# INTRODUCTORY SECTION

The background features a series of overlapping, wavy shapes in various shades of blue and white. The top right corner is dominated by a dense, overlapping pattern of thin blue lines that form a series of curved, parallel bands. Below this, there are larger, smoother, overlapping shapes in lighter and darker blue tones, creating a sense of depth and movement. The overall aesthetic is clean, modern, and professional.

January 5, 2024

GOVERNOR TONY EVERS  
 MEMBERS OF THE STATE LEGISLATURE  
 PUBLIC EMPLOYEES, EMPLOYERS AND OTHER INTERESTED PARTIES:

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the Wisconsin Department of Employee Trust Funds (ETF) for the year ended December 31, 2022. This report provides comprehensive information about ETF, the Wisconsin Retirement System (WRS), and other employee benefit programs administered by ETF. The WRS continues to be financially strong and one of the best funded public pension systems in the country.

Responsibility for the accuracy of the data and the fairness and completeness of this presentation, including all disclosures, rests with the management of ETF. To the best of our knowledge, the enclosed information is accurate in all material respects and is reported in a manner designed to provide a fair representation of the financial position and results of ETF operations.

As required by Wis. Stat. § 13.94 (1) (dd), the Legislative Audit Bureau (LAB) has completed a financial audit of ETF and issued an unmodified (“clean”) opinion on the financial statements for the year ended December 31, 2022. The independent auditor's report is located at the beginning of the Financial Section of this ACFR.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the financial statements. The MD&A complements this Letter of Transmittal and should be read in conjunction with it.

### **Historical Overview**

The WRS was created effective January 1, 1982. The system covers state and local public employees, including faculty and staff of the University of Wisconsin System, local police and firefighters, and all publicly employed teachers in the state. Those not included are employees of the City of Milwaukee and Milwaukee County, who are covered under separate retirement systems. However, during 2023, Wisconsin Act 12 was signed into law providing that if the city or county imposes new sales taxes, new employees are enrolled in the WRS. Additionally, the law closes the retirement system of the City of Milwaukee and the Milwaukee County to new employees. Pension coverage for local government employees has been in place since 1891, when the legislature required Milwaukee to create a pension fund for retired and disabled police and firefighters. The legislature has since extended pension coverage to other public employees, along with creating group life and health insurance programs.

The Group Insurance Board (GIB) was created in 1959 to monitor the administration of the life and health insurance programs. ETF was created in 1967 to administer the various retirement and related benefit programs.

The WRS consistently ranks among the 10 largest public pension funds in the U.S. and provides retirement benefits for approximately 678,000 current and former state and local government employees. As of December 31, 2022, the WRS had 260,504 active employees; 232,384 annuitants (retirees, disabilitants, and

beneficiaries); and 185,017 inactive participants with deferred benefits payable. The WRS is composed of 28% state employees and 72% local employees.

### **ETF Mission and Responsibilities**

ETF's mission is "to develop and deliver quality benefits and services to our customers while safeguarding the integrity of the Trust." ETF administers retirement benefits, including an optional, supplemental retirement savings plan, health and sick leave benefits, disability benefits, life insurance, income continuation insurance, and pre-tax savings accounts to pay for eligible expenses such as health care and dependent day care. There are five different statutory boards with responsibilities for programs operated by the Department. The ETF Board is both the overall governing body for the Department and the general policy-setting and trustee board for the WRS.

Participation by eligible employees is mandatory for retirement and Social Security, but optional for the other programs. The State of Wisconsin Investment Board (SWIB) invests the trust fund monies of the benefit programs, with the exception of group life insurance assets, which are held by the third-party administrator.

ETF is responsible for:

- Collecting monies due the trust funds.
- Calculating and ensuring appropriate disbursement of benefit payments from the trust funds.
- Providing information to, and answering inquiries from, participating employees and employers.
- Establishing the controls, systems, and procedures necessary to ensure the appropriate administration and security of the trust.

### **Major Initiatives**

ETF's strategic goals include:

- Create an effortless customer experience,
- Implement outcomes-driven performance measurement and process management,
- Build a talented and agile workforce, and
- Implement modern, secure, and resilient information technologies.

ETF continues its multiyear program to replace an increasingly fragile information technology infrastructure. Modernizing information technology and business processes will be critical to accomplishing the above goals and responsibilities. Working with the system vendor, employers, and third-party administrators, staff are configuring and testing an Insurance Administration System (IAS). The IAS is scheduled to go live in 2024. Work will begin on a new pension administration system following the IAS implementation.

This past year we have also completed a market search, proof of concept, and product selection for an Identity Proofing Solution. Identity proofing is the activity of verifying, with a high degree of certainty, that a person is who they claim to be. This is essential to mitigate fraudulent use of systems going online in 2024. Information security continues to be front and center of our modernization efforts.

Data management is another key component to our modernization efforts. Staff are working to improve the reliability and sharing of data across systems. This includes enhanced data governance, developing a data quality framework, implementing a master data management program and architecture for the use and maintenance of data across systems, developing a data lake to store data from current and new systems to support reporting needs, and providing data literacy training to staff to improve the ability to make data-driven decisions.

The work noted above are examples demonstrating ETF's commitment and focus to fulfill our mission of providing quality benefits and services to our customers while safeguarding the integrity of the trust.

## **Funding Status**

### **PENSION PLAN**

The funded status of the WRS measures the extent to which the system has accumulated enough assets to pay the benefits earned by participants. The funded ratio is the ratio of plan assets to estimated future liabilities. The assets can be measured using either the current fair value or a smoothed funding value. The fair value measurement gives a more timely measurement, but can be extremely volatile. The funding value measurement, where gains and losses are smoothed over a five-year period, is less representative of current fair value, but better presents the funding trends without the year-to-year volatility.

The WRS continues to be one of the best funded public employee retirement systems in the country. A well-funded system ensures that a lifetime of benefits can be paid to today's workers without burdening the next generation of taxpayers with higher contributions. The financial strength of the WRS is attributable to its unique plan design, funding discipline at the state and local levels, strong governance, and the effective investment strategies of the SWIB.

The funding value-based ratio of the WRS remains 100% as of December 31, 2022. The fair value-based ratio, calculated in accordance with standards issued by the Governmental Accounting Standards Board, is 96%. This is a decrease from 106% and was primarily the result of negative market returns in 2022.

### **OTHER EMPLOYEE BENEFIT PROGRAMS**

The Health Insurance Fund consists of a State plan and a Local plan. The plans include three separate risk pools, including a fully insured medical Health Maintenance Organization pool, a self-insured pharmacy benefit pool, and a self-insured dental benefit pool. The GIB monitors the activity and reserve balances by plan type and within each plan's risk pools; and considers the total reserve balance to set annual premium rates. The GIB policy specifies a range in which the reserve balances should fall as a percentage of projected premiums (for medical) or projected claims (for pharmacy and dental). The table below shows the reserve balances as of December 31, 2022, the projected reserve balance as of December 31, 2023, and the projected variance from reserve target as of December 31, 2023.

	<b>Health Insurance Reserves (In Millions)</b>							
	<b>State Plan</b>				<b>Local Plan</b>			
	<b>Medical</b>	<b>Pharmacy</b>	<b>Dental</b>	<b>Total</b>	<b>Medical</b>	<b>Pharmacy</b>	<b>Dental</b>	<b>Total</b>
Reserve Balance 12/31/2022	\$84.9	\$37.3	\$23.0	\$145.2	(\$3.7)	\$18.0	\$0.1	\$14.4
Projected Reserve Balance 12/31/2023	87.1	(48.3)	24.7	63.5	(4.2)	16.6	(0.3)	12.1
Projected 2024 Premiums or Claims	1,302.0	516.1	60.7	1,878.8	243.3	73.2	2.4	318.9
GIB reserve policy range (% of projected premiums or claims)	3%-5%	8%-10%	5%-7%		3%-5%	8%-10%	5%-7%	
Mid-point reserve target	52.1	46.4	3.6	102.1	9.7	6.6	0.1	16.4
Projected variance from reserve target as of 12/31/2023	\$35.0	(\$94.7)	\$21.1	(\$38.6)	(\$13.9)	\$10.0	(\$0.4)	(\$4.3)

Per the reserve policy, the GIB may decide to spread recommended rate adjustments so the reserve target is reached over a period of years rather than in one year. At its August 2023 meeting, the GIB adopted a multiyear plan to bring reserves back within target range.

Please refer to Note 9, Other Post-Employment Benefit (OPEB) Plans Administered by ETF, and the Statistical Section for the funding status of other employee benefit programs.

**Investments**

As noted earlier, the SWIB invests the trust fund monies of the program's ETF administrators. General market decreases, higher inflation, increasing interest rates, and global supply chain issues contributed to decreasing asset values in 2022. The Core Fund ended the year with a net loss of 12.9% in 2022. The Variable Fund ended 2022 with a net loss of 17.8%. The Core Fund and Variable Fund had net assets of approximately \$123 billion as of December 31, 2022.

A complete discussion of investment returns, activities, asset allocation strategy, and policies governing those activities can be found in the Investment Section.

**Legislative Initiatives**

In 2022, there was no legislation enacted that significantly affected the WRS and the employee benefit programs administered by ETF.

**Acknowledgments**

We would like to express our appreciation to the Governor, members of the Legislature, members of the boards, staff, employers, participants, and all those whose efforts and interest combine to ensure the successful operation of our system, while protecting the integrity of the trust funds.

Sincerely,

A. John Voelker

## ETF Boards and Department Organization

The individuals who serve on the boards that provide oversight for the Department of Employee Trust Funds (ETF) play important roles. Board decisions affect hundreds of thousands of individuals who participate in the retirement programs funded by the trust funds as well as other benefit programs ETF operates for Wisconsin.

This section explains how board membership is determined and how membership overlaps. Under state law, members of the boards are chosen in a variety of ways. Some members are ex-officio, some are direct appointees of the Governor, others are appointed to fixed terms from lists submitted to the governor by specified organizations, and still others are directly elected by active participants or retirees.

The members and officers of each board are listed below, along with a short explanation of board responsibilities. Membership on the boards as of December 31, 2022, is as follows:

### » *Employee Trust Funds Board (13 Members)*

This board has general oversight of ETF; appoints the ETF Secretary; approves tables used for computing benefits, contribution rates and actuarial assumptions; authorizes all annuities except for disability; approves or rejects ETF administrative rules; and generally oversees administration of the benefit programs, except group health, life and income continuation insurance plans, employee reimbursement account, commuter benefit, and health savings account and deferred compensations programs.

State law sets ETF Board membership criteria, with some members appointed by the Teachers Retirement Board (TR Board) and the Wisconsin Retirement Board (WR Board). The ETF Board has established three committees to assist the Board in fulfilling its fiduciary and oversight responsibilities: an Executive Committee, an Audit Committee and a Budget and Operations Committee. The Executive Committee oversees the effective

operation of Board and other Committee meetings and reviews personnel matters relating to the Department and the Secretary. The Audit Committee reviews the adequacy and effectiveness of the Department's system of internal controls, including those relating to information technology systems, and the Department's accounting and financial reporting systems. The Budget and Operations Committee reviews the biennial budget process and the Department's operating budget, as well as the Department's strategic business and information technology planning activities.

### Board Members

#### **Chair: William Ford**

Elected by WRS annuitants. WRS annuitant as defined for purposes other than life insurance under Wis. Stat. § 40.02 (4)

#### **Vice Chair: John David**

Appointed by the WR Board. Any WR Board member. Wis. Stat. § 15.16 (1) (b)

#### **Secretary: Steven Wilding**

Appointed by WR Board. WR Board member appointed by the Governor to the WR Board as an employee of a participating local government. Wis. Stat. § 15.165 (3) (b) 3, 6 or 7

#### **Stephen Arnold**

Appointed by the Governor, with Senate confirmation. Public member who is not a participant or beneficiary in the WRS. The appointee must have substantial actuarial, employee benefit or insurance experience. Wis. Stat. § 15.16 (1) (c)

#### **Jen Fogel**

Ex officio; Administrator of the Division of Personnel Management in the Department of Administration or the Administrator's designee. Wis. Stat. § 15.16 (1) (intro.)

#### **Chris Heller**

Appointed by the TR Board. TR Board member who is a public school or vocational school teacher. Wis. Stat. § 15.16 (1) (a) 1

## INTRODUCTORY SECTION

**Wayne Koessl**

Appointed by WR Board. WR Board member appointed by the Governor to the WR Board as a chief executive or member of the governing body of a participating local government. Wis. Stat. § 15.165 (3) (b) 1, 2, 4, 5 or 8

**Katy Lounsbury**

Ex officio; Governor or the Governor's designee on the Group Insurance Board. Wis. Stat. § 15.16 (1) (intro.)

**Angela Miller**

Appointed by WR Board. WR Board member appointed by the Governor to the WR Board as a participating state employee or public member who is not a participant or beneficiary of the WRS. Wis. Stat. § 15.165 (3) (b) 7 or 8

**Amy Mizialko**

Appointed by the TR Board. TR Board member elected by City of Milwaukee teacher participating employees. Wis. Stat. § 15.16 (1) (a) 3

**Leilani Paul**

Elected by educational support personnel. WRS participant who is either a public school district educational support employee or a technical college district educational support employee. Wis. Stat. § 15.16 (1) (f)

**Roberta Rasmus**

Appointed by the TR Board. TR Board member appointed by the Governor to the TR Board who is a public school administrator or school board member. Wis. Stat. § 15.16 (1) (a) 4

**David Schalow**

Appointed by TR Board. TR Board member appointed by the Governor as a University of Wisconsin (UW) System representative who is a teacher participant in the WRS. Wis. Stat. § 15.16 (1) (a) 2

» **Wisconsin Retirement Board (9 Members)**

The WR Board advises the ETF Board on matters relating to retirement; approves or rejects administrative rules; authorizes or terminates disability benefits for non-teachers; and hears appeals of disability rulings. This board appoints four members to the ETF Board and one non-

teaching member to the State of Wisconsin Investment Board.

**Board Members****Chair: John David**

Appointed by the Governor from a list of five names submitted by the Board of Directors of the League of Wisconsin Municipalities. Chief executive or member of the governing body of a participating city or village. From a different county than subds. 2 and 3. Wis. Stat. § 15.165 (3) (b) 1

**Vice Chair: Steven Wilding**

Appointed by the Governor. Participating employee of a participating city or village. From a different county than subds. 1 and 2. Wis. Stat. § 15.165 (3) (b) 3

**Secretary: Julie Wathke**

Appointed by the Governor. County clerk or deputy county clerk. From a different county than subds. 4 and 6. Wis. Stat. § 15.165 (3) (b) 5

**Nathan Houdek**

Ex officio; Commissioner of Insurance or an experienced actuary in the Office of the Commissioner designated by the Commissioner. Wis. Stat. § 15.165 (3) (b) 9

**Wayne E. Koessl**

Appointed by the Governor from a list of five names submitted by the executive committee of the Wisconsin Counties Association. Chairperson or member of the governing body of a participating county or town. From a different county than subds. 5 and 6. Wis. Stat. § 15.165 (3) (b) 4

**Angela Miller**

Appointed by the Governor. Participating state employee. Wis. Stat. § 15.165 (3) (b) 7

**Christy Schwan**

Appointed by the Governor. Public member who is not a participant or beneficiary of the WRS. Wis. Stat. § 15.165 (3) (b) 8

**Herbert Stinski**

Appointed by the Governor. Participating employee and principal finance officer of a participating city or village and from a different

county that subds. 1 and 3. Wis. Stat. § 15.165 (3) (b) 2

**Mary Von Ruden**

Appointed by the Governor. Participating employee from a participating local employer other than a city or village. From a different county than subds. 4 and 5. Wis. Stat. § 15.165 (3) (b) 6

» **Teachers Retirement Board (13 Members)**

The TR Board advises the ETF Board on retirement and other benefit matters involving public school, technical college, state and university teachers; acts on administrative rules and authorizes or terminates teacher disability benefits and hears disability benefit appeals. Nine of the 13 members are elected. This board appoints four members to the ETF Board and one teacher participant to the State of Wisconsin Investment Board.

**Board Members**

**Chair: Brent Grochowski**

Elected by public school teachers. Public school teacher. Wis. Stat. § 15.165 (3) (a) 1

**Vice Chair: Chris Heller**

Elected by public school teachers. Public school teacher. Wis. Stat. § 15.165 (3) (a) 1

**Secretary: Esther Ancel**

Elected by annuitants who were teacher participants. Annuitant who was a teacher participant in the WRS. Wis. Stat. § 15.165 (3) (a) 6

**Adam Balz**

Elected by public school teachers. Public school teacher. Wis. Stat. § 15.165 (3) (a) 1

**Ryan Kamien**

Elected by public school teachers. Public school teacher. Wis. Stat. § 15.165 (3) (a) 1

**Amy Mizialko**

Elected by Milwaukee Public School District teachers who are participating employees. City of Milwaukee teacher who is a participating employee in the WRS. Wis. Stat. § 15.165 (3) (a) 7

**Allison Pratt**

Elected by public school teachers. Public school teacher. Wis. Stat. § 15.165 (3) (a) 1

**Anton (Tony) Przybylski Jr.**

Elected by participating Wisconsin technical college teachers. Public school teacher from a technical college district who is a participating employee in the WRS. Wis. Stat. § 15.165 (3) (a) 2

**David Schalow**

Appointed by the Governor. UW teacher participant in the WRS (not from same campus as other UW teacher representative). Wis. Stat. § 15.165 (3) (a) 4

**Vacant**

Elected by public school teachers. Public school teacher. Wis. Stat. § 15.165 (3) (a) 1

**Vacant**

Appointed by the Governor. UW teacher participant in the WRS (not from same campus as other UW teacher representative). Wis. Stat. § 15.165 (3) (a) 4

**Vacant**

Appointed by the Governor. Public school administrator who is not a classroom teacher. Wis. Stat. § 15.165 (3) (a) 3

**Vacant**

Appointed by the Governor. Member of a school board. Wis. Stat. § 15.165 (3) (a) 5

» **Group Insurance Board (11 Members)**

This board sets policy for the group health, life, and income continuation insurance plans as well as employee reimbursement account, commuter benefit, and health savings account programs for state employees and the group health, life and income continuation insurance plans for local employers who choose to offer them. The board also can provide other insurance plans, if employees pay the entire premium.

**Board Members**

**Chair: Herschel Day**

Appointed by the Governor. Insured participant in the WRS who is a teacher. Wis. Stat. § 15.165 (2)

**Vice Chair: Nathan Houdek**

Ex officio; Commissioner of Insurance or Commissioner's designee. Wis. Stat. § 15.165 (2)

## INTRODUCTORY SECTION

**Secretary: Nancy Thompson**

Appointed by the Governor. Chief executive or member of the governing body of a local unit of government that is a participating employer. Wis. Stat. § 15.165 (2)

**Daniel Fields**

Appointed by the Governor. Insured participant in the WRS who is a retired employee. Wis. Stat. § 15.165 (2)

**Jen Flogel**

Ex officio; Administrator of the Division of Personnel Management in the Department of Administration or the Administrator's designee. Wis. Stat. § 15.16 (1) (intro.)

**Erin Hillson**

Appointed by the Governor. Insured participant in the WRS who is an employee of a local unit of government. Wis. Stat. § 15.165 (2)

**Walter Jackson**

Appointed by the Governor. Insured participant in WRS who is not a teacher. Wis. Stat. § 15.165 (2)

**Katy Lounsbury**

Ex officio; Governor or Governor's designee. Wis. Stat. § 15.165 (2)

**Brian Pahnke**

Ex officio; Secretary of Department of Administration or Secretary's designee. Wis. Stat. § 15.165 (2)

**Nathan Ugoretz**

Appointed by the Governor. No membership requirement. Wis. Stat. § 15.165 (2)

**Bob Wimmer**

Ex officio; Attorney General or his/her designee. Wis. Stat. § 15.165 (2)

**» *Deferred Compensation Board (5 Members)***

This board sets policy, contracts with investment and administrative service providers, and oversees administration of the Deferred Compensation Program. The board is responsible for establishing criteria and procedures for selecting and evaluating investment options offered by the Program. The Governor, with senate confirmation, appoints all

board members; there are no statutory requirements for appointments.

**Board Members****Chair: Jason Rothenberg**

Appointed by the Governor, with Senate confirmation. No membership requirements. Wis. Stat. § 15.165 (4)

**Vice Chair: Terrance Craney**

Appointed by the Governor, awaiting Senate Confirmation. No membership requirements. Wis. Stat. § 15.165 (4)

**Secretary: Connie Haberkorn**

Appointed by the Governor, with Senate confirmation. No membership requirements. Wis. Stat. § 15.165 (4)

**William Stebbins**

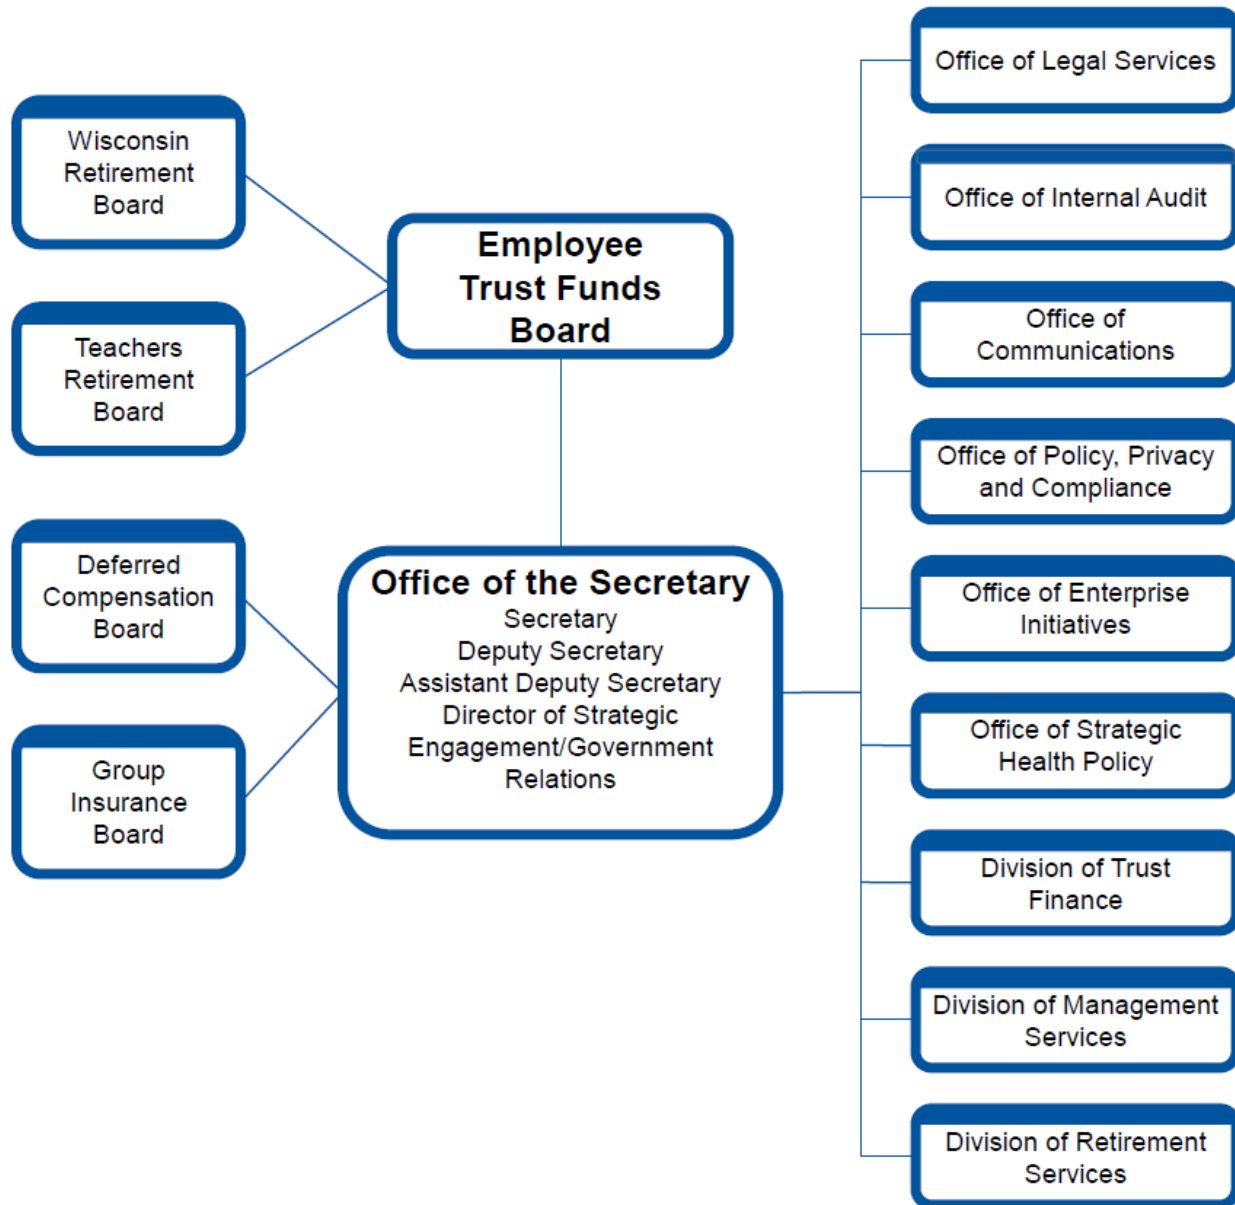

Appointed by the Governor, with Senate confirmation. No membership requirements. Wis. Stat. § 15.165 (4)

**Kate Fleming**

Appointed by the Governor, awaiting Senate confirmation. No membership requirements. Wis. Stat. § 15.165 (4)

» *Department Organization*

The Department of Employee Trust Funds had 275.2 permanent positions at the end of 2022. The Department's organization chart as of December 31, 2022 is shown below:

## Independent Auditor's Report on the Financial Statements and Other Reporting Required by *Government Auditing Standards*

Senator Eric Wimberger and  
Representative Robert Wittke, Co-chairpersons  
Joint Legislative Audit Committee

Members of the Employee Trust Funds Board and  
Mr. A. John Voelker, Secretary  
Department of Employee Trust Funds

### Report on the Audit of the Financial Statements

#### Opinions

We have audited the Statement of Fiduciary Net Position, the Statement of Changes in Fiduciary Net Position, and the related notes for the following fiduciary funds administered by the State of Wisconsin Department of Employee Trust Funds (ETF) as of and for the year ended December 31, 2022: Wisconsin Retirement System, Supplemental Health Insurance Conversion Credit, Employee Reimbursement Accounts/Commuter Benefits, State Retiree Life Insurance, Local Retiree Life Insurance, Milwaukee Retirement Systems, and Local Retiree Health Insurance. We have also audited the Statement of Net Position; Statement of Revenues, Expenses, and Changes in Net Position; Statement of Cash Flows; and related notes for the following proprietary funds administered by ETF as of and for the year ended December 31, 2022: Duty Disability Insurance, Health Insurance, Income Continuation Insurance, State Retiree Health Insurance, and Accumulated Sick Leave Conversion Credit.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of each fiduciary fund and each proprietary fund as of December 31, 2022, the changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, which is issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section. We are required to be independent of ETF and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphases of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to in the first paragraph present only the fiduciary and proprietary funds administered by ETF and do not purport to, and do not, present fairly the financial position of the State of Wisconsin as of December 31, 2022, the changes in

its financial position or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

As discussed in Note 3 to the financial statements, the financial statements include investments that do not have readily ascertainable market prices. Some of these investments are valued based on a variety of third-party pricing methods and others, such as private fund investments, are reported based on net asset value. Because of the inherent uncertainty of valuation, these estimated values may differ from the values that could be realized in a secondary market transaction or the amount ultimately realized.

Our opinions are not modified with respect to these matters.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance. Therefore, reasonable assurance is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we exercised professional judgment and maintained professional skepticism throughout the audit. We also identified and assessed the risks of material misstatement of the financial statements, whether due to fraud or error, and designed and performed audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

In addition, we obtained an understanding of internal control relevant to the audit in order to design audit procedures that were appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ETF's internal control. Accordingly, no such opinion is expressed. We also evaluated the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and evaluated the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 17 through 33 and the following information found on pages 106 through 125 be presented to supplement the financial statements: claims development information for

public entity risk pools; the Wisconsin Retirement System's Schedules of Changes in Net Pension Liability (Asset) and Related Ratios, Schedule of Required Employer Contributions, and Schedule of Investment Returns; the State Retiree Life Insurance Schedules of Changes in Net OPEB Liability (Asset) and Related Ratios, the Local Retiree Life Insurance Schedules of Changes in Net OPEB Liability (Asset) and Related Ratios, and the State and Local Retiree Life Insurance Schedule of Investment Returns; the Supplemental Health Insurance Conversion Credit's Schedules of Changes in Net OPEB Liability (Asset) and Related Ratios, Schedule of Required Employer Contributions, and Schedule of Investment Returns; and the Notes to the Required Supplementary Information. Such information is the responsibility of management and, although not a part of the financial statements, is required by the Governmental Accounting Standards Board (GASB) that considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America. These procedures consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the sections listed in the table of contents entitled Introductory Section, Statistical Section, Actuarial Section, Investment Section, and Contributions Paid and Employer Unfunded Liability Balances, but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or provide any other form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2024, and published in report 24-1, on our consideration of ETF's internal control over financial reporting; our testing of its compliance with certain provisions of laws, regulations, and contracts; and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of ETF's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be used in considering ETF's internal control over financial reporting and compliance.

LEGISLATIVE AUDIT BUREAU

January 5, 2024

## Management's Discussion and Analysis

Management of the Wisconsin Department of Employee Trust Funds (ETF) presents this discussion and analysis of the financial activities for the year ended December 31, 2022. This narrative is intended to supplement the financial statements which follow and should be read in conjunction with the note disclosures, which are an integral part of the financial statements.

ETF administers a defined benefit pension trust and other employee benefit plans for approximately 678,000 members, retirees, and beneficiaries.

### » *Overview of the Financial Statements*

The following discussion and analysis is intended to serve as an introduction to ETF's financial statements. The financial statements include:

- Statement of Fiduciary Net Position
- Statement of Changes in Fiduciary Net Position
- Statement of Net Position – Proprietary Funds
- Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Funds
- Statement of Cash Flows – Proprietary Funds
- Notes to Financial Statements

Funds are categorized as either fiduciary or proprietary based on the design, purpose and activities of the fund.

Fiduciary funds are used to report assets held by ETF as trustee for others. ETF is responsible for handling the assets placed under its control. The fiduciary funds reported by ETF include:

- Wisconsin Retirement System (WRS)
- Supplemental Health Insurance Conversion Credit (SHICC)
- Employee Reimbursement Accounts/Commuter Benefits (ERA/CB)
- State Retiree Life Insurance
- Local Retiree Life Insurance
- Milwaukee Retirement Systems
- Local Retiree Health Insurance

The activities in the proprietary funds operate similar to a private business. Fees are charged for services provided, and the focus is on determining financial position, operating and non-operating income, cash flows, and changes in net position. The proprietary funds reported by ETF include:

- Duty Disability Insurance
- Health Insurance
- Income Continuation Insurance
- State Retiree Health Insurance
- Accumulated Sick Leave Conversion Credit (ASLCC)

### » *Financial Statements*

The Statement of Net Position provides a snapshot of account balances at a point in time. It reports the assets available for future payments to benefit recipients, along with any liabilities that are owed as of the statement date. The full accrual basis of accounting is used.

The difference between assets and liabilities represents the net value of assets held in trust for future benefit payments. These amounts are called “Net Position - Restricted for Pensions, Other Post-Employment Benefits, and Other Purposes” for fiduciary funds and “Net Position Restricted (Unrestricted) for Benefits” for proprietary funds.

The Statement of Changes in Fiduciary Net Position for fiduciary funds and the Statement of Revenues, Expenses, and Changes in Fund Net Position for proprietary funds display the effect of transactions that occurred during the calendar year. For fiduciary funds, additions less deductions equals the net increase (decrease) in net position. For proprietary funds, revenues less expenses equals the change in net position. This net increase (decrease) reflects the change in the value of net position that occurred between the current and prior year.

Notes to the Financial Statements are an integral part of the financial statements and provide additional information that is essential for a comprehensive understanding of the data reported in the financial statements. The notes describe the accounting and administrative policies under which ETF operates, significant account balances and activities, material risks, obligations, contingencies, and subsequent events, if any.

The Required Supplementary Information (RSI) includes:

- Public Entity Risk Pools Claims Development
- Schedules of Changes in Net Pension Liability (Asset) and Related Ratios - WRS
- Schedule of Required Employer Contributions - WRS
- Schedule of Investment Returns - WRS
- Schedules of Changes in Net OPEB Liability (Asset) and Related Ratios - State and Local Retiree Life Insurance
- Schedule of Investment Returns - State and Local Retiree Life Insurance
- Schedules of Changes in Net OPEB Liability (Asset) and Related Ratios - SHICC
- Schedule of Required Employer Contributions - SHICC
- Schedule of Investment Returns - SHICC

The financial statements and related notes are prepared in accordance with Generally Accepted Accounting Principles (GAAP) established by the Governmental Accounting Standards Board (GASB).

» *Analysis of WRS Financial Activity*

The WRS is a cost-sharing, multiple-employer public employee retirement system established by the State of Wisconsin to provide pension benefits for state and local government employees. The system is administered in accordance with Wis. Stat. § 40. ETF, under the direction of the ETF Board, is responsible for administration of the WRS, including collecting contributions from employers and paying retirement benefits to WRS participants. The State of Wisconsin Investment Board (SWIB) is responsible for managing WRS investments.

The system's funding objective is to meet its long-term benefit obligations through contributions and investment income. Contributions and the income from investments provide the reserves needed to finance the benefits provided under the programs.

Net Position of the WRS decreased by \$23.5 billion or 17%, when comparing \$141.8 billion in 2021 to \$118.4 billion in 2022. This was primarily a result of losses on investments due to less favorable market conditions.

The WRS funding ratio under the funding methodology used to establish required contributions continues to be 100% as of December 31, 2022. Under the GASB financial reporting method, the WRS is 96% funded as of December 31, 2022. As of December 31, 2022, the WRS had a Net Pension Liability of \$5.3 billion compared to a Net Pension Asset of \$8.1 billion as of December 31, 2021. The decrease of approximately \$13.4 billion is primarily attributable to losses on investments due to less favorable market conditions in 2022. The Total Pension Liability decreased from \$133.8 billion in 2021 to \$123.7 billion in 2022.

The following tables show comparative summaries of the WRS net position and the changes in the WRS net position for 2022 and 2021.

<b>Summary of WRS Net Position</b>

## FINANCIAL SECTION

### Cash and Cash Equivalents

Cash and Cash Equivalents decreased by \$1.9 billion, or 27%, when comparing calendar year-end 2022 to 2021. This decrease is primarily attributable to rebalancing the Core Retirement Investment Trust Fund (Core Fund) asset allocation and changes in investment strategies at year-end. Also, securitized cash positions and synthetic exposure accounts used to manage liquidity and leverage can change significantly during a given period. These investment strategies require adequate levels of margin to meet risk mitigation requirements.

Routine rebalancing activities fluctuate throughout the year and can impact cash balances at a point in time. See Note 3, Deposits, Investments and Securities Lending Transactions, for additional information on rebalancing activities.

### Receivables

Receivables decreased by \$5.2 billion, or 45%, when comparing calendar year-end 2022 to 2021. This decrease is primarily due to a decrease in the balance for Investment Sales Receivable, which is dependent upon the timing and settlement of securities transactions. Approximately 46% of the Investment Sales Receivable balance relates to the use of To Be Announced (TBA) securities. TBA securities are derivative contracts that consist of mortgage-backed securities (MBS) issued by the Government National Mortgage Association, a government entity, and by government-sponsored enterprises, such as the Federal National Mortgage Association or the Federal Home Loan Mortgage Corp. The term TBA is derived from the fact that the actual MBS that will be delivered to fulfill a TBA trade is not designated at the time the trade is made. Instead, the specific pool of mortgages making up the MBS is announced 48 hours prior to the established trade settlement date. Eligibility rules and standards for MBS pools deliverable into TBA contracts ensure that delivered MBS pools are fungible. TBA securities sold create a receivable in the Statement of Fiduciary Net Position because payment for TBA securities is not made until the settlement date. Other routine rebalancing activities, where investment positions were sold but pending settlement, also contributed to the change in receivables as of December 31, 2022.

### Securities Lending Collateral

Securities Lending Collateral increased by \$1.3 billion when comparing calendar year-end 2022 to 2021. The balance consists of cash received as collateral for securities lending transactions. As of December 31, 2022, SWIB's securities lending agent released \$3.7 billion in cash from the Securities Lending Collateral pool to SWIB. This cash plus Securities Lending Collateral equals the Securities Lending Collateral Liability as of December 31, 2022. The cash released provides liquidity for other investment strategies.

### Securities Lending Collateral Liability

Securities Lending Collateral Liability increased by \$4.3 billion when comparing calendar year-end 2022 to 2021 related to an increase in lending activities primarily used to support the Core Fund liquidity needs. Investment policies permit the use of both cash and treasury securities as collateral to support short positions.

### Obligation Under Reverse Repurchase Agreements

Obligation Under Reverse Repurchase Agreements increased by \$678 million, or 4%, when comparing calendar year-end 2022 to 2021. Reverse repurchase agreements represent the simultaneous sale and agreement to repurchase specific assets for a pre-determined price, plus interest, at a future date.

The proceeds from these agreements are invested in Treasury Inflation-Protected Securities (TIPS). During 2022, SWIB increased its capacity to participate in reverse repurchase agreements, providing access to low-cost financing needed to maintain SWIB's strategic allocation targets.

### Investment Payables

Investment Payables decreased by \$7.9 billion, or 58%, when comparing calendar year-end 2022 to 2021. The majority of this decrease is due to investment purchases payable, which is dependent upon the timing and settlement of pending purchase transactions. Investment purchases payable primarily relate to the use of TBA securities, which accounts for about 68% of the investment purchases payable balance as of December 31, 2022. Purchased TBA securities create a payable in the WRS Statement of Fiduciary Net Position because payment for TBA securities is not made until the settlement date. Other routine rebalancing activities, where investment positions were purchased but pending settlement, also contributed to the change in Investment Payables as of December 31, 2022.

### Other Payables

Other Payables decreased by \$4.4 billion, or 51%, when comparing calendar year-end 2022 to 2021 primarily due to Short Sell Obligations. Short sale transactions are created when a security not owned by the portfolio is sold in anticipation of purchasing the security at a lower price in the future. The decrease in short sales is largely due to a decrease in equity short sales outpaced an increase in fixed income short sales. The equity short sales decrease was primarily driven by a fundamental change to SWIB's global equity investing strategy during 2022. The increase in fixed income short sales was driven by increased activity within SWIB's active fixed income strategies.

### Contributions and Investment Earnings

The retirement benefits provided by the WRS are funded from pension trust fund revenue. The primary sources of revenue are investment income generated from the investment of plan assets and contributions for active members made by members and their employers.

Total contributions and investment earnings in 2022, were \$(16.4) billion compared to \$23.3 billion in 2021. As the chart below shows, contributions increased by \$6 million, while investment income decreased by \$39.8 billion. The increase in contributions from 2021 to 2022 was primarily driven by an increase in covered payroll for the year, partially offset by a reduction in most contribution rates. The decrease in investment income during 2022 is primarily attributable to less favorable market conditions across several asset classes during 2022. The total Core Fund had a net investment return of (12.9)% in 2022 compared to 16.9% in 2021, and a total Variable Retirement Investment Trust (Variable Fund) net investment return of (17.8)% in 2022, compared to 20.0% in 2021.

## FINANCIAL SECTION

### Contributions and Net Investment Income (Loss)

The assets of the WRS are valued at fair market value and invested in the Core Fund and the Variable Fund, which are collectively the Retirement Funds. All WRS members have at least half, if not all, of their pension contributions invested in the Core Fund. The Core Fund is a diversified, balanced fund invested for the long-term needs of the WRS. Diversification helps to stabilize the effects of market changes. The investment objective of this trust fund is to meet or exceed an average of 6.8% annual nominal return over the long-term. This objective is based on market rate of return and actuarial assumptions needed to meet the obligations of the WRS. The Variable Fund allows active employees participating in the WRS to put up to half of their pension fund contributions into this global stock fund. Approximately 14% of WRS members participate in the Variable Fund. By statute, the Variable Fund invests in stocks and provides participants the potential for higher returns in exchange for higher risk. The investment objective of the Variable Fund is to meet or exceed broad equity market indices over a full market cycle.

SWIB is responsible for managing the assets of the WRS. SWIB invests in external legal entities managed by external investment managers to gain exposure to select investment strategies. In exchange for their investment management services, the external managers charge a fee within the entity they manage. These fees are typically assessed as a percentage of SWIB's commitment to, or investment in, the external entity. The fees assessed to these external entities are recorded as a fee within the external entity and are thus included in the Net Increase (Decrease) in the Fair Value of Investments within the Statement of Changes in Fiduciary Net Position. Accordingly, these fees are reported as supplemental information in the table Schedule of WRS External Management Fees.

<b>Schedule of WRS External Management Fees</b> <b>For the Calendar Year Ended December 31, 2022<sup>1</sup></b> (In Thousands)	
Private Equity <sup>2</sup>	\$ 509,629
Hedge Funds <sup>3</sup>	252,533
Real Estate <sup>2</sup>	235,880
External Investment Management <sup>4</sup>	109,842
<b>Total Fees</b>	<b>\$ 1,107,884</b>

<sup>1</sup>Includes performance based fees.

<sup>2</sup>Included within Private Fund Investments in the Statement of Fiduciary Net Position.

<sup>3</sup>Included within Multi Asset Investments in the Statement of Fiduciary Net Position.

<sup>4</sup>Includes external investment management fees incurred within certain external funds as well as approximately \$46.9 million in fees paid to external managers in exchange for services they provide within SWIB-custodied accounts, which are included in the Statement of Changes in Fiduciary Net Position.

*Additional information about external management fees is presented in Note 3, Deposits, Investments and Securities Lending Transactions.*

## Expenses - Deductions from Plan Net Position

The primary expenses of the WRS include annuity benefits for retirees, disability annuitants and beneficiaries, refunds of contributions to former members, and expenses associated with the administration of the retirement plans. Benefit payments totaled \$7.0 billion in 2022, an increase of \$0.6 billion or 10% over the 2021 amount of \$6.4 billion. This increase was due to an increase in retired participants from 226,605 as of December 31, 2021, to 232,384 as of December 31, 2022, as well as increases in annuities starting with the May 1, 2022 annuity payment. Administrative expenses of approximately \$31 million accounted for less than 0.4% of the deductions to net position in 2022 and remained relatively consistent from 2021.

Investment expenses are deducted from investment income and were \$779 million in 2022, an increase of 79% from \$435 million in 2021. The increase was primarily related to interest paid to counterparties, as short-term interest rates rose during 2022. This resulted in higher interest paid on reverse repurchase agreements which are used to finance certain investment strategies. An increase in securities lending borrow rebates also contributed to the increase in investment expense.

### Expenses as of December 31, 2022 (In Millions)

#### Retirement Reserves

The funds accumulated by the WRS to meet current and future obligations to retirees and beneficiaries are derived from the excess of revenue over expenses. Reserves have been established to reflect legal restrictions established by Wisconsin Statutes on the use of funds. The higher level of funding a plan achieves, the larger the accumulation of assets and the greater the investment income potential. In 2022, expenses exceeded revenues, leading to a decrease of \$23.4 billion in the retirement reserves. This decrease was primarily related to the decrease in investment earnings in 2022. The reserves are invested in either the Core Fund or the Variable Fund. Approximately 93% of the reserves are invested in the Core Fund and 7% are invested in the Variable Fund.

**Total Reserves Core vs. Variable  
as of December 31, 2022  
(In Millions)**

Market Recognition Account (WRS Only)	(6,791)	17,039	(23,830)
<b>Total Reserves</b>	<b>\$ 118,327</b>	<b>\$ 141,712</b>	<b>\$ (23,385)</b>

*Additional information about reserves is presented in Note 7, Statutory Reserves.*

## FINANCIAL SECTION

## Members, Retirees, Beneficiaries, and Employers

Approximately 260,500 active members were employed with 1,586 WRS-participating employers as of December 31, 2022. The number of inactive, retirees, and other annuitants totaled 417,401 as of December 31, 2022. Total members served by the WRS in 2022 was approximately 678,000 as shown in the following tables.

### Distribution of Active Members As of December 31

Active Member Category	2022		2021	
	Number	Percent of Total	Number	Percent of Total
General	133,569	51.3 %	132,650	51.3 %
Teachers	103,860	39.9	102,753	39.7

### Actuarial Valuations and Funding Progress - Pension Plan

ETF's actuarial consultant performs an actuarial valuation of the WRS each year to determine funding requirements and establish contribution rates. The funding policy provides for periodic employer contributions at actuarially determined rates that will remain relatively level over time as a percentage of payroll and will accumulate sufficient assets to meet the costs of all benefits when due. The latest valuation of the pension plan was performed by Gabriel, Roeder, Smith & Company (GRS). Under the funding methodology, the WRS is 100% funded as of December 31, 2022. For financial reporting purposes, a funding ratio is calculated in accordance with GASB pension accounting standards. Under these standards, the WRS was 96% funded as of December 31, 2022.

#### » *Analysis of Other Program Financial Activities*

### Supplemental Health Insurance Conversion Credit Program

The SHICC Program provides additional sick leave credits to eligible employees with at least 15 years of service, which increases their sick leave account balance that can be used to pay for post-retirement health insurance premiums.

Net Position of the SHICC program decreased by \$222.9 million from \$1.4 billion in 2021 to \$1.1 billion in 2022. The decrease is primarily a result of losses on investments due to less favorable market conditions.

For 2022, the SHICC Program collected \$5.4 million in contributions compared to \$15.7 million in 2021, a decrease of 65%. The decrease in contributions resulted from a lower contribution rate in 2022 compared to 2021. Additionally, Contributions Receivable decreased \$1.1 million from 2021, a decrease of 64%. This decrease was caused by the lower contribution rate in 2022 compared to 2021.

The program incurred expenses that remained relatively unchanged when comparing \$53.2 million in 2022 to \$53.3 million in 2021. Total liabilities for the program decreased \$137 thousand from 2021 to 2022. The 2022 liability represents payables due to other benefit programs.

## FINANCIAL SECTION

An actuarial valuation, in accordance with GASB standards, shows a Net OPEB Asset of \$102.8 million as of December 31, 2022. The program Fiduciary Net Position as a percentage of the Total OPEB Liability is 110%. Additional information on this valuation can be found in Note 9, Other Post-Employment Benefit (OPEB) Plans Administered by ETF.

As of December 31, 2022, there were approximately 96,700 members participating in the SHICC Program. Total participation in the SHICC Program varies from the ASLCC program participation because of different eligibility requirements. Participation is comprised of approximately 22,300 retirees and beneficiaries, 400 inactive non-retired members, and 74,000 active members. Active members may become eligible for the SHICC benefit upon meeting the eligibility requirements. Total participation increased 2% from 2021.

### Employee Reimbursement Accounts/Commuter Benefits Program

The ERA Program reimburses qualifying medical and dependent care expenses, while the CB Program reimburses qualifying transportation expenses for employees of the State of Wisconsin who sign up for pre-tax payroll deductions.

The ERA/CB Program had a net position of \$3.0 million as of December 31, 2022. This was an increase of \$1.1 million compared to \$1.9 million as of December 31, 2021.

For 2022, the ERA/CB Program collected \$37.4 million in contributions compared to \$39.1 million in 2021. This decrease was primarily due to a decrease in annual election amounts per member. The program paid benefits and expenses of \$36.4 million in 2022, which was a decrease of \$2.1 million from \$38.5 million in 2021. This decrease was primarily caused by a decrease in paid claims related to dependent care expenses.

During 2022, there were approximately 20,700 members participating in medical reimbursement, 3,000 members participating in commuter benefits, and 3,500 members participating in dependent care reimbursement accounts compared to 21,100 medical, 2,700 commuter benefits, and 3,500 dependent care accounts in 2021.

### State Retiree Life Insurance Program

The State Retiree Life Insurance Program provides fully paid-up life insurance benefits for post-age 64 retired employees of the State of Wisconsin and pre-age 65 annuitants who pay for their coverage.

The State Retiree Life Insurance Program's net position of \$303.2 million as of December 31, 2022 decreased \$16.4 million from the prior year. The decrease is primarily caused by benefit expense exceeding contributions and investment income.

During 2022, the State Retiree Life Insurance Program collected \$1.8 million in contributions compared to \$1.7 million in 2021. The current employer contribution schedule includes annual increases of 5% for nine years, as approved by the GIB in August 2019. The program incurred expenses of \$27.0 million in 2022 compared to \$24.6 million in 2021. This increase was primarily caused by higher benefit expenses in 2022, which increased 10% compared to 2021. Contributions received for pre-age 65 annuitants are reported as a reduction to benefit expense, in accordance with GASB Statement No. 74, "Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans."

An actuarial valuation, in accordance with GASB standards, shows a Net OPEB Liability of \$659.7 million as of December 31, 2022. The plan Fiduciary Net Position as a percentage of the Total OPEB Liability was 31%. Additional information on this valuation can be found in Note 9, Other Post-Employment Benefit (OPEB) Plans Administered by ETF.

As of December 31, 2022, there were 36,089 members participating in the State Retiree Life Insurance Program, which was a 2% increase in participants from 2021.

### **Local Retiree Life Insurance Program**

The Local Retiree Life Insurance Program provides fully paid-up life insurance benefits for post-age 64 retired employees of participating local governments in Wisconsin and pre-age 65 annuitants who pay for their coverage.

The Local Retiree Life Insurance Program's net position of \$241.6 million as of December 31, 2022 decreased \$6.6 million from the prior year. The decrease is primarily caused by benefit expenses exceeding contributions and investment income.

During 2022, the Local Retiree Life Insurance Program collected \$2.0 million in contributions, similar to 2021. The program incurred expenses of \$15.5 million in 2022 compared to \$11.9 million in 2021, an increase of 30%. This increase was primarily caused by higher benefit expenses in 2022, which increased 32% compared to 2021. Contributions received from pre-age 65 annuitants are reported as a reduction to benefit expense, in accordance with GASB Statement No. 74.

An actuarial valuation, in accordance with GASB standards, shows a Net OPEB Liability of \$381.0 million as of December 31, 2022. The plan Fiduciary Net Position as a percentage of the Total OPEB Liability was 39%. Additional information on this valuation can be found in Note 9, Other Post-Employment Benefit (OPEB) Plans Administered by ETF.

As of December 31, 2022, there were 50,670 members participating in the Local Retiree Life Insurance Program, which was a 2% increase in participants from 2021.

### **Milwaukee Retirement Systems**

The Milwaukee Retirement Systems (MRS) invests funds with the WRS. Since 2014, the MRS only invests funds from two Milwaukee Public Schools Supplemental Retirement Plans.

The MRS had a net position of \$200.5 million as of December 31, 2022. This was a decrease of \$51.9 million compared to \$252.4 million as of December 31, 2021. During 2022, the MRS deposited \$1.0 million compared to \$3.4 million in 2021. The MRS distributed \$19.9 million in 2022, an increase of \$10.3 million from 2021. The program experienced an investment loss of \$33.0 million in 2022 compared to an investment gain of \$37.4 million in 2021. The decrease was a result of unfavorable market conditions in 2022 compared to 2021.

Additional information on the MRS can be found in Note 10, Milwaukee Retirement Systems.

### **Local Retiree Health Insurance Program**

Through the Local Retiree Health Insurance Program, participants may choose a health plan within specific provider networks (i.e. Health Maintenance Organizations). Required premiums are collected from retired employees of participating local government employers in Wisconsin.

---

## FINANCIAL SECTION

The Local Retiree Health Insurance Program had a net position of zero as of December 31, 2022 and 2021.

For 2022, the Local Retiree Health Insurance Program collected \$23.5 million in contributions from retirees, a 2% decrease from \$23.9 million in 2021, primarily due to decreased enrollment. The program incurred other benefit expenses of \$24.8 million in 2022 compared to \$25.0 million in 2021, primarily due to increased pharmacy rebates applied.

There were approximately 2,000 members participating in the Local Retiree Health Insurance Program as of December 31, 2022, which was a 4% decrease in participants in 2021. Additional information for the Local Retiree Health Insurance Program can be found in Note 9, Other Post-Employment Benefit (OPEB) Plans Administered by ETF.

### Duty Disability Insurance Program

The Duty Disability Insurance Program pays special disability benefits to protective occupation participants in the WRS. The program is self-insured, and the risk is shared between the State of Wisconsin and local government employers in the program.

The Duty Disability Insurance Program had a net position of \$153.2 million as of December 31, 2022. This was a decrease of \$178.3 million compared to \$331.4 million as of December 31, 2021. The program experienced an investment loss of \$109.2 million in 2022 compared to an investment gain of \$126.4 million in 2021. The decrease in investment income is primarily attributable to unfavorable market conditions.

For 2022, the Duty Disability Insurance Program collected \$2.0 million in contributions from participating employers, a 51% decrease from \$4.0 million in 2021, due to a significant decrease in contribution rates due to the strong financial position of the fund. The program incurred operating expenses of \$71.1 million in 2022 compared to \$93.3 million in 2021, a decrease of 24% primarily due to a decrease in the change of actuarially determined liabilities impacting expenses.

As of December 31, 2022, there were approximately 22,000 members participating in the Duty Disability Insurance Program, a decrease of less than 1% from 2021. Additional information for the Duty Disability Insurance Program can be found in Note 8, Public Entity Risk Pools.

### Health Insurance Program

The Health Insurance Program is a comprehensive benefit plan providing coverage for active employees of the State of Wisconsin and participating local governments. The state and local health plans each include separately managed risk pools for medical, pharmacy and dental benefits.

The Health Insurance Program had a net position of \$159.6 million as of December 31, 2022. This was a decrease of \$67.9 million compared to \$227.5 million as of December 31, 2021. The program experienced investment loss of \$28.6 million in 2022 compared to \$37.6 million investment income in 2021.

For 2022, the Health Insurance Program collected \$1,411.9 million in contributions from participating employers, a 2% increase from \$1,382.6 million in 2021, primarily due to increased insurance premiums. The program incurred operating expenses of \$1,451.3 million in 2022 compared to \$1,413.4 million in 2021, an increase of 3% primarily due to increased pharmacy claims.

As of December 31, 2022, there were approximately 79,000 active members participating in the Health Insurance Program, which was less than a 1% increase in participants from December 31, 2021. Additional information for the Health Insurance Program can be found in Note 8, Public Entity Risk Pools.

### **Income Continuation Insurance (ICI) Program**

The ICI Program pays disability benefits for employees of the State of Wisconsin and participating local governments in Wisconsin who enroll in the program. Employee premiums are based on sick leave accumulation and the waiting period selected.

The ICI Program had a net position of \$103.2 million as of December 31, 2022. This was a decrease of \$34.3 million compared to \$137.5 million as of December 31, 2021. The program experienced an investment loss of \$29.5 million due to unfavorable market conditions in 2022, compared to an investment gain of \$31.6 million in 2021.

For 2022, the ICI Program collected \$21.2 million in contributions from State agencies, a 46% decrease from \$39.4 million in 2021, primarily due to a 50% premium rate decrease for the State ICI Program. Rates were decreased due to the improved financial position of the program. Local employers continued to have a premium holiday. The program incurred operating expenses of \$26.2 million in 2022 compared to \$23.5 million in 2021, an increase of 11% primarily due to an increase in the actuarially determined liabilities impacting expenses and increased benefit payment expenses.

As of December 31, 2022, there were approximately 53,900 members participating in the ICI Program. This includes approximately 12,400 local employees and 41,500 state employees. Local employees had an increase of 7% and state employees had a 2% decrease in participants from 2021. Additional information for the ICI Program can be found in Note 8, Public Entity Risk Pools.

### **State Retiree Health Insurance Program**

Through the State Retiree Health Insurance Program, participants may choose a health plan within specific provider networks (i.e. HMOs). Required premiums are collected from retired employees of the State of Wisconsin.

The State Retiree Health Insurance Program had a net position of zero as of December 31, 2022 and 2021.

For 2022, the State Retiree Health Insurance Program collected \$246.7 million in contributions from retirees, a 0.4% decrease from \$247.6 million in 2021. The program incurred benefit expenses of \$270.7 million in 2022 compared to \$266.8 million in 2021, an increase of 1% primarily due to increased pharmacy claims.

As of December 31, 2022, there were approximately 29,200 members participating in the State Retiree Health Insurance Program, which was a 2% increase in participants from 2021. Additional information for the State Retiree Health Insurance Program can be found in Note 9, Other Post-Employment Benefit (OPEB) Plans Administered by ETF.

### **Accumulated Sick Leave Conversion Credit (ASLCC) Program**

The ASLCC Program allows retirees of the State of Wisconsin, the UW System, the UW Hospital and Clinics Authority, and other state authorities, at the time of their retirement, to convert the value of their unused sick leave accumulation into an account to be used to pay for post-retirement health insurance.

The ASLCC Program had a net position of \$(702.8) million as of December 31, 2022. This was a decrease of

---

## FINANCIAL SECTION

\$448.7 million compared to \$(254.1) million as of December 31, 2021. The program experienced an investment loss of \$270.8 million due to unfavorable market conditions in 2022, compared to an investment gain of \$311.5 million in 2021.

For 2022, the ASLCC Program collected \$38.0 million in contributions from participating employers compared to \$41.7 million in 2021, a decrease of 9%. The decrease in contributions resulted from a decrease in the contribution rate, partially offset by higher earnings reported by employers. The program incurred expenses of \$215.9 million in 2022, an increase of \$74.0 million from \$141.9 million in 2021. The change in the compensated absences liability from year to year impacted expenses and was the primary reason for the change. Additional information on compensated absences can be found in Note 1, Summary of Significant Accounting Policies.

As of December 31, 2022, there were approximately 99,500 members participating in the ASLCC Program. Participation is comprised of approximately 19,100 retirees and others using ASLCC credits; 6,400 retirees or inactive non-retired members who may use ASLCC credits in the future; and 74,000 active members. Active members may become eligible for the ASLCC benefit upon meeting the eligibility requirements. Total participation increased 2% from 2021.

## NOTES TO FINANCIAL STATEMENTS

# 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## » *Presentation Basis*

The financial statements have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) for government units as prescribed by the Governmental Accounting Standards Boards (GASB). Wisconsin Department of Employee Trust Funds (ETF) is not a general-purpose government and does not present government-wide statements. These statements are not intended to present the financial activity of the State of Wisconsin as a whole. The funds administered by ETF are included in the State of Wisconsin financial reporting entity and are presented in the State's Annual Comprehensive Financial Report.

The assets and operations of ETF are accounted for in the funds described below. Department-wide administrative expenses, capital assets, and general fund activities are most closely associated with the WRS fund and have been blended with that fund for presentation. All material intrafund transactions have been eliminated from fund financial statements. Interfund transactions have not been eliminated.

## *Fiduciary Funds*

Fiduciary funds are used to show assets held by ETF as trustee for others.

## *Pension Trust Funds*

**Wisconsin Retirement System (WRS):** This fund is used to account for the collection of member and employer contributions; investment of assets; and payment of retirement, disability, and death benefits to former employees, and their beneficiaries, of the State of Wisconsin and participating local governments in Wisconsin.

## *Other Employee Benefit Trust Funds*

**Supplemental Health Insurance Conversion Credit (SHICC):** This fund is used to account for the collection of employer contributions, investment of assets, and purchase of post-retirement health insurance premiums for retired employees of the State of Wisconsin and their beneficiaries. This program provides a limited employer match of member credits earned through the Accumulated Sick Leave Conversion Credit (ASLCC) program.

**Employee Reimbursement Accounts/Commuter Benefits (ERA/CB):** This fund is used to account for the collection of voluntary payroll deferrals, investment of assets, and reimbursement of qualifying medical, dependent care, and transportation expenses for employees of the State of Wisconsin, in compliance with Internal Revenue Code Section 125 and Section 132.

**State Retiree Life Insurance (SRL):** This fund is used to account for the accumulation of assets and the payment of life insurance benefits for retired employees of the State of Wisconsin.

**Local Retiree Life Insurance (LRL):** This fund is used to account for the accumulation of assets and the payment of life insurance benefits for retired employees of participating local governments in Wisconsin.

## Investment Trust Fund

**Milwaukee Retirement Systems (MRS):** This fund is used to account for the receipt, investment, and disbursement of funds from other public pension funds in Wisconsin.

## Custodial Fund

**Local Retiree Health Insurance (LRH):** This fund is used to account for the collection of retiree contributions, the investment of assets, the purchase of health insurance coverage, and the payment of health insurance claims for retired employees of participating local governments in Wisconsin.

## Proprietary Funds

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal ongoing operations for these proprietary funds are: collecting premiums and using the accumulated premiums and investment income to pay benefits. Revenues and expenses not directly related to the principal ongoing operations are classified as non-operating.

## Enterprise Funds

**Duty Disability Insurance (DDI):** This fund is used to account for the collection of employer contributions, investment of assets, and payment of special disability benefits to protective occupation participants in the WRS.

**Health Insurance:** This fund is used to account for the collection of employee and employer contributions, the investment of assets, the purchase of health insurance coverage, and the payment of health insurance claims for current employees of both the State of Wisconsin and participating local governments in Wisconsin.

**Income Continuation Insurance (ICI):** This fund is used to account for the collection of employee and employer contributions, the investment of assets, and the payment of disability benefits for employees of both the State of Wisconsin and participating local governments in Wisconsin.

**State Retiree Health Insurance (SRH):** This fund is used to account for the collection of retiree contributions, the investment of assets, the purchase of health insurance coverage, and the payment of health insurance claims for retired employees of the State of Wisconsin.

## Internal Service Fund

**Accumulated Sick Leave Conversion Credit (ASLCC):** This fund is used to account for the collection of employer contributions, investment of assets, and purchase of post-retirement health insurance premiums for retired employees of the State of Wisconsin and their beneficiaries. This benefit allows employees, at the time of their retirement, to convert the value of their unused sick leave accumulation into an account to be used to pay for post-retirement health insurance. The ASLCC program is reported as an internal service fund because the program benefits only State employees.

## FINANCIAL SECTION

» *Measurement Focus and Basis of Accounting*

The financial statements have been prepared in accordance with GAAP. All fiduciary and proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, contributions are recognized in the accounting period in which the underlying earnings on which the contributions are based are paid and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Securities transactions and the related gains and losses are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date, and interest income is accrued as earned.

» *Investments*

The assets of the programs were invested in one or more of the following funds: Core Retirement Investment Trust Fund (Core Fund) and Variable Retirement Investment Trust Fund (Variable Fund), which are collectively the Retirement Fund, State Investment Fund (SIF), or held by third-party administrator, as shown in table below.

<b>Benefit Plan</b>	<b>Core Fund*</b>	<b>Variable Fund*</b>	<b>State Investment Fund</b>	<b>Third-Party Administrator</b>
Wisconsin Retirement System	✓	✓		
Supplemental Health Insurance Conversion Credit	✓			
Employee Reimbursement Accounts/Commuter Benefits			✓	
State Retiree Life Insurance				✓
Local Retiree Life Insurance				✓
Milwaukee Retirement Systems	✓	✓		
Local Retiree Health Insurance	✓			
Duty Disability Insurance	✓			
Health Insurance	✓			
Income Continuation Insurance	✓			
State Retiree Health Insurance	✓			
Accumulated Sick Leave Conversion Credit	✓			

\* Excess cash of the Core Fund and Variable Fund are invested in the State Investment Fund.

Retirement Fund earnings are allocated between the WRS and other benefit programs based on the average balance invested for each program. Retirement Fund earnings allocated to other benefit programs are classified as "Investment Income Distributed to Other Benefit Programs" on the WRS Statement of Changes in Fiduciary Net Position. The total amount invested by the other benefit programs included in the Retirement Funds is presented as "Core Investment Due To Other Benefit Programs" and "Variable Investment Due To Other Benefit Programs" on the WRS Statement of Fiduciary Net Position. Investments for the Retiree Life Insurance Funds are held by the plan administrator and classified as "Investment Contract" in the Statement of Fiduciary Net Position.

Investments in the SIF are classified as “Equity in Pooled Cash and Cash Equivalents” in the Statement of Fiduciary Net Position. The SIF is a pool of cash balances of various state and local government units with the investment objectives to provide safety, liquidity, and competitive rates of return.

The State of Wisconsin Investment Board (SWIB) manages the Retirement Funds and SIF with oversight by the SWIB's Board of Trustees, as authorized in Wis. Stat. § 25.15 and § 25.17. SWIB is not registered with the Securities and Exchange Commission as an investment company.

### » *Funding Value of Assets*

While investments are measured at fair value for financial statement presentation, a funding value of assets is used in evaluating the funded status of the benefit plans and in determining future contribution requirements. Funding value does not include deferred market gains and losses that have not yet been distributed from the Market Recognition Account (MRA) to the program reserves. See Note 7, Statutory Reserves, for further explanation of the MRA. As of December 31, 2022, the funding value of reserves were as follows (in Millions):

<b>Benefit Plan</b>	<b>Reserves at Funding Value</b>	<b>Deferred Market Gains (Losses)</b>	<b>Reserves at Fair Value</b>
Wisconsin Retirement System	\$ 125,159.7	\$ (6,791.5)	\$ 118,368.2
Income Continuation Insurance*	109.9	(6.7)	103.2
Duty Disability Insurance*	197.3	(44.1)	153.2
ASLCC*	(580.1)	(122.7)	(702.8)
SHICC	1,215.0	(66.2)	1,148.8
Health Insurance*	172.5	(12.9)	159.6
State Retiree Health Insurance	(6.0)	6.0	0.0
Local Retiree Health Insurance	0.0	0.0	0.0

\*The Reserves at Funding Value and the Reserves at Fair Value for Income Continuation Insurance, Duty Disability Insurance, and Health Insurance programs have been reduced by the estimated future claims for the benefit plans and by a compensated absences liability for the Accumulated Sick Leave Conversion Credit program.

### » *Administrative Expenses*

ETF administrative costs are financed by a separate appropriation and are allocated to each benefit plan administered by ETF in accordance with Wis. Stat. § 40.04. The sources of funds for this appropriation are investment earnings and third-party reimbursements received from the various programs administered by ETF. Total ETF administrative expenses for the year were \$54.4 million. Costs for third-party administrators are reported as "Carrier Administrative Expenses" within each program.

SWIB incurs expenses related to investing the trust funds. As authorized by Wis. Stat. § 25.187 (2), these costs are charged directly to the investment income of each trust fund.

## FINANCIAL SECTION

» *Capital Assets*

Capital assets consist of office furniture, equipment, computer software (purchased or externally acquired and internally generated software), and certain capitalizable costs related to leased office space. ETF capitalizes purchased assets in excess of \$5,000 at cost and capitalizes internally-generated software and other intangible assets in excess of \$1 million. Costs incurred related to leased office space are valued at purchase price or construction cost plus any costs necessary to place the asset into use. Assets are depreciated over an estimated useful life, ranging from 5 to 20 years, using the straight-line method of depreciation.

As of December 31, 2022, the total value of capital assets was \$20.4 million. The accumulated depreciation is \$11.3 million for a net capital asset value of \$9.1 million. Net capital asset value is primarily comprised of \$5.8 million of costs related to the future occupancy of office space leased by SWIB and \$3.2 million of internally generated software.

» *Compensated Absences*

The ASLCC fund reports liabilities for compensated absences for sick leave calculated based on the vesting method prescribed in GASB Statement No. 16 "Accounting for Compensated Absences." The amounts reported are based on sick leave balances earned but not used and salary rates as of December 31, 2022. The roll-forward of compensated absences payable for the year ended December 31, 2022 is as follows:

<b>Compensated Absences Payable</b> (In Millions)				
<b>December 31, 2021</b>	<b>Additions</b>	<b>Reductions</b>	<b>December 31, 2022</b>	<b>Due Within One Year</b>
\$2,356.4	\$215.2	\$114.4	\$2,457.2	\$110.9

**» Interfund Assets/Liabilities**

Interfund assets and liabilities as of December 31, 2022, consist of the following:

<b>Due To/From Other Benefit Programs</b>

<b>Total</b>	<b>\$3,902</b>	<b>\$ 76</b>	<b>\$ 38,690</b>	<b>\$68,514</b>	<b>\$ 5,831</b>	<b>\$ 167</b>	<b>\$ 21</b>	<b>\$ 29</b>	<b>\$ 0</b>	<b>\$ 221</b>	<b>\$ 111</b>	<b>\$ 264</b>	<b>\$ 0</b>	<b>\$ 117,826</b>

**Due From Other Benefit Programs**
**Due To Other Benefit Programs**

Totals may vary from the financial statements due to rounding.

The outstanding balances between benefit programs primarily result from the time lag between when actual receipts and disbursements are made and when those amounts are allocated between benefit programs. All liabilities are expected to be paid within one year of the balance sheet date of December 31, 2022.

**» Use of Estimates**

The preparation of financial statements in accordance with GAAP requires management to make estimates that affect amounts reported herein. Due to the inherent uncertainty involved, actual results could differ from those estimates.

## 2 ACCOUNTING CHANGES

No accounting changes occurred during calendar year 2022.

### 3 DEPOSITS, INVESTMENTS AND SECURITIES LENDING TRANSACTIONS

#### » *Valuation of Securities*

The investments of the Retirement Funds are reported in the Statement of Fiduciary Net Position at fair value as prescribed by GASB and in accordance with Wis. Stat. § 25.17 (14). Unrealized gains and losses are reflected in the Statement of Changes in Fiduciary Net Position as “Net Increase (Decrease) in Fair Value of Investments.”

The fair value of the Retirement Funds’ assets is obtained or estimated in accordance with a pricing hierarchy established with SWIB’s custodian, Bank of New York Mellon (BNY Mellon). As prescribed by the hierarchy, a variety of independent pricing sources are used to price assets based on type, class, or issue.

When a portfolio includes securities or instruments for which the custodial bank does not receive fair value information from its vendor pricing sources, a variety of third-party pricing methods are used, including appraisals, pricing models, and other methods deemed acceptable by industry standards.

The “Equity in Pooled Cash and Cash Equivalents” account reported in the Statement of Fiduciary Net Position consists of short-term investments used to meet the liquidity requirements of the Retirement Funds. Equity in Pooled Cash and Cash Equivalents held by the Retirement Funds can include cash on deposit, foreign currencies, cash posted as collateral to counterparties, repurchase agreements, certificates of deposit, time deposits, U.S. Treasury Bills, short-term investment funds, and other U.S. or foreign liquid financial instruments with maturities that are generally less than three months. Equity in Pooled Cash and Cash Equivalents are reported at fair value or cost, which approximates fair value.

Privately held debt, which is included as “Fixed Income Investments” in the Statement of Fiduciary Net Position, is priced using approaches that value each holding based on the best available information using the following hierarchy of pricing sources:

1. Custodian-supplied prices for assets that can be priced in accordance with the pricing hierarchy established with SWIB’s custodian.
2. Prices provided by a third party with expertise in the debt markets.

For private market investments where no readily ascertainable market value exists, including limited partnerships and real estate pooled funds, fair value is estimated based on the net asset values (NAV) provided by the general partner. Due to the reporting timing of private market investment managers, reported fair values as of December 31, 2022 are based on actual September 30, 2022 reporting, which has been adjusted to reflect cash flows occurring from October 1, 2022 through December 31, 2022. The reported fair value is considered an estimate that may differ from the value that could be realized in a secondary market transaction, or the amount ultimately realized. The financial statements of the limited partnerships and real estate pooled funds are audited by independent auditors annually.

Certain portfolios invest in privately held companies alongside a strategic partner, such as a limited partnership fund manager. These co-investments are valued by SWIB’s strategic partners, who often employ independent valuation agents and use a variety of methodologies including reviews of subsequent financing rounds, discounted cash flow analyses, cash flow multiples analyses, reviews of market comparable sales or metrics, and reviews of third-party appraisals.

Real estate investments owned by SWIB in limited liability companies are valued by independent appraisers every three years. In years when appraisals are not performed, properties are informally appraised by the asset advisor. Each year audited financial statements are prepared for each property.

SWIB employs portfolio strategies which comprise investments across multiple asset classes. The “Multi Asset Investments” account in the Statement of Fiduciary Net Position consists primarily of hedge funds. SWIB values hedge funds based on monthly statements or estimated returns received from each of the hedge fund’s administrators. A third-party administrator’s responsibility is to independently account for the hedge fund’s activity and calculate the NAV of the fund. Generally, hedge fund administrators price financial instruments traded in active markets based on quoted market prices or binding dealer quotations. For certain over-the-counter (OTC) instruments, fair value is determined based on valuation models used by the administrator or independent valuation agent. Annually, the financial statements prepared by the administrator are audited by independent auditors.

Derivative financial instruments are marked to market daily, with valuation changes recognized in income during the period the instruments are held and when the instrument is sold or expires. The nature and use of derivative instruments are discussed later in this note.

A limited number of securities are carried at cost. Certain non-public or closely-held investments are not reported at fair value but are carried at cost, as no independent price quotes are available to estimate fair value for these securities.

### » *Credit Risk*

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to SWIB. Fixed income credit risk investment guidelines outline the minimum ratings required at the time of purchase by individual portfolios, or groups of portfolios, based on the portfolios’ investment objectives. In addition, some fixed income portfolios are required to always carry a minimum weighted average rating. Information regarding SWIB’s credit risk related to derivative instruments is discussed later in this note.

The table entitled Credit Quality Distribution displays the lowest credit rating assigned by nationally recognized statistical rating organizations on debt securities held by the Retirement Funds as of December 31, 2022. Included in this table are fixed income securities, including certain short-term securities, classified as “Equity in Pooled Cash and Cash Equivalents” in the Statement of Fiduciary Net Position. Also included are interest rate sensitive investments held in the Retirement Funds’ securities lending collateral reinvestment pools, which are managed by SWIB’s securities lending program. Additional information regarding the securities lending program is discussed later in this note.

The table also includes SWIB’s investment in commingled fixed income funds, which are not rated. Although the funds themselves are not assigned ratings, external management investment guidelines govern minimum credit quality standards for the investments within each portfolio. These standards are determined based on the investment objectives and risk parameters of each fund.

Not Rated	1,751,651	3.6
Commingled Fixed Income Funds	4,784,384	9.9
Total	<u>\$ 48,546,782</u>	<u>100.0 %</u>

SWIB held \$17.7 billion in reverse repurchase agreements as of December 31, 2022. Investment guidelines permit certain portfolios to enter into reverse repurchase agreements, which are a sale of securities with a simultaneous agreement to repurchase the securities in the future at the same price plus a stated rate of interest. The market value of the securities underlying reverse repurchase agreements exceeds the cash received, providing the counterparty a margin against a decline in the market value of the securities. If the counterparty defaults on their obligation to sell these securities back to SWIB or provide cash of equal value, SWIB could suffer an economic loss equal to the difference between the market value of the underlying securities plus accrued interest and the agreement obligation, including accrued interest.

SWIB enters into reverse repurchase agreements with various counterparties, and such transactions are governed by Master Repurchase Agreements. Master Repurchase Agreements are negotiated contracts and contain terms in which SWIB seeks to minimize counterparty credit risk. SWIB also controls credit exposures by limiting trades with any one counterparty to stipulated amounts. The counterparty credit exposure is managed through the transfer of margin, in the form of cash or securities, between SWIB and the counterparty. The Retirement Funds' counterparty credit exposure for reverse repurchase agreements as of December 31, 2022 is summarized in the table entitled Reverse Repurchase Agreements, Counterparty Credit Exposure.

**Retirement Funds  
Reverse Repurchase Agreements Counterparty Credit Exposure  
As of December 31, 2022**  
(In Thousands)

Fair Value of Collateral Held by Counterparty	\$ 18,096,460
Less:	
Cash due to Counterparty	17,689,748
Collateral and Interest due to Counterparty	<u>50,277</u>
Total due to Counterparty	<u>17,740,025</u>
Net Counterparty Credit Exposure	<u>\$ 356,435</u>

The cash proceeds from reverse repurchase agreements are reinvested by the Retirement Funds. The maturities of the purchases made with the proceeds of reverse repurchase agreements are not necessarily matched to the maturities of the agreements. The agreed upon yields earned by the counterparty for the reverse repurchase agreements held were between 4.1% and 4.5% as of December 31, 2022. Portfolio guidelines require agreements to mature between one and 90 days.

The cash due to counterparties resulting from reverse repurchase agreements is reported as "Obligation Under Reverse Repurchase Agreements" and the interest due to counterparties is included in "Investment Payables" in the Statement of Fiduciary Net Position.

### » Custodial Credit Risk

SWIB's custodial credit risk policy addresses the primary risks associated with safekeeping and custody. It requires that SWIB's custodial institution be selected through a competitive bid process and that the institution be designated a Systemically Important Financial Institution (SIFI) by the U.S. Federal Reserve. The policy also requires that SWIB be reflected as beneficial owner on all securities entrusted to the custodian and that SWIB have access to safekeeping and custody accounts. The custodian is also required to carry insurance covering errors and omissions, and they must provide SWIB with an annual report on internal controls, prepared in accordance with the Statement on Standards for Attestation Engagements. In addition, SWIB management has established a system of controls for the oversight of services and related processes performed by the custodian. SWIB's current custodial bank was selected in accordance with these guidelines and meets all the requirements stipulated in the custodial credit risk policy.

*Deposits* - Custodial credit risk related to deposits is the risk that, in the event of the failure of a depository financial institution, SWIB will not be able to recover deposits that are in possession of an outside party. Cash deposits totaled \$400.1 million as of December 31, 2022. Of the total, \$92.4 million was collateralized by securities borrowed. The remaining deposits, totaling \$310.5 million, were uninsured and uncollateralized. These uninsured deposits represent the U.S. dollar equivalent of balances held in foreign currencies in SWIB's custodian's nominee name, cash posted as collateral for derivative transactions, and cash collateral posted in excess of the market value of securities borrowed by SWIB for short sales. In addition to cash deposits, the Retirement Funds held \$20.0 million in time deposits as of December 31, 2022.

*Investments* - Custodial credit risk for investments is the risk that, in the event of failure of the counterparty to a transaction, SWIB will not be able to recover the value of investments that are in the possession of an outside party. The Retirement Funds held repurchase agreements totaling \$1.6 billion as of December 31, 2022. These repurchase agreements were tri-party agreements held in a short-term cash management portfolio managed by SWIB's custodian. The underlying securities for these agreements were held by the tri-party agent, not in SWIB's name.

The Core Trust Fund holds committed repos with a major equity derivative clearing organization (counterparty) for an agreed upon commitment amount, from which the counterparty can fully or partially draw upon at their discretion during the commitment period. A separate account is established at the asset custodian in SWIB's name to hold the available cash and the collateral from the counterparty if any of the commitment amount is drawn. For the undrawn commitment amount, the counterparty pays SWIB a commitment fee. Any cash amounts drawn are structured as repo transactions where SWIB receives a fee and U.S. Treasuries as collateral with a margin percentage greater than 100%. Draws are limited to a maximum of 30 days, and accordingly the term of each repo transaction is also limited to 30 days. The counterparty is rated AA+ and is a Systematically Important Financial Market Utility. Collateral is marked to market daily. A separate financial services company acts as SWIB's agent and provides indemnification in the event of the counterparty's default.

## FINANCIAL SECTION

SWIB holds Institutional Client Account Agreements with prime brokers. These agreements include, but are not limited to the execution, settlement, and clearance of securities, commodities, and other financial products and transactions, including borrowings related to the transactions, commodities, other financial assets, and the extension of credit to SWIB. The Account Agreement is treated as a master netting agreement, a securities contract within the meaning of the United States Bankruptcy Code, or a netting contract within the meaning of the Federal Deposit Insurance Corporation Improvement Act of 1991.

SWIB manages relationships with prime brokers, including instructing asset transfers and margin movements regarding collateral. Collateral is held by the prime brokers and any affiliated entity, and is commingled in their accounts along with the right of rehypothecation in accordance with applicable law. Collateral consists of cash, treasuries, and securities subject to prime broker rules and standard terms. Separate agreements govern lock-up rates and fees for borrows, as well as lending and other fees, as applicable. Margin calculation is included in the lock-up terms and rates charged may vary by portfolio. Certain changes can only be made with advance notice based on a lock-up term of 29 days. The prime brokers are designated a SIFI. Although SWIB monitors these counterparties, there is no guarantee the counterparty will not become insolvent and there is no certainty that SWIB would not incur losses due to its assets being unavailable for a period of time, ultimately receiving less than a full recovery of its assets, or both.

### » Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an organization's investment in a single issuer. SWIB limits concentrations of credit risk by establishing investment guidelines for individual portfolios or groups of portfolios that generally restrict issuer concentrations in any one company or Rule 144A securities to less than 5% of the portfolio's market value. The Retirement Funds did not hold any investments with a single issuer, exclusive of investments issued or explicitly guaranteed by the U.S. government, representing 5% or more of the Retirement Funds' value as of December 31, 2022.

### » Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. SWIB uses several methods to manage interest rate risk. Fixed income instruments held by the Retirement Funds include investments with variable rate securities, stepped rate securities, securities with no coupon, such as discount notes, and coupons that range between 0.0% and 13.0% as of December 31, 2022.

SWIB analyzes long and intermediate term portfolios' interest rate risk using various duration calculations. Modified duration, which is stated in years, is the measure of price sensitivity of a fixed income security to an interest rate change of 100 basis points. The calculation is based on the weighted average of the present values for all cash flows. Some investments are analyzed using an option-adjusted duration calculation which is similar to the modified duration method. Option-adjusted duration incorporates the duration-shortening effect of any embedded call provisions in the securities. Duration statistics are weighted by the dollar value of the position to compute an average duration for each investment type.

Short-term portfolios' interest rate risk is analyzed using the weighted average maturity to next reset. Weighted average maturity is the maturity of each position in a portfolio weighted by the dollar value of the position to compute an average maturity for the portfolio as a whole. This measure indicates a portfolio's sensitivity to interest rate changes: a longer weighted average maturity implies greater volatility in response to interest rate changes.

SWIB's investment guidelines related to interest rate risk vary by portfolio. Some fixed income portfolios require management within a range of a targeted duration, while others require a weighted average maturity at or below a specified number of days or years.

The Interest Rate Sensitivity by Investment Type table below presents the aggregated interest rate exposure for the Retirement Funds' assets as of December 31, 2022. Weighted average maturity, where reset dates are assumed to be the effective maturity date for the security, is presented for repurchase agreements and short-term pooled investments. Longer-term instruments held by the Retirement Funds are presented using modified duration, as this measure more accurately states the interest rate sensitivity of these investments. This duration measure is calculated using reset dates for some floating rate instruments, such as term loans. Information about the interest rate sensitivity of derivative contracts is discussed later in this note.

SWIB invests in securities with contractual cash flows, such as asset-backed securities, leveraged loans, and U.S. government agencies. These types of structured product investments may be highly sensitive to interest rate changes, as they may be subject to early payment in a period of declining interest rates. The resulting changes in timing, or possible reduction in expected total cash flows, affect the fair value of these securities.

## FINANCIAL SECTION

**» Foreign Currency Risk**

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. It includes the risk that currencies in which a portfolio's investments are denominated and currencies in which a portfolio has taken on a long or short active position will decline or appreciate in value relative to the U.S. dollar.

Foreign currency exchange rates may fluctuate significantly for a number of reasons, including the forces of supply and demand in the foreign exchange markets, actual or perceived changes in interest rates, intervention by U.S. or foreign governments or central banks, currency controls, or political developments in the U.S. or abroad.

SWIB's policies include foreign currency risk management objectives relating to each individual portfolio. These guidelines address the foreign currency management activities permitted for each portfolio based on the portfolio mandates, risk tolerances, and objectives. SWIB also employs discretionary currency overlay strategies at the total fund level when currency market conditions suggest such strategies are warranted. Additional information related to the management of foreign currencies through the use of derivative instruments is discussed later in this note.

The table entitled Currency Exposures by Investment Type presents the Retirement Fund investments which were exposed to foreign currency risk as of December 31, 2022.

<sup>1</sup> Commingled funds (including limited partnerships and other pooled vehicles) represent investments where the Retirement Funds own only a portion of the overall fund. While the overall fund may be denominated in U.S. dollars, the underlying investments may be exposed to foreign currency risk in various currencies. Commingled funds are shown in the denomination used by the fund for financial reporting.

<sup>2</sup> Short Sell Obligations are reported as liabilities in the Statement of Fiduciary Net Position. They are included in the above table because they have exposure to foreign currency risk.

<sup>3</sup> Investment types holding instruments denominated only in U.S. Dollars are not included in the above table. At calendar year-end, these include: Convertible Securities, Fixed Income Short Sales, Multi Asset Investments, To Be Announced Securities, Options Contracts, Swaps, and Obligation Under Reverse Repurchase Agreements.

<sup>4</sup> Totals may not add due to rounding.

## FINANCIAL SECTION

**» Fair Value of Investments**

Fair value measurements of the investments held by the WRS are categorized by the hierarchy established by generally accepted accounting principles. The hierarchy, which has three levels, is based on the valuation inputs used to measure the fair value of the investment.

*Level 1* - Investments reflect unadjusted quoted prices in active markets for identical assets.

*Level 2* - Investments reflect prices that are based on inputs that are either directly or indirectly observable for an asset (including quoted prices for similar assets), which may include inputs in markets that are not considered to be active.

*Level 3* - Investments reflect prices based upon valuation techniques in which significant inputs or significant value drivers are unobservable.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3. When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to fair value. The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and does not represent the investment's overall risk.

Commingled investments are not categorized under the fair value hierarchy but are disclosed within this note as investments measured at NAV.

The fair value measurements of investments as of December 31, 2022 are found in the table entitled Investments by Fair Value Level.

## FINANCIAL SECTION

Securities classified as Level 1 are generally valued at the official closing price (usually the last trade price). Such investments generally include exchange-traded securities such as equities, preferred stock, certain derivative instruments, and exchange-traded funds. U.S. Treasury Bills and only the most recently-issued U.S. Treasury Notes and Bonds are classified as Level 1, as available pricing for these securities is similarly reliable to exchange-traded securities.

Securities classified as Level 2 are valued using observable inputs provided by third-party pricing services generally using either a bid evaluation or a matrix-pricing technique. Bid evaluations may include market quotations that are based on yields, maturities, call features, and ratings. Matrix-pricing is used to value securities based on their relationship to benchmark market prices for securities with similar interest rates, maturities, and credit ratings. Pricing in this level may also include market approaches that incorporate benchmark interest rates. Debt securities comprise the majority of the Level 2 investments as they are generally traded using a dealer market, with lower trading volumes than Level 1 securities. OTC derivative instruments, such as swaps, To Be Announced Securities (TBAs), and foreign exchange contracts, are also included in Level 2 because they are priced using a market approach that considers benchmark interest rates and foreign exchange rates.

Level 3 investments are generally valued using significant inputs that are unobservable to the marketplace. This may occur if an investment is illiquid or its value is based on estimates. Asset Backed Securities included in Level 3 represent private placements that are valued at purchase price when third-party valuations are unavailable. Equities, convertibles, and preferred securities included in the Level 3 hierarchy are generally privately held securities valued using valuation models such as price multiples incorporating comparable public companies, discounted cash flows and milestone valuation models. In some instances of privately held preferred securities, fair value is determined based on recent financing rounds. Bank loans, which are included in corporate bonds and private placements within the Level 3 category, are priced by vendors using proprietary models which may incorporate unobservable inputs. Cash and Cash Equivalents included in Level 3 represent securities priced at cost. Typically, due to their short-term nature, cost approximates fair value for these investments. Other factors such as infrequent trading, an inactive market, or adjusted quoted prices may also result in Level 3 measurements.

**» Investments Measured at NAV**

The fair value of investments in certain cash funds, fixed income funds, equities, private fund investments, equity limited partnerships, and hedge funds are based on the investments' NAV per share (or its equivalent) provided by the investment manager. The December 31, 2022 investments valued using NAV are shown in the table entitled Investments Measured at NAV.

**Retirement Funds  
Investments Measured at NAV  
As of December 31, 2022  
(In Thousands)**

Investments Measured at NAV	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period <sup>8</sup>
Cash and Cash Equivalents <sup>1</sup>	\$ 3,513,674	\$ 0	Daily	Same Day
Fixed Income <sup>2</sup>	1,873,447	0	Daily, Monthly	5-30 days
Fixed Income Limited Partnerships <sup>3</sup>	511,007	0	Monthly	45 days
Private Fund Investments <sup>4</sup>	31,718,665	13,872,934	N/A	N/A
Equities <sup>5</sup>	11,421,223	0	Daily, Monthly, Quarterly	2-50 days
Equity Limited Partnerships <sup>6</sup>	1,733,102	0	Monthly	5-15 days
Hedge Funds <sup>7</sup>	7,682,286	787,235	Various	Various
<b>Total</b>	<b>\$ 58,453,404</b>	<b>\$ 14,660,169</b>		

<sup>1</sup>This category consists of short-term cash funds with the investment objective of safety of principal and liquidity while earning a competitive money market rate of return. The short-term cash funds have daily liquidity with same day notice.

<sup>2</sup>This category includes fixed income managers which can invest across the credit quality spectrum, in varying geographies. The external asset managers require a redemption notice period of between 5 to 30 days, and the funds have daily and monthly liquidity.

<sup>3</sup>The Fixed Income Limited Partnership fund invests in Leveraged Loans. The manager requires a redemption notice period of 45 days and assets can be redeemed monthly.

<sup>4</sup>Private Fund Investments include direct, co-investments, LLCs with existing SWIB general partners, direct secondary investments, and fund of funds. These investments are illiquid and are generally not resold or redeemed. Distributions from each fund are received as the underlying investments are liquidated or over the life of the investment. The table entitled Limited Partnerships - Estimated Remaining Life provides an estimate of the period over which the underlying assets are expected to be liquidated. As of December 31, 2022, there are four partial and full redemption sales planned in 2023 on the secondary market. The anticipated sale price of this fund is not expected to be materially different than the NAV as of December 31, 2022.

<sup>5</sup>This category includes long-only equity managers (88%) with various fundamental, quantitative, and other approaches spanning various styles, geographies, and market cap weights. These long-only manager investments can be redeemed either daily, monthly, or quarterly with between 2 and 50 business days' notice. The remaining 12% of this category represents emerging markets equity index funds with an investment strategy designed to track the return of the given segment of the emerging equity markets. These investments can be redeemed daily with 2 business days' notice.

<sup>6</sup>Equity Limited Partnership funds invest in U.S. and global equity. The external asset managers require a redemption notice period between 5 to 15 days and can be redeemed monthly. These investments represent open-ended funds that are readily redeemable.

<sup>7</sup>Hedge Fund investments are private investment funds that seek to produce absolute returns using a broad range of strategies. In certain instances, Hedge Fund investments are structured as limited partnerships, whereby participants receive distributions over the life of the fund. The estimated remaining life for some funds structured as limited partnerships are either between 5-10 years or greater than 10 years. Additional information relating to Hedge Funds can be found later in this note.

<sup>8</sup>Redemption terms described for NAV investments reflect contractual agreements and assume withdrawals are made without adverse market impact and under normal market conditions.

---

**FINANCIAL SECTION****» Private Fund Investments**

Private Fund Investments include private equity and real estate.

Private Equity Limited Partnerships included the following investment strategies as of December 31, 2022:

*Leveraged Buyout* - This strategy acquires the controlling interest of a private company using a significant amount of borrowed capital (leverage).

*Distressed Debt* - This strategy can invest in public and private companies undergoing financial distress, a turnaround in business operations, or which are believed to be undervalued because of a discrete extraordinary event.

*Growth Equity* - This strategy is an investment opportunity in relatively mature companies that are going through a transformational event in their lifecycle with potential for significant growth.

*Venture Capital* - This strategy invests in companies with potential for significant growth (generally small to early stage emerging firms).

*Private Debt* - This strategy includes any debt held by or extended to privately held companies. The debt securities can be senior debt, mezzanine debt, and structured capital but commonly involve non-bank institutions making loans to private companies or buying those loans on the secondary market.

*Secondaries* - This strategy provides a market for investors to sell or purchase positions in private markets funds.

Real Estate limited partnerships generally consisted of the following investment strategies as of December 31, 2022:

*Core* - Core investments are expected to deliver a significant percentage of their return from income and should experience lower volatility than Opportunistic and Value investments due to lower leverage, higher occupancy, and asset location.

*Value* - Value investments typically have significant near-term leasing, repositioning, and/or renovation risk. This strategy is expected to have modest initial operating revenues with potential for substantial income growth and will likely encounter greater volatility than Core strategies, but lower volatility than Opportunistic strategies.

*Opportunistic* - Opportunistic investments usually have significant development, lease-up, financial restructuring, and/or liquidity risk with little or no initial operating income. This strategy typically uses the highest leverage, is expected to achieve most of its return from future capital gains, and is likely to encounter greater volatility than Core and Value strategies.

Private equity and real estate limited partnerships are generally structured to provide distributions to participants of the fund as the holdings of the partnership are liquidated over time. The table entitled Limited Partnerships - Estimated Remaining Life illustrates the distribution of estimated remaining liquidation periods for the limited partnership holdings as of December 31, 2022.

**Retirement Funds**  
**Limited Partnerships - Estimated Remaining Life**  
**As of December 31, 2022**  
 (In Thousands)

Limited Partnership Type	Estimated Remaining Life				Total
	< 5 Years	5 - 10 Years	> 10 Years	N/A <sup>2</sup>	
Private Fund Investments <sup>1</sup>	\$ 10,026,300	\$ 16,775,059	\$ 2,975,421	\$ 1,941,885	\$ 31,718,665
Equity Limited Partnerships	0	0	0	1,733,102	1,733,102
Fixed Income Limited Partnership	0	0	0	511,007	511,007
<b>Total</b>	<b>\$ 10,026,300</b>	<b>\$ 16,775,059</b>	<b>\$ 2,975,421</b>	<b>\$ 4,185,994</b>	<b>\$ 33,962,774</b>

<sup>1</sup> Estimated remaining life represents subjective estimates, assuming normal market conditions.

<sup>2</sup> N/A investments represent open-ended funds that are readily redeemable.

### » Hedge Funds

Hedge Fund investments are private investment funds that seek to produce absolute returns using a broad range of strategies. The Retirement Funds participated in the following Hedge Fund strategies as of December 31, 2022:

*Long/Short Equity* - This strategy invests both long and short in publicly-traded stocks. These managers vary in their use of short selling and leverage.

*Event-Driven* - This strategy seeks to gain an advantage from pricing inefficiencies that may occur before or after a corporate action or related event, such as a merger, spinoff, earnings call, bankruptcy, or restructuring.

*Tactical Trading* - This strategy invests in indices, commodities, interest rate instruments, and currencies as a result of relative value or directional forecasts from a systematic or discretionary approach.

*Relative Value* - This strategy uses a range of fixed income arbitrage, insurance linked, long-short credit, and/or quantitative strategies that seek to take advantage of price differentials.

*Multistrategy* - This strategy employs a wide range of strategies and instruments in managing assets.

*Special Opportunities* - This strategy seeks to invest in special situations, which may include co-investments or interests in the equity or revenues of external investment managers.

When redeeming Hedge Fund investments, the agreements governing the investment often require advanced notice and may restrict the timing of withdrawals. The table entitled Hedge Fund Redemption Timing depicts redemption terms, independent of other contractual restrictions like lock-up periods as discussed below, for SWIB's Hedge Fund investments as of December 31, 2022.

## FINANCIAL SECTION

**Retirement Funds  
Hedge Fund Redemption Timing  
As of December 31, 2022**

<b>Redemption Frequency</b>	<b>Redemption Notice Period (Days)</b>	<b>Fair Value (In Thousands)</b>
Monthly	30 - 92	\$ 2,097,563
Quarterly <sup>1,3,4</sup>	30 - 180	3,688,196
Semi - Annual	30 - 60	679,953
Other <sup>1,2,4</sup>	0 - 90, N/A	1,216,574
<b>Total</b>		<b>\$ 7,682,286</b>

<sup>1</sup> Includes one or more funds that are in the process of being fully redeemed, with final distribution expected in 2023.

<sup>2</sup> Includes one or more funds that are structured as limited partnerships, whereby withdrawals are not permitted, but the participants receive distributions over the life of the fund.

<sup>3</sup> Includes one or more funds that have a funding date of January 1st, 2023. SWIB was contractually obligated to wire funds to the fund manager prior to the funding date.

<sup>4</sup> Includes one or more funds that are subject to rolling locks, whereby the fund automatically re-locks unless a withdrawal request is submitted.

Hedge Fund agreements can also include lock-up periods, which restrict investors from redeeming their investment during a specified time frame. Lock-up periods help portfolio managers mitigate liquidity risks. Lock-ups can be hard, where redemptions are not permitted for a specified time period, or soft, where redemptions are permitted provided the investor pays a penalty. In certain instances, a fund may have both hard and soft lock-up restrictions. In addition, in certain investments, Hedge Fund managers may be allowed to institute a rolling lock-up. A fund with a rolling lock-up period requires investors to commit to an initial lock-up period, and, if the investor does not submit a redemption notice within a set time prior to expiration of the lock-up, the lock-up is reset.

The table entitled Hedge Fund Lock-ups reflects the lock-up terms for the Hedge Fund investments held as of December 31, 2022.

**Retirement Funds  
Hedge Fund Lock-ups  
As of December 31, 2022**

Hedge Fund Lock Type	Duration of Lock (Years)	Year of Lock Expiration	Fair Value (In Thousands)
Hard Lock <sup>3</sup>	1 - 3	2023 - 2024	\$ 821,368
Rolling Lock	1 - 3	2023 - 2025	334,646
Soft	1	2023	426,706
None <sup>1</sup>	N/A	N/A	5,172,446
Other <sup>2</sup>	N/A	N/A	927,120
Total			<u>\$ 7,682,286</u>

<sup>1</sup> Includes one or more funds that are in the process of being fully redeemed, with final distribution expected in 2023.

<sup>2</sup> Includes one or more funds that are structured as limited partnerships, whereby withdrawals are not permitted but the participants receive distributions over the life of the fund.

<sup>3</sup> Includes one or more funds that have a funding date of January 1st, 2023. SWIB was contractually obligated to wire funds to the fund manager prior to the funding date.

Similar to lock-ups, Hedge Fund agreements also commonly incorporate gating restrictions. An investor-level gate limits redemption on a particular redemption date to a specified percentage of the investor's account value, while a fund-level gate may limit total investor withdrawals on a particular redemption date to a percentage of aggregated fund-level (or master fund-level) NAV. In certain instances, funds can have both investor and fund-level gates in place. Such funds are reflected in the Investor Level category. The table entitled Hedge Fund Gates summarizes the Hedge Fund gates in place as of December 31, 2022.

**Retirement Funds  
Hedge Fund Gates  
As of December 31, 2022  
(In Thousands)**

Hedge Fund Gate Type	Gate Range	Fair Value
Investor Level	12.5% - 50.0%	\$ 3,387,031
Fund Level <sup>1,3</sup>	8.3% - 25.0%	780,457
None	N/A	2,461,024
Other <sup>2</sup>	N/A	1,053,774
Total		<u>\$ 7,682,286</u>

<sup>1</sup> Includes one or more funds that are in the process of being fully redeemed, with final distribution expected in 2023.

<sup>2</sup> Includes one or more funds that are structured as limited partnerships, whereby withdrawals are not permitted but the participants receive distributions over the life of the fund.

<sup>3</sup> Includes one or more funds that have a funding date of January 1st, 2023. SWIB was contractually obligated to wire funds to the fund manager prior to the funding date.

## FINANCIAL SECTION

**» Derivative Instruments**

A derivative instrument, as defined by GASB Statement No. 53 "Accounting and Financial Reporting for Derivative Instruments," is a financial instrument or other contract that has the following characteristics:

- *Settlement factors* - It has (1) one or more reference rates and (2) one or more notional amounts or payment provisions or both. Those terms determine the amount of the settlement or settlements and, in some cases, whether or not a settlement is required.
- *Leverage* - It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts expected to have a similar response to changes in market factors.
- *Net settlement* - Its terms require or permit net settlement, it can readily be settled net by a means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

Derivative instruments may be used to implement investment strategies for the Retirement Funds. All derivative instruments are subjected to risk analysis and monitoring processes at the portfolio, asset class, and fund levels. Investment guidelines define allowable derivative activity for each portfolio and are based on the investment objectives approved by the Board. Where derivative instruments are permitted, guidelines stipulate allowable types and the manner and degree to which they are to be used.

Gains and losses for all derivative instruments are reported in the Statement of Changes in Fiduciary Net Position as "Net Increase (Decrease) in Fair Value of Investments." SWIB invests in derivative instruments directly and indirectly through commingled or pooled investment vehicles. Information relating to investments held in commingled funds is not separately disclosed in the financial statements or the accompanying footnotes, consistent with GASB reporting requirements.

A derivative instrument can take the form of an individually negotiated contract between the Retirement Funds and a specific counterparty. These types of negotiated positions are known as OTC contracts and can be structured as either uncleared or cleared.

Uncleared OTC contracts are non-standardized bilateral contracts that do not include the use of a centralized intermediary, such as a clearinghouse. Uncleared OTC transactions are subject to regulatory requirements with respect to data reporting and recordkeeping, trading relationship documentation, business conduct standards, portfolio reconciliation, and margin collection and posting. For these transactions, master netting agreements and credit support annexes governing the credit relationship and collateral exchange between two parties are put in place to mitigate counterparty credit risk.

Cleared OTC contracts offer additional protections to trade participants. These types of transactions employ the use of an intermediary between counterparties. The intermediary, known as a clearinghouse, serves to facilitate trading and mitigate risks. While not completely standardized, these contracts involve a high degree of standardization. Once cleared, the clearinghouse steps in as the counterparty to all trades. Regulatory bodies govern the tools and procedures for risk mitigation such as margin requirements and daily mark to market.

In addition to trading OTC, derivative contracts can also be transacted on established exchanges. These are called exchange-traded contracts and are completely standardized. Like cleared OTC contracts, the clearinghouse is an intermediary to the trade, reducing risks and standardizing the exchange of margin.

The table entitled Derivative Contract Types summarizes the differences between OTC and exchange-traded contracts.

<b>Retirement Funds Derivative Contract Types</b>		
<b>Uncleared (OTC)</b>	<b>Cleared (OTC)</b>	<b>Exchange-Traded</b>
Trades negotiated OTC	Trades negotiated OTC	Trades executed on organized exchanges
Customized trade terms are agreed upon by counterparties	Trades limited to standardized terms	Trades limited to standardized terms
Traded bilaterally between counterparties	Trades are submitted through a clearinghouse, which is counterparty	Trades are booked with exchange's clearinghouse, which is counterparty
Margin (collateral) often exchanged but subject to negotiation between counterparties.	Mandatory margin requirements	Mandatory margin requirements
Common example: Forward Contracts	Common example: Credit Default Swaps	Common example: Futures Contracts

Collateral postings are commonplace for derivative contracts and vary based on the type of contract traded. SWIB posted \$356.2 million in cash and \$827.8 million in securities as collateral for derivative positions as of December 31, 2022. More information regarding collateral requirements is included below.

### **Uncleared OTC Derivative Instruments**

Inherent in the use of uncleared OTC derivative instruments, the Retirement Funds may be exposed to counterparty credit risk. Counterparty credit risk is the risk that a derivative instrument counterparty may fail to meet its payment obligations under the terms of the derivative contract. SWIB seeks to mitigate this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. Additionally, policies have been established which seek to implement master netting arrangements with counterparties that permit the closeout and netting of transactions with the same counterparty upon the occurrence of certain events, such as payment default, rating downgrade, bankruptcy, illegality, or force majeure. Agreements may also require daily collateral postings to further mitigate credit risk.

The table entitled OTC Derivative Instruments Subject to Counterparty Credit Risk summarizes, by credit rating, the Retirement Funds' exposure to counterparty credit risk relating to uncleared OTC contracts as of December 31, 2022, without respect to any collateral or netting agreement.

## FINANCIAL SECTION

**Retirement Funds**  
**OTC Derivative Instruments Subject to Counterparty Credit Risk**  
**As of December 31, 2022**  
(In Thousands)

<b>Counterparty Credit Rating</b>	<b>FX Receivables</b>	<b>Swap Receivables</b>	<b>To Be Announced Receivables<sup>1</sup></b>	<b>Warrant Receivables<sup>1,2</sup></b>	<b>Total<sup>3</sup></b>

Not Rated	0	0	0	91	91
Total	<u>\$ 3,605,497</u>	<u>\$ 6,356,482</u>	<u>\$ 1,599</u>	<u>\$ 91</u>	<u>\$ 9,963,669</u>

<sup>1</sup>Exposure to counterparty credit risk for To Be Announced Securities and Warrants is limited to unrealized gains on open positions.

<sup>2</sup>Warrants issued by privately held company that is not rated by statistical credit rating organization.

<sup>3</sup>Aggregate amount of liabilities included in master netting arrangements was \$9.7 billion as of December 31, 2022.

The aggregate fair value of receivables relating to uncleared OTC derivative contracts was \$10.0 billion as of December 31, 2022. This amount represents the maximum loss that would be recognized at the reporting date if all counterparties failed to perform as contracted. This maximum exposure is reduced to \$460.7 million as of December 31, 2022 when counterparty collateral and master netting arrangements are considered. SWIB had credit exposure to 27 uncleared OTC counterparties as of December 31, 2022.

### Cleared OTC and Exchange-Traded Derivatives

Counterparty credit risk is mitigated by an intermediary for cleared OTC and exchange-traded derivative contracts. For these types of derivative investments, a clearinghouse interposes itself as counterparty to all trades and extends a guarantee that trades will be settled as originally intended and to ensure performance and margin requirements are imposed. The requirements are established with the intent to cover nearly all expected price changes based on market risk. Margin payments are settled daily based upon the price movements of the contracts, thereby significantly reducing counterparty credit risk.

### » Foreign Currency Spot and Forward Contracts

Foreign Currency Spot and Forward contracts are uncleared OTC agreements between two parties to exchange designated currencies at a specific time in the future. No cash is exchanged when a foreign exchange spot or forward contract is initiated. Depending upon market movements, forward contracts may require collateral postings either to SWIB or to counterparties. Spot contracts are exempt from collateralization. For deliverable contracts, amounts due are paid or received on the contracted settlement date. In other instances (most often in emerging markets), contracts are established as non-deliverable forwards (NDFs). Unlike deliverable contracts, NDFs are only settled in U.S. dollars.

Currency exposure management is permitted through the use of currency derivative instruments. Direct hedging of currency exposure back to the U.S. dollar is permitted when consistent with the strategy of the portfolio. Cross-currency exposure management seeking to transfer out of an exposed currency and into a benchmark currency is also permitted. SWIB may employ discretionary currency overlay strategies when currency market conditions suggest such strategies are warranted.

Losses may arise from future changes in the value of the underlying currency, or if the counterparties do not perform under the terms of the contract. Spot and forward contracts are valued daily with the changes in fair value included in "Net Increase (Decrease) in Fair Value of Investments" in the Statement of Changes in Fiduciary Net Position. The net receivable or payable for spot and forward contracts is reflected as "Foreign Currency Contracts" in the Statement of Fiduciary Net Position. The tables entitled Foreign Currency Spot and

Forward Contracts present the fair value of foreign currency spot and forward contract assets and liabilities held by the Retirement Funds as of December 31, 2022.

**» Futures Contracts**

A futures contract is an exchange-traded agreement to buy or sell a financial instrument, index, or commodity at an agreed upon price and specified date in the future.

The fair value of futures contracts represents the unrealized gain (loss) on the contracts, since trade inception, and is reflected as “Financial Futures Contracts” in the Statement of Fiduciary Net Position. Futures contracts are marked to market daily, based upon the closing market price of the contract at the board of trade or exchange on which they are traded. Gains and losses resulting from investments in futures contracts are included in the “Net Increase (Decrease) in Fair Value of Investments” in the Statement of Changes in Fiduciary Net Position.

Futures contracts involve, to varying degrees, risk of loss in excess of the margin deposited with the clearinghouse. Losses may arise from future changes in the value of the underlying instrument. Futures contracts may be entered into for purposes such as the following:

- To efficiently gain or adjust market exposures for rebalancing;
- To adjust sector, interest rate, or duration exposures; and
- To securitize cash or act as a substitute for cash market transactions.

The table entitled Futures Contracts presents the Retirement Funds investments in futures contracts as of December 31, 2022.

<b>Retirement Funds Futures Contracts As of December 31, 2022 (In Thousands)</b>				
<b>Futures Contract Description</b>	<b>Position</b>	<b>Expiration</b>	<b>Notional Amount</b>	<b>Fair Value*</b>

	Short	Mar 23	(1,061,081)	16,081
Interest Rate	Short	Dec 23	(297,691)	579
<b>Total</b>			<b>\$ 4,084,917</b>	<b>\$ (3,065)</b>

\* Fair Value includes foreign currency gains (losses).

The table entitled Futures Contracts with Interest Rate Sensitivity presents the interest rate sensitivity of fixed income futures contracts as of December 31, 2022. Duration, which is stated in years, is the measure of price sensitivity of a fixed income security to an interest rate change of 100 basis points. Duration statistics presented in this table are weighted by the notional value of each position to compute an average duration for the contract types held.

» **Options**

An options contract gives the purchaser of the contract the right, but not the obligation, to buy (call) or sell (put) the security or index underlying the contract at an agreed upon price on or before the expiration date of the contract. The seller of the contract is subject to market risk, while the purchaser is subject to credit risk and market risk, to the extent of the premium paid to enter into the contract.

Trust fund rebalancing policies and certain portfolio investment guidelines permit the use of exchange-traded and OTC options. Investment guidelines allow options to be used to improve market exposure efficiency, enhance expected returns, or provide market exposure hedges. Exchange rules require that the seller of short exchange-traded option contracts cover these positions either by collateral deposits in the form of cash or by pledging, in escrow, the actual securities that would be transferred to the contract purchaser in the event the options contract was exercised. In the case of OTC options, investment guidelines mitigate counterparty credit risk by establishing minimum credit ratings and requiring master netting agreements with provisions for collateral exchanges.

The fair value of option contracts is based upon the closing market price of the contract and is reflected as "Options Contracts" in the Statement of Fiduciary Net Position. Gains and losses as a result of investments in option contracts are included in the "Net Increase (Decrease) in Fair Value of Investments" in the Statement of Changes in Fiduciary Net Position. The table entitled Options Contracts presents the fair value of option contracts as of December 31, 2022.

**» Swaps**

Swaps are negotiated contractual agreements between two parties which can be either cleared or uncleared OTC investments. As specified in SWIB's investment guidelines, swaps may be used as an alternative to physical securities when it is deemed advantageous for portfolio construction. In addition, swaps may be used to adjust asset class exposures for the Retirement Funds. Guideline limits and soft risk parameters for each portfolio are applied to the aggregate exposures which includes both physical and synthetic securities. A synthetic security is a security or combination of securities that mirrors the properties of another reference security.

Throughout the calendar year, the Retirement Funds held positions in Total Return Swaps (TRS), Interest Rate Swaps (IRS), and Credit Default Swaps (CDS). The table entitled Open Swap Positions lists the open swap contracts held as of December 31, 2022.

<sup>1</sup> SWIB sold credit protection in exchange for periodic payments.

<sup>2</sup> SWIB bought credit protection in exchange for periodic payments.

<sup>3</sup> Denotes instrument is highly sensitive to interest rate changes.

Open CDS contracts represent cleared OTC positions where SWIB gains exposure to credit protection. Under the terms of the contract, SWIB receives or pays periodic payments and, in exchange, agrees to pay or receive a formula-driven amount to counterparties for losses incurred if stipulated credit events occur. CDS spreads are sensitive to credit spread and interest rate changes. The fair value of a CDS is determined using the closing price as reported by the applicable clearinghouse.

IRS positions represent cleared OTC contracts where fair value is determined using the closing price as reported by the applicable clearinghouse. IRS positions are sensitive to changes in interest rates. One stream of future interest payments is exchanged for another between counterparties. In most cases, interest rate swaps include the exchange of a fixed interest rate for a floating rate.

The open TRS contracts represent uncleared OTC positions where SWIB gains exposure to the return of the underlying equity index and, in exchange, agrees to pay or receive the stipulated rate benchmark, plus or minus a spread. The rate benchmark is based on the 1-day Fed Funds Rate set by the Federal Open Market Committee (FOMC), or the 1-day U.S. Secured Overnight Financing Rate (SOFR) published by the Federal Reserve of New York and is sensitive to interest rate changes. The fair value of a TRS is based on the change in quoted market price of the underlying equity index and represents the unrealized gain (loss) on the contracts since trade inception.

The fair value of CDS, IRS, and TRS is reflected as "Swaps" in the Statement of Fiduciary Net Position. Gains and losses resulting from investments in swap contracts are included in the "Net Increase (Decrease) in Fair Value of Investments" in the Statement of Changes in Fiduciary Net Position. Any interest owed but not yet paid relating to swap contracts is reported within "Investment Payables" in the Statement of Fiduciary Net Position. Interest expense relating to swap contracts is reported as "Investment Expense" in the Statement of Changes in Fiduciary Net Position.

### » *To Be Announced Securities*

TBA mortgage-backed securities are uncleared OTC forward contracts consisting of mortgage-backed securities (MBS) issued by Government National Mortgage Association, a government entity, and by government-sponsored enterprises such as the Federal National Mortgage Association or the Federal Home Loan Mortgage Corp. The term TBA is derived from the fact that the actual MBS that will be delivered to fulfill a TBA trade is not designated at the time the trade is made. Instead, the specific pool of mortgages comprising the MBS is announced 48 hours prior to the established trade settlement date. Eligibility rules and standards for MBS pools deliverable into TBA contracts ensure that delivered MBS pools are fungible. Payment for TBA securities is not made until the settlement date.

Certain portfolio investment guidelines allow for both long and short TBA positions. To mitigate counterparty credit risk, guidelines establish minimum credit ratings and require master netting agreements which include provisions for collateral exchanges.

TBAs, much like their underlying MBS securities, may be highly sensitive to interest rate changes. This is because the MBS pool on which these forward contracts are based can be subject to early payment in a period of declining interest rates. The price of TBAs can fluctuate as the marketplace predicts changes in timing, or possible reductions in expected cash flows, associated with a change in interest rates. The table entitled TBA Contracts includes the interest rate sensitivity of TBA contracts as of December 31, 2022. Duration, which is stated in years, is the measure of price sensitivity of a fixed income security to an interest rate change of 100 basis points. Duration statistics presented in this table are weighted by the fair value of each position to compute an average duration for the contracts held.

## FINANCIAL SECTION

**Retirement Funds  
TBA Contracts  
As of December 31, 2022  
(In Thousands)**

<b>Position</b>	<b>Contract Maturity</b>	<b>Fair Value</b>	<b>Unrealized Gain (Loss)</b>	<b>Weighted Average Duration (Years)</b>
Long	Jan - Mar 23	\$ 1,547,400	\$ (5,748)	6.9
Short	Jan - Feb 23	(284,200)	1,129	7.8
Total		<u>\$ 1,263,200</u>	<u>\$ (4,619)</u>	

The fair value of TBAs is reflected in "To Be Announced Securities" in the Statement of Fiduciary Net Position. The unrealized gain (loss) associated with these contracts is included within the "Net Increase (Decrease) in Fair Value of Investments" in the Statement of Changes in Fiduciary Net Position.

### » *Warrants*

A warrant is a contract that entitles the holder to buy the underlying stock of the issuing company at a specified price. Warrants and options are similar as both allow the holder special rights to buy securities. However, warrants differ from options in that they provide additional financing to the issuing company when exercised. As of December 31, 2022, SWIB held warrant contracts valued at \$0.4 million. Warrants are included in the "Equities" section in the Statement of Fiduciary Net Position. The associated unrealized loss of \$1.3 million is included in the "Net Increase (Decrease) in Fair Value of Investments" in the Statement of Changes in Fiduciary Net Position.

### » *Securities Lending Transactions*

State statutes and Board policies permit SWIB to use investments of the Retirement Funds to enter into securities lending transactions. These transactions involve the lending of securities to broker-dealers and other entities in exchange for collateral, in the form of cash or securities, with the simultaneous agreement to return the collateral for identical securities in the future. SWIB utilizes agents to lend the Retirement Funds' directly held domestic and international securities. When the Retirement Funds' securities are delivered to a borrower as part of a securities lending agreement, the borrower is required to place collateral with the lending agent equal to at least 102% of the loaned securities' fair value, including interest accrued, as of the delivery date, if the securities and the collateral are denominated in the same currency. If securities are loaned against collateral denominated in a different currency, the borrower is required to place collateral with the lending agent totaling at least 105% of the loaned securities' fair value, including interest accrued, as of the delivery date. Collateral is marked to market daily and adjusted as needed to maintain the required minimum level. Pledging or selling non-cash collateral securities cannot be done without a borrower default. On December 31, 2022, the fair value of the securities on loan to counterparties was approximately \$13.6 billion.

Cash collateral is reinvested by the lending agents in either a U.S. dollar cash collateral pool or a pool denominated in Euros. These pools are administered in accordance with contractual investment guidelines which are designed to minimize the risk of principal loss and provide a modest rate of return. Investment guidelines limit credit and liquidity risk by restricting new investments to repurchase agreements collateralized with high quality U.S. government, U.S. government agencies, and sovereign debt securities. To further reduce credit risk, in addition to maintaining collateral greater than 100% of the loaned securities, SWIB's agents provide indemnification to SWIB against counterparty default. The earnings generated from the collateral investments or fees, plus or minus the rebates received from or paid to the dealers and less fees paid

to agents, results in the net earnings from lending activities, which are then split on a percentage basis with the lending agent. Cash from the U.S. dollar pool may be posted as collateral relating to short sale transactions and it earns the Overnight Bank Funding rate plus 10 basis points. Additional information relating to short sales is discussed later in this note. As of December 31, 2022, one of SWIB's securities lending agents released \$3.7 billion in cash from the Invested Securities Lending Collateral pool to SWIB. The cash released is used to provide liquidity for other investment strategies. The Securities Lending Collateral Liability is fully collateralized when the cash released is combined with the Invested Securities Lending Collateral.

As of December 31, 2022, the Retirement Funds had minimal credit risk exposure to borrowers as loans are collateralized in excess of 100%. In addition to the cash collateral reinvestment indemnification, the contracts with the lending agents require indemnification for the Retirement Funds if the borrowers fail to return the loaned securities and the collateral is inadequate to replace the securities lent. The Retirement Funds are also indemnified against losses resulting from violations of investment guidelines.

The majority of security loans are open-ended and can be terminated on demand by the Retirement Funds or the borrower. Maturities of investments made with cash collateral are not necessarily matched to the maturities of the securities loaned because most loans do not have a fixed maturity date. The risk that SWIB would be unable to return collateral to securities borrowers upon termination of the loan is mitigated by the highly liquid nature of investments held in the collateral reinvestment pools and investments held by SWIB. The average maturities of the loans and the average maturities of the assets held in the collateral reinvestment pools were similar as of December 31, 2022.

Securities lending is allowed in certain commingled fund investments. As an investor in such funds, SWIB does not own the underlying securities. External asset managers of commingled funds manage securities lending activity for all investors within the fund and do not separately report on securities lending activity. Earnings of these commingled funds are reported in the Statement of Changes in Fiduciary Net Position as "Net Increase (Decrease) in Fair Value of Investments."

### » *Short Sell Obligations*

The Retirement Funds may sell a security it does not own in anticipation of purchasing the security later at a lower price. This is known as a short sale transaction. For the duration of the short sale transaction, a liability is recorded under "Short Sell Obligations" in the Statement of Fiduciary Net Position. The liability presented in the Statement of Fiduciary Net Position represents the fair value of the shorted securities necessary for delivery to the purchaser and is marked to market daily. Realized and unrealized gains and losses associated with short sales are recorded in the Statement of Changes in Fiduciary Net Position, in the "Net Increase (Decrease) in Fair Value of Investments" account. Prior to executing a short sale, SWIB borrows the security from a party currently holding it. While the transaction is open, the Retirement Funds incur expenses for securities borrowing costs. In addition, as a security borrower, the Retirement Funds may incur dividend and interest expense and such payments must be remitted to the security lender during the loan. During the duration of the borrow, there may be corporate action elections requiring the borrower to deliver items such as cash or securities to the lender. Expenses resulting from short sales are included in "Investment Expense" in the Statement of Changes in Fiduciary Net Position.

Risks arise from short sales due to the possible illiquidity of the securities markets and from potential adverse movements in security values. The cost to acquire the securities sold short may exceed the amount of proceeds initially received, as well as the amount of the liability recorded as "Short Sell Obligations" in the Statement of Fiduciary Net Position. Short sales expose the short seller to potentially unlimited liability as there is no upward limit on the price a shorted security can reach. Certain portfolio guidelines permit short sales and mitigate risks in various ways, including limiting the total value of short sales as a percentage of

## FINANCIAL SECTION

portfolio value, establishing portfolio versus benchmark tracking error limits, and monitoring other statistical and economic risk measures of the portfolio. Investment performance and risk associated with each portfolio are measured against benchmarks and monitored by management.

When a short sale occurs, the shorting portfolio must borrow the security and deliver it to the buyer. If the shorted security is owned by another Retirement Fund portfolio, investment policies allow the borrowing of the shorted securities from other Retirement Fund portfolios, including inter-fund borrowings. In addition to borrowing securities from existing Retirement Fund portfolios, SWIB may borrow securities from external sources. These borrowings are facilitated by SWIB's custodian.

Except in the case of borrowings within the same trust fund, the Retirement Funds are required to post collateral to the lender, at the required rate of 102% for in-currency loans and 105% for cross-currency loans. The Retirement Funds posted \$96.2 million in cash and \$2.1 billion in securities as collateral to security lenders representing \$22.3 million in excess of the fair market value of the securities borrowed as of December 31, 2022. If the security lender recalled the security and SWIB was not able to supply the lender with the security, the lender would be permitted to use SWIB's collateral to fund the purchase of the security.

### » *Investment Policy and Asset Allocation*

As part of its fiduciary responsibilities, SWIB is required by Wis. Stat. § 25.15 (2)(b) "to diversify investments in order to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so, considering each trust's or fund's portfolio as a whole at any point in time." SWIB exercises this duty in part by establishing its investment policy and by setting the asset allocation.

SWIB's Board of Trustees has established the asset allocation pursuant to a comprehensive and ongoing evaluation of the appropriate risk and return standards for each fund under management. The Board of Trustees consists of nine members meeting specific requirements as follows:

- Six Governor-appointed and State Senate-approved members, including:
  - Four with at least ten years investment experience;
  - One with at least ten years financial experience and who works for a local government participant in the Local Government Investment Pool; and
  - One additional member;
- Educator participant in the WRS appointed by the Teachers Retirement Board;
- Non-educator participant in the WRS appointed by the Wisconsin Retirement Board; and
- Secretary of the Department of Administration or designee.

The Board-approved investment policy for the WRS is intended to assist in development of a diversified portfolio of investments within acceptable risk parameters. The policy represents a delegation of standing authority to the SWIB's Executive Director/Chief Investment Officer and investment managers within the organization to make prudent investments within the investment guidelines, pursuant to Wis. Stat. § 15.02 (4) and Wis. Stat. § 25.15 (2) and Wisconsin Administrative Code IB 2.02.

Additionally, the Investment Committee (IC) was created to provide oversight of SWIB investments within the parameters established by the Board of Trustees. Oversight includes analysis of risk and investment returns of the portfolios, asset classes, and Core and Variable Funds. The IC is responsible for proposing to the Board of Trustees changes to the WRS investment policy, approving investment guidelines or strategies for internally-managed portfolios, approving the general strategies for each asset class, and for approving new investment and derivative instruments. The Board of Trustees reserves all rights to modify and amend IC guidelines at any time at its discretion.

The IC approved WRS Investment Guidelines include several policies, including a derivatives use policy, rebalancing procedures, and a leverage use policy. The derivatives use policy sets forth the objectives, monitoring, and reporting guidelines relating to derivative investments. The rebalancing procedures used in both mandatory and discretionary asset class rebalancing are described in the Investment Guidelines, and the leverage use policy describes SWIB's leverage philosophy. The total amount of policy leverage is approved by the Board of Trustees through the WRS asset allocation process.

The Board adopts the Retirement Funds' asset allocation policy, based on recommendations by the IC, the Board's asset allocation consultant, Executive Director/Chief Investment Officer, and Head Economist & Asset and Risk Allocation Chief Investment Officer. SWIB undertakes a comprehensive review of its strategic asset allocation plan every other year, including asset/liability modeling, to determine a suitable target allocation for each asset class included in the Core and Variable Funds, and an annual review to assess whether any interim adjustments should be made. The strategic nature of these reviews contemplates a long-term time horizon over which potential results are evaluated. This exercise is not an attempt to predict short-term market movements, but an effort to understand the long-term impacts of poor, normal, and above average market results.

In addition to potential future market impact, SWIB also contemplates the objectives of the funds, the impact of actuarial analysis, and the soundness of investment return and risk expectations. SWIB's asset allocation policies reflect the Board's program of risk allocation that involves reducing equity exposure by leveraging lower volatility assets, such as fixed income securities. This investment strategy results in Core Fund strategic targets which exceed 100% of invested assets. Currently, the Board has approved an asset allocation target of 15% policy leverage for the Core Fund subject to an allowable range of up to 20%.

SWIB's asset allocation review process also includes assumptions regarding expected rates of return. Long-term (e.g. 30-year) expected real rates of return on pension plan investments are determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The table entitled Asset Allocation Targets and Expected Returns presents the policy asset allocation targets and the best estimates of expected geometric rates of return for each major asset class as of December 31, 2022. In determining asset allocation targets, investments may be categorized differently than they are within the financial statements. The financial statements generally include more detail on types of assets when compared to asset allocation targets. For example, SWIB management considers inflation-sensitive assets separately from other fixed income investments for asset allocation purposes. During 2022, SWIB discontinued the use of the Multi-Asset category for asset allocation and investment performance reporting; however, the category is still used for financial statement purposes for representing SWIB's hedge fund investments.

## FINANCIAL SECTION

**Retirement Funds**  
**Asset Allocation Targets and Expected Returns<sup>1</sup>**  
**As of December 31, 2022**

<b>Core Fund Asset Class</b>	<b>Asset Allocation %</b>	<b>Long-Term Expected Nominal Rate of Return %</b>	<b>Long-Term Expected Real Rate of Return %<sup>2</sup></b>
Public Equity	48 %	7.6 %	5.0 %
Public Fixed Income	25	5.3	2.7
Inflation Sensitive Assets	19	3.6	1.1
Real Estate	8	5.2	2.6
Private Equity/Debt	15	9.6	6.9
Total Core Fund <sup>3</sup>	<u>115 %</u>	7.4 %	4.8 %
<b>Variable Fund Asset Class</b>			
U.S. Equities	70 %	7.2 %	4.6 %
International Equities	30	8.1	5.5
Total Variable Fund	<u>100 %</u>	7.7 %	5.1 %

<sup>1</sup>Asset allocations are managed within established ranges; target percentages may differ from actual monthly allocations.

<sup>2</sup>New England Pension Consultants Long Term U.S. CPI (Inflation) Forecast: 2.5%.

<sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

### » Annual Money-Weighted Rate of Return

Money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. For the year ended December 31, 2022, the money-weighted rate of return for the Core Fund was (12.94)% and (18.02)% for the Variable Fund.

## 4 DESCRIPTION OF THE WISCONSIN RETIREMENT SYSTEM

The WRS is a cost-sharing, multiple-employer public employee retirement system established by the State of Wisconsin to provide pension benefits for state and local government employees. WRS benefits and other plan provisions are established by Wis. Stat. § 40. Benefit terms may only be modified by legislation. ETF, under the direction of the ETF Board, is responsible for the administration of the WRS.

### » Employee Trust Funds Board

The ETF Board has general oversight of ETF, appoints the ETF Secretary, and oversees administration of the benefit programs, other than group insurance and deferred compensation. The ETF Board is comprised of 13 members, including:

- The Governor or the Governor's designee on the Group Insurance Board;
- The Administrator of the Department of Administration's Division of Personnel Management or the Administrator's designee;

- Four members appointed by the Teachers Retirement Board (an advisory board to the ETF Board);
- Four members appointed by the Wisconsin Retirement Board (an advisory board to the ETF Board);
- A public member who is not a participant in or beneficiary of the WRS, with at least 5 years of experience in actuarial analysis, administration of an employee benefit plan or significant administrative responsibility in a major insurer;
- A WRS annuitant; and
- A participant in the WRS who is a technical college or public school district educational support personnel employee.

» *WRS Employers*

The WRS is open to all public employers in Wisconsin. Participation is optional, except that participation is mandatory for school districts with respect to teachers, some municipalities with respect to police and firefighters, and all counties except Milwaukee County. As of December 31, 2022, the number of participating employers was:

State Agencies, UW and Public Authorities	56
Cities	189
Counties	71
Villages	298
Towns	306
School Districts	421
Cooperative Educational Service Agencies	12
Wisconsin Technical College System Districts	16
Special Districts	<u>217</u>
Total Employers	<u><u>1,586</u></u>

## FINANCIAL SECTION

» *WRS Membership*

All eligible employees of a participating employer who are expected to work at least 1,200 hours per year (880 hours per year for teachers and school district educational support employees) must be covered by the WRS. As of December 31, 2022, the WRS membership consisted of:

<b>Current Employees:</b>	
General	133,569
Teachers	103,860
Elected/Executive/Judges	1,242
Protective with Social Security	19,008
Protective without Social Security	2,825
Total Current Employees	260,504
<b>Inactive Participants:</b>	
Terminated Participants	181,536
Alternate Payees	3,481
Total Inactive Participants*	185,017
<b>Retirees and Beneficiaries Currently Receiving Benefits:</b>	
Retirement Annuitants	224,644
Disability Annuitants	6,260
Death Beneficiary Annuitants	1,480
Total Annuitants	232,384
Total Participants	677,905

\*Approximately 1,370 inactive participants are receiving Long-Term Disability Insurance benefits.

» *WRS Benefits*

The WRS provides retirement benefits as well as death and disability benefits. Vesting requirements have changed over time, as follows:

- Participants in the system prior to January 1, 1990 were fully vested at the time they met participation requirements;
- For participants entering the system from January 1, 1990, to April 23, 1998, creditable service in each of five years was required for vesting;
- All active participants in the system at any time from April 24, 1998 to June 30, 2011 are fully vested; and
- 2011 Wisconsin Act 32 generally requires participants hired on or after July 1, 2011 to have five years of creditable service to be vested.

Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service. Formula factors are shown in the table below:

Employment Category	Service Before 1/1/2000	Service Between 2000 and 2011	Service After 2011
General and Teachers	1.765%	1.6%	1.6%
Executive and Elected	2.165	2.0*	1.6*
Protective with Social Security	2.165	2.0	2.0
Protective without Social Security	2.665	2.5	2.5

\*2011 Wisconsin Act 10 changed the Executive and Elected formula factor from 2.0% to 1.6%. The effective date of the change varies among different employee categories, and generally applies to the service earned after Act 10 effective date (i.e. June 29, 2011).

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the member's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive member-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

### » *Post-Retirement Adjustments*

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with Wis. Stat. § 40.27. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core Fund annuities, decreases may be applied only to previously granted increases. By law, Core Fund annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement.

## FINANCIAL SECTION

The Core and Variable Fund annuity adjustments granted during the past 10 years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2013	(9.6)%	9.0 %
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0
2021	5.1	13.0
2022	7.4	15.0

The negative Core Fund annuity adjustment in 2013 was primarily due to the Fund's \$21.0 billion investment decline in 2008, caused by the global economic crisis. Core Fund gains and losses are recognized over a five-year period.

### » Long-Term Receivables

The "Prior Service Contributions Receivable" in the Statement of Fiduciary Net Position represents the WRS unfunded actuarial accrued liability (UAAL), determined under the plan's Frozen Initial Liability funding methodology. This liability is being amortized as a level percentage of payroll over a 40-year period beginning January 1, 1990, for employers in the WRS prior to 2009. The remaining balance is expected to be fully amortized by December 31, 2029. Liabilities for employers joining the WRS beginning in 2009 are amortized over 30 years. Interest is assessed on the outstanding liability at year-end at the assumed earnings rate. The level-percentage-of-payroll amortization method results in a relatively lower dollar contribution in earlier years than in later years, when payrolls have increased. During the early years of the amortization period, payments made are less than annual interest assessments, resulting in an increase in the liability. As payrolls increase annually, prior service payments increase proportionally until they exceed annual interest and ultimately fully liquidate the liability at the end of the amortization period. State law requires the accrued retirement cost to be funded. As of December 31, 2022 the receivable balance was \$5.1 million.

### » Variable Retirement Option

Prior to 1980, WRS participants could opt to have half of their required contributions and matching employer contributions invested in the Variable Fund. Retirement benefits were adjusted for the difference between the investment experience of the Core Fund and the Variable Fund. Provisions for allowing members to withdraw from the Variable Fund were added with the passage of Chapter 221, Laws of 1979. The Variable Fund was closed to new membership after April 30, 1980. 1999 Wisconsin Act 11 reopened the Variable Fund for existing and future participants, effective January 1, 2001. As of December 31, 2022, there were 49,629 active and inactive members and 43,007 annuitants participating in the Variable Fund.

### » *Municipal Police and Firefighters Pension Group*

As of March 31, 1978, administration of certain local funds for police officers and firefighters was assumed by the Wisconsin Retirement Fund. This included approximately 2,000 members. As of December 31, 2022, approximately 14 annuitants or their beneficiaries remained in the system. This group was closed to new members after January 1, 1948.

The liability for retirement benefits for these annuitants is funded by the employers, as benefit payments are made. Annuity reserves for these police and firefighter annuities are established by a transfer from the employer accumulation reserve at the time the annuity is approved. Earnings on these reserves are used to fund annuity adjustments on the same basis as for WRS annuitants. The unfunded liability for these annuitants as of December 31, 2022 was \$0.3 million.

### » *Annuity Supplement - General Fund*

As authorized under 1985 Wis. Stat. § 40.27 (1), the State's General Fund provides certain supplemental annuity benefits to annuitants receiving a continuing annuity on or before September 1974. The benefit is subject to continuation of the appropriation by the Legislature. ETF serves as a clearing agent for its payment. Total supplemental annuity benefits paid were approximately \$37,000 in 2022.

## 5 CONTRIBUTIONS REQUIRED AND MADE

### » *Required Contributions*

WRS contribution rates are determined by the "entry age normal with a frozen initial liability" actuarial method. This is a "level contribution" actuarial method intended to keep employer and member contribution rates at a level percentage of payroll over the years. This method determines the amount of contributions necessary to fund: 1) the current service cost, which represents the estimated amount necessary to pay for benefits earned by the members during the current service year plus actuarial gains or losses arising from the difference between actual and assumed experience; and 2) the prior service cost, which represents the estimated amount necessary to pay for unfunded benefits earned prior to the employer becoming a participating employer in the WRS and the past service cost of benefit improvements. The 2022 contribution requirements were determined by the December 31, 2020 actuarial valuation.

Member contributions are deducted from the member's salary and remitted to ETF by the participating employer. Employers generally may not pay the member-required contribution. The member-required contribution is one-half of the actuarially-determined contribution rate for General category members, which includes teachers and members in the Executive and Elected Official category. By statute, member required contributions for Protective occupation category members are the same rate as General category members. Employers are required to contribute the remainder of the actuarially determined contribution rate.

## FINANCIAL SECTION

**Contribution rates in effect during 2022 by employment category**

Employment Category	Employer Current	Employer Prior *	Member	Total
General, Teachers, Executive and Elected Officials	6.50 %	0.00 %	6.50 %	13.00 %
Protective Occupation with Social Security	12.00	0.02	6.50	18.52
Protective Occupation without Social Security	16.40	0.96	6.50	23.86

\*The employer prior service contribution rate is a weighted average of individual employer rates.

**Contributions required and made during 2022**

	Contributions (In Millions)	Percentage of Payroll
Employer Current Service	\$ 1,174.7	7.18%
Employer Prior Service*	1.0	0.01
Member Required	1,064.1	6.50

\*Employer prior service contributions are recorded in the Statement of Fiduciary Net Position as a reduction in the Prior Service Contribution Receivable. Contributions include both mandatory and voluntary payments received from participating employers. Some prior service contributions received after year-end are included in Contributions, but are not in the determination of Prior Service Contributions Receivable. This is due to a difference in how these payments are treated for actuarial and financial reporting purposes.

Employers also contributed approximately \$114,000 in reimbursement for benefits paid in accordance with Wis. Stat. § 62.13, Police and Firefighters Pension Program.

» **Member and Employer Additional Contributions**

Contributions in addition to those required contributions by members and/or employers may be made to the retirement system. These contributions are held in separate reserve accounts and are subject to certain restrictions as to amount, form of benefit payments, tax status, etc.

## 6 NET PENSION LIABILITY (ASSET) OF PARTICIPATING EMPLOYERS - WRS

The components of the Net Pension Liability (Asset) of the participating employers as of December 31, 2022 were as follows (in Millions):

Total Pension Liability <sup>1</sup>	\$ 123,665.93
Plan Fiduciary Net Position <sup>2</sup>	<u>\$ 118,368.23</u>
Participating Employer's Net Pension Liability (Asset)	<u>\$ 5,297.70</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	95.72 %

<sup>1</sup>Includes the impact of known Market Recognition Account deferred gains/losses on the liability for dividend payments.

<sup>2</sup>Immaterial differences may exist between the Plan Fiduciary Net Position used in the actuarial valuation and that reported in the Statement of Fiduciary Net Position, due to the timing of the actuarial valuation.

Additional information as of the latest actuarial valuations follows:

Actuarial Valuation Date:	December 31, 2021
Measurement Date of Net Pension Liability (Asset):	December 31, 2022
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Wage Inflation	3.0%
Senior/Merit	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table
Post-retirement Adjustments:*	1.7%

\*No post-retirement adjustments is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is assumed annual adjustments based on the investment return assumption and the post-retirement discount rate. Includes the impact of known Market Recognition Account deferred gains/losses on the liability for dividend payments.

Actuarial assumptions are based on an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The Total Pension Liability for December 31, 2022, is based on a roll-forward of the liability calculated from the December 31, 2021 actuarial valuation.

A single discount rate of 6.8% was used to measure the Total Pension Liability for the current and prior year. The discount rate is based on the expected rate of return on pension plan investments. Because of the unique structure of the WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid after reflecting known changes in the Market Recognition Account. For purposes of the single discount rate, it was assumed that the dividend would always be paid.

The projection of cash flows used to determine the single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

## FINANCIAL SECTION

» *Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate*

The following presents the plan's Net Pension Liability (Asset), calculated using a single discount rate of 6.8%, as well as what the plan's Net Pension Liability (Asset) would be if it were calculated using a single discount rate that is one percentage point lower or one percentage point higher (in Millions):

	Discount Rate		
	1% Decrease 5.8%	Current Discount Rate 6.8%	1% Increase 7.8%
Total Pension Liability	\$ 135,951.13	\$ 123,665.93	\$ 115,214.76
Plan Fiduciary Net Position	118,368.23	118,368.23	118,368.23
Net Pension Liability (Asset)	\$ 17,582.91	\$ 5,297.70	\$ (3,153.46)

Amounts may not foot due to rounding

For the WRS, the determination of liabilities also depends on the assumed dividend that is linked to the interest rate used in the liability calculation. Therefore, the following table shows an alternative set of Sensitivity Analysis, which varies the assumed dividend in conjunction with the change in the discount rate. For the liabilities shown below, the assumed dividend was 0.8% for the 5.8% discount rate, 1.7% for the 6.8% discount rate, and 2.7% for the 7.8% discount rate (in Millions):

	Discount Rate		
	1% Decrease 5.8%	Current Discount Rate 6.8%	1% Increase 7.8%
Total Pension Liability	\$ 128,542.57	\$ 123,665.93	\$ 120,196.56
Plan Fiduciary Net Position	118,368.23	118,368.23	118,368.23
Net Pension Liability (Asset)	\$ 10,174.34	\$ 5,297.70	\$ 1,828.33

Amounts may not foot due to rounding

## 7 STATUTORY RESERVES

The following reserves have been established to reflect legal restrictions on the use of pension trust funds.

» *Employee Accumulation Reserve*

As authorized by Wis. Stat. § 40.04 (4), this reserve includes all required and voluntary member contributions, including contributions made by the employer on behalf of the employee. This reserve may only be used to pay lump sum benefits or transfers to the Annuity Reserve to fund annuities. All legal restrictions on use of this reserve were met during the year. The Employee Accumulation Reserve is fully funded.

**Employee Accumulation Reserve balances as of December 31, 2022**

(In Millions)

	<b>Core</b>	<b>Variable</b>	<b>Total</b>
Employee Required	\$ 20,296.6	\$ 2,003.0	\$ 22,299.6
Employee Additional	260.8	15.3	276.1
<b>Total</b>	<u>\$ 20,557.4</u>	<u>\$ 2,018.3</u>	<u>\$ 22,575.7</u>

**» Employer Accumulation Reserve**

As authorized by Wis. Stat. § 40.04 (5), this reserve includes all required employer contributions, including contributions for amortization of the unfunded accrued actuarial liability. This reserve may only be used to pay lump sum benefits or transfers to the Annuity Reserve to fund annuities. All legal restrictions on use of this reserve were met during the year. The Employer Accumulation Reserve is 100% funded.

**Employer Accumulation Reserve balances as of December 31, 2022**

(In Millions)

	<b>Core</b>	<b>Variable</b>	<b>Police and Firefighters</b>	<b>Total</b>
Employer Accumulation	\$ 24,029.2	\$ 2,003.0	\$ 0.0	\$ 26,032.2
Less: Unfunded Actuarial Accrued Liability	0.0	0.0	(0.3)	(0.3)
<b>Net Employer Accumulation</b>	<u>\$ 24,029.2</u>	<u>\$ 2,003.0</u>	<u>\$ (0.3)</u>	<u>\$ 26,031.9</u>

**» Annuity Reserve**

As authorized by Wis. Stat. § 40.04 (6), this reserve includes the present value of all annuities. The present value of new annuities is transferred from the Employee Accumulation Reserve and the Employer Accumulation Reserve to the Annuity Reserve. This reserve may only be used for the payment of annuities and death benefits to annuitants. All legal restrictions on use of this reserve were met during the year. The Annuity Reserve is fully funded.

**Annuity Reserve balances as of December 31, 2022**

(In Millions)

	<b>Core</b>	<b>Variable</b>	<b>Police and Firefighters</b>	<b>Total</b>
Annuity Reserve	\$ 72,108.2	\$ 4,400.5	\$ 1.1	\$ 76,509.8

**» Market Recognition Account**

As authorized by Wis. Stat. § 40.04 (3), this reserve is used to smooth the flow of investment income into the Employee, Employer, and Annuity Reserves and other benefit plans invested in the Core Fund. Under the MRA, all investment income, including realized and unrealized market gains and losses, is deposited into the MRA. At year-end, income equal to the assumed earnings rate is recognized. Any surplus or shortfall in earnings is recognized equally over five years.

## FINANCIAL SECTION

Year-end balances in the MRA for the last five years after annual distributions were as follows (in Millions):

<u>As of:</u>	<u>MRA</u>
December 31, 2018	\$ (4,916)
December 31, 2019	\$ 5,712
December 31, 2020	\$ 11,070
December 31, 2021	\$ 17,659
December 31, 2022	\$ (7,038)

## 8 PUBLIC ENTITY RISK POOLS

ETF operates and reports three public entity risk pools: Health Insurance, Income Continuation Insurance (ICI), and Duty Disability Insurance. In accordance with GASB Statement No. 10 "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues" and GASB Statement No. 30 "Risk Financing Omnibus-an amendment of GASB Statement No. 10," these funds are accounted for as enterprise funds.

ETF also administers the Group Life Insurance Program for current State of Wisconsin employees and employees of participating local public employers. All public employers in the state are eligible to participate. The insurance carrier guarantees coverage and employers and active employees pay premiums directly to the insurance carrier. Because ETF primarily accounts for administrative costs for the fund, it is not reported in the ETF ACFR.

### » *Health Insurance Fund*

The Health Insurance Fund offers group health insurance for current employees of the State of Wisconsin and of participating local public employers. All public employers in the state are eligible to participate. The State of Wisconsin and 408 local employers participated during the year.

The Health Insurance Fund includes three separate risk pools. The first pool includes those members who have chosen health insurance coverage from a Health Maintenance Organization (HMO). All liabilities for medical claims for these participants are the responsibility of the HMO and are not included in the unpaid claims analysis or in the Required Supplementary Information (RSI).

The second pool includes self-insured pharmacy benefits for all members. Liabilities for this pool are presented in the unpaid claims analysis and in the Required Supplementary Information.

The third pool includes self-insured dental benefits for members selecting dental insurance. Prior to 2016, dental benefits were included as part of the HMO coverage. Liabilities for this pool are presented in the unpaid claims analysis and in the Required Supplementary Information.

### » *Income Continuation Insurance Fund*

The Income Continuation Insurance (ICI) Fund offers both long-term and short-term disability benefits (up to 75% of the average monthly earnings) for current employees of the State of Wisconsin and participating local public employers. All public employers in Wisconsin are eligible to participate. The State of Wisconsin and 290 local employers currently participate in the plan, and it is self-insured. Since March 2012, premiums have been suspended for the local employers as a result of the funded status of the local employer program.

### » *Duty Disability Insurance Fund*

The Duty Disability Insurance Fund offers special disability insurance for State of Wisconsin and local WRS participants in protective occupations. Participation in the program is mandatory for all WRS employers with protective occupation employees. The State of Wisconsin and 505 local employers currently participate. The plan is self-insured, and the risk is shared between the State of Wisconsin and local government employers in the plan.

The Duty Disability Insurance program is intended to compensate WRS protective category employees for duty-related disabilities. Benefits are payable for duty-related injuries or diseases that are likely to be permanent and that cause the employee to retire, accept reduced pay or a light-duty assignment, or that impair the employee's promotional opportunities.

Contributions are actuarially determined and are employer paid. Contributions are based on a graduated, experience-rated formula. During 2022, contribution rates ranged from 0.04% to 1.12% of covered payroll based on employer experience.

### » *Public Entity Risk Pool Accounting Policies*

**Basis of Accounting:** All public entity risk pools are accounted for in enterprise funds using the full accrual basis of accounting and the flow of economic resources measurement focus.

**Valuation of Investments:** Assets of the Health Insurance, ICI, and Duty Disability Insurance funds are invested in the Core Retirement Investment Trust Fund and are valued at fair value.

**Unpaid Claims Liabilities:** The fund establishes claims liabilities based on estimates of the ultimate cost of claims that have been reported but not settled and of claims that have been incurred but not reported. The estimate includes the effects of inflation and other societal and economic factors. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made. Unpaid claims liability is presented at face value and is not discounted for Health Insurance. These liabilities are discounted using an interest rate of 6.8% for the ICI and Duty Disability Insurance programs. The liabilities of the ICI, Health Insurance, and Duty Disability Insurance programs were determined by actuarial methods. Face value of the liability for these programs is not available.

**Administrative Expenses:** All maintenance expenses are expensed in the period they are incurred. Acquisition costs are immaterial and are treated as maintenance expenses.

**Reinsurance:** Health insurance plans provided by HMOs are fully insured by outside insurers. All remaining risk is self-insured with no reinsurance coverage.

## FINANCIAL SECTION

**Risk Transfer:** Participating employers are not subject to supplemental assessments in the event of deficiencies. If the assets of a fund were exhausted, participating employers would not be responsible for the fund's liabilities.

**Premium Setting:** Premiums for Health Insurance and ICI are established by the Group Insurance Board (GIB) and ETF Board for Duty Disability Insurance in consultation with actuaries.

**Statutory Authority:** All programs are operated in accordance with Wis. Stat. § 40.

**Unpaid Claims Liabilities:** Each fund establishes a liability for both reported and unreported insured events, which is an estimate of future payments of losses. The following represents changes in those aggregate liabilities for each fund during the past year (in Millions).

	Income Continuation Insurance		Duty Disability Insurance		Pharmacy Benefits*		Dental	
	2022	2021	2022	2021	2022	2021	2022	2021
<b>Unpaid claims and claim adjustment expenses at beginning of the calendar year:</b>	\$ 95.7	\$ 96.4	\$ 523.8	\$ 467.7	\$ (39.0)	\$ (33.7)	\$ 1.6	\$ 1.5
<b>Incurred claims and claim adjustment expenses:</b>								
Provision for insured events of the current calendar year	23.2	24.5	40.6	38.1	198.6	188.4	46.7	46.0
Changes in provision for insured events of prior calendar years	(0.9)	(4.7)	29.6	54.3	0.0	0.2	(0.1)	(0.1)
Total incurred claims and claim adjustment expenses	22.3	19.8	70.2	92.4	198.6	188.6	46.6	45.9
<b>Payments:</b>								
Claims and claim adjustment expenses attributable to insured events of the current calendar year	4.5	4.7	0.0	0.0	253.5	227.4	45.3	44.4
Claims and claim adjustment expenses attributable to insured events of prior calendar years	16.8	15.8	37.2	36.4	(39.0)	(33.5)	1.5	1.4
Total payments	21.3	20.5	37.2	36.4	214.5	193.9	46.8	45.8
<b>Total unpaid claims and claim adjustment expenses at end of the calendar year</b>	<b>\$96.7</b>	<b>\$95.7</b>	<b>\$556.8</b>	<b>\$523.8</b>	<b>\$(54.9)</b>	<b>\$(39.0)</b>	<b>\$ 1.4</b>	<b>\$ 1.6</b>

\*Total unpaid claims at the end of 2022 is \$54.9 million in rebates due from pharmaceutical companies. Total unpaid claims at the end of 2021 is \$39.0 million in rebates due from pharmaceutical companies.

Amounts may not foot due to rounding

## 9 OTHER POST-EMPLOYMENT BENEFIT (OPEB) PLANS ADMINISTERED BY ETF

ETF administers five OPEB plans: the State Retiree Life Insurance, the Local Retiree Life Insurance, the State Retiree Health Insurance, the Local Retiree Health Insurance, and the Supplemental Health Insurance Conversion Credit.

### Governance Boards

The Group Insurance Board (GIB) sets policy for the life insurance as well as the health insurance programs for state employees and for local employers who chose to offer them. Membership of the GIB is comprised of the following positions as required by Wisconsin Statutes:

- Appointed by the Governor (no membership requirement);
- Ex officio, Administrator in Department of Administration, Division of Personnel Management (or their designee);
- Appointed by the Governor (insured participant in the WRS who is a teacher);
- Appointed by the Governor (insured participant in the WRS who is a retiree);
- Ex officio, Secretary of the Department of Administration (or their designee);
- Appointed by the Governor (insured participant in the WRS who is an employee of a local government unit);
- Appointed by the Governor (insured participant in the WRS who is not a teacher);
- Ex officio, Attorney General (or their designee);
- Appointed by the Governor (chief executive or member of the governing body of a local government that is a participating employer);
- Ex officio, Commissioner of Insurance (or their designee); and
- Ex officio, Governor (or their designee).

The ETF Board has statutory authority (Wis. Stat. § 40.95) for the SHICC program administration and oversight. The ETF Board is comprised of 13 members, as summarized in Note 4, Description of the Wisconsin Retirement System.

### Plan Descriptions

#### » *Retiree Life Insurance Plans*

The State Retiree Life Insurance plan includes the State of Wisconsin (State), the University of Wisconsin, and other component units of the State, and is considered a single-employer defined benefit OPEB plan. The Local Retiree Life Insurance plan includes participating employees of 732 local government employers as of December 31, 2022 and is considered a cost-sharing multiple-employer defined benefit OPEB plan. The plans are reported as Other Post-Employment Benefit Trust Funds. The plans provide post-employment life insurance coverage to all eligible employees of participating employers. The plans are established by Wis. Stat. § 40.70. ETF, under the direction of the GIB, is responsible for the administration of the life insurance programs. ETF contracts with Securian Financial Group, Inc. (Securian) as a third-party administrator for the Retiree Life Insurance plans. Benefit terms may be modified by the GIB, subject to state and federal legislative constraints.

## FINANCIAL SECTION

## Membership

**Enrollment Eligibility:** Generally, members may enroll during a 30-day enrollment period after their date of hire. Members may also enroll after the initial 30-day enrollment period with evidence of insurability. Members under evidence of insurability enrollment must enroll in group life insurance coverage before age 55 to be eligible for Basic or Supplemental coverage.

Membership as of December 31, 2022, included:

	<u>State</u>	<u>Local</u>	<u>Total</u>
Active*	49,999	74,611	124,610
Inactive:			
Pre-Age 65 Annuitants	6,345	9,901	16,246
Post-Age 64 Annuitants	29,744	40,769	70,513
Totals	<u>86,088</u>	<u>125,281</u>	<u>211,369</u>

\*Active members include disabled.

## Contributions

The GIB approves contribution rates annually based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on active member contributions to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, premium payments must continue until age 65 for the member to be eligible for the benefit after age 65.

<b>State and Local Retiree Life Insurance Employer Contribution Rates For the year ended December 31, 2022</b>		
<u>Coverage Type</u>	<u>State</u>	<u>Local</u>
50% Post Retirement Coverage	28% of member contribution	40% of member contribution
25% Post Retirement Coverage	N/A	20% of member contribution

Member contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The member contribution rates in effect for the year ended December 31, 2022 are as listed below:

**Life Insurance  
Member Contribution Rates  
As of December 31, 2022**

Attained Age	State *		Local *	
	Basic	Supplemental	Basic	Supplemental
Under 30	\$ 0.0486	\$ 0.0486	\$ 0.0500	\$ 0.0500
30-34	0.0486	0.0486	0.0600	0.0600

65-69	0.4741	0.4741	0.5700	0.5700

\* Disabled members under age 70 receive a waiver-of-premium benefit.

The subsequent table provides total contributions earned during 2022 by employers and pre-age 65 annuitants to fund post-retirement benefits.

**State and Local Retiree Life Insurance  
Contributions Earned  
For the year ended December 31, 2022**

Contribution Type	State	Local
Employer	\$ 1,776,716	\$ 2,006,410
Pre-age 65 Annuitants*	4,389,689	6,381,658
<b>Total</b>	<b>\$ 6,166,405</b>	<b>\$ 8,388,068</b>

\* Contributions for pre-age 65 annuitants are recorded as a reduction of benefit expense in the Statement of Changes in Fiduciary Net Position.

## Description of Benefits

**Retirement Eligibility:** At retirement, the member must have active group life insurance coverage and satisfy the following:

- WRS coverage prior to January 1, 1990, or
- At least one month of group life insurance coverage in each of five calendar years after 1989

and one of the following:

- Eligible for an immediate WRS benefit, or
- At least 20 years from their WRS creditable service as of January 1, 1990, plus their years of group life insurance coverage after 1989, or
- At least 20 years on the payroll of their last employer.

In addition, terminating members and retirees must continue to pay the member contributions until age 65 (age 70 if active).

## FINANCIAL SECTION

**Basic Coverage Benefits:** After retirement, basic coverage is continued for life in these amounts of the insurance in force before retirement:

Percentage of Basic Coverage Continuing		
Age	State	Local
Before age 65	100%	100%
While age 65	75%	75%
While age 66	50%	50%
After age 66	50%	50%/25% Employer Election

**Supplemental Coverage Benefits:** After retirement, supplemental coverage may be continued until age 65 at 100% of the amount of the insurance in force before retirement at the employee's expense.

**Additional Coverage Benefits:** After retirement, additional coverage may be continued until age 65 at 100% of the amount of the insurance in force before retirement at the employee's expense.

**Spouse and Dependent Coverage Benefits:** After retirement, the coverage is terminated.

### Program Investments

**Investment Contract with Insurance Carrier:** Investments for the Retiree Life Insurance funds are held with the insurance carrier, Securian, and are classified as "Investment Contract" in the Statement of Fiduciary Net Position. In accordance with the administrative agreement between the GIB and Securian, interest is calculated and credited to the Retiree Life Insurance funds based on the rate of return for a segment of the insurance carrier's general fund, specifically 10 Year A- Bonds (as a proxy and not tied to any specific investments). The funds invested during the year earn interest based on that year's rate of return for 10 Year A- Bonds. The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto. No significant contract changes occurred during the year.

The targeted asset allocation and expected rates of return are presented in the following table:

#### State and Local Retiree Life Insurance Asset Allocation Targets and Expected Returns As of December 31, 2022

Asset Class	Index	Target Allocation	Long-Term Expected Geometric Real Rate of Return
U.S. Intermediate Credit Bonds	Bloomberg U.S. Interm Credit	50%	2.45%
U.S. Mortgages	Bloomberg U.S. MBS	50%	2.83%
Inflation			2.30%
Long-Term Expected Rate of Return			4.25%

The annual money-weighted rate of return on plan investments is shown in the below table. The money-weighted rate of return expresses investment performance, net of OPEB plan investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return remained unchanged from the prior year at 4.25%. The expected inflation rate remained unchanged from the prior year at 2.30%. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

**State and Local Retiree Life Insurance Plans  
Schedule of Investment Returns  
Annual Money-Weighted Rate of Return**

	<b>2022</b>
State Retiree Life Insurance Plan	2.82%
Local Retiree Life Insurance Plan	2.77%

### State Retiree Life Insurance Net OPEB Liability (Asset) of Participating Employers

The components of the Net OPEB Liability (Asset) of the participating State employers as of December 31, 2022 were as follows (in Millions):

Total OPEB Liability	\$	963.00
Plan Fiduciary Net Position*		303.25
Participating Employer's Net OPEB Liability (Asset)	\$	659.75
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability		31.49 %

\*An immaterial difference may exist between the Plan Fiduciary Net Position used in the actuarial valuation and that reported in the Statement of Fiduciary Net Position, due to the timing of the actuarial valuation.

## FINANCIAL SECTION

Additional information as of the latest actuarial valuation follows:

Actuarial Valuation Date:	January 1, 2022
Measurement Date of Net OPEB Liability (Asset):	December 31, 2022
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
20 Year Tax-Exempt Municipal Bond Yield*	3.72%
Long-Term Expected Rate of Return:	4.25%
Discount Rate:	3.75%
Salary Increases:	
Wage Inflation	3.00%
Senior/Merit	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table

\* Based on the Bond Buyers GO index.

Some actuarial assumptions used in this valuation, including the wage inflation, mortality, and separation rates, are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The Total OPEB Liability for December 31, 2022 is based upon a roll-forward of the liability calculated from the January 1, 2022 actuarial valuation.

A discount rate of 3.75% was used to measure the Total OPEB Liability for the current year, as opposed to a discount rate of 2.15% for the prior year. The change in the discount rate was primarily caused by the increase in the municipal bond rate from 2.06% as of December 31, 2021 to 3.72% as of December 31, 2022. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65. At their August 2019 meeting, the GIB approved an annual premium rate increase of 5% for nine years, effective April 1, 2020.

Based on these assumptions, the plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the Total OPEB Liability was applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2033. Therefore, the long-term expected rate of return on plan investments was applied through 2033 and the municipal bond index rate was applied for all remaining periods of projected benefit payments to determine the Total OPEB Liability.

### Sensitivity of the State Retiree Life Insurance Net OPEB Liability (Asset) to Changes in the Discount Rate

The following presents the plan's Net OPEB Liability (Asset) and shows what the plan's Net OPEB Liability (Asset) would be if it was calculated using a single discount rate that is one percentage point lower or one percentage point higher (in Millions):

	Discount Rate		
	1% Decrease 2.75%	Current Rate 3.75%	1% Increase 4.75%
Total OPEB Liability	\$ 1,164.2	\$ 963.0	\$ 807.1
Plan Fiduciary Net Position	303.2	303.2	303.2
Net OPEB Liability (Asset)	\$ 861.0	\$ 659.7	\$ 503.9

Amounts may not foot due to rounding

### Local Retiree Life Insurance Net OPEB Liability (Asset) of Participating Employers

The components of the Net OPEB Liability (Asset) of the participating local employers as of December 31, 2022, were as follows (in Millions):

Total OPEB Liability	\$ 622.61
Plan Fiduciary Net Position*	241.63
Participating Employer's Net OPEB Liability (Asset)	<u>\$ 380.98</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	38.81 %

\*An immaterial difference may exist between the Plan Fiduciary Net Position used in the actuarial valuation and that reported in the Statement of Fiduciary Net Position, due to the timing of the actuarial valuation.

Additional information as of the latest actuarial valuations follows:

Actuarial Valuation Date:	January 1, 2022
Measurement Date of Net OPEB Liability (Asset):	December 31, 2022
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
20 Year Tax-Exempt Municipal Bond Yield*	3.72%
Long-Term Expected Rate of Return:	4.25%
Discount Rate:	3.76%
Salary Increases:	
Wage Inflation	3.00%
Senior/Merit	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table

\* Based on the Bond Buyers GO index

## FINANCIAL SECTION

Some actuarial assumptions used in this valuation, including the wage inflation, mortality, and separation rates, are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The Total OPEB Liability for December 31, 2022 is based upon a roll-forward of the liability calculated from the January 1, 2022 actuarial valuation.

A discount rate of 3.76% was used to measure the Total OPEB Liability for the current year, as opposed to discount rate of 2.17% for the prior year. The change in the discount rate was primarily caused by the increase in the municipal bond rate from 2.06% as of December 31, 2021 to 3.72% as of December 31, 2022. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

Based on these assumptions, the plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the Total OPEB Liability was applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036. Therefore, the long-term expected rate of return on plan investments was applied through 2036 and the municipal bond index rate was applied for all remaining periods of projected benefit payments to determine the Total OPEB Liability.

### Sensitivity of the Local Retiree Life Insurance Net OPEB Liability (Asset) to Changes in the Discount Rate

The following presents the plan's Net OPEB Liability (Asset) and shows what the plan's Net OPEB Liability (Asset) would be if it was calculated using a single discount rate that is one percentage point lower or one percentage point higher (in Millions):

	Discount Rate		
	1% Decrease 2.76%	Current Rate 3.76%	1% Increase 4.76%
Total OPEB Liability	\$ 761.1	\$ 622.6	\$ 516.5
Plan Fiduciary Net Position	241.6	241.6	241.6
Net OPEB Liability (Asset)	\$ 519.5	\$ 381.0	\$ 274.9

### » Retiree Health Insurance Plans

The Retiree Health Insurance plans offer group health insurance to retired State of Wisconsin and local government employees. Retirees pay the full premium amount. The State Retiree Health Insurance Fund includes the State, the University of Wisconsin, and other component units of the State. The Local Retiree Health Insurance Fund includes 408 local government employers. The State Retiree plan is reported as an enterprise fund and the Local Retiree plan is reported as a fiduciary custodial fund. The plans are not administered as trusts. Therefore, each participating employer is responsible for reporting the plan in accordance with GASB Statement No. 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." The Retiree Health Insurance Funds contain certain non-OPEB components relating to post-Medicare pharmacy and health insurance benefits.

ETF and the GIB have statutory authority for program administration and oversight [Wis. Stat. § 15.165 (2) and Wis. Stat. § 40.03 (6)].

## Membership

State of Wisconsin and local government employees participating in the State Health Insurance Plan or the Wisconsin Public Employers Insurance Plan (local government plans) are eligible to continue their health insurance coverage after leaving covered employment. Membership as of December 31, 2022 included 29,227 former state employees or their beneficiaries and 2,004 former local government employees and beneficiaries.

## Description of Benefits

Retirees may choose between several health plans with specific provider networks (i.e. Health Maintenance Organizations (HMO), Preferred Provider Organizations (PPO) or Medicare Advantage). The health plans must follow GIB guidelines for eligibility and program requirements. All health plans offer a prescribed benefit package called Uniform Benefits and participate in a yearly competitive premium rate bid process.

The pharmacy benefit is self-insured by the GIB and administered by Navitus Health Solutions. The dental benefit is self-insured by the GIB and administered by Delta Dental.

Effective January 1, 2012, prescription drug coverage for Medicare eligible retirees enrolled in the State group health insurance program is provided by a self-funded Medicare Part D Employer Group Waiver Plan (EGWP). A Medicare "Wrap" product is also included to provide full coverage to members, as required by Uniform Benefits, when they reach the Medicare coverage gap, also known as the "donut hole."

### » *Supplemental Health Insurance Conversion Credit Program*

The SHICC program includes the State of Wisconsin, the University of Wisconsin, and other component units of the State, and is considered a single-employer defined benefit OPEB plan. The SHICC program is reported as an Other Post-Employment Benefit Trust Fund. The SHICC program was established by Wis. Stat. § 40.95 and is defined in the state compensation plan (Wis. Stat. § 230.12 (9)).

The SHICC program allows members with more than 15 years of eligible service to convert unused sick leave balances into credits to pay for post-retirement health insurance premiums. The SHICC benefit provides a limited match of the members credits earned through the Accumulated Sick Leave Conversion Credit (ASLCC) program. ASLCC program credits are computed at the time of retirement, layoff, or death by multiplying the number of hours of unused sick leave by the highest hourly pay rate at which the employee accrued sick leave that is eligible for conversion. Employment category and number of years of service are also factored into the calculation (as noted in the table below). The SHICC program also includes a provision for the restoration of 500 hours of credits upon retirement, layoff, or death, provided at least 500 hours of accrued sick leave were used for a single injury or illness during the three years immediately preceding the retirement, layoff, or death while in state service.

All ASLCC program credits must be used before the SHICC program credits. Unused ASLCC and SHICC credits have no cash value, are carried forward from year to year without interest, and when total health insurance premiums paid on behalf of the retired employee equal or exceed the conversion credits, no further payments are made under the ASLCC and SHICC programs. ASLCC and SHICC credits may be escrowed indefinitely after

## FINANCIAL SECTION

retirement for participants who provide evidence of comparable health insurance coverage from another source.

### Description of Benefits

The SHICC program provides matching sick leave hours to participants retiring (or terminating employment) with 15 or more years of eligible service, as noted below. These sick leave hours are in addition to, but generally do not exceed, the unused sick leave balances that are used to calculate benefits provided under the ASLCC program.

Employment Category	Benefit Eligible Hours*
Protective	Match up to 78 hours (9.75 days) per full year of service through 24 years, plus 104 hours (13 days) per full year of service over 24 years.
Others	Match up to 52 hours (6.5 days) per full year of service through 24 years, plus up to 104 hours (13 days) per full year of service over 24 years.

\*The SHICC program also includes a restoration benefit of up to 500 hours when certain criteria are met.

The SHICC program also provides benefits after a member's death. The member's surviving spouse and/or dependents may be eligible to use SHICC credits to pay State of Wisconsin Group Health Insurance premiums under the following conditions:

- Member was covered by the State of Wisconsin Group Health Insurance Program under a family policy on the member's date of death and the member is either employed by the state on the date of death or the member is receiving a retirement disability benefit; or
- Member has preserved SHICC credits as described in the Preserved Balance Eligibility section below and the member dies before becoming a WRS annuitant; or
- Member has escrowed SHICC credits as described in the Escrow Balance Eligibility Section below and the member dies.

### Eligibility and Membership

Generally, to be eligible to use SHICC credits to pay post-retirement health insurance premiums, members with 15 years of adjusted continuous service (or their insured surviving spouse and/or dependents) must be covered under the State of Wisconsin Group Health Insurance Program. If a member with 20 years of service leaves eligible service prior to retirement, the benefit is vested.

Membership as of December 31, 2022 included:

Employment Status	Count
Retirees and Beneficiaries	22,287
Inactive, Non-retired Members	435
Active Members	73,954
Total	<u>96,676</u>

**Retirement Eligibility:** At retirement, the member must have State of Wisconsin Group Health Insurance Program coverage and satisfy the following:

- Retire on an immediate annuity; or
  - Retire and receive a lump-sum benefit; or
  - Qualify for a Wisconsin Retirement System (WRS) disability retirement benefit, long-term disability benefit or a protective occupation duty disability insurance benefit under Wis. Stat. § 40.65;
- or
- Have 20 years of WRS creditable service and are eligible for an immediate retirement benefit, but have chosen not to apply for retirement or disability benefit immediately (see Escrow Eligibility section below).

**Escrow Eligibility:** At retirement, eligible members may elect to escrow their SHICC credits (to be used at a later date) if they have comparable health insurance coverage through another source.

**Preserved Eligibility:** If not eligible for an immediate annuity, SHICC eligible members must satisfy the following to defer vested (preserved) SHICC credits to pay health premiums when becoming a WRS annuitant:

- Terminate with 20 years of WRS creditable service (providing they do not elect a WRS separation benefit) or
- State constitutional officer, a member or an officer of the legislature or the head of a state department or agency who was appointed by the governor with senate confirmation and are not eligible for an immediate annuity when terminating from state employment (providing they do not elect a WRS separation benefit).

**Permanent Layoff Eligibility:** If not eligible for an immediate annuity and the member is permanently laid off from State employment, the member must have at least 15 years of adjusted continuous service to use SHICC credits to pay health premiums for up to five years after the layoff begins.

## Contributions

The ETF Board approves contribution rates annually, based on recommendations from the actuary. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions, in accordance with Wis. Stat. § 40.05 (4)(by). Employer contributions made during a member's working lifetime fund a post-retirement benefit. Employers made contributions totaling \$5.4 million based upon a percentage of active member earnings for the year ending December 31, 2022.

## SHICC Net OPEB Liability (Asset) of Participating Employers

The components of the Net OPEB Liability (Asset) of the participating state employers as of December 31, 2022, were as follows (in Millions):

Total OPEB Liability	\$	1,045.97
Plan Fiduciary Net Position*		1,148.79
Participating Employer's Net OPEB Liability (Asset)	\$	(102.82)
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability		109.83 %

\*An immaterial difference may exist between the Plan Fiduciary Net Position used in the actuarial valuation and that reported in the Statement of Fiduciary Net Position, due to the timing of the actuarial valuation.

## FINANCIAL SECTION

Additional information as of the latest actuarial valuation follows:

Actuarial Valuation Date:	December 31, 2022
Measurement Date of Net OPEB Liability (Asset):	December 31, 2022
Wisconsin Sick Leave Conversion Credit Programs Experience Study:	January 1, 2018 - December 31, 2020 Published November 18, 2021
WRS Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Wage Inflation	3.0%
Senior/Merit	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table
Healthcare Cost Trend Rate:	5.75% for the first year grading down to an ultimate healthcare trend rate of 3.5% over an 11 year period
Health Care Premiums:	Actual premium amounts are used for current annuitants. For all non-annuitants (active, preserved, and escrowed members), average premiums are calculated based on non Medicare and Medicare rates for one person and two person coverages.
Participation:	100% of active and preserved members will begin using sick leave credits immediately upon reaching eligibility
Usage for Escrowed Benefits:	50% of members currently in escrow status will at some point begin using their sick leave balances to pay for health care costs.
Sick Leave Accumulation:	The assumed annual sick leave accumulation for each individual is at their same rate as in the past (earned less used), but not more than 100% of the gross earned rate based on the person's employer and not less than 25% of their gross earned rate. The assumed annual gross earned rates range from 6.4 to 16.25 days depending on the employer.

\*Note that mortality assumptions were not applied to members who currently have healthcare coverage for more than one person since the benefit may be transferred to a beneficiary upon death.

Actuarial assumptions are based upon experience studies conducted in 2021 on the WRS and Wisconsin Sick Leave Conversion Credit programs that covered a three-year period from January 1, 2018 to December 31, 2020.

A discount rate of 6.8% was used to measure the Total OPEB Liability for the current and prior year. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate.

Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

## Long-Term Expected Return on Plan Assets

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term expected rate of return is reviewed every three years in conjunction with the Wisconsin Retirement System experience study. For each major asset class that is included in the OPEB plan's target asset allocation as of December 31, 2022 these best estimates of geometric real rates of return are shown below:

### Core Asset Allocation Targets and Expected Returns<sup>1</sup>

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return % <sup>2</sup>
Public Equity	48%	5.0%
Public Fixed Income	25	2.7
Inflation Sensitive Assets	19	1.1
Real Estate	8	2.6
Private Equity/Debt	15	6.9
Total Core Fund <sup>3</sup>	115%	4.8%
Long-Term Expected Rate of Return		6.8%

<sup>1</sup>Asset allocations are managed within established ranges; target percentages may differ from actual monthly allocations

<sup>2</sup>New England Pension Consultants Long Term U.S. CPI (Inflation) Forecast: 2.5%

<sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

## Sensitivity of the SHICC Net OPEB Liability (Asset) to Changes in the Discount Rate

The following presents the plan's Net OPEB Liability (Asset) and shows what the plan's Net OPEB Liability (Asset) would be if it were calculated using a single discount rate that is one percentage point lower or one percentage point higher (in Millions):

	Discount Rate		
	1% Decrease 5.80%	Current Rate 6.80%	1% Increase 7.80%
Total OPEB Liability	\$ 1,158.4	\$ 1,046.0	\$ 949.4
Plan Fiduciary Net Position	1,148.8	1,148.8	1,148.8
Net OPEB Liability (Asset)	\$ 9.6	\$ (102.8)	\$ (199.4)

## Sensitivity of the SHICC Net OPEB Liability (Asset) to the Healthcare Cost Trend Rate Assumption

The following presents the plan's Net OPEB Liability (Asset), calculated using the assumed healthcare cost trend rate, as well as what the plan's Net OPEB Liability (Asset) would be if it were calculated using the assumed trend rate that is one percent lower or one percent higher (in Millions):

## FINANCIAL SECTION

## Healthcare Cost Trend Rate

	1% Decrease	Current Rate	1% Increase
Total OPEB Liability	\$ 976.4	\$ 1,046.0	\$ 1,113.1
Plan Fiduciary Net Position	1,148.8	1,148.8	1,148.8
Net OPEB Liability (Asset)	\$ (172.4)	\$ (102.8)	\$ (35.7)

## 10 MILWAUKEE RETIREMENT SYSTEMS

The Milwaukee Retirement Systems (MRS), consisting of two funds within the Milwaukee Public Schools Retirement System, is reported as an Investment Trust Fund. MRS provides assets to ETF for investing in the Core and Variable Funds, described in the Investments section of Note 1, Summary of Significant Accounting Policies. The Core and Variable Funds are managed by SWIB, with oversight by a board of trustees as authorized in Wis. Stat. § 25.17. Participation of the MRS in the Core and Variable Funds is described in the Wisconsin Administrative Code, § ETF 10.12. Monthly, ETF distributes pro-rata shares of total Core Fund and total Variable Fund earnings, less administrative expenses to the MRS accounts. The MRS accounts are adjusted to fair value and gains/losses are recorded directly in the accounts per Wisconsin Administrative Code, § ETF 10.12 (2).

No state statute, legal provision, or legally-binding guarantee exists to support the value of shares. As of December 31, 2022, the Core and Variable Funds held \$122.9 billion in investment-related accounts, of which \$4.9 billion is classified as cash equivalents. In addition, the Core and Variable Funds held \$1.7 billion of securities lending collateral.

Summary information by investment classification in accordance with GASB Statement No. 31 "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," for the Core and Variable Funds as of December 31, 2022 is presented in Note 3, Deposits, Investments and Securities Lending Transactions. Condensed financial data for the Core and Variable Funds for the year ended December 31, 2022 is presented on the next page.

# 11 CONTINGENCIES, RELATED PARTIES, AND LITIGATION

## » *Loss Contingencies*

No loss contingencies occurred during calendar year 2022.

## » *Related Party Transactions*

During 2022, the Core Fund entered into reverse repurchase agreements with the State Investment Fund (SIF), for which the investment assets are managed by SWIB as a counterparty. The transactions were governed by a Master Repurchase Agreement and credit exposure is also managed through the transfer of margin between the Core Fund and SIF. As of December 31, 2022, the Core Fund held \$4.7 billion in a bilateral reverse repurchase agreement with the SIF. The repurchase agreement was an overnight agreement collateralized with U.S. Treasury securities in the amount of 102%. The Core Fund enters into similar reverse repurchase agreements with other counterparties. The Core and Variable Funds are also participants in the SIF, with investments totaling \$2.2 billion and \$361.9 million, respectively, as of December 31, 2022. The SIF is a short-term, commingled fund with the investment objective of safety of principal and liquidity while earning a competitive money market rate of return.

## » *Litigation*

On March 8, 2019, ETF filed a complaint in Dane County Circuit Court against Vitech. The complaint intends to remedy damages suffered when Vitech breached its contract with ETF by failing to fulfill its promises according to the provisions of the contract. In response to the complaint, Vitech filed a counterclaim against ETF. The case is set for a status conference on January 10, 2024. Any resolution of this dispute is not anticipated to have a material effect on the WRS' financial position.

## REQUIRED SUPPLEMENTARY INFORMATION

### » PUBLIC ENTITY RISK POOLS

#### Claims Development Information

The tables on the following pages illustrate how the funds' earned revenues and investment income compare to related costs of loss and other expenses assumed by the funds as of the end of each of the last ten years. The rows of the tables are defined as follows:

1. **Net Earned Required Contributions and Investment Revenues.** Shows the total of each calendar year's earned contribution revenues and investment revenues.
2. **Unallocated Expense.** Shows each calendar year's other operating costs of the fund, including overhead and claims expenses not allocable to individual claims.
3. **Estimated Incurred Claims and Expenses as of the End of the Policy Year.** Shows the fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported as the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
4. **Paid Claims (Cumulative) as of Year-End.** Shows the cumulative amounts paid as of the end of successive years for each policy year.
5. **Re-estimated Incurred Claims and Expenses.** Shows how each policy year incurred claims increased or decreased as of the end of successive policy years. This annual re-estimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.
6. **Increase (Decrease) in Estimated Incurred Claims from End of Policy Year.** Compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the tables show data for successive policy years.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

### » *Wisconsin Retirement System (WRS)*

#### *Changes in Benefit Terms and Assumptions related to Pension Liabilities (Assets)*

**Benefit Terms:** There were no recent changes in benefit terms.

**Assumptions:**

Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%.
- Lowering the discount rate from 7.0% to 6.8%.
- Lowering the price inflation rate from 2.5% to 2.4%.
- Lowering the post-retirement adjustments from 1.9% to 1.7%.
- Changing mortality assumptions to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year ended December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%.
- Lowering the discount rate from 7.2% to 7.0%.
- Lowering the wage inflation rate from 3.2% to 3.0%.
- Lowering the price inflation rate from 2.7% to 2.5%.
- Lowering the post-retirement adjustments from 2.1% to 1.9%.
- Changing mortality assumptions to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

\*No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. Value is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

## » *Retiree Life Insurance Plans*

### *Changes in Benefit Terms and Assumptions related to Retiree Life OPEB Liabilities (Assets)*

**Benefit Terms:** There were no recent changes in benefit terms.

**Assumptions:** In addition to the rate changes detailed in the tables above, the State of Wisconsin Employee Trust Funds Board adopted economic and demographic assumption changes based on a three-year experience study performed for the Wisconsin Retirement System. These assumptions are used in the actuarial valuations of OPEB liabilities (assets) for the retiree life insurance programs and are summarized below.

The assumption changes that were used to measure the December 31, 2021 total OPEB liabilities include the following:

- Lowering the price inflation rate from 2.5% to 2.4%.
- Changing mortality assumptions to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

The assumption changes that were used to measure the December 31, 2018 total OPEB liabilities include the following:

- Lowering the long-term expected rate of return from 5.00% to 4.25%.
- Lowering the wage inflation rate from 3.2% to 3.0%.
- Lowering the price inflation rate from 2.7% to 2.5%.
- Changing mortality assumptions to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

## » *Supplemental Health Insurance Conversion Credit (SHICC)*

### *Changes in Benefit Terms and Assumptions related to SHICC OPEB Liabilities (Assets)*

**Benefit Terms:** There were no recent changes in benefit terms.

**Assumptions:** Based upon experience studies conducted in 2021 on the WRS and Wisconsin Sick Leave Conversion Credit programs that covered a three-year period from January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total OPEB liability (asset) beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.00% to 6.8%.
- Lowering the discount rate from 7.0% to 6.8%.
- Lowering the price inflation rate from 2.5% to 2.4%.
- Changing mortality assumptions to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.
- Changing the healthcare cost trend rate from an increase of 3.0% in each future year to 6.0% for the first year and declining each future year to an ultimate trend rate of 3.5% over a 12-year period.
- Changing health care premium assumptions to reflect one person and two person coverage for non Medicare and Medicare along with an election percentage assumption of 50%. Previously, the average non Medicare and Medicare premiums were based on active annuitant data with a 10% increase applied to the average premium.

## FINANCIAL SECTION

- Changing the escrowed benefit usage assumption to reflect that 50% of escrowed members will at some point begin using their sick leave balance to pay for health care costs. The present value of future benefits is now calculated by drawing down each member's account balance using the same average premiums applicable to active members and a 50% factor applied to the present value to account for the 50% escrowed benefit usage assumption. Previously, the present value of future benefits was calculated by taking the balance on deposit for escrowed annuitants multiplied by the ratio of the present value of future benefits for active status annuitants to the balance on deposit for active status annuitants multiplied by 50%.
- Changing the sick leave accumulation assumption to reflect that each individual is at their same rate as in the past (earned less used), but not more than 100% of the gross earned rate based on the person's employer and not less than 25% of their gross earned rate. The assumed annual gross earned rates range from 6.4 to 16.25 days, depending on the employer. Previously, each individual was assumed to continue using sick leave at the same rate as in the past but not less than 25% nor more than 75% of the person's annual accrual rate (usually 16.25 days).

Based upon a three-year experience study conducted in 2018 that covered the period from January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total OPEB liability (asset), beginning with the year-end December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%.
- Lowering the discount rate from 7.2% to 7.0%.
- Lowering the wage inflation rate from 3.2% to 3.0%.
- Lowering the price inflation rate from 2.7% to 2.5%.
- Changing mortality assumptions to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.
- Changing the healthcare cost trend rate from an increase of 3.2% in each future year to 3.0%.

2022	506	21,833	1,013	70	2	0.11

\*Benefit Payments increased in 2021 primarily due to \$54.0 million change in actuarially determined liabilities.

## Duty Disability Insurance Funded Status

(In Millions)

Year	Assets	Liabilities*	Unfunded (Overfunded) Liability	Percent Funded	Covered Payroll	UAAL as % of Covered Payroll
2013	\$ 568.9	\$ 507.1	\$ (61.8)	112.2 %	\$ 1,328.2	(4.7)%
2014	567.2	513.2	(54.0)	110.5	1,370.7	(3.9)
2015	592.8	448.1	(144.7)	132.3	1,401.3	(10.3)
2016	603.8	523.2	(80.6)	115.4	1,430.8	(5.6)
2017 *	641.4	464.8	(176.6)	138.0	1,467.6	(12.0)
2018	645.0	454.6	(190.4)	141.9	1,508.1	(12.6)
2019	662.0	466.3	(195.7)	142.0	1,565.6	(12.5)
2020	696.3	467.7	(228.6)	148.9	1,685.8	(13.6)
2021	747.7	523.8	(223.9)	142.7	1,698.5	(13.2)
2022	757.2	556.8	(200.4)	136.0	1,793.7	(11.2)

UAAL = Unfunded Actuarial Accrued Liability.

\*Beginning in 2017, Duty Disability Insurance is reported as an enterprise fund following GASB Statement No. 10. This resulted in a change in the way the actuarial liability is calculated compared to prior years.

Re: Wisconsin Retirement System (WRS)  
Actuarial Valuation as of December 31, 2022

Ladies and Gentlemen:

The basic financial objective of the WRS is to establish and receive contributions which:

- When expressed in terms of percents of active member payroll, will remain approximately level from generation-to-generation; and
- When combined with present assets and future investment return, will be sufficient to meet the financial obligations of WRS to present and future retirees and beneficiaries.

The purpose of the valuation was to determine contribution rates for the 2024 fiscal year. The valuation should not be relied upon for any other purpose. The valuation process develops contribution rates that are sufficient to fund the plan's normal cost (i.e., the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund unfunded actuarial accrued liabilities as a level percent of active member payroll over a finite period. The valuations were completed based upon population data, asset data, and plan provisions in effect on December 31, 2022. Note that GRS also prepares separate financial reporting information for accounting purposes.

The valuation was based upon information, furnished by the plan's administrative staff, concerning Retirement System benefits, financial transactions, and individual members, terminated members, retirees and beneficiaries. We checked the data for internal and year-to-year consistency, but did not audit the data. As a result, we do not assume responsibility for the accuracy or completeness of the data provided.

The actuary prepared the following supporting schedules for the Annual Comprehensive Financial Report:

Percent Increase in Salaries  
Single Life Retirement Values  
Rates of Retirement for Those Eligible to Retire  
Early Retirement Pattern  
Percentage of Active Members Withdrawing (Select and Ultimate)  
Percentage of Active Members becoming Disabled  
Solvency Test  
Summary of Accrued and Unfunded Accrued Liabilities

Assets are valued on a statutory market related basis that recognizes assumed return fully each year and spreads each year's gain or loss above or below assumed return over a closed five-year period.

## ACTUARIAL SECTION

Employee Trust Funds Board  
 July 13, 2023  
 Page 2

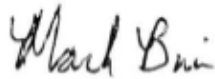

Actuarial valuations are based upon assumptions regarding future activity in specific risk areas including, but not limited to, the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. The Board adopts these assumptions after considering the advice of the actuary and other professionals. The assumptions and the methods are in conformity with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. Each actuarial valuation takes into account all prior differences between actual and assumed experience in each risk area and adjusts the contribution rates as needed. The December 31, 2022 valuations were based upon assumptions that were recommended in connection with a study of experience covering the 2018-2020 period. Future actuarial measurements may differ significantly from those presented in the valuations due to such factors as experience differing from that anticipated by actuarial assumptions, changes in plan provisions, actuarial assumptions/methods or applicable law. Due to the limited scope of the assignment, we did not perform an analysis of the potential range of future measurements. The valuation report includes various risk factors but does not include an assessment of the risks of future experience not meeting the actuarial assumptions. Additional assessment of risks was outside the scope of the assignment. However, assessment of risk including stress testing for the WRS was conducted in the fall of 2021 in conjunction with the State of Wisconsin Investment Board and a separate study commissioned in the fall of 2020 by the Department of Employee Trust Funds. Readers desiring a more complete understanding of the actuarial condition of the WRS are encouraged to obtain and read the complete valuation reports. The material in the Actuarial Section and Financial Section of this Annual Report contains some, but not all, of the information in the valuation reports.

The valuation was prepared using our proprietary valuation model and related software which, in our professional judgment, has the capability to provide results that are consistent with the purposes of the valuation. We performed tests to ensure that the model reasonably represents that which is intended to be modeled. We are relying on the GRS actuaries and Internal Software, Training, and Processes Team who developed and maintain the model.

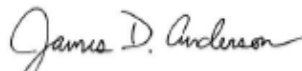

Based upon the results of the December 31, 2022 valuations, we are pleased to report to the Board that the Wisconsin Retirement System is meeting its basic financial objective and continues to operate in accordance with actuarial principles of level percent of payroll financing.

Mark Buis, James D. Anderson, and Richard C. Koch Jr. are Members of the American Academy of Actuaries (MAAA), and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

## ACTUARIAL SECTION

## SUMMARY OF WRS BENEFIT PROVISIONS

### Normal Retirement Eligibility

The age a participant becomes eligible for an unreduced age and service annuity is:

General		Protective Occupation		Executive and Elected <sup>2</sup>	
Age	Service	Age	Service	Age	Service
65	Any <sup>1</sup>	54	Any <sup>1</sup>	62	Any <sup>1</sup>
57	30	53	25	57	30

<sup>1</sup>Participants first employed after 1989 and terminated before April 24, 1998 must have creditable service in five calendar years. Participants first employed after June 30, 2011 must have five years of creditable service.

<sup>2</sup>These conditions apply to those people hired on or before December 31, 2016. For others, the General eligibility conditions apply.

### Normal Retirement Annuity

The age and service annuity payable at Normal Retirement Age is based on Final Average Earnings (FAE) and Creditable Service (CS) as follows:

Group	Multiplier for Service Rendered		
	Before 2000	Between 2000 and 2011	After 2011
Executive group and elected officials	2.165%	2.0%	1.6%
Protective occupation participants covered by Social Security	2.165%	2.0%	2.0%
Protective occupation participants not covered by Social Security	2.665%	2.5%	2.5%
All other participants	1.765%	1.6%	1.6%

FAE is generally the average of the three highest years of earnings preceding retirement (July 1 - June 30 for teachers, educational support staff, and judges; calendar year for others). These years do not have to be consecutive. For legislators and state constitutional officers who are ineligible to receive pay increases during their term, FAE is the statutory rate of earnings at termination.

Maximum formula annuity is 85% of FAE for protective occupation participants not covered by Social Security, 65% of FAE for protectives covered by Social Security, and 70% for all other participants. If greater than the formula amount, an annuity equal to the actuarial equivalent of two times the required accumulated contributions is paid in lieu of the formula amount.

**Reduced Retirement:** Any participant who has attained age 55 and any protective occupation participant who has attained age 50 may apply for a reduced retirement annuity. The benefit is reduced 0.4% for each month that the annuity effective date precedes the Normal Retirement Age. For non-protective participants terminating after June 30, 1990, the 0.4% is reduced for months after the attainment of age 57 and before the annuity effective date by .001111% for each month of creditable service. Reduced Retirement was previously called Early Retirement.

**Voluntary Termination Before Immediate Benefit Eligibility:** A participant who terminates service before being eligible for a retirement annuity may either (1) receive a refund of accumulated contributions, or (2) leave contributions on deposit and apply for a retirement annuity on or after the minimum retirement age based upon age and accrued service at time of termination.

**Post-Retirement Adjustments:** Annuities are increased annually if the investment income credited to retired life funds is in excess of the assumed rate (presently 5%), other plan experiences are within projected ranges, and the resulting adjustment would be at least 0.5% (2.0% for the Variable Fund).

Previously granted adjustments can be revoked if the investment income is insufficient to support these previously granted increases. However, a Core Fund annuity cannot be reduced below the amount granted upon inception. Slightly different provisions apply to variable annuities.

**Disability Benefits:** Generally, disability means the inability to engage in any substantial gainful activity by reason of a medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration. Disability applicants must be participating employees who are under normal retirement age, have not already taken a WRS benefit, and who meet a service requirement.

For this purpose normal retirement age is:

- 65 for general employees and executives and elected officials hired after December 31, 2016.
- 62 for executives and elected officials hired on or before December 31, 2016.
- 53 for protective occupation employees with 25 or more years of creditable service.
- 54 for other protective occupation employees.

The service requirement is that during the seven years preceding application the individual must have earned:

- At least 6 months of service credit in five of those years or
- A total of five years of service credit.

The service credit requirement may be waived if the disability is work-related. Protective occupation employees who become disabled between the ages of 50 and 55, who have at least 15 years of service, and who can no longer perform the duties of their position may apply for a special disability benefit until age 55.

**Disability Amount:** The disability benefit is the WRS formula benefit based upon service projected to normal retirement age as described above, without regard to the reduced retirement reduction.

	<b>WRS Plan</b>	<b>Long-Term Disability Insurance (LTDI) Plan</b>
Participants Covered	- Participants continuously employed by a WRS employer since 10/15/92, who applied for disability benefits prior to 1/1/18, and did not elect LTDI coverage. - All participants who apply for disability benefits after 12/31/17.	- Participants who were eligible for WRS disability, but elected LTDI coverage and applied for disability benefits prior to 1/1/18. - Participants who were not eligible for WRS disability and applied for an LTDI benefit prior to 1/1/18.
Benefit to age 65*	WRS formula benefit based on service projected to normal retirement age.	40% of FAE for participants covered by Social Security; 50% of FAE for non-covered participants who cannot qualify for Social Security disability benefits.
Benefit at age 65*	Continuation of pre-65 amount.	WRS benefit accrued to date of disability plus 7% of FAE money purchase benefit during disability period, both of which are adjusted in accordance with the dividend rate.

\* Conversion age is later for participants becoming disabled after age 61.

## ACTUARIAL SECTION

**Death In Service:** Prior to age 50 for protective participants and age 55 for others, the benefit is the equivalent of twice the accumulated employee required and all additional contributions and employer amounts contributed prior to 1974 for teachers or 1966 for others. After age 50 for protective participants, and age 55 for others, the benefit is the amount that would have been paid if participant had retired and elected the 100% survivor option. The benefit is payable to an eligible beneficiary who must be a natural living person. If there is no eligible beneficiary, a refund of contributions is paid to the estate.

**Interest Credits:** For years after 1999 and for people with some active service after 1999, participant Core accounts (including the Variable and Core accounts) are credited with interest at the full (Core) effective rate. For others, accounts are credited with interest as shown below:

Date of Participation	Rate Credited For Purpose of	
	Money Purchase Minimum	Refunds
Prior to 1982	Core Effective Rate	Core Effective Rate
January 1, 1982 and later and terminated prior to January 1, 2000	5%	3%
January 1, 1982 and later and not terminated prior to January 1, 2000	Core Effective Rate	Core Effective Rate

Interest is credited on member Variable Fund accounts based on the prior year ending account balance and the Variable effective rate.

Interest on both Core and Variable member additional deposit accounts is based on the prior year ending account balance and the appropriate effective rate.

**Contribution Rates:** The financial objective of the WRS is to establish and receive contributions that will remain level from year to year and decade to decade.

Effective June 28, 2011, the member contribution for general category employees, teachers and executives and elected officials is equal to half the actuarially required contribution. The member contribution for protective occupations is the same percentage as general employees. The employer is responsible for the remainder of the actuarially determined contribution. The employer may not pay any portion of the member contribution unless provided for by a pre-existing collective bargaining agreement.

**Normal Form of Benefit:** The normal form of benefit is a straight life annuity with no death benefits. Optional forms of benefit which are actuarially reduced are listed below:

- A life annuity with 60 or 180 monthly payments guaranteed.
- A joint survivorship annuity with 75% continued to beneficiary.
- A joint survivorship annuity with 100% continued to beneficiary.
- A joint survivorship annuity reduced 25% upon either your death or your beneficiary's death.
- A joint survivorship annuity with 100% continued to beneficiary combined with 180 monthly payments guaranteed.

For formula benefit calculations, optional forms are calculated at the lower of the current age or age 62 (Normal Retirement Age for Protective occupations). If a retiree (and beneficiary if in receipt of a joint survivorship annuity) dies prior to receiving benefits which, in total, are at least equal to the members contributions, a "residual refund" for the difference is paid.

**Vesting:** Participants hired prior to July 1, 2011 vest immediately. After July 1, 2011, participants vest after five years of service.

## ACTUARIAL METHOD AND ASSUMPTIONS USED IN WRS VALUATIONS

The principal areas of risk assumption are:

1. Long-term rates of investment income likely to be generated by the assets of the retirement fund. This includes both realized and unrealized appreciation and depreciation.
2. Rates of mortality among participants, retirees and beneficiaries.
3. Rates of withdrawal of active participants.
4. Rates of disability among participants.
5. Patterns of salary increases to be experienced by participants.
6. The age and service distribution of actual retirements.

In an actuarial valuation, the actuary projects the monetary value of each assumption for each distinct experience group, for the next year and for each year over the next half-century or longer.

Once actual risk experience has occurred and been observed, it will not coincide exactly with assumed risk experience, regardless of the skill of the actuary, the completeness of the data, and the precision of the calculations. Each valuation provides a complete recalculation of assumed future risk experience and takes into account all past differences between assumed and actual risk experience. The result is a continual series of small adjustments to the computed contribution rate. From time to time it becomes necessary to adjust the package of risk measurements to reflect basic experience trends -- but not random year-to-year fluctuations.

The actuarial funding method used in the valuation was the Frozen Initial Liability (FIL) method. Under this method, the amount of remaining unfunded actuarial accrued liabilities at any valuation date is affected only by the monthly amortization payments, compound interest, the added liability created by new employer units, and any added liabilities caused by changes in benefit provisions.

### » *Economic Assumptions*

The **Investment Return Assumption** for plan assets is 6.8%.

For determining plan liabilities, the **Discount Rate** is 5.0% for retired participants, 5.0% for active and inactive participants following retirement, and 6.8% for active and inactive participants prior to their retirement. A valuation performed, assuming a 5.4% discount rate for all participants at all stages of life, reproduces the results of an actuarial valuation using the 5.0% post-retirement and 6.8% pre-retirement assumptions. Thus, the net discount rate assumed in the valuations was 5.4% per year, compounded annually (net after administrative expenses).

The **Wage Inflation Rate** assumed in this valuation was 3.0% per year. The wage inflation rate is defined as the portion of total pay increases for an individual that are due to macroeconomic forces, including productivity, price inflation, and labor market conditions. The wage inflation rate does not include pay changes related to individual merit and seniority effects.

No specific **Price Inflation** assumption is required to perform this valuation. The price inflation assumption used to evaluate the investment return assumption is 2.4%.

## ACTUARIAL SECTION

The assumed **Real Rate of Return** over wage inflation is defined as the portion of total investment return that is more than the assumed total wage growth rate. Considering other economic assumptions, the 6.8% pre-retirement investment return rate translates to an assumed real rate of return over wage inflation of 3.8%. The assumed real rate of return over price inflation is 4.4% considering an inflation assumption of 2.4%.

**Merit and Longevity pay increase assumptions** for individual active participants are shown for sample services below. An additional 3.0% recognizes wage inflation, including price inflation, productivity increases, and other macroeconomic forces.

**» Decrement Probabilities**

The Active Member Population is assumed to remain constant. For purposes of financing the unfunded liabilities, total payroll is assumed to grow at the wage inflation rate of 3.00% per year.

The mortality table used to measure mortality for retired participants was the 2020 WRS Experience Tables. The rates in this table were based on actual WRS experience adjusted for future mortality improvements using the MP-2021 fully generated improvement scale from a base year of 2010. This mortality assumption was adopted by the Board in connection with the 2018-2020 Experience Study. Sample retirement values from this table are shown below. This assumption is used to measure the probabilities of participants dying before retirement and the probabilities of each benefit payment being made after retirement.

**Single Life Retirement Values (Retired Participants)**

2020 WRS Experience Table With 5% Interest

Sample Attained Ages in 2022	Present Value of \$1 Monthly for Life*		Future Life Expectancy (years)*		Mortality Rates*

## ACTUARIAL SECTION

The assumed rates of separation from employment prior to service retirement due to disability and other causes are shown below for sample ages. For other terminations it was assumed that a percentage, depending on age of participants terminating after age 35 with five or more years of service, will leave their contributions on deposit and be paid a benefit at normal retirement age and that the remaining participants would take a separation benefit. The percentage taking a separation benefit is 25% at age 35, grading downward to 0% at retirement eligibility. All participants terminating prior to normal retirement age with less than five years of service were assumed to take a separation benefit.

## ACTUARIAL SECTION

## WRS Contribution Rates

### » Notes to Contribution Rates Schedule

Prior to June 28, 2011, the member contribution rate was set by Wis. Stat. § 40.05 (1), and part or all the required member contributions could be paid by the employer on behalf of the employee. Effective June 28, 2011, the member contribution rate for general and executive/elected category employees is equal to the general category rate. Employers may not pay the member contribution on their behalf unless provided for by an existing collective bargaining agreement.

The unfunded liability was recalculated in 1990 to reflect benefit improvements and is being amortized on a level percentage of salary basis over a period of 40 years beginning January 1, 1990, for the employers in the WRS prior to 2009, or on the effective date of the employer's participation, whichever is later. Liabilities for employers joining the WRS beginning in 2009 are amortized over 30 years. Prior service rates vary by employers. The percentage reported represents a weighted average.

Beginning in 2018, disability count includes Long-Term Disability Insurance annuities.

# INVESTMENT SECTION

The background features a series of overlapping, wavy shapes in various shades of blue and white. The top right corner is dominated by a dense, overlapping pattern of thin blue lines that form a large, curved shape. Below this, there are several larger, smoother, overlapping shapes in lighter and darker blue tones, creating a sense of depth and movement.

### Prepared by the State of Wisconsin Investment Board

#### » MESSAGE FROM THE EXECUTIVE DIRECTOR/CHIEF INVESTMENT OFFICER

The headlines said it all. On Dec. 30, 2022 CNBC reported “Stocks fall to end Wall Street’s worst year since 2008, S&P 500 finishes 2022 down nearly 20%.” Early in 2023, another CNBC article declared “2022 was the worst-ever year for U.S. bonds.” MarketWatch.com wrote “2022 was ‘the biggest outlier year’ in markets history as stocks and bonds both plunged.”

Investing in that environment, the Wisconsin Retirement System’s (WRS) Core Trust Fund ended the year with a net loss of 12.92% and a five-year positive net return of 6.16%. The Core Fund’s 10-year and 20-year returns net of external manager fees continued to exceed its target return of 6.80%. SWIB outperformed its benchmarks for all these periods.

The Core Fund’s smoothing mechanism, which levels out annual gains and losses over five-year periods, was built precisely for times like these. Despite a difficult 2022 in the markets, WRS beneficiaries saw a modest, positive annuity adjustment this spring thanks largely to strong absolute investment returns in 2019, 2020, and 2021. Contribution rates for WRS employers and employees are expected to remain stable.

SWIB met several of its organizational goals during 2022. SWIB expanded its investment capabilities with the successful launch of a leveraged loans strategy that is managed internally and supported by SWIB staff on an industry-leading bank loan technology platform. SWIB also worked to enhance its collateral and liquidity management, attaining readiness to comply with new market regulations impacting margin requirements. In 2022, SWIB also continued to strengthen its information security program, through multiple updates and enhancements to its technical infrastructure and additional staff training related to cyber risk prevention. In addition, SWIB completed several critical technology updates and implemented new platforms to support the private markets portfolio and research management. Lastly, SWIB continued its strategic investment in people, processes, and technology to enable improved data and service quality and to better support our investment strategies.

Significant market corrections like we experienced in 2022 further reinforce the importance of maintaining a fully funded pension system and implementing an investment strategy that can weather a variety of market climates. SWIB and the WRS are well-positioned to confront whatever challenges might be in store for investors in 2023.

Edwin Denson  
Executive Director/Chief Investment Officer

**» ABOUT THE INVESTMENT BOARD**

SWIB is a trusted and skilled investment organization contributing to the strong financial future of the beneficiaries of the funds entrusted to it. An independent state agency governed by Wis. Stat. § 25, SWIB is responsible for managing the assets of the fully funded Wisconsin Retirement System (WRS), the State Investment Fund (SIF), and other separately managed funds. The SIF is a pool of invested cash balances of the WRS and various state and local government units. Other funds managed by SWIB include the State Life Insurance Fund, Historical Society Trust Fund, Injured Patients and Families Compensation Fund, and University of Wisconsin System Trust Funds.

SWIB was created under Wis. Stat. § 15.76 and its duties to invest these funds are provided in Wis. Stat. § 25. SWIB is a fiduciary and is governed by the “prudent investor” standard, which requires it to use the diligence, skill, and care that a prudent person acting in a similar capacity and with the same resources would use in managing a large public pension fund. The law also requires SWIB to make investment decisions and conduct its operations solely to fulfill the purpose of the funds under management.

SWIB is governed by a nine-person, independent Board of Trustees. Trustees appoint the executive director and set the governing policies for SWIB. The executive director/chief investment officer (ED/CIO) oversees the staff, develops and recommends agency and investment policies for Board adoption, and ensures adherence to state law and policies. The ED/CIO serves as chair of the Investment Committee. The Investment Committee provides oversight of SWIB’s investments and reports to and makes recommendations to the Trustees.

**» WISCONSIN RETIREMENT SYSTEM**

Approximately 678,000 people participate in the WRS, including current and former employees of Wisconsin’s state agencies, most local governments, and school districts in Wisconsin. Contributions made to the WRS by these employees and their employers are invested by SWIB to finance retirement and other benefits.

The larger of the two trust funds comprising the WRS is the Core Fund. The Core Fund had a Net Investment Position of \$114.4 billion as of December 31, 2022. All WRS members have at least half, and most have all, of their pension contributions invested in the Core Fund. It is a diversified, balanced fund invested for the long-term needs of the WRS. Diversification helps stabilize the effects of market changes. The investment objective of this trust fund is to meet or exceed an annual average nominal return of 6.8% over the long-term. This return target is set by ETF with input from external consultants using several factors including market returns, estimated wage growth, and other actuarial assumptions.

Active employees participating in the WRS have the option of allocating half of their pension fund contributions to the Variable Fund, which almost entirely consists of global equity investments. Approximately 14% of WRS members participate in the Variable Fund, which maintained a Net Investment Position of \$8.4 billion as of December 31, 2022. By law, the Variable Fund invests primarily in equity securities and provides participants the potential for higher returns while bearing greater risk. The investment objective of the Variable Fund is to meet or exceed broad equity market indices over a full market cycle.

**WRS Time-Weighted Annualized Returns**
**As of December 31, 2022**

	Net of All Fees and Costs		Net of External Manager Fees	
	One Year	Five Years	Ten Years	Twenty Years
Core Fund	(12.9) %	6.2 %	7.3 %	7.7 %
Core Fund Benchmark	(13.3)	5.7	6.8	7.4
Variable Fund	(17.8)	6.5	9.8	8.8
Variable Fund Benchmark	(18.1)	6.5	9.7	8.8

The investments of the Retirement Funds are reported in the Statement of Fiduciary Net Position at fair value as prescribed by GASB and in accordance with Wis. Stat. § 25.17 (14). Unrealized gains and losses are reflected in the Statement of Changes in Fiduciary Net Position as "Net Increase (Decrease) in Fair Value of Investments."

The fair value of the Retirement Funds is obtained or estimated in accordance with a pricing hierarchy established with SWIB's custodian. As prescribed by the hierarchy, a variety of independent pricing sources are used to price assets based on type, class, or issue.

When a portfolio includes securities or instruments for which the custodial bank does not receive fair value information from its vendor pricing sources, a variety of third-party pricing methods are used, including appraisals, pricing models, and other methods deemed acceptable by industry standards.

The "Equity in Pooled Cash and Cash Equivalents" category reported in the Statement of Fiduciary Net Position consists of short-term investments used to meet the liquidity requirements of the Retirement Funds. Equity in Pooled Cash and Cash Equivalents held by the Retirement Funds can include cash on deposit, foreign currencies, cash posted as collateral to counterparties, repurchase agreements, certificates of deposit, time deposits, U.S. Treasury Bills, short-term investment funds, and other U.S. or foreign liquid financial instruments with maturities that are generally less than three months. Equity in Pooled Cash and Cash Equivalents are reported at fair value or cost, which approximates fair value.

Privately held debt, which is included as "Fixed Income investments" in the Statement of Fiduciary Net Position, is priced using approaches that value each holding based on the best available information using the following hierarchy of pricing sources:

- Custodian-supplied prices for assets that can be priced in accordance with the pricing hierarchy established with SWIB's custodian.
- Prices provided by a third party with expertise in the debt markets.

For private market investments where no readily ascertainable market value exists, including limited partnerships and real estate pooled funds, fair value is estimated based on the net asset values (NAV) provided by the general partner. Due to the reporting timing of private market investment managers, reported fair values as of December 31, 2022 are based on actual September 30, 2022 reporting, which has been adjusted to reflect cash flows occurring from October 1, 2022 through December 31, 2022. The reported fair value is considered an estimate that may differ from the value that could be realized in a secondary market transaction, or the amount ultimately realized. The financial statements of the limited partnerships and real estate pooled funds are audited by independent auditors annually.

## INVESTMENT SECTION

Certain portfolios invest in privately held companies alongside a strategic partner, such as a limited partnership fund manager. These co-investments are valued by SWIB's strategic partners, who often employ independent valuation agents and use a variety of methodologies including reviews of subsequent financing rounds, discounted cash flow analyses, cash flow multiples analyses, reviews of market comparable sales or metrics, and reviews of third-party appraisals.

Real estate investments owned by SWIB in limited liability companies are valued by independent appraisers every three years. In years when appraisals are not performed, properties are informally appraised by the asset advisor. Each year audited financial statements are prepared for each property.

SWIB employs portfolio strategies which comprise investments across multiple asset classes. The "Multi-Asset Investments" account in the Statement of Fiduciary Net Position consists primarily of hedge funds. SWIB values hedge funds based on monthly statements or estimated returns received from each of the hedge fund's administrators.

A third-party administrator's responsibility is to independently account for the hedge fund's activity and calculate the NAV of the fund. Generally, hedge fund administrators' price financial instruments traded in active markets based on quoted market prices or binding dealer quotations. For certain over the counter (OTC) instruments, fair value is determined based on valuation models used by the administrator or independent valuation agent. Annually, the financial statements prepared by the administrator are audited by independent auditors.

Derivative financial instruments are marked to market daily, with valuation changes recognized in income during the period the instruments are held and when the instrument is sold or expires.

A limited number of securities are carried at cost. Certain non-public or closely held investments are not reported at fair value but are carried at cost, as no independent price quotes are available to estimate fair value for these securities.

### » INVESTMENT POLICY

As part of its fiduciary responsibilities, SWIB is required by Wis. Stat. § 25.15 (2)(b) "to diversify investments in order to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so, considering each trust's or fund's portfolio as a whole at any point in time." SWIB exercises this duty in part by establishing its investment policy and by setting the asset allocation.

The Board-approved investment policy for the WRS is intended to assist in development of a diversified portfolio of investments within acceptable risk parameters. The policy represents a delegation of standing authority to the ED/CIO and investment managers within the organization to make prudent investments within the investment guidelines, pursuant to Wis. Stat. § 15.02 (4) and Wis. Stat. § 25.15 (2) and section IB 2.02 of the Wisconsin Administrative Code.

Additionally, the Investment Committee (IC) was created to provide oversight of SWIB investments within the parameters established by the Board of Trustees. Oversight includes analysis of risk and investment returns of the portfolios, asset classes, and Core and Variable Funds. The IC is responsible for proposing to the Board of Trustees changes to the WRS investment policy, approving investment guidelines or strategies for internally managed portfolios, approving the general strategies for each asset class, and for approving new investment and derivative instruments. The Board of Trustees reserves all rights to modify and amend IC guidelines at any time at its discretion.

The IC-approved WRS Investment Guidelines include several policies, including a derivatives use policy, rebalancing procedures, and a leverage use policy. The derivatives use policy sets forth the objectives,

monitoring, and reporting guidelines relating to derivative investments. The rebalancing procedures used in both mandatory and discretionary asset class rebalancing are described in the Investment Guidelines, and the leverage use policy describes SWIB's leverage philosophy. The total amount of policy leverage is approved by the Board of Trustees through the WRS asset allocation process.

## » SCHEDULE OF INVESTMENT RESULTS

The tables below present returns for the Core and Variable Funds on a total fund basis as well as by asset class. Appropriate benchmark returns are provided for comparison purposes.

<b>Time-Weighted Core Fund and Asset Class Returns*</b>			
<b>As of December 31, 2022</b>			
	<b>1-Year Return</b>	<b>5-Year Return</b>	<b>10-Year Return</b>
	<b>%</b>	<b>%</b>	<b>%</b>
Core Fund	(12.9) %	6.2 %	7.3 %

## INVESTMENT SECTION

## » ASSET ALLOCATION

SWIB's Board of Trustees has established the asset allocation pursuant to a comprehensive and ongoing evaluation of the appropriate risk and return standards for each fund under management.

The Board adopts the Retirement Funds' asset allocation policy, based on recommendations by the IC, the Board's asset allocation consultant, ED/CIO, and Head Economist & Asset and Risk Allocation Chief Investment Officer. SWIB undertakes a comprehensive review of its strategic asset allocation plan every other year, including asset/liability modeling, to determine a suitable target allocation for each asset class included in the Core and Variable Funds, and an annual review to assess whether any interim adjustments should be made. The strategic nature of these reviews contemplates a long-term time horizon over which potential results are evaluated. This exercise is not an attempt to predict short-term market movements, but an effort to understand the long-term impacts of poor, normal, and above average market results.

In addition to potential future market impact, SWIB also contemplates the objectives of the funds, the impact of actuarial analysis, and the soundness of investment return and risk expectations. SWIB's asset allocation policies reflect the Board's program of risk allocation that involves reducing equity exposure by leveraging lower volatility assets, such as fixed income securities. This investment strategy results in Core Fund strategic targets which exceed 100% of invested assets. Currently, the Board has approved an asset allocation target of 15% policy leverage for the Core Fund subject to an allowable range of up to 20%.

SWIB's asset allocation review process also includes assumptions regarding expected rates of return. Long-term (e.g., 30-year) expected real rates of return on pension plan investments are determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The table entitled Asset Allocation Targets and Expected Returns presents the policy asset allocation targets and the best estimates of expected geometric rates of return for each major asset class as of December 31, 2022.

**Retirement Funds  
Asset Allocation Targets and Expected Returns<sup>1</sup>  
As of December 31, 2022**

<b>Core Fund Asset Class</b>	<b>Asset Allocation %</b>	<b>Long-Term Expected Nominal Rate of Return %</b>	<b>Long-Term Expected Real Rate of Return %<sup>2</sup></b>
Public Equity	48 %	7.6 %	5.0 %
Public Fixed Income	25	5.3	2.7
Inflation Sensitive Assets	19	3.6	1.1
Real Estate	8	5.2	2.6
Private Equity/Debt	15	9.6	6.9
<b>Total Core Fund<sup>3</sup></b>	<b>115 %</b>	<b>7.4 %</b>	<b>4.8 %</b>
<b>Variable Fund Asset Class</b>			
U.S. Equities	70 %	7.2 %	4.6 %
International Equities	30	8.1	5.5
<b>Total Variable Fund</b>	<b>100 %</b>	<b>7.7 %</b>	<b>5.1 %</b>

<sup>1</sup>Asset allocations are managed within established ranges; target percentages may differ from actual monthly allocations.

<sup>2</sup>New England Pension Consultants Long Term U.S. CPI (Inflation) Forecast: 2.5%.

<sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

In determining asset allocation targets, investments may be categorized differently than they are within the financial statements. For example, SWIB management considers inflation-sensitive assets separately from other fixed income investments for asset allocation purposes.

**» WRS INVESTMENT INCOME AND FEES**

Investment Expense includes transaction-related expenses, certain external management fees, and expenses tied to Core Fund operations.

Transaction-related expenses are reflected in Investment Operating Expense and Securities Lending Fees. These expenses often relate to the execution of specific investment transactions like short sales. In this example, the dividends a shorted security must pay are reflected as dividend expense. Two transaction related expense types—commissions and trade execution fees—are excluded from Investment Operating Expense and are instead included in Net Increase (Decrease) in the Fair Value of Investments in the Statement of Changes in Fiduciary Net Position. These expenses are not readily separable from the acquisition or disposal of an investment. External investment management fees include base fees and performance fees paid to external managers when they are managing assets on SWIB's behalf within accounts held in SWIB's name. Administrative-related expenses are included in Internal Operating Expenses. Professional Services Expenses include legal fees, research and data services, and investment consulting fees.

<b>Schedule of WRS Investment Income and Fees</b>				
<b>For the Calendar Year Ended December 31, 2022</b>				
(In Thousands)				
	<b>Core Fund</b>		<b>Variable Fund</b>	
Investment Income (Loss)	\$	(16,602,684)	\$	(1,889,621)
Less:				
Investment Operating Expense*		609,715		146
Internal Operating Expense*		75,562		2,861
Custodial, Bank Fees and Operating Services*		5,756		454
Professional Services Expenses*		35,983		1,150
External Investment Management Fees*		43,917		2,976
Securities Lending Fees		71,790		4,389
<b>Net Investment Income (Loss)</b>	<b>\$</b>	<b>(17,445,407)</b>	<b>\$</b>	<b>(1,901,597)</b>

\*These expenses are combined and reported as "Investment Expense" in the Statement of Changes in Fiduciary Net Position

## INVESTMENT SECTION

SWIB invests in external legal entities managed by external investment managers to gain exposure to select investment strategies. In exchange for their investment management services, the external managers charge a fee within the entity they manage. These fees are typically assessed as a percentage of SWIB's commitment to, or investment in, the external entity. The fees assessed to these external entities are recorded as a fee within the external entity and are thus included in the Net Increase (Decrease) in the Fair Value of Investments within the Statement of Changes in Fiduciary Net Position.

<b>Schedule of WRS External Management Fees</b>		
<b>For the Calendar Year Ended December 31, 2022<sup>1</sup></b>		
(In Thousands)		
Private Equity <sup>2</sup>	\$	509,629
Hedge Funds <sup>3</sup>		252,533
Real Estate <sup>2</sup>		235,880
External Investment Management <sup>4</sup>		109,842
<b>Total Fees</b>	<b>\$</b>	<b>1,107,884</b>

<sup>1</sup>Includes performance based fees.

<sup>2</sup>Included within Private Fund Investments in the Statement of Fiduciary Net Position.

<sup>3</sup>Included within Multi Asset Investments in the Statement of Fiduciary Net Position.

<sup>4</sup>Includes external investment management fees incurred within certain external funds as well as approximately \$46.9 million in fees paid to external managers in exchange for services they provide within SWIB-custodied accounts, which are included in the Statement of Changes in Fiduciary Net Position.
