Re: West Virginia Teachers' Retirement System: Actuarial Valuation as of July 1, 2010

Retirement Board Members:

We respectfully present our report on the actuarial valuation of the West Virginia Teachers' Retirement System (TRS) as of July 1, 2010. This valuation presents the liabilities of the plan as of the valuation date and the projected Employer contribution for fiscal year 2012.

Some key highlights are:

- The valuation was prepared based on an assumed interest rate of 7.5%.
- Based on the valuation results, the State contribution to TRS for fiscal year 2012 is \$471,027,000. The State appropriation needed for fiscal year 2012 for the Teachers' Retirement Plans (TRS and TDC) under the School Aid Formula is \$440,901,000.
- The funded percentage of plan assets to the actuarial accrued liability at the valuation date is 47%, compared to 41% for the prior year.

This report contains supporting data and background information pertaining to the development of costs and related liabilities of the plan. The valuation is based on:

- membership data as of June 30, 2010 maintained by the West Virginia Consolidated Public Retirement Board, and
- financial information received from the West Virginia Investment Management Board.

This report presents fairly the actuarial position of the West Virginia Teachers' Retirement System (TRS) as of July 1, 2010 in accordance with generally accepted actuarial principles applied on a basis consistent with that of the preceding valuation. In our opinion, the assumptions used in preparing the liabilities and costs are individually reasonable in respect to TRS experience and represent our best estimate of anticipated experience under TRS.

Appendix: Detailed Assumptions	30

This report presents the results of the July 1, 2010 actuarial valuation of the West Virginia Teachers' Retirement System and includes the projected employer contribution requirement for FY 2012. In addition, the report includes disclosure information under GASB 25 and GASB 27. A summary of the plan features, a summary of the method, factors and assumptions, and supplementary membership tables used in the valuation are also included.

Valuation Results

The West Virginia Teachers' Retirement System (TRS) is a defined benefit plan covering education employees hired prior to July 1, 1991, or hired on and after July 1, 2005, and prior Teachers' Defined Contribution Plan (TDC) members who elected to transfer from TDC to TRS effective July 1, 2008 or August 1, 2008. The plan provides unreduced monthly benefits to members upon retirement after 35 years of service, or at age 60 after completing 5 years of service. The plan also provides reduced early retirement benefits, benefits in the event of disability or death while active, and deferred benefits to members who terminate prior to retirement, providing plan eligibility conditions are met.

The plan is funded through member contributions of 6% of payroll and employer contributions sufficient to provide for any remaining normal cost (after member contributions are accounted for) and to amortize the unfunded liability as a level-dollar amount starting from FY 2009.

The major purpose of this valuation is to determine the amount of appropriation needed for FY 2012 for West Virginia's Teachers Retirement Plans under the School Aid Formula (SAF), which is determined to be \$440,901,000. Two components of the SAF determination are calculated in the valuation process: the contributions required from the State for TRS, and a projection of the State's contributions to TDC, both for the FY 2012.

The State's contribution to TRS is based on an actuarial valuation of the provisions of the State code and the participant data, in consideration of the assets held in trust for TRS. The details of the TRS contribution for FY 2012 are shown in Table 1.

The State's TRS contribution for FY 2012, assuming a mid-year payment, consists of three separate components:

- The State share of the normal cost,
- The amount needed to fund the unfunded actuarial accrued liability, net of the liability for recent benefit changes, over a 40-year period which began in 1994 (as required by Section 18-9A-6a of the State code), and
- The amount required to separately amortize the liability for recent benefit changes. For FY 2012, this includes the retiree improvements under H.B. 4846.

The total State TRS contribution on this basis is \$471,027,000.

Starting with FY 2009, the annual amortization payment toward the unfunded liability is determined as a level-dollar amount that is amortized over a 40-year period from July 1, 1994. In prior years, the amortization was determined as a level percentage of the projected total education payroll. The total amount contributed to the plan from FY 2009 forward will fund the normal cost plus interest and principal on the unfunded liability, fully amortizing the unfunded liability by the end of FY 2034.

For FY 2012, the annual amortization payment toward the unfunded liability for the retiree improvements under H.B. 4846 is \$583,000. This payment will complete the amortization of this portion of the Plan's unfunded liability.

Table 2 presents the development of the School Aid Formula, separately identifying the TRS contribution based on the original 40-year amortization, the special payments toward the additional unfunded due to recent plan improvements, and other specific components. Detailed projections of the balance of the 40-year funding program under the level-dollar amortization schedule, net of the separately funded improvements, are shown in Tables 3 and 4.

The projected TDC contribution for FY 2012 for the School Aid Formula is based on projected payroll for that participant population. The split of both the TRS and the TDC contributions is based on information provided by the state Education Department. The projected fire insurance premium tax shown in Table 2 was provided by the Department of Administration.

Comments on Valuation Results

Table 1 presents the development of the valuation results as of July 1, 2010 and, for comparison purposes, July 1, 2009. Based on the prior year's projections, the expected unfunded actuarial accrued liability as of July 1, 2010 was \$5.061 billion. The actual unfunded liability at the valuation date is \$4.761 billion, a decrease of \$0.300 billion.

The increase in the unfunded liability was primarily due to the following:

- The return on assets for the year ending June 30, 2010 was approximately 14.8%. This return was well above the prior year's valuation assumption of 7.50% and decreased the unfunded liability by approximately \$261 million.
- Contributions in excess of those expected decreased the unfunded liability by approximately \$42 million.
- The combined impact of turnover, mortality, and retirement experience increased the unfunded liability by approximately \$3 million.

Tables 3 and 4 present projections of the unfunded accrued liability, net of the separately funded liability, to June 30, 2034. Table 3 illustrates the expected pattern of change in the unfunded liability over the remaining 24-year period. The unfunded liability is expected to decrease steadily to zero at the end of the period. Table 4 presents the expected funding progress toward the unfunded actuarial accrued liability based on the funding policy. This table illustrates the expected dollar amount of change in this component of the unfunded liability from year to year.

Table 5 presents a cash flow projection of expected asset balances, contributions, disbursements, and earnings over the period to FY 2034.

The valuation results were determined using an interest rate of 7.5% with an underlying inflation assumption of 3.0%.

Funding Progress

The information used to report on the funding status of the Plan for both the State's and the Plan's financial statements is presented in Table 6. This table presents information required under Governmental Accounting Standards Board Statement Numbers 25 and 27 (GASB 25 and GASB 27).

Plan Membership

A summary of plan membership, with a comparison to the prior year, follows:

	<u>July 1, 2010</u>	<u>July 1, 2009</u>

Total	68,838	67,786

Table 9 presents a reconciliation of plan membership during the year. Table 10 presents detailed information on the categories of plan membership.

Tables 11(a) and 11(b) present the number and total annual compensation of actives, separately for Teachers and Non-Teachers (including State), by 5-year age and service groups as of July 1, 2010.

Table 12 presents the number and average monthly benefits of retirees and beneficiaries included in the valuation distributed by 5-year age groups. Table 13 shows a similar distribution for terminated vested participants entitled to deferred benefits.

-
- A. Plan Name:** The State Teachers' Retirement System (TRS)
- B. Effective Date:** Originally enacted effective July 1, 1941.
- C. Member:** Membership includes any employee hired before July 1991, or on or after July 1, 2005, in the public schools, state institutions of higher education, certain state departments, and the Board of Regents, and members of the Teachers' Defined Contribution Plan (TDC) who elected to transfer at July 1 or August 1, 2008. Other members of TDC or TIAA-CREF are not eligible for TRS.
- D. Final Average Salary:** Final Average Salary is the average of the Member's 5 highest fiscal years of total earnings from covered employment during the Member's last 15 years of service.
- E. Credited Service:** Credited Service is granted for each day the Member performs work and contributes to the System. At most one year of Credited Service may be earned in any one school year. Credited Service may be granted under certain guidelines for other State employment, for military service, and for out-of-state teaching service.
- 1. Contributory Service:** Service credited for years in which a Member contributes to the retirement system. Contributory service is counted for both eligibility and benefit determination.
 - 2. Military Service:** Active service in the U.S. military up to 25% of the amount of a Member's Contributory Service (but not more than 10 years) will be counted for both eligibility and benefit determination under the retirement system.
 - 3. Purchased Service:** Service in parochial school or with other states' teacher retirement systems may count for benefits (but not eligibility), provided that the Member pays TRS double the amount contributed during the first year of

employment times the number of years credited plus interest, and cashes out his/her rights to any future benefits under his prior retirement system.

4. **Unused Leave:** A retiring member may choose to receive pension credited service for days of sick or annual leave unused at the time of retirement. Credited Service is granted at the rate of twice the actual number of unused days.

F. Contributions

1. **Member Contributions:** Members contribute 6.0% of their pay to the retirement system.
2. **Employer Contributions:** The State of West Virginia and its counties contribute directly to TRS at the following rates:
 - The State contributes:
 - (1) 15.0% of the payroll of State-employed Members,
 - (2) 15.0% of School Aid Formula (SAF) covered payroll of county-employed Members,
 - (3) 7.5% of SAF-covered payroll of members of the TDC Plan,
 - (4) a certain percentage of fire insurance premiums paid by state residents, and
 - (5) under Code Section 18-9-A-6a, beginning in fiscal year 1996, an amount determined by the State Actuary as being needed to eliminate the TRS Unfunded Liability within 40 years of June 30, 1994.
 - Counties contribute 15.0% of the payroll of TRS Members hired before July 1, 1991 and 7.5% of the payroll for TRS Members hired on or after July 1, 2005, and prior TDC members who transferred into TRS at July 1, 2008 or August 1, 2008, who are employed by county boards of education, which is not covered under the School Aid Formula.

G. Service Retirement

1. **Eligibility:** A Member may retire with an unreduced pension (1) at any age with 35 years of Credited Service, or (2) at age 60 with 5 years of Credited Service. A member may retire with 30 years of Credited Service at any age, with the pension reduced actuarially if the Member retires before age 55.
2. **Benefit:** The normal form of benefit is a single life annuity paid monthly, in an amount equal to 2% of Final Average Salary times years of Credited Service. Other forms of benefit may be elected, subject to actuarial reduction, including a Cash Refund Annuity, 50% or 100% Joint and Survivor Annuities, and a 10-Year Certain and Life Annuity.

H. Disability Retirement

1. **Eligibility:** A Member may be eligible to receive a disability retirement benefit after completing 10 years of Credited Service, if the Member is disabled for 6 months, unable to perform his or her regular occupation and the Retirement Board expects the disability to be permanent.
2. **Benefit:** An annual disability benefit amount, payable monthly as a Cash Refund Annuity, is equal to 2% of the Member's Final Average Salary times the total years of Credited Service to date of disability.

I. Pre-Retirement Death Benefits

1. **Eligibility:** The surviving spouse of a deceased Member who had attained age 50 and completed 25 years of Credited Service is eligible for the Surviving Spouse Benefit. If a member dies prior to attaining age 50 or completing 25 years of Credited Service a Lump Sum Death Benefit is payable to the beneficiary.

2. Benefit:

- **Surviving Spouse Benefit:** The surviving spouse receives an annuity payable as if the Member had retired on the date of death with a 100% Joint and Survivor pension.
- **Lump Sum Death Benefit:** The sum of the accumulated Member contributions with interest and accumulated Member contributions without interest is paid to the Member's beneficiary (or estate).

J. Refund of Contributions

1. **Eligibility:** A Member who leaves employment and is not eligible for any other benefit will receive a refund of his or her contributions to the retirement system.
2. **Benefit:** A lump sum of the Member's accumulated contributions, with compound interest computed on any contributed amount from the end of the fiscal year in which contributed to the date of distribution of the lump sum (but in no case beyond 5 years after the end of the fiscal year during which the Member left service). For purposes of this benefit, interest is computed at a 4% annual rate.

K. Deferred Vested Benefit

1. **Eligibility:** A Member leaving employment with 5 years of Contributory Service may elect to receive either a refund of contributions or a deferred pension commencing at age 62. If a Member has 20 years of Contributory Service, the deferral age is age 60.
2. **Benefit:** An annuity defined as described under "Service Retirement."

L. Post-Retirement Cost-of-Living Adjustments

Ad hoc cost-of-living increases in pensions are periodically granted by the State Legislature. However, the retirement system makes no automatic provision for such increases.

Effective July 1, 2001 retirees age 65 and over who were retired for at least 5 years received a percentage increase in benefits as follows:

- Eligible retirees age 65 to age 70 received a 5% increase, and
- Eligible retirees over age 70 received a 10% increase.

However, if the retiree originally retired under an early retirement window the percentage increase was limited to 3%.

Effective July 1, 2006, retirees age 70 and over who were retired for at least 5 years received a 3% increase in retirement benefits.

Effective July 1, 2008, all retirees and applicable beneficiaries thereof who retired with 20 or more years of service and are receiving a primary retiree pension of \$600 or less per month received a thirteenth check single payment of \$600.

A. Valuation Date

July 1, 2010

B. Funding Method

The valuation is prepared under the Entry Age Cost Method with individually computed accrued liabilities. The Normal Cost is computed in aggregate. Entry is based on adjusted date of hire (i.e. valuation date minus known past service).

C. Interest Rate and Expenses

The valuation interest assumption is 7.5 % per annum, with no loading for plan expenses.

D. Mortality

Mortality rates are shown in the Appendix and are based on the results of the 2002-2006 experience study. The mortality tables are as follows:

Healthy males: 1983 GAM male

Healthy females: 1983 GAM female set forward 1 year

Disabled males: Revenue ruling 96-7 disabled male table set back 3 years

Disabled females: Revenue ruling 96-7 disabled female table set back 3 years

E. Withdrawal from Service

Withdrawal rates are shown in the Appendix and are based on the 2002-2006 experience study. Withdrawal rates are assumed to cease upon eligibility for retirement. All withdrawal is assumed to result in refund of contributions if non-vested or a deferred annuity if vested.

F. Disablement Rates

Disablement rates are shown in the Appendix and are based on the 2002-2006 experience study.

G. Retirement Rates

Retirement rates are shown in the Appendix and are based on the 2002-2006 experience study.

H. Salary Scales

Salary scales are shown in the Appendix and are based on the 2002-2006 experience study. Projected salary increases are in the following ranges by group, with an underlying inflation rate of 3.0%:

<u>Group</u>	<u>Range of Projected Salary Increases</u>
Teachers	3.5% - 5.0%
Non-Teachers	3.6% - 5.5%

I. Accrual of Future Service

Future service accrual factors are based on the 2002-2006 experience study. Active members will accrue the following service for each future year of employment:

<u>Group</u>	<u>Male</u>	<u>Female</u>
Teachers	0.990	0.985
Non-Teachers	0.990	0.990

J. Non-Contributory Service Loadings

The load factor assumptions for non-contributory service (military, parochial or out-of-state teaching, transferred PERS service, and unused sick leave) are based on the 2002-2006 experience study and are as follows:

<u>Group</u>	<u>Male</u>	<u>Female</u>
Teachers	1.0950	1.0375
Non-Teachers	1.0775	1.0300

K. Family Composition

It is assumed that 85% of males and 80% of females are married, with husbands 3 years older than wives. Remarriage rates are not used.

L. Asset Valuation Method

Assets for valuation purposes are included at Market Value.

M. Plan Contribution

Plan Contributions, both employee and employer, are assumed to be paid in the middle of the year.
