrevocable option of choosing membership in either PERS Plan 2 or PERS Plan 3. The option must be exercised within 90 days of employment. An employee is reported in Plan 2 until a choice is made. Employees who fail to choose within 90 days default to PERS Plan 3. As of June 30, 2006, there are 587 participating employers in PERS Plan 3. See section B of Note 2 for PERS plan descriptions.

PERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. As established by RCW 41.40, employee contribution rates to the defined contribution component range from 5 percent to 15 percent of salaries based on member choice. There are currently no requirements for employer contributions to the defined contribution component of PERS Plan 3.

Membership in PERS Plan 3 consisted of the following as of the latest actuarial valuation date of September 30, 2005:

Retirees and Beneficiaries Receiving Benefits	343
Terminated Plan Members Entitled to but Not Yet Receiving Benefits	1,793
Active Plan Members Vested	8,901
Active Plan Members Nonvested	<u>12,315</u>
Total	23,352

PERS Plan 3 defined contribution retirement benefits are solely dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions as authorized by the Employee Retirement

Benefits Board. Any expenses incurred in conjunction with self-directed investments are to be paid by members. Absent a member's self-direction, PERS Plan 3 investments are made in the same portfolio as that of the PERS 2/3 defined benefit plan.

For Fiscal Year 2006, employee contributions were \$64.8 million, and plan refunds paid out were \$35.5 million.

School Employees' Retirement System Plan 3: The School Employees' Retirement System (SERS) Plan 3 is a defined benefit plan, with a defined contribution component, administered by the state through DRS. Eligible employees include classified employees of school districts and educational service districts who joined PERS Plan 2 on or after October 1, 1977 and by August 31, 2000, and were transferred to SERS Plan 2 on September 1, 2000. Members transferred from PERS Plan 2 to SERS Plan 2 may exercise an option to transfer their membership to SERS Plan 3. SERS participants joining the system on or after September 1, 2000, are also members of SERS Plan 3. As of June 30, 2006, there are 301 participating employers in SERS Plan 3. See section B of Note 2 for SERS plan descriptions.

SERS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. As established by RCW 41.35, employee contribution rates to the defined contribution component range from 5 percent to 15 percent of salaries based on member choice. There are currently no requirements for employer contributions to the defined contribution component of SERS Plan 3.

Membership in SERS Plan 3 consisted of the following as of the latest actuarial valuation date of September 30, 2005:

Retirees and Beneficiaries Receiving Benefits	705
Terminated Plan Members Entitled to but Not Yet Receiving Benefits	2,491
Active Plan Members Vested	10,672
Active Plan Members Nonvested	<u>20,291</u>
Total	34,159

SERS Plan 3 defined contribution retirement benefits are solely dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions as authorized by the Employee Retirement Benefits Board. Any expenses incurred in conjunction with self-directed investments are to be paid by members. Absent a member’s self-direction, SERS Plan 3 investments are made in the same portfolio as that of the SERS 2/3 defined benefit plan.

For Fiscal Year 2006, employee contributions were \$49.8 million, and plan refunds paid out were \$24.9 million.

Teachers’ Retirement System Plan 3: The Teachers’ Retirement System (TRS) Plan 3 is a defined benefit plan, with a defined contribution component, administered by the state through DRS. Eligibility for membership requires service as a certificated public school employee working in an instructional, administrative or supervisory capacity. TRS participants who joined on or after October 1, 1977 and by June 30, 1996 are Plan 2 members unless they exercised an option to transfer their membership to Plan 3. TRS participants joining the system on or after July 1, 1996, and those who exercised their transfer option, are members of TRS Plan 3. As of June 30, 2006, there are 333 participating employers in TRS Plan 3. See section B of Note 2 for TRS plan descriptions.

TRS Plan 3 has a dual benefit structure. Employer contributions finance a defined benefit component, and member contributions finance a defined contribution component. As established by RCW 41.34, employee contribution rates to the defined contribution component range from 5 percent to 15 percent of salaries based on member choice. There are currently no requirements for employer contributions to the defined contribution component of TRS Plan 3.

Membership in TRS Plan 3 consisted of the following as of the latest actuarial valuation date of September 30, 2005:

Retirees and Beneficiaries Receiving Benefits	706
Terminated Plan Members Entitled to but Not Yet Receiving Benefits	3,158
Active Plan Members Vested	21,132
Active Plan Members Nonvested	<u>30,341</u>
Total	55,337

TRS Plan 3 defined contribution retirement benefits are solely dependent upon the results of investment activities. Members may elect to self-direct the investment of their contributions as authorized by the Employee Retirement Benefits Board. Any expenses incurred in conjunction with self-directed investments are to be paid by members. Absent a member’s self-direction, TRS Plan 3 investments are made in the same portfolio as that of the TRS 2/3 defined benefit plan.

For Fiscal Year 2006, employee contributions required and made were \$195.9 million and plan refunds paid out were \$41.9 million.

Judicial Retirement Account: The Judicial Retirement Account (JRA) was established by the Legislature in 1988 to provide supplemental retirement benefits. It is a defined contribution plan administered by the state of Washington Administrative Office of the Courts, under the direction of the Board for Judicial Administration. Membership includes judges elected or appointed to the Supreme Court, Court of Appeals, and Superior Courts, and who are members of the PERS for their services as a judge. Vesting is full and immediate. At June 30, 2006, there were 200 active members and 17 inactive members in JRA. There are three participating employers in JRA.

Plan members are required to contribute 2.5 percent of covered salary. The state, as employer, shall contribute an equal amount on a monthly basis. Contributions are collected by the Administrative Office of the Courts. The employer and employee obligations to contribute are established per RCW 2.14. Plan provisions and contribution requirements

are established in state statute and may be amended only by the State Legislature.

A JRA member who separates from judicial service for any reason is entitled to receive a lump-sum distribution of the accumulated contributions. The administrator of JRA may adopt rules establishing other payment options. If a member dies, the amount of accumulated contributions standing to the member's credit at the time of the member's death shall be paid to the member's estate, or such person or persons, trust or organization as the member has nominated by written designation.

The Administrator of JRA has entered into an agreement with DRS for accounting and reporting services, and the Washington State Investment Board (WSIB) for investment services. DRS shall be responsible for all record keeping, accounting, and reporting of member accounts. The WSIB shall have the full power to establish investment policy, develop participant investment options, and manage the investment funds from the JRA plan, consistent with the provisions of RCW 2.14.080 and RCW 43.84.150.

F. Deferred Compensation Plan

The state of Washington offers its employees and employees of those political subdivisions that elect to participate, a deferred compensation plan pursuant to RCW 41.50.770, in accordance with Internal Revenue Code Section 457. Under the plan, eligible employees elect to defer a portion of their salary until future time periods. The deferred compensation is not available to employees until termination, retirement, disability, death or unforeseeable financial emergency. This deferred compensation plan is administered by DRS.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, shall be held in trust by the Washington State Investment Board (WSIB), as set forth under RCW 43.33A.030, for the exclusive benefit of the state deferred compensation plan's participants and their beneficiaries. Neither the participant, nor the participant's beneficiary or beneficiaries, nor any other designee, has any right to commute, sell, assign, transfer, or otherwise

convey the right to receive any payments under the plan. These payments and rights thereto are nonassignable and nontransferable.

Employees participating in the state Deferred Compensation Plan administered by DRS shall self-direct the investment of the deferred portion of their income through the selection of investment options. These options are provided by the WSIB after consultation with the Employee Retirement Benefits Board. The WSIB has the full power to invest moneys in the state deferred compensation plan in accordance with RCW 43.84.150, 43.33A.140, and 41.50.770. Pursuant to RCW 41.50.770, no state board, commission, agency, or any officer, employee or member thereof is liable for any loss or deficiency resulting from participant investments selected, or from reasonable efforts to implement investment directions.

The Deferred Compensation Plan offers a stable principal Savings Pool and eleven other diversified investment options. The investment options consist of the following:

- Savings Pool
- Active U.S. Core Stock Fund
- Active U.S. Value Stock Fund
- Fidelity Growth Company Fund
- International Stock Fund
- U.S. Small Stock Index Fund
- U.S. Stock Market Index Fund
- Washington State Bond Fund
- Washington State Long-Horizon Fund
- Washington State Mid-Horizon Fund
- Washington State Short-Horizon Fund
- Washington State Social Balanced Fund

More detailed information and discussion regarding investment strategies and an overview of investments in general can be obtained by contacting DRS.

G. Dependent Care Assistance Program

The state of Washington offers its employees a dependent care assistance program pursuant to RCW 41.04.600, in accordance with Internal Revenue Code Section 129. Under the program, eligible employees elect to reduce their taxable

salary (before federal income and social security taxes) by amounts paid or incurred by the employer for dependent care assistance provided to the employee. This dependent care assistance program is administered by DRS.

Participation requires the employee to estimate the amount of dependent care expense he/she expects to incur during the plan year. The amount of salary reduction elected should not exceed those expenses. The reductions are taken in equal amounts each regular pay period and deposited into a dependent care account. Eligible expenses are charges for care of a qualifying person inside or outside the employee's home which enable the employee to work. If the eligible employee is married, the expenses must also occur while the employee's spouse is employed (or if the employee's spouse is a full-time student, on days the spouse attends school).

Qualifying persons are as follows:

- Children under age 13 who qualify as IRS dependents;
- Any other IRS dependent who is physically and/or mentally incapable of self-care; or
- A spouse who is physically or mentally incapable of self-care.

Every action taken by DRS in administering the Dependent Care Assistance Program shall be presumed to be a fair and reasonable exercise of the authority vested in or the duties imposed upon it. DRS shall be presumed to have exercised reasonable care, diligence, and prudence and to have acted impartially as to all persons interested unless the contrary be proved by clear and convincing affirmative evidence.

* The Annual Required Contribution (ARC) changes each year with the experience of the plans. Factors influencing the experience include changes in funding methods, assumptions, plan provisions, and economic and demographic experience gains and losses. The methods used to derive the ARC for this accounting disclosure are different from the methods used to derive the actual contributions required by law. These differences include the use of different actuarial valuations (actual contributions may be based on an earlier valuation) and different actuarial cost methods. For these reasons, the actual contributions will not match the Annual Required Contributions.

¹Based on a variation of the Frozen Initial Liability (FIL) cost method.

²The aggregate cost method does not identify or separately amortize unfunded accrued liabilities.

³Pay As You Go basis for funding

⁴Level percent of payroll, including system growth.

⁵Asset Valuation Method - 8 year smoothed fair value - The actuarial value of assets is calculated under an adjusted market value method by starting with the market value of assets. For subsequent years, the actuarial value of assets is determined by adjusting the market value of assets to reflect the difference between the actual investment return and the expected investment return during each of the last eight years, or if fewer, the completed years since adoption, at the following rates per year (annual recognition):

Annual Gain/Loss					
<i>Rate of Return</i>	<i>Smoothing Period</i>	<i>Annual Recognition</i>	<i>Rate of Return</i>	<i>Smoothing Period</i>	<i>Annual Recognition</i>
15% and up	8 years	12.50%	6-7%	2 years	50.00%

⁶ The Uniform COLA and Gainsharing COLA

Generally, all retirees over age 66 receive an increase in their monthly benefit at least once a year. The Gainsharing COLA is added every even-numbered year if certain extraordinary investment gains are achieved. The Uniform COLA amount is calculated as the last Uniform COLA amount plus any Gainsharing COLA amount, all increased by 3%. These are some historical monthly COLA amounts per year of service:

Date	COLA Type	Amount
7/1/2002	Uniform	\$1.14
7/1/2003	Uniform	\$1.18
7/1/2004	Uniform	\$1.21
7/1/2005	Uniform	\$1.25
7/1/2006	Uniform	\$1.29

Report On Investment Activity Prepared by the Washington State Investment Board

Overview

The Washington State Investment Board (WSIB) manages retirement fund assets to maximize return at a prudent level of risk (Chapter 43.33A.110 RCW). Investment decisions are made within the framework of a Strategic Asset Allocation Policy, and a series of written WSIB-adopted investment policies for the various asset classes in which WSIB invests.

The Retirement Funds, collectively called the Commingled Trust Fund (CTF), increased in value by \$6.4 billion during fiscal 2006 to \$53.8 billion. The CTF return was 16.69 percent for the fiscal year.

Performance

The chart below shows the returns for the CTF on a total fund basis, as well as by asset class. Appropriate benchmark returns are provided for comparison purposes.

	Periods Ending 6/30/2006		
	1 Year	3 Year	5 Year
TOTAL FUND	16.69%	15.47%	8.51%
<i>Passive Benchmark</i>	10.92%	12.57%	6.00%
U.S. Equity	9.90%	13.05%	3.98%
<i>Dow Jones Wilshire 5000</i>	9.92%	12.98%	4.02%
International Equity	27.21%	24.92%	11.49%
<i>MSCI ACWI ex-U.S</i>	28.40%	25.78%	11.85%
Fixed Income	0.32%	2.92%	5.69%
<i>Lehman Universal</i>	-0.26%	2.67%	5.39%
Cash	4.16%	2.19%	2.01%
<i>90 Day T-Bills</i>	3.98%	2.37%	2.25%
Private Equity	39.48%	30.04%	13.24%
<i>S&P 500 + 500 bp (lagged one quarter)</i>	16.73%	22.22%	8.97%
Real Estate	24.30%	19.83%	17.22%
<i>NCREIF + 100 bp (lagged one quarter)</i>	21.19%	16.07%	12.67%

Performance information is compiled by the custodian, State Street Bank and Trust. Performance numbers are reported net of management fees, and are prepared using a time-weighted rate of return based on the current market value.

Asset Allocation

Investment performance is a result of two primary factors: individual asset selection and the allocation of the portfolio among asset classes (e.g. stocks, fixed income, real estate). Studies suggest that more than 90 percent of investment performance can be explained by asset allocation decision.

Accordingly, the WSIB sets a specific long-term target asset mix and adopts tight ranges around those targets to control the overall risk and return of the CTF. On a daily basis, the WSIB reviews the asset allocation in relation to the established ranges. The staff shifts assets whenever the allocation range for an asset exceeds the approved range or when cash is needed elsewhere. The WSIB reviews changes to the overall asset mix every three to four years.

The chart below shows the CTF's asset allocation as of June 30, 2006, as well as the long-term target allocations.

Current Asset Allocation and Long-Term Target Allocations		
Asset Type	Current Allocation	Long-Term Target
Fixed Income	24.06%	27.50%
U.S. Equity	24.26%	24.50%
International Equity	23.49%	23.00%
Private Equity	16.79%	15.50%
Real Estate	10.50%	9.50%
Liquidity	0.90%	0.00%

U.S. Equity

The U.S. Equity portfolio is structured to capture the returns of the broad U.S. equity market as measured by the Dow Jones Wilshire 5000 Index. The index is comprised of all U.S. domiciled common equities for which pricing information is readily available, and currently represents approximately 5,000 companies. The portfolio is managed externally using a primarily passive management strategy that tracks the index.

Retirement Fund's Ten Largest U.S. Equity Holdings as of 6/30/2006

Exxon Mobil Corp.	2.60%	Pfizer Inc.	1.23%
General Electric Corp.	2.27%	Johnson & Johnson	1.23%
Citigroup Inc.	1.69%	Procter and Gamble Co.	1.23%
Bank America Corp.	1.52%	J.P. Morgan Chase & Co.	1.02%
Microsoft Corp.	1.47%	Altria Group, Inc.	0.97%

Non-U.S. Equity

Almost 90 percent of the non-U.S. equity portfolio is invested in the developed markets with the remaining portion invested in the emerging markets. Portfolios are managed by external managers employing a combination of both active and passive management strategies.

Retirement Fund's Ten Largest Exposures by Country as of 6/30/2006

	CTF Weight	Index Weight		CTF Weight	Index Weight
Japan	19.17%	19.65%	Canada	4.41%	6.48%
United Kingdom	17.64%	19.36%	Australia	3.78%	4.23%
France	8.53%	7.89%	Spain	3.69%	3.06%
Germany	6.18%	5.57%	Netherlands	3.52%	2.64%
Switzerland	5.29%	5.47%	Italy	3.33%	3.04%

The ten largest country exposures comprise 75.5% of the portfolio versus the index at 77.4%.

Fixed Income

The Fixed Income portfolio is internally managed by WSIB staff with the Lehman Universal Index as the performance benchmark. The management strategy is primarily one of sector selection. The portfolio is structured to be over- or under-weighted relative to the index's sectors: primarily treasuries, agencies, credit, mortgage backed securities and asset backed securities. The duration of the portfolio is 2.71 percent shorter than that of the Lehman Universal Index.

Retirement Fund's Fixed Income Sector Distribution as of 6/30/2006		
Investment Type	Lehman Universal	WSIB Fixed Income
Mortgage	29.90%	28.49%
U.S. Treasury	21.40%	8.83%
U.S. Credit	19.70%	27.89%
U.S. Agency	9.70%	0.00%
U.S. High Yield	6.10%	0.77%
Commercial Mtge. Backed Securities (CMBS)	3.80%	3.84%
144A	3.00%	6.11%
Eurodollar	2.60%	0.00%
Emerging Markets	2.00%	1.94%
Asset Backed Securities (ABS)	1.10%	0.01%
CMBS-Other	0.70%	0.00%
Cash	0.00%	3.24%
Treasury Inflation Protected Securities (TIPS)	0.00%	18.88%

Private Equity

The private equity portfolio, originated in 1981, is primarily invested in partnerships that acquire or create ongoing businesses or operating companies. The WSIB has investments in all stages of the business life cycle, from private start-up technology companies to large multinational public concerns. These are long-term investments, typically 10 to 12 years in life. They are expected to generate investment returns well in excess of public equity securities. Approximately 19.5 percent of this portfolio is invested in international private equity, primarily in Europe.

Real Estate

The Real Estate portfolio is invested in a diversified group of properties including office buildings, retail facilities, apartments, warehouses and specialty properties. The majority of these investments have been made in partnerships with operating management groups. The WSIB invests in real estate both in the United States and internationally.

Portfolio Holdings

A complete list of portfolio holdings is available by contacting:

Summary of Investment Policies

The Washington State Investment Board (WSIB) has been authorized by statute as having the investment management responsibility for the pension funds. The WSIB manages retirement fund assets to maximize return at a prudent level of risk (RCW 43.33A.110).

Retirement Fund Asset Allocation

WSIB establishes asset allocation targets that must be considered at all times when making investment decisions. The asset mix may deviate from the target. Deviations greater than predetermined acceptable levels require rebalancing back to the target. When an asset class exceeds its range, the goal of rebalancing will be to meet the target allocation within consideration of the other remaining asset classes.

Retirement funds are invested in the Commingled Trust Funds (CTF). The CTF's performance benchmark objective is to exceed the return of a policy benchmark consisting of public market indices weighted according to asset allocation targets. The asset allocation for the CTF is formally reviewed every three or four years. WSIB reviews the asset allocation in relation to the established ranges periodically.

Public Markets Equity

The Public Markets equity program seeks to:

- Achieve the highest return possible consistent with the desire to control asset volatility;
- Ensure protection for long-term liabilities, since shorter term liabilities are more suitably protected by lower volatility instruments such as fixed income securities; and
- Provide diversification to the WSIB's overall investment program.

The public markets equity portion of the retirement fund includes strategies in the U.S., developed international, and emerging markets. Since the U.S. equity markets are generally efficient, the domestic equity portfolio is 77 percent passively

managed with the rest in an enhanced index strategy. Over time, the domestic equity portfolio should track the return of a broad U.S. market benchmark, the Dow Jones Wilshire 5000 Index. Non-U.S. markets are generally less efficient than the U.S. market; therefore, more active management will be included in the approach taken with international markets. The weightings of the elements of the developed markets and emerging markets of the non-U.S. equity program will be similar to the weightings of the MSCI All Country World ex. U.S. Index which serves as the benchmark for the WSIB's entire non-U.S. program.

Fixed Income

The WSIB's fixed income investments are to be actively managed to exceed the return of the Lehman Universal Index, with volatility similar to or less than the index. The portfolio constraints are that no corporate fixed income issue shall exceed 3% of cost at the time of purchase or 6% of market value thereafter of the fund, and no high yield issues shall exceed 1% of cost or 2% of market value of the fund.

Permissible fixed income market segments include: U.S. Treasuries and government agencies, Treasury Inflation Protection Securities, investment-grade credit bonds, high yield bonds, publicly traded mortgage-backed securities, commercial mortgage-backed securities, privately-placed mortgages, private placements of corporate debt, asset-backed securities, convertible securities, non-dollar bonds, real estate mortgages, and Washington State Housing Finance Commission (HFC) taxable municipal bonds up to a total of \$25 million with a maximum of \$10 million per year. Other fixed income segments and instruments may be added from time to time as they are developed or deemed appropriate.

Private Equity Investing

The WSIB can invest in any appropriate private equity investment opportunity which has the potential for returns su-

perior to traditional investment opportunities and which is not prohibited by the WSIB's policies or by law. As previously indicated, these investment types are divided into venture capital investments, corporate finance (including leveraged, management and employee buyouts), distressed, international, and mezzanine investments. Private equity investments are made through limited partnership vehicles.

To meet the return and plan objectives, the private equity portfolio has diversified investments in companies in a variety of stages of growth. The portfolio also includes a broad cross-section of opportunities in different industries and geographic regions.

Real Estate Program

The WSIB's real estate program is an externally managed pool of selected partnership investments, intended to provide alternative portfolio characteristics when compared to traditional stock and bond investments. The majority of the WSIB's partnerships invest in institutional-quality real estate assets that are leased to third parties. The combination of income generated from bond-like lease payments, coupled with the hard asset qualities of commercial real estate, combine to generate returns that are expected to fall between the return expectations for fixed income and equities. The real estate

portfolio is managed to deliver risk-adjusted returns that are consistent with the Board's long term return expectations for the asset class. The WSIB's real estate partnerships typically invest in private real estate assets that are held for long term income and appreciation. Many of the WSIB's investment partnerships do not involve co-investment with other financial entities, thereby providing the WSIB with control provisions related to liquidation, acquisition, and ongoing operational decisions like annual capital expenditures.

Volatility within the real estate portfolio is minimized through a combination of factors. First, the majority of the WSIB's partners own commercial real estate assets in a private investment form which is not subject to public market volatility. Second, real estate capital is diversified among a host of partners with varying investment styles. Third, partnership assets are invested in numerous economic regions, including international markets, and in various property types. Fourth, WSIB partners invest at different points within the asset's capital structure and life cycle.

The WSIB's current return objective for real estate calls for a target benchmark of one to three percent above the NCREIF index.

Schedule of Investment Management Fees and Commissions For the Year Ended June 30, 2006

(expressed in thousands)

	Assets Under Management*	Total Fees and Commissions Expenses at 6/30/06

Actuarial Section

WASHINGTON STATE LEGISLATURE
Office of the State Actuary

November 3, 2006

Sandra J. Matheson, Director
Department of Retirement Systems
PO Box 48380
Olympia, Washington 98504-8380

Dear Sandy:

The purpose of this letter is to:

- (1) Certify the actuarial adequacy of contributions being made to the pension plans administered by your department, the State of Washington, and participating political subdivisions;
- (2) Discuss the funding of these plans; and
- (3) Certify that our other submissions meet the Government Finance Officers Association certification standards for actuarial reporting.

The information in this letter pertains to the Public Employees' Retirement System (PERS), the Teachers' Retirement System (TRS), the School Employees' Retirement System (SERS), the Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF), the Washington State Patrol Retirement System (WSPRS), the Judicial Retirement System (JRA), and the Judges' Retirement System (Judges). The Public Safety Employees' Retirement System (PSERS) began admitting new members beginning July 1, 2006. Information for this new system has not been included here, but will be provided for the first time in next year's report. The state contributes to other pension plans that are not administered by your agency.

The Office of the State Actuary performs annual actuarial valuations for all systems listed above. The most recent valuation date for these systems was September 30, 2005.

The assumptions used in our actuarial valuation fall into two categories: economic and demographic. The economic assumptions were prescribed by the Legislature as of July 1, 2001, and include salary increases, inflation, the investment earnings rate, and population growth. The Pension Funding Council is scheduled to review these assumptions every four years.

Ms. Sandra Matheson
November 3, 2006
Page 2

Demographic assumptions include such things as retirement, mortality, termination, and disability rates. These rates are derived by our office from studying the actual experience of these systems. These studies are reviewed annually and studied in depth every six years. The legislature adopted the demographic assumptions effective April 1, 2002, based on our 1995-2000 Experience Study. Demographic assumptions may change when new benefit provisions are enacted or when assumptions are found to be out-of-date or inappropriate. The following assumption changes occurred with the 2005 actuarial valuation:

- Study of the post-retirement employment program for PERS Plan 1 and TRS Plan 1 members revealed a material liability increase associated with the program. Retirement rates for those plans were adjusted to reflect the increased costs.
- Prior to the 2005 actuarial valuation, mortality rates were “static” - they did not reflect improvement trends in life expectancies. This assumption was reviewed and found to be insufficient to capture increased liabilities due to this trend. Mortality assumptions were enhanced by projecting generational mortality improvements into the future. The resulting additional liabilities are reflected in the accounting disclosure process, but not in the funding process.

The material pension changes made during the 2005 legislative session that became effective during (and after) the 2005 Fiscal Year were disclosed in last year’s annual report.

Pension benefit legislation enacted during the 2006 legislative session is summarized below (chapter and law year references are provided parenthetically):

- Judges who are members of PERS Plans 1, 2, and 3 or TRS Plan 1 may elect to have their benefit multipliers increased through a combination of increased contribution rates, lump sum payments, and redirected JRA contributions, where applicable (Chapter 189, Laws of 2006).
- PERS Plan 1 and TRS Plan 1 members with at least twenty years of service who have been retired twenty-five years will receive a minimum benefit of \$1,000 per month (before reductions for the selection of optional payment forms). Both this minimum benefit and the minimum benefit established under Chapter 85, Laws of 2004 will be indexed at 3 percent per year. (Chapter 244, Laws of 2006).
- PERS Plan 3, TRS Plan 3, and SERS Plan 3 members will be vested after either completion of ten years of service or completion of five years of service with twelve months of that service occurring after the age of forty-four (Chapter 33, Laws of 2006).

Ms. Sandra Matheson
November 3, 2006
Page 3

- The 60 percent benefit cap was removed for LEOFF Plan 1 members hired after February 19, 1974 (Chapter 350, Laws of 2006).
- LEOFF Plan 2 members severely disabled in the line of duty will receive a benefit equal to 70 percent of their final average salary (Chapter 39, Laws of 2006).
- The \$150,000 duty-related death benefit for LEOFF Plan 2 was expanded to cover duty-related illnesses (Chapter 351, Laws of 2006).
- Survivors of LEOFF Plan 2 members killed in the line of duty are provided continued health care coverage through the Public Employees' Benefits Board and reimbursed for the premiums paid for those benefits (Chapter 345, Laws of 2006).
- Surviving spouses of WSPRS disabled members will have their benefits adjusted by basing the member's final average salary on the average salary of members with the same rank at the time of the member's death, rather than on the member's final average salary at the time of disablement (Chapter 94, Laws of 2006).

There were no other material pension benefit changes during the 2006 session.

Pension funding legislation was adopted during the 2005 legislative session (Chapter 370, Laws of 2005), which created a short-term change in funding policy. The policy is to adopt annual contribution rates over a four-year "phase-in" period from 2005-2009, to suspend payments on the Plan 1 Unfunded Actuarial Accrued Liability (UAAL) in PERS and TRS during the 2005-2007 biennium and to delay recognition of the cost of future gain-sharing benefits until the 2007-2009 biennium. Additional legislation adopted a phase-in period to smooth the Plan 1 UAAL contribution rate increases from 2006-2009 (Chapter 56, Laws of 2006).

Legislation for 2006 also provided for target funding ratios and contribution rate floors for PERS, TRS, SERS, and PSERS (Chapter 365, Laws of 2006). These changes will become effective July 1, 2009.

The estimated value of future gain-sharing benefits is included in the liabilities for both accounting disclosure and funding purposes.

In 1989, the Legislature adopted the objective of amortizing the UAAL for PERS 1, TRS 1, and LEOFF 1 by June 30, 2024. Subsequent benefit increases are funded over this same period. The funding method for these three plans is based on a variation of the Frozen Initial Liability (FIL) cost method, where the normal cost is imputed from PERS 2/3, TRS 2/3, and LEOFF 2, respectively. The amortization calls for payments as a level percentage of system payroll.

Ms. Sandra Matheson

November 3, 2006

Page 4

Employer contributions to the PERS 1 and TRS 1 unfunded liability were suspended for the 2003-2005 biennium (Chapter 11, Laws of 2003, E1) and for the 2005-2007 biennium (Chapter 370, Laws of 2005). The amortization date, however, remains unchanged. During fiscal year 2006 the systems were funded according to this method and, if continued following resumption of contributions, the UAAL will be amortized as scheduled.

LEOFF 1 does not have a UAAL at this time.

PERS 2, TRS 2/3, SERS 2/3, LEOFF 2, and WSPRS use the aggregate funding method, which does not develop a UAAL. These systems are well funded at this time.

The Judicial and Judges' Systems are funded on a pay-as-you-go basis. Both systems are closed to new members and have very small liabilities when compared to other state plans. Although the Judicial System is poorly funded, the Judges' System is well funded, having built up assets from the past. It is expected that the state can continue to meet its obligations by funding on a pay-as-you-go basis because of the small size of the obligations in these two plans.

In performing these valuations, we relied on unaudited member and beneficiary data provided by your department. Both the Department of Retirement Systems and the Office of the State Actuary performed a series of edits to check the quality of the data. In our opinion, the data is sufficient and reliable for the purpose of annual valuations. Unaudited asset and financial information was provided from three sources: the Department of Retirement Systems, the Washington State Investment Board, and the Washington State Treasurer's Report. We have relied on all information provided as complete and accurate.

The following schedules (or updates to them) were prepared by this office for inclusion in the 2006 Comprehensive Annual Financial Report:

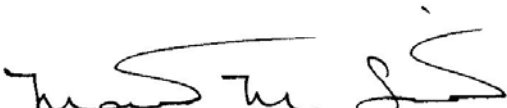

- Schedules of Funding Progress;
- Schedule of Employer Contributions;
- Summary of Actuarial Assumptions and Methods;
- Schedules of Active Member Valuation Data;
- Schedules of Retirees and Beneficiaries Added to and Removed from Rolls;
- Solvency Tests; and
- Analysis of Selected Experience.

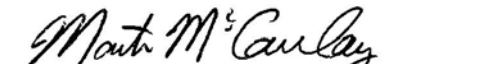

Ms. Sandra Matheson
November 3, 2006
Page 5

The actuarial assumptions and methods prescribed by the Legislature were used for reporting funding items. Governmental Accounting Standards Board (GASB) disclosure items were provided in accordance with GASB statements 25 and 27. As a result, disclosure items may not match comparable funding items disclosed in our most recent actuarial valuation report. The funding policy and reporting items are discussed in the Financial Section of the Comprehensive Annual Financial Report under Notes to the Required Supplementary Information, as well as in the section Funding Policy.

The undersigned, with actuarial credentials, meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Respectfully submitted,

Matthew M. Smith, FCA, EA, MAAA
State Actuary

Martin McCaulay, FSA, EA, MAAA
Senior Pension Actuary

Summary of Plan Provisions

A narrative summary of retirement plans managed by DRS is provided in Section B of Note 2 in the Financial Section of this CAFR. A tabular summary of key plan provisions as of June 30, 2006, is provided below.

Plan	Membership Eligibility	Vesting	Retirement Eligibility	Benefit
PERS Plan 1 (By 9/30/77)	State employees, elected officials, employees of local governments, legislative committees, community/technical colleges, classified employees of school districts, district/municipal court judges, and some employees of the Supreme, Appeals, and Superior Courts	After five years of eligible service	After 30 years of service, or at age 60 with five years service, or at age 55 with 25 years of service	2% of average final compensation (AFC) per year of service
PERS Plan 2 (On or after 10/1/77)	Same as PERS Plan 1, except classified school district employees; new employees hired on or after 3/1/02 at state agencies and higher education, or on or after 9/1/02 at all other employers, must choose Plan 2 or Plan 3	After five years of eligible service	At age 65 with five years of service, or an actuarially reduced benefit at age 55 with 20 years of service	2% of AFC per year of service
PERS Plan 3 (Varies by employer)	Same as PERS Plan 2; new employees hired on or after 3/1/02 at state agencies and higher education, or on or after 9/1/02 at all other employers, must choose Plan 2 or Plan 3	Varies	At age 65 if vested or an actuarially reduced benefit at age 55 with 10 years of service (defined benefit portion)	1% of AFC per year of service (defined benefit portion). The defined contribution portion depends on the member's contribution level and on investment performance.
SERS Plan 2 (On or after 9/1/00)	All classified employees of school districts or educational service districts	After five years of eligible service	At age 65 with five years of service, or an actuarially reduced benefit at age 55 with 20 years of service	2% of AFC per year of service
SERS Plan 3 (On or after 9/1/00)	All classified employees of school districts or educational service districts	Varies	At age 65 if vested or an actuarially reduced benefit at age 55 with 10 years of service (defined benefit portion)	1% of AFC per year of service (defined benefit portion). The defined contribution portion depends on the member's contribution level and on investment performance.
TRS Plan 1 (By 9/30/77)	All certificated public school employees who work in an instructional, administrative or supervisory capacity	After five years of eligible service	Any age with 30 years of service, or at age 60 with five years of service or at age 55 with 25 years of service	2% of AFC per year of service
TRS Plan 2 (On or after 10/1/77 and by 6/30/96)	All certificated public school employees who work in an instructional, administrative or supervisory capacity	After five years of eligible service	At age 65 with five years of service, or an actuarially reduced benefit at age 55 with 20 years of service	2% of AFC per year of service
TRS Plan 3 (On or after 7/1/96)	All certificated public school employees who work in an instructional, administrative or supervisory capacity	Varies	At age 65 if vested or an actuarially reduced benefit at age 55 with 10 years of service (defined benefit portion)	1% of AFC per year of service (defined benefit portion). The defined contribution portion depends on the member's contribution level and on investment performance.
LEOFF Plan 1 (By 9/30/77)	All full-time, fully compensated law enforcement officers and fire fighters	After five years of eligible service	At age 50 with five years of service	20 years of service = 2% of final average salary (FAS) per year of service 10-19 = 1.5% FAS per year of service 5-9 = 1% FAS per year of service
LEOFF Plan 2 (On or after 10/1/77)	All full-time, fully compensated law enforcement officers and fire fighters	After five years of eligible service	At age 53 with five years of service or a benefit at age 50 with 20 years of service reduced 3% for each year under age 53	2% of FAS per year of service
WSPRS Plan 1 (On or after 8/1/47 and by 12/31/02)	Commissioned employees of the Washington State Patrol	After five years of eligible service	At age 55 or after 25 years of service	2% of average final salary per year of service
WSPRS Plan 2 (On or after 1/1/03)	Commissioned employees of the Washington State Patrol	After five years of eligible service	At age 55 or after 25 years of service	2% of average final salary per year of service
JRS (On or after 8/9/71 and by 6/30/88 - New judges on or after 7/1/88 join PERS Plan 2 or 3)	Judges elected or appointed to the Supreme Court, the Court of Appeals and Superior Courts	After 15 years of service	At age 60	15 years of service = 3.5% of AFC per year of service 10-14 = 3% of AFC per year of service
Judges (By 8/8/71)	Judges elected or appointed to the Supreme Court, the Court of Appeals and Superior Courts	After 12 years of service	At age 70 with 10 years of service or any age with 18 years of service	1/2 of the monthly salary

DRS publishes handbooks describing the rights and benefits for each system and plan, including disability and survivor benefits. These handbooks are provided to members by their employers. They are also available from DRS and are on the DRS Web site at www.drs.wa.gov.

Summary of Actuarial Assumptions and Methods

1. Actuarial Assumptions and Methods Selection:

Economic Assumptions and Methods:

Developed in accordance with Washington State law and the Pension Funding Council.

Demographic Assumptions and Methods:

Derived by the Washington State Office of the State Actuary and based on the 1995-2000 Experience Studies (adopted April 1, 2002). The latest actuarial valuation includes additional assumptions for subsequent events and law changes.

2. Investment Return:

8.0% per annum

3. Mortality Tables:

Mortality rates are based on the RP-2000 Combined Healthy Table published by the Society of Actuaries. Beginning with the 2005 actuarial valuation, improvement trends in mortality are reflected into the future. Rates show generational improvement using 50% of Scale AA, published by the Society of Actuaries. The estimated value of this assumption change is included in the liabilities for accounting disclosure purposes, but not for funding purposes. Only healthy mortality rates for PERS, SERS, TRS, LEOFF and WSP are affected by this assumption change; disabled mortality continues to be based on the static RP-2000 table. Mortality rates are adjusted by an age set back or set forward to better reflect expected mortality for the particular group. In addition, a minimum rate is also applied to disabled mortality.

Class	Contributing Members and Members Retired from Service	Disabled Members
PERS	RP-2000 Combined Healthy Table, 50% Scale AA	RP-2000 Combined Healthy Table; males set forward six years, minimum 5%; females set forward six years, minimum 3.5%
SERS	RP-2000 Combined Healthy Table, 50% Scale AA; males unadjusted; females set back two years	RP-2000 Combined Healthy Table; males set forward five years, minimum 3%; females set forward two years, minimum 3%
TRS	RP-2000 Combined Healthy Table, 50% Scale AA; males set back two years; females set back two years	RP-2000 Combined Healthy Table; males set forward five years, minimum 3%; females set forward two years, minimum 1.75%
LEOFF	RP-2000 Combined Healthy Table, 50% Scale AA	RP-2000 Combined Healthy Table; males set forward two years, minimum 0.5%; females set forward two years, minimum 0.5%
WSPRS	RP-2000 Combined Healthy Table, 50% Scale AA	RP-2000 Combined Healthy Table; males set forward two years, minimum 0.5%; females set forward two years, minimum 0.5%
JRS	RP-2000 Combined Healthy Table	RP-2000 Combined Healthy Table; males set forward six years, minimum 5%; females set forward six years, minimum 3.5%

Future Salaries**

General salary levels are assumed to increase 4.5% per year.

Relative Salary Values

	PERS/SERS	TRS	LEOFF	WSPRS	JRS
Annual Percent Increase	5.81%	5.44%	5.81%	5.81%	4.50%
Attributed to Growth in Active Group Size	1.25%	0.90%	1.25%	1.25%	0.00%
Attributed to the Effects of Inflation on Salaries	4.50%	4.50%	4.50%	4.50%	4.50%

7. Other Specific Assumptions that Have a Material Impact on Valuation Results:

- Members of PERS Plan 1 increase their Average Final Compensation by an average of up to 5 percent by cashing out sick leave or annual leave pay, or by increasing overtime.
- Members of TRS Plan 1 increase their Average Final Compensation by an average of up to 1 percent by cashing out sick leave or annual leave pay, or by increasing overtime.
- LEOFF Plan 1 post-retirement cost-of-living increases are assumed to be 3.5 percent each year.
- Members of WSPRS Plan 1 increase their Average Final Compensation by an average of up to 7.5 percent by cashing out sick leave or annual leave pay, or by increasing overtime.
- LEOFF Plan 2 members are assumed to disable due to duty-related injury or illness at a rate which varies with age. For more information, contact the Office of the State Actuary.
- Other assumptions include the recognition of service earned in another plan (portability), the probability of a vested terminated member not withdrawing his or her contributions from the plan, the probability of being married, military service, single life annuity refund on death, and beneficiary age. More details on these and other assumptions can be obtained from the Office of the State Actuary.

8. Change in Assumptions:

- The gain-sharing interest adjustments are updated annually for each plan 3 to reflect the current service in the plans 3 versus plans 2.
- LEOFF Plan 2 assumptions were modified to value the enhanced disability benefits.
- PERS Plan 1 and TRS Plan 1 retirement rates were increased to reflect the cost of the post-retirement employment program for those plans.
- Mortality rates include generational mortality improvements.

9. Actuarial Cost Method:

Valuation assets are at market value with gains and losses recognized on a graded scale over an eight-year period. Additionally, the actuarial value of assets may not exceed 130%, nor drop below 70%, of the market value of assets. JRS and Judges use the market value of assets for valuation assets.

PERS Plan 1, TRS Plan 1, LEOFF Plan 1, JRS, and Judges:

Funding (Actual Contributions): A variation of the Frozen Initial Liability (FIL) Cost Method is used. The contribution toward the UAAL has been developed in the valuation as a level percentage of expected future covered payrolls which will amortize the UAAL over the period to June 30, 2024. While the LEOFF Plan 1 UAAL is fully funded, no contributions are required. JRS and Judges are funded on a pay-as-you-go basis.

Disclosure (Annual Required Contributions): The funding method described in the previous paragraph for PERS Plan 1, TRS Plan 1, and LEOFF Plan 1 is not an acceptable method for the GASB Statement Number 25 disclosures. In order to meet GASB Statement Number 25 requirements, the Entry Age cost method has been used for these plans. The UAAL is amortized as a level dollar amount over the applicable amortization period. For PERS, TRS and LEOFF the end of the amortization period is June 30, 2024. For JRS and Judges, the end of the amortization period is December 31, 2008.

PERS Plan 2/3, SERS Plan 2/3, TRS Plan 2/3, LEOFF Plan 2, and WSPRS Plan 1/2:

The Aggregate Actuarial Cost Method is used to calculate the contribution rates. Under this method the unfunded actuarial present value of fully projected benefits is amortized over the projected earnings of the active group. The entire contribution is normal cost, and no UAAL exists. All gains and losses are amortized over future salaries of current active members.

The value of future gain-sharing benefits for PERS, TRS and SERS were included for both funding and GASB purposes.

10. Change in Funding Policy:

Pension funding legislation in 2006 adopted annual UAAL contribution rates over a three-year "phase in" period from 2006-09.

11. Material Changes in Benefit Provisions and Contribution Rates:

The GASB disclosure contribution rates are based on the latest actuarial valuations as of September 30, 2005.

The funding (or actual) contribution rates in effect at the close of the fiscal year were based on the 2003 actuarial valuations in accordance with funding policy. The rates include appropriate adjustments for subsequent law changes.

The following laws enacted in 2006 had an immediate impact on the latest actuarial valuation contribution rates:

- \$1,000 minimum benefit (Chapter 244, Laws 2006)
- Plan 3 Vesting (Chapter 33, Laws 2006)
- LEOFF 1 Removal of 30-year service cap (Chapter 350, Laws 2006)
- LEOFF 2 Survivors line-of-duty death (Chapter 345, Laws 2006)
- LEOFF 2 Line-of-duty death: occupational illness (Chapter 351, Laws 2006)
- LEOFF 2 Catastrophic disability (Chapter 39, Laws 2006)
- WSP Disability survivors (Chapter 94, Laws 2006)

Deferred Compensation Program and Dependent Care Assistance Program

Background

In 1981, the Washington State legislature established the Deferred Compensation Program (DCP) and created the Committee for Deferred Compensation (CDC) as the governing body. From 1981 to 1984, the Committee contracted with the National Plan Coordinators Inc. to provide administrative and marketing services. In 1985, the Committee took over responsibility for administering the program, and assumed marketing responsibility in 1986.

In 1988, the Committee initiated the Dependent Care Assistance Program (DCAP) for state employees. In 1989, the Committee began managing investments for the Judicial Retirement Account (JRA) as a result of an agreement with the Administrative Office of the Courts. In 1995, the state legislature decided to transfer administrative responsibility for the program to DRS. The merger of DCP and DRS took effect on July 1, 1996.

What is DCP?

The program is a voluntary retirement savings plan established for employees of the state and other political subdivisions, elected and appointed state officials, members of the state legislature, and some judges. The program meets the requirements of Section 457 of the Internal Revenue Code.

The intent of the program is to provide additional income to participants upon retirement. By deferring part of their income, participants can reduce their taxable income each year. Participants can choose to invest in a number of different investment options, from a low-risk savings pool to higher-risk stock funds. The investments made each month grow tax free until they are withdrawn. The program provides participants with a means to easily save money and help supplement their other retirement income.

For more information about DCP, call the DCP Information Line at 1-888-327-5596 (for TDD call 1-877-847-6041). Representatives are available Monday through Friday, 8:00 AM to 5:00 PM Pacific Time except on holidays observed by the New York Stock Exchange.

Contact DCP by email: dcpinfo@drs.wa.gov

Mailing Address:

Department of Retirement Systems
Deferred Compensation Program
PO Box 40931
Olympia, WA 98504-0931

What is DCAP?

The program allows eligible employees to set aside a portion of their income, before federal and social security taxes, for reimbursement of child or elderly care expenses. The program meets the requirements of Section 129 of the Internal Revenue Code.

For more information about DCAP, call 1-800-423-1524.

**Data not available. These funds have not been in existence long enough to have performance history for these periods.

¹ Historic performance is not necessarily indicative of actual future investment performance, which could differ substantially. Total return assumes that an investment is made at the beginning of the period and redeemed at the end of the period after reinvestment of any dividends and capital gains distributions. Investment return and principal value may fluctuate so that your investment, when redeemed, may be worth more or less than the contributions to your individual account. All returns are calculated in U.S. dollars.

² Estimated returns the portfolio would have earned using the return data from the various components.

¹ Revenues associated with the Dependent Care Salary Reduction Program flow initially to various state agencies in the form of employer OASDI and Medicare tax savings, the State Treasurer in the form of interest, and to the dependent care administrative fund in the form of forfeitures. The figures for OASDI estimated tax savings are after removal of salary reductions deemed to occur above the taxable wage base.

² The agency attempts to avoid forfeitures. Forfeiture is required under federal law when a participant sets aside a greater amount than s/he incurs and is able to have reimbursed by the program. The number and amount of forfeitures are determined as of March 31, the annual deadline for submitting claims for reimbursement of expenses.

³ Effective July 1, 1993, by legislative direction, the Committee for Deferred Compensation (now DRS) bills state agencies with participating employees a percentage of the payroll taxes saved by the agency and uses these amounts to operate the program. Previously, agencies were permitted to retain all of these payroll tax savings. Now they retain approximately 48 percent of the savings.
